MANITOBA PAYS STRONG PROTEST AGAINST INTRUSION FROM SASKATCHEWAN

Hon. Robert Rogers and Others Ready to Express Indignation at Laurier's Refusal to Extend Boundaries of the Province—It is Now All Up to Premier Roblin.

Winnipeg, March 30.—(Special.)—The belief is firmly expressed in political circles here that a dissolution will be announced in a few days, but it is realized that the government has no intention that its resolution should leak out thus prematurely.

The government has an overwhelming majority in the house with two more years to run, and a dissolution therefore cannot be ascribed to a desire to snatch a narrow verdict.

The Tribune creates sensation in political circles here to-night. Seen by The World correspondent, Premier Roblin was exceedingly non-committal, only vouchsafing that the situation between Sir Daniel MacMillan, the lieutenant-governor, and himself, were very cordial.

Hon. Robert Rogers, minister of public works, however, proved more communicative, authorizing the following interview.

"The Tribune or any person else need not spend any time trying to persuade me that we should dissolve. I only hope that they will be able to persuade Mr. Roblin to do this, as he is boss, and the matter is entirely in his hands.

"Having followed closely the treatment the province has received at the hands of the Dominion government, I think it is high time that we have equal rights with the citizens of the other provinces in this Dominion.

"Then you think the best means of action would be to dissolve the house?"

"Yes, most certainly I do, as it would allow every citizen of the province a voice in respect to present conditions.

"What do you think of the suggestion made at the board of trade meeting respecting the Dominion territory east of Manitoba which now forms part of Ontario?"

"I think it is all nonsense," replied the minister.

"During our interview with Sir Wilfrid Laurier he suggested the same idea, but this is only trying to draw a red herring across the trail.

"Yes, there are reasons not yet disclosed which have in my opinion, up to the present moment prevented us from getting justice at the hands of Sir Wilfrid Laurier and his government."

"I wish I could, but I am not a liberty to do so at present."

A. G. McKay in Accident Coupe Struck by Trolley

While Driving Across Yonge-St. Carriage is Overturned and Mr. McKay Rendered Unconscious From Scalp Wound.

A. G. McKay, M.L.A. for North York and member of crown lands in the last Ross cabinet, was the victim of a trolley accident at 3:40 last night.

Last night the speaker, the Hon. J. W. St. John, entertained the members of the house at the customary dinner at the parliament buildings.

Mr. McKay, seat-box of a coupe, and it was while driving across Yonge-street, at Grove-nor, that the carriage became entangled in the movements of two trolleys, north and southbound.

He was carried into C. M. Richardson's office, at 503 Yonge-street. Several doctors were summoned, Dr. Harcourt attended to the injured man.

The coupe belongs to Bond's livery. Driver Cairns, the young man, and was much perturbed over the accident.

"I called at the Rossin House for Mr. McKay about 8 o'clock and drove him to the parliament buildings, where Mr. McKay met a friend and was then returned to the hotel. He then asked me to take him to the 'Car' house, which I did.

"I was ordered to take him to Billy Hassard's. From there we returned again to the parliament buildings, but could not find the carriage and I went to the telephone and called up the office to see if the carriage had arrived there.

"I then went to the 'Car' house, where I found the carriage and I went to the telephone and called up the office to see if the carriage had arrived there.

NOTHING LEFT BUT HIS SASKATCHEWAN MUSKET

COLONEL LAURIER (who is pawning his sword and Manitoba schools model): I hope there may be no open scandal about it. You see the sword's almost a sacred thing—been in the family ever since grandfather Baldwin's time.

MILK RIVER A BIG ISSUE GIRL'S LIFE CRUSHED OUT PLAYMATES CAN'T SAY HOW

Moves Now to Dam it and Prevent Canadians from Using Water for Irrigation Purposes.

Washington, D.C., March 30.—(Special.)—The Uncle Sam getting hotheaded, not content with exercising a supercilious air over all the country lying south of Canada, he now proposes to become a receiver for Santo Domingo and maybe to spank Venezuela before he gets thru.

Not satisfied with these weighty problems, which mean much to him from an international point of view, he is now taking a hand in the deflection of the Milk River, which rises in the United States, flows north into Canada, and then south, emptying into the lower valley of Montana.

The Tribune was today informed upon what it regards as good authority that Mr. Roblin has absolutely recently decided to appeal to the country on the question in order that Ottawa and the rest of the Dominion should realize how deeply the people felt on the question.

"I wish I could, but I am not a liberty to do so at present."

GRAND SIGN PEACE TREATY AND PEACE TREATY

If Russia Must Bow to Japan, Ruler Declares That He Cannot Last as Emperor.

St. Petersburg, March 30.—The emperor is still the keenest advocate of reasons which render necessary the continuation of the war.

"If I have to sign a peace treaty I cannot remain czar," the emperor is eagerly discussing the significance of the imperial statement and wondering how it implies whether, which is much more likely, it means that after the conclusion of peace he would adopt a new attitude and call upon representatives of the people to share the responsibilities of government with him.

Situation Without Precedent. The gravity of the general situation is unappreciated. As a crushing blow, following reports of peasant riots in many districts, comes a telegram from Yalta, the favorite resort of the imperial family and the aristocracy, announcing that a mob swept thru the town, pillaged the shops, opened the prison, released the prisoners and burned the Grand Hotel and several other buildings, including one imperial edifice.

The mob, it is reported, went to Livadia, causing a member of the court to leave his residence and die for his life, and burned an imperial building. People talked of nothing else to-day.

On the hours today little short of a panic prevailed, "fours" dropping two points, while the Dimitrieff correspondent of The Bazaar, the Viedomostri drives in the final nail of the reigning distrust by telegraphing, on what he says is good authority, that Mr. Delcassat, a very great opposition from other members of the French cabinet. Mobilization schemes are taking the wildest forms and are impossible of realization. This is admitted on all sides. THE GENERAL OPINION IS THAT THE WAR CANNOT LAST THREE MONTHS LONGER.

HICKS-BEACH AND CHAMBERLAIN.

Brought Into Strong Conflict as Outcome of Greenwish Letter. (Canadian Associated Press Cable.)

London, March 30.—Consequent on Mr. Chamberlain's Greenwish letter, opposition to Lord Hugh Cecil's candidature, an active discussion has been going on both in the press and on the platform regarding the late Lord Salisbury's fiscal views, especially with reference to a colonial preference, and Mr. Chamberlain and Sir Michael Hicks-Beach have been brought into sharp conflict.

Mr. Chamberlain reports that in 1902 Lord Salisbury was quite aware that the advantage should be given of the then existing corn tax to give them a preference. He raised no objection and discussed the question.

There is no doubt the controversy has had the effect of still further widening the breach between Mr. Chamberlain and the free traders, much to the discomfort of the government. The suggestion should have been thrown out that a conference should take place between the two sections, with the view of settling their differences, but it is regarded in most quarters as an impossibility.

Chamberlain's supporters do not trouble to conceal their anxiety for an early dissolution.

LET EVERY MAN.

General Linevitch Asks God to Help the Russians in Battle.

St. Petersburg, March 30.—General Linevitch has issued this address to his troops: "The emperor has been pleased to appoint me commander-in-chief of the Manchurian army. In many battles, at Poutloff and Novgorod Hills, at the front at Kandulinsk and Gangou Passes, and on the Mukden positions, you have most bravely repulsed the most serious attacks by the enemy and dealt enormous losses. Let every man accomplish manfully his sacred duty to the emperor and fatherland. The enemy cannot hold out before Russian valor, and reinforcements are coming unceasingly from Russia. May God help you in the coming battle."

SHOULD END ROUGH SPORTS

JUSTICE TEEZEL'S ADVICE

See the Government and Have Heads of Leagues Agree on Preventative Measures.

Ottawa, March 30.—(Special)—In opening the spring session this afternoon Justice Teezel made reference to roughness in sports. In addressing the grand jury he said there was an important matter which he wished to bring to their notice, regarding roughness in sports. Football and particularly hockey, the matter was brought prominently before him, as he had just presided at a trial in Cornwall of young Loney, who was arraigned for causing the death of an opposing player, in a game at Maxville.

CATCHING THE SPRING FEVER.

Labor Men Discussing Agreements—Working Cards to Be Introduced

The labor unions in the building trades section of the District Labor Council are quietly making preparations for a strong fight this spring in case the bosses refuse to negotiate with them in regard to a wage schedule. So far, the building exchange has made no reply to any of the unions which have asked for a conference, and the men are beginning to fear that no agreements will be reached before the end of the season.

GREENS ON PARADE

Three Bands of Recruits Attended Opening Regimental Drill. The Greenlades opened their drill regiment at the armory last night, the muster roll, which included three squads of recruits, being a strong one. Lieut. Col. Stinson was in command. After half an hour devoted to drill, the band played exercises, a short march out was taken, and the regimental orders were read.

From The N. Y. American. Elderly Adviser—You mustn't make love to the girl in such a spot, impudently you're right at the start. Young Man—Why not? Elderly Adviser—Because you'll be sure to go stale before the season is over.

WHEN IT COMES TO MOVING

Some See Advantages in St. Lawrence Proposal, Others Would Like to Locate at Bayside Park.

If the city council and the board of control entertain any hopes concerning the removal of the wholesale fruit trade of the city from its present location to St. Lawrence Market, they may not find it so easy to do as they would like to think. The fruit men say, for example, that a common market, the site of the railway companies in the erection of a suitable market there, the interest of one of the most important industries in the city and province would have been well served, and the place is suitable for the trade. The lower flat is not to be considered, and the upper one would not do. "Whatever the choice is made, the trade is, it must be on the level," he said. "Imagine elevating our stock, amounting to some days from ten to twelve cars. Yonge-street is the natural entry by boat. At St. Lawrence Market it would be in too close proximity to the retail trade, and the two interests are better apart."

DAUGHTER'S STRANGE ACTION

Ralph Moore Dead Twenty-Four Hours Before Discovered by Members of His Own Family.

Hamilton, March 30.—(Special)—Ralph Moore, 20 Earl-street, a retired bricklayer and mason, was found dead in bed this afternoon. The doctors say that he had been dead 24 hours before he was found, and his wife and daughter lived with him. His wife is 90 years of age and is blind and the daughter is 45 years of age. The daughter gave him a cup of tea Tuesday night, and he did not go near him till today. When asked the reason for his strange conduct she said that the Lord had told her not to. Coroner McNicholl opened an inquest this evening, which was adjourned till tomorrow evening.

camping utensils will be taken on board. After a short stay the steamer will proceed direct to Spitzbergen, and thence to Franz Josef Land. It is the latter country that the Zeigler expedition is now wintering, and the relief vessel Terra Nova will set out from London shortly before the bore.

If the ice does not prevent the bore from reaching her destination some splendid sport is expected, as polar bears and walrus are said to be plentiful. During the longer runs of the steamers a voyage the ten sportsmen will endeavor to improve their marksmanship by rifle practice and shooting competitions with clay pigeons.

James Dowell, who is organizing the expedition, informed an Express representative yesterday that the trip would probably not last more than a month altogether, and that the bore was expected back at Newcastle on July 29.

It is possible," he said, "that the ice may prevent the vessel from reaching Franz Josef Land, as the winter has been an exceptionally severe one."

POLAR BEAR HUNT. Sporting Expedition Will Start for the Arctic Regions.

London, March 29.—A select expedition of ten sportsmen is to sail to the Arctic regions in July to shoot polar bears, walrus and any other big game that may be within range.

Each member of the party is to pay a sum of £275 to cover the expense of the trip. The steam yacht Bore, a first-class passenger vessel of 727 tons, has been specially chartered to accommodate the ten sportsmen.

For so small a party the vessel will be nothing less than a floating palace, for the dining-room is built to seat 100 passengers and there are also large reading and smoking rooms.

The Bore will start from Newcastle on Tuesday on July 29. After sailing among the islands and fjords of the Norwegian coast, it will put in at Hammerfest, where Arctic pilots, guides and

STATION MAN NOT RETURNED SIR WILFRID BUCHANAN

Asked by Mr. Foster if He Had Any Information, Replies He Has None.

Ottawa, March 30.—(Special).—Whatever may be the ultimate outcome of the present situation, one thing seems to be pretty clear, and that is that Hon. Clifford Sifton will not return to the cabinet. The 30 days within which he could have been back without the necessity of being re-elected expired Wednesday.

When the house met to-day Mr. Foster enquired if the prime minister had anything to communicate in reference to the filling of the vacant portfolio of the interior.

It is said Mr. Foster, "a question of the greatest moment, and we have not yet had any really thorough answer to it."

"I have no information to give my honorable friend to-day," was Sir Wilfrid Buchanan's reply.

"And I suppose," Mr. Foster continued, "I shall be equally unsuccessful when I ask why the mandate, which was ordered by the house on the 25th of January last, regarding the free transportation of hay over the L.C.R., has not yet been produced."

The prime minister made a note of the matter, with a promise to enquire into it.

This done, the debate on the autonomy bill was resumed by Mr. Demers.

Mr. Demers in the course of his speech said that the opponents of the bill had been obliged to go back to the dark ages for precedents, but modern ideas replaced the rights of individuals and the sacred right of liberty of conscience superior even to the power of the state.

Proceeding in this strain the member for St. John and Berthelme contended that the school ordinances of the Northwest establishing the point of view of separate schools were of the same force and effect as acts of the Northwest legislature.

J. G. H. Bergeron replied. He pointed out that the guarantee to the minority under section 23 of the B. N. Act had been frustrated by the Liberal party, so that now the less said about clause 23 the better.

Mr. Bergeron went on to say that he was fully in every aspect of the bill as to the school question. He said the original clause had his unqualified approval. It was simply rendering justice to the people of the Northwest, the majority of whom in 1870 were French-Canadians.

Mr. Bergeron said he would vote against the amendment because Mr. Borden had said that the B. N. Act provided for education and that anyway the subject should be left to the new provinces.

Mr. Bergeron contended that that was not the intention of the act, that the schools were not to be separated, that the French-Canadian and thereby persecuted, and that the advisability of a rapprochement with Germany.

At the same time, those least inclined to accept the German policy admit that it is calculated to stiffen the sultan's resistance to French policy in Morocco, and to retard the civilization scheme involved in the Anglo-French agreement.

In this light, the usually moderate Daily Telegraph says that the emperor's visit to Tangier can only be regarded as an unfriendly act. Other papers are inclined to view the visit of Emperor William's policy, which, they think, is more likely to result in strengthening the Anglo-French entente.

Much satisfaction, therefore, is expressed at the exchange of visits which is being arranged for the French and British fleets during the coming summer. The initiative in this demonstration of friendship is said to have been taken by the British government.

In Paris it is reported to be hoped that the visit of the British squadron to the harbor of Cherbourg, and the reciprocal visit of King Edward and some other member of the royal family to Paris.

It is definitely arranged in this latter direction.

QUANTIFIERS. Chamberlain's Old Age Pension in 1904—Other Requests.

Much quaint and interesting reading to be found in the huge tome of 1052 pages which forms volume VI. of the report on the endowed charities of London just issued by the charity commissioners.

There is a mystery reminiscent of Carlyle's Wilhelmus Sub-acrista and his "quodam taecum" which is not to be spoken of in the case of that ancient Londoner William Gregory, who, by his will, dated Aug. 16, 1611, bequeathed charges thereon, did give and bequeath his tenements, etc., in the parish of St. Martin in the Agnes to each of them wardens of the parish to certain stipulations therein mentioned.

There is the record of that pious citizen, "J. Chamberlain" who in 1594 left the annual sum of 15s. to be distributed in charity to aged poor, an embryo old-age pension scheme destined to be connected with a namesake nearly 400 years later. Puritanism was active in 1788, when, for the promoting the execution of the laws against the family and debauchery. Fullwood Bright bequeathed the sum of 200, 000 small amount in the days when a man could be "passing rich on 40 a year."

A curious anecdote is that of Sir Francis Goldsmith, who, previous to 1868, left an annuity of 100, "that two large candles should be lighted and hung out in the night season every night in the year from Michaelmas to Lady Day."

"Three children and four sacks of sea coal, yearly in the month of December, amongst the honest poor people of the parish, to each of them a sack full as far as it will go," are the quaint terms of a will dated 1613.

The name of many a long-forgotten saint is chronicled. Who nowadays knows aught of St. Benet Pink, St. Peter, St. Michael Bastishaw, St. Andrew-by-the-Wardrobe, a name that compels attention, that to whose wardrobe it was, an what Andrew was doing "by" it.

ANSWERS IN PUBLIC. New York, March 30.—The interesting developments of the first day's session of the legislative committee which is inquiring into the lighting situation and alleged monopoly and combination of gas and electric companies in New York City to-day were the statements of Chairman Stevens that no executive sessions will be held and that the committee will give complete accounts of receipts and expenses. It also was announced that Chas. F. Murphy of Tammany Hall would be called as a witness.

JAP COLUMN SEEN. St. Petersburg, March 30.—A telegram from Sijima, Manchuria, under to-day's date says: "The Chinese report that a Japanese column, which is probably carrying out a banking movement, has been seen 27 miles north of Siping-hai (24 miles north of Tsinghai).

Different Proposition. From The Chicago Tribune. Aton looking at some suburban property. "What is the value of this house?" he asked. "Five hundred dollars up."

RACE FOR \$14,000 MONEY TRAILERMAN'S WELY STUNT

Clerk Robs Safe of the Imperial—Captured on the Train for Buffalo.

W. J. Martin of the Imperial Hotel, York and King-streets, was shaking hands with himself last night. Not only did Mr. Martin save \$14, but he broke all sprinting records from those famous corners, where the "pickers" like to congregate, to the Union Station.

It happened in the week ago Martin engaged a young man, Clyde Cobb by name, to assist him in the office. After receiving a short walk he missed his clerk and also a roll of money from the safe. He quickly reported the case and made for the Union Depot at a speed that made the train start to move.

On reaching the depot, he was stopped by the gateman. "For Heaven's sake let me thru; I've been robbed," he implored. He had not a moment to lose. Why concern yourself with the train was shouting. "All aboard." Martin jumped on the smoking car and found Mr. Cobb making a dash for a big black cigar. He yanked him off, just as the train started to move.

Cobb was taken to No. 1 police station. He had a ticket for Buffalo, and the money placed in his underwear.

IN RUSS PARLIAMENT. Graphic Description of First Sitting of Zemsky Sobor.

Our special parliamentary correspondent in St. Petersburg sends us a detailed report of the opening sitting of the first zemsky sobor.

The house was not at its full strength, many members for outgoing constituencies being prevented from appearing, owing to the general cessation of traffic on account of the state railways. A large number of opposition deputies were also unaccountably absent.

The session was formally opened by prayers and readings, after which the emperor's message was read. Among other things, the emperor's message contained a proposal to provide for the acquisition of additional shooting ranges on the Nevsky prospect.

The most graceful speech from the throne touched briefly on the general features of the situation. The emperor's message contained a proposal to provide for the acquisition of additional shooting ranges on the Nevsky prospect.

GOUGH BROTHERS' Grand Spring Opening

With the Keen Knife of Merit we have Cut the Bonds of Prejudice Dressy Men Have Traditionally Held Against Ready-to-Wear Clothing.

We are the sole selling agents for the renowned K. B. Concave Shoulder Union-made Clothing. This celebrated brand of clothing is so well known in New York, Philadelphia, Boston, Chicago, Baltimore, San Francisco, and throughout the United States that it requires no introduction there—it simply holds pre-eminently the most unique position ever attained by any other clothing manufacturer in the world—but to introduce it here: Gough Brothers invite you to inspect the first ready-to-wear clothing designed and made for them to portray for particular dressy men the correct 1905 style. Every garment is made, not upon "how low priced" but "how well," serving to produce the very highest type of modern clothes known to artistic tailoring.

With a lifetime experience as a basis, Kohn Brothers, of New York and Chicago, the manufacturers of the K. B. Shoulder Clothing, have been in a position to seek out and make use of all the new and worthy facilities as rapidly as they have been devised, so that to-day their garments more clearly approach perfection than any other clothing manufacturer in America. The inventor and designer of the celebrated K. B. Concave Shoulder is a man of originality and creative force—Their tailors are the cream of the craft, post graduates, as it were, and their factories are noted not as sweat shops but as union factories which for wholesome cleanliness and modern equipment stand to-day absolutely alone. They have by their K. B. concave shoulder dignified the clothes making industry, and if Kohn Bros. have any competitors they are only to be found in the ranks of the foremost custom tailors—"Where there is a will to make the kind of clothes people want—there is always a way." That Kohn Bros have found the way is best proved by the fact that Gough Brothers determined to take the sole selling agency for the city of Toronto for their celebrated clothing after the most rigid investigation of all the leading makers in America. The ruling and predominating thought of the firm of Kohn Bros. is "better facilities," better ideas, better tailors—better everything, in fact, until their product has reached the point beyond which no human skill has yet been able to go.

THE PRICES FOR THE K. B. SHOULDER CLOTHING (Copyrighted) Range at \$12.50, \$15.00, \$18.00 and \$20.00 A SUIT. In all sizes, from 34 to 44—here are the smartest and handsomest clothes that a man can desire, and the prices are fair—hence if you are seeking a well spring suit or Overcoat your interest as well as ours invites you here. Of Course We Have all the Other Makes Too, From \$3.75 A Suit up. All sizes from 34 to 44—if you do not receive a booklet by mail, describing the K. B. Shoulder Clothing, please call at our store and get one. Watch the press for further announcements.

Gough Bros., the Big Clothiers, 186 Yonge Street and 6 and 8 Queen St. West. Two Entrances. Sole agents for the K. B. Shoulder Union-Made-Clothing and Burt and Packard's Korroet Shape Shoe. N.B.—Mail orders will receive our prompt and careful attention.

ARMY STORES SCANDAL. Amazing Revelations of Destruction of Army Stores. London, March 30.—The army stores scandal has been before parliament for three days, only the first of which the subject has been touched.

From the disclosures printed below it will be seen that on the scandal itself, of which some new and astounding revelations are here published—namely, that a colossal ship, when on a searching inquiry into the being demanded by the contractors concerned.

Meanwhile, the gravity of the charges is shifted from the contractors to the government.

In the house of commons Mr. Arnold-Forster, in the course of his speech, said that the position of the contractors to supply the army stores was a most deplorable one.

Behind that question lies an almost incredible story with regard to the destruction of the stores, which, after the withdrawal of troops from South Africa, were piled up in various parts of the country.

It is a large steamer chartered, and was despatched from Cape Town loaded with cases of tinmed meat, the orders of which were to be sent to the army stores.

When the steamer was at sea, a large quantity of the tinmed meat was thrown overboard, and the remainder was sent to the army stores.

Interior Construction of K. B. Concave Shoulder.

SENTIMENT A GOOD THING. But Britain May... Coon Highly for It, Says Lord Stanley.

Lord Stanley, the postmaster-general, received at the house of commons the advice of a deputation which urged the advisability of a reduction of postage on newspapers, periodicals, and magazines sent from one country to another.

Sir Gilbert Parker, in introducing the deputation, explained that newspapers and magazines sent from England to Canada were charged at the rate of fourpence a copy, and he urged that the rate should be reduced to a penny a copy.

Mr. Sullivan, who is a member of the select committee which is dealing with railway bills, strongly objects to Sir Gilbert Parker's suggestion.

But Sir E. Kimber refuses to withdraw from the committee, and yesterday, by way of protest, Mr. Sullivan resigned his seat.

Last night Sir Henry reported Mr. Sullivan to the speaker for non-attendance, and Mr. Sullivan will accordingly have to be dealt with by the house.

As a member who has been appointed to a committee cannot refuse to serve on it, Mr. Sullivan has laid himself open to the penalty of having his body seized by the servants of the sergeant-at-arms, and taken to the chamber, and there held in custody for the discharge of his duties.

Donald Sullivan sits for South West-Lothian, and is usually regarded as the least terrible of Nationalists.

The last M.P. to refuse to serve on a committee was the same gentleman, by the way—was Mr. Smith O'Brien, who in 1846 was imprisoned in the Clock Tower for his recalcitrancy.

Mr. and Mrs. W. J. Wilkinson and daughter, of 403 Marlborough-street, have returned from three months' visit to Southern California.

IONISTS WARN BALFOUR. Fear He is Wrecking the Party to Save the Cabinet.

London, March 31.—The Daily Mail editorially this morning warns Mr. Balfour that he is wrecking the Unionist party to save the cabinet, and says that parliamentary proceedings have been reduced to a level which borders on the farcical.

It would be much better, the Daily Mail says, to face the issue fearlessly and dissolve parliament. With few exceptions the Unionist press hitherto has supported Premier Balfour in the policy which led to the recent one-sided election result in the house of commons. Now, however, the party is beginning to show signs of restiveness.

When Mr. Balfour was questioned in the house of commons by Winston Churchill yesterday, he confessed complete ignorance of what had occurred in the house the previous evening and was obliged to read the minutes to learn the result of Mr. Walton's motion of want of confidence.

This idea of leadership of parliament does not meet with the approval of Unionists, and last night in the lobbies it was proposed to send a round robin appealing to Mr. Balfour to return to the traditional method of meeting opposition attacks on the ground of a vote of confidence.

It is believed that Mr. Balfour will be urged to resign, and that the government will be dissolved.

Russel Says Gets It. New York, March 30.—Russel Sage, who has been seriously ill, is much improved, and was to-day able to leave his bed.

A FREE TRIAL TREATMENT OF THE BEST SPRING MEDICINE

The Remedy That Acts on the Kidneys, Liver and Bowels, That Clears All Poisons and Impurities from the System, That Restores Your Vigor and Vitality—TEST IT FREE.

Dr. Pitcher's Backache Kidney Tablets

At this time of the year, when everyone is requiring a blood-purifying medicine to remove the accumulated poisons from the system, Dr. Pitcher, at considerable expense, offers to supply a FREE TREATMENT of his BACKACHE KIDNEY TABLETS to those who have never tried this remedy before.

Dr. Pitcher takes this means of giving you an opportunity of proving to your own satisfaction that what he says and what others say about his remedy can be verified in your own experience.

Here are some of the diseases and symptoms of disease that the Table-ur-care. Read them over carefully.

Backache, headache, lame or weak back, pain in the back or between the shoulders, swelling of the feet and legs, bloating, puffiness under the eyes, puffy and puffy appearance of the face, dropsy, Bright's disease, and diabetes (except in the last stages), gravel, stones in the bladder, betch dust deposits in the urine, scalding or irritation of the urine, frequent calls during the day or night, inflammation of the bladder, or cystitis, catarrh of the bladder, milky color of the urine, high colored or foul smelling urine, sudden stoppage of the flow of urine, scanty flow of urine, dribbling, rheumatism, neuralgia, pains in the joints or hips, uric acid in the blood, heavy feeling or pain in the head, drowsiness, blood humors, skin diseases, rapid loss of flesh, great thirst, excessive quantity of urine, specks floating before the eyes, bad taste in the mouth (especially in the morning), constipation, torpid liver, dragging pain in the loins, sense of weight or pressure in the region of the bladder, kidney trouble of old people, bed-wetting of children, kidney troubles of women, and all symptomatic indications of kidney or liver derangement.

If any of the above-mentioned troubles are afflicting you and you have never tried Dr. Pitcher's Backache Kidney Tablets, don't hesitate to write to The Dr. Zina Pitcher, Co. 82 Church St., Toronto, Ont., enclosing stamp for postage, and obtain trial treatment free.

DR. PITCHER'S BACKACHE KIDNEY TABLETS

Spring the Body Craves for Pure, Rich Blood

Almost everybody feels the craving of the system for help during the Spring season; but not every person has waited to realize what it means.

Why is it that feelings of fatigue and depression, weakness and despondency weigh down most heavily upon you just at the time when Nature is arousing herself to new life and taking on the aspect of joy and gladness?

Spring ailments arise from the condition of the blood.

During the winter life has been more or less artificial, and there has been too much eating of rich, heavy food and too much breathing of impure air.

The digestive organs have become deranged and fail to supply the blood with the necessary nourishment.

Lacking pure air and outdoor exercise the lungs have failed to oxidize the blood and as a natural consequence the

Blood is Weak and Watery in the Spring.

When the blood is lacking in quality or quantity the waste of the human body is more rapid than the process of reconstruction.

Gradually the action of the heart grows weaker, the lungs do not work to their full capacity, the stomach and other digestive organs fail to perform their duties, and the result is all sorts of bodily derangements.

Aching head, dizzy spells, indigestion, feelings of weakness and despondency, lack of energy, loss of appetite, failing memory and power of concentration of the mind, irritability, nervousness and sleeplessness are among the symptoms which distress you—and all can be avoided by the use of Dr. Chase's Nerve Food, the great blood builder and nerve restorative.

The blood is the only medium by which nourishment is supplied to the various parts and organs of the body, and when the blood fails to derive proper nourishment from the food we eat it is necessary to supply it in some other way.

And the Blood is Made Pure and Rich by

DR. CHASE'S NERVE FOOD

The most successful blood-builder and consequently the most satisfactory

SPRING MEDICINE

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50, at all dealers, or at Edmanson, Bates & Co., Toronto. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

The elements which go to form rich, red blood are found in Nature in other forms than in the food of everyday life, and it is by supplying these direct to the blood that the quality and quantity of the blood is increased.

These elements are most happily combined in Dr. Chase's Nerve Food, and the result is a blood-builder and restorative treatment of surpassing value.

Dr. Chase's Nerve Food is the most satisfactory Spring medicine obtainable, because it supplies to the blood exactly what it lacks at this time of year.

Acting as it does in accordance with Nature's laws, building up instead of tearing down the tissues, it is bound to prove of lasting benefit to all who use it.

If you would avoid the miserable feelings which are sure to come with Spring fortify the system now by using Dr. Chase's Nerve Food.

New Vigor and Strength to Every Part of the Body

Gradually and naturally this treatment will increase the red corpuscles and consequently the richness and energy-creating power of the blood.

There will be no languid, tired feelings to these who keep the blood rich and the vitality at high water mark by using Dr. Chase's Nerve Food.

The lungs, the heart, the stomach, the liver, kidneys and bowels will all soon feel the thrill of new vigor and respond by properly performing their functions.

If you have made mistakes in the past do not let habit mislead you this Spring into the use of salts or sarsaparillas, which are of only temporary help and afterwards weaken the whole body.

By noting your increase in weight you can be certain that Dr. Chase's Nerve Food is forming new, firm flesh and tissue.

Naturally and gradually the form rounds out, the color is restored to the cheek, and vigor and strength are apparent in every movement of the body.

CERTIFICATES OF CHARACTER FROM INTENDING CAMPERS

Aldermen Discuss Conduct of Tent Residents at Woodbine Beach—Engineer's Recommendations.

The city has accepted the award of the official arbitrator regard to the value of property east of Yonge-street, in the whole district, fixed in the case of Eby, Blain & Co., and has begun the renewal of other leases in the same section. Yesterday the property committee recommended that new leases for 1913 be granted William Ramsay for 13 East Front-street, at \$4 per foot and taxes, and to William B. Hamilton, 15 and 17 East Front-street, at \$3 per foot per annum and taxes.

The petition of W. Williamson and others against allowing campers on the beach west of Woodbine-avenue was referred to Commissioner Forman. Dr. Noble was strongly in favor of prohibiting camping, but he admitted that a lot of hoodlums had acted indecorously. He would have the moral character of every lessee in future certified by a reputable citizen before a lease was granted. Ald. Chisholm said the beach was a dirty place, and had been the scene of disgraceful orgies on Saturday nights and Sundays.

Reports Against Butchers. Commissioner McCullagh reported against allowing wholesale butchers to sell in the north section of St. Lawrence Market, to the detriment of the shops in the south end. Room 16 had been reserved for the wholesalers, but they refused to accept it, and it was rented to another firm. Consideration of the matter was deferred.

George Abate, a lessee of one of the stalls in the St. Lawrence Market, claimed \$10.40 damages for goods taken by burglars. Superintendent Frame could not explain how the robbery happened. The city solicitor was asked to report.

A certificate for \$100 in favor of Douglas Bros. for roofing, which should have been done by the Metallic Roofing Company, was ordered paid.

Judge Winchester wrote asking better accommodation for jurors at the city hall, and Aid. Jones put in a plea for the barristers. A report was ordered to ascertain the cost of fitting up coat rooms.

Widen the Devil Strip. In his fortnightly report to the board

DUMMY WASHING POWDERS need soap with them. No matter how much you wash, you must use soap with any work done. Some are made of nothing but water. These are sold cheaply in place of **PEARLINE**. Do you want them? Pearline costs a trifle more—but, used alone by itself, it does better work and **SAVES the Soap Money**

CANADA'S NAME AND FAME STIRS UP WESTERN STATES

Railway Agents Bear Witness to Ever-Growing Stream of Travel to the "Promised Land" of the North.

Kansas City, Mo., March 30.—(Special.)—This city, on the dividing line between two of the greatest agricultural states of the Central American west, is showing hundreds of wealthy farmers and business agents, the great majority of whom are from the north, who have come to this city to study the advantages of increased sunlight.

Have Dared Midway Oil The information these farmers have accumulated about Manitoba, Assiniboia and Alberta is amazing. They have been studying the country, its geography, political economy and physical characteristics until there is little left for them to learn. Mr. Bennett, the Dominion immigration agent at Omaha, Neb., told me that the average farmer migrating to Canada from this section was about as well informed as the native western Canadian. In addition, he has the advantage of having wrestled with the problems of the American west, and those into which the American settlers are especially moving.

Only a Dream, This. The press, too, is very friendly, and in every city I have stopped my newspaper friends have invited me to stand for an interview. The first thing they want to know is about annexation, and when told that it is a dream they ask about the "Americanization" of the country. They can't understand, of course, how the good Canadiana can be made out of the excellent American raw material. To the average American this is a mystery cannot solve, and for the very good reason that they have constantly resided in a very prosperous country where the same conditions elsewhere there is just as good if not better.

WALKED INTO MARRIAGE. Eight years' round the World Trip Ends in Matrimony. London, March 30.—George M. Schilling, the American long-distance walker, was married at Newcastle-on-Tyne yesterday to Miss Matthews, the pretty young draper's assistant with whom he fell in love at Hull.

300,000 Barrels of Beer. London, March 30.—The 553 firms of brewers in the United Kingdom last year brewed 36,654,657 barrels of beer, upon this they paid £13,522,833 in duty to the national exchequer. According to a parliamentary return, there is only one firm of brewers which has an annual output of over 2,000,000 barrels. This firm alone used 6,285,583 lbs. of hops and 4,385,718 bushels of malt, while its payment in duty amounted to £32,614 in 1904.

Wood's Phosphorine. The Great English Remedy. A positive cure for all forms of Nervous Weakness, Mental and Physical Exhaustion, Effects of Alcohol, Excess, all of which lead to Consumption, indigestion, Insomnia, and early grave. Price 81 per pkg., six for \$5. One will please, six will cure. Sold by all druggists or mailed in Plain Packaged receipt of price. Write for Pamphlet. The Wood Medicine Co., Windsor, Ontario.

A positive cure for all forms of Nervous Weakness, Mental and Physical Exhaustion, Effects of Alcohol, Excess, all of which lead to Consumption, indigestion, Insomnia, and early grave. Price 81 per pkg., six for \$5. One will please, six will cure. Sold by all druggists or mailed in Plain Packaged receipt of price. Write for Pamphlet. The Wood Medicine Co., Windsor, Ontario.

CASTORIA. The Kind You Have Always Bought. Bears the Signature of *Dr. J. C. Watson*

CANADA'S NAME AND FAME STIRS UP WESTERN STATES

Railway Agents Bear Witness to Ever-Growing Stream of Travel to the "Promised Land" of the North.

Have Dared Midway Oil The information these farmers have accumulated about Manitoba, Assiniboia and Alberta is amazing. They have been studying the country, its geography, political economy and physical characteristics until there is little left for them to learn. Mr. Bennett, the Dominion immigration agent at Omaha, Neb., told me that the average farmer migrating to Canada from this section was about as well informed as the native western Canadian. In addition, he has the advantage of having wrestled with the problems of the American west, and those into which the American settlers are especially moving.

Only a Dream, This. The press, too, is very friendly, and in every city I have stopped my newspaper friends have invited me to stand for an interview. The first thing they want to know is about annexation, and when told that it is a dream they ask about the "Americanization" of the country. They can't understand, of course, how the good Canadiana can be made out of the excellent American raw material. To the average American this is a mystery cannot solve, and for the very good reason that they have constantly resided in a very prosperous country where the same conditions elsewhere there is just as good if not better.

WALKED INTO MARRIAGE. Eight years' round the World Trip Ends in Matrimony. London, March 30.—George M. Schilling, the American long-distance walker, was married at Newcastle-on-Tyne yesterday to Miss Matthews, the pretty young draper's assistant with whom he fell in love at Hull.

300,000 Barrels of Beer. London, March 30.—The 553 firms of brewers in the United Kingdom last year brewed 36,654,657 barrels of beer, upon this they paid £13,522,833 in duty to the national exchequer. According to a parliamentary return, there is only one firm of brewers which has an annual output of over 2,000,000 barrels. This firm alone used 6,285,583 lbs. of hops and 4,385,718 bushels of malt, while its payment in duty amounted to £32,614 in 1904.

SIGNIFICANT FACTS

This Company's Policy-claims paid in 1904 averaged in number one for each minute and a quarter of each business day of 8 hours each, and, in amount, \$102.54 a minute the year through.

Table showing THE DAILY AVERAGE OF THE COMPANY'S BUSINESS DURING 1904 WAS with various statistics like Number of Claims Paid, Number of Policies Issued, etc.

CANADIAN SECURITIES

Table listing various Canadian securities and their values, such as Dominion of Canada Inscribed Stock, Toronto Local Imp. Debenture Bonds, etc.

DUNNE WANTS TO BE MAYOR AGAINST FRANCHISE GRAB

Fight to be Chicago's "Little Father" Hinges on Municipal Ownership of Traction Lines.

Chicago, March 30.—The fight to be the "Little Father" of Chicago goes on. Judge Dunne is easily the popular favorite. This is his view on J. P. Morgan and the Chicago streets.

The Democratic nominee, myself, is specifically pledged against the extension of any franchises. The Republican platform is so framed as to permit the passage of an ordinance extending the franchises of the present companies without its candidate being guilty of any violation of pledges.

TOOK A SEVERE COLD.

It Settled in The Kidneys.

Pain in The Back The Result.

Catching cold and having it settle in the back is often the cause of Backache—the primary cause of kidney trouble.

Heed the warning: check the Backache, and dispose of any chance of further trouble.

If you don't, serious complications are very apt to arise. Mrs. E. Williams, Hamilton, Ont., caught cold, and it settled in her kidneys. She used

DOAN'S KIDNEY PILLS, and is thankful for the immediate relief they gave her. She writes us as follows:

"It is with pleasure that I add my testimony in favor of Doan's Kidney Pills. Some time ago I took a severe cold, which settled in my kidneys. The soreness and pain in the small of my back bothered me greatly. After suffering for some months, and finding numerous remedies fail, I procured a box of Doan's Kidney Pills, and received immediate relief from my sufferings.

Doan's Kidney Pills may be procured at all dealers, or will be sent direct by mail on receipt of price—50 cents per box, or \$3 for \$1.25. THE DOAN KIDNEY PILL CO., TORONTO, ONT.

FIREMAN KILLED, BUT SAVED COMPRADE

Collapse in Tunnel in New York Where They Were Fighting Fire.

New York, March 30.—Fireman Samuel Lillie and several other firemen were injured by a cave-in in the subway at the 163d-street station, which was burned yesterday. Lillie and four others had been sent into the tunnel to deal with a fire when a portion of the roof fell. Lillie lost his life in saving the life of one of his companions. Quest-street was working side by side, saw the cave-in as it came, and he was directly underneath the falling mass, and both would have been crushed had not Lillie thrown his whole weight against his companion, pushing Lavanough out of the way just as the mass fell.

ORDER TO NEW CARS.

The Toronto Railway Company has placed an order for 70 double-deck trucks, which will be of similar design to the large cars now in operation on the city line and Queen-street routes.

All of the cars are expected to be ready by fall, and will be equipped with air brakes.

The open cars will be put on when the weather permits, says Manager Fleming.

Bill to Kill Bucket Shops. Albany, March 30.—A bill proposing to prohibit bucket shops and bucket-truck cars, which will be of similar design to the large cars now in operation on the city line and Queen-street routes.

LOVE RACE AS WELL AS COUNTRY.

H. C. Osborne on the True Course of Patriotism.

H. C. Osborne addressed the Empire Club at lunch yesterday on "Our Patriotism in the Empire." Like the United States, which is a mixture of people from all climes, Canada had no distinct race. The Americans were developing a patriotism by teaching the youth to love their country, at the same time that they were educating them, and in this respect Canada might safely follow. There was something lacking in a patriotism which had only a love for country. The love of race was probably the deepest sense of patriotism in the British people, and he believed that the destiny of Canada was to perpetuate the Anglo-Saxon race and the principles on which the British empire was founded.

COLONIST GARS-OVER EMBANKMENT

Broken Rail Ditches Four Colonists—Two Women Seriously Hurt.

Fort William, March 30.—(Special)—The westbound C.P.R. colonist train was derailed at Dryden this morning, owing to a broken rail.

It was running at 25 miles an hour, and four out of the twelve cars went over a 15-foot embankment.

Other cars were cut and bruised, and two were seriously injured.

They are: Clara Bailey of Madoc, Ont., seriously bruised in chest, and Mrs. William Desan, aged 68, Dundalk, Ont., right leg broken.

Other hurt are: Miss Lily Boughard, Taberville; John and Allan Bailey, Madoc; Daniel Mackay, Whitechurch; James Morris, Kallidar; D. F. Stuart, Alisa Craig; Mrs. Stuart, Alisa Craig; William Dixon, Sunbridge; R. J. Huff, Wellington; Thomas Calderwood, Brougham; John Langin, Waverston; Edward Linnox, Cornwall; John Bold, Morrisburg; Annie Gibson, Winton; Frank Jacob, Madoc; and J. J. O'Leary, Hastings. The injured are being attended to at Dryden by the local doctor and will also be sent from Est. Portage.

Will Not Oppose Resignation. At a congregational meeting at St. Andrew's Church the following were appointed to attend the meeting of Tuesday next in Knox Church, when the resignation of Rev. Dr. Black will be dealt with, viz.: J. S. Keith to represent the session, Mrs. Langmuir and Col. J. L. Davidson to represent the members of the congregation, and K. C. and Colin Gordon to represent the congregation. The commissioners were instructed to oppose the resignation. A resolution was adopted requesting Dr. Black to continue in charge two months longer, on the understanding that any minister whom the supply committee wished to occupy the pulpit should be at liberty to do so. A committee was also appointed to secure a new pastor for the church, and to present to Dr. Black from the congregation before he leaves Canada.

Heard Along the Wharves. Manager Wilson of the Turbina is expected in Toronto today or tomorrow to confer with A. F. Webster, local passenger representative. The contract for dockage has not yet been secured and it is possible that the steamer may have to remain last season's berth on the west side of Bellevue in many years. The continuation of icebound conditions in Oswego harbor is somewhat of a damper on vessels engaged in the coal trade. It is rather unusual for the harbor there to remain in a state of complete blockade so late in March, it being comparatively open and having a strong current. In the meantime some desultory overhauling and patching is being done.

Just what disposition will be made of the steamer Owen Sound this year is not known. The steamer, which is under the control of the Dominion Express Company, may, it is rumored, be transferred to another route this season.

Teeth and Last. A. C. Pratt, M.L.A., has filed a cross-petition in the South Norfolk election against his opponent, W. A. Charlton. The time for filing protests has expired. There are now 10 constituencies protected, with cross-petitions in three.

Parlor Car to St. Clements. On Grand Trunk train leaving Toronto at 7:40 p.m. Call at City Office, northwest corner King and Yonge-streets, for illustrated pamphlet, tickets and full information.

Russian Oil Works Ablaze. St. Petersburg, March 30.—The distilling department of the Zhukoff Oil Works was destroyed by fire, which is believed to have been of incendiary origin. The damage is \$250,000.

Excursion to New York. Via Lehigh Valley Railroad, Friday, March 31. Tickets only \$9 round trip from Suspension Bridge. Call L. V. City Office, 10 East King-street, ad.

Cook's Cotton Root Compound. This medicine is especially adapted for the treatment of all cases of constipation, indigestion, and general debility. It is a purely vegetable preparation, and is perfectly safe for all ages. It is sold by all druggists and grocers.

MARRIED FOLK MUST LOVE.

New Obligation Proposed to Be Incorporated in Civil Code.

Paris, March 30.—M. Paul Hervieu and the committee for the reform of the code civil are responsible for a new difficulty, not to say danger, now threatening honest married people in France. This takes the form of an amendment to the marriage clause of the code, proposed by M. Hervieu and promptly adopted by the committee.

Formerly, under the code, married folks were held to owe to one another mutual fidelity, comfort and aid. To these sometimes difficult obligations is now added the still more serious one of "loving one another."

Should the amended clause really become law a wife or a husband may call in the guardians at any time to arrest the conjugal whose affection is not up to the legal standard.

"The Lights of Egypt." London, March 30.—Some weird personal experiences of the still unexplained "Lights of Egypt," which are said to be the divine seal set upon the revival mission of Mrs. Mary Jones, the Welsh peasant woman, are related in The Occult Review by Beriah G. Evans.

Among the things the writer saw when in company with Mrs. Jones and three other persons were:

A brilliant star, sending out from its circumference diamond-like sparkles. It took a sudden leap of considerable distance towards the mountains, then back again to its first position.

Two brilliant and distinct flashlights, illustrating the stone dykes and heather on the mountain side.

Three bars of clear, white light crossing the road and climbing up the stone wall, showing every interstice and bit of moss as clearly as tho a searchlight had been turned upon it.

A blood-red light, apparently about a foot from the ground, in the middle of the roadway, which did not illumine the surrounding objects.

Tell Farmers to Organize. H. H. Carr of Chicago, termed the "farmers' friends," is of the opinion that the farmers of America should organize. "Do it now," he says. In a poster, with red letters, setting forth the advantages of organization, he says: "One hundred and fifty farmers, surrounding their own farm, can join together and form a local union. Every \$150 saved to each farmer would aggregate \$15,000 gain annually in such local neighborhood cases. In time it is hoped to call a national convention having two representatives from every farmers' organization in the United States. Act as delegates to the same and let your voices be heard in the convention for the betterment of the American farmer. Farmers need each other to help in marketing their grain direct."

The village hotelkeepers of Central, who claim the "pious" vote on the local option bylaw "who had no right to vote and that the vote was open, were granted another adjournment yesterday.

Trade With South Africa. C. M. Kilton, the newly-appointed Canadian commercial agent, was the guest of the Manufacturers' Association yesterday. He was called upon by a number of local manufacturers interested in the extension of trade with South Africa.

Mr. Kilton was given an auto trip around the city and a number of leading manufacturers. He is a young man and was formerly with the Lake of the Woods Milling Co.

He goes to Hamilton to-day and will sail for South Africa in a week.

Gough Bros. Spring Opening. Gough Bros., having obtained the sole selling agency for the renowned K. B. Conceived Shoulder Union-Made Clothing, invite you to inspect this a month old brand, so well known in New York, Boston, Chicago and throughout the United States. In introducing this ready-to-wear clothing they claim that these goods are the highest type of modern clothing, and will be the correct style for 1905. These garments are equal to any custom-made suits, and are known as the K. B. Shoulder Clothing, and can be had at reasonable prices. Ask or send for booklet. See advertisement in another column for further particulars.

RECEIVE DEPUTATION TO-DAY.

Secretary Morley of the board of trade yesterday received a letter from the secretary of the railway commission stating that the commission would be pleased to receive a deputation from the board of trade on the 3 p.m. to-day, providing the business on hand in relation to the planed controversy was thru with by that time.

Pain Causes Loss of Flesh. At a Wisconsin convention a cattle feeder said: "You must keep a steer comfortable. One time I had my steers weighed in and one had gained only ten pounds during the month, while the others had gained from fifty to sixty pounds each. I thought of course my boys who had weighed them had made a mistake. The second month I had steers gained only fifteen pounds, while the others had gained eighty pounds. I examined that steer and I found he stood where the floor had worn down and that he had stood on his toes and his legs had become sore a month in pain all the time. I took him out of that place and put him in a box stall and he gained ninety pounds a month for the next three months. At another time I let the steers out for water and they ran hard and one steer hit and cracked his horn. He gained only fifteen pounds the next month. The rest gained eighty pounds each."

LA GRIPPE

Bronchitis, Pneumonia and Lung Troubles

Vin Mariani Absolutely Reliable in La Grippe Epidemics.

General Honor Libermann, M.D., who reached the distinction and honor of Surgeon-in-Chief of the French Army, writes:

"VIN MARIANI was the tonic absolutely relied upon in La Grippe epidemic in France, and had frequent deserved mentions in the medical press."

Holds the premier position as a remedy for La Grippe. Vin Mariani serves both as a preventive and a remedy to relieve and successfully combat this dread malady.
