GUILD MEMBER BEGINS HIS DEFENCE

Hugh Blain Says it is All for General Good—Explains the Equalized Rates on Sugar.

Demands of other cases do not allow Chief Justice Falconbridge to hear the finish of the conspiracy charges against the Dominion Wholesale Grocers' Guild, and when time came to adjourn last evening his lordship announced that the balance of the defence evidence would not be heard till Nov. 10.

E. F. B. Johnston, K.C., counsel for the guild, commenced his defence yesterday with the calling of Hugh Blain, senior partner of the Eby, Blain Company, wholesale grocers. Mr. Blain was one of the original body of men who set out to obtain better conditions for the wholesale men, and get a living profit.

Mr. Blain, in his evidence, considered the work they had done in their own interests as being eminently proper, he admitted that one penalty attached to that famous equalized sugar agreement with the refiners, was a condition agreed upon among the guild men, that they were not to import refined sugar, nor they could import it in the raw.

When Mr. Johnston sought to show that that agreement did not seriously stand in the way of the members actually importing the finished product, witness answered: "It would have been dishonorable to have done it after we agreed not to—and in addition it would have meant that the Canadian refiners, with whom we had the agreement, would have cut us out of the favored list ourselves."

The hearing yesterday concluded with the evidence of Charles Corley of New York, a commission man who had had dealings with the guild in Canada in connection with the Pacific Selling Company, the concern Mr. Zealand of the Wholesale Grocers of Hamilton had connected with. He did not see his company closed.

When the case opened in the morning Mr. Zealand recalled to the witness box, and his evidence closed the case for the crown. He told Mr. Blackstock that his principal objection to the equalized rates system for sugar lay in the fact that the sugar was sold at excessive rates in order that the sugar should be properly distributed to the wholesalers, which meant that the price was increased to the consumer. To illustrate this fact he stated that the guild rate to Fort William was 25 cents, whereas the market rate on a boat rate from Hamilton is 40 cents.

Mr. Zealand Cross-Examined. Mr. Blackstock rested his case there and the witness was given over to E. F. B. Johnston, who gave him an exceedingly stiff examination. Mr. Zealand had started an action against the guild because it took away his profits. The action was first heard in 1905, and later after a board of commissioners composed of four members, including Hon. Mr. Brodeur had reported against an application of the witness to have the duty taken off American sugar, when the case was brought up in the Hamilton Police Court. When asked about the case and what he intended to do with it, witness answered that the present case was good enough for him, at which the lawyer sarcastically inquired if he was hiding behind the witness stand, he said he was acting upon the advice of his solicitor.

In short order the counsel elicited the information that Zealand and Brantford, while acting as travelers, had formed this company. They had done so in the hope of securing some of the old firm of Perkins, Ince & Co.'s customers. They, as travelers, knew that the retailers in the trade, and their company itself was made up of sixty retail grocers. The witness invested \$500 and as promoter was given \$5000 worth of stock. The arrangement was to enable all his customers to purchase a rather unfair advantage of the members, and at the end of the meeting it was learned that each of these officials next week will make several campaign speeches.

The campaign engagements in Virginia of Senator Dewey have been canceled and the senator will take the stump in more doubtful states than Virginia. Secretary Root, who expected that he would speak only in New York City next Saturday night, has been requested to go into Ohio.

TO CUT ATLANTIC TIME

Transfer of Ships Indicates Intent of C.P.R. to Establish Faster Service. MONTREAL, Oct. 23.—(Special.)—The statement of the Canadian Pacific president that the two Atlantic Empresses will go to the Pacific for the present service is taken here to indicate that a decision has been practically arrived at to establish on the Atlantic a faster service than is now given.

The question has been under consideration for more than two years, but action was delayed, first by the movement for the establishment of a new all-red route, and second, by the financial stringency which has prevailed during the greater part of the year.

The removal of the Atlantic Empresses to the Pacific Ocean is interpreted as meaning that four empresses will be built for the Atlantic—faster than the present steamers—and that the management has the assurance of substantial government subsidy in the form of remuneration for carrying the mails.

An Exchange of Western Lands.

OTTAWA, Oct. 23.—(Special.)—An order-in-council has been adopted authorizing the exchange of certain lands in Alberta now held by the Southern Alberta Land Company, the successor of the Robins Irrigation Company, for other lands which, up to the present time, have been in possession of the country.

It appears that as the surveys have progressed the company has found that as considerable portion of the lands covered by the original agreement are situated at such an altitude as to make irrigation impossible, the higher lands will be exchanged for lands situated at a lower level, and which can be irrigated at an expenditure of \$1,000,000.

The lands to be surrendered comprise 156,666 acres, and the lands, which it is proposed, to be surrendered to the company, comprise 380,000 acres.

The order of the interior states that, living in view of the benefit to a public point of view of the carrying to completion by the company of this larger irrigation scheme, he sees no reason why the company's proposition should not be agreed to.

FORMER SUITOR SHOTS RIVAL ON HONEYMOON

Bride of an Hour is Saved Only by Prompt Interference of a Stranger.

NEW ORLEANS, La., Oct. 23.—On her bridal trip, which had begun scarcely an hour before, and seated in a railroad coach almost between her husband and a former suitor for her hand, Mrs. Fred. Van Ingen last night saw the flash of the suitor's revolver, felt the grip of her husband's hand as the bullet killed him and then fought for her life.

When the girl appeared about to become the victim of the second bullet from the revolver her uncle, a man with gray hair, but strong and cool under the excitement, rushed up and thrust his thumb beneath the hammer of the revolver, rendering the weapon harmless.

The former suitor is F. S. Beauveucq, a prominent teacher of Alexandria, La., and a relative of former Gov. Blanchard. The bride is the daughter of James M. Rhorer, one of the leading officials of Elberville Parish, residing at Baton Rouge. Beauveucq is 23 years old and Van Ingen is 22.

The wedding took place yesterday at Alexandria. Beauveucq was in town, having arrived there, it is reported, on the same day as Miss Rhorer. When the bridal couple left for the north he boarded the train and after a time sat in a seat where he was facing Mr. Rhorer. The bride sat with the bride between him and her husband. Other passengers said Beauveucq talked with the bride couple just before the shooting, and that his manner appeared cordial.

The young woman's hands were in her husband's when Beauveucq suddenly drew his revolver and fired. After being disarmed Beauveucq submitted to arrest.

GETTING BUSY FOR TAFT.

Roosevelt's Ministers to Get Out and Hustle. WASHINGTON, Oct. 23.—As a result of to-day's cabinet meeting every member of the official family will go out some time next week to make political speeches in the states where there is a doubt as to the outcome of the campaign in favor of Taft. The president himself drew his ministerial list with only six members of his cabinet and at the end of the meeting it was learned that each of these officials next week will make several campaign speeches.

The campaign engagements in Virginia of Senator Dewey have been canceled and the senator will take the stump in more doubtful states than Virginia. Secretary Root, who expected that he would speak only in New York City next Saturday night, has been requested to go into Ohio.

Secretary Cortelyou will speak in New York City next Thursday night.

LAURIER AT QUEBEC.

QUEBEC, Oct. 23.—Sir Wilfrid Laurier reached town this morning from Murray Bay, To-night Sir Wilfrid spoke at the Quebec Skating Rink, at a special meeting of the English-speaking element of the city. The rink was crowded and Sir Wilfrid was accompanied by Hon. Mr. Lemieux, postmaster-general; Messrs. Wm. Power and Arthur Lachance, as well as a number of ministers, both federal and provincial.

MR. FOSTER GOT NO COMMISSION

Gives Emphatic Denial to Last-Hour Circular Issued by Opponent—Centre Toronto Election Trick.

Hon. George E. Foster at Broadway Hall last night gave a complete denial to allegations contained in an eleventh-hour circular issued by his opponent that he had taken a commission on a purchase of lands with Union Trust Co. funds.

After he had concluded his speech the circular was put into his hands. It was alleged that he had acknowledged before the insurance commission that in the purchase of lands in the northwest a commission or rebate had been allowed to the purchaser. That much was true, but by putting a certain gloss on the circumstances Mr. Foster had tried to make it appear that Foster in buying for the Union Trust Co., of which he was manager, had taken a profit out of the transaction.

"The facts are these," said Foster: "I did buy, not for the Union Trust Co., or the Foresters, but for a party of gentlemen who got no money from the Union Trust Co. or the Foresters, but who paid for the land out of money they had borrowed, and when Mr. Shaw tries to make it appear that I was buying the land for the Foresters that is an absolute falsehood. I never took a commission for any purchase made by me as manager of the Union Trust Co. for the Union Trust Co. or paid for with the funds of the company. As for any private business that I or other gentlemen carried on for ourselves that is another matter. Alluding to Shaw's allegations at the nomination meeting and his failure to support his charges with proof, Mr. Foster quoted the letter of Mr. Pigott, a Chatham Liberal, denying the truth of Shaw's assertions.

"The reverend gentleman," said Foster, "turning to The Globe, 'may bluff a few days longer, but that bluff will never be used for run. It was issued by a law firm of repute, which refused to take it if it was issued for political purposes and unless it were bona fide.' The reverend editor was a man who takes off his Sunday clothes and on Monday follows along smelling in the tracks of Hyman, Sifton, Emmerson and Sir Frederick Borden."

Why did not the reverend editor look closer to home? In the insurance commission case, he suggested that Senator Jaffray, as a director of an insurance company, looking after the money of widows and orphans, made a loan of an insurance company of \$2,000 and held it for himself for seven or eight years, making his own profits and not turning them into the company, and made immense profits for himself.

Mr. Foster said he might also go down into one of the banks and find a more shining example, but he would forbear.

Dry for Him. The first part of his speech was interrupted by a gentleman near the door crying: "Turn on the tap." When the speaker resumed following the eviction of the Shaw partisan, Mr. Foster contrasted the "high and mighty" attitude of the government with the attitude of the present minister, with practically every minister fighting for his life.

Signs of the coming change were indicated by the fact that the Liberal majority on Monday last, and The Globe's forecast, which had cut out the government majority from 66 to 39. The speaker in North Toronto was not in the cabinet and the speaker of Foster; "and in the meantime I will be an effective instrument in helping you to clean up the national premises."

"Now I wish I was a good looking man—I'd patronize the photograph shop, too," said Foster. It was taken in a rather unfair advantage of a home man to intrude Mr. Shaw's pliz too thick in the newspapers.

Fuk Post Cards. Edmund Bristol charged that his opponents were sending out to Congratulatory voters a fac simile of his own post card, with the signature forged and giving false directions of where to vote.

He referred to the failure of the government attempt to stuff the lists in West Algoma, due to the interference of Attorney-General Fov, and to the report just received that the cabinet had decided to abandon the making of new lists.

Cowardly Campaign. W. K. McNaught, M.L.A.-elect, decried the conduct of the campaign against Mr. Foster in North Toronto as "un-British, cowardly and dishonest." He had taken pains to examine and he had not legal friends to examine into the charges and he had found that they were absolutely false from beginning to end. Mr. McNaught could not see how Mr. Shaw could square his actions in this campaign with his professions of Christianity. He knew Mr. Shaw would say that he was not responsible for these slanders, but he had not repudiated them.

A. R. Boswell, K.C., presided, and the hall was packed to the doors.

MAYES SAYS IT AGAIN

WELCOMES ENQUIRIES Repeats Allegations and Declares Pugsley and Macarty Will Be Sued in Courts.

ST. JOHN, N. B., Oct. 23.—(Special.)—At an immense meeting in Queen's-Rink this evening addresses were given by the candidates and Provincial Secretary Fleming. Chairman W. H. Thorne read a brief letter from G. S. Mayes, which said:

"Dear Sir:—Will you kindly state that notwithstanding Mr. Pugsley's many distorted and abusive statements regarding me, which are being printed wholesale in his bought-up papers, I hereby reiterate the contents of my former declaration with all the earnestness possible.

"I also wish to state that I have commenced suit to force Messrs. McAvity and Pugsley to pay me back the moneys that they got from me without the slightest return for it, and I also further wish to state that I will with pleasure the possibility of a thorough government enquiry such as is now being conducted by Judge Cassels with regard to the marine department.

"I remain yours very truly. (Signed) G. S. Mayes."

\$800 A YEAR TO MARRY.

Professor Carver of Harvard Says to Wed on Less is a Sin. BOSTON, Mass., Oct. 23.—Prof. Theo. N. Carver of the department of economics at Harvard, in a special article issued yesterday, says that any man who marries on a salary of less than \$800 a year is guilty of a sin against his country, and suggests that if it is possible such unions should be prevented.

"With a father getting only 215 a week, the children necessarily will be along 815 a week line. They will simply add to the already over-crowded ranks of this class. With this addition from births and with the addition from immigration only fools believe that this nation's standard for workmen can be maintained."

DRIVE HARD BARGAIN

BOTH ENVOYS TRYING How Bulgaria and Turkey Have Been Trying to Reach a Settlement.

SOFIA, Bulgaria, Oct. 23.—The government has ordered M. Dimitroff, its special envoy to Constantinople, to return here for new instructions.

This has given rise to fears that the Turco-Bulgarian negotiations looking to a settlement of the trouble that has arisen from Bulgaria's sudden declaration of independence have become futile. But the government insists that the negotiations have not been broken; they have only been interrupted to permit the envoys to report adequately in person.

Since the beginning of the crisis neither state has transmitted any messages in cipher. M. Dimitroff has been able to send only fragmentary open despatches.

Count Thurn, the diplomatic agent here of Austria-Hungary, had a long conference to-day with M. Popkoff. At the conclusion of his talk, he said the prospects for peace were good in spite of this hitch in the negotiations. It is the opinion of the count that Bulgaria eventually will consent to pay a moderate sum, about \$2,000,000, to Turkey in lieu of tribute.

The negotiations between M. Dimitroff and Kaim Pasha, the grand vizier of Turkey, were a perfect example of oriental bargaining. M. Stoyanovich, the Bulgarian postmaster-general, and Tewfik Pasha, the Turkish minister of foreign affairs, also were present at the meetings.

At the outset the Turks would only concede the minimum; the recognition of Northern Bulgaria as an independent kingdom, Rumelia to remain a vassal principality and continue to pay tribute and the Rumelian Railways to remain Turkish property. The Bulgarians rejected these proposals without discussion.

At a subsequent sitting the Turks consented to recognize both Bulgarias as an independent kingdom on the condition that this kingdom pay the Rumelian tribute and the cost of the railway property, plus arrears. The tribute due from Northern Bulgaria is estimated at 100,000 Turkish pounds a year.

At the final meeting the Turkish demands were reduced to the mere payment of the Rumelian tribute and for the railway. The Bulgarians declared their willingness to pay for the railway, but said they would give no tribute. At this point the negotiations were interrupted and the envoys recalled.

CLAIM 20 IN QUEBEC

FISHER MAY BE BEATEN Borden's Chances in the East Outlined—Expected to Redeem Ten Counties.

MONTREAL, Oct. 23.—(Special.)—As the decisive day approaches the workers of the Conservative party are more hopeful than ever of being able to at least carry twenty seats for Mr. Borden in the Province of Quebec.

It is now considered certain that the Laurier demonstration has made inroads in the phalanx of opposition workers. The incident of the present week is the comparative weakness of the Hon. Mr. Fisher in Brossard, where hundreds of new voters have been placed on the election list.

The counties which the Conservative party is pretty sure to redeem are Yamaska, Two Mountains, Maskinonge, Montcalm, Joliette, Compton, Megantic, Quebec West, St. Anne and St. Mary's, while two seats now held by the Conservative party may possibly, although not probably, be taken from them on Monday.

The reports being sent out to the effect that Bergeron is in danger in Beauharnois are not alarming. The Liberals are making a hard fight against Mr. Leonard in Laval and Dr. Paquette in Lislet, but the Conservatives have every assurance that these two ex-M.P.'s will pull thru all right. Then there is a strong probability of Pelletier and Flynn carrying in Lotbiniere and Do and Rochester respectively.

ACCUSER IS ACCUSED.

New York Broker Didn't Break New Brunswick Game Law. ST. JOHN, N.B., Oct. 23.—Arthur Robinson, the New York broker with hunting camps on the Miramichi, who was accused some time ago of violating the game laws, the charge being made by Henry Braithwaite, a guide, and who offered \$5000 reward for the evidence leading to his own conviction, was exculpated yesterday.

The investigation, which was held before Surveyor General Gemmer, showed that absolutely no foundation existed for the charges made. Not only this, but evidence was brought that violations had been committed in the camps managed by Braithwaite, who accused Robinson. The guide will now be prosecuted.

This investigation, which was held at Chatham, aroused wide interest owing to the publication of Braithwaite's charges that Robinson had killed two moose out of season. Several witnesses swore that Braithwaite had made threats against Robinson.

A feature of the trial was the production in court of a strip of bark taken from a tree on which a warning to Robinson had been gaved.

TRAVELERS AS POLITICIANS.

How One Commercial Man Sizes Up the Situation for Monday. The incoming trains last night brought home some hundreds of commercial travelers who will stay over to vote on Monday.

The traveler is much of a politician, in discussing the situation with one of them. The World's young men was told that the general impression was that the government would be returned. He said many travelers were in the confidence party men were going to vote for the government candidates, because the government met the wishes of their association and held the election on Monday, and went even further and changed Thanksgiving Day from Thursday to Monday to suit their wishes.

WRONG VIEWS OF JOHN BULL

If Persisted in, They Will Offend Him and Turn His Investments Elsewhere.

Baron Northcliffe gave a good talk to the Canadian Club yesterday and showed keen appreciation of the features of Canadian national and commercial development which appeal to the English capitalist and business man. Only in one thing did he fail to apprehend the force of a local situation, and in this he may well be pardoned. "No English need apply," does not affect Irish or Scotch, nor the adaptable Englishmen of all classes who come to Canada resolved to make the best of things. The class of workers to which the stigma is attached is well recognized, and they have unfortunately affected the reputation of English—not British—laborers generally.

Besides Lord Northcliffe, Harry N. Kellogg, chairman of the special standing committee of the American Newspaper Publishers' Association, was a guest of the club and sat with R. Home Smith, who presided. Senator Jaffray, J. A. Macdonald, J. F. McKay, John A. Cooper, E. D. Atkinson, Newton McTavish and John R. Bone also sat at the guest table.

In introducing the speaker, Mr. Home Smith outlined his career and the facts of his life.

"They speak of achievement," he said, "and the man who does things is the man who is appreciated in this country."

Lord Northcliffe had not heard of the Canadian Club form of entertainment before, and he expressed his admiration.

"As a rule one has to sit thru an immense meal—(laughter)—and listen to an immense speech from the chairman. You have an immense chairman and a short speech. (Laughter.)"

He had not been in Toronto for many years, but could see from him on all sides the evidence of a steady and rapid expansion. Since his first visit, fifteen years ago, the place that had been taken in the world by the Dominion was being taken by the most extraordinary development in the history of any people. Canada had learned how to make itself known to other nations.

The earlier efforts to attract visitors to Canada were not of the wisest kind," he commented. "My first visit was in the winter of 1891. At that time when Europe was first placid with the delights of your winter. Naturally enough when you emphasize winter and the snow picture, the most of the water thought these were your chief product."

Canada had become known in Europe, and more especially Great Britain, to an extent not yet realized by our people. He wished there were a little greater knowledge of the British Empire in Canada.

"Sometimes I see in Canadian newspapers advertisements to which is appended, 'No Englishmen need apply.' That is an unfortunate statement, and a wise announcement. Lord Cromer has developed Egypt and the Sudan from Khartoum and beyond that right down to Cairo, and has made Egypt agriculturally much the wealthiest country in the world. This has been accomplished entirely by the assistance of Englishmen.

Frank Swettenham has developed the vast Malay States. Englishmen have opened up and developed the British East Africa. Millions of British capital have been poured into the Argentine Republic, there to be developed by the British. Through continental Europe scores of British mining, lighting and traction schemes have been put into operation. I take it then either that you get the refuse Englishmen in Canada, or the Canadian, being so busy at home, has not done much traveling beyond Charing Cross and the Strand.

As an unfortunate result of this, the notion that no Englishmen need apply has unfortunately gained great ground in England, and it is very likely to keep alive and capable young men from coming here and certainly has the effect of deterring capital.

He was hopeful by the instrumentality of his newspapers of increasing travel to this continent and of creating a return current of Canadian travel. It was unfortunate that in Canada we suffered very greatly from a lack of direct British news, the thanks to a cheaper postage between the Dominion and the mother country, this may be remedied.

"With fast steamers, cheaper cable rates, more Canadian news in British newspapers and more British news in Canadian newspapers, business relations between both countries will be surely strengthened," said Lord Northcliffe.

Canada had been blessed in this critical juncture of its history by the uprising of a wonderful group of men. It was curious to notice that this was

LANDER'S BIG MEETING

Is Cheered to Echo—An Arrest for Contempt of Court.

HAMILTON, Oct. 23.—(Special)—After the meeting in the Armoury this evening, the members of the Independent Labor party are expected that they will elect S. Landers next Monday to represent East Hamilton in the house of commons. The rink was jammed to the doors, and there was a sprinkling of ladies in the gallery. Every time the name of Candidate Landers was mentioned it was greeted with cheers. The hall has a seating capacity of about one thousand, and all the seats were occupied and several hundred were content to stand. Walter Rolfe was the chairman, and the speakers were Allan Studholme, M.L.A., G. O'Donoghue, Toronto, and the candidate, Mr. O'Donoghue urged the labor people not to sacrifice their daughters, wives, sisters and mothers on the altar of party fidelity. When Mr. Landers rose to speak the cheering lasted for several minutes. He declared that the machine had taken nearly all the workers out of Hamilton to help Mr. Barker. They were sacrificing Mayor Stewart in an effort to save Mr. Barker.

Arrested for Contempt.
Just before the ninth division court opened this morning W. R. Bennett, George-street, was arrested on the charge of contempt of court. Three weeks ago he was in court, and judgment was given against him for \$50. He did not settle and a commitment was made out for him. He managed to dodge the bailiff, however, until this morning, when he had the misfortune to be called in another suit. He was kept in jail only about an hour, the money being paid over.

R. J. Raspberry has dropped his appeal against the magistrate's decision fining him for watering milk.

LITTLE GIRL BURGLARS.

Accused of Scores of Robberies—Gems in Doll's Trunk.

BEVERLY, Mass., Oct. 23.—After three months' search, the Beverly police, aided by the state troops, today ran down the perpetrators of a score of recent burglaries in this vicinity, which have mystified the authorities. Two little girls, sisters, one of them twelve years old and the other six, are accused by the police of having committed the robberies.

They come from a well-to-do family. Their father is an engineer and owns his own house in Beverly. Both of the girls go to Sunday school, and the older of the police says, is a favorite in the public schools.

The police suspicions have rested on the two children for some time, but they could be guilty seemed unbelievable. This police, however, went to their parents' house with a search warrant. The first find was made in a doll's trunk in the girls' bedroom. Carefully tucked away under the doll's dresses were found a diamond brooch, valued at \$400; a sapphire and pearl bracelet, valued at \$350; a gold watch nine rings set in diamonds and other precious stones, seven valuable stickpins, three necklaces and a number of sterling spoons and fruit knives.

The biggest find was in the child's playhouse. The full value of the property is estimated at thousands of dollars.

The police say the two children showed the skill of oldtime criminals. Permission to search their mother to earn spending money by selling some of her commission gave them an excuse to visit residences in the town. If any one was at home when they rang the bell they tried to sell their story; if they were not at home, so the police say, the children sought the nearest window or door, and in and helped themselves. They limited their thefts to jewelry.

Canada's Western Grain Yield Greatly Exceeds Estimates.

Who has not been to see Row's new store for ladies at 168 Yonge-street (the old Wanless shop)—a wonder in appointments, so unique that you can scarce credit such transformation, and yet the prettiness of the store and the perfection of its appointments are a second wonder in busy Gotham. Interest keeps at almost a fever heat and already folks are beginning to dress in styles in costumes, suits, coats, cloaks, skirts, waists, millinery, fancy neckery and the hundred and one little accessories which "my lady" is proud and pleased to gather into her wardrobe or bonnet boxes.

Joseph Martin, Independent, McInnis Liberal, and Covell, Conservative, with Kingsley, Socialist, held the dramatic joint meeting in the political history of British Columbia at Vancouver Monday night under the auspices of the Trades and Labor Council. PUBLIC OWNERSHIP SLOGAN

Crowded Meeting for Independent Convention at Prospect Rink.

Prospect Rink Hall was crowded at the Russell meeting last night. Every mention of the name of the Independent Conservative, Joseph Russell, was loudly cheered, and Mr. Russell was given a rousing reception when he addressed the meeting. H. W. Joseph presided.

Brief addresses were made by R. B. Fox, W. F. Northwick, Egin Schorr, William Radcliffe, Albert Chaney, J. S. R. Heakes, ex-Adm. Russell, William Worrell, John Lein, W. C. B. Reid, and the candidate, H. W. Joseph.

Mr. Russell pointed out that the country was awakening to the necessity of some independence in the political parties, and especially just now in East Toronto. He would not join in the chorus of charges of scandal against the leaders in either of the political parties, but the scandals are the result of the private monopoly of public interests which should be owned and run by the public.

On going to Ottawa, as he expected to be elected to do so, Mr. Russell would do his very best to advance the cause of public ownership in parliament. He believed from his meetings and the reports of his committees that he would be successful at the polls. If he did not "make good" at Ottawa, then let them turn him out. He appealed to vote for him on Monday, for he would make the advancement of the interests of East Toronto his sole aim in parliament.

Harold Jarvis, S.O.S. Concert, Massey Hall, Tuesday Night.

TRESPASSER COULD RUN.

Gave Hotelman and Policeman a Long Chase.

After a breathing chase in which a hotelkeeper and a policeman relayed, William Joseph Sharpe, Defoe-street, was landed in the Esther-street police station, charged with trespass on the land of Boniface Falconer, King and Spadina, and Butcher, the grocer, at Soho and Queen.

At noon Sharpe was discovered walking over the Butcher grocery store stairs, over the roof of the building, had sent him up for 5 cents. Then he ran. Shortly afterwards he was discovered in an upstairs room of the Falconer Hotel. He ran again and was pursued along King and up Charles-street to Adelaide, where he was overhauled and mauled by Mr. Falconer.

P. C. Wilson (179) saw the tussle and came on rapidly. Sharpe again took to his heels to Peter-street, thence north to Richmond-street, where he sought safety in a backyard and was run to earth.

Hotel Winchester.

Those wishing a pleasant "home" for the winter before settling are advised to see the bevy of apartments in the Hotel Winchester, corner of Parliament and Winchester-streets. Hand-some rooms on suite with private bath and most pleasant single apartments on the bath room flat. Reasonable terms. First-class cafe in connection.

Political Notes.

Readers of the various estimates in the party papers on the result of the federal election find that editors as well as politicians differ. In these predictions the government supporters vouch for a majority which give Sir Wilfrid Laurier a majority of about sixty, while the most ardent of the Borden newspapers figure out not more than a majority of about thirty. The special organ of the party issued in this city, casts a doubt on this, its own estimate.

The Liberals still adhere to a substantial majority for Sir Wilfrid. With regard to any of these predictions, the editor of the News, obtained from moderate men of both parties, here is his calculation, and it shows a majority for the government of twenty-nine:

Maritime Provinces	Lib.	Con.	Tot.
Quebec	50	15	65
Ontario	33	53	86
Western Provinces	21	14	35
Total	104	82	186

Even the moderate men, so the bookmaker says, have disputes over the estimates given at election time, and they will not dispute the combined figures given to each party in the above table in the two great provinces.

It is estimated that at least 300,000 voters will take part in next Monday's parliamentary elections who did not possess the franchise in 1904.

George J. McArthur and William Thompson of Blind River, Ontario, are suing the News for libel in connection with a charge of fraud in the compilation of the voters' lists.

The Purty League of King's County, N.S., which is opposing Sir Frederick Borden's return to parliament, caused the arrest in St. John, N.B., yesterday of Herbert McKinnon. The charge against McKinnon is that he endeavored to induce Liberty electors, resident in St. John, to remain in the city on election day, instead of going home to vote. It is said the Canadian newspaper attempted the attempted bribe to the Conservative candidate for the riding—Peter Elson.

MONTREAL, Oct. 23.—Le Canada (Liberal) makes a forecast of the result of the elections based on the advice of its correspondents. It expects a majority of fifty for Sir Wilfrid Laurier. The Yukon is not included.

Local Pros Win Game

A picked team of Toronto professional players played Ray's actors, now at the Grand, an interesting game yesterday on the Brock-a-venue grounds. Toronto batted first and found Maxwell so freely that he was replaced by the southpaw Scanlon. The latter showing great improvement. Doonay Hardy was in mid-summer form, and the tourists could do nothing with him till both sides engaged in friendly loose play in the ninth. The day was fairly warm and a good crowd enjoyed the game. There was plenty of hitting and lost of fast fielding on both sides.

Enthusiasm was unbounded, and although Mackenzie King, following an hour's speech by Hon. Wm. Patterson, spoke for almost two hours, the audience still called for him to go on. There was a parade to the rink headed by the 29th regiment band. A magnificent bouquet was presented to Hon. Wm. Patterson and when it came to Mr. King's turn to speak six little girls, with sashes bearing the names of the Townships of Waterloo, Wellington and Woolwich, and the Towns of Elmira, Waterloo and Berlin, in turn handed him bouquets of roses which piled high on the table, and the cheering was deafening. Mr. King said this was the proudest moment of his life.

The meeting was presided over by Dr. Rosenberger, and the platform was occupied by prominent members of the Liberal party. The minister of customs made an eloquent appeal on behalf of the Liberal government. Mackenzie King's address began with replies to statements in the Conservative press, and to Premier Wilfrid Laurier's address of the previous night. He said the Conservative expectations in bringing the greater part of the provincial government here, had not been realized, had not been realized, had not been realized.

CLEVELAND AND CHEAP CAR FARES
On Wednesday the referendum vote
taken in Cleveland with regard to
the street railway franchise resulted
in a refusal to ratify the existing ar-
rangement, the majority against being
a little over 600 on a total vote of
75,000. Thus for the first time in the
long campaign for cheap street rail-
way fares Mayor Johnson's policy has
received a rebuff at the hands of the
citizens for whose interests he has
worked so hard and strenuously. The
set-back is certain, however, to be
only temporary, and its only effect can
be to postpone the complete munici-
palization which is bound to come. In
the meantime the long contest has been
reopened and some new arrangement
made necessary. This is to be regret-
ted, all the more so because it has
come in what was the final battle of
a campaign conducted with unex-
pected determination by Mayor John-
son and his advisers and supporters.

The understanding the nature of the
referendum vote it is necessary to re-
call that in April last the Cleveland
city council granted a franchise to the
Cleveland Railway Company for
twenty-five years. At the same time
the Cleveland Electric Railway was
consolidated with the Cleveland Rail-
way. Both companies were then leased
to the Municipal Traction Company,
which has since been operating the
transportation service. These three
transactions constituted the Cleveland
Street Railway settlement, and were
all interdependent. The lease provid-
ed that the traction company should
pay an annual aggregate rental of \$1-
368,886, out of which fell to be paid
\$483,450, as interest on the outstanding
debt of the Cleveland Railway Com-
pany, and \$885,436 as dividends at the
rate of 6 per cent. upon the capital
stock of the company.

Under the individual pledges given
by the stockholders of the Municipal
Traction Company, all earnings in ex-
cess of the cost of operation and the
fixed charges for rental and mainte-
nance had to go back to the public and
these profits were to be expended upon
improving the service, in reducing the
rate of fare and in acquiring the prop-
erty for the city. It was this part
of the obligation undertaken by the
Municipal Traction Company that ex-
cited the hostility of the whole fran-
chise-holding corporations in the Unit-
ed States and marked the Cleveland
arrangement as one that must be ex-
tinguished at all costs. From the be-
ginning the operations of the Muni-
cipal Traction Company were hamper-
ed in every possible way. At the start
it encountered a strike of its em-
ployees, who demanded an increase in
wages promised by the private com-
pany at the time when it was active-
ly engaged in its struggle with the
mayor, and there were other forms of
opposition to the three-cent fare which
caused temporary difficulties in addi-
tion to those created by the prolonged
industrial depression.

Yet despite all this the Cleveland
street railways showed continuous im-
provement, and there can be no rea-
sonable doubt that under normal con-
ditions the three-cent fare would not
only have easily paid all expenses and
charges, but earned free profits suffi-
cient to vastly improve the equip-
ment and extend the service. As it
was the saving to the citizens in car
fares was at a rate equivalent to \$1-
500,000 a year, it would scarcely have
been considered probable that a city
with more than a reasonable prospect
of transportation at three cents with
travel at five cents, this apparently
being the meaning of the vote.

A better explanation can be found
in the bitter opposition of the private
traction interests and of the blum-
ping companies threatened with a
similar fate to that which impeded
over the transportation companies, and
in the influence of the political oppo-
nents of the mayor. As the New
York Tribune recently remarked, "it is
as well understood outside Cleveland
as it is there that many of the troubles
are due to the bitter opposition of
the opponents of cheap street car fares
not all of whom live in Cleveland.
Plenty of money can be raised to fight
him on the special referendum election
on the franchise and in the courts."
Mayor Johnson is not likely to let up
his struggle and as the franchise to
the Cleveland Railway Company falls
with the rest of the traction arrange-
ment, it is in the power of the city
council to issue new franchises and
renew the fight for cheap car fares.

AN OFFICIAL THE CITY DOES NEED
There is no such generally appre-
ciated asset to a city's park attrac-
tions as a zoological garden.

Thanks to the public spirit of several
Toronto citizens, a splendid nucleus
of a large collection of animals and
birds has been provided at Riverdale
Park.

Thanks to inefficient care in the man-
agement of the zoo, the mortality has
been continual and excessive.

It requires experience and knowledge

to properly watch over beasts and
birds gathered from the wilds of many
climes. The announcement that the
Riverdale lions are doomed to an early
death should awaken the parks com-
mittee to the fact that an expert
curator of the zoo will pay for his
services many times over. But he
must know animals from the ground
up, and it is not unlikely that such
a man cannot be had outside one of
the great United States cities.

WANTING A "STRAIGHT" DEAL.
Lord Northcliffe said a word in
passing at the Canadian Club which
our high financiers would do well to
take to heart. Speaking of the view
that regards John Bull as an old fol-
low easily played with, he remarked
it to be a dangerous theory because,
he said, "there is this about John
Bull—if he once loses confidence, I
doubt whether he will ever regain it.
The goods you deliver to him must be
'straight' and they must be delivered
on time. Treat the British investor
well." Lord Northcliffe continued:
"Remember that stock, unlike gardens,
needs no watering and the question of
capital, generally the most burning in
new communities, will not disturb
you."

Attempts have been made to excite
the alarm of the British investor by
representing the determination of the
people of Ontario to protect them-
selves against the tyranny of public
service corporations as inimical to his
interests. It is far from being this.
The call upon such corporations to be
'straight' with the public they under-
take to serve is a protection to the
honest British investor, who knows
nothing of the history and proceedings
of the companies whose stock he is
invited to purchase. When it is re-
membered that in nearly every case
the cost of construction is met by the
bond issues and the common stock is
simply handed out as a bonus to pro-
motors, brokers and bondholders, to be
afterwards unloaded on the public, the
advantage of turning the light on
franchise-holding corporations becomes
clear enough. The Ontario public
wants and deserves a "straight" deal
from them just as much and even more
than the British investor.

PROHIBITION AND DRINK.

The following is an extract of a
letter received by a wholesale liquor
merchant from a well-known Glasgow
firm:
"With regard to Scott Act and local
option, we think that nothing does
more harm all round than measures
of this sort, as people who want
'drink' will get it in spite of all the
laws that ever were framed, and the
consequence is that a very large
quantity of very vile rubbish is sold
illegally to the detriment of the health
of the consumer, as also, the legitimate
trader suffers by loss of all his busi-
ness. At home here statistics prove
that the most drunken towns in the
restriction as to the sale of the great-
est Kingdom are those with the greatest
we understand the same applies to the
so-called prohibition State of Maine,
U. S. A.

"We trust that so far as Canada is
concerned the good sense of the people
will soon convince them of the absurdity
of this latest triumph of the
Canadian faddists—and further, if
the Compounding Act, which is now
on the statute books, and stop all now
fake bottling of brandies, rums, gins,
Scotch and Irish whiskeys, the public
would not be deceived in buying these
spurious brands. They would then
get the genuine bottling of reputed
distillers and the customs of Canada
would be greatly increased in revenue,
as the bogus brands are made up with
a low strength Canadian spirit, a
small portion of the foreign being used
for flavoring, on which the government
gets \$2.28, per case duty if the case
contains two gallons, which often it
does not. On the genuine imported
goods, which must hold two gallons
to comply with the law, the duty is
\$4.20 per case, therefore the difference

in favor of revenue to Canada on im-
ported goods is \$1.92 per case, and on
the number of cases imported yearly
into Canada of the various brands
this difference would run into millions
of dollars.

The Compounding Act not being
in force, this amount is lost yearly to
Canada.

JAMES TO GEORGE.
The Rev. J. A. Macdonald's reply to
George E. Foster's intemperate attack
against The Globe and The Globe edi-
tor appeared in yesterday's Globe under
the heading, "An Eleventh-hour Bluff."
As part of the news of the campaign, it
will be found to be interesting reading.
Here it is:

Mr. Geo. E. Foster has served notice
of action on The Globe and on Rev. J.
A. Macdonald in connection with three
articles which appeared in the Globe on
the 21st inst., one being Mr. Macdon-
ald's address at Orillia, the second the
editorial "Base and Dastardly," and the
third the first article "Another
Eleventh-hour Bluff."

This action on Mr. Foster's part
should be set down for what it is—an
eleventh-hour bluff. In the three ar-
ticles of which Mr. Foster complains
nothing is charged that was not charged
or implied in Mr. Foster's own
speech in the house of commons on
April 10, 1907. A speech in the house
is privileged, but its publication in the
newspaper is not. Every live news-
paper in Canada published that speech
virtually verbatim. The Globe and other
liberal papers of the country, as well
as independent papers commented most
unfavorably on Mr. Foster's conduct
as manager of the Union Trust Com-
pany in language similar to that em-
ployed in the articles now cited. His
conduct has been criticized adversely
from time to time ever since by such
of our newspapers as The Montreal Star
and The Toronto News, and the employ-
ing language quite as condemnatory of Mr.
Foster's business morals as has ever
appeared in the columns of The Globe.

These strictures have done repeated
more frequent and more insistent-
ly since the beginning of the
current campaign. Yet Mr. Foster
waits until within four days of the day
of polling before taking the step that
would have been timely eighteen months
ago, or almost at any time except now.
He knows that the issue cannot be
tried by means of an action for libel
that cannot be tried at the soonest for
weeks to come. Are we not justified in
calling his action an eleventh-hour
bluff?

When the trial does come The Globe
will welcome it. We have no personal
quarrel with Mr. Geo. E. Foster. Our
differences with him are wholly on pub-
lic grounds. We believe that his meth-
ods of procedure in handling money
that represented the lives and savings
of men who were making provision for
their wives and children proclaim him
to be unfit to be a trustee of the peo-
ple's interests in parliament, and the
more unfit him for the high position
which he aims, namely, the finance min-
ister of Canada. We shall be glad
of a trial which will settle the question
once and for all time, whether the paid
company handling his money, particularly
that of which George E. Foster was in
charge, may form one of a syndicate
to be united to a trustee of the peo-
ple and may still be regarded as a rep-
utable and honorable business man; that
he can be an honorable business man
while putting himself in the position
of standing to profit by a be-
nevolent trust; that the interests he is
guarding are those of the public; that
he has declared his interest in the
For-
est, and that his interest in the
For-
est, and that his interest in the

JAIL FOR CARD SELLERS.
Man Who Sold Obscenity by Wholesale Sent Down.
Athol G. Robertson, charged with selling obscene postcards and pictures and with sending them thru the mails, pleaded guilty in police court yesterday morning, and was sent to jail for 60 days. Robertson was one of the wholesale dealers.
P. V. Brown, who also pleaded guilty to selling, was sent down for a like term.
A. R. Wickett was acquitted on the ground that while the cards which he had were not exactly the thing for general sale, they were not vicious. A. L. Merrill, who has a number of stores, was let go, pleading that his cards had crept into his stock without his knowledge.
Albert Prouse went down for 30 days for selling, and Henry Goldenthal went free on the ground that his cards were not really bad.
Forest fires are raging north of Penel- lon Falls and near Haliburton. John Carew, a Lindsay millionaire lumber- man, has lost over \$1000.
GETS THE LASH.
WOODSTOCK, Oct. 22.—Ross Sum- mers, aged 20, who pleaded guilty to having attempted to assault two little girls, was sentenced by Magistrate Kingston this morning to two years in the Penitentiary and to receive 20 lashes during his term.
ODD ERROR IN WRIT.
Queen Instead of King is Written in Summons Form.
A writ of summons in the action of Biggar v. Kemp respecting a \$3000 mortgage before the master in cham- bers read in the name of Queen Victoria instead of King Edward. On that ground Thomas Hyslop, representing the defendants, moved that the writ be set aside. The master reserved judg- ment. A. E. Ross represents the plain- tiff.

OF INTEREST TO WOMEN

FAIREST OF RURAL MAIDENS.

Of fairest of the rural maid!
Thy birth was in the forest shade;
Green boughs, and glimpses of the sky
Were all that met thine infant eye.

Thy sports, thy wanderings, when a child,
Were ever in a sylvan wild;
And all the beauty of the place
Is in thy heart and on thy face.

The twilight of the trees and rocks
Is in the light shade of thy locks;
Thy step is as the wind, that weaves
Its playful way among the leaves.

Thine eyes are springs, in whose serene
And silent waters heaven is seen;
Their lashes are the herbs that look
On their young figures in the brook.

The forest, depths, by foot unpressed
Are not more silent than thy breast;
Thy holy peace that fills the air
Of those calm solitudes is there.

Georgina Home.

Georgina Houses, Incorporated, 106
Beverly-street, a home for women and
girls earning their own livelihood, will
be open for the reception of guests
about Dec. 15.

In the meantime the ladies who are
so deeply interested are very busy in
arranging for the furnishing of the
rooms, quite a number of which have
been taken by individuals who will
make their subscription in this com-
plete furnishing of one room under the
direction of the executive committee
of ladies. The linen and napery have
been undertaken in part by one group
of young ladies, and it is expected that
the complete furnishing of the house
will be accomplished in this manner of
subscriptions. The balance of linen and
napery, as well as kitchen utensils, cutlery,
china and the sitting-room furnishing
is yet to be provided for, and all
who are interested in this very laudable
work are requested to communi-

cate with Mrs. G. H. Broughall, chair-
man and treasurer of the executive
committee, or the secretary, at 13 Bor-
den-street, Toronto. A number of meet-
ings are being held in different parts
of the city, of which notices will be
duly given thru the press, and it is
most earnestly requested that those
who are at all interested will respond
promptly—"he gives twice who gives
quickly."

The officers of Georgina Houses, In-
corporated, are His Grace the Arch-
bishop of Toronto, honorary president;
J. A. Kammerer, president; Rev. Canon
Welch, vice-president; D. W. Saunders,
secretary-treasurer of the corporation;
directors, Rev. Canon Welch for
four years, J. A. Kammerer for three
years, Noel Marshall for two years, and
D. W. Saunders for one year.

An executive committee consisting of
Mrs. G. H. Broughall, Mrs. J. A. Kam-
merer, Mrs. St. George Baldwin, Mrs.
E. B. Brown and Miss Gertrude Brock
has been appointed, who have com-
plete control of the administration of
affairs in the house, and with whom
such sub-committees as they may ap-
point shall work together. Mrs. G. H.
Broughall is chairman and treasurer,
and Mrs. E. B. Brown is secretary;
they may be addressed at 13 Borden-
street, Toronto.

Home From the Convention.

Dr. Augusta Stowe-Gullen has re-
turned from attending the fortieth an-
nual convention of the National Amer-
ican Woman Suffrage Association, held
in Buffalo Oct. 15 to 21 inclusive. Dr.
Stowe-Gullen states that the convention
presented many features of great in-
terest: The diversity of subjects dis-
cussed, the brilliancy of the speeches,
the youth of many of the speakers, and
the British touch given to the entire
convention by the presence of two
Cambridge University graduates, and
Mrs. Philip Snowden, the wife of a
member of the British House of Com-
mons. Mrs. Snowden is one of the lead-
ers in the English movement, and is a

most attractive and convincing speaker.
Altogether the convention was not only
unique but a great intellectual treat.

Furs and Fur Garments Signalize To-day's Showing at Rea's New Store for Women

NOT one woman in a hundred, perhaps, considers herself sufficiently versed on the subject of furs to pass judgment unaided. And yet the amount of service expected of goods of this character makes reliable information of special importance.

A thorough knowledge requires practically the study of a lifetime.

Every fur possesses certain specific qualifications which determine the degree of its suitability for any particular use.

The new REA store offers for to-day an exposition of fashionable furs and fur garments which would alone establish for all time the standing of this specialty store for women.

Authentic information will be given by experts, upon which you can rely without question. Suggestions as to the best fur for your purpose will be gladly offered if desired.

In so important a purchase make your selection with deliberation. You will find ample opportunity in this, the most advanced fur department in the Dominion.

Please feel very free to inspect to-day's showings, whether ready to purchase your furs or not.

In the Realm of Music

SHEFFIELD, Eng., Oct. 23.—Amid great excitement, cheering and singing of "God Save the King" in Canada, the Sheffield Choir left here by special train this morning to board the Gramplan, which is due at Montreal Nov. 2.

The visit of the Sheffield Choir, recalls the fact that the north of England and the north of Canada are of equal quality of voice, has been the principal home of choral singing in the world. There have been singing societies in Yorkshire for one hundred and twenty years, just as there have been choral societies for sixty years. It remained for one genius to take full advantage of all the facilities afforded by the vocal quality of the north and to raise the fame of Sheffield and Yorkshire, which was already high, to a pinnacle which no other city, district or country in Europe has approached. Dr. Coward and the Sheffield Choir party, numbering two hundred and thirty, are now on their way to Canada for the most momentous undertaking known in Canadian history.

For the Toronto concert in Massey Hall on November 5, 6 and 7, the subscription list is now closed with the widest response ever accorded an event in Massey Hall. The numbers coming from outside places are the largest yet known, and include lovers of music from Stouary on the north, Bay City, Detroit, Sarnia, Goderich on the west; Napanee and Brockville on the east. While there will be few of the dollar seats left after the subscribers have made their choice, there will be many good locations at \$2.00 and \$1.50 to choose from on Saturday next when the public sale of seats begins.

A class in Dawson-street school has been closed by Dr. Shears on account of three cases of scarlet fever.

INDISPENSABLE TO MOTHERS.

"I am satisfied that Baby's Own Tablets are indispensable to mothers," says Mrs. Abraham Boucher, Pierrefort, Que., and she adds: "Before using the Tablets my baby was cross, peevish and not thriving well; but the Tablets have worked a great change and my little one is well and happy." This is the verdict of all mothers who have used these Tablets. And better still, mothers have the guarantee of a government approval that Baby's Own Tablets are absolutely safe—that they contain not one particle of opiate or poisonous soothing stuff. Sold by all medicine dealers or by mail at 25 cents a box from the Dr. Williams Medicine Company, Brockville, Ontario.

In The Churches.

The pulpit of Elm-street Methodist Church will be occupied to-morrow as follows: Rev. George A. Mitchell, B.A., will preach at 11 a.m. Subject, "Sowing and Reaping," and Rev. Kenneth J. Beaton at 7 p.m., subject, "The Greatest Labor Union." Miss Jessie C. Perry will preside at the organ, and Mr. Carnahan will conduct the singing.

Rev. E. J. Kennedy of Boscombe, England, who held a series of noon-day services in St. James' Cathedral last week, will, by request, give another week of these services in the same place, beginning Monday, Oct. 26, and ending on Friday, 30th. The services will be for men only, and will be held from 12.30 to 1.30 p.m.

Rev. Vernon H. Cowart of Western Baptist, Lansdowne-avenue, will speak Sunday morning on "Christian Responsibility," and in the evening on "Love Unending."

The formal opening of the church basement of the Westmoreland-avenue Baptist Church, corner of Westmoreland-avenue and Hallam-street, will take place to-morrow, in the afternoon. The services on Sabbath will be completed. The organ and bath will be unusually interesting and profitable, and doubtless will be very largely attended.

Rev. C. J. Boulden, M.A., D.C.L., of Nova Scotia, for nearly three years, assistant minister at St. James' Cathedral, is in very poor health. He has just undergone an operation at the Victoria Hospital, Montreal, but his condition is not so good as his friends had hoped.

Rev. William F. Adams, M.D., D.D., of Toronto, has been appointed by the Reformed Church of the United States to the superintendency of their mission hospital at Honan, China.

Dr. Adams has spent four years in Western China in the service of the Canadian Methodist Church. He sails for his new charge in December.

AT THE THEATRES

Charles Dillingham will Monday night present at the Princess Theatre a new musical play entitled "The Fair Co-Ed," with Miss Elsie Janis as the star.

Charles Dillingham has furnished a production worthy of his own reputation in this respect. There are three acts in the piece, all by Homer Himes.

Among the principals are such well-known people as Arthur Stanford, Sydney Jarvis, Edgar Halstead, H. David Todd, Louis M. Jones, James Ransay, Donald McLaren, Harry Clarke, Leavitt James, Stewart Blecknap, Inez Bauer, Rose Winter, Marion Miles and Eleanor Pendleton.

The music of "The Wedding Day" is of an unusually high standard, and is sure to appeal strongly to the patrons of the Royal Alexandra.

At the Alexandra. One of the choicest comic operas presented this season by the Imperial Opera Co. is "The Wedding Day," the attraction selected for their ninth week, which starts to-day's matinee.

The story of "The Wedding Day" is laid in Paris and the surrounding country in the year 1649. It deals with a young Frenchwoman, Lucille De Herbay, who has been sent by the queen to secure certain valuable papers then in the hands of the Frontis at the home of Madame De Montbazou.

At the Majestic. "Shadowed by Three," the latest melodrama by Lem B. Parker, will be seen at the Majestic next week. W. F. Mann, the well-known producer, promises one of the most original and novel spectacles ever presented by him.

At the Grand. George Barr McCutcheon's famous play "Graustark" is one of the dramatic successes of the year, critics claiming that it is the most fascinating drama presented to theatregoers in years.

At the Grand. The election returns will be received by special wire at the Grand Opera House on Monday evening and announced from the stage before, during and after the performance of "Graustark."

Toronto, Oct. 23, 1908.

To the Electors of North Toronto:

Practically the last gun in the Campaign has been fired, and it only needs that our vote be polled and Mr. Foster is sure of election by a large majority. It will assist our organization very materially if our friends come out, and as many as possible vote in the forenoon.

We know there is absolutely nothing in the slanderous insinuations and statements published in this city and elsewhere relative to Mr. Foster's personal character—and I earnestly urge our friends to show by their support of Mr. Foster on Election Day that they resent the manner in which our opponents have sought to win this fight.

Yours faithfully,
W. K. McNAUGHT,
Chairman North Toronto Executive Committee.

In the trade as regards tobacco, sugar, starch, cereals and canned goods, were very bad. He said Col. Davidson, and he had gone to Montreal in 1884 to get the wholesalers to agree on making all the wholesalers had agreed to, and the retailers paid the extra two cents. Mr. Ivery was the first president of the association of wholesalers, and the first work of this body was to get a rebate of 1-8 cent on a pound of sugar.

Going on to speak of the charge that the equalized freight rates discriminated against certain small places, the witness said that the freight rates were made by the roads themselves before the railway commission was formed, and these rates varied with the amount of competition in the different places. He knew that goods could be shipped to Vancouver cheaper than to Calgary. Mr. Blain said the guild was formed because the sugar and tobacco prices were below cost to the wholesalers, and everybody was cutting prices.

In the afternoon sitting Mr. Blain said that the principal objection which the guild had to the Canadian Wholesale Grocers of Hamilton joining was because they were a body of retailers banded together. He told Mr. Blackstock he had been one of the most active of the wholesalers in guild work, and that he had sat thru the four days of the trial he had not seen any evidence as to a combine. He admitted that certain retailers were interested in his business and prided himself on that fact, and was looking for more of them. He said that the way the profits were made after the formation of the guild was by getting the goods from the manufacturers at reduced prices, and selling at an advance.

"You had some retailers interested in your company and handed your goods over to retailers and yet as a member of the guild you did not think yourself disqualified by doing so, when you thought that of Mr. Zealand of Hamilton?" asked Blackstock.

"That was an entirely different thing altogether," said Mr. Blain. Blackstock wanted to know if Mr. Blain had had a hand in the arrangement to discourage the importation of foreign sugar and the fixing of prices for that sugar. Mr. Blain answered that he had.

"Then," went on counting, "it is not a fact that under that agreement you and your associates on the list were the only persons who stood as middlemen between the refiners and the retailers?" Mr. Blain replied that there were many jobbers who also handled that sugar.

Confined to the Guild.
Witness admitted that except in a few cases where old customers were concerned members of the guild were the only ones who did share in that agreement. He also admitted that the

guild stood by the agreement to refrain from selling and to discourage the importation of sugar. Witness admitted that that meant practically a monopoly as far as that was concerned, but he thought it should be qualified by the fact that there were many members who did not stand by that agreement.

"We went further," said Mr. Blain, "and agreed not to handle refined sugar except it came from those refiners in the agreement. We still continued to import raw sugar."

Mr. Blain admitted that the rates to small places where there were no competing warehouses were higher than to the larger places, where wholesale houses were established, such as Colingwood, Hamilton, London, Barrie, etc. To these places the stuff would have to be sent from the distributing centre at the same rate as it could be brought on from Montreal.

Cross-examined by Mr. Johnston, Mr. Blain said that the manufacturer was the man who fixed the profit for the retailer. Their only efforts along this line were to induce the manufacturer to list goods so that the retailer could make more money. "We have been trying to improve their condition as much as we could," he said. Wholesalers were interested in the price of goods—for instance, because formerly the big jobber could get in a big shipment of sugar, put placards up in his window and sell it at any price he liked. Now there was no more such slashing. The object of the formation of the guild was to improve and strengthen Canadian industry, and that it was not taken against the importation of foreign sugars was along the lines calculated to do that.

Agreement With Guild.
Charles Corby, the head of the Corby Commission Company of Orange, N.J., with headquarters in New York City, was then called by the defence. The old firm had been called the Pacific Selling Company, the company which Mr. Zealand claimed had practically refused to sell him goods.

Questioned by Mr. Osborne of Hamilton, one of the counsel for the defence, he said that he always distributed his goods thru wholesale grocers, as he considered that the proper channel for the products to reach the public. He established a price at which certain brands of canned stock were to reach the public, by which he was to sell only to members of the guild; outside jobbers would have to pay a higher price for the product. He had spent the years from 1901 to 1904 inclusive on the Pacific coast looking after the business there. He returned to New York in March, 1905, to assume the general management of the business, and found that the Canadian trade had fallen off. He came over here soon after, and finding that the guild was exercising a big influence in trade, he formulated the agreement with them. He had, however, sold to others besides the guild men, mentioning the names of Lumsden Bros. of Hamilton and George Robertson of Kingston. He said that in the United States there were many wholesalers who had a retail counter. These men were recognized as jobbers and sold to as such.

He said that the first sales which had been made to the Wholesale Grocers of Hamilton, which Mr. Zealand spoke of in his evidence, were made while he was on the Pacific coast, hence before his time, and, continued, that as he understood that firm he would not sell to them as he considered them simply retailers, and that if selling to that class of trade was continued it would ruin the trade. There were arrangements with the trade in the United States.

"By the medium of guilds?" asked the lawyer.

"We have no guilds in the States," answered the witness.

"No, they call them trusts over there," murmured George Blackstock, sotto voce.

Question of Refusal.
Mr. Blackstock asked him if he had not refused to sell to the Wholesale Grocers of Hamilton because the guild had made its selections. Mr. Blain answered that personally no one had made any such statements to him. He might have heard his agent say something about that, but he was not responsible for that.

"Of course, you are responsible for that," sharply retorted the lawyer.

"Well, you aware that you had no knowledge of that complaint from the guild?"

"I'll swear to the best of my knowledge I never heard of it," returned the witness. "He would not sell to a retailer if he was selling to the wholesale trade, as, speaking generally, he was afraid of the wholesale trade."

Let us define things for you, Mr. Blackstock," continued the witness. "The packer fixes the price to us at what we must as a retailer, and we fix the price at which the retailer gets them from the wholesaler."

"That is all hard and fast, then?" retorted the lawyer. "Everything is fixed until the goods get to the consumer, and then there is freedom at last."

CHILD HURT ON WHEEL
Kathleen Faulkner Caught on Passing Rig and Was Thrown to Pavement.

Suffering from shock, the not seriously hurt, little Miss Kathleen Faulkner of Summerhill-avenue was carried by a stalwart stranger into H. N. Winters' drug store on Yonge-street, just north of the C.P.R. tracks.

Cottingham School had just been let out and the children had come tripping along to Yonge-street hot-foot for the dinner table. Kathleen, who is about 15 years of age, carried a false and a buggy just opposite the Rosedale Hotel and ran to catch on.

The vehicle was not going very fast, but in getting on the little girl's foot slipped between the spokes of a wheel. She let go and was thrown to the pavement with the wheel within an ace of passing over her body.

A crowd of men hurrying home from work soon gathered, who, not knowing the circumstances, began to murmur against the driver. The girl was thought to be seriously hurt, but the damage went no further than a torn stocking and a few minor hurts.

IN DANGER FROM FIRE
Udora and Zephyr Neighborhood in Peril.

UXBRIDGE, Oct. 23.—Bush fires are raging in the surrounding country. Valuable timber sections are in danger, as well as farming properties.

At Udora, a village to the north of here, a fierce fire is raging, which, up to the present, has destroyed houses and is creeping close to several large barns. People in the neighborhood are fighting it with water.

At Zephyr, a village to the northwest, a number of men are watching the station to prevent the fires spreading to the elevators. Large clouds of smoke continually pass over this town.

SHAW WILL WIN

W. H. SHAW
Liberal Candidate for North Toronto.

A RESIDENT OF NORTH TORONTO.
W. H. Shaw has lived for sixteen years in Toronto, all but a few months of this time in North Toronto. His opponent lives in Ottawa.

A SHAREHOLDER IN TORONTO.
What is Toronto for representation purposes but a big business concern? W. H. Shaw has a big business stake in Toronto. As far as known, his opponent has not a cent at stake. Who is going to make the better director?

A REAL REPRESENTATIVE.
That the Laurier Administration will be returned on Monday no one doubts. The independent press is unanimous in this opinion. North Toronto has had twelve years of being against the Government. It is time we had real representation.

A BUSINESS REPRESENTATIVE.
W. H. Shaw has been trained at the directors' table to do business, to talk by the minute, and not by the hour. These eight-month sessions and waste of the country's money will not stop until we get men who make a business of business, and not of politics.

A TRIED MAN.
W. H. Shaw served Toronto for five years as a member of the Board of Education. The fourth year he was Chairman of the Board. Not a fault was found with his work.

A HARD WORKER.
W. H. Shaw has always had the reputation of being a worker. He will be with the Government—not against it. He will do things for Toronto.

A CLEAN MAN.
Not a word has been said against Mr. Shaw's public or private life. He is not a recluse. He has large business interests, has been trusted with the handling of large sums of money for others. He stands today in his prime, and with a clear record. What more can we ask of a representative?

A SUCCESSFUL MAN.
W. H. Shaw has risen to the top in his business, and he offers himself for public service to represent Toronto because Toronto has helped him to his success. He is not in politics as a last resort for a livelihood, but to turn to Toronto's advantage some of the means and ability which he rightly believes belong to Toronto. A successful man breeds success. He will be sure to serve us to our advantage.

ONE OF OURSELVES.
There is no necessity for North Toronto to peddle its representation, like some country village. This riding is in the highest degree representative of the intelligence of the Canadian people. We should be able to give the highest type of men to public service. We will get them only by encouraging good men when they do come out.

LIKE THORNS IN THE FLESH

Are the Sharp Twinges and Tortures of Rheumatism—Dr. Williams' Pink Pills a Certain Cure.

The twinges and the tortures of rheumatism due to cold, damp weather as so many people imagine. Rheumatism comes from poisonous acid in the blood. The pains may be started by cold weather, damp weather or keen winds. There is only one way to cure rheumatism. It must be treated through the blood. All the liniments and fubbing, and so-called electrical treatment in the world will not cure rheumatism. The acid that causes the disease must be driven out of the blood and the blood enriched and purified. It is because of this that Dr. Williams' Pink Pills make new, red blood that they have cured thousands of cases of rheumatism after all other treatment had failed by a proof. It was Dr. Williams' Pink Pills that did what in the most severe cases of rheumatism, the case of Mr. David Carroll, a well-known furmurer, dealer in Pictou, N. S., may be cited. Mr. Carroll says: "I have been a most severe sufferer from rheumatism, and in the hope that some other poor sufferer may find relief from my experience, I gladly write you of the benefit I have received from Dr. Williams' Pink Pills. The trouble settled in my shoulders and down my sides, and at times I was quite unable to raise my arm. I was attended by a doctor, but as I did not appear to be getting any better I sent for a so-called electric belt for which I paid \$40.00. It did not do me any good and then I tried another remedy, but without any better results. A friend asked me to try Dr. Williams' Pink Pills, and I got three boxes. By the time I had used them all I found the stiffness and pain less severe, and I got another half dozen boxes. When I had taken these, every symptom of the disease disappeared, and in the two years that have since passed, I have had no return of the trouble. I believe there is no other medicine equal to Dr. Williams' Pink Pills for curing this most painful trouble, and I have recommended the Pills to others who have not benefited by their use." Dr. Williams' Pink Pills not only cure rheumatism, but all the other diseases due to poor watery blood, such as anaemia, indigestion, nervous disorders, neuritis, neuralgia, paralysis, and the ailments of childhood and womanhood, with their headaches, backaches, sideaches and attendant miseries. Only the genuine Pills can do this and you should see that the full name "Dr. Williams' Pink Pills for Pale People" is on the wrapper around each box. Sold by all medicine dealers or by mail for \$2.00 a box or six boxes for \$2.50 from Dr. Williams Medicine Company, Brockville, Ontario.

SEEKS THE PROMOTION OF VOTERS' INTERESTS

MacDonnell, South Toronto Candidate, for Political Uplift—Liberals Applaud Him.

With stern and effective language driving home, to the plaudits of the audience, the points of difference in the national political situation, the candidate for South Toronto, A. C. Macdonnell, and other politicians addressed one of the most representative and enthusiastic gatherings last night that has crowded a hall to its capacity in Toronto. The meeting was at Macdonnell Hall, Queen and Peter-sts. Liberals were there to a goodly percentage, which was manifested by utterances before the speaking was begun. But as the propositions before the people were broached and argued out they joined with the Conservative element in expressing their sentiments of applause for a government that promised a reformation of public maladministration. As Mr. Macdonnell stepped to the platform the crowd burst into song and hurrahs and seemed for a time uncontrollable. Mr. Macdonnell made a modest appeal to the voters. He spoke of the alleged desire to make it plain that he, if elected, would represent the people, regardless of partisanship, in their interests. Hon. Thomas D'Almeida, an international representative of labor organizations, and a young man who seemed possessed of a large knowledge of the laboring man's interests, spoke of national and international problems that beset the working man. A REMARKABLE RECOVERY.

"Until three years ago I was the picture of health—then I became what people call Neurasthenic. I grew sleepless, worried, lacked will power, felt great physical fatigue, experienced fears and feelings of danger, and something unknown. All the time I grew thinner and weaker, felt so nervous that I felt the end must be near. No medicine helped, each one seemed to suggest 'Ferrozine'—it was a fortunate chance, because I improved at once. I gained weight, enjoyed my nervous fears. The way Ferrozine cured me is surprising—it made a new man of me and now I look good for twenty years to come."

Single Court. Before the Chancellor.

Hadley v. Elder. Judgment. This is a partnership action and before defence the plaintiff applied for upon notice to the defendant and obtained an order for the appointment of a receiver. The terms of the judgment were that a receiver was to be appointed and the name of the officer, if not agreed upon, was to be settled by the registrar. Before the name had been ascertained and before the order was made, the defendant applied for plaintiff filed and served notice of discontinuance under C.R. 430. After notice of filing and serving the order had been given by the plaintiff, the registrar proceeded to issue the order appointing Mr. Clarkson receiver. He took possession of the partnership property and assets until the plaintiff served notice that they dispute his right to be in possession or to deal with the assets. The receiver thereupon applied to the court for direction, on notice to both parties.

The effect of the notice of discontinuance before defence is to end this particular litigation so that the proceedings taken to complete the appointment of receiver were per incuriam and without foundation. The order justified the receiver in taking possession, but in the face of the discontinuance being brought before me I cannot do anything but direct him to withdraw from the possession. His

Chief of U. S. Weather Bureau Says It's Charlatanism.

WASHINGTON, Oct. 23.—In a statement to-day Willis L. Moore, chief of the United States weather bureau, says that rain will fall in New York and New England to-morrow in sufficient quantity to extinguish forest fires.

Prof. Moore points out that all efforts of artificial nature to cause rain are but "one of the worst forms of charlatanry and quackery that the world ever witnessed in the strongest terms the efforts of those who take advantage of a public necessity for the purpose of exploiting themselves or securing pecuniary gain."

\$10,000 for an Eye.

The suit of P. J. Cafery v. the Toronto Railway Co. to recover \$10,000 damages for the loss of an eye will come up in the non-jury session on Tuesday. Cafery lost his eye while repairing a car thru a piece of steel flying from an old bolt. He claims that if the foreman had not ordered him to change his method of doing the job, the accident would never have occurred.

The elder Crozier will not be taken from Milton to Kingston until after the elections, as a sheriff's element in a D. R. Quebec, the somewhat narrower one than in 1904.

The Herald's correspondents predict the following standing:

Ontario 54 32
Prairie Provinces 3 15
British Columbia 2 5
Nova Scotia 2 5
New Brunswick 4 9
Prince Edward Island 2 2
Quebec 15 50

Totals 88 132
Total Liberal total, 44.

In Quebec the 88 seats there are six where there is no opposition or opposition only from independent supporters of the government. Of the ten seats held by the Conservatives in the last parliament they are practically certain to lose Dorchester, and should lose Huntington. On the other hand among the great number of Liberal members of the last parliament, which they held in the last parliament, who are running again, there is always a possibility of a certain percentage having worn out their popularity, or relying over much upon it.

Few there are who are not of the opinion that, no matter what the result may be through Canada, the Conservative following in Ontario will be greater than in the house recently dissolved. During Mr. Borden's recent tour of Ontario, not the least popular with the public were the speakers who represented the Ontario Government, showing that the Whitney influence, which has been thrown behind Borden, is a potent factor. When the returns are all in on Monday night it will probably be seen that the Liberals have lost the following seats: Borden, in the last parliament, the Conservative following in Ontario will be greater than in the house recently dissolved. COBALT --- A Big Strike Reported at Gowganda Lake --- COBALT

LISKEARD PROSPECTORS MAKE A BIG FIND

Strike Valuable Claim at Gowganda Lake Near Well-Known Mann Property.

The Temiskaming Herald says: A prospecting party composed of Messrs. Rub. Armstrong, Louis Marquet and Charles Watson, hit upon a vein of native silver at Gowganda Lake last week and after stripping it for over 300 feet and gathering a fine showing of samples, came home to tell the story of a few of the young fellows who were with them on the ideal.

The original syndicate was composed of ten shares to-day is worth, it is thought, as much as \$10,000. The boys put into the expedition about \$20 each. Originally the syndicate was composed of Rub. Armstrong, Jim White, William Haines, Len Hill, M. Abraham and S. S. Ritchie, Jr., and R. G. Zahalan. The latter two had, however, sold their interests to Mr. Will Taylor before the discovery was known. Mr. Ritchie parted with his tenth for the sum of \$200. On Wednesday Mr. Haines was offered \$1500 for his interest, but of course refused. "Why, I could have got \$8000 for my tenth interest before I left the property," said Mr. Armstrong.

"It is said that you were offered \$150,000?" was asked.

"We were not exactly offered that amount," was the reply, "but there was a company organized there who had some experience in the flotation of properties and he said that if we liked he was sure that he could dispose of the property for a figure of that kind," said Mr. Armstrong.

The property in question lies on the shores of Lake Gowganda. It is bounded on the west by the well-known Mann property, on the south by the Bloom Lake Mining Co. claim, on the north by what is called the Mine claim and on the east by the lake. The first showing was but a trace of cobalt, but when the vein was struck by Mr. Armstrong and considered worthy of investigation. A very narrow vein was discovered and the three leads set to work stripping. They worked for a while with no very definite results, when a couple of trees were uprooted and there before them were the samples of the native. The little nuggets were not in place, however. They were float matter from the real lead. The fact that there was native silver in the neighborhood set the boys to work like beavers ripping the covering off the vein and in a little while the good stuff was found in the vein.

A trip was made for steel and dynamite and three shots were put in. That was all that was necessary. It uncovered a vein on the surface three and a half to four inches in width and chucked full of silver. The gang then set to work to do systematic stripping. The vein was uncovered for a distance of 300 feet till it seemed to pinch out at the foot of a hill of solid rock. A trench was accordingly run on the other side of the hill and the vein was again discovered. It was naturally inferred that the silver lead runs right thru the mountain.

At another point a distance away a second vein was found which parallels the main discovery, but which has not yet been sunk on and does not give the same showing.

The three men put in just eight days' work on the claim.

Cobalt Gossip.

Wallace & Eastwood say at the close of the market: Temiskaming was the strong feature of the market to-day, advancing from last night's closing 38 points, and selling as high as 151. It re-acted somewhat, but closed strong at 140. The rapid advance which it had is no doubt due to the fact that they struck their vein at the 250 foot level. 4 1/2 inches wide of high grade ore. There was considerable demand for Silver Leaf around 1 1/2 and 36, and we think the advance which Temiskaming has had will reflect itself in Beaver in the near future. Rochester is in good demand around 21 1/2, and with less offerings than there have been for some days past. Nipissing was strong and advanced to 9 7/8 with very little stock being offered on the rally. It would not surprise us to see this stock sell much higher. Cobalt Lake also seems to be in demand, with considerable selling at 18 cents.

London Wool Market.

LONDON, Oct. 23.—A sale of 337,337 Cape of Good Hope and Natal sheepskins was held here to-day. The offerings were in fair condition and the attendance was large, but bidding was slow and there were large withdrawals. Long-wooled skins were unchanged at 1-8d higher; short-wooled unchanged and good; shorn grades sold 1-8d to 1-4d. Inferior grades sold in buyers' favor.

Temiskaming a Buy--Not a Sale at \$1.50.

I called this stock with Chambers-Perland and some others for \$2.00 with a few months ago. The next dividend, together with some facts that will be published shortly, will put this stock at \$2.00 per share.

FOSTER SHAREHOLDER.

Advices His Fellow to Retrain From Selling Their Stock.

The writer of this, a small shareholder in this company, has watched the actions of the market manipulators of this stock with considerable attention during the last several months. Several advances and declines have taken place during this time, the decline in price, however, has very largely been the result of market manipulation by those who wish to secure the "Foster" shares at a low figure.

Various means have been taken to bring about the desired result, innuendoes and false reports among them. The Forest management have been going right on "sawing wood" regardless of market quotations, their business unlike that of the manipulator being to develop a territory and to improve the value of the property to the shareholder.

Foster stock dropped with the general market in the great slump of over a year ago.

Left to itself it would have reacted with the result of the market, Foster being the market leader, and his certificates widely distributed, was naturally selected by the manipulators as a safe stock for them to handle in this way.

They did not want "a dead one" but one of sufficient buoyancy to rise itself immediately the drags were taken off.

Such a stock is "Foster," and the minute the manipulators get most of the stock back at panic prices, which they sold to the public at a handsome profit, they are ready to go up and up to stay.

Then the rumors so long current to the detriment of the property will be promptly refuted, and the favorable news so long suppressed will be allowed to reach the ears of the public, greatly to the chagrin of those who have sold their birthright for a mess of pottage.

The writers' hearing so many ill reports concerning this property, would not have been surprised, on his visit to the property, to see evidences of business incapacity in the general working of the mine; however, the contrary was seen.

In every department work was proceeding quietly and steadily, no "soldering" on the part of the employees was noticed, the buildings and plant generally was in perfect order, method and general order seemingly prevailed. Let us compare Foster with another property of similar acreage and locality, namely, Crown Reserve.

Considering capitalization and present quotations the market value of these two mines is in a ratio of 8 to 1. Crown Reserve is undoubtedly a rich mine, and the shares worth what they are quoted, but there seems to be a great disparity in the price of Foster ore compared with this one. Surely Foster should be considered as worth more than an eighth that of Crown Reserve.

The present Foster management, differing from the previous one, are not running the mine for market effect, but handling it as a straight business proposition. The extensive development work now quietly going on will probably result in the finding of several new rich veins; the proven richness of the adjoining properties being a sufficient reason for this statement.

Prominent engineers a year or so ago reported Foster as having twelve proven veins with a large ore body in sight. This ore not having been shipped must still be on the property. Foster ore is reported to be very "lean." However, what has been shipped has been rich enough to forward, without concentrating, comparing very favorably with other shipping mines in this respect.

About a year ago the Trethewey mine was a discredited property, making very few shipments with the stock selling as low as 48 cents. Rumors stated it was "a low grade proposition" and would never pay the expenses of mining.

Holdings of stock were advised to sell out and get into some good company. A great number followed this advice to their regret, the writer among them. But the Trethewey management kept right on working steadily at their development work, as Foster is now doing, and when they got the property into shape to mine they ore economically they started to ship again, and are still shipping, and their ore is not all low grade by any means, but good enough to pay a nice quarterly dividend, with the stock selling around \$1.50. The limit is not yet reached by any means, as many brokers freely predict \$3 per share for this stock.

Who will get these Trethewey dividends and good big prices for their stock when they choose to sell? Why the manipulators, of course, who advised us to sell!

Now the same process of freezing out is now going on in Foster, and time alone will tell how successful the operation will be. If you sell out now you get a mere pittance of what you paid for the stock, but if the property makes good (as unbiased authorities state it will), you will be able to sell at a nice profit. Mining is at best "a gamble," however, but the chances are at least four to one in your favor in this case. Take your chance and play the game out or turn over your certificates to the interests who are quietly accumulating this stock at their own price.

If you have any doubts, go to Cobalt and see the property, then use your own judgment.

THREE CANADIAN RAILWAYS.

Some Ottawa Political Views Sent to a Boston Paper.

A despatch from Ottawa to the Boston News Bureau says: Canada is in the throes of a fierce political conflict, Sir Wilfrid Laurier and the Liberals have now held undisputed sway for 12 years, and fortune has smiled upon their reign.

The great gold discoveries of the Yukon, the wonderful mining, lumber and agricultural developments of British Columbia and the opening up of the most prolific wheat and pasture land in the world in the Saskatchewan Valley have given Canada an era of wonderful prosperity.

The Canadian Pacific and the Canadian Northern Railways have bridged the prairies of the Canadian Northwest with railroads and herds of American farmers have swarmed into this new El Dorado. The Saskatchewan Valley has embraced a territory more extensive than the Rhine and the Danube, and a territory that possesses richer and more extensive resources than the entire German and Austrian combined. The opening up of this wonderful country has awakened Canada to a realization of her stupendous possibilities and put a new soul into her people.

The Liberals claim the credit and all the glory of these developments, but the Conservatives, on the other hand, assert that it was their fiscal and liberal railroad policy that induced this great development, and they point to the waste and extravagance of the Liberal regime. The great blot on Canadian public life is the spoils system, which supplies must be bought from Liberals and all contracts and concessions and offices must be bestowed on the Liberal party in power. This fulfollowing the party in power. This has led to the Grand Trunk Pacific R. R. project, which now threatens to wreck the Laurier government.

The Tories gave the Canadian Pacific \$25,000,000 and 25,000,000 acres of land. This great subsidy was so widely used that it has enabled the Canadian Pacific to become one of the greatest and most perfect transportation systems in the world. The Canadian Pacific circles the globe with its cheap and best transportation in the world.

The Canadian Northern Railway is another system of which Canada is justly proud. This has been up-built by Mackenzie & Mann, the 5000 miles empire builders. They have 5000 miles of railway, and the bonded indebtedness of this railway is only \$1,000,000. They have a fixed charge for the railroad equipment, great terminals, elevators, express company and Pacific's freight charges are but \$550 a mile, while Grand Trunk has \$2100 a mile. Wabash has fixed charges of \$2250, Erie \$3000 and New York Central \$3350.

The Grand Trunk is an English-managed railroad and its obligations reach \$100,000,000, while Canadian Pacific's are only \$34,000,000 and Canadian Northern's \$28,000,000.

Montreal should become the great commercial emporium of the North American continent. It is 700 miles shorter to Liverpool or Hamburg from shorter to Liverpool or Hamburg from shorter to St. Paul by rail and water than through Montreal and New York. All grain or merchandise originating in the West, or coming from the West, can be shipped more speedily and more economically thru the St. Lawrence route than thru New York or Philadelphia or Baltimore.

The building of the Georgian Bay Canal and the construction of additional first-class railroads from Georgian Bay to Montreal will divert the commerce of the American north to the St. Lawrence and the Canadian west, but also the only of the American north and low-distance, grades, waterways and low-capitalized railroads all favor Canadian capitalization and the exceedingly able men at the head of the Canadian Pacific know this and are guarding themselves for supremacy in the transportation business of the North American continent.

The Canadian Northern system mapped out for the best railroad route across the American continent; when it is completed from Montreal to Vancouver its maximum grades from ocean level will not exceed 4-10 of 1 per cent, and it will cross the Rockies at an elevation of 3500 feet, while Union Pacific has to climb 8000 feet.

President Hays of the Grand Trunk has long been ambitious to run his railroad to the Pacific, and the Dominion govt. he to him to reach the Saskatchewan valley, the Peace River country and the Pacific.

The Canadian Northern had already bridged the distance from Lake Superior to the Rockies, and Mackenzie Mann wanted government aid to build from the prairies to Vancouver. President Hays of the Grand Trunk had a route mapped out that would open up a prolific wheat and cattle country thru 1500 miles of prairie, and by which he could obtain a short mountain route, not exceeding 250 miles to the Pacific. This Grand Trunk route was north of the Canadian Northern and thru an unoccupied country.

The Dominion has had in operation for forty years the Intercolonial Railroad, running from Ottawa to Montreal and Halifax. This government railroad has never earned operating expenses, and both the Grand Trunk and Canadian Northern were ready to make it valuable traffic arrangements, were the government to aid them in building to the Pacific and perfecting or building their lines from the lakes to Montreal.

It was in line with the railroad policy of the Dominion to guarantee the bonds of both the Grand Trunk and Canadian Northern to enable them to expand and build up railroads across Canada from ocean to ocean. A guarantee of bonds and small cash subsidies would have enabled the Grand Trunk and Canadian Northern to build their lines with very low capitalization. It would have enabled them to build where railroads were needed, and to build up railroads across Canada from ocean to ocean. PARKDALEANS UP IN ARMS BUT FEARS WERE REMOVED

Appeal Against Assessments Was Dismissed and Delegation Heaved Sigh of Relief.

A large delegation of Parkdale property-owners appeared before the court yesterday afternoon to resist the attempt of Norman Ford, 96 Dunn-avenue, to have the assessments raised on their property. But Mr. Ford was absent, and the court dismissed his appeal, whereupon the visitors departed very well satisfied.

For some time before the assessment on his property was too high by comparison with that of land in the neighborhood, any sane notice that he would protest against the assessment of about ninety parcels of land owned and on Dunn-avenue. Instead of being present yesterday, he sent a letter saying he had been called out of town by the death of a sister. As the time limit expired yesterday, the court threw out the appeal.

Ald. Bredin obtained a reduction from \$25 to \$22 a foot on 405 feet of land on West Bloor-street.

Mr. Jones lost a case. He had a writ of mandamus to compel the assessment of his property, but the court refused to grant it. Mr. Jones lost a case. He had a writ of mandamus to compel the assessment of his property, but the court refused to grant it.

SPLENDID MARKSMANSHIP

But England Loses Trophy Because Rifle Was Too Heavy.

The Military Mail, the recognized military authority in Great Britain, in its issue of Oct. 3, gives an account of the remarkable marksmanship of F. W. Jones in the Bisley competition. "He was the sensation of the meeting," the paper says, "but technicalities have robbed him of all his prizes. In his first competition during the opening week he made scores amounting to 726 out of a possible 750. This entitled him to the Hopton aggregate award, but he omitted to hand in his register ticket exactly to time, he was disqualified. He shot for England in the Echo shield competition, came out first with 226 out of a possible 225, enabling his country to carry off the trophy. Now it appears that his Ross rifle was found too heavy, and again he has been disqualified. His score has been expunged and England sinks to the bottom, handing over the shield to Scotland. Weak Men, Ginger Up!

Arouse Yourself, Feel the Spark of Life in Your Nerves, Recover the Vigor You Have Lost.

If you are a man whose youthful vitality has been wasted by indiscretions, excesses or overwork, I want to advise you that there is a positive remedy for your trouble. If your condition is that of exhaustion or feebleness, the very element which you have wasted, viz., human electricity, can be put back into your body. When you get it back your weakness will disappear, and you will become strong in nerve, brain, muscle, and every organ, and filled with joy that you are once more a perfect specimen of manhood. DR. McLAUGHLIN'S ELECTRIC BELT will fill your system with the power you have lost. It does this in a gentle, glowing, soothing way while you sleep. You get up in the morning refreshed, all aches and pains disappear, and you feel strong enough to attempt and accomplish what any other man can or may. It makes you feel like a new man, because it restores and develops the vigor originally given to men by nature.

PAY WHEN YOU ARE CURED.

I will let you have my Belt without paying me one cent in advance. The Dr. McLaughlin Electric Belt is a cure for all signs of Breakdown in Men and Women. The Vitality of the body is Electric—the force in the Nerve Cells. My Electric Belt will give you back this force and enable you to fight on in the Battle of Life.

The Dr. McLaughlin Electric Belt cures Neurasthenia, Hypochondria, Nervous Prostration or Nervous Weakness, Headaches, Sleeplessness, Stomach Trouble, Indigestion, Constipation, Weakness of the Kidneys, Lame Back, Rheumatism, Lumbago, Sciatica, Neuralgia, Poor Circulation, Urinal Trouble, Weakness of the Organs, Night Losses, all evidences of Premature Decay.

Nervousness—Sleeplessness—Run Down.

Dear Sir:—One year ago last February I was taken with Nervous Exhaustion (the doctors pronounced it). I suffered all the tortures that disease, as well as did with anything at all. Since I began to use your Belt there has been a marked improvement in my condition in the different ways mentioned. I have slept well every night since wearing your Belt, which is one of the greatest blessings of mankind. I have a great deal more ambition; work used to seem such a mountain, now it seems mere a pleasure; more strength and vim; memory better; digestion better; constipation about gone, which I was bothered with a great deal; head feels better and I feel better in every way. Yours truly,
NELSON ROSE.

GIVES LIFE FOR BROTHER.

Hurla Little Lad Out of Danger Before Car Collides.

ESSEX, Ont., Oct. 23.—Giving up his own life to save that of his young brother, Daniel Taylor, aged 23 years, who lived on a farm with his parents near here, is dead, as the result of a collision with an interurban car. Taylor and his four-year-old brother, whom he held in his lap, were riding on a wheat binder and about to cross the car tracks. The noise of the machine drowned the whistle of the approaching car, and it was upon them before the young man saw it. He had only a moment to act. He stood up and threw the child as far away from the crossing as possible. In an instant the car struck the machine, crushing it.

The elder Taylor was thrown under the car, both legs cut off above his knees, and he was otherwise injured. He died a few minutes later. His brother was picked up unharmed.

A. Kelly Evans Says International Difficulties May Follow This Western Transaction.

WELLAND, Oct. 23.—(Special).—The Conservative meeting to-night was a great success, the opera house being crowded, fully 200 standing thruout.

A. Kelly Evans of Toronto was the principal speaker, and in the course of an hour and a half address he aroused great enthusiasm.

In his opening remarks he expressed the hope that many Liberals were present, as it was to them especially he would speak. He gave great praise to the rank and file of the Liberal party. The faults attached to the administration at Ottawa could not up to date be saddled on the individual voter.

He submitted the undented promises of the leaders of the government before taking office, and compared them with the performance of the government after taking office. This condition of national affairs only emphasized an utterance of Hon. George Brown that when the professions and sacred promises of men on the platform and in the hustings of the country and upon which they were chosen as candidates and elected by the suffrages of the people were not faithfully implemented in parliament, "responsible government becomes a farce."

He then made a personal explanation of the reasons which had forced him to take the stump against the Liberal party. Four years ago he had been instrumental in starting the Ontario Forest, Fish and Game Protective Association with the avowed object, among other things, of endeavoring to improve or save certain of our great natural resources. Gradually, by some four years' hard work, he had succeeded in arousing public opinion to the question of the fisheries of the Great Lakes. The speaker became terribly earnest when he said:

"For four years I have striven at some expense to myself in working out a counting cost of time, by giving addresses thruout the province, by helping articles for the papers, by writing instrumental in starting the Ontario Forest, Fish and Game Protective Association with the avowed object, among other things, of endeavoring to improve or save certain of our great natural resources. WARM TIME IN NORTH AND CENTRE YORK

Rival Candidates Hold Many Meetings—North Toronto Man is Generous—News Notes.

WEST TORONTO, Oct. 23.—The cases against the local hotelkeepers were further dealt with in police court to-day, and kept Magistrate Ellis busy from 10 a.m. till 2.30 this afternoon.

Joseph Lenar of the Avenue Hotel, Dundas-street, was fined \$25 and costs. The defence of his counsel, Mr. Haverston, was that there was not enough liquor found on the premises to indicate that the local hotel by-law had been infringed.

Harry Vanzyle, proprietor of the Alhambra, restaurant on Dundas-street, was also dealt with, but Magistrate Ellis reserved decision in the case till Tuesday.

The case against Alexander Neilson of the Subway Hotel will be disposed of on Tuesday.

Fred McEwen of West Toronto used to have a millinery business, and a man to whom he owed some money, a lien note on one of his wagons. Without settling up this account, McEwen had his wagon taken to the yard of Toronto, and Riley had the wagon taken from him without knowing why. He soon found out, however, and forthwith charged McEwen with false pretences. The case was heard in police court this morning and an adjournment was made till Tuesday.

Mrs. McTaggart of Gilmore-avenue claims that when she and one or two other ladies were out walking at the Humber, she was ordered to get on the ground and struck by the proprietor. Police Magistrate Ellis adjourned the case till Thursday.

"I have never said, and I do not say now, that the Swifts have purchased the Union Stockyards," says J. D. Allan, former president of the company. "I'm not saying who is the purchaser is. Andrew Dods, the secretary, says: 'It is not the Swifts who are buying the market. We have dealt with brokers engaged by the Swifts, and the purchasers, they are English people.'"

Splendid Gift to Public School by A. J. Brown.

NORTH TORONTO, Oct. 23.—The town hall was filled to the doors this evening when the Davisville public school celebrated its anniversary by giving a concert. The proceeds will be devoted to the purchase of a piano for the school. Photo. J. Le Cress, chairman of the school board, presided and gave a short address of welcome. Murphy, A. Rutherford, Ada Rutherford, and Reta Cook. Ex-Mayor J. S. Davis spoke interestingly on the "History of the School," and Reta Cook on "The Entertainment of the Evening." The feature of the evening was the presentation of a Stanley \$300 piano to the school by Ex-Councillor A. J. Brown. Principal Urmy deserves great credit for his indefatigable effort to make this entertainment so successful as it was. He was assisted by a splendid committee of citizens.

A head rub makes you feel good. Try one at Fenwick's shaving parlor. Rev. G. W. Robinson of the Davisville Methodist Church will preach on "The Anniversary Services at Creemore on Sunday." EAST TORONTO, Oct. 23.—The reception tendered C. J. Bell, the secretary of the East Y.M.C.A. and Mr. Bell, by the Ladies' Auxiliary here to-night, was one of the most delightful events in the history of the town.

Principal McMillan presided, and short happy addresses were given by Rev. Mr. Rogers, Emmanuel Presbyterian Church; Rev. Mr. Ratcliffe, East-Toronto Baptist Church; Mr. Locke, Hope Methodist, and others.

NORTH YORK LOOKS GOOD.

Conservative Hopes Run High in This Election.

NEWMARKET, Oct. 23.—(Special).—The meeting held here last night in the interest of Reeve Armstrong of King Township, the Conservative candidate in North York, was a splendid success, and the rank and file of the party are greatly encouraged and enthused by the prospect generally. Wardens Wm. Keth and J. D. McKay of this town and Mr. J. O'Connor and A. W. Wright of Toronto were all received with every manifestation of delight.

Mr. McKay urged and predicted a big local support for Mr. Armstrong in the two manufacturing towns of Newmarket and Aurora.

M. J. O'Connor and Mr. Wright were especially effective in dealing with the past record of the Laurier government, with respect to the enormously increased expenditure and other live matters.

The Conservative candidate is putting up a strenuous campaign, and in all parts of the riding has upon better acquaintance immensely strengthened his position. Everywhere the Conservatives are united, while added to this is the fact that day by day accessions are being made to the ranks by Liberals who express a desire for a local representative. The reeve's course in the county council has been marked by a splendid grasp of municipal affairs, which will serve him in good stead. In his own native village of Schomberg he is especially strong, and a mass meeting there on Saturday evening will close the campaign.

Among other speakers at Saturday night's meeting, it is expected that T. H. Lennox, M.L.A. who has rendered yeoman service, will be present.
