BOY WAS STOLEN BY WHITIA RELATIVE

So Says Boyle, Now Under Life Sentence—His Sensational Story Is Titled 'A Lie' by Parties Named in It.

MERCER, Pa., May 10.—James Boyle, who was sentenced to-day to life imprisonment in the Western Penitentiary at Pittsburgh for the kidnaping of "Billie" Whitia.

Mrs. Boyle, indicted as Mary Doe, received a sentence of 25 years with a fine of \$500 and the costs of the prosecution.

Both prisoners utterly collapsed. Judge Williams, in imposing sentence, pointed to Boyle's bad record for larceny, assault and jail-breaking.

To-night Boyle issued a statement, implicating Harry Forker, a brother of Mrs. Whitia, in the kidnaping, and asserting that he had turned over incriminating letters to Mr. Whitia under promise of immunity from prosecution.

"I don't believe there is the slightest foundation for the Forker story in any way," said Judge A. W. Williams, who presided over the trial of the Boyle case.

J. M. Linniger, district attorney, said: "At no time has our secret or open investigation indicated that there was a third party, and I cannot believe now that there is."

"I have known Harry Forker for a great many years," said Judge H. S. Miller, chief counsel for the Boyles. "I am confident there is nothing at all in the story regarding him."

H. H. Stranahan, who assisted Judge Miller in defending the Boyles, said: "I do not believe there is any truth in the sensational story told by Boyle, who is a notorious liar, and several days ago and the essential parts will not hold water."

The association of the name Forker by Boyle with allegations that he was connected with the death of Dan Rebeil, Jr., in June, 1895, has not been confirmed by the police records in Youngstown.

Must Make the Best of It. In the penitentiary to-night they made each other out a fair game. They cannot meet again.

Mrs. Boyle threw her arms around Jimmie's neck and kissed him. She said, "We must take it like we can."

The prisoners then shook hands and the matron escorted Mrs. Boyle from the room. When she returned, she burst into tears and asked to be permitted once again to see her husband. The request was granted and she kissed and embraced Boyle.

When Mrs. Boyle gave her belongings to the matron she asked permission to see a suit of clothes which she had hidden in a trunk. She said she did not want to leave it behind, as that would make her have several years of bad luck. The matron was reluctant to let her see it and she would have to keep it in her cell.

When asked how she felt, Mrs. Boyle said "pretty bad." On arriving in Philadelphia she remarked, "Mercer will sleep quiet to-night—sleepy old Mercer—since we are out of it."

Before he was taken to the penitentiary Boyle gave out an interview, to be used under his name and purporting to be "the complete history of the kidnaping of Willie Whitia, the origin of the same and what led up to it."

On the morning of... between the hours of one and two, Dan Rebeil, Jr., was found dead on the sidewalk in front of the Mauer Block, East Federal-street, Youngstown, and over the prostrate form was Harry Forker of Sharon, Pa., holding in his right hand a package of letters that was gathered from the sidewalk near the dead body of Mr. Rebeil.

Kidnappers Who Get the Limit

WILL ASK GOVERNMENT TO AMEND RAILWAY ACT

City Council in Favor of Seeking Legislation to Check Future Discrimination.

Endorsation of an aggressive policy to compel the railways to abandon discrimination in suburban service commutation rates, was given by the council yesterday afternoon, when it was decided to press at once for the necessary amendment to the Railway Act.

Mr. J. H. Graham, chairman of the special committee, and the city solicitor, will see the minister of railways at Ottawa this week.

The board of control's proposal to await the decision of the supreme court on the railway commission's application to make the jurisdiction of the act would mean tying the case up in the courts for two or three years, while an amendment to the act would give valuable support to Brampton and other municipalities which were seeking legislation along this line.

The vote to send the deputation to Ottawa was: For—Ald. McChie, Chisholm, Church, J. J. Graham, Adams, Dunn, Maguire, McMillin, Hilton and Keeler—10. Against—Controllers Harrison and Geary, Ald. Bredin, O'Neill and Welch—5.

21 MILLIONS LESS TO SPEND

Supplementary Estimates Are Smallest in Years—A Busy Day in the House.

OTTAWA, May 10.—(Special.)—Hon. W. S. Fielding will move on Wednesday a resolution that it is expedient to authorize the governor-in-council to raise a fifty million dollar loan for the purpose of paying maturing loans and obligations of the Dominion and for the carrying on of public works.

The supplementary estimates were brought down to-day. They amount to \$1,016,689, of which \$83,550 is chargeable to consolidated fund, and \$933,139 to capital account.

Along with the main estimates brought down earlier in the session they total \$113,506,460 for the current fiscal year of which \$81,011,721 is chargeable to consolidated fund, and \$32,494,739 to capital account.

Further supplementary estimates for the past fiscal year were also tabled, including \$100,000 for the Italian earthquake fund; \$100,000 for the cost of the cattle quarantine along the international boundary and \$10,000 for the expenses of Canadian representatives to the agricultural conference at Rome.

The expenditure which parliament has been asked to authorize this year shows a total decrease of \$2,747,772, as compared with last year. Of this decrease \$3,811,846 is on consolidated fund account and \$13,163,626 on capital account.

Some of the increases. The chief items in the supplementary estimates for this year include: The expenses of the conservation commission and to pay the salaries of the office staff, \$22,500; to provide for expenses connected with the fisheries attraction, for the Hague tribunal, \$90,000; for the Canadian section of the royal commission to enquire into trade relations between Canada and the West Indies, \$20,000; for seed grain distribution, \$20,000; grant to the quinquennial conference of the international conference of women at Toronto, \$100,000; grant of memorial tower at Halifax, \$50,000; for a monument to Laura Secord at Queenston Heights, \$200,000; for the removal of squatters from the Cootes Paradise forest reserve, \$14,000; for D. R. Grenfell's experiments with reindeer in Labrador, \$100,000; for the deputy head of the new department of internal affairs, \$50,000; to provide for an increase in pay for the Dominion police, \$800,000.

In the department of agriculture there are items of \$7000 to provide for fruit, and \$100,000 for the expenses of a commission to investigate the wine industry of Great Britain and Denmark.

The commons spent a quiet day today and more was accomplished than probably any day. The evening sitting was occupied with the immigration bill, which will be considered further before the session closes.

Sir Wilfrid Laurier's resolutions regarding the organization and classification of the houses of commons and employees of the house of commons, the parliament library and the printing distribution office were passed. There was a long discussion over the salary of Col. Smith, sergeant-at-arms, 40 years' service his salary is \$3000. He is classified at \$3300, but \$2500 is charged for rental of rooms in the buildings.

The opposition made an effort to get the government to increase the salary of Col. Smith, but the reply was made that nothing could be done at present. Mr. Fielding said he would be perfect in willing that Col. Smith should live outside the house, where probably his rental would be less, but W. F. Maclean contended that the sergeant-at-arms was jester of the house and could not perform the functions of the office without offices in the parliament.

Obstacle to Canal Building. Claude Macdonell asked the government "whether or not the parliament waterways and boundaries treaty will prevent the construction of the proposed enlargement of the Welland and St. Lawrence Rivers canals, or the construction of the proposed Georgian Bay Canal, without the consent of the commissioners under the treaty, or because of the fact that these works, or either of them, may reasonably be expected to affect the height of the water on Lakes Huron, Erie and Ontario."

Hon. A. B. Aylesworth said that the matter was under consideration. Hon. W. S. Fielding informed Mr. Crosby of Halifax that no delegations had recently waited upon the government to urge the necessity of a bounty being given on steel shipbuilding in order to establish that industry. The government felt that it could not give the additional steel bounties asked for.

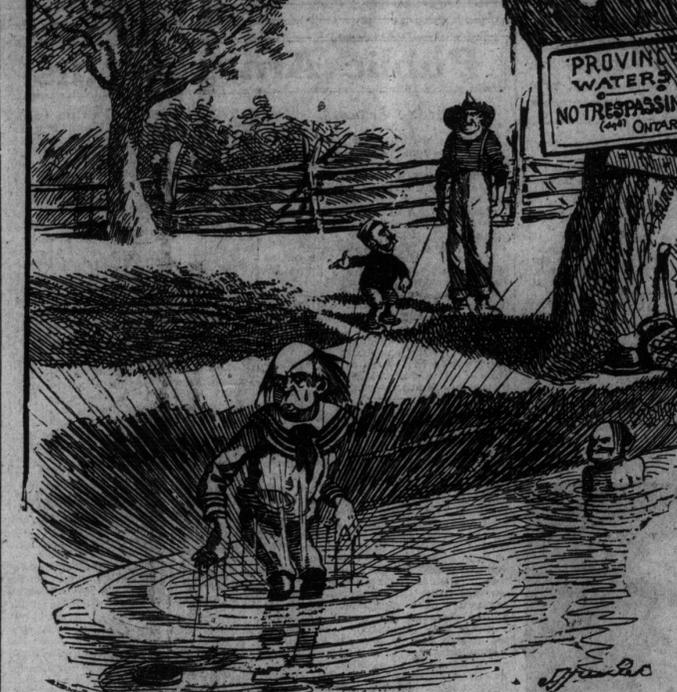

HIS MAJESTY'S RETURN

King Said to Appear Very White and Thin.

LONDON, May 10.—(N.Y. American Cable.)—The King has returned to London, but it is not the King whose previous re-establishment in London had meant the instant and spirited statement of "The Season."

It is a very white and wan old gentleman who has returned from Biarritz and the Mediterranean by way of Paris, and society looks rather dubiously for any whirl of gaiety.

PATRIOTIC ALDERMEN SEND ADVICE TO OTTAWA

City Council Wants "Permanent Naval Policy"—Political Move—Says Controller Harrison.

"That a humble petition be presented to the parliament of Canada, now in session, urging on the Canadian Government some more immediate and practical action on behalf of the people of Canada in developing a permanent naval policy, as demonstrating Canada's readiness to strengthen and support the empire in any crisis of its fortunes, thus giving practical expression to the sentiment and desire of the great mass of Canadian people by sending to the mother country some practical and substantial aid to the defence of maritime freedom."

The above resolution was passed by the city council yesterday afternoon, on the initiative of Ald. Church, despite the objection of Controller Harrison that such a move would practically indicate lack of confidence in the Dominion Government.

The motion, which had Ald. McMillin as seconder, was sprung unexpectedly, but the appeal to the loyalty of the assembly was in vain. Ald. Church, with a gift of rhetoric unsuspected by his warmest admirers, waved the grand old flag in the air, figuratively speaking, and the patriotic flood bore away all sane Controller Harrison and two other Liberals.

The government has taken such action as it considers necessary. I am sorry to see politics interjected into the city council," said the controller. "We don't want stump speeches from the former candidate for Halton," returned Ald. Church, who declared that public bodies all over Canada were passing kind resolutions.

The resolution carried by 12 to 3, as follows: For—President Ward, Controller Geary, Ald. McGhie, Chisholm, J. J. Graham, Adams, O'Neill, McMillin, Hilton, Dunn, Foster and Keeler. Against—Controller Harrison, Ald. Bredin and Welch.

STAND FOR PROVINCIAL RIGHTS

Consideration to Be Given Further Steps Against Connor's Power Bill.

Notwithstanding the passage of the Ontario and Michigan power bill in an amended form at Ottawa last week, Sir James Whitney will not relinquish the fight for provincial rights.

The Ontario Government is not content that its protests have been heeded, and an immediate consideration will be given to such further steps as may be necessary to put the protest into practical effect.

The Globe, speaking of the bill, said yesterday: "The Connor bill has been shown of several objectionable features, but it does not at all follow that it ought to become law. There is left a good deal of uncertainty about the whole matter, including the jurisdiction of the Dominion Parliament in the premises, that the balance of convenience and safety seems to favor leaving the whole question over for more careful consideration and more thorough discussion."

MINERS OFF TO COCHRANE

RICH FINDS ARE REPORTED An Extensive Placer Mining Area Reported Which is Yielding \$75 Per Pan.

MONTREAL, May 10.—(Special.)—The discovery of a placer mining area, fifteen miles by five, near Cochrane, or 150 miles northwest of Cobalt, is the latest mining news to reach here from the north.

A gentleman who arrived here today from Cobalt says that from three to four hundred men stamped from Cobalt to Cochrane on Saturday and Sunday, and are more preparing to follow.

One man came down to Cobalt and reported that \$75 per pan was being secured. This man had \$1500 in nuggets.

BRID POLICE SPOTTERS

And Then Put the Evidence Before the Chief.

MONTREAL, May 10.—(Special.)—Several more of the saloonkeepers who had charges against them of selling on Sundays, dismissed on payment of costs, appeared before the civic commission to-day and testified that they were subscribers to the election fund for A. P. R.

Some admitted that they had sent cash on election day to work for other aldermen. One had been told that if Proulx was not elected another man would take his place on the police committee and Sunday selling would no longer be tolerated.

Evidence was also given that there was a conspiracy to compromise policemen specially charged by the chief with watching places for Sunday selling by bribing them not to report, and then placing the evidence before the chief.

Capt. Belnet, who retired on pension in charge of No. 11 police district, he had the C.P.R. Stockyards Hotel reported for selling on Sunday on three occasions, and one day Inspector Lamouche testified that the hotel had been taken out of his district.

SULTAN ENTHRONED

Constantinople, May 10.—Mehmed V. ended his "coronation day" by plowing a furrow in the lawn at Dolmabahce Palace, symbolically at least, by holding the low handles for a fraction of a minute, while two horses dragged it a few yards. In carrying out the ancient test, Mehmed V. showed himself to be sound of body and fit to bear the physical burdens of the empire.

MURDER AN "ACT OF GOD"

DECLARES HAIN'S COUNSEL Pleads for Liberation of Insane Man to Go to His Family One Day—More in Jury's Hands To-Day.

PLUSHING, N. Y., May 10.—One hour more to-morrow of summing up by the prosecution, afterward the court's charge—then the case of Capt. Peter C. Hains, jr., for the killing of William E. Annis at the Bayside Yacht Club last August, will pass into the hands of the jury.

Mrs. Virginia Hains, the mother of the defendant, with her husband, Gen. Peter C. Hains, and their son, Major P. Hains, sat in court during the hours of John F. McIntyre's vivid plea for the life of the prisoner. The mother embraced Capt. Hains when she first entered, and clung to her boy until gently led away by Gen. Hains, and thrust McIntyre's remarks went quietly.

Except for a few moments when his lawyer forcefully took hold of the prisoner and asked the jury to study him as the living evidence of an insane man, Capt. Hains displayed no emotion or interest in the proceedings.

While Mr. McIntyre's address was basically an argument to show the insanity of his client, he nevertheless seized every opportunity to emphasize the dramatic and the pathetic and to hint at times at the "unwritten law."

One of his melodramatic declarations was that Annis' met death by "an act of God." All reference to the "unwritten law" were promptly squelched by the court.

In closing his plea, Mr. McIntyre said: "I ask you to acquit him on all the facts in this case, to let him go in the interests of all justice, and not to strip from him the uniform of an American soldier and substitute the stripes of a felon. I ask you to let him go back to his old father and mother, to look after his children again, not as a convict, but as a free man. I ask you in the name of the love that you bear your own, to let him go."

With the beginning of the summing up by the prosecution in the afternoon, the prisoner's mother and father withdrew, and Mrs. Helen Annis, in deep mourning, appeared with her mother and sister. They remained in court while Mr. Gregg was speaking. The former district attorney bitterly denounced the insanity plea of the defence, declaring that it was conceived and manufactured by the defence's lawyers as a last resort.

He asked the jurors to discard the testimony of the insanity experts on both sides, and to decide for themselves on the strength of the lay testimony. Instead of it being "an act of God," he branded the shooting a cowardly murder, committed with deliberation and premeditation.

DRAWN ALL MEN BY MAGIC POWER

The Need of Following Jesus the Keynote of Eloquent Address by Gipsy Smith, Welsh Revivalist.

"How does Mary, in the kitchen, feel about your religion?"

"The Welsh revival began by people confessing their faults to each other."

"It seems to me the majority of professing Christians I meet have one dominating idea, and that is to receive from God, without any thought or idea of giving out."

"I'll ask you to be honest, and put the question to yourself in the light of this Book and the Cross. Is my life glorifying to God? Look at it! Don't shrink! It will do you good to get alone with God and ask the question: Is my life—the life I lead in my home, in my business, in the circle in which I live, in my political associations, in my domestic life, in my social relations—is the life I live Sunday, Monday, Tuesday, Wednesday, Thursday, Friday and Saturday, glorifying to God?"

"The old-time religion" is the boast of his own way of preaching it.

One of St. Paul's hearers fell out of a window after hearing four hours of the good man's views. St. Peter was a subtle, a lively talker, and St. James had a neat turn in philosophical discourse. No doubt the sons of thunder, the other James and his brother John, had an effective delivery, but modern audiences have preferences of their own, and it is doubtful if a more successful apostle than Gipsy Smith could be found for the people with whom he has to deal.

One quality he possesses which is said to be unique. He is the only man who invites all classes and sects of church people. Strange stories are told of his power of blunt and direct speech received without offence, and led to hear in the epistolary messages are delivered. Some men call a spade a spade. Gipsy Smith spells it out so there can be no mistake.

Draws All Churches. Ministers of all the churches gather to hear him. Rev. George Jackson sat on the platform in Massey Hall last night. Canon Dixon was there, too. Rev. A. L. Geggie and A. Hines assisted in the service. Sir Charles and Lady Clark sat in front seats. The weather made little difference.

A group in the front seats began to talk before the afternoon meeting began. One of them was an old lady of apparently 70 years of age.

"She is 92," volunteered her companion to the man next to her, and who seemed about 70 also. He began to tell of the old gentleman who always sat on the end seat which he now occupied.

"He was 88," the lady was informed. "And how old are you?" "I'm in my sixties year."

"Oh, you're young yet," remarked the nonagenarian. The meetings yesterday were larger than Dr. Torrey's early meetings. Even the noon prayer meeting had an attendance of sixty.

Gipsy Smith does not shun competition or comparison. He welcomes the coming of another revival meeting. At the afternoon meetings he takes up the theme on which some minister has spoken, and like some master following his pupils, plays a new symphony on the motif. Even such capable speakers as Rev. W. J. Southam or Rev. Dr. Taylor, with the clearness of mind and sensible observations, found their ideas taken up and whirled away into a new sphere with strange lights and shadows playing about them, till they seemed to have newly sprung like radiant butterflies from dull chrysalids.

Culture of Honest Thinking. Gipsy Smith talks about the humble and uneducated apostles. But he will not admit their lack of culture. There is only one kind of culture worth anything, the culture of honest and real thinking. Gipsy Smith is and has been a thinker. Behind any emotional or sentimental appeal he makes there is the solid ground of reason and experience, appealing irresistibly to the common-sense of his hearers. When any speaker leaves the solid ground of common sense he needs have no hope of retaining a following among reasonable men. But his reason follows a deeper knowledge, too.

"I knew the things of God by heart."

Something Different

The new style in men's stiff felt hats for this year are considerably different from those of last season. It would pay the well-dressed man to take note of this for there is anything that is noticeable. It's an out-of-date derby. The Dinesen Company have all the new styles now on sale—hats by the best of the world's makers, \$2 to \$5. Henry Heath, English Derby and Dunlop's New York make of fur whom Dinesen is sole Canadian agent, are also there.

CONTRACT GOES TO PEOPLE

Vote on Jan. 7.—So Does the Hydro-Power Bill.

HAMILTON, May 10.—(Special.)—The city council this evening decided to send the Cataract-power contract and the plebiscite on hydro-electric power to the people on January 7. The mayor and a majority of those who spoke on the subject, said that the Cataract by-law was a great improvement on the one rushed thru the council last July. It provides that the company must give Hamilton and its inhabitants power at 16 or 10 p.c. lower rates than charged by the Hydro-Electric Commission in any place, and also at as low rates as any place that sells power. The people will be asked in January their opinion as to the introduction of a board of control, and the purchase of a \$30,000 site for a new hospital. A bylaw was passed keeping dogs off the streets, except when held on a leash, from March to November.

Two Accidents.
While at work at the Canada Screw Company's factory this afternoon, John Bryan, 204 North Queen-street, was severely burned by acid. It is feared that the sight of one of his eyes may be destroyed. Oliver Beatty, 57 North Catharine-street, a teamster, fell off a wagon, the foot of James-street to-night and was taken unconscious to the city hospital.

The annual meeting of the Hamilton Camera Club took place this evening. The club decided to enter the American lantern slide interchange for the coming year. New officers are: President, E. G. Overholt; Vice-President, T. H. Wingham; Secretary-Treasurer, Sinclair G. Richardson; Executive, C. A. Herald; Wm. Acheson, James B. Bertam, W. E. Hill.

Poles Stopped at Border.
Owing to the heavy traffic on Barton-street during the summer months, the street railway is considering the advisability of postponing the reconstruction of its tracks there until next fall. A party of thirty poles that were being brought in to work for the company were stopped at Niagara Falls.

Kitty Mack, corner of Cannon and Macdonald-streets, was fined \$100 this morning for keeping a resort. The inmates had been warned that the police were coming.

School Inspector J. H. Smith, E. B. Smith, ex-M.P., and Mrs. Fred Fox, 16 St. Matthew's-avenue, are among the four thousand heirs who claim 132 acres of valuable land in New York.

RHEUMATIC LIVER OVER STRAINED KIDNEYS

Caused sickness that puzzled able physicians—Was cured by Ferrozone.

A Real Miracle.

"My doctor told me I had gouty or rheumatic liver and kidneys," writes G. O. Forde, from Halifax. "I guess he was right for I was a mighty sick man and felt the game was pretty nearly up. So many remedies failed that the doctor was completely puzzled. As for symptoms—I had bushels of them, in the morning a sort of nausea, sometimes the bowels were constipated, at other times quite relaxed. I felt dull, and a sense of weight in the back and over the liver was distressing."

Lost 15 Pounds in Weight.

"My color resembled a yellowish pallor, and gradually I lost weight to the alarming extent of fifteen pounds. I looked jaundiced and felt sure I would die."

"Then I read of the wonders worked by Ferrozone, and in desperation I bought six boxes. At once I began to mend. Ferrozone must have put a peg or two into the nervous system, for things at the end of the month began to look up. In three months I felt like new, but kept on taking Ferrozone. In six months I was cured."

Ferrozone Saves His Life.

"Were it not for Ferrozone I wouldn't be alive to-day. I am sure it will cure any weakness, rheumatism, gout, debility, poor blood or nervousness. My condition embraced all these, and Ferrozone cured me." Reader, get Ferrozone to-day, 50c per box or six boxes for \$2.50, at all dealers.

WEST WANTS REV. A. L. GEGGIE
Parkdale Presbyterian Pastor to Be Called to Winnipeg.

Rev. A. Logan Geggie, pastor of Parkdale Presbyterian Church, has been informally asked to take charge of St. Andrew's Presbyterian Church, Winnipeg.

Rev. Mr. Geggie is regarded as one of the most popular of the west-end ministers. He is especially noted for the wit and fervor of his addresses. He

came here from Truro, Nova Scotia, where he was recognized as the most aggressive temperance leader in the province. He is a graduate of Edinburg University. He states that if he accepts the call from the west, the cause will be in Winnipeg, not in Toronto. His present salary is \$3250 without manse.

O. R. C. AT BOSTON
Canadian Delegation May Play Big Part in Important Matter.

BOSTON, Mass., May 10.—(Special.)—About 450 delegates to the 22nd grand division of the Order of Railway Conductors of America were registered at headquarters to-night.

In this number is a solid delegation from the Canadian provinces, headed by S. N. Berry of Toronto, vice-president for Canada, and D. McHoffie, Stratford; K. Hastings, St. Thomas; B. W. Bennett, London; C. Stuart, Toronto; Thos. Todd, Hamilton; A. E. Wright, Ottawa; F. Clement, Sarnia; M. Munroe, Smith's Falls; H. A. Washburn, North Bay; W. V. Hudson, Fort William; A. Sweeney, Chapleau; Ed. Harden, Lindsay; Thos. Steward, York; J. J. Walker, West Toronto; W. C. Risteen, Kerora; F. Heard, Allandale, and some twenty others from Ontario.

Several Canadian clubs in Boston will entertain these Canadian delegates. This group is receiving much attention from the Indianapolis and Grand Rapids "loomers." The former crowd is endeavoring to secure the removal of the home offices of the association from Grand Rapids, Ia., and the latter committee of business interests is endeavoring to retain them. The votes of the Canadian delegates are considered as of great importance in deciding the matter.

COURT FOR DIVORCE CASES

Senate Takes Evidence in Too Free a Fashion. OTTAWA, May 10.—(Special.)—In the house this morning, referring to several divorce bills, R. L. Borden expressed the view that the evidence admitted in the senate committee should be limited to such evidence as would be admitted in a court of law. In England there was a King's process, whose special duty it was to see that there was no collusion between parties. He did not know to what extent, if any, such a safeguard had been adopted by the senate. W. F. Maclean favored a divorce court, but F. D. Monk did not think there were sufficient cases to justify this. Mr. Curvell favored a court, and said there were cases in which divorce had been granted by the senate committee on evidence that would simply have been laughed at in a court. All sorts of hearsay evidence was taken. Mr. Miller deprecated the tendency to use the services of American detectives to get up evidence for divorce cases.

Muskoka Express. Commencing Saturday, May 22, and continuing until June 25, the Grand Trunk will run special train of parlor cars and modern vestibule coaches Muskoka Wharf 1.40 p.m., making direct connection with the Muskoka Navigation Company's steamers for all points on Muskoka Lakes. This convenient service will be appreciated by the cottage owners. Regular summer service starts June 24.

Runaway Girls Caught. Lilly Booth and Maude McCus, who ran away from a home kept by Mrs. A. Wheeler at Belleville, were arrested here last night at the request of the Belleville police, and charged with vagrancy.

Every user of "Salada" tea is absolutely guaranteed tea of the finest quality, purity and flavor. The company's well-known lead packets can be purchased at any grocer's.

PICTURESQUE CEREMONY IN ST. JAMES' CATHEDRAL

Memorial Tablet For Late Major A. J. Boyd Unveiled in Presence of His Regiment

ROYAL GRENADIERS IN MEMORY OF MAJOR Alexander James Boyd

the eldest son of the Honorable Sir John A. Boyd, Chancellor of Ontario, born at Toronto June 16, 1864; served thru the campaign in Northwest Canada 1885 and South Africa 1899-1902. Died of fever at Pretoria April 29th, 1902. Erected by his brother officers.

To the sound of the "Last Post," while his old company presented arms, the tablet erected in St. James' Cathedral in memory of Major Alexander James Boyd was unveiled by Sir John A. Boyd last night. The effect was picturesque and impressive. The old colors of the Royal Grenadiers, which have reposed for many years in the west wall, midway down the aisle, and is a companion in the memory of Alexander James Boyd, who lost his life at Batocoe. The dimly lighted vault of the nave, with the dark grey arches forming a fitting background for the scarlet tunics of the soldiers.

The regiment paraded at the armories at eight o'clock under command of Col. Albert Gooderham, and marched in a body to the cathedral. Occupying seats in front of the memorial were the family of Sir John A. Boyd, in the various military organizations in the city. Seats behind the family were filled with the Royal Grenadiers' Chaplain, the Daughters of the Empire, sister of the Daughters of the Empire, and the front seats in the the services American detectives to get up evidence for divorce cases.

A shortened form of the evening prayer was used, Canon Welch officiating. After the tablet was unveiled, Handel's "Largo" was played on the organ by Dr. Albert Ham, assisted by the full band of the regiment. The unusual combination of organ and band gave to this master composition an exquisite and beautiful effect. This was appropriately followed by the national anthem sung in unison. The regiment filed out past the tablet thru the east door.

The late Major Alexander J. Boyd was born in Toronto on June 16, 1864. He was educated at Upper Canada College and Toronto University. He studied law with McCarthy, Osler, Hoskin & Creelman, of which firm he was a member at the time of his departure for South Africa. Enlisting in the Queen's Own in 1883, he saw service in the Northwest Rebellion, and took part in the action at Cut Knife Creek. In 1890 he joined the Royal Grenadiers, and rose to the rank of Major. Company B under command of Capt. Osborne, to which he belonged formed the guard of honor and escorted the colors, which were in charge of Lieuts.

For Women Who Are Discouraged

Because of lingering weakness and nervous depressions there is new hope and cure. The letter quoted voices the experience of thousands of women who have found health and joy in the use of Dr. Chase's Nerve Food.

The Christian Scientists are undoubtedly right. To some extent, the mind does influence the body both in health and disease and if you give up hope, leave off treatment and fall into discouragement and despondency, there is little reason to expect that good health will force itself upon you.

You must do your part if you are going to get strong and well. You must make up your mind and then select rational treatment.

If your system is weak and run down, your blood thin and watery and your nervous system exhausted choose a treatment such as Dr. Chase's Nerve Food, which has never been equalled as a means of building up health, strength and vigor.

That Dr. Chase's Nerve Food is particularly successful in the cure of ailments and derangements from which women suffer most is attested by such letters as the following from Mrs. D. Burger, Heather Brae, Alta, which refers to her niece. She writes: "Mrs. Armstrong had great weakness, heart trouble and indigestion. In fact she was run down in every way and had lost all hope of ever getting well again. She had been in poor health for over four years after the birth of her first child. The persistent use of Dr. Chase's Nerve Food has proven of marvellous benefit to her. She feels real well now, is looking fine and feeding up so that one would hardly believe her the same person."

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50, at all dealers or Edmondson, Bates & Co., Toronto.

Gooderham and Morrison. Major Brogk had charge of the ceremony in the cathedral to the motto of the regiment, "Ready, aye, ready." Major Boyd received the call to go to South Africa with the second contingent at four o'clock one afternoon, and left for the front the same evening. He returned for a brief visit to Canada and then went again to South Africa as captain in the South African Constabulary. He succumbed later to enteric fever at Pretoria.

The members of Sir John Boyd's family present were: Lady Boyd, Dr. Geoffrey and Mrs. Boyd, Lawrence Boyd, W. S. and Mrs. McLay, J. Leonard and Mrs. Boyd, Philip Boyd, Edmund Boyd, Arthur W. Boyd, Miss Elizabeth Boyd, Mrs. Freeland, Edmund B. Freeland, Ewing Freeland, Miss Maria Buchan and Percy H. Buchan.

To the lingering strains of the national hymn, "Fight the good fight," the benediction was pronounced and the ceremony was over.

A Popular Player Piano. The record of sales of the player piano of Heintzman & Co., Limited, 115-117 King-street West, Toronto, tells the story that this particular instrument has obtained wide popularity, which is increasing daily. Many exchanges, we are told, are being made in order that people may own this particular player piano, which gives complete satisfaction to purchaser.

Off to Pittsburg. Controller Hoeken, Ald. R. H. Graham and Vaughan and Park Commissioners Wilson left yesterday for Pittsburg, to attend the convention of the Playgrounds' Association of America.

NO CAR LINE THRU FORT

Dominion Government Plans, It is Said, to Insert Provision in Deed. A rumor which couldn't be confirmed, was around the city hall yesterday to the effect that the Dominion Government had inserted a clause in the Garrison Commons deed preventing the laying of street car tracks thru the old fort. If this be the case, the only way to secure an eastern entrance to the exhibition grounds will be by way of Tecumseth-street.

President Ward and Controller Harrison, who will be in Ottawa on civic business to-day, will see the minister of the interior on the matter.

OBITUARY

E. D. Brown. The many friends of E. D. Brown, 44 Oriole-road, late manager of the Dominion Brewery Co., will be shocked to learn of his sudden death at French Lick, Ind., yesterday morning. Mr. Brown had a bad attack of grip about two months ago, which weakened him very much. He went to French Lick the latter part of April to rest and get an encouraging nature. On Saturday, however, he had a change as a result of which Mrs. Brown was sent for, but she did not arrive before he died. The immediate cause of death was a clot of blood on the brain.

The late Mr. Brown was born at Scarborough and as a young man worked in the offices of the old Great Western Railway. He afterwards went to Duluth, where he was interested in developing the iron mines up there. He returned to Toronto about ten years ago, and for the past four he has been manager of the Dominion Brewery.

Deceased was widely known and highly esteemed in the business community. He was thoroughly upright, straightforward in his dealings and prompt in fulfillment of agreements. He was president of the Brewers' Association of Ontario.

He leaves a widow and one child, two sisters and three brothers also survive him. The remains will be brought to Toronto for burial.

Many persons in Toronto will regret the death of Mrs. F. R. Bryan, Dummanway, County Cork, Ireland, which took place on the 17th ult. Mrs. Bryan was very charitable and sympathetic, and on many occasions opened her purse to assist the intending emigrant to ameliorate his conditions in America. She was a staunch member of the Episcopal Church and a fond reader of "The World."

At Forest—Mrs. Ellen Vivian Livingston, aged 65; suddenly.

The Swankey Club on College-street will disband, the site being taken for the new General Hospital.

HOUSE LIGHTING RATES. K. L. Aitken, civic electrical engineer, gives some further information regarding the schedule for house lighting. He says as to the charge of 10c per room per month and 3c per kilowatt hour, that there is no charge for the lighting of hallways, bathroom and cellar, and that hotels will get a more favorable rate. Domestic users will find the rates cheaper than gas. ON A TORONTO CAR. First Passenger: Did you pay my fare? Second Passenger: Yes. First Passenger: Pahaw; I wanted to get rid of this plugged 5-cent piece, honestly. The Mayor at Birmingham. LONDON, May 10.—Mayor Oliver of Toronto visited Birmingham with the object of inspecting the sewage plant. "Tho," said Mr. Oliver, "the wind was blowing direct across the beds in my direction, there was no unpleasant aroma. The smell resembled what one finds on the seashore from seaweed." The knowledge gained by the visit to Birmingham will, Mr. Oliver hopes, be useful in reducing the cost of construction of a sewage disposal system in Toronto, where pipe an inch in thickness are to be used and joints leaded, whereas in Birmingham the pipe is half-inch and rubber is used for joints. A Word to the Profession. "The correct thing," says Score of "The House that Quality Built" is the morning coat and waistcoat of black vicuna cloth or chevots, and we are making a specialty of them, very high-class tailoring, too, at \$23.50. You cannot possibly have a better Cocoa than EPPS'S A delicious drink and a sustaining food. Fragrant, nutritious and economical. This excellent Cocoa maintains the system in robust health, and enables it to resist winter's extreme cold. COCOA Sold by Grocers and Storekeepers in 1/2-lb. and 1-lb. Tins. PARLIAMENT AND PROVINCIAL RIGHTS.

Sir Wilfrid Laurier's devotion to provincial rights is largely lip service and is only effective when the proposed encroachment is peculiarly flagrant.

Mr. Comtee's bill should ultimately become law, the government and legislature of Ontario must be prepared to defend or assert the position they have assumed towards Mr. Comtee's bill.

TOWN PLANNING IN EUROPE.

Mr. Reginald G. Kirkby, city architect of Bradford, England, one of the delegation of British city representatives, who recently investigated town planning in Europe, has given the Municipal Journal a summary of the impressions received during the visit.

Another of Mr. Kirkby's impressions was derived from the systematic planning carried on in Germany. The older part of the town is connected with the outlying districts by main arteries, which are linked up by broad ring streets for the conduct of heavy traffic.

COBALT --- High-Price Mining Shares Are Higher and Strong --- COBALT

Tone of Mining Market Better Higher Priced Issues Strong

Chambers-Ferland Advances on Acquisition of Welch Claims—New York in Evidence Again

World Office. Monday Evening, May 10. The tone of the mining market today was distinctly better than has been the case for the last few weeks. The recent shake out has not been without its use in eliminating the weaker bull issues and placing the market on a more satisfactory basis than before. The feature of the day's trading was the strength shown by the higher priced stocks. La Rose sold up to 7.20 on the standard and 1.22 on the Toronto Exchange, closing firm at 7.16 bid and 4 points higher than Saturday's close. The market was also strong and closed 10 points up from Saturday, at 8.25 bid and 850 offered. New York was credited with the greater part of the buying. The rest of the market was steady with an upward tendency throughout the day. The demand for the higher priced issues was excellent. There was an excellent demand for Chambers-Ferland during the two sessions, the price advancing to 77 1/4, 2 1/2 points above the last closing, with little stock changing hands. The reason for the sharp advance in this issue is due to the fact that the company have purchased the well-known Welch properties in Gowanda. The acquisition of these properties is considered to be a very important one, as they are bounded on the west by Bartlett's and on the east by the Crown Reserve. The Welch claims have been well prospected and have excellent showings. Work will be started almost immediately. Brokers report that the general outlook points to a steady market with a general advance from north to south. Stocks closed firm, with the tendency upward.

KERR LAKE DISTRICT

Misses Are Paying Dividends and Bigger Than Expected. The continued advances in the stocks of the Kerr Lake district properties are attracting much attention. Yesterday Kerr Lake advanced to 8.50, showing a rise of a clear 100 points within the past week. Within a week it was selling at 2.25 and yesterday closed at 8.25 bid. The Crown Reserve sold in Montreal at 3.06. The Cobalt Nugget says that there can be no surprise shown at the advances in the Crown Reserve. Last month it sent out \$200,000 worth of ore, and in the first four months of this year has shipped \$750,000 worth of ore. The company can pay almost any dividend it pleases. From New York comes the news that Kerr Lake's April or May shipment yielded 200 ounces of silver, also the announced policy of the company was to keep down to 180,000 ounces a month. The ore shipped was evidently richer than was expected. La Rose was very strong again today on the development of the Lawson, which promises big shipments. With the other properties from one solid block of territory—the Kerr Lake, Crown Reserve, Lawson and Hargrave are all shipping. The Kerr Lake district has had a phenomenal showing. Lawson is being rapidly developed and will no doubt be shipping rich ore. Hargrave is, probably, the best speculation of all the Kerr Lake district issues. In the past year Kerr Lake has advanced from 350 to 850. Crown Reserve from 200 to 350. La Rose now selling at 7.20, Hargrave is quoted at 55 to 56, but no doubt when it starts shipping a big amount it will be higher. Predictions are made that it will easily double its present price. Also Crown Reserve and Kerr Lake have risen almost seasonally, much higher prices are predicted for them, simply on the very rapid increase in their asset value now going on. It seems quite reasonable from the figures already available that Crown Reserve will earn over \$1,000,000 net this year, which would be close to 60 per cent, on its outstanding capital.

JAMES TWP.'S PROGRESS AS A MINING DISTRICT

Development Work Going Ahead in James and Montreal-River District

BLK LAKE, May 6.—(From the Man Up There).—As a mining district, James Township mining progress, and at the present time the outlook for a good return on the money invested is all that could be desired. Just now James Township may only be said to be a prospect, and that is all that any of the new districts in the siverland of the north are as yet. But James is showing better every day, and has as sure a chance of making good as any new district in Northern Ontario. Many of the companies operating in James have put in, or are putting in, the necessary mining machinery to carry on development better every day, while others are carrying on extensive operations by hand. Yesterday The World correspondent visited some of the properties lying on the easterly side of the Montreal River in James. At the Elk Lake Discovery Mine the work of development is moving forward at a quick pace. The shaft is down to a depth of 103 feet, and timbering has been done to a depth of about 85 feet. The main shaft, the main gater, expects that the 150-foot level will be reached about the end of this month, and from that level drifting to the various veins will be commenced. If things turn out as Mr. Harris expects they will, the Elk Lake Discovery will be bagging shipping ore by about the middle of next month. One of the drifts will be made to No. 4 vein, which carries about 600 ounces of silver near the surface, and if this vein is continuous and increases in width with depth, then the future of this mine is assured. A similar plan to that at the Elk Lake Discovery is now being erected on the property of the Elk Lake Cobalt Mining Co., Limited, on the property included in the Hawthorne Syndicate. This plant comprises a five-drum compressor, two 60-horsepower boilers, hoisting engine, air drills, etc. The work already done on this property has been done by hand. However, the air plant will be in operation shortly, and the level drifting to the various veins will be commenced. At the Toledo Mining Co., and the Cummings Mining Co., several air plants are being put in. The United States Cobalt and on several other properties operations are being carried on by hand. On all the properties on the east side of the Montreal River, in James, the indications are good, and the development work is showing results that are quite satisfactory to those interested. In fact, on nearly all the properties the preliminary work was done by hand, and the results were so favorable that a number of them decided to put in machinery. There will be no more level drifting in James this coming summer, and before next winter it is safe to say that some funds will be made to which the attention of the investing public will be directed.

WORKING ON LAWSON

Development Work Started on the Old Silver Leaf Shaft. COBALT, May 10.—The La Rose has begun developments on the Lawson; the old Silver Leaf shaft is down less than 100 feet and driving has already been started at the 'be' level on a stringer that is expected to lead to the main Lawson vein. At the La Rose main raises are being made on the main shaft. Good ore is being taken out of No. 2 and 3 raises. No. 4 raise was recently started near the main shaft and the drills are in rich high-grade ore. The raise on the surface tunnel has been made to the surface and this is now being worked by open cut.

ROTHSCHILD MINING CO.

This Company Transfer Their Holdings to the Drednought Mining Co. The shareholders of the Rothschild Mining Co. met to discuss the sale of the company at New Liskard last week and accepted the offer for the sale of their property in Coleman. The offer was made by the company transfer their holdings to the Drednought Mining Co., whose capitalization is \$1,000,000. It is quite probable that the Rothschild, B. H. Pope, capitalist of Montreal, buys the extra 500,000 shares at 10 cents a share, giving the treasury a sum of money to finance operations on the property at once. An organization meeting of the new company will be held in Montreal this week, at which the officers will be elected, and it is expected that the Rothschild shareholders will get share for share.

BREAK-UP BULLETIN

First Day of Real Spring Weather at Elk Lake. BLK LAKE, May 6.—(From the Man Up There).—To-day has been the first real spring day we have had so far. It has been bright with sunshine the air balmy, and just such a day as which one feels the influence of spring. The break-up is drawing nearer every day, and a week of weather such as we have had to-day should bring it nearer than has already been anticipated. The World man ventured a comment on the weather to a stranger, only to find that the stranger knew more about conditions than he did himself. The stranger said he had been in this country five years, and that he was just as likely to have zero weather before the break-up as not. This seemed like pretty cold comfort, but we had to take our medicine without making a grumble. However, it is to be hoped that to-day's weather will be continued for the next eight or ten days at least. This afternoon a couple of small gasoline launches were seen on the river trying out their machinery. Right of Way Bonus. Right of Way Mining Co., Ltd., has declared a bonus of 10 per cent, on its

IRON LANDS IN NORTH 60,000 ACRES LOCATED

Sudbury Mining Engineer Gives Some Information About the Mining Prospects in New Ontario.

"The Canadian people have not as yet come to a full realization of the great extent and worth of their mineral resources," said Mr. C. H. Miles, the well-known mining engineer of Sudbury, who was in the city yesterday.

"It will surprise you and a great many other people," he said, "to learn that over 60,000 acres of iron lands have been located by various prospectors in Northern Ontario for the Illinois Steel Co. The north country is being prospected year in and year out systematically with no thought of the possibilities for the present generation and entirely in consideration of the future of the large steel interests which are gaining control of that product on this continent."

"While prospecting for iron has been going on for some time, it is only within the past twelve months that the great possibilities of the country as a silver producer have been appreciated.

"When the average man to-day talks of Gow Ganda, he thinks only of the west shore of that lake on which are located such discoveries as those of the Bartlett mines and several other much-talked-of properties. All that has been said of these well-known mines I can say is quite true from personal knowledge, but Gow Ganda is really larger than the district in this immediate locality. It really extends from Welcome Lake on the south to Oshkosh on the north, a distance of about 80 miles. There are over twenty properties in the Welcome Lake district on which silver has been found. The extent of the silver country is practically unlimited.

"Gow Ganda will be a fine camp, much larger in extent I believe than Lobell. There is no doubt that it has the goods up there and can show it."

"What do you regard the extent of the silver fields as? The World," he replied, "one hundred miles west of Sudbury I have found cobalt, cobalt bloom and calcite, which is the silver bearing formation. Within thirty miles of Sudbury and south of the Canadian Pacific Railway at Penash Lake I have also found more silver bearing mineralization. In fact, the silver district is as large as the country itself."

Mr. Miles has a number of iron properties near Burwash which will be crossed by the Canadian Northern extension running to Port Arthur. He is confident that the C. N. O. Railway will run a branch into Gow Ganda.

REALIZING AT NEW YORK CAUSES GENERAL WEAKNESS

Wall Street Shows Weakness on Day's Transactions—Toronto Securities Firm With Little Speculation.

World Office, Monday Evening, May 10. Despite the paucity of transactions in the Toronto stock market quotations are remarkably resilient and without any definite outside influence.

This was the more pronounced to-day in that speculations received no assistance from outside sources. The New York market was weak throughout the entire day, while in several instances securities held on the local market had a firm undertone and prices were equal to the best recently made.

An instance of this was well defined in the City, which, according to market interpretations, has been decidedly weak. The earnings of this company might have had some influence on the price of the shares, which were bought half a point higher in New York than sales made here.

Concerning speculations there is an apparent apathy in connection with this issue, which is not altogether acceptable, but if an outsider's opinion is to be taken, this has been more for effect than for actual interest.

The strongest speculative stock to-day was Northern Navigation, which sold up to a new high, 20 shares of the stock finding a sale as high as 115.

The latest mining securities were firm, La Rose, Nipissing and Tretaway all showing advances from last week's closing prices.

Another stock which had a well-defined strength, was Winnipeg Railway, the last sale of this issue being at the high price of the day, and well above recent transactions.

The whole market, from a speculative point of view, was dull, but there was no dealing in any stock which had not recently undergone a considerable advance.

Wall Street Pointers. London settlement begins to-morrow. Tone of newspaper comment over end of the week bullish on stocks.

Improvement in steel trade beginning to stimulate business.

Demand for pig iron continue. American stocks in London heavy 1-8 to 1-2 below parity.

Specialists report heavy realizing. Sales in American Copper and Smelters readily absorbed.

Reported Western Maryland and re-organization plans are practically completed.

Some concessions in anthracite trade, but business for May is fairly satisfactory.

Bituminous coal business shows improvement.

Great Western re-organization plans completed.

All grades of copper advanced 1-8.

Sloss common declared 1-4 per cent, regular quarterly dividend, payable June 1.

London Saturday Review says that bull accounts are getting rather unwieldy and there is bidding up of low-priced mining securities.

Joseph says: "The big men make no secret of their position in the market, neither are they giving 'half confidences' to their friends. Distribution of stocks, except on a very moderate scale, is not going on to higher prices."

Notwithstanding temporary moderate recessions, may be counted on. Industry will continue active. This is especially true of Best Sugar, Sloss, the Coppers and Pump. Specialists: Hold some Union Pacific and B. R. T. Take Reading on all little drives.

Chicago special says western traffic officials report a little better general tone, but the largest movement is still in merchandise and factory products. The backwardness of the season, however, is hindering the buying from the interior. It is expected that there is some improvement in the surplus car situation, also it is not pronounced. Railroads operating eastward from Chicago and St. Louis handled about the same volume of business as during the last few weeks. The officials of the southern lines are cheerful and say there is a satisfactory betterment, everything considered.

Great Northern O. should go higher. Smelters may be bought on turns on this recession. Missouri Pacific, Brooklyn, Southern Pacific and Aetna should do better. U. S. Steel should be bought on all little recessions. Some conservative houses still buy St. Paul and New York Central. Washburn prefer should do better. Realizing is noted in Reading. Reid's return should buy Rock Island this week. Union Pacific still meets stock around 190. Amalgamated should be bought on recessions. The Equipment stocks should work to higher levels. We know of no special reason why the Hill stocks, Great Northern and Northern Pacific should be held back. They appear to be simply neglected.—Financial Bulletin.

Use more discrimination in buying now, as profit-taking reaction seems near. Irregularly rather than general break, however, is the worst that is likely to overtake the market now. Southern Pacific accumulation is impressive. It should go to work toward 130 on this move. Of other rails the most substantial profits temporarily will, we believe, be in the Goulds, especially Denver. Washburn securities, Western Maryland and Missouri Pacific, and in the eastern trunk line stocks, particularly Baltimore and New York Central, and in the Hill shares and St.

ACCUMULATION IN CERTAIN STOCKS.

World Office Monday Evening, May 10. Securities at the Toronto Stock Exchange to-day were quiet, but quotations were undisturbed, and holders and prospective buyers simply held their positions.

There is clear evidence in the market that accumulation in certain stocks is being sought, and that sales of these are welcomed by the insiders waiting to receive them. There are not many instances of this, however, but apart from this fact, in stocks which have undergone respectable advances, there is a desire to distribute when buyers can be found.

Speculation in the market to-day was confined almost entirely to the mining shares, the three listed issues being definitely firm. HERBERT H. BALL.

Distribution of 7000 Waists

WE began with 10,000—a "contract colossus," our waist department manager calls it. The cost of manufacture is reduced to a minimum by the ordering in quantity, so we made a job of it and ordered 10,000. Plenty of pattern, and lots of variety. We are selling 1000 per day—so far. We offer choice of 7000 to-morrow.

The Feature of To-Morrow is a Great Collection of Highest-Grade Styles for \$2.95

These comprise some of the most varied types of this present season's vogue, and include many high-priced New York models. Many have the new yokes of Irish crochet laces and medallions; others have yokes of fine embroidery, and Irish laces and finest French Val. laces. Some are made up with the low collar, Dutch collars, high collars and pointed collars. They have both the medium and the long director sleeves, and comprise some of the daintiest and prettiest of the year. The materials are fine batiste, Swiss lawns, fine mulls and Persian lawns and fine Irish linen lawns. The regular prices would run from \$3.50 to \$5.00. To-morrow \$2.95

LACE—A Beautiful Feature of the Summer Costumes A Sale of Lace Coats and Waists from Belgium and France at a Ruthless Sacrifice

- \$10 and \$12 Waists for \$3.95
- \$12.50 Coats for \$4.95
- \$12.50 to \$15 Waists for \$4.95
- \$25 to \$45 Coats for \$17.50
- \$20 Waists for \$10.95
- \$25 to \$30 Coats for \$15

THIS importation came to us from a firm whose representative selected them in Europe personally. Since then the business has changed hands, and we came in for one of the best windfalls in the history of this branch of our stock.

The goods are distinctly high-class, the Lace being hand-made, and the garments, both Coats and Waists, also made by hand. We are not taking their VALUE into consideration in setting the prices as we do. In view of the Ontario Jockey Club's forthcoming meet and the other functions of this Spring and Summer, this sale should interest Toronto ladies beyond question.

Real Lace Coats

COATS AT \$4.95, WORTH \$12.50.

One only Paris Model Coat, of fine imitation Irish crochet, sleeveless, fancy epaulettes. Regular \$20.00. To-morrow \$8.50.
And there are others.

Exquisite Hand-Made Waists

WAISTS AT \$3.95, REGULAR PRICES \$10.00 AND \$12.00.
Real Hand Made Lace Waists, with hand lace braided collar and cuffs and yoke of fine Honiton lace, applique net sleeves front and back. Another design has an elaborate yoke of braided lace applique, with the applique net sleeve, front and back.

WAISTS AT \$4.95, REGULAR PRICE \$12.50 AND \$15.00.
Beautiful models of fine Battenberg laces, Honiton braids and Bruges braids, both hand-stitched and applied on net. Some of these are very elaborated in design; some have dainty little braids inserted, with spots of blue or black, but mostly are all white; new long sleeves, dainty collars.

WAISTS AT \$6.95, REGULAR \$9.50 TO \$15.00.
200 in this lot, comprising very handsome designs, in Bruges point, point de Flandre, Honiton braids, Battenberg and other fine laces; both stitched and applied on fine and coarse nets; exceptional handsome waists, and could not be sold at the price in the country in which they were made.

WAISTS AT \$10.95, REGULAR \$20.00.
A Fine Hand Made Irish Crochet Waist, made entirely of Irish crochet lace and large handsome motifs, in floral and set designs. This is an exceptional bargain at \$10.95.

Our Fifteen Dollar Suits for Men

Blues and Blacks

WE TOLD you about our \$15 Suits in a general way, how we specialize on that grade, and raise the standard of quality and workmanship by the lever of quantity and insistence.

Let us give you some specific examples. Let us take a very useful kind of Suits—a blue or a black worsted.

- When you buy a blue worsted suit, what do you look for? First, a good blue.
- Second, a dye that you may rely upon for permanency.
- Third, the cloth—is it pure, soft, firm in body and even in weave?
- Fourth, fit and stylish appearance when worn.
- Fifth, workmanship and finish.
- Sixth, linings and other materials used.
- Six big important points—don't buy a suit until you have been satisfied on every one of them.

We challenge criticism on our blue or black suits at \$15.00 on every one of those six points. We have devoted concentrated effort to excel in each of those important details, and we want to show you.

Rich navy blue or pure deep black, three-piece sacks, single-breasted, made of West of England worsteds, the best in the trade, soft, close twill, which won't gloss, color guaranteed, cut and fit compares to custom made, all sizes 34 to 44, \$15.00.

Underwear for Every Man

WITH emphasis upon the kind that gives best service to particular men at least expense. No fancy prices on the one hand—no rubbishy qualities on the other. Dependable underwear for milder weather at medium prices.

- FOUR LINES IN PARTICULAR**
