Two Hundred Prisoners Captured With Village Four Miles East of Vimy Ridge---British Troops Break Hindenburg Line in Two Places and Take Important Positions, With Prisoners

Terrific Battle Still Continues on 12-Mile Front

the maritime provinces will make the greatest rai way in America and the greatest public-owned system in the world. It will bring enormous and immediate benefits to the cest and to the west. It will make a greater Canadian Northern, a greater Grand Trunk. It will save the Grand Trunk Pacific and the Transcontinental. It makes them one. The Intercolonial at last will be justified.

fine chalk powder blown from the roads.

As the marching columns reached the battle zone, however, all was changed. The trees became only gaunt, black skeletons; the once fair held had been pitted and scarred and withered under the shell fire until the earth itself was killed by the poisonous blasts, and no living thing could grow thereon, even under this first warm impulse of the new season. The only melodies were, the deep-throated roars of cannon, the whine of shells, the whistle of bullets.

Real Bembardment rays had disappeared behind the west-ern horizon that the real bombardmen States, a source of supply that is both began. In its intensified form it was of short duration. Then the guns settled into barrage work as the troops stole out from their forward trenches, or shallow shelters hastily dug in the ground during the more recent ad-

It was still half an hour before dawn, and the morning mists gave a deeper density to the darkness.

Stiff Fighting from First.
There was stiff fighting from the very first, and everywhere along the line the Germans offered desperate re-sistance. Since the battle of Arras began on Easter Monday the Germans have concentrated great numbers of guns opposite the British, and lately they have been firing with almost reckless extravagance. Much of the shooting has been absolutely bind since the British took all the high ridges, the Germans being unable to get more than momentary observe tion with airplanes and balloons. This morning the British creeping barrage fire, which swept like a great trellis work of exploding shells in front of the attacking troops, was met by a furious defensive curtain of fire, and for half an hour or more the artillery display was one of the most wonderful seen during the war. At the north of the line the Canadian troops, who occupied Arieux several days ago, pushed forward and took Fresnoy.

Arleux and Fresnoy had been swath-

ed about with great defensive works and numberless loops of barbed wire.

the report into legislation this session and give Canada, as we have alroady said, the greatest single contribution to the welfare that has been proffered in the lifetime of the Dominion of the proffered in the lifetime of the Dominion specific s proffered in the lifetime of the Dominion.

Free wheat and the nationalization of railways will do a lot for the Canadian west. They mean, we believe the dawn of a brighter day for that great country.

The war and the trials of the war are making our people, and we hore our public men approach the later and bigger questions of the new world and the new day from the standpoint of public welfare. Railways, like everything else, must serve the people and not the people serve the railways. Even politics and officers spoke excellent English and as a Canadian officer was conducting him to the rear he asked to see the positions from which the Germans were driven during the storming of Vimy Ridge on April 9. He marveled at the situation and asked what Canadian division took the position. When told it was the same division which captured him at Fresnoy today he laughed and said he could not believe it. He could not believe that any divisions in the Vimy, fight would be able to go on now and he shook his head incredibly when told that all the divisions were still at their original strength. He said

than before on the way to Douai, which is only a little more than eight miles due east from the further point of today's advance.

Since April 9 the line has been pushed eastward from Neuville St. Vaast, the jumping of place of the Canadian Army Corps, a distance of almost six miles, under most adverse weather conditions during the greater British Troops Have Crushed It at Two Points part of the time. Now that nature smiles the rate of progress is expected

Heavy Wire Destroyed

Fresnoy lay within the main Mericourt-Oppy position, which thruout its length, was strongly protected by wire entanglements thirty feet wide. For some days our artillery has been working overtime destroying this wire along a frontage of over two miles north and south of Fresnoy, as well as in front of the village. The ground has been searched by artillery fire for machine gun emplacements, which, when well concealed behind uncut wire, give a tremendous advantage to the defence.

Much ammunition is thus expended, but its free use saved the lives of many of our brave fellows today in the tangle of houses, or rather ruins of houses, thru which they fought their way down to the eastern slope of the new line established. Many of the enemy must have been buried in the ruins of the houses destroyed in the last terrific burst of fire which pre-

ceded the assault. Prisoners taken already number ten officers and 260 of other ranks.

"Despite the opposition of massed the Arras battlefront. Freshoy is near the northern end and Bullecourt near the southern end of the Arras ook Freshoy. Oppy, however, still section of the Hindenburg line. DOMINIONS AFTER WAR

* WAR SUMMARY *

THE DAY'S EVENTS REVIEWED

As a result of this fighting the British line east of Arras has assumed a crescent shape with the horns pointed outward into the German defensive system. This disposition makes the German line assume an awkward shape for the defence, for the German centre now bulges into the British line and it thus forms a considerable salient. The British attack, in effect, drove in the German flanks. Much further pressing back of the German flanks would make the centre form too acute an angle for safety and would compel an evacuation of the strong positions held by the enemy about Oppy in the Scarpe valley. The Germans brought up great masses of reserves for counter attacks and they were quite lavish with the lives of their men. Fierce combats surged about Cherisy and positions often changed hands, but night fell with the British in possession of the ground previously held by the enemy and allotted to them as their objective. The British had kept the approaches to the German front from the rear under close observation, so that their massed artillery inflicted immense losses both while the Germans were assembling and were charging.

To the Canadians the British staff had given the task of capturi Fresnoy and German trenches on a mile front north and south of the villa The charge was so rapid as to catch as usual the bulk of the Germans esconced deep in their dugouts. In five days the Canadians have advance four miles from Vimy Village. Doual is now only eight miles distant, at if the present pace keeps up, they ought to reach that town in ten days. It supposition, however, assumes that the real advance of Sir Douglas His upon Doual, an assumption not yet substantiated. The advance of Canadians forestailed a German counter-attack on Arleux. The enemy hoved up two Prussian regiments, or 6000 infantry, if at full strength, night before the advance for this offensive stroke, and the Canadian attack caught them in the village. The enemy surrendered only when Frest was surrounded, according to one report. The Canadians took 200 prison out of the two Prussian regiments.

The secret of the fierce resistance from the Germans seems to be that they are endeavoring to complete the new emergency trench system between Lens and Queant before moving into it. Sir Douglas Haig does not intend to let the grass grow under his feet, and the despatches contain a hint that the British army will greatly increase the frequency and violence of its assaults since spring has come in earnest.

The conditions on the Russian front still remain unaltered from previdays. The enemy keeps more active and he makes many more raids attacks than the Russians do. Gen. Alexieff, chief of staff, has arrived the Riga front to examine the situation. The Russian Government has iss a reassuring statement about its unity with the aims of the allies and determination not to slacken its efforts to defeat the enemy. Lord Cur

IS ON RUN, SAYS EARL CURZON READJUST STATUS

London May 2 Addressins the Primrose League in London today East Curzon of Kedleston, member of the war council, said there was no military front in the world-wide war where at the present moment the enemy was not a retreating force.

"We are learning daily from the western front," said Earl Curzon, "of increasing desertions and surrenders by the enemy and of the breaking down in discipline on the German side."

Referring to the entry into the war of the United States, Earl Curzon declared that the Americans already were putting their full weight into the war.

"It may not be very long before their armed forces are seen on the continent," said Earl Curzon.

CHARGE OF CONSPIRACY.

(Continued from Page 1).

perial conference resolution bs modified so as to permit the full inclusion of India in all future imperial conferences, and that the assent thereta of the various governments be obtained. It prays that the king constitute by royal charter, an imperial graves commission, on the lines proposed by the Prince of Wales to the prime minister. The conference records its deep-set appreciation of the French Government's generosity in allotting in perpetuity the land where our men are buried, and urges that similar arrangements be made, in the peace terms, with all the allies, enemy and neutral governments, in Gallipoli, Mesopotamia, Africa and elsewhere.

Autonomous Nations.

The conference expresses the opinion that a readjustment of the external relations of the component parts of the empire is too intricate a subject to be dealt with during the war and should be dealt with by a special imperial connection of readjustment while thoroly pre-

CHARGE OF CONSPIRACY.

John Angel, 661 West Queen street, and George Poulon, 5 Emerson ave., were arrested last night by Acting Detective Wickett on a chase of conspiracy. RET RICHMOND STREET

FRIDAY MORNING, MAY 4.

Great Britain to be economical and thrifty Great Britain to be economical and thrifty in the use of food in the face of the dire menace of the submarine, there is good cause for disquiet on the part of citizens of the empire everywhere. It ought to be brought home to everybody on the side of the entente allies that they all stand or fall together. If Great Britain is beaten by any means, whether by the only means of keeping our lines intact. submarines and being starved out, or in any other way, all the allies are beaten, "and there's an end on't." Consequently, whatever personal feeling anyone may entertain over the situation, whether an poyance, or anxiety, or panic, or delight at the opportunity to make profits out of his fellows, he must have it brought home to him that he is in his own degree responsible for the situation and its remedy.

The worst has been the vital defect of our methods all along.

When the spirit of enlistment was at white heat great things might have been

dient food in Britain to obviate capitulation; of increasing the area sown suffidently to double the crop of last year,
and to establish supplies sufficient to
meet the demand next year, which will
be far greater, whether we have peace or
war, than at present.

The latest despatches from the west
announce that sowing is three weeks
later than the average of the last tweive

The necessity of economy cannot be too strongly emphasized. The importance of a large acreage this season and an increased production must be obvious; but it is foolish to talk about a famine or to become panic-stricken because we are at war. There is not even a remote possibility that stricken because we are at war. There is not even a remote possibility that the farms of the United States will fail to produce enough food for home consumption. Our problem is to furnish a large striplus, so that we may add our allies materially. Bradstreets has just announced that the visible supply of wheat in the United States is about 100,000,000 bushels, and by visible supply is meant the amount "on the market"—in elevators and warehouses. The farm reserves are an indeterminate factor, but they are large, no doubt. They always are.

It is very feelish and not the high-est form of patriotism for household-ers to "lay in" large stocks of pro-visions. The people will soon under-stand this. They will understand that the power to act as a military neces-sity is the power to stop food corners, and also they will learn that before the end of the year we will not only the end of the year we will not only have enough for our own needs, but a large surplus to send away. We are under a moral obligation to economize and to produce, because every pound of food we save, every extra pound we create, will aid in the common cause. Let us be sensible, not hysterical.

have enough for our own needs, but a large surplus to send away. We are ment on the produce, been and the produce, been and the produce and to produce, been and the production of the production.

The points to be noted are, first, that starps surplus of food is needed to support our allies: second, that the hoard-region of provisions is a crime and a folly as well; and, third, that we should have a food controller, with plenary powers to regulate prices, stop hoarding, and stimulate production.

In Canada, as in the United States, as The Telegraph says, there is no need for a panic about the sovernment. Little or nothing has been done, or seems likely to be done, at present, to regulate the conditions, as is urgently needed, of production, of prices, for storage and distribution, and of private hoarding. It is the fear that the government will not take the precupit of production.

What is needed is government leadership, and this is what is mainly wanting. The respirate with coal during the winter did not tend to aliasy their fears or restore confidence.

What is needed is government leadership, and this is what is mainly wanting. Private enterprise at the behest of the provincial government is doing all that is being done for the stimulation of production, his house of the provincial government is doing all that is being done for the stimulation of production, his head.

There explain the proper steps to be taken in his head.

There explain the common of the conditions, as a contemplating and the proper steps to be taken in his head.

There are given by Leader Continuing the production of the provincial government leadership, and this is what is mainly wanting the provincial government is doing all that is being done for the stimulation of production, his provincial government is doing all that is being done for the stimulation

science, and the proper steps to be taken in his head.

There ought to be an immediate veto by the government on the raising of prices. This is what is driving the people to nanic more than the fear of scarcity. They know that their wages or salaries are fixed quantities, and they see prices soaring, and continuing to soar, until they feel that if the middleman is going on indefinitely in his business of bleeding the public, there will come a time when the people cannot afford to buy. The price of soal is an outrage. The price of wheat is a crime. The price of potatoes is a scandal. The price of food generally is a shame and disgrace. The outrage, the crime, the scandal, the shame and disgrace of it all are eating the heart out of the people who suffer. Those who are well-to-do lay in stores. But all the outrage and scandal and disgrace lie at

the door of the government that fails provide proper direction and control.

The Urgent Need at the Front.

The table of submarine losses indicates a very serious condition of affairs, for it shows an increase over the earlier weeks of the new undersea campaign. And it shows, also, that the arrivals, the cargo boats going towards Britain, suffer as severely as those outward-bound. This means that food is being thrown to the fishes by the ruthless German method, and at a time when the food supplies of the world are at a lower ebb than they have ever been before.

There is therefore the problem of re-There is, therefore, the problem of replacing ships; of replacing food that has been destroyed, and of maintaining sufficient food in Britain to obviate capitulations of the real effort on the part of the government to attempt it. All the work has been left to private energy and almost entirely to private purses. The contributions for this purses.

later than the average of the last twelve more is possible in this direction. Large years. In Great Britain the seeding has been delayed by a phenomenally backward season. In Ireland, six feet of snow in April is reported as an evidence of the unusual weather. And they never have more than six weeks' provisions ahead in mocratic view of the case, and they see Here is a statement from Wednesday's the almost instant adoption of the se-lew York Morning Telegraph, to which, lective draft in the United States. HOUSE DEBATES

Government Blamed by Liberals for Failure to Comdeer Wheat.

RELIEF IS HOPED FOR

Joint Action by Canada and U. S. to Stabilize Prices - Considered

Let us have something done immediately to keep our men at the front the adjournment of the house to disnot entirely without support; to let them cuss the high price of flour. Flour, he understand that their lives are not enovernight. He urged the government to commandeer all the wheat in the country not actually in the hands of the farmers, to require the millers to grind it at cost, and distribute it at reasonable prices to the people.

The discussion in the main follow-

ed party lines. The Liberals arraigned the government for its inactivity Official records show that 139,132 men of No. 2 (Toronto) military district have volunteered for active service enlistment. Of these 93,886 have been accepted. This findludes 1892 men enrolled for the navy and the Royal Flying Corps. These figures are given by Lieut.-Col. G. H. Wiltiams, chief recruiting officer. Toronto district. During April Toronto district enlisted more men than the Montreal, Quebec, Maritime, London and Kingston the government for its inactivity, and especially criticized the department of agriculture and the department of laber. This led W. H. Bennett, Conservative member for Simone, to characterize the Kyte motion as "mere buncombe." No Liberal member representing a farming constituency, he said, would dare to advocate commandeering grain in the hands of the farmer. Every farmer was at present a speculator in grain because he was naturally waiting for the best price possible. Wheat had

of flour. He said the morning papers announced that the price of flour had advanced \$1.20 in 24 hours.

In all the wheat in the country. That announced that the price of flour had advanced \$1.20 in 24 hours.

In all gone up 38 cents on the Winnippe market. This to advance in the price of flour, which had risen from the government to produce the flour of wheat had largely ceased, yet wheat in the country. Mr. Kyte said, at least 100 flour, which had risen from the submarine menace exportation of wheat had largely ceased, yet wheat in the submarine menace exportation of wheat had largely ceased, yet wheat in the country. When the submarine menace exportation of wheat had largely ceased, yet wheat in the country of the submarine menace exportation were constantly rising, and it was confidently predicted that flour would go in the near future to \$20 a barrel. Surely, Mr. Kyte graded, the government bought was considently predicted that flour would go in the near future to \$20 a barrel at least, and that was the price of nour own people were applied with some barrel at least, and that was the price of flour. When the submarine menace exportation of wheat had largely ceased, yet wheat in the country mr. Kyte said, at least 100 minister said there was no distinct the submarine menace exportation of wheat had largely ceased, yet wheat in the country mr. Kyte said, at least 100 minister said there was no distinct the submarine menace exportation of wheat had largely ceased, yet wheat in the country. Mr. Kyte said, at least 100 minister said there was no distinct the submarine menace exportation of wheat had largely ceased, but would they produce the four mental properties. The minister said there was no distinct the submarine menace exportation of wheat in the country, mr. Kyte said, at least 100 ministers and the was not submarine menace exportation of the submarine menace expo ment should be able to do something. He suggested commandeering all the wheat in the country not actually in the hands of farmers. If the millers would not grind this wheat at a reasonable price, then it would be up to the government to produce the flour and distribute it to the people at a reasonable price.

billion bushels less had been produced in 1916 than in 1915.

Mr. Carroll (Cape Breton), who is absent on leave from his battalion at the front, argued that the advance in the price of flour was unreasonable even in view of the high market price of wheat. The high cost of living was accurately produced in the price of wheat is the high cost of living was accurately produced in the price of wheat. The high cost of living was accurately produced in the price of wheat. The high cost of living was accurately produced in 1916 than in 1915.

That was one of the questions under consideration by the conference in Washington, at which Canadian and American Governments. That was one of the questions under consideration by the conference in Washington, at which Canadian and American Governments.

W. H. Bennett (East Simcoe) sarcastically observed that it was pitiful to think of a young man who had escaped the bullets at the front by coming back to his place in parliament should now be liable to death by starvetion.

vation.

Mr. Carroll: "I did not dodge any bullets; I was in the trenches." Mr. Carvell (Carleton): "Take it

W. H. Bennett: "I have nothing to take back. But the member for Carleton should not talk about military matters. He was strutting around the country for years in a major's uniform, but he dodged the bullets by staying at home when his battery went to the front."

Mr. MacLean (Halifax): "He offered

his services to the minister of militia and they were declined." Mr. Bennett: "He could have enlist-ed without asking the minister of

By this time the house was in great confusion. Mr. Carvell, trembling with passion, shouted across the floor to Mr. Bennett, "Take it back, you coward!" Rainville Peacemaker.

Deputy Speaker Rainville, who was in the chair, quieted the disturbance and restored the house to good humor. "I will remind the honorable gen-tlemen," he said, "that the question is on flour." (Laughter.) Mr. Bennett went on to say that Mr. Bennett went on to say that the whole outcry of the opposition was "cant and humbug." Members on that side of the house would not dare to advocate commandeering wheat in the hands of the farmers. Nova Scotia members might do so, but the Ontario Liberals would flee from the chamber as if it was o nire if any such

chamber as if it was o nine if any such suggestion were put forth from their side of the chamber.

Mr. Carvell explained to the house that he was 52 years old when the war began, and therefore too old to onlist as a private. He had been an artillery officer in the Canadian militia, but had left the service seven years before the war. In 1914 however, he before the war. In 1914, however, he offered to raise a battery, but after some correspondence his offer was declined by Sir Sam Hughes, then min-

white Answers Critics.

Sir Thomas White said the discussion could not be confined to the price of flour. There had been a general rise in prices not only in Canada, but all over the world, and there were world-wide causes that should be considered and discussed in a judicial way. It was easy to criticize the government, but not so easy to suggest a It had been suggested by Mr. Kyte that the government should comman.

Sir Thomas said there was nothing LABOR MEN CRITICIZE the government could do to reduce the price of living. It could not by a scratch of the pen increase the supply or decrease the demand. It could, reasonable price.

Crothers Not Disturbed.

Hon. T. W. Crothers said his attention had been drawn to the spectacular rise in the price of flour, and he had at once sent an official to Montreal to make an investigation. He quoted figures to show that the advance in the price of flour had merely accompanied, if it had not been directly caused, by the advance in the price of wheat. The price of wheat had gone up largely because nearly a billion bushels less had been produced in 1916 than in 1915.

Mr. Carroll (Cape Breton), who is

A. K. Maclean (Halifax) suggested A. K. Maclean (Halifax) suggested that Sir George Foster would not be at Washington had he not been virtually called there by the British authorities, and McCoig (West Kent) suggested that the government might do a good deal to reduce the cost of living by putting tractors and agricultural implements on the free list. He thought there were too many millionaires in the cabinet who could not realize how hard it was for many people to live. The laboring people of this country, he thought, should be government.

A. K. Maclean (Halifax) suggested that a resolution was passed by the council, to be forwarded to the department of education, to the effect that a person or persons be appointed who shall have power to investigate the cause of absence, if that absence has extended over a period of three days, and when a child is detained thru sickness, proper remedies to restore the child to health should be provided if the parents lack the means.

The council concurred in the appeal of the trades and labor council of Hamilton that a person or persons be appointed who shall have power to investigate the cause of absence, if that absence has extended over a period of three days, and when a child is detained thru sickness, proper remedies to restore the child to health should be provided if the parents lack the means. causing privation and distress all over the country. It was specially hard upon the wives and children of our boys at the front.

W. H. Bennett Causes Scene.

W. H. Rennett (Fast Simcoe) say.

> so badly needed in the east for feed had to be sent to a foreign country because the railway companies placed an embargo upon all such freight billed for points east of Port Arthur. The excuse was that the companies had no rolling stock, but they had plenty of rolling stock for the automobile manufacturers.
>
> Cockshutt's Bold Stand.
>
> W. F. Cockshutt. (Brantford) said he automobile manufacturers.
> Cockshutt's Bold Stand.
> W. F. Cockshutt (Brantford) said nesday, May 9th.

that Canada was the only country where there was no control over food

where there was no control over the stuff.

He thought we needed a food dictator in this country.

Replying to Sir Thomas White's assertion about high wages and general prosperity, Mr. Cockehutt said that wages were really lower now than before the war. They might be nominally higher, but they did not purchase as much. It was becoming a problem for the workingman how to feed his family. The government was too fond of kid glove methods, both in dealing with recruiting and the control of foodstuffs.

"This government or some other government," said Mr. Cockehutt, amid applause from the Liberal benches, "will soon have to take some drastic action."

amid applause from the Liberal benches, "will soon have to take some drastic action."

Mr. Cockshutt believed that if \$2.00 a bushel was a fair price for wheat, \$2.00 a bag was a fair price for wheat, \$2.00 a bag was a fair price for wheat, \$2.00 a bag was a fair price for wheat, \$2.00 a bag was a fair price for butter, that the government should see that no greater sum was demanded for these commodities.

Hon. Mr. Crothers: "How much will you take for your plows?"

Mr. Cockshutt: "No government can shake a big stick over my head by talking about the price of plows. I have not been interested in the manufacture of plows for 20 years."

Turriff Defends Farmers.

Mr. Turriff (Assiniboia) said the finance minister had talked eloquently about 20 million men drawn from production and engaged in slaughter, but conditions were no different now than they were six weeks ago, and six weeks ago the grain growers of the west had offered the government all their wheat at \$1.70 per bushel. He had no fear but that the farmers would be quite willing to sell their wheat to the government at any time at a fair price. Representing himself a constituency of grain growers, he did not fear advocating the government commandeering wheat or any other foodstuffs that might be necessary.

Solicitor-General Meighen replied

TORONTO Y.M.C.A. SECRETARIES

DOING VERY NICELY

Ten Thousand to Be Spent on Five Secretaries in Five Months.

At, the meeting of the organization of resources committee reports in the recruiting of high school boys for work on farms undertaken by the YM.C.A. secretaries, were considered, and the response was said to be most satisfactory. Seventy-five per cent. of the boys appealed to enlisted for farm service. It is estimated that 2,658 boys have volunteered during the past service. It is estimated that 2,658 boys have volunteered during the past

two weeks.

Five secretaries of the Y.M.C.A. will be employed during about five months in supervising the boys, and it has been estimated that the approximate cost for this work will be \$10,000. This will include office expenses and stemographers, etc. There was at one time some talk of asking for a grant to help in this branch of the work, but W. R. Cook, boys' work secretary for Ontario and Quebec, states that this will not be required. The Y.M.C.A. is raising \$750,000 in Canada this year, 90 per cent. of which will be devoted to military work, and the \$10,000 will be taken out of the remaining ten per cent.

The provincial farm labor bureau has been successful in obtaining many boys for work on the farms to increase food production. This reau, is taking extreme care in safeguarding the welfare of each boy. The boys are asked to correspond regularly with the farm labor

Groups of boy friends have enlisted and they have been placed as far as possible on individual farms within possible on individual larins a community. It is possible for them to meet occasionally and discuss the daily events without becoming overburdened and tired of their new work.

U.S. FREIGHT RATES

NOT YET INCREASED The confusion regarding the increase in freight rates requested by As far back as last October the the American railroads is settled by postal clerks' association, acting for a statement issued by the interstate ommerce commission as follows:
"In view of erroneous reports that been published it seems proper to state that the commission has reached no determination and therefore expresses no view or opinion upon the reasonableness or pro-priety of such proposed increases, petition or the request sent last week which, as indicated in the orders re-ferred to, will be subject to protest, general and also to each cabinet mincomplaint and correction if in con-flict with any provision of the act." In the program issued by the com-mission it has set aside the week of May 7 for the consideration of the sed increase in freight rates, and shippers and carriers are assured

THE WEATHER

Observatory, Toronto, May 3.—(8 p.m.)
—Light rains have occurred in Quebec and the Maritime Provinces, and show and rain have fallen in many parts of Saskatchewan and Alberta. Cool weather prevails in nearly all the provinces.

Minimum and maximum temperatures: Prince Rupert, 36-52; Victoria, 42-54; Vancouver, 44-56; Kamloops, 44-58; Calgary, 28-52; Edmonton, 24-32; Mosee Jaw, 38-61; Winnipeg, 36-68; Port Arthur, 30-46; Parry Sound, 30-48; London, 33-49; Toronto, 35-48; Kingston, 34-42; Ottawa, 32-44; Montreal, 34-44; Quebec, 32-48; St. John, 36-46; Halifax, 36-50.
—Probabilities.—

Lower Lakes and Georgian Bay—Fresh to strong northeast and east winds; fair and cool; showers in southern portion at night.

Ottawa and Upper St. Lawrence—Northwest and north winds; fair and cool.

Lower St. Lawrence—Northwesterly

Cool.

Lower St. Lawrence—Northwesterly winds; generally fair and cool.

Gulf and North Shore—Fresh easterly to northeasterly winds; cool, with local falls of show or rain.

Maritime—Moderate winds; mostly cloudy and cool, with some local show-

Lake Superior—Moderate to fresh winds; fair and cool.

Manitoba—Turning colder with local falls of rain or snow.

Saskatchewan and Alberta—Mostly cloudy and cool, with local falls of snow or rain.

The above statement effectually sets at rest the rumor that freight rates

On coal have here increased by the control of the most picturesque routes in the world. or write W. B. Howard, district passenger agent, Toronto, Ont.

DELAY AT THE BORDER.

Complaints have been numerous dur-ing the past few days on the part of business men entering Canada by way of Niagara Falls. It is claimed that trains are held up for over an hour by the customs officials for little apparent reason. Some claim to have been delayed as long as three hours, thus reducing the time they intended to spend here on business.

STRICT ORDERS FOR TROOP TRAINS.

A military order issued yesterday states that when units are proceeding east for embarkation soldiers are under no circumstances to be permitted to leave trains, nor are civilians to be permitted to board them. Also, every precaution must be taken against liquor peing supplied to the soldiers.

swinger. Alien is the boy that was picked up in the Virginia League. He is just about the justest man on the club. He will hit at a respectable clip and is fast learning the tricks of senior company. Bill Keily, who did the catching, is no stranger. Burny Hyarme did good work for the Leafn in days gone past.

Hearne and Warhop had a great pitching duel for eight innings. The Birds had two more hits than the locals in this time, but the honors were about even. Warhop's team mates had he ped him out with three double plays, and this saved him a lot of trouble. The fielding on toth sides of the lot was of a sparkling order and it was an exceptionally good contest for an opener. Trout, filling in for Jimmy Smith at short, handled everything that came his way in nice fashion. Hearne rolled along with only three batters facing him in each of the first four innings and not the sign of a hit being registered. It was a tight little argument until the ninth.

The Hirds squeezed two hits out of Hearne in the eighth round, but failed to score. The ninth saw the damage done. With Barber out of the way, Lamar dropped a safe hit into centre field. Williams popped to Blackburne, but Bues poked into right for his third hit of the day. He stole second and rode home behind Lemar on Acceta's double into Allen's territory. McAvoy duplicated to the left side of the diamond and the third rum was in. Warhop lifted to Whiteman.

Trout was hit in the opening round for the Leafs, but Whiteman hit into a double Cincinnati

bit of the day. He stole second and rode home behind Lemar on Acosta's double into Allen's territory. McAvoy duplicated to the left side of the diamond and the third run was in. Warhop lifted to Whiteman.

Trout was hit in the opening round for the Leafs, but Whiteman hit into a double play. Lajole was given a great hand when he first came up to hit in the second stand. He replied with a clean single to left. Graham fouled out in an effort to bunt. Blackburne hit into a double play. With Whiteman retired Lajole hopes to reverse the result of the opening contest. Zabel, the hig right hander who stopped the Grays hardly Sunday, will pitch for Toronto. Sherman, who has one victory to his credit over the Leafs this year, is likely to be Manager Dunn's choice. There is a chance that Thompson will replace Allen in right field for the local club. Baltimore a lit in the first four rounds and only one man reached first, this from a walk.

Baltimore put over two hits in the Rational Ratio

only one man reached first, this from a walk.

Baltimore put over two hits in the fifth, but were unable to get the necessary single to score a man. Hearne yielded hits in the sixth, seventh and eighth sessions, but nothing resulted until the ninth.

Jacobson welked to open the Leafs' half of the last round. Trout raised a long fly and Acosta ran to the foul line and grabbed it with one hand and doubled Jacobson before he could get back to fifst. This shut us off and ended a right smart ball game.

Shortstop Jimmy Smith was hit on the routh with a batted ball in the bunting ractice before the game. He will be allright today. Zabel will pitch against the Birds this afternoon. The game will start at 3.15.

RUFUS RYAN DIES OF

Was Member of Famous Ottawa Rough Rider Rugby

Ottawa, May 3.—Flight-Lieut. Jack (Rufus) Ryan, one of Ottawa's greatest athletes, and widely known among eastern Canada sportsmen, has died as the result of accidental injuries in France.

A cable was received in Ottawa this afternoon notifying Mrs. J. T. McElroy, the famous footballer's sister and next of kin, that he had succumbed to wounds in France. On Monday Mrs. McElroy was notified that her brother had been admitted to No. 45 Casualty Clearing Station, wounded and seriously ill, as the result of accidental injuries.

Lieut. Ryan served with distinction with the Royal Flying Corps in the battle of the Somme. He had been with the Royal Flying Corps in the battle of the Somme he was mentioned for his good work, was wounded, but recovered in an English hospital. At his own request he was sent back to France.

Probably no local athlete was better known that Rufus Ryan, who played outside wing for many seasons on the Ottawa football team in the Imterprovincial Union. He was one of the heroes of the famous Ottawa-Hamilton play-off at Rosedale in 1910, when the Senators won the championship. He also played with the New Edinboro war canoe crew which held the Dominion championship. He was also a runner and a cricketer, and in fact, participated in nearly every branch of sport. He was employed in the interior department and was unmarried. The late Lieut. Ryan is survived by two sisters, Mrs. J. T. McElroy and Mrs. William Crowe, both of Ottawa.

His brother, Pte. Billy Ryan, was killed in action on the western front last fall.

No details of the circumstances leading up to the injuries that caused Lieut.

Naturally you prefer a good suit; to get one, to be sure of getting the right kind, you must pay the price.

When you pay a fair price Certain good cloth Shape-stayed Tailoring Silk-thread sewing

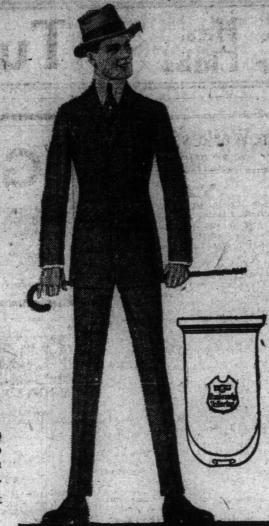

When you pay a cheap price Fairly poor cloth Slop-shop Tailoring Cotton thread Poor linings Ready-made fitting

No man can-sell a \$25 suit for \$15, for a good \$25 mit costs a great deal more than \$15; and every merchant must make a profit to live.

Semi-ready suits at \$18 are not as good as Semiready suits at \$25.

Semi-ready suits at \$25 cost more than any suits tailored in Canada at the price—they are sold direct to the consumer for less profit than any clothing sold in America. That is a broad statement, but it is a fact.

Semi-ready suits are fitted and finished to exact measure—free of extra charge.

Cabendish Semi-ready Tailoring

NO COAL FAMINE FOR NEXT WINTER

City Decides to Purchase Two Hundred Thousand Tons of Coal

Controller Cameron stated vesterday that the action of the city in deciding to invest \$1,200,000 for the purchase of 200,000 tons of coal would mean absolute assurance against a famine next winter. This will supply all the needs of the city buildings and ensure a supply for the industries and householders in the event of a scarcity. If the ordinary sources of supply ensure a supply for the industries and householders in the event of a scarcity. If the ordinary sources of supply are sufficient the city can carry over the quantity stored until it is required. H. A. Harrington, of the Retail Merchants' Association, was highly pleased with the action of the city, and expressed the opinion that there will be no need for worry on the part of the citizens if the city is able to obtain this quantity at a reasonable price. If would certainly relieve the situation and provide against famine. He stated that 200,000 tons would meet the requirements of the city for about four months. Toronto consumes 700,000 tons of coal annually.

The Canada Steamship Co. has announced that it will work in conjunction with the city and has made arrangements for the handling of 600,000 tons. This supply, it is stated, will be purchased at the pit mouth. If the city is unable to purchase at the pit mouth, it will get its supply from the steamship company. Property Commissioner Chisholm has received instructions from the board of control to proceed with the purchase of the city's share. Finance Commissioner Bradshaw expressed the opinion that it would be difficult to finance the venture, but the controllers are confident that satisfactory arrangements can be made.

In a few days a conference will be

CITY WINS TWO CASES

BEFORE SUPREME COURT

Loses Appeals From Decisions

Favoring Frederick Murch and

J. F. Brown Co.

City officials have been informed that Toronto has lost two cases and won two before the supreme court at Ottawa. The cases of Cowan and Palmer, the appeals on which have been dismissed, arose out of a motor collision on Spadina avenue on Oct.

In a few days a conference will be held by the board of control, E. H. Cousins of the harbor commissioner Chisholm, Works Commissioner Harris and a number of officials of the steamship company regarding sites for storage. There will be an effort made to find a place from which the coal can be transported to all parts of the city as well as a base at the waterfront.

It is understood that the steamship company has sufficient accommodation at the docks for the supply. The mayor stated yesterday that a number of terminals would be provided at the waterfront and that the steamship company would put five barges at work on the service. In one part of his statement he remarked that "the legislature declined to pass the city's bill are the coal can be transported to all parts of the steamship company has sufficient accommodation at the docks for the supply. The ladies' committee of the social The ladies' committee of the social service' department of the Toronto General Hospital has issued invitations to a drawing-room meeting this afternoon. Thru the courtesy of Mrs. Flavelle it will be held at Hollwood, Queen's Park, at 3.30 o'clock. Dr. C. K. Clarke and Miss Keys will addressed the meeting of the social services.

Yesterday morning the session of the Women's Auxiliary took the form of religious services in St. James' Cathedral, when the sermon was preached by Capt. (Rev.) C. Arthur Carlisle of Windsor. In the afternoon at St. Anne's Parish House addresses were given by Dr. W. E. Taylor of China on "The Call of the Hour Thru the Mission Field" and by Captain Carlisle on "The Call to the Church Thru the Returned Soldiers."

Other items on the afternoon program were the reading of letters from missionaries and responses to the "Question Box." In, the evening the principal address was by Rev. Canon Gould, who spoke on "The Call of the Hour Thru the Eastern Churches."

The Ioliowing are the newly elected officers of the Alumnae Association of St. Michael's Hospital Training of School for Nurses: honorary president, wind Long, and the actors were very clever. Mrs. Blight played the plano and fir. Gilbert the violin. The ushers were Boy Scouts, the proceeds going for the Brittanny Hospitals. A few of those in the auditorium were: Miss Marie Gallothe Greig, Mr. and Mrs. Clark Mrs. Carlisle on "The Call to the Church Thru the Returned Soldiers."

Other items on the afternoon program were the reading of letters from missionaries and responses to the "Question Box." In, the evening the principal address was by Rev. Canon Gould, who spoke on "The Call of the Hour Thru the Eastern Churches."

Thru a sock, money and tobacco the Chapter, LO.D.E., seeured 117 pairs of sox, \$50 and a quantity of tobacco. These will be distributed between men overseas and the men of the 255th Battalion.

REAL WAR SCENES

ON METROPOLITAN Electric Railway, at Eversley; ploughing done; land suitable for vegetables; a neighbor had five hundred bags of potatoes off five acres last year, and he is selling them at \$3 per bag; reckon this up and you will see how you can pay for your land in one year; price, \$500; terms, \$5 down and \$5 monthly, will pay interest and principal. Open evenings. Stephens & Co., 136 Victoria St. Ottawa, May 3,-The special committee of the house dealing with revision of the Railway Act this mornwhereby no railway company unless authorized by the government may authorized by the government may make any stock or bond issues without the permission of the railway commission. The board was given power to refuse or grant such issues or any part of them, and to impose conditions and specify the purposes to which the money is to be applied, and generally to fix the price and govern the whole transaction. The railway companies objected to this proposed limitation of their financial operations. The clause, it was explained, transferred authority from the government to the railway commission.

to the railway commission
"Whence did this clause emanate?"
asked Mr. Macdonald.
"W. F. Maclean was the first to
bring it up," remarked Hon. George

P. Graham.

Railways Object.

W. H. Biggar, K.C., for the Grand Trunk, said the shareholders were as capable of saying how money should be spent as was the railway commis-

"Why should parliament divert itself of its authority and put it on the board? What is the advantage?" asked Mr. Graham.

Mr. Maclean pointed out that this course was recommended by A. H. Smith in his railway report. The pub-

F. H. Chrysler, K. C., of the C. P. R. F. H. Chrysler, K. C., of the C. P. R., strongly urged that the primary power given to all companies was to issue stock. He contended that the legislation proposed was a complete reversal of policy and would seriously handicap the financial transactions of the company. Because of irregularities which existed in the United States, Canadian railways should not be penalized.

The creditors of Sydney Lodge Thorne, late of the City of Toronto, in the County of York, major in His Majesty's Army, deceased, who died on or about the 26th day of November, 1916, and all others having claims against, or entitled to share in, the estate, are hereby notified to send by post prepaid or otherwise deliver to the undersigned, on or before the 15th day of May, 1917, their Christian and surnames, addresses and descriptions, and full particulars of their claims, accounts or interests, and the nature of the securities, if any, held by them. Immediately after the said 15th day of May, 1917, the assets of the said deceased will be distributed amongst the parties entitled thereto, having regard only to the claims or interests of which the executors shall then have notice, and all others will be excluded from the said distribution. be penalized.

"Did you ever hear of melon-cutting?" asked Mr. Maclean.

"It does not exist." retorted Mr. Chrysler. "The issue of stock at a premium to the public is a wholly proper procedure. There is no duty to give the public a preference to the shareholders."

Sir Henry Drayton Opposes.
Sir Henry Drayton objected to the responsibility being placed upon the commission. Railway rates in Canada should not be fixed on the basis of capital, but rather on that of service

Barristers, 156 Yonge St., Toronto, Solicitors for the Executors.

Dated at Toronto this 19th day of April, 1917.

NOTICE TO CREDITORS.—IN THE Matter of the Estate of Charles Smith, Late of the City of Toronto, in the County of York, Gentleman, Deceased. vice. "To my mind," he said, "the adoption of this clause would take away from the board the right to fix rates. If the board exercises the proposed power then it should regulate rates so as to produce revenue to meet obligation of the securities.

F. B. Carvell said that in view of

NOTICE is hereby given, pursuant to R.S.O., 1914, Chapter 121, Section 56, and Amending Acts, that Creditors or others having claims against the estate of the said Charles Smith, who died on or about the twelfth day of March, 1917, are returned to control stock issues.

STOMACH MEDICINES ARE DANGEROUS

DOCTORS NOW ADVISE MAGNESIA.

Just how dangerous it is to indiscriminately dose the stomach with drugs and medicines is often not realized until too late. It seems so simple to swallow a dose of some special mixture or take tablets of soda, pepsin, blamuth, etc., after meals, and the folly of this drugsing is not apparent until, perhaps, years afterward, when it is found that gastric ulcers have almost eaten their way through the stomach walls. Regrets are then unavasiling: it is in the early stages, when indigestion, dyspepsia, heartburn, flatilence, etc., indicates excessive acidity of the stomach and fermentation of food contents, that precaution should be taken. Drugs and medicines are unsuitable and often dangerous—they have little or no influence upon the harmful acid, and that is why doctors are discarding them and advising sufferers from indigestion and stomach treuble to get rid of the dangerous acid and keep the food contents bland and sweet, by taking a little pure bisurated magnesia instead. Bisurated Magnesia is an absolutely pure anti-acid, which can be readily obtained from any drug store. It is absolutely harmless, is practically tasteless, and a teaspoonful taken in a little warm or cold water after meals will usually be found quite sufficient to instantly neutralized excessive acidity of the stomach and prevent all possibility of the food fermenting.

TO HIGHEST POINT

Three Dollars and Fourteen Cents for Immediate Delivery.

Chicago, May 3.—Loftiest prices yet in the wheat market here resulted today from purchases that appeared to be largely for seaboard account and that followed announcement of arrangements which seemed to indicate the failure of censorship methods to keep down quotations at Winnipeg. The market here closed nervous, 3½ to 10½ net, higher, with May at \$2.85½. Corn gained 1½c to 2½c, and oats quarter to a half. In provisions the outcome was a setback of five cents of five cents

and oats quarter to a half. In provisions the outcome was a setback of five cents to fifty cents.

Except for some brief interruptions during the first half of the day the advance of the wheat markes thru the session was continuous and rapid. The earlier upturns were mainly in the nature of further responses to the disappearance of peace prospects, whereas the passing bearish reactions were associated with a rumor that lack of sufficient food had caused wholesale desertions from the German army. Word that undergrade wheat would be accepted in part satisfaction of contracts in Winnipeg was taken as evidence that any big shipments of good Canadian wheat to Chicago soon were out of the question, and that the scantiness of stocks here would receive no timely relief.

Scarcity of contract of \$3.14 a bushel, the topmost price on record. May options also reached the highest point ever known, \$2.80, and at the end of the day they were still holding that figure. The topnotch was attained in parcels of 500,000 bushels of May for a house identified with seaboard interests.

Combatt. Hall & Coughlin sold 7 cars:

The discussions of the International sheep at 10c to 14c lb. Waterways Commission, being he'd in Toronto at pres nt, will probably not be concluded today, and the commissioners believe that it water cows at \$6.75 to \$8; steers and helfers, Saturday.

British Cattle Supply Company

Limited

From Monday, May 7th, offers for public subscription, one million dollars of common stock of the company, issued at par value, \$100, and payable 40 per cent. upon allotment, 30 per cent. in 12 months, and 30 per cent. in 18 months.

> HE formation of this Company is primarily due to the desire of certain Canadians to combat, with practical measures, the Empire's meat shortage, and to restore and augment the breeding herds of Canada as a source of national wealth. This Company proposes, therefore, to enter upon the business of cattle-ranching on a scale consistent with the well-known world shortage and the incomparable natural advantages of the Dominion of Canada, both in respect to feed resources and accessibility to the chief centres of demand. Over half a million acres of well-watered, sheltered and luxuriant pasture-land have been secured in the Vermilion River district, Alberta, by this Company. A herd of ten thousand breeding animals, of which 1,500 have already been purchased, is now being assembled. It is the plan of the Company to have a permanent herd of 75,000 head upon its lands within four or five years.

The average cost of raising an animal for market is \$20. The average market price to-day is \$125-and the lowest average in the past ten years is estimated at approximately \$84. Having in view the wholesale destruction of the French and Belgian herds, and the long-continued decline of the world's cattle population, it is difficult to foresee any recession in prices, at all events not below the lowest average above referred to. The unusual opportunity for profit is clear.

ROUGHT is unknown in the Company's territories. Failure of the natural hay crop is not recorded in the history of these areas. A reserve supply of winter feed is always available from the Company's lands at a nominal cost. Winter storms, which might be disastrous to herds grazing on flat prairie, are eliminated as a factor in the situation. owing to the rolling nature of the ground and the thick undergrowth on the hillsides. Disease will be guarded against by an arrangement whereby the Government of Alberta assures the Company of free veterinary inspection of every beast before it is placed on a ranch, and a free monthly inspection thereafter.

STOCKS MAINTAIN

Railway Issues Go to Lowest

New York, May 3.—Constant liquida-tion of high-grade securities accompan-led the weak tone of today's stock martion of high-grade securities accompanied the weak tone of today's stock market.

The selling movement was materially added by an aggressive short interest, which remembered its nittacks upon such potential leaders as United States Steel and the many volatile issues comprising the several war groups.

Offerings of rails were so persistent and embraced so many issues of the investment class as to convey the impression that they emenated from high financial quarters. Gross recessions of two to five points were registered by Canadian Pacific, Reading, Louisville and Nashville. Chicago and Northwestern. New York Central, St. Paul and Northwestern. New York Central, St. Paul and Nortolk and Western, while over a score of lesser stocks fell two to three points.

Delaware and Hudson sustained the greatest loss of any stock in the list, declining 9% points to 13%, a record unapproached in the last fifteen years.

Tractions again acted as a drag, Third avenue sliares and adjustment bonds making new minimums at 21 and 47, respectively, while Brooklyn Transit's decline of 3% to 59% represented a low record in that stock for almost a decade. Shippings, metals, oils, leathers and secretary industrials followed in irregular degree, the movement of United Mates Steel, which ranged between 114% and 113, closing at 114, a net loss of 1½ points. Final prices were variably above the lowest, despite the fresh selling caused by an advance in call money rates to 4% per cent, the highest to date of the year. Total sales amounted to 925, one per cent, end French 5's, three-quarter per cent. Total sales (par value) aggresaters and secretary in the last of the year. Total sales (par value) aggresaters of the various United States bond assues receded fractions to a full point.

On call the various United States bond sues receded fractions to a full point

MATERIAL ADVANCE N SILVER PREDICTED

Financial Authority Forecasts a Dollar an Ounce for White Metal.

TO STAY THERE

4.95 Abnormal Monetary Conditions Due to War Will Be Responsible.

> The quotation for silver metal in New York recently touched the highest point in 25 years. The high quotation was 79 cents an ounce, and in only two previous years since 1892 has silver sold as high as 70 cents, one of these years being 1893, when the quotation was 78 cents, and the other year being 1916, when for a brief period the quotation ruled at 77 1-4 cents.
> Silver sold at less than 60 cents

Silver sold at less than 60 cents an ounce in 12 years out of the 25, and as recently as September, 1915. Silver was selling at the lowest price in history, 46 1-2 cents an ounce.

"We have gone squarely on record on many occasions within the past several months as possessing, a positive belief that silver was destined to go to \$1 an ounce or better in the near future, and indications multiply that such a level for the white metal will shortly be reached." says The Wall Street Digest. There is not only every confidence that silver will soon sell at \$1 an ounce, or higher, but it is furthermore believed that when it touches that point it will not be quoted at a materially lower figure for a long series of years.

This conviction is based upon the practical certainty that the nations of Europe will be compelled to back their enormous issues of paper money by metallic currency in the near future.

It is a matter of monetary history that when the great nations of the world were on a bi-metallic basis there was comparatively little fluctuation in the price of silver. Thus, in the 21 years from 1850 to 1871, the

It is a matter of monetary history that when the great nations of the world were on a bi-metallic basis there was comparatively little fluctuation in the price of silver. Thus, in the 21 years from 1850 to 1871, the market price of silver metal had a narrow range from \$1.32 to \$1.36 an ounce.

ounce.

When the gold standard was established in 1872 the price of silver metal began to decline. Silver was down to \$1.15 in 1881, to 91 cents in 1891 and had dropped to 60 cents in 1897, a sheer decline of 72 cents in approximately a quarter of a century, compared with a fluctuation of only four cents in the preceding 21 years.

only four cents in the precently

to only four cents in the precently

years.

From the standpoint of the investor and speculator the important thing to consider at the moment is the effect that the rise in the quotation for silver metal is bound to exert upon the shares of silver mining corporations. The importance of the steady advance in the price of silver mines can hardly be overestimated. The steady advance in the producing silver mines can hardly be overestimated. The price of silver metal to the producing silver mines can hardly be overestimated. The price of silver metal means to some price of silver metal metal metal metal s price of silver metal means to some of the big producing mines, based on the estimated annual production in
