Will Be Completed by Summer of 1921 — Announcement of a Large Amount of Work on This Division in 1920.

In the 1920 estimates of the Canadian Pacific Railway, which have come to hand, an extensive program of rebuilding, new construction work, balancing, laying new rails, etc., has been mapped out for the New Brunswick district. One of the most important items in the program is the construction of a new steel cantilever bridge over the reversing falls, announced in The Times a few days ago.

The new bridge will have a steel span of 443 feet, supported by concrete abutments, and will have a large reinforced concrete approach from the west side. It will be located between the two existing bridges. The sub-structure work will be carried out this year and the contracting for the steel. It is estimated that the bridge will be completed in the summer of 1921. The new structure will be of the most modern type, and will be able to support the heaviest trains.

Four delegations appeared before the mayor and commissioners in committee this morning in connection with matters pertaining to the discussion of the 1920 budget. Members of the school board presented a supplementary estimate to cover the increases asked by school teachers and also to wipe out the overdraft of \$120,000, and a delegation from the city policemen asked for provision to be made to increase their salaries to \$120 per month.

The delegation from the Playgrounds Association included representatives from the Y. M. C. A., Y. M. C. L., St. Peter's, Atlantic Sugar Refineries, Board of various improvement leagues, the Rotary Club, Commercial Club and board of trade. A. W. Covey was present as representative of the A. A. A. C. M. HAD FEARFUL TIME IN STORM

Puna Driven 1,500 Miles Out of Her Course

Sailor Washed Overboard, Woodwork Used for Fuel, Crew on Bread and Water for Days.

(Associated Press.) New York, Jan. 26.—Driven 1,500 miles off her course by a blizzard which raged for four days while on a trip from New York to St. John's, Nfld., the Norwegian steamer Puna arrived here yesterday on her return trip minus one of the crew who was washed overboard, and, lacking lifeboats, doors and fittings, which were torn away by the storm or burned for fuel. The steamer left here on Dec. 7 for St. John's, and four days later encountered a terrific wind storm and blizzard. The small craft was blown into mid-Atlantic and forced to head for the Azores because of lack of fuel. The coal became exhausted before land was reached and all available woodwork was burned. Water poured into the crew's quarters and they were forced to seek refuge in the saloon and to huddle around the funnel to keep warm.

ONE DUTCH PAPER FOR PUNISHMENT OF THE FORMER KAISER

The Hague, Jan. 26.—The government and the former German emperor have settled down to await what the Allies will do next. Only one Dutch newspaper, the Amsterdam Telegraph, went before the court and the hearing approving the royal approval of the former Kaiser here is below zero and we believe an extremely small number of Dutchmen would have been hurt if he had been called to account some way or other upon him. The Dutch people do not feel like standing as a bulwark for the German Kaiser and the best part of our government is its total absence of sympathy for the accused.

MENNEN'S BORATED TALCUM The best known and most used baby talcum in the world. During the months of biting winds and intense cold, you who would keep your skins smooth, white and velvety, should turn your attention to mercialized wax. Nothing else will so effectively remove a chapped, roughened or discolored surface. By gradually absorbing the weather-beaten cuticle, the complexion is kept in perfect condition, and even the beauty of expression appears more pronounced. If your skin is blotchy, pimply, coarse, over-dried or sallow, why not shed it? One ounce of ordinary mercialized wax, to be had at any drug or department store, will completely transform the most unsightly complexion in less than a fortnight. Use the wax nightly like you use cold cream, washing it off mornings.

One ounce of ordinary mercialized wax, to be had at any drug or department store, will completely transform the most unsightly complexion in less than a fortnight. Use the wax nightly like you use cold cream, washing it off mornings.

NOTABLE CEREMONY IN ROME IN MAY. Rome, Jan. 26.—The ceremony of the sanctification of Joan of Arc will be performed next May with great solemnity, according to an announcement from the Vatican. It will be preceded by several beatifications, including that of Archbishop Oliver Plunkett, 17th century Archbishop of Armagh and Primate of Ireland.

CATARRH DOES HARM. Whether It Is of the Nose, Throat, or Other Organs, Get Rid of It. Catarrh of the nose or throat when it becomes chronic weakens the delicate lining tissues, deranges the digestive organs, and may lead to consumption. It impairs the taste, smell and hearing, and affects the voice. It is a constitutional disease and requires a constitutional remedy. Take Hood's Sarsaparilla, which by purifying the blood removes the cause of the disease and gives permanent relief. This alternative and tonic medicine has proved entirely satisfactory to thousands of families in three generations. If there is biliousness or constipation, take Hood's Pills—they are a thorough cathartic, a gentle laxative.

FEW OF MANY FREED PRISONERS HAVE VIOLATED PAROLE. Ottawa, Jan. 26.—Of 11,000 prisoners who have been allowed their freedom from Canadian penitentiaries under the present parole system only two and a half per cent have violated the provisions, said Judge W. P. Archibald, Dominion parole officer, an expert on prison reform.

NEWFOUNDLAND ELECTION. St. Johns Nfld., Jan. 24.—The poll in the by-election for the district of St. Johns West was declared today, and showed Premier Squires and Minister of Finance Brownrigg re-elected with largely increased majorities. The various counts showed the two government leaders running almost neck and neck until about a dozen ballots had been issued, when the premier and his colleague drew away ahead and finished in the lead, the one with a majority of 849 votes and the other with a majority of 322.

TEACHERS' DEMANDS. Toronto, Jan. 25.—A large delegation of leading school teachers of the province waited on Hon. R. H. Grant, minister of education for Ontario, on Saturday and urged, among other things, the advancing of teachers' salaries by at least twenty-five per cent. The teachers presented a resolution disapproving of melodramatic and comic picture shows, the manufacture and sale of cigarettes and comic supplementaries in newspapers. They also asked to have the act for compulsory attendance at school fixed at from eight to fourteen years inclusive.

MEMORIAL UNVEILED. At a special communion service in the First Presbyterian church, West St. John, yesterday, a beautiful memorial window, was dedicated to the members of the congregation who had lost their lives in the great war. The service was conducted by the pastor, Rev. Dr. J. A. Morison, who delivered a very touching address. The unveiling was done by A. W. Fraser, whose two sons are numbered amongst those on the honor roll. Duo and quartette selections were sung by Mr. and Mrs. S. D. Wilson and Mrs. Wilson, Miss Smith, David Allan and A. W. Allan. The members of the congregation who had given their lives for liberty in the great war, and whose names have been inscribed on the window, are: Eugene E. Woodrow, Donald D. Fraser, Dr. J. L. Duval, W. Byrd D. Moore, David B. Evans, A. Murray Fraser, Reuben Seeley, Alexander Henderson and John B. Dowling.

Miss Mary Allison, maritime secretary for girls' work for the Y. W. C. A., met the presidents of the C. G. I. T. groups in the city, some thirty or forty in number, at the recreational centre yesterday afternoon and discussed matters in connection with the winter work of the groups. Miss Allison left today for Moncton and will be absent from the city for about six weeks touring in connection with the work of the C. G. I. T. organization.

EYE STRAIN. This is usually due to a defective formation of the eye ball, and not to a diseased condition. While glasses do not cure this defect, they correct it by restoring normal vision without strain. Eyestrain causes loss of nerve energy and physical disability. If bodily comfort is desired, together with ease in reading, glasses to correct this defect should be procured. If you are suffering from eye strain let us examine your eyes and fit you with the right kind of glasses. Why not arrange an appointment today. D. BOYANER 111 Charlotte Street

FOCH RECEIVES LARGE GIFT; GIVES IT TO CHARITY. Paris, Jan. 26.—Marshal Foch on Saturday received a "golden book" from M. Kahn, French minister to Siam, as a token of the admiration of the Siamese and French citizens residing in Siam. The book, offered under the patronage of the King of Siam, carried with it a check for 57,000 francs. Marshal Foch asked that this be donated to charitable organizations designated by him. In the K. of C. hall yesterday afternoon fifty candidates were initiated in the second degree. W. M. Ryan, grand knight, presided and was assisted by members of the local council. The embargo on newspaper has been lifted and all differences at Fort Frances settled by the new paper controller, R. W. Breadner.

Nearly 3,000 cases of influenza have been reported to the New York health authorities. The "flu" is also increasing in Japan, where among others the emperor's son is reported ill with it. Lady Astor, M. P. for Plymouth, England, speaking on Saturday in support of state purchase and control of the liquor trade, said she had the word prohibition and declared it was impracticable.

SERVED DRINKS IN ELEVATOR IN NEW YORK

New York, Jan. 25.—Prohibition agents in a raid in Park row cafes opposite the federal building last night, unearthed an ingenious elevator barroom in which imitation whiskey is alleged to have been sold to "high class trade."

The raid netted seven gallons of the liquor which is said to be made of alcohol diluted with water. The cafe proprietor and bartender were held on charges of violating the prohibition law in having liquor in a place other than at home and with having transported the liquor from Brooklyn to New York.

BE SUSPICIOUS OF TENDER GUMS

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhea—an infectious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy. They inflame, then shrink, thus exposing the unenamelled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system. Medical science has traced many ills to these infecting germs in the gums weakened by Pyorrhea.

They are now known to be a frequent cause of indigestion, anemia, rheumatism and other serious conditions.

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhea (Riggs' Disease) if used in time and used consistently.

And in preventing Pyorrhea—it guards against other ills. Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment.

OUR GREATEST ASSET.

Mr. Henry K. Wicksteed, chief engineer of surveys of the Canadian National Railways, is quoted by the Toronto Telegram as saying that forest products are the one tangible asset in an area comprising fully two-thirds of that part of Canada which lies within the temperate zone.

other trees. The lesson should not be lost upon the Canadian people.

CANADA'S FIELD CROPS.

A return just issued by the Dominion Bureau of Statistics shows that the value of field crops in 1919 was in some cases a little less than in 1918 or 1917. Here are some of the figures:

Table with 3 columns: Crop, 1919, 1918, 1917. Rows include Fall wheat, Spring wheat, All wheat, Oats, Barley, Rye, Peas, Beans, Buckwheat, Potatoes, Hay and clover.

The total yield of wheat in 1919 was 193,260,400 bushels, compared with 189,075,950 in 1918; of oats, 394,387,000 bushels compared with 426,312,500 in 1918; barley, 56,389,400, compared with 77,287,240 bushels in 1918; potatoes, 128,574,000 bushels compared with 104,946,200; beans, 1,388,600, compared with 3,563,380.

SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat, Which Clogs Kidneys, Then Back Hurts and Bladder Bothers You.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally less we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and its harness to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Meahan announced that a retreat for the men of the parish would be held shortly and that Rev. Michael Walsh, S. J., a brilliant and accomplished speaker, would conduct the services. Dawson leading in prayer.

Preparations for a house to house canvass in the interests of the forward movement were made at a meeting of representatives of the Anglican churches of the city in St. John's (Stone) church yesterday. The members of Clan McKenzie and their friends celebrated their annual "Burns Night" Saturday evening in their rooms in Germain street. W. Frank Hatheway in an address paid tribute to the memory of Burns.

The chair was occupied by the Chief of the clan, Lieut.-Col. (Dr.) G. G. Corbet. The programme which formed the first part of the entertainment, included Scottish songs by Miss Francis Murdoch, Miss Campbell, Clarence Girvan, Thomas Guy and Mr. Simpson. Little Miss Ross gave a skillful and graceful exhibition of the Highland Fling and the sword dance. Greetings from other national organizations were extended by Lieut.-Col. A. McMillan, D.S.O., for St. Andrew's Society; P. H. Carter, supreme head of the Sons of England in Canada and Richard I. Carross, for Marlboro Lodge. The Chief responded and spoke briefly of the aims of the clan.

Getting Value in Boys' Suits

Purchase of inferior goods, just because the price is cheap is poor economy. Superior goods are always the better buy, for the difference in price is overbalanced by the difference in value.

In allowing your boy to wear better clothes, you also feel that he is a lot more comfortable. Buy his next Suit here and you will have purchased the best values obtainable.

Latest models for boys are cut in smart waist-line styles, Norfolks or Belted Coats. Some Suits are made with an extra pair of bloomers. All the popular materials and colorings are represented in our boys' stock.

We would be pleased to have you come in and look over the different varieties.

HOUSING IN FREDERICTON.

Fredrickton Mail.—A strong delegation including all the members of the York Commercial Club, will wait upon the city council at the next meeting and endeavor to have that body adopt the housing scheme for Fredericton. The matter will also be taken up with the town councils of Devon and Marysville and it is hoped by the club that early in the coming spring a start will be made towards the erection of many much needed houses for people of smaller means in Fredericton. From the tone of last night's meeting it looked as though the York Commercial Club was to a man determined to try to induce the council to put this matter through.

Writing Paper is a Necessity

Did you ever stop to think of the amount of writing paper used daily? Consider the number of letters written, circulars printed and cheques, drafts, etc. made out, and you will begin to realize the enormous quantity needed to fill this demand. The manufacture of writing paper is an industry that is natural to Canada, as we have the forests and the necessary water power. It is the duty of every Canadian to use Canadian made writing paper—which is the equal of any writing paper in the world—and thus assist in the development of our natural industries. Every Canadian can also assist in this development by Saving and Investing in the securities of well established and conservatively managed Companies, manufacturing the finished product from these natural resources. Write us for full particulars of the Preferred Stock issue of a leading writing paper manufacturer which we will shortly announce.

HAD ECZEMA For Over 28 Years

Eczeema or Salt Rheum manifests it-
self in little round blisters, which con-
tain an extremely irritating fluid. These
break and subsequently a crust is
formed, and the intense burning, itching
and smarting, especially at night, when
the part is exposed to any strong heat
is almost unbearable.

The success which Burdock Blood
Bitters has met with in skin diseases of
such severity is due to its wonderful
blood cleansing and purifying properties,
and we know of no other remedy that
has done or can do, so much for those
who are almost driven to distraction
with the terrible torture.

Mr. James Walker, 182 Niagara St.,
Hamilton, Ont., writes: "I have been
using Burdock Blood Bitters for some
months past, and find it an excellent
remedy for skin eruptions. I have suf-
fered with eczeema for over 28 years, and
have tried almost everything you could
think of. I was recommended to use
Burdock Blood Bitters, and I am now
clear of my skin trouble. It is certainly
a good remedy and I shall recommend
it to all my friends."

Sunken Eyes Brighten Quickly Health Returns

In a Message to Affing Women Doctor
Hamilton Tells How It is Done.

In speaking of the ills from which
women suffer, Dr. Hamilton points out
that nine out of every ten women are
by nature inclined to habitual constipa-
tion. Harsh purgatives are resorted to,
which only intensify the trouble. Al-
though not generally known, it is a con-
stant condition of the bowels that
causes half the sickness and tired wear-
iness with which all womanhood is so
familiar. It is after long years of
study that Dr. Hamilton perfected the
pills which have been of such marvellous
benefit to women the world over. In his
pills of Mandrake and Butternut every
sufferer will find an absolute specific for
constipation, sick headache and bilious-
ness. It is safe to say that Dr. Ham-
ilton's Pills bring better health and keep
the system in a more vigorous condition
than any other medicine ever discovered.

SOME WAR TIME PROMISES THAT MUST BE KEPT

Halifax Appeal for Employ-
ment for Two Hundred Re-
turned Soldiers.

At the Commercial Club meeting on
last Friday evening Mr. Grimmer made
an appeal in behalf of some two or
three hundred soldiers in need of work.
A similar appeal is made in Halifax.
Under the name of "War-time promises
that must be kept," the Echo says:

"Halifax is faced with the problem of
employing 300 men by the middle of the
coming month. Every one of these men
has been at some time or other a mem-
ber of various overseas units and has
taken part in the battles which have
made possible our present united em-
pire.

Perhaps this may appeal to the em-
ployer as something unnecessary and
superfluous; but it is merely a reminder
that we have to live up to our promises
made in those red days when war was
the chief topic of conversation and the
Hun was truly at our gate.

The men themselves have made no
such appeal. They have not asked for
the government to return to civilian
life on an even footing with those
who remained at home and awaited their
return. They are merely that they shall
be given a trial as civilians—a trial
period in which to show that they are
willing and ready to enter once more
into the niche which is left open for
them in the ranks of the employed.

Approximately two hundred men are
in this city today awaiting a chance
to work. They are being assisted by
a government fund while they await
employment. Since March 1918 nearly
nineteen hundred men have been em-
ployed in Halifax and of this number over
ninety per cent. have shown that they
are reliable, steady, industrious and sat-
isfying to fill the positions in a sat-
isfying manner. Less than one per cent.
of them have proven unsatisfactory to
a degree demanding their being replaced.

The remainder have been forced to leave
their positions through ill-health oc-
casioned by experiences gone through
overseas. In all these men have shown
a higher percentage of efficiency than has
been the case with the most carefully
selected employees of the biggest com-
mercial agencies in the U. S. A.

The men who remain unemployed are
in need of work. They have in many
cases dependents who have been anxiously
awaiting the period when they were
able to resume work and once more as-
sume the role of bread-winner.

Among the two hundred seeking em-
ployment are those fitted for clerical
positions, salesmen, bookkeepers, labor-
ers, chauffeurs, motor-mechanics, juni-
ors, clerks, teamsters, warehousemen,
janitors, and general laborers.

Nothing has been said to many em-
ployers of labor about the claim of the
returned man on their consideration.

In Calgary a campaign was launched
to obtain positions for every overseas
boy seeking such aid, with the result
that in less than three weeks every man
who really took advantage of his oppor-
tunity was at work.

MILITARY FIRE ON CROWDS OF BOMBAY STRIKERS

Bombay, India, Jan. 20.—Disquieting
news from the mill area in the Bombay
presidency where 200,000 cotton workers
went on strike early this month, reports
the firing by the military on a crowd of
strikers, causing casualties, including one
killed.

During the morning, the advances say,
the crowds in the district began holding
up street cars and other vehicles and
compelling the passengers to alight.
Later the strikes became more riotous
and the military was called in. It is
said that one person was killed and some
wounded.

MRS. MAY COULD NOT WORK

Made Well and Strong by
Lydia E. Pinkham's Veg-
etable Compound.

Columbia, Pa.—"I was very weak
and run down and had dragging-down
pains and pains in
my back. I could
not get around to do
my work and had to
rest often during the
day. I saw Lydia E. Pinkham's Veg-
etable Compound ad-
vertised in the papers
and read the testi-
mony and thought I
would try it. Now
I am healthier than I
ever was in my life, and can recommend
it to any woman who suffers as I did."

—Mrs. ELIZABETH MAY, R.F.D. No. 1,
Columbia, Pa.

The reason Lydia E. Pinkham's Veg-
etable Compound is so successful in re-
storing woman's ill is because it con-
tains the tonic, strengthening properties
of good old fashioned roots and herbs,
which act on the female organism.
Women from all parts of the country
are continually testifying to its strength-
ening, curative influences, and the letters
which we are constantly publishing from
women in every section of this country
prove beyond question the merit of this
famous root and herb medicine.

WILSON CAN EAT ANYTHING, NOW

Ten Years' Trouble Ended
and He Feels Fine Now —
Praises Tanlac.

"Do you know, sometimes I can hardly
believe I am the same person I was be-
fore I started taking Tanlac, as for the
first time in ten years I can eat a hearty
meal without being in misery afterward,"
said Harry Wilson, Sunny Brae, a suburb
of Moncton, N. B., recently. Continuing,
Mr. Wilson said:

"All these years I think I suffered
about as bad as anybody ever did from
indigestion, and if I ever ate a single
thing and didn't suffer from it after-
ward I don't know when it was. I had
no appetite to speak of, and at times the
very sight of anything to eat would make
me sick. After every meal I had a heavy
feeling in my stomach, just as though
there was a lump of lead inside of me.
I bloated up terribly with gas sometimes
and could get but little sleep, as I would
just lie awake for hour after hour hard-
ly able to get my breath.

"I had been reading so much in the
newspapers about the good Tanlac was
doing others who said they had been suf-
fering just like I was I decided to try it
myself. Well, sir, to my surprise, for I
had taken so many medicines without
getting any benefit, I had just about lost
faith in all of them, I began to get better
almost at once after I started taking Tan-
lac. My appetite commenced to improve
and today I can eat anything I want with-
out a sign of indigestion. I am never
troubled with gas, bloating or shortness
of breath, or any other bad after effects.
I am a great deal stronger and have gained
several pounds in weight; in fact, I
am in the best of health in every way.
The remainder of my life I hope will be
filled with enjoyment and I am sure it
will encourage some one else who is suf-
fering from indigestion to Tanlac, for
after ten years of suffering with it I
now know what it is, and I also know that
Tanlac will stop it."

Tanlac is sold in St. John by Ross
Drug Company and F. W. Munro under
the personal direction of a special Tan-
lac representative.—(Adv't.)

Some rubbish in the basement of the

suffered much loss.

were much enjoyed. Refreshments added

Two large pictures of Evangelist
Dixon have been removed from the head

for the parties who took them. The
pictures were in brass frames which were
loaned by W. H. Golding of the Imperial
Theatre and it is believed that they were
taken because of the value of the frames.

Hon. W. F. Roberts, M. D., minister
of health, gave out a statement yester-
day in which he said that it was not
doubted by the New Brunswick health
authorities that there would be some
cases of influenza here but every pre-
caution was being taken to guard against
it. Organization was well in hand to
deal with it. So far only a couple of
doubtful cases had been reported.

In connection with the Lancaster ferry
subsidy arrangements have been made
whereby the government will contribute
a third and the city and county another
third. The steamer E. Ross will continue
in the service until May 1, by
which time a new boat will have been
procured. It will cost \$275 a month to
run the ferry, an increase of \$185.

More old boots and shoes are needed
for the vocational training being carried
on in Fredericton under the auspices of
the D. S. C. R. The appeal made in the
city was responded to by many people
but it is believed there must be many
others who have boots which they wish
repaired, or perhaps which they consider
too far gone to be repaired. They would
be welcomed by the disabled soldiers
who are learning the work of repair in
the school at Fredericton, and can be
sent there if left at the lower floor of

BLISS CARMAN IS IN ILL HEALTH

Canadian Poet, Compelled to Give Up Work, Honored by New York Literati.

HIS BOOKS NUMEROUS He Has Written a Volume of Poetry Every Year for Twenty-Six Years.

By R. H. HATHAWAY. It may have been noticed by those who endeavor to keep in touch with current Canadian literature that nothing of the name of Bliss Carman has appeared for some time in the magazines and other publications where new work of his was wont to be found.

Mr. Carman had been ill, while those who did were unaware of the seriousness of his ailment. A brief remark in a newspaper about his condition, however, had caused a flood of regret and sympathy, for while the people of Canada may not have known the name of Bliss Carman, his name is known to the literary world of the United States as one of the living writers of that country.

Few of those it is intimated, knew that Mr. Carman had been ill, while those who did were unaware of the seriousness of his ailment. A brief remark in a newspaper about his condition, however, had caused a flood of regret and sympathy, for while the people of Canada may not have known the name of Bliss Carman, his name is known to the literary world of the United States as one of the living writers of that country.

His latest poems are as fresh and spontaneous as the songs of the birds in the summer woods. But it is not only harmony of music and meaning that the passage of the years has brought to Mr. Carman. There were manifest in his initial volume a restlessness of the spirit, a feeling of doubt, a questioning of life.

Mr. Carman's poetry is retrospective. Mr. Steel says that it surprises by its unexpected quantity, averaging a volume a year for 26 years. He then proceeds to give a list of Mr. Carman's books but it is not complete, nor is it correct in all its details, and so for the benefit of those interested a corrected list including also his volumes of prose which, while it can hardly be regarded as important as his poetry has numerous warm admirers in Canada as well as in the United States, is given below.

A List of Carman's Books. This list, comprising only Mr. Carman's regularly published books, for it may not be generally known that he has been in the habit since the earliest of his writing days, of privately issuing pamphlets, broadsides, etc., containing new and unpublished work of his own, for the pleasure and benefit of his innumerable friends. The number of such publications has been so great, indeed, that in a "check list of First Editions of Bliss Carman," issued by Frederick F. Sherman a New York publisher, a few years ago, more than eighty separate items were described, while if another similar list were issued to-day the total would run well over a hundred. Here, then, is the roll-call of Mr. Carman's books:

Mustapha Kemal Pasha

THE Turkish General who defended the Dardanelles, and who is now the leader of the Nationalist party whose seat is at Sivas, Turkey, who are now defying the entente allies.

"The Kinship of Nature," (essays) 1904; "Pipes of Pan, No. 4: Songs from a Northern Garden," 1904; "Sappho: One Hundred Lyrics," 1904; "The Friendship of Art" (essays), (1904); "Pipes of Pan, No. 4: From the Book of Valentines," 1905; "The Poetry of Life," (essays), 1907; "The Making of Personality" (essays), 1908; "The Rough Rider and Other Poems," 1909; "Poems from Vancouver," 1912; "Daughters of Dawn: A Lyrical Pageant" (with Mary Perry King), 1913; "Earth Ditties and Other Rhythmic Masques" (with Mary Perry King), 1914; "April Airs," 1916.

Proceeding to a consideration of Mr. Carman's work, Mr. Steel remarks: "It is more just than is usually possible to be when one tries to sum up in a sentence the effect of a volume of poetry like this, and the justice is due to the fact that Carman did not suffer from style changes. This poet may fairly pride himself on being always true to himself and to his lovely art. He grew as everybody grows, but he never changed his way of growing and his latest work with all the finish of art that accrued to him by study and experience, retains the freshness of those elemental truths which appealed to him in 'Low Tide on Grand Pre.' The voice that sang then has added chords and deepened but unmistakably it is the same voice."

Writes of Life and Death. His latest poems are as fresh and spontaneous as the songs of the birds in the summer woods. But it is not only harmony of music and meaning that the passage of the years has brought to Mr. Carman. There were manifest in his initial volume a restlessness of the spirit, a feeling of doubt, a questioning of life.

Mr. Steel sketches Mr. Carman's career as writer, editor, etc., and incidentally speaks of various of his friends including his fellow-poets, Richard Hovey, Charles G. D. Roberts and Le Gallienne, John Burroughs, Theodore Roosevelt, etc. In connection with the last named he says: "Theodore Roosevelt, my affectionate friend and at his passing a devoted reader of the poet, with bad effects on his health, and who fell ill, but with lifelong outdoor habits and tastes he could not believe what the doctors told him of his condition, and he fought the threatening of consumption manfully until he went to Saranac Lake the disease but not the remedies. Mr. Steel also incidentally mentions a fact which should particularly interest Mr. Carman's admirers and others in this country, and that is that when the United States went into the war our poet enthusiastically offered his services to the Vigilantes (an organization of writers and artists which had been formed to carry on patriotic propaganda work, and the members of which gave their services free of charge) and, Mr. Steel says, "accomplished some telling work."

Turning again to Mr. Carman's poetry, Mr. Steel says that although he has succeeded strangely in revivifying the ballad form and succeeded without manufacturing a lyric, Mr. Carman is really a modern. "The eternal elements of human life possessed him and on the tide of human poetry he swam. To him these were living, breathing, indisputable facts, vivid with every earthly circumstance and charged with familiar associations. He distilled his essence from them. The significance of life, the fear of death, the strength of love, human and divine, our common hopes, fears, joys and sorrows are his themes from first to last."

ACTIVE, LOVABLE, KEEN WAS OSLER

Pleasant Personality of Famous Medical Man Sketched by an Associate.

COUNT NOT MY YEARS

(The following personal sketch of the late Sir William Osler was written by a man who was closely associated with him and knew him intimately.)

By LYMAN P. POWELL. EVEN OSLER already in the nineties headed his profession as a quondary. Healing the sick, guiding the infant footsteps of the lusty Johns Hopkins School of Medicine, courting a wife, and writing while publishers called incessantly for "more" for his manuscript on the practice of medicine were proving almost too much even for a man of such versatility and efficiency as he.

No one can have help in courting too many cooks are sure to spoil the broth. Across the table that separated the Medical School from Johns Hopkins University, Osler sent his S.O.S. for help in his book writing. "Could President Gilman suggest some young man to whip the rapidly accumulating manuscript into 'form'?" Graduated student in history, assistant editor of The Johns Hopkins Studies in History, acting librarian of the department, I was recommended for the task.

At the next day with the charming man in trouble, the business before us was immediately dispatched, and Osler—as was his custom—with swift enthusiasm talked of things in general. He fell to talking about Oliver Wendell Holmes "I spent a day with him last week" he said, remarking "You know, he is far more than an autocrat of the breakfast table. He has had a great career in medicine. He has discovered things back in 1848 he ferreted out the fact that puerperal fever was contagious, and as a result thousands of mothers have lived to bring their babies up and he is such a boy in spite of his 82 years."

"We're 20 to-night!" THEN Osler leaped to his feet with the spring of youth, walked swiftly back and forth across the room, flecking the ashes from his cigar, and in a moment he had again before me. He even quoted Holmes: "Who says I'm getting old? I am as young as any of you boys."

Look at this!—flinking his fingers wildly around and about the floor, his fingers had plainly not hastened to show himself in print, but had patiently schooled himself to express the things he wanted to express and as he went, to express them. But the poet had not gained the mastery of his instrument, for while music rich and rare was always there, one often groped for the meaning of the words to which it was the accompaniment. In "April Airs," however, no such difficulty presented itself, for his brain here is in complete accord; music and sense are allied.

Not long before he went to Europe to see the last period of his life I thought to try to draw on my medical acquaintance for an article in which to discuss the seven leading physicians of the United States, first and received from him in his own hand the note which follows: "Dear Mr. Powell: I think you might leave me out of the list of seven sages. I should put in my name, Welch, Billings, Keen, Broadbent, Senn, and McCurney. "Yours sincerely, "WILLIAM OSLER."

Energy and Modesty. He was always doing more than most ever dream of trying to accomplish. He seemed to have time for anyone, and everything. He ever and the soul alone, which concern him.

I cannot add to Mr. Steel's eulogy except to emphasize that it is of a Canadian, not our own, of whom it is uttered, and to express the hope that it will set those who find satisfaction in poetry reading the work of Bliss Carman. But I must utter a word of warning. Mr. Carman's books, numerous as they are, may be mistaken for starting on "April Airs" or "Echoes from Vancouver," or any of the various volumes of the "Pipes of Pan" series. It is to be hoped, however, that it will not be long before a really good collected edition of Mr. Carman's poetry is put before the reading world.

Youngest Barber Is Six Years Old

SONNY SOHLANT, aged 6 years, is probably the youngest barber in America. He learned how to shave and cut hair from his father, who has a barber shop at 7811 17th Avenue, Brooklyn, N.Y. He already has a number of his own customers. Sonny's working hours are from 3.30 p.m. to 6.00 p.m. and all day Saturday. The photograph shows the six-year-old barber shaving one of his customers.

If She Had Only Let Him Down

Lady Amphill Once Made the Supreme Mistake of Rescuing Kaiser Wilhelm From Watery Grave.

By L. A. M. LOVERKIN. THE history of the world and of individuals alike presents many incidents showing how very great events have arisen from very insignificant accidents. The author of a recently published book, "Pompeii and Circumstances," in one of his first paragraphs, tells, seemingly for the first time, of an incident in which the ex-Kaiser Wilhelm figured somewhat prominently and which affords food for the reflection—that if the end had been different, and whether the past few years would have to be differently written. It appears that in the year 1890, Lady Amphill, wife of the British Ambassador in Berlin, was teaching "quite a commonplace young man," as he is described in another page, to scull and she took care to call her pupil that the boat was a very light one, to be stepped into with the greatest caution. "But," says the author of the new book, "William of Hohenzollern, who had never taken advice from anyone in his life, and was always convinced that he himself knew best, responded by jumping into the boat from the landing-stage, capsizing it immediately, and throwing himself and Lady Amphill into sixteen feet of water. Prince William, owing to his malformation, was unable to swim on a roke, but Lady Amphill, a very strong swimmer managed, in spite of the weight of her clothing, to support him in the water for five minutes until help came and they were both rescued.

PRINCE'S WAR RELICS

THE Prince of Wales has collected many souvenirs of his long spell of active service, and these are now at York House. In the hall are placed the bass drum and two drums of the 1st Battalion of the Grenadier Guards, his regiment, which the Prince bought when in accordance with the usual custom on the purchase of new drums for the Battalion, the old ones were auctioned. He has also two bugles used by the Grenadiers at the front.

QUEEN GOES SHOPPING

IT is doubtful if Queen Victoria entered half a dozen shops during the whole of her lengthy reign. It was her custom to have a selection of articles that she desired to purchase sent to whichever royal residence she was occupying. Queen Alexandra, in her early married days, followed this custom for several years, but gradually broke away from it, as she found that she had greater choice and doubtless enjoyment—if she visited the shops herself. And to shop herself is the custom of Queen Mary. Usually Her Majesty is accompanied by Princess Mary.

VERY HUMAN ROYALTY

AN instance of the unflinching kindness and unselfish consideration which Queen Mary shows to those around her has just been referred to in a London weekly. The King and Queen have arranged for the erection of a hall and recreation room at Balmoral Castle for the use of their household and estate servants. The hall will be provided with a library.

The Queen of the Reds. KNOWN as the prettiest of the Reds, or "Sybil" of the Soviet, Miss Marion Manson said to the leader of the Reds in New York City he had been arrested. The King and Queen have arranged for the erection of a hall and recreation room at Balmoral Castle for the use of their household and estate servants. The hall will be provided with a library.

VICE-PRESIDENT VISIBLE FOR ONCE

With President Wilson III, the U. S. Public Has Heard of Tom Marshall.

MILD SMALL-TOWNER

PRESIDENT WILSON'S long illness, which has not been construed as the "disability" mentioned in the United States Constitution, has at least been construed as social disability, and it has devolved on Vice-President Thomas Riley Marshall to welcome foreign personages and otherwise act for the President where the acting could do nothing more than raise a question of etiquette.

For some months now people here and there throughout the country have been telling their woe to the Vice-President. Petitions for pardons of Federal prisoners have been addressed to him; parents with boys in some sort of military trouble have petitioned him for relief, and even a few job hunters have asked him for appointments.

The Washington correspondent of the New York Tribune describes the situation this way: "Certain foreign statesmen, parliamentary bodies and minor States have addressed to Mr. Marshall instead of to President Wilson and now and then even a foreign diplomat or commission has conceived it to be his duty to call on the Vice-President. Inasmuch as he could not see the President, Mr. Marshall was glad to see them just the same."

It is to be doubted whether any of these foreigners clearly grasped the fact that the "sole appearance of the American Presidency is about as near to the President as North is to South, generally speaking. A President never takes a Vice-President into his official confidence, except now and then, in a casual sort of way."

Making the Senate Laugh

TO make himself comfortable he has summoned his innately hoarse humor to his aid and, while taking seriously his functions as a member of the Senate, has made fun of himself as a Presidential substitute. On one occasion pretty nearly all the speakers were giving their views of "what this country needs." Mr. Marshall listened to many versions of the nation's need. Suddenly he bent over the throne-like desk of the President of the Senate and whispered audibly to Rose the Assistant Secretary of the Senate: "Rose, what this country needs is a really good 6-cent cigar."

Concurring chuckle vibrated through the Senate. The time and place of the remark made it humorous, but was loaded with earnestness, coming from a man who had lived for fifty years in Columbia City, Ind., or like small places. In them the quality of 6-cent cigars looms large.

Speaking of Columbia City (Whitley county, pop. 2,975), such communities are nowadays the chief habitat of the original and uncorrupted American, and there are about twenty thousand of them, that boast at least one such successful country lawyer as Tom Marshall was for some thirty-three years.

Stumped the Book Agent

AWAYER MARSHALL was sitting in his little office when a genial book agent entered and undertook to sell him a new edition of the Bible. "Full morocco, annotated," etc. Before the agent was through with his description of the merits of the new volume Marshall interrupted him and asked the agent: "Is this the Bible?" "Why, by this is the Bible," explained the agent. "I am fully aware of that," answered Marshall in full sobriety, "but I ask again, who is the author?" "Again the salesman explained that Marshall demanded the name of the author, and the demand and the explanation were repeated in varying forms again and again.

Finally the man of the books gathered up his samples, retreated to the door and then, with one hand on the knob turned around and blurted out: "You pin-headed fool and blithering idiot, it's the Bible!" Some of Marshall's epigrams are: "All I ever got out of politics was to lose my home." "The time when I am liable to be wholly wrong is when I know that I am absolutely right."

MAKING A START

AN amusing story is told concerning Sir John Lavery, the famous English portrait painter. It seems that one day he was engaged in painting the portrait of a beautiful but very shy little girl, when he chanced to find a three-penny-bit in his color box. "Do you collect three-penny-bits?" he inquired of the child, showing her the coin. "Yes," she replied. "Here's one for your collection. Now how many have you?" "One," replied the little sister.

Unexpected

THE home-going person who is said to make a church-going habit of house his knock was answered by a little girl. "Mother is suited with a clergyman, thank you," she said, and shut the door.

John Lewis

JOHN LEWIS IS A THOROUGH LIBERAL

Sympathies With the Common People—A Pioneer in Reform.

JOHN LEWIS, who last week resigned from the editorial staff of the Toronto Daily Star to take up at Ottawa an appointment as editor of the literature published on behalf of the Liberal party, is one of the best known editors in the country. For the past fourteen years he was on the staff of The Star, and before that for more years than anyone who looks at him would think possible, he had been on the staff of the News, the World and the Globe, and for a time on a newspaper in Winnipeg. His most valuable editorial work was done on The Star and on the Globe, when Sir John Willison was in charge of that paper. He has been a frequent contributor to the magazines and wrote the biography of Hon. George Brown in the Makers of Canada series.

John Lewis is a thorough-going Liberal not only in politics, but in all his views and principles. His sympathies are with the general run of the people as against the sections of privilege. There is scarcely a same reform advocated in Canada that he was not among the first to champion and always his advocacy took the form of reasoned argument rather than censure of his adversaries. There are few men in Canada the equal of Mr. Lewis in his knowledge of the political history of the country. Aside from all else, John Lewis is a right good fellow, makes many friends and keeps them for life.

Has Wilson Dropped Colonel House

Man of Mystery Has Not Seen President Since Return From France.

IT is diplomatic and political circles in Washington there has been a lot of speculation as to what has happened to Colonel House, the man behind the throne, and the unofficial spokesman who is popularly supposed to direct the affairs of the nation. It is rumored that he has lost favor with President Wilson, and that the extraordinary public career of this formerly obscure Texas business man is drawing to a close, says a New York correspondent, who continues: "Careful observers of international and domestic political events base their belief partly on the fact that Colonel House has not seen the President since his return from Paris, where he played such an important part in the Peace Conference, nor has he been seen the Secretary of State, Mr. Lansing. It is true that both Mr. Wilson and Colonel House have been ill, but the color has for some weeks been able to attend to business, and he has not been in Washington, nor has he been summoned by the President. There has been no open quarrel between Mr. Wilson and Colonel House, but it has been the President's custom quietly to eliminate persons who have lost his confidence. For some time past, it is stated, Colonel House has been quite ignorant of Mr. Wilson's plans. Some Government officials think that when the President has sufficiently recovered his health he will summon his former adviser and restore him to the very great favor he enjoyed for seven years which it is asserted he has now lost because of acts of excessive authority, which have greatly embarrassed the President."

HE'D HAD SOME

AMONGST many good stories told by Admiral Sir Reginald Bacon, whose newly-published book, "The Dover Patrol," is being so widely read just now, is one concerning a certain sailor who suffered from chronic seasickness. One day when he was on leave in London (says Sir Reginald) he thought he would seek medical advice regarding his troublesome ailment. The doctor consulted, being a great believer in simple remedies, asked him if he had ever tried salt water gargling. "Have I?" replied the sailor scornfully. "I've been torpedoed six times."

Championships for Winnipeg.
Montreal Star. Ald. Louis Rubenstein, secretary of the Amateur Skating Association of Canada, and chairman of the registration board of the International Skating Union of America, announces that the Canadian Association has allotted the Canadian championships for the quarter, half, one, two, three and five-mile races to Winnipeg, Manitoba. This is due partly to the fact that many promising skaters have developed in the west of late, which is worthy of encouragement and partly to the energetic work of A. B. Morrison, secretary of the Manitoba branch of the Amateur Skating Union, with offices in the board of trade. Mr. Morrison has tried for months to get this sanction, and has made the very generous offer on behalf of his association of paying the hotel and traveling expenses of one skater representing the Toronto district, and one skater representing the Montreal district. It has been decided that the executive committee of the Skating Association will hold a meeting here to select the best all-around man to be sent from this district while the representative of the association in Toronto will be asked to do the same thing there. The races will be held in Winnipeg on the 17th of February.

Record Price Offered.
New York, Jan. 23.—Sir Hugo Cunliffe-Owen, head of the British American Tobacco Company in London, who arrived here from Liverpool on the steamship Cedric, was offered £30,000 for Orpheus, his speedy thoroughbred three-year-old, just before he sailed.

White Sox Sold.
The Amherst News says: White Sox, a speedy little American mare that put the Fenwick brothers of Sussex on the racing map in 1918, has been sold to parties in Summerside, L. A. Fenwick informed the News that the purchase price was \$2,700. Considering that the original price was only \$2,800, the Fenwicks have lost nothing by this transaction. Incidentally the Fenwicks may possibly sell Lake Be Sure. At the present time negotiations for this sale are underway with parties in Quebec. However, they have some new talent in sight, and L. A. Fenwick now has a two and a half year old colt that was purchased at a recent Old Glory sale. He is ready to match this colt for a quarter of a mile, best three out of five heats at \$200 a side, against anything on any track in the maritime provinces.

TO LECTURE HERE.
St. John people will have the pleasure of again hearing Ernest Lapointe, M. P. for East Quebec and Liberal leader in Quebec. He will give an address in the Y. M. C. I. Sunday evening lecture course.

TWO INTERESTING LECTURES LAST NIGHT.
Before a large gathering in the Y. M. C. I. last night Hugh F. Hamilton of Moncton gave an instructive address on Rev. Father Damien, the priest martyr who sacrificed his life to work among the lepers of Molokai Island. He gave the story of Father Damien's life from his studies at Louvain University, Belgium, his volunteering for service in the Sandwich Islands in the colony of 1,600 lepers which was there, at the age of twenty-three years, and his slaving in their interests until his death in 1889 at the age of fifty. For the last few years of his life he had suffered from leprosy himself but had continued his noble work.

MORE TROUBLES IN IRELAND

Limerick, Jan. 26—The police barracks at Murroe, occupied by eight constables, was attacked last night by about forty armed men. The two parties exchanged shots for a couple of hours. The raiders vainly tried to bomb the building, but finally decamped on the approach of the military. So far as known, nobody was injured.

London, Jan. 26—Armed men, wearing masks, attacked the police barracks at Ballyglass, county Wicklow, last evening, and shot and wounded one constable severely and another slightly. The mercenaries escaped.

Thurles, Ireland, Jan. 26—Archbishop Hartly, in the Thurles Cathedral yesterday, denounced the recent crimes in Ireland, saying:

"During the last week shocking events have occurred in Thurles and neighborhood. Armed raids on police barracks, the willful murder of a constable and an attack by the police on undefended and inoffensive homes call for universal condemnation and reprobation.

"It is most horrible and shocking that anybody should commit murder in cold blood. It is also shocking that a number of police whose special duty it is to protect life and property should engage in an orgy of violence and endanger the lives of many innocent people, women and children as well as men.

"With all the authority I can command, I condemn these crimes as the most grave violation of the laws of God."

Labor Opposition.
London, Jan. 26—One positive result of the English parliamentary laborite delegation to Ireland will be decided opposition by the English Labor party to the government's present plan for home rule in Ireland, according to the Daily Mail's correspondent who is accompanying the delegation.

EMPLOYMENT REPORT.
Ottawa, Jan. 26—(By Canadian Press)—The week ended (Jan. 3) showed a further decline in the volume of employment. The maritime provinces and British Columbia registered nominal increases, but Quebec and the prairie provinces had substantial declines. Ontario the most noteworthy. All the provinces except the prairie provinces anticipated additions for the week of Jan. 10.

All groups with the exception of lumbering, shipping and longshoremen reported decreases in staffs, the decline still being largely caused by curtailment of activities during the usual stock-tank and inventory period.

Marysville Team.
Fredericton, N. B., Jan. 26—The Marysville Hockey Club left this morning on a trip. Tonight they will play at Sackville, and tomorrow night in Moncton. They are to meet the Eastern League clubs in both places. Irving Wade, who starred for the Crescents and will play centre. Mark Wade moves to point, where he replaces Harrison. Edgar Wade plays cover point with Arnold and Brewer the first string wings and Biddle is goal.

Spurling general staff officer, are to leave for Fredericton this evening to attend an organization meeting of the 71st Regiment there tomorrow. On Wednesday they will go to Woodstock to attend an organization meeting of the 67th and the 1st Brighton field company engineers.

WE HAD IT 16 BELOW TODAY

Only Once This Season Was Mercury Lower — Small Pupils in Centennial Sent Home.

If the cold spell continues this week, or if it remains moderately cold, January of 1920 will go down on record as the coldest ever chronicled here, according to a statement of D. L. Hutchinson, director of the meteorological observatory, to a Times reporter this morning. At 7 o'clock this morning the thermometer registered sixteen degrees below zero. This is only one degree above the record for the season, which was established on Dec. 18 when the mercury dropped to seventeen below. Fortunately, the wind was only light this morning and while the cold was penetrating it was not felt so keenly as on some other days this winter when a higher temperature prevailed.

Fredericton reports 22 below at 8 a. m., clear; Halifax 9 below, fine, four below at 11 a. m.; Moncton, fine, light west wind, 18 below; Edmundston, 36 below, no wind; Woodstock, 40 below at 7 a. m., clear; Hampton, 30 below.

Centennial school was so cold this morning that it was deemed advisable to send the pupils of grade 1 home at 10 o'clock. The heating apparatus in the school is reported to be antiquated and in addition snow blows in through cracks about the windows and doors, making it almost impossible to heat the rooms. The temperature in some of the rooms this morning did not reach above fifty degrees.

At St. Stephen the weather was clear and thirty-two below was the record. St. John has it fair and clear, twelve below.

ESCAPED FROM POLICE CELL

Murray Got Out Last Night — Fourteen Names on the Record This Morning.

George Murray appeared in the police court in name, but not in person this morning, as the door on the cell in which he was lodged was not strong enough to withstand the attacks made on it by him with some unknown instrument. He escaped last night about eight o'clock, and although no one saw him, it was supposed he had gotten away through the police court and down the front stairs. He was charged with drinking and furiously driving a horse in Adelaide street.

Fourteen prisoners were gathered in by the police Saturday and Sunday. For the last two weeks there had been very few arrests made.

James Dobson, arrested last night by Detective Biddiscombe and Inspector Merryfield on a warrant, was charged with unlawfully keeping liquor on his premises for sale. Inspectors McAlister and Merryfield told of visiting his residence in the rear of 25 Brunswick street on December 4, and finding two jugs of beer, which exceeded the percentage allowed by law. The inspectors said that they were walking by the window and saw two women drinking and called to investigate. The inspectors also told of having complaints about the reputation of the house. The case was postponed until tomorrow morning.

A man and woman who have been having slight difficulties in domestic life brought their troubles to the magistrate. The wife said her husband has not been supporting her and in the last two weeks she had had to go out and work to support herself and baby. After some advice the young people reconciliation was made.

Alexander Gracia was given in charge by Captain Wyatt of S. S. Alston on charge of being a stoway on board the vessel. The captain took him back to the ship.

James Redmond was charged with being drunk and acting wrongly in the street. Policeman Chisholm gave evidence. The accused was remanded.

William Kosmek, aged forty-four, an Austrian, who has been before the court on several occasions on the charge of vagrancy, was again arraigned on that charge and sent into jail for further investigation.

Seven men charged with drunkenness pleaded guilty. Four were remanded to jail, while three paid a fine of \$8 each.

IMPORTANT PLAYGROUNDS MEETING HELD

A special meeting of the playground executive was held on Saturday with Captain A. J. Mulcahy in the chair. Representatives from various societies in the city in favor of recreational centres were present. A. M. Belding was called upon to explain the objects of the meeting. It was decided to have two members of each society appointed to act in conjunction with the representatives of the executive in revising the by-laws and constitution. The new officers will be appointed at the next meeting of the executive.

Plans were discussed as to what measure would be brought to bear before the city council this morning with a view to better playgrounds and to establish a playground in the North End. The treasurer, Mrs. George Dishart, gave a detailed statement of the expenditures of last year, while the secretary explained that owing to the lack of repairs last year at least \$7,000 would be needed this year to carry on the work and establish a ground in the North End. The following delegates were appointed to attend the meeting of the Y. M. C. A., E. J. Barrett of the Rotary Club, Dr. Stanley Bridges of the Commercial Club, and Mrs. George Dishart.

QUEBEC HOSPITAL TO CARE FOR EPILEPTICS

Quebec, Jan. 26—Dr. A. H. Desloges, inspector of insane asylums and institutions for the feeble minded in the province of Quebec, announced on Saturday that the Quebec government was considering establishment of a hospital for epileptics and that he hoped to see it in operation before many years.
