The girl's action was not a sudden inspiration. She had apparently awaited until an unguarded moment to destroy herself. The bible, magazines and papers with which she made the bonfire were taken from a table in the living room where she had been sewing.

Philadelphia, Sept. 29.—Following a night of constant quarrelling with his wife at their home in Oakview, Delaware Co., John Green, a carpenter and the father of nine children, early today shot and perhaps fatally wounded his wife and instantly killed their 13 months' infant.

In the promiscuous shooting by the enraged man, a 16 year daughter narrowly escaped death. Green fled from the house but was later captured.

Buenavista, Colo., Sept. 29.—Miners at the Monarch mine, after drinking heavily, blew up a house with dynamite and shot up the camp. Residents of the camp fled in terror to their homes and barricaded themselves inside. Assistance was summoned from Buenavista and Salida, and officers drove the rioters to the hills. No one was hurt.

Chicago, Sept. 29.—Walter Brookings started from here at 9:16 a. m. in a Wright biplane for Springfield, 187 miles away, in an attempt to break the sustained flight record of the country.

Brookings passed over Kennington, thirteen miles from Chicago, at 9:36, and at 9:45 sped over the suburb of Harvey, nineteen miles distant. He was flying about 2,900 feet high and at a speed of fifty miles an hour. The roads and fields were dotted everywhere with people witnessing their first aeroplane flight.

Chicago, Sept. 29.—Brookings will try to alight in the centre of the race track, directly in front of the grand stand, at the state fair at Springfield. Wilbur Wright, tutor of Brookings, who watched the preliminaries is to follow his pupil on the train, which was crowded with newspapermen and others. The race against distance is under the direction of the Chicago Record-Herald, which offers a prize of \$10,000 for a continuous flight to the state fair.

Chicago, Sept. 29.—The village of Nonos, 23 miles from here, was passed at 10:10 o'clock. The aviator was flying at about forty miles an hour. The special train was eighteen miles behind him.

MADAME SEMBRICH ATTACKED BY MAN AT HER SWISS VILLA

Police Believe Assailant Intended to Kill Her—The Prima Donna Had Rushed to the Assistance of Her Companion

New York, Sept. 29.—The New York Herald in a special cable dispatch from Lausanne, Switzerland says, Mme. Marcella Sembrich narrowly escaped death at her villa here Sunday night when a man who had presumably entered for the purpose of robbery, attacked her companion, Fraulein Mielke, known in America as Miss Frieda, in the grounds surrounding the house. The prima donna rushed to her friend's assistance and was herself attacked, but succeeded in driving off her assailant.

The police believe that the man intended to kill Mme. Sembrich. Fraulein Mielke has been Mme Sembrich's constant companion for 20 years.

Fraulein Mielke was singing in the chorus at one of the European Opera houses 20 years ago when she first met Mme. Sembrich. Interest in their common ambition drew them together and they became fast friends. After having spent several summers at the Sembrich home Fraulein Mielke lost her singing voice on account of an operation and was forced to abandon her hopes of success in the operatic field.

Since that time she has been Mme Sembrich's companion on all her tours winning universal esteem by her indefatigable energy. Being a gifted linguist she is able to sing in many languages and the translation and arrangement of the various songs in many languages in the singer's repertory.

Beside this Fraulein Mielke acts as Mme. Sembrich's purse bearer, pays hotel bills and other expenses of traveling, keeps up her performances, organ, jewelry and other details of interest to the singer. She is an enthusiastic collector of illustrated post cards and curios, being especially interested in Indian handicrafts. In Albuquerque, N. M., on her last tour, Fraulein Mielke purchased a trunkful of such objects.

Fraulein Mielke was at one time teacher of German in the family of the late Wm. E. Gladstone and attributes her excellent knowledge of English to the interest which the "Grand Old Man" took in her study of that language.

IMPERIAL TEMPERANCE CONFERENCE TO BE HELD IN ENGLAND NEXT YEAR

Overseas' Premiers to Attend—Interesting Discussions Before the Church Congress At Cambridge—Conditions in England and Canada Contrasted—Hague Tribunal on Fisheries Case Commended—Budget of Cable News

Times' Special Cable London, Sept. 29.—During the visit of the overseas premiers to the Imperial Temperance conference will be held. Its purpose will be to consider the relationship of temperance reform to imperial progress and efficiency.

The board of education have arranged to co-operate with the education authorities in western Canada with a view to sending in advance a list of the teachers intending to emigrate to the dominion.

Cambridge hospital at Cambridge reports that Captain George's condition still shows no change. Lieut. George is improving and Munz is convalescing.

It is stated that the tariff reformers of the West Indies report with increasing satisfaction the more it is studied. They say moreover that it strengthened the case for Imperial preference tariff reformers. They believe it inconceivable that after such an enquiry the government, if in office at the time of the Imperial Conference, can continue to be hostile to the fiscal unity of the empire.

It is hoped the King will attend the next Henley regatta.

Mr. and Mrs. Aylesworth and Hon. Mackenzie King, Canadian minister of labor, are passengers on the steamer Victoria in the Church Congress in the course of a discussion on theological studies. Doctor real centres of influence and purpose in uplifting the ideals of Canadians. Unless this was done, Canada, instead of grasping the keys of the future, might become a democracy, doomed.

Canon E. A. Welch, in the course of a discussion on Christian Unity, speaking from a Canadian viewpoint, testified to the fact that the problem before Canada was one of leadership. He appealed to the universities to send professors and young men who would form the nucleus for a movement for moral and social reform among the religious denominations in Canada. In consequence, the general morality of the land in some respects is better than in England. He referred to the smugness which sometimes characterized the relations between the churches in non-conformity here. It rarely happened in the case of Canadian Methodist and Baptist churches that a substantial increase in the bank balance gave birth to a conviction of the truly apostolic character of the Anglican Church. In Canada, on the other hand, almost a negligible factor. There was no divorce evil. The Lord's Day was observed far better than in England.

The B. C. Electric railway's issue of \$200,000 stock is announced.

Canon Welch said the Sabbath was more grossly observed in Canada and a larger proportion of the population, especially of the cities, attended public worship. This contrast, he said, was due to the work of the various religious bodies, of whom, with the exception of Roman Catholics, who are mostly French, Methodists, were the largest and Presbyterians second in numbers, perhaps equal in West 20th street, who was killed instantly.

The elder Patern had developed a sudden dislike for Donato after learning that the young man was a boon companion of some of his (Patern's) enemies. He saw that his daughter was growing fond of the young man and when he heard that they had plighted their troth he flew into a rage and ordered Donato from the house.

In requesting the young man to leave Patern employed language that kindled Donato's rage, and in a moment of blind passion he drew a revolver and let go five shots. Luckily for Patern Donato's gun was bad and all the bullets went wild.

When the gun was empty Donato fled to the fine escape of a horse. He was pursued by the police and was seen to escape by the West 5th street station.

While the man was descending another fire escape he was captured by policeman Barry of the West 5th street station.

Donato found desperately to escape but Barry quieted him with his night stick, and he was arraigned in the West Side court. The case was set over until the morning when Barry promised to bring the girl and several of the neighbors to the police station.

When he turned the body over he saw it was the young girl he intended to bring to court. A surgeon was summoned from the New York hospital but there was nothing for him to do but pronounce the girl dead.

The C. P. R. farm has planted 50,000 stripping trees to be supplied to the farmers at nominal rates.

NEARLY \$5,000,000 FOR PUBLIC CHARITIES

A TITLED FRIEND OF THE HOBBLE SKIRT

G. W. Patten Millionaire Grain Operator is Dead

A LARGE DONATION

For Furthering the Anti-Tuberculosis Campaign—Patten Was Himself a Sufferer From the "Great White Plague."

Chicago, Sept. 29.—George W. Patten, the millionaire grain operator, who died last night of tuberculosis at the home of his brother, James A. Patten, in Evanston, left a fortune estimated at \$5,000,000, the greater part of which, it is said, will be left to public charities, including large donations for the furtherance of the anti-tuberculosis campaign. Though relatives have attempted to conceal from him the belief that he was dying, it has been known for months that he was suffering from a disease from which there was no hope of recovery. He spent eight years in Colorado fighting against the malady. Two weeks ago announcement was made that Mr. Patten had created a fund of \$500,000, known as the "James and Louise Patten fund," for the endowment of the Evanston Hospital Association, an institution in which the two brothers took a great interest.

KING GEORGE WILL VISIT IRELAND AFTER THE CORONATION

His Majesty, When Prince of Wales Was About to Purchase a Residence There When for Reasons of State the Project Dropped

London, Sept. 29.—King George seems determined to win the love of his Irish subjects. There have been various rumors as to the King's attitude towards Home Rule, but he has never expressed himself publicly on the question. He has made it known, however, that immediately after the coronation next year, he will, at the end of the London season, pay an official visit to Ireland, accompanied by the Queen, the Prince of Wales and Princess Mary.

This visit is expected to extend over a week, and a round of festivities will take place at Dublin Castle, including a court, a state ball, a levee, and probably a review of the troops in Phoenix Park. It is too early yet, of course, for any definite arrangements to be made, but the King has discussed the matter in an informal manner with those about him, and he is said to be looking forward to a visit to the Sizer Isle with keen anticipation.

The King has a considerable acquaintance in Ireland, and has many pleasant recollections of his visits there. It is hoped that he may be able to find time to visit Belfast and one or two other towns before he re-embarks upon his Royal yacht but how far this will be possible remains to be seen.

It is not generally known that King George almost purchased a residence in the North of Ireland a few years ago. The residence in question was one that particularly appealed to him. The estate was extensive and possessed excellent fishing and shooting rights, while the scenery in the neighborhood was among the most picturesque it would be possible to imagine. Both the Prince and Princess of Wales (as their Majesties then were) fell in love with the place, and negotiations for its purchase were well advanced when the matter came to the ears of the leaders of the Irish party. A protest was at once entered with the Prime Minister of the day, and a significant hint was given that if the heir-apparent took up his residence in Ireland, matters would be made pretty awkward for the government in the House of Commons. The Premier was consequently in something of a dilemma and sought an audience of the late King. King Edward listened to what his political adviser had to say, and then consulted the Prince of Wales, and pointed out the objections that had been raised and the awkward position in which the Viceroy would be placed every time the Prince or Princess appeared in Dublin. King Edward further added reasons of his own for opposing this plan, chiefly on account of the distance from London, that his heir would be residing upon his Irish estate. King George at last agreed to forego his project and to accept Frogmore as his country home.

THE TIMES' NEW REPORTER

ANOTHER ENEMY. A startling discovery has been made at the Dry Lake. There are holes in the pipe that brings the water through the Dry Lake from Loch Lomond to supply the city. The Dry Lake is composed of inferior earth. It is owned by the city engineer, who permitted the city to lay the pipe through it. There is a dark suspicion connected with the discovery made by Chairman Likely and the other members of the water board. It is clear that the infusoria, which were supposed to be in a dead or dormant state, have waked up hungry and attacked the pipe. Did the city engineer know that his infusoria were subject to spells of coma, and liable to become active and ferocious at any moment? The members of the water board declined to express an opinion this morning, but one of them recalled the fact that when the pipe was being laid through the Dry Lake he stepped off a plank and was down nearly to his waist before his friends could pull him out. He has no doubt the infusoria were after him that time, and that they are now responsible for the holes in the water pipe. An investigation will be held. Evidence to show that the pipe was not well laid, or that the city council was at all to blame, will be strictly excluded, but the infusoria will get all that is coming to them.

MR. BOURASSA

When Mr. Henri Bourassa reminds his English speaking fellow citizens that the French people of Quebec have their roots deep down in the soil of their beloved Canada, and have behind them the traditions of many generations of French in Canada; and that therefore they cannot be expected to survey national problems with the eyes of an Englishman, he is on safe ground.

But the rule should work both ways. Mr. Bourassa should be willing to recognize that the British in Canada have their traditions and their ideals, and that he who would attain to the stature of a national leader must be in the largest sense national in his views and aspirations.

CHEAPER CABLES

Touching the question of imperial unity there is wisdom in the following article from the Ottawa Free Press:— "There has recently been held in London, England, a gathering of the Institute of Journalists, at which there was a very good representation of the newspaper men and women from overseas. Among the subjects discussed was that in which we are so much interested, a reduction of cable rates, and it is worth while emphasizing the fact that the chief delegate from Australia, Mr. Robert McMillan, of Sydney, put the case in a nutshell, when he said that if the British people, who spent £80,000,000 a year for defence, were to put a few millions into the cable system, they would be binding the Empire into one great united body. They then would be one people in deed and in truth. But they had left the cables to private enterprise, and they charged them 3s. a word. If only someone would rise up and say that instead of Dreadnoughts next year they would give them better cable communication, it would be a magnificent thing. What they wanted was that the whole Empire should be bound round with electric cables that would make them one people with one flag and one throne. Dreadnoughts are doubtless necessary, but as a means of uniting the Empire an improved cable system would be worth dozens of Dreadnoughts."

THE WEST AND THE TARIFF

The high tariff journals of the Conservative party will be compelled to renege with the Winnipeg Telegram (Conservative), which has been expressing itself with some vigor on the close relation of high protection to truth, and forms of robbery. We quote:—"What, then, is the effect of a duty raised above the protective point? Take, for example, an article whose selling price from a foreign country is 100, and whose cost of manufacture, selling cost, and profit at home is 104. If a duty of five points be placed upon it, foreign manufacturer and home manufacturer can sell on equal terms at 104. That is protection. If, however, a duty of 20 points be placed upon the article, for the manufacturer and home manufacturer can sell on equal terms at 120, but the home manufacturer can sell at 119. That is robbery. And by means of combination the home manufacturer does sell at just the lowest point which will keep out foreign competition."

This, from a Conservative journal, is remarkably plain speaking, and quite dif-

Demand Always Increasing—Because "Fruit-a-Tives" Cures.

The real value of any article may be judged by the demand for it. Steadily increasing sales are the surest indication of intrinsic merit. This applies to a medicine as well as to a breakfast food.

First introduced to the public in Ottawa, the fame of "Fruit-a-Tives" quickly spread until today the fruit medicine is known and used in every section of the Dominion.

The only reason for the extraordinary demand is that "Fruit-a-Tives" is the only medicine in the world made of purely natural ingredients. It is a powerful cathartic, biliousness, indigestion, dyspepsia, backache, headache, neuralgia, rheumatism, bladder and kidney troubles. One has only to read the testimonials given to "Fruit-a-Tives" by some of the best known and most highly esteemed people of Canada, to appreciate the wonderful amount of good that this grand fruit medicine has done and is doing for the sick and suffering.

THE WORTH OF A BOY

Here is a boy, how much is he worth? Shining with laughter and bubbling with mirth?

Here is a boy, how much would you give To have him to help you to struggle and live? The worth of a boy—ah, who can compute it? The infinite treasure that in him is found!

Here is a boy, how much would you say For lift of his laughter and soul of his play? Now for a bargain if ever you knew The value of music and beauty of dew; Boy, how much more for a boy, Bubbling with mischief and beaming with joy?

Sell him by weight or sell him by measure, What is he worth in your matter of treasure? Who can compute it, his value, his worth, His sunbeam of life 'mid the shadows of earth? One little fellow, how much do you say For millions of mornings and mountains of play?

What is it worth to you, not just his size, Not his mere music, his mouth or his eyes, What is he worth, with his fun and his zest, His hand on your cheek and his head on your breast? Boy like a bubble and boy like a gleam, What is he worth—can you tell, can you dream?—The "Benttown Bard" in Baltimore Sun.

IN LIGHTER VEIN When other hands shall hook your dress And other eyes shall see, If your white shirt is fading low, my dear, Then you'll remember me.

A FAILURE "How did your divorce case come out?" "Very unsatisfactory. The judge gave her a decree, but stipulated that she must wait two years before marrying again."

UNREGENERATE. "It was to satisfy your extravagant taste," cried the desperate man, "that I committed the forgery. The crime is upon your head." The woman started and gazed at him wonderingly. "Is my crime on straight?" she asked.—"Success Magazine."

EXPRESSIVE. One day little George's father brought home some of the dearest man, "that I asked how he liked, George replied with all seriousness, "Papa, it tastes just like the animal cages at the circus."

THE AWFUL CHANGE. I could not bear the change of the seasons—the spring and the summer and fall— But a thing that they bring is a thing, by jing, I can never get used to at all. The budding trees or the baring boughs, with no such dreariness strike, As that new hat that my wife must get and I've got to learn to like. —T. E. M.

ADVICE. My son, I've travelled the world, And many maid I've met; There are two kinds you should avoid— The blonde and the brunette. —Life. My son, I, too, have travelled far, And many wives I've seen; Two sorts there are that you should bar— The fat—and then the lean. —Nashville Tennessean. My boy, to these add one more set; Of you they'll ne'er make sport; Just see you don't fall in the net Of tall ones nor of short. —St. Louis Times. And lad, avoid another pair; They'll think you are a boor; But of their winsome wiles beware— O Youth, be true to your fair. —Youngstown Telegram.

ASTONISHING RESULTS Follow Each New Discovery of Science

The great strides that medicine has made in the last few years are due to the germ theory. When the germ of a disease has been discovered, the doctors have not been skilful in finding a drug to kill it. In a few years, it was rare to find a bald-headed man or woman. The fall-out of the dust of a dandruff germ, and now we have discovered how to kill this germ. The remedy used is called New's Hair Restorer. Its success has been marvellous. WHY SHE WAS ANXIOUS. This conversation really took place the other night between a man and his wife who live out in Lakewood. "Have you fastened up all the windows and the door to the summer kitchen?" she inquired, as they were about to retire for the night.

"Sure," he replied, "but what's the use? I gave you the last dollar I had day before yesterday to pay for that new dress of yours."

"Oh, yes, but it's in the lower drawer of the dresser in the front bedroom, just where the burglars would be most likely to get in, and they might ransack the drawers and get the dress all messed up and ruined."—Cleveland Plain Dealer.

Many a man sees his life in time to dodge it.

There could be no doubt of the young man's charm for the young woman, but on the other hand, oh, well— "Phave!" exclaimed Miss Harker impatiently, "it seems to me we have waited a good many minutes for that mother of mine."

"Hours, I should say," snapped her companion, in his harshest tones. "Ours! Oh, George!" And she laid her burning cheek upon his immaculate pink-tinted shirt front.—Philadelphia Times.

FRANK E. PORTER

COMMISSION TO HEAR TELEPHONE CHARGES

A public investigation into the excessive rates charged by the New Brunswick Telephone Company in this city seems assured. H. A. Powell, K. C., representing the board of trade committee, who were appointed to look into the matter, appeared before the public utilities commission, which met here yesterday afternoon, and gave notice that the commission had decided to take action. The complaint against the telephone company has already been drafted. Mr. Powell said and would be filed within the next few days. The complaint deals exclusively with the charges that are made in St. John. Mr. Powell stated that he had been requested to make a draft of the complaint to be presented before the commission in order that they might be given an opportunity to inquire into the rates charged by the N. B. Telephone Co., the complaint to be that the company's charges were unreasonable. While he had the complaint drafted, the rules of procedure forbade him presenting it at the meeting. Mr. Otty pointed out that if both parties took the same time for filing and answering, the matter could not come up at the next meeting. Chairman Vince suggested that Mr. Powell meet the telephone people in the matter and arrange so that it could be dealt with at the next meeting, and Mr. Powell promised to do so.

Bathubs for Mules

A huge bathtub, 40 feet in length, has been installed in the stables of a coal mining company in Pennsylvania. This tub is not for the use of the miners, but for the mules owned by the company. The unique mine improvement is built at the entrance of the mule barn. The long-eared beasts are pretty tired when their day's work is done, but when they strike the bath all fatigue disappears and they rush into the water, crowding each other for the deepest place in the tub. The bath is expected to prolong their vigor and vitality.

L. K. Simmons, who was fined one cent in the city court in Richmond, Ind., for trespass, declares that he will take an appeal to the circuit court. Simmons took down a stove in the residence of Charles Skillens and in doing so threw some soil on several pigs. Skillens then filed the charge against him.

DR. CHASE'S OINTMENT

The Evening Chit-Chat

By RUTH CAMERON

IT OCCURRED to me the other day, after being an unwilling witness at a family scrap, that one of the greatest harmony destroyers in the home is the fixed idea which many people have, that every untoward thing that happens must be somebody's FAULT.

Don't you think maybe there is something in my idea? Perhaps you don't grasp exactly what I mean. I'll try to elucidate.

Big brother puts his bundle of shirts for the laundry out in the hall. Sister in the darkness falls over them and breaks the pitcher she is carrying.

"It's all Bob's FAULT," she wails, "for leaving those old shirts in the hall for somebody to tumble over."

"Go on!" retorts Bob warmly. "It's your own fault for not carrying a lamp or lighting the light so you could see where you were going and not tumble over everything."

Why anybody's FAULT. Why not call it just what it was—an unfortunate accident—and thereby preserve family harmony, which surely is infinitely more important than any little chin-pitcher?

The other day I saw two young folks half spoiling what should have been a perfect holiday outing, just because each insisted on calling an unfortunate accident the other's FAULT.

The husband went back after a magazine which he was particularly anxious to read, and then when the car was blocked and they missed the train his wife said that if he hadn't gone back for that magazine they would doubtless have gotten a car that would have been ahead of the blockade and therefore the husband's fault. Instead of trying hard enough, we cheerfully accepted such things as nobody's FAULT, just accidents. Seems so to me anyway.

WALNUT WAFERS.

One cup brown sugar, 1 1/4 cups walnut meats broken, one quarter teaspoonful salt, one-third teaspoonful baking powder, three heaping tablespoonfuls flour. Mix sugar and eggs together, sift in salt and baking powder next and walnut meat last. Slightly grease a baking pan and mix in a good amount of tea powder at a time leaving space for spreading. Remove from pan while hot.

MOCHA CAKE.

Four eggs beaten separately, one cup powdered sugar, one tablespoonful Cross and Blackwell's coffee essence, one half cup flour with three-fourths teaspoonful baking powder. Bake in two layers. Whip three quarters of a pint of cream, sweeten and spread between layers when cold. As an icing or top, take one cup powdered sugar, one teaspoonful coffee essence, and stir to a cream putting oil smoothly; this is a soft frosting.

BUTTERMILK BISCUITS.

Take a half-pint of buttermilk and a cup of flour. Rub into flour a piece of butter half size of an egg. Add a little salt and stir milk into flour. Dissolve 1 teaspoon soda in a very little hot water and stir into it. Add flour enough barely to make it smooth; roll out on board and cut out and bake as for tea biscuits.

COCOA PUDDING.

One cup fine-bread crumbs, one egg, two teaspoons cocoa, two teaspoons of melted chocolate, sugar to suit taste, pint and a half of milk, flavored with vanilla. Bake in cups and serve with a hard sauce, flavored with vanilla.

GENERAL NEWS

As a result to Nationalize Monopolies—P. E. I. Telephone Co.—I. C. R. Driver Killed

Melbourne, Australia, Sept. 28.—The new Fisher administration apparently is determined that politics shall not reach a dead level of dulness. The latest proposal of the cabinet is that all monopolies shall be nationalized, and all industrial authority, through the commonwealth shall be vested in the federation. This ambitious programme it is intended to submit to the electors by means of referenda. The people will be asked to approve or reject the proposals and afterwards legislation, based on the people's decision, will be brought before parliament.

Charlottetown, P. E. I., Sept. 28.—(Special)—The adjourned meeting of the P. E. I. Telephone Company was held in their offices in this city tonight. Offers were received from the Bell Telephone Company of Canada and the Maritime Telegraph & Telephone Company for the purchase of the stock of the island company. The latter company is a newly chartered corporation in this province. The meeting adjourned without any action being taken.

Shawhegan, Maine, Sept. 28.—Ivory Bussell was tonight found guilty of manslaughter in causing the death of his father, John Bussell, last December. Halifax, Sept. 28.—(Special)—B. Postman, engineer on a shunting engine of the I. C. R. at Richmond, was killed tonight. It is thought that while crossing the track to his engine he was struck by an incoming freight, the wheels passing over him and cutting him up terribly.

Fashion Hints for Times Readers

DARK VELVET HATS HAVE GAY LININGS

An innovation in this season's millinery is the bright-colored lining which is often velvet and the lining under the mushroom brim of black and white checked taffeta. The willow plume has a layer of black fluff over the white body of the feather and is wired to stand upright in the wearer's coloring, but sometimes it merely repeats a color note in the trimming above. The hat pictured is one of the black and white combinations so fashionable at present.

WHO HAS PILES?

At Least Three People in Every Ten and All Can Be Cured. Here is a Sure Home Remedy.

COSTS NOTHING TO TRY

It is a very sensible plan to first try a remedy and see if it works. The ancient doctrine that if you keep at it results are sure to come is a back number. That is why the Pyramid Drug Co. wants all pile sufferers to send for a free trial of Pyramid Pile Cure. The medicine quickly clears up all doubts, brings the cure and welcome results, saves danger, need and harmful doses, and is a permanent cure. The medicine is so good that the wonderful cure is so far away every day store in the United States shows it generally people rely upon it. But if your name and address to the Pyramid Drug Co., 267 Pyramid Bld., Marquette, Mich., and in a plain wrapper they will mail you a free, convincing test that will surprise you with its wonderful and welcome results. You can get the regular package almost anywhere for 50c. and be sure you get the kind you ask for. Don't fail to write for the free trial and if you are in present misery get the 50c. package at any drug store. It will do the work and you can depend upon it.

Trade With Jamaica Trade reports show that there is a large sale of Canadian and Newfoundland dried fish among the islands, the report of E. H. S. Flood, Canadian Trade Commissioner, gives the value of the Jamaican imports from Canada for the fiscal year of 1910 as being \$185,338, an increase of a large sale of Canadian fish in the West Indies, Montserrat, Dominica, Antigua and other points.

In 1909 Canada took 70.9 per cent of Jamaica's sugar and of the 29.6 per cent, 29.9 per cent, of the United Kingdom considerable quantity came to Canada in refined state.

Jamaica's fruit industry is the largest part of the island's trade, amounting as follows:—

W. C. T. U. CONVENTION AT HARTLAND, N. B.

Interesting Account of the Work of the Various Departments During the Last Year

The following interesting account of the annual convention of the W. C. T. U. at Hartland has been received from one of the local delegates.

On Tuesday morning, Sept. 27, a band of ten women left St. John for Hartland, where the fourth annual Convention of the Women's Christian Temperance Union is being held.

After roll call, the reports of the various departments were given by the superintendents. The Anti-Narcotic Dept. showed faithful work, and many cheering testimonies were given.

In connection with the good reports sent by the various departments, an interesting letter was read from Dr. Grenfell. It was to Mrs. Jordan, of Woodstock, New Brunswick.

The report from the superintendent of medical contests, brought out helpful suggestions from Mrs. McWha, Mrs. Sprague and Mrs. Rutherford.

Committees appointed:—Entertainment—Mesdames Gray, Sprague and McAvity. Resolutions—Mesdames Flanders, Hanson and Jordan.

On Wednesday morning the convention was opened by devotional exercises conducted by Rev. Dr. Fiske.

For more than 30 years it has been curing female ailments such as inflammation, irregularities, local weakness, uterine tumors, irregularities, pelvic pain, backache, indigestion and nervous prostration.

It is unequalled for carrying women safely through the period of change of life. It is a safe, reliable, and effective remedy.

The Danger Mark Is The Low Water Mark

With the arrival of fall, take precautions, and add "MONTERRAT" to the drinking water.

Now is the season when the sources of water supply are getting low and the danger of Typhoid Fever is increasing. The sudden change from country to city life, and especially the change of water, are apt to develop this terrible disease.

Scientists at the Molson Laboratory of McGill University proved this conclusively. They took a tumbler of city water, teeming with typhoid germs, and added "Montserrat" Lime Fruit Juice. In fifteen minutes, every germ was destroyed.

NOTE—Write to-day for free copy of our recipe book showing the many delightful drinks, frozen desserts, cakes and pies to be made with "Montserrat" Lime Fruit Juice.

The Rossi Murder Case. The jury in the case of Andrew Rossi, after deliberating for two hours and a half, informed Justice Landry this morning at 1:30 o'clock, that they were hopelessly divided on a verdict.

Three sessions of the case were held yesterday, morning, afternoon and evening. In the afternoon three members of the Jones family of North street, Minnie Joseph, and Wilfred George, were called to the stand.

Only one witness, Pasquale Ferraro, was called for the defence and Mr. Rossi was acquitted. The former contended that there was sufficient evidence to reduce the crime to manslaughter, while the attorney general argued that this was not so.

His honor then charged the jury, directing them in their duties, and they retired at 11 o'clock. About an hour later they returned and were given further instructions by the judge, and when they came back without a verdict at 1:30 o'clock, they were locked up in a room by themselves.

Andrew C. Wilson, who, on Tuesday, was taken to the hospital suffering with stomach trouble of a serious nature, passed away in that institution early last evening, following an operation. He leaves a wife and nine small children.

BANK OF ENGLAND RATE GOES TO 4 P.C.

London, Sept. 29.—As had been anticipated the Bank of England raised its discount rate to four per cent today. The advance was due chiefly to the large outflow of gold to Egypt and Turkey, the prospective Indian demand and also the fact that the weekly arrivals are being steadily absorbed by the continent. The recent advance in the German bank rate and yesterday's smart rise in market discounts hastened the bank's decision.

BEAVERS ARE BUSY

Chatham World—Beavers are multiplying and getting bold. They are disputing with the farmers and lumbermen the right to the streams. They have recently dammed Ledemead Brook, between Doaktown and Bartholomew, the dams being one hundred yards long, flooding the meadows and preventing the driving of logs. Game Warden Robinson, of Lunenburg, has obtained authority for cutting the dams and forcing the builders to go elsewhere. Beavers have also dammed the south branch of Muskrat Brook, flooded the road leading to the sportsmen's camp at Leyton Brook to the depth of three feet. Highbank Brook near Beaver River, has been dammed by these animals this fall, and the C. C. water supply has been partially cut off, so that an application has been made for permission to cut the dam and force the beavers to build their winter home elsewhere. It will soon be time to thin out the beavers by trapping and shooting. It is unkind to protect them from the hunter and refuse them the dam privileges that are necessary to their existence.

APPLES AND PLUMS

T. C. Olive of the west side brought to the Times office this morning two apples grown in his own garden. One was a New Brunswick and the other a winter apple. Both were large, of fine color and good flavor. Mr. Olive states that John D. Coe of the west side raised this year nine barrels of red plums, worth nearly a hundred dollars, and six large baskets of green gage plums. This, says Mr. Olive, is conclusive evidence that New Brunswick can produce good fruit and in paying quantities. These results, from city gardens, are worthy of the attention of those who have large farms.

ITALIAN WILL HAVE TO STAND A NEW TRIAL

Jury in Rossi Case Fail to Agree 9 Were for Verdict of Murder and 3 for Manslaughter

The young Italian prisoner, Andrew Rossi, alias Andy Rose, will again have to be arraigned in court on the charge of murdering his companion, Diego Stracuss, as the jury was sat on its case after careful deliberation, lasting from last evening at 11 o'clock until this morning at 10 o'clock, disagreed on a verdict. During this time they were shut up in the jury room, discussing the question of what their verdict should be. They came back to the court room about 1:30 this morning, but as they were hopelessly divided, they were sent back, after being informed, at their request, on the question of "reasonable doubt."

At 10 o'clock this morning, they again filed into their places and it was announced that they were still disagreed as to the verdict. It is understood that the discussion in the jury room was quiet, heated, at times, and that while the number in favor of a verdict of manslaughter finally remained at three, it was more than that earlier in the proceedings, when the vote stood 8 to 4, and also 7 to 5, the majority approving of the edict of murder.

One man who was a member of the jury and who did not favor a verdict of murder gave his reason that he would hold himself personally responsible if Rossi were hanged through such a verdict being found.

Morbid curiosity seemed to prompt a great number of people to remain late in the evening, and until the early hours of the morning, to await the return of the jury, and many were disappointed when the jury returned with a disagreement.

This morning, however, there were not very many people in court when the body of Rossi came back.

Rossi maintained the same stolid expression of utter disregard of the proceedings, as he had shown during the entire hearing, when his fellowmen, who held his fate in their hands, returned to their places this morning and though he undoubtedly understood, he betrayed no sign of emotion when it was announced that nine of them were in favor of a verdict, the elements of which spell death, for the unfortunate man.

His Honor, Justice Landry, then discharged the jury, thanking them for their careful attention to the case, and said that the court would resume on Thursday next.

68TH ANNIVERSARY SONS OF TEMPERANCE

Today is the 68th anniversary of the order of Sons of Temperance, and throughout Canada and the United States celebrations are being held in honor of the founding.

The local division will hold a gathering this evening in Loyalist Hall, Paradise Row, at 8 o'clock, at which there will be a number of old prominent workers.

The order of the Sons of Temperance was first established in the city of New York on September 29, 1842, and has for its object the suppression of liquor, and the abolition of licensed taverns. In the year 1847, the organization saw its first beginning in St. John, and as time passed by its influence became greater, and today it is strongly represented in nearly every town and city in the maritime provinces.

Tonight the grand and subordinate divisions will be present, and their friends and acquaintances are invited to attend. Among the speakers will be—J. R. Woodburn, Col. A. J. Armstrong, Hon. R. Maxwell, Rev. W. R. Robinson, and ex-Ald. Baskin. The G. W. P., E. S. Henegar, will preside.

Comparison Will Prove That It Pays to Buy Suits Here

In order to fully appreciate the value of our Suits you must compare them with Suits sold elsewhere.

There are three questions that enter in when you begin to compare prices of clothing, they are, first quality, second, fit, and third, style. If you can get all these equal, then prices count. You cannot tell by looking at a garment through the window whether it contains all these qualities or not. You must get your fingers on the goods, examine the linings, and try one on. If you will compare our suits in this way with others, you will then understand why this has been the biggest Suit year we have ever had, and that our Suits have no equal at the prices.
