are never imitated or counterfeited. This is especially true of a family medicine, and it is positive proof that the remedy imitated is of the highest value. As soon as it has been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and legan to steak the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B. with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch hone of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Story of the Siege.

The particulars of the siege of Khatoum which have been gathered from the diaries and letters of General Gordon and others, reach the world but slowly and in fragmentary fashion. But what has already become known, when thrown into a common more ded narrative of events, is quite e sufficient to give the siege a prominent place of events, is quite of March 21th, 1884; till January 26th, 1885; or 320 days.
