Remember this! Paint insurance on your buildings is just as important as fire insurance.

SHERWIN-WILLIAMS
PAINTS & VARNISHES

Fire may never come, but the deteriorating effect of the weather on buildings of every kind is certain, unless protected by paint.

Unprotected wooden surfaces crack and become open and porous, then decay and rot. This means expensive repairs, which can all be avoided by the regular use of paint.

Examine your buildings now—A little money spent in painting at once may save you much larger expenditure a little later.

Sherwin-Williams Paint, Prepared, is the ideal paint for outside use. It is made of the purest and best materials, thoroughly mixed and ground by powerful machinery according to special formulae, the result of years of experiment and experience in paint making.

NOT ENOUGH XMAS STOCKINGS The Few Allotted to This Regiment Were Prized

The following letter was received by Miss Ada M. Bell, Lakeville, from her Red Xmas stocking, which was sent to France in December last.

Somewhere in France. Dear Friend Ada: This is perhaps the most difficult job that I have ever handled. It is rather an embarrassing position, to find one's self in, having to write a young lady without having seen her. But the spirit which prompted your deed of kindness reassured us that you must have the welfare of the boys at heart. It might interest you to know that we had to win your red (Xmas) stocking by real hard and earnest competition. So it must make you feel how much our kindness was appreciated by the boys, as we, the winners, had to work hard to win your present. Well, I suppose that I must explain the above. In one platoon of infantry there are four sections. Now then there were two stockings for a platoon. So we decided that number one and number two sections would run a relay race, wearing gas helmets. We picked out a team of four men from each section to run, and needless to say, I am glad to say, that number two section were victorious. So you see that not only have a section of the best fighting men to look out for your interests in the fighting zone. We have chosen you as our honorary leader and now the slogan of number two section of number nine platoon "C" Co., 26 Bn. is the "Bells are ringing". To explain why I have written to thank you for your present I suppose I will have to tell you that I am the proud leader of this section which did honor to your name. Thinking that you would like to know the names of the best of men that ran for your Xmas stocking I will write them here.

Pts. Lund, W. J., of P. E. I., Pts. Deight, A., Jacques River, Pts. Noles, James, Somerville, Corp. Ryan, W. L., St. John. Thanking you once again for your kindness to the boys and myself. I remain Yours very sincerely, Billie Ryan.

P. S. Kindly acknowledge this letter as the boys and especially I would like to hear from you. Ryan.

Observer Appreciated in the West

Mrs. Lilian Ebbett, who last summer visited her parents at Middle Simonds, writes from Saskatchewan as follows:

"Your most valued paper comes each week and sure is like a long letter from home. I prize it more than ever since my visit last summer, because I learned that we do get all the local news in it. It seemed that no matter what they wished to tell me I had seen it all in The Observer before I came home.

"We have had a most lovely winter. Very little snow, not hardly enough for good sleighing all winter and just a few days cold weather the first part of the winter was the worst. Now they have had cars and wheels going since the first of the month. All our snow is gone and every slough is lying full of water and it is real spring-like in every way. The farmers are all on the land now, ploughing and doing all kinds of work.

"I must say that we followed

the contest up very close as it seemed to be very interesting from the very start and I am sure that the one who got the car must have been surprised as well as the one who got the piano.

Sapper Oscar L. DeMerchant is the eldest son of B. H. DeMerchant of Tobique Narrows, and grandson of Mrs. Elizabeth DeMerchant, with whom he always lived. He attended and over grammar school, afterwards Bryant & Stratton Business College from which he graduated June, 1911. He enlisted in the 115 Jan 1916, going over seas with the same, and afterwards sent to France in the 2nd Bn. C.R.I. and is still with that unit.

FARMERS ATTENTION!

On Tuesday, April 23 there will be held in the Agricultural school at Woodstock a public meeting for the purpose of forming the Central Organization of the United Farmers of N. B. Every branch of the U. F. N. B. are asked to send delegates, according to the constitution provided. Every member of the organization is urgently required to attend this meeting. All farmers are asked to be present.

Make April 23 the Farmers Big Day and celebrate by being at Woodstock. There will be a speaker from the United Farmers of Ontario in the person of J. J. Morrison, their secretary. Two meetings 2:30 and 7:30 p.m. Organization committees of the different parishes are urged to push the work of organizing branches, so that they might have full representation of delegates at the meeting.

The C. P. R. will not issue standard certificates, but farmers are advised that ten or more may purchase a half-fare excursion ticket from any station.

A GOOD MEDICINE FOR THE BABY

Nothing can equal Baby's Own Tablets as a medicine for little ones. They are a laxative, mild but thorough in action, and never fail to relieve constipation, colic, colds and simple fevers. Once a mother has used them she will use nothing else. Concerning them Mrs. Saluste Pelletier, St. Damas des Aulnaies, Que., writes:—"I always keep a box of Baby's Own Tablets in the house. They are the best medicine I know of for the little ones and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Baptists Held Annual Session—
Nursing Sister Returning From
France

Spring is coming slowly but surely. Where the snow is off the roads are dry. There seems to be very little frost. A warm rain is much needed. The road to Florenceville is very bad and should be broken out so wagons can get through without danger of being smashed.

The daylight saving time caused some confusion Sunday in the churches. It seems hard for some people to grasp the fact that the clocks are put ahead one hour by order of parliament and according to law that is the only time there is. Put your watches one hour ahead and forget about time. In a few weeks everyone will be accustomed to the change and we will never think about it until next fall.

Mrs. H. Smith had a sewing bee Tuesday.

Mrs. Geo. Beckwith received the sad news Sunday that her mother, Mrs. Sherwood had died in the hospital at St. John. Fred had been sick with pneumonia for two weeks. He reported for military duty last winter.

Mr. Sweeney, life insurance agent, is going business here.

Miss Pauline Balloch is home from France on account of the illness of her mother. Miss Balloch was serving as a Red Cross nurse and only 20 miles behind the firing line of the big drive.

Frank McKennie is home from Manchester, N. H., where he has been making munitions.

Mrs. Ernest McCleary of East Centreville fell in her shed Tuesday and broke her leg in two places. Her condition is quite serious.

Ken Carlton, a commercial traveller, spent Sunday in the village.

Wednesday evening a roll call and anniversary service was held in the Baptist church. This church has been in existence for 75 years. Rev. W. J. Hurlow of Tracy Mills was present and gave an address. There was special music and Deacon R. J. Clark read the church history. It is reported that C. E. Vall is to open up for business in his old store.

Earl Styles is expected home. The exemption board at St. John seemed to think and rightly, too, that his place was home looking after his aged mother.

Cutford Sullivan has bought from Frank Upson, the John Conroy place. He expects to make some repairs and move in as soon as the present occupant, F. D. Tweedie, gets away. Mr. Tweedie and family expect to move to Woodstock in May.

HOME MIXING OF FERTILIZERS

A Few Hints to Those Who Have Bought Chemicals

Spring is here, and with the advent of the birds and house-cleaning, it is quite natural for those who have fertilizer chemicals to "home-mix" to begin to consider as to proper formulae and quantities. There are many who know from several years' satisfactory experience, but there are those who just naturally have forgotten. For the benefit of these I am sending the following instructions:

In the mixture, ashes can be used owing to the lack of sulphate of ammonia this year, but they must be well sieved. A four-mesh screen will do the trick. Don't be afraid of seed as all the ashes any one farmer may have to divide up among several tons of mixture will not hurt. I am using four barrels to a ton for a 4-8 mixture. This will insure a better running fertilizer if the ashes are good and dry. My plan is to barrel the stuff and then when I want to use it, if it looks as if it would make trouble in the planter or seeder, I will sieve it again. There is a possibility of it going a little gummy owing to the absence of any guano, or tankage, which we usually have in our mixture, and which acts as a drier to some extent. Our mixtures this year are, for potatoes: 400 lbs. nitrate soda and 1000 lbs. acid phosphate. This makes a 4-8 ton. For grain use 300 lbs. nitrate and 1000 lbs. acid phosphate, and for a ton of 2-8 use 200 nitrate and 1000 lbs. acid phosphate, for grain on good ground, and for turnips.

Serious Fire at Andover

The Baptist parsonage was badly damaged by fire Saturday afternoon. The barn was completely destroyed. Everything in the barn was saved except the automobile which was burned. Mr. McFadden who has been so seriously ill was removed to the Trinity Rectory and later to the home of Walter Letford, where he is at present. The household furniture was conveyed to a place of safety but the house was badly damaged by fire and water. At the time no wind was blowing or the disaster would have been much greater. The barn belonging to the Rectory caught fire but was quickly put out by the men who so bravely fought the fire. Mr. McFadden's many friends are glad to know that he suffered no serious shock from the fire.

WOMEN'S INSTITUTE SAYS "CLEAN UP"

Lend Your Efforts to Help Beautify Our Village

The members of the local Women's Institute have pledged themselves to do all they can to improve the appearance of our village and help make it more attractive. Then, not only attractive but more healthful to live in.

Not being able to enjoy the laws of incorporation, we can only appeal to each individual to do his or her share in this work of cleaning up.

We also ask the citizens to utilize all vacant lots and spare ground for vegetable and flower gardens, thus helping to win the war by growing more food and making the village more beautiful.

Do not use vacant lots for dumping ground!

We make an especial appeal to the merchants in the business section of the village to keep the side walks clear of all articles which are a hindrance or obstruction to traffic. After Saturday, April 20, all such articles found on side walks will be at the disposal of the Clean up Committee. We also appeal to all people driving teams or autos NOT to stop on crossings or hitch teams to shade trees, or in any other way obstruct the side walks.

FARM HELP AVAILABLE
TO HELP THE FARMERS

Last year 7,000 Older Boys demonstrated to the farmers of Canada that they could help take the place of the regular farm help that has gone overseas.

They proved their willingness and ability to adapt themselves to farm work.

This year many farmers are asking for boys. Already 25,000 boys, between 15 and 19 years of age in Ontario and Western Canada have offered their services as SOLDIERS OF THE SOIL. The enrolment week for New Brunswick takes place April 28th to May 4th. The plan is to have the boys fill in enrolment forms which will be turned over to the Department of Agriculture.

The farmers are asked to write to the Minister stating what help they require and for what period. Arrangements as to wages will be agreed upon by the farmer and the boy.

Kidney Disease Overcome

Mr. James Prouse, cattle dealer, Shedo, Sask., writes:—"For about ten years I suffered from Kidney disease. At times I was bad with backache, and derangements of the digestive organs. During that time I was treated by four different doctors. One day I read in Dr. Chase's Almanac about the Kidney-Liver Pills and began to use them. Altogether I used six boxes. All I need say, is that I feel well now and attribute this condition to the use of Dr. Chase's Kidney-Liver Pills.

No Chance for the Germs

Disease germs cannot live in a clean, red blood. It is a low vitality that fall victims to germ diseases. By using Dr. Chase's Nerve Food you enrich the blood, increase vitality and prevent disease germs from finding lodgement in your body. There's wisdom in prevention. It's easier to keep well than to get well.

Protest Against "Daylight Saving"

A farmer's wife writes: The Observer: "There is an appeal for greater production. They cannot raise crops without help, to any extent. It is all very well for people who know nothing about farming to say 'Get up earlier in the morning.' To people who are good farmers, it is a different matter. I would like to see a farmer get up to catch a seven o'clock train, while ordinarily the farmer arises summer mornings at five, or often earlier. Now, you do not haul hay in the morning, plant potatoes or grain, unless you have dry soil. If some of the people who are rushing the farmers would be better to turn their officers are taking away the help from the farmers. Of this I have not a word to say, if the country needs the men worse for soldiers than it does for them to grow crops. But for goodness sake, don't put the load all on the farmers. They have more to do now than their share."

GROW SWEDE TURNIP SEED

The seed survey conducted by the Seed Branch, Ottawa, indicates a prospective shortage in swede turnip seed for the season of 1919. Present retail prices of swede seed average about \$1.50 per lb. in Canada and \$2.35 per lb. in the United States, and present wholesale prices would be about two-thirds as much.

Farmers who have medium-sized, sound, shapely roots, true to variety, are advised to plant them out early this spring for seed production. Different varieties grown by neighbours should be planted at least half a mile apart to prevent crossing. Any soil which will produce a good crop of turnips is quite suitable. The roots should be set out eighteen inches apart in rows, and planted just below the surface of the soil. A location beyond the reach of poultry and sheltered from prevailing winds is most satisfactory.

Growers producing from 50 to 5000 lbs. of swede seed for use in Canada, and whose seed crops and reclaimed seed pass our inspection, will be paid a bonus of 15c per pound for the year 1918 only. Application for field inspector should be made before

July first, addressed to the Seed Commissioner, Ottawa.

Bulletin No 22, Growing Field Root, Vegetable and Flower Seeds in Canada, may be had on application to the Publications Branch, Department of Agriculture, Ottawa.

Continuous and monotonous Work —most trying on the Nerves

DOING the same thing, in the same way, day after day and week after week, means destruction to the nerve cells and collapse of the nervous system of the human body.

Whether in the munition factory or in the home, in the store or in the office, it is monotony that kills. And it is because woman's work is more often monotonous than men's that so many women suffer from nervous exhaustion and prostration, nervous headaches, neuralgic pains and general run-down condition of the body.

It is easy for the doctor to say you must have change and rest, but the expense of living is so great at this time that few can afford to follow such advice.

But there is restoration and health awaiting you in the use of Dr. Chase's Nerve Food. This great reconstructive treatment cures by supplying the elements which Nature

uses in the formation of new, rich blood and the creation of new nerve force.

If you are a regular reader of this paper you will find cures reported almost daily, and no matter where you live you will find people who will tell you with enthusiasm of the benefits obtained by using this great food cure.

On Friday, April 12, a very pleasant evening was spent at the home of Mr. and Mrs. Roy McCain of Florenceville, in honor of the fortieth anniversary of the marriage of Mr. McCain's parents, Mr. and Mrs. William E. Dainty refreshments were then served and following that Rev. M. H. Manuel in behalf of the gathering, presented Mr. and Mrs. McCain with a sum of money in token of good-will. The recipients in fitting words thanked their friends for kindness shown. Brief addresses were given by T. A. McCain, A. D.
