

SIR WILFRID AND LADY LAURIER

Will Visit Bonaventure County During the Month of August

A BIG DEMONSTRATION

In Their Honor Will Take Place on Their Arrival.—An Address of Welcome Will Be Presented

The County of Bonaventure will be honoured during the month of August with a visit by Sir Wilfrid and Lady Laurier who are going to spend some time at Carleton as the guests of Senator and Madame Casgrain. They will occupy the charming residence of the late Mr. Cooper on the shores of the Baie des Chaleurs. The Premier and his wife made a short call at Carleton two years ago and were greatly pleased at the beauty of the place. Had the session not lasted all summer last year they would have gone down there for a vacation and rest. They intend leaving Ottawa about a week after the close of parliament and should reach Carleton by present indications about Aug 10th if the session ends by August 1st, as is generally believed it will. Mr. Marcell has invited the Premier to accept an address of welcome to and thanks from the county for all that his government has done for it. The Premier has very kindly accepted the invitation and Mr. Marcell is now in communication with his friends in the county to organize a demonstration which will be worthy of the occasion.

Should the Premier go down by the str. "Minto" the demonstration may take place at New Carlisle, the county seat, and present terminus of the Railway and which is easily accessible from all points. Invitations will be tendered the Liberals of Bonaventure, Gaspé, Restigouche and Bonaventure counties to rally in the occasion. No definite amusement can yet be

made as to date and locality but it will be a red letter day in the annals of the Baie des Chaleurs county. It is probable that a Liberal Convention of Bonaventure will be organized for the morning of the demonstration to Sir Wilfrid and Lady Laurier for the choice of a candidate for the Commons and the Premier will be informed of the choice made on his arrival so that in replying to the address of welcome he may ratify his choice which has been made.

JAPANESE LOSE

Thirty Thousand Men in an Attack on Port Arthur.

St Petersburg, July 12.—A despatch from a Russian correspondent at Mukden, dated July 12, says: "According to intelligence received here the Japanese last night attacked position near Port Arthur and were repulsed with enormous losses. Not less than 30,000, it is said, being killed or wounded by our mines." London July 13.—The Morning Post's Shanghai correspondent says that the Japanese casualties by land mines at Port Arthur Sunday night are reported to have been 28,000, but none of the many other special war despatches mention a Japanese disaster at Port Arthur.

HEINE L. O. LODGE

Marched to Methodist Church Sunday Evening

A FINE TURN-OUT

Picnic at Charlo To-Day—A Large Number Go From Here

On Sunday evening Heine Loy Orange Lodge, No 63, marched to the Methodist Church, where the Rev. H. E. Thomas preached an impressive sermon from the text "Come let us reason together." The orangemen, occupied the main body of the church, there being about ninety members in the procession. At the head of the hand some new banner of the lodge, said to be one of the finest in the province, which was recently purchased at a cost of about \$150.00.

A large number of the Orange fraternity, and others went down to Charlo this morning on the local express to attend a picnic under the auspices of the Northumberland Orangemen, who are running a special train from Charlo.

Dominion Liner Not to Blame

Montreal July 15.—The court of inquiry into the collision between the Dominion liner Kensington and the Danish brigantine Kodan, thirty miles south of St Pierre, July 1, rendered a decision on Saturday.

The casualty was found to be due to the improper use of the fog horn aboard the Kodan. It was also found that the master of the Kensington exercised good judgment in rescuing the crew of the brigantine, and setting the vessel on fire so that it would not become a dangerous derelict.

The Kodan was bound from Campbellton (N. B.), to the Isle of Man, loaded with lumber.

BONAVENTURE NEWS.

Electoral Lists Being Prepared.

MR. MARCELL, M. P.

To Visit His Constituents About the Last of July.

(Special to Events.) Ottawa, July 11.—The preparation of the Voters Lists in Bonaventure, Gaspé and the Magdalen Islands, by the Secretary Treasurer of each Municipality, by special provision in the Election Act, takes place between the 1st and 15th of July. Complaints have to be produced to the Council to add or strike off names between July 15th and 31st, and the Council next proceeds in the 15 days following to revise the lists. After that date the lists are in force.

The Election Act in Quebec Province is very broad and almost any man residing in the limits of a Municipality can have his name put on the lists, either as a proprietor, occupant, tenant, farmer's son, or on his revenue or wages. There should be a large addition to the lists especially among the younger men.

Mr. Marcell leaves to-morrow for Toronto where he has been invited by an invitation from The Fielding Liberal Club, to respond to the toast of "The Province of Quebec" at the banquet to be tendered the Minister of Finance to-morrow evening at the King Edward Hotel. The banquet promises to be the event of the kind in Toronto this year and several hundred tickets have been taken up. Sir William Mulock is to respond for Ontario, Hon Mr. Emmerson for New Brunswick, Mr. Fielding for Nova Scotia, Mr. Anlay Morrison, M. P. for British Columbia, Mr. Thos Davis, M. P. for the Territories.

Mr. Marcell and his family intend going down to Bonaventure at the end of the present month. He will visit all the parishes in the County in the course of August and give an account of his stewardship.

The Quebec Government are asking for tenders for the re-construction of the Mercier Bridge at Matapedia. They are to be received up to the 20th and work is to be gone on as soon as the contract has been awarded.

Work has been commenced, or is shortly to be commenced on all the Public Works voted by Parliament for Bonaventure County.

An announcement of the settlement of the Atlantic & Lake Superior Railway Claims question, may be expected very shortly. The Government have the matter under consideration.

DALHOUSIE.

Lively Discussion on the Water Question.

COMMITTEE APPOINTED.

Events' Correspondent and the Commissioners Called Down.

The special meeting called by the Commissioners of Dalhousie to report on the water question, was held in the Court House here on Friday evening last. In the absence of the Chairman of the Board, A. G. Ferguson, M. D., Hon Mr. La-Billiois, the Senior Commissioners, occupied the chair and made a verbal report to the ratemakers. He stated that it would cost the town the sum of \$40,000.00 to put in a complete water system. The report of Mr. McLean and Mr. Daniel McMillan went to show that the McNeish Brook would furnish all the water required for a town with a population of 1500. That there was still the shipyard brook in closer proximity to the town that could be joined with the town system and furnish all the water required beyond a doubt. That if every house in the town took a tap there would be a revenue of about \$2000 per annum. Besides that the town would have fire protection as the specification provides for at least 20 hydrants. He said that it was not the desire of the Commissioners to force a water system upon the town. They had simply obeyed the resolution passed at the Annual meeting which placed at the disposal of the Commissioners the sum of \$200 to ascertain if a sufficient supply of water could be had and what the cost would be to place a complete water system in the town. That information they had secured and it was now left to the ratemakers to consider what was best to do under the circumstances.

Hon Mr. Barberie addressed the meeting at some length. He made an attack upon the correspondence of Events charging that a false report was made concerning matters connected with the valuation made by the Assessors on the property of Messrs Beringer & Chapin. He attacked the Board of Commissioners, whom he charged to be tyrants etc.

As to your correspondent, he has this to say. From the first issue of a newspaper in Restigouche County your correspondent has taken an interest in furnishing news from the Shiretown to our local paper. This has been done without receiving remuneration nor expecting any. It is done simply as a matter of duty as a citizen, knowing that so many of our people who now reside in other lands appreciate reading about matters that occur in the land of their birth and your correspondent defies Hon Mr. Barberie, or any other man, to point out that your correspondent ever intentionally published any false statement concerning any person.

Commissioner Powell, following Mr. Barberie, spoke for the Board of Commissioners and made such a strong and forcible reply that the meeting settled down to business and appointed a Committee to confer with the Commissioners on the water question and to report at a meeting to be held during the second week of August. The following persons form the Committee—Arthur Hilyard, Manager of the Dalhousie Lumber Co., Mr. Chapin, of the new Lumber Firm, Chas Stewart, P. B. Troy and Thomas G. Scott.

Manila, July 13.—A cloudburst over the hills northeast of Manila caused a flood which has destroyed San Juan del Monte. Two hundred lives were lost.

The low-lying districts were inundated. The homes of Americans and foreigners are isolated. Transportation through the streets is carried on in boats only. Rain has fallen for twenty-seven days. This is unprecedented. Communication with outside places is interrupted. The damage to property is estimated at \$2,000,000.

CONVENTION

Of Miramichi Presbyterian Held Yesterday

IN ST ANDREWS CHURCH

A Goodly Number of Delegates in Attendance—Reports Satisfactory

The Miramichi Presbyterian, the women's missionary organization within the bounds of the Miramichi Presbytery, held their annual convention in St Andrews church here yesterday. There was quite a number of delegates in attendance, although not as many as expected. The morning and afternoon sessions were taken up with consideration of reports from the different missionary societies and mission bands, all showing the work to be in a satisfactory and healthy condition, and the interest throughout good.

The officers were elected as follows:— Pres.—Mrs. Aitken, Newcastle. Secretary—Mrs. O. Nicholson, Newcastle. Treasurer—Miss A. B. Cameron, Dalhousie.

Secretary of Y. P. Work—Miss Emma Stout, Bathurst. Mrs John Ferguson of Bathurst has held office as President for the past eight years, and her desire to be relieved of the office was complied with much to the regret of the members of the Presbytery who appreciated her services and good work in all missionary enterprise very highly.

In the evening there was a public meeting presided over by the Rev Geo. A. Leck of Dalhousie who made a brief and pointed opening address. The other speakers of the evening were Mrs. Ferguson of Bathurst, who based her remarks on "Whose I am, and whom I serve" and the Rev H. E. Thomas, who gave a practical and helpful address on "Why We Ought to be Interested in Mission Work."

During the evening a solo by Miss Sadie Fawcett, a duet by Mrs. A. McG. McDonald and Mr. Matheson and an anthem by the choir, were sung very effectively.

UNION IS STRENGTH

AS was predicted a number of years ago by philosophers and others the newspaper is the greatest moulder of public opinion. The preacher in the pulpit and the lecturer on the platform speak to few in comparison to the voice of the newspaper. The journalistic fraternity in its dis-jointed state without apparent aim beyond advancing the interests of some political politician weakens its power and discredits its influence with thinking and sensible people. If the newspapers of the Lower Provinces would unite and in some way come to a mutual understanding for the advancement of the people's interest and general welfare it would be a patriotic and noble aim of which they would have no reason to regret. The parent does not desire his family or his friends to be at "loggerheads" with one another but is more interested in their pecuniary and social advancement. So the newspapers which should be imbued with a patriotic spirit should endeavor to discover some way of coming together—exchanging views for the upbuilding and solidifying of the country of which they form so important a part and influence. In the vernacular of the street we are weary of these petty political bickerings which seem to serve no good purpose and only cater to the tastes of groundlings.

A BETRAYAL OF JUSTICE.

ABOUT a year ago a shortage of over a thousand dollars was found in the accounts of a manager of a Cape Breton branch of the Royal Bank of Canada. As soon as his embezzlement was discovered the young man "hit out" so to speak and was not located until about a month ago when he was rounded up in Boston and brought back to Halifax for trial. According to the Boston papers he declared at the time of his arrest that his shortage was due to the "fast company" he kept while manager of the branch. His trial came off the other day and he and behold the bank officials declared that they had no evidence to offer. The young man was forthwith liberated. Is this justice? If there was not a shortage in the young man's account a grave and unpardonable injustice was done him. If there was a shortage he should receive just punishment the same as any other criminal. It is not by any means the right thing to make flesh of one and fish of another in such matters. Society does not demand it and should not tolerate it.

THE other day a very serious accident occurred at Balmoral and Events was compelled to go to press without any reference to the matter simply because this paper's correspondent at that place did not send in an account of the affair to reach us before publication day.

Now this is the class of news this paper wants and at the earliest possible moment. We would urge our representatives to wire us any important news if there is not sufficient time to write, so that it would reach us not later than Thursday at noon. We want the news.

DIST. Supt. Price of the I. C. R. well deserves the commendation of the community at large

for his thoughtfulness in wiring abroad the news of the burglary at New Mills and the presence of tramps in the country. This is the garb of patriotism we admire.

THE conduct of the Restigouche County soldiers who returned from Camp Sussex the other day under command of Capt. Fritchard is very highly spoken of. We are pleased indeed to note this fact.

Wedding at Newcastle

One of the prettiest weddings of the season on the North Shore was solemnized at Newcastle on Tuesday when the Rev. Hammond Johnston, pastor of the Methodist Church there was united to Miss Georgina May, daughter of Rev. George Harrison, a retired Methodist divine also of Newcastle. The ceremony took place in the Methodist Church at 9 o'clock. The edifice was very handsomely decorated for the occasion and was crowded to the doors.

The bride, carrying a handsome bouquet of roses and maiden hair fern entered the church on the arm of her brother-in-law, Mr. Fred Yorston. She looked very pretty in a gown of cream silk poplin. The bridesmaid was Miss Margaret Harrison, sister of the bride and the groom was supported by Rev. Mr. Pinkerton.

Rev. George Harrison performed the ceremony assisted by Rev. James Stothard of Chatham.

A delightful reception was held at the home of the bride at 11 o'clock after which the happy couple left on the Ocean Express, amid showers of rice and best wishes, for a brief honeymoon in Prince Edward Island.

The bride who is a prominent worker in the Methodist church and immensely popular received many handsome presents. The groom's present was a fine upright piano.

The Blooming Thorn Tree.
There is a legend to the effect that the thorn blooms on Christmas day. It is said that St. Joseph of Arimathea landed near Glastonbury and stuck his staff in the ground. It took root, grew and blossomed every Christmas day thereafter. The tree was hewn down by a Furtian at the time of Cromwell, but in doing this deed he cut his leg, and chips flying from his ax blinded him. The trunk, though separated from the root, grew and flourished, and for many years alps and blossoms from the tree of St. Joseph were sold by the merchants of Bristol.

His Cousin—You had written, "He is not to come, as I have only just discovered I cannot paint today." So we crossed out "today."—Punch.

THE CAVE OF GHOSTS.

This is One of the Wonder Places of New South Wales.

One of the curiosities of Oakley creek, N. S. W., is a cave which very few people care to enter. It is of the usual order of stalactite and stalagmite shapes and figures, but in order to get inside it the visitor must crouch down and squeeze himself through a narrow opening and grope his way in the inky darkness for a few yards till he can stand erect and light a torch.

As soon as he has done this he sees faintly the weird shapes assumed by the water dripping from the limestone and he hears a whirling noise. He feels inclined to make his exit at once, but he hears something moving all round him, and presently something touches him.

He concludes that there are uncanny spirits about, and this sensation is multiplied many times in intensity when on turning to retrace his steps he finds himself confronted by a tall, ghostly figure.

If the visitor has a strong nerve or has been forewarned, which is not always the case, he recognizes that the ghostly figure is a senseless block formed by the dripping from the limestone, and that the moving creatures are bats.

There is one part of the cave which no man has dared to explore. It is called the blowhole. One adventurous visitor was about to squeeze himself through this narrow aperture when it occurred to him to throw a stone through. He did so, listening for the stone to touch bottom, and the dull sound that finally reached him convinced him that there was a sheer drop of 200 feet on the other side of the blowhole.

Condensed For Four Days.
"There was a good old lawyer of the good old southern type," said a judge, "who had a most eloquent way of pleading. His brief for three days had been a marvel of classical allusion and legal erudition."

"The judge, however, became a trifle impatient and, as gently as he could, intimated that the docket was somewhat crowded, and it might be to the client's interest if the lawyer could contrive to end his plea. And, do you know, the old barrister declared that the last four days of his argument were a marvel of condensation."

Critics.
A party of composers and printers from the country, up for a day's outing in London, visit the National gallery and pause in front of Turner's "Ulysses."
Foreman (to his companions, both lost in admiration)—It's marvelous! All done by hand too!
Second Composer and Printer (enthusiastically)—Why, it's every bit as good as color printing!

Born Diplomat.
The famous portrait painter threw down his brushes with a sigh.
"What is the matter?" asked his elderly blossom of a customer.
"It's no use!" he cried. "I can never reproduce your loveliness."

T. W. Holt, engineer of St. John,
was here last week looking over the
site for the proposed new reservoir in
connection with the water works
system. He returned to St. John on
Saturday and is now engaged in pre-

paring plans, etc., which when com-

pleted will enable the town to proceed
at once with the work. It is estimated
that the new dam will create the
storage space for one half a million
gallons of water to ten or twelve
millions.

On Friday last, Wilfred, the eight
year old son of Mr. Henry McIntyre
met with a serious and painful accident.
As he was getting out of the back of a
wagon near his home he lost his
balance and fell, one leg being caught
in the revolving wheel and breaking
it below the knee. The young lad's
cry of pain quickly brought his father to
the scene, and he at once saw what
had happened and hastily brought
medical assistance. It is fortunate the
horse was not going very fast at the
time, otherwise the accident would
certainly have been more serious. The
horse seemed to know that something
had gone wrong for he immediately
stopped until the boy was taken from
his painful position.

Walking Skirts 69c.

People will naturally wonder how we can afford to sell a fairly good quality Melton Walking Skirt at 69c., not badly made and of generous width. It seems rather ridiculous when you take into consideration it takes 4 yds. of material, say at 20c. a yd., to say nothing of the thread and facing around bottom and leaving the making out altogether. OPEN FRONT

Boots and Shoes Reduced 10 p. c.

In former clearing sales we have reserved our Empress Shoes for women and King quality for men. This season we have decided to let everything go, as we are heavily overstocked in all lines. We carry more shoes than any exclusive shoe store in town and have the sole control of some of the best lines made in Canada. This would be our opportune time to provide your children with shoes for the opening of the schools.

Furniture at a Saving of 10 p. c.

This store has furnished more homes since the department was opened in April 1903 than many stores catering to this trade have in several years. It is easily understood how we have accomplished this in such a short time, we carry larger stocks and sell at a closer margin of profit than any of our competitors, we keep not only ordinary, every day furniture, but the finest and most up-to-date goods made in this Dominion. A discount of ten per cent should interest prospective purchasers, no matter what their needs may be.

Which was Speedily Dis-
missed.—Personal and
Other Items.

The July Session of the County Court opened on Tuesday, July 12th Judge Wilkinson presiding. The prisoners were discharged with a warning. There being no other criminal cases before the Court the Grand Jury was discharged at noon.

The net proceeds held in the Village last week were \$1,251. The election contest alone brought in \$7.16. The general results as can well be imagined were entirely satisfactory to the promoters of the enterprise who might well feel proud of their great success. The weather was ideal throughout and the music furnished by the Citizen's Band of Chatham, proved a great drawing card on the second evening when a very large number was present and donated liberally towards the election funds of the respective candidates. The result of the poll at 7:30 p. m. on the closing night of the election contest was 72 votes of a majority in Miss Melanson's favour, and a half hour later Miss Melanson's majority came up to 162 votes. The blind ballot was then continued for one more half hour when the final result showed Miss Melanson to have gathered in all \$406.35 and Miss Wilbur \$313.25; or in votes Miss Melanson polled 8087 and Miss Wilbur 6267, a majority for Miss Melanson of 1820 votes. Both young ladies were tendered a vote of thanks and each were presented with a handsome and costly pearl earring before leaving the grounds.

Something of a row which occurred at the upper school house on the South Teteagouche Road, about a week ago, is now being aired before Justice O'Brien. The investigation which began on Saturday last was postponed till the 16th inst.

BALMORAL.

Ovide Savoy, of Chatham, N. B., fell from the steeple of the Church on Wednesday, July 6th and was killed. Drs Rowley and Doucet, of Dalhousie were sent for but too late to do anything to save his life as he had expired a few minutes before the doctors arrived.

He fell a distance of 87 feet from where he was working on the new Church to the ground below. After a few minutes he regained consciousness and Father Wheten, who was present, administered the rites of the R. C. Church to which he (Savoy) belonged, and in about one and half hours afterwards he expired. It was a grand miracle that after having fallen a distance of 87 feet to the hard ground below he gained sufficient strength of body and mind to talk to friends around him and to prepare himself for death with Father Wheten, who remained with him till he died. The remains were taken by train to Chatham, accompanied by Father Wheten, Messrs Joseph Fordy, Nelson, Bernard and Amable LePage, on Thursday morning where they were interred in the R. C. cemetery there on the following morning.

Much sympathy is felt here for the young man's mother, father, brothers and sisters in their sadness.

Rev. Father Wheten was in Campbellton on Monday and returned Tuesday morning.

STORIES OF THE TOWN.

How a Toronto Bandman Had His Fun and Highballs—Now It's Time to Be Drowned.

This is a story of highballs—not those that delight the festive fan nor yet those drives that provoke joy and despair on the football field—but rather those alluring decoctions that one man behind the polished mahogany some times deals out to the soul athirst. Incidentally it is the story of an innocent Canadian's introduction to the treacherous mixture by a jolly crowd of his Yankee friends, and the startling results. J. A. Richardson, the Canadian general agent of the Wabash Railroad system, has his headquarters at Toronto. Once or twice a year he runs into headquarters at St. Louis just for a day. Mr. Richardson is roundly out of his twentieth year with the company, and among all the high officials in the company's big building in the Missouri metropolis he is generally known as "J. A. C. Crane, the general passenger agent, is one of the good fellows of that section, and is common with many of that type loses no opportunity to get a laugh out of life between handling the affairs of their respective companies. When Mr. Crane and Richardson were on their way to lunch during one of "J. A.'s" annual visits Mr. Crane suggested that a highball was the proper appetizer. "A highball, indeed, and what is that, something to eat or wear?" inquisitively inquired the man from Canada.

This was too much—a full grown man in Missouri and did not know what a highball was. The joke was too good for Mr. Crane to enjoy alone. He would keep for himself the pleasure of introducing his friend to the seductive fluid and then he would pass it around. After the artist had thrown together many a drink, Richardson was on their way to lunch during one of "J. A.'s" annual visits Mr. Crane suggested that a highball was the proper appetizer. "A highball, indeed, and what is that, something to eat or wear?" inquisitively inquired the man from Canada.

Then Mr. Richardson was introduced separately and the jokers tell ever the story of his introduction to the second to buy highballs for the Canadian railroad agent. Back to business went Mr. Crane and Richardson, but several times the joke leaked out and others insisted on helping the visitor to highballs galore. The hour of the afternoon was drawing near and Mr. Richardson to get to the depot, a number of his old friends accompanied him, and he did not forget about the good joke.

Around the end of the Wabash sleeper they formed a merry group waiting for the departing signal. In the meantime some of the boys had begun to show the effect of their highball. One on one side here, and the suggestion of a disordered necktie there, but because few criminals are sufficiently depraved to steal the good book. A detective said recently that in an important case which he had followed up some years ago a thief had entered the house, stolen some valuable jewels and left untouched a Bible bound in white chicken skin and studded with pearls. The detective caught the thief, and the man who had been robbed, a dealer in curios, visited his despoiler in jail, took an interest in him because he had not taken the Bible and eventually reformed him and got him a good job. "I know," the thief said, "that if I took that Bible it would do me harm and if I didn't take it it might do me good. I let it alone, and now, thank heaven, I'm an honest and a righteous man."

The detective added that in another case where a thief had stolen a Bible the book had been taken, "Another thing few thieves will take," he added, "is a child's savings bank."

Bibles are said by detectives to be more rarely stolen than any other objects. When Two Rainbows Are Seen.

When two rainbows are sometimes seen at once, one outside the other, the inner or primary bow, as it is called, is always the brighter, and the red band of color is always on its outside. The outer or secondary bow is much fainter in color, and the red band is always on its inside. This is because in the primary bow the sun's rays are only reflected once, while in the secondary bow they are reflected twice, which makes them fainter in color and turns them upside down. In one rainbow we see the rays of the sun entering the raindrops at the top and reflected to the eye from the bottom, while in the other we see the rays entering the raindrops at the bottom and reflected from the top, whence they reach the eye.
