GET BUSY

On your House Plans if you intend Building a Home. Don't sit back waiting for lower costs next spring. We anticipate building costs will increase if anything for 1922. Quit procrastinating about hard times and the cold hard winter and help keep the ball rolling.

FOR GOOD TIMES

Take the middle course between the chronic pessimist and the fatuous optimist. Size present conditions up in a sane business manner and we think you will see our advice is good.

AND BUILD NOW

The long cool days are dandy for building and there is lots of time to complete your home before fall.

J. & D. A. HARQUAIL COMPANY, LTD.

MIL. HAND FATALLY INJURED

Milton Astles of New Carlisle Struck By Bolt At Athol Mill.

A particularly sad accident occurred on Friday afternoon at the Athol Mill in which Milton Astles, of New Carlisle, lost his life. While engaged sawing a bolt from the saw flew back striking him over the heart. Medical aid was at once summoned, but the unfortunate man passed away within an hour of the accident. Deceased was in his 45th year. The remains were forwarded to his home on Saturday, the funeral taking place at New Carlisle on Sunday.

BOSTON BANKERS LOST \$5,000,000

Massachusetts Officials Take Action Against the Wrecked Cosmopolitan.

Boston, Aug. 19.—Bank Commissioner Joseph C. Allen, in possession of the closed Cosmopolitan Trust Company, has brought suit in the supreme court against the directors of the company for a sum approximately \$5,000,000. Specifications in the bill of complaint allege that the losses incurred in the conduct of the bank's business exceed \$4,764,195.47.

Charges against the directors contained in the bill of equity alleged "gross and repeated negligence in making loans and investments" and "repeated violations of the banking laws of trust companies both in the commercial and savings departments."

"The negligence and carelessness of the several defendants," the bill reads, "in negligently and recklessly loaning the funds of the plaintiff company and in negligently neglecting investments and in negligently neglecting investments resulted in very large losses."

The bill further declares that the result has been the complaint assets, a loss in "bad loans and investments" of about \$5,000,000.

The bill further declares that although the "negligence of the defendants covered a long period prior to the closing of the bank," no claim is made to hold any of the directors liable "for any negligence occurring more than six years prior to the filing of the bill."

The Cosmopolitan is one of the five banking institutions closed in this city by Mr. Allen.

The board of health—three square meals a day.

PLAN TO CHANGE CLIMATE.

Basing their calculations on the effect of the Gulf Stream on the climate of Great Britain, engineers are now planning to block the Straits of Belle Isle and thus transform Eastern Canada into a winter resort rivaling Florida or California, says a contemporary.

British capitalists have asked for a concession to build a railway from Quebec to Newfoundland. In order to complete the road, a bridge across the strait separating Labrador and Newfoundland is necessary. Engineers have reported that the plan is feasible and are now seriously considering the question of constructing a great dam instead of a bridge. It would be ten miles long and fifty feet wide, and the estimated cost is only ten million dollars.

Scientists claim that blocking this outlet for the cold Arctic currents flowing into the Gulf of St. Lawrence would have amazing effects on the climate of Eastern Newfoundland, Quebec, Prince Edward Island, New Brunswick, Nova Scotia and the New England States.

It would be difficult to overestimate the benefits of such a scheme if it is possible to control the ocean currents. Population would increase, new cities spring up, a veritable new world would develop in Eastern Canada. "Frank it is a mighty 'it.'" Engineers have not had much practice in dealing with ocean currents, but in view of all the once impossible experiments which are now commonplace it is not entirely incredible.

FIVE O'CLOCK IS TITLE NOT TIME

Many Enquiries Received Regarding Opening Play of Urban Stock Co.

Five O'Clock is the title of the three act comedy with which the Urban Stock Company will open their three day engagement at the Opera House on Monday evening next. Ever since the billing for this play was displayed about town the Opera House management and staff have been kept busy informing patrons that Five O'Clock is the title of a play and not the starting hour as many seemed to think. Nevertheless the play hardly needs an introduction as it has been made famous by the greatest Actor-Author of the day, Frank Bacon.

Mr. Bacon is better known by his later success, "Lighting" which is now in its fourth year at the Gayety Theatre, New York City. Dr. March the character portrayed by Mr. Bacon in the New York production of "Five O'Clock" is played by MR. URBAN. The company is well balanced and given an excellent performance of this production. George Brooks, who directed the New York production of "Five O'Clock," is with this company.

Tuesday night "Cappy Ricks" will be presented. This play is taken from the famous stories by Peter B. Kyne, published in the Saturday Evening Post.

Wednesday night the company will offer "The Fighting Parson," a comedy in four acts. This is one of the most pleasing plays the company has ever presented.

The vaudeville between the acts is exceptionally good. Flo and Jack Reid offer some clever singing and talking doubles. Joe Vance, the celebrated banjo player, has a surprise for you. Mr. Vance is well known by his photographograph.

"Hugh Collins can surely put those ballads across in great style."

CANADA TODAY.

Are you acquainted with the following facts concerning this Canada of ours?

1. The surface area of Canada is 3,600,000 square miles or one-fourteenth of the land surface of the world. It is the largest civilized country of the world—100,000 square miles larger than the United States and all its possessions.

2. It is the second nation in the world in potential water power, having practically three systems reaching from ocean to ocean, making possible the rapid development of its towns and cities and making practically every mile of tillable soil available for production.

3. The character of its banks is unique. There are 18 chartered banking institutions with 4000 branches making it possible to equalize interest all over the Dominion to one half of 1%, making it as easy to borrow as to lend.

4. The value of its agricultural products is \$2,000,000,000 annually, a stupendous figure for a nation of less than 10,000,000 population.

5. Its natural resources are—600,000,000 acres of tillable soil, 600,000,000 acres of timber, 110,000 square miles of coal land, 300,000,000 annually from mineral products, \$50,000,000 annually from fisheries, \$15,000,000 annually from furs.

6. These are the resources that nature has put into the lap of Canada. Their wise use gives the nation a tremendous advantage over others not equally fortunate.

Where is the man who, knowing these facts, will still fail to get the spirit of "Let's go" to live up the business of this country, business that has slowed up slightly of late for lack of necessary optimism and confidence.

Come on! Business has steadily advanced in Canada for 50 years and was never, at heart, slower than it is today.—Ex.

WANTS \$10,000 FOR HORSE'S WOODEN LEG.

Hammond, Ind., Aug. 19.—Jacob Diamond, a podder, yesterday filed suit in superior court of \$10,000 damages against an autoist who ran into Diamond's three legged horse and broke its wooden leg. The suit alleges the animal was "bruised and mutilated" to that extent, the horse which has worn the wooden leg for

On one occasion the leg caught on fire and the fire department was called to extinguish the blaze.

SIR SAM HUGHES DIED YESTERDAY

Canada's War Minister of Militia Passes Away Wednesday Morning.

Lindsay, Ont., Aug. 24.—Sir Sam Hughes, former minister of militia and defense in the federal government, died early this morning at his home here.

Sir Sam had a bad turn on August 21, but had rallied and last week was strong enough to sit up in his bed. On Monday the former minister began to sink and was unconscious all yesterday. His friend realized that the end was near and a cable was sent to his son, General Carmel Hughes, in England, last night.

IMPROVEMENT IN THE POTATO CROP

Aroostook County Yield is Officially Estimated at 62 Per Cent—Rains Helped.

The past week has made a great improvement in the potato situation in Aroostook county, the rains having done much to improve the growth of the tubers in this section, says the Houlton Times.

In a trip over the country many peculiar things are noticeable, viz: the crop north of Mars Hill to the river will doubtless yield 100 per cent, crop and the tubers still growing, south of Mars Hill the yield as far as can be told will be from 75 to 85 per cent, while in the south and western part it may fall below that figure. In one section of the country, due to extremely dry weather, the tubers in a certain field had evidently stopped growing and then after the wet weather, (which in this case had arrived too late, or the growing vines) had started again.

In some sections digging for the weekly market has started and the price has been from \$3 to \$4 per barrel, but the ordinary fields have at least six weeks for growing before the real harvest commences.

Maine has fallen from first to fourth place in apple crop prospects of the country because of July drought, V. A. Sanders, New England crop statistician of the federal bureau of markets announced Friday.

The Aroostook potato crop is not quite up to normal. Mr. Sanders adds, adding that it is 82 per cent of a normal against 90 last year and a five year average of 90 per cent. The crop is uneven throughout New England with some light recorded. Present potato conditions in the country are best in Colorado and in New England, Mr. Sanders added.

George H. Brown shipped the first car of potatoes out of Houlton on Saturday as far as we are able learn, for which he paid \$4 per barrel.

THE U. S.-RUSSIAN AGREEMENT SIGNED

Riga, Aug. 20.—The agreement between the United States and Russia providing for American relief for the famine-stricken districts of Russia was signed at eleven thirty this morning by Walter Lyman Brown, European representative of the American Relief Administration and Maxim Litvinoff, representative of the Russian Famine Committee.

Frederick, Aug. 24.—Letters patent have been issued according to notice appearing in to-day's Royal Gazette, the James P. Wieland, John G. Stouter, Joseph H. Dunlop, Fred Heaton and William G. White, all of Bathurst, incorporating them as Miemac Sporting Club, Ltd., with a capital stock of \$2,500, the head office to be at Bathurst. The object of this incorporation is to take an extensive interest in the social welfare and good of the community and to provide in any way for the mutual improvement and pleasure thereby of the association.

Jack O'Leather Suits for Boys' cost no more than the ordinary Boys' Suit at Oak Hall.

SPORTING CLUB FOR BATHURST.

Intends to Engage in Community Work.

Frederick, Aug. 24.—Letters patent have been issued according to notice appearing in to-day's Royal Gazette, the James P. Wieland, John G. Stouter, Joseph H. Dunlop, Fred Heaton and William G. White, all of Bathurst, incorporating them as Miemac Sporting Club, Ltd., with a capital stock of \$2,500, the head office to be at Bathurst. The object of this incorporation is to take an extensive interest in the social welfare and good of the community and to provide in any way for the mutual improvement and pleasure thereby of the association.

Jack O'Leather Suits for Boys' cost no more than the ordinary Boys' Suit at Oak Hall.

NO FINAL DECISION ON THE ELECTIONS

The Situation Will Probably Be Taken Over at Ottawa for Days Yet.

Ottawa, Aug. 22.—The political situation is still up "in the air."

The Premier's office, from whence must come the official pronouncement as to what the Government proposes to do to meet the present situation, is the Mecca of a host of callers, including members of Parliament, from various sections of the country and others who have an interest in developments.

The Premier apparently is hearing all the advice which is being offered and is reserving judgment until all the suggestions are in hand and have been given consideration. That there will be a decision within the next few days is expected, but at the present time the tide continues to swing back and forward between an election and the decision to carry on through another session.

Several Ontario members have been in Ottawa during the last week or so and have seen Premier Meighen, talking over the situation as they see it. While there has been a strong element inside and outside of the cabinet in favor of an immediate dissolution and appeal to the people, private members generally speak against that idea and say they see no reason why the government should not continue in office through an other session and then go to the country as it had planned to do.

Today here is much unofficial comment on the demand of the Montreal Gazette for a general election, but official comment on it is rather conspicuous by its absence. If anything, there appears to be a slight slant back toward the idea of an election, but the situation will probably be talked over for another day or two before a final decision either way is reached.

Neither a general election nor by-elections was the subject of discussion at today's sitting of the cabinet council. In regard to the holding of a general election, Premier Meighen remarked this morning that any discussion along that line was "in my own mind." He had no comment to make upon the editorial of a prominent Montreal paper, supporting the Government, urging an election in the near future.

BERNICE R. IS LOST AT SEA

Large Three Masted Schooner Burned in Bay Chaleur.

Word was received here yesterday that the large three masted schooner "Bernice R." of Weymouth, N. S., which sailed from New Campbellton, Cape Breton with a cargo of coal for this port had been destroyed by fire in the Bay Chaleur Tuesday and her crew landed at a Gaspe coast port.

Collector of Customs Moffat has received a telegram from Clasp Bay stating that the schooner was over due and asking for a report if any word of her was received.

END OF WORLD IS NOW AT HAND

Rev. M. C. Burt, of Chelsea, Mass., Discussed Subject at North Devon.

"Things that have happened since 1914 to prove that the second coming of Christ is at hand" was the subject of the sermon delivered by the Rev. M. C. Burt, of Chelsea, Mass., at the Advent Christian Church, North Devon, Sunday evening.

The world war, the end of the last of the Roman empires, Russia, Germany and Austria-Hungary, the end of Gentile oppression of Jerusalem and the flight of the Turk from Constantinople, were the subjects discussed as indicative of the fifth world revolution, after which it has been prophesied, the preacher declared, comes the "Kingdom of God."

Four world revolutions have now occurred, said Rev. Mr. Burt, the first being under Nebuchadnezzar, the second under Cyrus, the third under Alexander the Great, followed by the fourth under the Caesars.

Daniel's prophecy regarding the vision of Nebuchadnezzar in which he saw an image of a man with a golden head, silver breast, brass belly and thighs and legs iron and clay, was treated as symbolic of the four great world empires under Nebuchadnezzar, Cyrus, Alexander and the Roman empire, the last traces of which have now vanished.

"We can't have the new kingdom without the King, therefore the second coming is nigh at hand," said the pastor, "and we shall have a kingdom free from the liquor traffic and other evils."

MATAPEDIA GARDEN PARTY.

The Ladies Aid of the Soldiers' Memorial Hospital are greatly pleased at the success of the Matapedia Garden Party. Mrs. Baker and others who assisted are to be congratulated upon their good work. The first-aid course, salmon, club, grounds were beautifully decorated for the day and Mr. Walter Jennings, one of the Club members kindly offered the use of the Club buildings if required. The various features were most attractive. The text which formerly belonged to Dr. Webb, in which the fortune teller held forth was a work of art and the very charming lady who revealed the past and future must indeed have been gifted with mystic power, at all events she created lots of fun. Every department of the work was most completely planned and carried out and the Matapedia ladies are indeed to be congratulated upon the success of the whole undertaking.

KEEP OUT.

Surely Campbellton has had enough of law and law-suits without seeking more.

Surely the mess that has been tried up in our courts can be settled without all the expense of a expensive court suit.

Let the Council appoint a committee and then submit the evidence before that said committee.

PROVINCIAL ROADS.

Thanks to the progressive highway policy of the Foster government the province of New Brunswick has made a larger use than any other province in the Dominion of the federal appropriation for good roads. It has already received \$2,292,632.29 on work done, and this work must be satisfactory to the federal road engineers before the money is paid. An Ottawa dispatch says that this province will eventually get \$1,027,776 in all, on the total estimated cost of \$2,756,940 for 1,052.2 miles of road. Since the present government came into power the roads of this province have been greatly improved, and the present year has added materially to the mileage. This government has also constructed many new bridges of the most substantial character. The work has involved a large expenditure and the government in carrying on its general road work has had the same handicap all governments suffer in, that local road which is not done under contract does not measure up in quantity or quality, for the amount of money expended, with that which is performed under the terms of a contract. The old had notion that local road work is being done "for the government" and does not call for a real day's work or a real job when finished, still prevails to some extent; and yet the men who are responsible are not above asserting that too much money is spent for the results achieved, or denying that the government is responsible for the waste. The time must come when all road work will be so planned and supervised as to yield as good results as any that is done under contract. Meanwhile the roads are steadily improving, in spite of handicaps, and the evidence is found everywhere throughout the province—EX.

STEF LIVED.

If Campbellton is to be saved the cost of expensive additions to its electric light and power plant its Council must move quickly in making application to the Hydro-Electric Commission for power.

Newcastle has been able to make the necessary arrangements and will be supplied with current on or about Oct. 1st at a very reasonable figure.

Our present electric light plant is now loaded to about its capacity and with new buildings going up and more people using lights and power it means that before another year we will be up against a large expenditure for a new plant.

Surely Campbellton has had enough there must be available sufficient power to supply Campbellton for all time.

PROVINCIAL APPOINTMENTS.

Resignation—William McNeil of Dalhousie is a revisor for Dalhousie, in place of S. Blanchard, who has been appointed sheriff. Andrew Barberie of Dalhousie to be a member of the sub-district board of health, in place of Dr. A. G. Ferguson, deceased. H. E. Eagles of Campbellton to be a provincial constable. John G. Harris of Upsalquitch to be a justice of the peace. Stubbart S. Harrison to be a school trustee for the town of Campbellton, in place of Stubbart H. Harrison, whose term of office has expired. Term of office to expire June 30, 1925. Mrs. Nora Harquail to be school trustee for the town of Campbellton, in place of Mrs. Bradley, resigned. Term of office to expire June 30, 1922.

A Time Exposure.

A judge's little daughter who had attended her father's court for the first time, was very much interested in the proceedings. After her return home she told her mother:

"Papa made a speech, and several other men made speeches to twelve men who sat all together, and then these twelve men were put in a dark room to be developed."

PROVISIONS OF THE GAME LAW

What Hunters May and May Not do This Season—The Penalties.

The following information has been compiled from the Game Laws of New Brunswick, 1921.

Regarding partridges, the open season is set every year by an order-in-council. For 1921, the open season is from the first day of October to the twentieth day of October, both days inclusive. It is illegal to kill more than six birds on one day and more than twenty during the open season.

Regulations governing the season for woodcock, snipe, ducks and other migratory birds, are set out yearly by the federal government at Ottawa and the limits of the coming season are from September 15 to November 30. The moose and deer seasons open and close simultaneously, from September 15 to November 30. Each individual who carries a hunter's license is allowed to shoot one bull moose and two deer throughout the season. This is the limit and the penalty provided for transgression of the law is \$200 or four months in jail. The hunter's license costs a non-resident fifty dollars and the native three dollars. This license has three tags attached for each game animal authorized to be killed; one of such tags is designated for the head, one for the carcass and one for the hide. When a moose or deer is killed, these tags must be used and they must be marked with the name and address of the killer and the time and place of killing. The head must be brought out and neglect to do so renders the offender liable to a penalty of fifty dollars or two months in jail. It is an offence to hunt or kill the following: (1) any cow moose, calf moose, cow caribou or calf caribou at any time or season; (2) any moose or deer in the night time, that is, between one hour after sunset and one hour before sunrise; (3) any moose or deer by means of light or lights; (4) any moose or deer by means of a dog or by a trap. As a matter of fact, no caribou can be killed or hunted before the first day of October, 1921. No deer can be killed on Deer Island, Charlotte county, before October 1, 1925. A license, costing one dollar, is required before deer can be shot on Grand Manan Island and then only between December 1 and 10. The carcass of any moose or deer, lawfully killed by a person who possesses a hunter's license, can be offered for sale.

No license is necessary for natives who intend to shoot migratory birds only. A bird license for a non-resident costs fifteen dollars. Non-residents when entering the woods to hunt must employ a registered guide. The penalty for not doing so is \$100 or two months in jail.

CO-INCIDENT WITH THE OPENING OF THE GAME SEASON IS THE OPENING OF THE TROUT FISHING SEASON, WHICH ENDS SEPTEMBER 30.

BANDITS ROBBED

QUEBEC JEWELER

Ottawa, Aug. 20.—Five armed automobile bandits robbed the jewelry store of Elias Barbeau, Main street, Buckingham, Que., early this morning of various articles valued at \$2,000 and emerging victorious from a brief gun fight with a squad of Ottawa constables sent to intercept them at Gatineau Point, a village on the outskirts of this city, were able to make good their escape.

When last seen the car was proceeding at a high rate of speed in the general direction of Castleton Place, Ont. No one was injured in the brief pistol duel.

Barbeau, the owner of the Buckingham jewelry store, who lives about the premises, was awakened about 2 o'clock this morning by sounds of breaking glass. He reached the door stairs part of the house in time to see five men departing in a high-powered red touring car.

Police officials in the surrounding districts were notified by telephone and every avenue of escape was guarded. The Ottawa police force sent a squad of five men to a point of vantage on the Gatineau Road. Shortly after their arrival they heard the approach of the car and spread across the roads. Their command to the driver of the car, however, was answered with a volley of shots from the other occupants of the car and the car brushed past them, nearly running them down.

The police gave chase in an automobile but were unable to maintain the terrific speed set by the bandits, and the men escaped.

It has been learned that the bandits' car was later seen at a notorious road-house on the Chelsea Road. There were five occupants, and, according to reports, they were all intoxicated.

One of the men was seen lying on the road and was, according to the story told the police, either hurt or very intoxicated.

EDITOR'S MAIL

Campbellton, N. B.
25th August, 1921

Mr. Editor,
"The Campbellton Graphic."

Dear Sir:

In last evening's Tribune I noticed an about one and one quarter column letter with quite attractive headlines from the pen of my friend, Alphonse C. Belle-Isle. This, with about a column from the Editor shows that these rather distinguished gentlemen are still trying to effect some very great reforms in our town. Had they succeeded in electing their proposed candidates their object would have been attained. There is so little in their wanderings, it would be useless to answer.

Next, Alphonse quotes quite a lot of scripture, which I am pleased to see he does. It is so nice to see a brother dwelling together in unity. He rather blames me for having an altar as over our town books, as is usually the custom in all corporations. It might be well to reproduce a letter he wrote the Graphic a few days ago, which was evidently written when he was in a different mood.

Campbellton, N. B.,
29 March, 1921.

Editor of the Graphic,

Dear Mr. Editor:—
It was indeed very gratifying at last night's Council meeting, to hear Councillor Wallace's report on the work done in his department since the beginning of the year. The work has certainly been conducted in a business-like manner and Councillor Wallace's report conclusively shows that the town can count on some return for the money that may be sent this year by the Public Property and Streets Department.

It will certainly be something new to the rate-payers of the Town of Campbellton if they can get something real value for the money expended in this department. It is to be hoped that certain critics in town will be fair minded enough to compare the Public Property and Streets Committee's work with its predecessors and give this Council credit for the splendid results already obtained in that department.

They certainly are all to be congratulated for the splendid results already obtained.

Thanking you for space, I am,
Yours truly,
A. C. BELLE-ISLE.

Now Alphonse, we will not follow you further. Try and observe and continue to read the scriptures, not forgetting it is never too late to mend.

Thanking you for space,
Yours truly,
W. H. WALLACE.

OBITUARY.

Mrs. Alphonse Boudreau.

The death of Mrs. Alphonse Boudreau (née Marie Blanche Arsenault), took place at the Hotel Dieu Hospital on Tuesday, August 23rd, after an illness of a little over a month.

Deceased is survived by her husband, two sons, her father Jean Arsenault of St. Omer and the following sisters and brothers: Mrs. John Gauthier and Mrs. Calixte Landry, St. Omer; Mrs. Charles Angers, Montreal; Mrs. Leon Vaudry, Quebec; Mrs. Wm. Bugold, Nashua, U.S.A.; Miss Hecotie, Montreal and Miss Evelyn at home; Fred in Manchester, John in Vancouver and Lionel at home.

The funeral services will take place Friday morning at 9 o'clock at the Church of Our Lady of Snows. Friends are invited to attend.

The bereaved family have the heartfelt sympathy of the entire community in their bereavement.

Dorothy E. Ferguson.

Many friends of Mr. and Mrs. G. Gordon Ferguson of Redwood will sympathize with them in the sad death of their little daughter Dorothy E. aged two years. The little one was badly burned on July 30th, and passed away August 10th. The remains were brought to Campbellton, interment taking place in the Rural Cemetery. Besides her parents, she is survived by five sisters.

Mary E. J. D. Payne.

Mr. and Mrs. Angus Payne have the sympathy of their many friends in the death of their only little daughter, Mary, Edma, Jean, Doris, which occurred Aug. 19th, after a week's illness. The funeral which was held Wednesday, was largely attended. Rev. Fr. Melanson officiating.

Chas. Giddens.

We record the death of Mr. Chas. Giddens which occurred at the Hotel Dieu Hospital on Friday. Deceased who was in his seventieth year, has for years past been employed upon the Boom tug boat during the summer months, spending the winter with Mr. Fred Gaudin of Escuminac. On Friday while at his work he was taken with a weak spell and removed to the hospital where he passed away shortly after his entry, heart failure being the cause of his death. The remains were forwarded to Escuminac on Friday night's train for interment.

Mr. and Mrs. John Ross, Roseberry Street will have the sympathy of the entire community in the death of their bright little four-months-old daughter, V. Bernis, which died on Saturday, Thursday. The funeral of the little one which was held on Saturday, Rev. Mr. Harrington officiating, was largely attended.

POWER OF THE PRESS.

Lord Northcliffe had a few things to say about the power of the press in New York recently. The press, he declared, was powerful for good or ill. It can bind sundered people together in concord and friendship, or it can be used for purposes calculated to perpetuate misunderstanding and lead to war. A "bad press" may work havoc in the general mind. The printed word, he said, speaks with authority. It says the final word. Governments have used the press for their own selfish schemes. They have cozened the public with press communication calculated to deceive. He instance how Napoleon had bluffed the people of France when he was editor of the "Montiteur." He accused Napoleon of making the most mendacious statements from day to day to deceive the public. "A free press, in a wide democracy, can do an infinitely more of harm by reckless statements." He further pointed out that "a free press, able, alert, giving the news, but consecrated to the public service, could be the noblest and most potent instrument in the world in the bringing in of general righteousness."

CONFERENCE AT WINNIPEG.

Arrangements are being made to hold a conference of all those engaged in work in behalf of dependent and delinquent children in Canada at Winnipeg, on October 6th and 7th. Committees to draw up the programme and deal with other matters are being named.

SUSPENDED SENTENCE.

A young man who was arrested on Saturday evening, charged with creating a disturbance on York Street, was given a suspended sentence of thirty days by Judge Cameron this morning. The accused, who pleaded guilty, was instructed to leave the city and go to his place of residence in the country. The Chief of Police received instructions from the Judge to have the prisoner arrested and the sentence of thirty days automatically put in force if discovered in the city again.—Gleaner.

"Yes, sir," replied the young man.
"Well, may I inquire what bank it will be honored at and for how much?" a shop and a ball of yarn.

LOCAL ITEMS OF

Happy Notes of Personal Events Collected by Graphic Staff

TAG DAY.
Early Comm. Lodge No. 317, L.O. E.A., will hold a Tag Day on Saturday, Sept. 3rd.

A. ELLSWORTH, R. S.
Several of the children on Barclay Street held a concert in St. Michael's Church on Aug. 21st. A fine program was given and net \$2.45 for the St. Michael's Memorial Hospital. The net was \$2.45.

UNITED SERVICES.
Rev. P. E. Macdonald has returned from his holidays and will take the services for the next three Sundays in the St. Michael's Church, beginning on the 28th. The church will be open for the St. Michael's Memorial Hospital. The net was \$2.45.

COUNCILLORS ELECTION.
The date for the election of County Councillors is, however, not yet set. It is hoped good men will be chosen in each parish.

THE SALVATION ARMY.
Special Meetings next Sunday are as follows:
Conducted by Lieut. H. A. Burrell. Helpings Meeting at 11 a.m. Services Meeting at 7.30 p.m. You are heartily invited to attend these services.

MCDAVID-McDAVID.
At the Baptist Parsonage, Aug. 23rd, by the Rev. W. Camp, Mr. James Alphonse McDavid was united in marriage to Miss Margaret, daughter of Alexander McDavid, both of "Hastings". The ceremony took place in the presence of a few relatives and friends.

The bride was beautifully dressed in ivory lace travelling suit with hat to match. The happy couple will reside at Matapedia.

THE FAIR.
The St. Michael's Memorial Hospital Fair will be held Sept. 23rd, 24th, and 25th, and donations of Food and Clothing will be very much appreciated by the Fair Committee, of which Mrs. Donald McLaughlin is chairman. If not convenient to send produce, only donations will be equally acceptable.

GASPE COAST PROSPERITY.
Mr. E. A. Provost of Montreal, who has travelled the Gaspé Coast for the past sixty years, was in town yesterday, just returning from a six weeks trip to Gaspé town. He reports the crops as excellent, the best he has seen in years; salmon were plentiful, lots of cod, and the fall hunting was now coming in. Foremen and laborers are richer on the fat of the land and the sea. The hotels are all filled with visitors and there is general boom prosperity, of distinct contrast to other sections of the province.

Large number of people in the St. Michael's Memorial Hospital Fair will be held Sept. 23rd, 24th, and 25th, and donations of Food and Clothing will be very much appreciated by the Fair Committee, of which Mrs. Donald McLaughlin is chairman. If not convenient to send produce, only donations will be equally acceptable.

THIS WOMAN'S MISERY

Ended by Lydia E. Pinkham's Vegetable Compound. Remarkable Recovery of Mrs. Church.

Smiths Falls, Ont.—"I suffered with failing of my organs, pains around my heart and in bowels and down my legs, neuralgia in my face and head, and that terrible sinking feeling. I felt that I could not live and would fix my house in order every night so there would be no trouble if I dropped off in the night. My husband went to the drugist to get the best remedy he had and he gave him Lydia E. Pinkham's Vegetable Compound. I took six bottles and felt a lot better. I will always recommend the Vegetable Compound, and you can use it as a testimonial."—Mrs. M. Church, Box 848, Smiths Falls.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be said with perfect confidence by women who suffer from nervous prostration, constipation, inflammation, ulceration, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion and dizziness. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills. If there are any complaints about which you need advice write in confidence to Lydia E. Pinkham Medicine Co., Lynn, Mass.

NEW CARLISLE.
We are glad to see Mr. Daniel Walcott out again after his long illness.

The heartfelt sympathy of the community is extended to Mrs. Daniel Assels and family in the loss of their son Milton who was accidentally killed at Shives Athol Mill.

Mrs. Alvin Assels who had been visiting in Gaspé the guest of her sister, Mrs. Guy Patterson and Mrs. Roderick Eden, has returned to her home in New Carlisle, she was accompanied by her sister-in-law Mrs. Frank Adams.

Mr. and Mrs. Andrew McDonald has returned to New Carlisle, from a visit to Shigawake, where they were the guests of Mrs. McDonald's parents, Mr. and Mrs. William Wylie.

The weather here for the past week has been fine and the hay is about over.

Work seems to be very scarce, except in the pulp works which are loading a large steamer at the wharf at present.

Friends of Mr. Andrew Flowers are pleased to see him back to New Carlisle again.

Friends are glad to welcome the Hon. John Hall Kelly and daughter Miss Ruth home from an extended tour to England.

Quite a number of our young motorists have been fined for speeding. It is high time that those who still doubt the value of the road and have little respect for those who are driving, both men, women and children. There should be a heavy fine for those who with the lights full ablaze, put oftentimes horse, buggy and driver in the ditch.

Another large ship is here at the wharf taking our good pulp wood to the States. They own our rivers and our timber. Who will blame the natives of Bonaventure when they occasionally hook a salmon instead of a trout. Anyway money talks and the guardian often turns the blind eye and passes on. They are human like the rest of us poor mortals, and a nice salmon is palatable to them too. Canada for the Canadians, and our rivers too.

Carlisle has been full of visitors this summer. The railroad must be congratulated on its excellent service. These services, trains on time, coaches, parlor cars, up-to-date Johnny in a brand new suit of overalls, meet all trains and give the coaches a good refreshing, washing of the dust refilling water tanks with excellent spring water. At New Carlisle the traveler can spend twenty minutes in the refreshment room, which is much appreciated for its fine meals from the menu, he is able to get cooked to a nicety, the fresh caught Gaspé salmon.

Let us boost our coast town, what we want is young blood, progressive in every way and it will not be long before New Carlisle will be one of the chief summer resorts on the coast. Fancy a town like New Carlisle without electric lights. If it does not materialize the name should be changed to Sleep Hollow.

Who says that New Carlisle is not progressing? Take notice that the Orange orator is growing and that they have purchased a new site for their meeting house. Go ahead, there's room for all good-will.

Another item, a descendant from the old ancient race, the Jews has opened up a shop and is doing so well that he has bought a "Tin Lizzy". I wonder if anybody "jewed" him. N. not Carlisle is noted.

A young fellow who has not been long married usually tells his troubles to a friend whose matrimonial experience covers a period of twenty years. One day the former remarked very dependently: "I said something to my wife she didn't like, and she hasn't spoken to me for two days."

The eyes of the old married man brightened. "Say, old top," he exclaimed, eagerly, "can you remember what it was you said?"

NO IMPROVEMENT IN LUMBER TRADE

British Business of Limited Character Only is Now Offering.

Liverpool, Aug. 1, 1921.—The trading of the past month showed little or no improvement and the volume of business passing was of limited character. Under these conditions it is pleasing to note that imports, with few exceptions, were confined to actual needs. Stocks, in many cases, are full and should not be added to until there are unmistakable signs of recovering trade. Prices are uncertain and the result of the Public Auction Sales of Softwoods held in Liverpool during July must be disappointing. Ocean tonnage appears fairly plentiful with rates rather easier. The Bank rate was further reduced to 5-1/2 per cent.

New Brunswick and Nova Scotia Spruce and Pine Deals, &c.—The import amounted to 1,820 standards, which includes a cargo to Garston of about 950 standards, from St. John, still unsold. About 2,620 standards went into consumption, compared with 3,900 standards for the corresponding period of last year. Stocks are still on the heavy side, viz: 20,600 standards, although they show a considerable reduction from the same month of last year, viz: 28,800 standards. Business for forward shipment was of an unimportant character, with prices showing further decline. A fair quantity was disposed of at the Auction Sales "without reserve" held in Liverpool during the month, at disappointing prices. Tonnage offering fairly freely at easier rates. Pine Deals—Demand extremely quiet, but stocks are moderately light.

Birch—Logs—Liverpool received an import of about 1,000 cubic feet, which went into consumption. No arrivals in Manchester. The demand is disappointing and stocks showed no change during the month. Planks, &c.—The bulk of the import of 30,000 cubic feet was to Liverpool, coming forward in a cargo from St. John. The consumption demand was extremely quiet, consequently stocks are increased to 242,000 cubic feet.

Sandwich officials will petition the Dominion Government for a mail delivery.

DOES IT PAY TO WORRY ABOUT APPENDICITIS?

Can appendicitis be guarded against? Yes, by preventing intestinal infection. The intestinal anti-septic, Adler-ka, acts on BOTH upper and lower bowel removing ALL foul, decaying matter which might start infection. EXCELLENT for gas, flatulence, indigestion, constipation. One man reports it is unbelievable the awful impurities Adler-ka brought out. A. Mc DONALD, Druggist.

Canadian National Railways

TENDERS FOR TIES

Sealed tenders addressed to the undersigned and endorsed "Tender for Ties" will be received at this office until twelve o'clock noon, Saturday, 17th day of September, 1921, for 1,000,000 Railway ties to be manufactured between October, 1921, and May, 1922, and delivered between December 1st, 1921, and September 30th, 1922, on Canadian National Lines between Quebec and Sydney, including Halifax & South Western, in accordance with the Specification No. 3856, dated March 15th, 1919.

Tender forms and Specifications can be obtained at the office of the General Tie Agent, Room 231, New Union Station, Toronto, J. C. Stewart, Tie Agent, Montreal, or J. Baird, Superintendent, Bridgeville, N. S.

Tenders will not be considered unless made on forms supplied by the Railway.

No tender for quantities less than 10,000 ties will be considered.

The lowest or any tender not necessarily accepted.

Special arrangements will be made to purchase ties fully up to specification, manufactured and delivered by actual settlers from their own lands.

W. E. GRANT,
General Tie Agent,
Canadian National Railways, Toronto,
Toronto, July 29th, 1921.—4w.

NEVER SAW AUTO BEFORE

Man Who Has Lived 27 Years in Canada's North Land Comes Out.

Edmonton, Alta., Aug. 15.—Many strange sights awaited James Baillie when he came out of the wilds the other day, for James had, for twenty-seven years been a resident of the far north around Fort Providence and the occasion of his visit to civilization was the first leave in more than a decade. Baillie didn't know what an automobile looked like and when he summoned sufficient courage to climb into a taxi cab when his train pulled in, the meter clicked up a small fortune before the visitor tired of his experience. Baillie went into the Fort Providence district as an employee of the Hudson's Bay Company twenty-seven years ago. It took him more than four months to go in, but transportation facilities enabled him to reach Calgary in seven days coming out. He brought his fourteen-year-old son with him as he wanted him to finish his education, the boy having passed through all grades of the mission school at Fort Providence. Baillie intends going back to his post as quickly as possible, though he promises to return and settle down before another twenty-seven years rolls by.

INTERESTING FACTS ABOUT THE SALMON.

"Salmon are sea fish and when mature feed only in the sea. Salmon enter fresh water at various times of the year, but only spawn in November.

A salmon only spawns two or three times in its eight or nine year's life. Salmon eggs are large as fish eggs go—nine hundred for each one pound of weight of fish.

Large salmon have larger eggs than small salmon, and are the best breeding stock.

Spawns must be deposited in cool, running fresh water, among gravel. Before hatching, spawn lies in the gravel from three to five months (e. i., till April).

"Avelins" taken seven weeks to become "fry"—one inch long—i. e., in May.

"Fry" become Parr and are 2-1/2 inches long when one year old. "Parr" means five inches long and two year's old become "smolts".

"Smolts" then descend to the sea any time from May to September, weighing 3 ounces to 6 ounces.

In salt water smolts grow rapidly into "grilse" 2 lbs. to 6 lbs. All mature fish try to return to the water in which they were reared.

Some grilse become mature after six months to one year at sea and ascend to spawn.

Others become salmon at sea and return to spawn after from one and one-half to four years at sea.

These are the best stock and run in Spring, weighing 8 lbs. to 30 lbs., according to size.

When a river is mismanaged, this stock is the first to disappear. All grilse and salmon after spawning try to return to sea as slinks.

Short period fish stay at sea six months; long period fish stay at sea 18 months or more.

Slinks are unfit for food and should not be gaffed or roughly handled. Female salmon 7 years old and much over 30 lbs. in weight do not return to sea.

Male salmon return up to 60 lbs. and perhaps nine years old.

The life story of a salmon can be read by the lines on the scales. Salmon for food should be killed in salt water.

Spring fish are superior to autumn fish as food, for sport and for breeding stock.

The man who kills a salmon on the spawning bed gets a few pounds of inferior food. He robs the community of something worth between \$100 and \$1000.

AND THIS IS GLORY!
Little Willies, sitting opposite to an old pensioner, whose breast bore many medals, gazed at him and the medals long and earnestly, and at length said to his mother, "Mother, why does that man wear his money on his coat? Won't they let him have pockets?"

"We Promise You"

A cup of Tea "In Perfection" from an infusion—Won't You Try It?

"SALADA"
Is the one Tea that never disappoints the most critical of tastes—Never sold in bulk—Sealed Packets only.

Twenty-four million dollars was paid to beneficiaries by the Life Insurance Companies in Canada last year, and thirty-one million dollars was paid to living policy-holders.

Of the 11,450 policies which became claims—850 policies were in force less than one year. 1,050 less than two years. 2,100 between three and five years. 2,450 between five and ten years. 2,800 between ten and twenty years. 2,200 more than twenty years.

and all of these persons were in good health when they applied for Life Insurance.

Life is very uncertain, as last year's death claims show, and, on the other hand, insurance money has brought untold benefit to thousands of homes and individuals.

ANTHRACITE COAL—1921

To those who are hoping for lower prices:

We are in the coal business. We believe we know conditions. We cannot predict future prices. We do not think further reductions are likely. Present sales wagon agreements don't expire until March 31, 1922.

There isn't much hope of general reductions in freight rates. If the proposed Pennsylvania State Tax on anthracite becomes a law, this will add an additional 5 to 10 per cent to coal.

Coal is the cheapest transportation in this country.

You insure your house against fire, don't you? But haven't you insured it, but as a protection in case a fire has occurred. The best insurance you can buy now is fire insurance—don't know what's coming next.

The Real Estate Agents of Montreal recently had a severe frost, with a resulting snowstorm. That could be a real snow, and moved to the limit of reaction.

The Manufacturers' Record of Montreal says: "Protect yourself at once for all family spring and summer. In this way you will avoid an excessive demand for fuel, and a shortage with high prices and rationing. Even if you cannot afford to buy in the winter, you can measure the value of the coal already in your cellar."

Call us up—we'll work with you.

Quick and Reliable Local Service for Bearings
The Bearing Service Company of Detroit maintains the largest stock of a local authorized agent to give Bearings Service to garages, repair men and owners of motor cars, motor trucks and tractors in this vicinity. With the establishment of this local agency it will no longer be necessary to lay up a machine for a long period of delay pending the receipt from a factory of bearings for replacement or repair.
We can provide this kind of service on other Trucks, Buses, or New Departmental Deliveries, the latter being interchangeable with other makes of ball bearings.

MINISTER DISCUSSES HIS WIFE'S TROUBLES

Rev. A. H. Spence, pastor of the Wesleyan Methodist Church, Montreal, Que., says: "After seeing what trouble is accomplished in my wife's case, I am convinced that it is a medicine of great power and extraordinary merit. I do not think I have seen anything give such prompt results. Mrs. Spence has been in delicate health for ten years, suffering from stomach trouble and nervous headaches."

"I frequently sought medical advice but found it the only thing that gave her any relief. After taking the medicine only a short time, she was able to sit up and help with the household duties. I think it only a short time until her health will be fully restored." Thomas Whelan, Druggist, and leading druggists everywhere.

FRANCE WILL SELL CARGO STEAMERS

London, Aug. 20.—A Reuter dispatch from Paris says that a law has just been passed by France stipulating that the French state-owned fleet of cargo steamers must be sold by August 21, 1921. It is evident, adds the dispatch, that private owners have to face serious competition in the next few years for the huge fleet of the American Shipping Board has not yet been disposed of.

OUR VISIT TO THE GREAT WEST

Press Party See Sights of Canada from Victoria to East Via C. P. R.

Field, B. C., June 12.—Our special train, which is now under the direction of the Canadian Pacific Railway officials left Vancouver Sunday evening at 9 o'clock. Besides our regular cars, we have now attached an open observation car, where our party can sit out in the open and enjoy an unobstructed view of the scenery.

Because of the delay at Blue River, referred to previously we missed the run through H. C. from Kamloops to Vancouver in daylight, and we again travelled this section in the night. It was well after daylight when we again arrived at Kamloops and proceeded on the Thompson river.

While the scenery was beautiful, it was not until mid afternoon that we saw the rugged mountains in all their splendor. At Kamloops my early days on the Miramichi were brought vividly back to me. There tied up at the wharf was an old stern wheel paddle boat "Andover." Had the old "Andover" of the Miramichi been transported to Kamloops? It could not have resembled her more, and many the trip to Indian town and Redbank I had taken to enjoy the fishing, all of which were vividly brought back to me.

It took two large engines to haul our train up the grades, and we made good time. At Revelstoke the two coal burning engines were taken off, and two new type oil burners substituted, and then the climbing began, and the scenery beggars description.

Mountains peak upon mountain peak, snow covered, with mountain peaks like ribbons of silver tumbling down hundreds of feet and then rushing to join the river which the railway follows as a general rule. Here and there the train dashes through a tunnel or a snow shed, and we in the open observation car are nearly choked by the gas from the engines. We stopped ten minutes at Albert Canyon and looked down between two walls of ice to the river scarcely twenty feet wide racing in its foaming course one hundred and fifty feet below.

At one point we ran into a mountain shower, which while rain at our elevation was a blizzard up the mountain side.

We all look forward with interest to our run through the Great Connaught tunnel. Before we came to this all were ordered into the regular cars, and all ventilators, windows and doors were closed. It took just sixteen minutes to run through.

As our readers may be interested we reproduce a short description of this tunnel. The driving of this tunnel made for itself a prominent place in the annals of notable engineering achievements. From portal to portal its centre line measures 26,400 feet thereby exceeding by three-fourths of a mile the longest existing tunnel in America. The method by which it was driven involved the tunnelling of a pioneer bore paralleling the centre line of the main tunnel. The feature is new and the interest of tunnel engineers was aroused the world over.

The expenditure of \$3 millions is another indication of the efforts being made by the railway to eliminate grades and snow troubles. The tunnel lowers the elevation of the former route of the railway at the summit by 520 ft. It dispenses with 4 1/2 miles of snow sheds and reduces the length of the line 4 1/2 miles, eliminating curvature to the extent of 7 complete circles.

This tunnel has been in use only a few years. Coming along we enter the Kicking Horse Pass and one wonders how the engineers made it possible to build the line. Raging torrents rushing down on one side, while mountains tower to

SAVED FROM LIFELONG MISERY

And a Dangerous Operation, by Taking "FRUIT-A-TIVES"

MRS. M. J. GORSE
8233 Union St., Vancouver, B.C.
"I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. I had pains far down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused."

Then, I started taking "Fruit-a-tives"; and from the outset, I felt better, and the medicine completely relieved me of all my misery and suffering. My weight was only 135 pounds and now it is 165 pounds. I am free of pain and headaches and the terrible Constipation and what saved me from misery is the splendid fruit medicine, "Fruit-a-tives."

MRS. M. J. GORSE
Box a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

the clouds on the other.

At many places the curves are so sharp that those in the open observation car at the rear can look into the windows of the diner, which is in the centre of the train, and see passengers enjoying dinner. Here we dash through a tunnel, then over a high single arch bridge. Looking down we see hundreds of feet below the river flowing in its bed. Again on one side a canyon, on the other snow-capped mountains, with the river ever pressing on its way to the ocean.

Announcement was made that we would spend the night at Field instead of going to Lake Louise station. This was arranged so that we would not miss the glorious scenery by travelling in the night.

At Field there is a very modern H. R. Y.M.C.A.

Upon our arrival our party were invited to make use of this comfortable building which was even at this date in June steam heated.

The young people soon organized a dance and the dining room was soon a merry place, where even the older members of the party joined in the festivities. At the close it was voted the merriest evening of the trip.

To-morrow we are to see the Great Divide and Lake Louise, and needless to say we are all looking forward to this.

THE KIDNAPPERS

DROWNED VICTIM

New York, Aug. 20.—Robert Raffaele, of Union Hill, N. J., was convicted by a jury last night of the murder of five year old Giuseppe Varotto, who was kidnapped May 24 and was drowned by his captors in the Hudson River. The child was seized while playing outside his home on East 13th Street. The disappearance was followed by letters demanding a ransom of \$2,500 and containing threats to kill the boy unless the money was paid promptly.

Four men with Raffaele were arrested in the neighborhood of the Varotto home and with two others, still unapprehended, were indicted on charges of murder when the boy's body was found floating in the Hudson River, near Piermont, ten days after the kidnapping.

It was said to be the first case on record where kidnappers carried out their threat of death.

SECURE LEASE OF

London, Aug. 20.—Donald McLeod's weekly report says it is reported that an English financial group have secured a long lease from the Soviet government of Post Petrograd and that if carried out the deal should prove of great value to the shipping of all nations.

FIRST ACADIAN GRAND VICAR

Interesting History of Acadian Family By Campbellton Writer.

(Moncton Transcript).
Abbe Melanson, curé of Campbellton, N. B., well known in the literary world, has written an admirable biography of Mathurin Bourg, the first Acadian priest and Grand Vicar of Acadia for some years. This interesting contribution to Acadian, and Canadian history has recently been published by L'Imprimerie Populaire of Rimouski, Que.; the present edition is printed in French, but it is to be hoped that an English translation will be available before long, because it would be read with interest by the English speaking people of the Maritime provinces in particular and by Canadians generally. Mr. Chausson, Bishop of Chatham, N. B., has contributed an interesting preface to the book.

Mathurin Bourg, the first Acadian to attain the dignity of the priesthood, was born at Grand Pré in the land of Evangeline in 1744. When the Acadians were expelled young Bourg with his family were placed on a vessel, which set sail for Virginia. But for some reason her destination was changed and she proceeded to Bristol, England, where her passengers were held as prisoners of war. For eight years the Bourg family lived in prison camps, and during this time young Mathurin learned English, an accomplishment which enabled him to render many good services to his compatriots in later years. When peace was finally declared between England and France the Bourg family, along with other Acadians, held in England, went to Brittany and Normandy. But they were no longer content with old France and being homesick for the hills and dunes of Acadia, made their way back to the provinces as opportunity offered. Young Bourg, however, had resolved to become a priest, and he stayed on in Old France for some years, studying at the College of Brittany and later at the Seminary of Paris. In 1772 he returned to Canada and on September 17 of that year he was ordained priest at the Hotel Dieu in Montreal. Mr. Bourg, the aged Bishop of Quebec, who then had general oversight of French Catholics throughout the Canadian provinces, was much pleased to welcome the young Acadian to the priesthood, and assigned him to service among the Acadians. Father Bourg established himself at Tracadie, now known as Carleton, on the North Shore of the Bay Chaleur, and from there he made visits to the Acadian settlements scattered throughout the Maritime provinces—on the St. John River, on St. Mary's Bay, and other points on the Nova Scotia coast. In these journeys he endured many hardships, often knowing hunger, and often being compelled to make camp in the snow. In these labors he spent twenty-three years.

In 1793 the Bishop offered him the charge of the Parish of St. Laurent near Montreal, and this he accepted. But the years of hard labor had told upon him, and after two years of comparative repose in St. Laurent he passed away in his 52nd year.

While the Acadian congress was in session at Church Point, N. S., the French papers of Montreal published lengthy reviews of the biography of Father Bourg.

Recently Abbe Chouinard, present curé of Carleton, initiated a movement to erect a monument in memory of the one time Grand Vicar of Acadia there, and doubtless the worthy project will make a strong appeal to all Acadians. Meantime those who read the excellent biography written by Abbe Melanson will be helping the hospital at Campbellton, N. B., for the proceeds of the sale of the book will go to that institution.

This is the fourth book published by Father A. Melanson. The Rev. gentleman belongs to the Historical Society of Montreal. The proceeds of this last book have been disposed in favor of the Hotel Dieu Hospital.

In a matrimonial engagement every girl thinks herself a whole board of strategy.

BUG JUICE SURE ENOUGH.

A Jacksonville, Fla., despatch of July 22, quotes sheriff's deputies of that city as saying that if mosquitoes and their kind were familiar with unsanitary conditions about illicit stills where their favorite brands are produced, they would never take another drink of "white lightning."

The despatch continues: Deputy Frank Jones discovered a still in the swamp near Jacksonville and he says conditions surrounding this still are typical of other stills found in the vicinity. At the bottom of a well from which was obtained the water used in manufacture of the liquor, reposed a huge water moccasin.

22 barrels of mash were run through the moccasin, and the bodies of hundreds of others that had been drowned. Three empty gasoline drums fresh from their former use and still reeking with the order of gasoline had been connected with pipes and converted into containers for the liquor. Over all of the paraphernalia swarmed ants, roaches and other insects.—American, Westerville, Ohio.

Be Your Own Doctor.

When you meet with an accident—a cut, a burn, a scald or a bruise—don't spend money needlessly in doctor's bills, but apply Zam-Buk at once. This herbal balm will end the pain, stop the bleeding, prevent festering and heal quickly. Keep a box handy.

For skin troubles Zam-Buk is equally invaluable. A skin disease cured by Zam-Buk does not break out again, because Zam-Buk cures from the "root" up. Zam-Buk is best for eczema, boils, blood-poisoning and piles. All dealers 50c. box.

Zam-Buk

SEIZE STILLS IN

NORTHERN ONTARIO

Toronto, Aug. 20.—Secret seizures of freewater, which has polluted Canadian lands and timber and has kept construction gangs in the Forest district, not far from Sudbury, have been laid bare by an expedition of eleven Ontario provincial constables, office of the Canadian National Railways in this city. The detectives have been in the district for three weeks, and have sent word today that they have been extremely successful in putting a stop to the making and selling of liquor, of which a great deal has been the net result of the expedition. The detectives were G. H. Fagan, J. Graham and two constables of the G. N. R. secret service.

GREAT RISE IN THE

MIRAMICHI RIVER

A great rise in water has been experienced on the Miramichi river, and logs which have been held up at Placerville on account of the lowness of the water have been driven "succefully" into the boom limit at Millerton. The water was of great benefit to the lumbermen.

A good run of salmon is reported from the Miramichi and the fishermen, during the last few days of the season, made record catches. The fly fishermen have yet another month, and some excellent sport is anticipated.

Unrated.

The Bore—I think this weather is awful!
The Girl—You shouldn't grumble at the weather. If it wasn't for that you would have nothing to talk about.

NEW IMPORTANCE

OF DOMINIONS.

Commenting on the recent gathering of Empire premiers, the London Times says:

"The war altered the balance of the civilized world, and the Dominions are the main witnesses to that change, with all its hidden consequences. Before the war the British Government could act for the Dominions in foreign affairs without any great risk of misrepresenting them in any serious way. Now, that risk is inherent in almost any action which the British Government may take without recent knowledge of the views on international affairs of the Dominion Governments. It is not that the Dominions under-rate the capacity or the discretion of the Foreign Office. On the contrary, the Dominion Prime Ministers make no secret of their admiration for much of the work that the Foreign Office does as part of its daily routine—administration too little critical, some in this country may think. But peace problems since the war have revealed a difference in grain between the Downing Street view of many international questions and the view, which is natural in Ottawa or in Melbourne, or in Pretoria. Downside-street has a tradition of centuries which thinks of Europe as the pivot of world-events. It is still, no doubt, and to credit Dominion public men with the belief that Great Britain should turn a contemptuous back on European affairs would be to do less than justice to their acumen. But it is true that the war has brought the other continents more to a level of international importance, as compared with

of absorbed preoccupation with European affairs does need the constant corrective of Dominion conviction of the importance of the world beyond the confines of Europe and its fevered Eastern frontiers. If for this reason only, the Dominion Prime Minister should be often here."

Social and Personal

Ramsford Henderson of St. Stephen is the guest of Mr. and Mrs. J. Everett Henderson.

R. B. Adams, of River Maine, Que., was in town Monday on business. He says the lumber business is very quiet in his district.

Mr. Stuart Henderson of Edmonton was the guest of his brother, H. H. Henderson.

Miss Marguerite Wall, R. N., of Boston, is spending a vacation at her home here.

Miss Margaret McLennan has returned from visiting friends in St. John and Moncton.

Mr. J. W. Howard was in Moncton on Saturday.

Miss Mamie Shannon and Annie Connell are visiting friends in Matapedia.

Mr. and Mrs. M. P. Moores are spending a few days at Mr. Evans' cottage at Pt. La Nina.

Miss Annie LeBlanc who has been visiting in town has returned to Concord, U. S.

Mrs. L. Leblanc is visiting in town the guest of Mr. and Mrs. P. O. Leblanc.

Mrs. John Farrar is visiting at Brandy Brook, the guest of Mr. and Mrs. Dugald Myles.

Miss Virginia LeBlanc of Carleton, P. Q., accompanied by her niece Miss Jane Cullen of St. Angèle and Mr. Philippe Boutin, were the guests of their cousin Miss Wagner.

Mrs. J. J. Bernier has returned home from Chatham.

C. C. Atkinson spent a few days in Fredericton last week.

Miss Edna Farrar has returned from spending a few weeks with friends in Moncton.

Mr. and Mrs. Ray and Mr. and Mrs. Ivan Farrar and Mr. Harvey Wyers are leaving tomorrow for a trip up the river where they will be the guests of Mr. and Mrs. Isaac Farrar for a few days, they intend returning by the river again.

Mrs. Homer Matthews who has been spending a few weeks in Moncton, owing to the illness and death of her mother, returned home on Monday.

Miss Etta L. Adams of Matapedia has returned home after spending a short vacation with Mr. and Mrs. Randolph Adams, Amherst at their cottage "Uneda Rest" at Cold Spring Head.

Miss Georgie Gourley of Halifax is the guest of Mr. and Mrs. D. C. Firth. Mr. and Mrs. Arch'd. MacKenzie wish to announce the engagement of their eldest daughter Estelle Jean to Mr. William Russell Stevens of Joliette, P. Q. The marriage will take place early in September.

Miss Irene Jardine has returned from visiting friends in Port Daniel. Miss Elsie Robinson of New Carlisle is the guest of Mr. and Mrs. John White.

Mr. and Mrs. Bliss McLeod and Miss Evelyn Hanson of St. John visited Mr. and Mrs. Donald McBeath last week, returning to Bathurst on Saturday to join their party on the return trip by motor through the province.

Miss Lena G. Downs, nurse-in-training, at the Lowell Corporation Hospital, Lowell, Mass., who has been spending the past three weeks in town the guest of her mother, Mrs. Elizabeth Downs, returned on Monday morning to resume her duties at that institution. Miss Downs has taken X-ray and laboratory work, and when she graduates in October, will remain on the hospital staff in that line of work.

Mrs. J. B. Legere returned a few days ago from Kichibucto, after a pleasant sojourn of three weeks with relatives and friends.

Mr. and Mrs. J. C. Vautour motored to Bathurst Tuesday, where they will spend a few days with relatives.

Rev. F. E. and Mrs. Boothroy and family returned yesterday from a very pleasant vacation spent at New Mills.

Mr. E. A. Prevost of Montreal was in town yesterday and was warmly welcomed by his many friends here.

Miss Audrey McKay who has been spending her vacation in Charlo, returned home Monday.

Misses Lois Ransom and Florence LeTemplier of Montreal and Mr. Fred Macdonald of Campbellton, motored down the Gaspe coast Sunday returning Tuesday.

Mrs. Harrington and her daughter Marjori, who have been visiting Mr. and Mrs. J. W. Morton, left yesterday morning for Bath, Maine. They expect to visit in Boston for a month and then go to Cleveland, Ohio, where they will spend the winter.

Miss Clara and Master Leo Ellis have returned from a pleasant visit to Saybec, they were accompanied by Misses Laura and Bernadett Fournier.

Rev. W. and Mrs. Camp left today for St. John on a three week's vacation.

Mr. Eldred Mowat was successfully operated upon for appendicitis yesterday. He is reported as doing nicely today.

Misses Geraldine Madden and Corinne St. Onge have returned home from a visit with friends in Petit Rocher.

Mrs. William Minto and son Mr. William Blackmore of Fredericton are visiting Mr. and Mrs. F. E. Shenard.

Mrs. A. B. Gorham left on Thursday night's limited to spend a few weeks in the west.

Mr. and Mrs. Thos. Wran of Campbellton and their two daughters arrived here from the southward, Wednesday night after a ten days' trip, and found the hotels full.

The Adams House was full and the Touraine could not accommodate them. So they went to Loggieville, and found it full also.

Miss Dorothy Johnson of Loggieville is visiting Miss George McDonald.

Mr. and Mrs. James T. Kirk, Sussex, announce the engagement of their daughter, Kathleen Kilgour, to Burton M. MacAlary, Van Buren, Me. The wedding will take place at Trinity Church on September 17th. Miss Kirk was for some time on the teaching staff of the Grammar school here.

Mrs. A. D. MacKendrick and Miss Dorothy, visited Chatham friends over the week-end.

Mr. and Mrs. Charles I. Fenderson of Joqueit River held a coming-out dance for their daughter, Miss Kitty Fenderson on Tuesday evening, Aug. 23rd. The beautiful grounds were decorated with Japanese lanterns and the dancing was done on the broad verandah. About sixty guests were present. Among those present from out of county were: Mr. and Mrs. Richard DesBrasay, Miss DesBrasay, "Madison", Miss Kent, Miss Gilbert, Miss Ellis, Mr. Harper Kent and Mr. John Gilbert, Bathurst; Mrs. C. P. Simpson, Mr. Bobs Walker, Montreal; Miss Ruth Brown, Miss Hazel Reid, Vancouver; Mrs. G. M. Ellis, Edmundston; Miss Coleman, Mr. Robert and Arthur Coleman, Dr. Fleck, Dalhousie; Miss Wallace, Bathurst, N. B.; Misses McLennan, Henderson, Richards, Edith and Marion Lunan, Isobel and Edith Wran, Titus, Rossborough; Hibbard and Messrs. Henderson, Cyrus McLennan, James McNichol, Cecil and Ted Richards, Farrar, Anslow, Alexander, Campbellton; and Messrs. Duttin and Prentice of Springfield, Mass.

At Ferguson Manor on Friday evening, Aug. 19th, the Misses Fannie Thompson and Arria Douglas were joint hostesses at a surprise party at the home of Mrs. P. Welch, a large number of friends being present. Lunch was served at mid-night, dancing being the chief amusement of the evening and a most enjoyable time was spent by all.

Mr. and Mrs. Edwin A. Freeman of Boston, who have been visiting Mrs. Freeman's sister, Miss Rub. Bremner, left today for their home.

To Horse and Cattle Owners

I beg to notify you that after years experimenting on Tonic Treatment of Horses and Cattle I have now put up the greatest Tonic and Invigorating Powders that you can give your animals.

They do not only keep them in good condition, but they are a preventive against Influenza which is known to all as the "Horse Disease." They stimulate the nerve supply and purify the circulation, thereby giving the animal a stronger resistance against diseases which are so prevalent at this time of the year.

Call at my office and get a package so you can see for yourself the results yet will obtain after using them on your animals.

Dr. J. Ferguson Donnelly
Veterinary Surgeon

MIRAMICHI ROAD

BEING PUT IN SHAPE

Is Now Largely Used by Automobiles—286 Cars Went Over Road During July.

(Chatham Commercial).

The old Miramichi road is being rebuilt and a crew of 65 men and 20 double teams have been on the job for some weeks. A twelve mile stretch out of Bathurst has been finished and is in fine condition. Five miles more of the road is being tackled, and will be finished as far south as the Depot Camp, 17 miles from Bathurst, early in September. The work will be continued as long as the weather is favorable.

In order to ascertain the amount of traffic over this old highway, the Government Engineer requested Frank O'Connor, caretaker of the Depot Camp, to keep a daily record in a book provided for that purpose, of all teams, autos and pedestrians going over the road. This record was started 23rd June, and up to 30th June, 48 autos were registered. From July 1st to 31st, 286 cars used the road, and up to August 17th 161 cars passed the Depot.

In addition to cars, several teams, and five "tramps" were recorded. The number of each auto is taken, when possible, and those which pass in the night are noted.

Mr. O'Connor is keeping this valuable and interesting record for the Government without charge; but no doubt the Department will remember him substantially later on. The record will be valuable when the through road is completed in a few years' time; as showing the increased traffic over this important highway, which a few years ago was practically impossible for teams.

While the old Bathurst Road is being used right along as a short road, tourists should be advised that stretches of the road not yet rebuilt, are rough and wet, and fast time can only be made on the section already finished.

The following Dominion government appointments are announced: A. J. Arseneault, Wharfinger clerk, Tracadie, Gloucester county; Joseph T. Bell, fishery overseer, Kings and Queens (N.B.); Scott Moffat, measuring surveyor of shipping, Campbellton; Gordon Miller, postal clerk, Moncton; Frank A. Dobson, prison guard, Dorchester; Stuart Busby, customs and excise examiner, Milltown (N.B.); Mrs. Josephine Vradenburg, stenographer-bookkeeper, experimental station, Fredericton (promotion).

TWO DRUNKS. The police run in two drunks on Monday night. Yesterday morning when brought before the Police Magistrate each were fined \$5.00 and costs.

MANITOBA BANK

SAVINGS PROJECT

Winnipeg, Aug. 19.—The provincial savings bank inaugurated by the Macleod government for the financing of the rural credit and Manitoba Farm Loans Association, yesterday celebrated its first birthday.

The bank has turned the sum of \$2,678,847 over to the government of Manitoba to be used for development of the province, E. A. Weir, chairman of the board of trustees, announced yesterday.

MEXICAN OIL TAXES FOR JULY. Mexico City, Aug. 20.—Immediate and complete reports showing the amount of petroleum in storage upon which taxes will be levied will be required of all oil companies in Mexico by the Department of Commerce and Industry next week, it is learned in semi-official quarters.

Newspapers declare that oil taxes received by the Government during July amounted to only 36 per cent. of the normal revenues from petroleum.

USE MACHINE GUNS

ON SOUTHERN MOB

Knoxville, Tenn., Aug. 20.—Twenty persons were injured last night when a mob attempted to storm the jail in which a negro accused of attacking a white woman was being held, was repulsed by a force of sheriff's deputies. Six wounded were removed to the city hospital within a few minutes after the clash was reported.

Reports from the scene were that the defenders of the jail had used machine guns to repel the attack. The shooting was said to have been precipitated when a stone was thrown by members of the mob.

DOPE ON ADVERTISING. When one scatters a feeding of corn to a chicken would it be reasonable to expect that chicken to get fat and grow because of that one feeding? Very many, so-called, business men expect fat returns from one advertisement. Is that reasonable?

Fish can not live in stagnant water, neither can the veriest sucker live in, or by, a stagnant business. Continuous and consistent advertising is the flowing spring which brings life to the stagnant waters.

It is the advertising which you do that brings success, not that which is neglected or left undone.

It is the result they show on the diamond that makes the standing of a ball club, not the fine uniforms they wear. An advertising medium must be judged by the results it brings, not by its fine typographical excellence.

Why does a man always say that he is out of practice when he gets beaten at any kind of game?

BARGAINS!

Still greater reduction on all lines of goods. Better will give you some idea of what we can save you by buying here. Prices are what counts and we are giving them.

GET BUSY

On your Home Plans if you intend to get back waiting for lower costs next year. Building costs will increase if anything, growing about half times and the help keep the ball rolling.

FOR GOOD

Take the middle course between the the laborer and the capitalist. Also present a business manner and we think you will.

AND BUILD

The long cool days are dandy for building time to complete your home before
