Wolseley on British Connection.

BALTIMORE, Md., July 10.—Lord Wolseley, in a letter received in this city writes: "The closer the bonds of union between mother and child, England and the United States, the better it will be for both, for our race and indeed for civilization. Those who rant about causes of quarrel between us are no friends to either nation or to humanity. There must never be war between us, no matter how much either or both may be egged on by those who hate the English race, and would therefore like to see us at one another's throats. We feel quite as proud of the United States as any of its people can do. Its honor and reputation are as dear to us as they can be to those on the other side of the Atlantic, and I rejoice above all things that the mutual respect we have always had for one another is maturing into a sincere and lasting friendship."

TORONTO LETTER.

TORONTO, Thursday, July 10.

THE WILD WIND'S WORK.

Great Destruction Caused by Tuesday's Tornado.

GUELPH, Ont., July 10.—Tuesday's gale broke in its full fury in the lower end of Eramosa. On the farm of James Gray, near Rockwood, it unroofed one of his outhouses and landed it 50 yards from the building. Fields of hay were flattened down as if run over by a heavy iron roller. Trees were uprooted in every direction, and one man on his way from Actor to Rockwood, had to chop trees three times before he could proceed on his way to Guelph. Fences are leveled right and left and barns innumerable unroofed on the line of the storm.

PITTSBURG, Pa., July 10.—At Meadville lightning played havoc with electric and telegraph wires, completely wrecking the postal service. Trees were blown down in all directions, and the roads were blocked everywhere. At Erie William Smith was killed and his sister stunned by a flash of lightning that also badly wrecked the house.

HAMILTON, Ont., July 10.—Tuesday's storm did much damage in Caistor township. The grain in the fields was badly flattened and will take some time to recover from the big blow.

LEWISTON, Me., July 10.—Specials from Somerset, Waldo, Oxford and Franklin counties indicate that Tuesday evening's cyclone was one of the most disastrous that ever visited Maine. The Sandy River railway bridge, near Phillips, was blown from the abutments into the river. In various parts of Maine nearly 100 barns were blown down or unroofed.

TROY, N. Y., July 9.—So far as learned the three persons drowned at Rouse's Point and the man drowned at the Bluff Point hotel were all the persons who lost their lives during the storm.

VERGENNESS, Vt., July 10.—A terrific wind, rain and thunder storm passed over Vergenness Tuesday night, doing great damage. Hundreds of shade trees were blown down. The new shed of the Shade Roller Company was destroyed. The lumber shed of Smith & Kecham was ruined. The streets during the storm was filled with flying signs, slate, brick and black clouds of dust. The steamer Oriole reached Plattsburg after the storm broke and is safe.

IN NEW YORK STATE.

PLATTSBURG, N. Y., July 10.—The tornado which struck this town Tuesday afternoon only lasted fifteen minutes, but it caused a great deal of destruction to property and some loss of life. A man is reported to have been killed at Beekmantown, and two persons were drowned in Shelburne Harbor.

At Keesville David Larkins is reported missing.

At Saranac Lake the Methodist Church was struck by lightning and badly damaged. The storm s greatest force was felt from Rouse's Point to Port Henry.

She claims to have letters compromising high churchmen in Rome. Mme. Dis Debar claims that she amazed her jailers by her spiritualistic feats.

A Postmen's Strike Postponed.

LONDON, July 10.—Notwithstanding the fact that the Postmen's Union decided last night that a strike would be inaugurated to-day unless the "blacklegs" in the employ of the postoffice department were dismissed, the carriers as a body this morning resumed their duties as usual, their leaders having advised them that at present was not an opportune time to enforce their demands by a strike. Two hundred parcel postmen have been dismissed from the service. A number of non-union postmen are working with the union postmen.

Reconstructing the British Cabinet.

LONDON, July 10.—The Press Association announces that the arrangements for the reconstruction of the Cabinet are making progress. It also says W. H. Smith, the present Government leader in the House of Commons, will be elevated to the peerage, and that he will probable be succeeded by Lord Randolph Churchill as Government leader in the House. Lord Hartington has been again offered office, but he prefers to remain outside. He was consulted yesterday during the meeting of the Cabinet, and advised that Lord Randolph Churchill be asked to resume office. Lord Salisbury went to Windsor Castle last night and obtained the Queen's assent to the proposed changes.

HEADLIGHT FLASHES.

Grand Trunk Earnings—President Van Horne's Observations—The C. P. R. as a Military Route.

The Belleville City Council has given the G. T. R. permission to double track Great St. James street.

The traffic earnings of the Grand Trunk Railway for the week ending July 5, 1890, were $398,158, as against $404,807 during the corresponding week of 1889, a decrease of $6,649.

Lieut.-Col. Chater, commanding the 91st Argyles, now stationed at Hong Kong, states that he came over the C. P. R. in order to note its facilities, and will recommend that his regiment be brought home and the relieving regiment sent out via the C. P. R. He thinks the road a valuable one for military purposes.

The Baltimore and Ohio is using coke on several engines which haul their fast trains between Philadelphia and Washington. The only changes made in the locomotives are to increase the opening between the grate bars about 25 per cent., and to substitute a variable for a fixed exhaust. The fire boxes are nine feet long and 34 inches wide.

President Van Horne, of the Canadian Pacific, expresses himself as greatly pleased with the general indications of prosperity noted along the western section of the line since his last visit. He went over the proposed route of the Kootenay Railway from Revelstoke south. Work on the line is progressing rapidly and many new mines are being opened.

Chinamen to be Sent Back.

PHŒNIX, Ariz., July 10.—Judge Kibbey has denied the application for a writ of habeas corpus in the cases of 24 Chinamen, who recently attempted to enter the United States from Mexico, on account of their being aliens and being in the United States illegally. Application for a writ of certiorari was also denied on the same grounds. The Chinese will be sent back to China.

Lightning Was Executioner and Gravedigger.

SPRINGFIELD, O., July 10.—Arthur Businger, a farmer, went into a hay field Tuesday evening to get the hay in before it got wet. A bolt of lightning struck Businger, killing him instantly. His skull was crushed, a livid cross was marked on his back and both of his arms were blackened. The strangest work of the lightning was the excavation of a hole like a grave immediately behind Businger into which he fell.

Five Trainmen Killed.

BIRMINGHAM, Ala., July 10.—A collision between a freight and a passenger train on the Louisville and Nashville Railroad occurred yesterday morning in a deep cut, 40 miles south of here, in which five persons were killed and one injured fatally. The killed are: Engineers John Green and John Webb, of Birmingham; Firemen Jim Armstead and Bob Wilson (both colored), and a pump man named Barr. Ben Swoop (colored), an extra fireman, was fatally injured. None of the passengers were seriously injured. Disobedience of orders was the cause.

The "New Crater" in Eruption.

WASHINGTON, July 10.—Secretary Noble has received this dispatch from Superintendent F. A. Boutelle. Mammoth Hot Springs, Wyoming: "This dispatch just received from Norris Basin: At 4:15 p.m. there was a severe shock of earthquake, followed by a terrible roar, and upon investigation, it proved that the geyser called 'New Crater' had an eruption. It is throwing up a column of steam, stones and water about 200 feet in circumference and to the height of about 125 feet, and shaking the whole basin around that vicinity."

Where Coolness Reigns.

MONTREAL, July 10.—The steamships Sardinian and Lake Ontario, on their way into port, passed large masses of ice in the Straits of Belle Isle. After passing Belle Isle the Lake Ontario while in a dense fog ran into a heavy field of ice. She succeeded in steaming through the mass, but at times had to shut down the engines to prevent smashing her plates. As it was the paint is completely scraped off the ship's bow at the water line. Captain Richardson reports that while the Sardinian was among the ice, the dense fog formed such a perfect sound conductor that they could hear the fog whistle on Belle Isle, fourteen miles away.

"Look at Me."

MECHANICSBURG, Ohio, July 10.—Trouble has arisen in the M. E. Church here, caused by the action of the pastor, Rev. A. L. Reynolds. One night last week, when the heat was unbearable, he was preaching to his congregation, who seemed inattentive. The constant wavelike motion of the fans of the large audience disturbed the pastor. He struggled to get the members interested, and, not succeeding, finally broke out: "The members of the congregation will stop fanning. It is not necessary. Think of icebergs, the North Pole and Polar bears, and look at me." This remark caused almost general indignation, and many of those present left the church.

AN IMPORTANT DISCOVERY.

A Scientist Discovers the Germ of Cholera Infantum and Typhoid Fever.

ANN ARBOR, Mich., July 10.—The regents of the University of Michigan last year built and equipped a laboratory of hygiene at the request of the State Board of Health. One of the objects of this laboratory was the investigation of the causations of diseases, and this branch has been under the supervision of Victor C. Vaughn, the eminent toxicologist, who a few years ago gave the world his discovery of tyrotoxicon, the poison so often existing in milk, cheese, and ice cream. He has now, it is alleged, added another triumph to his former success in the discovery of the causes of cholera infantum and typhoid fever. He announces that these diseases are due to albuminous poisons, a theory which subvents all previous theories in regard to their origin.

Dr. Vaughn discovered the first point last March, and has since added four more. He has isolated three poisons, which were obtained from the germs in cholera infantum, and two from the germs of typhoid fever. These poisons, he claims, are fatal in any quantity, and resemble closely in their action the venom of a rattlesnake. They are of the nature of ferments, and are the growth of germs. Dr. Vaughn took the germs from the intestines of persons who had died from the diseases, and placed them in flasks containing sterilized meat. The flask was then set in an incubator, in which the temperature was the same as a human body. A long, complicated and, consequently, inexplicable chemical process followed, and the poison, which resembles partially-slacked lime, was extracted. Animals being inoculated with the product displayed the same symptoms as the persons suffering from one or the other of the diseases. A quantity the size of a pea killed a guinea pig in twelve hours, while one-twentieth of a grain is fatal, but killed only after from 15 to 30 days. Dr. Vaughn has not named these poisons as yet, and will now devote himself to endeavoring to discover antidotes for them.

THE WORLD OF WORK.

Disgusted Hungarians Leaving the States for Home—Serious Trouble in a Wisconsin Town.

Representative Wade has reported favorably the bill declaring that no person employed as a laborer on Government work shall receive less than $2 a day.

A lengthy shut down is looked for at the National Tube Works, McKeesport, Pa. The firm refuses to sign the amalgamated scale, but are willing to pay union wages. This the men decline to accept, and as a result the immense plant is idle and about 4,000 men are out of employment.

One hundred and fifty Hungarians passed through Pittsburg en route to New York to sail for home. They have been in this country from one to three years, and go back disgusted, having discovered, they say, that the remuneration for toil in this country is different from what European emigrant agents led them to believe; that the cost of living even in their unostentatious style equaled their earnings, and they had decided to return to their native land, where they can live as well and work less than they are compelled to do here.

With the thermometer in the nineties and under a scorching sun, about 7,000 of the locked-out cloakmakers paraded through the principal streets of New York on Tuesday. The mottoes borne by some of them were: "Thanks to Public Sympathy," "Locked Out, but Bound to Win" and "United We Stand, Divided We Fall."

WEST SUPERIOR, Wis., July 10.—It was expected the strike among street laborers here would have ended yesterday by the men accepting the old wages of $1 75 a day. About 200 of the strikers proceeded to Twelfth street, where 40 men were employed. The strikers rushed upon them and a fight ensued. Contractor Sutton cut one man on the arm with a shovel. The strikers then chased Sutton to his house, three blocks away, beating him with clubs. At the American Steel Barge Works an attempt was made to force the works. Contractor Anderson shot one man in the head. The strikers were eventually pacified and Anderson was arrested.

CINCINNATI, July 10.—The Panhandle, the Baltimore and Ohio and the Louisville and Nashville all had a full force of freight handlers at work yesterday. On the latter road, however, the freight brakemen, conductors and engineers all refused to work. Work on the Big Four progressed favorably till noon, when the men were induced by the strikers to leave.

Gen. Fisk's Death.

NEW YORK, July 10.—Gen. Clinton B. Fisk, who died yesterday, was in the 62nd year of his age. The burial will be at his old home, Coldwater, Mich., on Saturday, July 12. Clinton Bowen Fisk was born in York, Livingstone county, N. Y., Dec. 8, 1828. His parents removed to Michigan in his infancy. He was a man of business in his teens, and settling at Coldwater he, at 21, married Miss Jeannette C. Crippen. He engaged in various enterprises and acquired a snug fortune for a man of his years. When the war broke out Mr. Fisk enlisted as a private in the Thirty-third Missouri Infantry, soon became its colonel and a year later was made brigadier-general. At the close of the war he was brevetted major-general of volunteers. Gen. Fisk was very prominent in the affairs of the Methodist Episcopal Church. Originally a Republican, Gen. Fisk was for years before his death a most conspicuous member of the Prohibition party. He was the candidate of that party for governor of New Jersey in 1886, and in 1888 was its candidate for the presidency.

St. Clair River Tunnel Notes.

It takes the workmen fifteen minutes to walk from the mouth of the tunnel to the shield.

Hot weather does not affect the men who are working in the tunnel. The thermometer may register 100° in the shade outside, but inside the temperature stands at about 68°.

No accidents have occurred on the American side of the tunnel up to date. An air pressure of eighteen pounds is used, and when a workman is overcome in coming out he is immediately thrust back and let out by degrees.

The tunnel company have ordered 2,000,000 brick and will cover the lower half of the lining. It is claimed that the brine from meat cars is destroying the iron bridges along the line of the railroad, and it is proposed to protect the lining of the tunnel.

Snow and Frost.

MOUNT WASHINGSON, N. H., July 10.—The signal station thermometer indicates this morning, 25° above zero, and the mountain is white with snow and frost.

Cattle Disease in Kansas—Drovers Murdered.

KANSAS CITY, Mo., July 10.—Cattle are dying in large numbers in Chautauqua county, Kansas. Out of one herd of 85 thoroughbred Hereford cows, valued at from $100 to $300 each, 32 have died and 30 more are in the last stages of the disease. The disease is supposed to have been introduced by a herd of Texas cattle in February. Two men, Frazer and Gibson, who brought the cattle into the State, were found mysteriously murdered.

Starvation Among Indians in the Northwest.

WINNIPEG, July 10.—Alex. Kennedy, mail carrier for the Hudson Bay Company in the Peace River district, has arrived at Edmonton. He states that there was considerable starvation in the upper Peace River region last winter among the Beaver Indians. Owing to the scarcity of moose and other game a great number of Indians died of starvation. It is almost impossible for the Hudson Bay Company and the missionaries together to relieve the distress existing owing to the disappearance of game from that region, where it was formerly abundant. The prospect for a good supply of staple food for next winter is most discouraging.

Reasons Why London Should Have Public Baths.

Expressions of Opinion in Favor of Cheap Swimming.

City Water Could Not Be Used as it Would Cost Too Much—Should They be Erected in the River or Up Town?

With a view to ascertaining the state of public feeling on the subject of providing better bathing accommodation in this city than at present exists, an ADVERTISER representative called on several prominent citizens. The opinions expressed differ slightly as to particulars, but those questioned were unanimous as to the advisability of procuring some such establishment.

MR. JOHN CAMPBELL.

Ex-Mayor John Campbell was interviewed and expressed himself as in favor of the establishment of a public bathing place, but preferred utilizing the river to building an up-town bath. The covering over of some spot on the upper branch of the river could be accomplished without any great expense, and would give just as good satisfaction.

CHAIRMAN DAVIS.

"I strongly approve of the idea," said Water Commissioner Geo. C. Davis. "Owing to the strictures placed by the authorities on bathing in the river, some such establishment should be provided in the city. Besides the river is so uncleanly and dangerous as to render it unfit for bathing. Of course, those who possess private baths have no reason to complain, but there are very few who can afford such luxuries. If such a place were procured a very small admission fee should be charged, otherwise the privilege might be abused. A special rate could be arranged for those bringing their own towels, etc., and whatever receipts there might be would assist in the maintenance of the establishment. The ladies should also have special days reserved, and a caretaker and his wife engaged, while every precaution should be taken for the safety of the children while in the water. The popularity of such accommodation is beyond all doubt, as the patronage extended to former institutions of a similar nature, especially the one erected near Blackfriars bridge, would amply prove. But the question of water supply for the baths is a serious one. The river water is uncleanly and cannot be used, and the expense of providing city water would be enormous. To be of any utility whatever for a city of this size, we would be compelled to construct a bath 300 feet long and 150 feet wide with an average depth of four feet. To supply this bath with water, twice daily, we would require a volume of 2,250,000 gallons, as much as the city consumes at the present time—hence you see that the use of the city water is out of the question. The water from the sulphur springs could perhaps be utilized for the purpose, means to be taken to heat the same, it now being too cold, or a clean spot in the north branch could probably be obtained. Much as we desire baths and perceive the stern necessity for the same, we must not close our eyes to the fact that it is impossible to supply them with city water."

WATER COMMISSIONER ESSERY.

"Yes," said Water Commissioner Essery, "there ought to have been better bathing accommodation in this city long ago. The Council should take hold of it and there should be four buildings provided for the purpose and conveniently located in different parts of the city and supplied with city water. They could be erected for about $2,000 each, and the amount would be a mere trifle in comparison with the benefit received. The extra taxation would not be felt in a city of this size—about 1-5 of a mill on the dollar. I would suggest that they he built roofless in order to admit of the moderating influences of the sun and atmosphere. The water should be drained off at least twice a day and graded in depth from three to eight feet, with ropes placed across it as an additional safe-guard. The institutions should be open from the time the warm weather sets in until the fall, and special days should be reserved for ladies. No admission should be charged, the bathers to bring the necessary apparel, towels, etc., themselves, while a janitor and his wife could be hired to look after the building. Plenty would be willing to take the situation at $1 50 per day, and they would see that none of the smaller boys were abused. The only expense then connected with the maintenance of the buildings would be the janitor's salary, the necessary repairs and the interest of the money invested."

THE HEALTH BOARD CHAIRMAN.

"I think better bathing facility in the city is a public necessity," said Ald. Chas. Taylor, chairman of the Board of Health. "The river is too filthy for any such purpose, and the danger entailed is not to be overlooked. There is not a year rolls by but some drowning accident occurs, and such could be prevented if a proper place were provided where people might indulge in a bath. Lacking that the children will run to the river and I understand that large numbers of them may be found every day at the Cove, where the water is very filthy. The city should take the matter in hand, and I think a good idea would be to purchase the old Great Western stables on Clarence street. They could be refitted in a suitable manner, and the property would be always worth its price. And now that this question is being discussed and the matter of purchasing a site for a new fire hall considered, why could not the two be managed in connection with each other? I think the idea would be a good one and is quite practical. A large bath would require an enormous volume of water, so I would suggest that the building be made into private apartments, but that's a matter of after consideration. At any rate a very nominal fee should be charged for necessaries, and a caretaker provided, while there should be entirely different establishments for ladies.

The apartments should be open in winter as well as in summer, for cleanliness is just as necessary in the cold weather as in the warm. We have baths in the city, it is true, but people cannot afford to pay so dearly for the privilege, and many will do without rather than go to the expense. About four years ago a petition was presented to the Council asking that some provision of the kind be made, and I was in favor of it then although the matter was dropped."

ALD. JONES.

"Personally, I am in favor of the establishment of some such place," said Ald. Jones, "but then there are other considerations. We must not forget the expense connected with it. There has been a large appropriation of money this year for local matters, especially towards the laying of water mains consequent upon the amalgamation of London South. That matter also brings up another question. Last year we had something like a water famine and although there are no indications of it this year, yet it is impossible to estimate what demand will be made on the supply when the mains are connected in the new suburb. A bath would require a large volume of water, but under the circumstances I have mentioned, I think the matter should be laid over until next season. However, there's no doubt that such a thing is required in this city."

DR. SMITH.

"There can be no doubt about the advantages of proper bathing accommodation," said Dr. J. M. Smith. "The water in the river is wholly unfit for any such purpose, and as one cannot bathe in it without the absorption of some of its filth, think of the injurious effect it must have. If a suitable place was provided, free of charge, those children who now rush to the river would be led away from such habits, and it would be also a vast improvement on their health and morals. A system of cleanliness has a tendency to exalt the feelings of pride in the person who practices it. Therefore children especially should be trained up to those habits, as the minds of those raised in filth and dirt seldom raise above the grovelings of their own bodily condition."

"What method would you suggest of drawing away the water?"

"That is an important matter. If a person were affected with scrofulous or similar disease no one would feel inclined to bathe in the same water, although I think if it were kept running continuously it would preserve the necessary pureness. In fact the provision of such a place would be a step in the direction of establishing a more healthy condition of affairs in the city both physically and morally."

THE MAYOR.

Mayor Taylor—When I was a boy we had plenty of good swimming in the river near the city, but we had no refineries in those days, and the volume of water was much bigger. There are good places for swimming in the river yet, but hardly convenient. If some of the rinks were used for swimming, we might grant them free water once the new extensions is made. I think that every boy and girl should be taught to swim, but it is not always easy to find cheap and ready means of giving them instruction.

CHIEF OF POLICE WILLIAMS.

Chief of Police Williams—It is an excellent idea to teach habits of cleanliness and ability to swim. A cleanly man is apt to be a good citizen, and to respect himself as well as his neighbors. The swimming bath idea is not new. Away back eight or ten years ago, the Council established baths on the North Branch, and I believe the spot was patronized by young and old, and appreciated. Many boys were taught to swim, and I believe several learned enough to save their lives by the knowledge obtained. I myself know of one case where a boy would have been drowned through falling into deep water if he had not been a swimmer, and he was taught at the North Branch baths. But by some means the boarding was swept away and the baths no longer exist. They should be re-established somewhere.

SEC.-TREAS. HOLMAN.

Mr. A. D. Holman, secretary-treasurer of the Princess Rink, was seen in regard to the utilizing of the rink for the purpose of bathing. He expressed himself as strongly in favor of such an establishment and thought the Princess Rink would be without doubt the best place for the purpose in the city. It would be impossible to do anything towards obtaining it this season, however, owing to the number of engagements for which it had been reserved and to the fact that the directors would not favor the altering of the interior at so late a period in the year and with the prospect of a good season next winter, should the weather be favorable. If the city took hold of the scheme some arrangement might be made with the management for next summer.

WESTERN ONTARIO.

Amherstburg will soon vote on waterworks or no waterworks.

The building of a new Methodist parsonage at Guilds will soon be commenced.

A mad dog was killed at St. Thomas on Monday evening. Fortunately no one was bitten.

An old and highly-respected resident of Bothwell, Mr. Robert Pickett, dropped dead on Thursday afternoon about 4:30 of apoplexy of the brain, aged 62 years.

Mrs. Isabella Martin, South Yarmouth, found while gathering eggs the other morning one which measured eight inches by six inches and seven-eighths in circumference.

James McKenna, of Aylmer, pleaded guilty before Police Magistrate White on Tuesday morning to keeping liquor on his premises, the Station Hotel, and was fined $20 and costs.

On Thursday last a 2-year-old child strayed from the field in which her father and mother were working, about ten miles north of Stirling, in Rowdon township, and has not been found.

As Jas. Galbraith, of Iona Station, was drawing in hay on Monday to his bank-barn, he left the doors open and his colts got in. One of them, a beautiful cream, fell over the front and was killed.

George Langford, of Milverton, lost a valuable horse last week. The team ran away and plunged into Mr. Holmes' wagon. One horse got its leg broken and had to be killed. The other is badly injured but may recover.

Alex. James, a farmer near Uxbridge, took an agency for the Pinless Wire Clothes Line Company and signed what he thought was a receipt for a quantity of the wire delivered to him. It now turns out to be a note for $130, and James must pay it.

The Northwest Transportation Company's new boat Monarch, which will run between Sarnia and Port Arthur, is one of the largest on the lakes. Length, 259 feet; beam, 34 feet 8 inches; depth, 14 feet 8 inches; engines, 2,000 horse-power. The cabins contain 62 state rooms. She will cost when completed between $150,000 and 200,000.

The St. Thomas Times says that, notwithstanding the bad condition of the wheat in the spring time, it has gained so rapidly with the continued heat and rain that many fields in Elgin never looked better, while in other cases crops that were so poor in the spring as to promise no return will turn out a good average crop. There is so far no appearance of rust in this county, although it is making its appearance in Middlesex and in some parts of the Province.

Mr. and Mrs. E. K. Evans, of St. Marys, and their daughter Lou were injured in a collision between the accommodation train on which they were coming from Port Dover to Woodstock and a freight train. Mrs. Evans' injuries consist entirely of bruises she got in rolling down the embankment and she is now all right. Mr. Evans is badly cut about the head and face and his arm and back are injured. Little Lou has a severe cut on the back of her head and is bruised about the body.

Mr. G. W. Ronson, of Courtland, received a special prize at Tilsonburg on Dominion Day for bringing in the biggest load of people to town. He had 46 in his load.

Monday, Aug. 4, has been proclaimed the civic holiday for Paris.

A young man named Joseph Hanley was killed at Port Arthur on Tuesday while coupling cars.

A number of improvements have been made on the Paris waterworks, and more are talked of.

Rev. E. R. Hutt, of Port Dalhousie, has received a call from Ingersoll, accompanied by a handsome prospective salary.

Monday being the last day for payment of the half-years' taxes in Guelph, Collector Hutton took in about $16,000.

The Ontario Government has an expedition at Port Arthur to define the boundary between the Rainy River and Thunder Bay districts, lying between the Canadian Pacific Railway and the Minnesota boundary.

Burglars entered the store of James Stark, Ayr, and blew open the safe. Night Watchman Rutherford, hearing the report, went towards Stark's. The robbers fired three shots at him and hurried off. There was only about $20 in the safe.

The largest barns in the vicinity of Norwich were burnt on July 8. They belonged to J. Stover and were insured for $2,000 and $1,000 on contents. The loss will be heavy as there was considerable stock and machinery destroyed. Insured in the London mutual.

The corner-stone of the new high school at Meaford was laid yesterday with Masonic honors by R. W. Bro. J. Ross Robertson, deputy grand master of the Grand Lodge of Canada. There were present about 200 members of the craft and 2,000 people. Several addresses were delivered.

A very painful accident happened to Mrs. Jas. Dawes, town line, East Nissouri, the other evening. While engaged feeding some poultry in the barn she became frightened at a horse that came running towards her, and in seeking refuge came in contact with a low beam, striking her head and cutting it severely.

Early on Tuesday morning, 8th inst., the building occupied by Wm. Berry, second-hand furniture dealer, Windsor, was damaged by fire. Loss on stock, $1,500; insured for $800. An old man named Howard, who roomed in the building, narrowly escaped death. The bed clothes were on fire when he was aroused.

What came near proving a serious fire broke out in the Davis terrace, west ward, Mitchell, at noon on Tuesday, 8th inst. The block contained five tenements. The two on the west end were almost completely destroyed and the third was seriously damaged. The flames made considerable headway, but after a while the fire was got under control, though not before damage to the amount of $800 was done to the buildings. The loss is fully covered by insurance.

The English Church at Mitchell on Tuesday evening, July 8, held a most successful gathering in the handsome grounds of the postmaster, Mr. W. Hicks. These grounds, which are the handsomest in the town, were ablaze with lanterns, colored lamps and torches. Handsome booths, in which were "Rebecca at the Well" and other characters, and tables, exquisitely decorated with flowers, lent the charm of novelty to the scene. The town band played some excellent music during the evening. The ladies of this church are indefatigable workers, and with Mrs. Taylor at their head, deserve the greatest praise for their work. The receipts were $72.

MAPLE LODGE.

July 8.—One of the largest barns in the country was raised at Maple Lodge Stock Farm Monday. This great building is 70x90 feet, posts 30 feet in length, supported by a solid stone foundation ten feet in height. This farm when completed, as Mr. Smith proposes, will well repay inspection by persons requiring extensive accommodations. Great credit is due Messrs. Neil & Davis for the workmanship-like manner in which the framing was done. The captains were J. W. Paterson and A. E. Hughes, the former being victorious. No accidents.

BOTHWELL.

BOTHWELL, July 9.—An unmarried man named McLaren lately arrived from the north of Ireland and the second day he had been at work was employed at the new iron bridge on the town line between Bothwell and Mosa. Yesterday he felt a peculiar sensation about noon, but kept at work until some time in the afternoon, when he fell. He was taken to Bothwell where three doctors applied the usual remedies, and after being bled by Dr. Pope, rather against the advice of the others, he seemed easier but died this morning about 8 o'clock.

Hay is an extra crop in this locality, but tree fruit is a failure except cherries, which are plentiful.

TILSONBURG.

TILSONBURG, July 7.—Dominion Day was celebrated in a right loyal manner. The demonstration was got up by the firemen. Among other sports there were horse racing on the Fair Grounds, and a very interesting lacrosse match between the town and Port Rowen boys, which was won by the former. The day passed oft in good order. In the evening the firemen turned out about 40 strong and gave an exhibition of their work at a fire. Then followed their torchlight procession and grand display of fireworks until late in the evening. The amateur wheel race was won by Fred Franks, for which he secured a tilting silver pitcher valued at $25.

Mr. Borland's blacksmith shop, which was gutted by fire on Thursday night, is to be rebuilt at once.

On Sunday, July 6, the Baptists baptized a dozen candidates in their faith.

The crops look very promising in these parts. Fruits are a blight, especially apples, pears, plums, cherries, etc.

OIL CITY.

July 9.—On Thursday evening a very successful lawn social was held at the English Church here, under the auspices of the Oil City branch of the Women's Auxiliary. The grounds were prettily festooned and lighted up with Chinese lanterns and the Oil Springs Brass Band furnished a good selection of music. About 500 persons were present. The pastor, the Rev. L. Wood, in a brief speech, welcomed all present. He was glad to see so many friends from Oil Springs and Inwood, and also members of other churches. He hoped that the kindly feelings which were manifested then would always prevail among the Christian churches of the neighborhood. A short address was made by Mr. Lee, of London, referring to the noble work that the auxiliary had done and would continue to do. He urged the members to keep their face to the foe, for there was yet much to do. He called on the men to stand by the workers in the auxiliary and assist them with their sympathy and means, for although the leaders were ready to take upon themselves the bulk of the hard work, they would need the wherewithal to carry it on to a successful issue. A bountiful supply of lemonade, ice cream and eatables was provided, and during the evening ample justice was done to these. Various games were indulged in and everyone returned home, having spent a thoroughly enjoyable evening. Much credit for the success of the evening is due to the energetic president and members of the Oil City W. A. and the friends who assisted them in preparing the grounds. Nor must the band be forgotten. Under the able leadership of Mr. S. Jackson, they greatly added to the enjoyment of everybody by their well selected programme. Though comparatively in its infancy, this band reflects credit on its members and leader in the manner in which they carried out their performance. The Rev. Mr. Wood is to be congratulated on the result of his labors in this parish the past year. Through untiring efforts, the disorganized parish of a year ago is now in a flourishing condition and has good prospects of further advancement.

OUR FRUIT.

The Crop Outlook Throughout Ontario.

Meeting of the Provincial Fruit Growers' Association—Humbugs of Horticulture—Prigging from Baskets.

NIAGARA, July 9.—The summer meeting of the Fruit Growers' Association of Ontario opened last evening at 8 o'clock by a public meeting in the Town Hall. President A. M. Smith, of St. Catharines, occupied the chair. Besides the welcome extended by the local association, Mayor Paffard, on behalf of the town, tendered a friendly greeting. A paper was read by Ven. Archdeacon McMurray, of Niagara, on fruit culture in the old Niagara section. Secretary Woolverton read a paper giving points on peach raising. He said he was still, after an experience of twenty years in which there were more failures than successes, of the opinion that it pays in the Niagara district to grow peaches even if there were only one good crop in five years, and that was "no worse than our luck sometimes has it." A good yield would sometimes pay the owner $200 per acre, and that gave an average of $40 per acre for five years, supposing his luck should be as bad as only one good crop in five years. The subject of fruit culture in the Niagara district was debated, and the decision arrived at was that it is paying.

The association resumed business at 11 o'clock this morning. Mr. D. Nichol, of Cataraqui, gave a paper on "The suitability of the different kinds of trees for the different localities in Ontario, and mistakes made in this matter." It referred to the imposition on farmers by agents, of trees that turned out useless. This would continue, he said, so long as jobbers of trees were not practical men; and that not more than one in 50 farmers looked into a horticultural or agricultural journal. One of the chief reasons that so many farmers' homes looked so desolate was that agents were allowed by nurserymen to sell trees unsuitable for certain localities until farmers had become discouraged by repeated failures. It would be in the interests of the nurserymen if they took pains not to encourage the sale by their agents of trees unsuitable to localities.

Mr. A. Gilchrist, of West Toronto Junction, spoke against the pruning mania that cuts all trees and shrubs into a uniform shape and destroys their beauty. He believed the horsechestnut tree had seen its best days. Around Guelph he knew that thousands of dollars had been wasted in planting them.

Mr. E. Morris, of Fonthill, advocated the pruning of shrubs. Most shrubs would become as unsightly as old currant bushes if left to themselves.

Mr. T. H. Race said he had no paper to read, but on the subject of Humbugs in Horticulture he made a good speech. He placed at the head of humbugs in the line of horticulture the jobber of trees who had not a foot of ground, but was reliant on large nurseries. Mr. Race said he was not a protectionist, but if asked to construct a tariff he would first deal with fruit trees, and would make the tariff prohibitory. Not because he had anything to say against United States grown trees, but it was from over there that the jobbers got their orders filled. The United States nurseries supplied their own trade first and sent what was left to the jobber in Canada. Another style of humbug was the practice of reputable Canadian nursery men sending out catch cards—pushing sales of some particular line without regard to the interest of the farmer who might be induced to buy them.

Mr. P. C. Dempsey gave instances of how farmers had been induced to buy grapevines by beautiful colored plates in journals when the vine was utterly useless in their localities; also how many humbugs of grafting and tree planting had been worked on the poor farmer.

Mr. Race wished to refer to another species of humbug—that of the home-grown tree argument used by small nurserymen in persuading farmers in their neighborhood to buy trees. These small nurserymen took orders for far more trees than they could raise, and, having taken these orders on the home-grown agreement, sent across the line and supplemented their own insignificant home-grown stock by United States trees.

Mr. Cavers, of the Galt nurseries, made an appeal for fairness to the jobber and nurseryman. He asked that the subject of humbugs be looked at from all standpoints, and he pointed out difficulties of the nursery business that had not been taken into consideration in the discussion.

Messrs. J. M. Denton, of London, A. H. Pettit, A. Gilchrist, L. Woolverton, E. Morris, Vice-President Morton and others continued the discussion.

The Vice-President denounced the appointment of agents by nurserymen without their reliability being known.

Mr. W. E. Wellington made a splendid speech in defense of the nurserymen and their methods. He said there was as much honesty in that business as in any other, and by unfaithful agents the nurserymen suffered as much as the farmers.

In the afternoon the reports of the committee appointed to prepare the Ontario fruit list and the district fruit list were received, showing the comparative values of all the varieties of apples for cooking, dessert, export and home market purposes, and the suitability of districts for certain kinds of apples. A committee was appointed to wait upon the Secretary of Agriculture to procure, if it be possible, the printing of the lists by that department and their distribution to every agricultural society in the Province of Ontario.

The question of the best method of selling fruit in the local city markets was taken up. Many favored the auction system if a reliable firm could be obtained to take it in charge. The members complained that at present the commission system was a method of continual loss. Several speakers advocated the use of pint baskets instead of the quart size. Fruit, they thought, would pack less and would get to the consumer in a better condition if a smaller basket were used. The pillaging of baskets while en route in the care of the express companies, roused an indignant outburst. Every man present seemed to have been a sufferer. The outcome was the appointment of a committee to consider how to accomplish a remedy.

FRUIT CROP PROSPECTS.

Secretary Woolverton, whose facilities for judging the fruit crop prospects are excellent, as to him reports are regularly sent from all over the Province for publication, gives this outline of the general outlook:

Apples—A short crop in all southern parts of Ontario. The Northern Spy escaped best. In some orchards there will be an abundant crop. Baldwins and Greenings will be almost a total failure. In northern districts there will be an unprecedented crop generally. Reports from Central New York say the crop there will be as short as in Ontario, owing to the blight.

Pears will also be scarce. The Flemish Beauty in Southern Ontario is very badly cracked and spotted and otherwise made unmarketable. There will be but half a crop of Bartletts. Rostiezer, an early pear, is one variety which has set its fruit well.

Peaches—In the Niagara district the trees have been badly attacked with "curl leaf" and within the last week a large part of the fruit has dropped from the trees. There will be but a scant crop of peaches.

Grapes and Small Fruits—The prospect for grapes is encouraging, the vines being loaded with fruit. The prospect for raspberries and blackberries is most encouraging. The bushes of the latter have an enormous quantity of fruit.

ANOTHER OBSERVER'S VIEWS.

Mr. A. McD. Allen, of Goderich, ex-president of the association, is continually traveling over the Province, and is considered an authority on the fruit crop prospects. He says:

Apples—Prospects in some parts of the Province good, but in Oxford and Bruce the blight set in. The southern part of Middlesex was visited by the blight, and parts of southern Huron and in the east of Perth, and it extends into Wellington and Wentworth. In the east the crop is very light. Up to a week ago the county of Oxford gave the finest showing of an apple crop. Now the fruit does not seem to be progressing. Upon the whole the crop will be under the average very considerably. It will be larger than last year, but that was an off year.

Pears—The crop as a whole will be a good one, or fair to good. Bartletts show for a full crop better than almost any other variety over a large section of the Province. Flemish Beauty is fair. Duchess has utterly failed in a good many sections.

Plums—Plums the largest crop we have along the shore of Lake Huron and in the county of Huron, and even along the shore of Lake Erie it is the best crop they have. In Owen Sound and along the Georgian Bay the crop is good. "Curculio" is worse than for several years. Growers are using Paris green. Upon the whole, the plum crop will be above the average.

Grapes—Grapes will be a good crop; they will be up to a good average. Some growers last year pruned back their vines completely, while others left them to recuperate. The result shows that the latter plan was the best. The unpruned vines show the best crop.

Small fruits are pretty good.

The apple blight is a species of fungus in the atmosphere and is associated with the usual twig blight in many sections. In the pear growing districts we have a blight among trees where we have not had it for years, and also under all circumstances so far as cultivation and soil is concerned.

Try "Montserrat" Lime-Fruit Juice if you would taste a most delicious and wholesome cooling draught.

HURRY THOSE LETTERS.

London has good reason to complain of the manner in which its British mails are delayed. All mail matter coming to this city in recent years has been sent to Hamilton, where it has been sorted and then dispatched. Letters for the old world have been dealt with in the same manner. The delay is a serious loss to business men, and the Railway and Postal Committee of the Board of Trade are determined to have a remedy provided, if possible. They have memorialized the British Government and the authorities at Ottawa, and have secured the co-operation of the British Board of Trade. What is needed is a direct bag to and from London, containing all correspondence to and from Western Ontario. London is the center of railway communication in Western Ontario, and it should certainly be the center of mail distribution. It is to be hoped that the pressure on the postal authorities will speedily have the desired effect. If it does not the fault will not lie with the Railway and Postal Committee of the Board of Trade, which has left no stone unturned to secure a change fraught with benefit to London and the whole of the Western Peninsula.

CHURCH UNION.

There is no reason why the Christian denominations throughout the world should not co-operate in every movement for the amelioration of the condition of the human race. Nor are there good grounds for the denominations keeping apart on this continent. Why, for example, should Canadian Protestant churches not be more united than they are? In combatting popular evils, in helping to make men and women better, in economizing the workingstrength and their resources, they could vastly improve their present standing, progressive though they have been. The city of Ottawa furnishes an example of how easy it is for different bodies to unite to better people when they set their minds to it. There the congregations of Knox Presbyterian Church and the Congregational Church have agreed to worship together for the next six Sundays, meeting in Knox Church in the mornings and in the Congregational Church in the evenings, thus allowing each of their pastors a holiday for three weeks without trouble or expense. This incident is suggestive of many reflections. The example set is worthy of imitation by congregations in other places where, through various causes, summer congregations are slim and the financial resources are not such as to provide for easily meeting expenditures for pulpit supply. Where such an arrangement is possible, there can be no reasonable excuse for denying a pastor his hard-earned holiday.

UNITED STATES SENATE OFFICERS.

It costs something to keep up the dignity of a United States Senator. According to a statement made in the House of Representatives a few days ago, it appears that the Senate provides for 291 officers and employes, exclusive of the reporters of debates, at salaries aggregating $422,296. This gives an average of three official assistants to each Senator at an average salary of $1,451, being $4,353 as the cost of running each Senator. Many of these officers are at once employes of the Senate and the correspondents of newspapers, and it needs no explanation to say that under such circumstances they have no value as public critics in their capacity of correspondents. Every Senator has a private secretary or clerk provided for at the public expense, and the other officers do the general work in the usual civil service way of "how not to do it." The members of the House of Representatives, on the other hand, are served by 320 officers, exclusive of the reporters of debates, whose work is done at a cost of $367,113. This in an average of less than one officer to each member, and at an average salary of $1,116 to each employe. Naturally enough the House of Representatives does not like the comparison, and while it is stated that a majority of the members desire to be put on an equality with the Senators in the matter of clerks or secretaries, they have a sufficient dread of public opinion to take the step of providing such help.

BOYS AND GIRLS SHOULD SWIM.

A bath is a sanitary necessity in every country, but with a summer temperature such as is normal in Canada it is a positive need that cannot be left unattended to without causing serious discomfort if not ill-health. With flowing streams running through the city outdoor bathing is a great temptation for the young, though, notwithstanding the shallowness of the summer flow, not always attended with safety. Indeed, the great drawback in London and in most cities on the continent is the lack of safe and easily-got-at [bathing places for the rising generation. The result is an appallingly large annual crop of drownings through inability to swim. Young men and young women enjoy boating. Why should they not? They are fond of bathing, and it is a pastime that should be encouraged. But accidents will happen; boats will upset, and the unwary will get beyond their depths. Then sad and sudden deaths. Why should this be? No head of a household ought to be contented unless each member of his household is able to swim and to swim well. It is all nonsense to say that it is an accomplishment which can be dispensed with and that inability to swim will act as a deterrent to keep young people away from the water. Lack of knowledge how to comport himself or herself in the water will not keep the average boy or girl away from the river or from the lake when pleasant society is to be found there. Nor is it advisable that the youth of the city should be deprived from participating in such innocent and pleasure-giving out-door enjoyments. Rather should they be encouraged.

London should provide a safe bathing place for boys and girls, where they could learn to swim and yet not get beyond their depths. Once the city organized such a resort and it was extensively patronized and bore good fruits in after years. How the work could be accomplished and the benefits to be derived from it are set forth in the series of citizen interviews in another column.

Now that the ball has been set rolling, our worthy Mayor should make this question his own, and the 6,000 children the other day in review (to say nothing of the adults) will rise up and call him blessed.

PERSONAL AND GENERAL.

—"Mr. Meredith is becoming magnetic," says a Tory organ. Perhaps so, but in the recent elections his battery power was decidedly weak.

‡‡‡

—A communication in a contemporary justly condemns the reckless use of firearms in London and other places. The authorities should pass some stringent regulations which the constables should enforce to the letter.

‡‡‡

—Joseph Chamberlain cannot get away from Great Britain to visit America, as he expected. The whilom ultra-radical, turned almost courtier, is having a hard road to travel as upholder of the Salisbury-Balfour regime.

‡‡‡

—The Grand Forks (Dakota) News asserts that the Canadian system of government comes nearer to the ideas of the Declaration of Independence than does the government of the States, as now carried on. We are indeed the people.

‡‡‡

—Hon. Mr. Laurier is promised a warm welcome by the electors of Yamaska county, Quebec, when he visits that constituency next month. The Liberal leader will no doubt give an interesting address. He is an orator as well as a statesman.

‡‡‡

—Lord Wolesley, though a soldier, does not seem to be a Jingo, at all events as regards the relations of Canada with the United States. His recent letter on the subject is written in the proper spirit. The late adjutant-general of the British forces improves as he ages.

‡‡‡

—London is getting quite a reputation abroad for its good choir singing, though of course all our choirs are not of equal excellence. One of the errors to be avoided is that of attempting too difficult music. Better a modest anthem or hymn well rendered than a majestic composition murdered.

‡‡‡

—Sam Jones is talking temperance down South, and employing quite emphatic language. There has been a good deal of discussion in Canada as to Sam's real abilities. We believe him, in spite of his slang, a man of powerful mind, often Shakespearean in descriptive directness, honest and fearless.

‡‡‡

—In the Episcopalian Church of St. Thomas, in New York, a great effect is produced by the concealed choir. One's attention is not distracted by the combination in a singer's dress of "colors that swear at each other," nor by being compelled to wonder why the short tenor is so incongruously placed between the two tall ones.

‡‡‡

—Rev. Dr. Stafford, of the Toronto Sherbourne Street Methodist Church, has gone to Great Britain for a six-weeks' vacation. Dr. Stafford, who, as a young man, was stationed at Newbury about the time the ADVERTISER was established, has developed steadily, and is to-day probably the most original preacher in the Canadian Methodist Church.

‡‡‡

—In addressing the graduates of the New York Normal School the other day, General Sherman uttered some wholesome truths which are capable of general application. He said that labor is honorable and that it is better to sweep streets or train blackberry bushes than to go around begging from your friends. There is really more money in it in the long run.

‡‡‡

—Discussing the high tax instrument of the Dominion Government, the Toronto Empire says: "No tariff was ever more truly entitled to be called a poor man's tariff." For once we agree with our contemporary. The tariff, as now operated, does more to make the large majority of Canadians poor and to keep them poor than any other agency in the Dominion. It's a poor man's tariff without a doubt.

‡‡‡

—Judge, the New York comic paper, is illustrating The Great American Hog. The last issue depicts the hog as follows: (1) The Hog that smokes bad cigars and blows the smoke into other people's faces; (2) the tobacco-chewing Hog; (3) the Hog that stares at women on the street; (4) the chair-monopolizing Hog. In a former issue were given the Hog which stolidly occupy seats in street cars while women stand. This latter Hog is the least gentlemanly Hog of all.

‡‡‡

—The British Medical Journal, considering the danger of kissing the usually greasy Bible of the law courts, recommends that a clean wrapper of paper be put on from time to time. This was done lately for the benefit of the Duke of Fife, a recent witness, and it is approved as a desirable practice. Here is a hint that should be taken by the clerks in our police and high courts. Better still, however, would it be to simply swear the witness after the Scotch fashion, by holding up the right hand. It is equally binding.

‡‡‡

—The Congo Free State has got the length of negotiating a loan. This establishes its right to rank among civilized nations. Only savage communities have no public debt.—[Montreal Gazette.

Our contemporary surely is not a Rip Van Winkle. Ontario is the most progressive Province in the Dominion; its people do not run around clothed in tatoo marks; but they have no public debt. They live, moreover, in the hope of some day seeing the Dominion in the same enviable position. The sooner the debt-increasing mania is overcome the better.

‡‡‡

—It seems to be no more safe for a man to be his own banker than his own lawyer. That is the moral which is conveyed by the experience of Farmer Driemiller, of Lockport, Ill., who was robbed of $1,100 in gold the other night. He was afraid to trust his money to banks and was also afraid to invest it for fear of losing it. He kept it concealed in a bucket hung in the cistern, the opening of which was inside the house. When Driemiller took a peep in the morning to see if the bucket of gold hung in place it was gone.

‡‡‡

—Though the ADVERTISER is opposed to Sunday steamboat excursions on the river, it must not be supposed that it does not approve of this agency for recreation on week days. There is not a prettier sail than that down the river, nor a better place for a picnic than Springbank. The boats should be well patronized on week days, and as the last trip is made at a reasonable hour in the evening there is no reason why those who cannot visit the cemetery during the day should not go down after work hours, at least while the days are long.

‡‡‡

—At the first sitting of the Ontario Prison Commission in Hamilton, the Governor of Wentworth Prison said he believed crime was spread more through the association of boys with bad men outside rather than inside the prison walls. He was not in favor of the cellular system, because the moral and physical effect would be bad, but he believed in hard labor. When it was known that there were stones to break in Hamilton jail vagrants kept away from the city. Whisky was pre-eminently the first cause of all crime, in the opinion of this jailor, and ignorance, chiefly due to whisky-drinking, was the next cause. The Welland jailer gave corroborative evidence. The concensus of the expert opinion given was that the sober man rarely came under the jail roof as a prisoner.

It is a pity that lacrosse is so frequently accompanied by savage brutality. The match between the Cornwall and Toronto teams emphasizes the necessity for players being encased in armour or being armed with revolvers. And it is almost more to be regretted that a large proportion of the spectators are given to cheering the brutalities of the side with which they sympathize, and insulting the men of the other team.

A WORD WITH YOUNG MEN.

Young Men's Era.

Save your earnings. An old man counseled me, when very young, the wisdom which I have demonstrated, that a man's success in this world does not consist in what he earns, but what he takes care of and saves. If your salary is small, save something of it, be it ever so little—for old age, for sickness, for a wet day. Finally, young man, set your mark high. Enter upon its pursuit at once and persevere to the end, that you may be a successful business man and make the world better for having lived in it.

Save Your Hair

BY a timely use of Ayer's Hair Vigor. This preparation has no equal as a dressing. It keeps the scalp clean, cool, and healthy, and preserves the color, fullness, and beauty of the hair.

"I was rapidly becoming bald and gray; but after using two or three bottles of Ayer's Hair Vigor my hair grew thick and glossy and the original color was restored."—Melvin Aldrich, Canaan Centre, N. H.

"Some time ago I lost all my hair in consequence of measles. After due waiting, no new growth appeared. I then used Ayer's Hair Vigor and my hair grew

Thick and Strong.

It has apparently come to stay. The Vigor is evidently a great aid to nature."—J. B. Williams, Floresville, Texas.

"I have used Ayer's Hair Vigor for the past four or five years and find it a most satisfactory dressing for the hair. It is all I could desire, being harmless, causing the hair to retain its natural color, and requiring but a small quantity to render the hair easy to arrange."—Mrs. M. A. Bailey, 9 Charles street, Haverhill, Mass.

"I have been using Ayer's Hair Vigor for several years, and believe that it has caused my hair to retain its natural color."—Mrs. H. J. King, Dealer in Dry Goods, &c., Bishopville, Md.

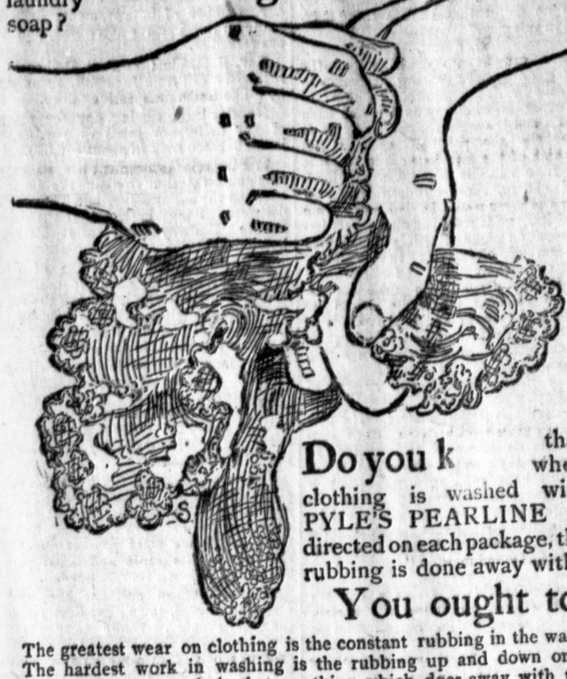
Sold by Druggists and Perfumers.



Do you know that this is the treatment your finest clothes receive when washed with the ordinary laundry soap? You ought to.

Do you k that when clothing is washed with PYLE'S PEARLINE as directed on each package, the rubbing is done away with? You ought to.

The greatest wear on clothing is the constant rubbing in the wash. The hardest work in washing is the rubbing up and down on a board. You must admit that anything which does away with the rubbing, and is withal harmless, saves the wear and tear on the things washed as well as the poor woman who does the work. We claim that PEARLINE is that thing. The many millions of packages sold annually would seem to substantiate our claim.

Beware Peddlers and some unscrupulous grocers are offering imitations which they claim to be Pearline, or "the same as Pearline." IT'S FALSE—they are not, and besides are dangerous. PEARLINE is never peddled, but sold by all good grocers. 137 Manufactured only by JAMES PYLE, New York.

CERTIFICATES OF STRENGTH AND PURITY

OFFICE OF THE PUBLIC ANALYST.

MONTREAL, Sept. 9, 1887.

To the Canada Sugar Refining Co., Montreal.

GENTLEMEN,—I have personally taken samples from a large stock of your Granulated Sugar, "REDPATH" brand, and carefully tested them by the Polariscope, and I find these samples to be as near to absolute purity as can be obtained by any process of Sugar Refining.

The test by the Polariscope showed in yesday's yield 99.90 per cent. of Pure Cane Sugar, which may be considered commercially as ABSOLUTELY PURE SUGAR.

What is Scrofula

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or many other manifestations usually ascribed to "humors." It is a more formidable enemy than consumption or cancer alone, for scrofula combines the worst possible features of both. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How can it be cured? By taking Hood's Sarsaparilla, which, by the cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. For all affections of the blood Hood's Sarsaparilla is unequalled, and some of the cures it has effected are really wonderful. If you suffer from scrofula in any of its various forms, be sure to give Hood's Sarsaparilla a trial.

THE DEPARTING PROFESSIONALS.

The members of the ex-Tecumseh Baseball Club are rapidly separating from each other. Lutenberg and Reidy left on the 7:30 train this morning for Terre Haute, Ind.; Demaris and Wright boarded the 11:40 train to join the Chicago National League team, and Leighton and Friel leave to-morrow morning for Louisville to meet the Syracuse Stars there. Mickey Jones does not wish to go to Minneapolis and has signed with the Buffalo Brotherhood team. Connors received a telegram from the St. Paul management and wired back his terms. Hiland is in the city yet, and although wanted by Minneapolis has not decided where he will go. His wife and family are with him and he has no money. The balance of the team will go to their respective clubs this week. Wally Fessenden will in all probability be appointed to the management of the Syracuse aggregation.

STARS AND CORKERS.

A game of ball was played on Hunt's flats yesterday afternoon between the Stars, of the north end of the city, and the Corkers, of London South, resulting in a victory for the Stars. Score by innings:

FLYS.

Esterbook is back again at first in New York.

Donovan, late of the Boston National team and the Tecumsehs, has been signed by Brooklyn.

The Toronto hotel baseball team comes to London Tuesday next to play a game with the London hosts.

The property of the Grand Rapids baseball team has been attached on account of debts amounting to $500.

Grim, of the Torontos, will probably go to Rochester, though he has also an offer from the Philadelphia National League team.

President Phelps has appointed Wesley Curry an American Association umpire. He has been umpiring in the International League.

The players of the Tecumseh baseball team have placed their case in the hands of Mr. Ed. Meredith, believing that the directors have not dealt fairly with them.

The London International League club has gone to the wall. This is the beginning of the grand smashup that will take place in the near future.—[Cleveland Press.

The Imperials and Riversides, two of London's crack amateur teams, will contest for supremacy at Tecumseh Park on Saturday. A good game may be looked for. London Westers expect great things of the Riversides.

The Windsor Beavers have organized as follows: C. Latulip, president; H. Latham, secretary; Will. Aldred, treasurer; Ed. Glasgow, manager, and Harry Veasey, captain. They are open to challenges from all amateur clubs.

Two members of the Toronto baseball team indulged in a disgraceful fight at the Grand Trunk station just before the train left last evening. One used a club and the other a knife, and they were both bleeding considerably when the train moved off.—[Hamilton Spectator.

There is now no doubt that the International League has ceased to exist, and there is little probability of its reorganization this year. The Toronto players were paid off yesterday, and it appears quite likely that they are the only team in the league to be paid in full.—[Toronto Globe.

Notwithstanding the efforts of the directors to keep the team together, the ex-Hams went to the wall on Tuesday. The directors were plucky to keep the team going as long as they did in face of the poor support they received. It will be many a long day before there will be a professional team in Hamilton again. Every season since the International League was organized thousands of dollars have been lost by gentlemen who took an interest in the game, and considered that it was a good advertisement to have the city represented in the league. The players are finding a good deal of fault because their salaries were not paid in full. As soon as the team disbanded the players opened negotiations with other teams. Hulin will go to Portland, Ore., Pitcher Petty to Minneapolis, and Latouche to Oneonto, N. Y. Eddie Sales has received an offer from the Pittsburg League team, and will likely sign there. Casey will probably go to Jamestown, N. Y., and Dowie to Minneapolis. Dowie received an offer from the Portland, Ore., team. Cartwright has gone to St. Louis, but Director Mackaye says he will play in Rochester or nowhere. —[Hamilton Spectator.

THE TURF.

There were fully 1,800 people at the second day's racing in Windsor Driving Park Wednesday.

At the races at St. Paul, Minn., Wednesday, Fred. Arthur attempted to beat 2:12½. He made the mile in 2:13¾.

The running race between Bass Viol, of Toronto, and Victor, of Belleville, has been declared off. Bass Viol is lame.

Merry's Surefoot won the race for the Prince of Wales' stakes at Leicester, Eng.; the Duke of Portland's Memoir second, and Houldsworth's Alloway third.

The Simcoe races will be held on the 29th and 30th July. The first day's events will be in the 3:00 trotting stake for $250, with 6 entries; free for all trotters and pacers, purse $200, and the Norfolk county colt stakes for foals of 1886, $25 each; 12 entries have made good their second payment. The second day takes in the 2:40 trotting stake for $250 with 7 entries, and a green race for $150 for horses (trotters only) owned in the counties of Norfolk, Oxford, Brant and Haldimand that have never started in a race prior to the 23rd of June, 1890.

In regard to Mr. W. H. Birrell's statement that the horse entered as Grey Tobe had a record of 2:18, and has been known for some time as Grey Bennie, T. S. Johnston, of Goderich, owner of the horse, says: "Grey Bennie is a weaver and dark grey, and stands only fifteen hands high, while Grey Tobe is a white horse, and stands sixteen hands high. Grey Tobe is not and never was Grey Bennie, and if Mr. Birrell can find $100 to back up his rash statement I shall cover it and hand his money over afterwards to the London General Hospital or any other public charity named by the stakeholder."

The Pytchley stables' contingent of horses, comprising Lexington, Pericles, Ida Girl and Slickaway, left the Bel-Air race course yesterday afternoon for Saratoga, to take part in the races to be held there at the end of the month. Mr. T. H. Love's string of horses, comprising Sunderland, Rosebank and Courtlandie, and the Colt Rob Roy, which Mr. Love has recently purchased of Dr. Craik, of this city, will leave for the same destination. It is expected that some of Mr. J. P. Dawes' horses will follow in course of a few days.—[Montreal Herald.

CRICKET.

Charles Hannan, a boy of 12, has been killed at Hanwell, England, by a blow from a cricket ball.

By the way, mention of Cambridge's huge score of 703 for nine wickets reminds me of one very noteworthy feature which does not seem to have attracted the notice it deserves. Butt, the Sussex wicket-keeper, only allowed one bye to pass during that long inning. This is an achievement of which that county stumper has good reason to be proud.—[Cricket.

The Australians have now lost seven matches against five victories and two drawn games. Gregory still heads the batting statistics, but his average is only 18.61, Barrett, thanks to his two displays at Bradford, being second with 18.47. Ferris averages 18.05, Lyons 17.58, Murdoch 16.47. Turner 16.30, Blackham's having been reduced to 16.17 and Trott's to 15.95. Turner has a better bowling average than Ferris, with 81 for 1,173 runs, against 83 for 1,306 credited to Ferris.

THE LONDONERS' TOUR.

The matches for the tour in August have now been arranged as follows: Aug. 16, Windsor; Aug. 18, Detroit; Aug. 19, Cleveland; Aug. 20, Buffalo; Aug. 21, Niagara; Aug. 22, Toronto; Aug. 23, Hamilton. The following cricketers have signified their intention of accompaning the eleven: Captain Young, Messrs. Geo. C. Gibbons, R. A. Bayly, A. B. Cox, H. C. Beecher, N. P. Graydon, R. O. Shaw-Wood, Major Peters as umpire, and Mr. Booker as scorer. It is hoped that about twenty cricketers will join in the tour, including such well-known players as Messrs. Hyman, Lefroy, Butler, H. C. Pope, Grew, Dr. Beemer, Dr. Williams, Complin, J. H. Pope, Lieutenant Holmes and Hume Cronyn. If any such team can be got together, with Mr. Hyman as captain, an eleven could be put in the field each day that should have a fair chance of winning, even against Pittsburg, Pa., from which club a scratch team will be formed to meet London's "Tourists" on the polo ground at Cleveland. The 21st at Niagara-on-the-Lake is fixed for the Ontario tournament of bowling on the green, and will be a holiday for the cricketers prior to hard matches in Toronto and Hamilton.

THE WHEEL.

Indianapolis has six lady riders and a cycling population of about 350.

The chief of the fire department of Brighton, England, goes to fires on a bicycle.

Philadelphia has 6,000 bicycle riders and four bicycle schools in which ladies are taught to ride.

Mr. Frank Shorland, of Southgate Cycling Club, England, the other day on a bicycle beat the coach record between London and Brighton and back without changing his mount, doing the entire distance in 7 hours 19 minutes.

Robert Baltsman and George B. Taylor, two young cyclists from Erie, Pa., arrived in the city last night and witnessed the finish of the F. C. B. C. race in Victoria Park. They are members of the Erie Bicycle Club and are making a tour of the country. They pronounce the roads in fine condition, and speak well of the treatment accorded them by the various Canadian clubs along the line. They came by way of Suspension Bridge.

RUN FOR THE MEDAL.

The final race of the Forest City Bicycle Club for the Irvine medal was run last night. The start was made from Lucan at 6:30, under the direction of Miss Minnie Armitage, of that town. The four contestants were: Lawrason, Tune, Owens and Brebner, and they led off in the same order. About two miles out Owens took second, and Lawrason led off, with Tune and Brebner in the rear. This order continued until Glass' Corners were reached, when Lawrason, 250 yards in the lead, took a severe header and broke one of the handles of his wheel. Owens overtook him and arrived at the Guns in Victoria Park at 7:32½. Lawrason made a plucky run during the last fifteen miles, with his handle broken, and finished three minutes behind Owens, amidst the hearty cheers of the crowd. Brebner arrived one-fourth minute behind Lawrason, and Tune the same distance from Brebner. Distance 18 miles. Time, 1:02½.

Owing to Owens and Lawrason being tied in points, another race will have to be run between them. It has been decided to run the finish on the Queen's Park track next week, the distance to be eighteen miles. The points to date are as follows: Lawrason 16, Owens 16, Tune 13, Brebner 5.

LACROSSE.

In the lacrosse match played at St. Marys Tuesday against the Tuscarora Indians, the home team won by a score of 4 games to 2. Time, 1 hour and 48 minutes.

The scheduled lacrosse match in the C. L. A. to have been played at St. Catharines Wednesday, between Brantford and St. Catharines, goes to the home team by default.

CURLING.

The Grand National Curling Club of America met in Toronto Wednesday. Officers of the Grand National had a conference with the President and representatives of the Ontario branch of the Royal Caledonian Curling Club, and terms were arranged for international matches, the first to be played in Toronto in January, 1892, and at least once in five years thereafter. The general annual meeting was held in the afternoon. The following officers were elected: President, Major John Peattie, of Utica, N. Y.; vice-president, John McCullock, St. Paul, Minn.; second vice-president, General Robert Lennox Banks, of Albany, N. Y.; secretary-treasurer, David Foulis, New York.

THE OAR.

C. G. Psotta, the American amateur sculling champion, competed with G. E. B. Kennedy in the first heat for the diamond sculls, at the Henley regatta. Kennedy won the heat by four lengths.

LONDON, July 10.—The final heat in the race for the diamond sculls at Henley regatta was rowed to-day and won by Guy Nickalls, who thus secured the prize.

LONDON, July 10.—Psotta's refusal to take advantage of his opponent's upset in the Henley regatta is much praised in rowing circles. An address will be presented to Psotta, and probably a testimonial will be subscribed.

The Testimony

Of hundreds of druggists bear here witness to the efficacy of Polsons NERVILINE as the most potent pain remedy in the world for all kinds of pains. Nerviline is composed of newly discovered ingredients, and is equally good for internal or external use. Purchase a ten-cent sample bottle, and test it at once. T. T. Melville, Prescott, writes: "My customers who have used Nerviline speak highly of it, and I am satisfied it will take a leading place in the market before long." Try Polson's Nerviline for pains. Sold by druggists and country dealers everywhere.

Peculiar

In the combination, proportion, and preparation of its ingredients, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in its good name at home, which is a "tower of strength abroad," peculiar in the phenomenal sales it has attained, Hood's Sarsaparilla is the most successful medicine for purifying the blood, giving strength, and creating an appetite. w

"IT'S ONLY A COUGH" has brought many to untimely graves. What is a cough? The lungs, throat or bronchial tubes have been attacked by a cold; nature sounds an alarm-bell telling where the disease lies. Wisdom suggests "TRY Wistar's Balsam of Wild Cherry;" it has cured thousands of persons. As long as you cough there is danger, for the cough is a Danger Signal. Use "Wistar" and be cured. None genuine unless signed "I. BUTTS" on wrapper.

R. J. YOUNG & CO.

All through the store we offer exceptional value to customers. We do not take much stock in so-called clearing sales. Nine-tenths of the sales advertised are mere clap-trap dodges to catch customers. R. J. Young & Co. are not ashamed of their prices, as our prices do not need such paring down as some of the fancy prices asked elsewhere. Our regular prices are lower than some stores' reduced prices. We buy our stuff right, and are in a position to sell right.

To-day we have a bargain table of Dress Materials at half price. These are right in style, but only 1 or 2 pieces of each kind, and the reduction is to clear them out.

Boys' Hats, 25c., worth 50c.

LOCAL MARKETS.

Reported by A. M. Hamilton & Son.

LONDON, Thursday, July 10.

There was a quiet trade done on this market to-day. The deliveries of grain were light and prices very steady. Wheat and oats were the only lines offered; the former sold at 98c per standard bushel and $1 55 to $1 65 per 100 pounds, and the latter from $1 10 to $1 12 per 100 pounds. Old potatoes were almost a blank; a few bags were offered at $1 50. Fruit was in moderately good supply and sold at reasonable prices. New hay is coming in and sells at $5 to $6 by the load and $6 to $6 50 by the ton. General quotations are as follows:

The Dairy Markets.

WOODSTOCK.

July 9.—5,482 boxes were offered on board; 2,260 were sold; 1,595 at 8½c, 330 at 8½c and 340 at 8 9-16c; market active.

Live Stock Markets.

TORONTO.

July 8.—About 42 loads on sale here this morning. There were in the neighborhood of 500 sheep and lambs, about 300 calves, and over 200 hogs. Cattle were unchanged but weaker. The export trade is not worth speaking of. Cables from England this morning announced better prices, but the season is too far advanced now for any change to occur that can result in more than a very temporary advantage. The demand for export sheep is active and steady, but in cattle stockers are the only kind that sell well at from 3½c to 4½c per pound. Stall fed cattle sold at 4½c to 4½c per pound, but there were only a few of them.

Sheep and lambs—Active, firm, and wanted. Lambs sold well at from $4 50 to $4 75 per head. Sheep sold at from $5 to $6 each; the supply was small; about 350 export sheep sold at about these figures. Both sheep and lambs are sure tobe in steadily increasing demand from now. Lambs were in very good demand at as high as $5 each for extra fine.

Calves—Firm and active at $6 to $8 for good and $11 for the best offerings.

Hogs—Good, light, fat hogs are wanted at $5 25 per cwt; stores are wanted at $4 75. Light fat were in good demand at $5 25 per cwt. All sold readily through.

Petrolea Oil Market.

PETROLEA, July 10.—Oil opened and closed to-day at $1 17.

The Horse Market.

TORONTO.

July 9.—At the sale of horses at Grand's yesterday prices were in favor of the buyers. A car load of first-class workers, running from 1,100 to 1,400 lbs, sold from $125 to $175 each.

The Dairy Markets.

PETERBORO.

July 8.—At the Peterboro and Victoria cheese board to-day there were boarded 4,061 boxes, last half of June. Sales at 8½c, a few factories declining this figure.

LONDON AND PRECINCTS.

—The Christ Church Sunday school annual picnic will be held at Port Stanley to-morrow.

—The storm on Tuesday struck a summer cottage being erected by Canon Smith in Port Stanley and broke some rafters and did other slight damage. The injuries were repaired, however, in a short time.

Joseph and William Craner appeared before Squire Jarvis this afternoon charged with being accomplices in stealing a horse from John Chicken on June 9. The cases were dismissed. Wm. Fenner was arrested some time ago on the same charge and pleaded guilty.

—A very enjoyable day was spent yesterday by the Elizabeth Street Sunday school at Springbank. About 225, parents and children, took advantage of Captain Foster's boats to the pleasure grounds of that place, where, by his kindness, everything is supplied for the comfort and pleasure of picnickers. They returned about 6 o'clock in the evening, all well pleased with the day's outing.

—The Postoffice Department has inaugurated a new system of refunding money to depositors in the postoffice savings banks, and it is now in force in the postoffice here. Checks are forwarded in lieu of money, thereby assimilating the practice of the department to that of the Government savings bank operated by the Finance Department. By arrangement between the Government and the banks these checks will be cashed at par by any chartered bank in the Dominion.

—Mr. Henry S. Reed, of Central avenue, for several years foreman in one of the departments of the McCormick Manufacturing Company, has left London for Toronto, where he has secured a valuable position. Mr. Reed is an expert in his business, a man of push and perseverance—one of the class of citizens that London is loath to loose. He has many friends in this city, who regret his departure, but wish him success wherever he may make his home.

—About 1,000 pleasure-seekers visited the garden party held on St. Mary's school grounds, under the auspices of Branch 105 of C. M. B. A., yesterday evening, when they were entertained in first-class style by the "D" Military College Band. The refreshment table, sumptuously prepared, under the supervision of Mesdames Fitzhenry, Kearns, Lenehan, NcNeil, Durkin, Loughlan, Smythe, Fitzmaurice and Trayner, was largely patronized throughout, as also the cigar table under the care of the young men.

A School Board Trouble.

It is likely that the next meeting of the London School Board will be a lively one. There is at present friction between Principal Woods, of the Collegiate Institute, and various members of the Board, the full extent of which may then be made known. Just now it can safely be said that there are trustees who would not be at all opposed to a resolution on the part of the Principal to exercise the grace of resignation.

Ontario Government Appointments.

At a meeting of the Ontario Cabinet on Wednesday afternoon, A. W. Thompson, of Port Arthur, was appointed sheriff of Thunder Bay; James Meek was made clerk of the District Court and W. C. Dobie, police magistrate, vice Thompson.

Business Embarrassments.

The Talk of the Town.

The great auction sale now going on at the Princess Rink. Have you been there? The bargains last night were something wonderful. Silver tea sets, candelabrums, gold watches, clocks and jewelry were sold regardless of cost, and numbers of our citizens this morning find themselves possessors of beautiful articles purchased for less than half the cost of production. Some of the finest goods will be sold to-night. The rink presents a beautiful appearance, and the enormous stock fills it up and shows to perfection. The assortment of goods is the largest ever seen in London. The sale to-night will commence sharp at 8 o'clock. It is expected to clear out everything in the next four days; it only remains for the people to turn out in numbers and carry off the goods at their own price. b

BEECHAM'S PILLS cure Sick Headache.

We have no hesitation in saying that Dr. J. D. Kellogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhœa, cholera and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. Mothers should never be without a bottle when their children are teething.

He who fights and runs away may get shot in the back.

Worms cause feverishness, moaning and restlessness during sleep. Mother Graves' Worm Exterminator is pleasant, sure and effectual. If your druggist has none in stock, get him to procure it for you.

Tragedy—Eggs for applause.

Mr. Job Scales, of Toronto, writes: A short time ago I was suffering from Kidney Complaint and Dyspepsia, sour stomach and lame back; in fact, I was completely prostrated and suffering intense pain. While in this state a friend recommended me to try a bottle of Northrop & Lyman's Vegetable Discovery. I used one bottle, and the permanent manner in which it has cured and made a new man of me is such that I cannot withhold from the proprietors this expression of my gratitude."

MAD OR MESMERIZED.

A TALE FOR THE TIMES.

"Not only is it weak and foolish, it's downright wicked!"

The speaker was John Hardacre, a handsome young fellow whom I knew very well; and he delivered himself thus emphatically as we were leaving the house of a fashionable lady I will call by the good old name of Mrs. Leo Hunter a few evenings ago. She had had an evening devoted to the latest craze—hypnotism, which seems to me to be pretty much of the same thing, under a new name, as an old wonder known as mesmerism. The army of Ists of all kinds had been present in force, but not one of the mixed company had the candor to place the three letters f-a-d before the affix. So true is it that plain speaking is a thing of the past.

Though still young, Jack, who is a flourishing city banker, was early in his life, through exceptional circumstances, the occupant of a responsibe post in his uncle's bank at Loxsands, in the Midlands. As we hurriedly chartered an hansom to drive to his chambers he continued a fierce tirade against hypnotism and all its works, declaring his opinion, in extremely strong terms, that the mystic art, with other mysticisms, emanated directly from the Father of Lies. The jolting and rattling of the cab prevented my saying or hearing much. It was not until we were resting in his cozy Bond-street flat that he proceeded to give a detailed reason for the remark I have set down at the head of these lines. Suppressing my interruptions and questions, I proceed to relate the weird experience told me, with considerable emotion, by my friend.

* * * *

It's about ten years ago (said Jack, meditatively, as we filled our glasses and lit our pipes), how time flies! I had been two or three years at my uncle Dayne's bank; as he had taken a fancy to me, my promotion was in active progress. A month or two previously his right hand man had suddenly died, and I was filling his place to my uncle's satisfaction. Each of us had entire confidence in the other, and I was trusted implicitly. Indeed it was a happy family circle altogether. One of my aunt Dayne's distant connections, a very pretty orphan, Mary Burnside, who had been practically adopted by my generous relatives some years before, lived with them. Loxsands was not a town then, and we all resided, in quiet, provincial fashion, in a roomy house adjacent to the bank.

She was engaged to be married, and her fresh unspoiled beauty was sweet to look upon. Unluckily, through exposure to the weather at a rainy picnic, she became subject to the most distressing attacks of rheumatic pain in the right arm. How little can one foresee the chain of events! Had it not been for that hateful picnic Mary Burnside would probably have been alive at this moment.

Her disablement increased daily, and all the best orthodox medical skill was unable to exorcise the demon who had her in his grip. As a last desperate resort, my uncle was resolved to try what a mesmerist, one Herr Prest, who was at that time making a metropolitan sensation, could do towards relieving, if not curing, the disease. In an evil moment, we telegraphed to the man, who promptly replied, following his message early the next day.

Despite his name, we soon found by unmistakable signs that he was an American, and a very bad specimen of his race. He was thin and wiry, and his complexion was of a painfully sallow hue, his hair dark, and his eyes piercing and hawk-like. He gave the impression, however, of a man having a considerable stock of nervous energy in reserve. None of us liked him, and our dislike did not decrease on acquaintance. He began his mountebank treatment, of "passes," and the rest of the chartlatanry, at once. Mary, who was highly-strung in temperament, felt, or imagined that she felt, some benefit from his efforts.

The fees he extracted from my uncle were heavy, but it was settled that as his patient seemed to be going on well, the fiend—I can call him nothing else—should stay with us, and continue his mysteries twice every day. I noticed very soon after the scamp came to us that Mary used to hang on his words and actions in a strangely fascinated way, and always appeared to be uneasy if he were absent.

One afternoon she took a quiet opportunity to tell me how deeply, and all against her will, she was under the influence of that vile snake. Here was a cruel position, for an engaged girl to be in.

"I hate him Jack," I remember her saying in a frightened way, with an anxious glance over her shoulder to see if the villain had not returned; "but so great is the power he has, somehow or other, obtained over all my thoughts and deeds that I would do anything—no matter what—that he told me to do!"

"Hush, you are only nervous," I said, horror-struck in spite of myself. "There can be no foundation for such morbid feelings." "If I could only think they were morbid, Jack," she said, sadly, relapsing into silence as the wretch whose malignant powers she had been describing entered the room.

My relatives were going to spend the evening with some friends at a little distance from Loxsands, so that Mary and I and the brute Prest—it is difficult to say with how much loathing that man inspired me—were to be left in the house alone. My uncle put his head into the room where I was sitting with Mary and the mesmerist, the three of us making a pretense at conversation, just before leaving in the carriage with my aunt.

"Oh, Jack," said he, "I suppose you saw that those Blenkinsop papers were put away all right this afternoon?" "Yes, they are perfectly safe," I replied, rather marveling at the unwonted and imprudent line my uncle had taken in mentioning them before Prest. And I went out of the room to reassure him in a few hasty sentences. It was not till then that I learned the nature of the papers entrusted to our charge. They were made up in a small packet, and they were very valuable, "securities to bearer," which a lawyer in the town wished us to safeguard for a few days.

When my uncle had left, I returned to Mary and the mesmerist, whose presence was intolerable to me; but I could not ask him to go away, and did not wish him to be left alone with his victim who had already received the proper amount of mesmerism for the day. The evening dragged on, with desultory talk, and a little reading by each of us; but still the look of dread and fascination did not leave Mary's face as I should have liked to see it. Moved by an altogether undefinable prompting, I did absent myself once, for a few minntes, when I quickly made sure, by ocular evidence, that the papers were still safe in the bank.

FUN, FACTS AND FICTION.

A Judicious Compound of Wit and Wisdom.

No matter what may be the ills you bear from indigestion, a dose of Ayer's Cathartic Pills will ease you without question. Just try them once and be assured; they have much worse dyspeptics cured. You'll find them nice and amply worth the price.

Laziness grows on people; it begins with cobwebs and ends in iron chains. The more business a man has to do the more he is able to accomplish, for he learns to economize his time.

Carter's Little Liver Pills must not be confounded with common Cathartic or Purgative Pills, as they are entirely unlike them in every respect. One trial will prove their superiority.

Frugality, diligence, punctuality, veracity—these are the grand fountains from which money and all real values and valors spring for men.

"Hair Magic'

Is a good name of Dr. Dorenwend's German preparation for the hair. It really works like magic. All who have used it pronounce it to be unequaled for remedying the lost vitality of the hair roots, restoring gray hair, removing dandruff, etc. Just try it. It is first-class. All druggists sell it.

Harmless mirth is the best cordial against the consumption of the spirits; wherefore, jesting is not unlawful if it trespasseth not in quantity, quality or reason.

A man's wife should always be the same, especially to her husband; but if she is weak and nervous and uses Carter's Iron Pills, she cannot be, for they will make her "feel like a different person," at least so they all say, and their husbands say so, too.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and cause a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

When one has lost the sentiments of pity out of his heart, he is not fit to live in such a world as this. He might do for some other one, where there is no sin or suffering, if there be such a one; but here our compassions must be in constant exercise if we are to live to any good purpose.

Mothers

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation; its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 25 doses, 35 cents.

However good you may be, you have faults; however dull you may be, you can find out what some of them are; and, however slight they may be, you had better make some patient efforts to get quit of them.

Why will you allow a cough to lacerate your throat or lungs and run the risk of filling a consumptive's grave, when, by the timely use of Bickle's Anti-Consumptive Syrup the pain can be allayed and the danger avoided? This Syrup is pleasant to the taste, and unsurpassed for relieving, healing and curing all affections of the throat and lungs, coughs, colds, bronchitis, etc.

All Men

young, old, or middle-aged, who find them selves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of vitality, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensation about the scrotum, wasting of the organs, dizziness, specs before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with LEADEN CIRCLE, oily looking skin, etc., all are symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension every function wanes in consequence. Those who through abuse committed in ignorance may be permanently cured. THE WORLD OF WOMEN.

Insight.

On the river of life, as I float along,
I see with the spirit's sight
That many a nauseous weed of wrong
Has root in a seed of right.
For evil is good that has gone astray,
And sorrow is only blindness,
And the world is always under the sway
Of a changeless law of kindness.

The commonest error a truth can make
Is shouting its sweet voice hoarse,
And sin is only the soul's mistake
In misdirecting its force.
And love, the fairest of all fair things
That ever to men descended,
Grows rank with nettles and poisonous things
Unless it is watched and tended.

There could not be anything better than this
Old world in the way it began,
And though some matters have gone amiss
From the great original plan;
And however dark the skies may appear,
And however souls may blunder,
I tell you, it all will work out clear,
For good lies over and under.

—[Ella Wheeler Wilcox.

Stanley's Intended.

Eugene Field, writing from London to the Chicago News, says: "Tall, robust, handsome, rather inclined to embonpoint, with fair hair, deep blue eyes, a straight nose, a lovely complexion, white teeth, full mouth, small dimply hands and pretty feet is about the description of the lady who will become Mrs. Henry M. Stanley next month. Miss Dorothy Tennant is nearly 34 years of age, and first came into prominent literary notice by her clever illustrations of Mrs. W. K. Clifford's popular book, "Anyhow Stories," which appeared some years ago, and still enjoys an enormous sale. Miss Tennant's name is on the title page. Then she began to exhibit a series of delightful pictures of naked children, her style showing clearly the teachings of her celebrated master, Hennell, of Paris. Her "The Baby" was one of the sensations of the year. With her sister, now Mrs. Frederick Myers, a pronounced brunette, she sat for Millias' twin pictures, now called "Yes" and "No." At the time they were exhibited in the Royal Academy they were referred to as "The Blue Girl" and "The Red Girl," Miss Dorothy being "The Blue." Mr. Frederick Myers, the husband of Miss Dorothy Tennant's sister, is the author of "St. Paul," and one of the leaders in the æsthetic poetical set which now rules in English poetry. He was a great friend of the late Prince Leopold, Duke of Albany, who was godfather to Mrs. Myers' first baby.

From a society point of view few young ladies in London are better known than Mr. Stanley's betrothed. Not a festival of the year, from a flower show or a first night at the opera to a garden party at Marlborough House, but Miss Dorothy Tennant's name appears on the list of guests. She has

ACQUIRED A DISTINCT FAME

in London for the quiet elegance of her gowns and the number and variety of her parasols, which is apparently a hobby with her, and she never appears in the park, either riding or driving, without a cavalcade of admirers en suite, which has not been lessened by the announcement of her engagement to the famous explorer. A clever article, generally illustrated in one of the magazines, or a striking picture in one of the galleries, keeps her always in front in literary and art circles; in fact, as the Princess of Wales remarked, when congratulating Mr. Stanley: "You marry not only a very pretty and very charming girl, but a woman brimful of genius." Miss Tennant is no relation to Sir Charles Tennant, whose daughter is supposed to be engaged to Mr. Balfour, the Irish Secretary of State. The families are in no way connected. Mr. Stanley's future mother-in-law is a handsome widow, enjoying the large fortune left her by her late husband, a Parliamentary lawyer. Mr. Gladstone and other personages of the Liberal party are frequent guests at her table, and more than one coronet has been offered and refused by her two beautiful daughters. Her only other child, a son, is a mild young man, who shows none of the intelligence of his sisters. He is engaged to be married to the daughter of a country squire, and will probably appear at the altar of Hymen at the same time as his sister. The story of Stanley's wooing is gradually being disclosed. He first met Miss Tennant when last in England, and for awhile was

RECEIVED WITH THE SAME COOLNESS

which has usually characterized the lady's reception of attention from gentlemen. But the indomitable courage, energy, and wonderful powers of description possessed by the explorer gradually won the heart of one who possessed similar traits in so marked a degree, and when Stanley managed to pluck up sufficient courage to propose she fainted with mingled delight and excitement. She promised to wait until he returned from his next African trip, and insisted that their engagement should be kept secret. The letters which have passed between Stanly Africanus and his fiancee, if they ever see the light of publication—love letters of eminent persons are now included in the printer's preo—will be truly curious stories, for no doubt the explorer told more to his lady love than he will ever confess elsewhere of the awful tribulations of his march through the African swamps and forests. His brother explorers were aware of their commander's love story, and many a tree in the strange lands visited has "Dolly" deeply cut into the bark. The natives used to think it the sign of the white chief's fetish, and often prostrated themselves before it. In one of his letters Stanley wrote such a harrowing account of the sufferings of his band and gave such a vivid picture of the

DEATH OF A GIGANTIC NEGRO

slowly swallowed by a huge serpent that Miss Tennant swooned after reading it. Stanley has brought a most extraordinary collection of curios home for Miss Tennant, many of them being now on exhibition at the African Society's Show. He declares that he will never permit his wife to share the dangers of exploration, and that if he goes again to Africa she must remain at home or in Egypt until he returns. He is not anxious to have his wedding celebrated in Westminster Abbey, but would like a quiet ceremony in the little village church near the country seat of the Tennant family. The wish, however, is not likely to be fulfilled, as the Princess of Wales and other exalted ladies have intimated a desire to be present. Among his many congratulations Mr. Stanley received autograph letters from the Emperor of Germany, King Leopold of Belgium, and other sovereigns. Queen Isabella of Spain not only gave him her hand to kiss at Lord Salisbury's reception the other night, but insisted on shaking hands with him, and wishing him not only wedded happiness but a large family.

Stanley and Miss Tennant appear together everywhere, and of course are always asked to meet each other at dinners and receptions. The explorer is almost worked to death, despite the fact that he has three secretaries laboring day and night answering letters from all parts of the world. Samples from every conceivable article of apparel and color are sent to him with the notification that they have been named "Stanley," and even Stanley pies, Stanley sausages and Stanley toothpaste are among the presents pouring in upon him from anxious advertisers.

BORDER STATE BRIEFS.

Late Saturday afternoon the residence of Jesse Worden, in Richfield township, Gennesse county, was burned to the ground, and during the absence of Mr. and Mrs. Worden their 6-year-old son, Martin, perished in the flames.

About 6 o'clock Monday evening fire broke out in the lumber yard of the Ferrysburg mill of the Grand Haven Lumber Company. Aid was summoned from Muskegon, but arrived too late to be of much service. The lumber company lost about 1,000,000 feet of lumber valued at about $12,000, fully insured.

Sunday afternoon while three young men, Will Lapham and Bert Ryan, of Holly, and Warnie Halleck, of Ann Arbor, were out sailing on Bush Lake the boat capsized and Helleck was drowned. The other two hung to the capsized boat until assistance reached them. Halleck was 20 years old and very highly respected.

James Caughley, a lumber dealer living with his wife and two children in Baldwin, Lake county, committed suicide Sunday morning by shooting himself through the heart with a revolver while lying in bed. Excessive drink and despondency was the cause assigned for taking his own life.

Monday morning, just after the workmen had commenced the day's work in the Kent county courthouse, Rudolph Hans, a laborer, fell from a plank laid across the joist of the third story to the basement, a distance of 50 feet. Hans struck on a pile of broken bricks, breaking his neck. He was 45 years old and leaves a widow and two children.

OAK HALL

We are going to talk about men's suits.

The great number sold last week is a good criterion of the values we offer.

Our efforts to please, with stylishness combined, is evidenced by the number of people who constantly examine our goods and then buy, being convinced of the genuineness of our offers.

We had a busy time last week in this department, and our fine tailor-made men's suits proves that our goods are reliable, and that we can truthfully recommend and stand by what we say.

COME AND SEE THE VALUES THAT WE OFFER THIS WEEK.

LONDON AND PRECINCTS.

The proper way to secure employment, or consummate mercantile transactions in all fields, is to advertise in the ADVERTISER. The business man will see your Want Ad. and your wishes will be fulfilled.

—The Emerald Beneficial Association will have an excursion to Toronto

—Mr. J. M. Denton is attending the meeting of the Ontario Fruit Growers' Association at Niagara.

—Professor McCallum, of Toronto University, is spending a few days with his brother, Dr. McCallum, Dundas street.

—On Tuesday a 2-year-old son of T. C. Beattie, of Pond Mills, fell into a pot of hot oil cake porridge and had his arm badly scalded.

—The Sunday school scholars of the Colborne Street Methodist Church will hold their annual picnic at Port Stanley on Tuesday next.

—Charles Bazan, who was alleged to have been annoying P. Levi, was before P. M. Parke yesterday, and bound over to keep the peace in sureties of $300.

—After the recent big blow in the West, a shower of flies fell at Port Stanley and astonised the natives. The flies, fortunately, were more dead than alive.

—Miss Rose McCann, of 325 Hyman street, is visiting in Toronto, and on her return will stop over at Stratford for a week, the guest of Miss Cochrane.

—Mr. S. J. Sharp, of the Erie Railway Company, and Mr. Jas. Bastedo, of the the Atchison, Topeka and Santa Fe Railway Company, were in the city yesterday.

—Miles Connelly and Henry Taylor, drunks, were discharged at the Police Court this morning. John Daniels, on the same charge, was allowed to go under his wife's care.

—Thos. Tapp appeared at the Police Court this morning to answer for a breach of the dog bylaw in neglecting to muzzle his canine. The case was dismissed, as it was found that the dog had been destroyed.

—A number of parties are being formed at surrounding towns to attend the great concert here on Saturday of next week, July 19, to be given by the celebrated Liberati and his aggregation of eminent musicians.

—Eight carloards filled with pleasure-seekers left for the Port on the weekly excursion train this morning. A number of extra cars were attached in order to accommodate some Sunday school picnics from St. Thomas.

—Rev. J. A. Murray, in a letter from New Westminster, B. C., to friends in this city, states that the trip west has done very much towards restoring his health. He will remain for a short time the guest of his sister-in-law at New Westminster.

—The Trustees of the Protestant Orphans' Home acknowledge, with sincere gratitude, the kind donation of $19 25 from the city Orangemen and True Blues, being the proceeds of the annual collection taken up in Memorial Church July 6, and presented by Mr. James H. Mustill.

—Rev. Canon Richardson and the choir boys of the Memorial Church will commence a week's camping out at Port Stanley on Monday next. They expect to have a good time and are getting the tents and other supplies in readiness. The annual Sunday school picnic of the Memorial Church will be held at the same place next Wednesday.

—Mr. Wm. H. Sallmon, on the eve of his departure from Milwaukee, was the recipient of a handsome volume of Miss Havergal's complete poems from the Devotional Committee. He will spend the summer at his home in London, Canada, and in the fall go to Yale College in preparation for the ministry.—[Church Voice, Chicago.

—The garden party at Springbank tomorrow (Friday) evening promises to be a great success. The residence of Mr. Chas. A. Kingston, Princess avenue, was crowded last evening with the large committee of ladies who met to make final preparations. Every arrangement possible for the convenience of those who attend has been made, and the members of Victoria Club expect hearty support.

—Mrs. H. T. Smith, jun., of Toronto, who arrived in this city last Saturday to spend a few weeks with relatives and friends, was suddenly summoned home last night by a telegram announcing that her husband had met with a painful accident. While riding on a street car Tuesday afternoon a lighted cigar in the hands of a fellow-passenger came in contact with Mr. Smith's eye, burning it badly. The accident, though painful, is not considered serious. Mr. Smith's many friends in this city will be pleased to hear of his speedy recovery.

Shorthanders' Picnic.

The students of Mr. W. C. Coo's shorthand academy held a picnic at Port Stanley yesterday. A large number of fair stenographers, under the care of their gentlemen friends, attended, and enjoyed the exhilarating breezes of the lake. Refreshments and accompanying festivities were indulged in and the picnickers returned invigorated for renewed efforts at the mystic art.

Music in the Park.

By kind permission of Lieut.-Col. Tracy and officers commanding, the band of the 7th Fusiliers will play the following programme on Victoria Park this (Thursday) evening:

God Save the Queen.

Tourists' Troubles.

A Montreal telegram of yesterday's date says: "A tourist party composed of Hon. Samuel Blake, Q. C., Toronto; George T. Brown, manager of the Mutual Life Insurance Company, London; and Edward Cronyn, of London, arrived in town this morning by train after escaping from a serious accident. The party left Toronto on Monday in a steam yacht for Murray Bay, where they intended spending the summer, and experienced very heavy weather. Opposite Gananoque yesterday the boiler exploded and the yacht took fire. The party was rescued by a tug attracted by the sound of the explosion a mile distant."

A Pleasant Evening.

The closing entertainment in connection with the Congregational Temperance Association, held last evening in that church, was very successfull and attended by a large audience. A splendid programme was rended consisting of recitations by Miss Ruth Cameron, of Toronto, and Miss Allie Langride; kindergarten recitals by several little girls; two solos by Miss Mutch; a quartet by Misses Anundson and Kreighoff and Messrs. Moule and Brock; club swinging and a reading by Miss Willis. Rev. R. Neale occupied the chair and delivered an introductory address. During intermission refreshments were served by the ladies in a most acceptable manner.

Picnic at the Port.

Over thirteen cars filled with happy Sunday school children, attended by some of the elders, went down to Port Stanley yesterday, on the occasion of the anniversary picnic of the Wellington Street Methodist Church school. It is needless to say they enjoyed themselves thoroughly on the banks of the Port overlooking the lake, indulging in every kind of innocent amusement, especially the consumptive part of the proceedings. An exciting game of baseball was played between picked teams of married and single men, captained by Rev. G. W. Henderson and Mr. J. Croden respectively. The reverend gentleman held down the initial bag in fine style during part of the match and afterwards umpired most satisfactorily. The benedicts finally emerged from the fray victorious by a score of 20 to 19, showing, as it did, the splendid batting ability of both the teams. Races and other games were participated in by the little ones and prizes awarded the winners. Several of the scholars tried the exhilarating effects of a bath in the lake, but owing to the frigid temperature of the water they abandoned the idea. Mr. W. J. Birks' Sunday school class of the Dundas Street Center Church also picnicked at the Port during the day, and appeared to enjoy themselves. The whole party returned in the evening, rather tired but with recollections of having had a delightful time.

John S. Dearness, public school inspector, will lecture to-night in Knox Church on "The Effects of Alcohol upon the System." A silver collection will be taken up to defray expenses. b

Immigration to Ontario.

This is a statement of the immigration returns for the five agencies in the Province of Ontario for the six months ending June 30, 1890, compared with the corresponding periods of 1889 and 1888:

Months.	Total arrivals.	Went to States.	Remained in Ontario.
First six months 1890	32,502	24,936	6,525
First six months 1889	48,755	38,103	9,616
First six months 1888	54,329	40,455	12,746

During the first six months of 1883 the number of English immigrants who arrived was 7,524, in 1889 it was 5,814 and this year 3,750. The number of Irish during the same period of 1888 was 1,644, last year 1,261 and this year 923. The number of Scotch arriving during the periods mentioned were respectively 2,402, 1,485 and 798.

An Enviable Reputation.

Gentlemen desirous of obtaining the best possible value for their money in cigars should smoke the "Highland Lassie" 5-cent cigar, manufactured by H. McKay & Co., of London. This cigar has been subjected to the most complete tests by the great majority of the smokers of the Dominion, and all of them pronounce it one of the best articles in the Canadian market. Messrs. H. McKay & Co. take a special pride in its manufacture and are particular that none but the choicest specimens of fillers and wrappers enter into its composition. The "Highland Lassie's" reputation is of sufficient repute to satisfy the most skeptical of its worth.
