The copy filmed here has been reproduced thanks to the generosity of:

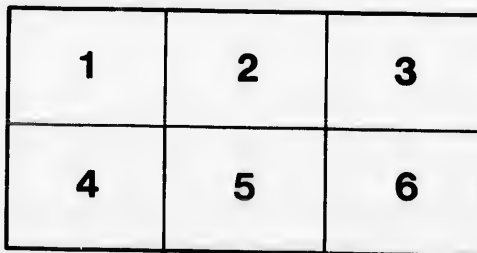

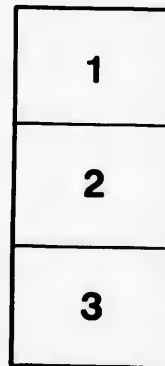

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

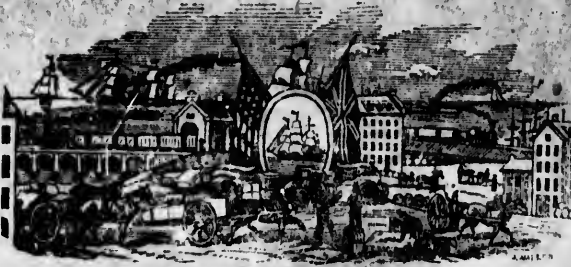

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

# PREFACE.

The rapid increase of those engaged in professional or business pursuits in most of the principal places in the Province since the publication of the Canada Directory, has caused the necessity for issuing a Supplement to that work; so that the information therein given might be brought down to the latest possible date, prior to the opening of the Spring trade in 1853.

In the present Volume not only has this been done with respect to the Towns and Villages embraced in the original work, in which any changes or additions of consequence have taken place, but about ONE HUNDRED AND TWENTY PLACES, which no returns were previously given, (many of which are rapidly rising in importance) are also included.

It will be observed that OVER SIXTY FLAGS, from which returns were formerly given, are repeated in full in the Supplement; which has been done solely because the removals and additions in each were so numerous, that it occupies less space to print the whole of the present list, than it would have done merely to note the changes in the manner carried out for other localities.

It will also be observed that some of the Towns and Villages included in the Canada Directory have no Addenda to them in this work; but in nearly all such cases, the changes, if any, were so trifling as to be of very slight interest.

The *List of Additional Post Offices*; the *Abstract of the Census Returns*; the *Table of the New Representative Divisions of the Province*; the *List of Canadian Newspapers*; and the Miscellaneous matter generally, will, it is confidently believed, be found useful by all who are engaged in public business; and the MAP OF CANADA, which accompanies the work, has been carefully corrected from the best authorities expressly for it, and is the only one yet published which gives the present Geographical divisions of the Province into Counties and Townships, while it also exhibits (approximately) the various lines of Railway already chartered, or for which charters have been applied.

It is a cause of regret to the Editor, that a part of the paper in this Volume is not as good as it should have been. In explanation, he has to say, that no supply of paper existed in Canada; and, that although inferior in quality, the portion referred to was brought by express from New York at a greatly enhanced expense, as by no other means could the work have been got out at the time promised.

The Editor feels under deep obligations to those Gentlemen (and also to several Ladies) in various parts of the Province, who so freely responded to his request for the information relative to their several localities which appears in the following pages. Indeed, many of the letters which he received from parties to whom he is personally unknown, are written in such a kind and friendly tone, that nothing but the utility of the work in which he is engaged (and to that fact alone he attributes it) could have led him to expect or hope for such disinterested kindness.

He begs, however, to assure those Gentlemen, as well as all who have sustained him on this and other occasions, that such gratifying proofs of their approval will stimulate him to an increased degree of energy and perseverance in supplying them with the description of information which his various Directories contain, and which (as is now generally admitted) is of so much real benefit and utility to the Province.

In the Preface to the Canada Directory, it was stated that "THE PROCEDED OF A GAZETTER OF CANADA (including both sections of the Province) would shortly be published, and that the work would be edited by the writer; and although unforeseen

circumstances have caused some delay in the project, he is now able to announce that a considerable portion of the volume is written out ready for press; and as a numerous subscription list has already been obtained, his intention is to issue the Gazetteer in 1854. A Prospectus of the Work will be found on page 14.

In conclusion, the Editor returns his respectful and grateful acknowledgments to all who have aided him in the present undertaking, whether as contributors of information, subscribers, or advertisers, and remains

Their obliged and faithful Servant,

ROBERT W. STUART MACKAY.

Montreal, April, 1853.

## NOTICE.

When the Prospectus of this work was issued, the estimate was that it would form a volume of about 225 pages, of which the price was fixed at 5s. per copy *without the Map*, or 6s. 3d. with the Map of Canada; and all who *actually subscribed*, will be supplied at those prices. Owing, however, to the larger size of the book, (150 pages more than was contemplated,) and also a greatly increased expenditure on the Map, each copy of the book and Map *actually costs more than it realises* (when sold by an Agent, whose commission has to be deducted); consequently, to non-Subscribers the prices are fixed as follows:—

### Tariff of Prices.

Supplement to the Canada Directory, without Map.....	6s. 3d.
“ “ “ “ with Map, plain.....	7s. 6d.
“ “ “ “ with Map, colored.....	8s. 9d.
Map of Canada, separately, colored.....	3s. 9d.
“ “ “ “ plain.....	2s. 6d.

Canada Directory, with Supplement and Map, 3 vols., over 1000 pages. 17s. 6d.	17s. 6d.

Orders from a distance, to insure attention, must be accompanied by the Cash, or an order on a Montreal house.

THE undersigned hereby informs the Fur Trade of the Canada, that he has taken the extensive premises No. 190, St. Paul Street, which he will open on the 1st of June next, with entire new and complete assortment of every article in the Fur, Hat and Cap Line.

He leaves for Europe by the Steamer "Pacific"; visits the Gr. at Leipzig Fair, England, Switzerland and France, and has every facility of purchasing at first hands, at lowest price and has a perfect knowledge of this market's demands.

Considering that competition is the life of trade, he has expressly chosen this location being next door to J. C. Mayer's future Fur Warehouse, thereby giving to the trade the opportunity of comparing in both places, QUALITY, PRICE, VALUE and ASSORTMENT, the stock offered.

Having a branch business at the Leipzig Fair, which he attends every spring personally selling Canada and American Shipping Furs, he is indeed able to pay higher here than any other exporter who sells his collections at the London Auctions.

It being of importance to him to collect quantities, he will, at personal interview with parties Trading in Shipping Furs, offer them advantages heretofore unheard of.

# PROSPECTUS

OF

## A GAZETTEER OF CANADA.

THE necessity of A Gazetteer of Canada, to include both Sections of the Province, East and West, has been long felt and admitted by all who take an interest in the development of the progress and resources of the Country; and the writer, during various extensive tours through the Province, was promised, and in numerous instances has already received, the aid of some of the best informed and most judicious men in the community, in collecting the data necessary for such a work. As a portion of the manuscript is ready to put to press, and an encouraging subscription list is steadily filling up, he now respectfully announces, THAT HE PROPOSES TO PUBLISH, BY SUBSCRIPTION, (so as to be ready for delivery some time in 1854)

### A GAZETTEER OF CANADA, EAST AND WEST,

which will contain a brief but comprehensive description of the CITIES, TOWNS AND VILLAGES, COUNTIES, TOWNSHIPS AND PARISHES, RIVERS, LAKES, PUBLIC WORKS, &c., of Canada; with an account of the natural, agricultural and manufactured productions of the Province; the quality of the land, in each locality, its value, whether improved or otherwise; the wages of labour of every description; the means of religious and secular instruction which exist; and such other information regarding the Agricultural, Commercial, Mineral and other resources of the Country, as may be deemed useful or interesting.

The Work will form an Octavo Volume of from 600 to 800 Pages. It will be well printed, on good paper, substantially half bound, and accompanied by

### A GOOD MAP OF CANADA & THE LOWER PROVINCES.

The price, to Subscribers, will be 15s. per copy, payable on delivery, and the name, business, and residence of every Subscriber will be printed in a list at the close of the work. To Non-Subscribers the price will be 17s. 6d.

The subscriber's long, and admittedly successful, exertions in collecting and arranging statistical facts and details, will, he trusts, be received as a sufficient guarantee that the work now in course of preparation will receive all the attention from him which its importance demands; and he respectfully solicits the aid and co-operation of all who desire to see an accurate and faithful description of both Sections of the Province in print, in carrying out the work to a successful issue.

# SUPPLEMENT

TO THE

# CANADA DIRECTORY.

**NOTE.**—The information given in the following pages, so far as it relates to Cities, Towns, and Villages, which were included in the Canada Directory, is to be used in connection with that work, as it merely posts those places up to the present time. It is to be observed, however, that a few places from which returns were formerly given, have been entirely reprinted; this has been done solely because the corrections and additions would have occupied a greater space than the reprint does. RETURNS FROM OVER ONE HUNDRED PLACES, which did not appear in the Canada Directory, are included in this volume, and any of the places which appeared in the original work, to which no addenda is given, have been passed over because the changes (if any) were so trifling as to be of no practical importance.

# BRITANNIA MUTUAL LIFE ASSOCIATION,

No. 1 Prince's Street, Bank, London.

Empowered by Her Majesty's Royal Letters Patent.

## DIRECTORS :

(Same as the Britannia Proprietary Branch.)

This institution was originally established under a different title in the year 1839, on the plan of admitting the Assured to participate in four-fifths only of the profits; but the Society has since been remodelled so as to become a strictly "Mutual Association."

The whole of the funds and property belong to, and are accumulated for the exclusive benefit of, the Assured.

The profits are divided annually among the Policy-holders, and applied in reduction of the current year's premium; thus constituting, in effect, an immediate cash payment to the Assured.

Half-credit Policies are granted on terms unusually favorable to the holders,—the amount for which credit is given being gradually liquidated out of the profits.

Two Tables of Rates have been computed; one entitling the Assured to participate in the profits after payment of five annual premiums; the other considerably lower, in which the period of participation is deferred two years longer; the premium ultimately payable by the Assured is, however, precisely the same, whichever Table of Rates may in the first instance be selected.

General Meetings of the Members are held annually; to whom full and complete statements of the affairs and funds of the Society are submitted, and by whom the divisions of the profits are from time to time declared.

At the Annual General Meeting held on the 27th April last, a dividend of 30 per cent. upon the current year's premium was awarded to all Members who had made the requisite number of payments on their respective policies.

By order of the Board of Directors,

E. R. FOSTER, Resident Director.

ANDREW FRANCIS, Secretary.

London, May 1st, 1852.

\* \* \* The "Britannia Mutual Life Association" is altogether distinct from, and independent of, the Proprietary Office transacting business under the name of the "Britannia Life Assurance Company." The only connection between the two establishments is, that their affairs are conducted on the same premises and by the same officers, by which means the entire disbursements of the Mutual Association are reduced to a small per centage on the receipts.

He refers the reader to the following letter relating to the **Subsoil Grubber.**

ORNSTOWN, 15th Nov. 1850.

Dear Sir,—I promised when I purchased the Subsoil Grubber from you, that I would send you a statement of its performance, as soon as I had finally tested it. You know that farmers are more ready to use an implement, and put its merits to a practical test, than to write essays; but I have been so fully satisfied with the experiments I have made, and with the value of the Grubber, as an implement so essential to the proper cultivation of the soil in a climate like ours, that I feel I would not only fail in my promise to you, but also in my duty to my brother agriculturists generally, if I did not send you a statement, embodying the result of my experiments, and also of my opinion as to its uses and adaptation. I have used the Grubber for many of the purposes to which it may be applied—in all of which I have found it an implement highly worthy of the attention of Agriculturists. In spring, upon land which has been ploughed in the fall for summer fallow, and for tearing up and destroying twitch-grass, it has fully exceeded my expectation; it can be used much earlier than the common plough, opens the soil to a much greater depth, will do the work of six ordinary ploughs, and leaves the soil so fine as to save an immense quantity of labor in harrowing for summer fallowing and subsoiling. I find it the most valuable implement yet brought into use in Canada. Indeed, I think that no farm is complete without a Grubber, which, where cultivation is carried on on a large scale, will pay itself in one season, by the saving it will effect in the labor, to say nothing of the superior preparation of the soil. Two horses are sufficient to work the Grubber, except where there is a very stiff clay soil, it may be necessary to put on a third one. I am, dear Sir, your obedient servant,

Alexander Fleck, Montreal.

**PERRY DAVIS' VEGETABLE PAIN KILLER.**

TWO THOUSAND LIVING WITNESSES certify to their neighbors from day to day the wonderful effects of DAVIS' PAIN KILLER.

*A Cold cured in one hour! Severe Cough in one night!! Fever and Ague in three days!!*

Utica, January 4, 1848.

Messrs. Perry Davis & Son:

Gentlemen.—This is to certify that some four weeks since I lost the use of my right hand, it being very much swollen. To speak within bounds, it was as large as three hands, and pained me beyond endurance. Of course I applied to physicians, but their treatment had nearly ruined my hand, when, fortunately for me, I heard of your Pain Killer, and obtained a bottle of Foster & Dickinson, your agents; and before I had finished bathing my hand the third time with the Pain Killer, the pain almost entirely left it, and now my hand is perfectly free from pain. Had I known of your invaluable article when first my hand troubled me, I would have given twenty-five dollars for one bottle of it, if it could not have been obtained at a less price, as I should have saved, not only this amount, but a world of suffering.

JOHN BROWN, Engineer, Third Street.  
 New Hartford, Oneida County, January 1, 1848.

I hereby certify that I have used Perry Davis's Pain Killer in my family for various purposes, viz., for coughs, colds, asthma, &c. Also in cases of burns, where it acts like a charm, removing the pain immediately; and, besides, I have known it used in my neighbourhood for various complaints for which it is recommended, and do not know of a single instance in which it has not proved what it purports to be, a remedy for removing pain, and consequently the cause. And cheerfully do I recommend it as a valuable article which no family should be without.

Messrs. Perry Davis & Son, Providence, R.I.

FRANKFORT, January 1, 1848.

Gentlemen.—Last fall I had the misfortune to be thrown from my boat into the canal, and took a violent cold which settled in my head, producing excruciating pain. After having tried various remedies, I obtained a pamphlet from Foster & Dickinson, advertising your Pain Killer, and was induced to try it. On applying it once the pain was entirely removed, and I have had no return of it since. I would cheerfully recommend it as truly a pain killer, believing it will remove pain wherever it exists. Very respectfully yours,

Messrs. Perry Davis & Son.

Utica, January 6, 1848.  
 Mr. Perry Davis:—Dear Sir,—You doubtless will recollect the conversation I had with you on Thursday last, at the store of your agents, Foster & Dickinson, when I stated to you that I had experienced great relief for my weak and inflamed eyes by using your Pain Killer. Since that time, I took a severe cold, which resulted in a very sore throat, threatened with quinsy, accompanied with a tremendous sick headache; and recollecting that, at the interview above named, you assured me that it would relieve sore throat and sick headache, I resorted to my recently made friend, THE PAIN KILLER, which I used freely in bathing my throat, taking it internally agreeably to directions. I commenced using it about half-past seven in the evening, and to my surprise and great pleasure, I found myself in bed at ten o'clock, as free from headache and pain as ever I was in my life; consequently I take great pleasure in recommending it to the afflicted, for every pain and ill poor human nature is subject to, and would say that no reasonable amount of money would induce me to be without it in my family. Respectfully, your friend,

RUFUS R. CONKLIN,

Foreman and cutter at Z. & P. Lyons', merchant tailors, No. 96 Genesee st.

Utica, January 1, 1849.

Messrs. Perry Davis & Son:—Gentlemen,—This is to certify, that my wife had a violent cough of some weeks' standing, when I bought a bottle of your Pain Killer of Foster & Dickinson, and she commenced using it according to directions. After taking the first dose, her cough was evidently better; and after taking it three or four times, her cough and soreness in the throat were entirely removed, and has had no return of the cough or soreness of the lungs since. And from using it in my family, I have no doubt that your Pain Killer is the best family medicine in use, adapted to a larger class of diseases than any other medicine in the world.—I am, respectfully yours, &c.,

WILLIAM LENT,

Spinner in the Utica Steam Woollen Factory; house corner of Varrack and Hamilton sts. Whites town, Oneida County, January 1, 1849.

Messrs. Perry Davis & Son:—Gentlemen,—I cheerfully add my mite to the already great amount of testimony, with regard to your invaluable and almost all-healing Pain Killer. I first heard of the Pain Killer last October, and since that time have used it in my family for coughs, sore throats, sore lungs, bruises, burns, and rheumatism, and have sold several dozen bottles to others, which I purchased of your agents, Messrs. Foster & Dickinson, 117 Genesee street, Utica; and the testimony which comes to me from all those who have purchased it is, not only that the medicine is all that it is recommended to be, but they come and buy the second, third and fourth bottle; and that I consider the best testimony of the usefulness of the Pain Killer.—Yours truly,

GEORGE BALLS.

Utica, January 6, 1848.

Messrs. Perry Davis & Son:—Gentlemen,—I am at a loss to express with words the satisfaction it gives me to inform you of the benefit I have received from the use of your Pain Killer. About one year since, I was attacked with the inflammatory rheumatism, and was confined to my bed for six weeks, without being able to walk for eight weeks; besides the confinement to the house, the pain I experienced no tongue can describe. But to return to the object of this letter. On the 27th December last, I had a more severe attack than before. I immediately commenced using the Pain Killer made by you, which, to my surprise, immediately relieved me of pain, and saved me the necessity of being confined to my bed for one day. It is now eleven days since the attack, and the inflammation has entirely subsided. My limbs, which were tremendously swollen, have assumed their natural shape. In short, I am entirely well: and feel bound, by the common sympathies of my nature for those who may be thus afflicted, to make the above statement, that all may resort to the Pain Killer, that time, expense, and a world of suffering may be prevented.

HENRY WEED,

Clerk at 117 Genesee street, Utica.

Providence, October 19, 1848.

This may certify, that I am well acquainted with the recipe by which Mr. Perry Davis, of this city, compounds a medicine called by him PAIN KILLER,—that I have often prescribed this preparation, and with satisfactory results,—that I have sold much of it, and that I unhesitatingly pronounce it a safe and efficacious article. I further state, that I do not recollect having seen or heard the term Pain Killer, until I saw it on the label of his medicine.

JOHN A. WADSWORTH, M. D.

Messrs. Perry Davis & Son:—Having witnessed the beneficial effects of your celebrated

Pain Killer in several cases of the Dysentery and Cholera Morbus within a few months past and deeming it an act of benevolence to the suffering, promoted by the feelings of a common humanity, I would most cheerfully recommend its use to such as may be suffering from the aforementioned or similar diseases, as a safe, and, as far as my observation goes, an effectual remedy.

I have observed the following directions:—To an adult, one teaspoonful Pain Killer, one table-spoonful castor oil given in a little warm milk and water, sweetened with loaf sugar; bathing the bowels with the Pain Killer. To a child eight or ten years of age, half the quantity. For wounds, bruises, and burns, I have found it a most valuable remedy. Yours most respectfully,

EDWARD K. FULLER,

Pastor of First Baptist Church, Somerset, Mass.

G. F. PROWSE, would respectfully invite public attention to his NEW and GREATLY IMPROVED FURNACES, which give a still greater degree of heat from the same quantity of fuel than his former ones.

By this *New Invention*, the flame and smoke, after leaving the fire and passing the generators, again re-enter and pass through the Furnace, thereby adding greatly to the existing volume of Caloric, and consequently diminishing to an equal extent the necessity of consuming the fuel. This apparatus erected in a kitchen will

in a manner every way superior to any other now in use. By an arrangement of the SUMMER APPARATUS, a very small fire is required for cooking, and no heat, (except required), need be felt in the house. Another great advantage in this Furnace is a still smaller apparatus for broiling and boiling, the smell of which is entirely carried up the Furnace, and hot water can be sent to any part of the building for baths, &c., whereby a great saving is effected both in fuel and labor.

The trade with the fisheries in the lower parts of this Province, namely—Gaspé, north side of the Baie des Chaleurs, Magdalen Islands and a part of the Labrador, has increased this year. These fisheries depend almost exclusively upon Quebec for their supplies of flour, provisions, &c., which is paid for with the produce of their fisheries. From 60 to 70 schooners, averaging about 50 tons each, are annually employed in carrying these supplies from Quebec to the above-named places, returning to Quebec with fish and oil. Each of these Schooners makes from two or three trips annually in this trade.

There is also a very considerable quantity of flour, pork, &c., sent from Quebec to the Lumber Establishments on both sides of the Baie des Chaleurs.

#### INLAND NAVIGATION.

There is an immense falling off in this trade, which, we suppose, may be attributed to the increased facility of transport from the American sea-board into the interior. The Railway and Pig Iron imported into the Western States last year, by the St. Lawrence, amounted to over 50,000 tons. This year there was not more than one-third the quantity.

# THE CANADA LIFE ASSURANCE COMP'Y,

Incorporated by Act of Parliament.

**HEAD OFFICE, 38 KING STREET, HAMILTON.**

HUGH C. BAKER, Esq., President; JOHN YOUNG, Esq., Vice-President; THOMAS M. SIMONS, Esq., Secretary.

**BRANCH OFFICE, 27 St. Francois Xavier Street, Montreal.**

Hon. JOSEPH BOURRET, Chairman; J. G. MACKENZIE, Esq., Vice-Chairman; T. RAMSAY, Secretary.

THE CANADA LIFE ASSURANCE COMPANY was organized in August, 1847, and issued the first Policy in October of that year. So successful have been the operations of this Company, that at each of its Annual Meetings a Bonus has been declared to the Assured. At the last Meeting, (being the *Fifth*) held on 3rd August, 1859, the Bonus apportioned was equal to 15 per cent of the amount of premiums paid up. It is believed that such early and continued success is unprecedented in the history of any similar institution, and this being the only native Company for Life Assurance, it has peculiar claims upon Colonial patronage.

The following are examples of the rates of premium to assure £100 at death, with or without profits :-

Age	Annual Premium with Profits.			Annual Premium without Profits.			Age	Annual Premium with Profits.			Annual Premium without Profits.

Prospectuses, Forms of Proposal, and all information relating to Life Assurance, may be obtained at either of the above offices, or any of the Company's Agencies throughout the Province.

# THE National Loan Fund Life Assurance Society

No. 26, CORNHILL, LONDON.

**CAPITAL:—£500,000 STERLING.**

This institution offers the assured very many advantages, at quite as low a rate of premium as guarantees safety to the Office. Insurances may be effected in various ways: With the privilege of acting on the Loan Fund, or without that privilege—with or without participation in profits—with premium payable yearly, half-yearly, or quarterly—for life or for a term of years, &c

Policies will hereafter be issued, entitling the assured, whether at the payment of his first premium, or at any future period, to borrow upon interest to the extent of one-half of the annual payment made—without any responsibility or guarantee, personal or otherwise; nor will the policy (the only security) be required to be lodged with the Society, as each loan will be endorsed thereon. The assured can at any time present his policy and demand of the Society an immediate payment of one-half the annual premiums paid thereon, thus giving to each policy a known actual cash value.

Applicants are not charged for the Medical Examination or Stamp Duty.  
Agencies are established throughout the Colonies.

# The Equitable Fire Insurance Company.

No. 450, WEST STRAND, LONDON.

**CAPITAL:—£500,000 STERLING.**

The leading principles of this office are, Moderate and Equitable Rates of Premium for each class of risk—Annual Division of Profits.

The Equitable Fire Office will, by a constant analysis of its own experience from time to time, adopt such rates of premiums as the nature of the risk may justify.

With this view an annual investigation will be made into each class of risk, and a return of one moiety, or fifty per cent, of the nett excess, will be made to all classes of Insured. These policies have been in force for three years.

The insured are free from the liabilities of a Mutual Insurance Society, and entitled, according to the plan of the Company, to a return of half the profits.

No charge made for Renewals or Alterations by endorsement. Losses made good without deduction or discount.

Agencies are established throughout the Colonies
