ODE ON THE QUEEN'S JUBILEE.

Poetry.

s there against in this free land a thing
Why I a humble pensant, should not sing
Of my loved queen;
Not that I would proclaim with thund To fix my fame or fill my purse From that wean.

But that I may to her I love impart Some simple ballad from the patriot heart, me simple ballad from the patriot heart In Jubilee. ictoria, noble monarch, true and tried, gift of heaven, a mighty nations guide, Long may you be.

Victoria the loving, kind and good, Earth's gilded model of true womanhood, We hold thee dear. Now fifty years how blest has been thy reign, A nation's monarch pure from spot or stain— O joyous year.

Ruling a nation with love, nor seen to frown; Wading not through human gore to wear a crown,
Thou gem of worth;
Lighting the Christian fire on India's strand;
Bidding God speed to Canada, loved land—
Land of our birth.

Pleading for peace with raged and jealous foes Shedding for stricken Ireland's many woes The bitter tear : The bitter tear; Healing with right the wounds which wrong hath torn; Comforting thy neighbors, when they mourn, With words of cheer.

When war's grim vestige echoed fierce and wild We've heard thee weeping, tender as a child O'er some death bier. Or in some moaning hospital to stand, To take the wounded soldier by the hand, And bid him cheer.

Is there a villain in the land who bears a heart That would, with jealous eyes or fiendish art, Thy coronet rend? Who of Britain's squs would fill a cowards grave?—
Down with each tyrant, down each traitor,
knave;
Death is thy end.

Unfurl the banner let it proudly wave— The noble one our fathers died to save, In ages past. Long may it be the emblem true of love, kept, guarded, guident by kind heaven abov Until the last.

Sound the glad tidings now, ye cities fair; Italise a grand memorial everywhere, So fair to see; Sound in Joy the cannons o'er the peacefu land; Sing ye toiling peasants, sing, joined hand, Song of jubilee.

Ring out, ye bells, from ivy mantled tower;
Thunder, ye navy, sound the nations's power
Out o'er the sea.
All hail! Victoria, mother, empress, queen,
And swell a Joyous sound o'er mount and glen
Of jubilee. CRAWF C. SLACK.

ODDFELLOWS' ANNIVERSARY SERMON Preached in Christ's Church by the Rev. Dyson Hague.

On Sunday last the English Church here was literally packed by an interested congregation, on the occasion of the annual sermon to the Order of Oddfellows. That the Farmersville Lodge is in a flourishing condition was Lodge is in a flourishing condition was evident by the large number who walked in procession from the Lodge mity which was not infrequent. His walked in procession from the Lodge Room to the Church.

The principal portion of the service was read by the Rev. R. N. Jones, incumbent, and the sermon was preached by the Rev. Dyson Hague, of Brock-

Robert -:- Wright -:- & -:- Co., "Pure religion and undefied before God and the Father is this, To visit the fatherless and widows in their affliction, and to keep himself unspotted from the world." table. The preacher handled his subject with much ability, and held the at-

tention of the congregation with unabated interest until the close of the sermon. He referred briefly to the objects of the Order of Oddfellows, which were to elevate mankind spiritually and morally, and to aid the poor and needy with timely charity. True religion was of the inner rather than of the outward life-a religion to pass muster before God, not before man. The gospel of Christ was not a mere external polish, but made a thorough transformation in the soul; and unless this change had taken place in the heart, the man was still travelling on the broad road to destruction. Christ. in his interview with the externally upright and moral Nicomedus, had said "Ye must be born again." St. Paul, who was before his conversion an upright and zealous performer of good works, when he came to a know ledge of true religion, counted all th ngs lost unless he put away his own SHIONABLE righteousness and put on the righteousness of God. What an immense difbefore the world and a religion before God. The one was like a Sunday coat, worn on the Sabbath and thrown off; the other was like an unchangeable fire. One had no power to influence a man's life; the other was a living power to ference there was between a religion

righteousness. How many rose early We are determined not to be second in our business, but mean to be the in the morning to go to church, and Any man who had this pure religion would live a spotless life before God,

defined pure religion as visiting the sick, etc. While being in Christ was reach half way to the moon there will absolutely the first essential, it was certain that the Christian would show rest of the way, for the opposition will the reality of his profession by purity of life, and if he did not he was still unsived. Supposing a man said he was saved, while his life was rotten, would not such a man be a liar and those who believed him fools? The apostles in their writings always placed salvation in Christ first and good living second; but it must be observed they always placed both to-gether. What more deserving objects of charity than the widow and orphan? But many men seemed to think them a prey to their rapacity. Such men have the curse of God resting upon

them. Kindness of heart was one of the first evidences of pure religion. The apostle further defined pure re ligion as living unspotted from the world. The world was full of crooked men, while the true believer was unspotted. No matter how high the profession, secret sins made the perpetrator of them a rogue in God's sight. How many did acts of rascality, such as adulteration and other meanness, which they were afraid to let the world

see; while the acts of the true Christian courted the light of day. It was absolutely certain that those who in their trading overreached and grabbed, would be punished by a just God. Some business men were just and honorable. Was it necessary to employ trickery to ensure success? Never. Old-fashioned, sterling integrity com-

mended a man to the world, as well as to God. Some of his hearers were not engaged in trade, but he assured them that they lived in a world of sin and world know the fact. His hearers er.

who were members of the Church of England had a I solemnly promised to renounce the world, and if they did not keep themselves unspotted they were wickedly false to their vows. The members of the Order to whom he especially addressed himself were pledged to acts of charity and brotherly

love, and love of Gods commandments.

He charged them to remember their He referred to the sudden VOWS. death of a member of the Order (killed in the recent terrible railway accident at Morrisburg) who served God truly, contrast he referred to a self-made millionaire who had neglected to lay up treasures above, and who had died prayer was that his hearers might be

Canon McColl's Experience in Ireland. Rev. Malcolm McColl, rector of St. George's, London, and Canon of Ripon, speaking at Nantwich on Home Rule, said he was interested in some Irish property, on which the "plan of campaign" had been put into force. (Laughter.) He was not going to denounce or to defend the plan, but he would tell them what happened in his conveners. He allowed an agent to but he would tell them what happened in his own case. He allowed an agent to manage that property, and a short time ago six of the proper tenants offered the agent 50 per cent. of the rent, but the agent refused to accept it. The agent would have had recourse to eviction, but he could not do that without his (the speaker's) consent, and he had the agent before him and questioned him. He found out that the tenants had been on the farms for twenty-five years; that out that the tenants had been on the farms for twenty-five years; that it was originally bog land, and their rent was 6d per acre, and that for the past ten years the rent charged had been £1 per agent was this: Supposing the landlord had paid the tenants as laborers to till the land, what would be the worth of that land now? be the worth of that land now? The agent replied, 7s per acre. Then, says he, it seems you have been robbing the tenants of 13s per acre for ten years. He held that it was complete robbery, and no sooner had he made the reduction than the tenants _ immediately _ retired from the "plan of campaign," paid their rents, and there were peace and harmony on that property now. (Cheers.) He put these facts before a very prominent Liberal-Unionist, before a very prominent Liberal-Unionist, with the question. Did he do right or

that he did right. (Cheers.) The Aged Emperor.

LOVE AND LUCKE:

A Tale of To-day.

(By J. H. Williams, the Funny Man of Norristown Herald.)

Tom Hurley, usually as bright and jolly as a funeral director's assistant, entered a friend's office looking as haggard and melancholy as if he had just witnessed the initial performance of a new American comic opera.

initial performance of a new American comic opera.

"The newspapers," he said, in a lugubrious tone, in reply to his friend's questioning look, "have wrecked my happiness, and I'll soon be a weary wanderer upon the face of the earth. If there is an expedition fitting out to go in search of the North Pole I want to join it, and starve and freeze to death a few degrees farther north than any other reckless explorer has ever reached. That would be less painful than to remain in this part of the country. I would achieve fame, too, and have my name put under a caricature of a face in hundreds of newspapers. But why did she continue to industriously ply the needle young lady was bright and intensively well as young and pretty. CANADIAN BUTTER INDUSTRY. OANADIAN BUTTER INDUSTRY.

Among those present at the meeting of the Presidents, Vice-Presidents and Scoretaries of Farmers' Institutes in Ontario, held in Toronto Thursday, were: Messrs. A. H. Pettit, Grimsby; W. J. Mr. Awrey, M.P.P. for South Wentworth, and Mr. Archibal Blue, Assistant-Commissioner of Agriculture, were also present.

Mr. V. E. Fuller was called to the chair, and Mr. Thomas Shaw, of Hamilton, was

and Mr. Thomas Shaw, of Hamilton, was appointed Secretary.
Mr. Awrey addressed the meeting with reference to the importance of the agricultural interest and the lack of attention which it received at the hands of public men. He urged the advisability of producing a class of stock that would lead Britain to Canada for her regular supplies, and so in reference to the butter industry and various other interests. He urged immediate action. nediate action.

Mir. Thomas Shaw then read a carefully prepared paper on extension of Farmers' Institutes, and how they might be made more beneficial to the farmers of Ontario; after which it was decided to proceed at once with the organization of a Central Farmers' Institute for the Province of Ontario.

A discussion on the best means of in proving the butter industry resulted in the adoption of this resolution:

That this meeting desires to place on record their opinion that the butter industry of Canada can be best raised to the position it ought to occupy by the establishment of creameries in Canada, and that every encouragement is due to the Ontario Creameries Association in their efforts to improve and establish creameries throughout Canada.

to the Ontario Creameries Association in their efforts to improve and establish creameries throughout Canada.

At the evening session it was decided to call the organization "The Permanent Canadian Farmers' Institute of Ontario," and these officers were elected: President, V. E. Fuller, of Hamilton; Vice-President, J. Dryden, M.P.P., Brooklin; Secretary-Treasurer, Thos. Shaw, Hamilton; Executive Committee, James Murdoch, Yeovil; M. D. Willard, Morrisburg; T. Kosmack, Northcote; Thos. Crowe, Chatham; D. Campbell, Nelson; A. H. Pettit, Grimsby; J. H. Wooley, Simcoe; J. Legge, Gananoque; James Cochrane, Kilsythe; D. M. McPherson, Glengarry.

The most important business was the consideration of the trade relations existing between the Dominion and the United States, and the farmers in discussing the question showed a lively appreciation of the matter in so far as it affected their interests. As the resolution adopted will show, they are unanimously in favor of a broader trade policy with United States. The debate was introduced by Messrs. Thomas Conant and Andrew Annis, of Ochawa moving the following resolution: Thomas Conant and Andrew Annis, o Oshawa, moving the following resolution That this Central Farmers' Institute unan mously and individually feel the great want of reciprocity treaty between the United States an Canada, and that this institute will at all time urge the Dominion Government to obtain sucreciprocity for us at the earliest possibl moment.

The following amendment was put in by D. J. Hunter, of Laurel, seconded by D. R. Ellis, of Kimberly:

That in the opinion of this Institute a remova of all restrictions on trade between the Domin ion of Canada and the United States is desirable either by reciprocity treaty or otherwise, as may be agreed upon by the Government of the respective countries, and that the officers of the Institute are hereby authorized to take suclaction in the premises as shall best promote the object of this resolution.

Mr. James McEwan, of Drayton, heart ily endorsed the resolution, believing that with reciprocity times would be greatly improved. This feeling was widespread

improved. This feeling was widespread among farmers.

Col. Campbell thought the time was at hand when the farmers of this country should call upon the Government to take measures for the carrying out of more amicable trade relations with the United States. Some might accuse him of disloyalty for holding such views, but if it came to a question of Queen and country, his position would soon be ascertained.

Chairman Fuller called upon Mr. Anderson to take the chair while he spoke on the question. He referred to Mr. Wiman's He referred to Mr. Wiman's

question. He referred to Mr. Wiman's message to him, which he had answered as a private individual, and he thought the executive officers should be empowered to carry the matter further. His business on mostly with the United was carried on mostly with the Office States, and if those opposed to reciprocity know the amount of trade which might be carried on if commercial restriction were withdrawn there would not be one dissenter. A cry was made that the measure would be death to Canadian manufactures. If the Canadian manufacturers did not have the pluck and energy to hold their own against American competitors, all he could say was that they deserved to sucumb. It was not the manufacturing somuch as the agricultural interests that

ere at stake. Mr. Joshua Legge, of Gananoque, saidhe lived in a manufacturing village, and the manufacturers there would only be too glad to have the markets of the United States open to their goods.
Mr. James Cochrane, of Owen Sound,
thought that it would be better to take
another move and ask the Government of

Great Britain for commercial union in food supplies.
Mr. D. R. Ellis thought that every farmer in Canada would throw up his hat if reciprocity were obtained.

Mr. Thos. Kells, of Vandecur, thought that the resolutions were premature. He had a little too much British blood in him to throw himself at the foot of Congress,

and he would not support the resolution. He had advocated Canadian manufacturing interests in the past, but he believed that these interests now take care of themselves. The consideration of the matter was pre-Mr. D. R. Ellis thought that now was the proper time. (Cries of hear, hear).

Mr. James Cochrane submitted the following addition to the amendment:

The amendment of the amendment.

That in the event of failure to obtain reciprocity between the United States and the Dominion Government, the Imperial Parliament be asked for such trade relations as would admit colonial goods free of duty and place a heavy tax in foreign food supplies.

The amendment of Mr. Hunter, with the thore addition was a manifestable of the state of the s bove addition, was unanimously carried. The following resolution on the railway ariff, by Joshua Legge, was carried after

some discussion:

Rosa Trainor, while with school companions, met the ugly ex-convict on the street. He was pointed out to her as a late release from prison. At first sight she seems to have conceived a strange passion for him and she took the first opportunity to make his acquaintance. He was wary, thinking her attentions were a trap of some kind set for his benefit by detectives. But she soon undeceived him, leaving home, friends and the surroundings of a comfortable home to follow his fortunes. She was found in his company soon after she left home and was taken in custody and returned to her parents. In her rage at being separated from him she poured petroleum into her piano and set fire to it, destroying the instrument and nearly burning the house over her parents' heads. She escaped from home again about two weeks ago with the assistance of her strange lover. They disappeared then, but returned here last night. James Trainor, her father, got a warrant for their arrest, and Rosa and "Rusty" were captured. He yielded, but Rosa fought like a little demon, and when her father appeared she attacked him savagely. Before she was seized with this strange infatuation she had borne the character of a virtuous and more than ordin.

Branch Office, 37 Yonge St., Toronto

A last (Thursday) night's Tucson (Arizona) despatch says: One of the most audacious, desperate and successful train robberies ever recorded occurred yesterday on the west-bound overland train on the Southern Pacific Railroad near here. The Southern Pacific Railroad near here. The western bound express, due here at 10.30 last avening western bound express, due here at 10.30 last evening, was stopped and robbed at Papago station, eighteen miles east of here, about 9.30. The number of men engaged in the robbery is variously estimated from five to eight. Col. Harper, the engineer, when approaching Papago was signalled by a red lantern to stop. He slowed down, and as he neared the light he noticed ob-structions on the track so placed that, in use he failed to stop, the engine would a read the track and derail itself. Immediately on stopping a dozen or more shot were fired into the express car, and a man with a pistol in each hand boarded the locomotive and commaded Har per not to get down. The other robbers had in the meantime been prying open the express car, and, failing to get in ppen, they placed a stick of giant powde under it, and compelled Harper to light the fuse attached. This he was obliged to do, but to avoid being blown up the messenger opened the car and the robbers took possession. After extinguishing the fuse they then took charge of the car, uncoupled the engine, baggage and express car from the remainder of the train, and made Harper get on the engine and pull ahead two lengths. This being done, Harper was again put off and the robbers took charge of the engine and pulled six miles toward engine and pulled six miles toward.

THE AMERICAN DILEMMA. The Alaskan and Canadian Fisheries Mus

be Settled on Similar Principles. A Washington cable says: The Department of State is carefully considering the question of the jurisdiction of the United States over the Alaskan fur seal 'fisheries. The statement made in the Canadian Parliament vesterday, to the effect that com-munications on the subject had been sent by that Government to Secretary Bayard, is denied at the State Department, and its said that all of the correspondence touching the fisheries has been carried on directly with the Government of Great Britain. This fact, it is believed, will ex-plain the delay in hearing from the State Department, of which complaint has been made at Ottawa. The United States laws, under which certain British Columbian vessels were seized by the revenue cutter Corwen last season, are more than twenty years old, and the question of a conflict between them and the law of nations is one especially knotty and difficult of settle-ment. The fact that this question has been raised strengthens the Department of State in its determination to continue t pursue the temperate course it has so far followed in the negotiations with Great Britain concerning the Canadian fisheries. The vast Alaskan fisheries are thought to be quite as important to this country as are the Nova Scotian inshore fisheries, and the State Department is necessarily obliged to so shape its construction of the laws and treaties as to preserve the right of the United States to the exclusive enjoyment of the Alaskan fisheries while maintaining the treaty rights of our fishermen in North American waters. It is held that there cannot be two constructions of the laws, and any position assumed by the Depart-ment must apply equally to Atlantic and

about midnight.

News from the disturbances at Paulding reservoir yesterday indicate no material change in the situation. At last accounts there had been no conflict between the troops and the nien engaged in destroying public works.

Trouble has been brewing for some time in the vicinity of Antwerp, Paulding County. There is situated near there a reservoir which feeds the Miami & Erie Canal, and a portion of the Wabash Canal. Some Paulding County people want the reservoir and Wabash Canal abandoned, claiming it to be a detriment to their land and practically valueless. Since the Bill to abandon them was defeated in the Legislature last winter several attempts have been made to blow up the aqueduct. The last attempt, which resulted in much damage, occurred about one month ago. The breakage was, however, repaired, and guards were stationed to watch the lawless dynamiters. The latter declared a 30 days' armistice, and notified lumbermen to remove their logs from the Wabash Canal, as it certainly would be destroyed. Little attention was paid to these threats, but early Tuesday morning, about 200 men, armed with picks, shovels and explosives, made a raid on the canal. They easily overpowered the four guards on duty and leveled the canal banks for a distance of They blew up two locks and another, also burning the lock

HEAD CUT OFF.

An Englishman Decapitated by the Care

at Niagara. A last (Thursday) night's Niagara Falls Ont.) despatch says: About half-past I o'clock this afternoon Conductor Ganter, on a special freight, arrived at the West End G. T. R. vard, near Clifton Junction On looking out of the van window he noticed a man walking down the C. S. R. transfer track lazily. The manner in which he was walking during the drizzling rain attracted his attention. It was about fifteen minutes before the train could be taken into the yar and it cons about sixty empty coal cars. Up train starting he noticed the third car from the van rise on one side as well as the fore truck of the next car. Upon looking out of the van at the rear to see what caused it a most horrid spectacle presented itself to him in the shape of the body of a man between the rails and the head outside of the rail, it being cut off as if done by knife. He immediately alighted from th van and flagged the express train west, and with the assistance of one of his brakemer had the body removed from the track. It was taken to the depot, and up to a late hour no one had recognized him. There was nothing on his person that he could be identified by. He is about 5 feet 7 inches high, apparently middle-aged, weighs about 145 pounds, has short-clipped full whiskers, and is attired in working clothes. He is supposed to have been the man whom th luctor noticed. It has been reported that the man was recognized by some quarrymen from Queenstown quarries as being a stonecutter named Carruthers, lately out from England. He had been in town with some of his associates during the morning and had partaken freely of liquo and had been left by them in town.

IRELAND'S UNHAPPY LOT.

It has transpired that Mr. Gladstone, It has transpared that his speech at the dinner given by the Labor members of Parliament last night declared his entire disbelief in the accusations made against the Irish leaders. Mr tions made against the Irish leaders. Mr Gladstone said in May, 1882, immediately after the assassination of Lord Frederick and Under Secretary x Park, Mr. Parnell Cavendish asin Phœnix

The contents of the letter, which had obviously been written under great mental distress, threw considerable light upon the topic of the present hour, and was strong evidence in favor of the nd was strong evidence in favor of th ontention that the Times letter was a bas and malicious forgery. Mr. Parnell, appa-rently foreseeing that in the public mind he would be associated with the crime, offered would be associated with the crime, offered to place himself without reserve in Mr. Gladstone's hands. He wrote that he regarded the murders with the utmost abhorrence, and he offered to resign the leadership of the Irish party and retire altogether from political life if Mr. Gladstone considered such a step advisable in the interests of Ireland. Mr. Gladstone said he would refrain from saying what reply he made, adding that it was only a short time since he obtained Mr. Parnell's assent to his mentioning the matter.

assent to his mentioning the matter.

Alluding to the advice tendered Mr. Parnell from certain quarters that he should bring an action against the Times, Mr. Gladstone said that many years ago, when he was Commissioner to the Ionian Islands the Times bitterly attacked him, accusing him of treason. On returning to England him of treason. On returning to England he consulted a famous lawyer, with a view of bringing an action, but was dissuaded from taking legal steps, the lawyer expressing the conviction that, even if Mr. Gladstone proved his case, no jury in the then state of public mind would be likely to consistent of the conviction of the co vict the Times. Mr. Gladstone's statemen has caused an absorbing sensation in the clubs, but has not yet appeared in the press. The Conservatives talk of challeng-

The Government, he said, by pressing on the Coercion Bill were raising an agitation that would cer-tainly lead to a general election. With regard to the assertion that if Home Rule were granted to Ireland that country would fall under the control of the American fall under the control of the American Irish, he said that it was his belief that if Mr. Gladstone's Bill had been passed the Irish would now resent interfere ace from New York as much as they had resented interference from England.
Sir George Trevelyan writes: "The passage of the Crimes Bill as it stands

The Marquis of Lansdowne has declined to accept the provisional arrangement made last week by the mediators engaged made last week by the mediators engaged in the task of adjusting the dispute between him and the dissatisfied tenants on his Luggacurran estates. Mr. William O'Brien, whose proposed tour to Canada to stump the country against the Marquis of Lansdowne was postponed on receipt of the intelligence that the Luggacurran difficulty was about to be settled by the above mentioned mediation, stigmatizes the agent's present offer as a flagrant repudiation of every term of the agreement which the public was led to believe had been accepted. The Freeman's Journal stated that th Government recently applied for a list of educated candidates to fill vacancies in the ranks of the Irish Constabulary caused by resignations, and that the refusals to join service were so numerous that the Government was compelled to resort to an inferior list. Many even of the latter refused to take the places offered them.

A last (Friday) night's London cable says: The Marquis of Hartington will pre-side over a meeting of Liberal-Unionists called to assemble here to-morrow to consider certain proposed amendments to the Irish Crimes Act Amendment Bill, princi-pal among which is one doing away with or

Mr. Dillon and Mr. Bradlaugh supported the proposal. Mr. Balfour, Chief Secretary for Ireland, declined on behalf of the Government to accept the change. Sir Wm. Mr. Gladston advised the Government to concede Mr Healy's amendment. The word "offence' could not be held to be strictly synonymou could not be neid to be strictly synonymous with the word "crime" in the Bill. If the Government desired a strictly legal use of the measure they would accept accurate definitions. A division was taken and the amendment defeated by a vote of 157 to

The Dominion and Nova Scotian resolu tions in condemnation of the Irish Crime Bill are still but little noticed here. Man John Morley last night referred to them in support of his opposition to the Bill.

The St. James' Gazette says these votes only become mischievous when used as arguments in the House of Commons. When an English party politician tells us he has got the Canadians on his side, it is difficult to avoid reminding the colonists that they have nothing to do with domestic politics, and that their interference is very nuch out of place. The Gazette objects to his rather foolish piece of Canadian officiousness as a sort of threat to the Imerial Parliament.

perial Parliament.

The Daily Chronicle regards the resolutions as simply impertment. It says if the
Imperial House of Commons were to pass a
resolution affirming the right of the French
half-breeds in Canada to cut the throats of Canadians who are loyal to the Dominion, we do not say the Canadians would ignore it, because we fear they would retort with considerable degree of asperity. When American or Canadian legislatures pass demonstrate their unfitness for the exercise of legislative functions.

STRANGE FATAL ACCIDENT.

Lady Drowned by Falling Into a Floode

A sad and fatal accident happened early Thursday morning to a Mrs. Rafferty, a widow of advanced years, whose son keeps grocery store on the corner of Murray and Ottawa streets, Montreal, in what was the inundated district. Mrs. Rafferty had opened the store before 7 a.m., when a woman came in for some goods, and, going to the back of the shop, where it was dark to serve her, deceased stepped upon a trap door, which gave way beneath her weight and she fell into the water which filled the ellar. Her screams brought the custom to the edge of the trap door, and she managed to catch Mrs. Rafferty's hand and called for help, but while a young man was trying to make his way to the hole the woman was forced to relax her hold on Mrs. Rafferty's hand, and the latter fell back and disap-peared under five feet of muddy water. Her son, who heard the screams, rushed from his bed and jumped into the hole and rescued his mother, but life was extinct.

Mr. Charlton moved his resolutions in favor of giving the information in the public documents to the public before being presented to the House. In this matter Parliament should not be treated as a privileged class. The information collected was really the property of the public and should be given to the public and the

public, and should be given to the public as soon as possible. The system of hold-ing back information sometimes lead to real and serious injury to the public interest. For instance, last election was fought largely in the dark because of lack of information later than the reports last presented to Parliament, covering the facts nly up to June, 1885. He had been formed last session that the net public debt on April 30th, 1886, was \$205,569,000. He had asked for a statement up to the 1st June, but in the hurry of prorogation the Finance Minister forgot to give it. With great courtesy, however, he sent him state-ments showing a net debt of \$206,000,000 in round figures, but the Public Accounts, oringing the statements down to the 30th June, showed the net debt to be \$223,159. 000. During the last election the people of Canada were in the dark respecting the fact that the net public debt had gone up about \$17,590,000 in thirty days, and stood at one time at over \$223,000,000. H. found that in many countries public information of this kind was placed before the public much earlier than in Canada. For stance, in England he found the Board of Trade published monthly statements, and statements of trade and navigation were made quarterly. He thought a system

as good as circumstances would permits should be established in Parliament. Sir John Macdonald agreed in the principle of the reform proposed, but thought it would require a change in the statutes establishing the different depart ments, under which it was provided that the reports should be sent to the Governor-General and by him submitted to the

Sir Richard Cartwright expressed gratiication at the principle of this reform be-ng conceded. The public interest had suffered in the late election by lack of in-ormation. Estimates had been made in elation to the public debt by the leader of the Opposition, and, as usual wit gentleman, his estimate was well and, as usual with that

gentleman the mark. Mr. Blake expressed the opinion that it Mr. Blake expressed the opinion that it would require no change in the statutes, because the provision that these reports should be sent to the Governor-General and then to the House did not prevent an earlier presentation of the facts to the public. The efficient carrying out of the proposed new system would involve the early communication with the departments, for no doubt men in office were like other people, not ant to anticipate duty, and it eople, not apt to anticipate duty, and it was fair to suppose the late time of pre-enting the reports caused lateness in getting the information in a shape to be preented. He thought another change should e made, and Government railways should ublish weekly returns of traffic like other

An agreement was reached that the mater should stand over for the present Mr. Casey moved for a copy of the com-mission or other documents appointing Sir Alexander Campbell and Sanford Fleming as representatives of Canada at the Colonia onference in London. It was generally inderstood he said that the Conferer was intended as a preliminary to Imperial Federation. He trusted the Government had not authorized its representatives to speak for Canada on that subject without submitting the question to the people at a

Sir John Macdonald suggested that the motion should call for all papers. He did-not think the despatches had been brought

Mr. Casey adopted the suggestion, and the motion so amended was carried. Mr. Perry, moving for a return relating to the steamboat service between Prince Edward Island and the mainland, said that uring the recent elections a letter signed 'John A. Mr. Jamieson, on moving a Bill to amend the Canada Temperance Act, explained that it was somewhat similar to the one introduced by him last session. Many of its provisions received the approval of the House, but failed in the Senate. It was to make the Temperance Act as perfect as

ossible. Mr. Mills—I think this is a favorable Mr. Mills—I think this is a favorable opportunity to call attention to the responsibility resting upon the House in this question. If there is a question on which it is the duty of the Government to have a policy and undertake to direct the House along the line they intend to travel, it is this. When another Administration occupied the Treasury benches, an honorable mem. he Treasury benches, an honorable me per for the Province of Manitoba, who now in the Senate, introduced a resolution declaring that it was the duty of the Gov rnment to take up the question of prohibi ernment to take up the question of prohibition and guide the House upon that subject. That resolution, I believe, was supported by every gentleman now on the Treasury benches who had then a place in the House. The Government of that day admitted the soundness of the principle laid down and introduced the Bill now known as the Canada Temperance Act, which is still on the statute book, and which these gentlemen, who are not members of the Government, are endeayoring to swand. Why ment, are endeavoring to amend. Why should this question, which affects the peace, order and good government of the country, which affects the morals of the people, which affects the public revenues, be eliminated from the policy of the Gov-ernment, and transferred to the hands of private members? Why, sir, a large portion of the community are scarcely satisfied because the

How much less can those who are in the majority, and who assume the responsibility of the general policy of the country, escape responsibility in this most important matter? Sir Charles Tupper—I hope early next week to be able to intimate the probable time. Sir John Macdonald, moving the second reading of the Bill respecting the Department of Trade and Commerce, said that he would make his explanations when they came to consider the Bill respecting the Department of Customs and Inland Revenue. Sir Richard Cartwright said he had Department of Customs and Inland Revenue. Sir Richard Cartwright said he had always been of opinion that it was a mis-take to have in this country a Cabinet comsed of thirteen or fourteen Ministers o he first rank, and that it would be bette to have a much smaller number of Ministers and to have a number of Under-Secretaries of State appointed from among the junior members of the House, as was

one in England. Mr. White (Cardwell) moved the second ading of the Bill respecting the Banff ational Park.

Sir Richard Cartwright said he had been

nformed that some portions of the land necluded within the limits of the park were owned by gentlemen who were y members of this House. The rmerly members Government should surely own everything that was included within the limits of the park. Then he understood that some large notels had been erected, and leases given to persons who were formerly members of this House. On the whole he thought there should be considerable discussion and inquiry before the Bill was passed.

Mr. White (Cardwell) said that the park

was twenty-six miles long by ten broad, bu that a very considerable portion of it was covered by a sheet of water called Devil's Lake, which is fifteen miles long. Mr. Mills said the Bill actually gave the

Minister of the Interior a little Province of his own and allowed him to rule it as he pleased. The regulations should be subject to the control of Parliament. INSANE ASYLUM HORRORS.

he Buffalo Investigation—Inhuman Treatment of Patients by Attendants. A Buffalo despatch says: Charles Brandt, a former patient of the Lunatic Asylum, came here from Welland, Ont., yesterday, to testify before the Grand Jury. Concerning ex-Assemblyman Frank Sipp who is now under treatment, Brandt testified: "One day I saw an attendant named Poulson get terribly angry because Mr. Sipp was awkward in sweeping the floor. He pulled Sipp into the extension and I looked through an open door and saw Poulson and Winspear catch Sipp by both arms and throw him on the floor on his back. Poulson jumped on Sipp's chest and then knelt on his legs above the knee while he choked him. Sipp had lucid moments and in one of these he complained of his breast being sore and said: If they would only let me alone! But when a man is once in this place God knows he never

will get out."

Abram White, of Perry, said that some of the attendants used to shake the patients violently. When he first came one grabbed him by the shoulders, and after shaking him shoved his knee into White's abdomen. White nearly fainted and suffered intense

agony for hours.

Ella Cummings, of Fredonia, kept a journal during her stay at the asylum. She told the jury of a female patient who was forced into a bath tub and then mopped off with a kitchen mop. Then the attendant threw some soft soap in her eyes and laughed at her pain and fright. All the testimony is in, and a report is expected on

apposed Satisfactory Settlement of the Case-The strained Relations

A Paris cable says: The Paris newspapers appear to be nearly all well pleased by the manner in which the Schnaebele affair has been settled and pronounce it an honorable settlement. They praise the prudence and fairness displayed by M. Flourens, Minister of Foreign Affairs, in his conduct of France's side of the case. A majority of the papers draw from the incident the lesson that in the future France must redouble her vigilance in order to avoid surprises of the kind caused by the arrest of Schnaebele. Hitherto, the paper adds the French Government agents ernment agents who were arrested have peen liberated after a short detention. The cases of the Danish captain, Sarauw, the poet Krazewski and the Belgian Jansen do ot apply to the French. A recent instance of the leniency of the German Govern-ment is the case of Lieut Letellier, who was caught at Carlsruhe, having in his possession plans of the fortress and sketches, and who was liberated after his guilt had been fully established. This course on the part of the Government has been the rule toward other Frenchmen, but a further observance of the rule, the Gazette

The Kreuz Zeitung represents that the acreased irritation among all classes in ermany must impel the Government to ask France to offer trustworthy guarantees that Germany shall in future be against officially-permitted espionage. The regret of the war party is that if Bismarck means to raise the final question now, the delaying of the conflict has enabled the French War Department, during the past four months, to reform and immensely strengthen the line of defences of the fron-tier. Report of the Physician on the Hospital for Lepers in New Brunswick.

The annual report of the Department of Agriculture contains the following report of Dr. A. C. Smith on the hospital for lepers at Tracadie, New Brunswick, for the year 1886: During the year three patients were admitted—two males and one female. Of these, one was from Tra-cadie and the others from one of the ad-joining parishes—Caraquet. There were five deaths, leaving at present in the hospital nineteen—eleven males and eight females. Two of the patients are in the last stages of the disease, their sufferings soon to end in death; twelve in the early, and five in the more advan which different portions of the body suffer from infiltrations of leprous material, leading to the destruction of the healthy flesh—ulcerations causing the loss of fingers and toes, and tubercles destroying the eyesight and func-tions of tongue and throat. With the exception, however, of an outbreak of ulcerated sore throat, from which all the inmates suffered, and which, for the time inmates surfered, and which, for the time being, bore heavily on the sisters in charge, there has been an immunity from much of the intense suffering incident to the disease. The patient whom I discharged a year ago, and whose recovery was entirely due to the hygienic influences of the lazaretto a hygienic influences of the lazaretto acting on a robust constitution, remains free from the disease. The girl referred to in my report of 1884, from whom all symptoms of the disease were disappearing, has entirely recovered, but for reasons given in my last report, I did not yet advise her discharge from the institution. With the ex-ception of one suspected, there is but a single known case of the disease out. single known case of the disease out. a single known case of the disease outside of the lazaretto, which will, doubtless, soon seek admission. It is rumored that a family living in the neighborhood of Caraquet have the disease, but private inquiry leads me to believe that it is not leprosy, but a malady bearing some resemblance to it. Before my next report I shall personally investigate the matter. I cannot close this report without adding an humble close this report without adding an humble tribute of respect to the memory of three of the sisters who have lately passed from among the living. ADDITIONAL COUNTY NEWS. New Dublin.

Death has again visited our quiet neighborhood and removed one of our oldest inhabitants, Mrs. Jane Boulton, aged ninety-three years. She left quite an amount of money with Mr. George Boulton to take care of an aged brother who has always lived with her.

of age, and never married. The steam mill is running on ful time, giving good satisfaction. We are more than pleased with the pro-prietor, Mr. Cacwell, as he is a very

obliging, good natured gentleman. Mr. Benjamin Horton has com menced putting up the walls of his house, placing it on a lovely cite. When fittished it will probably be the nicest house in Dublin. The cut stone base and corners were finished by Patrick Fitzgerald, of Farmersville, and are universally acknowledged to be the finest finished cut stone work

ever put up in this section. Mr. Thomas Murray, of the Bingo farm, had an encounter the other day with a Glen Buell colored man, and barely escaped with his life. Blood shed; water flew; hair dropped; ground all torn up; English language terming him a niggar.

We met a first class tramp, if such there be, last week, and minutely looked him over. He was making his way to that hard city called Ottawa. Among many questions asked by us of said traveller we inquired if whiskey played any part in the drama of his life, to which he replied that it did, and that he would have been rich only for an inherent desire for bug juice. He informed us that he cannot now do without whiskey and that he carries a small still on his back and when he unluckily drops into a Scott Act township or county, he just stakes down and makes a small decoction of tanglle leg It is reported that a Mr. Stephens
