By the end of the next twenty-five year period, in 1864, the Society seems to have dropped back somewhat though etill meeting quarterly. About eight members seems to be the average attendance and in S-pt., 1864, the Society was re-organized. In 1889 áffairs of the Society appear to have been moving in about the same way The attendance at meetings was very small, the business confined to arrangements for biseding of live stock.

JUST A LITTLE MORE RICH, RED
BLOOD CURES MOST ALLMENTS.

The lack of sufficient red health

My Dear Mother:—Your ever so welcome letter came a few days ago, also the parcels. Many thanks for also the parcels. Many thanks for both.

We are having a little winter weather at present. It started to snow yesterday moraling but it did not amount to anything for the ground was white only a short time it looked fine while it lested. The limit time we were relieved there was som on the ground

We sure had a lovely walk coming from the trenches. You can imaging what it would be like after an inch os amow on the ground and the snow melting along with rain in the mean time, but we did not mind that. Nothing would stop us when we a coming out after being eight days in the front lipe. I hope we do not make another trip that long for it is an average stock of goods on hand, the prices have advanced a very little so far, but prices will be

The months of the months of the month is the month in the month in the month is the month in the mo that is putting up barbed wire in No Man's Land ' I have been on one. 1 will tell you a little about what it is

For a start we had to go out and get barbed wire and carry it to the front line. When we had the wire all ready we had to wait for the moon to go down before we could get out of the trench for Fritz bould see us as it was nearly as bright as day. After wasting for rearly an hour a cloud came over and it darkened a little as we hopped out of the treuch. We got a hundred yards staked off and wired before the moon came up again. Just before we were going to get back in the trench I stood up to hand the pair of wire snips we were using to the trench I stood up to hand the pair of wire suips we were using to the Corporal. As I did a sniprr saw me and fired. The bullet just missed me and the officer warned me to be more careful. It was a good thing we
