HARBOR GRACE NEWFOUNDLAND, THURSDAY OCTOBER 8, 1874

NUMBER XXIX

HOLLOWAY'S PILLS

Let no one be longer oppressed with a notion that his malady is incurable till he has tried the Purifying Pills. A few doses will remove the more urgent symptoms and therefore completely neutralize disordered actions, rouse the torpid liver, relieve the obstructed kidneys, cleanse the pure blood, and confer on every faint healthful vigour.

Impurities of the Blood.

These wonderful Pills are valued at the humblest hearths as well as in the houses of comfort and wealth. They work a thorough purification throughout the whole system without disordering the natural action of any organ, and eradicate those germ complaints which consign tens of thousands to an early grave.

Indigestion, Bilious Complaints and Sick Headache.

No organ in the human body is so liable to disorder as the liver, and hence is most apt, when neglected, to become seriously diseased. Remember when nausea, flatulency, or acidity on the stomach warns us that digestion is not proceeding properly, that Holloway's Pills regulate every function, give strength to every organ, speedily remove all causes of indigestion, bile, and sick headache, and effect a permanent cure.

Weakness and Debility.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effects of these Pills is in the highest degree bracing, renovating, and restorative. They draw from the system the morbid causes of disease, re-establish the digestion, regulate the secretions, strengthen the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Turn of Life and Dropsical Swellings.

The turn of life is the most distressing period in woman's existence; it distresses thousands. The whole of the gross humors collect together, and like a tide sweep away health and life itself, if not timely and powerfully checked. The most certain antidote for all these dangers is Holloway's Pills. Armed with them the fever is passed through, and the sufferer is more restored to the possession of unimpeded health. It is but little known that at the so-called "turn of life," man also, who verging on fifty or fifty-five, discovers that his health is considerably deranged and knows not the cause—a critical period in his life. All perils to both sexes are at once removed by recourse to these Pills.

The Kidneys—their Derangements and Cure.

If these Pills be used according to the printed directions, and the Ointment rubbed over the region of the kidneys for at least half an hour at bed-time, as salt is forced into meat, it will penetrate the kidneys and correct any derangement. Should the affliction be stone or gravel, it is particularly recommended that the Ointment in such cases, be used night and morning, and by its judicious application the most astonishing cures may be performed.

Holloway's Pills are the best remedy known in the world for the following diseases:

- | | |
|-----------------------|---------------------|
| Ague | Rheumatism |
| Asthma | Retention of Urine |
| Bilious Complaints | Scrofula, or King |
| Blotches on the Skin | Evil |
| Bowel Complaints | Sore Throats |
| Debility | Stone and Gravel |
| Dropsy | Secondary Symp-toms |
| Female Irregularities | Tie-Doloureux |
| Fevers of all kinds | Ulcers |
| Gout | Veneral Affection |
| Headache | Worms of all kind |
| Indigestion | Weakness from |
| Liver Complaints | whatever causes |
| Lumbago | &c., &c. |
| Piles | |

The Pills and Ointment are sold at Professor Holloway's Establishment, 533, Oxford-st., London; also by every respectable Vendor of Medicine through the civilized world, in Boxes and Pots, at 1s. 1d., 2s. 6d., 4s. 6d., 11s., 22s., and 33s. each. The 2s. 6d. contains three, the 4s. 6d. size six, the 11s. size sixteen, the 22s. size thirty-three, and the 33s. size fifty-two times the quantity of a 1s. 1d. Box or Pot. The smallest Box of Pills contain four dozen; and the smallest Pot of Ointment one ounce.

Full printed directions are affixed to each Box and Pot, and can be had in any language, even in Turkish, Arabic, Armenian, Persian or Chinese.

NOTICE

IMPORTANT TO THE Citizens of Newfoundland

THE CONTINENTAL,

LIFE

INSURANCE COMPANY

OF NEW YORK,

In order to complete their line of Agencies from London to San Francisco California and to extend universally the benefits and advantages offered by their Company and to place within reach of all the means of making provision for the Widow and the Orphan have decided on establishing Agencies in

St. John's and Harbor Grace, Newfoundland.

The CONTINENTAL beyond all comparison the most successful and most popular Company ever established in Europe or America. It has only been SEVEN YEARS in existence but at its organization men of enlarged views and great experience in Life Insurance, were placed in its management, who, having discarded all useless and annoying restrictions, and adopted all the improvements known in Life Insurance—many of them original with themselves, it at once received, and continues to receive a support unprecedented; and it now stands far ahead of many companies TEN YEARS older than itself. It has issued over FIFTY-NINE THOUSAND POLICIES, and has over \$6,750,000,000 assets, all securely invested, as required by law, in Bonds of the United States, Bonds of the State of New York, or in Real Estate. For that portion invested in Real Estate, it holds in all cases Double Security. So popular is its management and so great the public confidence that there are only Two Companies in the World that now approach it in the amount of business done.

By the Laws of the State of New York Life Insurance Companies are not allowed to do Fire Insurance or any other business, the importance of which law cannot be over-estimated by all who desire to protect their families by Life Insurance, and who do not wish to have their funds put in jeopardy by Fire Insurance.

By the Laws of New York Life Insurance Policies are held sacred to the families of the insured, free from the claim of Creditors.

The CONTINENTAL issues all kinds of Policies, viz: Ordinary Life, Endowment, Joint, &c.

All losses in Newfoundland will be paid at the Agency here without subjecting claimants to the trouble and expense of going to New York.

All Policy holders can vote and are eligible to office.

Directors.

- L. W. FROST, President.
- HON. GEO. HILTON SCRIBNER, Secretary of State.
- HENRY C. FISH, D. D., Newark, N. J.
- M. B. WYNKOOP, of Wynkoop and Hallenbeck.
- JOSEPH T. SAWYER, Mer., Liberty Street.
- RICHARD W. BOGART, O. M. Bogart & Co., Bankers.
- CHANCY M. DEPEIN, New York.
- R. C. FROST, do do
- WILLIAM C. WHITNEY, Barrister-at-Law, New York.

THE STAR

HARBOR GRACE, OCTOBER 8.

Not a word about the 'bogus' Commercial Society. Another imposition on the public.

SOME evil and malicious persons, on Tuesday night defaced with tar the Seal over the shop door of Messrs. Youdall & Morrison. We hope to see the parties soon in custody.

WE are glad to see that our hint about the Road Board on Cochrane Street, in our last, was quickly attended to. Early next morning we beheld a "lively" with his wheel-barrow and reap-hook 'en route' for the locality complained of.

MELANCHOLY CASE OF DROWNING.—On Wednesday, 30th ult., four men belonging to Broad Cove, left their homes early in the morning in a boat with a view of procuring some bait. When at a little distance from the shore, a heavy sea broke upon them, and one of the men, named William Butt, was washed overboard, and almost immediately disappeared. The remaining occupants endeavoured to keep off from the shore, but their efforts were unavailing, as another sea cast the boat amongst the rocks and was instantly smashed to pieces, the men clung to pieces of the wreck, and after repeated efforts and hard struggling with the waves, reached the shore in a very exhausted condition. The body of the other unfortunate man was recovered during the day, about two miles distant from the place of accident.

WE can not but express our complacency and admiration in seeing the works for the completion of the Catholic Cathedral here in Harbor Grace, going on again since May last, with renewed energy and undoubted determination. This magnificent edifice judging from that portion which is almost completed, will be, we must admit without fear of contradiction, of the most solemn and imposing character, and if not the largest, still in the grandeur of its conception and the delicacy of its execution may fairly challenge a comparison with the most beautiful productions of the kind.

The building has the form of a Latin Cross, and is covered by a gigantic octagonal dome 40 feet in diameter and 150 feet from the pavement to the lantern. The dome rests over corinthian arches, support by eight gigantic columns and eight pilasters of great beauty and is remarkable for the substantiality of its materials, delicacy of execution and the beautiful effect of its "tout ensemble."

That portion of the building at present under construction, will consist of a nave and two aisles, divided by finely polished and substantial white marble and Aberdeen granite pillars (the handsome donation we are informed, of the Hon. W. J. S. Donnelly, valued at £1,200 stg.,) covered by richly ornamented arches, forming passage ways of an imposing appearance. The organ gallery will be over the vestibule, receiving light from two side windows and an arched window in front. The gallery will be surrounded by a rich wide arch, and in front, the balcony will be of fine hardwood.

As that portion of the Cathedral which is already completed, has stood the test of public admiration for some years; it furnishes the best grounds for hoping that the rest of the building, at present under construction, will be equally carried into execution with success and speediness, and the traveller returning from Italy or Greece will be astonished to find the genuine Corinthian architecture revived with unquestionable fidelity in this town.

The architect it should be remembered, "can not erect edifices as the poet writes verses, or the painter covers his canvas, without any external assistance." A great expenditure of capital, (especially in this Island where the very sand and stone are to be imported from distant lands) is necessarily required to the production of monuments of this kind. The magnificent building then, which we look upon with admiration, bespeaks in an unmistakable manner of the untired energy of the respected Prelate under whose direction it is erected, and, of the liberality of his faithful people who, it appears, answering to his calls, spare neither labor nor money for the accomplishment of this holy and costly undertaking. A lasting oblation is conferred upon our Catholic friends by the execution of this excellent work, where energy and genius work hand in hand. It will not only be an ornament to the Island, but it will give to our people a taste for the beauties of architecture, it will infuse into the mind of our youth the maxim of Jacques Coeur "A coeur vaillant rien est impossible."

In no district in this Island have the poor fishermen such cause to complain than in Harbor Grace. Our fishermen, the "bone and sinew" of the country, should be treated in a far different manner. Oppression seems to be the order of the day. Not content with oppressing them in the staple industry of the country, but they are also disfranchised in the political welfare of their native land. Such high-handed outrages should receive a check. This fall will be the only chance for the people to endeavour to break down the barrier of oppression, and convince the firm of Messrs. John Munn & Co., that they are not the only parties interested in the coming struggle. Let our people on their return home from the scene of their summer's avocation, demand their rights; see that your wages are paid in cash, demand no other mode of payment. The fishermen and labouring classes of this district can now get justice done them by the recent appointment to our judicial bench of one, whom the people have every confidence in as a man of justice, meting it out without fear or favour. It was an old saying here in former times that our people got "plenty of law, but no justice." Never were truer words spoken. At the approaching election let the people choose their own representatives and not allow strangers to be forced on them by a few individuals. Let the people, one and all, put their shoulder to the wheel, and victory will be theirs. Why should we allow religious bigotry to be instilled into our minds by a few political adventurers? Why should not our fishermen have a voice in the material welfare of the country, and show to the outside world, that Newfoundland, by the energy of her people, will yet stand forth like a shining star. This fall we intend to lay before our readers a few accounts received by our poor fishermen from the firm of John Munn & Co.; they will, we have no doubt, startle our mercantile men in the capital and elsewhere. We cannot see any excuse why our fishermen tolerate such outrages. The people, at the present time, are afraid to give an opinion as to who will be our coming candidates, they must wait the arrival of our Old Politician JOHN, who will be here in a few days. The old sinner, hearing of a General Election, could not withstand the temptation of returning, and using his "Bread and Butter" power, and dictating to the people their rights as British subjects. In a short time their satellites and under strappers will be on the war-path threatening starvation right and left. What a downfall would their political career sustain if our people will only resist their power this fall. We picture the dismay that would be on their countenances at finding themselves determinedly resisted at the coming election. Next Spring the Direct Cable Company will be employing large numbers of our people, thereby leaving others to dictate their own terms next summer. This is one of the reasons why our Monopolists are so much opposed to this grand achievement of science. Our people are noted for their brave and determined spirit in other parts of the world; would to Heaven they would show the same spirit at home for the benefit of their sea-girt isle. In a short space of time, their independence once gained would go on increasing, and our fishermen would command that respect due to their position, which unhappily is not the case at present. Let the people of this district be the first to show that independent spirit, and thereby set an example to other districts where oppression is resorted to by monopolists. Why should our people be deprived of their franchise, and forced to cast their votes in opposition to the dictates of their conscience. Our only chances are to elect men in opposition to those brought out by John Munn & Co., for THEIR candidates are our oppressors. Last Session they took the duty off our tea and molasses. We would ask our fishermen get these articles cheaper now at the store of the above named firm? No! decidedly not.

but alas! the poor Widows and fatherless children must bow to a sanctified individual for the scanty mite to sustain life. Will not the All-wise God judge the oppressor of the poor. What sayeth the Holy Scriptures on such matters? He that oppresseth the poor reproacheth his Maker." And again "He that oppresseth the poor, because he is poor, shall also cry himself but shall not be heard."

Will you kindly make room in your paper for the accompanying editorial. It was written for the Public Ledger, which should have been issued this morning but was not. Possibly you may not agree with all my remarks, but I have not thought it advisable to make any alteration in them. I hand the article to you as it would have appeared in the Ledger if that paper had been published.

Yours truly, ADAM SCOTT, Ed. Public Ledger.

At last it has been decided that the approaching election shall be general, not partial. It would have been more to Mr. Carter's credit if he had come to this decision months ago, and had shown a little more independence in the matter between him and Mr. Shea on the subject, and it is more than likely that it has at length been settled rather by the force of circumstances than by any decision on the part of Mr. Carter. Let this, however, be as it may, on this general election will depend the continuance of the present party in power and it is now for the country to decide whether the present office holders merit even the questionable position they occupy. It may be said, and it has been said, that they have not been long enough in power to prove their good intentions. They have held the reins of government long enough to show whether their own advantage or the interests of the country are uppermost in their hearts. In our opinion, the country was never cursed with a government, which, in so short a time, has done so little good and so much harm.

And this must ever be the case where there is such a total want of political integrity as the present administration has manifested. Professing to be Confederates, they have discarded the Confederate policy for a sordid desire for place and pay. There are, indeed, abundant whis-

perings among them to the effect that the country is nearer Confederation than we all imagine but if any reliance is to be placed in such hints, it only proves that the Government, by a system of trickery, endeavouring to advance the cause which they pretend to have abandoned.

In a similar spirit they have treated the Protestant interests which, they profess to believe, were in danger under Mr. Bennett's Government. According to them "both civil and religious liberty was in the greatest peril. The Protestants were not fairly represented in the Executive—Protestant interest were totally disregarded." The Government party have done nothing for Protestant interests. These were safer under Mr. Bennett's Government than they have been since.

Nothing could prove more strongly the Government's indifference to Protestant interests as well as their total want of political principle than the passing of the Act for the subdivision of the Protestant Education Grant. Only one Protestant member of the Executive was really in favour of subdivision. Mr. Carter and his supporters less than two years ago denounced it in the strongest terms. They passed this act solely for the purpose of keeping themselves in and the Opposition out, regardless of the interest of the people. By this single act they have struck the heaviest blow at the liberties, the union and harmony of Protestants that could be directed against them. Protestant families in the outports, connected by the ties of blood and friendship will now be separated in interest and education—their children will be compelled to go to separate schools, an a barrier will be set up between them which did not exist before. This is an example of the way in which Protestant interests have been treated.

As regards Representation and other matters, these have been left precisely where they were. Mr. Bennett's government was the only one which, recognizing the denominational rights of the people under the last census, gave us an additional member of the Legislature.

Mr. Bennett's Government determined to put an end to the Telegraph Monopoly at the earliest period. Unhappily the present Administration, regardless in this as in other matters of the popular interests, have done nothing to remove, but have used every means to perpetuate the monopoly. Cables are laid and cannot be landed—profitable labor is kept from the people—the inhabitants of Bay Roberts and the district of Brigus and Fort-George instead of having the prospect of the vast benefit derivable from large Telegraph Establishments, have nothing but a floating bureaucracy to tantalize them. By the action of the present Government the new enterprise so far as it would benefit this country is nipped in the bud. Trade is injured and the Revenue is reduced by the same means, and public improvements which would otherwise be provided for are prevented.

Will you kindly make room in your paper for the accompanying editorial. It was written for the Public Ledger, which should have been issued this morning but was not. Possibly you may not agree with all my remarks, but I have not thought it advisable to make any alteration in them. I hand the article to you as it would have appeared in the Ledger if that paper had been published.

Yours truly, ADAM SCOTT, Ed. Public Ledger.

At last it has been decided that the approaching election shall be general, not partial. It would have been more to Mr. Carter's credit if he had come to this decision months ago, and had shown a little more independence in the matter between him and Mr. Shea on the subject, and it is more than likely that it has at length been settled rather by the force of circumstances than by any decision on the part of Mr. Carter. Let this, however, be as it may, on this general election will depend the continuance of the present party in power and it is now for the country to decide whether the present office holders merit even the questionable position they occupy. It may be said, and it has been said, that they have not been long enough in power to prove their good intentions. In our opinion, the country was never cursed with a government, which, in so short a time, has done so little good and so much harm.

And this must ever be the case where there is such a total want of political integrity as the present administration has manifested. Professing to be Confederates, they have discarded the Confederate policy for a sordid desire for place and pay. There are, indeed, abundant whis-

perings among them to the effect that the country is nearer Confederation than we all imagine but if any reliance is to be placed in such hints, it only proves that the Government, by a system of trickery, endeavouring to advance the cause which they pretend to have abandoned.

In a similar spirit they have treated the Protestant interests which, they profess to believe, were in danger under Mr. Bennett's Government. According to them "both civil and religious liberty was in the greatest peril. The Protestants were not fairly represented in the Executive—Protestant interest were totally disregarded." The Government party have done nothing for Protestant interests. These were safer under Mr. Bennett's Government than they have been since.

Nothing could prove more strongly the Government's indifference to Protestant interests as well as their total want of political principle than the passing of the Act for the subdivision of the Protestant Education Grant. Only one Protestant member of the Executive was really in favour of subdivision. Mr. Carter and his supporters less than two years ago denounced it in the strongest terms. They passed this act solely for the purpose of keeping themselves in and the Opposition out, regardless of the interest of the people. By this single act they have struck the heaviest blow at the liberties, the union and harmony of Protestants that could be directed against them. Protestant families in the outports, connected by the ties of blood and friendship will now be separated in interest and education—their children will be compelled to go to separate schools, an a barrier will be set up between them which did not exist before. This is an example of the way in which Protestant interests have been treated.

As regards Representation and other matters, these have been left precisely where they were. Mr. Bennett's government was the only one which, recognizing the denominational rights of the people under the last census, gave us an additional member of the Legislature.

Mr. Bennett's Government determined to put an end to the Telegraph Monopoly at the earliest period. Unhappily the present Administration, regardless in this as in other matters of the popular interests, have done nothing to remove, but have used every means to perpetuate the monopoly. Cables are laid and cannot be landed—profitable labor is kept from the people—the inhabitants of Bay Roberts and the district of Brigus and Fort-George instead of having the prospect of the vast benefit derivable from large Telegraph Establishments, have nothing but a floating bureaucracy to tantalize them. By the action of the present Government the new enterprise so far as it would benefit this country is nipped in the bud. Trade is injured and the Revenue is reduced by the same means, and public improvements which would otherwise be provided for are prevented.

The present Government Party got into power, too, under the pretence that taxation was to be erable and ought to be reduced, but they have not reduced it. They pretended that the public expenditure was excessive, and they have increased it. They have created offices without the authority of law. They have unnecessarily expended a large sum upon taking a census, using the census-takers for political purposes. They have instituted a Commission to examine public accounts, to which they have endeavored to give a sort of legal authority by appointing a Judge of the Supreme Court upon it, thus shaking public confidence in the administration of justice. They have used this Commission and its labors for political and electioneering purposes, and have caused it to be conducted in violation of all the principles of ordinary justice. They have incurred great expense in it and have used the public money in distributing over the country the Reports of this Commission, which have been shown in many points to be false. They have created a new office with a salary for one of those implicated in the charges made by that Commission—for the man indeed who paid the money for the wrongful purposes, if their be any truth in what the Commission reports. Others they retain in office and make use of to whitewash the conduct of the former Shea-Carter Government. And so conscious are they that such deeds cannot bear the light that they have not gazetted the obnoxious appointments they have made.

We are not much disposed to pin our faith to any man, but, as our readers well know, we have for several years given Mr. Carter a very cordial support. We did so honestly, because he believed him to be a safe man at the helm of affairs. We regret the role he has thought proper to play in the present Administration has completely destroyed our confidence in him. Instead of leading he has been led—he has allowed matters to get into such a state that the government of which he is nominally the head is become an object of contempt. We shall be glad if any word of ours will arouse him to make an effort to recover political stamina; but this we can assure him in the meantime, that there are hundreds like ourselves in Opposition who would have been with him and his Government, if they had proved themselves worthy to rule.

[To the Editor Morning Chronicle] Sir.—As every item of information regarding the confirmation of the Canadian Act and the probability of the new Cabinet being landed soon on the shores of Conception Bay, will be of interest, I beg to state that the news brought by last mail is peculiarly favourable and indicates the speedy termination of the difficulty. The Act, as is well known, was reserved for the Royal assent, or in other words for the expression of the opinion of the Law Officers of the Crown in England. As was to be expected the Anglo American Company have redoubled their efforts, at the final crisis, and all that money could do, at that the 'vulpine cunning' of the ablest Lawyers could suggest has been called into requisition to arrest the Act in its last stage. So far as these efforts have been successful in keeping the Act in abeyance, and thus prolonging the Monopoly. One of the legal points raised requiring inquiry and a special report, and thus, of necessity, time was consumed. The final report has now been made, and the difficulty raised by the Monopolists has been satisfactorily disposed of; so that any day we may be gladdened by the intelligence that the act has received the Royal assent, and that the shores of Newfoundland are free to all comers for telegraphic purposes. Of this much we may be assured, that the final report, as the most competent authority declare, is entirely favorable to the confirmation of the Act, and disposes of the only objection of any weight which the Council for the Anglo Company were able to raise. Let us hope that Lord Carnarvon will now make short work of it and terminate the suspense. Every one can see that this mode of exterminating the monopoly is infinitely preferable to any other, and will clear the way for our possession of the and lines. It will also be best for the Anglo-American Company, as it will remove the temptation to any local plotting or manipulation, that highly respectable Corporation might not be able to resist. Very likely they will not be able to resist the disguised blessing; still they will find it good for them in the long run and it will help to keep them out of harm's way in the meantime.

As regards Representation and other matters, these have been left precisely where they were. Mr. Bennett's government was the only one which, recognizing the denominational rights of the people under the last census, gave us an additional member of the Legislature.

Mr. Bennett's Government determined to put an end to the Telegraph Monopoly at the earliest period. Unhappily the present Administration, regardless in this as in other matters of the popular interests, have done nothing to remove, but have used every means to perpetuate the monopoly. Cables are laid and cannot be landed—profitable labor is kept from the people—the inhabitants of Bay Roberts and the district of Brigus and Fort-George instead of having the prospect of the vast benefit derivable from large Telegraph Establishments, have nothing but a floating bureaucracy to tantalize them. By the action of the present Government the new enterprise so far as it would benefit this country is nipped in the bud. Trade is injured and the Revenue is reduced by the same means, and public improvements which would otherwise be provided for are prevented.

Will you kindly make room in your paper for the accompanying editorial. It was written for the Public Ledger, which should have been issued this morning but was not. Possibly you may not agree with all my remarks, but I have not thought it advisable to make any alteration in them. I hand the article to you as it would have appeared in the Ledger if that paper had been published.

Yours truly, ADAM SCOTT, Ed. Public Ledger.

At last it has been decided that the approaching election shall be general, not partial. It would have been more to Mr. Carter's credit if he had come to this decision months ago, and had shown a little more independence in the matter between him and Mr. Shea on the subject, and it is more than likely that it has at length been settled rather by the force of circumstances than by any decision on the part of Mr. Carter. Let this, however, be as it may, on this general election will depend the continuance of the present party in power and it is now for the country to decide whether the present office holders merit even the questionable position they occupy. It may be said, and it has been said, that they have not been long enough in power to prove their good intentions. They have held the reins of government long enough to show whether their own advantage or the interests of the country are uppermost in their hearts. In our opinion, the country was never cursed with a government, which, in so short a time, has done so little good and so much harm.

And this must ever be the case where there is such a total want of political integrity as the present administration has manifested. Professing to be Confederates, they have discarded the Confederate policy for a sordid desire for place and pay. There are, indeed, abundant whis-

perings among them to the effect that the country is nearer Confederation than we all imagine but if any reliance is to be placed in such hints, it only proves that the Government, by a system of trickery, endeavouring to advance the cause which they pretend to have abandoned.

In a similar spirit they have treated the Protestant interests which, they profess to believe, were in danger under Mr. Bennett's Government. According to them "both civil and religious liberty was in the greatest peril. The Protestants were not fairly represented in the Executive—Protestant interest were totally disregarded." The Government party have done nothing for Protestant interests. These were safer under Mr. Bennett's Government than they have been since.

Nothing could prove more strongly the Government's indifference to Protestant interests as well as their total want of political principle than the passing of the Act for the subdivision of the Protestant Education Grant. Only one Protestant member of the Executive was really in favour of subdivision. Mr. Carter and his supporters less than two years ago denounced it in the strongest terms. They passed this act solely for the purpose of keeping themselves in and the Opposition out, regardless of the interest of the people. By this single act they have struck the heaviest blow at the liberties, the union and harmony of Protestants that could be directed against them. Protestant families in the outports, connected by the ties of blood and friendship will now be separated in interest and education—their children will be compelled to go to separate schools, an a barrier will be set up between them which did not exist before. This is an example of the way in which Protestant interests have been treated.

As regards Representation and other matters, these have been left precisely where they were. Mr. Bennett's government was the only one which, recognizing the denominational rights of the people under the last census, gave us an additional member of the Legislature.

Mr. Bennett's Government determined to put an end to the Telegraph Monopoly at the earliest period. Unhappily the present Administration, regardless in this as in other matters of the popular interests, have done nothing to remove, but have used every means to perpetuate the monopoly. Yours truly, ADAM SCOTT, Ed. Public Ledger.

At last it has been decided that the approaching election shall be general, not partial. It would have been more to Mr. Carter's credit if he had come to this decision months ago, and had shown a little more independence in the matter between him and Mr. Shea on the subject, and it is more than likely that it has at length been settled rather by the force of circumstances than by any decision on the part of Mr. Carter. Let this, however, be as it may, on this general election will depend the continuance of the present party in power and it is now for the country to decide whether the present office holders merit even the questionable position they occupy. It may be said, and it has been said, that they have not been long enough in power to prove their good intentions. They have held the reins of government long enough to show whether their own advantage or the interests of the country are uppermost in their hearts. In our opinion, the country was never cursed with a government, which, in so short a time, has done so little good and so much harm.

And this must ever be the case where there is such a total want of political integrity as the present administration has manifested. Professing to be Confederates, they have discarded the Confederate policy for a sordid desire for place and pay. There are, indeed, abundant whis-

perings among them to the effect that the country is nearer Confederation than we all imagine but if any reliance is to be placed in such hints, it only proves that the Government, by a system of trickery, endeavouring to advance the cause which they pretend to have abandoned.

In a similar spirit they have treated the Protestant interests which, they profess to believe, were in danger under Mr. Bennett's Government. According to them "both civil and religious liberty was in the greatest peril. The Protestants were not fairly represented in the Executive—Protestant interest were totally disregarded." The Government party have done nothing for Protestant interests. These were safer under Mr. Bennett's Government than they have been since.

Nothing could prove more strongly the Government's indifference to Protestant interests as well as their total want of political principle than the passing of the Act for the subdivision of the Protestant Education Grant. Only one Protestant member of the Executive was really in favour of subdivision. Mr. Carter and his supporters less than two years ago denounced it in the strongest terms. They passed this act solely for the purpose of keeping themselves in and the Opposition out, regardless of the interest of the people. By this single act they have struck the heaviest blow at the liberties, the union and harmony of Protestants that could be directed against them. Protestant families in the outports, connected by the ties of blood and friendship will now be separated in interest and education—their children will be compelled to go to separate schools, an a barrier will be set up between them which did not exist before. This is an example of the way in which Protestant interests have been treated.

As regards Representation and other matters, these have been left precisely where they were. Mr. Bennett's government was the only one which, recognizing the denominational rights of the people under the last census, gave us an additional member of the Legislature.

The present Government Party got into power, too, under the pretence that taxation was to be erable and ought to be reduced, but they have not reduced it. They pretended that the public expenditure was excessive, and they have increased it. They have created offices without the authority of law. They have unnecessarily expended a large sum upon taking a census, using the census-takers for political purposes. They have instituted a Commission to examine public accounts, to which they have endeavored to give a sort of legal authority by appointing a Judge of the Supreme Court upon it, thus shaking public confidence in the administration of justice. They have used this Commission and its labors for political and electioneering purposes, and have caused it to be conducted in violation of all the principles of ordinary justice. They have incurred great expense in it and have used the public money in distributing over the country the Reports of this Commission, which have been shown in many points to be false. They have created a new office with a salary for one of those implicated in the charges made by that Commission—for the man indeed who paid the money for the wrongful purposes, if their be any truth in what the Commission reports. Others they retain in office and make use of to whitewash the conduct of the former Shea-Carter Government. And so conscious are they that such deeds cannot bear the light that they have not gazetted the obnoxious appointments they have made.

We are not much disposed to pin our faith to any man, but, as our readers well know, we have for several years given Mr. Carter a very cordial support. We did so honestly, because he believed him to be a safe man at the helm of affairs. We regret the role he has thought proper to play in the present Administration has completely destroyed our confidence in him. Instead of leading he has been led—he has allowed matters to get into such a state that the government of which he is nominally the head is become an object of contempt. We shall be glad if any word of ours will arouse him to make an effort to recover political stamina; but this we can assure him in the meantime, that there are hundreds like ourselves in Opposition who would have been with him and his Government, if they had proved themselves worthy to rule.

[To the Editor Morning Chronicle] Sir.—As every item of information regarding the confirmation of the Canadian Act and the probability of the new Cabinet being landed soon on the shores of Conception Bay, will be of interest, I beg to state that the news brought by last mail is peculiarly favourable and indicates the speedy termination of the difficulty. It is reported that Sir Charles Dilke has sent the body of his wife to Vienna for cremation.

The Emperor William in a letter to Emmanuel regrets his inability to visit Rome this autumn.

LONDON, Oct. 2.

Cable steamers 'Dacia' Ambassador and 'Faraday' arrived at Queenstown latter last Cable in gale of wind; engaged several days in attempting to recover it, but unsuccessful and obliged to return for coals.

A barge laden with four tons gunpowder exploded in Regent Canal near Zoological Gardens; five dead bodies found; a number of animals in Zoological killed. Perfect panic for several hours; several persons died from fright.

'Faraday' had paid out 1500 miles of Cable when it parted in 2,500 fathoms, in longitude 24; buoys placed to mark position.

Grand hotel at Saratoga destroyed by fire yesterday; loss 400,000 dol.

FROM LATE PAPERS.

LONDON, Sept. 28.

The Republicans are preparing to dislodge the Carlists from Sagardie.

All Communist prisoners will be removed from New Caledonia and Isle of Pines to the Island of Billeps.

Advices from Santander say that seven more German men of war are expected to arrive off the coast within a week.

Two thousand five hundred emigrants have arrived in the last three months in the province of Canterbury New Zealand.

Pesal left Serrano will soon take command of the Central Spanish army; meanwhile Gen Jovellar will replace General Paria.

Mount Etna is still in a state of agitation, and on Saturday an earthquake shook the mountain to its base and destroyed several houses in Rozanda.

The French corvette 'Le Hennite' was wrecked on Wallace Island. Aug. 29, and two of her crew drowned.

NEW YORK, 28.

The International Rifle Shooting Match at Creedmoor, on Saturday resulted in the success of American team by a total score of 934 to 931. Taken in the detail the Americans won by nine points at 800 yards, and the Irish by two and four points at 900 and 100 yards respectively.

Fires are reported at New Orleans.

THE PERILS OF THE SWISS ALPS.

Captain and Mrs. Lockhart of Scotland, have been striving for some time at Krone Hotel, Pontresina. Mrs Lockhart, accompanied by two ladies whose acquaintance she had made at the hotel, left the Krone to ascend one of the heights adjacent, the beautiful Rosegg glacier. The object of the ascent was to secure the Edelweiss, the famous flower which grows only at a height of 8,000 or 10,000 feet above the level of the sea. Mrs. Lockhart slipped and fell over a perpendicular rock, and so on to precipice the mouth of which was stopped by a bush. Altogether the fall was about fifty or sixty feet. Her friends were separated from her and she was invisible, but her moans were audible. One of the ladies descended from her perilous position and ran breathlessly down the narrow road where she hailed a carriage in which were a young lady and two gentlemen.

The young lady declared that there was a lady killed on the rocks and implored the gentlemen of the party to hasten to discover the body. The Rev. Mr. LeFroy set out, outran the carriage and climbed up the face of the mountain came to the lady. By this time three Italian peasants came up, but they did not know what to do. Sir George Robinson followed, and some brandy having been administered to Mrs. Lockhart life seemed to return. She was fearfully out in the head and face, and the wounds were clotted with grass and hair. All that she could say was that her back was sore. Able guides speedily appeared, but the lady seemed sinking fast. At length after careful wrapping up and the administration of some brandy the helpless and unconscious lady was carried down to the roadside, where Captain Lockhart appeared with a resident medical man. A stretcher of canvas was provided and Mrs Lockhart was borne to her room from the mountain by Mr C Barnett and the Rev Mr LeFroy. Mrs Lockhart though seriously hurt and shaken, is not dangerously ill. She complains much of her back, but Dr Ludwig and Dr Drummond believe that with great care and quietness she recovery is all most certain.

The Irish riflemen who are now engaged in contesting with American marksmen at Creedmore, the national rifle range of the United States have met with a most hospitable reception. The fact of their being accompanied by

the Lord Mayor and Lady Mayorness of Dublin gives additional 'clat' to the demonstrations of their behalf. An illustration may be given of the manner in which attentions are being shown the party. Last Thursday evening they paid a visit to Booth's Theatre New York, and the announcement was sufficient to attract an immense assemblage. Crowds had assembled in the vicinity of the theatre and when the carriage rolled up to the door at eight o'clock a cheer arose that made the welkin ring. The Lord and Lady Mayorness and Viscount and Viscountess Massarene (who accompanied them) and the other members of the party were escorted to the respective seats of honor prepared for them, and meanwhile the theatre had become thronged to the very doors and the passage ways became entirely blocked up. Outside the theatre was appropriately adorned with flags but the interior presented an appearance seldom witnessed even on the most festive occasions. Satin banners representative of the American, Irish and English nations, handsomely interwoven, depended from the boxes, while in other parts of the house welcoming symbols were prominently displayed. As the party entered the audience rose 'en masse' and amid vociferous cheering and the waving of handkerchiefs the band struck up 'God save the Queen.' When this necessary part of the musical arrangements had been disposed of the lively strains of 'Garry Own' made every seat at home. To make sure of it however 'St. Patrick's Day' was thrown in but when 'Hail Columbia' succeeded their arose such a deafening shout that the very walls seemed to tremble.
