CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 40 pages \$1.00 PER YEAR The Lumberman Weekly Edition, every week.

THIS PAPER REACHED REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI.

TORONTO, MONTREAL AND WINNIPEG, DECEMBER 14, 1904

No. 46

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

35 ALLIANCE BUILDING, MONTREAL.

720-721 UNION BANK BUILDING, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman - Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman - A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

Also horses, harness, trucks, wagons, etc. For all particulars bona fide purchasers may apply to "Staves," in care of CANADA LUMBERMAN, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

There has been some falling off in the buying of lumber, for which the change to winter weather has no doubt been responsible. It is a settled fact that during the next two or three months business will be seasonably quiet, and attention is now being directed to inventories and to the prospects for the spring trade. Some of the largest manufacturers and dealers are of the opinion that there will be an early spring demand of considerable proportions, as the consuming industries are in a prosperous condition and likely to continue so throughout the coming year. Unusual activity in Toronto is anticipated as the result of increased building operations, for, although the value of buildings erected during the year now closing was upwards of \$1,600,000 greater than the previous year, the demand for residences and for warehouse and factory accommodation is still considerable. Owing to the high price of white pine, there is almost certain to be a heavy demand for hemlock for construction purposes, and in some quarters the price is expected to advance. Some attention is being given

to spruce lath owing to the scarcity of the white pine variety, but the quantity manufactured in Ontario does not seem to be sufficient to make it an important factor. Lath prices generally are firm at the advance recently noted.

QUEBEC AND NEW BRUNSWICK.

The most influential factor in the spruce lumber market is the demand for American specifications. For prompt delivery higher prices are being received. Spruce frames are very firmly held and clapboards are holding their own. So much depends upon the course of the British market, however, that no predictions as to the future can be made with confidence. The St. John mills have all closed down and there are light stocks in the yards. Dealers who purchased from manufacturers are holding their stock in anticipation of a better market. Deals for next year's shipment from West Bay and Pugwash are being bought at from \$10.25 to \$10.50 per thousand feet.

The cedar shingle market has not improved, there being plenty of Extras offering for Boston delivery at \$2.20 to \$2.25. Clears are showing much more strength than Extras, as the supply of that grade is not large.

UNITED STATES.

The early part of December has brought about no material change in the lumber situation. The demand, of course, is only moderate, but prices are firmly maintained. Eastern dealers are picking up special lots of white pine, which would seem to indicate that stocks are somewhat broken. Inquiries are also being made for stocks for delivery early next year, the feeling apparently being that prices are not likely to decline. The box grades are the most active, while shop lumber and better is a little slow. Spruce is very strong and difficulty is being experienced in getting either frames or random for prompt shipment. Dry hemlock is scarce and is held in the Saginaw Valley at \$12 and upwards, boards being one dollar higher than piece stuff. Michigan maple is held at \$25, \$15 and \$9 for inch. Quartered oak is plentiful, while plain oak is scarce. There is still a good call for birch and the supply is not particularly large.

Lath is from five to ten cents higher than last week. No. 1 white pine being quoted at \$4.05 for delivery by car load in Chicago, and mixed at \$3.55. Red cedar shingles have receded about five cents. The entire shingle market is uncertain, although white pine are stronger than cedars.

GRPAT BRITAIN.

The statistical position of lumber in the United Kingdom is commencing to have an influence on prices and is responsible for an advancing tendency. Nearly all classes of lumber are in lighter supply at the importing centres than at the corresponding date one year ago. Taking the Surrey Commercial Docks at London, for example, it is found that pine deals show a decrease of 84,812 pieces, and spruce deals of 111,073 pieces. In prepared boards there is the marked decrease of 1,674,935 pieces. The total stock of deals on the public docks at London on December 1st last was 1,912,207 pieces, which, at the current rate of consumption, would provide a stock for 5.85 months. One year ago the supply was 2,223,624 pieces, and the duration of supply 6.41 months, whereas at the corresponding period in 1902 the duration of the supply was 6.70 months. The present position is in favor of holders of lumber, which fact promises to result in a steady appreciation of values.

That the situation is much improved cannot be disputed, but it is only natural that a tendency towards conservative operations should prevail. A few speculative purchases for next season have been made, but buying has not yet become general. Waney pine is in very light supply at London and promises to be very scarce before next year's imports are received. There is a fairly good demand for elm, while birch planks are almost out of stock and fresh arrivals will command better prices than have been obtained for a considerable time.

STOCKS AND PRICES.

Spruce lath are quoted in Boston at \$3.10 for 1 1/2 inch and \$3.25 for 1 3/4 inch, rail delivery.

The Miramichi Pulp & Paper Company, of Chatham, N. B., are contracting for large quantities of pulp wood.

Buffalo received by lake this season 189,671,000 feet of lumber and 170,118,000 shingles. The amount last season to date was 161,494,000 feet of lumber and 120,090,000 shingles.

From the opening of navigation to De-

cember 1st a total of 399,511,849 feet of lumber was received at the Tonawandas by vessel, as compared with 439,000,000 feet for the corresponding period of 1903.

During the month of November there was received at Bay City, Mich., by boat approximately 12,000,000 feet of lumber, of which 8,000,000 feet came from the Georgian Bay and the remainder from Lake Superior.

The American Lumberman says that several of the leading buyers from the eastern end of Lake Erie are at the head of the lakes and Ashland this week looking over the situation and stocks, but so far as is known have made no purchases as yet.

Notwithstanding the prevailing low price of lumber, it is probable that the cut of logs this winter in Cumberland County, Nova Scotia, will not be greatly reduced, as there is considerable burnt timber which must be cut. C. T. White, of Apple River, has four camps in the woods and will cut about 7,000,000 feet. E. I. White, of Sand River, has two camps and will cut about 2,000,000 feet. B. B. Barnhill, of Two Rivers, has one camp at work. Robertson, Wright & Company are conducting operations at Shulee about the same extent as usual.

The contract for the supply of lumber for the city of Toronto has been awarded as follows: Plank \$18.69 per thousand feet, boards \$17.96, to Reid & Company; cedar posts, 1 1/2 cents each, to Reid & Company; lumber, 1 to 6 inches thick, pine \$22.79, hemlock \$15.79, Reid & Company; hemlock timbers, 12 x 12 inches, 12 to 16 feet long, \$16, Reid & Company; pine timbers, 12 x 12 inches, 12 to 16 feet long, \$21; 20 feet long, \$22; 24 feet long, \$24, to Arthur Bryce; hemlock timbers, 12 x 12 inches, 20 feet long, \$19; 24 feet long, \$21, to Arthur Bryce.

CONFERENCE CONCERNING A LUMBER DUTY.

The business men of Vancouver, B.C., and vicinity, held a conference on December 4 with Senator Templeman, Mr. Ralph Smith, M.P. for Nanaimo, Mr. Wm. Sloan, M.P. for Comox-Atlin, and Mr. Duncan Ross, M.P. for Yale-Cariboo, the purpose being to discuss the question of protecting the lumber industry of British Columbia. Mr. H. McDowell, president of the Board of Trade, was chairman.

Mr. J. G. Scott, manager of the Pacific Coast Lumber Company, briefly reviewed the situation and pointed out that the imports of lumber into Canada are increasing. While in 1903 the total imports aggregated 60,000,000 feet, the statistics for 1904 show that the importations will reach 140,000,000 feet, and the increase was likely to be steady unless protection is afforded the Canadian industry.

Mr. C. M. Beecher, general manager of the British Columbia Mills, Timber & Trading Company, stated that where a mill could be constructed and equipped in the State of Washington for say \$250,000, the same mill could not be duplicated in British Columbia for less than \$300,000. On the other side of the line mill machinery was much cheaper than in Canada. British Columbia millmen who import American machinery have to pay a duty of 25 to 30 per cent. on same. He stated that if the machinery and supplies were bought in Canada it was the same thing in the long run as paying the duty, for the Canadian manufacturer added the duty to his prices. The Northwest farmer would be protected against high lumber prices by the productive capacity of existing Canadian mills, which was much greater than the possible home consumption. Mr. Beecher pointed out that under reciprocal trade relations with the United States the lumbermen of British Columbia would be benefited by having a much larger market.

Other speakers were Mr. L. A. Lewis, of the Brunette Saw Mill Company, R. H. Alexander, of the British Columbia Mills, Timber & Trading Company, and W. C. Wells, of Palliser. At the conclusion of the arguments advanced Senator Templeman strongly advised those interested to send a deputation to Ottawa to press the matter upon the Dominion Government.

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchell's monthly timber circular of November 10th says: Business during November has, on the whole, been quiet, and though values have been fairly well maintained there has been no great activity in the matter of buying. The import was again very moderate, and in nearly all cases was disposed of from the ship's side—an indication that buyers have come to believe in the stability of the market and the unlikelihood of a further fall in prices. The higher grades of Canadian pine have been in more demand of late, and values, if anything, are inclined to harden, but in the lower grades there is no evidence of such improvement. There is no advance either in the value of reds, but there is said to be some little indication of an upward tendency in spruce, though with a heavy stock and a declining consumption it is not easy to see any justification for this optimistic view.

Of American hardwoods, the chief enquiry has been for plain oak lumber; popular lumber and quartered oak being slow of sale, and prices for both are easier. A similar report may be given of oak planks, the import of which has exceeded the demand.

The Scotch shipbuilding returns for the month show that 27 vessels of 28,270 tons were launched, against 21 vessels aggregating 20,210 for the corresponding month last year. A gratifying feature has been the amount of new work placed recently,

amounting as it does to 66,000 tons, making a total of 46,000 tons of new contracts placed this year, which insures activity for some time to come in this important industry. Housebuilding, on the other hand, has been slackening off for some time past, and prospects of renewed activity in the near future are by no means reassuring, tenement building having been overdone in the district.

WHITE PINE. The import consists of about 200 loads waney pine, per the liners, and was disposed of "ex-quay." One or two fair lines of waney deckwood were disposed of, but enquiries are few. Prices continue firm. Stock is ample.

OAK.—The demand continues limited, there having been only a few small sales during the month. Stocks are still heavy.

ELM.—Enquiries are fairly numerous for large-sized rock elm, and stock of this class is now low. Prices are high. Soft wood is moving off more freely, though stock is still large.

BIRCH (Quebec).—The report for November has been about 140 logs, all of which were disposed of from the quay at prices ranging from 18. 4/2d. for 13 to 14-inch up to 18. 10/5d. for 16-inch. There is more enquiry of late, and there is no Quebec birch in first hands for sale.

N. B. BIRCH.—There was one import of about 30 logs and 50 loads planks from St. John, which were disposed of "ex-quay," but prices did not transpire. Values are round 18. 5d. for 15 inch average. For planks there is more en-

quiry, and the stock is now considerably reduced.

ASH. A few retail sales are reported of small logs at unsatisfactory prices, but in most cases it is old timber of indifferent quality, for which, it may be said, there is very little outlet nowadays. The stock, though small, is ample for the market's requirements.

DEALS, &c.—The import during the month has been exceedingly moderate, and most of the goods arriving have been disposed of "ex-quay." First pine deals of all sizes, and second pine deals, 7/10-inch x 3-inch, are scarce. Lower qualities are plentiful and difficult to move. Prices are firm as under:—Broad First Pine Deals—£32 to £34; 11-inch, £29 to £31; Ends and Non-Dimensions, £22 to £24. Second Pine Deals—11-inch and up, £17 to £19; Ends and Non-Dimensions, £13 to £14 10s. Third Pine Deals—11-inch and up, £11 to £14; Ends and Non-Dimensions, £9 10s to £10 10s. Red Pine Deals—9 and 11-inch, £10 to £11; Narrows, £7 to £8 10s. First Pine Sidings and Strips—9 and 10-inch, £23 to £24; 11 to 12-inch £25 to £26; 13 to 14-inch, £27 to £28. Spruce Deals—9-inch and up, £8 to £8 10s.; 7 and 8-inch, £6 15s. to £7 10s. Lower Port Spruce—9-inch and up, £7 10s. to £8; 7 and 8-inch, £6 5s. to £7.

During November over 17,000,000 feet of lumber was shipped from the port of Ashland, Wis.
