Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers / Couverture de couleur
- Covers damaged / Couverture endommagée
- Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- Cover title missing / Le titre de couverture manque
- Coloured maps / Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- Bound with other material / Relié avec d'autres documents
- Only edition available / Seule édition disponible
- Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies / Qualité inégale de l'impression
- Includes supplementary material / Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below / Ce document est filmé au taux de réduction indiqué ci-dessous.

10x	14x	18x	20x	22x	26x	30x	32x
					<input checked="" type="checkbox"/>		
12x	16x	24x	28x				

The copy filmed here has been reproduced thanks to the generosity of:

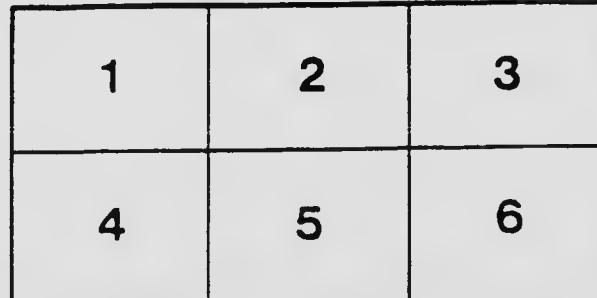

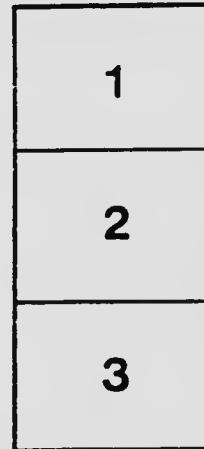

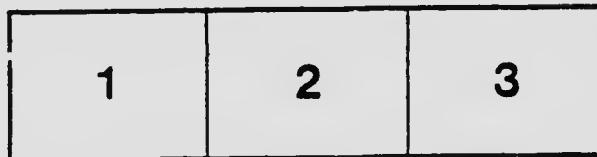

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contains the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

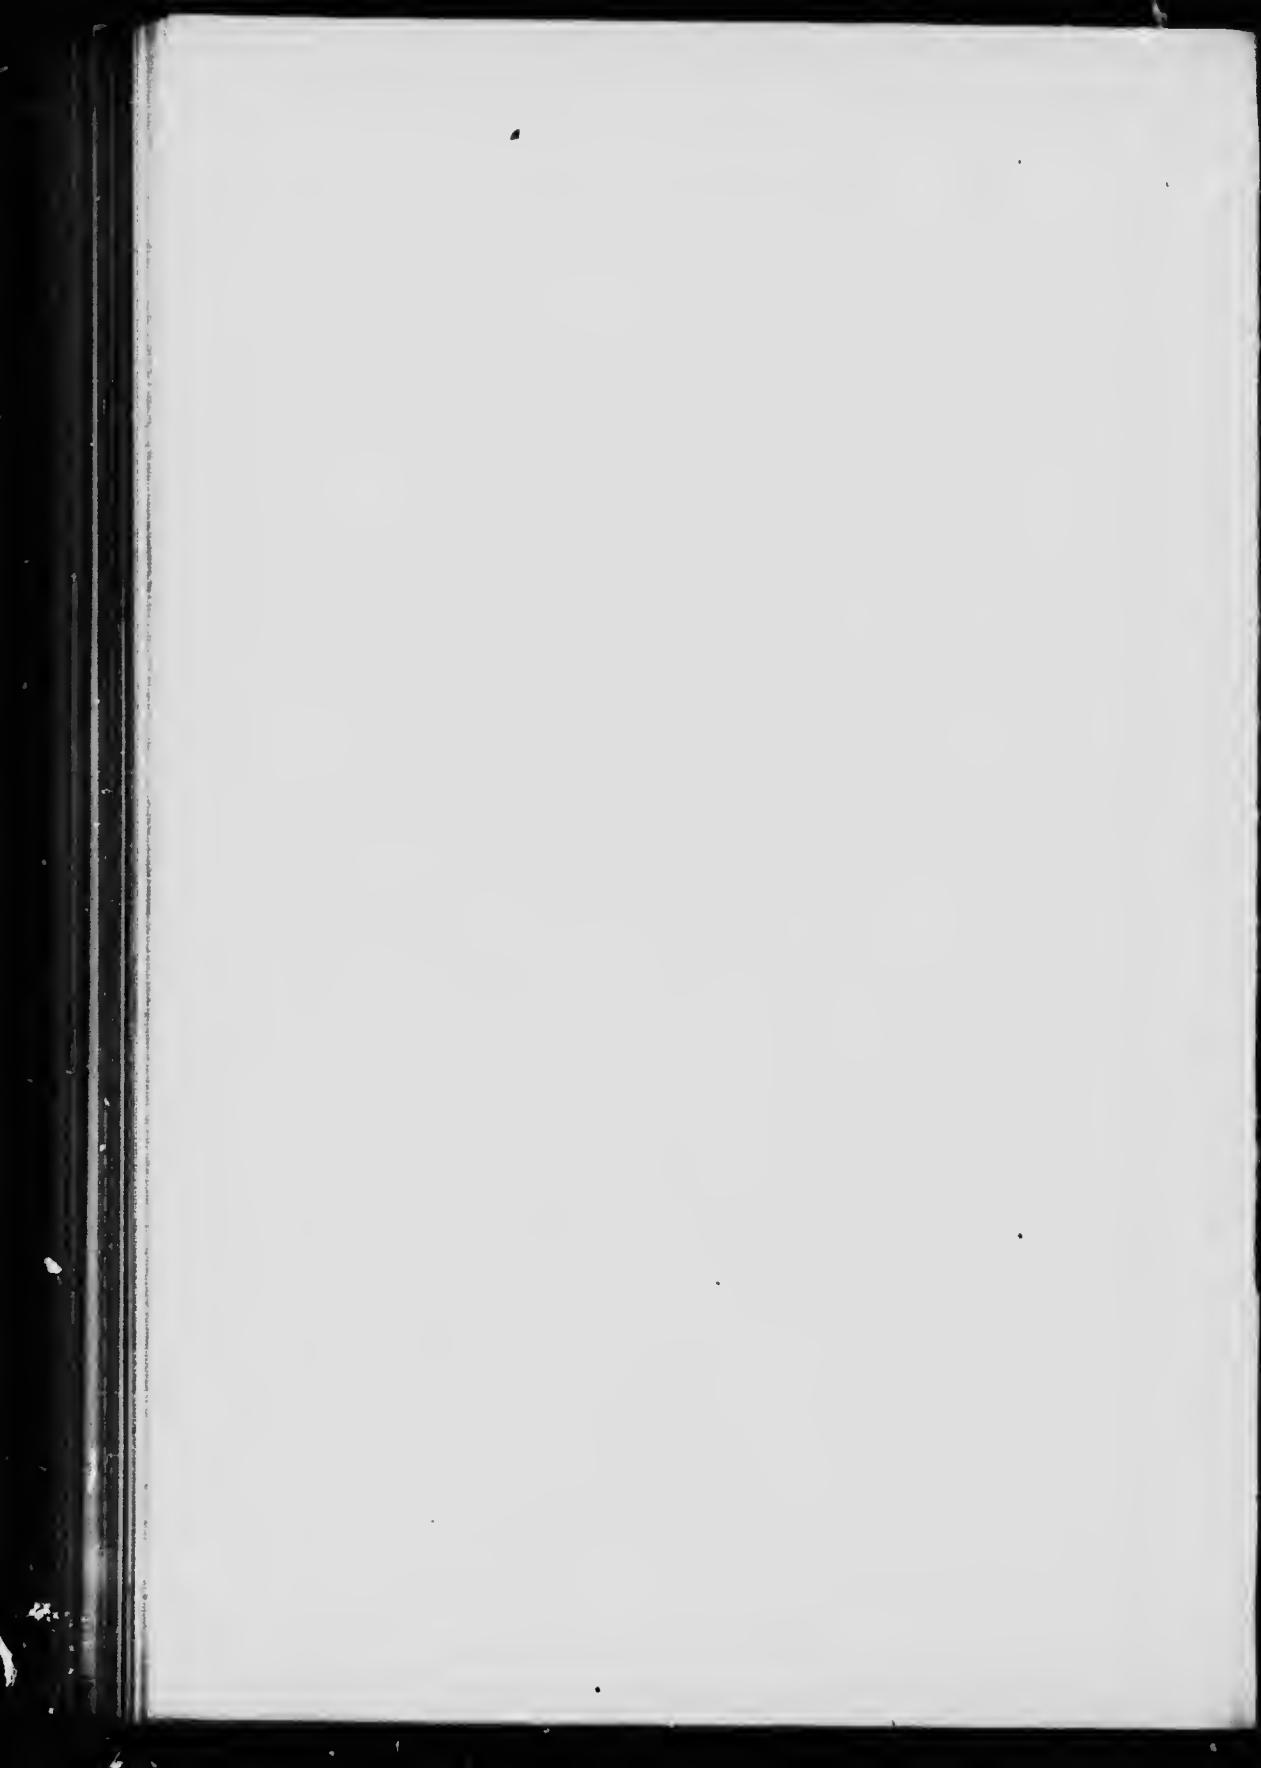

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filming.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par le dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur le dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc.. peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

LABORATORY

OF THE

INLAND REVENUE DEPARTMENT

OTTAWA, CANADA

BULLETIN No. 123

CANNED MEATS

OTTAWA, Juⁿ 1906.

W. J. GERALD, Esq.,

Deputy Minister of Inland Revenue.

SIR,—In accordance with your instructions of 11th and 12th June last, a collection of canned meats was made as they are offered for sale in the Dominion. These included not only goods packed in Canada, but also about an equal number of samples as put up by manufacturers in the United States. The latter were, of course, obtained from dealers in Canada, but, as regards Canadian products, they were taken not only from retailers and wholesale merchants, but also at the factories. The samples were obtained in the course of June and July, the number from the various inspection districts being as follows :—

Nova Scotia.....	32
Prince Edward Island.....	16
New Brunswick.....	27
Quebec.....	33
St. Hyacinthe.....	32
Montreal.....	32
Ottawa.....	32
Kingston.....	24
Toronto.....	32
London.....	20
Manitoba.....	10
British Columbia.....	32
Total.....	322

With reference to their examination in this laboratory it may be stated that the manner of testing them was the same as referred to in Bulletin No. 85. On opening the tins it was noted as to whether the meats appeared to be fresh and destitute of any disagreeable odour, and they were tested as to whether any preservatives had been used in packing them. Only four samples out of the total collection were found to give evidence of decomposition, a proportion amounting only to 1·4 per cent. The preservatives sought for were salicylic, benzoic, sulphurous and boric acids, but only the last named was detected in a comparatively small number of samples, in quantity not exceeding the limit fixed by the English parliamentary commission of 0·5 per cent, and probably added in the shape of borax. There were 51 such samples among the 322 collected or 15·8 per cent. This proportion is less than in the collection of 1903 where the proportion containing borax amounted to 21·2 per cent.

Full details concerning the nature and origin of the samples examined are given in the tabulated statement appended to this report. Since its completion, however, my attention has been drawn to the number for June, 1906, of the Monthly Bulletin of the State Board of Health of Massachusetts in which there is a report on canned meats with the following statement :—

"In general it may be said that the results are favourable to the manufacturers both in the west and in the east; but certain preparations, the manufacture of which involves comminution or grinding, are very largely fraudulent in character, in that they are not what they purport to be. These preparations include the various potted tongues, chicken, beef and ham, and devilled chicken, turkey, ham and tongue." Some of these are said to contain corn meal, for which no search was made in the samples described in this report. Since its preparation is desired with all possible dispatch, I do not propose to delay it any longer, but intend to refer to the subject of such adulterated potted goods in a future report.

I have the honour to be, sir,

Your obedient servant,

THOMAS MACFARLANE,

Chief Analyst.
