ST. CLAUDE BRUCE

Two Passengers Drowned and Vessel a Total Loss—Going at Full Speed When Accident Occurred.

HALIFAX, March 24.—The Reid Newfoundland steamer Bruce, which for 14 years had been running between North Sydney and Port Au Basque, Newfoundland, was lost this morning at Point Nova, eight miles from Louisbourg.

The drowned are Thomas Shea, aged 28, a member of Bay of Islands crew of the forty fishermen who were on board bound for Vancouver.

The Bruce left Port Au Basque at 11 o'clock yesterday morning, carrying a passenger list of 18, which included the crew, would make the number on board about 155.

The steamer in making for Louisbourg took the inside course at Scattered, which was unusual and arrived off Port Nova, which is eight miles from Louisbourg.

The steamer in making for Louisbourg struck the rock it was about four o'clock in the morning and about dawn Captain Drake was on the bridge, and had the wheel in his hands.

The passengers were all asleep and had barely time to get to the deck with what clothes they could find.

The scene on the deck for some minutes after the steamer struck was a most thrilling one, according to a story told by one of the survivors who arrived here this evening.

After getting ashore, where there were only a few fishing huts to accommodate them, a party was made, which served to help the half-perished survivors.

THE T. EATON CO. LIMITED

AT THE THEATRES

AT THE PRINCESS.

"The Private Secretary." Unquestionably "The Private Secretary," whose international success has been so great that it has been revived by Mr. Gillette in Boston and New York, may well be "The Private Secretary" of consistent humor. No play has so far so successfully staged that has introduced more happy and original characters than does Mr. Gillette's famous comedy. This funny domestic sketch describing the amusing incidents and misunderstandings that befall a household has so many realistic touches, so natural in many features that are at once recognized and duly appreciated by the looker on, that an audience is kept convulsed in boisterous laughter from the rise to the drop of the curtain. Gillette has a phenomenal idea of the quaint and ridiculous characteristics of the human family, and he has woven such an interesting story as is a welcome visitor to "The Private Secretary" will be seen at the Princess Theatre Monday, Tuesday and Wednesday nights and Wednesday matinee, the latter being made a popular priced one. The company presenting the play this year is magnificent one, in fact, one of the best that has ever presented the piece here.

AT THE ROYAL ALEXANDRA.

William Faversham in "The Faun." William Faversham will be the attraction at the Royal Alexandra week commencing Monday evening next. He will present his new comedy, "The Faun," lately presented with great success at Daly's Theatre, New York. The Faun was especially written for Mr. Faversham by Edward Knoblaugh, who, also an American, has spent a great part of his life on the continent. He has studied the art of playwriting from behind the scenes, having originally been an actor. He wrote "The Cottage in the Air," which was produced at the New Theatre last season, and which under the title of "Priscilla Runs Aways," is at the present time one of the hits of the London season. The theme of "The Faun" is unique. The dramatist has introduced a faun as the central character of his comedy. The faun wanders into London one night, and into the garden of the house of Lord Stonbury, whose love for the turf has swept away his fortune, and he is about to commit suicide. Just as he is about to raise the pistol to his head he spies the faun in the garden. The peculiar being fascinates him, and after the mutual asking of questions, he takes to each other, and the faun learns that Lord Stonbury has lost all his money. He tells him that if he had only consulted him, he could have told him the winner of each race, as his spirit lives with the horses—in fact, all of the animals, but especially with horses. Lord Stonbury makes an agreement with him whereby he is to divulge to him the names of all the winners, and he in turn is to dress the faun as a human being, introduce him to society as Prince Silvani, and acquaint him with all the different types of human beings. Lord Stonbury regains his lost fortune and becomes very rich. The faun mingles with all classes of people, and as they appear to him as very un-

AT THE GRAND.

"The Old Homestead." It has come to be a trite story to say that Denham Thompson's "The Old Homestead," which comes to the Grand Opera House Monday, is one of the best plays ever written. This year it includes not only the best of his ability, but a lot of new scenery, realistic features of this drama of New England rusticity. "The Old Homestead" has developed year after year, until now it is a triumph to nature, and in so doing presents a series of faithful character sketches typifying phases of country and city life. "The Old Homestead" was first produced at the Boston Theatre in April, 1888, and since then every year it has gone steadily forward. The production is under the personal supervision of Denham Thompson himself, who directs the rehearsals before the season begins and selects the members of the cast personally. Edward L. Snader is playing the part of Uncle Josh, and Fred Clare, a member of the company for twenty years, is still prominently in the snug harbor of familiarity. Gus Kammerer, who was one of the original members of "The Old Homestead" company, and its original quartet, still maintains his place, as does also Charles Clarke, the Sixth Perkin, one of the "old boys," who, with Walter F. Kelley, who is the other of the "two boys," contributes no small portion of the humorous episodes of the play. Other favorite oldtimers of the cast are Fred Knapp, George Patch, Maggie Breyer and Anita Fowler.

AT THE STAR.

"The New Century Girls." Next week at the Star Theatre "The New Century Girls," the aeroplane burlesque, will make its yearly visit, headed by Una Lillian Ellsworth, styled the queen of comedies, and a selected cast of ladies and gentlemen, each a star, and a competent chorus of pretty show girls. The organization of the troupe is one of the largest and best on the road, and claim to have more originality than any of its kind traveling in its new garb. It will be in capable hands. This popular company was one of the hits of last season, and while being its first appearance here, in its new garb, it will not doubt be received with favor. Many startling surprises are promised, the comedy and musical portion of the performance being one of the main factors. Bewildering effects will be offered. In costume the organization has been furnished with particular attention that every costume made from designs furnished was of the very best material.

AT SHEA'S.

Operatic Festival. For some time there has been a decided evidence that faded vaudeville patrons were tiring of ragtime, Indian melodies and the like, and were leaning toward a better grade of music. Quickly recognizing this, and with a firm belief in the better grade of music, a "The Neoputans," "The Tuscan Troubadors," and "College Life," arranged a big vocal and instrumental act. "The Operatic Festival," which will be heard here for the first time next week at Shea's Theatre. The act is in two sections, "Gypsy Life" and "The Carnival of Venice," two beautiful songs, and a variety of other appropriate costumes for both episodes, thus pleasing the eyes as well as the ear. Every member of the act has a voice of grand opera caliber and all are not seven solos, this caliber is easily discernible in the ensemble effects. The special feature will be James F. Dolan and Ida Lenhar, who have not been seen in Toronto in over five years, and will delight their old friends with their newest farce, "Some Mind Reader." The act is novel and full of laughs, with clever lines and great situations, handled splendidly by the pair. The great Alpine Troupe show one of the most picturesque waltz acts on the stage and present for the first time in America the double aerial wire act. The members of the troupe work fast and sure and are one of the real sensations of the season. Syd Mack and black face comedians, and their work is out of the ordinary and up-to-date with a laugh in every line. Miller and Mante have a dainty singing and dancing act that is refined and graceful and welcome on any bill. The pantograph closes the bill with new pictures.

AT THE GAYETY.

"Serenaders." When Singer's Serenaders appear at the Gayety Theatre next week, a new and decidedly pleasing note is likely to be struck in burlesque performance. For two or three seasons the Columbia Amusement Company has been making an obvious effort to improve the tone of burlesque in theatres, and Singer's Serenaders are said to have fully realized the idea of the "Newer Burlesque." During its recent engagements at the Columbia Theatre, New York, this organization received high praise from the newspaper critics, not only for the cleverness of the individuals in the cast, but for the extent and magnificence of its scenic, costume and electrical equipment. This company presents two extravaganzas, called "On the Ocean" and "Cafe de Paris," and they are said to keep the audience shrieking with laughter. There are several people in the cast who have achieved conspicuous success, including Lew Kelly, Nanette Coulton, a gaitly and talented vocalist; Graes Vinton, whose superb figure and pleasing voice have been admired in various musical comedy productions; Crane Wilbur, Muller and Coogan, Ben Turbett and Dot Duvall have parts in

A QUADRUPLE ENTENTE?

WASHINGTON, March 24.—Negotiations for the quadruple entente, to include the United States, England, Japan and France, to put an end to war between nations, has progressed so far that the agreement has already been put into written form. It was learned to-day that a draft of the proposed abolition of war treaty is already in the hands of the British foreign office and Baron Uchida, the Japanese ambassador, while Ambassador Robert Bacon is taking a copy to France. The original draft remains in the keeping of President Taft.

Cleo de Merode, who was the favorite of the late King Leopold of Belgium, is the interesting subject of the artist's pencil that will appear as the frontispiece of this week's Sunday World, printed in colors, and posing in her new environment. She looks back and regrets that the splendor has passed. She now has to work, and is depicted learning her trade.

Macassa Further Delayed. "Owing to the quantity of ice that still remains in Hamilton Bay, the Macassa will not leave Hamilton until Monday," said an official of the Hamilton Steamboat Company to The World yesterday. "The Burlington section of Hamilton Bay is now clear of ice, but the ice on the Hamilton side of the bay is still pretty thick, and will not be broken up sufficiently to allow the Macassa to break her way thru until Monday."

FATALLY INJURED.

SAULT STE. MARIE, March 24.—H. Milton, 40 years of age, of North Bay, and employed at the C.P.R. round house, was fatally injured this morning at 9:15 and taken to the general hospital, where he will die. Milton was walking up the track to the round house and was struck by the transfer engine. His leg was severed and he sustained other injuries of a serious nature. Milton has a family at North Bay.

Cats and Dogs Poisoned.

P. C. Laveton Harris of the Humane Society has received many complaints of poisoning of cats and dogs. He is anxious to capture the culprit. The law in the case calls for a fine not exceeding one or three months' imprisonment on the first conviction.

Rev. Father Morriscy

Father Morriscy's "No. 11" Cures Stomach Troubles.

When your stomach is working right you never know it is there. But when it feels as heavy as lead—when you have Heartburn, Belching of Wind, Sourness, a gnawing hunger, with distress after eating—when you feel irritable and depressed—then you may know that the digestive fluids in the stomach are not sufficient to digest what you eat. Father Morriscy's "No. 11" Tablets supply these fluids in concentrated form. Each tablet, dissolved in the stomach, will digest 1/4 pounds of food, which is more than an average meal. Read what Father Morriscy's treatment did for Mr. Gosline, of Salmon Lake. He writes Nov. 30, 1908: "I was troubled with indigestion, so severe that I really thought I had cancer of the stomach. I took much doctors' remedies, till I was forced to seek another resource, and this was the Rev. Father Morriscy. His treatments worked miracles, until I have been entirely cured, so that now I do not look to the quality of the diet but to the quantity." Soc. at your dealer's. 53

Doctor Told Her She Did Not Have A Pint Of Good Blood In Her Body.

Mrs. Dosthe P. Cormier, Middle Sackville, N.B., says: "In the spring of 1897 I was all run down, and the doctor told me I had not a pint of good blood in my body. I took different remedies from doctors, but they did not seem to do me any good. After having taken a lot of different other kinds of medicine, and they did not seem to benefit me, I was almost in despair and did not know what to do until my husband went and bought me a bottle of Burdock Blood Bitters and she told me to try Burdock Blood Bitters as she had received the greatest benefit from using it. My husband went and bought me a bottle, and after having taken it I felt better, so I kept on using one bottle after another until I had taken six in all and then I was strong and well. I am positive that my being alive to-day is due to the use of Burdock Blood Bitters. One spring since then I was not feeling very well, and I had a lot of work to do. I thought I would try Burdock Blood Bitters and after I had taken two I was able to do a lot of hard work all the summer, and I never felt better in my life. In the winter of 1906 I had Pneumonia, and it left me with a severe pain in the left side. Every morning when I would get out of bed I had to sit down for a while it was so painful. After I had used Burdock Blood Bitters the pain disappeared completely. It has also cured me of bleeding piles. I have received so much benefit from Burdock Blood Bitters that you may publish this as it may help others who are in my case." Manufactured only by The T. Mibura Co., Limited, Toronto, Ont.

Colds Upsets the Kidneys

And Uric Acid Poisons Bring Pains and Aches to Back and Limbs DR. CHASE'S KIDNEY-LIVER PILLS

You feel pains in the back, find the urine heavy and unduly colored, have indigestion and irregularity of the bowels and there may be rheumatic twinges. You wonder what has gone wrong until you recollect that you have been exposed to sudden changes of temperature, perhaps sitting in a draft or passing from a very warm room to be chilled by the outdoor air. The kidneys are most susceptible to cold, and the risk of developing a cold or flu is greatly increased when the kidneys are in a state of impaction. The danger lies in not understanding the meaning of the symptoms given in the first paragraph. Once you know that the kidneys need assistance you can help them promptly by using Dr. Chase's Kidney-Liver Pills. Every day you put off treatment increases the risk of developing Bright's disease, dropsy or rheumatism. Because of the inactivity of the falling kidneys your system is being loaded with poisonous impurities, and that means pains and suffering. Get Dr. Chase's Kidney-Liver Pills to-day. One pill a dose; 25 cents a box, all dealers or Edman, Bates & Co., Toronto.

Alexandra Y.C. Have A Lot of New Boats Officers Elected
The election of officers of the Alexandra Yacht Club was held last night at the club's winter quarters in O'Neill's Hall. The reports of the different committees show the club to be in a most flourishing condition and the outlook for the coming yachting season all that the most enthusiastic sailor could wish for. No less than four new boats are added to the fleet. The commodore-elect has a new hull and it is rumored that he is now taking gasoline pills.

EFFICIENT CITY GOVERNMENT.

We have diligently read what has been said by our city contemporaries on the question of municipal government by commission, and utterly fail to discover any appreciation of the principle on which such government is founded.

After a great deal of criticism of more or less irrelevant detail the subject is dismissed with the high disdain of the prejudiced critic. The Globe had an article yesterday on the usual platitudinous lines, which sufficiently indicates that it has not varied from the position taken up last April, that if good government were secured by a permanent commission it would not be desirable for the people.

The issue lies, of course, in this point: Do we wish good government or not? If not, as the Globe indicated, there is no more to be said. But we believe the people do want good government, and not only good government, but the best government to be had.

We are firmly of the opinion that the results obtained under private control are equally attainable in the public service. We go further, and believe that better results can be attained in the public service than under private control. And we will add that the methods adopted in the public service in Toronto would run any private business in six months.

We will venture to say that a private business is handicapped and obstructed to the extent that the public service methods of interference by the directors is permitted. Will The Globe and the other objectors to government by commission face these questions?

The Globe confines itself chiefly to criticism of the newly evolved schemes of commission government in the United States, which are all on the elective principle. The United States is fond of artificial constitutions and systems. The British method is to follow evolutionary lines. The British method of conducting business is by government by commission, the shareholders of a business corporation electing a board of directors, who in turn appoint the commission, for such it is, which conducts the business.

The officers may be dignified with various titles and they may be called heads of departments, or anything else that sounds well, but they represent the true principle of government by commission, and until the city adopts it, and the principles that are allied with it and implied in it, we can never have successful civic government.

In the first place, it is a purely business organization. Religion and politics have nothing to do with the operation of a bank or a railway or a mine. If they did, and to the extent they did, or to the extent to which they allowed any interference outside the strict lines of business interest to affect them, they would fail.

The city is a great joint stock company, in which the electors and ratepayers are shareholders. They elect directors, and their business system stops there, for they allow the directors to run the business. When the city adopts the business method which has devolved from the experience of generations of commercial life, and in which the directors, appointing capable officers to run the business of the city on business lines, then the city will have efficient government.

At present the unamused directors combine to make a holy show of the city affairs. The Globe states that "the hopes based on such logic will never be realized." Why, then, are these hopes realized on the C.P.R. and the Bank of Commerce, and The Globe Printing Company?

We could have a business-like commission government operating in Toronto within a year. The newspapers and the politicians would agree to allow the people to adopt such a plan. It would save hundreds of thousands of dollars a year. It would give us the finest city on the American continent. But it would eliminate political influence and graft of every kind. And these are the only objections to its adoption.

ONTARIO EDUCATIONAL ASSOCIATION JUBILEE. Fifty years have elapsed since the organization of the Ontario Educational Association, and the occasion is to be celebrated by a banquet on Tuesday evening, April 18.

The first meeting of the association was held on Jan. 25, 1861, in the Toronto court house, under the name of "The Teachers' Association of Canada West." Various reorganizations followed in 1865, 1867, 1873, 1881 and in 1892, when the association adopted a new constitution and absorbing several other related organizations embodied

on a broader current of activity. The annual meeting embraces the sessions of fifteen separate sections and departments, and is practically the educational parliament of the province.

In the visit of the medical superintendent for the education committee of Birmingham, George A. Auden, M.A., M.D., a special feature of interest will be provided and his addresses will be provided and his addresses will be anticipated in view of his English reputation. This and the programs of the sections in general indicates that the jubilee meeting of the association will be one of distinguished success.

LOOKING AHEAD. If any corporation, bank, railway or newspaper management had failed to foresee and provide for the development of its business, as the city councils of successive years have failed to take account of the growth of Toronto, there would be an insurrection of the shareholders. In a modern city the people are not sufficiently interested, or when they are interested, they are too closely guarded from any attempt upon reforming the morals of the system to be able to effect anything.

To-day everybody knows that Toronto will have a million people in a very short time, comparatively. Does anybody imagine that the mayor, the board of control or the city council has the remotest idea of preparing a water supply for a million people, or the two millions who are not so very much further ahead. Twenty years ago, when urgent representations were made as to the necessity of preparing for half a million of people, those who urged were laughed at as cranks and dreamers. Some of these cranks and dreamers are buying pure drinking water to-day at a dollar a dozen bottles. It comes cheaper than typhoid.

The Globe will tell you that a really efficient government would not be good for the people. And other papers will tell you that you cannot get better men than under the present system, or that it would be foolish to pay \$15,000 or \$20,000 a year to a man who would do things right when you can get a man who will do them wrong for \$4000 or \$5000.

Meanwhile—Here's to Long Poad!

HIGHER CRITICS AND ELEMENTARY FACTS. We are informed by our sprightly contemporary on Bay-street that "Control" Church was elected to ask questions.

As The Telegram claims to have elected him, we may accept this solution of what some people have considered a mystery. We think Control Church has other functions and is capable of better work. There is a proverb about asking questions which wise men cannot answer, and Control Church's enquiries, under the guidance of The Telegram, perhaps, were taking a direction which recalled the saying:

We thought he had got in wrong, and said so, and advised him to change his base. Rushing to the rescue of its electoral child, The Telegram declares that we are "entirely unacquainted with the elementary facts." No one ever knows facts in a controversy with The Telegram, but The Telegram itself, so that we only follow the general rule in this respect.

Control Church, however, figures in The Telegram's columns as the "higher critic," who demands "proof for every theory relating to a question of life and death." This is somewhat reversing the metaphor, as it is the higher critics who have usually been responsible for the theories. We want quarrel with the metaphor, however, in view of the facts. It does seem hard to be called "a blind traditionalist in acceptance of unsupported theories," and "a promulgator of falsehoods" for accepting the statements of The Telegram's news columns. We should have known better, perhaps, after Sir Henry Pellett's sad experience.

There appears to be a perplexing tendency among the engineers to attribute the accident to the intake pipe to the action of ice. They do not seem able to account for the solid piles being smashed to pieces in any other way. Control Church should go down in a diver's suit and make sure that the piles are smashed. A proper hunger for "elementary facts" would not hesitate about this corroboration.

"There is absolutely no truth," concludes The Telegram, "in The World's assertion to the effect that the experts endorse the theory that ice caused disaster to the intake." That sounds good and straight, does it not?

Now watch The Telegram's news columns!

DISRAELI CLUB MEETS TO-NIGHT. The Disraeli (Jewish) Conservative Club will hold a mass meeting in St. George's Hall at 8 o'clock to-night. Among the speakers will be A. Claude Macdonald, M.P.; Edmund Bristol, K.C., M.P.; Thomas Hook, and Controller Church. President Garfunkel will preside.

Didn't Steal Tools. In the county Judge's criminal court yesterday afternoon Judge Denton found Daniel Muller not guilty of theft from the hydro-electric. He was alleged to have taken the articles last August. In discharging the prisoner Judge Denton cautioned him to be more careful in the handling of other people's property.

Coughs, Colds BRONCHITIS. If there is an ailment in the throat or chest, it is surely essential that the remedy be conveyed direct to the affected part. It's because the healing vapor of Catarrhozone is breathed into the sore, irritated throat and bronchial tubes, because its balsamic fumes kill the germs and destroy the cause of the trouble. These are the reasons why Catarrhozone never yet failed to cure a genuine case of Catarrh, Asthma, Bronchitis or Throat Trouble.

The wonderfully soothing vapor of Catarrhozone instantly reaches the furthest recesses of the lungs, produces a healing, curative effect that is impossible with a tablet or liquid, which goes merely to the stomach, and fails entirely to help the throat or lungs.

To permanently cure your winter ills, your coughs, sneezing, and Catarrh, by all means use a tried and proven remedy like Catarrhozone. But beware of the substitutor and imitator. Look for Catarrhozone only, 50c and \$1.00, at all dealers.

AT LAST, A CURE FOR RHEUMATISM

"Fruit-a-tives Cured Me" Says Mrs. Baxter.

"I was a helpless cripple from Rheumatism for nearly a year. All down the right side, the pain was dreadful and I could not move for the agony. I was treated by two physicians without help. I saw 'Fruit-a-tives' advertised by 'The Telegram' and decided to try them. After I had taken a box, I was much better. When I had taken three boxes, I could use my arm and the pain was almost gone. After taking five boxes, I was entirely well again. The cure of my case by 'Fruit-a-tives' was indeed splendid because all the modern doctors failed to even relieve me. 'Fruit-a-tives' cured me."

MRS. LIZZIE BAXTER. 4 Home Place, Toronto, Dec. 15, '09.

In hundreds of their cases, "Fruit-a-tives" has given exactly the same satisfactory results because "Fruit-a-tives" is the greatest blood purifying medicine in the world. "Fruit-a-tives" the famous fruit medicine regulates kidney action, cleanses the blood, and prevents the accumulation of uric acid, which is the prime cause of Rheumatism.

"Fruit-a-tives" will positively cure every case of Rheumatism, when taken according to directions. 50c a box, \$1.00, or trial size, 25c. At all dealers. Write for literature to Fruit-a-tives Limited, Ottawa.

VIVID DESCRIPTION OF FAMINE'S HORRORS

Returned Missionary From China Tells of Acute Suffering He Witnessed.

Lilburn Merrill, M.D., of the Methodist Episcopal Central China Mission, who has just returned from Chinkiang, the headquarters of famine relief, has sent to the board of foreign missions the following picture of conditions in that city as he was leaving for the United States:

"Chinkiang lies on the Yangtze River, at the junction of the Grand Canal. Directly north is a vast area of agricultural land—a great level plain, with numerous canals. Unfortunately, these canals are perennially choked with sediment, and each year a greater or less area is overflowed and thousands of the poor rural folk are driven away for the winter.

"Following an unusually heavy rainy season the flooded area is greater and the number of homeless is increased to a million souls or more. "It was in this portion of China that the great famine occurred three years ago. Thousands died. One would have expected the officials to deepen the canals and prevent a recurrence of famine. But nothing was done. A year ago poor families were there were twelve thousand refugees at Chinkiang throughout the winter. We missionaries spent several weeks distributing rice to them. The conditions were heart-rending. Early each morning thousands of men, women and children gathered at the distributing point. Scores of Chinese people maintained a semblance of order by beating the people over the head with bamboo sticks. Some days the rain fell in torrents and the refugees stood shivering in mud a foot deep. During these desperate rainy mornings a child was born in the midst of the mob. An hour or so later the mother was up and with the child and a sack of rice she was off to her straw-mat shelter a half mile distant!

"This year the condition is vastly more important. At Chinkiang there are probably forty thousand refugees. A piece of straw matting 3 x 8 feet is the only shelter for a family of five or six. The thousands are gathered together in great camps. Those who are strong enough wander over the hills, pulling up the roots of weeds to eat. Others are in the process of dying. The suffering is terrible. Thousands of tottering babies, boys and girls, are laid in rags, if clad at all, are about you everywhere. Old women, and men huddle about, leaning heavily on sticks for support, or they lie by the wayside with their eyes staring savagely up at you, with a mute appeal that turns the heart cold. You walk about seeing nothing and you stoop over the dead body of a three or four-year-old boy! O God! what a hell of a picture has fallen to these little ones!"

Who in the face of such a heart-rending appeal as this can withhold their sympathy to the helpless sufferers in China? The people who are now suffering from the famine. J. Moore, 46 West King-street, the treasurer, will gladly receive, for the relief of this terrible situation, contributions to date amount to \$30,000.00.

ROYAL Baking Powder Economy

The manufacturers of Royal Baking Powder have always declined to produce a cheap baking powder at the sacrifice of quality.

Royal Baking Powder is made from pure grape cream of tartar, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Royal Baking Powder costs only a fair price, and is more economical at its price than any other leavening agent, because of the superlative quality and absolute wholesomeness of the food it makes.

Mixtures made in imitation of baking powders, but containing alum, are frequently distributed from door to door, or given away in grocery stores. Such mixtures are dangerous to use in food. In England, France, Germany and some sections of the United States their sale is prohibited by law. Alum is a dangerous mineral acid, and all physicians condemn baking powders containing it.

The label of alum baking powders must show the ingredients. READ THE LABEL.

ART AND FURNITURE SALE. On Tuesday, Wednesday and Thursday, March 28, 29 and 30, a public sale of special interest will take place. It is that instructed by the executors of the late Mr. Justice MacMahon, whose reputation as a connoisseur and collector of pictures and objects of art stood second to none in Canada.

The collection includes a fine landscape dated 1867, by A. Edson, painter, phrenology, with cattle in the foreground. It is full of atmosphere and finely composed. A painting of Waterloo, by George Catlin, a very fine example of a school rarely found in this continent.

Another number of exceptional interest is an oil painting by Cortes, "Driving Home the Cows," a most attractive specimen of the work of this gifted French animal painter.

Ladies' Coats

This Spring's importations of Ladies' Coats and Cloaks are meeting with the approval of the most particular dressers. From a useful knockabout garment at \$10.00, to the most elegant of Parisian models, our display is most complete, and the prices throughout (value considered) absolutely right.

Foulard Silks

Are a popular rage this season. We have an exceptionally good showing of double widths, in all colors, at remarkably close prices.

Scarce Grays

The demand for Gray Dress Fabrics this season bids fair to make certain lines very scarce before long. In anticipating the squeeze we have laid in a very large reserve of the most popular weaves, and are thus in a specially good position to satisfy all demands.

Hand Embroidered Pillow Cases

All pure linen, fine Irish hand work; latest designs, some hemstitched, scalloped ends, etc. etc. Special purchase at 25 per cent. below regular. Passed on to you at the same advantage from \$1.00 to \$3.75 per pair.

revision may come. There is a clamor on the part of some Democrats to take up the duty, but no one is willing to do more than guess. The element of uncertainty must enter into all calculations to a greater extent than it has in the past.

The most optimistic hope that the session will be brought to a close in June or July, but no one is willing to do more than guess. The element of uncertainty must enter into all calculations to a greater extent than it has in the past.

Prospects for harmony between the insurgents and regular Republicans of the senate have become brighter with the a few days as a result of conclusions reached by members of the insurgent wing with respect to recent utterances of two of its members, Senator Bourne's criticism of President Taft in the closing days of the last session of congress has come in for much condemnation. Insurgents, like many are far from approving Senator Bourne's criticism of President Taft in the closing days of the last session of congress has come in for much condemnation.

Senator Bourne and his "Salvation Army" are struggling to rehabilitate themselves by coming to the rescue of the people in the forthcoming session of congress, but it is probable that the tactics will be mostly defensive. Senator Bourne is a presidential candidate is much less popular with some of the insurgents than he was as plain Mr. Patterson. It does not require any extraordinary perspicacity to perceive the relation between Senator Bourne's avowed purpose soon to launch the "Poetic presidential candidacy in Boston, and the opposition of some members of the insurgent wing.

ALTERED INSURANCE ACT

ENDING PROCRUSTATION

Companies That Pay Claims to Executors Don't Need to Worry About Heirs.

Procrustation proved picturesque at the Parliament Buildings yesterday afternoon. Sunshine favored the military uniforms and jarred the attendance of the fair sex. The speaker's gallery was almost as thronged by lady visitors as on surrogate day, and the other galleries were well occupied by spectators.

On the floor of the chamber a number of issues prominent in the social life of the province were discussed, beginning with the cabinet ministers, who sat in the second row.

Mr. James Whitney and Mr. W. J. Gibson, in discussing the insurance act, at the right of the throne, passing the act of the house.

Mr. J. J. Gray and Hon. Frank Cook, in discussing the insurance act, at the right of the throne, passing the act of the house.

THE SUNDAY WORLD

Forty-eight pages of high-class illustrations and readable articles. We are giving the people more for five cents than any other publication in Canada.

ILLUSTRATED SECTION:

On the front page we show a number of the leading society women of Toronto.

We give two pages of views of Edinburgh in our travel series. Scotsmen will recognize these as the most notable, picturesque and historic spots in the capital.

Another picture represents the growth of one department of the Eaton Store. Over 400 people were grouped on the city hall steps the other day for The Sunday World photographer. Along with this picture we give a view of the same department 14 years ago.

There are several group photographs in this issue, and a number of other attractive pictures.

EDITORIAL SECTION:

Our front page, in color, gives the case of the Hudson Bay route in a way that it will be easily understood.

Our song hit this week is "The Comet and the Earth," from "The Ballies of 1910," a song that would cost 25c at any of the dealers.

Lina Cavalieri writes on "The Fight for Youth." This is a most attractive page for the women, as well as the picture by Lady Duff-Gordon on "Spring's Newest Touches." She pictures some odd hours worn by Polrot, maker of the harem skirt.

Traford writes on the week's offerings at the theatres, giving an intelligent critique of "Madam Butterfly" and "Madam Sherry."

Two pages of Motif News.

Mr. Mosdell writes on "The Courtship of the Sea Birds." These articles on the wild life of the mighty deep are attracting considerable notice.

We have besides Mr. Albert Ernest Stafford's discussions on the "Problems of the Universe," which show a thorough grasp of the subject.

THE MAGAZINE SECTION:

The decorative front page is all about Cleo de Merode, a favorite of the late King Leopold.

Mrs. Flora MacD. Denison gives our readers some impressions of the Alexandra Industrial School for Girls, with illustrations.

"Nell Brinkley's sketch is titled "A Fool There Was," and it tells a big story.

THE LIMERICK COMPETITION:

The number of entries this week nearly doubled last week's, and we look for a steady increase in the interest in this feature. Get The Sunday World for the names of the winners, and try your hand at making complete Limerick for next week.

Musical affairs are fully covered by musical people, and a page is devoted to literature, science and education.

Read Mr. Good's interesting comment on current topics and sports.

The back page colored article is an admonition to temper courage with judgment. You will find this a help.

COMIC SECTION:

The Katzenjammers have started on a quest for buried treasure. You can imagine that something is going to happen all the while. Get The Sunday World, and keep close to it.

The other regulars will be with us this week. Mutt and Jeff are also having a whale of a time in Mexico, and if you are down in the month, don't fail to get The Sunday World to see what happens.

NEWS AND SPORTING SECTION:

Billy Slee is watching the Maple Leafs at Macon, Ga., for The Sunday World. After the boys have rubbed the kinks out of their legs and arms they will get down to hard work, and they are due to get busy to-day, playing two games, one at Macon and one at Columbus, Ga.

Everything that happens to-day will be fully described in The Sunday World. Order your copy early.

For the greater efficiency of the administration of the law. Important undertakings which my government has in hand for the development of the province have called for capital expenditures, both in the development and the improvement of the Temiskaming and Northern Ontario Railway and the extension of the hydro-electric system. For these purposes a provincial loan has been authorized by the legislature.

TO REFORM WORLD IN PRESENT GENERATION

Representative Laymen's Missionary Speakers Are Inspired With Cheerful Confidence.

"The opportunity to advance the world in this generation," was the keynote of the laymen's missionary movement banquet, held at the Grosvenor Hotel last night.

John A. Peterson, A.C., was in the chair, and Jos. A. Suenstam, Matthew Parkison, N. Davidson, and N. W. Howe, A.C., were the speakers.

"The work that has been entrusted to us is the greatest that has yet been given to a generation," said Jos. A. Suenstam, representing the Methodist church. "The world needs saving, and we need a world to save. What we must do, we can do, and what we can do, we must do. If we present the proper conception of the stewardship entrusted to us."

"If the gospel is to be taught to the world it must be done in a living generation," said Matthew Parkison, representing the Presbyterians. "Christianity has got to keep up to the birthright of this world, and it will be a single generation, and the world will be Christianized in a single generation."

"Never before were all the kingdoms of the world open to Christianity. God opened them to this generation for a purpose. Christians now control the finances of the world as in no other age. Everything points to the fact that Christians will evangelize the world in this generation."

"A Breadth of View. I do not think that anyone can over estimate the value of the laymen's missionary movement. In coming together all Christian men," said N. F. Davidson, K.C., representing the Anglicans. "It is making for a breadth of view that is essential. It has never been entirely unobscured."

"We are going to raise \$500,000 as Toronto's share in this work during the next six months. It is a milestone of what is to be accomplished."

"Twenty-three years ago there were but seven communicants in the Methodist church here. There are now two hundred thousand. That shows what can be done in a short time if, when the opportunity is presented, the laymen will obey that command. It has been argued about it in the way that we now hear men argue in our clubs, the British Empire would not be here to-day. Not so."

"The younger men of this generation are not as prayerful as their fathers were before them," said N. W. Rowe, K.C., representing the Methodists. "The laymen's movement is bringing them to realize that prayer is the strength of our power. We have a vaster view of the world than our fathers had. We have had three or four years ago."

"The Methodist Church of Canada has been increasing its activities for a little over \$5,000,000 per year. We now aim to raise \$100,000 in the next six months. Half for home missions work and half for foreign missions work. The impetus given the work by the laymen's missionary movement is an elevator of the world."

A vote of thanks to those who spoke was moved by Thos. Findlay and seconded by Dr. Kilpatrick.

FESTIVAL OF EMPIRE CONCERT

Notable Event Will Be Under Patronage of King George.

The musical festivals which will be given here April 4, 5 and 6, under the royal patronage of His Majesty the King and His Excellency Earl Grey, president of the festival, promise to be a grand event. The famous Sheffield Choir, who have arrived and are giving the first concert of their world-famous tour to-night at St. John, will again receive a hearty welcome to Toronto for their three concerts.

Figure in the musical world of to-day in whom more general interest is taken by music lovers the world over than Sir Edward Elgar, the greatest of English composers, and one of the most striking exponents of tone-color in orchestration. Sir Edward's work stands out titanic among much that is flimsy and ephemeral—music that makes the essential qualities that make for permanence and for universality. He will conduct his own masterpiece, "The Dream of Gerontius," on the evening of the festival concert, on April 4. Dr. Harris will give the symphonic choral "Pain," the second night, with a miscellaneous second concert, at the home of the festival, on April 5. The third night will be the Coronation-Emperors Concert, in which the composers of Toronto, the National Chorus of Toronto and the Toronto Symphony Orchestra will be associated with the Sheffield Choir. Seats are now on sale at Massey Hall box office.

Camera stolen. William Rowe, 1533 East Queen-street, and John Blank, 92 Markham-street, were arrested yesterday by Detective Cronin, charged with theft of two cameras, which were taken from the premises of the Canadian Kodak Company, where they were repairing an elevator. The men had sold the two for \$5 and \$3 respectively.

PILES CURED AT HOME BY New Absorption Method

Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write to-day to Mrs. M. Summers, Box P65, Windsor, Ont.

Quebec Fire Chief Dying. QUEBEC, March 24.—It is stated the condition of Chief Fitzback of the Quebec Fire Brigade, is very serious, and that the worst is feared, the last rites of the church having been administered.

Amendment to Inspection and Sales Act Introduced—Export Trade Protected. ORDERED A SUBWAY. C. N. R. Must Safeguard Kingston Road Crossing in Cobourg.

COBOURG, March 24.—(Special.)—The Dominion Railway Commission met here to-day, and after viewing the map-trace created by the C. N. R. at the intersection of the company's line and the Kingston-road, decided that the railway company must safeguard the interests of those using the Kingston-road by placing a subway on it.

A petition signed by 200 or 300 ratepayers was presented to the commission with reference to the C. N. R. crossing at William-st., asking that a subway be constructed there. The crossing is by far the most dangerous in the town, and if ever a spot were held out by nature for a subway, it is the one. The railway commission was asked to order the crossing to be widened and inspected the crossing, and after their engineer had taken measurements, it was demonstrated that a subway could be constructed at a comparatively small cost. However, the C. N. R. had not been given previous notification of the petition, the commission decided to withhold judgment for thirty days.

FOR OUR TWO SALES NEXT WEEK we are guaranteed a large number of scrupulously sound workers and drivers of most desirable lot ever brought together for sale by public auction in any one place. You cannot buy horses to better advantage anywhere in Canada, because we do business right, and have unexcelled shipping facilities. If you want to buy horses call and see us before purchasing elsewhere, which call will be to your own benefit. Give particular attention to the following special consignments which we shall sell on:

MONDAY NEXT

Bush Horses! Bush Horses!

A CARLOAD FROM
The White Pine Lumber Co.

This lot is in good condition, having been worked near Blind River, from which point they are shipped. They will be sold for the high dollar.

CONsigned BY MR. P. CLANCY, city, a Bay Gelding, "William," 6 years old, 15.3 hands; a really fine driver and perfect city broken. Also his Rubber-tired Top Buggy, Whip, Robes, Weight, etc., making a fine gentleman's outfit. Sent in to us for positive sale.

CONsigned FOR SALE—A big, strong, well-bred Mare, sound, 6 years old, weight over 1300 lbs., and heavy in foal. Also one chestnut filly, 3 years old and sound, with splendid action, a really beautiful driver. These two are sent for private sale on Monday, and are too good to miss.

AND ON MONDAY AND THURSDAY WE SHALL ALSO SELL a number of scrupulously sound workers and drivers consigned to us by city people who have no further use for them; also an unlimited number of sets of New and Second-hand Harness, Robes, Blankets, etc., all for sale without the slightest reserve.

IMPORTANT NOTICE.

Our patrons will please bear in mind MONDAY, APRIL 3RD. That is the day we sell the contents of Dr. W. A. Young's Show Stable. For the past year he has exhibited at recent years has rightfully earned so creditable a reputation as Dr. Young. During last year in the show ring he won nearly 100 ribbons. We will sell this stable out at 11 o'clock sharp Monday forenoon, April 3rd.

Among the horses to be sold will be Dr. Young's well-known pair of mares, "My Humming Bird" and "My Fidelity Dove," a pair of mares that have almost always won the blue ribbon in the ring. They are well matched, brown in color, without any white marks, 15 hands high, splendid actors, and thoroughly broken and reliable. They can be driven down town in the lead of a four-in-hand, as a pair, can be hooked as a tandem, or either can be driven to a run about. No better pair of horses can be purchased anywhere, and they should command a high price from some gentleman who is ready exhibiting at the Canadian National Horse Show a few weeks hence. We will also sell a grand thoroughbred saddle horse, 15.2 1/2 hands, and perfectly broken for a lady. Among the carriages we will sell a magnificent four-in-hand Coach, built by Demarest & Co., New York, and which cost originally \$2,650.00; a Victoria, built by Hutchinson, Toronto; a Straight-front Brougham, by Guy; a splendid Cross-seat Brake, by a New York builder, suitable for a pair, uniform of four-in-hand; a Park Gig; an Appointment Tandem Cart, exactly similar to that of Mr. Alfred Vanderbilt, President of the National Horse Show Association, New York; a Demi-mall Phaeton; a Tilbury Cart with leather hood, one Appointment Runabout; a Ladies' Phaeton, by Denby & Son, Belfast, Ireland; a Ladies' Phaeton, built in Longacre, London; a Tilbury and a Light Drag, both by Crow, Toronto.

DO NOT FORGET TO BE PRESENT AT THE SALE, APRIL 3RD, AT 11 A.M. SHARP.

RAILWAY FOR GOWGANDA? SIGNS POINT THAT WAY

Mining Assessor G. W. Mickle Has Returned From Northern Inspection Trip.

Geo. R. Mickle, mining assessor of the department of mines of the Ontario Government, returned from his official visit of investigation to Gowganda yesterday.

Mr. Mickle's trip north was to report upon the railway needs of the Gowganda district in relation to the recent request of the Gowganda residents for an extension of the Timiskaming and Northern Ontario Railway. This investigation was in connection with the investigation by a representative of the T. & N. O. Railway Commission, and an engineer representing the Gowganda district. Mr. Mickle will make an early report to Hon. Frank Cochrane, minister of mines.

He stated to "The World" yesterday that despite the partial break-up of the winter weather the roads had been in sufficiently good condition to serve the purpose of his investigation. It is now believed in well informed circles that the Ontario Government is beginning to look with a more favorable eye upon the desired extension of the government railway. The matter is not likely to be dealt with hurriedly, but the indications are favorable for action early next year. The view is taken that the summer transportation facilities will be developed by other interests this season to meet the immediate requirements to some extent. When the expert's reports have been fully considered there is a prospect of favorable action should the reports be as conclusive in that direction as is expected.

MISS BEN OLEI TO SPEAK SUNDAY NIGHT.

The People's Sunday Service tomorrow night at the Hall promises to be especially interesting. Rev. J. M. Wilkinson has arranged a series of Lenten illustrated services bearing upon the "Passion and Death of Christ." Newton & Co. of London, makers to the King and Royal Academies, supply the lantern slides. The subject tomorrow night will be "The Seven Last Words From the Cross," beautifully illustrated. A number of soloists will sing appropriate selections. In addition, Mr. Wilkinson will illustrate the parts of "Ben Hur," "Sign of the Cross," and "Parsifal" that refer directly to the crucifixion. The popular Doris Maley, who has greatly delighted the audience last Sunday night, will again sing. Miss Florence Ben Hur, the celebrated Anglo-Jewish orientalist lecturer, will be present on Sunday night in costume and give a short address on "Shepherd's Life," introducing a shepherd boy in Biblical costume.

Six Burned to Death.
LILLE, France, March 24.—Six persons were burned to death to-day in a fire which destroyed a motion picture theatre. There were many women among the spectators. Panic followed the outbreak of fire and in the rush for exits many were knocked down and trampled.

Cured Eczema and Dandruff

"I am pleased to inform you that I have been cured by Cuticura Soap and Ointment. Since I was a boy I have suffered with dandruff, not only from the itching but from its disagreeable appearance in a scaly form all over my head. I had to brush it off my clothes all day long. I used every kind of preparation supposed to cure dandruff, also soaps and shampoos, but it seemed to me that, instead of improving with these remedies, the dandruff increased, even my hair began to fall out and the result was that two months ago eczema developed on my scalp. I suffered so from this that as a last resource I thought I would try Cuticura Soap and Cuticura Ointment. They had the most gratifying results for I had used only one box of Cuticura Soap when I was cured, the eczema and dandruff were gone and my head perfectly clear. I can assure you that so long as I live no other soap than Cuticura will be used by me and all those near to me. I will also add that I will always use Cuticura Ointment as a dressing for the hair. I feel that you should know of my cure and if you desire you may use this as a true testimonial which comes from a sufferer of thirty years' standing. I will be happy to tell any one of my experience in order to assist those who may be suffering from the same disease." (Signed) J. A. Kerpoo, General Commission Merchant, 59 Pearl St., New York.

MONEY FOR SCAVENGERS IN LIEU OF VACATION

This is Ald. Dunn's Solution—Restriction on Speeches Nettle Ald. McBride.

The civic works committee broke all records yesterday by transacting the business in sight in a little over an hour. This was due to some extent to the fact that the members put thru a motion of Ald. Dunn limiting the discussion of each member on any topic to five minutes. It was also due to the fact that the committee had several questions on the order paper needing discussion.

Ald. Dunn introduced a resolution to have the property commissioner report on the advisability of giving the drivers in the street cleaning department, who are permanent employees, two extra weeks' salary in lieu of two weeks' holidays which Ald. Sam McBride has been seeking to obtain for them. Ald. McBride arrived just as the motion was going thru and was advised of the new rule.

"You can't stop me talking," declared the doctory champion of the scavengers. "I'll talk as long as I have anything to say in the interests of the city and the only way you can stop me is to get a policeman."

Controller Spence took exception to the engineer's recommendations for new sidewalks placed next to the kerb and registered his annual protest. The recommendations went thru, notwithstanding.

A largely signed petition, presented by Ald. Rowland, on behalf of the residents in the vicinity of Cherry-street, to extend that thoroughfare thru to King-street, was referred to the city engineer.

QUICK JUSTICE.
NIAGARA FALLS, Ont., March 24.—(Special).—Within fifteen minutes after he returned to the city, Fred Moffatt, charged with his mother-in-law, Mrs. Ada Cushman, with assault, was arrested today, pleaded guilty before Magistrate Fraser and was sentenced to 30 days in Welland Jail.

TURE UP THE TRACK.
WELLAND, March 24.—(Special).—To-day Roland Tanner, a well-known citizen of Fonthill, was arrested charged with tearing up a portion of a Niagara St. Catharines & Toronto Electric Railway spur, running to a gravel pit. The track runs over a portion of his farm. Tanner claims the road was not there, and had considerable litigation over it. He was remanded for eight days, bail being refused.

Met Horrible Fate.
ELIZABETH, N.J., March 24.—His body covered by "quicksand" to a depth of several inches, which prevented discovery by the rescuers for the last 26 days, the body of John Donnell, 67 years old, was found accidentally. Indications are that he died in great agony while held a prisoner by the sands.

EVEN TITLE OF C.N.E. LIABLE TO BE COPIED

Exhibition's Need of Having Status Better Defined Thus Instanced.

There is no question about its being the desire of the Canadian National Exhibition authorities to take measures for the passage of a consolidation act at the next session of the Ontario Legislature, as announced in yesterday's World. No legislation hostile to the city, or to trespass upon the powers of the city with respect to the exhibition is in mind, however. The consolidation act is wanted in part to relieve the exhibition authorities from the inconvenience of working under too wide powers in some respects, and because of undefined rights in others.

The representative exhibition man who gave the information to "The World" said that a revision of the act of supplementary legislation, the same Canadian National Exhibition had not been effectively secured, and that further action was required to control and sale of exhibition information urgently required legislative action.

The idea of any friction between the exhibition directorate and the city council in relation to the consolidation does not exist in the minds of those who are seeking a revision and codification of the present loosely defined statute under which the bodies interested in the success of the exhibition have been working. The codification, The World has the best of authority for saying, is a revision of the law with a view to its enactment at the next session of the Ontario Legislature. Only those unfamiliar with the situation will imagine that a revision of the law entails an encroachment upon the rights of the city. The co-operation of the city council in the legislation of the city council is, in due course, likely to be invoked in securing the revision.

JUST LIKE ONTARIO

Salary Grab in Manitoba and Saskatchewan Legislatures.

WINNIPEG, March 24.—With the minimum of publicity, the closing hours of both the Manitoba and Saskatchewan Legislatures have been characterized by a salary grab of \$500 for each legislator. Manitoba led the way and the press was supposed to report that the members put thru a motion of a one-hundred dollar boost for the Saskatchewan legislators, but on investigation it appears to be five hundred. They will all now draw about \$1500 for five or six weeks' arduous labor.

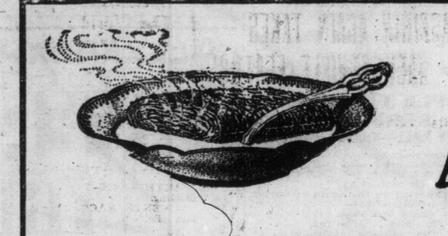

An All-Star Concert.

It is many a long year since a concert company of an equal merit to that which Alice Nielsen will bring with her has been seen in Toronto. In fact it is many a long year since a presario to get together for an important work, so many noted artists as compose Miss Nielsen's company. It is well-known that grand opera singers prefer to sing in opera. As certain by a company similar to Miss Nielsen's is almost unique. Here are eight artists who stand high in the grand opera world brought together to present the germs from the best known grand operas consisting of solos, duets, quartets and sextets. They are: Nielsen, Savage, Lassalle, Fornari, Perini and Giaccone, is a treat that music-lovers hold out for the privilege of enjoying. Another feature of Nielsen's engagement at Masey Hall on April 3 is the extremely low scale of prices. This is the first time Miss Nielsen has sung at these prices since she became a grand opera star. What makes these prices all the more remarkable is that she is accompanied by prima-donnas are such noted artists as Maria Claessens, Ruby Cutter Savage, Bernice Fisher, Ernesto Giaccone, Rodolfo Fornari, Giuseppe Perini and Robert Lassalle. Reservations are now being made by mail. The seat sale will open on Wednesday, the 29th inst.

"The Chocolate Soldier."
"The Chocolate Soldier," an opera bouffe treatment of George Bernard Shaw's "Arms and the Man," Englished by Stanislaus Stange, comes to the Royal Alexandra Theatre on Monday, April 10, for a limited engagement. An orchestra of 40 will be required for the proper playing of Oscar Strauss' music. The company includes Alice Yorke, and Lillian Pelt, prima-donnas; Fritz Von Busing, player of the frivolous Mascha, from Berlin; Francis T. Boyle, as Massakroff; Fred Mace, as Col. Popoff, and Henry Coote as Alexis.

Bertha Kalich Coming.
Since Madame Bertha Kalich first became one of the most important stars of the American stage half a dozen years ago, she has done nothing that surprises for artistic acumen and genuine interest her first success, "The Kreuzer Sonata." Under Shubert direction Madame Kalich is to make a revival of "The Kreuzer Sonata," an announcement that cannot fail to create interest. Madame Kalich has in a few years contributed to the stage half a dozen genuine hits. In "The Kreuzer Sonata," with its intense appeal to the heart, she has a role which gives her full scope. This revival will be welcomed everywhere for it presents the artist in a role of intense interest. The engagement here at the Royal Alexandra commences April 3.

There appears every week in the Sunday World a sermon by Bishop Evans that is creating interesting comment and inviting the attention of the frivolous as well as the thoughtful. Suppose you order a copy of next week's issue and read his sermon? For sale by all newsdealers and newsboys.

Most Children Are Wheat-Hungry

Nearly all children have wheat-hunger—a craving for the body-building elements found in the whole wheat, the most perfect food given to man—his "staff of life" for four thousand years.

The whole wheat contains all the elements needed to build the perfect human body. This cannot be truthfully said of any other cereal. It is through the shredding process (patented and owned by The Shredded Wheat Company) that the whole wheat is prepared in its most digestible form.

By this process all the tissue-building elements in the whole wheat are retained, while the outer, or bran, coat is scattered along the shreds in infinitesimal particles in such a way as to stimulate peristalsis (bowel exercise) in a natural way.

TRISCUIT is the Shredded Wheat wafer—a crisp, tasty, nourishing whole wheat Toast, delicious for any meal with butter, cheese or marmalades. Always toast it in the oven before serving.

WILL KEEP IT DARK

To Encourage Reporting Smallpox, Publicity to Be Avoided.

MONTREAL, Mar. 24.—In order to encourage municipalities throughout the province to report cases of smallpox within their confines, the board of health has agreed that in future no information will be given to the public of new victims.

Dr. Lachapelle, president of the board, to-day said that it had been found there is no cause for alarm, particularly where the precaution of vaccination has been taken.

He added that the disease is of epidemic proportions on the north shore of the St. Lawrence, below the Saguenay, and on the south side below Rimouski. He said, however, that while there are cases in the vicinity of Montreal, there is no cause for alarm, particularly where the precaution of vaccination has been taken.

DR. McLAUGHLIN'S ELECTRIC BELT

MADE US STRONG

Here's an Offer No Weak Man Can Afford to Miss.

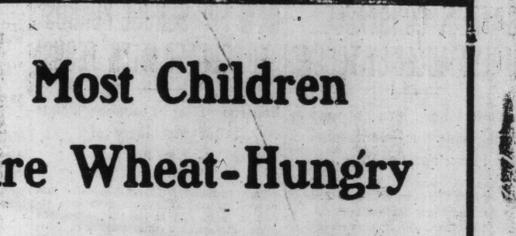

If You Are Tired of Useless Drugging—COME NOW.

AND WE DID NOT HAVE TO PAY FOR IT UNTIL WE WERE CURED.

When you hear a lot of people praising a thing you begin to realize that it must be good. One man or maybe two, in a community may be mistaken, but when a dozen remark that they have found Dr. McLaughlin's Electric Belt a good thing, you are forced to believe it.

When you meet a friend on the street and comment upon his improved appearance, he tells you that Dr. McLaughlin's Electric Belt has done it. Even though you don't believe in electric belts yourself, you can't help feeling glad that your friend imagines that it helped him.

That is why Dr. McLaughlin's Electric Belt is so popular now. It has cured a lot of people, and they are praising it. They call it their best friend.

Most Children Are Wheat-Hungry

Give a child two Shredded Wheat Biscuits every morning with hot milk and a little cream and he will be fully satisfied and will lose his taste for mushy porridges that are usually bolted down without chewing.

You can't build sturdy boys and girls out of books and sermons. Their bodies must be developed from the food they eat. Shredded Wheat is an ideal food for them to study on, to play on, to grow on.

Shredded Wheat Biscuit with hot milk or cream makes an ideal breakfast for school children and is quickly and easily prepared. The porous shreds of cooked wheat combine naturally with all kinds of fresh or stewed fruits, making a complete, wholesome meal. Your grocer sells them.

TRISCUIT is the Shredded Wheat wafer—a crisp, tasty, nourishing whole wheat Toast, delicious for any meal with butter, cheese or marmalades. Always toast it in the oven before serving.

DR. McLAUGHLIN'S ELECTRIC BELT

MADE US STRONG

Here's an Offer No Weak Man Can Afford to Miss.

If You Are Tired of Useless Drugging—COME NOW.

AND WE DID NOT HAVE TO PAY FOR IT UNTIL WE WERE CURED.

When you hear a lot of people praising a thing you begin to realize that it must be good. One man or maybe two, in a community may be mistaken, but when a dozen remark that they have found Dr. McLaughlin's Electric Belt a good thing, you are forced to believe it.

When you meet a friend on the street and comment upon his improved appearance, he tells you that Dr. McLaughlin's Electric Belt has done it. Even though you don't believe in electric belts yourself, you can't help feeling glad that your friend imagines that it helped him.

That is why Dr. McLaughlin's Electric Belt is so popular now. It has cured a lot of people, and they are praising it. They call it their best friend.

MONTREAL CONSTABLE BADLY MAULED BY TOUGHS

Twelve to Fifteen Men Engaged in Hammering Him—In Hospital in Serious Condition.

MONTREAL, March 24.—Walking along St. Lawrence-street, on his regular beat, at 3 o'clock this morning, Constable Venne Auger of the City Hall Avenue-station, whose official number is 61, was assaulted midway between Sherbrooke and Milton-streets by a gang of men, who mauled him so terribly that to-day he lies in the General Hospital in a very serious condition, with a broken jaw, deep gashes on his head and bad bruises all over his body.

While the fight was at its fiercest and just as the constable, despite his determination not to give in, was getting the worst of it, Armand Saulnier, who lives at 414 St. Lawrence-street, came down the street, and, sizing up the situation, sent a hurr-up call for help, which brought to the scene two constables, Lacroix and Godbout. The routing of the marauders was not effected at once, however, as there were from 12 to 15 men busily engaged in trying to hammer the officers, but in the end five arrests were made, two for assault and three for interfering with the police in the discharge of their duties.

This morning Joseph Duval of 57 Viger-avenue and Pierre Bernard were brought up in the recorder's court to answer to the former charge, while the charge of interference with the constables was laid against Hector Herbert, 67 Sanguinet-street, Joseph Dubreuil, 67 Viger-avenue, and Alfred Deneveau of 32 St. Hubert-street.

Mr. Caskey Going West. H. K. Caskey, secretary of the Canadian Council, Laymen's Missionary Movement, leaves the first of the week for Vancouver and the west, to meet the committee to arrange for conventions next fall.

Hon. G. F. Wilber, the American Consul-General at Vancouver, will spend a week with Mr. Caskey visiting points in British Columbia, conducting laymen's meetings.

On his return Mr. Caskey will speak to lay gatherings in Calgary, Regina and Winnipeg.

NOW FOR SCHOOL BOARDS TO PROCEED WITH 'TECHS'

Department of Education Points Out Machinery of New Act.

The Industrial Education Act just passed by the legislature goes into effect at once. It is important for the high school boards and boards of education concerned to note that in the case of technical schools heretofore established, it is specially provided that the members of the advisory industrial committees shall be appointed at the first meeting of the boards held after the passing of the act. This provision applies to the technical schools at Toronto, Hamilton and Sudbury, the industrial classes at Brantford Collegiate Institute, and the co-operative Industrial School at the South, and to such other secondary schools, whether day or evening, as may have already provided classes of an industrial or technical character.

The member of the advisory industrial committees have, under certain conditions specified in the act, the management and control of the various classes of technical and industrial schools. Such committees shall be composed of twelve persons, the members of which shall be appointed by the board, as follows:

(a) Six members of the board, including one representative of the board of public school trustees, and one representative of the board of separate school trustees, if any.

(b) Three persons, not members of the board, who are engaged as employees in the manufacturing or other industries carried on in the local municipality or in the county in which the school is situated; and

(c) Three other persons not members of the board who are employers of labor or directors of companies employing labor in manufacturing or other industries carried on in the local municipality or in the county in which the school is situated.

The present act repeals the sections of the public libraries act providing for evening classes, the act respecting technical schools, and the section of consolidated municipal act which provides for industrial classes. The present act does not affect the provision for manual training and household science.

In a few days the department of education will issue a circular specifying all of the most important changes made by the school legislation of last session, and the acts themselves containing these changes will be printed and distributed as soon as practicable.

FATHER BURKE'S DENIAL. He Maintains Stoutly That Religion Didn't Separate Family.

The storm of public protest over the "he terrors" case as alleged to have occurred in Toronto has not yet subsided, despite constant denials from Rev. Father Burke.

He declared again yesterday that the separation of the Haney family was entirely an internal matter, and the church had had nothing whatever to do with it.

He also contradicted Mrs. Haney's letter so far as to say that he had not spent more than a dozen nights in the house in his life. "It is the work of a foolish woman," he said, "and no one is affected by it at all."

IN CANADIAN CONTINGENT. Death of Henry Winford at Brockville Yesterday—An Active Athlete.

BROCKVILLE, March 24.—(Special.)—The death occurred here to-day of Henry Winford, aged 32 years. Shortly before the close of the Boer war, he was a member of the last contingent sailing from Canada, and upon arriving at Cape Town, found that hostilities had ceased. Winford was at one time an active member of the ranks of the Old Bohemian and a member of the Canadian and International honours. For four years he was a member of the Royal Canadian Regiment, and was stationed at Stanley Barracks, Toronto, and Wolsey Barracks, London.

PRODUCED THE CORPSE. But Instead of Insurance Gets Charged With Murder.

SAN FRANCISCO, March 24.—Dr. L.C. Chisholm, a physician of this city, was arrested here to-day in connection with the death of John D. Powell, a dead man whose body was found in a tent near Fort Ross, Sonora County, several weeks ago. Powell had been shot. The arrest was the result of an investigation by Sheriff Smith of Sonora County.

A card found near the tent contained the name and address of a San Francisco woman, whose identity is being withheld by the police. Sheriff Smith interviewed this woman, and says she told him Chisholm had declared that if she would pose as a widow, he would produce a corpse and collect a large sum of life insurance.

STOLYPIN REMAINS IN OFFICE. Reactionary Members of Council of the Empire Removed.

ST. PETERSBURG, March 24.—Premier Stolypin, who last Monday sent in his resignation, has agreed to remain in office and the cabinet crisis therefore is at an end.

An imperial decree issued to-day suspends M. Treppoff and M. Dernovo, members of the council of empire, from all sittings of the council until Jan. 1912. M. Stolypin had insisted on the removal of these reactionary opponents of his policy as the price for his resigning office, and it is understood that it was the negotiations of this point that led to a prolongation of the cabinet crisis.

ELM-STREET METHODIST CHURCH. Rev. W. A. Rodwell will preach in Elm-street Methodist Church to-morrow at 11 a.m., and Rev. Dr. W. F. This Man Is Young at 55 Years

He is a "Health Belt Man," therefore has the vitality and hot, red blood of youth in his veins. He towers like a giant above the ordinary difficulties of life—Be a "Health Belt Man" yourself—it gives manly strength. It makes you young and keeps you young all the days of your life; it takes all the coward out of your make-up. Let me give you of this abundant vitality, then nothing can ever conquer you but death itself—100,000 men have taken my advice, why not you?

I TAKE ALL THE RISK. All I want is a chance to prove to you the truth of my claims. Write to me, or call at my office, and you can arrange to get the Belt and pay for it when cured. If not cured, send it back. If you prefer to pay cash down you get a discount.

Let Me Send You These Two Books FREE. They fully describe my Health Belt and contain much valuable information. One called "Health in Nature," and deals with various ailments common to both men and women, such as rheumatism, kidney, liver, stomach, bladder disorders, etc. The other "Strength the Glory of Man," is a private treatise for men only. Both sent upon application, free, sealed, by mail.

If in or near this city, take the time to drop in at my office that you may see, examine and try the Belt. If you cannot call, fill in the coupon and get the free booklets by return mail. They are better than a fortune for any one needing new vigor.

DR. A. B. SANDEN CO., 140 Yonge Street, Toronto, Ont. Dear Sirs—Please forward me your Books as advertised, free.

Apathetic Trading in Stocks Ruling Influence on Wall St.

Small Up and Down Movements in New York Market—No Enthusiasm Indicated in Toronto Stock Exchange.

World Office, Friday Evening, March 24. There was an evidence of liquidation on the Toronto stock exchange to-day, and the buying power was limited in many instances to the insiders. No special appeal is being made to speculative profits, are cashing in. In many securities there is an underlying investment demand, and this for the time being is capable of taking care of any liquidation.

In a general way the market is perfectly apathetic and not encouraging to speculators. Several pools or syndicates are trying to entice outside operators, but the dealings would indicate that these are a failure at present. The one and only interest in the exchange seems to be from investors. There is almost no margin trading, and the price movements are more natural of that account.

Present buyers are circumspect, and such are looking to dividends rather than upward manipulative movements. Nothing in Toronto market to-day indicated anything otherwise than that those who are operating are basing their dealings on dividends, rather than on prospective profits.

WALL STREET POINTERS.

American stocks in London steady, up to 1/4.

London—Copper close, Spot, 254 1/2 futures, 255 25¢, unchanged for both.

Grand jury expected to complete investigation of Carnegie Trust Co. affairs.

Forty-nine leading railroads show slight increase in gross earnings in January, but decrease of nearly a percent in net.

Sub-treasury gained \$866,000 from the banks yesterday, making cash net gain since Friday of \$5,310,000.

Second hearing held at Albany on Stillwell bill to prohibit short sales. Committee will report measure to senate for action.

American Telegraphs and Telephone Co. annual report shows balance available for dividends equal to 11.44 per cent, on stock compared with 10.50 per cent, in year previous.

Known movements of money for the week ended with the close of business on Thursday indicate a net loss in cash by the banks of \$600,000.

Indications grow that there will be friction between the house and senate in extra session of congress, as Democratic leaders seem determined to take up whole tariff question.

It is learned that the Pennsylvania Railroad has not only reduced the working time at its Altoona shops, but has also ordered a curtailment at all its shops in the eastern division. About 12,000 men are affected by this order.

New York—Copper exports for week ended March 23, 4557 tons; increase, 1822.

New York—An authority in the Steel trade says that actual conditions are not as favorable as they have been reported by some interests, and he sees no signs of decided improvement in the near future. He declares that, contrary to most reports, prices are being shaded.

James J. Hill on Outlook. WASHINGTON, March 24.—James J. Hill called at the White House to-day and had a talk with President Taft. Mr. Hill said that business was all right. "What do you think will help business?" he was asked. Mr. Hill answered, "A good deal of rain." Canadian reciprocity is not well understood, said he, but it will be soon.

SCALPERS-EXPERIENCE DIFFICULTY.

World Office, Friday Evening, March 24. The buying of local securities is subject to change without notice. The incentive for this buying is not of a speculative character, but it naturally brings such in its train. Just as soon as floor trading brokers and speculators see evidences of a buying demand, their efforts to scalp promote activity, and the after selling calls for the decline. The Toronto stock market is too narrow to admit of much scalping, but the buying is much better than usual, and is creating a basis of value such as the market has not had for many years.

Aggressive Mining Work on Porcupine Properties

Cheaper Porcupines Move Up Cobalts Barely Hold Their Own

Gold Mining Stocks Record Advances, But Market is Mainly in Waiting Mood—Cobalt Issues Easy.

World Office, Friday Evening, March 24.

There was no outstanding change in the mining exchanges to-day, the market being in a more or less waiting mood after the movements made yesterday. Despite this tendency, however, several further advances were noted, but it was noteworthy that these were all in the cheaper Porcupine stocks.

As far as the gold mining issues were concerned the market showed a definite firmness. Trading was active, and in the issues where a special demand was in evidence prices were moved toward higher levels.

Such stocks as Dome Extension, West Dome, Vipond and Pearl Lake were the features in the dealings. Dome Extension sold up to 52 3/4, or over two points above the opening price. West Dome moved up to 34 3/8 and Vipond gained three points, at 88 1/2. Pearl Lake made a new high record at 35; or six cents above yesterday's price.

Hollinger quieted down after its strenuous advance, and a medium of profit-taking brought the value back 25 points below the high record made yesterday. Little stock came out on the reaction, however, and the movement was an entirely healthy one.

The Cobalt issues were little changed, with prices changing, where indicated, in the main toward lower levels. Timiskaming sold ex-dividend at 69, equivalent to 72 with the dividend added. This represented a loss of two points. Beaver firmed early in the day, but dropped back half a point later in the session. Both these issues were under liquidating pressure.

Chambers-Perland sold as low as 19 3/4 to-day, but there was no news to account of the decline. City of Cobalt and Great Northern were firm; Rochester was easy at 3 3/4.

The market was a rather irregular one on the whole, but the undertone was fairly responsible, and stocks acted well in most instances. Interest in the Porcupine issues was still the dominant factor, and all of these issues showed firmness.

The Boy The Father of the Man

IF not warped or misdirected, the average boy's shrewdness and horse sense about clothes foretells the man of sound judgment able to decide on values.

Simpson clothing appeals to boys who appreciate man-tailored garments and who can, as they say, "pick them out blindfolded." Sissy clothes don't go. Cut, workmanship and material must pass the critical scrutiny of the man of the future.

He says, "Mother, let's go to Simpson's," and the proud Mother says to herself, "That's a wise boy."

We Are the Pioneers in Canada

Quite recently we inaugurated a Circulating Library, in which we put the very latest books, and we are now adding the new books as they are published. The great feature of our library scheme is that we place the fullest confidence in you by not asking for a subscription or fee at the commencement; all we require of you is that you pay the sum of 2c per day when you return the book. Please note we charge the day the book is taken out, but not the day it is returned. Come and join at once.
