“MACLAREN” DIES SUDDENLY

Celebrated Author and Preacher Succumbs in Iowa from Blood Poisoning.

BURLINGTON, Iowa, May 6.—Dr. John Watson (Jan MacLaren) died at 11.15 a.m. to-day at Mount Pleasant, Iowa. The cause was blood poisoning from tonsillitis. He was taken ill at Mount Pleasant, April 25.

Dr. Watson came to Mount Pleasant on April 23 from Minneapolis to deliver a lecture to the students of the Iowa Wesleyan University. En route he became ill and was compelled to cancel the date for the lecture. The illness, which was declared to be tonsillitis, progressed favorably.

Last Monday and Tuesday the patient was able to be up and transacted some business. Wednesday an abscess formed on the right ear, and in 24 hours serious symptoms developed. The physicians regarded the case as critical, but hoped to arrest it. Blood-poisoning set in, and on Saturday other abscesses began to form in the left ear and throat. His condition was aggravated by a bad attack of rheumatism. This morning the physicians sent for a Chicago specialist, who arrived this afternoon.

Dr. Watson's end was unexpected, and was hastened by a weak heart. His wife was his constant companion in his last illness.

The Rev. John Watson, as Jan MacLaren, gained world-wide distinction as the author of "The Pioneer of the West," the first of a series of sketches of Scottish character, that placed him in the front rank among later-day authors. The book came out in 1894 and was followed by "Days of Auld Lang Syne," almost equally popular.

Other volumes were "A Doctor of the Old School" and "The Master," the latter of which was subjected to considerable criticism. He was also the author of several religious and devotional books, and theological studies, "The Mind of the Master," being one of the best known of these.

He was born at Manningtree, Essex, Nov. 3, 1850. Educated at Strirling Grammar School, Edinburgh University (M. A.), New College, Edinburgh. He was licensed by the Free Church of Scotland in 1874. Appointed assistant to Dr. Wilson, Barclay Church, Edinburgh, later minister of several Scottish churches. He finally held pulpits of Station Park, Essex, and Lynton, Devon, before coming to this country in 1896.

His later years had been devoted to lecturing and authorship. He was on a lecture tour in the United States when taken ill at Mount Pleasant, Iowa.

There has seldom been a warmer valediction accorded to anyone by the people of a city than that which was given to Jan MacLaren on leaving Station Park Church in Liverpool some weeks ago. He had spent the last years of his life in devoted service in this charge, and left behind him a loyal congregation. Rest and leisure for literary work were his. He had written "The Pioneer of the West," "The Mind of the Master," and his companion volume, "The Days of Auld Lang Syne," which were published in the United States.

It is true there were "kailyard" objections, but those who bowed to the spirit in which MacLaren hailed the great lyric in "The Days of Auld Lang Syne" and "Lilies" need not heed to the criticism, and will mourn the departed Scotch lyricist.

British Weekly, which has discovered so many well-known writers, and which first evoked the labors of Dr. Watson's pen, continued to print his contributions to the last, and two weeks ago published a notable article by him on the chairmanship of Scott as the central note of the "Waverley" novels. Chivalry and loyalty and kindness and love were Jan MacLaren's own chief literary material.

The Dual Personality Of the Dead Weekly. A writer in the British Weekly recently said: "The first and only serious rival 'Jan MacLaren' had to encounter in my regard appeared in the person of one John Watson, Doctor of Divinity and Master of Arts. The instant that 'The Cure of Souls' appeared, and 'The Mind of the Master,' and most of all when these were followed by 'The Potter's Wheel,' I had a temporary and reluctant yet joyous farewell to Drumtochty and fled to Yale and Station Park. Here were the same gifts of humor and brilliant characterization, the same cunning of words and...

Continued on Page 7. YOUR "WORLD" BY 630. Owing to the interest taken in the World's "Dr. Watson" there has been some little delay in the delivering of papers to subscribers. The World begs to extend its apology to new readers of the World, and assures them that everything possible is being done to relieve the pressure. A special staff has been engaged, and within a day or two the World will be in a position, as it has ever been in the past, to deliver before six thirty the day following the receipt of the subscription order at the World Office.

TARIFF CHANGE IS IMPOSSIBLE

So Says Lloyd-George, Who Also Disapproves of Subsidies to Shipping.

C. A. P. Cable. LONDON, May 6.—At the opening of to-day's meeting of the imperial conference, Premier Jameson expressed the hope that there would be a more sympathetic answer on behalf of the home government from President Lloyd George of the board of trade, than had been received from Mr. Herbert Asquith. He asked to be allowed to move a resolution expressing the opinion that the government should take into consideration the possibility of granting a preference to all portions of the empire on the present dutiable articles in the British tariff.

Sir Wilfrid Laurier thought consideration of the proposed resolution should be postponed until the main resolution had been considered. The president of the board of trade said, regarding Premier Jameson's resolution, that the government could not change their position in reference to the tariff of the United Kingdom. Having referred to Great Britain's position in the world of commerce, he said that in Premier Deakin's resolution the government were asked to "aid our protectionist country in the world would do, namely, tax the necessities of either life or livelihood which we could not produce ourselves and which the colonies could not supply us with sufficiently for a number of years."

After acknowledging the value of the preference given by the colonies he said the question: "What is Great Britain prepared to do in return?" had its first answer in the statement that Great Britain is the colonies' best customer.

Practical Proposals. Proceeding to consider proposals of a practical character, Premier Lloyd George spoke approvingly of Premier Ward's suggestion of an improved and cheapened cable communication, and also proposed the appointment of commercial attaches in the colonies to assist British trade, being the appointment of what he might term imperial commercial travelers to investigate the trade conditions and requirements of the colonies and to report to the British board of trade where the information would be disseminated confidentially. These travelers would also visit the great industrial centres of this country and ascertain from what produce from the colonies there was a real demand.

As to the third suggestion, the improvement of transport and passenger communications, the policy of merchant shipping subsidies which did not benefit shipping. He could not consider any suggestion for a system of subsidies. The government realized that "everything produced by the colonies for the benefit of their inhabitants the problem was how to bring those products to the markets at home which did not unduly handicap the colonies in competition with foreign countries. The government had had no concrete scheme submitted.

Can Be Solved. The problem was complex and difficult, but not beyond the grasp of British statesmanship. He did not propose to submit a definite plan. It would be better that a scheme or schemes be elaborated slowly in detail. He was thinking out all ramifications on the subject, and when such schemes had been prepared and presented with the full responsibility of the respective governments behind them, then each government could examine them and confer further.

In conclusion Premier Lloyd George replied to Premier Deakin's charge of lack of official sympathy. He denied that the fiscal system was responsible for such distress as existed in Britain.

WINTER SEASON FINISHED. Sailing of the Montreal Crossings Things at St. John.

ST. JOHN, N. B., May 6.—The winter past season of 1906-7 was brought to a close to-night with the sailing of the C. P. R. steamer Montreal. Owing to a capital condition of the sea, the amount of freight tonnage has not been anything like the total for last year.

Total freight tonnage was 3,349,182 bushels; 112 steamers arriving during past season represent a total tonnage of 456,432, as against 115 steamers with a tonnage of 383,036 last year, and 102 steamers with a tonnage of 366,737 in 1904-5.

Live stock shipments this year show a decrease from those of the season of 1905-6. Cattle shipments particularly fell off. Shipments of horses were about the same, one less having been sent this year.

The total number of persons landed here this winter was 30,025, and of these C. P. R. steamers carried the greater number. During the season C. P. R. steamers from Liverpool, London and Antwerp landed in St. John 26,032 passengers, against 16,804 last year.

Not more than 2516 were destined to the United States. In 1904-5 the C. P. R. brought to St. John 12,271 persons, so that last season's traffic showed an increase of 4533, while this year's continued increase amounts to 8682.

Most Atlantic Line passengers were landed at Halifax.

GIRL FALLS FROM CAR. Maud Bramer May Have Fractured Her Skull.

Maud Bramer, 66 Tiverton-avenue, fell in alighting from a King-street car at King-street and Elm Grove-avenue at 9:45 o'clock last night. Her head was severely injured, and she was taken to Dr. Harris' residence and from there removed to her home. Dr. Harris thinks that her skull is fractured, and that an operation will be necessary. The girl is in a critical condition.

TORNADO SWEEPS TEXAS DESTROYS MUCH PROPERTY

Two Lives Reported Lost and Several People Injured—Live Stock Suffers Heavily.

FORT WORTH, Texas, May 6.—A storm of wind and rain, which was general throughout a considerable area of north Texas, to-day, and which in some places assumed the proportion of a tornado, according to meagre reports received here to-day, resulted in the loss of at least two lives, the injury of many persons and great damage to property and crops.

Several villages were wiped out, but because of the prostration of both telephone and telegraph wires, details are almost impossible to obtain.

At Deport, 20 miles from Paris, the storm damaged the residence quarter. The Baptist parsonage was blown to pieces, and several other residences were damaged. No one was hurt. Crops were damaged and many fences and barns were blown away.

It is reported that at Halesboro, the wife and child of Andrew Bell were killed by flying debris and Mrs. Barzil, a tenant, seven miles north of Sulphur Springs, was almost destroyed. This is the tornado belt and most of the homes are provided with storm cellars. To this is due the escape of a number of those in the path of the storm.

The home of William Lemmons was destroyed, entailing a loss of \$10,000. Three barns on the place were also destroyed and many head of live stock killed.

A tenant, Barzil, with his wife and seven children, saw the storm coming and ran for the cellar. Barzil was crushed by flying debris and Mrs. Barzil and two of the children were fearfully injured.

PREMIER ROBLIN WILL NOT ENTER FEDERAL POLITICS Will Not Resign Position of Premier of Manitoba and States That He Has Never Been Asked to.

WINNIPEG, May 6.—(Special.)—This morning a representative of The World called on Hon. R. P. Roblin and asked him if he had seen an article published in this morning's Free Press dated from Ottawa, and announcing that it was his intention to enter the federal field of politics. The truth of this announcement Mr. Roblin emphatically denied.

"Yes," he said, "I have read what purports to be a press despatch from Ottawa, in which it is stated that arrangements have been completed by me to resign my position as premier of Manitoba, and to assume the responsibility for the organization of the Conservative party of the western provinces, and myself contest a Dominion constituency at the approaching general election for a seat in the house of commons."

"I desire to state in the most unqualified terms that I can command that the alleged despatch is false and untrue in every particular. I never was asked, verbally or by letter, by Mr. Borden nor anyone acting for him or for the Conservative party of Canada or any province, to resign my position as premier of Manitoba and take an interest active or otherwise in Dominion politics."

"I may say that I am of the opinion that the whole article is a concoction of the Free Press for some purpose other than what is manifest to me."

GIRL FALLS FROM CAR. Maud Bramer May Have Fractured Her Skull.

Maud Bramer, 66 Tiverton-avenue, fell in alighting from a King-street car at King-street and Elm Grove-avenue at 9:45 o'clock last night. Her head was severely injured, and she was taken to Dr. Harris' residence and from there removed to her home. Dr. Harris thinks that her skull is fractured, and that an operation will be necessary. The girl is in a critical condition.

Isn't it about time Ontario and Toronto were given a square deal by that Montreal Ice Co.?

A Name For a New City

The World wants to present the twin Canadian cities of Port Arthur and Fort William with a single name for that splendid new city of the future. Canada that now sits on the vigorous northern shores of the greatest lake on the globe.

To secure such a name we offer a prize of \$25 to be awarded on July 1 next by a committee of impartial men. We want a name that sounds well, and, if possible, fits so great a position.

In the meantime The World trusts that these two cities will work together in spirit and in harmony; that they will unite into one municipality based on public ownership, and that in the making of a great national and commercial centre, petty jealousies or small interests will not be allowed to interfere. The men who make a great city become themselves great men.

This new city will be one of the great cities on the North American continent. That it has a vigorous climate only means that it will have vigorous business methods and an absence of any of that desolator that sometimes gnaws the soul in more torrid parts.

It will be a new and better Chicago, and the centre of enormous industries to supply the new and greater world.

What shall be the name of this new and great Queen of the Canadian Lakes? If you think you have it, fill in the blank below.

Let the new city be called..... Name..... Address.....

POLITICAL AGITATIONS ORIGINATE IN COLLEGES

Government Decides to Take Drastic Measures—Outbreak Anti-Christian and Anti-European.

SIMLA, British India, May 6.—The schools and colleges of Bengal, which are affiliated with the University of Calcutta, have become such hotbeds of political agitation that the government has resolved to take drastic action.

TO ARBITRATE MILK STRIKE

Judge Winchester and C. C. James Will Decide on Proper Price.

The conference between the Toronto Milk Producers' Association and the Retail Milk Dealers' Association yesterday resulted in an agreement to refer the matter regarding the fixing of prices to a board of arbitrators to be composed of Judge Winchester and C. C. James, deputy minister of agriculture.

In the event of a disagreement a third arbitrator will be mutually appointed. The intention of the executive of both the associations at the outset was to admit only half a dozen of the members on either side, but this rule was waived, and the room was filled to overflowing.

Levi Annis of the Producers' Association was voted to the chair, and to his credit some of the retailers in alleged acts of intimidation threatened to precipitate trouble, but President Annis disavowed all knowledge and responsibility of the occurrences, and stated that the farmers had agreed not to make any reference to the matter.

Early in the meeting the references of some of the retailers to alleged acts of intimidation threatened to precipitate trouble, but President Annis disavowed all knowledge and responsibility of the occurrences, and stated that the farmers had agreed not to make any reference to the matter.

The successful resolution was moved by Secretary Reynolds and was seconded by George Vaughan. It was agreed that in the interval the producers shall advise the arbitrators not to send any milk to the City Dairy unless the latter agree to abide by the prices set by the arbitrators.

The meeting then adjourned, after which the statement was issued by the Producers' Association, and will be mailed to every member setting out the resolution in detail, and, in addition, warning the members not to send any milk to the City Dairy unless the latter agree to abide by the prices set by the arbitrators.

THREE YOUNG CHILDREN ARE BURNED TO DEATH. Mother Had Left Them Alone After Building Big Fire in House—Could Not Be Rescued.

SAILLIE STE. MARIE, May 6.—A special from Blind River says that three children were burned to death in a house there to-day while the mother was away. The oldest was five years, the youngest six months.

The mother, a widow named Donna, went to a neighbor's after building a big fire in the stove, leaving the children in the house. In a short time the place was discovered on fire by neighbors, but they were unable to rescue the little ones.

TRADE WITH JAPAN. Increase in Some Lines and Decrease in Others.

OTTAWA, May 6.—(Special.)—During the two months, January and February, Canada's imports from Japan amounted to \$159,924, an increase of \$40,599 over the figures for the corresponding two months of 1906. Japan's imports of flour from Canada, however, were but \$867 in value for the two months against \$15,888. The falling off, as explained by Mr. MacLean, agent at Yokohama, in his report to the department of trade and commerce is due to recent shortages of American qualities in the Japanese market.

As to Canadian wheat, for which there was expected to be a demand under the new tariff, the importations have been inconsequential, owing to high prices. One of the latest arrivals, Mr. MacLean received on the subject was: "You Canadians are too well off; your prices show that you have a better market than we can offer you."

FERNIE MINERS HAVE RETURNED TO WORK. FERNIE, May 6.—(Special.)—MacKenzie King has just stated that the agreement embodying a new wage schedule for the mine workers has been signed by the miners and officials, and everything is now closed. The men are back to work and the strike is over.

WILL ERECT FLAG POLE. ST. CATHARINES, May 6.—(Special.)—A deputation from the local lodge, St. of England, publicly offered to erect a 100-foot flagpole on the city square and added that Daughters of England, would donate a suitable flag, to be used on all national holidays. The offers were gratefully received.

INSPECTOR AND AIDES ACCUSING EACH OTHER

President's Own Investigator Will Straighten Out Tangle at the Falls.

NIAGARA FALLS, N.Y., May 6.—(Special)—A thorough investigation of the local bureau of the United States immigration department is now being conducted by James Bronson Reynolds, a special agent of the department.

The investigation is made necessary owing to charges that have been preferred against Chief Inspector Joseph Francis, who is in charge of the port, by Inspector Ernest Stewart and Interpreter Joseph Rothman.

The investigation in progress will occupy the best part of the week and will be conducted by private and public officers at the port who will be examined under oath.

They have been given the privilege of summoning witnesses and several of them are represented at the hearings before Mr. Reynolds by counsel.

REGAIN NOW THE STRENGTH YOU LACK! Water Leaves Us Miserable, Ailing, Weak. BUILD UP NOW.

During the winter the system gets sluggish. The blood, polluted with impurities, deadens the nervous system and dulls the actions of both liver and kidneys; the foulness of the system increases and when spring comes we are limp and useless.

"Spring system cleaning" is a duty; the body sewers must be flushed out and waste matter removed—otherwise weakness and nervousness will surely follow.

Begin by enriching the blood. Make it pure and nutritious by taking Ferrozone. It's the greatest blood former known to medicine.

Ferrozone makes the liver fairly sing with new life, makes the kidneys dance with renewed vitality, and thus the winter's accumulation of pollution is expelled.

Hamilton Happenings

CITY COUNCIL WANT UP-TO-DATE CAR SYSTEM

Would Involve Expenditure of \$500,000—Committee to Be Appointed to Make Bargain.

HAMILTON, May 6.—(Special)—Not only are athletes being cooked away to Toronto, but good shots as well. Lieut. Milligan, 21st Highlanders, who caught a place on the Bisley team, has moved to Toronto, where he was given a good situation on the condition that he join the 45th Highlanders, and go to England as a representative of that corps.

Police Magistrate Jelfs says that it would not be lawful for him to impose heavy fines on Sunday drunks who refused to say where they got their liquor.

Up-to-Date Street Cars. At an informal meeting of the aldermen this evening, a resolution was passed expressing the opinion that the city required an up-to-date street car system, involving an expenditure of not less than \$500,000, and, as the company claimed that it was unable to do this without concessions, the whole question of improvements to the street railway and the terms upon which electric pumps could be installed by the company at the Beach promenade, and the terms for the balance of the system, were referred to a joint committee of the board of works, finance committee, and Ald. Clark, chairman of the fire and water committee.

Col. Gibson addressed the meeting. He said fault had been found because the company had not stated what it wanted from the city, but the company could not say what it wanted until he addressed the meeting.

The London Trip. Your nomination for a free trip to London, England, Paris should be sent to your friends; ask them to nominate you. Nominating blanks in the Toronto World, Agents W. Langley and Messrs. Taylor, North, where full particulars can be obtained.

53rd Anniversary. At the celebration of the fifty-third anniversary of the Macdonald Presbyterian Church this evening, an address was presented to Angus Sutherland, secretary of the board of works, by Mrs. Taylor, wife of Henry Taylor, 55 North Hughson-street, died this evening.

The building is now nearing completion. Applicants wishing to see the accommodation list available, apply R. A. Milne, room No. 406, Bank Chambers, Hamilton.

The board of health took no action this evening on the question of section 25 people in the houses, but the North End Improvement Society complained of some evil odors and the board promised attention.

Lox Out. New selections each week (252) are now on view at the one-cent vaudeville from 8 a.m. to 11 p.m. Fortune tellers, clairvoyants, etc. The sign of the Red Mill, 80 North James-street. Admission free.

Inquest Adjourned. A great deal of contradictory evidence was given at the inquest opened this evening on the death of Simon Budu, 25 people in the house, who died suddenly last Wednesday. Eight witnesses were examined.

Hotel Hanrahan. Corner Barton and Catharine-streets, Hamilton, modern and strictly first-class. Rates \$1.50 to \$2.00 per day. Phone 1465.

Protest Against New Act. OTTAWA, May 6.—(Special)—At the meeting of the Ottawa Ministerial Association to-day, a letter was read by Premier Wilton, acknowledging the receipt of the resolution passed by the association, protesting against the new agricultural and arts act, which states that only members can take action against agricultural societies that permit horse-racing at fairs.

Adjourn Till Wednesday. BOISE, Idaho, May 6.—Judge Wood announced that he would not decide the matter of furnishing the defence of particular until Wednesday morning. Court then adjourned for the day.

Pink Star Rank Outsider Wins Kentucky Derby

PINK STAR AT 5 TO 1 WINS HISTORIC KENTUCKY DERBY

Zal at 3 to 1 is Second, and Overlando, Favorite, Third—Results at Jamaica and Oakland.

LOUISVILLE, May 6.—Moving past a specter field with an ease which his lunatic stride did not indicate, Pink Star, the longest-priced horse in the race, won the 38th Kentucky Derby today by two lengths from Zal, with Overlando third, a length and a half away. The race was run on a track deep in mud and the time 2:12 3/4, was the slowest in the history of the race. Thirty thousand persons saw the race, Congressman Neelands Longworth and wife being among them.

The heavy rain today was a godsend shortly before the race of Arnie, which had been an overvaluing favorite in the future books. Bonanza, favorite, was also scratched, leaving a field of six, with Red Gauntlet favorite at 8 to 1. Pink Star closed at 12 to 1 on the strength of a single field.

The field was sent away to a good start. Wood Sandals led and gave way to Zal, with Wood Sandals and Overlando alternating in second place. Zal set a stiff pace for the first six furlongs. Bonanza, the condition of the track, Red Gauntlet and Overlando were seen ahead behind and six lengths in the narrow race. Zal, with the time the mile was reached, had led all in distress, except Pink Star, who had moved up to fourth place.

Thousands hailed Zal the winner as they turned into the stretch, not seeing Jockey Minder bringing up Pink Star. The big colt speedily closed up the four lengths between him and Zal with great ease. Half way down the stretch, Pink Star made a show-off in front and the race was won. He went under the wire a winner by two lengths, ahead of which he had apparently been increased if driven. The winner is a bay colt by Pink Coat, dam Mandy Malloy, and is owned by J. H. Woodford, Summersville, Ky.

First race, inaugural field, 5 1/2 furlongs—Mike Sutton, 20 to 1; 2, 1:10.20. 3, 2:10.20. 4, 3:10.20. 5, 4:10.20. 6, 5:10.20. 7, 6:10.20. 8, 7:10.20. 9, 8:10.20. 10, 9:10.20. 11, 10:10.20. 12, ANCHOR THE POWER POLICY.

Hon. Adam Beck has given the past year almost wholly to the service of the people of Ontario in his fight for cheap power from Niagara. He has been untiring, fearless, resolute, until now victory is on the horizon. Mentally and physically, he must be weary, and it is with no surprise that we hear he is going abroad, ostensibly to exhibit his horses at the London Horse Show, but really to get away from the strife that for so long has hemmed him in.

No one will begrudge him his holiday. Everyone will wish him success with his horses, and full and carefree enjoyment of his recreation. But before he goes some definite, official statement should be made as to the present position of the Ontario power policy and the program for the future.

Mr. Beck has been the very head and front of the battle for the people's rights and with him abroad we will feel as if the captain had left the regiment.

It cannot be concealed that while Mr. Beck may take a holiday, still the enemies of the Ontario power policy never leave "the job." Is it possible that they may steal a march on him while he is away? Have they lured him or his friends into fancied security, even into suggesting that a trip abroad would do him good? How far has the game gone and too great are the stakes to have any misadventure upset the calculations of the people.

If Mr. Beck decides upon a holiday let an official statement regarding the power policy be made so that it may be anchored on the spot where it has arrived. Then let the people trust in providence and keep their powder dry.

"IAN MACLAREN."

By the death of Dr. John Watson, better known by his pseudonym of "Ian MacLaren," the world of letters loses an author whose creative work, limited in range, yet yet entitled him to an honorable niche in the temple of literary fame. Supercilious London critics had no difficulty in relegating him to the "Kailyard" school of fiction, for so they satirically named the band who after Barrie, found their inspiration in the life and character of Scottish peasants and villagers. But the response of the heart is a truer index to the quality of the written word than is the sneer of supercilious critics.

Dr. Watson was one of the discoverers of Dr. Robertson Nicol. Like many of his cloth he could be the life and soul of a social company, and it is said the observant editor of the British weekly urged him to commit to paper some of the stories and sketches which he had always in readiness. Certainly they first appeared in that periodical and made an instantaneous impression. "Ian MacLaren" attained in a day to wider fame and influence than had attended the career of the faithful Presbyterian minister. But the popularity of the author reacted on the reputation of the pastor and secured for the pulpit a full share of the honor won by the pen. If Dr. Watson ever had any scruple about identifying himself with the craft of the novelist, the result must

have convinced him there was no essential antagonism.

The dual personalities in the case of Dr. Watson were more closely interwoven than happened, for example, with Dr. Horatius Bonar, whose contrast between the dry Calvinistic theologian and the sweet evangelical hymnist was so marked that Mr. Moody once recommended him to put a little of his poetry into his sermons. But within the limitations of each medium what Dr. Watson was in his sermons and in his acknowledged volumes, "Jan MacLaren" was in his lyrics and stories. Both were charged with pathos and tenderness and illumined by flashes and plays of humor always genial and often very near to tears. Dr. Watson has passed too soon. It is one of the fateful ironies of life that the gain of a larger freedom is often quickly followed by the call from labor to rest.

Why this should be we may not understand, but we can at least find compensation in the remembrance that in his works Dr. Watson glorified the short and simple annals of the poor, and touched the deep chords of our common humanity, and in his life set a noble example of devotion to the highest ideals.

PROVIDE NIGHT PATROLS.

As one result of the burning of the steamer General Slocum off New York, the public demanded, and secured, inspection of excursion craft and installation of life-saving appliances of the most modern type.

The fatal calamity produced its aftermath of value, but the new regulations did not save one life of the many Slocum victims.

Chief Thompson of the fire department of this city, furnishes The World with a list of thirty buildings here, wherein at night no sentinel watches for the first flare of the fire that, starting in a habitacle filled with sleepers, may gain such headway as to make vain the most efficient effort directed to snatch human victims from its embrace.

It needs little gift of imagination to picture the scene in, say, the Infants' Home, in case a night fire, with its accompanying suffocating smoke, awakes the startled inmates. Few grown people are immune from "fire panic" in presence of the searing element. One such fire as the one hinted at would, naturally, result in all institutions being forced to maintain and detail night patrols to detect the first evidence of fire.

Why should officials wait until the dire event occurs? The city and county authorities should at once take steps to cooperate with Chief Thompson and institute not only an efficient night patrol, but fire-fighting appliances of the most approved type.

Failure to do so will be to court the adverse verdict of the public if the dreaded contingency occurs unprovided against.

IS THE CAPTAIN TAINTED?

Some days ago we called the attention of Captain Smith of The Weekly Sun to the fact that he had printed an article that accused at the avowed policy of his paper. We have waited long and with some patience, to hear from Captain Smith, but he is silent.

We believe that the article complained of was an unmarked advertisement. We know it was an atrocious example of "tainted news." A similar article came into The World Office thru the mails. It was enclosed in an envelope that bore the inscription—"If not delivered in 10 days, return to Grand Trunk Railway Passenger Department, General Ticket and Agents' Office, Montreal, Quebec."

Did Captain Smith get his article from the same source? If he did, surely as a professed guardian of the rights of the farmers of Ontario his suspicions were aroused. Most assuredly his suspicions were aroused. Then, were his suspicions allayed by a rate of so much per line? Is it possible that the captain in a moment of weakness deserted the ship of public rights?

We have no desire to embarrass the captain, but the people of Ontario desire to know if he is selling his news columns unmarked to the railway corporations. With the fight against public rights by the corporations growing keener day by day, the people of Ontario do not want their cherished traditions to blow hot and cold.

On the facts so far adduced Captain Smith is under suspicion of being the purveyor of "tainted news." With these few remarks, we leave the floor to the captain.

Two Noted Artists Dead.

NEW YORK, May 6.—The death of two noted artists was recorded today. Max Francis Klepper, artist and illustrator, died Sunday at his home in Fishkill. He was an avowed painter of note. George B. Butler, R.A., the portrait painter, died near Groton Falls, N.Y.

SWEET CAPORAL CIGARETTES STANDARD OF THE WORLD

A Platform For Greater Toronto

- (1) Take into the city all the Township of York, south of St. Clair Avenue. This to include Toronto Junction, North Toronto, East Toronto.
- (2) Complete the national railway from Toronto to Hudson Bay at the earliest date.
- (3) Centre the administration of the railway transportation of Ontario in Toronto, not Montreal.
- (4) Public ownership applied to the distribution of electrical energy for Toronto and all Ontario.

[The World will be glad to receive suggestions as to other planks for the development of Toronto and the province.]

A Law for the People That They Can't Enforce

In 1852 the parliament of the United Kingdom made a contract with the Grand Trunk Railway Company. This contract is in the form of an act of parliament (6 Vic., ch. 37). It constitutes the charter of the Grand Trunk Railway Company. By its terms the railway company receives a bounty of \$3000 per mile and many valuable franchises.

That portion of this act of parliament, being "law" of the company, and the contract between Canada and the company, reads as follows: "And the fare or charge for each first-class passenger by any train on the said railway shall not exceed two pence current for each mile traveled; the fare or charge for each second-class passenger shall not exceed one penny and one-half penny current for each mile traveled; and the fare or charge for each third-class passenger on any train on the said railway shall not exceed one penny current for each mile traveled, and that at least one train, having on it third-class carriages, shall run every day through the length of the line."

This provision was not drafted by the solicitor of the company for it closely followed the fare clause to be found in all the charters granted by the British parliament.

For more than 50 years the Grand Trunk Railway has ignored this part of its contract, and has utterly refused to render any penny-a-mile passenger service. It may be said that long time the government of Canada did not know the contents of this charter, but it was brought to the attention of parliament by W. F. MacLaren (South York) on Sept. 13, 1897. He asked the government of the day whether this contract and charter was still in force or whether it had been repealed. Mr. Fielding, who answered for the government, asked for further time. Four days later, upon enquiry being renewed, the government still expressed itself as unwilling or unable to immediately answer the question.

From time to time since then, the attention of the Dominion government has been called to this provision in the charter of the G. T. R., and to the fact that the company was ignoring the same and paying no attention whatever to it. The matter was brought up in the house of commons in 1906, but without eliciting any reply from the government, but on Jan. 16, 1907, the member for South York again called the attention of the government to the refusal of the railway company to enforce this contract and charter was still in force or whether it had been repealed. Mr. Fielding, who answered for the government, asked for further time. Four days later, upon enquiry being renewed, the government still expressed itself as unwilling or unable to immediately answer the question.

It may be said that the Grand Trunk Railway was given a charter, 50 years ago, and the conditions were that the company should carry passengers for two cents a mile, and provide a third-class car. He says that the question of the railway company's liability for the loss of goods is not the subject of the present article. He says that the railway company is not bound to enforce the law. He says that the railway company is not bound to enforce the law. He says that the railway company is not bound to enforce the law.

It is the policy of the new party to see to the enforcement of the laws against murder and petty larceny, but it has not been the policy of the old party to see to the enforcement of the laws against the railway company.

It is the policy of the new party to see to the enforcement of the laws against the railway company. PLANK COMES TOO LATE EAST TORONTO IS TOLD

Deputation Suggests New Tunnel Route for Railways, But Controllers Decline to Consider It.

CITY HALL TO-DAY. 11 a.m.—Board of Control.

A deputation from East Toronto, made up of Mayor Ross, John London, W. Greenwood Brown, A. M. Sinclair and D. Miller, waited on the board of control yesterday to ask that the city appoint engineers to report on a new tunnel route for an eastern entrance into the city. It was claimed that the route proposed would be more direct than any of those already reported upon.

The view of the deputation was that the government would not agree to the tunnel route proposed by Engineer C. B. Smith, while it was held that the city's alternative route, No. 2, would greatly damage East Toronto.

The mayor emphatically explained that it was too late for the city to undertake further surveys. A public meeting to discuss the question of routes would be held on Thursday afternoon at 3 o'clock in the city hall, he pointed out, adding that the city would try to obtain an adjournment from May 15 of the hearing before the acting-minister of railways and canals.

Exhibition Car Service. A new plan for a street railway entrance to the exhibition grounds was unfolded by Controller Hubbard. The proposition, which the controller said, is approved by Manager Orr, is to build a tunnel under the Grand Trunk tracks from the main road leading thru the grounds to the ariary building. A large row of platforms would extend north of the tracks, each platform being designed to accommodate passengers for a particular car line.

It was suggested that the new street railway loop could run east from Dufferin-street north of the tracks, turning north to King-street by way of Motat-street, Jefferson-street, or Fraser-avenue. Such an undertaking, it was claimed, would be expensive.

Art Guild Ask Grant. A deputation from the Guild of Civic Art, made up of W. A. Langton, J. P. Murray and W. Ford Ewbank, waited on the board of control yesterday to ask that the city grant a loan towards the cost of a report on a plan for diagonal streets and cars for the city, at a cost of \$5000. The draughtsman engaged by the guild has already arrived in the city from England.

Consideration was promised. The hope that springs eternal was responsible for a revival before the city legislature committee yesterday of the Yonge-street bridge matter. Aid. Bengough's suggestion was that the Dominion railway commission should be asked to decide the question of the respective liability of the city and the railway provided the latter were willing to abide by the arrangement.

The board of control with a favorable recommendation. No Theatre Censor. The practice of theatre censorship has practically been given a six months' hoist.

Ald. J. J. Graham, the author of the idea announced that Dr. Chown, who is going on a trip thru the United States and Great Britain, would look into the theatre ordinances in force in the cities visited, and would make written reports.

Engineers Coming. The stationary engineers of America will meet at Toronto on the 10th and 11th of the month. The convention will be held at Niagara Falls. The committee decided to receive the visitors at the city hall, and to entertain them to a car ride about the city.

The delegates to the convention of the American Waterworks Association will meet at Toronto on the 10th and 11th of the month. The convention will be held at Niagara Falls. The committee decided to receive the visitors at the city hall, and to entertain them to a car ride about the city.

R.C.Y.C. Makes Complaint. A deputation from the Royal Canadian Yacht Club appeared before the board of control yesterday to complain that the lagoon behind the club house was in a foul state, and to ask the dredging be carried out. The committee will pay a visit of inspection.

A concrete sidewalk from the ferry company's dock at Hanlan's Point to the present concrete walk extending south along the lakefront, was recommended. The cost will be \$2600 of which the company will bear \$500.

WOODSTOCK, May 6.—(Special.)—R. F. Parkinson, advertising manager of The Sentinel, has accepted the position of advertising manager of The Montreal Witness publications, and leaves for his new post on the 1st of June.

Mr. Parkinson is one of the brightest young men in Western Ontario, has a host of friends, and his future is bright with the halo of success.

Change Their Representative. OTTAWA, May 6.—The G.T.R. man who has asked the department to labor to appoint J. G. O'Donoghue of Toronto, instead of A. H. Champion, as their representative on the committee to be appointed to enquire into the differences between the company and their shareholders.

Mr. O'Donoghue is a prominent business man and has been appointed as a witness before the board as a witness.

Low Price on Trousers

A price for strong tweed trousers calculated to cause brisk eight o'clock choosing-to-morrow morning. Just heavy enough for present wear.

Dark patterns, well tailored and properly trimmed, sizes 31 to 40.

Your choice, Wednesday, \$1.13 a pair.

MAIN FLOOR—QUEEN STREET THE T. EATON CO. LIMITED

TO OBTAIN COMPLETE EFFECTS IN THE DECORATION

of a room it is necessary to have the whole treatment directed by one expert mind. That is our plan and our equipment in all lines of house decoration enables us to do it very reasonably.

ELLIOTT & SON, Limited, 79 King St. W., Toronto

AT OSGOOD HALL ANNOUNCEMENTS FOR TUESDAY.

Chambers. Cartwright, master, at 11 a.m. Judges' Chambers. The Hon. Mr. Justice Britton at 11 a.m.

Toronto Non-Jury Sitings. Peremptory list before the Hon. Mr. Justice Chute at 10:30 a.m.: McCartney v. Cook; Farry Sound Lumber v. Planner; Brand v. Running; Weatherup v. Mellwain; Jordan v. Williams; Solway v. G.T.R. Co.

Divisional Court. Peremptory list for 11 a.m.: Fort Pope B. & N. Co. v. Cavanaugh; Copeland v. Business Systems; Morrey v. Funsten; Hutton v. Eaton; Re Dunlop and Millard.

Court of Appeal. Peremptory list for 11 a.m.: Brenner v. Toronto Railway Co.; Beck Manufacturing Co. v. Valin; Caran v. Wignall; McMartin v. Chisholm; Kinsey and Harris v. London Street Railway Co.; Cavanaugh v. Glendenning for Wednesday.

Drew a Cheque. The Trusts and Guarantee Co. have issued a writ against Howard C. Dunbar of Halleybury as drawer of a certain cheque for \$800 drawn on the Bank of Ottawa in favor of the Cobalt Nepean Syndicate and endorsed to the plaintiffs.

Hon. G. T. Fulford's Will. The Toronto General Trusts Corporation, executors of the will of the Hon. George T. Fulford, deceased, have begun an action against Dorothy Fulford Hardy, Martha Fulford Sherriff, George Taylor Fulford, Arthur Sherriff Hardy, and Mary Fulford Hardy, the last three being infants, for the construction of certain parts of the will of the late Mr. Fulford and for a declaration of the validity of the construction of income or dividends arising from certain assets.

Mr. Chatterton's Appeal Dismissed. In the action of Copeland, against Business Systems upon an application by Business Systems to Master-in-Chambers for an order of appointment of an officer of the company, to attend again at his own expense for examination for discovery, judgment has been given by the Master-in-Chambers in favor of the defendants.

John D. Fennell has begun an action against Maria A. Webber, Alice Webber, Charles E. Webber, Anna Webber and Alexander Moore Hamilton, claiming \$10,000 damages against the defendants for alienating the affections of the plaintiff's wife, Alice Hamilton, and to remove defendant, Alexander Moore Hamilton, from the position of executor of the will of James Hamilton, dated March 14, 1888.

Many Undertakings. In 1904 Dr. Adams of Embro was largely interested in commercial undertakings, holding capital stock to the extent of nearly \$200,000, and also being interested in an automobile factory, a flax mill, cider mill and vinegar manufactory, besides being possessed of real estate in the County of Oxford. By reason of his various undertakings he became in straitened circumstances and made an assignment to John MacKay, a Toronto accountant. At a meeting of the creditors James Munro, a private banker of Embro, E. B. Ryckman of Toronto, and H. P. MacMahon, bank manager of Woodstock, were appointed inspectors. In August last an action was begun by Adams against the assignees, and inspectors to have an account of their dealings with his estate, and for the repayment to him of certain moneys alleged to have been wrongfully and fraudulently retained.

Change Their Representative. OTTAWA, May 6.—The G.T.R. man who has asked the department to labor to appoint J. G. O'Donoghue of Toronto, instead of A. H. Champion, as their representative on the committee to be appointed to enquire into the differences between the company and their shareholders.

Mr. O'Donoghue is a prominent business man and has been appointed as a witness before the board as a witness.

70 CARS AT JUNCTION TRADE WAS FAIRLY GOOD

Exporters in Better Demand-Butchers Firm at Steady Prices-Hogs 10c Higher.

Receipts of live stock at the Union Stock Yards were 70 car loads, composed of 1534 sheep and 32 calves.

The quality of fat cattle was generally good. Trade was better than for the past two weeks, all offerings being bought up by noon.

Exporters. Prices ranged from \$3.40 to \$3.40, the bulk being around \$3.15 to \$3.25. Export bulls sold at \$4 to \$4.30 for best quality, and \$3.50 to \$3.85 for light.

Best quality of butchers' cattle sold at \$4.10 to \$5.25; medium, \$4.15 to \$4.65; light, medium, and common, \$4.40 to \$4.65; cows, \$3.50 to \$4.45 per cwt.

Milch Cows. A few milch cows sold at a wide range, \$1.70 to \$7, but only one brought the latter price.

Sheep and Lambs. Exporters are worth from \$6 to \$6.70; rams, \$5 to \$5.50; yearling lambs, \$7 to \$8 per cwt.; spring lambs, \$4 to \$5 each.

Hogs. H. P. Kennedy reports \$6.50 per cwt. for select, and \$6.25 for lights.

Representative Sales. Wm. Leveck bought 17 car loads of fat cattle. The prices paid by Mr. Leveck were the same as those given above, which are his quotations for the market for fat cattle.

Maybe, Wilson & Hall sold: 25 exporters, 1500 lbs. each, at \$5.40 per cwt.; 9 exporters, 1500 lbs. each, at \$5.25; 14 exporters, 1500 lbs. each, at \$5.15; 1 export, 1500 lbs. each, at \$5.10; 2 butchers, 900 lbs. each, at \$4.85; 2 butchers, 1070 lbs. each, at \$4.85; 24 butchers, 1080 lbs. each, at \$4.75; 12 butchers, 1100 lbs. each, at \$4.85; 4 butchers, 1070 lbs. each, at \$4.75; 17 butchers, 1010 lbs. each, at \$4.70; 4 butchers, 1150 lbs. each, at \$4.55; 1 milch cow, \$40.

McDonald & Mayhew sold: 21 exporters, 1500 lbs. each, at \$5.15 per cwt.; 16 exporters, 1200 lbs. each, at \$5.20; 6 exporters, 1500 lbs. each, at \$5.40; 15 exporters, 1200 lbs. each, at \$5.10; 110 lbs. each, at \$5.10; 13 butchers, 1080 lbs. each, at \$4.80; 13 butchers, 1180 lbs. each, at \$4.85; 12 butchers, 1100 lbs. each, at \$4.85; 10 butchers, 1250 lbs. each, at \$4.85; 17 butchers, 1000 lbs. each, at \$4.85; 17 butchers, 1120 lbs. each, at \$4.75; 17 butchers, 1100 lbs. each, at \$4.75; 10 butchers, 1040 lbs. each, at \$4.70; 2 butchers, 940 lbs. each, at \$4.70.

George Dunn bought 3 loads of exporters, 1800 lbs. each, at \$5.25 to \$5.40. O'Leary sold on commission: 1 load butchers, 1050 lbs. each, at \$4.80 per cwt.; 1000 lbs. each, at \$5.00 to \$5.25; 8 cows, 1200 to 1700 lbs. each, at \$3.75 to \$4.25.

B. J. Collins sold: 14 exporters, 1500 lbs. each, at \$5.25 per cwt.; 9 exporters, 1200 lbs. each, at \$5.35; 1 load butchers, 500 to 1100 lbs. each, at \$3.60 to \$5.25; 8 cows, 1100 lbs. each, at \$4.25 to \$4.85; 1 load butchers, 900 lbs. each, at \$4.85; 1 load butchers, 900 lbs. each, at \$4.85.

Fred Rowntree bought: 50 fat cattle, 1000 to 1100 lbs. each, at \$4.75 to \$5.15; 1000 lbs. each, at \$4.75 to \$5.15; 6 butcher bulls, 1000 to 1400 lbs. each, at \$3.75 to \$4.75; 4 milch cows, at \$35 to \$70 each.

The Union Stock Yards Company at Toronto Junction have issued a comparative statement for the first four months of the years 1906 and 1907, which will certainly be pleasing to the directors and shareholders, showing as it does, an increase of 13,728 head:

Table with columns for Cattle, Sheep, Hogs, and Horses, showing 1906 and 1907 figures and percentage increase.

This shows a total gain of 13,728 head, but an increase in every class except that of horses. There are many different prices being paid in the country for hogs, according to drovers' reports. At Rockwood \$6.40, Galt \$6.25, Fern \$6.25, Guelph \$6.25, Hillborough \$6.25, Alliston \$6.10, Orton \$6.10, 8 cows, \$6.10, Moorefield \$6.25, and Gorrle \$6.95.

The best load of butchers' cattle averaging 1100 lbs. each, were brought on the market by James H. Parris and sold for \$5.25. C. H. Waller, St. Lawrence Market, sold these cattle were of the Hereford breed, and were certainly one of the best, the driver, and the butcher, he brought them. The price at which they were sold was not made known.

British Markets. The World received a special cable from W. B. Newton, wholesale cattle dealer, Glasgow, Scotland, as follows: Canadian steers, 13c; bulls, 10c.

The World also received a special cable from P. B. Rowley, for the London, Liverpool, Bristol and Manchester, who reports cattle prices as follows: American steers, 12c; Canadian steers, 12c; cows, 11c; bulls, 10c.

A STUDY IN PIGS.

J. B. Spencer of Ottawa Edits a Short History of Canada's Breeds.

An instructive pamphlet devoted to breeds of swine has been issued from Ottawa as Bulletin No. 11 of the Live stock branch. It deals with the history, characteristics and points of excellence of the six principal breeds reared in Canada. Commencing with a review of the origin of domestic swine, the bulletin teaches that the many varieties that are found in various parts of the world are all descended from one original stock of wild hogs. The variations that were effected by domestication upon the progenitors of our present breeds are followed out briefly. It is pointed out that confinement along with an ample supply of food soon effected great and lasting changes in conformation, disposition and aptitudes of the animals. With these changes there came about a breeding to type and color in various localities as suited the requirements and desires of the hog raisers, resulting in the course of time in the establishment of the present pure breeds. The author of the bulletin has given a separate classification at English shows. Among the chief classifications of the Yorkshire of the present day are its docility, vigor, muscular development and its excellent crossing qualities. They are said to be early maturing, reaching with good care a marketable condition, weighing from 180 to 220 pounds at six to seven months old.

The Tamworth, which is also described as belonging to the large breeds, is traced from about 1815, when it is said to have been introduced into England from Ireland by Sir Robert Peel. The author of the bulletin claims that this breed is purer than any of the others inasmuch as its improvement has been brought about almost entirely by selection of animals within the breed itself. It is stated to have received little attention outside of the Counties of Leicestershire, Staffordshire and Northamptonshire until about 1870, when the bacon curers of England commenced a campaign against the then fashionable short fat breed, and introduced pig, which they found quite unsuitable for bacon production. The Tamworth then came into prominence as an improver of some of the other English breeds. It seems to have maintained from the first its disposition to put on lean meat during its growth.

The Berkshire is stated to have assumed a fairly uniform and desirable type about the year 1825. It was at that time a fine appearing animal, very sturdy of good size and length, yet without coarseness. Unfortunately, owing to a fashion which prevailed some years afterwards, the Berkshire was developed on into a thick, short animal with heavy jaw, thick neck and fat back. Later this style of hog became unpopular and the attention was again given to developing greater length, symmetry and fleshiness. As now found the Berkshire exhibits desirable qualifications as a packer's animal. The history of the Chester-White is extremely interesting. It is said to trace back to a pair of white hogs imported into Chester County, Pa., from England in 1818. This importation made a marked change in the swine of the district with the result that the Chester-White rapidly grew in favor. In the early years it was a fairly lengthy type of hog, but for many years past it has been classed as a corn belt hog of the thick-backed sort. A few breeders in Canada, the bulletin states, have sought by selection and management to develop the form and quality of the animal looked upon with favor by the packers and to some extent they have been successful.

The Poland-China and Duroc-Jersey have during the past ten years grown less and less popular in Canada, according to the author of the bulletin. In 1906 only eight members of the Dominion Swine Breeders' Association bred Poland-Chinas and three bred Duroc-Jerseys. With the description of each breed is published a scale of points by which, with the illustrations of typical animals, a valuable service is afforded in teaching the correct ideals to be looked for in selecting breeding animals. The author of the bulletin is Mr. J. B. Spencer, B. S. A., who has in this work presented a systematic study of swine that should be highly appreciated not only by students of animal husbandry but by swine raisers in all parts of Canada. Copies of the bulletin are obtainable by applying to the live stock commissioner at Ottawa.

THE HOLSTEIN SALE. Barney & Kelly, the noted auctioneers of Syracuse, N.Y., are to sell at Brockville, on May 23, a choice lot of Holsteins. Mr. Gilroy writes to The World as follows: We are consigning about twenty head of richly-bred animals, nearly all heavy, some A.R.O. breeding. Of the four 20-lb. A.R.O. cows to be sold, we are furnishing a trio of them, Carmen Sylvia IV, a young six-year-old cow, in her recent official test made 20.87 lbs. butter in seven days. She is a daughter of our great cow Carmen Sylvia, the one that has figured so prominently in the milk tests at Toronto and Ottawa exhibitions. I believe this young cow can greatly increase her record another season. Another good young five-year-old cow is Aeggie Grace Manor Josephine, with 619 lbs. milk and 20.83 lbs. butter in seven days. Her dam has over a 20 lb. butter record, made as a three-year-old, while her sire's dam has a 23 1/2-lb. record. Trace this cow's pedigree up when you get a catalogue and find another equally as well-bred. Our third 20-lb. cow was our show cow this past season. After being in milk since May, making five official tests, she was taken out with such bunch to compete against fresh calved cows and try and acid more laurels to her credit. They found her able to do, as she won the third aged cow class at Toronto, first and sweepstake female at Ottawa, and was a member of our gold medal band there. Surely these are the kind of cows we all like, capable of making official records better than 20 lbs. of butter per week, not every day, but to have the privilege to buy these kind. A young heifer worthy of special mention is Inka Sylvia IV. She will be two years old in June, but is already fresh and has given, over 40 lbs. milk per day. This is once where you can say "blood will tell," as her two grand dams average 89 lbs. milk per day, and about 24 lbs. butter each for seven days, official test! Better come and secure her and get started right. Now about the bulls, we are putting up a two-year-old grandson of Aeggie Chippewa Paula, the great world record holder with her A.R.O. record of over 34 lbs. butter in seven days. A half-brother to this bull sold this past winter for \$1000.00. His calf in seven days are coming fine. We also have a year-old, sired by Sir Alastair Porch Bull, a Englishment Canary ten-months-old chap, and last but not least is the January calf from Inka Sylvia Deko, that made 14 her recent official test 60.75 lbs. milk, and 20.04 lbs. butter in seven days. Her dam, Inka Sylvia, made 81.2 lbs. milk per day, and 21.95 lbs. butter in seven days, as a three-year-old. Her cow with her Aeggie Sylvia, old, after returning from the fair circuit after three months in milk, made 79 lbs. milk per day and 19.22 lbs. butter in seven days. Pretty hard to find a better backed-up calf for three generations than this one. With cheese and butter at present prices, why not own cows that will yield 12,000 to 15,000 lbs. milk annually? You can secure them at this sale. It is our intention to make this an annual event, and the sale will be reserve or by bidding. Terms of sale: Cash or bankable paper at six months interest. Catalogue ready May 10. The sale will be at the Central Hotel, Brockville, where we will be pleased to meet all lovers of Holsteins the night prior to the sale. Don't forget the date-Thursday, May 23, at Brockville.

INSPECTING STOCK YARDS. CHICAGO, Ill., May 6.-United States Secretary, James Wilson, in an address delivered here on July 1, 1906, there were engaged in meat inspection at 183 establishments 764 employees. There are now 2204 employees at 669 establishments.

THE TRED SPRING FEELINGS

Are Due to the Thin, Watery Condition of the Blood and Consequent Lack of Nerve Force, Vigor and Energy.

"Why should there be tired feelings in the Spring more than at any other season of the year?" This question comes to your mind when you feel scarcely able to drag yourself about to attend to the necessary work of the day, and for an answer you must look to the condition of the blood. So much, after all, depends on the quality of the blood in the human system. In the spring the blood is almost sure to be thin and watery. The result is a starved condition of the nervous system and derangements of the vital organs of the body. The heart's action is weak, digestion is impaired, the filtering process is carried on by the liver and kidneys in an indifferent way, the excretory organs are slow in removing the poisonous waste from the body, and hence the pains and aches, the sleeplessness and irritability, the depressed spirits and tired, languid feelings of spring.

To overcome this run-down and worn-out condition of body and mind restorative treatment such as is found in Dr. Chase's Nerve Food is absolutely necessary.

Not only is such treatment necessary for your comfort and happiness, but because in such a run-down condition you stand a ready prey to all forms of germ diseases.

In the spring the very air is filled with germs which lurk in myriads wherever winter refuse has been left to thaw and ferment, and the only resistance against disease germs is good, red blood.

Dr. Chase's Nerve Food is above all else a builder of good, red blood, and hence a restorative of the very highest class. For this reason its effects on the system are of substantial and lasting benefit. Gradually and certainly it forms new, firm flesh and tissue, puts new vigor and energy into the nervous system, improves digestion and restores health and strength.

Note your increase in weight while using this great food cure

Dr. Chase's Nerve Food

The greatest of blood builders and spring restoratives, 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

DR. CHASE'S OINTMENT As a means of beautifying the skin and curing pimples, blackheads and all kinds of skin irritations and eruptions, Dr. Chase's Ointment has proven its right to a place in every home. 60 cents a box, at all dealers.

DR. CHASE'S OINTMENT As a means of beautifying the skin and curing pimples, blackheads and all kinds of skin irritations and eruptions, Dr. Chase's Ointment has proven its right to a place in every home. 60 cents a box, at all dealers.

Dr. Chase's Nerve Food is above all else a builder of good, red blood, and hence a restorative of the very highest class. For this reason its effects on the system are of substantial and lasting benefit. Gradually and certainly it forms new, firm flesh and tissue, puts new vigor and energy into the nervous system, improves digestion and restores health and strength.

Not only is such treatment necessary for your comfort and happiness, but because in such a run-down condition you stand a ready prey to all forms of germ diseases.

CANADIANS IN GOTHAM TO HOLD BIG BANQUET

Prominent Speakers of U.S. and Canada to Give Addresses on Timely Topics.

NEW YORK, May 6.—(Special.)—A Canadian invasion of New York City is scheduled for Thursday, May 9, when the Canadian Club of New York will give its annual banquet in the big ball-room of the Hotel Astor. The club has arranged to entertain a number of distinguished guests from the Dominion, and is prepared to welcome scores of visitors from the various cities across the line.

The banquet, which is the last of the big social gatherings in New York this spring, will be distinctly international affair. Three countries will be represented by distinguished speakers. Delegates are coming from the Dominion, four by representatives of the United States, and the other by a guest from England. Donald MacMaster, K.C., one of the most brilliant orators in the kingdom, and formerly of Montreal, Que.

Lessie M. Shaw, former secretary of the U. S. Treasury, will make the principal speech, his subject being "Reciprocity." The banquet is to be the biggest ever given by the Canadian Club, and one of the most important which New York has had during the year. Delegates are coming from various Canadian Clubs in the Dominion, and a large number of reservations are being made for individuals who are sending applications.

The full list of speakers with their subjects follows: Neil Macphatter, D.D., president Canadian Club, New York; "The Progress of Liberty." Leslie M. Shaw, former secretary of the treasury of the United States; "Reciprocity." Hon. R. F. Sutherland, Speaker of Canadian house of commons; "Development of the Canadian Northwest." Hon. R. Lemieux, postmaster-general of Canada; "Canada, Britain's Greatest Colony." Rev. Dr. S. Parks Cadman, Central Congregational Church, Brooklyn; "Imperial Instinct." Hugh J. Guthrie, member Canadian house of commons; "Progress of Canada."

Treasures Found in Our American Forests.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers of this and other countries. Even the untold Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day, we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce, of Buffalo, N. Y., believes that our American forests abound in medicinal roots for the cure of most obstinate and fatal diseases. If we would properly investigate them, and, in confirmation of this conviction, he points with pride to the most marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action.

The reason why "Golden Medical Discovery" cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., at all sending request for it in sealing. To aid in healing old sores, or ulcers, apply Dr. Pierce's All-Healing Salve to them while taking the "Golden Medical Discovery" to purify and enrich the blood. Dr. Pierce's All-Healing Salve is cleansing and pain reliever, and drives out the bad odors arising from suppurating, or running, sores and puts them in the best possible condition for healing.

The "All-Healing Salve" is a superior dressing for all open, running, or suppurating, Sores or Ulcers. For healing open wounds, cuts and scratches it is unsurpassed. If your medicine dealer does not have the "All-Healing Salve" in stock mail 50 cents in postage stamps to Dr. R. V. Pierce, Buffalo, N. Y., and you will receive it by return post.

In treating all open sores, or ulcers, boils, carbuncles and other swellings, it is important that Dr. Pierce's Golden Medical Discovery be taken persistently to purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scarlet flowers of disease, with roots running down into the blood. These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter, and thus purifies the entire life current. The process employed in their manufacture were original with Dr. Pierce, and they are carried on by skillful chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native medicinal plants. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skillful chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose.

Both medicines are entirely free from alcohol and all other harmful habit-forming drugs. A full list of their ingredients is printed on each bottle wrapper.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

SAUTERNE MANY SLEEP, FIRE BURKS

True test of the vintner's skill and of his honesty... a Sauterne like this S & S brand. Deliciously dry, without astringency, full-flavored, yet delicate.

CLARET

Claret at its best, this S & S Claret, is the claret of our forebears. Perfectly ripened, thoroughly aged, a dinnerwine that cannot but please the critical.

BURGUNDY

Rich as rich port, delicate as champagne, the very essence of the perfect grape, that is a good Burgundy, S & S is a good Burgundy, indeed.

Your dealer can supply these really excellent wines, ask for S & S, look for the name on the label, as thus:

Made and Bottled in France by Schröder & Schyler & Cie of Bordeaux

Established 1739 Imported direct by D. O. ROBLIN of Toronto

CHILD LABOR BILL PASSED.

Governor Hughes Gives His Approval to It.

ALBANY, N. Y., May 6.—Governor Hughes has approved the Page Child Labor Bill, desired by the child labor committees and the Consumers' League and embodying recommendations made in his own first message to the legislature. It provides that no minor under 16 years of age shall be employed or permitted to work in any factory in this state before 8 a.m. or after 5 p.m., or more than eight hours in any one day. The act will not take effect until Jan. 1, 1908.

HAVE LATEST WRINKLES IN NEW C.P.R. OFFICES

G. B. Foster Installs Pneumatic Tube Cash System—City Receipts Foot Up \$1,000,000 a Year.

By the expenditure of some \$15,000, some side trips over the line for the latest wrinkles, and the expenditure of a good deal of careful planning on the part of G. B. Foster, district passenger agent, the C.P.R. has evolved at the new ticket-office system to carry cash receipts over the line.

It will be several weeks yet before the last touch is given and the job completed, but already the place has undergone a surprising transformation. The former cramped quarters on the first and second floors have been stretched out until today they are airy and bright and decorated in modern style.

While he was in Chicago, Mr. Foster noted that one or two of the roads there had installed a pneumatic tube ticket system. The scheme worked so well that he has gone a step further, and has had installed an elaborate pneumatic tube system to carry cash receipts over the line.

The following institutions, the department states, are known to be with out night patrols, besides many smaller ones, which may not as yet have come under the notice of the fire department: The List.

- Haverhill College. St. Joseph's Convent. Glen Mawr Boarding School. Refuge for Girls, Belmont-street. Oakham Home for Boys, Corner Gould and Church-streets. Infants' Home, St. Mary's-street. Bishop Strachan School, College-street. Precious Blood Convent, St. Joseph-street. Y. W. C. A., Elm-street. St. Michael's College, St. Joseph-street. Margaret's College, West Bloor-street. Annesley Hall, Queen's Park. Wynellie College, Queen's Park. Westminster College, West Bloor-street. Montreal College for Ladies, 34 East Bloor-street. Loretto Academy, corner Bond-street and Wilton-avenue. McMaster Hall, West Bloor-street. St. Hilda's Convent, West Bloor-street. Protestant Orphan's Home. Sunnyside Orphanage. Monastery of Our Lady of Charity, West Bloor-avenue. Loretto Abbey, Wellington-street. Victoria College, Queen's Park. Boy's Home, George-street. House of Providence, where sleeping car diagrams may be seen. From this passage-way leads into the city passenger agent's office, presided over by Walker Maughan, city passenger agent of the rail department.

A 25-foot counter is to be devoted to the Atlantic steamship service department, and Mr. S. J. Sharp, at present doing the same business at No. 80 Yonge-street, will have charge of the new ticket-office, and rows of waiting desks will be provided by the provision of a large, roomy table and six revolving chairs, so that the passenger may sit for an hour if they wish, with plans in front of them, observing their booking and their stations.

As the ticket receipts for the city office have more than doubled this year, it is apparent that the pneumatic system will be hard-worked.

Expanded south of the main ticket counter is a four-foot booth furnished with upper lake steamship diagrams, fenced off with an ornate iron grill. Next to this is a 10-foot counter, where sleeping car diagrams may be seen. From this passage-way leads into the city passenger agent's office, presided over by Walker Maughan, city passenger agent of the rail department.

COBALT --- Green-Meehan a Good Mine, But Holders Are Not Satisfied --- COBALT

TRADING PROFESSIONAL CHANGES ARE NARROW

Very Little Public Participation in the Mining Markets at Present.

World Office, Monday Evening, May 6. There was no novelty in the local mining markets to-day, the dealings being as highly professional as they have been in the immediate past. Actual transactions outside the floors of the exchange were very small, the public forming a very small part in the day's proceedings. Prices were irregular, but the declines were not sufficient to warrant the opinion that the markets were weak. The standard shares maintained their prices practically without change. The offerings of Silver Queen were fewer, but in Foster and Trethewey there was a limited amount of stock in the market. The dealings in Silver Leaf comprised most of the business on the Standard Exchange, but most of the transactions were regarded as the result of pure manipulation. Prices for the present are largely in the hands of professional traders and no distinct change is expected until sentiment turns much more strongly bullish than it now is.

New York Curb. R. R. Bonanza reports the following closing prices and transactions on the New York curb: ...

LARDER LAKE

NOW 10c PER SHARE BEFORE THE BIG ADVANCE AFTER MAY 15TH 50c PER SHARE

SPECIAL REGARDING LARDER LAKE

We are ready to stake our reputation and standing, both present and future, also our money, on the present conditions of Larder Lake as to its being a wonderful Gold Field in every sense of the word. We are very cautious as to what we recommend for investment. We have many propositions presented to us that do not come up to our requirements.

We have gone to a great deal of expense in ascertaining the true merits and real condition of the Blue Bell properties at Larder Lake. In order to satisfy ourselves beyond question we dispatched three different crews of men to make examinations. They were supplied with dynamite to blow out the ore at various localities of the Blue Bell properties and ship direct to us. Neither of the crews knew or were aware of the others being in the field. We have received ore and reports from each crew. We have received hundreds of pounds of ore and can say we are astonished at the results.

There is not a single piece, from the size of a hickory nut to the largest piece, weighing two pounds, that does not contain free visible Gold that will assay anywhere from Two Hundred Dollars (\$200) to Twenty Thousand Dollars (\$20,000) to the ton; these are facts which we can verify if required.

Men with large quantities of materials are now on the ground establishing camps for the Blue Bell Company. There will be no time lost in installing Stamp Mills. We cannot here take space to tell all the pains and expenses we have gone to in order to satisfy ourselves as to the real merits of the Blue Bell properties in order that we would not mislead the investing public in misplacing their investments.

We are satisfied beyond question as to the Blue Bell properties and can recommend without reservation investments therein. We believe that the memberships consisting of 1,000 shares, which

can be purchased to-day for One Hundred Dollars (\$100), will be worth in one year Two Thousand Dollars (\$2,000) each.

We strongly urge the immediate purchase of these memberships; we are willing to stake our reputation and standing on this proposition; we are placing our own funds in it, and have no fear of the ultimate results.

The rate at which these memberships are being taken exceeds our most sanguine expectations. We appreciate the confidence the investing public place in our recommendations. We pledge loyalty to every client and the near future will demonstrate that their confidence has not been misplaced.

To all our clients and friends we desire to impress upon them this fact: Larder Lake will undoubtedly be one of the greatest, if not the greatest, Gold Districts in the world. We have taken every precaution and have made thorough and systematic investigations and can say that the Blue Bell is the opportunity of a lifetime.

Buy Now

before the big advance. On or about May the fifteenth Blue Bell shares will be advanced to 50 cents per share. They can be purchased now in our Syndicate Pool in 1,000-share lots at 10 cents per share, requiring an investment of \$100. On or about May 15th (this month) the market value of 1,000 shares of Blue Bell will be \$500. This is a profit of 400 per cent. We are of the firm belief that within one year 1,000 shares of Blue Bell will be worth \$2,000. Blue Bell consists of 28 40-acre gold claims (one 40-acre claim having been recently purchased near the Reddick property), 1,120 acres in all. Fully paid for. No indebtedness. Blue Bell shares have no personal liability and are forever non-assessable. Men are now on the Blue Bell properties establishing camps and preparing for the stamp mills. Blue Bell will be sending out gold this summer. Now is the time to buy—before the advance—at bottom prices.

Full particulars, also Application Blanks, mailed free to any address.

Call upon or address: BLUE BELL WILL MAKE YOU RICH

RISE IN WHEAT PRICES DEPRESSES WALL ST.

Stocks Are Weak on Crop Information—Pools Support Toronto Stocks on Occasions.

World Edition, Monday Evening, May 6. Trading on the Toronto Stock Exchange was exceedingly flat today. The market was a fair amount of business, but the face of the sales under current conditions would only make an appeal to a novice for acceptance. There were no changes in prices worth mentioning, except those in Dominion Bank. This stock was freely disposed of, but the support was satisfactory at around 205 and price held at that level. If today's sales were legitimate they would appear to have been the result of liquidating an estate account, as no ordinary investor would force stock out continuously on an unwilling market, unless obliged to. The transactions in the common were a mystery, but if the sales were genuine, the price would be drawn down, and the transactions were that the price revolved at each new sale. The up price as far as possible, and only dropped prices when actual liquidation was prevented. Market common being strongly tipped for a rise on account of an increase in the dividend to five per cent, but there appears to be no probability of this at going quotations. The market was dull at the close, and indicated nothing more than waiting for public assistance to get prices higher.

All Chalmers business booked in March nearly \$3,500,000.

Snow in northwest is holding spring wheat seedling back still further.

M. P. traffic continues to tax facilities.

Foreign houses believe new Atchafalaya dam will be very attractive abroad.

London believes it may get gold from New York and South America shortly.

Eleven roads for fourth week of April show average net increase of 23.92 per cent.

Paris cables predict an excellent authority that next November's installment of Rio Tinto dividend will be \$17.50, with \$10.00 in May following \$20, making \$37.50 for year.

Beloved Bank of England and Bank of France will again reduce discount rates to six per cent.

Bank of England today secured the gold arrivals, amounting to \$300,000.

Banks lost \$335,000 to sub-treasury since Friday.

Minneapolis—The City Rapid Transit Company has made major advance in wages, affecting all conductors and motormen. Men and women employees will benefit by several cents an hour. Fifteen hundred employees are benefited, and the advance is expected to strengthen the company's position with labor and the general public.

Reading is in good shape to advance materially any time it suits the pool. We continue to recommend the purchase of R.T. whenever soft. A. C. P. is very well bought by a strong pool on reactions. We would buy U. C. P. on reactions. Some things are reported held between 127 and 136 at present, and the continuation of the long side. St. Paul is supported around 145 at present, and is bought by pools on reactions. Pennsylvania is supported toward 123. Steel continues to be held between 36 and 39, with tips of a bullish character. Some houses are tipping Atchafalaya for a rise this week.

Financial.

The season is now approaching when crop news will become an important factor in business calculations. The season is ten days to two weeks late, and some industry is reported to be in a state of panic. The planting of the crops will not be completed until several weeks have come, and the chances for improvement are ample. It is altogether too soon for the crop-fallers to be taken seriously. Another good harvest will probably ensure another good business season, but it does not follow that one moderate or poor harvest would cause any very serious setback. Important as are the harvests, we are less dependent on them than formerly. Besides, it must be remembered that much of the nation's wealth derives from manufactures, and the development of natural resources, and the increase of population, and to one who tells the story of the world, this gain will carry us. Indications do not point to a runaway market, but a good trading one. The improved market, however, is against any serious decline, and for the time being operations on the bull side are likely to be more popular than those on the reverse.—Henry Clews.

Reading continues about the strongest feature of the active list, with heavy buying. This stock is strongly tipped for considerably higher prices within a few days, and we would not be surprised to see a very sharp upward movement before the week is out. The strength in this issue is reflected in Baltimore and Ohio, which is being quietly accumulated. We advise the purchase of both these stocks when soft. The absence of selling pressure in Union Pacific this morning caused considerable apprehension among the shorts, who had to bid up to get the stock. Nothing has transpired to indicate the probability of early announcement of importance in connection with Union Pacific, but we still count on a rise in this stock. The market will result in handsome profits before long. Issuers are manipulating Union Pacific for the rise, and they have good reason to believe that they will fall to advance the stock 10 points at least from the present level.

Interest is credited to the accounts of depositors with this Corporation and compounded four times a year at

Railroad Earnings.

Col. Southern, 4th week April, \$15,000. C. & O., 4th week April, \$14,000. Soo, March, net, \$10,000. Toronto Ry., week ending May 4, \$9,565.

On Wall Street.

Charles Head & Co., R. R. Bondard: The stock market made a fair show of strength during the first hour of the session, aggressive manipulation in Union Pacific and Reading and improved weather conditions in the southwest helped to support the market. The two issues named advanced over a point each, and moderate gains were secured by most of the issues traded. However, the bulk of the activity, however, being confined to a few stocks. The timing element was also reported that a bear pool recently formed had commenced operations on the low points of the March rally, and that the market was being worked by the lowest of the market. The closing was dull and irregular at fractional recoveries from the lowest.

DOMINION IRON AND STEEL TO CONTROL COAL CO.

All Depends on Word of James Ross Upon His Arrival at Sydney—Directors Favorable.

MONTREAL, May 6.—(Special.)—If James Ross says the word upon his arrival at Sydney, the Dominion Iron and Steel Company will pass under the control of the Dominion Coal Company. The price to be paid for the steel common averages from forty to fifty dollars a share, and the Dominion Coal Company will receive the balance of the proceeds.

When Mr. R. B. Angus reached London a few days ago the whole question at issue between the two companies was discussed by Mr. Ross. The payment for the steel will be made by means of Coal Company stocks, and President Ross has cabled that he will go at once to Sydney upon hearing and give them an answer. The street here considers that the deal is as good as accepted.

It is some time since the Dominion Coal Company has been in the news. The company was organized in 1904, and since that time it has been engaged in the acquisition of coal lands in the Dominion. The company has a large amount of coal lands in the Dominion, and it is expected that it will be able to produce a large amount of coal in the near future.

The Dominion Coal Company is a subsidiary of the Dominion Iron and Steel Company. The company was organized in 1904, and since that time it has been engaged in the acquisition of coal lands in the Dominion. SHARP WHEAT ADVANCE
AT THE CHICAGO MARKET

Futures Rally Two Cents a Bushel
After a Steady Opening—
Cables Lower.

World Office,
 Monday Evening, May 6.
 Liverpool wheat futures closed today
 1/2 cent lower than Saturday, and corn futures
 1/4 cent lower.

At Chicago wheat closed 1 1/2¢ higher
 than Saturday; May corn 1/4¢ higher and
 May soy 1/4¢ lower.

Wheat—Chicago car lots wheat to-day 32¢ year
 crop.

Chicago car lots to-day: Wheat 33¢, corn
 24¢, soy 24¢, oats 20¢, 30¢, 30¢.

Northwest cars to-day 60¢, week ago 57¢,
 year ago 54¢.

Flour Prices.
 Flour—Manitoba, patent, \$3.85, track, To-
 ronto; Ontario, 90 cent, patent, \$2.75,
 bid for export; Manitoba patent, special
 brand, \$4.50; 2nd patent, \$4; standard
 brand, \$3.00.

Toronto Sugar Market.
 St. Lawrence sugar are quoted as fol-
 lows: Granulated, \$4.50 in barrels and No. 1
 patent, \$4.10 in barrels. These prices are
 for delivery here; car lots 10¢ less.

Winnipeg Wheat Market.
 Following were the closing quotations
 to-day on Winnipeg futures: Wheat—May,
 82 1/2¢ bid, July 85¢ bid, Oct. 86 1/2¢ bid,
 Oats—May 35¢ bid, July 35 1/2¢ bid.

Leading Wheat Markets.

City	May	July	Sept.
New York	83 1/2	85 1/2	87 1/2
Detroit	83 1/2	85 1/2	87 1/2
Toledo	84 1/2	86 1/2	88 1/2
St. Louis	84 1/2	86 1/2	88 1/2
Minneapolis	85 1/2	87 1/2	89 1/2

Chicago Markets.
 Marshall, Spader & Co. (J. G. Besty),
 King Edward Hotel, reported the follow-
 ing fluctuations on the Chicago Board of
 Trade:

Wheat—

Month	Open	High	Low	Close
May	81 1/2	83 1/2	81 1/2	82 1/2
July	83 1/2	85 1/2	83 1/2	84 1/2
Sept.	85 1/2	87 1/2	85 1/2	86 1/2
Dec.	89 1/2	91 1/2	89 1/2	90 1/2

Corn—

Month	Open	High	Low	Close
May	40	40 1/2	39 1/2	40 1/2
July	40 1/2	40 3/4	40 1/4	40 3/4
Sept.	40 1/2	40 3/4	40 1/4	40 3/4

Oats—

Month	Open	High	Low	Close
May	44 1/2	44 1/2	44 1/2	44 1/2
July	42 1/2	42 1/2	42 1/2	42 1/2
Sept.	43 1/2	43 1/2	43 1/2	43 1/2

Chicago Gossip.
 Marshall, Spader & Co. wired J. G. Besty
 at the close of the market that the public ad-
 vanced prices to-day 2 1/2¢ over the opening
 and caused the professionals who had sold
 wheat at the opening on account of lower
 cables and reports of rain in the southwest
 to cover about sales worth \$1,000,000.
 The wheat market was quiet, but the
 back their lines to-day. The offerings were
 entirely inadequate to meet the demand.
 Crop news southwest has been the worst
 of the crop year to date and from reliable
 sources it is feared that the Kansas
 authorities will issue a precautionary con-
 dition.

ST. LAWRENCE MARKET.
 Receipts of farm produce were 30 loads
 of hay, and 2 loads of straw.
 Hay—Thirty loads sold at \$14 to \$16 per
 ton for timothy and \$10 to \$11 for mixed.
 Straw—Two loads sold at \$13 per ton.
 Potatoes—Prices firm. J. J. Ryan,
 wholesale dealer, quotes car lots of N. B.
 Delaware at \$1 to \$1.10 per bag on track
 at Toronto.

Farm Produce Wholesale.
 The prices quoted below are for first-
 class quality; lower grades are bought at
 correspondingly lower quotations:

Visible Supply.

Commodity	Quantity	Price
Wheat	5,000,000	82 1/2
Corn	10,000,000	40 1/2
Oats	15,000,000	44 1/2

World's Shipments.
 This week's last week's year.

Country	Quantity	Value
American	2,900,000	2,960,000
Russian	3,450,000	1,560,000
Argentine	3,450,000	1,460,000
British	2,000,000	1,312,000
Indian	824,000	694,000
Australian	362,000	488,000

GRAIN AND PRODUCE.
 The following were the last quotations at
 the board of trade call. All quotat-
 ions, except where specified, are for out-
 side points:

Wheat—

Grade	Price
Manitoba, No. 1 northern, 94c	94c
North Bay, buyers 95c	95c
No. 2 ground, 65c	65c

Barley—

Grade	Price
No. 2, 53c bid; No. 3X, 51c	51c
buyers 50c; No. 3, 49 1/2¢ bid, sellers	49 1/2¢

Field Root Seeds.
 RENNIE'S "Jumbo" Sugar Beet
 RENNIE'S "Giant" Sugar Beet
 RENNIE'S "Perfection" Mangel
 RENNIE'S "Giant" Sugar Mangel
 RENNIE'S "Perfection" Mangel
 Hold all records for heaviest yields. Sold in sealed
 casks only. All dealers.

New York Grain and Produce.
 NEW YORK, May 6.—Flour—Receipts,
 15,820 barrels; exports, 24,032 barrels;
 sales, 2000 barrels; firm, but dull. Minne-
 sota patents, \$4.25 to \$4.60; winter
 straights, \$3.45 to \$3.65; Minnesota bakers',
 \$3.40 to \$3.75; winter extras, \$2.85 to \$3;
 winter patents, \$3.95 to \$4; winter low
 grades, \$2.70 to \$2.90. Rye flour, firm; fall
 to good, \$3.65 to \$3.85; choice, to fancy,
 \$5.85 to \$4.15. Cornmeal, steady; fine,
 white and yellow, \$1.20 to \$1.25; \$1.10 to
 \$1.12; 1 1/2¢-ground, \$2.55 to \$2.65.

Wheat—

Grade	Price
20,000 bushels; exports, 1875 bushels; sales, 2,500,000 bush- els; futures, 5 spot, firm, No. 2 red, 51c; elevator, No. 2 red, 51 1/2¢, f.o.b., export; No. 1 northern, 52 1/2¢, f.o.b., export; No. 2 hard winter, 50c, f.o.b., export. Except for a weaker opening, due to easy cables and the world's shipments, wheat was strong and active to-day, reaching highest point of the season. The jump was ex- plained by heavy covering, impelled by some of the worst crop news that has yet appeared, reflecting the backward season. The market closed 1/2¢ higher than at a little under top for the day. May, 91 1/2¢ to 91 1/4¢, closed 91c; July, 91 1/2¢ to 91 1/4¢, closed 91 1/2¢; Sept. 91 1/2¢ to 91 1/4¢, closed 91 1/2¢.	

Corn—

Grade	Price
Receipts, 106,425 bushels; exports, 274,243 bushels; sales, 1,500,000 bush- els; futures, 5 spot, firm, No. 2, 50c, elevator, 49 1/2¢, f.o.b., export; No. 2 white, 48 1/2¢, f.o.b., export; No. 2 yellow, 48 1/2¢, f.o.b., export. The market was without transaction, closing 1/4¢ to 1/2¢ net higher. May, closed 40 1/2¢, 40 1/4¢; July, closed 40 1/2¢, 40 1/4¢; Sept., closed 40 1/2¢, 40 1/4¢.	

Oats—

Grade	Price
Receipts, 213,000 bushels; spot market, steady; mixed, 38 to 39¢, f.o.b., to 40¢; natural white, 30 to 33¢, f.o.b., to 34¢; clipped white, 38 to 40¢, f.o.b., to 41¢.	

MINE A GOOD ONE.
But Stock is Away Down and Holders
Are Anxious.

The Haliburton says: We are pleased
 to see the report in the shipments of ore
 from Cobalt. The fact that the Cobalt
 has three shippers in the camp. This mine
 has bit more Haliburton people than any
 other. Last fall the mine was not on
 the market the people rushed to buy in
 stocks. The reason mainly being that the
 distribution of the stock was rather by
 people who were supposed to be in the
 know. The mine is acknowledged to be a
 good one by those who have seen it, and
 through some factor which no one seems to
 be able to find out, the stock is away down.
 We think that little more light should
 be thrown on the subject by those in con-
 trol. Numerous people are demanding an
 explanation from the directors of the
 Cobalt mine, and we think a statement or an
 explanation of some description is due the
 shareholders of the Cobalt mine. Mr. Silver
 Queen, the Nipissing and other
 mines have been giving statements which
 enable their shareholders to form an idea
 how they are fixed.

WORK ON LITTLE NIPISSING.
Development Has Commenced on This
Property.

VALUES IMPROVING.
Superintendent of Argyle Says Ore is
Getting Better With Depth.

NEW FOSTER DIRECTORS.
 At a meeting of the directors of the Foster
 mine yesterday the following gentle-
 men were added to the board: F. F. B.
 Johnston, K. H. Johnston, John Gowen,
 and G. H. Dixon.

Other Changes Made.
 Editor Wood: Some time about three
 weeks ago you mentioned in your paper
 the appointment of Mr. Reddick as superin-
 tendent of the Larder Lake mine. Other
 changes were contemplated.
 The other changes have been made. Frank
 W. Pugsley, former chemist of the McKinley-
 Darragh mine, has just been ap-
 pointed chemist and mining geologist for
 the Larder Lake mine. Mr. Pugsley
 formerly held the position of chemist and
 mineral and geological department of
 Ward's Natural Science establishment.

Larder to Help Cobalt.
 H. C. Barber in a circular says: "It is
 thought by some that the heavy rush into
 the Larder Lake mine has been a result of
 public interest in them may detract
 from Cobalt, but I am sure that is not
 only a mistake, but it will mean world-wide
 attention of the Northern Ontario mining
 fields as a whole, and help immensely in
 extending the market for Cobalt stocks."

Nipissing Earnings.
 BOSTON, May 6.—For the first quarter of 1907
 net earnings of the Nipissing Company
 amounted to about \$70,000 per month, or
 \$210,000 for the quarter. The company is
 now paying dividends of 3 per cent,
 quarterly, which calls for the
 payment of \$90,000 per month, or \$180,000
 per quarter.

Reports from Foster.
 Good reports of the Foster Mine continue
 to be received at the company's office here.
 No. 2 vein, which shows three inches of
 the last day or two, states: "We are now
 knocking down very nice ore from
 No. 2 vein, which is a slight improvement
 in first grade ore. Vein No. 5 is fully 15
 inches wide at the bottom of the drift, the
 ore being of the same quality. Monthly
 very fair proportion of rich first-class ore.
 No. 6 continues to produce exceedingly
 fine ore, and appears to be lengthening
 out."

Chauffeur in Police Court.
 OTTAWA, May 6.—Seven auto drivers
 were before the police magistrate for
 exceeding a speed of six miles an hour.
 The Ontario Motor Vehicle Act was
 the result of a campaign by the police
 for the safety of the public.

Book's Cotton Root Compound.
 The great Urtica Toxicaria, and
 other medicinal plants, are the basis of
 this compound, which is a powerful
 regulator of the blood, and is
 especially valuable in cases of
 rheumatism, neuralgia, and other
 conditions of the nervous system.
 It is sold by all druggists, or sent
 by mail on receipt of price.
 Free pamphlet. Address: The
 Book's Compound, Toronto, Ont.

\$100 Buys 1,000 Shares, Fully Paid; \$50 Buys 500 Shares; \$25 Buys 250 Shares; \$10 Buys 100 Shares; \$5 Buys 50 Shares.

PROPERTIES
 Fourteen 40-acre claims. Only a half mile from Larder Lake. Rich discoveries have been made. Stock will advance steadily.

FORMATION
 Slates and quartzite with bands of schists showing good veins of quartz and porphyry carrying free gold running to very high values per ton.

MACHINERY
 The necessary machinery is to be rushed into the property for operation as soon as satisfactory arrangements for transportation can be made.

NOTE
 One of the biggest mining booms is on in Larder Lake District. Get in now and reap the benefit by buying stock at first prices. The most conservative mining men have invested large sums here.

OFFER
 We offer the balance of 100,000 shares GOLD MINT stock at TEN CENTS PER SHARE, as long as it lasts, and advise its purchase on location, formation and general natural advantages. Make checks, money orders payable to DREANY & COMPANY, 701-2-3 Traders Bank, Toronto, Canada.
