EAST TORONTO CITIZENS DECLARE FOR ANNEXATION

After Thoro Discussion on All Phases
of Municipal Issue, Council is
Asked to Arrange Terms.

By a vote of 24 to 6 the following resolution was carried at a citizens' meeting in East Toronto last night: "That this meeting of duly qualified ratepayers of the Town of Toronto are in favor of annexation, along the lines asked for by the petition read to the meeting, and the people look to the council of the town in arranging the details of the bargain with the City of Toronto and secure the best possible terms, which we have confidence they can do."

East Toronto, March 31.—One of the largest meetings that have ever considered a matter of civic importance was held to-night in the Y.M.C.A. building for the purpose of listening to the arguments pro and con in connection with the present agitation for annexation with the City of Toronto. Both sides of the situation were fairly presented by property holders, who were called to the platform. Every one seemed anxious that the most advantageous steps should be taken, and all else but the town's interests were set aside. At the conclusion of the meeting the resolution moved at the previous meeting last week was carried by 24 to 6. Ex-Councilor O. McCulloch occupied the chair.

Mayor Walters was the first speaker, and took strong ground against the proposition. Taking the first clause of the petition respecting the assessment of property, he said that the very fact that a proposed agreement with the city whereby the assessment would not be raised for a term of 10 years, except on change of ownership, showed conclusively that the assessment was lower than it would be if it were part of the city. It would also have an injurious effect in preventing building and in selling property. The clause was drafted for the benefit of the city property owners. The town would make no progress. The result of annexation would be that the town would be a "dead weight" on the city. It was necessary for East Toronto to be annexed to the city, and to extend the street sewer. This was one of the healthiest towns in Ontario. There was a case of typhoid year in the town.

The Street Railway Clause.
The street railway clause appealed to everybody, uniformly and without mean anything. The Toronto and Scarborough Railway had a valuable franchise, and was a valuable asset to the Toronto Railway. The latter company did practically as it liked in the city. He was in the city, and he thought that the city had no power to compel the Toronto Railway to extend its lines to any district annexed to the city. He was also advising that the same effect by Manager Keating. The city way an extended service could be had by extending the street railway. He was not breaking any new ground, but he was extending the bridge would be erected on Main-street and the Scarborough cars would be running on Danforth-avenue.

With respect to the water supply, the town had the advice of one of the best waterworks engineers in Canada. His estimate of the cost of installing an efficient system which would also increase the efficiency of the electric light service 50 per cent, was \$48,000. Suppose the total cost should be \$50,000. The town water paid a profit to the municipality of \$100,000. The town would be purer than the city water. The town water paid a profit to the municipality of \$100,000. The town would be purer than the city water. The town water paid a profit to the municipality of \$100,000. The town would be purer than the city water.

Manager Keating vs. Mayor.
J. McF. Ross failed to see how the people would benefit by annexation. Looking calmly over the whole situation and comparing East Toronto with some districts within the city, he thought the citizens would be better off by annexation. The whole of this agitation has begun and carried on by certain residents of the Township of York southeast of the town. The proposed new waterworks system was one that would be of great benefit to the town. Manager Keating had told him that there would be no Toronto Railway extension during the continuance

WE FORGET HART'S RIVER. 2ND C.M.R.

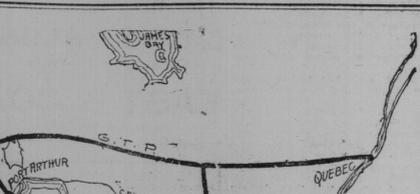

of the charter of the Toronto & Scarborough Railway.
Ex-Ald. John Lucas of Toronto was assured by Mayor Urdhart that the Toronto Railway would be compelled to extend their tracks to East Toronto. He was in favor of annexation. The city and the railway company had practically agreed on an extension of the Gerrard-street line from Pope-avenue to Greenwood-avenue. In reply to a question by Mayor Walters, Mr. Lucas said that the street railway had offered to extend to Greenwood-avenue on Gerrard-street, but that the city had not finally agreed to its terms.

Makes an Insinuation.
J. L. McCulloch was vitally interested in this question. The town had always found that the taxes were very high. He had faith in the town. Lots had been sold at a sale of land for taxes in 187 for 26c each, and the municipality had to protect the owners. The agreement with the G.T.R. had been renewed for ten years some years ago. The municipal corporation never was on an equal footing with the G.T.R. Members of the council had been more or less connected with the company.

SHOWING THE G.T.P., ITS BRANCHES AND THE MACKENZIE AND MANN ROAD TO SUDBURY.
The James Bay Railway is a part of the Mackenzie and Mann system. The line to Sudbury will be 265 miles in length, and the Ontario government proposes to guarantee the bonds of the railway to the extent of \$3,000,000. The Grand Trunk Pacific proposes to build two branches in Ontario, for which it asks government assistance, which it asks government assistance,

One branch will run from the main line to Port Arthur, the second from the main line to North Bay. The former will be 210 miles long and the other from 250 to 275 miles long. The province is asked to give 6000 acres a mile and a cash subsidy of 2000 a mile. This will amount to about 3,000,000 acres of land and about \$1,000,000 in cash.

TIBETANS WERE REPULSED BY COL. YOUNGHUSBAND

British Advance Suffered Great Hardships From Cold—Oil on Maxim Congealed.

Tuna, British India, March 31.—News has been received here of severe fighting, the Tibetans having attacked the British mission under Col. Younghusband. There were two engagements, and the Tibetans were repulsed with heavy loss. The British captured the Tibetan camp at Guru.

While the British advance had practically been unopposed, the expedition suffered great hardship from the great cold, and it was sometimes found impossible to use the Maxim gun and rifles, owing to the congealing of the oil. At 8 o'clock this morning a flying column started to proceed westerly to the Tibetan camp at Guru, whereupon a general from Lhasa came to interview Col. Younghusband and Col. Younghusband ordered the colonel to retire with his mission to Yatsing for the purpose of carrying on negotiations threatening an attack if the mission proceeded.

COMING TO TORONTO.
The Bishop Fur Co. of Sandwich Headings This Way.
Windsor, March 31.—(Special.)—It is understood here that the J. H. Bishop Fur Company, whose factory is located in Sandwich, are arranging to move to Toronto. The Bishop Fur Company here is the Canadian branch of the American establishment of the same name, situated at Wyandotte, Mich. The Canadian branch has had some trouble with its employees, who are about to organize a fur workers' union. The company here gives employment to about seventy-five persons, and the incident of its removal to Toronto will be a distinct loss to the county town, as the company is a strong and progressive one. From those in close touch with the company's affairs, it is learned that the management is much annoyed as to what is regarded as a hold-up by a few of the employees. The opinion here seems to be that the company is constantly subject to many similar labor annoyances in a town like Sandwich, where the supply of labor is limited. Superintendent Burns of the Canadian branch left to-night with the president of the company to complete arrangements for moving.

HOT CROSS BUNS.
Hot Cross Buns are the only pretext the baker adopts in the whole round of the year to take a mean advantage of the ordinary citizen. The normal appetite does not take kindly to spiced and sticky confectionery at early hours, but tradition weighs heavy, and he is not to be gainsaid. In the old days Hot Cross Buns were an institution. No family would consider itself legitimated fed on Good Friday without a supply before which the American pie must pale its ineffectual face.

CANADA IS NOT A NATION EWART TO CANADIAN CLUB

Eminent Winnipeg Lawyer for Legislative Independence, But Not Separation From Britain.

Last night at the Canadian Club dinner, Robert Ewart of Montreal and J. S. Ewart, K.C., of Winnipeg were the speakers. Mr. Ewart, who was first called upon, dealt with the transportation question, and particularly with the necessity which existed for the establishment of a fast line of steamers between Canada and Great Britain. He pointed out that 80 per cent. of the mails and passengers went via the United States, which had almost a daily service. The distance between Halifax and London could be reduced to five and a half days. Both he and Mr. Ewart possibly four days. That had magnificent harbors, and as all high-class and perishable cargo, such as butter, cheese, apples and pears, were probably sent by fast-boat routes, he was convinced that it would be a saving of from \$200 to \$300,000 every round trip.

Evidence of Discontent.
Mr. Ewart, whose subject was announced as "Canada a Nation," referred to the establishment of such patriotic clubs as the existing conditions and to ascertain what was the feeling of the people. He said that the avowed object of the fathers of confederation was to create a new nation, and should take her place among the nations of the world. He said that the reason, proposed that the country be known as the "Kingdom of Canada." And it so appeared in the original draft of the constitution. It was altered to "Dominion of Canada" by Lord Bessborough, who thought the "kingdom" might be offensive to the Yankees. He said that at that time equal numbers of the British and the Americans were in the country. He said that when the King's title was being settled, Lord Bessborough, who thought the "kingdom" might be offensive to the Yankees, said that they were not the subjects but allies of a great country.

CANADA NOT A NATION.
Continued From Page 1.

"protection" was the proper term, as it merely involved supervision of foreign affairs, but there was no category in which the present relationship could be placed. A nation was complete, self-sufficient, autonomous and the exercise of its independent relations with all other governments was a matter of course. It was that, Canadian independence, the term "colony" because it carried with it the inferiority of a subject nation. But all the power Canada had was the grant of an authority to the Dominion. The speaker then reviewed the history of the Dominion with regard to the powers of the Dominion were limited, such as the session of parliament, the constitution of the executive, the method of voting money, and the retention of the capital by the Dominion. Doubts had frequently arisen with regard to the extent of the powers granted to the Dominion. It was pointed out that the Dominion was not a nation, but a subject nation, and that it was not a nation until it was recognized as such by the world.

ODD TROUSERS.

"Fit-Reform" Trousers are poems in cloth.

They are cut by artists—tailored for comfort as well as style.

A man, who longs for easy, perfect fitting clothes, will revel in the luxury of "Fit-Reform" Trousers.

Just the right fit at the hips—just the right "hang" at the knees—just the right "set" at the ankles.

Let your fancy run riot in selecting "Fit-Reform" Trousers. There's not a pair in the wardrobe that is not in perfect taste.

Perfect Manhood

Our "Restorine" CURES are THE BEST.

Health of body, strength of mind, steadiness of nerves are the best and most precious gifts man can lay upon the altar of his conjugal love.

Restorine operates on the nerves which control the sexual system, and infuse into it, power and vigor.

No such thing as failure in life, is possible in perfect manhood; it is the lack of vital force, and the depletion of sexual energies that makes failures of men.

Restorine awakens a man to a sense of restored vitality and power. Why be weak when you can so easily become strong?

Novelties Specially Imported for the Easter Holidays. Lace Neckwear. Ready-to-Wear Millinery. Extra Values. JOHN CATTO & SON. GETTING WORSE FOR CONNIE. Split in Liberal Ranks in Algoma. Port Arthur, March 21.—The meeting of the Liberal Association for the purpose of selecting delegates for the convention to be held on April 9, in order to nominate a candidate to contest this riding for the Dominion House, is going to be a hot one, and there is a likelihood of being a split in the Liberal ranks. The portion of the party who were responsible for the invitation being extended to Hon. Clifford Sifton are still endeavoring to get a candidate, and they will fight James Connors's nomination to the bitter end. Within the past couple of weeks this section of the party has been added to, a large number of Connors's supporters having joined them. The feeling here at the present time for Connors is not the best, and should be received the nomination of a large number of the Liberals will give their support to the Conservative candidate. The Conservatives here have not yet definitely named their candidate to contest this riding. George W. Martin's name has been mentioned. Thomas Horne, who has aspirations for parliament, has been spoken of by Port William.

INSURANCE PLAN CHANGED. Mercantile Schedule Will Be Enforced Locally—Has Its Benefits. The Toronto Board of Fire Underwriters have decided to adopt the "mercantile schedule," by which each building insured will be rated on its own individuality—that is, its size, construction and surroundings, as relating to the fire hazard. Formerly buildings in Toronto were rated in classes. Churches and theatres were in separate classes and all down the line of mercantile risks these classifications were made. This plan is "in force" in Hamilton, Ottawa, London, Brantford and other places and has been in force in New York for 20 years. The new plan will benefit the owner of the building that is up-to-date and in a safe locality, and safe buildings as neighbors. His rate may be smaller than previously, but the man who has a fireproof building who owns or rents the fire trap, will have to pay. It simply means that the risk will receive the benefits due a risk, which were hitherto impossible.

MOUNTAIN SANK, LAKE CREATED. Phenomena of Nature Caused Earthquake in New England. New York, March 31.—A despatch from Caribou, Maine, says: "Proof that the New England earthquake of March 21 had its origin in Northern Maine is furnished by a slide from Tibouque, who states that where old Bald Mountain has stood for centuries, only a new born lake basin to mark the site of the mountain, a somewhat conical shape, was situated in the Tibouque Valley, a few miles from the New Brunswick line. At the base were boiling springs. Nearby is a hill called Plaster Rock, which furnished plaster for building. It is used for building plaster. This was recently analyzed and found to consist of merely melted rock and earth. All this leads to the belief now that Bald Mountain was the cone of a volcano, which, when it sank, caused what all New England called an earthquake.

University Rifle Association. A special meeting of the association on Wednesday afternoon, Professor T. Delany was elected captain by the vote of the officers and members. A large number of officers and members were sworn in Thursday afternoon. Major Lang of the Engineer Corps was present at the meeting and expressed his hearty sympathy with the objects of the association. He said in a short speech, recalled the days of his military service, and said that he had many distinguished military men who had been connected with the association. He said that he was glad that the association was so rapidly increasing in membership, and that he was glad that it was so rapidly increasing in membership. It is requested that all who intend to come to the meeting should be accompanied by a friend.

STEWART AND SMITH FAILURE. At the meeting of the creditors of Stewart and Smith, Waterloo, held in the office of Messrs. W. L. Martin & Co., it was decided to sell the stock, amounting to about \$14,000, by auction on Monday. An inventory of the estate was also appointed. An inventory of the stock can be seen at N. L. Martin & Co., assignees, McKinnon Building.

REMEMBER ON BLOCK PLAN. Sub-Committee Decides on Recommendation to Works Committee. The sub-committee on street numbering and naming made considerable progress yesterday, Dr. Harrison being in the chair. It was decided that the city streets should be numbered and named within the next two or three years, and that the numbering should be done by white enamel or some other plain substance. Yonge-street will be the dividing line between east and west, and the cross streets will be numbered on every third street. Streets running north from Queen will start with the same number as the street they cross at that point, but the committee was divided as to the numbering of streets starting at the corner of Queen and Jarvis. The corner of Queen and York will be numbered 600, the corner of College and York 1000, and the corner of College and York 1000.

MUST PAY UP. The master yesterday issued an order to shareholders liable for unpaid Atlas stock, to pay the liquidator of the balance. The shareholders' board arguments in the appeal of the ordinary depositors and depositors' board against the decision made by them with the reserve fund depositors.

PRINTERS' DEMANDS. The job printers, the men and bosses, will meet on Monday. The men ask a \$15 a week scale and an 8-hour day; they are getting \$12.25, with a 9-hour day. About 200 men are affected.

parting word. He had been an examiner of the college since 1872, and he never had a more satisfactory class than this year's. He attributed that fact partly to the severe winter, which kept the boys in at night. He hoped and trusted it would be to their benefit. With some good sound advice, in which he counselled the boys to be good themselves and the people would be good to them, the colonel concluded: "Never disgrace the profession and the profession will never disgrace you."

Local Telegraphers Have No Friction With G. N. W. on Other Points.

The trouble looming up between the G.N.W. and its telegraphers seems no nearer a settlement. President W. C. Long of the International Commercial Telegraphers' Union of America, yesterday officially stated that the company have been petitioned to reinstate W. J. Chalmers, to whose ability twenty-eight members of the Toronto Stock Exchange, including the president and other officials, testified.

"Nothing," says Mr. Long, "has been done by us in the way of an ultimatum, which would imply that the position has been referred to the highest authority of the G.N.W. No day has been named to call the operators out, nor has the formation of the union been kept a secret. The officials are just as eligible to join the employers as the operators would have been to join the union."

Mr. Long also stated that Mr. McMichael was fully cognizant of the union, and in Milwaukee last September, in conversation with the operators, he stated that the union was not to be broken by the Western Union, and connecting lines. There are probably not a dozen in the commercial world of 1903 who were in the business in 1882, and to hold the operators to it is despicable.

While it is true some of the gilded stock wire operators may be inclined to join the employers, the G.N.W. range is from \$15 to \$70 a month, with only one receiving the latter, the women operators being scaled down to the minimum figure.

The General Manager, McMichael, of the G.N.W. was yesterday, but was not disposed to enter into the subject. It would not be policy, in his opinion, to speak until he has fully digested the arguments of the president of the International Union.

"What have you to say in regard to Mr. Long's assertion that last September he discussed the matter of the union with the operators?" asked. "I have nothing to say on that head at present, other than that I am not attached to Minneapolis, with no idea whatever of being transferred to Canada."

It is a fact that there are only half a dozen or so telegraphers in the present International Union who signed the agreement of 1882. "It may be," I cannot say. "Mr. McMichael has no authority to make the statement that the wage scale bran somewhere about from \$15 to \$70 a month, and length of service," he said.

Chief Operator McManus declined to enter into any discussion of the matter, but on being subsequently seen, expressed his regret that he had not the matter opened up. The matter will go before President Dwight.

WAR NOTES.

Kronstadt, March 31.—The president of the War Relief Society has received a cable from the British Consul at Kronstadt, dated at Port Arthur, March 29, which says: "Last night was a very hot one, but we cannot hope for a quiet time either now or in the near future. I sleep without undressing in order that I may be ready in case of an emergency. Consequently I cannot observe your medical advice to take care of myself, nevertheless, I feel splendid."

Kiief, Russia, March 31.—A society of the Russian navy has been formed for collecting money for the construction of a torpedo cruiser, to be named the "Kronstadt." The society is organized at Port Arthur, which is within the Japanese lines, and is within the range of Japanese guns, which are being used by the Japanese.

Seoul, March 31.—It is reported that 500 disbanded Korean soldiers near Pyongyang are ready for any emergency. The Russian army, concludes from General Mitschenko's reports that the Japanese are continuing their concentration and gradually advancing on their way to Wiju.

What the Men's Store Offers Men To-Morrow. Easter Sunday Provided for at a Minute's Notice.

Perhaps you have little idea what the service of our big modern Men's Store has grown to be; you have been one of those perhaps who cling to the old-fashioned idea that ready-made clothing is inferior to custom clothing.

Come and investigate for yourself. On Saturday we will offer blue clay worsted Suits at about wholesale cost, while they last.

100 only Men's Fine Imported English Clay Worsteds Suits, a rich, soft, finished material, in dark navy blue, made up in the latest single-breasted sack style, lined with good fur.

Men's Nobby New Spring Top Coats, made from a very fine cover cloth in a light olive shade, this season's latest style, short and boy's, perfect fitting and tailored to custom.

Men's Popular Long Loose Raglan-lane Rain Coats, made from a fine imported cover cloth, in dark Oxford and olive shades, made up in the new Chesterfield style, with square pockets, made plain sleeves, good linings and trimmings, special Sat-10.50.
