BIG AEROPLANE PROPSETS ARMY OFFICERS KILLED VENTOR WRIGHT HURT

Bad Accident at Fort Myer When 2000 People See Machine Fall With Two Men From a Height of 75 Feet.

PROPELLOR BLADE SNAPS AND CRAFT OVERTURNS

WASHINGTON, Sept. 17.—After having drawn the attention of the world to his aeroplane flights at Fort Myer and having established new world's records for heavier-than-air flying machines, Orville Wright today met with a tragical mishap while making a two-man flight. The aeroplane was accompanied by Lieut. Thomas E. Selfridge of the Signal Corps of the army. Lieut. Selfridge was fatally injured and died at 8:10 to-night. Wright was seriously injured, but is expected to recover.

While the machine was encircling the drill grounds a propeller blade snapped off and hitting some other part of the intricate mechanism caused it to overturn in the air and fall to the ground, enveloping the two occupants in the debris.

Soldiers and spectators ran across the field to where the aeroplane had fallen and assisted in lifting Wright and Selfridge from under the tangled mass of machinery, rods and shreds of muslin. Wright was conscious and said: "Oh, hurry and lift the motor."

Lieut. Selfridge was unconscious and had apparently struck the ground with great force. His head was covered with blood and he was choking when the soldiers extricated him.

Dr. Watters, a New York physician, rendered first aid. Wright lapsed into a state of unconsciousness by the time he reached the hospital, while Lieut. Selfridge did not regain consciousness at all. He had a fracture at the base of the skull.

Wright is suffering from a fracture of his left thigh and several ribs on the right side are fractured. Both men received deep cuts about the head.

Wright regained consciousness in the hospital and dictated a cablegram to his brother at Le Mans, France, and telegrams to his sister and father at Dayton, Ohio, assuring them that he was all right.

Also there have been a handful of people at the aeronautical testing grounds at Fort Myer during the past few days fully two thousand had gathered for 4:30 this afternoon.

Wright had announced several days ago that he would take Lieut. Selfridge, who is secretary of the Aerial Experiment Association and an aviator himself, with him in his next flight. The young officer was to leave Saturday for St. Joseph, Mo., where he was to assist Lieut. Foulers in operating the Baldwin airship.

Lieut. Selfridge weighed about 175 lbs., making the weight about 350 when the machine had ever carried before. After gliding over the ground on the runners for 30 feet, the machine rose gradually and had gained a height of 40 feet when it passed over the starting apparatus for the last time. There was a six-mile wind and it was noted that the machine did not run as smoothly as on its former flights, most of which were in calm weather. The aeroplane, however, apparently had the control of the aerial flyer, which rose to a height of 75 feet, as it completed the second round of the field. This height was maintained on the third round.

WHERE IS WHEAT GOING?

Dry weather is having its effect on the wheat market. No fall wheat is being sown in Ontario.
By our market pages it will be seen that the bidding in Winnipeg market is 40 1/2 in Ontario they are bidding 92 cents for it for export, says a prominent miller, and payments in Toronto yesterday went over 93 cents.
This is marvelous considering the tremendous offerings at bushels. Fully three million bushels have been marketed in Winnipeg so far, and nearly a million bushels were unloaded yesterday.
Millers are searching for supplies at the wheat elevator, and it begins to look like big things for wheat holders. Farmers should keep their eyes on the wheat market.

LAVERGNE ON PLATFORM AT BURDEN'S MEETING

3000 Turn Out to Quebec Meeting—Bridge Disaster Discussed and Onus Laid on Government

QUEBEC, Sept. 17.—(Special.)—Fully 3000 heard Mr. Borden and those who accompanied him at the skating rink to-night, and there was considerable enthusiasm.
Amongst those on the platform were Chas. Smith, president of the Conservative Club of Quebec, who presided; Premier Hazen, Premier Roblin, Hon. Mr. Hanna and Hon. Chas. Casgrain.

Armand Lavergne, M.L.A., also occupied a seat on the platform and incidentally came in for prominent reference by Mr. Hazen, who, in dealing with the struggle against monopolies, referred to the platform and incidentally to the bridge disaster.

Mr. Borden spoke in both languages and was listened to with much interest. Apart from his general criticism of the present administration, on the subject of the bridge, he made pleasant reference to his previous visits to Quebec, especially during the centenary, which had made the name of Quebec prominent all over the world.

Referring to the Quebec bridge, to which he spoke at considerable length, he expressed confidence that the responsible, thru its lack of proper supervision, for not only the loss of life, but of costly material as well, amounting to some five or six millions of dollars.

It was absolutely necessary to the proper development of this part of the country that the bridge should be built, but the Conservative plan of construction would have been to have the very best engineers possible and so to have avoided any disaster.

He deprecated and denied the truth of the accusations of the subsidized Liberal press. He stated that he was hostile to the interests of French Canada and the French-Canadians. He admitted the importance of the fast Atlantic steamer, and claimed that the fast service had first been proposed by Sir Charles Tupper.

He expressed confidence that the Conservatives would be returned to power on the 28th of October.

WHOLESALE MEN DIRECTORS CALL SEE BETTER TIMES

Steady Improvement is Anticipated—Failures Have Not Been as Many as Had Been Expected.

Wholesale men generally regard the business situation with a feeling of hopeful optimism.
According to a gentleman who is in close touch with the wholesale centre, while there had been a falling off of business compared with last year, the outlook is for a steady improvement till normal conditions return. Some of the business men say the falling off has been 10 per cent., while others put it at 40 per cent. The fact remains, however, that the volume of business has been considerably less than a year ago. When the slump came the manufacturers curtailed production and for some months house-cleaning has been under way. The retailer has been buying only such goods as are in the greatest demand, with the result that at present the country store shelves cannot be filled.

Last year the orders were heavy. Because of the difficulty of securing early shipment, buyers were compelled to order a long time ahead and in larger quantities than they needed for their immediate output. Then there was a sudden dropping off due to the money tightness. Extreme caution characterized business transactions. This left the wholesalers with heavy stocks on hand and the manufacturers stopped producing.

Now the stocks are low, but with a year of good crops the debt-paying and purchasing power of the people has been considerably increased. Confidence received a great shock a year ago, and after all, as one business man put it, our business is done largely on confidence.

One great advantage at the present time, it was remarked by another, is that the tide of immigration is still coming over. The people are coming into the country and as the class is right they will have to buy stuff to keep themselves going. Another factor is the enormous public works that are under way. These mean work for the people.

The failures during the past few months, while they are in excess of a year ago, have not been as numerous as expected. The merchants tided over the short year very well. Most of them were in a position to carry themselves over a short period of hard times.

Enquiry into the wholesale district elicited the fact that collections are improving, particularly in the Northwest; the fall buying has shown a healthy increase and the spirit of optimism pervades the business section.

For the first half of the year the failures throughout Canada were: Commercial, 881; manufacturing, 239; trade, 619; others, 23. These figures are much in excess of the same period a year ago, but not much above a normal year such as 1900, when there were 700 commercial failures, 160 manufacturing, 521 trading and other, or 1381 in all. In Ontario during the first half of the year there were 351 commercial failures, with assets of \$2,606,599, and liabilities of \$3,207,129; 108 manufacturing failures, with liabilities of \$1,316,566, and 13 other failures, with liabilities of \$48,232.

That the business men have come out of the depression so well is cause for congratulation, particularly when it is considered that the wholesale district had been for years steadily increasing their capacity to handle a larger output. When they had to "pull up" a large portion of that output, which a large output had been made unproductive; but even with these conditions facing them the manufacturers were able to weather the storm.

On the whole, Canada has pulled thru in much better shape than the States, and it is believed that when the presidential elections are over business on the other side will begin to improve, and the conditions there are always reflected here.

Henry Brock of the firm of W. R. Brock & Co. said to "The World" that wholesalers had been reducing their stocks and there had been no buying for the future. There had been no drop in prices, indicating that the wholesale men had not become panic-stricken over the falling off of business in the past year. The retailers, he said, had been cutting down their stocks, and the public were still holding back trying to get even. During the good times everybody went the limit, spending more than was coming in, and now they are trying to get even again.

Rural Mail Delivery

The people have in the new scheme of rural mail delivery of the postoffice an excellent example of the superiority of public ownership in one of its most significant phases, namely, that public ownership ensures absolute freedom to the state or municipality to do WHATEVER IT LIKES WHENEVER IT LIKES with the utility concerned.

Where private ownership of a public utility prevails there is no such freedom. The state or municipality has signed away its freedom to a private company.
Let us illustrate:
The Canadian postal system is owned and controlled by the nation. Here are some statistics as brought out by Postmaster-General Lemieux in his speech at Niagara Falls: He showed that the surplus last year was \$1,100,000; that there has been no deficit since 1903; that as reductions were made in the postal rates the service was improved and cheapened, and what is still more significant, that the earnings increased with reduced charges, and changed former deficits into surpluses.

He showed that the state had been able to effect the following improvements:
Postal Rates— Before 1896 Since 1896
Canadian letters 3c 2c
United States letters 3c 2c
British letters 5c 2c
Drop city letters 2c 1c
Papers to Britain (per lb.) 8c 1/4c

All these things the postmaster-general did off his own bat, under the law of parliament, whenever he thought the time opportune.
And now that he has a surplus assured the postmaster-general announces that he will forthwith take up the question of rural mail delivery and so still further increase the service that the national postal system gives the public. He is absolutely free to do this. He does not need to consult any railway or express company, he is not tied up by a solemn agreement, nor is he open to the charge of "interfering with vested interests" and "wrecking the widow and the orphan," whose savings are all in some private company doing a postal business. And so he goes on with the good work of improving the postal service at every turn, and following the line of progress set by other nations. The only place to-day where the postmaster-general of Canada is antagonized in his freedom to serve the people is in the case of parcel post and postal money orders where the express companies (railways) are constantly lobbying against cheaper express rates by the state in its parcel post and against cheaper postal orders as against theirs. And you can see this in the fact that the postmaster-general has power by law now to improve and cheapen the parcel post (like in Great Britain and Germany) he can only do it in the face of the threats and hostilities of the Grand Trunk and the Canadian Pacific. In other words, if the express business and the transfer of small amounts of money had been kept a state monopoly great improvements in these directions would have been made long ago.

Now take the other side: The City of Toronto parted with its street railway franchise for thirty years. During that thirty years, the life of a generation, it is sewed up to the street car rates that prevailed when the agreement was signed, when the city sold away its freedom to a private company. There has, in consequence, been no reduction in the ordinary fares in that time. You still have to pay five cents for a ride and four cents each for twenty-five tickets. The city has no freedom to extend its lines as the city grows, to reduce fares as the earnings increase; it has no freedom to substitute a better system if one should be invented; it has even been deprived by the courts of the rights it thought it possessed in regard to control of the running and the number of the cars; it is defied by the railway at every turn; and it has created in its midst an enemy that is ever busy in trying to circumvent the city in recovering the franchise now or when it expires. The street railway corporation, instead of being a public servant, is a public enemy. Four hundred dollars more spent on the truck of each car would give a better car to ride in; the railway asserts that the inferior cars we have are good enough for us—in a word, instead of being able and free at any moment to improve the service, extend the service, cheapen the service, we are forced to put up with private corporation defiance, if not insolvency.

Public ownership of the postoffice allows us to do all these things without opposition.
Where is the man who is asking for your vote on public ownership?

RELEASED AS VAGRANT WANTED AS SWINDLER

James McFarland Got Out of Jail On Bail Furnished by King St. Broker Not a Minute Too Soon.

Having been arrested in his hotel at 2 o'clock yesterday morning on a vagrancy charge, James McFarland was released on \$500 bail from Toronto jail last evening just a few minutes before a detective reached the place to re-arrest him on a more serious charge on instructions received from the Chicago police.

McFarland is wanted in Chicago for robbing Mrs. James A. Patten, the wife of a Chicago millionaire, living at Evanston, Ill., which is a suburb of the western metropolis, of \$24,950 in a rare book swindle.

McFarland appeared in court yesterday as a "vag" and was remanded until Monday. Last night Magistrate Kingsford accepted the required \$500 bail on a bond furnished by Frank W. Baillie, of Baillie Wood and Croft, brokers in West King-street, and who resides at 146 Crescent-road, Mr. Baillie took McFarland from the jail in his automobile.

Crown Attorney Corley consented to the bail, he said.
Inspector of Detectives Duncan last night received a wire from Chicago saying that an officer was on his way to push extradition.
McFarland is a graduate of Harvard University. At the Elliott House he was known as J. Bellamy. He went out socially considerably, but is not known to have got to the pockets of any of Toronto's elite, the word comes from Boston, Cincinnati and Hamilton, Ont., that he is believed to be the perpetrator of similar deals in those cities. It is said that McFarland gained the confidence of Mrs. Patten, after he

PREMIER TALKS ON WOOLEN CRISIS

Advises Manufacturers to Produce Showy Goods Demanded—A Com- mission May Inves- gate Industry.

MONTREAL, Sept. 17.—(Special.)—Sir Wilfrid Laurier, addressing the Canadian Manufacturers' Association at the annual banquet this evening, as good as promised that a commission would look into the grievances of the woolen manufacturers.
The new president, R. Hobson, of Hamilton, occupied the chair, and in proposing the toast of "Canada," contended that, in order to secure political capital, certain newspapers had endeavored to put the farmers against the association owners of the Dominion.
Proceeding, he declared that Canadian manufacturers had built up a home market which could not have been secured in any other way.
"Take away," he said, "from the farmer the towns and cities built up by a protective tariff and the farmers' best markets will be lost."
He proceeded to show how the woolen industry had declined for want of adequate protection. He contended that the association owed an allegiance to any party, but strove for the good of the country as a whole.

Turning to Sir Wilfrid Laurier, the chairman said:
"I am authorized to state to you that this association will welcome a tariff commission to look into this question of the woolen industry and report to parliament."
Sir Wilfrid Laurier, who was received with cheers, said that another engagement would prevent him in making any lengthy remarks, yet he believed like to have a heart-to-heart talk with the Manufacturers' Association upon one or two points, although he did not expect to see eye-to-eye with them all.

With reference to the woolen duties he said, as prime minister of the Dominion, he was not a member of the last tariff commission, but he believed that the tariff of 1907 had been considered a fairly good one. A few months later, however, the woolen business had become embarrassed and the government had been asked to increase the duties.

He had to tell them now that it was his duty as prime minister to consider all classes. When asked to increase the duty, Sir Wilfrid said he had listened to all the delegations and to all the representations.

Business Argument.
He was not a business man, but he thought he could look at matters and weigh arguments in a common sense manner. He was sorry to see that it did not frankly, that there seemed to him that something was lacking. The woolen people had complained that they could not compete with the British goods. They said that British manufacturers sent to this country goods of inferior quality. They claimed that they were not competing with the Canadian goods were superior. This, he thought, was putting the case fairly, and this was where the difficulty arose.

"I say," he continued, "if the consumers prefer the showy goods and if consumers take goods because they are cheaper, why don't you Canadian manufacturers give them showy goods? Why don't you produce showy products, for if in this case Canadians will give only pure woolen goods, that is not business. Give what the consumers want."
The answer comes, however, that the British manufacturers can produce from East India wools another cheap material which the Canadian manufacturers cannot secure.

"This is a matter which certainly should be considered," a gentleman speaking at your convention wants a commission sent to England, composed of business men, and not party hoppers, and said that he would hold up both hands to this proposition. In fact this idea has been subscribed to by the Canadian Government when the tariff was last raised. It suggested some time ago that an expert should be sent over to enquire into the matter."

He said that he would continue his remarks next year.
Quebec for Protection.
F. D. Monk was also well received. He presented Mr. Borden's excuse for not being present and then proceeded to say that in the past year, while other parts of the Dominion had been hostile to the protective idea, it had always received generous support from the old Province of Quebec.

He said that the prime minister had spoken hopefully yet guardedly on the

Continued on Page 7.

EFFECTS OF THE STRIKE.

Many Complaints in West Due to Grain Blockade.

WINNIPEG, Man., Sept. 17.—(Special.)—"No brooding meeting has been held," said J. H. McVety to-night. "The strike outlook is better every day. Power is falling down steadily and elevators are full, and grainmen are complaining of losses, due to buying futures for September delivery."

"Merchants in smaller towns are hard pressed by the stringency, as the strikebreakers are sending their wages out of the country, and business is suffering in consequence."

COBALT MAN IN TROUBLE.

An Alleged Fraudulent Deal in Stock is Alleged.

William Marshall, 57 years, 123 Kendall-avenue, was arrested by Detective Sockett yesterday afternoon upon a warrant sworn out by J. T. Bethune, of Montreal, charging him with fraudulently converting to his own use \$2000, the proceeds of the sale of stock in a mining property in the Nipissing district by the use of a power of attorney.

Marshall is a mining engineer well-known in Cobalt. He was admitted to the bar in the sum of \$2000, furnished by Duncan McMarrin of Cobalt.

DEATH FROM PRIVATION.

Unfortunate Woman Dies After Year's Residence in Toronto.

After earning a precarious living for the past five weeks by the sale of pencils, Mrs. Johanna McDermott, late of Edinburgh, Scotland, died yesterday in the General Hospital, as a result of exposure. Deceased, who was 59 years old, apparently has not found Canada an Eldorado, since her arrival here from the old country twelve months ago. She had been working in the laundry of the Western Hospital, but about that time she was struck by a bicycle and hurt so badly that she was unable to continue her work. She took a room at 210 West Adelaide-street, and commenced selling laces on the street for a living. In a half starved condition she was found by the police and sent to the hospital, where she died last night.

ECKARDT CASE SETTLED.

Casket Company Finally Accepts the Award of the Arbitrators.

The Eckardt Casket Co. yesterday, after a day's argument before the court of appeal, decided to accept the award of the arbitrators in the matter of the expropriation of their Esplanade property by the Grand Trunk. The company had been awarded \$15,000 by W. T. White, their representative, and Judge Snider, chairman of the board of arbitration, while C. H. Ritchie, K.C., for the company, awarded \$2000. This did not satisfy, however, and the case was carried to the courts.

30 MILLIONS AT STAKE.

Mother of Lieut.-Gov. Dunsmuir Wants Accounting From Him.

VICTORIA, Sept. 17.—(Special.)—A contest for a thirty million dollar estate was launched to-day when Elliott and Shandley, barristers, representing Mrs. Joan Dunsmuir, mother of the lieutenant-governor of British Columbia, filed a claim against his honor, the present owner and operator of the Wellington and Union Colonies on Vancouver Island. The claim is to have an account of the money received and spent by Governor Dunsmuir since 1888 to the present.

RAIN AT PORT ARTHUR.

PORT ARTHUR, Ont., Sept. 17.—(Special.)—Rain has arrived and all danger of bush fires in this vicinity is past.

HACKED TO PIECES.

Body of Montreal Italian is Placed on Tracks.

MONTREAL, Sept. 17.—Antonio Granito, aged 25, a well-to-do brickwork contractor, was mysteriously murdered near his home in the north end of the city last night.

His body was found early this morning lying near the C.P.R. tracks. It was literally hacked to pieces.
Robbery was evidently the motive, as the man's pockets were turned out.

BORDEN ADDS TO TOUR.

Will Speak at the Falls in Reply to Premier.

R. L. Borden is likely to enlarge his Ontario tour by eight meetings.
This much has been practically decided upon by the management of his tours. The meetings will be held in Niagara Falls, to offset the spectacular display of the premier.

QUEBEC FOR PROTECTION.

F. D. Monk was also well received. He presented Mr. Borden's excuse for not being present and then proceeded to say that in the past year, while other parts of the Dominion had been hostile to the protective idea, it had always received generous support from the old Province of Quebec.

Hamilton Happenings

World subscribers in Hamilton are requested to register complaints as to the printing of the paper...

RUSH AT COLLEGIATE NEW TEACHER ENGAGED

Miss Emley Transferred—An Investigation Into Election Crookedness is Probable.

HAMILTON, Sept. 17.—(Special.)—There are so many pupils registered at the Collegiate Institute that the board of education has been forced to engage still another new teacher.

The chairman of the board and the board of trustees met this afternoon and decided to transfer Miss Emley from the King Edward School to the Collegiate, and to increase her salary to \$650 a year.

P. H. Bateman has been appointed returning officer for East Hamilton, and C. B. Linton, returning officer for West for the federal elections.

To be Investigated.—Many more cases of crooked work came out to-day in connection with the voting on the by-laws Wednesday.

Edwin Green and H. Fischer found when they went to vote that persons had voted in their names. They will be a full investigation, and it is hinted that some politicians will find themselves in trouble.

The Hamilton Street Railway Company has not yet accepted the by-laws Wednesday.

The board of the Dominion Power and Transmission Company will meet Friday morning. Among the interesting matters on the program is the election of Col. J. Robert Moodie as president.

John Warner and Richard Tobin, two of those who protested last week, were fined \$10 this morning for getting drunk. They declined to tell where they got their jags.

Judge Snider this morning awarded Dewey and O'Heir \$5000 damages against Daniel R. Dewey for using his name in a similar business in the city after withdrawing from it.

Violating an agreement he had entered into.

The New Arrington.—Now open for visitors. Complete new building, home comforts, very central. Excellent cuisine. Terms \$1.50. Geo. Midwinter, Phone 442.

Skedden & Son, Painters, Decorators, Paperhangers, 163 King St. West.

NEW STRIPES FOR SERGEANTS

"Greens" Will Sport Fine Chevrons—First Parade.

The Royal Grenadiers had a fine turnout last night for their first parade of the regular fall drill, the regiment marching out 450 strong, including recruits. Colonel Gooderham was in command.

On behalf of Mrs. Gooderham the colonel presented the sergeants of the regiment with a new set of chevrons, more commonly known as "stripes". Mrs. Gooderham ordered these from London, Eng. The pattern is worked out in marie leaf.

"Joe" Noble, Q.M.S.I., will go to Quebec on Saturday to start a week's course on the Ross rifle. The government extended the invitation to the other city corps as well, but it is understood that the Grenadiers will be the only regiment to accept.

When the Boy Gie's Wrong.—With tears in his eyes and his mother's kiss warm from the fire, Williams, 16 years old, walked from the police court, dock yesterday to serve a sentence of seven days in jail.

The sentence was not a harsh one, as Col. Denison explained to the boy's mother, a respectable-looking young widow, years before he had been let go on suspended sentence for a theft.

Williams with two other boys, named James Smith and Harry Hill, were found guilty of stealing money from the Grand Trunk Railway.

To Err is Human.—GUELPH, Sept. 17.—Emma Walker, who deserted her infant child in a this morning brought before Judge Chadwick on a charge of child desertion. She was allowed to go on suspended sentence.

A CRIME THAT IS NOT PUNISHABLE.

How many people reading this article have gone into a drug store and asked for some well known and highly tried medicine and some unscrupulous drug-gate has said, "Yes I have that, but have you ever tried this remedy, it is just as good and costs less." Any drug-gate doing this has not the interest of your health at heart, but the interest of his pocket, as he can make more profit out of the cheap substitute.

For the protection and benefit of the public, we wish to say that Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY has been used in thousands of homes for the past sixty-three years and has never failed to give prompt relief and cure in all cases of Diarrhoea, Dysentery, Colic, Stomach Cramps, Summer Inflammation, Sea Sickness, Cholera Infantum, Cholera Morbus and all Fluxes of the Bowels. When you buy Dr. FOWLER'S, you are not experimenting with a new and untried remedy, but are getting one which has stood the test of time.

Miss Lettie Reid, Vivian, Ont., writes: "Last year I suffered under agony from cramps in the stomach and did not know what to do until a friend suggested I should try Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY and as I was glad to try anything I purchased a bottle.

"When I had taken four doses I found relief and since then I never fail to keep a bottle."

HAMILTON BUSINESS DIRECTORY

HAMILTON HOTELS. HOTEL ROYAL. Every room completely renovated and newly carpeted during 1907.

HOBBSON OF HAMILTON NEW C.M.A. PRESIDENT. Halifax Wants Next Meeting—Commission on Technical Education Asked for by Committee.

MONTREAL, Sept. 17.—(Special.)—The election of officers for the Canadian Manufacturers' Association today resulted as follows: President, R. Hobson, Hamilton; first vice-president, J. Hendrie, Vancouver; provincial vice-presidents: Ontario, Wm. Gartschore, London; Quebec, W. H. Rowley, Hull; Nova Scotia, W. Lewis, Halifax; New Brunswick, C. McDonald, St. John; Manitoba, R. McKenney, Winnipeg; Alberta and Saskatchewan, P. Burns, Calgary; British Columbia, W. J. G. Woods, Vancouver; Prince Edward Island, F. L. Hissard, Charlottetown.

An invitation was read from the Halifax branch to have the next annual there, and referred to the executive council.

The feature of to-day's session was the report of the committee on technical training, submitted by Prof. Morley Wickes. The report expressed the view if Canada was to maintain its place in the progress of national development it was incumbent to give attention to requirements of educating its young along such lines as would enable it to compete with other countries in industrial work.

What was needed was a national system, and it was proposed that commissioners should be named for the purpose of visiting other countries to examine their systems and decide on a plan for Canada, which would be urged on the government. For this purpose it was recommended that \$25,000 be appropriated to pay the expenses of commissioners, who should hold sittings in Canada, the States and Europe. Of the cost of this \$5000 should be contributed by the Manufacturers' Association, and the provincial governments be appealed to for the rest. The Dominion government was prevented from acting by constitutional difficulties, one being the rights of the provinces on matters educational.

Louis Simpson, Valleyfield, took exception to a statement that the manufacturers made little or no effort to utilize by-products. He asked that the clause be struck out. It was unfair to old established concerns, and it was used to have the statement go forth unchallenged. He moved that the sentence be struck out, and this amendment was carried.

S. S. McManis, Toronto, drew attention to the fact that yesterday it was said that the tariff was responsible for the situation in the woolen trade, yet in this report they were told that technical education would develop skilled workers and save the industry.

J. F. McKay, Toronto, said that the American lintotype operator is superior to the Canadian due to the better technical education there. Mr. Simpson said that the real cause of the trouble was that as soon as the Canadian was brought to a degree of skill by the United States, where they paid higher wages, they were paid higher wages.

The association passed a resolution on the woolen question, viewing "with alarm" the attitude of the government towards an industry established in so many parts of our Dominion, which gives employment to so many Canadian people, and protested against the government discrimination in favor of the outside manufacturer.

Mr. Riordan presented a strong report from the pulp and paper section. The effect of a resolution contained in this report was that the exportation of pulpwood should be prohibited. This carried.

An important report was also presented on behalf of manufacturers in the United States and Canada, who exported the gas to points in the United States and paid no attention to the manufacturers there. They asked that the association bring the matter to the attention of the Ontario Legislature, and that the exportation of gas be prohibited.

The report of the commercial intelligence committee recommended the appointment of an additional trade commissioner in the United Kingdom, and this report was adopted.

Beats a Cobalt Investment.—With the weather man seemingly working "tooth and nail" against such a thing as the big manufactured fur sale that the Sellers-Gough Co. are holding, it is surprising how quick the people have been in catching the meaning to them in money saving, and how they have been quick to get down to it with the mercury away from them. It is not that most people know value nowadays in almost any line of merchandise, and it only needs a big move like the Sellers-Gough people are making to test appreciation of them. This reliable firm stand back of every transaction and you may buy with confidence that styles are "on the dot," and the most for the money in every garment or fur piece that's parcelled.

METAL WORKERS WIN.—Chancellor Boyd, giving judgment in the action of the Metallic Roofing Co. against members of Local No. 30, Sheet Metal Workers, has refused the application of the defendants to stay execution, the union having taken steps to recover \$428 costs granted by the privy council.

The chancellor says the company's application could be intelligible only with a view of escaping payment of costs by means of a set-off, and that there is no such right.

When costs of appeal to the house of lords have been given they are not subject to the rules of practice which apply to ordinary procedure in the lower courts," ruled the chancellor.

The Factory Behind the Store

Automatic Tray Fixture Trunks

"The hand that lifts the lid lifts the tray." This is the handiest trunk made—convenient, strong and durable.

Our regular price for these trunks is \$9.00. As a special inducement for you to buy Saturday we are selling them at \$7.50

EAST & CO. LIMITED 300 Yonge St.

BARN BURNED. Three Welland Farmers Suffer and Others are in Danger.

WELLAND, Sept. 17.—(Special.)—A serious fire took place a mile east of Montague, when the barns on the farms of I. E. Collard and Nicholas Shaffley were totally destroyed with contents. The fire originated in the Collard barn. Children playing with matches was the cause.

Ferdinand Bodtke, whose farm is four miles from Welland, lost his barn. Boys smoking cigars set it on fire.

A valuable bush farm belonging to George Youxer at Chantler has been burning all week and the loss is several thousand dollars. Farmers have been fighting the flames night and day to save their houses and barns, and in some cases the supply of water has run out.

Danger Around Cornwall. CORNWALL, Sept. 17.—Reports received in Cornwall from many of the villages in the County of Stormont are to the effect that bush fires are raging in almost every section, north, east and west of here, and the people are living in hourly dread.

Several bushes within the limits of the town have by the greatest difficulty been saved.

A dense smoke has been hanging over the town for the past week or more.

DEPUTY NOT RETIRING. A Rumor is Denied—Firemen's Salaries Up To-Day.

Deputy Chief Noble of the fire department denied last night, and most emphatically, when asked by The World, the truth of a rumor that he contemplated retirement from the department in October.

The story is said to have been circulated for the purpose of effecting a board of control, who will to-day discuss the question of salary increases for the firemen. Of this phase, however, the deputy professed to be without knowledge.

The controllers talked the matter of increases over in private yesterday, but were all bound over to keep their decisions, if any, to themselves until to-day. Early in the summer they did do the square thing by increasing the salaries in the lower grades, but made more attractive if the right stamp of man is to be secured for the job.

The officers, too, have a strong claim for recognition, especially by comparison with the salaries received by similar grades in other cities.

As for the deputy chief, he didn't get at all the best of it at the last re-arrangement in salaries, due to aldermanic pique rather than to the merits of the case, and it is believed the controllers will be inclined to make amends now.

DICKSON RETURNS. Hopes to Straighten Out His Financial Affairs.

ST. JOHN, N.B., Sept. 17.—Walter B. Dickson, M.L.A. for Albert County, who disappeared suddenly two weeks ago, leaving it was reported, a shortage of \$15,000 in his accounts, and against whom an absconding debtor's warrant was issued, returned to-day. He says he disappeared on the advice of a few friends who believed his absence would be beneficial. Now he comes back with the intention of endeavoring to straighten out his accounts.

TEXTILE REPORT DELAYED. OTTAWA, Sept. 17.—It is understood that the report to be made by W. Mackenzie King, who enquired into the conditions of the textile trade, will not be made public until after the general elections.

The report, it is said, comments severely on the conditions of the employment of women and young children and also deals with questions of over-capitalization.

French troops have routed slave traders in the Congo.

The Princess de Broglie, a San Francisco girl, has been deserted by her husband in Paris.

Count Leo Tolstol has been elected to honorary membership in the faculty of the University of St. Petersburg.

At the departure from London for Rome of Cardinal Vincent Vannuti thousands at the railroad station cheered the cardinal and sang "God save the Pope."

Galway, N.Y., was swept by fire at a loss of \$20,000.

Seventy thousand acres of land adjoining the Oregon-California line is to be set aside as a reservation for the propagation and protection of all native birds.

The C.P.R. say the mechanics' strike is broken in the east.

Four chemical engines of the fire department of Manila will assist in disinfecting cholera-infected houses there.

John Zett of Rockville, Conn., will be hanged for murdering his wife and granddaughter.

Wm. Ford, Walpole Township, had

—Main Floor, Queen St.

Special Display Saturday.

If we had two, three, four times the space it would be insufficient to display ALL the new styles, but some of those modern dust and airproof cases that now surround the salesroom will give up many magnificent coats for your edification Saturday.

If you found it possible to name one among so many, you might point to a new flowingly-loose Empire Coat of lustrous black Ottoman silk, with its clever design of silk soutache, ornaments, and tassels hanging from medalions.

These Empire effects are sometimes outlined by the trimming alone, others are cut and fitted, the Empire fashion being accentuated by the trimming method.

Some are in black Ottoman silks, more or less pronounced is the cord; some in rich black plush, others in shimmering broadcloth. All these are among the best of European styles.

Many scores of New York Street Coats in the newest of new styles and materials—rich dark tweeds in two blending tones, plain and wide wale diagonal chevrons in the season's newest shades.

Empire styles are a noticeable feature. Butterfly effects, with fitted shoulders, are a new and smart design.

Prices on these new imported garments, \$10.00 to \$63.50.

—Main Floor, Queen St.

REDUCTION ON WOMEN'S RAINCOATS—NUMBER LIMITED. In two styles, one semi-fitted with belt; other has loose back, finished with strapping and buttons. Full length. Colors are grey, fawn, bronze and green. Each... 4.95

TORONTO DRIVING CLUB. Three Races To-Day At DUFFERIN PARK. Admission 25 cents. Ladies free.

WINTER RACE OUTLOOK ON THE PRISCO BOOKS

Adverse Legislation Will Probably Be Attempted Again—Proposition to Eliminate Bookmakers.

SAN FRANCISCO, Sept. 17.—Now that it has been shown that what was considered the impossible could happen in the passage of legislation adverse to racing in New York, the many followers of the sport about here are discussing eagerly the probable action of the next legislature.

It is generally conceded that there must be a change in the point of view of the men who control racing. For years they have thought of nothing apparently but the profits they could make out of the matter.

Among the suggestions made to change these tendencies is to eliminate the bookmaker and substitute the "pari-mutuel" or "totalizator" system.

It is also suggested that the racing should be more of the old sport—open to all and less of the "closed" sport of the present.

There should be more of the old sport—open to all and less of the "closed" sport of the present.

There should be more of the old sport—open to all and less of the "closed" sport of the present.

There should be more of the old sport—open to all and less of the "closed" sport of the present.

DOINGS HERE AND THERE OF THE COLLEGE PLAYERS

Ottawa College Holds First Practice, While Varsity Shows Signs of Life.

Gordon Southern will not play with Hamilton this season, owing to parental objections.

Mike Smith of Ottawa College will likely be the fastest man in the intercollegiate. He can step a 100 around 20 seconds.

Bill Kennedy, the former Ottawa College man who played with Queen's last year, will play with Ottawa in the interprovincial this year.

Billy Richards, the McGill half-back, will turn out with Ottawa College this season. He will play centre-half and back.

Ball, quarter for Westmont last year, will play for the Ontario team for Montreal this season.

Ottawa College held their first practice yesterday and five of their best players were present.

Regular practices have been started among the college athletes. Technical coaching will be the strongest team. The league opens Oct. 3.

Owing to family objections, Coryell, last season's star of the Blue and White, will move to outside wing. Mom made quite a reputation two years ago.

KAY'S FALL IMPORTATIONS OF INLAID LINOLEUMS

Quite the finest assortment of Linoleums we ever imported is now on sale in our big electric-lighted basement.

Great advances have been made of late in producing copies of hardwood and mosaic flooring, and we have some of the very best designs of this class, as well as of conventional and fancy patterns.

Our Inlaid Linoleums are of astonishing durability. The patterns and colors remain undimmed until the material is worn through to the canvas back.

This list of prices will be useful to out-of-town customers. Large design plates in colors will be mailed them on request.

Inlaid Linoleums, best English make, 2 yards wide, in new tile, block, conventional and hardwood patterns. Prices per square yard—\$1.25, \$1.35, \$1.10, \$1.50 and 75c.

Cork Carpets, Nairn's famous Scotch make, 2 yards wide, in green and natural brown colors; admirable for use in halls, public offices, etc. Prices per square yard, \$1.10, \$1.00, 85c, and 80c.

COCOA MATTING
We carry a full line in Cocoa Matting, of superior quality. Two grades in various widths, from 22 in. to 72 in., at per square yard, 52 1/2c and 65c.

Plain Linoleums, in 2 and 4-yard widths. Prices per square yard—85c, 80c and 65c.

Linoleum Borders, key pattern. Per yard, 9 in., 50c; per yard, 6 in., 20c.

John Kay Company, Limited
36 and 38 King St. West.

OF INTEREST TO WOMEN

KISSES.
One kiss more, sweet!
Soft as voluptuous wind of the west,
Of silkenest surge of thy purple-vein'd breast.
Ripe lips ruddily melting apart,
Drink up the honey and wine of my heart!

One kiss more, sweet!
Warm as a morning sunbeam's dew,
Slips in a red rose's fragrantest fold,
Sets its green blood all a-blush, burning up
At the fresh feel of life, in its crimson cup!

One kiss more, sweet!
Full as the flush of the sea-waves grand,
Flooding the sheeny fire out of the sand;
On all the shores of my being let bliss
Break with its sea-side sea in a kiss!
—Gerald Massey.

The Misery of Being Clever

Miss Corell in "Holy Orders" relaxes occasionally from the extreme intensity of her narrative to portray a fascinatingly ingenious character. Azalea, for instance, the pretty wife of the minister, is delightfully refreshing. She sometimes says things that hit the mark surprisingly, altho they provoke a smile by their simplicity of statement. The following is an example: "Oh, I hope not!" she said, with delightful earnestness, "it's so dreadful to be clever, Dick! You don't know how dreadful it is! Nobody likes you!"

"You quaint wee woman. Do you want the boy to be a fool, then?" "He couldn't be a fool!" declared Azalea warmly. "Of course he couldn't! But I hope he won't be clever! If you had known poor Dad, you would understand what I mean. A clever man is really a pitiable object—he is—Dick!—perfectly pitiable! He always wants what he cannot get—and he sees everything wrong and he wants to put it right, and of course he can't put it right—not in his way, because everybody wants to do it another way—and oh!—it's just awful! And he writes and writes, and lectures and lectures, and gets dyspepsia and headaches and nervous, and dreadful things—and never enjoys himself one bit—how can he?"

An Opportunity.

Editor World! Will you kindly enquire thru the columns of your valuable paper if any of its readers are interested enough in operettas to assist in the production of one, namely, Sylvia, and if so to please communicate with me, and you will greatly oblige.

Miss Eliza Sottley,
87 Gladstone-avenue.

A Special Meeting

A special meeting of Chamberlain Chapter, Daughters of the Empire, was held at the residence of Mrs. Fetherstonhaugh, Lake Shore-road, yesterday afternoon. Miss Constance Boulton presided and the regular routine business of the chapter was gone thru, but, as the session's work was largely of a private nature, no report was given out. The program for the winter was drawn up by the executive, after which a motion was made giving Mrs. Fetherstonhaugh a hearty vote of thanks for the offer of her beautiful lawn and house for the use of the chapter. Afternoon tea was served on the terrace. The chapter's next meeting will be held on the third Thursday in October in the Canadian Institute.

The Anglican Woman's Auxiliary met in St. Peter's Church schoolhouse yesterday. Miss Tully presided. The treasurer, Mrs. George Webster, gave the total receipts since June 4 as \$370.17 and the expenditure \$1382.47. It was also announced that the triennial thankoffering of the women's auxiliary of the diocese, which will be presented next week at Ottawa, is \$1900. The treasurer of the extra-cent-a-day fund, Mrs. Bigwood, reported \$123 for the summer months, and Mrs. Dykes, trea-

Toronto World's Beauty Patterns

A Smart and Simple Little One-Piece Frock.

No. 237.—One-Piece Dress with side closing. Cut in sizes 3, 5, 7, 9, 10 and 12 years. Two and one-quarter yards of 36-inch material will be required for the five-year size. This little one-piece frock, developed in blue striped linen, is both smart and simple. The side closing is a unique and pleasing feature of the mode, the large pearl buttons adding a note of style to the mode. A belt of leather or of the material may be worn around the waist. Linen, gingham, pique and serge are all suitable to the design.

A pattern of this illustration will be mailed to any address on receipt of 10c in silver or stamps.

BE SURE AND STATE SIZE REQUIRED.

King's Daughters

The Ontario King's Daughters, in session at Stratford, elected these officers: Mrs. M. A. Savage, Toronto, provincial secretary; Mrs. W. J. Wallace, Cornwall, recording secretary; executive committee, Mrs. J. E. Austin, Toronto; Mrs. Bigger, Ottawa; Miss G. Stratford, Miss G. Stratford, Kingston; Dr. B. Dymond, Toronto; Mrs. Dutton, Ingersoll; Miss C. Wilton, Hamilton; Miss Coultas, Toronto; delegate to central council, New York, Mrs. J. E. Austin, Toronto.

In Society.

Mr. James Brock O'Brien, K.C., has sailed for Europe. He will join Mrs. O'Brien in Paris and they will probably return to Toronto about the end of October.

Dr. and Mrs. H. B. Anderson, daughter and nurse are staying at Maplehurst.

The Dean of Trinity College and Mrs. Duckworth have returned from their wedding trip, and are in residence at the Dean's House, Trinity College.

Invitations are out for the marriage of Miss Lorna Gibbons and Mr. George Harris, which will take place at "Lornhurst," London, Ont., on the third of October.

The engagement is announced in Montreal of Miss Katherine Thornloe, daughter of the Lord Bishop of Algoma and Mrs. Thornloe, to the Rev. C. Wilfrid Balfour, of Huntsville, Ont.

The engagement is announced of Miss Isabel Ryerson, daughter of Mr. and Mrs. C. Egerton Ryerson, and Mr. Arthur McE. Mybee, manager of the Canadian Bank of Commerce, Brandon.

Invitations have been issued by Mr. and Mrs. W. J. Bridgman, 639 Wellington-street, London, Ont., for the marriage of their sister, Mabel Alice Anderson, to Mr. William Robinson Woollett of Walkerville, at their residence, on Thursday, Oct. 1.

The president, officers and members of the Argonaut Rowing Club have sent out invitations for Saturday at the club house, from 3 to 9 o'clock.

Mrs. F. H. Small of Worcester, Mass., is spending a month with her mother, Mrs. B. Douglas Fraser, 62 West Roxborough-street, and will receive with her this afternoon.

Mrs. W. A. Rust D'Eye (nee Miss Norah Gainsford Tew) will receive for the first time since her marriage on Thursday afternoon and evening, Sept. 24, at her home, 148 Lee-avenue.

Invitations are out for the marriage of Miss Louise, youngest daughter of Mr. and Mrs. Ingham of Carlton-street, to Mr. Arthur Edwards Anstey of Warwick Bros., to take place the 23rd of this month.

Robert Ernest Muir Meighen, assistant solicitor to the provincial treasury, was married at Perth on Wednesday to Miss Margaret May, only daughter of Mr. and Mrs. John Wilson of that place. The ceremony was performed by Rev. Canon Mucklestone. Mr. and Mrs. Meighen left for Montreal afterwards. Mr. Meighen is a son of Wm. Meighen of Perth, and nephew of Robert Meighen of Montreal.

The news was an absolute surprise to Mr. Meighen's friends at the parliament buildings, who thought he had only gone to take his usual vacation.

At Cayuga, F. J. Lalor's was the only name before the Haidimand Conservative convention. The outside speaker was W. F. Cockshutt, Brantford.

The Halifax Herald (Can.) editorially condemns the railway commission appointments, first, as ignoring the interests of the Maritime Provinces, and secondly as having, so far as Scott is concerned, being in the nature of a deal.

CHILD ATTEMPTS SUICIDE.

SARNIA, Ont., Sept. 17.—Because she was "first of life" Loretta Brown, twelve years old, placed in a home by a Port Huron society, attempted suicide by drinking an ounce of carbolic acid.

PEACE CONFERENCE.

THE HAGUE, Sept. 17.—The next peace conference, just requested, is for the conclusion of a treaty looking to the establishment of an international law regulating exchange.

Rush of the Land Hungry.

WINNIPEG, Sept. 17.—(Special.)—The rush of the land hungry continues. Despite the care of officials it was necessary to invoke the aid of the police more than once. Moose Jaw, where several days ago, and to-day Lethbridge called police aid, there being an ugly rumour when the time for distributing precedence tickets came. This morning there were 2,474 applicants for lands, there being over 400 filed on day. All other land offices have the same tale. At Calgary officials were obliged to snatch hasty meals on the premises to cope with the rush.

College Currency Deceives.

OTTAWA, Sept. 17.—Ottawa College two dollar bills, a currency used in the commercial classes of the college, are being tinted or passed on unsuspecting foreign peddlers.

THE EXTENSION SALE At Sellers-Gough

We have been very busy in this store since this sale started. We hardly expected such a rush. Past experience has taught the ladies of Toronto that when we advertise a sale it is a genuine one, and that it pays to make a visit to our store.

The Latest Word That Fashion Has Spoken

in matters of Fur is exhaustively illustrated in this store to-day. To spend an hour in this store is a fashion education. We are expecting and have prepared for the greatest season of this store's history. Changes in style have been radical in many cases, and variety is legion. Artistic skill in every way is in every model; lines of unusual dignity and grace characterize every garment and every piece of fur shown in this store, and the quality of the fur is absolutely guaranteed, every skin being selected by a member of the firm who has had many years of experience in furs.

This Extension Sale is offering you a great opportunity, and no doubt one that you will take advantage of. The store opens at 8 o'clock every morning, and remains open till 6 o'clock every evening.

Out-of-town customers write for Catalogue "S."

DEADLY SMOKE AND FOG.

Five Dead and Nearly Fifty Injured in Accidents.

Five persons are dead, four fatally injured and two score more or less dangerously hurt as the result of a series of railroad accidents thruout the United States yesterday.

Fog and forest fires were largely responsible for the casualties. In Chicago two laborers were run down by a train in a fog and two collisions in other parts of the city brought serious injury to a dozen persons.

At Mount Pleasant, Mich., a fireman was killed and four men hurt in a wreck due to smoke from forest fires.

Other wrecks at Erie, Belle Vernon and Corry, Pa., and a collision between an automobile and a trolley car at Newark, N.J., swell the total dead and injured to fifty.

AN AMERICAN ARCHITECTURE

J. M. Lyle of Toronto Would Have a General Style.

DETROIT, Sept. 17.—At the opening session here of the convention of the Architectural League of America John M. Lyle of Toronto, Ont., made a plea for a general style of architecture for North America, pointing out there is not at present any essentially American style, various architects following different schools.

He thought that co-operation and discussion might develop a style which would be characteristic.

Canada Controls Pulpwood.

APPLETON, Wis., Sept. 17.—"Because raw material is much cheaper in Canada and labor is considerably cheaper, we would have to go out of business if the tariff on wood pulp were to be cut off, unless we could obtain higher prices for our sulphite than we are receiving at the present time," said N. M. Jones of Bangor, Me., manager of the Katahdin Pulp and Paper Company at Lincoln, Me., before the Congressional investigation committee.

WILL BE THE "HARMONIC."

Northern Navigation Co. Decide on Name for New Vessel.

The Northern Navigation Company would have called their new ship the Pacific had the department of marine at Ottawa refused to register it because there are already two lake vessels of that name.

It was therefore decided to christen it "Harmonic," out of respect to H. C. J. A. Pfeiffer of Detroit, who suggested the rejected title, is awarded the prize offered, but Mrs. James R. Moore of Richard's Landing who suggested the one chosen, will be given a special prize.

Murderer Traced by Letter.

MIDDLETOWN, N.Y., Sept. 17.—Traced here by a letter which he wrote to his sister in New York, Edward L. Osterholm was arrested here, charged with the killing of Captain Daniel Moriarity, commanding officer of the quarantine station, State of New York. Captain Moriarity was struck down and killed half a block from his home in the Bronx.

ELECTRICAL ENGINEERS TO VISIT POWER PLANTS

The American Institute of Electrical Engineers have arranged an excursion to Niagara Falls to-morrow, leaving Toronto by Niagara Navigation Company's steamer at 7:30 a.m., proceeding by Niagara Belt line to the Falls, which they will reach at 11 o'clock.

They will inspect the generating and transformer stations of the three Canadian power companies located there. Returning, the party will reach Toronto at 8:30. Some twenty-five have already declared their intention of joining the excursion. Other engineers interested in the power development works at this point should take this opportunity of satisfactory inspection.

Given a Medal.

H. P. Dwight, chairman of the investigating governors of the Royal Canadian Humane Association, presented to James Johnson, 45 Esther-street, Toronto, the medal of the R.C.H.A., duly awarded him by the governor of the association for promptness and courage in the rescue of William McInnes from drowning in Toronto Bay on the 27th June last.

COBALT---Speculators Take Profits and Benefit the Mining Markets---COBALT

Realizing Most Acceptable To Large Shareholders

Speculative Following Take Profits and Mining Markets Are Considerably Benefited.

World Office, Thursday Evening, Sept. 17.

The break at the New York stock market to-day was most acceptable to the leaders in the Cobalt market. These interests are unsatisfied with the speculative following which has tailed on to the Cobalt securities and believe that many released their holdings to-day and more will let go tomorrow. The reaction on Wall-street was the main feature to-day as far as a speculative sentiment in regard to mining stocks was concerned. Local traders who are endeavoring to secure daily profits out of the various Cobalt securities written when the New York weakness became pronounced and sold out to buyers who are not influenced by spasmodic eruptions. There was no weakness in the mining shares at any part of the day, as all offerings were readily taken up by small concessions, and an active contest developed every time a sale of the active securities was presented at all cut in price. The undertone of the market is best gauged by the fact that Crown Reserve closed above last night's price and that Nova Scotia sold at a record high level. A small amount of profit taking assisted in lowering quotations to a small extent, but short selling was also attempted without any great success. Another day of realizing would be welcomed by the large holders, but whether this will occur is not quite certain at tonight's close.

AWAITING FIRST DIVIDEND.

Nova Scotia Investors Will Visit the Mine.

MONTREAL, Sept. 17.—Early next week the representatives of the Montreal syndicate who have bought a large block of shares in the Nova Scotia Cobalt Mine for investment have here for Cobalt to inspect that proposition with a view of ascertaining the value of the ore in sight, and the prospect of a first dividend.

PRICES AT NEW YORK

Are Continuous Higher Than the Canadian Quotations.

New York operators are taking a keener interest in the good Cobalt properties than local investors. Curb quotations from New York are daily in advance of local prices and in no instance is this more marked than in Temiskaming, which was only recently put on the New York market. The close of this issue on the larger market to-day was 38 to 39, while the stock sold on the local market at 34. Buyers are beginning to draw the conclusion that American investors are continuously willing to go one better than Canadians on this Cobalt property.

DENOTES PERMANENCY.

Watts Strikes a Rich Vein at Two Hundred Foot Level.

COBALT, Sept. 17.—A rich strike was made at the Watts Mine on Friday last at the two hundred foot level, when a new solid silver vein was encountered. At this juncture the silver shows freely in the wall rock in a width of about four feet. The main vein is about ten inches in width, and the main core of the vein is studded with native silver, while the rich wall rock itself will run to about one thousand ounces of silver per ton. Owing to the fact of discovering this ore at depth the permanency of the mine is proven. A ten stamp mill stands nearly completed on the property, and the management expect to have it grinding the wall rock ore by the first of next month. The Watts Mine has been a steady shipper since last December. Two carloads of high grade ore have been shipped from the property this week.

La Rose Earnings.

NEW YORK, Sept. 17.—Earnings of the La Rose Consolidated Mines Co. for the past three months are reported to have been at the rate of 22 per cent. on the company's capital stock, and earnings this month to date are reported to be in excess of \$75,000. The surplus on hand is now given as over \$300,000, which, it is expected, will be increased by the end of September to \$400,000. The directors will meet soon and are expected to declare a dividend at the rate of 12 per cent. a year.

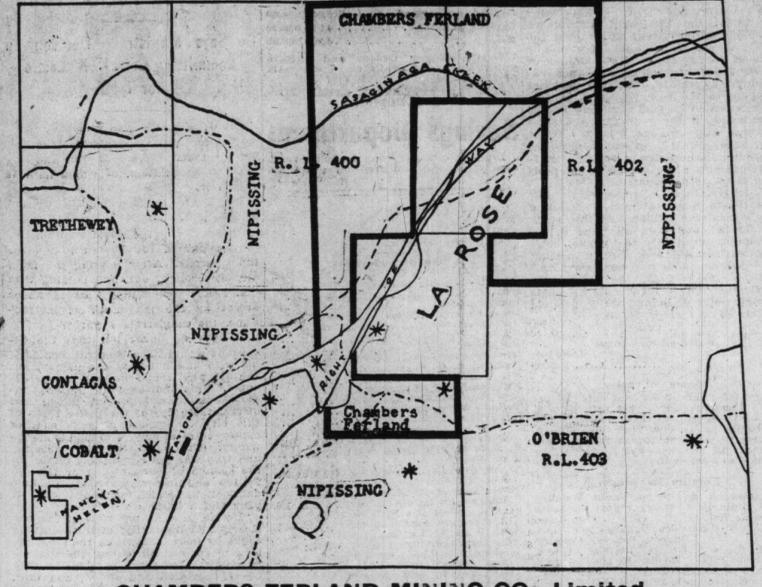

New York Curb.

R. R. Bongard (Charles Head & Co.) reports the following transactions in Cobalt stocks on the New York curb: Nipissing, closed 84 to 84 1/2, high 84 1/2, low 84, sales 3500. Buffalo, 15 to 15 1/2. Bay State Gas, 2 1/2 to 2 1/2. Colonial Silver, 3 1/2 to 3 1/2. Cobalt Central, 38 to 39 1/2, high 40, low 38 1/2. Crown Reserve, 15 to 25, high 19, low 18. 500 King Edward, 3 to 4. McKinley, 103 to 103 1/2. Silver Queen, 13 to 15. 2000 sold in 19. La Rose, 6 1/2 to 6 1/2, high 6 1/2, low 6 1/2. Yukon Gold, 4 1/2 to 4 1/2. Temiskaming, 86 to 88.

WATTS MINE

CHAMBERS-FERLAND MINING CO., Limited.

ERIE SHARES ABSORBED BY FOREIGN CAPITAL

Large Block of Stock Placed Abroad—Mine to Be a Shipper Soon.

COBALT, Sept. 17.—Mr. J. H. Jewell of J. H. Jewell and Co., and president of the Erie Cobalt Silver Mining Company, Limited, has returned from abroad. Mr. Jewell, accompanied by the members of his family, spent several months in Great Britain and on the continent, and while on the other side closed negotiations by which a large amount of foreign capital has been interested in the Erie properties, the deal resulting in a block of shares being transferred to the other side, which will have the effect of considerably lessening the local supply.

One result of the introduction of old country money into the Erie Company will be the expansion of activities in the company's Cobalt holdings. The plant will be considerably enlarged and will be supplemented by an additional modern mining plant, and the start of workmen under Manager Neil R. Macdonald will be augmented to the full limit necessary for the rapid development of the properties into the shipping stage, which under the present conditions will not be far off. The property is in excellent shape. Values running over six hundred ounces in silver have been secured from the veins on the Lorrain property, and there is present a large amount of low grade ore on the dump. Shaft No. 1 is down to the one hundred level, and a strong vein extends from the surface and is continuous in drifts from the bottom of the shaft 125 feet east and 100 feet west. The discovery made in shaft No. 3 recently has developed to such an extent that the drift will be extended from this shaft to shafts one and two. Most encouraging results have also been obtained from the work done on the company's Coleman property and the showing has been such as to justify the removal of the company's plant on its Lorrain property for operations on the Coleman lot, and the new large plant ordered by the company will be installed on the Lorrain property. The Erie is already equipped with a good class of complete and well constructed buildings, which include a modern lodging house and office building thirty by sixty feet, together with the other buildings necessary for the accommodation of the men and the housing of the plant.

JUDGE O'LEARY NAMED.

Will Be Fifth Member of Joint Railway Commission.

Judge O'Leary was appointed the fifth commissioner for the Port Arthur and Fort William railway commission by the Ontario Railway and Municipal Board yesterday at the request of the mayors of both municipalities.

The other four commissioners who were to have made the appointment under the act could not agree upon a fifth member, so the railway board made the appointment as above. Only a day or two ago Judge O'Leary decided that this appointment could not be made.

The whole arrangement for entrusting the management of the street railway to a commission is objected to by some of the ratepayers, and an application was made before Chancellor Boyd yesterday to restrain its consummation. Chancellor Boyd decided that the matter should stand over till the trial in November when the issue will be threshed out as to whether the arrangement is competent without a submission by bylaw to the people. Messrs Hamilton Cassels, H. L. Drayton and C. C. Moss appeared in the case yesterday.

Case Dismissed.

The charge of assaulting L. S. Levee laid against Richard Darling was yesterday dismissed by the magistrate. Darling is a one-armed man and it was not shown he had struck Levee.

BACK FROM THE COAST.

Hamar Greenwood, M.P., Has Had Enjoyable Time.

Hamar Greenwood, M.P., has returned to the city after a hunting and fishing trip in British Columbia. He spent fifteen days fishing salmon and shooting deer in the west. He had the luck to catch a forty-seven pound salmon at the mouth of the Campbell river, the biggest catch of the season. Telling about his luck, Mr. Greenwood said last night, "It took me half an hour to land him. I broke my rod, and only succeeded in my catch by towing the monster till I had drowned him. He's a big day's staid in Vancouver. When I get him across the water he will be one of the most admired trophies of the fishing clubs of the city of York, England."

Mr. Greenwood is in fine fettle and in every gesture shows the medical effects of the Pacific climate. He spent five days at Prince Rupert, which he described as a town of 600, without liquor, without immoral-

BAD WEATHER DOWN EAST.

Storm Traveling From Indies May Let Loose in Maritime Provinces.

The citizens of Toronto have no need of providing themselves with cyclone collars.

This is the cheering information given at the observatory last night, thereby dispelling uneasiness created by the rumor that a tornado was coming here for the week end.

The report probably originated from the fact that a storm which did considerable damage in the West Indies has been moving steadily due north, and is thought to have about reached the Maritime Provinces.

Bad All Round.

LONDON, Sept. 17.—The Manchester Guardian, referring to the woolen agitation in Canada, says it seems to have brought England into Dominion tariff politics as a most dangerous trade rival. Under such circumstances the preference can hardly be said to assist either imperial unity or British industry.

ANOTHER PLAY FOR MARGINS OF OUTSIDE SPECULATORS

Wall Street Insiders Continue the Drive Against Prices—Many Local Stocks Are Without Bids.

World Office, Thursday Evening, Sept. 17. The break up of the New York bull market has put a severe crimp in the operations of the local pools. These syndicates were financially able, assisted by dopes, to carry the prices of their various specialties to fictitious heights for a long period, but the climax has been reached and to-day the pools cut friendship with their followers and left them to the mercy of the market. The Toronto exchange to-day represented exactly the size of its making-up. Securities of worth were readily saleable at small discounts, but stocks of exceedingly doubtful value were not wanted except by the pools for resale, and at present the syndicates are not hankering for the shares they have put out. The exchange in a broad sense could scarcely be classed as a market, as bids were almost impossible to obtain for certain stocks. Most of to-day's trading was done by those who thought the exchange represented something.

Wall Street Pointers.
Bank of England rate unchanged.
Strength in exchange stimulating talk of good exports.

St. Paul expected to place order for 5000 cars this week.
So's surplus applicable to common dividends of 8.88 per cent. on stock outstanding.

Reading surplus for past year \$9,406,000, equal to 3.15 per cent. on common and largest surplus since 1905.

Bankers think it unlikely that gold movement from London to South America will be diverted to New York.

Excess of exports over imports for eight months ended August 31, 1908, against \$11,460,000 last year.

Lehigh Valley July net earnings decreased \$454,835.

Regular quarterly dividend of one cent on Kansas City Southern preferred.

Hocking Valley surplus after preferred dividend \$764,681, equal to 6.85 per cent. on common.

Banks total \$2,430,000 to sub-treasury slice Friday.

Joseph says: Do not be afraid to buy Union Pacific around 12 1/2. It is sure to lead in an aggressive recovery, which will set in almost immediately. Buy Rock Island preferred is cheap. Buy B. & O. and Reading conservatively.

Important sources expect a recovery in the stock market to-day. Purchases on weakness should be moderately profitable for discriminating daily operators. Liquidation is being permitted to run its course. General reductions of support occurred yesterday. St. Paul Smelters, Distillers, Erie Great Northern preferred, Lead, Northern Pacific, New York Central, A. L. C. and U. S. Steel all exhibit reactionary tendencies, now, and professionals offer them. We would prefer to buy them for turns on weakness to-day.—Plancton News.

LANSING, Mich.—Michigan Supreme Court in an opinion filed here sustains constitutionality of maximum freight rate law of 1872, which has been ignored and denounced by railroads. The

decision is important as far as its bearing on present day controversies is concerned. Dividend reductions by the wholesale in both the industrial and railroad lists as a result of the failure of general business to improve as rapidly as had been anticipated were freely predicted, and the scare which has recently developed as to the political outlook was renewed by alleged statements from various leaders, indicating considerable apprehension as to the result. There was little attempt to check the selling, which in-

creased in volume in the final dealings, and the closing was weak at about the lowest level.

Marshall, Spader & Co. wired to J. G. Beatty, 14 West King-street, the following: To-day's market developed no resisting power of an impressive character, but the early trading included some covering, which held the active issues rather above yesterday's closing for a while. The influences most under discussion were not extremely important, but the lack of support to the recent market leaders was considered bullish and this stock should be bought on all these drives for quick turns. On the whole, however, we do not look for the market to enjoy anything but temporary rallies for the rest of the week. We think that quick turns can be made on the share of industrials, but would buy rails on further decline.

J. R. Heintz & Co. wired R. B. Holdrege, the character of to-day's trading indicates a weaker technical position than we anticipated. While we have recently expected a lower market, the character of to-day's trading indicates a weaker technical position than we anticipated.

Law provides fixed rate for carrying freight in car lots for short distances. Rate of 48 for transporting a car ten miles being provided regardless of character of freight.

Margin calls will likely cause a good deal of irregularity in the early trading to-day and we expect to see further weakness manifested throughout the list. At the same time the technical position of the market has been materially strengthened by the events of the week. The market opened to the right kind of support is likely to make its appearance when short covering would bring about a decided rally. We do not, however, look for any immediate resumption of the bull movement, but rather expect the market to remain in a trading position, backing and filling around present levels for a while pending a more definite idea as to the attitude of the important interests. For our part we believe that there has been no change in the bull program and consequently believe that on all drives the leading issues, we think stocks may be sold for fair profits. Should the market open unexpectedly strong, however, and advance sharply during the early trading, we think stocks may be sold for a turn. We look, however, for very good support now in the Hill issues, and St. Paul, Locomotive and Steel are also receiving good support, but we do not look for any early upward movement in the industrial list.—Town Topics.

Bank of England Statement. LONDON, Sept. 17.—The weekly statement of the Bank of England shows the following changes: Total reserve, increased..... \$508,000. Circulation, decreased..... \$72,000. Bullion, increased..... \$39,724. Other securities, decreased..... \$9,000. Public deposits, decreased..... \$27,000. Government securities unchanged..... \$61,000. Notes receivable, increased..... \$42,000. The rate of discount on the bank remained unchanged at 2 1/2 per cent.

On Wall Street. Charles Head & Co. to R. R. Bondgard; Prices again faded away in to-day's stock market under a combination of liquidation and aggressive bear pressure, which affected the active list generally. Losses of from one to three points were shown in the leading issues, the execution of stop orders frequently accelerating the declines. Good support was introduced in the early trading, but it appeared as though the selling movement had culminated, but the continued absence of aggressiveness on the bull side encouraged a new bear attack, which was successful in dislodging considerable amounts of weakly held long stock. Indefinite rumors of trouble were freely circulated, but had no foundation, as far as could be learned, and were ascribed to bear inspiration. A decision of the Michigan State Supreme Court upholding the constitutionality of a freight rate law enacted in 1872 was utilized as a bear argument, but well informed opinion was that the decision is unimportant so far as its bearing on present day controversies is concerned. Dividend reductions by the wholesale in both the industrial and railroad lists as a result of the failure of general business to improve as rapidly as had been anticipated were freely predicted, and the scare which has recently developed as to the political outlook was renewed by alleged statements from various leaders, indicating considerable apprehension as to the result. There was little attempt to check the selling, which in-

creased in volume in the final dealings, and the closing was weak at about the lowest level.

Marshall, Spader & Co. wired to J. G. Beatty, 14 West King-street, the following: To-day's market developed no resisting power of an impressive character, but the early trading included some covering, which held the active issues rather above yesterday's closing for a while. The influences most under discussion were not extremely important, but the lack of support to the recent market leaders was considered bullish and this stock should be bought on all these drives for quick turns. On the whole, however, we do not look for the market to enjoy anything but temporary rallies for the rest of the week. We think that quick turns can be made on the share of industrials, but would buy rails on further decline.

J. R. Heintz & Co. wired R. B. Holdrege, the character of to-day's trading indicates a weaker technical position than we anticipated. While we have recently expected a lower market, the character of to-day's trading indicates a weaker technical position than we anticipated.

Law provides fixed rate for carrying freight in car lots for short distances. Rate of 48 for transporting a car ten miles being provided regardless of character of freight.

Margin calls will likely cause a good deal of irregularity in the early trading to-day and we expect to see further weakness manifested throughout the list. At the same time the technical position of the market has been materially strengthened by the events of the week. The market opened to the right kind of support is likely to make its appearance when short covering would bring about a decided rally. We do not, however, look for any immediate resumption of the bull movement, but rather expect the market to remain in a trading position, backing and filling around present levels for a while pending a more definite idea as to the attitude of the important interests. For our part we believe that there has been no change in the bull program and consequently believe that on all drives the leading issues, we think stocks may be sold for fair profits. Should the market open unexpectedly strong, however, and advance sharply during the early trading, we think stocks may be sold for a turn. We look, however, for very good support now in the Hill issues, and St. Paul, Locomotive and Steel are also receiving good support, but we do not look for any early upward movement in the industrial list.—Town Topics.

Bank of England Statement. LONDON, Sept. 17.—The weekly statement of the Bank of England shows the following changes: Total reserve, increased..... \$508,000. Circulation, decreased..... \$72,000. Bullion, increased..... \$39,724. Other securities, decreased..... \$9,000. Public deposits, decreased..... \$27,000. Government securities unchanged..... \$61,000. Notes receivable, increased..... \$42,000. The rate of discount on the bank remained unchanged at 2 1/2 per cent.

On Wall Street. Charles Head & Co. to R. R. Bondgard; Prices again faded away in to-day's stock market under a combination of liquidation and aggressive bear pressure, which affected the active list generally. Losses of from one to three points were shown in the leading issues, the execution of stop orders frequently accelerating the declines. Good support was introduced in the early trading, but it appeared as though the selling movement had culminated, but the continued absence of aggressiveness on the bull side encouraged a new bear attack, which was successful in dislodging considerable amounts of weakly held long stock. Indefinite rumors of trouble were freely circulated, but had no foundation, as far as could be learned, and were ascribed to bear inspiration. A decision of the Michigan State Supreme Court upholding the constitutionality of a freight rate law enacted in 1872 was utilized as a bear argument, but well informed opinion was that the decision is unimportant so far as its bearing on present day controversies is concerned. Dividend reductions by the wholesale in both the industrial and railroad lists as a result of the failure of general business to improve as rapidly as had been anticipated were freely predicted, and the scare which has recently developed as to the political outlook was renewed by alleged statements from various leaders, indicating considerable apprehension as to the result. There was little attempt to check the selling, which in-

creased in volume in the final dealings, and the closing was weak at about the lowest level.

Marshall, Spader & Co. wired to J. G. Beatty, 14 West King-street, the following: To-day's market developed no resisting power of an impressive character, but the early trading included some covering, which held the active issues rather above yesterday's closing for a while. The influences most under discussion were not extremely important, but the lack of support to the recent market leaders was considered bullish and this stock should be bought on all these drives for quick turns. On the whole, however, we do not look for the market to enjoy anything but temporary rallies for the rest of the week. We think that quick turns can be made on the share of industrials, but would buy rails on further decline.

J. R. Heintz & Co. wired R. B. Holdrege, the character of to-day's trading indicates a weaker technical position than we anticipated. While we have recently expected a lower market, the character of to-day's trading indicates a weaker technical position than we anticipated.

BANK CE ESTABLISHED 1867. \$10,000,000. OVER 100,000,000. TORONTO: 100 King St. W. (197 Yonge St.)

Winter Wheat Seeding Delayed by Drought

Markets Are Easier For Coarse Grains, But Wheat Options Are Steadily Firm. World Office Thursday Evening, Sept. 17. Liverpool wheat futures closed today 1/4 to 1/2 lower than yesterday, and corn 1/4 to 1/2 higher.

At Chicago Sept. wheat closed 1/4 lower than yesterday. Sept. corn 1/4 lower, and Sept. oats 1/4 lower. Winnipeg car lots today: Wheat, 63 1/2; corn, 42; oats, 48.

Receipts of farm produce were 1000 bushels of grain, 30 loads of hay and two loads of straw, with several loads of potatoes. Wheat—Four hundred bushels sold at 80c. Barley—Three hundred bushels sold at 65c to 55c. Oats—Three hundred bushels sold at 44c to 48c.

ST. LAWRENCE MARKET. Receipts of farm produce were 1000 bushels of grain, 30 loads of hay and two loads of straw, with several loads of potatoes.

Prices of wheat below are for first-class quality; lower grades sell at correspondingly lower quotations. Hay, car lots, ton, \$10.00 to \$10.50. Potatoes, car lots, bag, 70c to 75c.

GRAIN AND PRODUCE. Prices quoted are for outside points: Winter wheat—No. 2 white, 92c bid, new; No. 2 red, 92c bid, new; No. 2 mixed, 91c bid, new.

Chicago Market. J. P. Bickell & Co. report the following fluctuations at the Chicago Board of Trade in August: Wheat—Sept. 1.01 1/4, 1.02 1/4, 1.03 1/4, 1.04 1/4.

Chicago Gossip. J. P. Bickell & Co. say at the close: Wheat—Sept. 1.01 1/4, 1.02 1/4, 1.03 1/4, 1.04 1/4. Corn—Sept. .70, .71, .72, .73, .74.

Abattoir Company Limited, Toronto

Fresh Meats, Poultry and Butter. DEALERS IN. 70 CARS AT CITY YARDS QUALITY GENERALLY POOR. Prices Lower for Common Grades—Sheep, Lambs, Calves Are Steady—Hogs Firm.

Receipts of live stock at the City Market on Thursday, as reported by the railways, were 70 cars loaded, composed of 867 cattle, 1668 hogs, 118 sheep and lambs, and 73 calves.

Not many export steers were on sale, and any that were offered were not first class and sold from \$4.30 to \$5. Bulls are quoted at \$3.10 to \$4.25. McDonald & Halligan sold 5 cattle, 1175 lbs. each, at \$5; and Maybee, Wilson & Hall, 120 lbs. each, at \$4.80.

NEW YORK, Sept. 17.—Butter—Easy; unchanged. Local business is large and there is a large short interest outstanding. We believe on any further decline may corn be a benefit to the market.

LIVERPOOL, Sept. 17.—Clothing—Wheat—Spot, strong; No. 2 red western winter, 10 1/2; No. 2 white, 10 1/2; No. 2 mixed, 10 1/2.

CHICAGO, Sept. 17.—Cattle—Receipts, 6000; market weak; steers, \$4.90 to \$5.70; hogs, \$3.25 to \$3.25; calves, \$3.25 to \$4.40.

NEW YORK, Sept. 17.—Flour—Receipts, 33,247 bbls.; exports, 5361 bbls.; sales, 8200 bbls.; market steady. Rye flour, No. 2, 1.02 1/4; No. 2, 1.02 1/4; No. 2, 1.02 1/4.

CHILD DIES ON TRAIN. The infant child of Mr. and Mrs. Livingstone, 686 East Queen-street, died on the train from Lindsay to Toronto Wednesday.

CARELESS DIRECTORS ALLOWED COMMISSION

So Says Counsel Hunter in Telling of the Late Manager's Agreement With Sovereign Fire.

Interesting evidence on the organization of the Sovereign Fire Insurance Company was given yesterday in the suit of the company against Addison Hoover for the repayment of commissions paid him.

Thomas Baker, London, vice-president of the company, declared that since January, 1906, he had sold shares for the company at a premium of \$15, the whole of the \$15 reaching the company.

Cyrus A. Birge, president, testified that he did not know till the trial began that Mr. Hoover had presented rebates and stock to the provisional directors. Wallace Nesbitt, K.C., had given an opinion to the directors on the policy of the company in selling shares thru Mr. Hoover.

W. H. Pike, shareholder, was present at an organization meeting in 1906, and did not hear an agreement read to pay Mr. Hoover commissions on stock.

A. F. Webster subscribed for stock in October, 1906. He became a director. The fire company was an outcome of the life company. It was an idea which originated with Mr. Hoover. Mr. Webster heard the agreement as to commissions read at the organization meeting.

At that same meeting Mr. Hoover was presented by the directors with a cabinet of silver.

W. H. Hunter, solicitor for the company, testified that the expenses of the Sovereign Fire Insurance Company shortly after its organization were in the ratio of 267 per cent. of its premium income.

Without Parallel. "Is that an unusual expense for a company at its inception?" asked Justice Latchford.

"I don't think you'll find a parallel to it anywhere," said Mr. Hunter.

After Mr. Hunter learned that the commission had been raised from \$8 to \$8 per share he had a stormy interview with Mr. Hoover.

"I wanted Mr. Hoover to go back to the \$6 arrangement. The \$8 contract meant plain ruin to the company. I urged him to get back on safe ground. I pointed out that the shareholders would point to the heavy expenses and the whole thing would be 'ripped up,' he said.

He had been consulted by Mr. Hoover previous to the organization of the company. He received his instructions from Mr. Hoover, but was paid by the company. If witnesses should testify the agreement for Mr. Hoover to be paid \$8 per share commission was read out by him as he was in error. It was utterly impossible. The possibility of error was eliminated. The difference was important enough for the man who understands the question.

G. H. Watson, K.C., counsel for Hoover, asked witness if he was aware that his conduct in the present proceedings was unprofessional, inasmuch as he was giving confidential information from clients without their consent. Witness declared that such was not the case, as he was acting under the mandate of a meeting of shareholders.

Good Man, But—Mr. Hunter described Mr. Hoover as

a man of valuable qualities for pushing a company, but he was not reliable as to certain circumstances in connection with these proceedings. He held this view since the fall of 1906. From 1902 to that time he regarded Mr. Hoover as a reliable and straightforward business man.

Witness was paid \$500 by the company in two cheques from Mr. Hoover long after the company had paid the amount to Mr. Hoover.

Witness had taken the same side as Mr. Wilson. They were very active to prevent the company going wrong.

Mr. Watson: "Like the York County Loan?"

"Perhaps that was a good object lesson to a man who was connected with it of a company going to disaster."

The friction between Wilson and Hoover began early in the summer of 1906. He got in close touch with Mr. Wilson and Mr. Hoover, and in October, 1907, witness had to take a stand.

"When it was proposed to pay Mr. Hoover a commission on the subscription, it was a reversal of the policy of the company. When \$8 per share was mentioned he considered the sum was too large, but he did not feel called upon to say anything to the directors. As a result of Mr. Hoover's efforts in 1906 there was a large number of subscriptions received. The fact, if it were a fact, that the trustees of the projected Empire Company had agreed to pay a commission of \$20 per share would not affect his opinion that \$8 was too much.

Directors Indifferent. He did not draw up the second agreement in which the commission was raised from \$8 to \$8. He objected to the policy of the directors in making that agreement. He considered the directors "were totally indifferent to the interests of the company."

Witness expressed the opinion to Mr. Hoover that \$3 or \$4 would be a fair amount of commission per share. Mr. Hoover's services at that time, if apprised by him, would be nil under these circumstances.

He did not object to the contract with wrongful intention. "I will say that at least three of the provisional directors had no financial interest in the company," said Mr. Hunter.

Witness said that one of the provisional directors would have "to explain to the shareholders why they were not a shareholder in 1905, 1906 or 1907."

Will Begin at Once. New Railway Commissioners Will Have Lots to Do.

OTTAWA, Sept. 17.—(Special.)—The newly appointed members of the railway commission, D'Arcy Scott, Hon. Thomas Greenway and Prof. MacLean, are expected to assume their new duties at once.

Mr. Scott, the assistant commissioner, will have the same functions as the chairman, Justice Mabee, and take place in his absence or when the commission is divided up for hearing cases. He will be senior to the present deputy chief, Hon. Mr. Bernier.

There is no extra room in the present railway commission building, and it is understood to be the intention to at once add three stores.

WOODBRIDGE MAN WEDS. The marriage of Bert G. Harris, son of Reeve J. E. Harris of Woodbridge, to Miss Mabel Watson of Orangeville, took place at the home of the bride's parents on Wednesday. The young couple, who are very popular, will reside in Woodbridge.

The honeymoon will be spent in Detroit and other western cities.

York County and Suburbs

CENTRE YORK LIBERALS NOMINATE DR. McLEAN

No Other Name Was Suggested—West Toronto Man Injured—Tordmorden Men Meet

THORNHILL, Sept. 17.—Dr. P. D. McLean, who up to the day of dissolution was the federal member for Centre York, was unanimously re-nominated here to-day by the members of the constituency assembled in convention at Victoria Hall. The attendance was less than half a hundred.

The candidate was greeted with enthusiasm and it was admitted by the chairman and by Dr. McLean himself that the Liberals had a very hard fight ahead.

Walter Scott, the chairman, explained that the smallness of the attendance was due to the fact that the result of the convention was a foregone conclusion. It was encouraging to see so many of the old warriors present.

Mr. Wallace was, he believed, an energetic man and a jolly good fellow but let him have the riding with all the political help he could and he couldn't change the political allegiance of a Roman Catholic. The Liberals must not lose sight of the fact that A. F. Wilson of Markham moved Dr. McLean's nomination and it was agreed to at once. The doctor was cheered. He felt sure that the government would be returned. The Fielding tariff, he declared, did not ring the money out of the people. The British preference to-day had even the approval of the Conservative party.

E. G. Graham, Liberal candidate in Peel, said that the government was to be misrepresented in Peel by a Conservative. He looked for a change in the government. The situation and personal surroundings were a more potent factor than spouting from a platform. The woman, too, played a part in the riding. One had her husband over by telling him that she would send him to the barn for two weeks to sleep if he did not vote for Mr. McLean.

Already he could hear the cry that Sir Wilfrid was a French-Canadian and a Roman Catholic. He deplored this cry of race and religion. Fred Underhill of Aurora said it was proposed to make the Laurier picnic at Jackson's Point, Sept. 28th, the greatest on record.

H. H. Dewar, K.C., was in splendid form and his defense of the government eloquent. J. Walter Curry, K.C., said he had enjoyed his campaign in East York. In his campaign the candidate worked against him. He would tell in one place that he was a Catholic, in another that he was an Orangeman, in another that he was a house fighter. Mr. Curry wanted his experience in the last campaign to illustrate the necessity of effective organization and incessant work.

EARLSCOURT. Local Catholic Association Hold Inaugural Meeting.

EARLSCOURT, Sept. 17.—The first meeting of the Catholics of the Earlscourt district was held on Tuesday evening last at 8 o'clock at the residence of Mr. and Mrs. McLure, Donairton Heights, Earlscourt, Mr. McLure presiding.

There was a large attendance, considering that the notice was a short one. A chairman and an energetic working committee were elected.

The proceedings were a splendid triumph, and several practical and interesting speeches were listened to with deep attention.

It was a subject for considerable comment, namely the large number of Catholics in proportion to the population of the district.

Thru the kindness of His Grace, the Archbishop, the children are conveyed to a van to and from school (St. Cecilia's, West Toronto), he had not had time to scrutinize the signatures to the petition.

The board, which goes on the principle of giving the utmost publicity and opportunity for investigation on all annexation questions, thereupon adjourned for a couple of weeks.

PICKERING. Village Is Handicapped by the Poor Railway Service.

PICKERING, Sept. 17.—A gentleman from the city was inquiring yesterday for a house and lot, as he would like to live here. The first question he asked was, "What kind of a railway service have you got?" Upon reporting this, he was told to have to go elsewhere. Pickering citizens are suffering a handicap in the poor service given.

Mrs. Alex. Rogers of Glenagarry had the misfortune to find and break a rib this week while visiting at Mr. Clark's Rogers'.

A most successful social was held by the Ladies Aid, Maple Hill Farm, last Tuesday evening. About 250 was taken in.

WEST TORONTO. Engineer Seriously Hurt, But Will Not Lose Eye Sight.

WEST TORONTO, Sept. 17.—A serious accident occurred at the Comfort Soap Works about 9 o'clock this morning, when by the explosion of a safety valve on the engine, Josiah Wedgwood, the engineer, was severely scalded about the face, neck and shoulders by the escaping steam. Dr. Clendennan

THE "SOVEREIGN" IS UNAPPROACHABLE

THE "SOVEREIGN" HOT WATER BOILER IS UNAPPROACHABLE IN ITS ABILITY TO SAVE COAL OUT OF EVERY TEN TONS OF COAL, ORDINARILY USED, IT WILL SAVE FROM ONE TO THREE TONS.

The boilers that are claiming a larger first section imitate the "Sovereign" in one point only.

The "Sovereign" is new in every integral part of its construction. All imitations are old pattern boilers with a larger first section added.

The "Sovereign" has twenty points of exclusive merit and to get all the advantages of improved boiler construction you must get the genuine "Sovereign."

was called and after dressing his injuries back and front and belt, made from fine soft Saxony finished imported English tweed, in a dark mixed ground with fancy stripe effect, plain knee pants, sizes 25 to 28—\$3.00 29 and 30—\$3.50.

Ed. Burgo, the assistant engineer, also had his arms scalded, but after receiving medical treatment he was able to proceed home.

Sidney Haven, the young son of J. J. Haven of Franklin-avenue, was climbing a tree when he fell and broke his right forearm.

Arthur Spence of 138 East Annet-street left this morning for Denver as a delegate to the Ogdensville convention.

The property committee of the Collegiate Institute Board met to-night and arranged to have the topographical plan submitted to Mr. Wilson of Toronto for his report.

Golden Star L.O.L. No. 900 met last night and presented W. Bro. William Johnson, the charter master of the lodge, with a gold-headed cane. Mr. Johnson on last 12th of July celebrated his golden jubilee as an Orangeman. It was past masters' night, and the W.M., Dr. R. H. Hopkins, invited Mr. Johnson, the lodge's first master, to preside. The other officers were filled by past masters.

NORTH TORONTO. Council Cut School Board Estimates Nearly in Half.

NORTH TORONTO, Sept. 17.—The council meeting to-night was a lively one. The school board attended in a body with a proposition for the issue of debentures to the amount of \$13,000 for the building of an addition of four rooms to the Eglinton School and two rooms to the Davisville school. Chairman Le Cras stated that the board had gone into the question and had come to the conclusion that this

idea was better than the building of a school at Bedford Park. Both schools were overcrowded beyond legal permission.

Councillor Parke favored a school at Bedford Park, while Councillors Home, Brownlow and Murphy did not favor the board's plan of four rooms of an addition to the Eglinton school and Councillor Douglas said that the town should not be called upon to make provision for the dim and misty future. The council decided that two rooms to each school would be sufficient.

Mayor Fisher reported that there are \$40,000 of unpaid debentures already. The parallel roads will cost about \$20,000, and if the town would spend another \$20,000 for schools the amount would be considerable. "Where will the end be to debentures?"

The "parallel five roads" committee reported progress.

The secretary of the board of control has notified the council that Tuesday, Sept. 22, at 11 a.m., is the date and hour fixed for a conference with a committee of the town council to discuss the all-absorbing question of annexation.

Town Solicitor T. A. Gibson submitted 16 local improvement bylaws for consolidation.

The proposed meeting of the Ratepayers Association for Saturday evening has been postponed until Saturday week, Sept. 26.

Chief Constable Collins has a telephone installed at his residence for the convenience of the townspeople. His number is North 294. The phone number of the town hall has been changed and is North 618.

THE ROBERT SIMPSON COMPANY, LIMITED

H. H. FUDGER, President; J. WOODS, Manager. Friday, Sept. 18

Saturday's Special Attractions for Men

\$12.00, \$14.00 and \$15.00 Fall Overcoats for \$5.95

THE Men's Store carries everything men of to-day want to wear—Suits, Coats, Hats, Boots, Shirts, Ties, Collars, Underwear. It is a convenient place for a man to shop right on the corner of Yonge and Richmond Streets. Its standard of quality is high; its prices are always moderate and reasonable.

Saturday is the day dedicated particularly to men, the day we make specially attractive, the day men do their shopping. See what we have arranged for this Saturday.

We have bought the overcoats from Canada's foremost coat manufacturer—fall overcoats, short and long, black and grey. They'll go on sale to-morrow as the leading attraction of Simpson's Men's Store—Two hundred of them.

Men's Fine Grade Fall Overcoats, consisting of imported black vicunas, with silk facings extending to bottom of coat, made in correctly fashioned Chesterfield style, fancy English tweeds, with plain and silk velvet collars, in three-quarter length, also imported whipcord effects, in short boxy style; the colorings are in plain shades and fancy light and dark grey mixtures, being especially adapted to fall coats. They are carefully tailored and made with broad shoulder effect, neat shapely lapels and close fitting collars, distinctive models of decidedly smart appearance. On sale Saturday 5.95

Boys' Two-Piece Norfolk Suits, with box pleats back and front and belt, made from fine soft Saxony finished imported English tweed, in a dark mixed ground with fancy stripe effect, plain knee pants, sizes 25 to 28—\$3.00 29 and 30—\$3.50.

Boys' English Fawn Covert Cloth Reaser Coats, made up double-breasted style, with double row of gilt buttons, finished with fancy emblem on sleeve, sizes 3 to 9 years, special—\$4.50.

Get Warmer Underwear To-Morrow
