ROOSEVELT WILL BE FORCED TO OPPOSE TAFT FOR PRESIDENT

Relations Between the President and His Predecessor Are Strained—State Fight May Bring Climax.

IS DETERMINED TO UPHOLD HIS POLICIES

OSTER BAY, Aug. 18.—Theodore Roosevelt spent today in what was probably the most important political conference he has held since he left the White House.

Wm. Loeb, Jr., collector of the port of New York; Lloyd C. Griscom, chairman of the New York Republican committee; Representative Wm. H. Calder of Brooklyn; Frederick J. H. Kracke of Brooklyn; and Representative W. W. Cooks of Mr. Roosevelt's home district took part in the conference.

From what was said by some of the visitors it was learned that the ex-president and his friends have agreed on a plan of action which will hold until the situation shapes itself more clearly. Briefly stated, it is this: Roosevelt is to stand aside in the New York State campaign, and let the old guard fight its own fight.

Doesn't Want Faction Fight.—Through some of today's visitors it was learned just why Mr. Roosevelt had decided to keep his hands off. He feels that the Republican state committee, which is endeavoring to elect a temporary chairman of the Saratoga convention—a position he had agreed to accept much against his will, with the knowledge that he would be held responsible for election results—acted in a manner that would make further activity on his part look as though he were leading a factional fight against the administration.

It was said that Mr. Roosevelt does not deem it either wise or proper to permit himself to become involved in such a factional fight, and that he will not go to the convention or take any part which would render him responsible for its results.

One important proviso was emphasized at today's conference. Those with whom he talked were made to understand clearly that Mr. Roosevelt reserves to himself the right to jump into the fight at any time he may see fit, and that he would do so with extreme reluctance.

From what was said after the conference, it can be gathered that Mr. Roosevelt believes the present attitude of the administration is hostile to him, and that an open rupture may result. In such a case, he feels that he may be compelled at some juncture to exert his influence against the administration.

Will Wait Till 1912.—Those who are closest to the ex-president believe he will do everything in his power to avert such a crisis during the fall campaign. They believe he prefers to postpone the struggle until the 1912 campaign, when the question of the nation's policy for the next four years is to be brought before the entire country, and when a successor to Taft is to be elected.

Should such an issue between Roosevelt and the administration present itself at that time, it is the firm belief of Roosevelt's intimates that he will be in the fight to the end, he will stake.

THE OUTLOOK

REPORT OF ARBITRATORS MAY BE READY TO-NIGHT UNANIMITY HOPED FOR

Board Had Three Sessions Yesterday and is Scheduled to Meet This Morning—Mr. Mullarkey Leaves the City, But Will Be Back.

The report of the street railway board of conciliation may be made public to-night and it may be unanimous—that is to say, of the men and the company will agree in their findings. Judge Barron, chairman of the board, said so late yesterday afternoon.

The fact, however, that J. P. Mullarkey, who represents the company, left the city last night by the G. T. R. train for the east may or may not be significant. No one who knew his destination seemed willing to say it was no longer necessary to the conduct of the board. Indeed, the prominent part played in the negotiations this week by President Mackenzie would seem to indicate that he is practically representing the company now.

Still Judge Barron's assurance of Mr. Mullarkey's return can be taken as a sign that the matter is settled, and that they will get the advance in wages they have pressed for.

Hopes for Unanimity.—The board had three sessions yesterday, from 11 to 1, from 3 to 5, and for about an hour again in the evening. None of the conciliators would make any definite statement as to what transpired at these sessions, but Judge Barron, when seen about six o'clock, said the situation continued "hopeful."

"But I must be careful," he remarked, with a laugh, "or you will be nicknamed a 'hoper.' I shall have to find a new word to use."

He still thought, as he had all along, that there would be no strike. He laid stress on the importance of bringing in a unanimous report, if it could possibly be managed. In the case of a majority report, as with the Grand Trunk conciliators, dissatisfaction and disagreement were very likely to follow. It was his intention that the board should begin at 10 o'clock this morning and keep at work until something had been agreed upon, and he was confident that a report of some sort, whether unanimous or majority, would be ready late this evening or early to-morrow morning. The report would be mailed to Ottawa, handed to the men's committee, and given out to the newspapers at the

earliest possible moment.

A. C. Macdonnell Calls.—The judge also emphasized the fact that "report" and not "award" is the correct expression. An award is something binding on both parties, while a report is only a recommendation.

Many citizens had called on him in the morning. The judge said the course of the day, said the judge, to urge peace. Among their number was Claude Macdonnell, M.P. for South Toronto, who had entered a very reasonable appeal on behalf of the men and of the citizens in general.

"But I can't do things just because I'm asked to," said the judge. He and the board had to make the decision according to the facts in the case, not according to their individual inclinations.

In the evening session, the judge walked down to the Union Station with Mr. Mullarkey and saw him off on the 10:15 Montreal train. The judge assured the World that he would be back in the morning.

At the committee rooms of the union last night there was nothing new in the situation to hand out. When The World reporter called, Business Agent Joseph Gibbons and a few friends were quietly chatting about things in general.

"Is there anything new to report?" "Nothing," said Mr. Gibbons. "Have you had any word from the board?" "No, not a word."

HE WAS MURDERED BY A PROCESS PATIENT

Deliberately Shot When He Enters House to Give Him Attendance—Strange Tragedy Near Ottawa Murderer Claims Accident.

OTTAWA, Aug. 18.—(Special).—The people of the Village of Vars, eighteen miles south of Ottawa, are mystified over a fatal shooting which occurred there to-day, the victim being Dr. W. A. Empey, for the past six years a physician practicing at Vars.

Alfred Blondin, a French-Canadian laborer, who did the shooting, declares that it was accidental, but the doctor, before he died, declared that Blondin had shot him deliberately, and without provocation.

The shooting occurred at 12:45 p.m., and at 4:20 Empey died at the home of L. Fetzey, a neighbor. Two hours later, Blondin, who had remained in the house after the shooting, and whom the people of the village were afraid to molest, was placed under arrest by Constables Alex. McDonald and Sheriff Hall. He will be taken to the county jail at L'Orignal to-morrow.

Just before he died, Dr. Empey made the following statement: "I was called to see a patient at 12:45 p.m. and at 4:20 Empey died at the home of L. Fetzey, a neighbor. Two hours later, Blondin, who had remained in the house after the shooting, and whom the people of the village were afraid to molest, was placed under arrest by Constables Alex. McDonald and Sheriff Hall. He will be taken to the county jail at L'Orignal to-morrow."

Doctors' Dying Statement.—"Blondin sent for me as a medical man. When I got there, Blondin's son-in-law told me to go up stairs. As I approached the top of the stairs, Blondin drew a gun and fired. He shot me without any provocation, cause, or appearance of accident."

"Blondin knows the gun was loaded," the dying man was asked. "I don't know," were the doctor's last words.

Blondin, subsequent to his arrest, said: "The shooting was an accident. I was cleaning the gun, and it went off. I am sorry the doctor is dead."

Mrs. Blondin, who was not at home when the shooting occurred, said: "Alfred had been a little ill with lambs back and cold. I had been away from home all day, and when I saw my husband, he said the shooting was an accident. He was very nervous, because he and the doctor were friends."

Walked From House.—Blondin, Dr. Empey's neighbor, said: "Blondin's son-in-law told me to go up stairs. As I approached the top of the stairs, Blondin drew a gun and fired. He shot me without any provocation, cause, or appearance of accident."

Blondin, who is a veteran of the Franco-Prussian war, remained indoors, and as he was known to possess a couple of guns, and to be a dead shot, no one would undertake to approach him. About 6 o'clock he came out to wash his hands, and when the officers summoned him to accompany them, and produced handcuffs, he said: "Don't put them on. I will come with you. I am sorry I shot the doctor."

About 6 o'clock he came out to wash his hands, and when the officers summoned him to accompany them, and produced handcuffs, he said: "Don't put them on. I will come with you. Know of No Motive.—Dr. Empey, who was 47 years old, was born at Williamsburg, Dundas County. He was a graduate of Queen's College. He had practiced for six years at Vars, and previous to that had a practice at Spencerville, Ont.

Empey and Blondin were well known to one another. Only this morning, the physician had returned from an arrangement with Blondin to clean his wheel. Among the villagers, the belief is that if Blondin pulled the gun on the doctor, it was because he had been in a moment of mental aberration, as no motive for the murder can be discovered.

An inquest will be opened to-morrow.

A CENSUS ESTIMATE

Population of Canada is Figured at Nearly 7,500,000.

OTTAWA, Aug. 18.—The census and statistics branch estimates that on March 31, when the fiscal year closed, Canada had a population of 7,488,781. It being estimated that there was a growth of 308,000 over the year previous. In detail the department estimates the population as follows: Maritime Provinces, 1,060,678; Quebec, 2,124,834; Ontario, 2,687,861; Manitoba, 496,111; Saskatchewan, 377,890; Alberta, 321,857; British Columbia, 321,733; unorganized territories, 58,068. Immigration not shown by provinces, 10,862.

These calculations indicate that the census, which will be taken in June next, will show Canada to have a population of between eight and nine million.

PRIZE FIGHT ANB LAW

Judge Declares No Legal Case Against Exhibitors of Pictures.

MONTREAL, Aug. 18.—(Special).—Crown Prosecutor Walsh under instructions from the attorney-general of the province applied to-day for warrants against those who had given alleged exhibitions of the fight between Jeffries and Johnson. Judge Lacombe refused the application, and declared no legal case could be made out against the exhibitors of the pictures, unless the law is arranged by the legislature. It is now likely the original film will be shown in Montreal. Prizefighters are tolerated in the suburbs. Last night a 15-round affair was pulled off in Massouche. Thus far no legal interference has been sought.

The Greatest Transcontinental Train Starts From Toronto.

The Canadian Pacific has millions of cash in its treasury—sometimes it's in Wall-street.

The requirements of the company in the way of double tracks, sidings, car and locomotive equipment, in this Province of Ontario (for local service) are many, but none of the spare millions are being devoted to that end. If a model line is being built from Midland to Peterboro it is to move western grain. To double track from Toronto to Smith's Falls would only benefit Ontario; to shorten the route from Ottawa to Toronto would help Toronto only; therefore let these two propositions stand!

To hire more telegraphers, switchmen, put in more sidings, to give more train mileage, to have spare cars available, to give suburban service with commutation tickets, all these things are out of the question!

And to put an executive head in office at Toronto, with full power to do these things, with the power of making an appropriation to any of these ends, would be a crime against the supremacy of the Montreal magnates and their lordly pretensions! Ontario is a milk cow—that's all!

Ontario is and has been the fountain of most of the national progress in Canada, but for reasons not necessary to state just here the domination has come to Montreal and Ottawa. Ontario ideas, Ontario men and women are the backbone, have been the backbone, of the west.

But all the workshops and all the administration that has come to the Canadian Pacific from the growth of the west has been carried past Toronto to Montreal. Ontario can't even get her business handled!

Where does the real, transcontinental, train across the Canadian continent start? Not in the Windsor Station. It leaves Union Station, Toronto, every night, and goes by Sudbury, over the new line. Read the Montreal paper about Montreal and Vancouver, Montreal and Winnipeg, but go to the Union Station and see the Toronto-westward train go out at 10.10 p.m. It's the greatest transcontinental of them all! And yet it is delayed to the last! But there's no brag about it in the yellow-backed folder!

There are C. P. hotels in Quebec, in Montreal, in Winnipeg, in Vancouver—not an hotel in Toronto.

Melons for shareholders, lemons for Ontario.

But Toronto has two directors on the board. Did they ever meet a deputation of the board of trade or a shipper with a grievance? Have they offices accessible to the railway public? Who are they? What's their name, where to be found?

No, Ontario is infected with ideas in regard to public rights, its people think a little about politics, do not submit and are written down as cranks and as wild men on the tablets of the Shaughnessys and Haynes because they demand decent railway treatment, and the performance of the services that the railways were franchised to give!

And the freight jam at the junction that could have been prevented by hiring more men is still there!

Oh, you long-suffering, railway-ridden Ontarians!

TOO MANY GOOD SHOTS SPOIL THE PIE

Leading Prize Money Has to Be Divided Up, and Entries Fall Off in Later Stages of the Matches—Albertson Wins All-Comers' Aggregate.

LONG BRANCH RIFLE RANGES. Aug. 18.—(Special).—Weather and wind and light do not seem to out any figure this year, with the marksmen. They had "fifty-seven varieties" of everything to contend with to-day, but kept right on finding the centre of the target. The wind went clear around the compass, starting from a "5 o'clock" (southwest) and finishing up, after veering to the south, west, north and east, in the same locality. It rose and fell from near-gale to seephy. At times a shot would be fired at 300 yards, with 12 points left on the sights (40 feet) and the next shot would be fired with 12 points right—a variation of 20 feet allowance. The day was moistened by showers, heavy and light, and these would be attended by marked variations in light. The happy medium was a milky haze.

Still, there were more perfect scores made than on the previous days. One very remarkable exhibition was made

HOWARD WRIGHT

Of Ottawa, who, although only a boy, has already won many honors for marksmanship, and is surely headed for Bisley.

By Sergt. A. Martin, 103rd Regiment, Calgary, who scored 27 successive bullseyes on three ranges. In the first stage of the Tall-Brassy match, at 200 yards, he got a bull for a sighting shot, followed up with seven bulls on his score, and put on three more bulls as an extra surety in case there were other possibilities. He repeated this stunt in the Duke of Cornwall and York match at 600 yards, and again in the second stage of the City of Toronto match at 300 yards. So general has the high scoring become that the association is losing much money in entry fees that it would get under less extraordinary circumstances. Good shots who have always come well up on the average refrained from competing in the last stages of some of the matches and series because those who precede them have made such phenomenal scores.

Prize Money is Split.—The leading prize money, too, is much curtailed to the individuals, on account of so many ties for leading places. Where an individual should receive \$25 for first place, there are from six to a dozen with perfect series after the money, and the first six or a dozen prizes have to be bunched and split up amongst them.

The visiting marksmen seem to have much the better of the argument with the local marksmen. In the "all-comers' aggregate," although the latter has not been compiled, it appears there are only four locals in the money.

A Panama will last you three to four years. With the application of a little soap and water it can be made new again at will. Select Panama hats, made of imported straw, at \$3.75 and \$5, worth twice the price. Store open every evening.

HUDSON BAY IS NOT NAVIGABLE

That's the Report of Officers of the Government Steamer Which Has Just Returned.

HALIFAX, N.S., Aug. 18.—(Special).—The officers of the government S.S. Stanley, which arrived to-day from Hudson Bay, tell a story which throws a cold douche on the feasibility of that route as a highway between Canada and England.

According to the report of the officers, the bay is a tough proposition for any kind of craft at the most favorable period of the season, and had the Stanley not been an ice-breaker, the chances of her reaching Port Churchill would have been very slim.

On the way back the Stanley had to sail and forcing her way thru four miles of ice, and the ice at the time extended out into the bay as far as the eye could reach. She picked up the surveying schooner Thomy and towed her 1000 miles, and also a 12-inch hawser was used, it was parted by the strain caused by the ice.

The weather was never above freezing and sometimes at zero, and the high land was covered with snow. The winter begins in September and the ice begins to form solid again. It looks as though the Hudson Bay can never be used as a shipping route.

The steamer Earl Grey is now in the bay and is to return with the governor-general. She is a powerful ice-breaker.

MARTINEZ IN HANDICAP BUMPS HOME A WINNER

Horses Crowd in \$3,000 Feature at Saratoga—Steeplechase Jack Breaks Leg

SARATOGA, Aug. 18.—Martinez, heavily played at 2 to 1, easily won the Saratoga Handicap here today by five lengths. He had to be much the best to win for in the run down the back stretch he was pinned in on the rail and had to bump his way thru to get an opening. In the stretch he crowded Lovette, who in turn crowded Stangle and the result stand. Steeplechase Jockey Sullivan had his leg broken when his mount, a horse named through the fence. Jockey Kermath received a slight concussion when Sam Ball fell.

FIRST RACE—Handicap, all ages, \$500 added, 7 furlongs: 1. Martinez, 112 (Davis), 2 to 1, 4 to 5 and out. 2. Sir John Johnson, 129 (Archibald), 5 to 1. 3. Mary Davis, 110 (McGee), 9 to 2 to 1 and even.

SECOND RACE—Steeplechase, selling, 4-year-olds and up, \$400 added; about 3 miles: 1. Jimmy Lane, 138 (Allen), 6 to 5, 1 to 5 and out. 2. Boundrock, 138 (Patterson), 4 to 2 to 5 and out. 3. Time 1:18. Sam Ball fell. Profusion refused.

THIRD RACE—Trot Selling Stakes, 2-year-olds, value \$1500, 2:30, 1 mile: 1. Danger Mark, 190 (Garner), 9 to 10, 2 to 5, 1 to 5. 2. Helen Barber, 37 (Adams), 18 to 5, 7 to 5 to 10.

FOURTH RACE—The Saratoga Handicap, value \$3000, 3-year-olds, 11-3 furlongs: 1. Martinez, 112 (Davis), 2 to 1, 4 to 5 and out. 2. Sir John Johnson, 129 (Archibald), 5 to 1. 3. Mary Davis, 110 (McGee), 9 to 2 to 1 and even.

FIFTH RACE—Two-year-olds, \$400 added, 5 1/2 furlongs: 1. Rocky Hill, 100 (Koerner), 8 to 5, 3 to 5 and 1 to 4. 2. Early Story, 102 (Herbert), 30 to 1, 10 to 1 and 5 to 1. 3. Gavriel, 103 (Shilling), 10 to 1, 1 to 1 and 2 to 5.

SIXTH RACE—Handicap, mares, all ages, \$600 added, 1 1/2 miles, 1:45, 1 mile: 1. Oceanboat, 115 (Shilling), 6 to 5, 2 to 5 and out. 2. Check, 90 (Estep), 8 to 1, 2 to 1 and 4 to 5. 3. Field Mouse, 107 (Dugan), 9 to 2 to 1 and out.

FRIDAY MORNING, AUG. 19, 1910.

BETTERING CONDITIONS.

The fact that a majority of the board of control, speaking at the banquet of the Police Athletic Association, favored a weekly day off for the police, may be taken by that body as an indication of happier times to come. How many men, even those who have their evenings free, would care to be tied down to their work in such a way as to have only one day in a month that they could call their own?

And some readjustment of the working hours is also due the firemen, who, while they do get one day off in seven, are worse off than their police comrades in that they otherwise have no home life the remaining time. In every branch of the tendency is to reduce as much as possible the working hours, and the eight-hour day is an inestimable boon to hundreds of thousands. But the Toronto fireman who has a home of his own is lucky if he can be there half an hour at meal times. Indeed, this has become one of the biggest difficulties in getting men for the department, several new men having within the past few months dropped out for this reason.

In the larger cities across the line every effort is now being made to give the firemen and police relief in the way of working hours. It will have to be done in Toronto, too.

ALL POLES OR NONE.

Robert Street has added its murmur to those of Sunnyside-avenue in protest about an over-abundance of electric poles. Not a street in the city should be cluttered with these ugly makeshifts. But the private corporations have made the rule, and the city has no option but to follow it.

When the law can be made universal and all parties be compelled to bury their electric wires, the city will be glad to fall in line. The city cannot afford to put such a handicap on its business, however, as the extra expense of an underground system would entail.

When the people generally vote for public ownership the wires will go underground and there will be no poles on residence or any other streets. How many of the people who object to poles on their streets voted for expropriating the Toronto Electric Light Company?

A TRIP ABROAD!

The Montreal Star has a most illuminating article on the railways of the United States and the proposed increase of rates. It says the roads must prove their case; that if they'd been properly and economically managed, things'd have been different; that Union Pacific is earning nineteen per cent on the huge capital; that the railways have been exploited and manipulated from Wall-street and that there's been much juggling of figures, etc.

WHAT HAS THE MONTREAL STAR TO SAY ABOUT THE OVERCHARGES AND THE ENORMOUS PROFITS OF THE CANADIAN PACIFIC AND FOR ITS ILLEGAL RETURN TO SHAREHOLDERS OF FOURTEEN PER CENT, INSTEAD OF TEN PER CENT?

THERE ARE SO MANY CANADIAN NEWSPAPERS AIRING GRIEVANCES OF OTHER COUNTRIES TO THE NEGLECT OF THEIR OWN.

THE HORRORS OF A DILEMMA. A correspondent protests against the idea that Sir James Whitney could sanction the appointment of a man "totally incapacitated" to a position with a salary of \$1500 a year. He states that Mr. Crawford, so far from being totally incapacitated, never was better in his life, and is in possession of all his faculties and is in the very prime of life.

If this be the case, then it is very much blacker for Mr. Crawford than has been stated. No fair-minded man could claim a pension which is only payable on the ground of total incapacity, if he be not totally incapacitated. And if he declares he is totally incapacitated when he is in the prime of life, then the claim is an unscrupulous claim. In that case, Sir James Whitney will have to explain the presence of an unscrupulous man in the public service, and in what position of responsibility an unscrupulous man can be trusted.

Our correspondent also states what has already transpired, that Chief Thompson of the fire department testified he was quite satisfied with the work done by his subordinate, and he saw no evidence of incapacity.

Mr. Crawford appears to owe himself an explanation, even if he ignores his public reputation in this affair. It is a very grave charge to say that a man

who is not totally incapacitated claims a pension on the ground that he is totally incapacitated, when that is the ground upon which the pension is awarded, especially when the pension fund has real and pressing claims upon it.

If our correspondent clears Sir James Whitney of the charge of having appointed an incapacitated man as a public official, then the official is guilty of utterly unscrupulous conduct. Which horn of the dilemma will Mr. Crawford accept?

It appears to us as bystanders that this is a case where "honesty would be the best policy." Mr. Crawford should disappoint the Grits and resign the pension.

A CENTURY OF PEACE.

Towards the proposal to celebrate the centenary of peace between the United Kingdom and the United States there can be nothing but good will. When it was first mooted, a tendency appeared to limit the celebrants to the two English-speaking peoples of North America. Had this continued the anniversary of the Treaty of Ghent would have lost much of its international significance. The quarrels of relatives are proverbially more bitter than those of strangers in blood, and there have always been factors in the history of the mother country and the American Republic, making for antagonism rather than amity. This was inevitable and it was assisted by a series of incidents, each of which left an element of bitterness. It is, of course, easy to be wise after the event, but still the feeling cannot be avoided that on several occasions, notably the civil war that threatened to disrupt the Union, the course of British statesmanship was too much tinctured by the older diplomatic traditions. On the other hand, the methods pursued by the United States have not always been free from reproach.

Whatever regret may arise over the might-have-beens, it is a matter of genuine satisfaction that the better sense of the two great English-speaking peoples has prevailed and for quite a number of years has been steadily removing what causes of difference remained. For this entirely gratifying proof of the victory of reason over unreason, full acknowledgment is due the men on both sides the Atlantic who have labored with tongue and pen to advance the cause of peace. They have been aided by the identity of interest and policy which needs no formal alliance to ensure material support, but the good work they have done was none the less invaluable. No great, certainly no insurmountable, barrier now remains against the entrance by the United Kingdom and the United States into a league of perpetual friendship and united effort to inaugurate a real era of peace and good will among all nations. Together they include close upon one hundred and forty millions of European blood, representing the most advanced stage in free self-government yet reached. Their voluntary determination to apply the great precepts of the Christian religion to the conduct of their international intercourse would be the most signal commemoration possible of the century of peace.

BRITISH LICENSE DUTIES AND GENERAL TAXATION.

When Mr. Lloyd George included in his famous budget large increases in the license duties imposed on hotels and public houses, he probably did not foresee that part of that additional burden on the liquor trade would be transferred to the general body of ratepayers. That, however, will be the result of a decision of the court of appeal in a test case coming before it from the divisional court. A Shore-ditch public house was rated at £260 per annum gross and on the old scale the license duty was £35. Under the new scale the duty payable was raised to £130, and the point was then taken that the licensee became entitled to have his premises revalued for assessment purposes. The judges held that the increase on the face of it reduced the value of the premises and therefore that revaluation was necessary. As taxation in Britain is levied on the actual rental received or, if the premises are in the occupation of the proprietor, on the sum which a tenant would give were they offered for rent, the view of the judges appears to be justified, since the higher the license duty, the less rent an intending tenant would be willing to pay. Unless the law is altered, the ruling of the court of appeal will entail in many cases a material reduction in the rateable values, and this again will involve an advance in the general rate. As the tax rates in many British cities and towns run to pretty high figures, the judgment will give the liquor dealers a considerable measure of relief.

Military men declare that the new peep-sight adds ten points to a man's hitting capacity. The Mail and Empire should have one adjusted immediately.

Foreigners have invested \$962,418,502 in Canada, and when Canadians have any money to invest they take it to foreign countries, notably Wall-street.

H. M. S. Rainbow of the Canadian navy is a teetotal ship. Nothing like being up to date. Steam vessels do not need three sheets in the wind. But will the crew never get half seas over on the way out?

Much light is thrown upon the situa-

tion in the United States by the statement that Lloyd Griscom engineered the coup by which Roosevelt was snubbed and Taft's man got the convention chairmanship. Griscom is the eldest son of President Griscom of the International Navigation Co., and evidently represents the millionaire interest in politics. This means that Taft is for the millionaires and Roosevelt for the people.

Charles Dickens and Alfred Tennyson are men among others who left instructions that their funerals should be private and quiet, and whose executors were not prevented by these stipulations from permitting the burial of these illustrious men privately and quietly in Westminster Abbey. It is a pity that Florence Nightingale's executors could not have taken a more liberal view of their instructions. It is another case of the letter killing the spirit. Florence Nightingale never would have been so churlish as to refuse the last tender tribute to the whole nation.

A DELIBERATELY FALSE STATEMENT.

Editor World: In their efforts to stem the tide of emigration to Canada a large number of newspapers in the United States are printing wilfully false and misleading articles intended to carry the impression that thousands of American farmers who went to the Canadian West are returning dissatisfied, and that approximately 75,000 Canadians moved to the States last year. One despatch goes so far as to state that "15,000 settlers have returned to the United States from Canada within nine months," which is about as deliberate a lie as was ever invented. It will help to a clearer understanding of the facts to know that every Canadian who visits the United States, whether he returns or not, is apt to be included in their immigration figures, whereas our statistics include only those who come to Canada to really settle. Auto Speeders Fined. In afternoon police court yesterday: Alfred B. Coleman was fined \$5 and costs for speeding his auto on Dundas-street, and Joseph Rogers pays the same for an offence on Roncesvalles-avenue. Albert Williams, for going at 34 miles an hour on the Kingston-road, paid \$10 and costs.

May Go Back to Prison. Frederick Wright, who was to have gone to England with the Q.O.R., but who sold his rifle for \$5 in York-street, and is serving 30 days for the theft, has been identified as Ernest Wright, a parolee prisoner from the Nebraska State Penitentiary. He had served one year of a five-year term and was paroled. He violated the parole.

COL. SAM RUGHES DENIES IT

Not Seeking Military Berth From the Liberal Government.

LINDSAY, Aug. 18.—(Special).—Lt.-Col. Sam Hughes, M.P., in a letter to The Watchman-Warder, denies the truth of the report mentioning his name for the position of quarter-master-general for Canada. He adds: "Gen. Macdonald has proven himself a most capable, efficient, obliging and careful officer. May he long be spared to be quarter-master-general in my hearty wish. In the second place, many years ago, when the Conservative party was in power, I was offered, but refused the offer, the position of deputy minister of militia and adjutant-general, then the two highest military positions in Canada. Again I was offered the portfolio of minister of militia, but could not see my way clear to sacrifice my principles for the sake of party or office.

"You may rest assured that there is no likelihood of my retiring from the political game, even though a move might be congenial to political speculators, until the freemen of Victoria and Haliburton or I personally decide upon such a thing being desirable. Just yet the spirit in that direction has not moved either the said freemen or me."

RETIREES AT OWN REQUEST

Colonel W. D. Gordon Leaves the Service on Pension.

KINGSTON, Aug. 18.—"I am availing myself of the clause of the Militia Act which allows an officer after 35 years' service to retire on pension," said Col. W. D. Gordon of the Quebec Command at Montreal, when asked today for his reason for retiring. "I quit the service on Sept. 1," he continued, "leaving at my own request." Col. Gordon will come to Kingston to live. He may take over the management of The Whig, which was owned by the late E. J. B. Fense, a brother-in-law.

THE VALUE OF LICENSES

Commissioner Lamb Wonders Why Holders Should Profit So.

When the license commissioners granted permission yesterday for a transfer of the liquor shop license at 928 West Bloor-street, formerly owned by the late Mrs. Kate Cloney to her nephew, John J. Ryan, they learned that the consideration is \$31,000, and that fifteen years ago the license was bought for \$600.

"I don't see why these people by a monopoly should make \$30,000 in fifteen years without earning it," said commissioner Lamb. "It is true that legislation was taken to provide that this unearned increment should go to the people. It is true that the increased population has made the license more valuable, but the liquor dealers are not responsible for the increase in population."

"I agree with Mr. Lamb," said Chairman Coulsworth, "but it must be understood that in this case alone that we are referring to, but to the monopoly of the liquor trade in general."

"There is another thing that I would like to mention," Mr. Lamb went on, "and that is the fact that a hotel with six bartenders doing a rushing business only pays the same license fee as one with one bartender, and I think that a graded scale should be introduced that would place them all on an even footing."

Daniel Small got permission to move his liquor store from 54 Elizabeth-street to larger quarters at 77 Elizabeth-street.

AFTER EUROPEAN TRADE.

Slater Company Extending to France and Great Britain.

Charles C. Cummings of the Slater Shoe Co. sailed for England on the Empress last week to study the shoe trade of Great Britain on behalf of the company. The Slater Co. have been appealed to by some English correspondents to come over and out the American shoe from the London shopping centres.

L. P. Deslongchamps has just returned from Paris, where he went as a representative of the Slater Co. He has concluded arrangements to give the Parisians opportunity to secure their wares.

Stole Cash for His Parents.

Robert Shields, a driver for the West- on Bakery, was sent to jail for 60 days for theft of \$175 from his employers, to which he pleaded guilty in police court yesterday morning, saying that he had taken it to send to his parents in England.

Garage Destroyed.

William Cotterell's garage at Woodbine-avenue and the Kingston-road was destroyed by fire, caused by a defective forge, yesterday morning. The loss is \$1000. The firemen were hampered by lack of hydrants. An underground tank containing 200 gallons of gasoline was at the rear of the building.

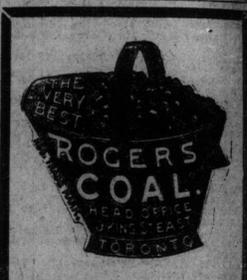

Philip Jamieson's Estate.

The succession dues department yesterday received a cheque for \$15,482 from the estate of the late Philip Jamieson. The net estate totals \$379,000, and has been handed over to the Toronto General Trusts Co. with instructions to pay certain incomes to the children. In the event of their dying without issue, the estate goes to charitable institutions. For this reason the executors are not paying the full amount at present.

Flying Weavers at Scarborough Beach.

Another strong attraction has been booked for the free open-air show at Scarborough Beach next week in the Flying Weavers, who give an act which has been styled the climax of aerial art. Suspended by their teeth, the performers give a thrilling exhibition, which is rendered as picturesque as it is skillful.

Mikkelsen Meets With Disaster in the Arctic.

COPENHAGEN, Aug. 18.—Capt. Einar Mikkelsen, with his expedition, which sailed June 20, 1909, on the Danish Arctic ship Albatross, to search for the bodies of the Eriksson Greenland expedition, were wrecked during the winter on the coast of East Greenland, according to advices received here to-day.

Capt. Mikkelsen and the entire party effected a landing on Shannon Island, off the coast of King William Land. From this point they were recently rescued by another ship. News of the escape of the party and their rescue was brought to Tromsø by a steamer cruising in the Polar Sea.

Mikkelsen hoped to go with two men to Cape Rigsgaard, 82 degrees north, where he expected to find the depot established by the Eriksson party.

LIBERTY SHORT-LIVED

Three Boys Who Left Mimico School Back in Toils Again.

The three boys who got away from Victoria Industrial School Wednesday night, are in quod again. One was caught during the night in Mimico railway yards. The others reached Long Branch, where they doffed their uniforms, and started east along the lakeshore in bathing suits. They got hold of a rowboat, but lost the oars and were found adrift in Humber Bay.

Some residents having read in The World of the boys' escape, suspected their identity and notified the authorities.

ELECTRICITY CAUSES ILLNESS

Bad for Nerves, Says Dr. Sheard—Typhoid Prevalent.

Fifty-five cases of typhoid fever in this city have been reported to a medical health office for August, as against 28 a year ago, and 45 in August, 1909.

Dr. Sheard stated that there were no cases reported in Toronto of infantile paralysis, which is epidemic in Hamilton, and which one physician attributes to electricity as it is generally found in cities and not in rural districts.

"The disease," said Dr. Sheard, "is paralysis following cerebral spinal meningitis." He is not sure that electricity does not materially predispose people to nerve ailments and neurotic conditions.

They Like the Job.

Fifty prisoners are now at work between Matheson and Hawk Lake, and four miles of the road have been graded. The clearing work is in charge of free labor, has proceeded for five miles. Several of the prisoners have fired with the free gang on the clearing work after securing their release, and are now drawing government pay.

ITALY GREATLY ALARMED BY CHOLERA EPIDEMIC

King and Queen Likely to Show Sympathy by Bravely Visiting the Afflicted Districts.

BARIC, Italy, Aug. 18.—The gravity of the situation in the Province of Bari Belle Puglie, where Asiatic cholera has broken out, is thought to be appreciated by the Italian Government.

Dr. Ruetli, who had been sent from Rome to direct the work of sanitation, has been appointed a royal commissioner with full powers.

The authorities express confidence that the physicians now in charge of the infected districts will be able to stay the disease, but so far the death rate has been very high, those attacked in many cases dying within a few hours.

This present epidemic, therefore, is of a virulent type and as it has secured a strong foothold, the general fear is held that it will be difficult to check.

In various quarters lazaros have been opened, and several of them already are filled with patients suspected of having the disease.

Royalty is Greatly Worried. TURIN, Italy, Aug. 18.—King Victor Emmanuel and Queen Helena, are displaying great anxiety over the outbreak of cholera in the south, and the King has given orders that he be kept constantly informed on conditions in the infected regions.

The Queen is especially touched by the stories of distress among the people of the Province of Bari Belle Puglie, and has made enquiries regarding their needs, ordering that assistance be rendered them, for which she will pay from her private purse.

The King has already intimated his intention of imitating his father, who, in 1835, fearless of danger, proceeded to Naples and remained among the cholera patients, who were dying at the rate of a thousand daily.

King Victor Emmanuel is reported to have said: "If the scourge increases, instead of going to Montenegro to take part in the war, I will remain here."

107 WANT THE JOB.

It would be a serious thing if the King should go to the cholera district. The Queen has positively declared that she would go also. Her majesty accompanied the King to Messina and Avellino when they were overthrown by earthquakes and on these occasions insisted on being at the front, not sparing herself any harshness.

PISONER RETURNED TO LIFE COSTS WOMAN HER LIFE

Was Given Tartar Emetic by Druggist Instead of Rochelle Salts—Assistant's Error to Blame.

LUCKNOW, Ont., Aug. 18.—(Special.)—Victor Murray, Detroit, aged twenty, died at the home of his uncle, Daniel Murray, in Ashfield Township, yesterday, in consequence of drinking tartar emetic, wrongly dispensed for Rochelle salts.

Miss Murray, with her brother, sister and parents, had been on an old boys' reunion visit to Lucknow. Her father and sister returned to Detroit last week. On Monday she called at the drug store of Garnet Armstrong here, and asked for a small quantity of Rochelle salts. Receiving her purchase, she returned to her uncle and aunt. Tuesday morning took a dose of the drug, and became violently ill. Emetics were promptly administered, and medical aid summoned, but without avail.

Coroner Miles of Blyth, empaneled a jury and an enquiry was conducted by Crown Attorney Jager of Goshen. The defence went to show that the error was due, not to careless dispensing, but to the accidental placing of the poisonous drug, only a few days before, in the empty bottle of the bottle intended for Rochelle salts. This had been done by an experienced clerk.

The jury returned a verdict of accidental poisoning, adding a recommendation that henceforth the placing of dangerous drugs on the shelves be not left to an assistant. Mr. Armstrong, who has been in business here for four years, feels his position keenly, but is quite exonerated from criminal negligence in the matter.

ROOSEVELT MAY OPPOSE TAFT

his own future on the outcome, and become a candidate for the presidency.

It is believed, however, that he regards such a situation as a remote contingency which he will not give his serious attention at the present time. He said repeatedly that he can form no plans for the future, but that he may change completely at any time.

He has told his friends that he will not be a candidate for the presidency unless he can conceive of no circumstances which would lead him to accept the nomination of the party or a seat in the United States Senate.

His associates believe that the only reason which leads him to consider becoming a candidate for the presidential nomination would be the conviction of his friends that he would be elected.

The conference broken up late today without any definite agreement as to whether another will be held. Mr. Roosevelt is to return west on Tuesday and probably there will be no more conferences until after the autumn.

It was great pleasure to him to meet such a representative body of Methodists. Dr. Carman and he were old acquaintances.

What was wanted in politics was the welfare of the state in religion, the welfare of humanity. Canada, he would describe as the star of the world.

TAFT THROUGH LONGWORTH OPENS FIRE ON CANNON

Congressman Declares He Will Not Give the Veteran Speaker Any Further Support.

DANVILLE, Ill., Aug. 18.—Despite the declaration to-day of Congressman Longworth that he will not again vote for Joseph G. Cannon for Speaker of the house of representatives, and that he does not think he will be re-elected, Mr. Cannon will continue in the race, according to a statement made to the Associated Press to-night.

That Mr. Cannon was considerably nettled by the despatch from Beverly is apparent when a copy of it was handed to him. Mr. Cannon is usually without a moment's hesitation, but today he read and reread the Longworth statement. Then he dictated and dictated a half dozen statements before he got one which finally suited him.

Mr. Cannon evidently believes that the Longworth statement was inspired by President Taft. He did not say, but he intimated as much when he said: "It is time enough to answer the president of the United States if he has any statement to make touching on the Republicanism of the Speaker of the house of representatives when he makes that statement under his own hand. I will not fight windmills filled with breezes blown from the lungs of political or personal enemies or cowards."

Following a brief reply made to Longworth made in the afternoon, Mr. Cannon declared the following: "If any Republican candidate for congress feels that his position as a candidate on the Republican ticket would be strengthened by pledging himself that he will not support a Republican caucus, I have no objection to his making the pledge."

"The only test I would make as to the Republicanism of candidates for congress is: Will he, if elected, attend the Republican caucuses and abide by the same in the organization of the house, and in the enactment of legislation in pursuance of Republican policies?"

3 YEARS FOR PASTORS EASIER THAN RANGE TESTS

Two Important Committee Decisions at Methodist Conference—Much Work Yet to Be Done.

VICTORIA, B.C., Aug. 18.—(Special.)—The vote of 21-15 in this morning's session of the Methodist General Conference, declared in favor of an eight year term for pastors. On condition that this is approved by a vote of three-fourths of the official board and stationing committee, and confirmed by the conference as a whole, the lengthened term will become a permanent feature.

The supplementary proposal will be forthcoming, and that the term henceforth will be eight years instead of four.

A majority of the committee work is still in a primary state, and it will be the latter part of next week before the questions which are calculated to arouse dissent in the general body are brought up for discussion before the general body.

In fact so great is the bulk of work before the church parliament that the sessions will likely run over into the third week.

The question of getting more good men into the ministry is a very serious one. The solution settled upon by the committee is a curriculum of the preparatory educational course. A warm discussion developed in committee when this course came up for objection.

The objection was based on the ground that to curtail the present course, would be to weaken the educational standard of the ministry, was offset by the argument that by making the course more extensive, many good men would be enabled to enter the ministry who could later bring their educational standing up to par with that of the present.

The committee will make its recommendations to the conference later. Mrs. S. N. Jackson of Winnipeg, appeared before the committee on mission work on behalf of the Y. W. C. A. and asked for greater liberty in representing the work of the society among the young women and girls of the city.

Her interest might be enlisted. The committee unanimously approved. The address of Bishop P. P. Hodson, President of the conference, was read. The address of Bishop P. P. Hodson, President of the conference, was read.

GREAT HIGH JUMPING AT THE COBOURG SHOW

Hon. Clifford Sifton and His Two Sons Give Exciting Exhibition—5000 at the Show.

COBOURG, Aug. 18.—(Special.)—A heavy rain early this morning and a light shower about the opening time of the show prevented what would undoubtedly have been a record attendance for the third day of the Cobourg Horse Show. Special excursions from Toronto, and other points, were held, and despite the rainy weather nearly five thousand were at the park to witness a most enjoyable program.

Special prizes for to-day were the "Cobourg citizens' class" and Hon. J. R. Stratton's special prizes. In the hunt team exhibition, Hon. Clifford Sifton and his two sons gave one of the most exciting exhibitions of high jumping seen in the show. The red coat race was won by Murray Hendrie on J. C. Palmer's J. G. C. Wilfred Davies on "Bowler" and Eric Skedd's "Sweeper" 3rd. The hunt team competition went to the Sifton entries from Ottawa, who also got third with the Toronto team of A. Jarvis and Hon. Clifford Sifton appeared in pink.

In the ladies' saddle class (open) Mr. James Milne's Foxglove was 1st, Miss Wilmet 2nd and Miss Barwick on Mr. Jarvis' entry, 3rd. In the ladies' hunter, Mr. Sifton's Elmhurst was 1st, Miss Wilmet's entry 2nd, Mr. Sifton's Wasp 3rd. Miss Maclean rode the Sifton horses. The Stratton special prize for ladies' and gentlemen's turnout was won by Mrs. Dorland Smith. Hon. Mr. Stratton won the citizens' prize with his imported team of carriage horses. Senator Beeth's imported hackney stallion Pflugrav Royal John was a standard exhibit.

Following are the results: Farmers' single roadster, 142 and over—1st, Gay Boy, Cowan; 2nd, Tip, T. A. Macoun; 3rd, Brown Muckle, George Caldwell.

LORIER STANDS BY JAPS
IS AGAINST EXCLUSION
 Labor Deputations Want \$1000 Head Tax on Orientals—Requests of Deputations.

VICTORIA, B. C., Aug. 18.—(Special.)—Prior to Sir Wilfrid Laurier's departure for Victoria he received several deputations from Vancouver. A deputation from the trades and labor council of Vancouver held a spirited discussion with the premier. They made a specific request that the head tax of \$500 be increased to \$1000, and be made to apply to Chinese and Hindus, which virtually means exclusion.

Sir Wilfrid pointed out that, as far as the Chinese were concerned, the increase of the head tax was worthy of consideration. The Japanese were different and the head tax would never be imposed upon these people so long as he was premier, and he would go down to defeat rather than have the tax imposed. Sir Wilfrid agreed that as a matter of policy the head tax must be controlled, but believed it was not necessary to adopt absolute exclusion, as in that event all trade with the Orient would cease.

At first Sir Wilfrid spoke of the matter cautiously, and intimated that 14 years was the time Jacob had waited for Rachel, and that there might be some hope for them.

Representatives of the Hindus and Japanese then discussed immigration matters with the premier. Sir Wilfrid received no less than four deputations here. The Trades and Labor Council again approached him in regard to Oriental labor, but confined themselves to requesting the exclusion of Chinese, suggesting \$1000 head tax. Sir Wilfrid said he understood they were satisfied with the Japanese and Hindu situation, and the board of directors of the Indian reserve in British Columbia, and the removal of reserve of the Songhees from the midst of Victoria.

Fenian raid veterans, of whom there are about forty in the province, asked for a land grant.

To all these deputations the premier promised consideration.

BANK PRESIDENT JAILED
 Because He Speeded Auto Which Hit a Buggy.

AVIATOR'S HARD LUCK
WRECKED IN BRICKYARD
 Moissant Has Two Accidents and Fails to Reach London—Newspaper Comment.

CHATHAM, Eng., Aug. 18.—The good fortune which accompanied the young aviator, Moissant, in the earlier stages of his flight from Paris, and in his record-breaking journey across the channel with a passenger, deserted him with his arrival upon English shores. Defects in the aeroplane forced him to make two landings when about half way in the course between London and Timonstone, where he ascended at 4.50 this morning.

The first descent, about 33 miles from London, was due to the displacement of a small pin in the mechanism, entailing an immediate descent. In the landing he just missed the mouth of a deep chalk pit, a fall into which would have meant death for the aviator and his mechanic. Repairs detained him nearly three hours. He then made a second, scarcely covered, covered ten miles towards his goal when a second accident brought him down at Rainham, Kent. A rod connecting up the driving gear of the aeroplane was fractured, stopping the engine and forcing the Chicagoan to plane down in a field occupied by small allotment gardens, but on the handling of the aeroplane prevented its plunging into a clump of trees which barred the way.

Moissant protested against the reports that he is a Spanish desecrator, and insists proudly to-day to the visitors who conferred with him: "I am an American. My parents were French-Canadian from America. There is no Spanish blood in me."

Compass Work Surprises.
 The London papers print columns of descriptive matter concerning his flight and interviews with many of them.

The thing that most impresses the newspaper is the fact that Moissant steered by compass. All airmen have complained that the compass is useless in connection with aerial flights on account of the strong vibration from the motor. Moissant appears, however, to have surmounted this difficulty. Speaking of this, he said:

"I have heard people say that the compass is useless in aeroplane. I am not a specialist, but my English compass, mounted in glycerine, airtight and placed just between my feet? That is what took me straight to Antwerp, to Calais, and to London. I had to go to Dover but I did not see ships yonder and thought Walmer must be the town."

NO PRIZE AFTER ALL.
 LONDON, Aug. 18.—This afternoon it was announced that the Daily Mail would give no prize for the Paris-London flight. Both Moissant and Hubert L'Ahain supposed when they started from Paris that a prize of \$25,000 had been given to the winner, in view of the announcement made by French aviation societies. It seems the race was to be completed without any prize, and that the Daily Mail quartered the prize on the winner.

BERLIN'S POWER STATION.

DANGEROUS WATER-TANKS.
 The record of disaster due to the failure of water-tanks on the roofs of buildings, usually from some weakness in their supports, is a long and continuous one, says The Engineering Record (New York, June 18). One of the worst recent accidents of this kind occurred on June 12 in Montreal, 70,000 of people, we are told, were killed by the collapse of a water-tank on top of a building occupied by a newspaper. The supports of the tank apparently gave way, and it crashed down through the rear of the building into the basement. Fire at once broke out, starting from the furnaces of the stercorating plant.

A tank on the roof of a building is subject not only to ordinary strains, but also to wind stresses and deterioration by weather to an extent few people appreciate. For this reason the supports should be designed with special care, and the strength of all parts on which the supports rest should be of an unquestionable nature. Old walls, beams, and columns should be examined thoroughly before a tank is placed on them, and an extent of corrosion by weather should be kept under observation. It should not be forgotten that a frequent mode of failure is the bursting of a stove, apparently without any cause known, and which, by its reaction, overthrows the structure.

Forest service officials in Oregon have obtained direct evidence that forest fires in the northwest have been started by men who later procured employment as fire fighters.

BORDEN IN CAPE BRETON
Addressed Audience of One Thousand—Meeting Lasted Four Hours.

ST. PETERS, C. B., Aug. 18.—(Special.)—K. L. Borden's meeting here today was very successful. A fair estimate of the number present is one thousand. The day was favorable. After Mr. Borden, ex-Judge Doherty spoke, continuing himself principally to the navy question. The meeting lasted four hours. The large portion of young men present was particularly noticeable.

Mr. Borden dwelt on the transportation railway construction, which would cost the people nearly \$250,000,000.

Present indications distinctly foreshadow the result that this enormous sum will have been expended very largely in the interest of the great ports of the United States, while our national ports are quite capable of handling all the business thus diverted to a foreign country," said Mr. Borden.

To what extent does the road give breadth to Canada? As a matter of fact, for hundreds of miles west of Winnipeg, it runs parallel to, and within a mile of, the Canadian Northern or Canadian Pacific. The northern districts of the west are still unprovided for. Canada has not been broadened by the construction of this railway, and the country will soon be face to face with the construction of another road to accomplish that for which this road was projected."

Militia Changes.
OTTAWA, Aug. 18.—Capt. S. T. Medd of the Prince of Wales Canadian Dragoons, Peterboro, has been made major of the 5th Regiment, Peterboro, Rangers. To be honorary major, quartermaster and honorary captain, V. Eastwood, July 11, 1910.

Capt. J. A. Wilson transferred to the Corps Reserve, May 1, 1910.
In the 35th Regiment, Capt. G. W. Stoddart resigns and George Washington Stoddart becomes quartermaster, with rank of major.

Brig.-Gen. Otter becomes temporary major-general of the Canadian forces.

Scared by Smallpox.
BRANTFORD, Aug. 18.—(Special.)—Local bowling clubs were much disconcerted here to-day because of the cancellation of matches arranged with Hamilton and St. Catharines on account of the recent smallpox scare. Commercial men also state they are having difficulties on the road, and business is affected.

Inland Revenue Returns.
OTTAWA, Aug. 18.—(Special.)—Inland revenue receipts for July amounted to \$1,244,718, an increase of \$500,000 over the corresponding period last year.

G. T. R. Earnings.
MONTREAL, Aug. 18.—(Special.)—The Grand Trunk Railway System traffic earnings from August 8 to 14, 1910, were \$87,152, an increase of \$8750 over last year.

The London (Eng.) Daily Mail says to the American settlers the doctrine of free trade means more than a readjustment of tariffs. It represents the ultimate adoption of a continental union. Behind and beyond this doctrine lies a problem of the gravest concern to the empire.

DAY OF STEADINESS IS BENEFICIAL.
World Office
Thursday Evening, Aug. 18.
A cessation of the strenuous upward movement on Wall-street had a beneficial influence on speculation at the Toronto Stock Exchange to-day. There was a growing disposition here to let things move fast, and to-day's steadiness was accepted as all to the good by those who look farther than a day ahead. Domestic securities were not lacking in strength, and they were improved in their position by the realizing of profits by what are known as professional traders. This profit-taking stock was taken by those more willing to hold for investment purposes. To-day's market steadiness has not jeopardized the confidence of those who believe in high values for the good stocks.

N.Y. Stocks Turn Reactionary And Work Within Narrow Range
Wall Street Assumes Natural Heavier Appearance, But is Well Bought on Decline—Local Issues Little Influenced.

World Office
Thursday Evening, Aug. 18.
With the cessation of bullishness on the New York Stock Exchange, there was a temporary let up in speculation in domestic securities to-day.
The movement, however, had no direct influence on prices, and in fact some stocks sold higher to-day than they did during the preceding day, the only stock suffering in the New York market being C. P. R., which apparently was sold at the larger centre and received little support from this side.
There was an excellent demand throughout both of the sessions for such active issues as Rio, Twin City, Mackay and Sao Paulo.

Montreal operators were busy with the Steel Corporation shares, but they attracted little interest on the Toronto market. This might also be said of Quebec Railway and Penmau.

The Maple Leaf securities continued to be wanted, the common selling at 50, and the preferred as high as 50 1/2. The market was left pretty much to its own volition, as there was nothing new to incite either buying or selling, and the movement of the exchange resulted from the actual condition of the market during the whole day.

In the more inactive investment issues there was a very small volume of business, due presumably to the better demand which has arisen for the more speculative issues.

The failure of the conciliation board in regard to the street railway arbitration to report a settlement, resulted in a decline in the price of Toronto Railway shares.

Bank of England rate unchanged.
London rumor of big copper combination denied.

Improvement in steel due to higher prices.
New Haven's \$40,000,000 gross earnings for year establishes new high record.

Syndicate headed by Kuhn Loeb plans transcontinental railway system.
Missouri Pacific earned 2.50 per cent. on stock during fiscal year.

Heavy rains in Kansas and Missouri assure fairly good corn crop.
Seaboard Air Line earns small percentage on stock, showing remarkable improvement over 1909 and 1908 in gross and surplus.

Imports to the U. S. under new tariff larger than in any previous period.
Bankers say there has been decided change for the better in Georgia cotton prospects.

Boston reports American Agricultural Chemicals ending June, earned on common stock between 8 1/2 and 9 per cent.
Joseph says: St. Paul will recover part of its dividend. Buy Brooklyn Rapid Transit on dips.

The bull manipulative forces predict still higher prices. They have the market by the throat on account of the stubborn shortage and small floating supply of stock. We would protect all commitments with close stop orders and accept turns as offered. A reaction is over due.—Financial Bulletin.

A very dangerous market situation has developed. Further bullish manipulation at this time will prove to have been decidedly unwise. The temporary position of New York banks make it possible to carry prices higher. Conditions, however, do not warrant the prevailing levels and very unfavorable trade balance which speculators for the rise are ignoring at the moment, will be of the chief reasons assigned for the fall a little later on.—Town Topics.

Stamp of Continued Prosperity.
T. O. Anderson & Co. in their circular, say: Of a most potent influence to Canadian securities was the declaration of a board of directors of the C. P. R. directors last week. It is not so much the increased dividend which has appealed to Canadian investors as the fact that the conservative judgment of a board of the calibre of the C. P. R. directors has set its stamp upon the continuance of Canadian prosperity, and particularly the outlook for the Canadian Northwest. Money is showing signs of becoming easier and we cannot see any reason to expect any special stringency this fall. Under these conditions we believe that many good semi-investment securities, both in Canada and the United States, are worthy of the consideration of both investor and speculator.

ON WALL STREET.
Erickson Perkins & Co. had the following: Stocks were reactionary all day, but after the early drive tended to settle and rally by degrees. During most of the afternoon prices worked back and forth within a narrow range, about midway of early high and low figures. It is quite possible we will get another upward swing of say two or three points, tho' it may not carry this far. Stocks do not go down all at once after an extended rise. They often rally several times, following breaks, before taking a downward plunge of some dimensions. To-day's closing was heavy. We would sell stocks only on very strong spots, not on setbacks. The outlook is decidedly mixed, and is not such as to induce the outside public to buy much. The political situation is becoming more disturbed and is likely to check the stock market.

Chas. Head & Co. to R. R. Bondard: The reaction which has been predicted for some days made its appearance today, causing a decline during the early trading of from one to two points, the heavy features being the Harriman issues, Reading and Steel. London set the pace in the cables from the other side, following this up with sales here. The report that a prominent Standard Oil magnate was seriously ill did good service in depressing prices, but the market recovered in part after the rumor that dental support was extended at the decline, and the afternoon trading showed a much better tone, tho' the professional element was rather inclined to hold off. The closing, however, at a considerable decline for the day, but the bears were not active. On further reaction we would buy for fair speculative profits.

J. P. Bickell & Co. from Finley Barrell: After the ten-point average advance in railroad stocks, and this is an unusual one at any time, the market usually reacts three or four points, even if it is a big bull market, but there have been incidents where short interest was encouraged, and after such a reaction as we had this morn-

Improvement in Crop Conditions. - In its weekly summary Cincinnatus Price Current says: General improvement on crop conditions throughout central regions during the week. Favorable showers which were beneficial to moderate extent, continued deficiency of precipitation, but quality of water, which showers for most part. Bulk of crop not in much danger. More moisture needed. Yield and quality of wheat, which showers earlier expectations. Spring wheat thrashing under favorable conditions. Oats returns point to large yield of very good quality.

Signer Up 10c Per Hundredweight. - The U.S. Yr. wheat receipts, 1,230,000, 1,277,000, 700,000, 488,000, 522,000, 275,000, 254,000, 375,000, 251,000, 495,000, 249,000, 340,000, 340,000.

NO DAMAGE FROM FROST. - WINNIPEG, Aug. 18.-Harry Acheson, grain agent of the Canadian Pacific Railway here, has received telegraphic reports from more than 300 points on the system in response to enquiries as to possible damage to wheat from freezing. In none of the reports is mention made of more than three degrees of frost, and all of them state that grain has suffered no damage.

ST. LAWRENCE MARKET. - Receipts of farm produce were 200 bushels of corn, 100 bushels of oats, and 100 bushels of wheat. Two hundred bushels sold at 40c. Hay-150 loads sold at \$17 to \$21 per ton.

British Cattle Markets. - London and Liverpool cables quote American cattle lower, at 13c to 15c per pound, dressed weight. Refrigerator beef steady, at 12c per pound.

Some More Figures on Meat. - Rochester, N. Y., Union and Advertiser, Aug. 12.

The bureau of statistics at Washington has been issuing some more figures on the meat supply of the country, and these latest statistics do not look encouraging to the consumer.

While the cry for several years has been a shortage of the supply of live stock, it is shown that there has been a further shrinkage during the past six months. The figures given out show that there was in sight the first six months of 1908, 39,426,000 food animals, as against over 29,000,000 for the first six months of 1909.

Those who have been purchasing pork of late will readily believe that the greatest shortage noted in the production of hogs, which shows a falling off of about 25 per cent. Cattle feed of about 4 per cent, and sheep 11 per cent, below normal.

The great shortage in pork has been responsible for much of the increase in the price of all meats, for when people have ceased to eat pork they have looked for other meats, such as beef, mutton and lamb, and the consequent higher price has resulted in marking the prices of other meats up.

While the stock of meat has been diminishing the population has been constantly increasing, so it will be seen that the situation is really becoming quite serious. The increased home consumption and falling off in the production of meat foods is shown in the great falling off of exports. For the first six months of 1908, 20,000,000 pounds of fresh meat were sent out of the country, while for the fiscal year just closed only 75,000,000 pounds were exported. Shipments of bacon dropped from 241,000,000 pounds to 146,000,000 pounds, and hams and shoulders from 231,000,000 pounds to 146,000,000 pounds.

Figures from official sources do not give any encouragement for an improvement in the situation until the farmers raise more food animals. In the meantime the middleman is doubtless making a much money as ever, and the consumer is obliged to pay his profit and that of the small manufacturer, as well as the price to the producer. The problem of meat is rapidly approaching the limit, and it is rapidly becoming a matter of life and death to the nation.

Reg. sold at \$3.50 and \$4.50. Saturday only \$2.18. (Third Floor, New Building.)

Hammocks and Sporting Goods

There's lots of time left to "hammock," and even more left to "sport"—but the half price demon has been let loose in our basement, with the result that three dollar hammocks will sell to-morrow at \$1.50, and our whole line of baseball goods will also have their prices just about cut in two. Come and pick out your favorite gloves, mitts and balls.

Our revised prices on Association Footballs and Lally Lacrosse Sticks you will find to be the lowest in town.

Here's Freshness for Every Man

Half-a-dozen things to come for to-morrow morning—see how many of them you need:—Medium weight balbriggan underwear, and summer weight white lisle underwear at 49c. a garment.

Four hundred Bathing Suits, a beautiful assortment, but all must go to-morrow at 39c.

350 Outing Shirts, collar attached, really beautiful shirts; worth twice Saturday's price of 79c.

And last, the wind-up of a week's great shirt selling of that good kind of \$2.00 shirts for \$1.00—Wanless Building.

(Main Floor, Richmond St.)

Novels for the Week-End

"The Mantle of Elijah," by Israel Zangwill, and two other cloth bound works just received from England. Saturday morning 25c.

Besides a splendid lot of Cloth Bound Books by Louis Tracy, Williamson, Hichens, Phillpotts, Stewart Edward White, and Mark Twain, which will be offered for 22c apiece, or five for one dollar. These were originally published at \$1.25. At this price there should be one or two in every suit case that leaves Toronto to-morrow.

(Main Floor, New Building.)

Pretty Hats for Pretty Heads

Silk Turbans, with high crown in bell or beehive styles, will be put on sale to-morrow morning at two prices—\$3.50 and \$4.50.

Besides these, all our very best Sailors will be cleared at most attractive prices, \$2.00 ones for 65c, \$1.50 ones for 38c.

And the Feather Sale is more interesting than ever—we never sold so many beautiful plumes in one sale before—maybe because we never before sold them so reasonably. Think of six-dollar plumes for \$3.85, and \$4.50 plumes for \$2.85. Paris feather novelties are being opened up every day. See the latest ones Saturday.

(Second Floor, Old Building.)

Parasols and Ribbons

A couple of the finishing touches that make the holiday bright—one hundred and ten English parasols, natural wood handles, white or gilt frames, worth two dollars, Saturday morning, 85c.

Then a few broken lines of Silk Taffeta Ribbons. Regular quarter ribbons, will be offered to-morrow at 11c.

N.B.—Ask to see the manufacturer's clearance of Women's Close Rolling Umbrellas. Specially priced at \$1.35. (Main Floor, Yonge Street.)

Fix Both Ends--Boots and Hats

Four hundred straw hats will leave the Richmond street store like a flock of pigeons Saturday morning—a month's good wear for them yet—three dollars is the price these good hats have been marked at—to-morrow you may have any one of them (if you're early enough) for 95c.

And now the Boots—nearly five hundred pairs of five dollar boots, broken range of sizes, but otherwise the best ever—Saturday \$2.49.

And just about as many Boots and Oxfords for women—fine pickings—all that are left of our highest class summer stock. To-morrow morning \$1.99.

Belfast Fancy Linens for 29c

Multiply this price by two or three and you'd be nearer the reasonable price. 18 x 54 hemstitched and hand embroidered runners with shams to match every design, also 30 inch table centres, all to go at 29c to-morrow.

(Queen Street Circle.)

For a special sale of Linen Table Napkins, Tea Towels and Dresser Scarfs, take old elevators to the 2nd floor. You'll find 25% saving awaiting you.
