Table with 2 columns: Toronto's Total, Amount. Rows include Total number subscriptions, Total number subscriptions previously reported, Grand total to date, Province, Toronto to date, Dominion.

Toronto came back yesterday in the race for the seventy-five-million-dollar objective in the Victory Loan campaign. The subscriptions for the day totaled \$2,408,300, with 5445 subscribers. This brings the total for Toronto to date to \$31,853,500, with a total of 47,000 subscribers.

Despite the fact that the publicity committee has stated that there was no extravagance in crushing up the old motor car in the tank exhibition on Monday, some people who evidently only read headlines in the press persist in spreading the rumor that Victory Loan money was wasted.

It is announced that the doors of the armories on University avenue will be thrown open to the public in general on Monday night next when Col. Theodore Roosevelt speaks on behalf of the loan.

Arrangements at the armories for handling the immense crowd are well under way. Through the kindness of General Leslie, chairs to be provided by the military. Close to ten thousand people will have seating accommodation, and it will be the largest gathering in the city since ever held in Toronto.

Regarding heating and lighting, special plans are under way and this difficulty will be removed. The doors will be opened to the public at 6.30 p.m. and there will be no necessity of lining up on the street as in the case of other buildings.

Col. Roosevelt will be accompanied by his wife and will reach Toronto about noon. He will be met at the station by Sir John Hendrie. When the train arrives in Toronto a guard of honor, provided by General Leslie, mounted escort will accompany the party on a drive thru the main streets. This will be at noon hour.

At the armories entertainment will begin at 6.30 o'clock. The 48th Highlanders Band, under Lesou, John Shuter, will play and song sheets will be distributed. The audience will be led in song by a talented vocalist. At 8 p.m. Sir Thomas White, minister of finance, will take the chair. The platform will contain a distinguished assembly of Canadians.

ITALIANS HOLD BACK MUCH STRONGER FOE

Fourth Army Successfully Withstands Massed Troop Attacks of Teutons Between Piave and Brenta Rivers.

By Associated Press. Headquarters of the Italian Army in Northern Italy, Nov. 22.—The fourth Italian army, under General Robilant, is meeting the full force of the tremendous shock the enemy has concentrated between the Piave and Brenta Rivers.

Just west of this main field of action, the Italian first army pushed the enemy positions near the Brenta River and in two attacks and counter-attacks, held the occupied ground, which was strewn with many corpses.

On the lower Piave the enemy forces in the bushes on the west bank of Zenson are now placed at 700 men, who are being raked by the artillery, as they have tried to set up a line of machine guns across the small area they occupy.

Reports are coming in from the invaded Venetian district, of fearful acts committed by soldiers, but this is stated under reserve, as it is impossible at present to give confirmation. It is in this position that the fourth army is experiencing the intensest action, with attacks following in rapid succession. Reports early in the day were satisfactory, as the main fighting ground was further north on the enemy's positions, the at one point the enemy succeeded in breaking thru the Italian lines on the foothills of Monte Fontana Secca, compelling the reformation of the defensive lines a little further back.

TANKS AND CAVALRY FIGHT GERMAN FORCES IN OPEN

Enemy Driven From His Strongholds, Forced to Fight Without Shelter of Redoubts and Trenches As British Push His Troops Further Back.

London, Nov. 22.—The British are carrying forward successfully their maneuver, which apparently has as its objective the encirclement and capture of the important railroad junction of Cambrai, in northern France.

For three days the forces of General Byng have been strictly keeping to their task of smashing the German positions in this region, and now, having driven the enemy from all his strongholds, are battling with him in the open, with the monstrous tanks and dashing cavalry everywhere opening the way for onslaughts by the infantry.

Already the British line describes an arc from the west to the southwest of Cambrai, with the lower point resting near Fontaine Notre Dame, two and three-quarter miles southwest of the much sought for town. Although the stroke of General Byng was delivered over a front of 32 miles, from the Scarpe River to St. Quentin, it was in the centre and in the direction of Cambrai that it reached its greatest strength.

By a Staff Reporter. London, Ont., Nov. 22.—A monster meeting, almost without parallel in London, paid tribute tonight to Sir Robert Borden and Union government. The winter garden was crowded to capacity with more than 8000 people.

The fighting in the Cambrai operation is all in the open, enabling the cavalry to assist the tanks and infantry. There are no German defences prepared in this sector, and their next line evidently is beyond Cambrai.

TOTAL PRISONERS IS NINE THOUSAND

On Some Sections, British Have Breached Enemy's Last Defences.

SIX-MILE ADVANCE

British Casualties Less Than Number of Prisoners Taken From Enemy.

London, Nov. 22.—The six-mile wedge driven into the German defences in the British offensive on the Arras-St. Quentin front is penetrating still deeper and spreading out. Reuter's correspondent at British headquarters in France telegraphs today. On some stretches of the front the British troops have broken into the enemy's final defence line.

The prisoners taken in the advance now number more than 9,000, the correspondent reports. Casualties Relatively Small. London, Nov. 22.—The British casualties in the advance toward Cambrai are reported to be very considerably less than the number of prisoners taken, it was announced today by Major-General F. B. Maurice, chief director of military operations at the war office.

The British, said General Maurice, had advanced to a depth of 6 1/2 miles at the farthest point on the front of 24 hours on the western front, and was farther than the progress made during these months' fighting at Ypres.

Ypres Victory Helped. "We were able to give the Germans a surprise blow at Cambrai," said General Maurice, "because they had skimmed this sector like they did along the remainder of the line, in order to prevent us from taking Passchendaele. After we took Passchendaele they brought up a division from the Russian front in an effort to retake it."

GERMAN PROPAGANDISTS OPENLY BUSY IN RUSSIA. Carry on Activities Designed to Keep Affairs as Unsettled as at Present. Washington, Nov. 22.—Ambassador Francis at Petrograd has reported that German propagandists are now carrying on almost openly their activities to keep affairs unsettled in the Russian capital.

ATTACK LAST LINES OF ENEMY DEFENCES

British Success Grows Hourly and Their Wedge Is Penetrating Deeper and Widening at Its Base.

British Headquarters in France, Nov. 22.—(Via Reuter's Ottawa Agency.)—We have not yet reached the limit of our victory. The success grows hourly. The total of prisoners is approaching nine thousand.

Great stretches of new country and fresh villages are being captured; besides increasing in depth the wedge is spreading at the base. The weather continues most unfavorable; a heavy mist preventing all airplanes observation. Nevertheless the airmen continue to fly over the battle ground, penetrating far into the enemy territory at the level of the tree tops. The latest village captured is Cantelung, and the troops are now in the neighborhood of Bourbon and Moeuc.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

BESIDES pushing on further the British established their new front on a line west and south of Cambrai yesterday and consolidated the batteries. Escaping the Village of Fontaine Notre Dame, recaptured by the Germans, they kept all their gains. Their consolidation of ground implies either that the Germans have massed large forces for a counter-attack, with an abundance of artillery, or that they have come up to a new series of fortified German positions, or, lastly, and most probably, that they have achieved all they immediately set out to achieve in the present stage of the action. The plowing up of the Hindenburg line by the tanks may have also delayed the prosecuting of the advance until the construction corps lays roads and railways up to the new front. The British in this successful operation, have driven a wedge in the Hindenburg line about ten miles broad at the base, and six miles deep at the apex, in the direction of Cambrai. They hold a wood overlooking the town. Sir Julian Byng apparently does not care about assaulting Cambrai and the undertaking of costly street fighting. He has shown the British ability to reduce German trench lines with tanks and so has inaugurated another phase of the campaign. London is celebrating the victory and all the air of the metropolis is filled with the tintinnabulations of the bells.

One result of the present British operation is the gaining control of the head waters of the Scheldt and the capturing of the key to the Scheldt Valley. This valley is one of the three natural routes of invasion in northern France, and the Germans, when they retreat, will have to withdraw thru this funnel. An advance down the Scheldt, besides, would get behind the German positions on the line of the Scarpe from the Lys to a point east of Arras. If the British proceed with their pressure they will compel the enemy to give battle and when he is defeated, he will have to conduct part of his retirement at least across country. A retreat under these conditions would be extremely disastrous. The Germans would have to sacrifice their heavy guns and it is said to be doubtful whether they could withdraw their forces into Belgium as an organized army. They would have to split up their army corps into detachments. The situation is about like this. The Germans have a great force lined up between Lens and the North Sea. The direction of the Cambrai attack is towards Antwerp and any large advance in that direction would cut the Germans between Lens and Lille off from the Germans between Cambrai and Rheims, splitting their army in two and enabling the British and the French to defeat them in detail.

The British by this masterly stroke have already gained command of the Cambrai Junction and the railway between Douai, Cambrai and St. Quentin, with their artillery. They can now hit everything which moves along it and this advantage increases the burden on the German motor-

transport. This is where the enemy will be fearfully pinched, for he is extremely short of lubricants, and much of his artillery, from this cause, lacks mobility. With the continuance of the British pressure in Belgium, the enemy cannot spare much of his artillery in that quarter. He must strip his lines somewhere else to find the extra guns needed in the region of Cambrai. Thus the strain on his material will greatly increase.

The Bolsheviks have undertaken the halting of the war by armistice and the settling of the peace terms. Because the Russian chief of staff has ignored the command to negotiate an armistice have decreased him deposed and have sent a supporter of Lenin to take command. It remains to be decided whether the Russian chief of staff will tamely accept the decree of deposition. When Bolsheviks it is expected that they will suffer from a violent reaction of public opinion in Petrograd and that this will lead to their overthrow.

In Palestine the British are working around Mount Olivet for the purpose of turning the Turks out of Jerusalem. While this rather slow and delicate process is going on the British left wing appears to have halted at Jaffa. No news is forthcoming of the Turkish disposition.

After a day's pause following the first news of the British advance in the region of Cambrai the Germans have renewed their assaults on the Italian line in the Trentino. The enemy has worn the Italian defences pretty thin at some points and the Italians are holding their own. The Anglo-French troops are believed to be going into action.

LONDON CROWD HAILS BORDEN

(Continued from Page One.)
Sir Robert and his colleagues or turn over the destinies of Canada to Laurier, Bourassa, Lavergne and Company. Carry Eleven Seats.
Hon. Mr. Baillanlyne was given a hearty reception upon his first public appearance in western Ontario. He brought word that the government would carry at least 11 ridings in the Province of Quebec.
After a brief address by Mrs. Crenar the prime minister was presented, and received a most remarkable ovation. The audience rose as one man and cheered lustily and then sang, "For He's a Jolly Good Fellow."
When order was restored Sir Robert briefly reviewed the history of Union government, which he had desired to form as far back as the fall of 1915.

new government Liberals and Tories equal representation, and intimated that another representative of labor would be called to the cabinet in the very near future.
Fair Enforcing of Act.
It had been expected that the prime minister would make some further announcement respecting the administration of the compulsory service act, but he added little to what he said at the Massey Hall meeting. He did not doubt, he said, that some local tribunals had acted harshly in refusing exemptions, and he promised that every person aggrieved should have an ample opportunity for a rehearing by the appellate tribunal. On the other hand, he gave notice that no district or province would be allowed to make a farce of the law by indiscriminate and wholesale exemptions, and that the government would prosecute appeals in all cases where ex-

emptions had been rocklessly and im- providently granted. In closing the prime minister appealed to the people of Canada to join in "fighting the wild beast of militarism," now assailing the world. He said he had returned from England in 1912 knowing that the war was certain to come in the near future, because Germany and Austria had been planning and plotting for 30 years to acquire domination of the world.
The prime minister arrived in the city at 6 o'clock, and in spite of the inclement weather a large crowd was at the station to greet him. Several hundred veterans stood at attention, like statues in the snow, until they had been inspected by Sir Robert, and then they escorted him to his hotel and, later in the evening, from the hotel to the meeting. Between Hamilton and London people were at every station waiting to see the prime minister's train, and at Inger-

oll he briefly addressed a number of school boys who had hurried to the station after school to see him. He said to them that he hoped when their time came they would be as brave and patriotic as their brothers at the front. Tomorrow Sir Robert speaks at St. Mary's and Stratford, on Saturday at Dundas and Kitchener, and on Monday at Oshawa and Uxbridge. He will probably hold a big meeting in Windsor Tuesday night.

TANKS AND CAVALRY FIGHT IN THE OPEN

(Continued from Page One.)
The operations of the cavalry are described as most brilliant, the horsemen making gallant charges into villages and even against machine gun positions, the entire gun crews of which were engaged in surrounding the Bourlon Wood, directly west of Cambrai, which dominates the entire region, including Cambrai itself, and clearing out the enemy from the district near Fontaine Notre Dame.

This village was captured in a brilliant attack Wednesday night, but the Germans in a counter-attack Thursday regained it. Throughout the entire area taken by the British in the drive the work of consolidating the new positions is rapidly being carried forward. In addition to heavy losses in men killed or wounded, more than 3000 Germans had been made prisoner up to mid-day Thursday. The British casualties are declared to be considerably less than the number of prisoners taken by General Byng's men.

To the south of Valenciennes, in the Aisne region, where the French troops look several positions from the Germans Wednesday, a counter-attack, which cost the enemy severe losses, has been eventually blocked and General Potain's troops are still holding their advantage. South of St. Quentin, the French again have raised enemy positions at several points, destroying them and taking prisoners.

Amsterdam, Nov. 22.—A Berlin dispatch quotes The Lokal Anzeiger as saying the British used from 150 to 200 tanks in their advance on Cambrai.

which lay half covered with snow, as it was impossible to bury the slain because of the rapid shifting of both lines.

The most desperate fighting was around Monte Melleta, where the Italians held one side of the eminence and the Austro-Germans the other. The enemy's object was to advance thru the two Valleys of Frenzela and Valstagna, which open directly into Bassano and the plains. The statement on this situation is not based on conjecture, but disclosed in the Austrian plan of attack taken from the bodies of Austrian officers left on the field.

YORK COUNTY AND SUBURBS FARMERS OF YORK AND PEEL PROTEST

Resolutions Passed Are Sent to Federal and Provincial Premiers. TRIBUNALS CRITICIZED. Complaint Made That Many of the Farms Are Being Depleted of Men.

A hundred and fifty farmers from the Townships of York, Vaughan and Etobicoke met recently at Downsview, when E. Stonehouse, president of the Milk Producers' Association, was called to the chair. The meeting was also addressed by Prof. Wade and by J. J. Morrison, secretary-treasurer of the United Farmers of Ontario. The absolute necessity of producing food was emphasized by the speakers, who also showed that it was impossible to secure both production and men from the same source.

That we send forth this statement, not because we fear the peril of life and limb for ourselves, nor the endangering of our calling but without any ulterior motive, we assert that we know whereof we speak, and that the call of patriotism, if not of sheer humanity, leaves us no option to do otherwise.

EMPIRE CLUB FAVORS UNION GOVERNMENT

Commissioner of Education of New York State Gives Address.

Before the regular proceedings at the Empire Club yesterday the following resolution was unanimously adopted:

"That the Empire Club of Canada, composed, as it is of members from all parts of the Dominion, in various shades of opinion in politics, but a single unit for vigorously prosecuting the war and in support of all measures necessary to immediately reinforce and uphold the strength of our heroic army at the front, firmly believe it to be the patriotic duty of every true Canadian, at the present critical moment in the war, to support the newly-formed non-party Union-War-Government in the approaching election, and further, that the club believes that the defeat of the war government in the election would mean a shameful postponement of the country's obligations to our brave sons in the trenches, probably an abandonment of all further efforts on our part; cheering news to the enemy, and an intolerable disgrace to the name and fame of Canada."

The address was given by John Houston Finley, LL.D., commissioner of education, New York, who proved to be a speaker of great charm, delicate humor, graceful spontaneity and a rare sense of language values. His improvised remarks dealt with some of his experiences in France where he was traveling when Britain declared war. He was seized, he said, as a possible spy, but the blue ribbon awarded him by the French Government helped him. The ribbon had been given him, he explained, because he had helped France to remember that it was she who had awakened the two great river valleys of the St. Lawrence and the Mississippi and given them to the world. Lach, which was now one of the objectives of the allies, and he hoped it would soon be in their hands again.

Norman Sommerville presided.

POLITICAL NEWS

LAURIER PROPOSED FRENCH BATTALION

Sir Wilfrid Denies Refusal to Co-operate in Recruiting Soldiers.

Ottawa, Nov. 22.—Sir Wilfrid Laurier has given out the following reply to the statement made at Sydney, N.S., on Saturday, November 17, by Sir Robert Borden, when he stated that "on two occasions he had asked the Right Hon. Sir Wilfrid Laurier to co-operate with him in regard to recruiting."

"I have noticed in the press a statement, made at Sydney, N.S., on Saturday evening, November 17, by the Right Hon. Sir Robert Borden, to the effect that on two different occasions he had requested me to co-operate with him in connection with voluntary recruiting, and that I had refused. I wish to state in reply that I have no knowledge whatever of these invitations. I remember quite well that at the outbreak of war, I directed a communication, of which the following is a copy, to Sir Robert Borden:

"Dear Sir Robert Borden: There is every probability that the war will be of long duration, and I understand that the government is already contemplating the organization of a second contingent. May I suggest that as our population is composed of various ethnic elements, it might be well to recognize the fact and to have the formation of units out of these several elements?"

"The war office at all times has taken advantage of the force of sentiment in the formation of an army. At all times it has recruited purely Scotch regiments as well as purely Irish regiments. We understand that Lord Kitchener has just authorized the recruiting of an exclusively Welsh force. The aim I have in view is in reference to the formation of a French-Canadian regiment. You are probably aware that a movement is on foot in Montreal and Quebec for the purpose of raising such a regiment.

"There is every reason to believe that if the formation of a French-Canadian unit were authorized there would be a generous response. After these remarks, I cannot say that I have any recollection whatever of being asked to co-operate in the carrying out of them. It is true that in the fall of 1916 I was asked to co-operate in the selection of a parliamentary committee to carry out the national service board. The reasons why I declined are well known to everybody, and I think events have proven that my action was justified in the matter. Further than that, no appeals were made to me by Sir Robert Borden, or thru me to any members of my party, to assist in the voluntary recruiting system of this country.

"Signed) Wilfrid Laurier."

PARTY ORGANIZATIONS LEAVE OFF VOTERS

Work of Enumerators Proves Unsatisfactory—Many Women Left Off Lists.

Ottawa, Nov. 22.—That both party organizations have been responsible for the recommendation of inefficient enumerators to the returning officers for Ottawa City is an assertion made by The Ottawa Evening Journal. It is anticipated that as a result of the poor work of the enumerators a large number of voters will have to be sworn in on election day. "Evidence accumulates," says the Journal, "that the work of some of the enumerators is very unsatisfactory, and that many women who are entitled to vote at the coming elections are going to be deprived of their vote. It is apparent that the business of making up the voters lists in Ottawa is in a bad way, and it is anticipated that the number of appeals will be very large."

WARD FOUR WOMEN HEAR MORE PLANS

Mrs. Van Koughnet, Mrs. Lindsey and Edmund Bristol Speak of Union Government Work.

The meetings yesterday at Ward Four Women's Unionist committee rooms were well attended, and the enthusiasm was marked. Mr. Edmund Bristol gave an instructive talk to the women canvassers and answered questions in regard to the plan of work.

Mrs. Van Koughnet introduced Mrs. G. G. S. Lindsey, and said that women were standing together for union government, that they wanted the committee rooms all over the city to represent all women—to be real centres of union work and union thought.

Mrs. Lindsey has undertaken to organize a motor corps to bring out the woman vote.

Mrs. Gier was officially appointed to attend and present the work before Red Cross societies.

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist. As a specialist, who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble that which causes the pain and difficulty, is acid in the stomach, mentation, acid irritates the delicate lining of the stomach, and food fermentation causes wind, distention, and stomach abnormality, causing that full, bloated feeling. Thus both acid and fermentation interfere with the normal process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 80 per cent. of all stomach difficulties—the first and only step necessary is to neutralize the acid by digesting the food in a healthy, normal manner. Be sure to ask your druggist for the bicarbonate of soda, as I have found other forms utterly lacking in their peculiarly valuable properties.—E. J. G.

It was stated yesterday that in two quarters something might be expected along these lines, namely, in Parkdale and in West Toronto ridings, but nothing definite has apparently been decided upon.

RAILWAY EMPLOYEES PRESENT PROBLEM

Tribunals Find it Hard to Exempt Such Able Men.

DUPLICATION OCCURS

Applicants Frequently Receive Orders to Appear Before Two Boards.

Members of local exemption boards have a very hard proposition to deal with in the case of railway employes. For a man who has some overseas and as a member of a tribunal has to turn down claims that are pathetic in the extreme in order to comply with the spirit of the M. S. A., and then have to decide whether a husky man, without responsibility, should remain in his present occupation as a railroad employe is a difficult problem.

The railways, unlike the banks, have not adopted a general policy to cover the situation, and tribunals are confronted with the fact that while the C. P. & G. T. R. are asking for exemption for certain men, the C. N. R. has decided to leave the matter between the tribunals and the man himself.

While the average tribunal knows that some of the railways at least were in a very difficult position last winter, and will probably be in a worse one before the end of this winter, it is difficult to realize the widespread effect of a shortage of experienced employes.

Members of some of the tribunals, as well as the officers of the road, that appear before them, lament the fact that at least all the employes of each department for whom exemption is asked cannot come before one tribunal, so that the staff may be dealt with as a unit, rather than as individuals.

On account of employers and employes both applying for exemption, quite a few duplications have arisen, and the man receives an order that his case will be heard before two tribunals on the same day and at the same hour.

Well Represented. Robert H. Tompkins of 369 Manning avenue was turned down by the Flying Corps in June of this year. Then he married, and his wife appeared with him yesterday before tribunal 362. He explained that three brothers had gone to the front, one killed in action, one was taken prisoner and was now in Germany, and still another is with the 3rd Battalion at Glens.

All men were as willing to do their bit as much as this boy wants to, and if they all had as well represented at the front, tribunals would not need to be in session to-day. So spoke Canon Dixon, a member of Tribunal 362.

Wm. Kern of 222 Clinton street, was granted exemption. He has five brothers overseas at present. "Fine work," Canon Dixon, "if all families could do this as this one has there would be no need of conscription."

An interesting case was that of Thomas Ballantyne, class A of Gladstone avenue. He offered quite eagerly to join up if one of two younger brothers who are at the front

is allowed to return home. He thought his family had done enough already. To permit of something being done towards getting the younger brother home exemption for three months was granted.

The next solacing fact is this: That most of this debt will be a debt we owe to ourselves. Great Britain is borrowing in the main from her own children. The debt is in the family . . . and the more we lend the less will Great Britain owe to others. And that is the most important fact in our national security and national wealth. — Premier Lloyd George in Albert Hall, London, October 22nd last.

Happy will be the Nation which Owes its War Debts to its Own People

THE interest on Canada's war debt is now about \$25,000,000 a year.

If that interest is paid in Canada to the Canadian people it will go back into circulation in Canada, instead of being sent out to foreign creditors.

Likewise when the principal comes due it will be kept in Canada for re-investment and thus will aid in the development of the nation and its resources.

And that is a most important fact in Canada's national security following the war, just as it is important to Great Britain's National security that her war debt shall be owed to her own children, when the war is over.

So when you buy Victory Bonds you not only directly help Canada to fight the war but you contribute to the national security after the war.

When Hospital Treatment Failed an Operation Was Advised— But Cure Was Effected Without the Use of the Knife.

Glouce Bay, N.S., Nov. 22.—Here is a case which sorely puzzled the hospital doctors. It was evident that the great shoulder pain due to torsion of the liver, but no medical treatment seemed to do any good.

In fact medicines failed, and the only hope. But Mrs. Watkins hesitated before the enormous risk of an operation and decided to try Dr. Chase's Kidney-Liver Pills first.

The result was that she was perfectly cured three years ago, and is now new that she can report the cure as thorough and lasting. This is not an isolated case, but proves that these medicine cures when ordinary prescriptions fail.

Mrs. Annie Watkins, Glouce Bay, New Harbor, N.S., writes: "I think it is time for me to give my experience with your wonderful Kidney-Liver Pills. For seven months I suffered with what the doctor called torsion of the liver, but no medical treatment seemed to do any good. In fact medicines failed, and the only hope. But Mrs. Watkins hesitated before the enormous risk of an operation and decided to try Dr. Chase's Kidney-Liver Pills first. The result was that she was perfectly cured three years ago, and is now new that she can report the cure as thorough and lasting. This is not an isolated case, but proves that these medicine cures when ordinary prescriptions fail."

PARENTAGE A MESSAGE

COLD PLUNGE IS FATAL. Samuel Waigen, an employe of the Canadian Stewart Company, was killed yesterday morning at the foot of Cherry street by the shock of immersion in cold water when he fell from the deck of a cement barge into the ship channel. Altho he was immediately rescued he died after being taken out of the water. Every effort was rendered to resuscitate him, but life was extinct. The body was removed to the morgue where it is likely an inquest will be held. Lieut. Percy Job, a nephew of Sir Sam, and Dr. J. L. Hughes, of Toronto, is reported wounded. Lieut. Job was farming at Cartwright prior to enlisting with the 126th Battalion. In 1916 he reverted to the ranks in order to get to France with a draft.
