

### SEEK TO SUBORN BANDIT CHIEF WHO KIDNAPPED JENKINS

#### Rebel Leader Says Carranza Govt. Offered Him \$100,000 if He Would Testify.

### INFAMOUS INTRIGUE

Special to Toronto World and New York Tribune.

(BY WILBUR FOREST.)

San Antonio, Jan. 4.—The Mexican authorities supporting the prosecution of William O. Jenkins, American consular agent at Pueblo, Mexico, have made advances to Federico Cordova, the rebel chieftain who kidnapped Jenkins and held him for bail, offering Cordova 200,000 pesos (\$100,000) if Cordova would come in, accept immunity and testify that Jenkins plotted with him in the famous kidnapping.

This declaration came to me from Cordova himself in a personal interview less than a week ago. I arrived at San Antonio today, by way of Laredo, after 40 days in the Mexican interior, studying conditions. Thru good luck I was able to meet and talk for more than an hour with the bandit chief, who disclosed to what lengths the Pueblo criminal court, backed by Governor Cabrera of that state, and now also backed by the Carranza federal government, is going in its efforts to prove that Jenkins kidnapped himself and was in collusion with Cordova's rebel band.

Cordova told me with clenched fists and teeth bared in rage that he hopes the main government will continue to persecute Jenkins because every day draws them into a deeper controversy with the American government. "I don't see that Jenkins will continue to suffer," the rebel chief said, "but the further they go in the case the more their bad faith and their bad principles will be demonstrated."

There are words in the Spanish vocabulary so blasphemous and awful that they will not bear translation into English. Songs were sung and used by Cordova when he spoke of what he termed the infamous intriguing and lying now being employed by both the Carranza and the American government itself to save their faces and to try to show that they can offer guarantees of safety to persons or property, either foreign or Mexican.

### GERMANY HAS ISSUED MORE PAPER MONEY

Berlin, Jan. 4.—New paper money to the extent of 1,400,000,000 marks was placed in circulation during the holiday week, according to a statement just issued by the Imperial Bank. Germany's printed money now totals more than 47,724,000,000 marks.

### RADICAL PLANS TO CONTROL UNIONS

(Continued From Page 1).

The "manifesto and program," the leaders of the communist and communist labor parties outlined for their adherents the program for carrying out simultaneous mass strikes and development of these mass strikes into mass action. The plan of action was given in detail from "small strikes" to minor mass strikes; from minor mass strikes to general strikes, and from general strikes to the dictatorship of the proletariat and revolution. The "manifesto" admonishes the parties' followers that they must actively engage in the struggle to revolutionize the trade unions and that as against the unionism of the American Federation of Labor, there is need for the organization of revolutionary implications and fact.

"We recognize that the American Federation of Labor is reactionary and the bulwark of capitalism," the manifesto declares. The communist party members pledge themselves, the manifesto shows, to participate in all mass strikes, not so much to achieve the ends of the particular strike, but to further its program of revolution.

### HAMILTON

Hamilton, Jan. 4.—A tablet to the members of the congregation who fell in the world war was unveiled in Laidlaw Presbyterian Church tonight. The remains of Mrs. Andrew Digzar, Wellington street, who was subject to dizzy spells, which caused her to fall into a cistern, were found yesterday.

Sergt. W. J. Smith, a returned soldier, has been appointed superintendent of Hamilton Branch Ontario Labor Bureau.

H. J. Halford has gone to Ottawa to attend a meeting of the Trades Congress executive.

Four deaths occurred over the weekend: Alfred E. Berry, age 43, died at his residence, 34 Simcoe street east; Pte. H. E. Newman, former druggist, Dunville, died in the Mountain Sanitarium; and Ernest Blank, 18 Evans street, secretary of the Butchers' Union, died at the age of 46.

John Collins, aged 75 years, died at the residence of his daughter, 203 Mary street.

### A TERRIBLE END.

"John Barclay" met with a terrible ending in the eyes of the city onlookers at the corner of Adelaide and Yonge streets Sunday night. A thrifty citizen, evidently busy at home with an imperial quart of seal dog, was crossing the street, with the bottle under his arm. He slipped in the centre of the road and let the bottle fall. The contents dribbled on the road, and the owner, after hearing it by ak, hurriedly sought for it. A policeman on night approach met and round out an evening of real hard luck by charging him with a B.O.T.A.

### YORK COUNTY AND SUBURBS

#### MEN'S OWN BROTHERHOOD

Alexander MacGregor, K. C., Gave Address on "The New Era" to Earlscourt Society.

The first message of the new year was given to the Men's Own Brotherhood on Sunday afternoon, by Alexander MacGregor, K.C., his subject being "The New Era." The speaker was optimistic as to the future of the world, always provided we recognized the obligation to cohesive action in the work that lay before us. In the rebuilding of the world we must not forget the physical resources of the Anglo-Saxons compared with other nations, not in a spirit of boastfulness, however, but in a thankful spirit, which determines to be pessimistic, he said. Today, the touch of brotherhood was never greater or better understood. It is shown, said Mr. MacGregor, in business houses, as well as in private life—employers realize the value of this touch that makes the whole world kin. Each unit must do its part if we would succeed. Another thing that is disappearing is cant and we can well afford to get rid of it; preaching and practicing what is preached is now considered the proper thing, declared the speaker.

The new era is in the hands of the people, he said, men should dictate the future. There is work for all of us to do. In Earlscourt, for instance, there are many orphan children, as a result of the war; how can we work then for some of us to do an altruistic humanitarian line that will bring its own blessings and reward.

Rev. E. C. Hunter, president, the men's orchestra furnished the music and Miss White was the soloist. A letter of thanks from the Fred Hamworth was read. He was chairman of the oldest members of the Brotherhood and two of the brethren were pall bearers at the funeral service.

Songs were given by Mrs. M. J. Bell, Miss Cook and Mrs. J. Bell. Mrs. Julia Bell gave some delightful recitations. Miss Bell acted as accompanist. Mrs. Johnson was chairman. A few brief remarks spoke of the instituting of the new lodge and hoped it would prove to be a power for good in the district. Bro. J. H. Haslop acted capably as master of ceremonies.

#### VACCINATION OF SCHOLARS.

Regarding the refusal by the public schools to admit unvaccinated children when schools reopen today, Arthur Black Farmer, member of the Anti-Vaccination League, stated to the World that a nice legal point has been raised as to the right of the M. O. H. to refuse admission of unvaccinated children to the schools without the approval of the school board. The principals of schools are, in the opinion of Mr. Farmer, liable to an action at law if parents assented to test the matter thru the courts. When the matter was pointed out to Dr. Hastings he stated he would get legal advice on the point. Mr. Farmer further pointed out that the separate school board at Ottawa last spring refused to obey the mandate of the M. O. H. when a slight epidemic of smallpox occurred in Ottawa, and the pupils attended school as usual.

### CANADA'S RESOURCES BEING NEGLECTED

Charge by Sir Sam Hughes in Addressing Lindsay Veterans.

Canadian Press Despatch. Lindsay, Jan. 4.—Speaking as an old parliamentarian, an old soldier, and a great lover of the soldier "boys," Gen. Sir Sam Hughes, K.C.B., here this afternoon. Although he has hidden his anger in the clubhouse of the Great War Veterans since this afternoon. Although he claimed to have deferred from criticizing the government to any great extent during the past three years, he counseled different cabinet ministers, privately advised, and addressed the government in a most direct manner. He said that if the government were to neglect the soldier's resources they should be fairly dealt with, but in the matter of pensions Sam found fault with the government for not investing in the soldier's resources. He claimed that many a soldier had returned unharmed but suffering to such an extent that he was unable to resume his former duties and unfit to take up work, yet was neglected by the government and the pension committee. The pension board needed shaking up, Sir Sam's fiercest cry of neglect, however, on the part of the government was that they had so far failed to develop the natural resources of the country and open up opportunities for the soldiers.

### The Logs that flow down the Ottawa Rapids

FROM the illimitable timber limits up in Northern Canada, thousands of logs come careening down to Eddy's Factory. Twenty-five thousand feet of soft, smooth-fibered pine enter this factory every day. There it is stored with scientific care long enough to make it burn freely and odorlessly. Then it is split up into fragrant blocks and fed to automatic machines and quickly turned into perfect matches.

Your preference for Eddy's and the choice of hundreds of thousands of other Canadians, requires us to put out seventy million matches a day to meet the demand.

### FEDERAL EMERGENCY APPROPRIATION

#### Notice to Applicants and Employers

The Canadian Patriotic Fund, which has been entrusted with the distribution of the Fund provided by Parliament for the assistance of certain classes of men who have served in the late war, wishes to bring to the attention of intending applicants for assistance some important points, which must be kept in mind by them, and at the same time to bespeak from the employers of labour the loyal assistance which is essential to the fair and beneficial carrying out of the purpose intended.

- (1) The fund is to be used, except under very special circumstances, only for the assistance of men who have served Overseas and are now, without fault of their own, out of employment.
- (2) A man who has not served Overseas must show some very special reason before any assistance can be given to him.
- (3) So also a man who has work, or can get work, will not be given any assistance unless he can give clear proof that by reason of special expenses or burdens, his earnings or expected earnings, ought to be supplemented out of the Fund.

(4a) The man who refuses a job which is reasonably suitable for him, and the man who wilfully quits his job and registers as unemployed, is to get no assistance.

(5) Employers of Labour are urged to make use of the Department of Soldiers' Civil Re-Establishment, King Street West, as a Labour Clearing House; to report there forthwith the names of men quitting employment; to give notice there of positions or jobs available; and, above all, to apply there on every possible opportunity for men required in any branch of industry. It is in the interest of all parties that the soldiers should receive suitable employment instead of assistance. Those, therefore, who are in need of labour of any kind are urged to communicate with The Information and Service Branch, D.S.C.R., at 45 King St. W., Main 3501, so that they will be in a position to distribute positions instead of certificates for unemployment.

Unauthorized and inaccurate statements as to the scope of the relief intended, which have appeared in the Press, have caused much unnecessary work and disappointment, and it is the hope of the Canadian Patriotic Fund, which is endeavoring to deal speedily and effectually with the cases coming before it that the points above mentioned will, for the future, be kept clearly in mind.

### HUMBER PROPERTY BRINGS HIGH PRICE

Forty Acres Near Highway Are Sold for \$300,000.

A block of about 40 acres of land between the G.T.R. and the Lake Shore highway and immediately west of the Humber river has been sold to one party for close to \$300,000. The bulk of the property was owned by Henry Butwell and John Maloney, both brick manufacturers, and two smaller pieces were held by J. W. Forsyth and J. Davidson. There are about 30 buildings on the property most of them small residences. Mr. Maloney is said to have received \$100,000 for his buildings of about 17 acres, and Mr. Butwell \$150,000 for about 20 acres. The Butwell property has greater frontage on the highway than the Maloney property.

Messrs. Maloney and Armstrong started making bricks on this property about 1887. Mr. Maloney bought out his partner. They were merely tenants at that time and only Henry Butwell had operated a brick-works on his land for about 20 years. The name of purchaser of these blocks has not been disclosed, but it is rumored that it is to be the site of radials which the Hydro-Electric Power Commission is about to construct.

**Richmond Block Sold.** The store and basement block, located at 124-128 West Richmond street, has been sold to the Day Sign Company by Samuel Crane. This building is of solid brick construction and has a frontage of 22 feet 6 inches by a depth of 108 feet, is assessed for \$22,500. The deal was negotiated by Gibson Bros. This real estate firm also sold the brick block adjoining short time ago to Bernard Cairns for about \$40,000.

J. J. McCaffery has purchased the building on Adelaide street, immediately east of the Bay Tree hotel. Mr. McCaffery owned the land, which has a frontage of 56 feet and a depth of 30 feet, and held the building under a 31-year lease, which expired with the end of 1919. This building was

formerly owned by Ald. Burgess. Mr. McCaffery now owns the land and buildings on the corner, having a frontage of 147 feet on Adelaide and 30 feet on Bay street.

**Nasmith Restaurant Closing.** The Nasmith Company is closing up their restaurant at 74 East King street and the National Railway, which owns the premises, will use the space to enlarge their offices. This is the last of a string of restaurants established by the Nasmith Company a few years ago. In future they will devote their attention to the bakery business.

**Houses Sold.** The property at 88 Shuter street has been sold by W. A. Lumbers to Myron O. Inglis for \$10,500.

Wm. J. Devins has sold two houses at Nos. 26 and 28 Braemore gardens to Sophia Caplan and Wm. Krangle for \$23,000. No. 26 sold for \$10,500 and No. 28 for \$12,500.

The property at No. 8 Ridout street has been sold by Mae T. Prentiss to Edward A. Walshaw for \$14,250.

**DELUGE FROM MONTREAL HAS NOT SET IN** Despite the fact that the express companies prepared themselves for a huge wave of whisky flowing Toronto-wards, as a result of the loosening of the order in council governing importation, yet so far as could be learned by a World reporter on Saturday there is not even a semblance of a rush.

An official of the Canadian Express Co. informed The World that the shipments, so far as he had noticed them, were entirely normal. He was rather nonplussed as to the reason of the delay, as he had expected that there would be a great movement of liquor on the first free day.

### LOYOLA PRESIDENT GUEST OF HONOR

Catholic Truth Society Hear Address From Father Hingston.

Rev. William Hingston, S.J., president of Loyola College, Montreal, was the guest of honor and chief speaker at a dinner given at the Carle-Rite on Saturday night under the auspices of the Catholic Truth Society, J. P. Murray, president, being host of the evening and proposing the toast of the King.

In his opening remarks, Father Hingston, who before going overseas as chaplain, had been largely instrumental in the founding of a branch of the Catholic Truth Society in Montreal, told something of the work there. Turning to the present he pointed out the menace existing throughout the world and represented in Canada by 65 Bolshevistic societies, to meet which reconstruction must be undertaken along what he called the Catholic line. He said that the world of today is largely what it was at the time of Roman paganism, when an improper distribution of wealth, together with divorce, strikes, immorality and other features prominent today were conspicuous. Father Hingston said he had not statistics for Canada, but for the United States figures show that 63 per cent. of the population have stated that they have no preference in regard to any religious denomination. In conclusion the speaker appealed for co-operation, personal and financial, for the work of the Catholic Truth Society.

**The Society's History.** W. T. Kernahan, seconded by Frank Leonard, moved a vote of thanks. F. H. McIntosh gave an account of the founding of the society in 1868 in England by Cardinal Vaughan, and summarized the publications since issued. J. A. Murphy made an appeal for an increase in papers and magazines for distribution. Jules Raskal varied proceedings by several musical numbers. Among those present were: His Grace, Archbishop McNeill, Rec. Father Shoily, C.S.S.R.; Mr. Justice and Mrs. Lalchford, Mr. Justice and Mrs. Kelly, Sir Bertram and Mrs. Windle, Mr. Hynes, Mr. and Mrs. W. T. Kernahan, Mr. and Mrs. T. J. Ford, Mr. and Mrs. Arthur Anglin, Mr. Bruce McDonald,

Mr. and Mrs. T. P. Phelan, Mr. and Mrs. M. Healey.

Much regret was expressed at the absence of James D. Ward, who for a long time was president of the society in Toronto, and who had been on the program as a speaker, but who was then in St. Michael's Hospital with a broken leg and other injuries received that morning as a result of being run down by a motor as he was waiting for a street car.

### AWARD OF BOARD JUSTIFIES STRIKE

Is Opinion of Jas. T. Gunn, Business Manager of Electrical Workers' Union.

James T. Gunn, business manager for the Electrical Workers' Union, stated to The World last night that the award of the board of conciliation respecting the hours and wages of certain electrical workers of the Toronto Railway Company has adjusted certain anomalous conditions which the board of last September had noted, and that in his opinion this adjustment of those conditions which evidence shows caused the strike of Sept. 3 indicates that the men had the real cause for dissatisfaction, and were justified in that strike. He believed that the men would accept the new award, and would do his utmost to induce them to do so.

The board, which comprised Judge Gunn, Fred Bancroft for the men and W. H. Moore for the Toronto Railway Company, awarded increases ranging from 1c to 8c an hour, the increase to date back to Sept. 3. The list of men includes nine from the equipment department, seven from the terminal stations, four from the operating department, three from the electric department, and one each from the waterworks department, \$8 in all. No change was made from the award of the former board respecting the number of hours which were decreased in many cases from as high as 70 or 60 a week to 44 and 48 hours.

The award is signed by both Judge Gunn and Fred Bancroft. W. H. Moore, from the company, apparently dissenting.

### LAURA HUGHES HAS NEW LABOR IDEAL

Believes Emancipation Will Be Won by Brains, Not Fists.

Laura Hughes Lundy, better known in Toronto as Laura Hughes, in connection with her activities on behalf of factory workers, and as one of the founders of the Independent Labor Party in Canada, in an address yesterday afternoon at the L.L.P. Forum, Labor Temple, stated her opinion that the new era, that of a new radicalism, was dawning with the ideal of a self-control in which the rights of the people were being fought upon new and ideal methods, employing brains against brute energy. On the other hand, she said, the reactionary party in all countries, forming a link throughout the world, was fighting with increased energy along the old lines of brute force. "Those whom the gods would destroy, they first make mad," was an apt quotation to represent the energy and methods of the reactionaries of the world, said the speaker, who pointed out that every brute force means was being employed by the industrial magnates today to destroy the new spirit, as evidenced in mob movements engineered by their thugs, violent agitators to initiate strikes, and other thugs to break the same spirit. Mrs. Lundy instanced the case of the recent great Chicago race riots as being influenced by a well-known Chicago agent, employed for the purpose of belittling the efforts of trades unionists, employing paid agitators in this laudable enterprise.

**Press Threatened.** John Macdonald, who presided at the meeting, stated he had information from reliable sources that certain newspapers in Canada which had shown inclinations to advance the cause of Labor, especially in its political aspirations, had been warned that means would be taken to bring them to book, either thru the advertising or other media of income. Hence, he said, the lack of championship by the press of the cause of labor, politically or municipally.

suppose that if one is a slave 264 days in the year he will not vote as a free Democrat on the 265th day. Use your two arms, industrial and political. We all know that a one-armed man is of less service than the two-armed man. And remember that the great heroes of all times have been those who were persecuted for their advanced ideals and progressive work.

**The New Radicalism.** The speaker went on to say that she believed the new radicalism was expressing itself in different ways in different countries. In Russia its expression was in the soviet; in Britain it was in another channel, and in the United States, she believed, it would function in co-operativism. She referred to the case of a shingle mill owner selling out in Seattle to men who had asked for higher wages and better conditions. That mill was one of seven such mills now run by the workers, and successfully. Humorously, she touched upon the story of a girl receiving \$8 a week who ordered a \$40 suit of clothes in the vicinity of one of the mills. She was asked for references. "Oh, I am one of the owners of the shingle mill," was her reply. This was an instance of the awakening self-respect of the workers.

**Factory Conditions.** Mrs. Lundy some years ago made a thorough investigation of factories in Ontario, with the result that she came to the conclusion that many amendments to the factories act were needed for the benefit of the workers. She made recommendations to both the cabinet and the opposition leaders in Ottawa in the matter, but without success. She then suggested to two L.L.P. which today has a membership in Ontario of many thousands, and which, with the combined effort of the trade unionist political movement and the U.F.O. movement is becoming an acknowledged factor in Dominion and provincial politics. Yesterday afternoon she instanced the case of a farmer selling a barrel of apples for \$2—this same barrel selling in Winnipeg for more than \$8—to show that the farmers were not the profiteers some people might think they were. "Those who tell you that farmers are profiteers are either themselves ignorant or are deliberately throwing sand in your eyes in the interests of the real profiteers," she said.

**40c** WILL give you a 20-word advertisement in The Sunday World, and more than 100,000 circulation.

### SOCIAL EVIL DUE TO BAD HOUSING

Mrs. Dunnington-Grubb Condemns Conditions in the "Ward."

That eight-tenths of the social evil in the city is due directly or indirectly to bad housing was the statement made by Mrs. Dunnington-Grubb in addressing the Open Forum on "Housing for the People," at Forrester's hall yesterday.

High wages do not help the problem, said the speaker, because rents are usually based on the ability to pay. That efficiency of a nation depends on its housing was a principle that had been recognized at first by the Germans and now was spreading over the entire world. The problem in Toronto, said Mrs. Grubb, was acute, as there had been practically no house building since the outbreak of war and even before the housing problem in what is commonly called the "Ward." Conditions in this section, she showed, that the Toronto General Hospital, had acquired 19 per cent. of the total land area of the "Ward," while it was shown that only four and a half per cent. of the population had moved out of the ward, leaving the others to crowd into an already overcrowded district.

**Shocking Conditions.** Rents in the ward are very small in some cases not even equalling the taxes on the property, but the landlords were holding on for the actual sale of their land to business concerns for high rates. The responsibility to build houses for the class of people who reside in the ward was one belonging solely to the municipal authorities. Rooming houses too were condemned by the speaker, who thought that the conditions in some were "shocking." "The causes of Toronto's housing problem are," said Mrs. Grubb, "the high cost of land—this city is in the hands of real estate speculators—and poor transportation and the high cost of building."

PLAYS, PICTURES AND MUSIC

"Friendly Enemies."

Two plays in theatrical history have created so great and wide a stir as "Friendly Enemies," the international comedy success which A. H. Woods will present all this week at the Royal Alexandra Theatre, commencing to-night, with matinees on Wednesday and Saturday, coming direct from a year's run in New York City.

"Listen Lester" opens at the Princess Theatre tonight for a week's run after one solid week in New York at the Knickerbocker Theatre.

"Fair and Warmer" at the Grand. So great was the success of "Fair and Warmer," the Avery Hopwood farce of temperance and temperament, which will be presented at the Grand Opera House all this week with matinees on Wednesday and Saturday, that before it had reached its first hundredth performance at the Grand Theatre, in New York, there was a demand for it from every quarter of the country and its fame had been carried from coast to coast and from the Gulf to Canada by the out-of-town members of its capacity audiences.

At the Allen. Telephone calls have kept the attendants at the Allen Theatre extremely busy during the past few days for so many people want to know why a campaign is being waged in Toronto area not blind husbands. In fact, the inquiries have been so numerous that the management of the Allen Theatre strongly urges all who can see the story of the year's "Blind Husbands" during the matinee, if possible. It is stated on every hand that there is more interest being taken in this wonderful story than any that has been presented in picture form in Toronto in many months. It is a perfect photoplay, a love story as appealing as the most beautiful romance in your memory. It is an adventure picture as gripping as any serial thriller.

The engagement of "The Better 'Ole'" at the Princess the week of Jan. 12—one week from today—is to be an event of unusual interest. This is the play based on the famous war cartoon of Captain Bruce Bairnsfather, which Mr. and Mrs. Coburn acquired for America and produced at the Greenwich Village Theatre, New York, in October, 1918, where it met with immediate success of such vast proportions that it was necessary to move to a larger Broadway theatre to accommodate the crowds.

Official Secretary. RANNEY'S CHANCES SLIM; THE OTHER TWO SAFE. Provincial politics will be stirred up a bit this week. There is no likelihood of an authoritative announcement of the seats which will be vacated for Messrs. Drury, Doherty and Ranney until the middle of next week. It is well understood that the premier and minister of agriculture have their seats in prospect and are only waiting until the attorney-general can be accommodated. As there is always danger of a slip between the cup and lip the two seats settled upon are not to be declared till Mr. Ranney's fate is decided. His case, however, is almost desperate. The by-elections must be negotiated without undue postponement of the legislature.

Place Luxury Tax Where It Belongs

BY IDA L. WEBSTER. There has been much talk as to whether it would be well for the government to place a luxury tax on all things which might by the greatest stretch of the imagination be called such.

Someone even went so far as to say that it is up to the Ottawa authorities to tax midnight suppers, or to be exact it was the New Year supper, costing \$7.50 a plate, which came in for the storm.

The argument is of course very weak. Mostly because New Year's only comes once in every 365 days. And also because those who are able to afford a party at a public restaurant are also taxed when they go to the theatres.

At the same time there should be a luxury tax, but it should be placed on expensive furs, evening dresses, silk stockings, etc.

Women who can afford to buy fur coats at \$2,000 should be forced to give a certain sum to the government. In that way, the tax would not deter business, and ultimately hurt the working man.

Therefore, we say let anyone spend who will, in fact coax them to do so, because the more money that is put in action the better business will become, and with it will come good times for everyone.

And if you have any scruples on the subject just remember that those people who paid \$7.50 a plate for the New Year's supper did so because they could afford it, and if they had not, they would simply have sunk the money in their own particular bank account where it would not have benefited anyone.

ELECT BOARD OF TRADE.

The Toronto World

FOUNDED 1850. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

MONDAY MORNING, JAN. 5.

The Hydro Bylaws.

In spite of the fierce opposition of the corporations, the people of Ontario are taking to the Hydro-Electric movement with a cordiality and vital interest which indicates their understanding of the principles involved.

The Windsor towns are now ready to begin operations under the Hydro Commission as soon as the contracts are signed, all the bylaws having been carried by substantial majorities.

A few days ago we dealt with the dual aspect of the Hydro radial plans. Opponents of these roads declare that there is not sufficient business for radial roads, but these roads are not depending on radial traffic alone.

This was clear to the farmers of the eastern townships, who voted so enthusiastically for the Toronto & Eastern bylaws last month.

Expelling the Lawless. Society has the right to protect itself on the same grounds that a man has to protect his household.

Lawless individuals of this description are like the lawless cells in the body which produce a cancer. They constitute a cancer in the body politic, and if permitted to remain and increase, their presence involves the death of the body politic in which they dwell, that is, the nation.

No injustice is done them in cutting them off from the healthy organism they seek to infect, and returning them to their own lands, where they can put their plans in practice, as in Russia, or convert, if they can, their fellow citizens in other lands, who will be able to deal with them without prejudice should they dislike their doctrines.

There is no other way to deal with lawless elements but expulsion or suppression, and as suppression means extermination, expulsion is the only humane method left to a civilized nation.

It is unfortunate that the crass ignorance of these alien communists, and their illogical insistence on imposing their half-baked views on people who know better, leaves no alternative but such measures as have been resorted to in the United States.

It is quite clear that people who are willing to submit to the orderly process of law and the ballot in the evolution of national life are of a different order of consciousness from those impatient plotters. They are not even willing to grow peaceably together, like the tares with the wheat, and no nation can be expected to submit itself to the disturbance and drain upon its

vitality consequent upon harboring such elements.

Among the more intelligent of the advanced thinkers of the day, it is recognized that force is unnecessary, inertia is the greatest of all forces, and the non-resistance and passivity of those who have real convictions, combined with the heaven of new ideas at work in society, has always been sufficient to bring about all necessary changes.

Suggestion for "The Machine."

Editor World: Referring to your article on the apathy of the voting public in Toronto, my mind went back some 20 years ago, when I lived in London, England, and recalled the method adopted by the municipalities or vestries in electing men to represent them.

Two Further Cases of Hurdled Timber Deals Reported to Minister

H. H. Dewart, Liberal leader, calls the attention of Hon. Beniah Bowman to further cases of hurdled timber deals.

By notices over the signature of Albert Greig as deputy minister, bearing date December 15, 1919, tenders are called for the right to cut timber on an area southwest of an adjoining G. G. road in the south of Kenora.

A few days ago we dealt with the dual aspect of the Hydro radial plans. Opponents of these roads declare that there is not sufficient business for radial roads, but these roads are not depending on radial traffic alone.

Expelling the Lawless. Society has the right to protect itself on the same grounds that a man has to protect his household.

Lawless individuals of this description are like the lawless cells in the body which produce a cancer. They constitute a cancer in the body politic, and if permitted to remain and increase, their presence involves the death of the body politic in which they dwell, that is, the nation.

No injustice is done them in cutting them off from the healthy organism they seek to infect, and returning them to their own lands, where they can put their plans in practice, as in Russia, or convert, if they can, their fellow citizens in other lands, who will be able to deal with them without prejudice should they dislike their doctrines.

"PRESCRIPTIONS" TO BURN

THE DOC.: It's infamous. It should be stopped.

HAVE WE PARLIAMENTARY GOVERNMENT IN CANADA?

We are indebted to The Winnipeg Free Press for an interesting review of the year 1919 from the standpoint of Canadian politics.

Officially he was here to give advice to the Canadian department of naval affairs upon technical questions, should his advice be sought.

Now, who can tell what commitments have been made for Canada by the prime minister? Parliament knows absolutely nothing about them.

But the Dominion elections which The Free Press thus foresees may be a long way off, and just now Canadians are principally interested in what will happen in the coming year.

Since the review of The Free Press was written, Sir Robert Borden has left Ottawa, to go where nobody can see him, to remain away nobody knows how long.

The recent cabinet changes are important only as indicating a weakening of the ministry.

The prime minister withdraws from the country for an indefinite period and leaves the cabinet to shift for itself at a time when he was involved in a number of undertakings intimately interrelated with the policies of his government.

There is a strong feeling in the Port Arthur district that a determined effort is being made to tie up some of the best and most available timber in the interest of certain friends and supporters of the late Hearst government.

It is asked to urge that you take independent advice upon this matter other than from the official particularly in charge as deputy minister and those who are the henchmen of the recently defeated Hearst government.

It is quite clear that people who are willing to submit to the orderly process of law and the ballot in the evolution of national life are of a different order of consciousness from those impatient plotters. They are not even willing to grow peaceably together, like the tares with the wheat, and no nation can be expected to submit itself to the disturbance and drain upon its

MOONLIGHT AND MONEY

BY MARION RUBINCAM

A HEART-TO-HEART TALK. CHAPTER 79.

Most of the "house" party drifted away after the second weekend; Mrs. Baxter in smart white serge, immaculate and charming as ever, was the last to leave.

"There's a new mob coming Saturday, but I always give myself at least two days to recover from one lot, so as to be fresh and rested for the next," Carol confided.

"I like him," Louise commented. "He likes you," Carol said with a quick look at her friend. "In fact, if you weren't married, I think—"

"You don't think anything," Louise said in a sudden and sharply. "All right, my dear, I won't," Carol acquiesced amiably.

Louise blushed, and then was angry with herself because of the color that swept over her face. Why should she blush like a school girl over a first love affair?

But reading was hard work in that fascinating spot. It reminded her of a place on one of the creeks that ran into the Hackensack River not many miles from her home, a place she and Harry had walked to many times during

of the opportunity. It is not expected that Mr. Doherty will be permitted a walk-over.

Drury Looking Elsewhere. Premier Drury, for sentimental and other reasons, has refused to sit for Centre Simcoe, but as the seat cannot be opened up owing to a petition having been filed against the member-elect, J. Murdoch, he will have to look elsewhere unless the rumors now current are arranged with the Conservatives over the objection lodged by the U.F.O.

Hon. W. E. Roney, the attorney-general, has also to be fixed up with a seat, but he still remains the outstanding difficulty. Some "adjustments" have to be made, according to Premier Drury, who is hopeful of seeing the attorney-general in his place when the legislature meets.

In view of the by-elections, which cannot possibly be brought off before early in February, if then, and of the

fact that no attempt has yet been made by the cabinet to prepare a program of legislation it is difficult to see how the legislature can possibly meet before March. Thus, for example, the winter holidays will come while the house is in session.

Drury Firmer in Saddle. Farmers' Magazine: Premier E. G. Drury and the U.F.O. have emerged from a patronage mix-up in Middlesex County, in which Harold Currie, U.F.O. director, was a prominent figure.

The affair was nothing more than a figure. Drury, and other daily newspaper have given the affair prominence by misleading headlines. The affair was nothing more than a figure. Drury, and other daily newspaper have given the affair prominence by misleading headlines.

What's Trumps? O'Keefe's! A closely-contested game with the rubber yet to be played—an interlude. The hostess, realizing how a little diversion is necessary, thoughtfully plays her Trump Card—by serving O'Keefe's.

O'Keefe's DRY GINGER ALE is a delightfully refreshing beverage that makes friends everywhere. Its sparkling brilliancy is Nature's own gift—pure water, scientifically aerated. The richness of its flavor—the nip—the pleasant tang, is imparted by the careful addition of pure sugar and the finest ginger blended to produce a beverage of exceptional merit.
