Britain Threatens War Against Bolsheviks Is Rumor In London

DEMAND FOR IMMEDIATE CESSATION OF ADVANCE INTO POLAND IS SAID TO BE IN ULTIMATUM

Situation Grave as in August, 1914, Says British Official—Allied Aid to the Poles—Report That British Will Mobilize Two Divisions— Polish Effort to Stop Invasion Futile.

Efforts by the armies of the Polish republic to stem the tide of the Russian Bolsheviki invasion which threatens Warsaw seem to have been futile. Brest-Litovsk, the last bastion in the permanent defenses east of the Polish capital, is in the hands of the Soviet armies, and Lomza, an important railroad junction and strategic base to the northeast, and Kovel, northeast of Brest-Litovsk, have been given up by the Poles.

West of Brest-Litovsk the Poles still hold the great forts that have made that city one of the principal fortresses of Eastern Europe, but Soviet troops have been flung across the Bug River further to the northwest, and it would appear this move will compel a retirement of the Poles from their defenses.

The Russians are advancing in echelon after the tactics adopted by General Mackensen, when he led the German armies in the great Danzig campaign during the war, and the Poles are repeatedly being outflanked and forced to leave positions they have held for days against frontal attacks.

The Polish armistice commission left Warsaw for Minsk today to meet representatives of the Moscow government for the purpose of arranging an armistice and beginning peace negotiations.

There are many reports of Allies' action to stop the advance of the Bolsheviki or to come to the aid of Poland, but as yet nothing authoritative has been reported relative to this phase of the seemingly desperate situation confronted by the infant republic.

London, Aug. 5.—According to the Herald, Premier Lloyd George presented an ultimatum to Bolsheviki representatives in London demanding an immediate and unconditional cessation of the Russian advance into Poland, even before signing an armistice, on pain of Great Britain's instant declaration of war.

Warsaw, Aug. 5.—Russian Soviet armies driving against the Polish lines defending Warsaw are maintaining an average progress of six miles per day in the direction of the city.

They are being held in the south, however, and in some places are being pushed back from the districts east of Lemberg, which is one of the objectives of their present campaign.

Today's official statement at general staff headquarters declares that the Poles have retaken the town of Brody, near the Serbian frontier, and have forced the Bolsheviki back into Russia in the region of Radobuz, northeast of Brody.

United States military forces fighting with the Koniakso squadron are battling against General Bureny's cavalry and infantry along the Beresin river, where the Soviet forces have not made any headway.

Parts of this squadron were engaged all day yesterday near Mielke, where they met Cossacks and Bolsheviki infantry.

The losses suffered by the enemy in this district were very heavy, today's official statement saying 1,400 Bolsheviki were killed and large numbers were wounded.

Allied Assistance.
Poland strained every ounce of her reserve power yesterday to checkmate the Bolsheviki in the game on the result of which depends the fate of the new republic. Men in whose hands rests the destiny of Poland assembled at various conferences throughout the day and taking a leading role in all decisions were the British, French and Italian missions.

Missions recently unopposed at Minsk by the British were arriving during the day, and tanks, rifles and artillery from France were rushed to the front.

French officers are arriving daily to act as technical advisers at Polish general headquarters in the preparations for Warsaw's final stand against the invaders.

Situation Grave.
London, Aug. 5.—Among British officials and diplomats of obvious concern was undisguised anxiety as to the Russo-Polish situation.

One high official said: "The situation is as grave as that in August, 1914."

London, Aug. 5.—Leo Kamenef, president of the Moscow Soviet, is reported to have sent a message to his government asking that Russia accept immediately the original British proposals for an armistice with Poland.

Kamenef, it is said, sent his message after he and Leonid Krasin, the Russian minister of trade and commerce, had had a very plain talk with Lloyd George and Andrew Bonar Law, government leader in the House of Commons last night. No reply has been received.

Reports Not Confirmed.
London, Aug. 5.—Statements printed by extremist newspapers here that Great Britain has threatened to go to war against Soviet Russia if the Bolsheviki advance into Poland is not halted have not been confirmed. While it is generally agreed the Allies are taking an emphatic stand upon the terms sent by Earl Curzon, British secretary of state for foreign affairs, to George T. Chichester, Bolsheviki foreign minister on July 20, in which he stated that if the Soviet government made war upon the Poles, the Allies would assist the Poles, nothing reliable is known which would justify the assumption that such assistance would take the form of a declaration of war, with all such a declaration would involve.

In military quarters here the view is taken that the Allies' principal weapon against the Bolsheviki, if it is decided to oppose them, will be the blockade, and that the Poles will, if possible, be given supplies. Doubt is expressed, however, as to the possibility of conveying supplies to the Polish army in the event that the Bolsheviki capture Warsaw and

NEW AND STRIKING PICTURE OF LLOYD GEORGE, ENGLAND'S PRIME MINISTER

This picture of the British premier was taken as he conferred with his French colleagues outside the Chateau at Spa where the conference between Allied and German representatives is being held. The premier wears his grey hair long—Central News Photo Service, N.Y.

DRUGGISTS WARNED Offence Against Ontario Temperance Act Will Mean Loss of Certificate.

Toronto, Aug. 5.—Druggists have been warned by the Ontario College of Pharmacy that any druggist convicted of contravening the Ontario Temperance Act will lose his certificate and be prohibited from acting as a secretary or shareholder in any incorporation company dealing in drugs or medicines in Ontario.

CHALLENGE FOR AMERICA'S CUP Mr. Ross Receives Reply From N. Y. Yacht Club— Formal Def. Must Come from Club—Late Sport News.

Toronto, Aug. 5.—A telegram from the New York Yacht Club was received here last night by A. C. Ross. It was signed by J. Pierpont Morgan, commodore of the New York Yacht Club.

Your telegram of August 4 received. You will note that the offer of gift of the America's Cup requires that a challenge must come from a duly organized yacht club, fulfilling certain specific conditions.

Should such a challenge be received from one of the clubs you mentioned yesterday, I will submit it to the officials of the New York Yacht Club.

Mr. Ross left last night for Montreal from where he will get in touch with Commodore H. G. DeWolf, of the Nova Scotia Yacht Club, and the commodore of the Royal Cape Breton Yacht Club.

Mr. Ross says in the matter of challenging for the America's Cup in 1922 that the event will be held at Ottawa, August 26 and 27 and entries will close at noon August 25.

Another matter before the board this morning was that of Canadian government steamers arriving at this port loaded and when their cargo is discharged, going to Montreal or Quebec to load the matter will be brought to the attention of the Canadian Government Merchant Marine and it is hoped that some settlement of the matter, not unfavorable to this port, will be reached.

R. E. Armstrong, secretary of the board, was in Montreal representing the local board at the conference. He said that a resolution strongly opposing the settlement of the freight rates question was taken up by the conference.

The matter is being cleared up. He said that a resolution strongly opposing the settlement of the freight rates question was taken up by the conference.

At the conference Prince Edward Island was represented by Premier Bell, who spoke of some of the things that are currently being done in the island. The first of these is an additional railroad route and the repair of damages to the island by means of standard gauge, and that means being found for the better distribution of fertilizer.

President Wilson's Orders to Prevent Landing of W. U. Cable at Miami—To Warn British Captain.

Washington, Aug. 5.—Government officials today awaited the result of orders issued by President Wilson to prevent the landing by the Western Union Telegraph Co. at Miami, Fla., of its newly laid cable from Barbadoes.

Orders have been issued by the navy department at the president's direction to destroyers now off the port of Miami to prevent the landing by force if necessary.

The state department has requested the British embassy to inform the captain of the ship chartered by Western Union Company, the British steamer Colonia, that such a landing would be prohibited.

BURIED TODAY.
The funeral of Mrs. Ann Hoyt was held this afternoon from Leinster street Baptist church. The service was conducted by Rev. F. H. Bone and interment was in Fernhill cemetery, West End. The service was conducted by Rev. W. H. Sampson and interment was in Cedar Hill.

The funeral of Louis Henry Mouch, who died at Lakeside, was held this afternoon from the undertaking rooms of M. N. Powers. The body will be sent to Ontario for interment.

As Hiram Sees It

"Hiram" said the Times reporter, "what we are going to live on. Even hay is going to be forty dollars a ton—and the profiteer all that is grass."

"I spoke," said Hiram, "you remember that old Doctor Johnson said to the bookseller that said he led to live. The doc said he didn't see the necessity of 'Swill' for I would then have to hire a man myself and lose the farm again."

"That's so," said Hiram, "but that's the way we're living now—days. We never know, as the Good Book says, what a day or an hour'll bring forth."

"I don't see," said the reporter, "what we are going to live on. Even hay is going to be forty dollars a ton—and the profiteer all that is grass."

"I spoke," said Hiram, "you remember that old Doctor Johnson said to the bookseller that said he led to live. The doc said he didn't see the necessity of 'Swill' for I would then have to hire a man myself and lose the farm again."

"That's so," said Hiram, "but that's the way we're living now—days. We never know, as the Good Book says, what a day or an hour'll bring forth."

Progress Made Towards Irish Self Government

Lloyd George So Informed By the Unionists Who Denounced Irish Crime Bill

Suggested That Ulster Be Entitled to Withdraw from All-Irish Scheme—Curfew Order in Archbishop's Home Town—K. of C. Resolution.

London, Aug. 5.—Premier Lloyd George was held at a conference with the Irish deputation he received yesterday that great progress had been made among Irish Unionists during the few months in favor of a broad policy giving self-government to the people of that island, says the London Times in reporting the meeting.

The deputation was unanimous and strong in its denunciation of the government's Irish crime bill, and was also strongly opposed to any scheme for the partition of the island. Fiscal autonomy was also recommended.

Capt. Harrison, secretary of the Irish Unionist League, submitted on behalf of the delegation a scheme based upon recognition of the dominion status of Ireland followed by the inauguration of a constituent assembly elected, under a system of proportional representation, on a wide democratic franchise.

The speaker responded with a grant, which he thought "good."

Curfew Order.
Dublin, Aug. 5.—(Associated Press)—The order prohibiting the departure of Irishmen from Ireland proposed by the government yesterday was amended to prohibit the departure of Irishmen from the province of Ulster.

The Sinn Feiners for some time have been discouraging young men from leaving the country, and this official decision did not come as a surprise.

Windsor Hotel Proprietor Pays \$2,000; Woman Patron, \$1,000 and Waiter \$25.

Windsor, Ont., Aug. 5.—Police court officials were nearly five hours in the police court house listening to liquor cases yesterday. Fifteen cases were disposed of. Principal interest centered about the complaint against the Sunny-side Hotel, a Sandwich West resort raided recently by inspectors Mousseau and Conroy.

Mrs. George Smith, who said she came from across the river, was found slipping cocktails at a table in the place where the officers entered and she was fined \$1,000 with costs added.

Robert Moore, settled the case against him for \$2,000, while Meade Childs, a colored waiter at the hotel, got off by paying of the fine.

ON TRAIL OF TRAIN BANDITS IN WEST
Calgary, Aug. 5.—The pursuit of the three bandits who held up train No. 63 through the Crow's Nest Pass on Monday afternoon has progressed so far as to establish the fact that the train robbers have not crossed the border into the United States.

Major McLeod, superintendent of the bureau of investigation for the Canadian Pacific railway, is confident that the bandits will be forced out into the open soon.

The Socialist Congress, in session at Geneva, voted to remove its headquarters from Brussels to London.

Weather Report
Issued by the Department of Marine and Fisheries, B. F. Stupart, director of meteorological service.

Toronto, Aug. 5.—The weather has been showery over the greater part of the western provinces and in northern Ontario, while from southern Ontario to the maritime provinces the weather has been fair and moderately warm.

Shower.
Maritime—Light winds, with showers in many places today. Friday, moderate winds, mostly fair and warm.

Gulf and North Shore—Moderate winds, fair today and on Friday.
Washington, Aug. 5.—New England—Partly cloudy tonight and Friday, moderate northeast winds.

Toronto, Aug. 5.—Temperatures:
Highest During Day
Lowest During Night

Victoria	51	70	82
Kamloops	51	70	82

Detroit	68	78	84
New York	72	80	86

Under the new scale proposed by the commissioners about three per cent will earn 45 cents an hour; about 11 per cent 50 cents and about 85 per cent 55 cents an hour.

In all about 3,500 men receive considerable increases under the award.

MAY RENDER THE WINNIPEG ELECTION INVALID

Two Members of Legislature Hold Offices Under the Crown Which Disqualifies Them.

Winnipeg, Aug. 5.—The Winnipeg Tribune says:

Ineligible to be members of the legislature because they hold office under the crown, John Stovel, Liberal, and W. J. Tupper, Conservative, may be disallowed seats in the Manitoba assembly.

Furthermore, it is possible that their election may render invalid the whole Winnipeg election.

In giving its reason for this report, the Tribune says:

Mr. Stovel is a member of the joint council of industry and as such is entitled to a stipend for each day the council is in session.

Mr. Tupper is a member of the commission on uniformity of laws, being one of the three Manitoba representatives.

Members of this body receive no salary, but are provided by law with legitimate expenses while traveling and when out of their home city.

N. B. GRAIN CROP "NEVER BETTER"

Cheering Report from Agricultural Department Hay Less Than Last Year But Potato Crop Looks Promising—Danger of Blight.

Fredericton, N. B., Aug. 4.—Weather conditions during the last week have not been of the best for hay-making. Frequent showers have somewhat retarded operations. The clover has been practically all harvested, generally speaking, there seems to be less clover in the hay crop than last year. Much of the hay crop still remains to be cut.

Since starting to cut, farmers are verifying the earlier reports put out that there is from twenty per cent to twenty-five per cent less hay than last year. Pastures are said to be poor in nearly all the reports, but recent rains will cause them to improve.

The grain crop is good. Some reports say "never better." A splendid grain crop in the province seems assured. The turning crop is growing well and should be well up to the average.

The potato crop has improved very much during the last week. Many fine fields of potatoes are to be seen. Late blight is starting to develop in some fields, but if it continues to develop, may cause considerable loss. Those farmers who have sprayed well with Bordeaux mixture and again used the very cheapest form of insurance. They are quite a number of miles in fields with Bordeaux mixture and again used the very cheapest form of insurance. They are quite a number of miles in fields with Bordeaux mixture and again used the very cheapest form of insurance.

Peace Conditions
Belfast, Aug. 5.—"Provided the independent status of Ireland is recognized, Irishmen will be prepared to furnish international guarantees properly incorporated in a peace treaty safeguarding the strategic interests of the British Empire."

CONFERENCE IS OPENED
Press Delegates Addressed by Premier and Opposition Leader—Lord Burnham Chairman.

Ottawa, Aug. 5.—Viscount Burnham was elected without a dissenting vote, chairman of the second Imperial Press Conference, which was opened in Ottawa this morning by His Excellency the Governor-General.

Premier Hon. Arthur Meighen and Hon. W. L. Mackenzie King, leader of the opposition, spoke formally in welcoming the delegates, who number about 150 from Great Britain, Canada and every part of the British Empire.

The conference will last until Saturday noon, after which the party will confine its tour of the domain, beginning with Niagara Falls, Toronto and other Ontario cities next week.

TO PREVENT PROFITEERING.
Winnipeg, Aug. 5.—Supply, demand and competition prevent profiteering in Canada, said Captain White, chief commissioner and commissioner F. A. Ackland and G. A. Dillon are visiting the cities of the west to investigate such cases as may be presented to them in which profiteering is suspected.

AWAITING ORDERS.
The body of Andrew Smith of Framingham, Mass., who committed suicide on Tuesday morning at the Dominion Coal Company's works is still at Chamberlain's undertaking rooms awaiting disposal. As yet the police have received no word of any relatives.

ONE-MAN CAR ONLY MEANS OF KEEPING DOWN FARES, SAYS DON. M. CAMPBELL

Declares He Has Looked Carefully Over Reconstructed Cars in St. John and That They Are Exceptionally Safe and Should Be Easy to Operate.

Among the visitors to the city recently was Don M. Campbell, mechanical engineer, formerly superintendent of the Ottawa Car Company, and later general manager of the Preston Car & Coach Company, Preston, Ont., who has spent thirty-eight years in practical car building. He is the dean of the Canadian car builders, now acting consulting engineer for the Ontario railway and municipal board and railway equipment.

FINE ADDRESS BY JAPANESE AT CHAUTAUQUA

M. T. Yamamoto of Tokyo, Japan, arrived in the city from Halifax this afternoon and spoke at Chautauqua this afternoon to a large audience, who listened with profound interest. Mr. Yamamoto dealt first with the mutual ignorance existing between Japan and Canada that hinders proper international relationship and urged that this ignorance should be dispelled and Japan and Canada be brought into a deeper knowledge of each other in spirit and character, hopes and ambitions. In speaking of militarism in Japan the speaker said it would be better for a country as small as Japan to maintain a large army and navy which would be capable of making her a country of any great military power.

LIBERTY T. C. BARKER HOME AFTER FIVE YEARS SERVICE

Fredericton, Aug. 5.—(Special)—Lieut. Theodore C. Barker, son of H. S. Barker, lieutenant-governor, arrived here this morning with his wife, who he married in England, and their child. He is in the Royal Artillery and is home after an absence of upwards of five years, having left Fredericton in February, 1915, as a sergeant in the Canadian Field Artillery. He was commissioned in the Royal Field Artillery and served in France and Flanders and also at Constantinople. He is also in Ireland.

NOTICES OF BIRTHS, MARRIAGES AND DEATHS, 50 CENTS.

MARRIAGES

ANDREWS-STUDLEY — At the Church of Holy Nativity, Knowle, by the Rev. F. Talbot Parker, vicar, by license, Harold, only son of Mr. and Mrs. Charles Andrews, of 65 Chesley street, St. John, N. B., Canada, to Laura Gladys May, second daughter of Mr. and Mrs. J. S. Studley, 25 Somerset road, Knowle, Bristol.

IN MEMORIAM

Qicura For Skins That Itch, Burn and Scale

Bathe the affected part with Qicura Soap and hot water. Dry gently and rub on Qicura Ointment. This treatment is usually best on rising and retiring. For every purpose of the toilet, bath and nursery the Qicura Soap and Ointment are ideal. The Soap is made of purest materials and is free from alkali. The Ointment soothes and cures.

Qicura Soap, Ointment, 25 and 50c. Sold throughout the Dominion. Qicura Soap, Ointment, 25 and 50c. Sold throughout the Dominion. Qicura Soap, Ointment, 25 and 50c. Sold throughout the Dominion.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

LAST CHANCE TO HEAR BERINI

Famous Tenor Will Conclude Local Engagement at the Opera House Tonight — Other Feature Acts and Last Episode of "Daredevil Jack" — New Bill for Friday. Tonight will be the last opportunity for music lovers to enjoy the feature offering being presented in the Opera House by Stanislas Berini and Louise Todter. The former is conceded to be one of the greatest tenors in the world and his selections have been greatly enjoyed by large and appreciative audiences.

PERSONALS

Mrs. G. L. Tapley of Douglas avenue, and daughter, Mrs. Seymour Rathbone of Ottawa, have returned from Debec, N. B., where they have been visiting Mrs. Tapley's son, G. P. Tapley. Mrs. Rathbone will spend the remainder of the summer visiting her parents. Among the passengers on the C. P. O. S. Empress of France, which arrived in Quebec yesterday, was Lieut.-Col. W. McLean of this city. Mr. and Mrs. H. O. Miller and Mrs. J. H. Welford have returned home after a delightful motor trip through New Brunswick and Nova Scotia. Mr. and Mrs. H. Herbert Warren, daughter, Miriam, and son, Douglas, accompanied by Mr. and Mrs. J. C. Warren, arrived home last evening after a motor trip through New Brunswick and Maine. Miss L. M. Wheaton of 140 Carmarthen street, accompanied by her mother, will leave this evening for Montreal where they will be guests of Mr. and Mrs. G. H. Wheaton after which they will visit Toronto, Niagara Falls, Buffalo and other points of interest. Mr. and Mrs. F. C. Hamilton, of Atlantic, Ga., who had been visiting Mr. and Mrs. J. H. Hamilton, of Pandemic, returned home last evening.

ACCIDENTS

John Hannah, of Boar's Head, was brought to the General Public Hospital this morning suffering from lacerations about the legs. In some way he became caught in a mowing machine and his legs were quite badly cut. After his wounds were dressed, he was taken to his home. Robert Lyon, 154 Millidge avenue, a teamster, suffered painful injuries this morning when his horse ran away in Metcalfe street extension, throwing him from the team and it is feared, breaking his leg. He was taken to the General Public Hospital. The ambulance made a particularly quick run.

JUDGMENT IN WILL CASE

In the matter of Nelson A. Child's will, judgment was delivered today by Chief Justice Sir Douglas Hazen, in Chambers. Coupons that were in the bank before the testator's death would form part of residuary estate, while those which were in a box for safe keeping would follow the debentures and be divided among Gertrude Price, Beatrice Price and Margaret Price. Other contentious matters were also decided. W. H. Harrison appeared for Leanda A. Child, plaintiff; C. F. Inches for Charles W. Risten and Harriett S. Risten, and Stephen W. Palmer for George Price and Beatrice Price, certain parties claiming under the will.

VETERINARIAN ELECT.

Halifax, Aug. 5.—Dr. F. A. Gough of Halifax was elected president of the Provincial Medical Veterinary Association at the annual meeting here yesterday. Dr. Gill of Truro is vice-president and Dr. Sims of Parrisboro, secretary. It was decided to meet semi-annually hereafter.

Surprised And Delighted Old Friends

Who Failed at First to Recognize Them — Local Optical House Makes Big Step Forward in Remodeling Their Premises — A Long and Creditable Record

Not content with their already fine and modernly appointed optical rooms, K. W. Epstein & Co., optometrists and opticians, have so completely transformed and still further improved their premises at 198 Union street that many of their oldest patrons failed to recognize the store where they had, for so long, received such excellent service in the optical line. The interior of the store has undergone an entire change, having been freshly painted in a natural, restful tint and once pleasing to the eye, and the handsome Srient salesmen showcases, in which the most approved styles of eyeglasses and mountings are tastefully displayed, has been swung around directly facing the entrance. A soft green paper separates the store from the optical room where the equipment expresses the last word in modern scientific optical appliances.

GOLF

The semi-finals in the golf championships, at the Riverside Golf and Country Club, this morning resulted as follows: C. Mielke, of Dartmouth, N. S., defeated A. E. Scrutten of Westfield, seven up and five to play. J. M. Murphy of Halifax defeated C. A. Evans of Halifax, four up and three to play. In the first consolation semi-final, W. A. Henry of Dartmouth, N. S., defeated A. S. Peters of this city, three up and two to play. High Henry of Dartmouth defeated H. M. Wylie of Dartmouth, five up and three to play. W. Durant of Dartmouth one up at the nineteenth hole in the second consolation semi-final. A. C. Currie of Riverside defeated J. Pope Barnes of the Riverside Club three up and two to play.

BASEBALL

In order to lengthen right field in St. Peter's Baseball Park the grounds committee have opened that section as a public dump where ashes and any material of an objectionable nature may be deposited. A road has been made around the end of the field so as not to damage the diamond. At Quebec yesterday the resumption of the coroner's inquest into the murder of Blanche Garneau whose body was found near the river on Wednesday night, failed to bring to light any evidence which might lead to the arrest of the author of the crime.

Britain Threatens War Against Bolsheviks, Is Rumor in London

(Continued from page 1) London, Aug. 5.—Soviet Russia concluded a secret treaty with Germany concerning Poland a few weeks before the great Polish offensive began, says a correspondent of the London Times. He claims he has secured the information from excellent authority. The treaty, it is asserted, contained the following clauses: "Russia, without interference from Germany, would be allowed to appropriate all of Poland's arms, munitions, rolling stock and foodstuffs. "After the conquest of Poland, permission would be given Russia to send a number of Bolshevik commissaries to that country to control the export of Polish supplies of all kinds. "Russia would undertake to completely evacuate Poland in favor of the Germans, which would hold the country as a guarantee against future credits to Russia in return for German goods and German labor.

Progress Made Towards Irish Self Government

(Continued from page 1) The Belfast Telegraph today, in a proposal for peace between the Sinn Fein and the government which was forwarded on Sunday night to Premier Lloyd George. The intermediary, who has been endeavoring to arrange for direct negotiations between Arthur Griffith, founder of the Sinn Fein organization and the government, is declared by the newspaper to have formerly been a member of an internationally known Ulster firm.

THE GREAT ASSET.

While Dr. Miller did not come to St. John to make before the Canadian Club a special plea for vocational training, his address irresistibly led to the conclusion that not until provision is made for such training will our educational system be efficient. Clearly his purpose was to arouse interest and provoke thought, rather than to tell the people what they should do. Beginning with the remark that our greatest national asset is the human asset, he pointed out that its development must look to two sources—the people who come as immigrants and the children born in our own country. In the case of the former it is essential that they be clean, healthy and intelligent, and that they learn our language, and are imbued with our ideals, and made real Canadian citizens. It is no less essential that the children born in Canada be clean, healthy, and so educated and trained as to be not only useful members of the community, but inspired by high ideals of citizenship. The school is the institution to which society hands over its children in their ignorant childhood and asks that it care for them and fit them for the responsibilities and problems of life which they must face when school days are over. The school must protect them, educate them, carry on a process of selection to the end that special qualities and tendencies of a right nature may be developed, and instill right views of social relationship and good citizenship. But in modern life the old system will not suffice. We must still prepare pupils for professional life, but there will always be a large majority going into industry, commerce and agriculture. These have the same right to consideration as those headed for the professions, and life is so specialized in the three departments mentioned that there must be special preparation. It is here that vocational training comes in, not to replace but to supplement that which fits a certain proportion of students for the professions.

Dr. Miller presented a very searching question when he asked who will be the leaders in Canada when the population is double or three times what it is now. Will it be the children of today, born and trained in Canada with a full knowledge of the requirements of the future; or will it be men and women trained in other countries along lines that fit them more for leadership than our own children are fitted? We are facing a great future, that will change the conditions of life for our children more than they have been changed since the graybeards of today were boys. Are the children of today to receive the training that will fit them for great tasks, not only in professions but in industry, commerce and agriculture—or are we to send them out into life ill-equipped for those tasks?

Only 28 per cent of the pupils in New Brunswick schools go beyond the fifth grade. Only 7 per cent enter high school and less than 2 per cent graduate. Of 20,000 children between fourteen and eighteen years of age, about 16,000 are not in school. In the light thrown upon the whole subject by Dr. Miller, how does the province measure up to its opportunities and its responsibilities? An answer to this question is that of some six hundred members of the Canadian Club of St. John little more than a score thought it worth while yesterday to assemble and listen to a man whose message was of infinitely more importance locally than ninety-nine out of a hundred addresses to hear which the members flock in larger numbers. Members of the city council, school board and other bodies which should be interested were conspicuous by their absence. That, however, does not eliminate the problem which we in St. John and the province of New Brunswick must face if the children are to be given a fair start.

Bradstreet's Journal on Saturday said:—"Special mention needs to be made of the very generally low trend of commodity prices this week. Marked weakness is shown in the cereals, due to crop reports or movement; flour is off, hog products are lower, as are butter, sugar, coffee, meat-producing animals and cotton and cotton goods. Bradstreet's Food Index of wholesale food prices is down sharply, while of seventy-six commodities of all kinds, only ten are higher, twenty-nine lower and thirty-seven are unchanged. The week's index number, based on the prices per pound of thirty-one articles used for food, is \$4.57, which compares with \$4.70 last week and \$5.30 for the week ending July 31, 1919. This week's number shows a loss of 2.7 per cent from last week and of 18.7 per cent from the like week of last year."

Toronto Globe.—"The rest of the world will probably be subjected for the next few weeks to a flood of contradictory dispatches relative to the armistice and peace terms between Poland and Russia, accompanied by numerous claims of victory for the Bolsheviks. Their propaganda factories will see to it that they will be glad to accept terms that will not be too heavy on Poland and put an end to the long war that has been waged in and about Russia since the revolution there. The issue will be awaited with interest, for every move of importance in connection with it has a world-wide reflex on trading and financial conditions."

Rippling Rhymes by Walt Mason. Copyright by George Matthew Adams.

SUMMER MONTHS.

July's a month that makes me sad, while on my errands trotting; the air is hot, the flies are bad, and I'm kept busy swatting. Though August fills our souls with grief, we yet may all remember a few short weeks that bring relief—the next month is September. But in July no kindly thought of that sort soothes the spirit; for August will be twice as hot, and so we dress and fan us. And as we drink our bitter cup, and chase the bugs that bit us, we say to friends, "Cheer up! Cheer up! The worst is yet to hit us!" By day I plod with weary tread along the streets a-blazing, and sleepless spend the night in bed, all kinds of thunder raising. And when I rise at 6 o'clock—feel like those poor critters who've lived for weeks on private stock, or home-brewed brands of bitters. I drool and giber as I slide to get a bronzo seltzer; in winter Hope walks by my side, but in summer comes and melts her. The heat's so hot it cooks the trees and the fruit is rotting, and I get on my hands and knees to do my daily swatting. It is no use to look ahead to Autumn's frosts that dangle, before they come well all be dead, and roasted to a frazzle.

CANADA—EAST AND WEST.

Domestic Happenings of Other Days

THE HURON FARMER.

Unlike a great many of the Indians whom Samuel de Champlain visited in his explorations in Canada, the Hurons living in the Georgian Bay district had made considerable advances in farming by the time of his arrival there in 1615. They did not rely merely upon hunting to maintain themselves and their families. They were hunters, fishermen, farmers and traders. They were accordingly upon a much higher level than the Algonquians who roamed the forests farther north. They raised crops of corn, beans, pumpkins, hemp and such things as the latter being produced almost entirely to produce oil with which braves and squaws anointed themselves. Certain of their religious ceremonies, the Hurons, who lived a little farther south, added tobacco to their crops. It grew then in great strength, although at the present time tobacco in that district requires great care. Corn was the chief crop and the main article of food other than game and fish. It was not the high class corn of the present day but a hard, flinty type with a bluish kernel, similar in many respects to the corn grown even yet on the Grand River reserve near the city of Brantford. Oil for food was secured from the fish and the hemp they furnished fish nets and cords. The furs they required for clothing were obtained by trapping the beaver, or muskrat. In the summer, however, the men went almost naked and the women wore little more than a loincloth. They lived out of doors all the year round and they seem to have felt the cold of winter. Champlain was greatly impressed when he saw the Hurons sowing their seed with the fine crops he saw everywhere in the section and with the Indians he met he heard them say that the garden, the result of the toil of the Hurons.

AT THE END OF THE OLD BROWN ROAD.

Dusky brown in the shade, golden brown in the sun. The old road, turn by turn, cleaves through the fir wood's gloom. Making a path for our feet, carpeted thick from the loam. Of the tireless weaving years, at their end, that is never done. Clearing a path for our sight to the blue of the fathomless sky. And the gracious friendliness of white clouds floating by.

Far, so far, seems the sky, in its awful loveliness! But the clouds go lowering low, as if they had a fain folk down. Through the rift in the fir wood's roof, on the old road's sun flecker. Gently they move, and pass, exquisite, passionless.

So still, faint, the road, beneath the sky's luminosity. "Minnie Leona Upton, N. Y. Sun."

LIGHTER VEIN.

"She dropped her eyes." "That must have been the time her face fell."—Baltimore American.

The Wife—What do you men know about women's clothing?—The price.—London Opinion.

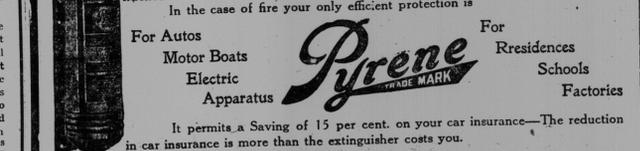

Why He Died Rich. Not long ago an old fellow died out in Kansas, leaving a barrel of money. He had a household of children—ten or dozen. It cost considerable to feed them. The old man evolved a scheme. He would say to the children in the evening, "Now, how many of you will take a dime and go to bed without supper?" They all took dimes and went to bed hungry. Next morning the old man would say, "Now, children, how many of you will give me a dime for a nice, warm breakfast?" And, of course they would all cough up their dimes. The old man thus saved the cost of the children's supper. "This was just one of his schemes," he had others. That's why he died rich.—Boston Transcript.

What Pleas'd Him. A young artist out on a sketching trip came across a sturdy youngster carrying a rod and quite a catch of fish, and a consideration induced him to pose for a sketch. In a few minutes the artist was proclaimed to be the father of a family. "Well, sir, if that isn't wonderful!" "Beats me, I ever saw a man." "Like the sketch, do you?" the flattered artist responded with a pleased blush. "Sketch? Oh, that! Yes, it's all right, I expect. What I meant was the way you have managed to keep that boy quiet for so long."—London Answers.

The stories in a magazine he was at that time editing. J. J. Bell actually had to publish "Vee MacGregor" himself. He got an accomplished artist to draw the famous cover and became his own publisher, with excellent results to himself and the public.

Is Your Auto Protected?

Have you thought about what would happen—or what you would do if your auto took fire? There is not much to do—if you haven't a PYRENE CHEMICAL EXTINGUISHER. Water only spreads the flames—and one can hardly have confidence in sand and it clogs the motor. In the case of fire your only efficient protection is

BETTER TRAINING IN THE SCHOOLS

Vocational Instruction a Need of Today—What Germany Is Doing. (Moncton Times.) At the recent meeting of the Westmorland county council some of the members urged the establishment of vocational schools in this province. Something has already been done along this line but not enough. The great need of the time is not higher education as given in the colleges but such a training as will increase the efficiency of the individual schools in this province. Newspapers in the United States are calling attention to the fact that the higher educational institutions in that country are overcrowded with students, sons and daughters of the newly-rich, who are a product of this war, as they are of all wars. These students are pitched-forked into the colleges without any special regard to their adaptability, with the result that here will be more mental illness in the profession than ever. The great need of the time is an education that will fit men and women to become useful citizens and these are not necessarily the product of colleges. Indeed, many men and women are best fitted for the battle of life with a common school education, though some more general system of vocational or manual training is an urgent need. The London Telegraph has a letter from the German correspondent giving some particulars of a meeting recently held in the German capital to lay down the lines for educational reforms. These were outlined by Professor Rein, who has a reputation in England as the greatest German authority on education. The correspondent of the Telegraph reports Professor Rein as follows:—"The Allies," he said, "have brought Germany low as a military power, but in doing so they will enable her to develop in other and better directions. Having got rid of army service, we shall now have a better chance than ever of seeing a nation of better citizens. He explained the aim was to give children of every class an opportunity of development which would make them of the utmost value to the nation and themselves, allow them to rise to the highest positions. After referring to the widening gap between classes and the necessity of closing it by bringing different strata together, would less antagonism, he described proposals. All classes of children, he said, from six to ten, would attend the elementary school, where they would be divided into three categories: those with bright intelligence. The first two would continue at this school and eventually take up manual work, while the clever ones would proceed to the middle school, where they would learn modern languages. Between the ages of twelve and thirteen would come another sifting, the duller youngsters continuing at the elementary institution till fourteen, the better brains being drafted to the middle school to prepare for training later in special vocational institutions, which are already highly developed, and the clever children entering the higher schools, classical, mixed, or modern, where they would remain till eighteen. It is noteworthy that even dull youngsters, girls as well as boys are to be compelled to attend continuation schools up to eighteen. The professor emphasized that the earlier stages of education aimed purely at training the mind, and not at cramming or preparing the child to be a good wage earner. There would be a fourth type of higher school, chiefly for intelligent country children, who, not having learned a foreign language, cannot enter any of the other three, where an elementary knowledge of one or more is expected, and who have been somewhat neglected. Professor Rein's view was that training colleges should be affiliated to the universities which could grant degrees in pedagogy. He described an interesting development in Thuringia, where eighty people's higher schools, or rather university extension courses, with 40,000 students, peasants, workers and middle-class young people, all over eighteen, are doing excellent work. He urged the need for Germany to take up sport more seriously, as the stamina formerly supplied by army service would have to be kept in this way. When asked how Germany had been able to start three new universities since the war, although in such dire straits, he explained the money had been subscribed before the war and the buildings and staffs were of the time. It was merely a matter of completing the organization and adding the name of the university. It is well known that the German educational system has long had a view of the selection of students for scientific and other work but according to Professor Rein it does not go far enough. The university of the German people as a whole but to this system of education. The people of the British dominions should not be above taking note of what their friend the enemy is doing along educational and other lines. He may be deprived of his military prowess but it is economic efficiency that counts.

INDUSTRIAL ARMY IN PALESTINE

10,000 Recruits Are Wanted for Reconstruction Work—Will Build Houses and Prepare Land for Immigrants. Jerusalem, July 18.—(A. P. Correspondence)—Ten thousand volunteers, chosen from veterans of the world war, the Jewish Legion and skilled workmen, to enlist at once for eight months in service in a Jewish industrial army in Palestine in the interests of the reconstruction work of the Jewish national fund, according to Bernard A. Rosenblatt, president of the American Zion Commonwealth, who is now in Palestine in the interests of "Balfour's" colony of the American Zion Commonwealth. Mr. Rosenblatt recommends a regular army organization with a general staff of three, which, as a Jewish industrial army organization, will supervise the work of the Jewish labor army in rebuilding the Holy Land. "Our biggest task, once the call is issued for volunteers, will be in sifting the 10,000 to go," he said. "They could all be occupied in the one task of building houses for future immigrants. The army should work only on land belonging to the Jewish national fund, and according to the Palestine governments from the Jewish National Fund, the American Zion Commonwealth or other agencies of the Zionist organization." In addition to the construction of houses, he points out that such an army would be busied in preparing land for immediate settlement, irrigation, afforestation, sanitation and engineering works necessary for the development of industry and commerce. "The nucleus for such an industrial army is already in Palestine in the cooperative groups, working on the lands of the Jewish national fund and in the first colony of the American Zion Commonwealth," he concluded. "An army of 10,000 men, although such a huge disciplined Jewish labor army will be able to reconquer the land of our forefathers."

RECENT WEDDINGS

Miss Parthena Joama, daughter of Mr. and Mrs. J. O'Leary, Plumwessop, was united in marriage in St. Francis Xavier church, Sussex, on Tuesday morning, July 27, to William Joseph McHugh, St. John. The ceremony was performed by Rev. J. J. McDermott.

At St. Bernard's church, Moncton, on Monday, Miss Mary Gertrude, daughter of Mr. and Mrs. Frederick Terrio, Amherst, was united in marriage by Rev. Wilfred Maillette to Frederick Benedict Doherty of St. John.

RECENT DEATHS

Mrs. Stephen A. Steele.

The death is announced in Squantum, Quincey (Mass.) of Mrs. Elizabeth H. Steele, wife of Stephen A. Steele of West Medford (Mass.), formerly of St. John. The funeral was held yesterday in Roxbury (Mass.).

News of the death of Vice-Admiral Sir Allan Everett of H. M. S. Calcutta, who was in the city recently, was received here yesterday from the medical officer of S. S. Chaleur, who was in Bermuda when the noted officer passed away. Sir Allan was the guest of the city at many social functions during his visit here and made many friends, who will regret to hear of his death, which was due to enteric fever. Lady Everett is also ill with the disease, and many of the ship's crew are in a serious condition.

The death of Mrs. Bessie Darling took place recently at her home in Albert street, Moncton, after a short illness. She was well known and was in St. John at the time of the fire in 1877. She leaves one daughter four sisters, including Mrs. Alfred Leonard, St. John, and three brothers.

Stores Open 8.30 a.m., Close 5.55 p.m.—Friday 10 p.m., Saturday 12.55 p.m.

Woollen Scarfs
Are Going to Prove Popular For Fall Wearing

These are a splendid substitute for the fur neck piece or sweater and are made in very attractive styles. The newest scarfs are wide on the shoulders and have broad belts and tuxedo roll. Some are in two color combinations, such as grey and American beauty, helio, and white, turquoise and apricot, as well as plain white and tan. Two big buttons are used to hold scarfs in place in the front.

Plain colors \$5.75
Fancy \$6.75

COAT AND PULL-OVER SWEATERS FOR WOMEN AND GIRLS
Made of fine Wool, in newest colors and stitches. Coat sweaters have tuxedo fronts, or are very plain and practical. Pull-overs have high or low cut necks—a few have surplice fronts, and there are many fancy collar and peplum

COAT SWEATERS \$8.75 to \$11.50
PULL-OVERS \$4.65 to \$12.50

WOMEN'S BATHING SUITS—SPECIALLY PRICED
Cashmere or Worsted Jersey, fashioned in one-piece style with skirt. These are the season's favorite style for swimming, and are in a variety of good colorings with trimmings of contrasting bright shade.

Special, \$5.75 and \$6.50
(Costume Section—Second Floor)

MUTT AND JEFF—JEFF AGREES WITH MUTT THAT A HYPOCRITE'S AN AWFUL THING

By "BUD" FISHER

INFORMATION ABOUT LANDS

That Are for Sale in Different Provinces - List for New Brunswick Issued.

Among the natural resources of Canada agricultural land is by far the most important, the value of field crops alone being four times as great in 1919 as that of all other raw products of mines, fisheries and forests combined.

Canada has a land area of 2,906,402,400 acres, but obviously much of this is not adapted for cultivation. Without taking into consideration forest or swamp land, much of which will ultimately be tilled, nor of unexplored northern areas, there remain at least 300,000,000 acres available for agricultural development.

Only about one-sixth of these 300 million acres are under cultivation, and 250 million are still unimproved. It is estimated that there are in Canada about 180 million acres of agricultural land in private ownership with a rural population of four and a half millions; in other words, not taking into account mining, lumbering, fishing, domestic duties and other activities, each Canadian man, woman and child living outside of a town may on the average be assumed to be farming forty acres. In northern Europe the rural population on the same basis, but with far less widespread occupation is attending to four and a half acres per head.

To utilize the agricultural land and thus widen the basic factor of Canada's production is, then, all important, for it is on this that the development of the other natural resources depend. The day of the free homestead within easy reach of a railway is rapidly becoming a thing of the past, and means other than free grants must be looked to for rural development.

For the man who intends to farm there is, as stated above, a vast area in private ownership, a large proportion of which is of necessity unoccupied and available for sale at reasonable prices. The prospective purchaser who relies upon his own sources of information may, however, find it more or less difficult to obtain a knowledge of lands for sale suitable to his means and requirements. This difficulty is now to a large extent overcome by the publication by the department of the interior of lists of unoccupied lands for sale in the prairie and maritime provinces. A copy of that relating to New Brunswick has been received.

These lists, as a rule, give a short description of the land, its location, the price at which it is held for sale and the name and address of the owner. The great value of such information is that it places the intending purchaser directly

FAM-LY-ADE For the Children

YOUR children will love the cooling, fruity tang of FAM-LY-ADE. Give it to them often. Your grocer or druggist sells FAM-LY-ADE in a handy glass tube—enough for 25 glasses. It costs but 35c. Simple directions on every package. Made in Canada.

In touch with those who, for one reason or another, have been unable to cultivate their holdings and who, therefore, are often willing to sell at inviting prices. Lists covering the province of Manitoba and the south eastern portion of Saskatchewan are now ready, while lists covering the balance of the prairie provinces are now being compiled and will be available for distribution before very long.

As there is a series of twenty-three lists covering the western provinces alone, applicants must specify the particular locality in which they are interested. These lists may be obtained free of charge on application to the superintendent, Natural Resources Intelligence Branch, Department of the Interior, Ottawa.

Announcement Engagements. Mrs. Emory Patterson, Woodstock road, announces the engagement of her only daughter, Estella Mabel, to Roy H. Cornell of St. John. The wedding will take place in the near future.

Mrs. J. H. Feeney of Fredericton announces the engagement of her sister, Alice M. Urquhart, to James Robbins of Cross Creek. The wedding will take place on Aug. 11 at Christchurch cathedral.

Mr. and Mrs. Elmer M. Anderson of St. Andrews announce the engagement of their daughter, Alice Alma, to W. Vernon Grimmen, son of Mr. and Mrs. P. Parker Grimmen of St. Stephen. The marriage is to take place in September.

Infants—Mothers Thousands testify Horlick's The Original Malted Milk. Uppilids and sustains the body. No Cooking or Milling required. Used for 75 of a Century. Substitutes Cost YOU Same Price.

SEALS ARE ON THE INCREASE

Expect Annual Census to Show Three Times as Many as Ten Years Ago - 10,000 Saved Last Year.

Washington, Aug. 4.—The annual census of the seals, now being taken by the Bureau of Fisheries is expected to show about 600,000 of the animals, or three times as many as when the government undertook the custody of them a half score years ago.

Although the seal spends much of its life at sea, its habits make the census-taking comparatively easy. Hugh M. Smith, commissioner of the Bureau of Fisheries, explains the "count of noses" is of importance to prevent "blind killing" of the animals for their fur, possibly resulting in their extinction.

Under present government control, Mr. Smith asserts, that the seals are increasing about 10 per cent for each year. Last year's count showed 560,000 of which 26,000 were killed for their pelts.

In the middle of Behring Sea, lying forty miles apart, are two islands—St. George and St. Paul—the only land to which the seals ever resort. Every spring they visit the islands to raise their young leaving in the fall to winter in the north Pacific and it is during the summer that the census is taken.

The killing of the animals is also done in the summer, this under law being confined to the surplus males. Last year's lack of labor resulted in 10,000 fewer animals being killed than government officials had planned. Japan and Great Britain, along with the United States, share the revenue produced from the seal-skin, a treaty giving this country seventy per cent of the animals, with the other two countries each receiving 15 per cent.

"In the old days," says Mr. Smith, "when 100,000 seals were being killed annually the government obtained \$10 per skin, while now we are getting \$140, which nets us about \$120 per skin. In the value of furs and the different method of conducting the business explains this."

Besides the sale of pelts, the government is operating a fertilizer plant on the islands for disposal of the carcasses from which there also is extracted an oil used for dressing tops of automobiles.

Mother and Daughter Operated Upon. Mrs. Thomas Feeney of Hanwell and daughter, Miss Beatrice Feeney, were operated upon at the Victoria Public Hospital, Fredericton, on Friday last for appendicitis. The condition of both patients is greatly improved.

RETURN VERDICT IN WRECK INQUIRY

Coroner's Jury Said That Crew of Shunting Engine Did Not Take Proper Precautions.

The inquest into the death of William M. Megarity and Thatcher L. Irvine on the Hampton suburban when it struck a shunter last Friday morning, was concluded last night and the jury brought in a verdict at an early hour this morning exonerating the members of the way freight crew and the suburban crew, but the crew of the shunter should have taken proper precaution to see that the switches were all right. The jury also recommended that all switches leading on to the main line be kept under lock and key. Fred J. Merreveau, block maintainer, said that the signals were in good condition. John J. Davis, track foreman, said he heard the suburban blow for the crossing. Frank McCord and J. J. Chandler also gave evidence. C. H. James testified that the brakes on the left side of the shunter were not working right. L. R. Ross said the signal between St. John and Coldbrook was working properly yesterday morning and it has not been tampered with since. He also said if the switch had been opened after the freight went out it must have been done so maliciously. H. A. Powell, K. C., appeared for Conductor J. R. McManus of the way freight, and addressed the jury on behalf of his client. W. M. Ryan, appearing for the crown, made a brief address to the jury.

The verdict read as follows: "We, the jury, do find that William Megarity and Thatcher Irvine came to their death on the morning of July 30, 1920, while in the discharge of their duties on the Canadian National Railway at the entrance to Island Yard in the vicinity of the Crosby Molasses Co. in St. John county, as the result of a collision between the suburban train in charge of William Megarity, and the tender of the shunter, No. 1811, in charge of Engineer Milne, due to an open switch leading from the straight line track (so-called) on to the main line.

"From evidence disclosed we are unable to find who is responsible for the open switch.

"We strongly recommend that all switches leading on the main line should be kept under lock and key and the proper care should be exercised by the authorities in charge to see that these switches are in good condition.

"We exonerate from all blame the crew of the way freight in charge of Conductor McManus.

"We are of the opinion that the crew on the suburban did all in their power to avoid the collision.

"We are of the opinion that the crew of the switching engine, 1811, did not take proper precaution in approaching a switch leading on the main line.

"From evidence of Engineers Coffey and Milne, we are of the opinion that the brakes on engine 1811 were not in proper working condition on the day of the accident, and we strongly recommend that greater care be taken on repairs to brakes of engines of all classes.

(Signed) "Ernest J. Todd, Stanley A. Williams, Edward Bates, Herbert Keyes, S. J. Hodder, A. Fred McForest and James Sprout (foreman)."

\$25,000,000 Profit on Raw Material

London, July 15.—(Associated Press correspondence)—Lord Inverforth, former surveyor general of supplies in the British War Office, by world wide purchases of raw materials on behalf of the government was able to turn into the British treasury on March 31 last \$25,000,000 representing profits on all transactions in 1914, according to his report recently made to the Ministry of Munitions.

While the profits were large, Sir Arthur Goldfinch, director general of raw materials, obtained were largely used in the manufacture of military equipment with a direct saving estimated at more than \$800,000,000. The purchases were of wool, hides, leather, flax, hemp and similar materials.

Insurance, generously taken out, served to more than make up losses from submarine warfare, it was stated. The record of Lord Inverforth's activities in his contract with results obtained by similar departments in other Allied countries. Among the purchases were nearly 224,000 pounds of American sole leather and 82,000,000 feet of American upper leather.

Included in the chief items of textile and leather equipment for the army and navy, air force and other branches of the purchase and for the Allies from August 4, 1914 to March 31, 1919, were: 61,899,000 pairs of socks; 1,000,000 yards of cotton drill; 60,917,000 yards of khaki;

TIED TO HORSE, BOY MEETS DEATH

Montreal Lad, Killed in Runaway, Was Dragged Quarter of Mile.

Montreal, Aug. 5.—Dragged and trampled by a runaway horse yesterday on St. Christophe street, Ernest Major, thirteen years of age, a boy in the employ of a farmer of St. Vincent de Paul, was found dead when the horse was finally stopped.

The boy had tied himself to the horse and when the animal took fright, fell off its back and was dragged for a quarter of a mile, the horse striking him with its hoofs at every stride.

See Lesser's last call on page 7.

HEROIC RESCUE AT YARMOUTH

Thirteen-Year-Old Boy Saves His Little Brother From Drowning - Belong to Indiana.

Yarmouth, N. S., Aug. 5.—(Canadian Press)—A heroic rescue took place in Yarmouth harbor yesterday afternoon when Robert McCord, aged 13, jumped from his motor boat to the rescue of his young brother Charles, aged 8, who had fallen overboard. The boys with their mother, Mrs. Charles McCord of New Albany, Ind., are summering at Maitland.

Robert and Charles had been up town and were on their return. Charles was pumping some water from the boat, when by some means he lost his balance and fell into the water.

His brother immediately took in the situation and with remarkable presence of mind pulled the switch of the engine, let the boat go, and leaped over to his little brother's rescue. With remarkable grit and determination, Robert succeeded in keeping his brother afloat and above water until a boat was obtained and assistance went to them.

The occurrence was witnessed by a number of people who are loud in their praises of the young hero.

CRIPPLED FOR 3 YEARS, IS CURED

Mrs. Lewis-Watts, of Toronto, Attributes Recovery to English Healer.

Toronto, Aug. 5.—Mrs. G. W. Lewis-Watts, of this city, claims to have experienced a marvellous cure as the result of the "laying on of hands" by J. M. Hickson, the English healer, who ministered to many diseased and crippled people in St. James Cathedral here a few weeks ago.

Mrs. Lewis-Watts is quoted in an interview in a local paper as stating that in November, 1917, up to the day she went to Mr. Hickson for help, she had been a cripple, unable to move around without the aid of crutches, and that today she is firm in limb and body, and shows no trace of her former incapacity.

Imperial Press Conference MEETS TODAY

Another 2800 ton vessel is nearing completion and preparations are under way to lay the keel of another. In addition there is under construction at the present time the hull of a large cruising vessel.
Taking Course in Boston.
Rev. George M. Young, pastor of the Frederick Methodist Church, is taking a course in theology in Boston.

AT 70, SHE NEVER SAW ITS EQUAL

Mrs. Reader Says She Will Always Bless The Day She Got Tanlac.

"I shall always bless the day I bought my first bottle of Tanlac and during the seven years of my life I have never seen a medicine to equal it," said Mrs. William Thomas Reader, of South Cross, Westford, Queens County, N. B. "For years I was in a terribly weak and run-down condition and suffered a great deal from rheumatism. My doctor said to eat and my food seemed to do me no good. I often had such spells of dizziness that if I hadn't caught hold of something I should have fallen and I had such pains in my legs also that I could not stand for more than a few minutes. It was impossible for me to use them. I had such pains in my legs also that I could not stand for more than a few minutes. It was impossible for me to use them. I had such pains in my legs also that I could not stand for more than a few minutes. It was impossible for me to use them."

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved by "Fruit-a-tives"

Little Brns Dor, C. B. "I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try "Fruit-a-tives." In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous." ROBERT NEWTON. 50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

BIG FAMILY REUNION.
An interesting family reunion was held at the residence of Geo. S. Sharp, Lower Millstream. The first of the Sharps was a Loyalist from Staten Island and he lived on Long Reach for a time, but finally moved to Millstream and built the house in which the reunion took place. The descendants, who were present on Tuesday, numbered about 100. A banquet was served on the lawn in front of the house. Among those present were Mr. and Mrs. Wm. T. Bell and Mrs. John W. Sharp of St. John.

SOUTH END PLAYGROUND.
If enough help were available the grading of the hundred yards dash on the south end playground could be pretty nearly finished this evening except for the surface material. Frank White, Mr. Lane and his team, Teddy Kicketts and the big truck, with a few workers, did a lot of work last evening. They will be on the job again tonight and will welcome assistance. While they worked last evening several hundred people watched them and also watched a ball game on the diamond. Community spirit of the south end is something to be sought for with a mental microscope.

Telegram was sent to 33 local unions in Copper Hill and 125 in the United Mine Workers of America yesterday ordering them to return to work. There were 3,488 miners on strike in the Kansas field.

Clothes Judgment

Selection of your clothes need not necessarily be based on technical knowledge of clothes making. When you come to a store like this you have taken the first step in exercising good judgment. Place your reliance for good quality and good style upon the reputation of this store. You are assured good service on our policy of guaranteed satisfaction. In quality, service and value the wrong thing isn't here. Midsummer Sale Continues. Special prices for the week-end on Suits, Raincoats and Fall Overcoats.

Gilmour's, 68 King St

Want Consul Back.
Montreal, Aug. 4.—(Canadian Press)—Much disappointment is expressed by local merchants at the moving of the Brazilian consulate from this city to Halifax and representation will be made to the Brazilian government with the hope that eventually the Brazilian consulate will be reinstated here. The consulate here was closed this week.

QUIT TOBACCO

So easy to drop Cigarette, Cigar, or Chewing habit.

No-To-Bac has helped thousands to break the costly, unwholesome and signed habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't relieve you from all craving for tobacco, your money will be refunded. No-To-Bac is made by the only chemists, therefore is thoroughly reliable.

CHILD LIFE DISCUSSED.

Analyzing the character of the child was the subject with which Dr. I. A. Downey held his hearers at Chautauque yesterday afternoon, speaking on the instincts of child life, the exercising of which develops the power to be a man. The speaker showed how some of the instincts are primitive and should be checked, such as cruelty, others should be fostered, such as loyalty, honesty, etc. The Killies' Band entertained the audience.

Messages from Australia report Premier Hughes, as saying that Archbishop Mannix would not be allowed to return to Australia.

LOCAL NEWS

Detective DeLoach, yesterday, charged with non-support. He was arrested at the request of the Moncton police department and last night was taken to that city by Officer Harris of the Moncton force.

At the annual meeting of the New Brunswick Dental Association held in St. John, the following officers were elected: Dr. W. R. Wilkes, St. John, president; Dr. F. A. Gobson, St. John, secretary-treasurer. Members of council—Dr. W. P. Broderick, Dr. W. P. Bonnell, Dr. C. P. Gorham.

DANGER OF PHYSICAL BANKRUPTCY.
(Kitchener Telegram.)
The physical culture director of a big athletic club believes that financial prosperity is producing physical bankruptcy. Both men and women he says, are living "too soft," eating too much, sleeping too much and exercising too little. Even when the business and professional people do deign to exercise, he says, they merely play at it.

Dandruff Scapels

Ruin the Hair

See the Bald Spot—That Shows What Dandruff Can Do.

If you have dandruff, you must get rid of it quickly—it's positively dangerous and will surely ruin your hair. Dandruff heads mean dead-looking, brittle, scraggly hair that finally dies—new hair will not grow—then you are hairless and nothing can help you. The sure way to banish dandruff for good is to destroy the germ that causes it. To do this quickly, safely and wisely, get a Parisian sage (liquid form). This is guaranteed to keep away all dandruff, stop itching scalp and falling hair, and promote a new growth of the coat, small as it will be returned. Parisian sage is a scientific preparation that supplies hair needs—anti-dandruff, healthy perfume liquid, neither sticky or greasy, easy to apply, and guaranteed not to color the hair or scalp. Good-looking hair is half the battle in any man's or woman's personal appearance. Neglect means dull, scanty, lifeless hair and finally baldness, while a little attention now helps insure thick and lustrous hair for years to come. No matter what your hair troubles, try a Parisian sage massage. Don't delay—begin tonight!

NOTICE TO CONTRACTORS.

SEALED TENDERS for the construction of the superstructure of an International Bridge between Edmundston, N. B., and Madawaska, Maine, will be received by the undersigned at the office of the Supervising Engineer of the Department of Public Works, Post Office, Quebec, up to the hour of three o'clock P. M., Wednesday, August 4, 1920, and there publicly opened and read. The envelope containing the tender should be endorsed "Tender for the construction of the superstructure of the Edmundston, N. B., Madawaska, Maine, International Bridge" and should be addressed as follows: R. C. DESROCHERS, Secretary, Department of Public Works, Canada.

PAUL D. SARGENT, Chief Engineer, Maine State Highway Commission, Care of Supervising Engineer, Department of Public Works, Quebec.

Tenders are notified that: Tenders will not be considered unless made on the forms supplied and signed with the actual signatures of the tenderers stating their occupations and places of residence. In the case of firms the actual signature and nature of the occupation and place of residence of each member of the firm must be given. Each tender must be accompanied by an accepted cheque, on a chartered bank, equal to 10 per cent of the total amount of the tender and payable to the order of the Minister of Public Works, Canada, and the State Highway Commission, Maine, jointly, as a guarantee that the tenderer will execute the contract within ten days of the award and furnish a satisfactory bond amounting to one-half of the contract price for the faithful performance of the work. The cheque will be forfeited should the tenderer fail to enter into a contract when called upon to do so, and returned if the tender is not accepted. Plans, specification, bond and contract can be seen, and forms of tender obtained, at the following places in Canada: Department of Public Works, Hunter Building, Ottawa, Ontario; at the office of the District Engineer of the Department of Public Works, Customs House, St. John, N. B.; Superintending Engineer, Quebec, P. Q.; District Engineer, Department of Public Works, Shaugnessy Building, Montreal, P. Q.; also at the office of the Postmaster at Edmundston, N. B., and at the office of the State Highway Commission, Augusta, Maine. The Department of Public Works of Canada and the Highway Commission of the State of Maine do not bind themselves to accept the lowest or any tender. By Order of R. C. DESROCHERS, Secretary, Dept. Public Works, Canada. PAUL D. SARGENT, Chief Engineer, Maine State Highway Commission, Department of Public Works, Canada, Ottawa, July 29, 1920. 8-7.

Each tender must be accompanied by an accepted cheque, on a chartered bank, equal to 10 per cent of the total amount of the tender and payable to the order of the Minister of Public Works, Canada, and the State Highway Commission, Maine, jointly, as a guarantee that the tenderer will execute the contract within ten days of the award and furnish a satisfactory bond amounting to one-half of the contract price for the faithful performance of the work. The cheque will be forfeited should the tenderer fail to enter into a contract when called upon to do so, and returned if the tender is not accepted. Plans, specification, bond and contract can be seen, and forms of tender obtained, at the following places in Canada: Department of Public Works, Hunter Building, Ottawa, Ontario; at the office of the District Engineer of the Department of Public Works, Customs House, St. John, N. B.; Superintending Engineer, Quebec, P. Q.; District Engineer, Department of Public Works, Shaugnessy Building, Montreal, P. Q.; also at the office of the Postmaster at Edmundston, N. B., and at the office of the State Highway Commission, Augusta, Maine. The Department of Public Works of Canada and the Highway Commission of the State of Maine do not bind themselves to accept the lowest or any tender. By Order of R. C. DESROCHERS, Secretary, Dept. Public Works, Canada. PAUL D. SARGENT, Chief Engineer, Maine State Highway Commission, Department of Public Works, Canada, Ottawa, July 29, 1920. 8-7.

MAY REDUCE QUALIFICATIONS FOR MEMBERSHIP

Matter to Come Up at Annual Meeting of Army and Navy Vets—Would Greatly Increase Roster.

(By Canadian Press.)
Vancouver, B. C., Aug. 4.—There are indications that there will be at least one strenuous struggle when, on October 11, the annual convention of the Army and Navy Veterans' Association of Canada, opens here.
Western commands are determinedly preparing to wage a big fight to bring about a change in the qualifications which entitle a man to membership in the association. It is maintained locally that if the desired change was made thousands of eligible men, hitherto barred from joining any such organization, would be immediately available, and would not hesitate to cast in their lot with the association.
At present, to be entitled to membership a man must have served six years with the Imperial forces or have had nine years with the active militia, or must have won a war decoration.
The proposed change calls only for three years service with the active militia or in the regular army, or six months with the Canadian Expeditionary Force.
M. J. Creben, one of the active heads of the western commands, whose opinion is shared with scores of others deeply interested in the association, asserts that three years' service is ample, for it

a man is going to make a soldier he should be one in that time. In existing circumstances a man may serve three years and then, as there is no organization which he may join, he is lost sight of, and his experience is lost to the country.

INDIAN MEDICINE MEN

In the Indian Tribe one finds the "Medicine Man," one versed in the healing art of roots, herbs, leaves and bark. In these he discovers emollients, astringents, laxatives and tonics, all of which are prepared and offered to sufferers among the tribe. To such good, old-fashioned roots and herbs Lydia E. Pinkham's Vegetable Compound, the most efficient remedy in the world for female ills, owes its success.
For forty-five years it has been restoring the women of America to health, until it is now recognized as the standard remedy.

AN INTERESTING SUBMARINE GROUP
New York, Aug. 5.—(By Associated Press)—A two-inch section of sea-bottom with its tiny animal and plant life magnified 15,000 times, has been reproduced in glass and wax at the Animal Museum of Natural History here.
It is called the Bryozoa Group, taking its name from the minute sea-animal, popularly called sea-mats and sea-mosses, that it depicts.
Their shells are encrusted on seaweeds, pebbles and the shells of larger animals, and are said to be extremely beautiful in their intricate form and coloring. The "plumed worms" with its gay colors and other strange microscopic creatures, of which the average person seldom dreams, complete the group.

BAND CONCERT TONIGHT

There will be a band concert this evening in the Victoria Square, North End. The City Cornet band will play the following programme, under the direction of Bandmaster Frank Waddington:
March—Sons of the Brave
Overture—Lustspiel
Waltz—My Colleen
Fox Trot—Freckles
Operatic selection—Martha
Popular number—Carolina Sunshine
Medley selection—Songs of Robbie Burns
Solo—Somewhere a Voice is Calling
Humoresque—A Coon Band Contest
March—Colonel Bogey

A meeting of the Stationery Engineers, Union No. 83, was held in their rooms, Market building, last evening, with the president, William Banks, in the chair. The meeting was occupied with the transaction of routine business.

YANKEES GREATEST DAWING CARD ON BASEBALL HISTORY

(New York Times)
Baseball attendance records have been shattered in five of the eight cities of the American League during the current season, and in another a record was almost equalled. In each instance the New York Yankees took part in the game.
On May 29 one of the greatest crowds in Boston's baseball history turned out to see the Yanks and Red Sox, but it was not a record breaker. A new high mark was set at Cleveland on May 13 and at St. Louis on May 20, during the first western trip of the Yanks. On July 5 Washington's banner crowd looked on while the Senators defeated the Hugmen. On July 14 a throng of 88,223 fans saw the Yanks and Browns in a double-header at the Polo Grounds, and yesterday Chicago's greatest crowd viewed the game between the White Sox and Yankees. With pleasant weather prevailing next Sunday, Detroit may be

Easiest Way to Remove Ugly Hair Growth

(Beauty Culture)
Here is a method for removing hair from arms, neck or face that is unfalling and is quite inexpensive. Mix a thick paste with some powdered delatone and water and spread on hairy surface. After 2 or 3 minutes, rub it off, wash the skin and every trace of hair has vanished. No harm or inconvenience results from this treatment, but be careful to get genuine delatone and mix fresh.

Liquid or Plaster

They end corns now in this scientific way

People who know—millions of them—now end all corns in this way. They apply Blue-jay, either in liquid or in plaster form. It means but a touch and takes but a jiffy. The corn pain stops. Then the Blue-jay gently undermines the corn so it loosens and comes out.

The modern way
Blue-jay was invented by a chemist who studied corns. It is made by a laboratory of world-wide repute.

Old-time treatments were harsh and inefficient. Blue-jay is gentle, quick and sure. Now all corns are needless. All these pains can be avoided. To let corns remain while you are and pad them is folly. You can stop a corn ache the moment it appears. You can end a corn completely before it can develop. Blue-jay has proved these facts to millions. It will prove them to you—and tonight—if you let it. Quit the old methods of dealing with corns and see what this new way means. Your druggist sells Blue-jay.

SEBALL.
American League.
Chicago—Chicago made it three out of four by winning the final game of the series with New York before a crowd estimated at 28,000. For the four games a attendance was estimated at 125,000, a largest on record. New York & Chicago 10.
Cleveland—Washington wound up its series here by winning the last game, as breaking even in the present series, as Wood, who had pitched but two-thirds of an inning since 1911 then tried stage a come-back, but lacked control, one run by Speaker and Smith drove Cleveland's three runs. Washington Cleveland & Detroit—Boston won from Detroit.

AQUATIC

Sports Monday Night.
Frank White, chairman of the aquatic committee of the Commercial Club, has completed arrangements for the sculling races in Courtenay Bay on next Monday evening. The Belyca crew, Kenfort of the St. John's, and the St. John's crew will be the entries for the four-oared events, and Hilton Belyca will give a handicap of three lengths in the single events. The boys' single will also be well contested.

TRAP SHOOTING.

Tournament at Yarmouth.
The trap shooting tournament opens in Yarmouth today. The Nova Scotia association has arranged a fine prize list and the grounds are in excellent condition. The trap and shotgunners held a twenty-five bird shoot last night for practice. Killiam of St. John scored a possible, twenty-five.

THE RING.

Frenchman Won.
Montreal, Aug. 5.—Charles Lédoux, French bantamweight champion, knocked out Johnny Frissee, bantamweight of New York, in the fifth round of a scheduled ten round bout at Mount Royal arena here last night.

GOLF.

Utica, N. Y., Aug. 5.—Harry Vardon and Ted Ray golfers from England won two best ball matches yesterday, defeating Alucien Walker, Jr., New York and F. J. Robeson, Rochester, one up, in the afternoon, three up. Straight consistent golf marked both games, the Briton's excellent in drives and approaches.

Western Tournament.

Chicago, Aug. 5.—J. Douglas Edgar, Atlanta, Canadian golf champion, did not arrive for the opening of the western golf association tournament here yesterday. No reason for his absence was known.

Jack Hutchinson, Glenview Club, playing better than par, last night led by playing the two eight on hole courses of the Olympia fields club in 145 strokes. Half of the one hundred entrants played each course in the forenoon and switched to the other links for the second round.

C. W. Hagen, national champion, arrived too late to compete.

THE TURF.

Sydney Races.
Sydney, N. S., Aug. 4.—The races at Sydney were closely contested today. Keen finishes in every heat with the exception of the 220 class, marked the progress. The track was heavy. The winners—

240 (mixed), purse \$800—1st, Lady Be Sure; 2nd, Silver Foam. Best time 2:23 1/4.

Racing at Chatham.
Before 2,600 people the first day's events of Chatham's midsummer harness meet were raced yesterday. In the 2:21 class Alcorn's Bill Sherron, the only New Brunswick horse on the card yesterday, won easily. In the 2:28 event Bingen Worthy won in straight heats. The 2:16 trot and pace was won by Lady Grattan, but in the first two heats Corwin Hal was only beaten by a neck. Followers of the racing in this season predict that a new maritime record will be set up on the Chatham track this week.

WOMAN ON 200 MILE ROWBOAT TRIP

Winnipeg, Man., Aug. 5.—Miss Alice E. Wilson, of Ottawa, the first woman to be sent out by the geological department of the Canadian government, is making a 200-mile trip down the shores of Lake Winnipeg by rowboat to collect

CHIEF INSPECTOR MAY RESIGN SOON

Declined to Discuss It When Approached—Delegation Before Government Asked for Commission to Take Over Sale of Liquor.

(Fredericton Mail.)
Prohibition matters loomed large at this morning's session of the provincial government, a delegation from the New Brunswick Temperance Alliance appearing and asking that the government appoint a commission which would take over the sale and distribution of liquor in New Brunswick under the intoxicating liquor act 1916. The personnel of the delegation was President Donald Fraser of Plaster Rock, W. G. Clark of Fredericton and Rev. Thomas Marshall of Fairville. The delegation pointed out that an amendment of 1919 enabled the government to take control of the sale and distribution and urged the appointment of a commission to that end.

No Request for Special Session.
At the close of this morning's session of the government Premier Foster, referring to the report published in certain newspapers that the alliance would ask for a special session of the legislature to enact legislation to forbid the importation of liquor into the province of New Brunswick, said the government had never been approached in that connection and that the alliance had not asked for such a special session.

Premier Foster was asked if Rev. W. D. Wilson still was chief inspector under the act and replied that he was and that the government had received no intimation from the chief inspector that he would resign. The delegation, composed of Messrs. Fraser, Clark and Marshall, had intimated, however, that the resignation of Rev. Mr. Wilson might be expected.

The chief inspector is said to have assured personal friends that he would not continue in office. He declined to discuss the matter today.

WINNIPEG STRIKE LEADER RELEASED

Poor Health of Wife and Baby Given as Reason.

Winnipeg, Aug. 5.—John Farnell, one of the Winnipeg strike leaders who was given a jail term of nine months for seditious utterances, is to be released at once.

The order for the release comes as the culmination to quiet but persistent efforts on the part of international labor leaders to get Farnell out of jail in view of the poor health of his wife and the baby that was born after the father was imprisoned.

What Damaged By Flax.
Toronto, Aug. 5.—Serious damage has been done to fall wheat by the Hessian fly in a number of counties in the southwestern section of this province according to reports received by the Ontario department of agriculture.

ARMED STRIKERS OPERATE TRAMS

Use Gas and Soap Suds to Repel Attempts to Stop Them.

Denver, Aug. 5.—Three street cars loaded with armed strikers were running yesterday on the lines of the Denver Tramway Company, whose ten thousand trimmen are on strike for higher wages. No passengers were carried. The crew repelled several attempts to stop cars by using carbonic gas mixed with soap suds.

BUILDING HANDED OVER
It was announced at local military headquarters this morning that the militia department has handed over the mess building at the exhibition grounds to the St. John Exhibition Association. The barracks stores now in that building will be placed in the old building at the north end of the main building during the early days of the war was used by the Y. M. C. A.

CAR DITCHED
People coming into the city by automobile this morning, last evening, Daniel Griffin and Miss Jean Euphemia Hunter, daughter of Thomas Hunter, were united in marriage by Rev. H. H. Estroff of St. Matthew's church, in the presence of relatives and friends. The bride was dressed in white and carried a bouquet of roses and sweet peas. The happy couple will reside at 50 Harrison street.

GRIFFIN-HUNTER
At the home of Mr. and Mrs. George Chesley, West Street, last evening, Daniel Griffin and Miss Jean Euphemia Hunter, daughter of Thomas Hunter, were united in marriage by Rev. H. H. Estroff of St. Matthew's church, in the presence of relatives and friends. The bride was dressed in white and carried a bouquet of roses and sweet peas. The happy couple will reside at 50 Harrison street.

POLICE COURT
In the police court this morning a man was charged with being out after 9.30 in the evening; not being able to give a satisfactory account of himself; singing and shouting in the old burial ground, and using vile language. He pleaded guilty to using vile language. Policeman Corner made the arrest. The accused was remanded. Norman Montague, Jr., charged with trespassing on C. N. R. property, pleaded guilty and was remanded.

CARS HELD UP
Traffic was held up for a few minutes this morning in Prince William street by an automobile which was left standing on the car tracks in front of the Post Office. Two street cars were stopped behind it and it was finally moved out of the way by some passers by. The owner was under the impression that no street cars were running in Prince William street because of the paving operations and stopped his car on the left side of the street as near as possible to the curb.

A COLLISION
A collision between an automobile and a delivery wagon occurred this morning at the south corner of King and Germain streets. A touring car operated by Charles Hanington came down King street and turned into Germain at the same time as the delivery wagon coming along Germain reached King. The fender of the car struck the wheel of the wagon with the result that the fender was turned back over the wheel and badly damaged. After straightening it out Mr. Hanington was able to proceed.

A NOVEL EVENT
One of the most original and jolly entertainments of the season was held in the Patrol club house last evening when the members of that very progressive summer colony met to celebrate an old-fashioned country dance. The ladies and lasses were garbed in keeping with the occasion and some of the costumes produced side-splitting mirth. The ladies' first prize, a flash light, was awarded to Miss Freda Johnston; gentlemen's first, a safety razor, to Mr. Stack. The best combination prize went to Mr. and Mrs. H. J. Machum, who made a typical rule couple and received as compensation a load of fertilizer. Mr. and Mrs. Stubbs and K. Spear also received honorable mention.

MARRIED IN ENGLAND.
A wedding of interest to St. John friends of the groom was solemnized in Knowle, England, recently, when Miss Laura Gladys May Studley, second daughter of Mr. and Mrs. J. S. Studley, 25 Somerset road, Knowle, Bristol, became the bride of Harold Andrews, only son of Mr. and Mrs. Charles Andrews, 65 Chesley street, this city. The ceremony was performed by Rev. F. Talbot Parker, vicar of the Church of Holy Trinity. Mr. Andrews, who has a number of friends in this city, went overseas with the first contingent as a stretcher-bearer under the late Captain (Doc) Dyer and went through many important engagements without a scratch. He was away for four years and eight months and on his return took a position with Brock & Patterson. About a month ago he resigned and went to England to be married. He will return to Canada with his bride at an early date.

SPEEDING MOTORISTS
Constable Crawford Says He Warns Many But Some Pay No Heed.

Touching the question of dealing with American speed motorists on the Rotheray road, Constable Crawford informs the Times that he is continually warning American visitors without taking them to court and it is only when the law has been flagrantly violated that he takes action. On two occasions American cars he sought to stop because they were going about forty miles per hour tried to run him down and last Saturday two foreign cars racing at top speed side by side not only disregarded his warning but called him vile names. The officer says he extends every consideration to visitors, but when they strike a forty mile clip or faster because they find a stretch of good road near the city he must do his duty to the public who use the same road.

BANK CLEARINGS.
The bank clearings for the week amounted to \$4,046,125, as compared with \$3,015,264, in 1919, and \$2,781,719 in 1918, an increase of more than \$1,000,000 over 1919 and nearly \$2,000,000 over that of the same week in 1918.

Other Canadian cities report:—Halifax, \$4,919,688; 1919, \$4,931,824. Ottawa, \$3,194,293. Quebec, \$7,897,956. Toronto, \$20,094,588.

BELIEVE ATTEMPT MADE TO WRECK ST. JOHN TRAIN

Spikes Removed From Rail Near Lake Folleigh, N. S.—Night Train Passes Safely.

What is believed to have been an attempt to wreck the St. John-Truro train on Tuesday morning is reported today. The trackman and repairers, making their morning inspection, found that all a duffer's part of the road near Lake Folleigh, not far from Truro, all the spikes had been taken from one of the rails. The rail had evidently been tampered with the night before, and the night train from St. John to Halifax with its load of sleeping passengers, passed over it safely. The superintendent of the district immediately sent out a posse to the lake, but no word has yet been received of the arrest of the guilty party. Officer Tattler, who was sent to the scene, found a body of men discussing the murderous assault made by a negro upon Luther Smith at St. John. Shortly afterwards he captured a negro charged with the assault.

ASK THAT MISPEC DAM BE OPENED

Request That Way Be Made for Salmon Referred to at Council Meeting—Douglas Avenue Matters Up.

At a committee meeting of the common council this morning Commissioner Jones made reference to a request he had received from John White and signed by about 100 citizens asking for the removal of the scuttles in the Mispec dam, which would enable salmon to pass up the stream to spawn. In the letter Mr. White explained that three years ago government agents put spawn in the river as they thought it was a good place for sportmen to enjoy a fish. He said it had been stocked regularly since from the government hatchery. Mr. Jones also explained that the regularly since that they will return to spawn within five years and failing to get up the stream will continue to try.

Commissioner Jones had City Engineer Hare report on the matter on his suggestion also communicated with other notable engineers. Some of their replies are at hand and he said that the opinion of the city engineer that the scheme is impracticable as they claim that the removal of the scuttles would cause the whole structure to collapse. No action was taken.

Commissioner Thornton felt that the council should adhere to their original resolution. He did not take the threat to the city seriously. The commissioner said he had heard that the gas main was not in good condition and he said he felt that the company should be notified that any underground work necessary should be done immediately.

After some discussion it was agreed to give a hearing to any property owners interested at the regular meeting Monday morning at 11:30 o'clock.

SHARP DROP IN POTATO PRICES.
Yesterday's potatoes were the feature of the mid-week market at Phoenix square this morning. At the opening of the market they sold at 85 per barrel, but before noon they had dropped down to 83 per barrel and one man is quoted as having Saturday potatoes sold at 81.50 a peck. An oversupply is given as the cause of the slump.

The Mail says they were offered at forty cents per peck before the market closed yesterday. Other prices were: Butter, 55c to 60c; eggs, 60c to 65c; lamb, 20c to 25c; chickens, per pair, 82c; raspberries, 25c per box; blueberries, 25c per quart.
