WALL STREET LISTLESS IS EXPERT SUMMARY

New York, April 28.—There is completely absent from all business anything resembling enterprise or enthusiasm. Capital ceased long ago in this country to take the initiative. For a time after that it could be coaxed to new undertakings. Today it is positively unmovable and repellent. This is the condition that has been brought about by corporation-baiting, and even the rank and file, and the rest as at least for the better, until these are on the east, are beginning to appreciate that these are the consequences. The situation is complicated by the supreme court delay which seems unfortunate, and which every interest throughout the United States is held up and adversely affected. There is no business before the

count just begins to approach this in importance. Crop conditions and prospects are most favorable, and the outlook in this direction is the only positively encouraging feature of the situation. Money continues to pile up. Investors grow around inspecting securities. There is spasmodic movement here and there in the bond market, but general enough however to forecast activity soon.

Whatever else may be holding back the business of the country, it is certain that the supreme court decisions are a universal deterrent, and there can be little change, even the rank and file, and the rest as at least for the better, until these are on the east, are beginning to appreciate that these are the consequences. The situation is complicated by the supreme court delay which seems unfortunate, and which every interest throughout the United States is held up and adversely affected. QUANGONDY FLOATING HOSPITAL

Suggestion In Connection With Local White Plague Fight

PROGRESS OF THE WORK

Need of Financial Assistance is Strongly Felt and Association Hopes People Will Rally to Membership and Assist in Fight

But few people in the city realize the amount of good work that is being done in St. John by the members of the St. John Association for the Prevention of Tuberculosis in order to stamp out the dread disease. Nevertheless this active organization is constantly at work, and since it was organized, about a year ago, has done much. They have fitted up rooms in the Water and Sewerage Building in Leinster street, and there much of the good work is done.

The rooms are well lighted and sanitary and are well equipped for the carrying on of the work. One room is fitted up for an office, one for a waiting room, and one for an examining room. The place is open three afternoons each week, on Monday and Wednesday for adults, and on Friday afternoon for children. The hours are from 2:30 until 4:30. Miss Rogers, one of the Victorian nurses, who now devotes her entire time to looking after tubercular patients, is in charge of the dispensary, and is ably assisted by the ladies of the association.

People who go to the dispensary for examination, are looked after by local physicians who give their services gratuitously. If on examination the patient is found to be suffering with the disease, he or she is told what to do in order to check the disease. If the patient is too poor to purchase medicine, it is supplied free. The addresses of the patients are furnished to the dispensary, and the instructions are carried out. When the patient can afford to buy eggs, milk, fruit, etc., and other essentials, the church to which they belong is asked to furnish them. It is the duty of the society here not to belong to any church, the society here to provide food for their own expense.

Need of Funds

And right here it might be stated that the association is not very well supplied with funds, having but a very small membership. It is hoped, however, that during the year the membership will be greatly increased, and that sufficient funds will be available to carry on the work.

At the present time the society is aiming to have a few hundred members, and children suffering with the disease are allowed to go to school, and as a consequence other pupils become infected. They are also agitating the supplying of a floating hospital on which tubercular patients might be treated. This has been proposed in St. John and other cities and Miss Rogers has submitted a report to the association regarding the work that is carried on in one of these boats. It has been suggested that the Quangondy and the other boats be converted into floating hospitals for the purpose of carrying on the work.

In order to increase their funds, the association is having a large number of stamps, somewhat similar to those issued by the Muskooska Hospital last year, printed. These stamps will be placed on sale in a few days, in various places in the city, and it is hoped to raise a considerable sum by the means. Many have written the sign of the double cross, which is used on all literature, etc., issued by Tuberculosis Associations, originated in 1907, and is now used in Berlin, by Dr. G. Semmler in October, 1902, as a symbol of the International Anti-Tuberculosis Association. At that time there were not more than half a dozen associations for the prevention of tuberculosis organized on a wide basis, while to-day there are associations of this kind all over the world.

The local association has issued a set of rules for the disinfection of rooms that have been occupied by persons suffering from pulmonary tuberculosis.

- 1—Leave everything in the room which has to be fumigated. Keep the mattress and pillows up so that the fumes can reach them on both sides. Hang out all clothing worn by the patient which can not be boiled; also blankets, rugs and furs, etc.
- 2—After fumigation: Place out of doors and in the sunlight for seven days, mattress and pillows, blankets, all personal clothing which cannot be boiled, heavy curtains, rugs and carpets, blinds, etc.
- 3—Burn all books and papers.
- 4—Boil in a large pan of water, all cups, forks, spoons, etc., used by the patient, also spittoon.
- 5—Cleaning:
 - 1—Blankets and rugs, etc.: Soak in carbolic 1 in 20 until ready to wash.
 - 2—All clothing which can be boiled: Soak immediately for 30 minutes. Afterwards wash in the usual way.
 - 3—Carpets: Sweep with sawdust or tea-leaves moistened with carbolic 1 in 20. After sweeping, collect and burn the dust after tea-leaves.
 - 4—Ceiling of room: White-wash.
 - 5—Woodwork, Furniture and Floor: Scrub with soap and water. Then wipe over with cloths wrung out of carbolic 1 in 20. Caution: Protect cuts and sores on the hands from infection.
 - 6—Walls: If plastered, wash over thoroughly with wall-brush soaked in carbolic 1 in 20, from ceiling to floor. If the walls are papered, do the same, and strip off all the paper while it is wet and burn. Caution: Do not cut the walls dry, nor peel off the paper dry, as the threads and lumps of the paper will probably get infected with the tubercular germs.
 - 7—Windows: Leave wide open during the cleaning and afterwards all day and all night. Recommendations: (1) That the walls, floor, and woodwork shall be painted or polished after cleaning and disinfection. (2) That the rooms shall be used for ten days afterwards.
- 6—To make carbolic lotion: 1 in 30 carb.

Call for Membership

It is to be hoped that the citizens in general will respond to the appeal for membership in the Quangondy Association for the carrying on of the good work. The membership fee is only \$1 a year and the members expect to have at least 1,000 enrolled before the close of the year. It is a work in which every person ought to be interested.

FAREWELL OLD COUNCIL

The last meeting of the present common council is being held this afternoon in the council chamber at the court house. There is likely to be an interesting discussion on ferry matters, and it is probable that some steps will be taken toward getting a new ferry boat in consequence of the action of the mayor in ordering the repairs on the Western Extension stopped. Among the communications to be read is an invitation from St. Paul's church to the council to attend service there on the day of the coronation, heard, and a letter of information regarding city lands. J. King Kelley asking for compensation from the city for Mrs. Augusta Ferguson and daughter, in consequence of the death of Samuel Ferguson, while in the employ of the Maritime Baseball Club regarding free playground, Oscar Ring asking for permission to extend his aridine work, and from the Canadian Free Library for the Blind, and from No. 1 Salvage Corps regarding the election of new officers.

KEEP YOUR MUSCLES LIMBER

And Relieve Soreness with Father Morrisey's Liment.

Athletes owe their prowess not so much to natural bodily superiority, as to the systematic conservation of Nature's gifts, particularly by means of regular rubbing with a good liment. It is unequalled for rubbing the muscles. It rubs in quickly and thoroughly, scarcely a trace of it staying on the skin. And it certainly drives out the stiffness from the joints.

Father Morrisey's Liment has repeatedly cured and healed cuts, bruises, burns, frostbites, chapped hands, chilblains, sprains and strains, sore muscles, backache, toothache, earache, and similar affections. In connection with No. 7, it is valuable in rheumatism, while it is a helpful adjunct to the Lung Tonic in sore throats and chest colds.

This well-tested and reliable liment is mild and soothing to the skin and does not blister. It is clean and has a wholesome, agreeable odor, unlike other preparations.

In every family medicine chest, there should be a bottle of Father Morrisey's Liment side by side with the other prescriptions of the beloved Priest-physician.

Every one who has tried the Eminent testifies to its wonderful soothing and healing powers. From the young ball player to his father or grandfather, every member of the family will find occasional or constant use for this invaluable preparation.

This Is NEMO Week

Commencing Today and Through the Week a Special Demonstration of Nemo Corset Features Will Be Given

The ladies of St. John are invited to attend this showing of the famous Nemo specialties. A demonstration will be given of the dozen or more patented improvements which have placed Nemo Corsets in a class by themselves and which have made it possible to fit every figure to perfection, yet obviating tight lacing with its injurious effects.

Nemo Corsets have attained world-wide fame for style, comfort and durability, they represent twice as much value, in material and workmanship, as any other corsets sold at the same prices.

Most Nemo special features can be seen and recognized at a glance. Others, quite as important from the hygienic standpoint, are not easily perceived by the eye.

For example, all Nemo Corsets are constructed so that no bone, steel or seam is allowed to press unduly upon a nerve or artery. Again, the shape is such that there is no pressure upon the stomach region—the diaphragm is "bridged."

Not even an expert can see these differences; much less can they be clearly described in print, or even by illustrations. But the wonderful benefit of these intangible features—the perfect ease and comfort of Nemo Corsets—is known and appreciated by the woman who wears one.

Come and learn why Nemo Corsets outwear all others and invariably make for health and comfort.

ATTEMPT ON HIS LIFE

Using a penknife, Louis Train, made an unsuccessful attempt on Saturday night to end his life in his home in White street. Previous to committing the act, he announced his intention to his wife and children, and they tried to prevent him. Today she had to move her former home while her husband is in the hospital, and her child is the only one to aid her.

RHYME FOR ENGAGED GIRLS. Here is an old-fashioned rhyme which the engaged girl may like to read:— Always loving kind and true, When February birds do mate, You may well not dread your fate, If you wed when March winds blow, Joy and sorrow both you'll know, Joy for maiden and for man, Mary in the month of May, You will surely rue the day, Mary who June roses blow, Over land and sea you'll go, They who in July do wed, Must always labor for their bread, Whoever wed in August be, Many a change is sure to see, If in October you do marry, Your living will be rich and fine, If in November you do wed, Love will come, but riches rarely, If you wed in bleak November, Only joy will come, remember, When December snows fall fast, Mary and true love will last.

PUTTING IT IN NEW LIGHT. Jack—"Why are you angry with Maude Ethel?"—Because she didn't choose me as one of her bridesmaids. Jack—"You should have flattered instead of offended. You know a girl never chooses a bridesmaid who is prettier than herself."—Boston Transcript.

BANGOR WAS PROMPT TO AID ST. JOHN

First to Send Supplies at Time of Our Great Fire—Mayor Asks if Help is Needed

Early this morning, as soon as he learned of the disastrous fire in Bangor, Me., Mayor Prink telegraphed to the mayor of Bangor, expressing regret on behalf of the St. John citizens in their great loss, and asking if any help was needed. No reply had been received up to 2 o'clock this afternoon. It is probable that the matter will be discussed in the common council this afternoon, with a view to sending assistance from this city, if it should be required.

H. J. Anderson, manager of the Opera House, who was some years a resident of Bangor, told a Times' reporter this morning that the Maine city, which is now so sorely afflicted, was the first to help St. John at the time of its fire in 1877. The St. John fire broke out early in the afternoon, and at 9 o'clock that evening, a meeting of the Bangor council was held, and at 8 o'clock shipments of supplies and clothing were on their way to St. John.

Walter H. Golding, manager of the Nickel, said that the Keitt interests probably lost two of their three Bangor theatres, the old Norumbega hall, and the Nickel. The latter was in the Graham building, which is reported to have been burned. Howard Atkinson is the manager of this house, which was specially constructed for the Keitt company. The third Keitt house, the Bijou, is apparently outside the fire zone, and John and Buchanan were to have gone to Bangor at the close of their engagement here.

CORONATION SERVICE IN CENTENARY IS BEING PLANNED

Taken up at Evangelical Alliance Today—Paper by Rev. J. H. McDonald

The members of the Evangelical Alliance this morning in the parlors of Centenary church listened with attention and appreciation to a paper read by Rev. J. H. McDonald, of Fredericton, on 'Christian Unity.' He dealt with the subject in a frank and open manner, presenting views for contrast with those given by Bishop Riel at his last all-Canada meeting. He took three features of the advantages of church unity, and dealt with them in the light of a 'League of All Missionsaries,' 'Business Considerations,' and 'The Trend of History.' He spoke of the advantages of unity, and the claim of the diocesan bishops to the divine right of institution through Christ and His apostles.

A hearty vote of thanks was tendered the speaker, moved by Archdeacon Hay, and seconded by Rev. Dr. Flanders. Rev. H. R. Read presided at the meeting, and Rev. Dr. Hutchinson, was secretary. The following were present—Rev. Messrs. Lang, Brewer, Flanders, Raymond, Porter, Townsend, Nobles, McLean, Archibald, Crowl of Halifax, and Evangelist Knight.

If arrangements can be made, it was decided to hold a united coronation service in Centenary church on June 22, and a committee was appointed in connection with the matter as follows—Rev. Messrs. Lang, Brewer, Read, Hutchinson, Kuhring, Appel and Raymond.

AUTO CUTS DOWN POLE; RUNS INTO BUILDING

Early Morning Accident at Corner of Carleton and Coburg Street—Occupants Escape Injury

Crashing into a telegraph or telephone pole and snapping it close to the ground, then running into a brick building, a big automobile roared the residents of Carleton and Coburg streets at an early hour this morning. That no one was killed was a marvel. One of the occupants was thrown out of the machine and the front of the auto was smashed somewhat. About 4 o'clock the machine was turning the corner of Carleton street into Coburg in a hurry call for a physician. The driver, and a haze clouding the wind shield resulted in the post being mistaken for a shadow, and before the mistake was seen the car struck the post breaking it off with a noise like a pistol shot. The large machine then struck a brick house on the opposite side of Coburg street.

AWARD IS FOR \$7,750

The arbitrators appointed some time ago to decide on the award to be paid by D. J. Purdy to Miss Porter, in connection with the taking over of Star Line wharf at Indiantown, have made their decision, and they name \$7,750 as the amount to be paid. The award is signed by the three arbitrators, D. C. Clark, E. Roberts, and Isiah Holder. The old award was for \$2,500 and it was set aside on the ground that the charter in the wharf was not valued, as it should have been under the terms of the lease. Dr. J. A. Curry, K.C., appeared for Miss Porter; Barnhill, Ewing & Santford, for D. J. Purdy, and Recorder Baxter drew up the award for the arbitrators.

MAJOR GETS FIRST LICENSE Today inaugurates a new license year with the city, and Clarence Ward, the mayor's clerk, is prepared for the anticipated demand for licenses of various kinds. Up to noon four citizens had taken out dog licenses, and received, in addition to their licenses, the license tags required by law. The tags this year are in the form of keystone to make them difficult to distinguish from the tags of other years. The first license issued was to Mayor Frank, who has set a good example by getting in early.
