VISITING DAY—WEDNESDAY, 3 P. M

Halifax School for the Blind.

For the founding of this Institution a debt of gratitude is due by the people of this Province to the late WILLIAM MURDOCH, Esq., who died in London in 1863, having a few years previously taken up his residence there, after a long, useful, and successful life as a merchant in this city. In his will he bequeathed, in addition to the various other charities, the munificent sum of £5,000 N. S. Cy., toward the endowment of an Asylum for the Blind, on condition that a suitable building would be secured at a cost of not less than £3,000. An amount was raised by subscription shortly after his decease, sufficient for this purpose, and an eligible site having been procured gratuitously from the City on the South Common, arrangements were at once made, and a suitable brick building was erected, capable of accommodating about forty pupils.

As a Report of the Directors, lately submitted to the Annual Meeting, is annexed, it is unnecessary to make further remarks than to express the hope that the blessing of God may attend this Institution, and that it may do all the good that the benevolent founder had in view in his kindly endeavors to increase the happiness and usefulness of this hitherto neglected class of our fellow-beings in this Province.

FOURTEENTH ANNUAL REPORT

OF THE

Board of Managers of the Institution for the Blind.

NOW THE

“HALIFAX SCHOOL FOR THE BLIND.”

1884.

It is fitting that in this, the Centennial year of Instruction of the Blind, our Halifax Institution should have received by Legislative investment the designation which was agreed upon by this Corporation at its last annual meeting, viz. : “The Halifax School for the Blind,” by which name it now stands incorporated—That any difficulties which may have militated against its standing by reason of its old name of “Asylum for the Blind,” will in future be obviated, and we trust its mission will now be recognized and appreciated by large numbers of the class for which it was founded, and for whose education and instruction in useful occupation it has for many years been successfully carried on.

Since our last Annual Meeting the work of the school, music rooms and workshops has gone on steadily and without hindrances of any kind. Particulars of the several departments, their past, present and future, with their needs and wants, are fully set forth in the exhaustive reports of the Superintendent to which your Board would specially refer.

We would call attention to the fact that the education of the blind children of the Maritime Provinces is not confined to the walls of this building, for it will be seen by Mr. Fraser's report that he keeps a register of young blind persons within our constituency, and in a measure directs their home trainings with a view to their preparation for entering this institution, while in some cases admission has been obtained for

blind pupils to the Public Schools. This outside work should certainly entitle the Institution to a more extended recognition, and a more generous financial support from the public than it now enjoys.

While thankful for the measure of pecuniary support accorded in the past, the Board of Managers regret to express their apprehension of being unable to conduct the financial affairs for the future with satisfaction and safety, without a considerable addition to our income. Though the work at the "Halifax School for the Blind" is equal to that of more pretentious institutions elsewhere, it is accomplished at a considerably less cost than any similar one on this continent. It may be seen by the Treasurer's statement, that the nett receipts for the past year are less than those of the two previous years, while the expenditure of 1884 added to the unpaid account, exceeds that of 1883,

The following tabulated statements for the past three years shew the comparative results :—

RECEIPTS.

	No. of Pupils.	In't. and Dividends.	Government Grants, &c.	Legacies.	Donations	Sales and Fees.	Dep. Rec't.	Total.
1882	23	\$1655.25	\$2191.78	\$1716.36	\$385.73	\$197.42	\$800	\$6945.64
1883	27	1599.40	2779.37	510.97	94.73	29.88		5014.35
1884	28	1391.98	2985.	200.	265.58	88.07	400	5330.63

EXPENDITURES.

	House expenses and wages.	Salaries.	Repairs and alterations.	Grounds.	Instruction and prizes.	Acts. due.	Total.
1882	\$2774.12	\$1067.50	\$1949.13	\$344.51	\$530.80		\$6666.06
1883	3291.59	1100.00	434.27	115.00	272.59		5213.45
1884	3039.72	1160.00	192.29	45.50	439.25	\$400	5276.76

While our income from all sources was \$302 per pupil in 1882 it fell to \$185.69 and \$190 in 1883 and 1884 respectively. Investments are producing a lessened return, while our receipts from legacies have greatly fallen off. Were it not that the Provincial and Municipal grants shew an increase, and special donations are fairly liberal, the balance against us would be much more serious than it now is. Receipts from the several Provinces the past three years are as follows :—

	1882	1883	1884
Nova Scotia.....	\$1241.78	2099.37	2185.75
New Brunswick.....	720.00	480.00	599.25
P. E. Island.....	200.00	200.00	200.00

Your Board concurs in the suggestion of the Superintendent that the various Provinces should increase the amounts payable for pupils from the present grant of \$100 and \$120 to \$150, or an addition of \$30 each for the Pupils from New Brunswick and Nova Scotia, and of \$50 each for

the pupils from Prince Edward Island. The increase might easily in the case of Nova Scotia be divided between the counties and the provincial Treasury. The proposed additions to public grants though not nearly the cost to the School of each pupil will about enable the Board of Management to carry on the operations of the School without running into debt.

The expenditures are carefully scrutinized by the Board and no unnecessary outlay is indulged in, and yet to keep the Institution going we have been obliged to expend monies which should have properly been funded.

It is with pleasure your Board reports the assured success of the Loan Fund, the objects of which as stated in former reports being to furnish graduates with outfits to enable them to earn their living as Basket makers, Brush makers, or piano-forte tuners.

Last year the Board had to regret a season of more than usual illness, this year we are pleased to report a remarkable immunity from sickness of any kind and for which great blessing we desire to express our thankfulness to God.

The buildings and grounds are in good order, the latter yield a large part of the vegetables used in the school. As a guarantee of the permanency and stability of our Institution, we would state that we have valuable buildings and extensive grounds situated in a healthy locality. The cost of the buildings, workshops, &c., is about \$22,000, and the estimated value of furniture, pianos, appliances, books, &c., \$3,000, making a total of \$25,000, invested in the school in addition to the grounds.

The thanks of the Manager are due to Dr. A. W. H. Lindsay, the attending Physician, to Dr. Stephen Dodge the Ophthalmic Physician, and to Dr. A. C. Cogswell, Dental Surgeon, for their gratuitous services the past year.

In conclusion, the Board would bear testimony to the unwearied services of the Superintendent who has the full sympathy and confidence of all connected with the School. It is a continued source of pleasure to the Managers that Mr. Fraser is permitted to be increasingly useful to those to whom he has devoted his life work. Miss Maggie McKenzie, teacher of Literature, and Messrs. Baird and Nodwell, Trade Instructors, perform their duties to the satisfaction of the Board, and Mr. and Mrs. Blair, Steward and Matron, continue to attend to the wants of the large family entrusted to their care as in past years.

SUPERINTENDENT'S REPORT.

To the President and Board of Managers of "The Halifax School for the Blind" :—

There are probably few men who fully realize to what extent the work in which they are engaged, may ultimately expand. Little did the philosopher of Stageira imagine that the principles laid down by him, in the fourth century before Christ, would form the basis of the best works upon Logic, published two thousand years later. Little did the inventor of the steam-engine suppose that his discovery of an unknown power was destined to revolutionize the world, and so greatly advance its material progress.

Could the founder of the first school for the blind have foreseen the wonderful changes, which would be wrought in the methods of educating those deprived of sight, his benevolent heart would have been filled with gratitude to God ; and he would have felt thankful that his labors, would eventually be crowned with that success for which he so assiduously toiled. In the year 1784, Valentine Haiiy, the great French Philanthropist, having been moved to pity by what he saw of the blind in the streets of Paris, conceived the idea of opening in that city a school for their instruction, and notwithstanding the difficulties with which their education was beset, he persevered in his self-imposed task ; and in time was permitted to gather the first fruits of his labors. As a director of an institution, Haiiy did not prove a success, but to his inventive genius, and untiring interest in the education of his pupils, the blind are indebted for the introduction of books printed in raised characters readily sensible to the touch. The work which was commenced by this apostle of the blind, is now being carried forward by thousands of willing workers in all parts of the civilized world, who, while looking back with satisfaction at what has already been accomplished in the past, have faith to believe that the future has in store for them a still greater measure of success.

This being the Centennial year of the establishment of the first school for the blind, I have thought it advisable to thus briefly note the fact by using it as a preface to my customary annual report, which is herewith submitted :—

LITERARY DEPARTMENT.

We have experienced, in common with all similar schools, the difficulties which arise from the necessity of employing several distinct styles of print, each of which possesses particular merits of its own. The pupils in the public schools use the same primers and text-books, and are taught to read from the same series of readers; those who are near-sighted, and those possessing quick vision, using a common print. With the blind it is different. Some can be taught to read only from large characters, while others can learn from letters of much smaller dimensions. Again, some are obliged to use the books printed in the larger type as a stepping-stone to those printed in smaller letters; but the child has a double difficulty with which to contend, since the larger and smaller letters form distinct alphabets, having no more relation to each other, than the old and new styles in ordinary print.

This difficulty could readily be obviated by abandoning the ordinary lined characters, and substituting point print; but it will probably be many years before the inventors and advocates of the respective systems now in use, will realize that the present lack of uniformity places unnecessary obstacles in the way of the student, and renders the work of the teacher doubly hard.

For many years I have kept a register of the names of the young blind persons, throughout the Maritime Provinces, under the age at which they could be admitted to the school. By means of this register I have been enabled, in a measure, to direct the home-training of these children before they entered the institution; and in several instances have obtained for them admission to the public schools; thus giving them a preparation for their regular school life, the advantages of which cannot well be overestimated. My thanks are due to the teachers, who have without exception, willingly seconded my efforts to have these children trained; and I feel confident that when the time arrives for calling upon their co-laborers, in other parts of the country, I will ever find hands willing and ready to hold up the candle of knowledge before these little ones, so that its heat if not its light may be enjoyed by them.

The clergy and physicians throughout the Maritime Provinces would greatly aid in the good work if they would kindly forward me the names and Post-Office addresses of any blind children they may happen to know.

The regular work in our school department has been steadily and systematically carried on, and the results are, in the main, satisfactory and encouraging.

MUSICAL DEPARTMENT.

The work in our Musical department has been greatly facilitated by the purchase and importation of a large additional stock of music printed in raised characters, which has proved most useful, being a saving in time, labour, and money, obviating as it does, the necessity of employing a music reader with sight. This music which is published by the Kentucky Printing House for the Blind, is less costly than ordinary sheet music, and what is still more important, the selections which have been made display taste and judgment, including as they do the works of standard composers. The enterprise of this printing house deserves the support and encouragement of the educators of the blind in every school on the Continent.

It is with no small satisfaction that we refer to the fact that Messrs. Chisholm and McLearn, two of our most successful graduates, have gone to Germany to complete their musical studies. These gentlemen practised their profession in this Province with gratifying success, and were enabled through their own industry to obtain the necessary means to defray their expenses while abroad. They have been admitted to one of the most celebrated Conservatories of Music in Berlin, and it is gratifying to state that their piano playing elicited the hearty eoniums of their German masters, and was emphatically pronounced to be good.

Within the Institution the work of instruction in music has engaged my careful attention, and I am pleased to say that it has met with no let or hindrance, saving such as have arisen from the lack of means to purchase new practising and tuning pianos. The need of these additional instruments is most urgent, and their want has taught me to appreciate with double force the position of the Israelites when called upon to make bricks without straw.

It has occurred to me that many persons in the city owning pianos for which they have no prospective use, would, if they realized their necessity in this school, be willing to present or bequeath the same to the Institution.

At all events, I think it well to give publicity to this idea since its suggestion may induce some of those, who read this report, to act upon it at an early date, and thus materially assist us in carrying on a noble and successful work.

WORK DEPARTMENT.

Notwithstanding the somewhat excessive cost of this department during the past two years, as compared with previous years, I have reason to believe that the outlay will ultimately prove a good investment for the Institution, as it will certainly place us in a far better position to prepare our pupils for the business of life.

The cost of introducing a new trade, such as that of the manufacture of willow-work, has been a heavy drain upon our already meagre resources; but we have faith to believe that the public will second our enterprise and aid us in improving the efficiency of each department of the school.

It would be unwise, under the existing circumstances, to make any positive statement as to the wage earning capacity of those who will in time graduate as willow workers from this department; but up to the present time has confirmed us in the opinion previously expressed, which was to the effect that no trade offers to the industrial blind a more certain means of obtaining a livelihood than does the manufacture of willow baskets, chairs, and other articles. The work so far produced has found a ready sale, and has given entire satisfaction to our customers. Mr. Nodwell, the trade instructor, has been attentive and diligent, and his pupils have made satisfactory progress.

We would respectfully call the attention of the public to our large assortment of willow-baskets, which will be found superior to anything of the kind now in the market, both as to the quality of the material and the perfection of the workmanship. The cane-seating department, under the control of D. A. Baird has been efficiently managed, and the quality of the work performed, has elicited the praise of several of the wholesale furniture dealers.

Our girl's work department, under the management of Miss McKenzie has been carried on faithfully and systematically. Sewing, knitting, and the use of the knitting machine have received special attention, and I feel confident that the instruction given is of such a character as to prove a lasting benefit to the pupils.

HEALTH.

We have great reason to feel thankful to a kind Providence in that we have been preserved in our school from infectious disease, sickness, and death; the past year having been remarkable in this respect. No doubt the excellent sanitary condition of the Institution, the wholesome diet, and the regular and systematic exercise in the gymnasium, and in the open air have greatly improved the physical condition of our pupils, thus rendering them less liable to ill health and increasing their power of endurance.

LOAN FUND.

At the date of our last report, the contributions towards the loan fund aggregated \$716.10, since which time \$195.72 have been added, making the total received to date, \$911.82. In September last I sent out twenty-five collecting cards to young ladies residing in different parts of the Maritime Provinces, with the request that they should each collect \$10.00 towards the fund. The responses to these were most gratifying. From many I received an excess, and from others double the amount of the sum named; while from those who have not yet sent in their returns, I have received assurances that contributions would be forwarded in a few weeks, which will virtually complete the loan fund, the total amount of which we previously placed at \$1000.

This fund has been derived from such a variety of sources that it will be impossible for us to particularize in expressing our thanks to those who have aided in its formation. I cannot forbear, however, from penning a grateful acknowledgement to the young ladies, who, by their timely assistance have enabled us to complete the fund at this early date. The management of this fund will devolve upon the President of the Board and the Superintendent of the school, and the disbursements will be made with a due regard to the wants of the graduates, and the preservation of the fund. We are now in a position to extend aid to such of our graduates as may require help, and are deserving of assistance. This fact should be borne in mind by the benevolent public who are sometimes appealed to by persons representing themselves as graduates of this Institution, who solicit contributions for the purchase of tools and materials to start them in life, and who rely upon the inexhaustible fund of human sympathy to thus eke out a livelihood. Indiscriminate aid to undeserving persons of this character is injurious to the industrial blind, since it creates a false impression of a worthy class; while the recipients are encouraged to continue a practise at once pernicious in its influences and demoralizing in its effects. In the interests of the industrial blind I would respectfully ask our many friends to remember that we are now in a position to help all of our graduates requiring implements, and therefore no deserving individual among them need apply for private aid.

CHANGE OF NAME.

The corporate name of the Institution has at length been changed to one which more fully designates its purpose, and which at once places it upon a footing with the other educational institutions of the Province. By an act of the Provincial Legislature of Nova Scotia, the name of the "Halifax Asylum for the Blind" has been changed to that of the "Halifax School for the Blind." We feel certain that the public will in time recognize the advisability of this alteration, and will give to the institution its proper corporate name.

FINANCIAL CONDITION.

Our wants are many, but at the present time their enumeration would yield but little satisfaction. When I say that we are doing more in educating the blind, for the means at our command, than any similar school upon the continent, I am simply stating an incontrovertible fact; but if I were to admit the whole truth, I should be obliged to confess that our annual income, though administered with the most rigid economy, is not sufficient to maintain the several departments of the Institution in their present state of efficiency. At the present time your Board receive a per capitem grant from the several Provincial Governments equivalent to a little less than two-thirds of the yearly cost per pupil. This is, however, without taking into account the interest upon the capital invested in our buildings, school equipments, &c. The balance is partially made up by the interest upon invested legacies and private contributions, leaving a deficit of from \$20 to \$30 per pupil, which, with our present number of pupils is equivalent to \$500 per annum. An addition of \$15 per pupil, to both the Government and Municipal grants, would place us in a position to successfully carry on the work in which we are engaged. I feel certain that if a full statement of our finances were laid before the Government by your Board, we would find on the part of its members a willingness to render the Institution all the assistance that lay in their power. Our balance sheet would have shewn a still larger deficit were it not that in answer to an appeal, many of the country churches took up a special collection on Thanksgiving day. The monies thus contributed amounting to \$146.00.

Our thanks are due to the clergy and congregations of the several churches throughout the Provinces, who thus testified their interest in the welfare of the Institution.

In conclusion, gentlemen, I beg to thank you for the deference and consideration which you have always accorded to any propositions that I have laid before you, and to express the hope that before the close of another year our financial condition will have so improved that you will be relieved from the worry and anxiety consequent upon the want of funds.

Yours respectfully,

C. F. FRASER.

CONSTITUTION AND BY-LAWS

OF THE

Halifax School for the Blind.

CONSTITUTION.

ARTICLE I.—NAME.

This Association shall, conformably to the Amended Act of Incorporation, 30 Victoria, C. 50, be styled, "THE HALIFAX SCHOOL FOR THE BLIND."

ARTICLE II.—MEMBERSHIP.

All original subscribers to the fund for erecting the Asylum for the Blind within the City of Halifax shall be and continue members of this Association so long as they contribute the sum of one dollar or upwards to the support of the Institution.

Any subscriber to the funds of the Institution to the amount of five dollars or upwards may be constituted a member of the Board of Managers at one of their regular monthly meetings, and so continue during his annual payment of five dollars.

Donors of fifty dollars at one time, and members who have served the office of Manager not less than three consecutive years, shall thereby be constituted life members of the Association.

Payment of five hundred dollars at one time shall constitute a patron of the Association.

Patrons and Members shall have the right of voting at the annual election of Managers, and shall themselves be eligible.

ARTICLE III.—MANAGEMENT.

The management of the Institution shall be entrusted to a Board of twelve members, who shall choose from their own number a President, Vice-President, Treasurer, Corresponding Secretary, and Recording Secretary.

An annual meeting for the election of the Board of Management shall be held on such day of the second week of the last month of the year as the Board of Managers may appoint, due notice thereof being given in two at least of the Halifax newspapers. Any number of persons present in a half-hour from the time named in such notice shall be a quorum for the election of Managers, and the transaction of any business to be passed upon at such annual meeting; but any five members then present may, if they shall deem the business to require it, demand an adjournment to

some other day or hour within one week therefrom, and the same shall stand adjourned accordingly, and the business so postponed shall at first adjourned meeting be first taken up and finally disposed of.

If for any reason the election of Managers be, pursuant to the foregoing provision or otherwise, postponed, the Managers of the preceding year shall hold office until the new Board be elected.

The Board of Managers shall have power to supply vacancies occurring therein between the periods of the annual elections.

At the annual meeting the votes shall be taken by ballot, and the first twelve persons named on a list made in the order of the number of votes given for them respectively, beginning with the largest number of votes and so on to the least, shall constitute the Board of Managers.

ARTICLE IV.—BY-LAWS, &C.

The power of making, amending and repealing by-laws, and regulations for their own guidance and the government of the Institution, and the appointment and removal of all officers, and regarding salaries and allowances, is vested in the Board of Management, but no by-law once passed shall be altered or repealed except on a vote of two-thirds of the members of the Board present at a regular monthly meeting thereof, and after notice of such alteration or repeal given at next preceding monthly meeting.

ARTICLE V.—AMENDMENTS.

The foregoing articles, together with the provisions contained in the Act of Incorporation, are declared to be the Constitution of the "Halifax School for the Blind," and no alteration shall be made therein except by a vote of two-thirds of the persons present at an annual meeting of the Corporation upon the recommendation of the Board of Managers, of which at least one month's notice in writing shall have been given to the Patrons and Members individually, by letter addressed to the Patron or Member, and mailed at Halifax, or left at his place of business or abode.

BY-LAWS.

BOARD OF MANAGERS' MEETINGS.

I.—STATED MEETINGS.

The Board shall hold a stated meeting at the Institution on the first Monday of every month, except when such Monday shall fall on a public holiday, then on the day following, and at any such hours as they may from time to time appoint.

II.—SPECIAL MEETINGS.

Special Meetings may be convened by request of the President or three members of the Board, the time, place, and object to be specified in such request, and inserted in the notice of meeting by the Secretary.

(5) *General Duties*—

Each Standing Committee shall visit the Institution at least once a month and arrange for one of their number to do so weekly. They shall have the entire and conclusive control, subject only to the full Board, over the department allotted to them; shall keep a book at the Institution, in which all their proceedings shall be entered, and especially all requisitions, instructions and orders given to the Superintendent or other officers shall be clearly set down therein, for the prevention of any misunderstanding regarding the same. The Chairman shall be bound to see that the duties of his committee are in every respect fully performed, and shall furnish the Board whenever required with the minutes of their proceedings, and all other information required.

VI.—DUTIES OF THE TREASURER.

The Treasurer shall have charge of all funds and securities belonging to the Institution and shall be *ex officio* a member of the Committee of Finance; shall deposit all moneys of the Institution, on receipt, in some Bank approved by the Managers, to the Credit of the Institution and pay by cheques drawn thereon all bills certified by the chairman of any Standing Committee. He shall present at every stated meeting in each year a full report for the year, and in such form as the Board may prescribe.

VII.—DUTIES OF THE CORRESPONDING SECRETARY.

The corresponding Secretary shall conduct the general correspondence of the Institution and submit the same at each stated meeting of the Board. He shall file at the Institution all letters received by him or the Board, and copies of all letters written by him, and keep the same under his charge for the exclusive use of the Board.

VII.—DUTIES OF THE RECORDING SECRETARY.

In his absence the Manager shall appoint one of their number to act *pro tempore*.

IX.—ADMISSION OF PUPILS.

(1) *General Terms*—

Young blind persons of good moral character between the ages of ten and twenty-one, may be admitted to the Institution in accordance with the provisions of the Acts in relation to the Education of the Blind, in Chap. 17, Act of 1882, and Amendment thereto, passed 1883, which shall entitle them to free education in the Institution. The pupils must furnish their own clothing, and pay their own fares to and from the Institution.

Their friends may visit them at reasonable times under the regulation of the Board.

(2) *Special Cases*—

The Board of Managers may receive special applications for the admission of pupils who are in indigent circumstances, and grant or refuse the same from time to time, as in their judgment may be consistent with the funds of the Institution.
