NEW VENIRE **ON HAND**

But no Progress Was Made Yesterday in Filing Jury Box.

Looks as Though Task of Securing Jury Will Be Exte ded Into Next Week-Counsel Engage in Altercation.

(Special to The Daily News)

Boise, Idaho, May 23.—There was no progress made today in filling the seat nade vacant in the jury box in the Haywood case when Orrie Cole was excused on account of sickness just before the court adjourned Tuesday. Sheriff Hodgin returned the names of 30 men summoned as jurors and all but one answered when the roll was called, a bench warrant being issued for the missing man. Six were excused on statutory excuses and the cases of five others were taken under consideration intil tomorrow morning.

Six jurors were called into the box during the afternoon, five of whom were excused because of having formed an opinion. The sixth was passed by the state and was under examination the defense when adjournment was

A sharp passage occurred during the examination of Lee Egbert. The juror said he had formed an opinion and was asked by Hawley whether he was in the habit of forming opinions on im-portant subjects from loose talk about e neighborhood.

Darrow objected and explained he hought the line of examination was for the purpose of intimidating other talesmen. Though the objection was verruled, the attorneys continued the exchange for a few moments, Hawley having been nettled by Darrow's remarks

prospects for getting the jury The filled this week seem to have gone glimmering, but they may strike a

better gait tomorrow. It is thought the state does not propose to exercise all its peremptor; challenges but even though it should not exercise another, the work would be likely to continue until Saturday inght if the defense should exercise the four more which it has the right to.

GOES TO MEDICINE HAT

TRANSFER OF J. S. LAWRENCE IS CONFIRMED

ALLEN PURVIS MAY BE MOVED TO WINNIPEG

cial to The Daily News) Vancouver, May 23 .- As a result of Mr. Bury's recent trip over the lines, it is announced a new district of the vestern division of the C.P.R. will oe reated, extending from Medicine Hat o Swift Current, on the main line, and west to Lethbridge, on the Crow's Nest S. Lawrence, superintendent of the Kootenay division, is to be transferred o Medicine Hat and D. C. Coleman present assistant to Bury at Winnipeg to the Nelson post. A. Purvis, no. chief clerk to Busteed here, may succeed Coleman. Official notification of the changes is expected next week The appointments are to take effect on une 1st.

JURY ABOUT COMPLETED

VOL. 6

Only Two More Required to Make up Panel for Haywood Trial

Juror Tourtelot'e Has Been Finally Excused-Expect Panel Will Be Completed Today.

(Special to The Daily News) Boise, Idaho, May 31.-Gratifying progress was made today in filling the jury in the Haywood murder case, and tonight, as matters stand, it will be necessary to qualify only two more men one less than qualified today. The defense and the state each exercised one peremptory challenge today, and one man, Tourtelotte, was excused for cause. There is one man waiting to be examined to fill the place made vacant by the last challenge by the state. The de fense has one more peremptory chal-lenge, and when the place vacant is filled the jury will be completed. There is every reason to believe that this will he accomplished before the close to-morrow, and on flonday morning the actual trial of the great case will begin. Of those examined today only seven were excused for cause, while three were passed the defense releasing Herman Cox, who tried so hard to get off on Monday. The state exercised its last

cremptory, excusing Nelson Freeland, who had just been passed for cause, but was not entirely satisfactory to the attorneys for the prosecution. Shortly before the noon adjournment Richardson's request, the court allowed Darrow, Richardson and Nugent, the defense, and Hawley, Borah and Van Duyn, of the prosecution, to retire to the judge's private office for a short consultation. They retired, and in a few moments Hawley and Nugent came out, held a whispered consultation with the judge and then all the attorneys resumed their seats. It was then 12 o'clock, and, after instruction, the jurors in the box were taken out by the bailiffs, who were instructed to bring them back into court at 1:30 o'clock. Hay-wood was remanded and court adjourned at 1:30 o'clock. Immediately after ourt convened for the afternoon session became evident what the attorneys had held their consultation about. Just before adjournment Richardson had suggested that if any jurors in the panel were to be excused on account of sick-ness or otherwise, it would be better for both sides to excuse them and fill their places before the last peremptory for each side was exercised. Richardson, f course, had in mind J. A. Tourielotta, whom it was expected would refuse to take the oath as a juror, because of his prejudice against capital punishment; and also the case of Daniel Clark, in the fourth chair, who wished to be ex used on account of the illness of one Di ldren. As soon as the roll way called Mr. Tourtelotte was asked if he still wished to modify an answer he had ade to a question by an attorney for the defense. He said he would like to do so. He was given permission to ex-plain. He said that in answer to Darrow he had said he was not prejudiced against the Western Federation of Mins, but he now wished to state that i hat organization was to blame for the les in northern Idaho, he would be

prejudiced, and that prejudice would be extended to any man who upheld such an organization. Darrow said that Hav wood was not an officer of the Western Federation of Miners at the time of hese troubles and that the defense was satisfied. He was questioned to some extent by Borah, and finally said ne ould not take the oath as a juror, with out qualifying as to capital punishment. so as to show he would not find a cap-ital verdict, if it were not shown that defendant had been a party to a murder in pursuance of plaus of some organization determined to rule by for 3 and murder. Judge Wood plainly indicated to the

attorneys that he thought Tourtelotte should be excused. The defense refused act and then Borah challenged and the defense noted an exception.

Boise, Idaho, May 31 .- Carl H. Dunan, the man who was arrested on Tuesiay as a suspicious character at the inance of one of the socialist writers in ttendance at the Haywood trial, apeared in police court this afternoon on e charge of carrying concealed weap-He pleaded not guilty, declined attorney and conducted his own de-

The evidence showed that he carried lver and a dagger in his satchel s defense was that he came to Boise cting to work on a ranch as a cattle and that it was customary to arry the weapons. He was sentenced a fine of \$100, or in default, go to for 60 days. He went to jail.

One of the features of the case has number of threatening letters eived by the mayor since the arrest. ot much attention is paid to them, wever, and none of the socialists in city appeared in court to espons ncan's cause. All of them say that has no connection with the socialist ause, although it is known that he has

at different times been connected with number of organizations. Ogden, Utah, May 31-The drag ne hrown out by the authorities of the state of Idaho in the case of Haywood, Moyer and Pettibone was felt in Ogden this afternoon when detective Thiere of the Thiele agency, subpoenced detective Jas. Bender, officer Tom Burke and jailer Henry Snyder, all of the local police force and informed them that their service

might be needed at a moment's notice in the famous case. The subpoenas are made returnable June 6. Detective Thiele left tonight for Idaho. At the jatl he went over the records and discovered dats and facts that w1: be used against the trio on trial, in particular Haywood, whom it is alleged, was involved in a transaction more than a year ago, which will furnish the state w th dam-aging evidence. Bender Snyd r and Burke wil be notified by telegram when to prepare to journey to Boise, Steve Adams, upon whose confession the case against the labor leaders in part depends, was arrested in Ogden by detec ive

Sender more than 12 months ago. He re-uested at that time that he be given an pportunity to secure his release by se puring bail money. Accompanied by de-Union office and sent a message direct to Haywood, whom he urged to send \$75. It s alleged that this sum was forwarded to Adams who was able to leave the city by putting that sum up as bond money. Detective Th'ele is of the opinion that he has secured a valuable bit of evidence in the attempt which is now being made associate Adams with Pettibone, Haywood and Moyer.

COLLECTED NO MATTER WHAT RATE WAS QUOT-

ED ORIGINALLY

H. E. Macdonell, C.P.R. general freight agent, for the Kootenays, has issued a circular to agents, sh'ppers and consignees of freight, drawing particular attention to the fact that under the reliway act of last year freight tarifs filed with th board of railway commissioners, are, according to law, kept by every gent, open for public inspection and that there are special provisions for enforcing the tariff and penalties are provided for the nonenforcement of tariff rates. In the future, no matter what rate has

been quoted originally, the correct rate ing to the tariff, will be colle when the goods arrive at their destination In the past it has been the custom where an agent had quoted a figure to a ship per, for the raliways to stay with the quoted rate and if necessary allow a re-bate, but this custom no longer obtains. If an agent quotes a wrong rate and even does so in writing, the proper rate, fixed by the tariff, will be collected. Nor has the shipper any redress in the courts or otherwise, the railway act providing specially that no action shall be owing to the wrong rate having been quoted. If the original rate has been too high, according to the tariff, the proper rate only will be collected. Agents are not authorized to collect partial payment on account. As the tariff is a complicated affair shippers will do well to study its previsions very carefuly. The act provides heavy penalties on both railways and consignee for any infractions of its provisions.

COLEMAN TO CELEBRATE

Dominion Day Will Be Well Observe in the Crow's Nest Pass. (Special to The Daily News).

Coleman, Alta., May 31.-At a meeting of the citizens of this town it was unanmously decided to celebrate here on'the 1st of July. A committee was appointed to canvass the town for subscriptions for this purpose, and full arrangements will be made at an early date for the holding of what is hoped will be the best celebration and day of sports that the Crow's Nest Pass has yet seen. Full particulars of the program of the day will be given out shortly.

LAURIER'S MOVEMENTS

Montreal, May 31-A special cable to La Presse from Paris states that sir Wilfrid Laurier wil set cut on or about the firs of June for a trip through Switzerland on June 8 he goes to Italy in conn with a commercial treaty between ountry and Canada, The pre pier's program for the last two eeks in June has not yet been arranged

On July 1, however, the premier will at end the Dominion day banquet at Lonon. He will be back in Canada about the Lst of August.

CAPELLE TO HANG

Pary Sound, May 31-Marano, the Italian ompanion of Capelie in the Dow murder ase, has been found guilty of assault on Angus McLeod, one of those who inter-fered against the Italians in the fatal row at Mirrormacks on Christmas day. Justice Testzel today pronounced sentence of death in the case of Capelle, the execution to take place at Parry Sound on Aug Mamno got three years in the pe entiary.

-------EVIDENCE OF PROSPERITY

Ottawa, May 31.-Dominion customs receipts for May show the extraordinary increase of \$,- + 208,968 over May of 1906. The + figures read \$5,333,253 for the present month, compared with \$4,124,285 for May of last year. For the first two months of the present fiscal year, April and + May, there is an increase of \$1,-736,367.

WORK CLAIMS

Phoenix Amalgamated Copper Mines Ltd. Will Shortly Commence.

President Buck Has Been Out From Sherbrooke, Que., to Arrange Details of Development Wo k on Big Scale.

(Special to The Daily News) Phoenix, May 31.-It is now settled hat work on the group of claims in this camp owned by the Phoenix Amal-gamated Copper Mines, Ltd., will be taken up within the next few weeks. F. P. Buck, president of the company, was a visitor here this week, coming from the company's head office at Sherbrooke, Quebec, via New York.

This company owns a group of eight or ten copper claims adjoining the Branby Consolidated property on the south, it being a consolidation of three other companies, the most important of which was the War Eagle, which latter operated a claim of the same name to some extent some six or seven year ago. A year ago the amalgamation of the several properties was carried into effect, and Mr. Buck has been arranging for development work on an extensive scale. This matter he now states is definitely settled, and within 60 days the work will be started. The company has a capital of 1.000.000 \$5 shares, mos of which are held in the eastern ships of Quebec, and some of which are held by residents of the Boundary. The War Eagle is one of the ol locations in Phoenix camp, and the old company equipped the property with a good air compressor and other machin-ery. It immediately adjoins the Gran-by's Grey Eagle and Tamarack proper-ties, being surrounded on three sides by claims of the Granby. Mr. Buck left yesterday for She brook, to hold a meeting of sharehold

ers to attend to the final details, bu expects to return here in July and ar range for immediate resumption of de

FAREWELL TO MR. LAWRENCE Retiring C. P. R. Superintendent Pro

sented With a Gold Watch. J. S. Lawrence, formerly superintend ent of the Kootenay division, C. P. R. who has been appointed to the superintendency of a new western division with headquarters at Medicine Hat, and who leaves this morning for his new field of labor, was not allowed to leave Nelson without some suitable mark of the esteem and respect in which he has always been held by the citizens of

At the Nelson club last evening there was a large and representative gather-ing of leading business men for the ex-press purpose of bidding farewell to Mr. Lawrence and of presenting to him a slight token of their regard.

The presentation was made by Geo. Johnston, collector of customs, who in a few very appropriate words expressed the regret Nelson citizens feel at Mr Lawrence's transfer to another point whilst rejoicing in the recognition thus shown of his faithful services to the big railroad corporation. On behalf of members of the Nelson club and citizens of Nelson, Mr. Johnstone presented Mr. Lawrence with a hands ne gold watch, purchased from J. Patenaude Mr. Lawrence replied feelingly to the kindly words of Mr. Johnstone, expressing regret at leaving Nelson, where he had always experienced the greates kindness and consideration and promis ing to remember the Kootenay country n general and Nelson in particular and to do anything in his power to promo the aims of the 20,000 club. Hearty cheers from those present evinced the appreciation of the retiring superintend ent's remarks by those assembled. losing a good citizen and Medicine Hat gaining a citizen will be a valuable addition to the puband enterprise of that prolic spirit gressive town,

DEC. DE TO

REJECTED BY GRAND FORKS

Phoenix and Greenwood Unions Vcte for New Wage Scale.

Sad Tragedy at Columbia -Young Girl Accidentally Killed by Her Sister, Who Is Subj. ct to Epileptic Fits,

(Special to The Daily News) Grand Forks, May 31.—At the meeting of the Grand Forks miners' union held Wednesday night for the purpose of voting on the way scale referred to in Tuesday's dispatch, the men rejected the scale by a vote of 75 to 49. There are 270 men in the union in good stand-ing, and the vote was small; but many of the men are away. John McInnis, M.P.P., brought down

the vote of the Phoenix union, which stood 216 in favor of the scale and 29 against. The Greenwood union yote was also counted here, the ballots being brought down by F. Steel and R. A. Matheson, president and secretary re-spectively of the union. The yote stood 131 for, 33 against.

Charles Bunting, president of the Grand Forks union, and T. Benninger, secretary, were interviewed by you correspondent and stated that the posi-tion taken by the union here was that a referendum composed of the total vote might lead to the Phoenix miners, who are satisfied with the scale, forcing the union here, whose members are not sat-isfied in respect to the way the scale works with smelter employes. The men want the company to grant their original requests, which, according to the of ficers, would only mean an increase (a very small total sum per day, "We do not want to feel that some a

"We do not want to feel that some of the men are not satisfied, although we admit that most of the demands have been met," said Mr. Bunting. Asked as to wherein lay the differences, Mr. Bun-ting said the differences, although slight, were scattered throughout va-rious departments, and it would be dif-ficult to specify offhand. It was further stated that the men would stand pat, and that the Phoenix miners would not turn a hand till the smeltermen were turn a hand till the smeltermen were

Manager Hodges left for Spokane yes terday morning and was seen by the of-ficers of the union for a few minutes previous to getting on the Great North-ern train. He is expected back tomor-

A reversion to the original demand of the men in reality also means the adoption of an eight-hour day all round. This point, however, has not been in-sisted on during the latter conferences. and it is evident that the Phoenix min ers by their vote are satisfied with the nine-hour day as it applies to surface men. Here the nine-hour day would apply to outside day labor and the me-chanical departments. It is possible that chanced departments. It is possible that the request for an eight-hour day all round will be eliminated from the re-quests now being submitted by the men. Meanwhile nothing definite can be stat-ed until the matter has again been uscussed with the Granby management. At 9 o'clock Thursday morning Emma Donnah, of Columbia, aged about 19, was killed by her sister Bella, who is about 30 years of age. Bella Donnan is an epileptic subject, and suffers from attacks of excitement and passion some-times incidental to the disease. Both girls were in the kitchen, and it is sup-

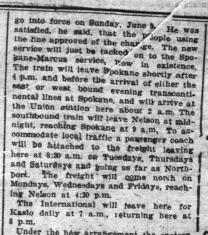

posed some dispute arose when Bella ook up a stick of stove wood and flung it at her sister, striking her just above the left ear and killing her in Dr. Kingston was summoned, and with Dr. Truax tried artificial respiration, working with the unfortunate girl for some two hours, but it was evident that death ensued within five minutes of the

When she realized what had happene the elder sister was frantic with grief. Mrs. Donnan and two other daughters were in the house at the time. Mr. Donnan, who works on the C.P.R. at Eholt, has been sent for.

An inquest was held last night. which was returned a verdict to the effect that she came to her death by being struck by a stick thrown by her Bella, but not with intent to The funeral of the dead girl takes

of Mayor Schmitz in San Francisco,

Counsel for Defense Has Angry Passage of Arms With Judge Dunne and Twice Sentenced for Contempt,

San Francisco, May 31-Attorney Charles H. Fairall, of counsel for the defence, was twice within a few minutes sentenced to twice within a few minutes sentenced to jail for contempt of court by superior judge Dunne, shority before the adjourn-ment of the Schmitz trial today. The orders were subsequently revoked by the court at the request of the mayor's senior counsel, former judge J. C. Campbell, joined in by assistant district attorney Henay. Heney. The sensational incident was

The sensational incident was the culmi-nation of a long day of bickerings and quarrels between opposing counsel that more than once had threatened unpleasant results. Eleven jurors had been finally accepted and the 12th had been by both sides accepted subject to peremptory chal-lenge, when Mr. Heney announced that he desired to further question a juror who was accepted hast Wednesday, John O.Mara, a blacksmith, "who," said the prosecutor, "we have just been informed. Is an employee of the city." O'Mara sat-isfied the court that such was not the case and then Heney produced some rapid fire questions, showing that during the noon recess the blacksmith had been fol-lowed by one of special agent Burns' men. who had seen him stop and talk with one who had seen him stop and talk with out Ed Demnison, on Filmore street, enter a seloon with him and emerge 15 minutes later, after which Dennison hurried away to the office of Herbert Schmitz, brothet of the mourne iterication is needed.

of the mayor, "evidently to report," Under Heney's questioning O'Mara first denied that the Schmitz triat had been mentioned between him and Danniso but later admitted that the fact of his be ing a juror had been remarked upo though not discussed. To all of this 30 Campbalant 4 of

To all of this M. Compton and the second sec

A special committee consisting of the mayor, W. Irvine, G. Horstead and J. N. Gilker then appointed the follow-ing standing committees: Sports-W. R. McLean, G. Thomas, chief Deasy, J. E. Annable, F. A. Star-key, A. T. Walley, M. R. McQuarrie, C. Walmsley, W. Ward, G. P. Wells, R. G. Walmsley, W. Ward, G. P. Wells, R. G. Webb, Harry Wright, Frank Phillips and J. L. Porter. Advertising-R. S. of court and as punishment therefore it is ordered, adjudged and decreed that you be confined in the county jail of this city and county of San Francisco for a period of 48 hours. Mr. Campbell will you pro-

Juror Bray, one of the 11 was the next to draw the fire of the prose-oution, to whom had been conveyed the in-formation that he was related by marriage to the mayor. Bray could not say whether or not this

was a fact. He had heard that it was Schmitz himself, though he had been re-tused audience earlier in the day by the ourt, came to the rescue. He rose and court, came to the rescue. He rose and made this statement: "If your honor plen a the relation is this, as I can trace it down and I would not want a relative of mine sitting on my jury: The relation is that this genileman's wife is related by fourth cousinship to a genileman who married my wife's sister, a man by the name of Murphy."

Murphy." Everybody laughed and judge Dunne hreatened to clear the court room

threatened to clear the court room in the offense were repeated. Bray was excused from the jury, the court holding that no matter how distant the relationship with the defendant it dis-qualified him. Bray himself had asked to be discharged.

When court adjourned the jury stood in numbers just where it was at the com-nencement of the day, eight men in the box: four more to get.

Mayor Schmitz will be arraighed tom row on the 28 indictments charging him with bribing 14 supervisors in connection with the gas and Parkside trolley dea's.

II. S. STEEL DIVIDENDS

New York, May 31.-The United States New York, May 31.—The United States Steel corporation today paid its regular quarterly dividend of 13-4 per cent on preferred stock and one-half of 1 per cent on the common bill paid June 6th. The earnings for th equarter are \$39,122,492, as compared with \$41,744,964 for the December quarter and \$36,364,490 for the March quarter a year ago. THE WEEKLY NEWS, NELSON B. (Special Correspondence.) Ottawa, May 23.—The liberal admin-istration is the intimate friend of prog-ress. If there is jone characteristic more than another, of its signal career, that has served to establish that fact it is the activity, continuing ceaseless ly throughout the last ten years, with which the nation's industries have been promoted. Famed for her resources of infinite variety and magnitude, Canada has been blessed with a controlling authority whose records, open to every one of her citizens for perusal and in-castisetion show a policy of memory vestigation, show a policy of progress which has made her great among na

This fact must have been made plain and no stronger evidence of the house eriment's appreciation of this happy circumstance is needed than the alac ricity with which the first minister of the department, Hon. Wm. Templeman, and his officials, have proceeded with the details of organization. From all sections of Canada have come expressections of satisfaction at the creation of the new department, and the mining men of every metallerous region with-in her boundaries realize that no stone will be left unturned to assist in the development of an industry already great. There cannot possibly be a soul in

this immense country who does not understand, in a general way, the pressing importance of a separate de-partment of mines. But if the readers of this article will take time to peruse the appended statistics they will be more strongly seized of the necessity. The estimated value of the mecessity. The estimated value of the mineral production of Canada for the year 1906 was \$86,000,000, an increase of nearly \$60,000,000 over the production of 1896. The following will show the total out-put of the different years since the re-lum of the Wherel nexts. 5,350 103,126 put of the different years i turn of the liberal party:

conclusion, namely, that if the mineral production of Canada has increased by 300 per cent in ten years, there is every reason to expect that at the end of the

know as much about the new department as possible. The act which created it states that it "shall administer all laws enacted ster all laws by parliament of Canada relating to mines and mining and shall also have the man gement and directions of all subjects ssigned to it by the governor in cour eil." It consists of two branches, the Mines branch and the Geological survey. It would be well, perhaps, to reproduce those portions of the act which specify the functions of the two branches. Those of the mines branch are, (a) To collect and publish full statistics of the minestranduction and of the min-

of the mineral production and of the min-ing and metallurgical industries of Can-ada, and such data regarding the economic minerals of Canada as relate to the pro-cesses and activities connected with their utilization, and to collect and preserve all available records of mines and mining

mining camps and areas containing eco-nomical substances for the purpose of de-termining the mode of occurrence, and the extent and character of the ore bodies and deposits of the economic minerals or other economic substances. (c) To prepare and publish such maps

plans, sections, diagrams, drawings and llustrations as are necessary to elucidate the reports issued by the mines branch. (d) To make such chemical, mechanic and metalurgical investigations as are found expedient to aid the mining and metallurgical industry of Canada.

ores and associated rocks and minerals of Canada and such other materials as are necessary to afford an accurate exhibit of the mining and metallurgical industries of Canada. The functions of the geological survey

(a) To make a full and scientific exam-ination and survey of the geological struc-ture and mineralogy of Canada; to collect, classify and arrange for exhibition in the Victoria Memorial museum such speci-mens as are necessary to afford a com-plete and exact knowledge of the geology, mineralogy, paiseontology, ethnology, and fauns and flora of Canada; and to make such chemical and other researches as will best tend to ensure the carrying into

SURPRISED ATTORNEYS Interesting Incident in

Yesterday's Work of Securing a Jury.

Boise Architect, Who Has Qualified Objections to Capital Punistment, Is Passed for Cause by Both Sides.

A THE REAL

(Special to The Daily News) Boise, May 25-The most interes ing feature of the long struggle to secure a jury in the Haywood murder case occurred toin the Haywood murder case occurred to day. A man who decared himself op-posed to capital punishment but qualified the statement by saying that he would favor it in the event of war or if the case acose in connection with the work of a rganization seeking to destroy society. File did not believe in anarchists and would be wilking to hang one of them if he had committed a murder in pursuit of the plans of the organization. This man was J. E. Tourtlote, a Boise

architect. When first examined by the state Tourtlotte declared that he was strictly and conscientiously opposed to capital punishment as a general proposi-He could think of only two instances where he could vote to hang a man. He said that if a man was convicted of hav been a member of an organization enaced society, an organiza tion which had committed depredat and had taken lives, as he expressed it, "by the wholesale, like anarchists," he believed he should be hanged and the quicker the better. He also said in war if a man was found guilty of being a rabel -a traitor to the cause in which he was enlisted—the death penalty would be none too severe. He said he had an opinion re-garding the guilt or innocence of the ac-cused but not an opinion that he would

be willing to render a verdict upon. There was some surprise when Borah calmly announced the state would pass the man for cause, but apparently no one was more surprised than Mr. Darrew. looked up quickly, appeared to gasp for oreath, ganced at the juror and then at Borah. The two attorneys smiled as their eyes met. "You pass this man for cause?" asked

Carrow wonderingly. "He is up to you," replied Borah. Mr. Darrow at once began questioning the man regarding his prejudice to capithe man regarding his prejudice to capi-al punishment and the repiles were the same as had been made to Borah. In swering another question Tourliotte re-piled: "But I am absolutely opposed to e death penalty except in such instances is I have described." "That looks go d to our side of the onse"

sesponded Darrow with a jovial smile. "We are satisfied with you all right on that matter but now I am asking you ore questions to see if you suit us in her ways as well as in that particular." Darrow asked: "Have you thought in ur mind that this defendant may belong

o such an organization as you have said came under your exceptions—an organi-Ation which has menaced society, as you lescribed?" "I had not thought of it," replied Tourt-

utte, "until you spoke of it, but now I can

set how he might be." Tourtlotte was very speedily passed for cause by the defense. After the noon re-cess and just before court convened he asked for permission to address the court. He stated to judge Wood that he had thought the matter over carefully and had come to the conclusion that he could not possibly sit on the jury because he was against capital punishment. The court put the matter up to the attorneys. Those of the defense said they were perfectly satisfied. After an obj arrow Borah was asked to ask Tourt otte a few questions to be certain he had not m prehended his position regarding his will ingness to vote the death of a person, a member of an organization which me-naced society, etc. He was satisfied apparently with Tourtlotte's answers, which were just the same as had been given in the foregoing and he announced that the prosecution was satisfied to keep the jurr in the box.

court refused to excuse him. The Idaho law provides that a man shall not be required to serve on a fury in a capital case if he has conscientious scrup-les against capital punishment. It is thought Tourtlot e may invoke that law before the jury is finally sworn and that the judge will be obliged to excuse him but on the other hand he has made the exception which, as will be claimed by the state, applies in this case.-Better progress was made today, three recomptory challenges being accepted. There remain two peremptories for each side and there are 13 men remaining in the last minel. It is probab's these will be exhausted on Monday when ano her venire will have to be issued.

Boise, Idaho, May 27 .- After getting one more juror today in the Haywood the panel was exhausted and special venire for 61 more men was is sued by the court, which then adjourne it will take the sheriff probably two

days to get the needed men. Thursday, Memorial day, is a holiday, and therefore court adjourned over until the date named. .udge Wood remarked as he an:

nonneed the adjournment that the jury would be filled during Friday and Saturiay or the panel exhausted, thereby implying that he would keep them at work early and late to push the matter to a conclusion. There remains one peremotory challenge for the state and two for the defense. It is altogether problement that juror Tourdotic, who was the cause of such a remarkable situa-tion on Saturday, will also get off. Today he twice called the attention of the index fo his case saving he could of the judge to his case, saying he could

wong attent to the harter of the second session of the court. It is understood that the juror is ex-empt from duty on his conscientious ecruples against capital punishment, unless disqualification of his statement makes him eligible. It is thought that judge Wood intends to look the matter ip thoroughly before court meets again. Tourtlotte should be excused there would be five more men to qualify, pro-vided the three remaining peremptories

There is one seat vacant noy on the state's peremptory challenge of Henry Curtis today, The circumstances leave the date of

the completion of the jury in doubt. It may be accomplished by Saturday night and clear the way for the actual action of the trial on Monday morning, and then again the jury may not be comthen again the jury may not be com-pleted until some time next week. During the examination of Harmon Cox today to fill the seat vacated by the last peremptory challenge Saturday,

there was a remarkable sparring match between Darrow and Borah. between Darrow and Borah. Darrow sought to get the juror 'D admit that he was prejudiced or other-wise disqualified, but failed. For an hour and a half he kept up a running fire of questions. Borah took exception to the methods pursued, and there was constant facators that diterested the to the methods pursued, and there was constant fencing that interested the crowd in the court room. Borah was smiling and composed, while Darrow was rather flustered and apparently anxious. It was plain he wished to get off without a peremptory challenge, and he often drove well over the lines in his questioning Borah intervening on

his questioning, Borah intervening on each such occasion. The juror was finally passed for cause. Before court adjourned, Mr. Richardson, for the defense, called atention to the fact that only one member of a labor union had so far been brought in by the sheriff. He said there were probaby 5000 persons in the country qualified for jury duty. Of these less than 60 were bankers, but there had been eight bankers on the but there had been eight bankers on the paner and only one member of a union, though there were 1200 union men in line in the last labor day parade. Richardson chought the sheriff had not summoned the jurors from the "body" of the country Judge Wood said he had entire confidence in sheriff Hodgin and was sat-isfied he would discharge his duty pro-

perly. Richardson disclaimed any intention of casting reflections upon the sheriff. When

ber to be called was under consideration Richardson said they had been unlucky with the even numbers and suggested that it be made uneven. The court said he was a little superstitious himself and would make the number 61.

HAS EARNED PROMOTION

SUPT. LAWRENCE'S TRANSFER TO NEW DIVISION

HAS WITNESSED GREAT CHANGES IN KOOTENAY

James S. Lawrence, who has just been appointed superintendent of a new C.P.R. division which has been created on the main line, with headquarters at Medicine Hat, extending from Swift Current to Calgary, on the main line, the Lethbridge section from Dunmore Junction to Macleod, and the Macleod branch from Macleod to Calgary, in all some 575 miles, came to British Colum-bla from Toronto in 1886 to take the position of train dispatcher at North Bend, and afterwards at Kamloops, and from the latter point was transferred to Nakusp as trainmaster of the Nakusp and Slocan railway. Later he was made trainmaster of the Boundary section at Smelter Junction, and when the bridge was built across the Columbia river and the sections in the Kootenay district consolidated, was appointed to the position of superintendent at Nelson. At the time Mr. Lawrence came to Nakusp the only railways in this dis-trict were those from Nakusp to Three Forks and Nelson to Robson, in all 63 miles, and there were required to handle the business at that time two train crews, one on each branch. At the present time there are 304 miles of main line track in this district, and it requires some 40 locomotives to handle the business; so that it may be stated that Mr. Lawrence has been connected with the development of the Rootenay

Istrict since its inception. Since the time he has been superin tendent, some three years, all the smelt-ers and mines in the district have more than doubled their output, and he now predicts that with the difficulty in the Crow's Nest Pass settled, the output from now on will be far in excess of while Mr. Lawrence regrets his departure from the district, with the development of which he has been associ ated for so long, he feels that he canno lecline promotion when offered, and will always have the most kindly feel ings for his many friends here and will take much pleasure in watching he progress of the district. Mr. Lawrence leaves for Medicine Ha prrow morning.

At the mining recorder's office on May 28, certificates of work were issued to W. J. Murphy on Buoabeck, to Henry Reichert wa'ta Walla and Victor: to John B

Baxter on Plata Verde, and to J. P. Swedberg on Palender. S. Pigeon recorded the location of the Eldorado on Wid Horse creek. An option was granted by John Waldbeser, R. Hunnex and E. W. Wilson to F. C. Farnham on the Emerald frac tion, Standard fraction, and Gold Standard near Erie; consideration \$15,000, payable \$1000 on May 25; \$7000 on June 25, and \$7000 on July 25. F. C. Farnham, later, for valuable consideration assigned the option to R. A. Hutchinson of Spokane.

SECTIONMEN ON STRIKE

G. N. R. Has Trouble With Italian Extra Gang at Waneta. Ymir, May 27.—Last Saturday the

Italian extra gang employed by the Great Northern went on strike. The railway company, it seems, ordered the conductor to cut off the en-gine and leave the men at Waneta un-til they could get over their indispo-sition to work. The men got wind of this and resisted the train crew, plac-ing obstructions on the track and threatening to shoot the engineer if he pulled out without their cars. The en gine and caboose came to Ymir and se cured the provincial constable stationed here, who took with him two deputies Messrs. Archibald and Harbottle. As soon as these men reached Waneta the Italians quieted down and the engine and caboose proceeded to Northport

Just a brief glance at the geological survey whose impor ant work, needs no ad-vert sement. Its reports dealing with the mineral resources and general conditions of the countries which were then un-known to man are resorted to by everyone in quest of information. Such men as sir Wm. Logan, Dr. Selwyn, Dr. G. M. Dawson, Dr. A. P. Low and Dr. Bell, not to men ion many other eminent scientists, are among the beacon lights of Canadian history. Their field of operation has been every province and territory in Canada. It was Dr. Barlow's report on the Cobalt which drew the public attention to the fact that riches untold were lying dormant there. It was Dr. Dawson, who lighted abe way for the explorer and prospector in northern British Co'umbta, while Richardson on Vancouver island; F etcher and Fairbault in Nova Scotia, and Brunel and Ells in Quebec, have done incalculable good in blazing the trail for the searchers for mineral we'd th and the investing capi-talists who followed. Dawson C'ty, the famed orpital of the Yukon, oxe: its name to one of the most eminant men whom Canada has p oduced, Dr. G. M.

The value of the operations of the geological survey is so thorough'y under stood that great things may be expected from i. Special efforts will be exerted by the minister of mines towards a progressive and organized campaign of go-logical exploration and development. To afford some idea of the comprehensive work planned this year a glance at the schedule of opera ions wil be worth while. This includes the following:

Investigation of the mineral areas of the outhern por on of the Yukon territory, acluding the copper d posits of Whitehorse and the rich silver deposits of Con-rad; the mapping and investigation of the coal areas along the Yukon river, between Whitehorse and Tantalus; an exploration of the upper waters of the Pelly and Stewart rivers, extending over two seasons, the return journey to be made over the nounts ins and by the Gravel or some other river flowing into the Mackenzie.

Examination of the goology and econo-mic minerals along the coast from the mouth of the Skeena river, B.C., northwards to the head of the Portland canal and thence along Bear creek. Deposits of copper, silver, gold and silver-galena are known in this section, but have not been

examined by the survey. Continua ion of the mopping and investigation of the coal and copper areas in the vicinity of the Bulkley valley, Skeena river, B.C.; continuation of the mapping and geological investigation of the Similkameen valley, B.C.; completion, in two or three weeks, of Rossland; or of the Lardeau camp; if possible, investigations

in the Slocan district. Continuation of the Big Horn coal field examination, Alberta, northward from the Brazaau river to the Yellowhead Pass; continuation of the mapping of the Cas-cade, Palliser and Costigan coal fields, in the Rocky mountains, between the Red

Deer and Clearwater rivers, Alberta Examination of the country lying to the north of the Canadian Northern rai way, and extending across Saskatenewan river to 54 degrees north latitude, the east and west boundaries being lines drawn throug Prince Albert and the Pass. Study of the surface geology of Saskatchewan with special regard to the clays for brick, cement and other buildin material Continuation of the study of the geology

along the route of the N.T. railway in the westen part of Ontario; continuation of the mapping and geology of the S mcoe

sheet." Continuation of the mapping and geo-logical investigation in the western portion of Pontiac county, east of lake Temis-caming, Quebec; continuition of the mopp-ing and methodical investigation of the ing and geological investigation of the belt along the N.T. rallway eastward from the crossing of the Bell river, Que,; map-ping and geological investigation of the be't along the N.T. railway from Li Tuque westward; completion of the Lake St. John geological sheet; study of the serpentines of the Eastern Townships, with sp c'a reference to the mode of occurrence in them of the valuable deposits of chrome iron ore, asbestos and copper. Continuation of the revision of the geo-

Continuation of the revision of the geo-logy of sou.hern New Brunswick; con-tinuation of the mapping and geology in the environments of the oily of St. John. Continuation of the mapping and geo-logical investigation in King's, Annapolis, Digby and Cumberland counties, N.S.; con-tinuation of the mapping and geology of tinuation of the mapping and geology of the god bearing rocks in Lunenburg and the god bearing rocks in Lunenburg and Queen's countles, N.S.; investigation of the granites and other irup'ive rocks with special reference to the occurrence of the and other valuable minerals. The following special work will be un-

dentaken: Investigation of the copper resources of

eastern Canada. Superin endence of the selection of the samples of coal at the mines, for the prac-tica: coal tests. Study of each mining center for information to accomp ny the

Study and collection of fossils in Nova

Study and collection of lossis in Note Scoth and New Brurswick to determine geological horizons. In the foregoing reference is made to certain coal tests. These were initiated during the winter by Hon. Mr. Temple-ment and here here conducted at McGill man and have been conducted at McGill university, which kindly paced its experimental plant at the disposal of the department for the purpose. The tests are for the purpose of ascertaining the prac-tical value of coal and up to the time of the investigation the only official know ledge of the chemical and physical com official knowposition of the several Canadian coals was confined to analyses of very small samp es made from time to time. The information gained through the tists will be of great gained through the tests will be of great value to all manufa turers in Canada us-ing steam power, while the mine owners will have a definite value placed upon their coal. To those producing lower grade coal the information will be par-ticularly useful, as it will show definitely the deficiency and the manner in which the quality may be raised to a higher grade.

ticularly useful, as it will show definitely the deficiency and the manner in which the quality may be raised to a higher grade. Exhaustive test will also result in illum-inating information being given on the great importance of producer gas as a means of utilizing low grade fuels, such as lignite, peat, etc. This method of pro-ducing horse power is of computatively recent use and its capabilities have not as ns lignice, peat, etc. This method of pro-ducing horse power is of comparatively recent use and its capublikies have not as yet been adequately realized by manufac-turers in those portions of the Canadian west at a considerable distance from bi-tuminous coal, but directly over extensive beds of lignic. Authorities state that a beds of ligni.e. Authorities state that a-gas of a higher quality can be obtained in the gas-producer plants from lignite than from high grade bitum nous coal. Unquestionably when the results of these tests are made known they will prove a boon not only to the manufacturers and mining people, but necessarily to the gen-eral public as well. The importance of the department which has just been provided for cannot be over-

has just been provided for cannot be over-estimated. Every farmer in the dominion of Canada has nothing but eulogies to pronounce upon the splendid department of agriculture which, under the able adminis-tration of Hon. Mr. Fisher, has been of incalculable benefit to the country. It is the intention of the first minister of mines, Hon, Mr. Templeman, to make his mines, Hon. Mr. Templeman, to make his new department equally serviceable. It is a task greatly to his liking for he comes from a provn e whose magnificent min-eral resources are a matter of world wide knowledge. His advocacy of a department of mines has been supported by the min-ing industry from the Atlantic to the Pa-cific, who have been unsinted in their expressions of appreciation at this strong evidence of the interest taken in Canada's nineral wealth by the theral administra

EQUITABLE OFFICER INDICTED New York, May 29.—Thomas Jordan, formerly comptroller of the Equitable Life Assurance society, today pleaded hot guilty to 18 indictments charging forgery in the third degree and one in-dictment charging perjury. Bail was fixed at \$10,000,000 on one count and Mr. Jordan was released, bail being fur-Mr. Jordan was released, bail nished by Eugene C. Potter. The indictments were returned yes-

terday by the grand jury, which had been investigating some of the trans-actions of the Equitable which were lisclosed by the recent insurance investigation.

W. A. Greig, the well known bocal cricketer, has accepted a business offer from Vancouver and will shortly leave for the coast. Mr. Greig has tendered his resig nation as a member of the city fire brigade and it will take effect on June 1.

Some arrangement should be made at nce which would guarantee good music and plenty of it during the summer season. In eastern cities it has long been the custom for city councils to make a band grant early in the year conditional upon the giving of a certain number of open air free concerts, the time and place being designated when the grant is made. Everyone will recall with pleasure the

APPROVES OF LEMIEUX ACT

Ottawa, May 28 .--- Wallace Nesbitt K.C., Toronto, who was a member of the conciliation board which has just successfully settled the labor dispute between the Grand Trunk Railway com-pany and their machinists, is in the

city, attending the supreme court. Asked as to his opinion of the Le-mieux Act, by which the Labor Disputes Act is now generally known, he spoke very favorably after having seen it in oursetion. "I think the act," said Mr. Nesbitt.

"cannot be too highly commended. It is, of course, an experiment, so fas as is, of course, an experiment, so the this continent is concerned — quite unique in its character. I know it is being watched with the very greatest interest by the prominent leaders of interest by the prominent leaders of labor organizations and the captains of industry in the United States. Had such an act been in force in the United States in the recent difference in Chicago, where some 45.000 men were un der difficulties, restrained from going out, and while, after much trouble, a dispute was avoided, such an act which legally required the parties to get to-gether before the severe measures of a strike or lockout was declared, would

be viewed as a great blessing." "What about the machinists' strike?" "In regard to the machinists, they felt that some of the rules which pre-vailed for a great many years were center for information to accomp ny the report on the tests.
Co lect on of specimens illus rating the forest wealth of Canada for the new Victorian museum.
Collection of mineral specimens for lith school collections and for the Victoria museum.
Special study of rare minerals in various localities.
Valied for a great many years were onerous. When the parties came to-gether there was a full and frank discussion from both points of view, the men pointing out how they operated hardly upon them, and the company showing in turn how an amendment of the rules such as suggested would disturb many other matters in the organization of the railways business which would create the greatest confusion would create the greatest confusion. The best evidence to my mind of the efficacy of the ac twas that, after the discussion, the men were apparently well satisfied with the explanations given, and I have no doubt whatever that many of the difficulties as to the rules relating to the employee disap-peared when it was seen what was in the employer's mind and what they were seeking to overcome in the man-agement of the business. Under such circumstances the men were willing to accept them even if they did think to begin with that they bore hardly upon them.'

them.' "Then, as to wages?" "In regard to wages, the men showed themselves most reasonable, after the various matters which affected the question were made plain to them. There is always the first thing to be admitted, and that is that a man is en-titled to a living wage, and that after this there is the reasonable considera-

give a higher wage." "So that your experience in this case has caused you to form a good impres-

sion of the act?" "I think that the act is a very great

step forward in the settlement of the vexed question of industrial disputes. If acted upon, in my judgment, it will in nearly every case stop either a strike or a lockout. It is a trite saying that there are two sides to a story, and the people are interested in knowing when people are interested in knowing when a quarrel springs up as to what the other side has to say. The act accom-plishes this by bringing the parties to-gether and an adjustment then becomes easy. Popular opinion will do the rest. Too much blame connot be put on the shoulders of an employer or employe who, without coming under the act, rushes into a strike or lockout, causing inconvenience and hardship to the comand the industrial interests of the country. "Would you suggest any amend-

"There is a question that is worth considering, and that is if the members of the board should be confined to Brit-ish subjects. In the case of the selecnents? tion of a third party, it might be de-sirable to go outside. A reason for this would be to get away from the local at-

would be to get away from the local at-mosphere. It is sometimes difficult to get three good men, thoroughly familiar with the subject under dispute, who age not in some way connected with the matter. But this is only a mere sug-gestion on my part." "Anything else you would suggest?" "Yee; if an employer brings about a lockout by saying that he simply found it necessary to shut down his shop for it necessary to shut down his shop for repairs, or the men saying they are simply taking a holiday, then the act should say in any dispute arising showing that the employer locks out and the men quit work it should be deemed un-der the act to be a strike or lockout. as the case may be. The onus should e cast upon the employer or employe show that it was not in fact under the circumstances rewy a lockout or

The opinion of Mr. Nesbitt, who not a position on the sup "> ue court ben "in of Canada for the sole reason of adding strength to the court of last resort in the dominion, is extremely valuable, and will be so regarded by all par-ties. That Mr. Nesbitt added dignity. lustre and legal acumen to the bench everyone agrees, but he cast aside the ermine as easily as he put it on for the very much more lucrative practice of his profession. The minister of labor, Hon. Rodolphe

Lemieux, is therefore to be congratu-lated in having the endorsement and Everyone will recall with peasure the Sunday afternoon band concerts here last year, but the band played all summer without getting a cent and a grant was made fate in the season. Good open air concerts are deservedly popular and might b earranged for this season on a business basis.

CAREFULLY SELECTED

Salvation Army's Scheme of Immigration Is Explained.

New Arrivals Kept Away From Conjested Centers and Placed on Land-Brigadier Howell Here.

(From Thursday's Daily) The services at the Salvation army barracks hast night were of a more than or dinarily interesting character owing tothe presence of brigadier T. Howell of Toronto, secretary of the Army's immigration and transportation department.

In the course of an interview given The Daily News after the meeting, Mr. Howell said: "We have been very successful so far this year with our immigration work. We have brought 10,000 persons to Canada this season and will bring 10,000 more before the winter sets in. It is just a question of securing steamship accou dation for them. The Army specially chartered six steamships, five of which have conveyed their passengers to Canada and the sixth will sai. on June 8. We could bring many more if we could find accommodation for them. During the rest of the season we will bring over the new rs in large parties. The larger proportion of the people have gone to On-tario but many have gone to the new forthwest provinces. British Columbia and the maritime provinces. "Let me say pointedly, that those

brought over by the army were very carefully selected in the first instance and have been carefully distributed in this country. We have kept them away from the congested centers in Canadian cities and have placed them on the land in the country places. Out of the 10,000 alread here 9800 paid their own way and the bal-ance only have received temporary loans to assist them in making a start. Wherever our work is understood clean

both in England and in this country, I think it is fully appreciated. I can asure your readers that our scheme is man aged very carefully in all its details. "At the meeting tonight I went very

fully into the attack made upon the Army's immigration plan by some social-ists at Victoria some little time ago. We received a request for 30 shipwrights from the Victoria Employers' association and we sent on he request to London. We were told that there was an urgent de nand for these men but not being quite satisfied with the situation in Victoria, we sent a special officer there to make further enquiries. Upon receiving his re-port we cabled London not to send the men, but the party had already salled. A special officer met the party at Halifax and explained the real situation at Victoria, took away their coupons for the west and, at the Army's expense, brought the whole party to Toronto, where work was found for them. Six were sent to Col-lingwood. The Employers 'association of Victoria, through the Toronto Employers association, kept asking for the men, but we declined to take part in sending hem on. After about a month or so som f the men were dissatisfied and wanted to go west, charging us with misrepresent tation. All were union men and we turn ed them over to the employers' associa ion to make any deal they saw fit, but keeping the Army department clear of the transaction. Through the employers' as-sociation ten of the men came west to Victoria. That is the who's slory of the Army's connection with the matter. Neither the Army nor the government were in any way responsible for the mens' arrival in Victoria. They went there on

their own responsibility." After again laying stress on the fact that the army only handled carefully selected persons and kept them away from congested centers upon their arrival in Canada, brigadier Howelt went on to say that he would spend today in the city and would be very glad to meet anyone desir ous of learning about the army's immigration methods, past, present and future He hopes to send along some of the imthe Kootenays if places can

migrants to the Kootenays if places can be found for them. Speaking of farm hands the brigadier said that the question of finding continu-ous employment for such men the year round, was well understood in the S.A. immigration department and the problem was being successful'y grappled with a ong with others of a like character. Mr. Howell is no stranger in Nelson and very thoroughly understands the labor situation here and in the west generally, but he will be glad to get pointers from any urce today or to give informa tion as to the Army's plans, etc., to all comers. He leaves this evening for Van over and will meet general Booth when he arrives at Seattle from Japan on June and will accompany the g-nersi on his east over the C.P.R., en route to

Manager A. B. Cooper of the Second Re lief mine, at Erie, stated yesterday that the difficulty encountered with water in the mine had been overcome and that work mine and mill would be recom menced on Saturday next, June 1.

The office of the 20,000 club is bring re moved on the lst of June to the city hal' The old office is now occupied by rocter and the mayor has placed a roon at the disposal of the club till such time as the new building shal; be completed.

The warm spell continues and even the nights remain fairly warm. Yest rday the n aximum temperature was 81, the same it was on Monday, the record this sea sday the highest poin was so. As a result of the high temperature the water in the lake is rising very rapid y and unusually high water is now fairly certain.

IN BOUNDRY AT BOISE cialist, Disguised and

Heavily Armed. of Plots to Kill Orchard, the Governor

and the State's A torney .

EXCITEMENT

(Special to The Daily News) Boise, Idaho, May 29 .- By the arrest here yesterday of a man named C. H. Duncan, a member of Spokane local lodge, Industrial Workers of the lodge, Industrial Workers of the World, and an ardent socialist of the anarchist type, the police believe they anarchist type, the police believe they have made an important arrest, and de-velopments of a highly sensational character are expected in a few days. When arrested Duncan was wearing a false heard, moustache and eyebrows. In his possession were found a 32-cal-ibre Colt's automatic pistol, an eight-inch dirk knife, sharp as a razor, a pair of brass knuckles and a bunch of skel-eton keys. Duncan would not talk eton keys. Duncan would not talk much. He said he came here to hear the trial now in progress and hoped to obtain work. The first impression he gave the officers was that of a man ot over-intelligent who had fallen un der the sway of socialism and who thought he had a mission to fulfil in this world of evils. This was dispelled then it was discovered that the man is a graduate of Ann Arbor and is pos-sessed of a great deal more than ordinary ability. The prisoner is being held on a charge of carrying concealed

measons, pending further inquiry. The police have sent many wires of inquiry but decline to give out any inormation they have acquired. Social sts here declare the man was a strong candidate for the secretary-treasurship of the I. W. W. at the last national convention and denounce Duncan in unneasured terms.

Wade R. Parks, a correspondent for eastern socialist papers, went to the police and asked that if he, Duncan, be eleased that he be held under bonds

released that he be herd under bonds to keep the peace, as Parks feared that Duncan would kill him. Duncan was sweated by the police today, but he would not talk much and was very careful in his answers, and was very careful in his analytic the examination was practically fruit-less. Many wild rumors were afloat regarding Duncan. One was that the police had discovered a plot to kill Harry Orchard while on the way from the penitentiary to the court house, in which Duncan was implicated. Others were that he was here to blow up the Statesman office, to kill the governor, Hawley and Borah. None of these have any foundation. It is said this evening that the police received an anonymous letter demanding that Dun-can be released at once or serious trou-ble would follow. They would neither lony nor confirm the report.

FERNIE CANADIAN CLUB

ITS ESTABLISHMENT RECEIVING FAVORABLE ATTENTION

LOCAL ITALIAN BAND WORTHY OF SUPPORT

Fernie, May 27 .- The officers, not commissioned officers and men of the Kootenay Rifles are giving a smoking oncert tomorrow (Tuesday) evening, May 28th, and it is unnecessary to say that the affair will be an unqualified

success, judging from past entertain-ments given by this popular corps. There is some talk of establishing Canadian club in town, and it is to be noped the project will meet with unqualified success. While there are now several lodges of the different orders, with a gratifying membership, there is not yet an organization of the above nature. The formation of such a club would undoubtedly be of advantage to the town and would attract a large ership from its inception. nembership from its inception. There is one case of smallpox in the

isolation hospital here, which is situat-ed some distance from the town. The patient arrived here from a neighbor ing town, and the nature of the diseas being quickly diagnosed he was im-mediately removed to the pest house. Owing to the prompt action of the health officer there is no danger of the spread of the disease. The Italian band, under the able con-

ductorship of professor Pasta, gave an open air concert on the 24th, when they played a varied selection of classical and popular airs in a most efficien manner, This excellent organization which numbers 30 members, is kept up by the local Italian colony and is redit to the town and should receive the hearty support of all lovers of nusic. The town, however, contribut othing to its maintenance, a state of affairs which should soon be remedied

MeDONNELL TO STAY ON London, May 30-The differences between government and sir Anthony McDonnell, which threatened to end in the retireme of the latter from the post of under secretary to the lord lieutenant of Ireland were apparently, at least temporarily, soothed over at yesterday's cabinet meeting.

Yesterday Toye and Company put through a sale of 2800 acres of fruit lands on the upper and lower Arro v lakes, the purchasers being Grant and Simmers, the well known Winnipeg real estate deafers. The purchasers, will cut up the property into ten acre lots for immediate sale.

Police Arrest Spokane So- Granby Smelter Blows in Four Furnaces---Ample Supply of Coke.

BACK TO WORK

Arrest Gives Rise to All Kinds of Rumors New Wage Scale Concedes Principal Demands of Men and Anticipaty d it Will Be Accepted by the Up ions.

> (Special to The Daily News) Grand Forks. May 29-The delay in starting up the Boundary mines and smelters, first from coke shortage and then from labor difficulties has been terminated and smoke is again curling from the Granby stacks. On Saturday a new scale of wages was arranged and submitted to a com nittee of the various unions. The scale was voted on by the Phoenix union on Monday, by Greenwood yesterday and to-night the union here will vote and the esult will be given out officially by the mions. The new scale will very largely oncede the men's requests. All underground men at the mines with get a fifty cent raise. Surface men will get 10 per cent increase on present pay. A smelter day laborer will be raised to \$3, the nine hour day being retained. In other departments the raise will vary

> from 25 to 50 cents. The fact that many of the men have commenced work indicates the probability of the scale being accepted by the meet-ing tonight. About 160 men are now workng at the mines. Yesterday two furnaces were starter here

and two more today. There is an ample supply of coke on hand and directly a suficient force of men return to the mine he rest of the furnaces will be blown in. The immediate outlook is favorable for steady and large out put from all the oundary plants

TO ASSIST THE SLOCAN

BOARD OF TRADE APPOINT DELE-

GATION ASKED FOR N R PROPOSED TRAIN SERVICE

DISCUSSED

(From Tuesday's Daily) There was a fairly well attended special neeting of the board of trade in the ourt house last night. President Starkey was in the chair. Mr. Ebbutt acted as secretary and two matters were disposed of, the tri-weekly service on Slocan lake, and he proposed midnight schedule of the Great Northern. R. J. McPhee made a strong prote against the imposition of the tri-weekly service upon the residents along Slocan ake. In reply to questions Mr. McPhase said the steamer passed up and down th lake every day with barges; the boat only cals every other day at way points, and h such cases always brought barges with her. The new time table worked a great hardship on all the residents and should be changed back to the old daily service

of the case whilst going through the dis-

new schedule. He brought out the fact that the C.P.R. received a bonus from the government for running the Rosebery- Nasusp line. Mr. Dyer, seconded by T. G. Procter,

or here on Wednesday evening fro the Slocan take district to take up the question of the tri-weekly service. The notion carried unanimously and the pres dent nominated H. Byers, W. W. I. G. Nelson and L. B DeVeber as the com mittee; the president will be an ex-offic nember of the committee. The following letter was read from Les

I would upge that the question of the

should be taken up by the board. This railway is absolutely regard ess of the convenience of its passengers. The accommodation at the Mountair station s disgraceful. There is no proper place o wait for the train and on arrival at night passengers have to climb down into the snow or mud without a platform of any kind.

business is done and a considerable ton agents. This causes great inconvenienc in shipping and in ordering cars. The train is usually late, sometimes several hours late; there is no accommodation for passengers waiting for the train and no means of knowing when the train may be

There is a heavy local travel between Nelson and Ymir, Salmo, Erie and other points. By this proposed new service this local travel will be made almost impossib'e. The mines, etc., in the Ymir district do a considerable business in Nelson. If this new schedule goes into effect it will be almost impossible to do this business in Nelson. The miners and others come to Nelson to purchase supples. How are they to do this under the new schedule? To give an example-A man going to Erie will have to leave Nelson at mid-night, or the Mountain sation about 12:45. He will arrive at Erie about 2 a.m. Leav-ing Erie he will have to be at the station be almost impossible to do this business in

about 2 a.m., and wait there until the trains happens along. Those like myself, who are obliged to make this journey, will have to put up with this, but do you thick that the miners and others will come into Nelson to do their business under these conditions?

conditions? It seems to me that the proposed sche-dule will cause a much greater hardship than the tri-weekly service on Slocan kill than the tri-weekly service on Sidean Alke and will very seriously affect the business of Nelson, which the other will not do. Yours tru'y, LESLIE HILL. Nelson, May 25, 1907.-On motion, the meeting promptly agreed to take up the matter at once. The secretary of the 20,000 club read the

The secretary of the 20,000 dub real the following letter received from superinten-dent R. C. Morgan: "To my personal knowledge, for years the people of Nelson, at least such of them as travel, have wanted night service. The new service will permit a man to wke the steeper at Nelson at any convenient time before midnight and reach Spokane at 9:4 the following morning. He can transa his business and return to Nelson the new night, losing but one day; whereas, a trip from Nelson to Spokane and return prac tically takes up three business days. this is not an advantage to the people of Nelson who are in the habit of travelling we have been grievously misinformed the subject. I presume we ought to ac-commodate the people who actually want to use the service rather than those who stay at home and criticize the action

the railroads, Arrangements have already been made for putting on a coach on the freight ru which under the new card will be a mixe run to take care of the local travel be tween Nelson and Ymir, Salmo, and Erie. "Mr Prooter thought the local serv would be kept up. People coming north night. Mr. Beer agreed that the local servic

should be protected. Mayor Gillett said the boat service on the lake would be changed. The boat wou'd connect with the midnight service and would leave here at 5 a.m. and returning

would reach here at 8 p.m. Mr. Hammond thought that the busine interests of the city would suffer by the new proposed time schedule. It might be ent for a few tourists but would be had from a husiness standpoint. Mr. Procter thought that hundreds ourists would come up to the lakes

here was a night service. Mr. Tay or thought a night service would e a beneft. Mr. Douglas said instructions had no beer received as to the new schedu'e. It would not go into force on June 2 as an-

iced. Mr. Beer protested that unless a day service to Northport was certain he won oppose any change from the present tin able. For the few stragglers who might come here from Spokane the night service might answer, but it wou'd kill local busi-

Mr. Douglas said that if business improv ed a daily accommodation might be added Mr. Starkey - If the Great Northern rould give better accommodation it would

get more bus ness. Mr. Annable said that if the Great North ern would put in a telephone service be-tween here and Northport, one at least of Mr. HiN's objections could be got over. The following resolution was submitted: "That the benefit accruing to trave lers between Nelson and Spokane is best served by the proposed change of passenger service, but that the inconvenience thus caused to all persons living at and doing ousiness with all points between Nels and Waneta cannot be overlooked; and this board is disposed to favorably accept the proposed change of service provided that a schedule daily accommodation pas senger and freight service between Nelson and Northport is also furnished, and that such points as Salmo, Erie and others, a not provided with rai way agents present not provided with rai way agent be given telephone communication with th nearest point having a r i way depot ageni This board also strongly urges that all stopping points along the railway be pro-vided with suitable passenger shelter." The president brought up the question of the misrepresentation regarding fruit lands for sale at present being made in the

east. He gave a specific instance. Such misrepresentation injured the real fruit lands of the Kootenays. Mr. Hammond gave some further details of misrepresentations being actively circulated in the east to the injury of bona

The matter will be taken up meeting of the board. The resolution regarding the Great Northern's proposed midnight service was

then carried and the meeting adjourned. FLOORING COLLAPSES

Wilkesbarre, Pa., May 30.-At the laying of a corner stone of St. Mary's Greek Catholic church today, a temorary flooring collaps porary flooring collapsed, precipitating about 60 persons into the cellar, 12

feet below. The screams of those in the wreck age and the groans from the injured could be heard for a block away. Ladders were obtained from neighboring factories, and with the aid of the police the injured were rem lice the injured were removed from their perilous position. Some were able to walk to their homes and others were removed to hospitals in ambu-lances. The accident, it is said, was due to insufficient bracing beneath the new flooring. Bishop Haban, of Scran-ton, who went down with the wreckage, was at first reported to be seriously hurt. He was soon rescued by friends and removed to a place of safety. He was badly shaken up, but escaped injury.

A case was reported to the police yes terday which demonstrated that the "fool killer's"' season has commenced. About 6 o'clock the evening previous, while there were several small boats on the water, an exceedingly foolish possessor of a rifle, who lives across the lake, commenced practicing at a mark, quite indifferent as to where the bullets might go. One en raged canoeist , who got in line with the rifleman's mark, was nearly shot down G.P.R. CAN AFFORD TO DO JUSTICE TO SLOCAN

IN TEN MONTHS EARNED OVER \$20,000,000 PROFITS Montreal, May 29. - The C.P.R.'s gross earnings for April were \$6,491,561.

57,966,173. Gross earnings, 1933, \$93,064,527; 1904, \$100,219,436; 1905, \$106,467,199; 1906, \$125,-322,865. Since 1903 there has been added 2365 miles

have been reached.

the operating mileage of Canadian ads and the gross receipts in the same period have grown from \$96,064,527 to \$125,-302.805. an increase of \$19.258.388. During 1906 the railroads carried 10,593,296 tons more freight than they did in 1903 and the capacity of the roads today is far less than the freight demands. Nothing could indicate the ever increas ing prosperity of the country bet.er than the carrying capacity of the great trans-portation lines being taxed beyond their powers. Even at this very hour there is demand for better methods of moving the commerce of the country from the in-terior to the seaboard; all of which goes to prove that Canada has not yet reached summit of the great wave of prosperity which arrived coincident with the assumption of office by the liberal government The returns of April show that Canada's total trade for the month has increased \$1.123.771 over the same month last year. The figures are \$37,779,170. The imports over the same month last year increased \$4,638.226 showing the greater purchasing ected during the month of Ap il was

\$4,330,018, an incre se for the men h over the same period of last year of \$179 153. Great progress is being made with the construction of the Lational transcontinental line. Round house and shops are now under way at Postage is Prairie. About 300 men are employ d in excavating, grading and muing material for the work An emergency repair shop of large ensions, built of brick and stone be completed this summer. Grading has been done westerly from ortage la Prairie for a distance of 18 iles. Track has already been la'd in

the city. Three Grand Trunk Pacific en-gines are engaged in the active business of hauling miterial to the front. The contractors expect to start work short y or section between Portage and Win peg. It is confidentally expected that be fore the snow falls again grading will be

puppleted between these two points

OF CANADA

Growth of Postoffice and Railway Business.

Carrying Capacity of Great Transportation Lines Taxed Beyond Their Powers-Frogress of Transcontinental.

(Special to The Daily News.)

Ottawa, May 30-That Canada is grow ing in commercial directions can be con-clusively shown by figures. Two of the great departments of the government, viz., the postoffice and the railway departments, reflect the condition of things very accurately. The necessity of estab-ishing new postoffices, the fact that cor-respondence is on the increase, the addiional evidence that the revenues of the postoffice are ever on the increase, all ead to the same conclusion.

The demand for new railroad lines, the act that traffic more than keeps pace with the additional accommodation provided, and that year by year more pas sengers travel and more freight is handled supply the justification for saying that Canada's commercial growth is astound-ing. While there is proportionate inorease in all departments, the two selected are more nearly in touch with the life of the people than any other, and are nerefore selected as examples of the exanding character of Canadian econ

iffairs. There were 10,460 postoffices in 1903; 1904, 10,460; 1905, 10,879; 1906, 11,141, Money rders issued in 1903, \$26,868,202; 1904, \$29,-52,811; 1905, \$32,849,475; 1906, \$37,255,673. Post cards sent, 1903, 26,646,000; 1904, 27,178,000 1905, 29,941,000; 1906, 33,674,000. Le.ters sent 1903, 235,791,000; 1904, 259,190,000; 1905, 285,541, 000; 1906, 323,644,000. Total revenue, 1903 55,683,162; 1904; \$6,306,420; 1905; \$6,786,089; 1906; \$7,708,142. Total expenditure, 1918; \$5,390,508; 1904; \$6,001,636; 1905; \$6,295,245; 1906; \$6,696,377; These figures show the steady growth of this branch of the public service since 1903. Since that date the postoff.ces have increased 991. Money orders have increas ed \$4\$7,471. Post cards increased 7,028,000, Letters have increased 87,853,000, Revenue has increased \$2,024,980. This increase has been continuous and consistent until the very satisfactory figures quoted above

In 1903 there were 18,988 miles of steam In 1903 there were 15,885 miles of steam railroad in operation; 1904, 19,431; 1905, 20,-457; 1906, 21,333. Passengers carried, 1903, 22,148,142; 1904, 23,644,785; 1905, 25,288,723; 1906, 27,389,782. Freight carried, 1903, 47,373,417 tone; 1904, 48,097,519; 1905, 53,883,957; 1906,

EARNING BIG PROFITS

with working expenses of \$4,024,635, leaving net profits of \$2,366,026. In April, 1966, the net profits were \$2,342,559. For the ten months ended

pril, 1907.

MONEY FOR **EXPANSION**

Fernie with a Million and a Quarter to Spend.

Output to Be Largely Increased and Big Addition to Pay Roll Will Follow-Five Hundred Skilled Miners Wanted.

Winnipeg, May 30 .- G. G. S. Lindsey, of Toronto, managing director and general manager of the Crow's Next Pass Coal company, went west today to the mines at Fernie. "I am on the way back to the mines with the object of carrying out the wishes of the directors of the mine in expanding and developing the property of the com-pany," he said. "My directors in Toronto have just given me an additional million and a quarter for the purpose of doing this work, and the develop-ment will be begun as soon as the necessary arrangements can be made." "Then you will need a larger number of men, if the product of the mine 's to be greatly increased," suggested the eporter. "We will need about 500 additional ien. I secured recently from this city about 60 men for work, outside work

What we now require is a large of trained miners."

SANDON HAS GRIEVANC NO MAIL FROM EAST OR COAST SINCE MAY 24

DELEGATION TO ATTEND CONFER. ENCE WITH C.P.R. OFFICIALS

(Special to The Daily News) don, May 29.-The largest meeting ield for years of mine owners, miners and business men was held at the city hall Monday night to protest against the mail service which Sandon is at present receiving. No mail has been received here from the coast or the east since Friday, the 24th. No Nelson paper has arrived here since the same date. A very strong feeling exists against the Canadian Pacific railway for the action they have taken in cutting down the train service to three trains a week at this season of the

o. V. White, S. J. Towgood and L. Pratt were appointed delegates by the meeting and leave today for Nelson to attend the meeting which will take up the matter with the railway officials.

LAND. NOTICE

EMMERSON TESTIFIES

Clearly Indicated by the Lindsey . Returning to Opening of Criminal Libel Suit Against the Gleaner at Fredericton.

Ex-Minister of Railways Tells of Incident at St. Lawrence Hall, Montreal, Upon Which Alleged Libel Was Based.

(Special to The Daily News) (Special to The Daily News) Ottawa, May 30.—Emmerson gave evidence in his own case at Frederic-ton today. He told about taking a trip from Montreal to Ottawa in 1906. He said he went to the St. Lawrence hall at 7:30 in the evening to look for Peters, a friend. Glancing over the register, he noticed the name of the wife of a constituent and her friend. He went to their room, and not hav-ing had supper, invited them out to a restaurant with him. They had their supper together at the Oxford restau-rant, and he afterwards returned to the hotel with them. Their room was in the front of the hotel. His was in the extreme rear. After bidding them good by he returned to his room and good bye he returned to his room and smoked a short time and then went to bed. He did not know how long he had been asleep before he heard a knock on the door, and, opening it, found the ladies there. He first dressed himself, and then admitted them. one was very much agitated, and stated that they had been insulted by a por-ter, and were bound to leave the hotel. He tried to quiet her, but did not meet with much success. Her lady friend, whom he had known since girlhood, was not anxious to leave at that hour. He inquired into the trouble and learned from the porters that there was no occasion for the ladies to leave. The porters partly apologized for the conduct of the other porter. He drove the ladies to another hotel, as they would not remain. Next morning he went to Ottawa with Lemieux and attended a cabinet meeting in the after noon.

Emmerson said one of the ladies was a friend he had known since childhood She was a woman of irreproachabl character and moved in good society. The other lady he had casually at Moncton with her friend. He had no idea that the libel referred to these women hains of ill no idea that the libel referred to these women being of ill-repute. He was never ejected from a hotel in Mon-treal in his life. Mrs. Allen, of Mon-ton, whose father was a friend of the family, and Mrs. Bethune, of Levis, were the two women who were regis-tered at the St. Lawrence and whom he removed to the Albion hotel. Mrs. Allen's husband was a friend of his.

A collection is now being made towards the working expenses of the 20,000 club, so far with gratifying results. A meeting of the advertising committee was held last evening and a program was considered that, if carried out, must result in con-siderable benefit to the city and district. Whether the program can be adhered to depends entirely upon the response of the public to the appeal for funds.
