

# LIBERALS OF NORTH MIDDLESEX FOR THE LARGER MARKETS

By Renominating Mr. Alex. Smith at Ailsa Craig Convention  
Liberals of Riding Select Strong Standard-Bearer in  
Fight for Reciprocity.

[By Our Own Man.]  
Ailsa Craig, Aug. 16.—At a large and rousing meeting of the North Middlesex Liberals in the town hall today, Mr. A. W. Smith, the late M. P. for the riding, was unanimously renominated as Liberal standard-bearer. Some three hundred electors were present, and the meeting was presided over by Mr. James Healy, of Strathroy. The gallery was crowded with ladies. Mr. Smith was splendidly received. His nomination by Mr. Thomas Turbull, of Komoka, was seconded by Mr. W. J. Mitchell, of Parkhill.

Mr. Smith thanked for his renomination and his election three years ago. Mr. Smith declared that this election would be a straight test of Liberal principles against the reactionists. "Britain was the first to remove her duties," said the speaker, "and while we are differently situated, the day may come when we will see it also to adopt free trade. But we cannot go as far in free trade as Great Britain in this country at present."

Referring to the campaign, Mr. Smith said he hoped that the present meeting would be an indication of future meetings, and he looked forward to a successful contest.

**Favors Reciprocity.**  
Mr. Angus McLean, of Parkhill, said he had not intended to make a speech, but he would not be true to himself or true to his party if he did not speak a word in favor of reciprocity. Two parties in this country were debating the reciprocity question, the one class composed chiefly of the manufacturers, opposing the agreement, and on the other hand the farmers, who are in sympathy with reciprocity. Reciprocity could not fall to benefit the farmers, in that it would give them two markets instead of one. If the Liverpool prices of wheat were not so high as the American, the Canadian farmer would no longer be debared by a prohibitive tariff from the higher prices of the Buffalo market.

**The Barley Market.**  
There was no danger of American barley invading Canada. The American farmer is no fool, and he would not seek a market in Canada at 60 cents per bushel when he could secure 80 cents at home.

Referring to the Liberal party, he said Canada never had a fairer politician than Sir Wilfrid Laurier.

The Liberal party, he said, should be a true British subject, but he himself had tried in vain to work up a British trade in Canada. It was impossible to interest the British dealers into doing the amount of trade in Canadian stock which the Canadian farmer desired.

There was a million dollars a year lost to men like himself in Canada through trying to work up the British trade in Canadian stock. Great American cities were right at our doors, and with free trade Canadian farmers could go to the United States and other large cities, and see their cattle sold at good prices.

**An Imperative Necessity.**  
The American market for poultry and dairy produce was an imperative necessity for the Canadian farmer. "We are better farmers than the Americans," said Mr. Smith, "our wheat and barley are of a better quality; they only are ahead of us in the production of corn. We need not fear their competition in the United States. Reciprocity would revive the beef industry, for which there is no market in England."

Sir Wilfrid Laurier, the leader of the Liberal party, was an example to all Canadians as a man of principles and character, whose efforts have long been devoted to the uplifting of his fellow-men.

**Cheers for Mr. King.**  
Hon. Mackenzie King was received with great enthusiasm. He expressed pleasure at attending so large a meeting in sympathy with reciprocity in the north riding of Middlesex, and also of being able to speak in support of his friend, Mr. Alex. W. Smith, than whom no other member in Parliament was more highly respected and steadfast to principles. It was very imperative that men like Mr. Smith should be returned to Parliament.

**Borden's Methods.**  
He regretted that owing to the regulations and rules of the House that the Opposition was being treated in a questionable and questionable method, had succeeded in holding up legislation. Hundreds of thousands of dollars of the people's money had been wasted in useless and irrelevant discussions, by means of which the Conservatives, following a policy of obstruction, had succeeded in holding up legislation. New House rulings would probably be adopted for the future if the Government was returned to office.

Many Markets Needed.  
It was to the interest of this country to secure as many markets as possible for the products of this country, and now that the Americans were at length willing to adopt reciprocity, had not the Liberal Government received their proposal favorably, the Conservative party, which had supported Sir John A. Macdonald in his efforts to secure reciprocity, would have risen en masse against the turning down of the trade pact, with the result that the Laurier Government would have been swept from office.

Apart from the advantages which would directly accrue to Western Ontario from reciprocity, the Alberta farmers absolutely had to have a market abroad for their cat and sheep. These they would in time be sent to Ontario, and so congest and lower the prices of the Ontario market, that the Ontario stockmen who would be crowded out by western beef.

The value of higher prices in the United States for hay, stock and other farm products was largely discounted by the duty which must be paid into the pockets of a third party, the United States treasury, and which is met entirely by the Canadian producer. While hay is urgently needed in New York, Canadian hay is largely debared by a duty of \$4 per ton. Canadian

farm products being of a higher quality, the Canadian farmer would derive the greater advantages of reciprocity.

Referring to manufactured products, Mr. King said that nothing that the Government has done in years will so benefit the manufacturers as reciprocity. The farmers were not great consumers in Canada of manufactured goods, and with their prosperity increased, they would become better and larger consumers. The great market for the manufactured goods of Ontario lies in the farming territory of the Canadian North-West.

**Annexation Bugaboo.**  
It was absolute nonsense to say that reciprocity would lead to annexation, merely because the Canadian farmer was enlarging his market. Canada would be a better country, more loyal and patriotic and prosperous, when the condition of her farmers was improved and their trade enlarged.

The question to be decided was whether the Canadian farmer should be allowed to secure one more market. Today there was only the home market and the British market, but in the latter they have to compete with all the countries of the world, besides paying the immense cost of transportation. If it is a good thing to enjoy the freedom of the British market across the ocean, where Canada had to compete against the nations of the world, would it not be a better thing to secure another market just across the street, as it were, where we will be admitted on equal terms with the producers of that country, and moreover, a market in which we will not be overpowered by the competition of the world?

If Canada refused reciprocity the United States would in all probability seek it with Argentina, Denmark or some other country. In that case the Canadian farmer still would be obliged to pay a prohibitive tariff, would be unable to compete in the American market with these countries. Reciprocity means a preference in the American market for Canadian farm produce. To the Quebec farmer it would be an incalculable boon, since they, which now sell at from \$10 to \$15 per ton in Canadian markets, would bring from \$15 to \$22 in the American market.

In the same way the Maritime provinces would secure correspondingly higher prices for their fish which their own markets are now over-filled. The reciprocity agreement, by knocking out some of the finished products, would lower the selling price of many food necessities. Hence the cry from the pork packers and others. However, the tariff has been calculated to keep down the price to the producer and raise it to the consumer. The man who would lose by reciprocity is the one who is not getting in between the producer and the consumer. Salt pork was higher in Montreal than in Chicago, although the price of live hogs was over in the Canadian city. Wholesale prices of canned fruits were higher in Canada, although the retail prices were lower in this country than in the United States. Men have found out that the easiest way to make money is to get a monopoly of the goods they need. Hence in Canada the monopolies were seeking to corner the food supplies of the people.

Mr. King here read extracts from the prospectus of the National Land and Fruit Packing Company, of which Hon. George E. Foster was a director. The company has secured control of the apple orchards bordering on the Great Lakes.

In reply to a question why the entire duty was not removed on poultry, Mr. King said that the American duties were so much higher than the Canadian duties that the Americans were not willing to import the duty at all. The Canadians were refusing to make their duty any lower than the American; hence the Americans had greatly reduced their tariff in many cases, the Canadians only slightly. This, said Mr. King, was one of the strong features of the agreement from the Canadian standpoint.

Had the agreement come into force a year ago, the Canadian consumer would have saved the value of two and three million dollars, according to an estimate by the clerks of the customs department.

**No Fear of Disloyalty.**  
"We have no fear of disloyalty arising through increasing the enjoyment and advantages of the Canadian people," said Mr. King in conclusion. "The freedom of trade enjoyed by the people of England was also due to the people of Canada. The British flag stands for liberty and freedom, and the early reformers of England should not be allowed to dictate the trade policy of this country."

Following Mr. King's address, with cheers for Sir Wilfrid Laurier, the Liberal nominee for North Middlesex and the Laurier Government.

**The Resolutions.**  
During the meeting the following resolution was unanimously carried by the electors present:

"We, the Liberals of North Middlesex, in convention assembled, and representative of the farmers of this rural constituency, would go on record as decided in favor of the larger markets that Sir Wilfrid Laurier and his Government have brought us in sight of. As practical men, we know the immense benefit that will accrue to the producers of Western Ontario especially, of this great bond during the present year. We earnestly petition upon the loyalty of Canadians made by the Conservative party; we deplore the unnatural alliance of the repulsive elements of the Conservative party and the anti-imperialist Nationalists, which the Conservative leader has not the courage to either admit or retract. We are confident that the triumph of the Liberal party in Canada, and with it the triumph of the Canadian people."

**Try Cuticura Soap and Ointment Free**  
Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, they are sent free of charge to those who write for them to the Cuticura Soap and Ointment Co., P. O. Box 103, St. Louis, Mo., U. S. A. Write for your free trial.

# GODERICH MAYOR FOR WEST HURON

Mr. Cameron Selected by Large Delegation of Liberals.

TWO WERE NOMINATED

Convention in Numbers and Enthusiasm One of Best Ever Held.

[By Our Own Reporter.]  
Goderich, Aug. 16.—One of the most largely-attended and most enthusiastic conventions ever held in West Huron, Mr. M. G. Cameron, mayor of Goderich, was nominated as Liberal candidate for the House of Commons this afternoon. There was a full attendance of delegates from every subdivision in the riding, and in addition, large crowds of electors from all parts of the constituency came in, and Temperance Hall, where the convention was held, was thronged to the doors.

**Two Nominations.**  
Two candidates were nominated, Mayor Cameron and Mr. Thomas McMillan of Huron. Cameron received the nomination. The best of feeling prevailed throughout, and was particularly noticeable in the riding, and in addition, large crowds of electors from all parts of the constituency came in, and Temperance Hall, where the convention was held, was thronged to the doors.

**Strong Candidates.**  
Mr. W. Stuart, who nominated Mayor Cameron, spoke next. He said that West Huron was fortunate in having two such splendid candidates to select from. It was their duty to choose the strongest man, and support him all the way through. West Huron was an agricultural district, and should have a representative who would look after its interests. He asked the delegates to support Mr. Cameron.

**Mr. Cameron's Address.**  
It was, he said, gratifying to see the electors taking such an interest in the question of the day. It was the greatest question in the history of Canada, a question not only for the farmer, but for the manufacturer and everyone else. In his opinion, reciprocity was the only way to save the country from the other. Liberals were not on the defensive in this matter, but on the offensive.

Mr. Cameron said Liberals should make every effort to win West Huron back. He referred to his experience in the riding for two years, and said that it would be a pleasure to him to represent a riding that had given him so much support. He referred to the splendid majority they had given him in 1915, and assured everyone that if he were not chosen he would only be sorry to have the support of the electors go to his opponent. He referred to the splendid majority they had given him in 1915, and assured everyone that if he were not chosen he would only be sorry to have the support of the electors go to his opponent.

All that the Conservatives had been able to do was to talk the Liberals into a "no" vote. "Any objections to reciprocity," said Mayor Cameron, "are futile. It is the trade question of the day. It has been put before the people. It will hit the money sharks and those who have been robbing the people right and left. Nature is working strongly against it, but the people will gain if it carries. Sir John A. Macdonald and Sir Charles Tupper are not reactionaries yet. They went to the people in 1891 with a proposition identical to that which the Liberals now present."

**Mr. Cameron's Address.**  
Napier, Aug. 16.—Mr. Duncan C. Ross, late member for West Middlesex, commenced his campaign in this village tonight. The severe storms of the afternoon and evening kept down the attendance, and there was not a very large crowd present.

It was expected that Hon. W. L. Mackenzie King, minister of labor, would be present and deliver a speech, but he could not make the trip from Ailsa Craig, owing to the bad roads, and had to telephone his regrets. This in itself was a keen disappointment, as the Liberals counted on receiving much inspiration from him.

**Pact and West Middlesex.**  
Mr. Ross was present, and spent part of the evening in discussing reciprocity personally with those present. He pointed out its advantages to the electors, who were not slow to realize how much good the pact would accomplish for West Middlesex. There is a strong feeling in favor of the agreement in this riding, and there is every indication that Mr. Ross will be elected by a largely-increased majority.

In spite of the comparatively small crowd, Mr. Ross could not get out of making a speech. He spoke for fifteen minutes, briefly outlining the salient features of the issue.

**History Favors It.**  
History was altogether in favor of the position taken by Sir Wilfrid Laurier and the Government on this question. Ever since Canada was united into one federation, it had been the aim of every statesman on both sides of Parliament to arrange a reciprocal agreement touching natural products. One was arranged, but it lasted only a few years, and was abrogated in 1866. During this time, the country prospered at a marvellous rate. It was abrogated for the purpose of clubbing Canada into annexation with the United States. It failed of its purpose, but all the leaders of public opinion since that time had made every effort to have the agreement restored.

**Mr. Ross charged the Conservative leader with deserting his historic principles. It was particularly serious in this case, as they were deserting a cause that would prove of undoubted benefit to the farmers of the Dominion.**

**Larger Markets.**  
The necessity of larger markets was dealt with by Mr. Ross. Larger markets were necessary if Canada was to grow and expand, and by opening a market of 50,000,000 people right at the doors of this country, the Laurier administration were looking to the future development of the Dominion.

There is no doubt undoubtedly the result. The western farmer must have

Money Refunded to Out-of-Town Customers If These Goods do Not Come Up to Your Expectation

# Four Specials in Women's and Maids' Aprons

## Less Than Cost of the Material

Out-of-town customers wishing to participate in these Specials should mail their orders at once, as Aprons of these qualities and prices are soon snapped up. Select style and price and add postage.

- No. 1, 20¢—Colored Work Aprons—Made of strong percale in light and dark navy with white spot patterns, bib with strap over shoulders. Postage, 5 cents extra.
- No. 2, 25¢—Maids' White Aprons. See cut. Made of heavy quality lawn, bib of embroidery and insertion, straps over shoulders. Style same as illustration. Postage, 5c extra.
- No. 3, 30¢—Women's Work Aprons, made of navy and white spot duck, bib nicely finished with piping and braid; pocket trimmed with braid. Postage 5 cents extra.
- No. 4, 35¢—Women's Overall Aprons—Made of navy and white stripe percale, full skirt. Postage 7 cents extra.

# Housefurnishing and Drapery Dept. Moved to Fourth Floor

We were forced to increase the floor space of this department. The business has increased so much that the space allotted to it on the third floor was inadequate. On the fourth floor, adjoining the restaurant, is "The New Home of Housefurnishings and Draperies," where the great variety of Curtains, Curtain Materials, Scrims, Furniture Coverings, Shades, Quilts, Blankets, Comforters, Fringes, etc., can be shown to better advantage and a place where shopping will be more pleasant to our customers. Visit the fourth floor the first time you're in the store.

# More Shipments of New Fall Suitsings

Tweeds will be very fashionable this fall and winter for Ladies' Coat Suits. At present our new stock of tweeds is almost complete, comprising the very latest patterns and colorings.

**\$1.00 TWEEDS**—A popular price for 50-inch goods. Stripe effect in tan, gray and brown, mixed with white. A very stylish effect for suits.

**\$1.50 SCOTCH TWEEDS**—One of the best lines to be shown this season. The latest genuine Scotch designs. Coloring effect is all that could be desired. A splendid range to make your selection from.

STORE CLOSURE EVERY DAY AT 5, SATURDAY INCLUDED.

Ice Cream, Cooling Drinks and Refreshments in Restaurant. Full Course Dinners, 11:30 to 2.

# WEST MIDDLESEX CAMPAIGN OPENS WITH NAPIER RALLY

Mr. Duncan C. Ross Champions Reciprocity in Stirring and Convincing Manner, Showing Direct Benefits Coming to the Farmer.

[By Our Own Man.]  
Napier, Aug. 16.—Mr. Duncan C. Ross, late member for West Middlesex, commenced his campaign in this village tonight. The severe storms of the afternoon and evening kept down the attendance, and there was not a very large crowd present.

It was expected that Hon. W. L. # BORDEN MEETING AT MAPLE CITY

The Opposition Leader Defends His Various Policies.

SAYS GOVT. WASTEFUL

Has Nothing to Say in Regard to Alliance With the Nationalists.

Chatham, Aug. 16.—Mr. R. L. Borden came to Chatham tonight and addressed an audience of two thousand people. The big army, in which the meeting was held, was uncomfortably crowded, the temperature was warm and the Conservative leader was still "warmer." At London Mr. Borden's denunciation of reciprocity did not carry him out of his customary repose, but tonight he had in his hand a newspaper report of Hon. Mr. Graham's address at Simcoe. In that address the Minister of Railways made a few pointed remarks about Mr. Borden's platform, which fell far short of pleasing the Conservative leader.

**Skimpy Reciprocity.**  
Mr. Borden complained also that Hon. Mr. Graham's "thunder-stealing" references to civil service reform and rural free mail delivery were unfair, contending that the Opposition had always led the way. "I am not going to deal much with the economic feature of this agreement," said Mr. Borden of reciprocity, and he made good his words. The economic side of the issue received some little attention in the London speech, but it was almost an absent quantity tonight. "There is the higher imperial ground," he declared as a justification for a fervid oration.

**Bland About Bureaucracy.**  
The Conservative leader gave no answer to the Globe's editorial, denouncing him from an assurance that he did not support Borden's anti-British propaganda.

**MR. FIELDING NOMINATED**  
Minister of Finance Candidate for Queen's-Sheburne.  
Halifax, Aug. 16.—Two Liberal nominations took place today in Nova Scotia. The first was for Queen's-Sheburne, where Mr. J. D. Fielding was nominated for Queen's-Sheburne. On account of the tremendous forest fire which has been burning in the district, the convention was small. Mr. Fielding was nominated the late member, Mr. J. D. Sherry, of Petite Riviere.

LATEST NEWS FROM OLD LAND

Varied Items of Interest from England and Wales.

ILL-LUCK DOGS SOLDIER

Remarkable Thriftiness of a "Poor" Man in Surrey County.

London, Aug. 16.—In the costumes characteristic of their different races and countries, 56 natives selected from those who are to be seen at the London Exhibition, made a tour through the city the other day. On the steps of St. Paul's Cathedral an interesting photograph of the group was taken. One or two of the Indians entered the cathedral ahead of the others, and there was an unexpected incident when others who were about to enter were told they had better be snaphotted first. Without the slightest warning one of the pink-turbaned individuals in white, who was inside the edifice, shouted in loud guttural tones with the object of making those who had already penetrated as far as the pulpit. His voice echoed and re-echoed, and before the ordinary visitors had recovered from their amazement a disturbance of the peace of St. Paul's, the answering yell came from the Indians with the same.

LOCAL LEGISLATURE FOR SCOTLAND

Home Rule Measure Introduced in House of Commons.

London, Aug. 16.—Sir Henry James Pakenham, member of Parliament for Kirkcaldy, Scotland, introduced in the House of Commons today a measure for the establishment of a home rule in Scotland. Sir Henry's measure provides for a local legislature to deal with purely Scottish affairs.

MANY AVIATORS CLOSE TO DEATH

Airmen at Chicago Meet Make Perilous Flight.

Chicago, Aug. 16.—Arthur Stone, driver of a Green monoplane, was snatched back from death at the international aviation meet here today after hopes for his life had been given up. Howard Gill, in a baby Wright, came almost as close to death, but escaped unhurt from under the wing of his machine. Lincoln Beachey, after being driven far to the south and fighting his way back above the field, glided 3,000 feet in safety to the earth, after his engine had stopped suddenly. James Ward had an equally hard task to make his way from far out over Lake Michigan, but descended safely in the field. Stone's machine fell into the lake just at dusk. He leaped from the falling plane and was rescued, at the point of exhaustion, by a motor boat after he had supported himself in the water for more than half an hour. His machine was not recovered.

KEPT AFOAT BY TUBS

That Stone was rescued was attributed largely to the insistence of his wife that he guard himself with a life-preserver. In spite of the order that all flyers should wear life-preservers, Stone, with others, started for their machines unguarded. Mrs. Stone ran from the hangar just before the flight and insisted that her husband wait, while she tied an inflated automobile tire about his shoulders.

ENTERED BY THE DEATHS YESTERDAY

Entered by the deaths yesterday of William R. Badger and St. Croix Johnson, and deterred by a high wind, many of the flyers here protested against going up, and warned the contest committee that the aeroplanes could not be controlled in the half gale that prevailed in the upper air. The judges were insistent, and finally half a dozen flyers rose for a trial.

BLEEDING TO DEATH

Toronto Woman Says She Was Viciously Assaulted by Husband.

Toronto, Aug. 16.—Early this morning two lads found Mrs. Thomas Lowther tottering along the street bleeding profusely from wounds in the head. She was taken to the residence of Dr. Hincks, and after the injuries had been treated she went to the hospital. According to her story Thomas Lowther had been drinking heavily for several days. He came home on Tuesday night and attacked her with an iron instrument, inflicting a number of grave injuries. She believes that she was unconscious for several hours, but when she came to herself she heard Lowther having an altercation with a neighbor, and she took the opportunity to escape. Lowther, who is 67 years of age, was arrested last night for drunkenness, but the charge has been altered to one of aggravated assault. The woman is in a hospital, and is expected to recover.

CYCLONE IN ALBERTA

Woman and Child, in Shack, Carried a Hundred Yards.

High River, Alta., Aug. 16.—Information received here confirms the report of a cyclone which devastated part of the Black Diamond district, twenty miles northwest. A shack in which a woman and a child were living was carried a hundred yards, when the floor fell out, hurling the occupants to the earth, but with slight injury. The shack was then carried heavenward and demolished. Another woman, seeing the storm coming, took refuge under a bridge, and was severely injured by flying rocks and gravel. Roads in the path of the storm were rendered impassable by falling timbers. The cyclone was local, and did not touch any larger buildings of the district, or great loss of life would have been inevitable.

FINE FLYING

Arrives at Toledo in St. Louis-Boston Record Flight.

Toledo, Ohio, Aug. 16.—Exactly 520 miles from his starting point, Harry N. Atwood, the Boston aviator, who is attempting to break the world's long distance record by flying from St. Louis to New York, alighted in Toledo this afternoon after completing the third day of his trip with a spectacular flight 2,000 feet above the city. He covered the 120 miles from Elkhart, Ind., to Toledo, with only one stop and in an actual flying time of 2 hours and 46 minutes. He starts from Elkhart at 8:06 a. m., was compelled to stop at Pettisville, Ohio, for more than five hours because he ran out of gasoline and, continuing his journey, guided by the tracks of the Lake Shore and Michigan Southern Railroad, he arrived in Toledo at 4:03 p. m.

True Nourishment For Body and Brain in every granule of Grape-Nuts

basements. Thousands of people were attracted to the vicinity, and the flood did not subside for about an hour. An extraordinary sight was then revealed, stone blocks lying about amid gravel and clay, and the wood pavement collected in heaps. The roadway was like a hilly sea, a continuous succession of rises and depressions of as much as two feet.

The Common at Troutbeck, Cumberland, was the scene of a mysterious attempted murder recently. The victim of the attack, who now lies in a critical condition, was Margaret Ann Nixon, a domestic servant. Miss Nixon cycled from Troutbeck station, where she had posted letters. When she reached the Common a farm hand sprang out of a hedge and crying, "We may as well die together," stabbed her with a heavy butcher knife, cut her throat and slashed her across the face. Her screams attracted the attention of a man living near, and her assailant ran off toward the fells. The police scoured the moor and found the body of a man hanging from a tree on Melfell. He is supposed to have been Miss Nixon's assailant.

Toronto Woman Says She Was Viciously Assaulted by Husband.

Toronto, Aug. 16.—Early this morning two lads found Mrs. Thomas Lowther tottering along the street bleeding profusely from wounds in the head. She was taken to the residence of Dr. Hincks, and after the injuries had been treated she went to the hospital. According to her story Thomas Lowther had been drinking heavily for several days. He came home on Tuesday night and attacked her with an iron instrument, inflicting a number of grave injuries. She believes that she was unconscious for several hours, but when she came to herself she heard Lowther having an altercation with a neighbor, and she took the opportunity to escape. Lowther, who is 67 years of age, was arrested last night for drunkenness, but the charge has been altered to one of aggravated assault. The woman is in a hospital, and is expected to recover.

CYCLONE IN ALBERTA

Woman and Child, in Shack, Carried a Hundred Yards.

High River, Alta., Aug. 16.—Information received here confirms the report of a cyclone which devastated part of the Black Diamond district, twenty miles northwest. A shack in which a woman and a child were living was carried a hundred yards, when the floor fell out, hurling the occupants to the earth, but with slight injury. The shack was then carried heavenward and demolished. Another woman, seeing the storm coming, took refuge under a bridge, and was severely injured by flying rocks and gravel. Roads in the path of the storm were rendered impassable by falling timbers. The cyclone was local, and did not touch any larger buildings of the district, or great loss of life would have been inevitable.

FINE FLYING

Arrives at Toledo in St. Louis-Boston Record Flight.

Toledo, Ohio, Aug. 16.—Exactly 520 miles from his starting point, Harry N. Atwood, the Boston aviator, who is attempting to break the world's long distance record by flying from St. Louis to New York, alighted in Toledo this afternoon after completing the third day of his trip with a spectacular flight 2,000 feet above the city. He covered the 120 miles from Elkhart, Ind., to Toledo, with only one stop and in an actual flying time of 2 hours and 46 minutes. He starts from Elkhart at 8:06 a. m., was compelled to stop at Pettisville, Ohio, for more than five hours because he ran out of gasoline and, continuing his journey, guided by the tracks of the Lake Shore and Michigan Southern Railroad, he arrived in Toledo at 4:03 p. m.

This Is a Sale With a Strong Reason Behind It

"I have bought the Semi-ready store and I am right in action."—Haygarth

You will be deeply interested in Semi-ready Tailoring when you see the newest developments and the higher attainments.

To prepare aright, and to get only garments which are of patterns and weaves which I would personally select, I am selling over one hundred Suits at less than cost.

I want you to see these now, for there are many garments of medium weight, suitable for all-the-year-round wear.

Some Suits Worth \$15 for \$9 Others Worth \$18 for \$13.50 and some worth \$20 and \$25 Will be sold for \$15 and \$17.50

I can only give you a few hints, but I can further assure you that a visit to my store just now will make you glad that you came.

You perhaps know Semi-ready. If you do, you know that every price-mark on a garment marks the actual worth. It's never a pen or pencil-marked price.

TOM L. HAYGARTH The Semi-ready Store 182 Dundas Street

CAPT. COX DEAD. Paris, Ont., Aug. 16.—The community was shocked this evening to learn of the sudden death of Capt. Peter H. Cox, which took place at his home about 6:15. Heart failure was the cause. He had been troubled for some time with his heart. The deceased had been postmaster here for about twenty years. He was a devoted family man, and came to Canada when a young man. A widow and little son survive him.

ROSTAND INJURED. Biarritz, France, Aug. 16.—Edmond Rostand, the poet and dramatist, was the victim of a serious automobile accident near here today, and tonight lies in hospital.
