#### 4. CERTIFICATE OF RECORD.

Effect of.]—A mining claim for which a critificate of record has issued cannot, in the absence of fraud, be impeached for any defect or irregularity in its acquisition. After the 49 days allowed for dispute have elapsed and a critificate of record has issued, the title should not be lightly interfered with. Effect of — Excessive area, — Staking more than the prescribed acreage will not, in the absence of fraud, invalidate the claim except as to the excess, and in any event a certificate of record would, in the absence of fraud or missuke, preduced attack upon this ground, the claim having with the permission of the Recorder been reduced to the proper size. Re Balfour & Hylands (1909), M. C. C. 430.

Effect of — Lack of discovery.]—After issue of certificate of record, a mining claim is not open to attack for lack of discovery of valuable mineral unless the applicant did not loop fide believe he had a sufficient discovery and was therefore guilty of fraud. Re Young of Scott & MacGregor (1908), M. C. C. 162.

Setting aside—Mistake.]—M., in 1904, located lands under the Veteran Land Grants Act. On 1st March, 1907, he applied for a patent, filing the necessary proof and being entitled, as the law then stood, to both the surface rights and the minerals. On 16th March, by his attorney, he gave C. an option for purchase of such title as he would receive from the Crown. On 22nd March R. staked out a mining claim upon part of the lands. On 3rd April patent issued to M., including the minerals. On 10th April R. recorded his mining claim, and on 13th Sept. 1907, obtained a certificate of record therefor, the certificate being issued by the Refor the contribute of the control of the cont

At this time (though the lands were under the provisions of the Act open to staking) an appeal by another licensee seninst the cancellation of a former elaim had not yet been disposed of. After this appeal had been finally dismissed the Recorder, on 29th Dec., granted S. on the sentificate of coret. Such appeal had been finally dismissed the recording to the sentificate of coret. Such appeal had been finally dismissed the recording to the sentificate of coret. Such appeal had been finally dismissed the certificate of record and have S.'s claim cancelled for lack of discovery and other defects. No fraud or mistake within the meaning of the Act being shewn, and no evidence of merits or validity of B.'s claim being offered, it was held by the Commissioner that the certificate of record should not be set aside, and that extension of time for appealing from the ranning of it should be refused, and that the attack upon S.'s claim should be dismissed—It is not the policy of the Act to encourage attacks upon mining claims after the time allowed for fliing disputes against them has clapsed and a certificate of record has been issued—Query, whether in the absence of fraud or mistake an appeal under the Act will the against the granting of a certificate of record. ### 6. DISCOVERY OF MINERAL.

Adopting discovery of another.]—It seems that a licensee who, on lands open to prospecting, finds valuable mineral which has been exposed but not appropriated by another, may adopt or appropriate it as a discovery. Re Smith & McHale (1907), M. C. C. 99.

Adopting existing discovery.]—Held, per Moss, C.J.O., that there seemed much difficulty in hobling that the mere adoption by a licensee of mineral opened up on a claim by another, while the latter is still working and claiming a right to work upon the property, can be a sufficient discovery upon which to ground a claim, at all event until after there had been an actual reverter to the Crown by lapse, abandonment, carried to the Crown by lapse, and properly and per Meredith, J.J. that upon the facts St. had made and discovery such as the Act contemplates. Appropriation necessary.] — Unless a discovery is appropriated by at once planting a discovery post upon it and proceeding as quickly as reasonably possible to complete the staking out of a mining claim, the discoverer's rights may be lost or postponed. Re Reichen & Thompson (1907), M. C. C.

Belief not sufficient—Discovery after staking ineffective.)—There must be actual discovery of valuable mineral within the definition of the Act at the time of staking out a mining claim; mere belief of it is not sufficient.—A discovery made after the staking out will not validate the claim.—Outario and United States laws compared. Re Lamothe (1908), M. C. C. 167.

Deponent personating licensee.]—A claim staked out in the name of a licensee by a non-licensee and non-holder of a forest reserve permit, the recording of which was procured by the latter personating the former and swearing the affidavit in his name, cannot stand though a certificate of record has been issued for it, and where the facts appeared incidentally in another proceeding to which all persons interested were parties, the claim was declared invalid, and the guilty person reported for prosecution. Re McDonald & Cascy (1908), M. C. C. 219.

"Valuable mineral."] — Reasonable probability and not mere possibility that what found is capable of being developed into a mine likely to be workable at a profit, is required to constitute a discovery of valuable mineral under the Act. Re Tyrrell & O'Keefe (1908), M. C. C. 176.

"Valuable mineral."]— The requirement of "valuable mineral," as defined by s. 2 (22) of The Mines Act, 1906, is not answered by a "moderate" calcite vein having a little copper pyrite, galena, sulpide of iron and zine blend disseminated through it, and assaying an oz, of silver, but lacking the metals and indications which usually accompanied silver veins in the district, workable veins there being the exception and not the rule, and the best opinion being that it was most improbable that this yein was capable of being developed into a workable mine. "Probable" in the definition means more likely than not; and "workable" means workable at a profit, and it seems that the discovery should be judged as it stood at the time it is claimed to have been made, with the conditions and surroundings and probabilities as they then were. Mineral claims - Title to - Foreign bankruptcy proceedings - Trustee in bankruptcy transferring claims of bankrupt to purchaser - Recording transfer - Chose in action - Domicil - Law of foreign state --Law of British Columbia-Immovables -Provisions of Mineral Act-Non-compliance with.]—In an action for a declaration that interest in two mineral claims in British Columbia :- Held, that the plaintiff must shew affirmatively that he had a good title. The defendant and S. were co-owners of the mineral claims. On the 1st July, 1909, 8. filed a petition in bankruptcy in a New York Court, and was duly adjudged a bankrupt, and the Court directed a reference to a Referee. The petition did not in form assign any property; but stated that S. was willing to surrender all his property for the benefit of his creditors; and in the annexed schedule of his personal property the two mineral claims were included. On the 26th July, 1909. G. was appointed by the Court trustee of S.'s estate. It was not disputed that the proceedings were sufficient to transfer the claims to G., if those claims had been in New York, On the 4th September, 1909, S. being in default for his share of the assessment work done on the claims, the defendant, under the provisions of s. 25 B. of the Mineral Act, adprovisions of s. 2.7 b. of the amount due was not paid within 90 days, S.'s interest would be forfeited to the defendant. On the 18th October, feifed to the defendant. On the 18th October, 1909, G. sold the claims to the plaintiff and executed a transfer thereof. This transfer and a certificate of G.'s appointment as trustee were recorded in the Mining Recorder's office on the 4th November, 1909. to the plaintiff was confirmed by the Referee, but not till the 8th October, 1910; the order of confirmation was not recorded. the expiration of the 90 days referred to in the defendant's advertisement, all the money by the plaintiff; but the defendant refused to accept it, and completed his forfeiture or default proceedings. S.'s mining license ex-pired on the 31st May, 1908, and was not reon the 31st May, 1910, and was not renewed. At the time of the transfer of S,'s interest to the plaintiff, neither the plaintiff nor G. had a free miner's license. The plaintiff obtained one on the 26th October, 1909; and G. obtained one on the 16th November, 1909. It was contended for the plaintiff that a mineral claim is a chose in action, and is governed

by the law of the place where the owner is and, therefore, S. busing been declared bankrupt in the State of New York (he being then present in that State), the sufficiency of the transfer from him must be governed by the law of that State :- Held, that, as no authority was cited for this proposition, is could not be accepted. If it was intended to assert that S. was domiciled in New York some direct proof of domicil should be given which was not done; and it was quite con sistent with the bankruptcy proceedings that his domicil was elsewhere; and, semble even if the claims were choses in ac-tion and movables, they were not asheld, that, as the mineral claims were not only visible and tangible, but physically in-British Columbia, the transfer was subject to Columbia. The Mineral Act, R. S. B. C. 1897 mean "the personal right of property or in-terest in any mine;" and (s. 34) that "the interest of a free miner in his mineral claim shall, save as to claims held as real estate. all the terms and conditions of the Act:"-Held, that a "chattel interest" does not does not necessarily mean a personal chattel; it may refer to a chattel real; and in any case it is "subject to the performance and observance of all the terms and conditions of this Act." These sections cannot be These sections cannot be read so as to give the New York Court jurisdiction over been compiled with in several respects. Se-tion 9 provides that "no person shall be recognised as having any right or interest in a free miner's certificate."—Held, that, as neither S, nor G, had a free miner's certificate when the transfer to the plaintiff was made the Act was not complied with; and the subthem .- Held, also, that all the proceedings alleged to constitute the transfer not having been recorded, s. 50 of the Act was not com-plied with; and the transfer to the plaintif was not recorded within the time fixed by ss. 19 and 49.—Held, therefore, that the plaintiff had not shewn that he was the owner 16 W. Prospecting expedition-Finding good territory.]-K. and L. in an expedition under a prospecting partnership agreement with B. and S. found (in company with other prospectors) promising prospecting territory-a ridge of good diabase rock-but made no disclaims. They reported this to S. and B., B. remarking that he did not want "rock." L. le, the district, and B. and S., on the request of K. and one V., who desired to form a prospecing partnership with K., cancelled withdrew from the agreement. K. and V. after several weeks' operations in other direc tions, visited the diabase ridge which K, and been rendered easier to prospect by reason of fire, and made discoveries and staked claims upon it .- Held, that L. and B. were not entitled to any interest in the claims. Re Laid-ley & Knox & Davidson (1910), M. C. C.

Prospecting partnership—Duration of —Uliniar existed—Delay,—In the absence of acrement to or circumstances indicating the contrary, a prospecting partnership terminates with the expedition undertaken and leaves the perties merely co-holders of the claims acquired—Where L. and E. staked out two claims, both of which turned out invalid and were cancelled or lapsed, and E. alone subsequently restaked the same lands and acquired rights therefrom and ministance and protected them solely by his was labour and money, a claim to an interest set up by L. two years later was dismissed. Re Libby & Ellis (1900), M. C. C. 441.

Prospecting partnership—Paral agreement—Grubstaking—Sharing equally where shares not agreed.—In the absence of statutory provision to the contrary a paral agreement entered into before the staking out, for an interest in a mining claim, is valid and enforceable notwithstanding the Statule of Frauds, where it is shewn that the person claiming the interest has contributed something toward the acquisition of the claim—a distinction being made between agreements entered into before the staking out and agreements entered into after the staking out.—Where a claim staked out under a prospecting agreement is cancelled for lack of discovery and is afterwards restaked by one of the parties on a new discovery state of the parties on a new discovery and is afterwards restaked by one of the parties on a new discovery the staking, who stood by and offered as assistance, will not by reason merely that the new staking covers the old ground be entitled to a share in the new claim—the discovery and not the staking being the chief consideration for which the Crown grant is made.—Grubstaking agreements or prospecting partnerships usually terminate with the expedition acreed upon and result merely in a co-ownership of the claims acquired, the presumption being against the existence of a partnership senerally or of a partnership of developing or working the claims—there and nothing more appears it will be presumed that they are to share quality. Re Greene de Chalon (1908), M. C. C. 223.

Prospecting partnership — Termination of—Itelay, I—S, and P, had entered into a prospecting partnership, S, becoming thereby interested in the mining claim in question; S, though he contributed for a time, afterwards neglected and refused on various occasions to earry out his part, and P, finally repudiated further partnership; the claim was cancelled for lack of discovery; S, to prevent his former partner reacquiring this and other claims gave other prospective of the control of t

Prospectors assisting each other—Sharing information.]—Where the leaders of two prospecting parties assisted each other in a neighbourly way in their expeditions and each promised to let the other know if anything good was found, but did not use their men or heir provisions in common, and it was found upon the evidence that there was no agreement or intention to share interests in the claims nequired, a claim by one to an interest in claims staked by the other was dismissed. Refusal to contribute.]—O., who was under agreement with B. to give the latter a one-third interest in claims he might acquire, staked a claim under agreement with E. to give E., who had made the only real discovery upon the property, a one-half in-

the work s

terest. Upon O. explaining the circumstances to B. and asking him for money to recond the claim as the agreement provided, B. refused to pay anything or to have anything to do with the claim unless he would be given the whole of li, and told O, he might take the claim to some one else. B. stood by while O. and E. were at much trouble and expense protecting the claim through litigation, and he contributed nothing to the performance of the working conditions, without which the claim would have lapsed—Held, that a claim subsequently brought by B, to enforce an interest should be dismissed.

Sale of — orcement for payment of sum out of proceeds for service—Construction of agreement—Reformation of—Amendment of pleadings—New triel on election—Othercize judgment for plaintiff with interest and costs.—Plaintiff brought action to recover \$500 and one-twentleth of the amount paid in defendant Currie for the interest held by him in a certain mining claim under an account of the dealings of defendant with said mining property, and of the amount received by defendant for said property.—Tectsel, J., at trial, dismissed plaintiff's account of the dealings of defendant with said mining property, and of the amount received by defendant for said property.—Tectsel, J., at trial, dismissed plaintiff's account of the dealings of defendant with the agreement must be construed as meaning that if the property in reference to which both plaintiff and defendant were bargaining, should be said before the title was passed out of the proceeding \$500 would be paid to the proceeding \$500 would be paid to the proceeding \$500 would be paid to the proceeding \$500

Second agreement in fraud of first.]

—O, and F, were prospecting partners, E, on an expedition agreed upon between them and for which O, furnished money and supplies, staked four claims, Before recording the claims F, by telling R, who knew of O/s interest in the expedition, that he had not staked the claims on that expedition, induced R, to advance him money and other consideration for a half interest and recorded the claims in the rames of R, and his nomines—Held, that O, and R, were entitled to a half interest each, Re Odbert & Farrwell, Ribbit & Biblisky (1910), M. C. & Farrwell, Ribbit & Biblisky (1910), M. C.

Settlement of interest — Trust, Plaintiff as assignee of R, company claimed that defendants were trustees for him of a one-third interest in a mining claim. The rights which a company had to this claim depended upon agreements between the company and defendant S. Refore the assignment to S, but unknown to him, the company and S, had settled certain pending Hitgation by the company releasing their claim to this mining claim, and S, releasing his claim significant of the company and S, the same claim:—Held, that as S.

stood in the place of the company it could not succeed, Jewell v. Jacobs, 13 O. W. R. 297.

Survey—Eyect of—Evidence—Made with out proper investigation, 1—A claimant seeking to set aside another claim as subsequent to and overlapping his own cannot make out as case or establish title to the disputed territory by mere production of a survey including the disputed territory as part of his claim.—Where it was shewn that the surveyor for the first claimant made his survey without any investigation or examination of cated his lines without any proper variance for placing them where he did, the survey was rejected, and a survey made for an espesial claimant which was shewn to be in accordance with the latter's staking was continued. Mines Act. R. S. N. S. c. 18, ss. 194-195—Commissioner of mines — Powers re-specting contested applications for leases.] ing an area of five square miles, made application under the provisions of the Mines plication under the provisions of the Mines Act, R. S. N. S. c. 18, s. 194, for a lease of an area of one square mile of the land included within the boundaries of their li-cense to scarch. The description in the ap-plication for the lease described the area applied for as situated at the south-east corner of the area originally licensed to M., of said lease, two miles. A question having arisen as to the exact location of the area under lease to M., and that applied for by the company, the Commissioner of Mines ordered a survey, as the result of which it was found that a portion of the lease granted to M, extended beyond the boundaries of his license to search, and included about onehalf of the area applied for by the company, The Commissioner, in these circumstances, declined to issue the lease applied for by the company, and directed the issue of a lease the boundaries of which were described in such a way as to exclude any portion of the area under lease to M .: - Held, by the majority of the Court (adopting the opinion of Davies, J., in *Drysdale* v. *Dominion Coal* Co., 34 S. C. R. 332), that the matter was one involving a legal question upon which the Commissioner had no right to pass; that no decision of his could either contract or expand the lease to M., and it was, therefore, his duty to have granted the application made by the company, excepting there-out such lands as might be found and determined to be included in the lease to M., leaving that question to be subsequently determined by the Court in a proper action .-Held, also, that the Commissioner exceeded his power in relation to the survey ordered by him, such power (s. 195) being confined to a survey of the tract of ground selected out of the area covered by the license to search, and giving no power to direct the survey and the preparation of a pian of enother tract of ground.—Held, also, that the Commissioner exceeded his authority in permitting M. to go outside the boundaries of his license to search and include in his lense land already covered by a license to search issued to another party and assigned to the coal company. tained from R., the recorded holder, an agreement for sale of a three-quarter inin ignorance of O.'s rights, O. being in fact the owner of an unrecorded equitable half interest in the claims instead of F., who was a party to the agreement and who was presumed to own it. B, was to be entitled to a transfer on paying \$2,000, but before he paid the money or obtained a transfer O. filed a certificate under sec. 77 of the Act. putting him on notice of O.'s rights, subsequently obtained from F, for \$900 what purported to be a transfer of a half interest in the claims. In proceedings by O. it was held (1) that the transfer from and payment to F. were ineffective; notice to B. before he paid the money and obtained a transfer protected O.'s rights; but (3) that in the circumstances, and by reason of delay, O.'s protection as against B. should only be in respect of the purchase money and should not deprive B. of Re Odbert & Farewell, Ribble & Bilsky (1910), M. Failure to record transfer—Right of locator.—In May, 1897, B. located and recorded the "May Day" claim, and, six days after location, conveyed a half interest to the defendant by a bill of sale, which was not recorded till April, 1898. By free miner's certificate lapsed in July, 1897, and in October, 1897, the plaintiff, a free miner, relocated the "May Day" as the "Equaliter" claim:—Held, that the defendant's title should prevail against the plaintiff's. Grutchfield v. Harbottle, 20 C. L. T. 395, 7 B. C. R. 186, 344.

Insufficient writing—Delay.]—A writing not definitely identifying the properties or showing the consideration to be paid or or showing the consideration to be paid or or showing the consideration to be paid or the share to be received—the other evidence and the circumstances showing that it was not the intention to part with the whole—is not a sufficient writing under s. 71 (2) (Act (1968) upon which to enforce a contract (under after the staking out) for an interest in mining claims. — Unreasonable delay in complying with the conditions and in bringing proceedings for enforcement of an agreement relating to mining property where the transaction is one of a very speculative nature, will preclude enforcement. Re Booth & Hylands (1900), M. C. G. 339.

Misunderstanding — Improvidence Statute of Frauds — Time of essence.]—
Where an agreement or option for sale of two mining claims differed from what the defendants understood and intended, and has interlined in it a vitral alteration which was not in the supposed duplicate furnished by the plaintiffs and which would make the bargain a very unfair and improvident one, specific performance was refused. — Held, also, that as the real terms of the course to the course of the co

Option or contract-Time of essenceof Frauds-Holiday. ]-M. and R. agreed to sell three mining claims to C, on condition that \$5,000 be deposited in the bank on or before 9th Nov., \$45,000 on or before 9th Dec., and the balance of \$200,000 in one year thereafter. Owing to 9th Nov. being a bank holiday, the \$5,000 was not deposited until 10th Nov., and then only "on condition that payment due 9th Dec. be extended to 1st Feb." M. and R., having been notiand resold to other parties .- Held, that C dition to an acceptance is in effect a counter offer and a rejection of the offer of the other party.-Time is of the essence of the contract in all agreements for the sale of minnecessary .-- A verbal acceptance by the plaintiff of a written offer of the defendant is sufficient as against the defendant notwithact under a contract falls on a holiday and the act therefore cannot be done on that day, it must be done on the next day prior that is not a holiday. Payment — Sufficiency.] — Producing the amount of a payment to the trustee holding the transfers in escrow, with a demand that the title be fixed up, where there was failure to respond to a request for unconditional payment or to shew continued readiness and willingness to pay, cannot be relied upon as a good tender of the purchase money, Darby v. Sale of mine—Lien for unpaid purchase money—Li00,000 shares to be held as collateral security, l—Where defendant sold a mine and was to receive 1,100,000 shares as collateral security for \$190,000 unpaid purchase money, the mining company sought to transfer the shares "in trust only in escrow as collateral security," while defendant wanted them transferred absolutely:—Held, that the shares should be transferred "in pursuance and subject to the terms of an agreement . . between Currie and Warren & Co.," and that the share series ficate should issue in the same form, Warren v, Bank of Montreal (1909), 14 O, W. R, 622, 1 O, W. N. 28.

Sale of mining claims—Action to compel discharge of encumbrances, I—Action to compel discharge of encumbrances on mining claims bought by plaintiff from deendants and for damages:—Held, that it was impossible to say that mortgages were paid as litigation now pending as to them before Supreme Court of Canada. Defendants gave covenants as to title,—Held, further, that plaintiff is entitled to have mortgages discharged and removed from record, and damages must be the sum required to obtain such release. Post v. Syndicat, 9 W. I., R. 352.

Signed by some only of the vendors — Misunderstanding of terms—Hillier-acy—Misdescription.] — Where 3 out of 4 owners of a mining claim signed an agreement for sale which it was intended should be signed by all, and the evidence and cir-

cumstance shewed that it was not contemplated that the agreement should bind the interests of the 3 apart from the interest of the other, the agreement was held not to be binding upon any of the parties; the question of the effect of such a signing must be determined by the circumstances of the particular case.-Misunderstanding by the vendors as to the nature of the consideration they were getting, and misdescription in the agreement of the stock which it provided might be given them as the equivalent of money, the misunderstanding having been induced by the vendee, the vendors being Swedes, inexperienced in stock transactions the vendee to enforce an agreement for sale of a mining claim. Re Oslund & Bucknall (1909), M. C. C. 368.

Time for completion not specified— Tender of conveyance.]—Failure to specify a time for completion is not fatal to a written agreement for sale of an interest in a mining claim, a reasonable time being in that case inferred.—Where there is absolute refusal to carry out a contract of sale tender of conveyance is excused. Re Connell & Wella (1906), M. C. C. 17.

Title doubtful - Waiver.] - The ordinary principles of law regarding the matter of title should be applied as far as possible to the sale and purchase of unpatented mining claims, but the purchaser must be taken to know that the title is not absolute until the issue of a patent and that there can be no assurance, especially before issue of Certificate of Record, that adverse claims may not be set up.—The mere fact that a claim has been put forward by a third party. or that notice of such a claim has been sent to the Recorder, is not a valid objection to the title, in the absence of anything to shew that what was threatened was more than idle litigation.—It requires clear proof to establish waiver by a purchaser of the right to object to the title.—Though the pur-chaser might by his conduct have been estopped from objecting to the title, negotiations with him by the vendor afterwards looking to the removal of objections will reopen the question. Transfer of mineral claim—Time for recording—Mineral Act. —The claimant of an interest in a mineral claim, seized under an execution on the 18th May, 1903, relied on a bill of sale obtained by him on the 23rd February, 1903, while in Dawson, Y.T., over 2,000 miles from the mining recorder's office. The bill of sale was not recorded until the 22nd May, 1903—Held, that, as the time for recording mineral claims fixed by a. 19 and the claim of the claim for the claim of the claim for the locator from the recorder's office, therefore by s. 49 of the Act the bill of sale was of no effect as against the intervening execution, Dumas field Mines, Ltd. v. # 16. STAKING OF CLAIMS.

Adverse claim—Plan of survey—Invedidity—Quarts mining regulations (Y.T.), s. \$\overline{\psi}\$—Staking—Field notes—Topographical indications—Contesting location after issue of grant possession.]—Activn under s. 46 above to have a plan of survey of a mining claim invalid and non-effective:—Held, that the plantifits staking was good and sufficient; that the defendant's was invalid and bad, ber plan defective, and her survived to their claim as surveyed. Liopd v Nicholas (1909), 12 W. L. R. 30 Adverse claim.—Staking—Quartz Regulations, a. 53—Certificate of work—Impeaching by junior locator—Fism of survey—Defects in,]—No Irregularity arising after staking can be taken advantage of by an adverse or junior staker. Any such irregularities are treated by s. 53 above. Defendant's plan held to be defective. Plaintiff confirmed in his possession of his mining claim. Balton v. Evans (1909), 12 W. L. R. 116.

trial on counterclaim and to counsel fee,
Costs to be set off. Pinder v. Bothelko, 11
W. L. R. 563.

Defective staking for working permit. I—A working permit application was held invalid by reason of failure to mark the applicant's name or license No. on the No. 2, No. 3 and No. 4 posts, failure to do any fresh blazing, failure to shew in the applicant of the boundaries and failure to make affidavit either in substance or in form as the Act required. Ro Spurr & Penny & Murphy (1908), 14 O. W. 287. R. 1239, M. C. C. 390, 1 O. W. N. 287.

Delay—Limit of.] — Staking out of a mining claim must be proceeded with promptly after discovery else the discoverer's rights will be lost to a subsequent discoverer who completes staking first. — Delay from the morning of one day till the afternoon of the next when the staking might readily have been completed the same afternoon or the next morning, is quite beyond the limit allowed. Re MacKay & Boyer (1907), M. C. C. S2.

Delay—Limit of—Working an Abandonment,]—T, made a discovery and planted a discovery post on 10th Sept., doing nothing further till the 24th, when he completed the staking out of his claim; F, meanwhile made a discovery and on the same day, 14th Sept., completed the staking of his claim (being as a fact ignorant of T's discovery, Held, that F, was entitled to the property, T.'s delay working an abandonment and leaving the lands open to F.—It seems doubtful whether anything except inability to complete the actual staking out of a claim will excuse delay. Re Trombley & Ferguson (1908), M. C. C. 180.

Delay—Rights last or postponed.] — A discovere who fails to plant his discovery post and complete the staking of the claim as quickly as in the circumstances is reasonably possible loses his rights when another licensee makes a discovery of valuable mineral and completes staking before him.—
M. made a discovery of valuable mineral in the forenoon of 11th June and did nothing further that day except to put up at the discovery a small post or picket inscribed with his name; E, the same afternoon made another discovery and completed the staking out of his claim; M. the next day, after being told of E.'s claim and seeing his No. 1 post, completed his staking.—Held, that E. was entitled to the property. Re McLeod & Enright (1908). M. C. C. 149.

Delay—Rights lost or postponed.]— Unless a discovery is appropriated by at once planting a discovery post upon it and proceding as quickly as reasonably possible to complete the staking out of a mining claim, the discoverer's rights may be lost or postponed. Re Reichen & Thompson (1907), M. C. C. 88.

Delay—When fatal.]—Delay in staking is fatal only where some one else effectively intervence, and M., being disqualified, could not do so, and could not in any way prevent another claim accruing to the property. Re Munro & Downey (1988), 14 O, W. R. 523, M. C. C. 193, 19 O. L. R. 249.

Discovery of valuable mineral necessary before staking. I-Discovery of valuable mineral must be made before a valid mining claim can be staked out, and where a claim was staked on an insufficient discovery, no real discovery having been made until after the staking had been completed, and no discovery post planted upon it until after the claim had been recorded, the claim was held invalid. Re Smith & Kilpatrick (1908), M. C. C. 314.

Discovery post not planted on mineral.] — Re Blye & Dovency (1908), 11 O. W. R. 323, 12 O. W. R. 986, M. C. C. 120, 14 O. W. B. 592, 10 O. L. D. 200

See 14 O. W. R. 523, 19 O. L. R. 249.

Distance of discovery.]—Where in the staking and application for a mining claim the distance of the discovery from the No. 1 post was given as 1,250 feet instead of 910, the difficulty of making an accurate measurement in the circumstances being very great, it was held that this did not invalidate the claim.—It would be a hardship to hold a claim invalid by reason of such incorrections but by them prospectors invite trouble and run serious risk of loss. Referred & Bradshave (1907.), M. C. C. 139.

Error in boundaries—Defective markings.]—See Re Burd & Paquette (1909), M. C. C. 419

Evidence — Certificates — Copies of documents.] — In adverse proceedings where it is not established with reasonable certainty: (1) that the ground was properly staked, (2) that, assuming the ground had been properly staked, it was identical with the ground mentioned in the record; and the defendant shews title and produces certificates of work for several years, judgment will be given in favour of defendant. Before a substituted certificate will be admitted in evidence, there must be proof of loss of the original. Conditions of the admissibility of a mining recorder's certificate as to issue of free miner's license and as to issue of certificates of work considered. Copies of certain recorded instruments held admissible without proof originals. Parier v. Sanoe, 7 B. C. R. 80.

Exclusive status of first staker— Comparison of laws.]—The first staker of a mining claim has an exclusive status and while his claim subsists no other valid staking can be made upon the property.—Ontario and United States laws compared, Re Lamonthe (1908), M. C. C. 167.

Initial post — Occupied ground — Curative provisions of statute.] — In staking out a claim under the Mineral Act of British Columbia, the fact that initial post No. 1 is placed on ground previously granted by the Crown under these Acts does not necessarily invalidate the claim, and s.-s. (g) of s, 4 of 61 V. c. 33, amending the Mineral Act, R. S. B. C. c. 13c, may be relied on to cure the defect. 13c, may be relied on to cure the defect, 13c, and 13

Insufficient prior staking.]—Insufficiency of staking works abandonment of a claim and leaves the lands open to be staked by another licensee. Re Milne & Drynan (1909), M. C. C. 455.

Land covered with water.]—An application for a mining claim should not be rejected because it includes land covered with water. Re Sinclair (1908), M. C. C. 179, 12 O. W. R. 138.

Legal posts — Stone mounds in lieu of stakes—Statute.]—Held, that the requirement of s. 16 of the Mineral Act (B.C.), that posts No. 1 and 2 shall be of wood, is imperative, and stone mounds are not to be substituted. Callahan v. George, 21 C. L. T. 000, S. B. C. R. 146.

Location — Approximate compass bearing — No. I post on accupied ground.] — Held, that the location of a mineral claim is not invalid merely because the No. I post is placed on the ground of an existing valid claim, if the facts bring the locator within the benefit of s. 16 (g) of the Mineral Act as amended in 1898. The direction of the location line was stated in the affidavit of location as being south-ensterly, when, as a fact, it was south 52° 50° west:—Held, that the discrepancy was of a character calculated to mislead, Appeal from judgment of Irving, J. (dismissed, Martin, J., dissenting. Docksteader v. Clark, 25 C. L. T. 23, 11 B. C. R. 37.

Location—Mineral Act—Imperative provisions.]—The Blue Bird mineral claim was located 20th April, 1895, and recorded 3rd May, 1895, and on 21st April, 1896 (before it would have lapsed if duly located), the defendants located the Red Oak claim over the same ground, and after lapse the plaintiffs located over the same ground the Back Pay claim and attacked the defendants' title: —Held, that, as the location line of the Blue Bird was not placed as near as possible on the line of the wedge or vein, its location was bad, and the location of the Red Oak was good. The provisions of the Mineral Act as to location are imperative. Bleckir v. Chisholm, 8 B. C. R. 148.

Location—Planting of posts — Formalities required by R. S. B. C. 1857, c. 135, s. 18-61 V. c. 33, s. f (B.C.).]—Judgment of Supreme Court of British Columbia, affirming judgment of Martin, J., 10 B. C. R. 123, affirmed, Sandberg v. Ferguson, 35 S. C. R. 476.

Location of mining claim — Adverse climants — Staking — Defects — Rona files — Validity — Priority — Placer Mining Act s, 25 (5) — Right of Court to adjudicate—Reference by Gold Commissioner — Absence of adjudication by Mining Recorder.]—The plaintiff and the two defendants each separately staked a mining claim, and each applied for a grant within the proper time and paid the proper fee. The ground had been staked before, but we expend the proper file of the price of the plaintiff of the plaintiff of the plaintiff of the price of the proper file of the prope

L. B. 1.

Location of mining claims—Adverse claim — Plan — Signature of auxreyor — Amendment — Survey post — Ecidence.]—
In an adverse action for a declaration that the plaintiffs mining claims were valid as against the defendants, and for treespass, the defendants sked for a non-suit upon the grounds that the blan attached to the adjust of adverse claim was not signed by a provincial land surveyor, and that one of the plaintiffs claims was an invalid location because the No. 1 nost had formerly been a survey post of a prior claim:—Held, that leave should be granted to amend the plan that, in the absence of evidence that others desiring to locate in the vicinity were misled by the use of the survey post, there should not be a nonsuit.—Hocksteuder v. Clark. 11 B. C. R. 37, 41, followed. Crossley v. Scanlam (1910), 14 W. L. R. 573.

McDougell v. Johansen, S. W. L. R. 955, 9 W. L. R. 135.

Mineral claims—Relocation — Permission — Fractional claim—Marking line.]—Where a holder of a mineral claim which is the subject of an adverse action causes the ground to be relocated by some one else from whom he purchases it for a small consideration, the provisions of s. 32 of the Mineral Act, requiring permission to relocate, do not apply. The location line of a fractional mineral claim must be marked by the blazing of trees or the setting of posts in the same manner as that of a full sized claim. Supder v. Ransom, Ransom v, Supder, 24 C. L., T. 41, 10 B. C. R. 182.

Mineral claim—Defects in location of —Mistake—Certificate of work.] — The defendant's mineral claim Cube Lode was located in May, 1892, and duly recorded, and certificates of work were issued in respect of tregularly since. The plaintift, in 1898, located and recorded the Cody Fraction and the Joker Fraction claims on the same ground, and attacked the defendant's location on the ground that upon the initial post the "approximate compass bearing" of No. 2 post was not given as required by the Act. The compass bearing was east by north, and not southensterly as stated on No. 1 post:—Held, that the irregularity in locating was not cured by a certificate of work. Per Drake, J., that s. 28 of the Mineral Act cures only thregalarities arising after location and record and which do not go to the root of the title, Celladan v. Coplen, 7 B. C. R.

Overlapping claim—Reneval of application—Restacking, I—In Angust, 1889, M. staked and received a grant for a placer claim, which included part of an existing creek claim, staked previously by W. In 1900, M. applied for and obtained a renewal of his license, embracing the identical ground staked by him in the previous year, and, at the time such renewal was applied for, W.'s creek claim had lapsed. In March, 1901, S. staked a bench claim, embracing the lands in W.'s expired location, which had been overlapped by M.'s claim, as being unoccupied Crown land:—Held, that, although M.'s original staking of the ground in dispute was invalid, yet, as W.'s claim had lapsed at the time of the application for a renewal grant in 1999, M. having been continuously grant in 1999, M. having been continuously grant in 1999, M. having been continuously limit of his area well known, his application for the renewal gave him a valid entry without the formalities of re-staking and applying anew for the original area located by him, and, following the rule laid down in Osborne v, Morgan, 13 App. Cas, 227, S. could not interfere with M.'s possession. Hocking V. Wenzell (Yuk.), 6 W. L. R. 658.

Prior claim—Default in working conditions.]—A mining claim was recorded 3rd October, 1906; 53 days' work was done and filed upon it 27th June, 1907, and 63 days on 24th October, 1907, and nothing more was done.—Held, that the time for doing the 3rd instalment or 2nd year's work expired 3rd January, 1909, and that the claim was thereafter open to restaking.— Whatever may have been the proper interpretation of s. 164 of the Mines Act, 1906, in regard to the exclusion from computation of what was known as the close season, the amendment made in 1907, limiting the exclusion to periods of time shorter than a year, applied to all periods of time commencing subsequently to its passing, though the claim had been recorded previously, Re Kollmorgen & Montgomery (1909), M. C. C. 297.

Prior claims must have lapsed or been abandoned, cancelled or forfeited.]

—H. purchased a mining claim from M. St. allering invalidity of the claim on the ground of fraudulent recording by M. and lack of discovery at the time of staking, restaked the claim in his own name, planting this discovery post upon mineral that H.'s men had opened up, and filed a dispute and an application claiming the property for himself. The evidence put in on behalf of 8, was unsattisfactory, and the circumstances was unsatisfactory and the circumstances to the control of the

**Prior staking**—Abandonment — Insufficient discovery.]—P., McC, and McN, had stakings and applications for mining claims upon the same property in the order named, P.'s claims being recorded; McN. and McC, filed disputes against P., each claiming to be himself entitled to the property; the Recorder dismissed the disputes and upheld P.'s claim. — On appeal to the Commissioner, held by the Commissioner: That an exception in the McN. affidavit to what the Act required to be sworn to as to the lands being open, and the fact that prior stakings and applications existed at the time McN. staked, invalidated the McN, application (following Re Isa Mining Co. and Francey, 26). That the existence of prior stakings also invalidated McC.'s application.—On appeal to the Divisional Court, held by the Court, that a prior staking which is invalid for lack of a real discovery is deemed to be abandoned within the meaning of the Act, and so does not stand in the way of another staking or prevent the making of the necessary affidavit as to the lands being open.— That assuming that P. had no real discovery or real staking, his claim must also be deemed to be abandoned and not a bar to McN.—That adding the words "except applications . . . the validity of which I have disputed" to what the Act requires to be sworn to as to lands being open, does not be sworn to as to lands being open, does not invalidate an application. (Holding Re les Mining Co. and Francey, ante, not applicable).—The fact that stakes and markings found belonging to previous stakings are found upon the property does not prevent a licensee,

Stakin fails to s time, in a the Act, al another d discovery Re McDer who knows that the stakings have lapsed or been abandoned, cancelled or forfeited, from staking out and swearing affidavit for a mining claim upon the same property.—(As to the holding of the Divisional Court as to abandonment see s. 83 of the Act of 1908, as amended in 1900, by c. 25. s. 31 (1), and see notes hereto.) Re McNeil & McCully & Plothe (1908), M. C. C. 252, 13 O. W. R. 6, 17 O. L. R. 621.

Prior staking—Insufficient discovery.]

—A claim invalid for lack of sufficient discovery is not an abandoned one within the meaning of ss. 169 and 131 (1907), and does not until disposed of leave the lands open to a subsequent staking, Re McCrimmon & Miller (1907), M. C. C. 79.

Prior staking.] — Under the Act as amended in 1907, only one staking and record for a mining claim is permitted on the same land at one time, and until it has ceased to exist as provided in the Act other licensees are not entitled to prospect, work upon or occupy any part of the claim. Re Smith & Cobalt Dev. Co. (1907), M. G. C. Q4.

Prior staking.] — While an unexpired and unabandoned valid staking out of a mining claim exists upon a piece of land no right can be acquired thereon by another licensee staking out another claim. Re Haight & Thompson & Harrison (1906), M. C. C. 32.

Prior staking—Working permit.] — A working permit application based on staking done while stakings and applications for ming claims and another staking and application for a working permit existed upon the property — the applicant being by reason of these unable to shew by affidavit as required by the Act that he had no know-ledge of any adverse claim, the affidavit in fact shewing that he had such knowledge though it stated that in his belief the adverse claimants had no bona fide discovery of valuable mineral—was held invalid, under s. 141 of The Mines Act, 1906. Re Isa Mining Co. & Francey (1907), 10 O. W. R. 31, M. C. C. 26.

Procuring staking by non-Heensee.]

—Where a licensee procured a non-licensee to stake out a mining claim, the licensee not being himself present at the staking, and the staking was not and could not legally be recorded, and was not in fact founded upon a discovery of valuable mineral, the licensee a discovery of valuable mineral, the licensee a consideration of the property without a certificate from the Recorder as in that section provided, and a restaking done by him without having procured such a certificate was declared invalid. Re Smith & Mc-Hale (1907), M. C. C. 99.

Staking necessary.]—A discoverer who fails to stake out his claim within proper time, in at least substantial conformity with the Act, abandons or forfeits his rights where another discoverer intervenes with a valid discovery and completes staking before him. Re Molbernott & Dreamy (1906), M. C. C.

Sufficiency—Adopting former markings—Substantial complianc—Honoat attempt—Termity to accretion irregularities.—Where in stability to accretion irregularities.—Where in stability and the substantial compliance of lines, which the staker assisted in making, may be adopted, thus making substantial compliance with the Act, but it is asfer to mark all lines anow.—It seems that where there has been actual discovery and an honest attempt to comply with the law the tendency should be to overlook irregularities in staking so far as the Act will permit. Re Reichen d Thompson (1907), M. C. C. S.

Sufficiency — Assisted by former markings—Form of claim—Irregular tot.]—Where a township lot was irregular and the actual location of its west boundary was in doubt, there being conflicting surveys, laying out a claim in convenient form following the general purpose of the Act to secure compact shape and avoid ill-shaped remnants, is sufficient—It seems the sufficiency of a new staking may be assisted by former markings of the same staker, but the principle of allowing adoption of old markings is rather a dangerous one. Re Henderson & Ricketts (1908), M. C. C. 214.

Sufficiency—Defective posts — Lack of blazing—Substantial compliance.] — Staking out a mining chim with pegs or short pickets instead of posts 4 feet high and 4 inches square as required by the Act, the posts also lacking the requisite markings and the boundary lines not being properly cut out and blazed, is not substantial compliance with the Act and is invalid.—So also a stability of the posts and without properly blazing, marking or cutting out boundary blazing, marking or cutting out boundary lines, the application being also defective in describing property different from that staked out.—Where a claim is being set up against a prior discoverer perhaps a rather strict compliance with the law should be exacted. Re Wellington & Ricketts (1907), M. C. C. 58.

Sufficiency—Defective posts — Substantial compliance, —Failure to erect a No. 1 post and using instead a tree 10 feet from the corner, the tree not being properly squared and not cut off, nor so fashioned as to be readily taken for a mining claim post, is not a substantial or sufficient compliance with the Act; nor it seems is a staking with the discovery post and the No. 1 post only half the prescribed size and the discovery post only 16 inches high. Re Smith & Prinder (1908), M. C. C. 241.

Sufficiency—Delay — Adopting staking—Merits—Technicality, I.—M., having no real discovery and not believing he had one, on 21st August staked out a mining claim, omitting a discovery line, his purpose being to hold the land till word came that a former claim had been cancelled on the received, he pulled up the posts and planted and marked them afresh for that date, again omitting to blaze a discovery line; word came later in the day that the old claim had been cancelled on the 20th, and M. allowed his staking to stand, S. on behalf of D.

Sufficiency — Lack of posts and markings.]—Failure to go around the claim, omitting the planting of 3 of the corner posts, and the blazing of the lines, and failure properly to mark the discovery post, renders the staking of a mining claim invalid. Re Milne & Gamble (1908), M. C. C. 249.

Certificate of work—Impeachment of Evidence—Mineral Act, s. 28—Amendment Act, 1828. s. 11—Parties—Atterney-General.]—Appeal from judgment dismissing the plaintiff's adverse action. The defendant relied on certificates of work obtained by him in respect of the mineral claims covering the ground in dispute, and the plaintiff's sought to shew that the full amount of work required by the statute as a pre-requisite to such certificates of work being issued had not been performed. The trial Judger refused to admit the evidence, holding that evidence impeaching a certificate of work could not be received in any proceeding to which the Attorney-General was not a party. The full Court alliended the decision, holding that if a certificate of work is to be party, and until set aside all things are presumed in favour of its holder. The plaintific making their case admitted that the defendant had obtained certificates of work:—Hetal, by the full Court, that this in itself was allimative evidence of the defendant's title, by the full Court, that this in itself was allimative evidence of the defendant's title, within the meaning of s. 11 of the Mineral Act Amendment Act of 1898. Distinction between failure to perform and failure to file work—Dutics of Recorder.)—If work upon a claim has been done but report of it has not been filed, forfeiture does not occur until the 10 days allowed for filing (in addition to the time allowed for doing the work) have expired. close season, the amendment made in 1907, illimiting the exclusion to periods of time shorter than a year, applied to all periods of time commencing subsequently to fix passing, though the claim had been recorded previously,—Maintenance in full effect of the law of working conditions is of vital importance and the Commissioner and Recorders should be careful not to exceed the powers of relieving from forfeiture given them by the Act, Re-Kollmorgen & Montgomery (1909), M. On the 3rd December, 1898, hydraulic regulations were passed. A lease was issued to B. on the 5th November, 1900. B. assigned this lease to the defendants. The plaintiff located a quartz or mineral to B. on the 2nd November, 1899, and a record was issued to him on the following day: -Held, that the Commissioner had no power in June, 1898, to withdraw from entry the lands which he attempted to withdraw; his powers were defined by the order in council of the 17th August, 1897, and that power was not included. These lands were, therefore, open for location up to the time that the plaintiff staked: and, as the plaintiff had his location and record or grant before the issue of the hydraulic lease, the Crown could not afterwards derogate from its grant, unless there had been a fixed agreement concluded between it and B. as to the extent and terms of his hydraulic lease.—Held, also, that the grant to the plaintiff was governed by s. 33 of the regulations in force at the time, and by that the Crown, where the surface rights have not been already disposed of, grants them to the locator of the mineral claim.— Held, also, that the Crown intended to withdraw the granting of the lease to B. until regulations were passed to cover that kind of transaction, and that the nature of the lease -the ground covered and the character of the ground-was not determined by the Crown

until the regulations were passed, and that these regulations were intended to cover the grant to the plaintiff and similar ones; and, therefore, the defendants took no interest whatever in this piece of ground covered by whatever in this piece of ground covered by the plaintiff's location as a mineral claim, and it was absolutely cut out of their lease. Arrears of principal as well as interest—Distress for Rent Ordinance, s. 5— Application and meaning—"Assign"—Repregaged land to the defendant to secure \$476 and interest, to be repaid one-half, with interest, on the 1st November, 1908, and the terest, on the 1st November, 1908, and the other half, with interest, on the 1st Novem-ber, 1909. The first payment was not made and was still due and unpuid when the de-fendant on the 28th September, 1909, seized the 1909 crop. The memorandum of mort-gage, under the Land Titles Act, contained a rental equivalent to and applicable in satisfor the mortgagee to enter, seize, and distrain upon any goods on the lands, and by distress mortgage, became sub-tenant to his rather or the mortgaged lands for one year, and as tenant took off the 1909 crop, which was seized by the defendant. In the distress warrant it was said that the distress was to be made by virtue of power for that purpose contained in the mortgage; and the distress was for \$572.25, the whole amount due for principal and interest by virtue of the ac-celeration clause. By s. 5 of the Ordinance respecting Distress for Rent, C. license clause, could not have distrained the the mortgagee took subject to the lease as assignee of the reversion, and was bound to respect the tensur's rights, but might, on de-fault, become entitled to the rent and assume the position of landlord without the tenant's consent. In the case of a lease made after the mortgage, the mortgagee, being assignee, not of the reversion, but of the whole estate of the mortgagor, might treat the tenant as a or the mortgagor, might treat the tenant as a trespasser and eject him without notice. Rogers v. Humphreys, 4 A. & E. 299, and Evans v. Elliott, 9 A. & E. 342, followed. Although the effect of a mortgage under the Land Titles Act would not be to vest all interest in the mortgagee, the result would be the same, and the only recourse the mortgagee would have against the sub-tenant would be that of an action or proceeding for the re-covery of possession. Section 5 above quoted had, therefore, no application. Per Wetmore, C. Both Mr. and Mrs. Plenderleith died before 4th May, 1891, and the result was, that the equity of redemption was vested in their executors at the time of the foreclosure action and judgment; they were properly made defendants as the owners of the equity, and the present plaintiff, Eliza Plenderleith, the devisee of her mother, was neither a necessary nor a proper party to the foreclosure action. The mortgage contained a provise that S, should well and truly and comfortably support and maintain E.—S, did not comfortably maintain E., and she left the home of S, and was harboured and supported by the plaintiffs who also took out letters of administration to M's estate:—Held, that the transaction could be treated as a mortgage; and foreclosure was accordingly granted.—Semble, that if necessary a trustee could have been appointed. Rate of interest — Loan company Pledge of shares by mortugoro—Forieiture assignate action.]—The defendant, having certain shares in the plaintiff company, obtained a loan of 8000. The shares were allotted and the loan granted upon certain conditions, which included the payment of a membership fee, and certain monthly dues and the execution, as collateral security, of a mortrage, which was to continue until the naturity of the shares, or until payment of the loan was made. To interest on loans the shear of the loan was made to interest on loans and cleared to be 6 per cent, but under the provisions of the mortrague executed by the defendant, the rate of interest payable where the stock payments, dues and interest were not promptly paid, was 15 per cent.—Held, that, the defendant having made default in her payments, the company were entitled to payment of the amount due them, with interest at the latter rate. The company is not be considered in the foreclosure suit. If her shares were wrongly forfeited, the defendant's rights as a shareholder were to be sought in a separate action, and afforded and defence to the foreclosure suit. Canadian Mutual Loan Co. v. Real Property Act—Certificate of title—Release of covenants for payment—Action for indomnity—Defence—Parties — Addition of J.—By transfer under the Real Property Act, the ulniniff conveyed land to the defendant, subject to two mortzages. By virtue of the Act, the transfer implied a covenant by the defendant to indemnify the plaintiff against his covenants in the mortzages. The defendant did not observe this implied covenant, and the mortgages recovered judgment against the plaintiff for the amount due on the mortgages, after which the plaintiff gave the mortgages and the plaintiff obtained, by virtue of the foreclosure proceedings, a certificate of title to the mortgaged lands. About a year afterwards the mortgages realised a large sum from the collateral security. By this action the plaintiff claimed payment of the amount due on the mortgages, invoking the implied covenant for indemnity. The defendant, by an amendment

made at the trial, set up that the mortgagees had, by their forcelosure proceedings and this ing a certificate of title, released the plaintiff from his liability on the covenants:—Held, that the question so raised could not be litigated in the absence of the mortgagees, and the plaintiff should have leave to add them as defendants; and, if this was not done, the action should be dismissed. To an action brought by a first mortgage for foreelosure, the defendants, purchasers of the equity of redemption, pleaded that after the making of the plaintiffs mortgage, the mortgage made a second mortgage of the same lands, which was still outstanding and uppaid. All the conveyance to B. (being only a quit claim deed) could not be treated as an exercise of the power of sale because it did not purport to grant the whole estate in mortgance, but only the interest of the grantor, which was really only that of a mortgage, 4. The power of sale cannot be properly exercised by the mortgage accepting other property in exchange, unless there is no value in the equity. Smith v. Spaurs, 22 O. R. 286, explained and distinguished, 5. B. was entitled, on being redeemed, to add to her claim the costs of the sale proceedings up to but not all the costs of the sale proceedings up to but not and (following Harvey V, Tebbutt, 1, 1, & W. 197) the costs of the action so far as it was for redempting only, but she should pay the plaintiff the costs of costs of the sale with the costs of the plaintiff and of B. Payment — Acceptance — Estoppel Fisidings of jury.]—In an action to foreclose a mortgage one of the chief grounds of defense was that the amount claimed had been placed by the defendant in the hands of M., a solicitor, to be paid over to the plaintiff, and that the plaintiff, after notice of such payment, induced the defendant to believe that he accepted such payment as a payment to himself, and that the plaintiff, after such notice, by failing to press for payment, prevented the defendant from recovering the amount from M., who had become insolvent and unable to pay. The jury found in answer to questions submitted; (2) that the plaintiff by his conduct, after the payment to M, led the defendant to reasonably believe that sale payment to himself; but (5) that the position of the defendant, in consequence of such belief, was not changed for the worse. The trial Judge, notwithstanding the "fifth finding, ordered judgment to be entered for defendant with costs; — Held, that a letter written by the plaintiff to the defendant did not support the fifth finding of the jury, and that the finding must be set aside. 2. That the fifth finding, even if supported by the evidence, was insufficient to complete an estoppel. 3. That to shew detriment to the defendant, it would be necessary to shew that the money was in the hands of M, at the time, and that the defendant, but for the letter written by the plaintiff, would have the content of the part o

L. R. 133; —Held, that the defendant D. was not personally liable, as he committed no wrong in taking the assignment of the mortgace, and in exercising the power of sale wrought no change in the plaintiffs' rights, as the property in the plaintiff is the property of the plaintiff. Business and control; it was his sale and his act that periodiced the plaintiff. Jungment below varied, Smith v, Hunt, 22 C. L. T. 120, 4 O. L. R. 653, 1 O. W. R. 508, 798.

 —Held, in an alteration of the character or condition of the mortanged estate, where the mortgange was in a position to reconsequently to the work of the land itself, that there was no good reason why he should not be entitled to recover the mortgange money after deducting from it what may be sufficient to compensate the mortgange for the injury done to the mortgange for the injury done to the mortganged property by the wrongful net or default. Reference to Munsen v. Service of notice - Fraudulent scheme Exchange Votice by solicitor's know-ledge, 1—In April, 1900, plaintiff mortgaged land to defendant McK, to secure \$140 and interest; the whole to become due in the following December. The mortgage providgage was made, plaintiff paid McK, \$2.50 for interest. In January, 1901, plaintiff 1901. Until two weeks before leaving plaintiff lived on the mortgaged land planting free on the mortgaged and.
Shortly after plaintiff left, his brother paid
McK. 832 on the mortgage. About 25th
February, 1901, McK, took proceedings to
sell under the power of sale; a notice of
intention to sell was fastened to the door on plaintiff personally. The property was 1901. Before the sale McK. arranged with D, to bid as if for himself, but in reality for McK. D. hid, and the property was knocked down to him. A deed purporting to be in pursuance of the power of sale, was executed by McK. to D., for the ex-pressed consideration of \$195, and a quit claim deed by D. to McK.'s wife, for the expressed consideration of \$200. McK. paid \$5, but otherwise no money was paid by or ties was effected with one B., McK.'s wife executing a quit claim of the plaintiff's land in favour of B :- Held, that the pretended sale to D. and the deed by D. to McK.'s wife were in pursuance of a fraudulent scheme by McK, to become the owner of plaintiff's land for much less than it was worth, and the sale was declared void, 2. That the service of the notice of sale was good, 3. It was contended that B. had no-tice of the fraud by having employed the same solicitor who had conducted the sale proceedings.—Held, that there was no presumption that the solicitor would communicate his knowledge to B., as it would be against his interest to tell. 4. The fact that on the day of the alleged mortganged sale, B. found that the mortgange or his wife claimed to absolutely own the land, was notice enough to put B. on inquiry. As she did not make such inquiry, she could not avail herself of her ignorance. The best position she could hold was that of an assignee of the mortgange. 5. A power of sale could not be exercised by an exchange of the land instead of by a sale for a price. Smith v. Sperzs, 22 O. R. 283, dissented from. Winters v. McKinistry, 22 C. L. T. 213.

Surplus proceeds—Payment into Court—Claim of caveator—Faliure to establish lien—Priority of incumbrances—Land Titles Act, s., 2(7), 73, 84. — Effect of filing covent,—Under the Land Titles Act, s., 23 and SI, priority of resistration gives priority of interest. The filing of a caveat is not registration of an incumbrance nor is a caveat an incumbrance: Land Titles Act, s. 23, s. 3, —Land having been sold under the plaintiff's mortgage, the surplus after payment of the plaintiff's claim was paid into Court, and R. & Co., who had filed a caveat arainst the mortgaged land before the registration of a second mortgage, asked for payment out of the surplus to them. They claimed a lien upon the land, but had not registered in or established it:—Held, that until R. & Co. established by a judgment in an action that they were entitled to a lien, and that lien had priority over the second mortgage, they could have no claim to the moneys in Court, which should be applied towards the satisfaction of the next registered incumbrance. Gilbert v. Ullerich (1911), 16 W. L. R. 400. Sask, L. R.

Tender of mortgage money—Place and of lands nortgage advertised a sale of sale in a mortgage advertised a sale of lands near Kimearoine, to take place there on the 19th January, on the 17th January, at eleven a.m., the mortgagor telegraphed to the defendants at Toronto asking amount required to pay mortgage, to which the defendants telegraphed a reply. At ten a.m., on the 19th January the defendants received at Toronto the amount named, but, in accordance with their office procedure, the accountant was not aware of this till about eleven a.m., when, knowing the property was up for sale, he telegraphed and telephoned the fact

to Kincardine. The sale had, however, been made a few minutes before to the plaintiff. The defendants then returned the money to the morigagor:—Held, that the plaintiff was entitled to specific performance, for the morrgagor had not tendered the amount at such a reasonable time before the sale as to make it obligatory to receive it as payment. Gentle v. Canada Persument & Western Canada Mortgage Corp., 21 C. L. T. 143, 32 O. R. 428.

Time for holding sale.]—Section 31 of the Sask. Interpretation Act declared mountain standard time to be the time for the province. Where lands were ordered to be sold at 12 o'clock noon and the sale was carried out on local time, one hour carlier than standard time, the sale was held to be freeming. Great West Life v. debtor in land subject to more than one mortgage made by bim, are nevertheless incurbrancers upon that interest, and upon the proceeds thereof in the event of a sale of the

who sells the land and pays off an incumbrancer who holds, to his knowledge, collareral security, must take over that collateral

Priorities — Payment by sale of other property — Improvements — Security, I — Action for a declaration of hypothee or the new and the property in the property of the claim of the plaintiff, and that his hypothee was also prior. The plaintiff replied that the defendant had been paid his privileged or prior claim by the sale of other immovables hypothecated for the same debt. The defendant rejoined that he had not been paid his neither depth of the property. The plaintiff denied the improvements, and alleged that, in any event, they were off-set by the rents and profits. Finally, the defendant denied the off-set: I have been property of the plaintiff denied the improvements; that he had received from the sale of other immovables a sum exceeding his claim; that his debt was therefore extinguished, and he was not entitled to security. Bestivat V. Bastien, 4 Que. P. R. 294.

Rents and Profits—Collateral indebtedness — Appropriation of receipts. —A mortgage, in receipt of the rents and profits of the mortragage, from time to time sold goods to the mortgagor, and the latter upon a settlement of accounts assented to the receipts being applied first in payment of the account for goods sold:—Held, that an incumbrancer whose rights accrued after the account for goods sold:—Held, that an incumbrancer whose rights accrued after the account for goods sold:—Held, that an incumbrancer whose rights accrued after the account for goods sold;—Held, that an incumbrancer whose rights account and the account for goods and the sold of the rents and profits necessarily and irrevocably reduced the mortgage debt as they were received. J. had applied to (the plaintiff's assignor) for a loan of \$1,000, and it was arranged between J., P., and the defendant, that P. should be given a mortgage upon the property covered by the title deeds to secure the loan, and that that mortgage should be a first charge upon the mortgage snows be a first charge upon the land:—Held, per Macdonald, C.J.A., that a first mortgagee is entitled, as against his mortgager, to all the title deeds; and the plaintiffs were entitled to them as against the defendant, who had consented to the giving of the mortgage as a first charge.-Per Irving, J.A., that the defendant's own evidence shewed that he led P. to believe that he would be safe in lending the money to J.; and the defendant was, therefore, estopped from setting up any right which would cut out the mortgage taken by P. to secure repayment of the loan; and there never was any agreement between J. and the defendant that the latter should have a lien.—Per Martin, J.A., that the facts in evidence did not warrant the application in favour of the defendant of the principle upon which the retention of title deeds may be justified. ## 1. Administration of Justice.

Police magistrate — Office — Station-rep. — The police magistrate of a town cannot require the corporation to provide facilities for the transaction of business not strictly appertaining to his office of police magistrate, such as business relating to an adjoining county of which he is a justice of the peace, nor is he entitled to a private office in addition to a public one. It is sufficient if a suitable room or chamber for a police office is provided in any building belonging to the municipality (in this case the council chamber), although by piler business may be inited.—A municipal corporation is liable to a police magistrate for a claim for stationery, although extending beyond a year. Mitchell V. Pembroke, 20 C. L. T. 70, 31 O. R. 348.

Sills v. Lennox & Addington, 20, C, L, T, 101, 31 O, R, 512.

#### 2. Arbitration and Award.

Costs—Discretion.1 — An arbitrator appointed under a 437 of the Municipal Act, R. S. O. c. 223, is given power by s. 460 "to the other of the costs of the arbitration or of any portion thereof:"—Held, that the discretion thus given must be a legal discretion, and the arbitrator should be governed by the rule that where a plaintiff comes to enforce a legal right, and there has been no misconduct on his part, the Court cannot take away his right to costs. And there being nothing in this case to warrant any departure from the rule that the unsuccessful party should bear the whole costs of the Hitgation, the award was modified accordingly. Re Pattullo & Orangeville, 19 C. L. T. 388, 31 O. R. 192.

Evidence of arbitrator—Admissibility of—Separation of territory from town and annexation to township—Valuation of assets and liabilities—Subjects of and mode of.]—On a motion to set aside an award made by two of the three arbitrators—the third arbitrator dissenting—appointed under s. 18 of the Municipal Act, 1803, 3 Edw. VII. c. 19 (O.), for the settlement of the terms and conditions of the separation of territory comprised within the limits of a town, and its annexation to an adjoining township,

and for the adjustment of the assets and liabilities on such separation, the evidence of the dissenting arbitrator as to the basis on which the valuation of the assets and liabilities was made is properly admissible.—In the valuation of the assets and liabilities: (1) school houses are not proper subjects of valuation, being vested in school boards whose limits of control may or may not be the same as that of the municipal corporations; (2) sidewalks are properly such subjects, for though under s. 500 of the Act the soil and freehold thereof are vested in His Majesty, yet the possession and control of and liability therefor are in the municipal corporations, and in no other body; (3) mistakes in the construction of the municipal corporations, and in no other body; (3) mistakes in the construction of works, e.g., waterworks, should not be given effect to in the reduction of the value of the asset, being common incidents of such construction. Injury to lands of private owner— Lowering grade — Arbitration — Vancouver Incorporation Act.]—The owner of property abutting on a street, the grade of which has been lowered by the corporation, is entitled to an arbitration to determine whether his property has been injuriously affected. Bishop of New Westminster v, Vancouver, 14 B. C. R. 130, S. C., sub nom. Re Roman Catholic Bishop of New Westminster and Vancouver, 9 W. L. R. 587.

Lands injuriously affected — Interext. — If in the construction of a public work by a municipality land of a private owner is injuriously affected, and the compensation, therefor is determined by arbitration, interest cannot be allowed by the arbitrator on the amount of compensation awarded. Judement in 19 C. L. T. 263, 26 A. R. 351, affirmed. Re Leak & Toronto, 20 C. L. T. 221, 30 S. C. R. 321.

Limitation of actions—Mandamus.]—The limitation of one year prescribed by a. 244 of the Municipal Clauses Act for commencing actions against a municipality, applies to mandamus proceedings to compel a municipality to appoint an arbitrator to determine the amount of compensation for land taken for road purposes. Regina v. District of Mission, 21 C. L. T. 398, 7 B. C. R. 511.

Removal of building — Compensation — Damagors—Hation to set aside area?, —In an action to set aside an award made under the Towns Inco.poration Act. 1888, s. 147, the award was set aside as bad on its face, because the subject of damagres caused by the removal of a building and fence had not been properly dealt with; the arbitrators, in this connection, having considered only the tiem of the rent the owner lost while the building was being removed.—Arbitrators, in proceedings under this chapter, have no power to provide for compensation except by awarding money.—Effect of laches, in proceedings to set aside award, considered. Res judicata — Construction of aqueduct — Exclusive privilege—Monopoly.]—To an action brought to recover a bonus of \$3,000 voted for the construction of an aqueduct, a municipal corporation cannot plead

matters which it has already invoked and which have been pronounced against in an action which has been finally dismissed by the Supreme Court of Canada, and which was instituted by such corporation to set aside the contract in pursanae of which the bonus was voted.—2. A municipal corporation may pass a by-haw granting a bonus to persons who undertake to construct an aqueduct with the limits of the municipality.—3. A municipal corporation, by virtue of art. 637, C. M., may grant an exclusive privilege for not more than 25 years to persons who undertake to construct an aqueduct within the limits of the municipality.—Such privilege, if it is limited to the exclusive right to lay pipes in the streets, is not unconstitutional and does not constitute an illegal monopoly.—4. Even if the terms in which such privilege has been of the contract and by-law totally void, and the bonus granted are of such a nature as to extend this privilege to a period exceeding 25 years, that would not make the contract and by-law totally void, and the bonus granted by such contract and by-law for the construction and working of the aqueduct can always be claimed. must determine by by-law which of its ratepayers shall contribute to the maintenance of
such bridge; the effect of the decision of the
board of delegates not being to charge the

numicipality. Although it may be irregular
to impose the work in connection with a
bridge upon the owners of parcels of land
designated on a plan by different numbers,
without indicating the number of the local
stream flows, nevertheless such irregularity
is not sufficient to make the by-law void, if it
is proved that these lands, although they
bear different numbers, form only one and the
same parcel. Nevertheless, a municipal
bridge being in principle a charge upon all
the ratepayers of the range upon which it is
situated (Art. Söd, C. M.), certain ratepayers of this range cannot by by-law be

Such a debt, resulting from a quasi-fort, is

due severally by all those who are charged with the maintenance of the bridge, and cannot be apportioned among them according to the extent of their properties and in the proportion in which they are lable for the work of the bridge. Pinsonnault v. St. Jacques to Mincur, 18 Que. S. C. 380.

Factories—Regulation of location of — Decision as to locality left to council—By-law should designate places.]—A by-law of a municipal corporation, by which "the establishment or operation within the limits of this numicipality of any factory, saw mill, or other mill run by steam is forbidden without in the first place conferring with the council, and obtaining permission to error such mills, said council to determine where such mills may be established, is recommended to the such mills may be established, is a constant of Arts. 615 and 648. C. M., and a by-law of this kind, to be valid, should contain in pain terms an enumeration of all the conditions on which the council will give leave to build, and should designate the places in the numicipality where such works may be established. Fireman killed on duty — Resolution—Indomnity to heirs.]—A resolution by a municipal council that "an indomnity of \$1,000 shall be pain to the heirs of firemen killed in the fulfilment of their duties," is valid and binding on the corporations, under a general clause of its character empowering the council to make by-laws "for the peace, order, good government and general welfare" of the municipality. It is further valid, under a clause of the charter which gives the power to pass by-laws to hire firemen, as a condition to such hiring. Nor is the validity of the resolution in question affected by the circumstances that a clause in a former charter, that gave the power in express terms to grant such gratuities by by-law, is omitted from the existing one. Illegality — Limit of time for attacking — Meeting of council—Notice—Minutes — Time for by-law going into operation.] —

The right to attack a municipal by-law for ilicality is prescribed fire 30 days, counting from its coming into force: Art, 708 of the Municipal Code,—2. The absence of any mention in the minutes of the meeting of a municipal council at which a by-law had been attacked, that notice of the meeting has been attacked, that notice of the meeting has been sent to the absent councillors, is without effect upon the validity of the by-law, if in fact that notice has been given,—3. By-laws, unless the contrary is expressed, come into force 15 days after their promulgation, and a notice given by the secretary-treasurer of a corporation that a by-law would come into force 30 days after the notice, has not the effect of retarding the coming into force of the by-law. Filiatroult v, Coteau Landing, 21 Que, S. C. 302.

Higgality — Rules of construction.]—A by-law having for its object the closing of the Craigflower and read thus: "That portion of the Craigflower road by-law No. 127, being the 'Craigflower road the coopening by-law, 1990,' declared to be a public highway, is hereby stopped up and closed to public traffic." The word "by" was omitted in-advertently from between "pod" and "by-law," and by the strict grammatical construction a former by-law dealing with the same road was declared closed instead of the road itself.—Held, that the words "by-law No. 327, being the Craifflower road recogning by-law law of the control of the road itself of the road itself of the road was deceriptive of the portion of the road referred to, thus giving the hy-law as sensible meaning and the one intended. M., which forbid municipal corporations to borrow otherwise than under a by-law, do not apply to a temporary borrowing, of a small amount, to provide for immediate needs. Therefore it is legal for a municipal council to pass a resolution authorising the mayor and the secretary-treasurer to borrow, upon promissary note, in the name of the corporation, a sum of \$500, to provide for urgent requirs to sidewalks and roads, Girong v, Cotean Landing, 17 Que, S. The interest which ratepayers have in common in the proper administration of municipal affairs is not sufficient. Emard V. St. Paul, 33 Que, S. C. 155.

New road—Compulsion—Uncertainty.]—Upon the request of certain cotton mill companies, a parish municipality adopted a bytam requiring the plaintiffs to open a municipal road to communicate with the rest of the parish. This road was intended to give a means of communication with the public road to the occupants of cottages built for workinen in the mills. In order to open the road ordered by this by-law, the plaintiffs would have been obliged to remove several of their posts, to pull down houses, and to erect works of considerable value. The by-law stated that for its whole course the road should be as far as possible of the level should be raised wherever necessary that the level should be raised wherever necessary with the level should be raised wherever necessary that the level should be raised wherever necessary that the level is not possible, of the greatest width possible, for the greatest width possible, the plaintiffs were already maintaining a road in front of their property:—Held, that it did not fulfil the conditions required by law, and was, besides, oppressive. Therefore, a municipal elector who, having brought an action to quash a municipal by-law, ceases in the course of the action, by reason of the alicantion of his immovables to be a municipal elector, cannot afterwards proceed with his action. The subsequent acquisition of an immovable of the value required by law does not restore to him the qualification lost; it is necessary for him further to be inscribed upon the list

of electors, the inscription of his vendor not being available to him.—2. A by-law subject to the ratification, expressed by vote, of a class of persons, remains in the position of a propose by-law, as long as the vote has not been taken; and a proceeding to quash it taken during the interval is premature. This lot was not in a position to be expropriated, and it was bright and the was rejected by the commissioners on the ground that the plaintiff must have known. Nevertheless, he are and made a claim, which was rejected by the commissioners on the ground that the annual expropriation related only to the widening of streets already opened, and not to the opening of new streets, and this decision was homologated by the Court. Afterwards the defendants were authorized by the Legislature to suspend the projected expropriations:—Held, that, under these circumstances, the plaintiff could not recover the costs which had inqureed in submitting his claim the defendants to proceed with the expropriation; but the Court reserved to the plaintiff his right to proceed for damages, etc. Gallefer v. Municipal charter — Plan — Homolopation—Resolution — Formalities.]—When a municipal charter contains general provisions touching the expropriation of immovables and particularly provisions permitting a plan to be made of the municipality, shewing the streets and their alignment, and making it the duty of the corporation to give effect to such indications after homologation of the plan by the Court, such provisions are regarded as forming an exception to the former ones. Consequently, the municipality may, by a simple resolution, authorize payment for the lands indicated and treat with the owners by virtue of such resolution, without observing the formulaties prescribed by the general provisions touching exprepriation, Guay v. Marsan, 16 Que. K. B. 6.

from the owners certain land in a residential
locality, on which they proposed to erect carharns, being a purpose authorized by the
agreement with the city corporation, as validated by 53 V. e. 90 (O.), and submitted the
plans to the city council for approval, whereupon a pelition was presented to the board
of control, by the vesidents of the locality,
askins the proposed use of the land, as well
as against the laying of tracks on certain
streets as a means of access to the barns,
which was referred to the corporation's counsel for his opinion as to the city's powers.
The city had at that time under consideration the acquisition of a specified block of
land in the locality for park purposes, but,

struck out, and the question of procuring
park lands referred back to the committee,
and on the following day, but after the plaintiffs had commenced this action, the architeet was instructed by the beard not to deal
with his plans pending the result of the pro-

posed expropriation proceedings. There was nothing to shew that the course pursued by the city was not actuated by good faith. In an action for a judgment declaratory of the company's right to so use the land:—Held, that, while there was undoubted power in the Court to grant declaratory judgments, it was a discretionary power; and that, in this case, the exercise of the discretion by the trial Judge, in refusing to grant such a judgment, should not, under the circumstances, be interfered with.—The right of a municipal corporation to exercise its expropriatory power discussed. In the city of Winnipeg a subway was constructed under the Canadian Pacific Rail structed under the Canadian Facilic Railway tracks on Main street, and King and Princess streets were closed. By s.-s. . ." And s.-s. (cl) provided for an appeal to a Judge from the determination of the council :- Held, upon an appeal by the property-owner from the determination (by by-law) of the council that he was not entitled to compensation (i.e., excluding his land from the compensation area) that the Judge must consider all the metters that C.C.L.-94

would necessarily be weighed by the council when the by-law was before them, the injury, if any, sustained by the appellant by the closing of King and Princess streets, but also the benefit derived from the improvement of Main street by the construction of the subway.—And held, on the evition of the subway.—And held, on the evitation of the subway is a subway of the tion of the subway.—And neta, on the evidence, that the detriment to the appellant's property was more than offset by the advantage accrued to it:—Held, also, upon the evidence, that the appellant had suffered no damage which was not common to all those owners who had formally the right to use the closed streets; owing to the proximity of the closed streets, owing to the production of the closed streets to his property, his dampage would be greater in degree, but not different in kind, from the more remote owners, and it would extend on a diminishing scale until it faded out entirely; it would be impossible to draw a line beyond which it could be said no damage was sustained.—
Held therefore, that the appellant would have no right of action at common law, and his land was not "injuriously affected," within the meaning of the statute.—The King v. McArthur, 24 S. C. Appeal from City Court - Charlotte-Appeal From Oxy Court — Chariote-town Incorporation Act — General Tres-pass Act, 12 V. c. 16, s. 14 — Nuisance — Obstructing the continuations of the streets Obstructing the continuations of the sirects on the ice — Variance, 1—The appellant had been fined £1 in the City Court for placing obstructions near Pownal wharf on such part of the ice as formed a public street and highway. The legality of the all public nuisances." The legality of the by-law being disputed respondent also relied on the General Trespass Act (12 V. c. 16, s. 14), which imposes a penalty of £5 on all persons doing "spoil or damage" to any public way, etc. The evidence shewed the obstruction in this case to be off the line of the street, and the question to be considered was whether the public had a way by prescription or otherwise on the ice over appellant's land in winter and of navigation in summer. The summons alleged that defendant placed an "obstruction on the pubto Hillsborough river, the same being a public street of Charlottetown." The conviction was for having placed the obstruction "upon the ice of Hillsborough river within one hundred feet of Pownal wharf, and on one hundred reet of Fownal what, and on such part of said ice as forms a public street of the city, and a public highway from the river into, to and along the con-tinuation of Pownal street, etc., and did, thereby, greatly impede and obstruct the said public highway." Appellant contended that there was a material variance between the summons and conviction, and that the

latter must be quashed on that ground. He also contended that the City Court and this Court of Appeal had no jurisdiction to decide the matters in dispute:—Heid, Hensley, J., that the question being one of public and private rights and of this in the jurisdiction of magistrates under the Trespass Act, nor of the City Court under the Act of Incorporation.—That there was a material variance between the summons and conviction, and on that ground the conviction could not be supported. After a petition had been presented to a city council for the construction, as a local improvement, of certain bridges over the tracks of certain railways where they crossed one of the streets, and asking that a proportionate part of the cost should be imposed on the railways and on the city generally, and after lengthened procedure in which the validities and work were questioned, a by-law was pussed purporting to be made in pursuance of a petition of ratepayers under s. 634 of the Municipal Act, whereby the matter of the assessment for the cost of the said work was referred to the city engineer made his report, and a reference thereof was then made to the Court of Revision, whereupon that Court determined that such assessments under it of Revision, whereupon that Court determined that such assessment was invalid and refused either to confirm it or to make any assements under it of the court of Revision of prohibition was therefore refused. In an action by a ratepayer, on behalf of all ratepayers other than the defendants, against the members of the council who sanctioned the payment out of the general funds of the town for work done in reconstructing a sidewalk, and against the corporation of the town, the claim was that the individual defendants might be ordered to pay to the corporation the moneys expended in the construction of the sidewalk, and that the defendants might be enjoined from paying any further moneys in respect thereof:—Held, that the members of the council who were sued, having acted in good faith and under the bona fide belief that they were doing their duty as trustees for the body of ratepayers in paying out of what was practically a new sidewalk, even if they had misconstrued the meaning of the statutes, which was by no means clear, at all events acted honestly and reasonably and were entitled to be excused for the alleged breach of trust.—Semble, that 62 V. Powers conferred by statute on municipal bodies — How exercised—Seizure of things authorised by law under special circumstances - How and by whom it may the effected—Exercise of statutory powers by the Provincial Board of Health.] — Held, (1) When power is conferred by statute on a municipal corporation to establish a board for a certain purpose, and "to define and regulate the duties, powers and attributions of its officers," a board so created cannot proceed to act or carry out its purpose, until the duties, etc., of its officers have been defined. (2) Likewise, when power is given by statute to a municipal corporation to provide for and regulate the inspection of food products, and to define the duties, powers and attributions of the inspectors appointed for that purpose, a by-law to regulate such inspection is inoperative, if it does not further define the duties, etc., of the inspectors. (3) When a by-law to create a board, as mentioned above, provides that "any member or officer of the board" may seize and confiscate certain things under certain circumstances, and such a seizure can only be made by such a member or officer, and is null and void if made by any one else, even under orders or instructions of the board. In like manner and under pain of the same nullity, none but an executive officer of the Municipal Sanitary Authority, or any other officer appointed by it for that purpose, is competent to make the inspection and seizure provided for in section 2013, R. S. Q., 1900. (4) A letter signed by a person as "Food Inspector" addressed to the holder or depositary of food products, and giving him notice that such goods are under seizures, is not a science such as contemplated either in the hy-law or in the section of the R. S. Q. above cited. (5) In the use of the power conformed upon the Provincial Board of Health by section 3875, R. S. Q., 1909, "to compel numbral councils to exercise and enforce case demands," it should deal directly with such councils. Therefore, a notice by it, for such a purpose, addressed to "La Corporation de la Cité de Montreal" but delivered to the board of commissioners of that city, is irregular and void. Layton v. Montreal, 29 Que. S. C. 529.

Presence at meetings — Mandamus—Penalty—Nonfeconor—Discretion of Court.]
—A municipal councillor is a person occupying an office in a corporation, within the meaning of Art. 902, C. P.—2. One of the duties attached to such office is that of being present at the sittings of the council.—3. A councillor who, while he retains his office, conspires with others not to be present at the sittings of the council in order to prevent a quorum being present, and thereby to prevent the council from exercising rights or powers or functions which it is obliged to exercise within a certain limit. In corporation who omits and neglects to perform a duty attached to such office, and, according to the terms of Art. 1902, he may be ordered by mandamus to be present at the sittings of the council.—4. The fact that a penalty does not prevent the issue of the mandamus, Semble, that a municipal councillor is one of the persons aimed at by Art. 50, C. P., subject to the rights of surveillance and direction under the orders and control of the Superior Court and its aluges. Stable by the council, there is no penalty upon a councillor who conspires for the purpose aforesaid, Semble, that there is nonfeasance of office on the part of a councillor who conspires for the purpose aforesaid, Semble, that there is no matter largely in the discretion of the Court or large. Quo warranto — Councillor legally incapacitated from filling office — M. C. 203, 246, 386—C. P. 987.]—Proceedings in the nature of quo warranto are permissible against a nunleigal councillor who is incapacitated under the provisions of Article 203 of the Munleipal Code, even when such incapacity existed at the time of his election. The special jurisdiction given to the Greatt Court and the District Magistrate's Court quood contestations of the "appointment" of nunlcipal councillors made by the electors does not include cases against those who are incapacitated by law from "filling" nunicipal offices. In such cases, the Superior Court has jurisdiction. Leggo v. Jeneel (1910), 17 R. ds. J. 244.

C. 328.]—(Reversing Rachon, J.)—A municipal councillor appointed by the Lieutenant-Governor in Council has the right to act even after he has received a telegram from the provincial secretary informing him that his commission has been revoked. Such revocation only takes effect after the receipt of the official elter of the provincial secretary and after notice giving effect to it by the secretary treasurer of the municipality in virtue of Art. 328 M. Quo warranto - Public officer - Discharge of his duties — His disqualification should be declared by law—Remedy under strict law—Controller of the city of Montreal
—Costs—C. P. 549, 987, 9 Edw. VII. c. 82, s. 1.] -A writ of quo warranto is a remedy of strict law; it cannot be extended over the suit under the common law. A writ of quo lawfully holds or exercises a public office; consequently, it is essential that the office holder against whom the proceedings have been directed be declared by law to be disqualified and his office thereby vacant. Proceedings by quo warranto cannot be taken against a public officer to have him obliged to faithfully and efficiently discharge the duties mithing and whas imposed upon him. The statute 9 Edw. VII. c. 82, s. 1, which pro-vides that the controllers of the city of Montreal shall devote all their time to the fulfilment of their duties, contains no sanction to enforce its provisions. A writ of quo warranto which for that reason prays for the disqualification of one of the controllers, will be dismissed, with costs. St. Martin v. Lachapelle (1910), 12 Que. P. R. 106.

Quo warranto will issue against a person who illegally exercises a public office, but not if he simply unfaithfully or dishonestly discharges his duties. When certain allegations of the petition for quo vearranto may open the way for the proof of circumstances which the plaintiff intends to make for the purpose of establishing that the defendant purpose of establishing that the defendant bedy of which he is a member, they will not estruck out upon an inscription in law. In maintaining such a "lock-up," a municipality is not exercising its corporate powers for the hencit of the inhabitants in their local and particular interests, but is performing a public service intrusted to it in the interests of general government. A constable in charge of such a "lock-up," though appointed by the municipality, is not to be regarded as the servant or agent of the corporation, but as a public official, for whose acts or decisions civil responsibility does not attach to the municipality.—Per Mabec, J.:—In this case the negligence complained of was that of one who, though a constable, was acting the continuous of the composition of the composition of the defendants were therefore liable.—An answer of a jury to a question submitted may be rejected as insensible or at unreasonable variance with the other answers. In this case the plaintiff, appointed valuator on the 27th February, 1901, received notice on the 27th February, 1902, that his services were no longer required:—Held, that, in the circumstances, he could not maintain that his services had been engaged for the year 1902, nor that there had been a tacit renewal of the engagement. Warden resigning his position as councillor — Presentation of petition to warden — Liquor Lieenae Act.]—M. was elected councillor for the parish of St. L. in October, 1907, and was appointed warden of the county in January, 1908. On Sep-

tember 29, 1908, he resigned his position of councillor, but afterwards and hefore December 29, 1908, was elected councillor by a newly-created parish in the same county, and in January, 1909, was re-appointed warden. Held, M.'s resignation as councillor operated as a resignation of his position of warden, as the warden must be a councillor under the Municipalities Act, C. 8 1903, c. 165, and therefore presenting a petition to him on December 29, 1908, would not be sufficient under the provisions of the Liquor License Act, C. 8 1903, c. 22, s. 21, amended 7 Edw. VII. c. 46. Ex p. Stavert (1909), 39 N. B. R. 239.

## 24. POLICE OFFICERS

Corrention — Inquiry — Jurisdiction to order — Quashing resolutions—Ratepaper—Promise of issummity.]—The board of police commissioners of the city of M. resolved to call a special session of the board to interprete under each all the members of the police force appointed or promoted by the board as to the circumstances which had led to their appointment or promotion, in order to satisfy the public and to demonstrate the falsity of the allegations of newspapers which alleged that every appointment or promotion was due to the influence of money. The city council ratified this resolution of the board, and adopted a resolution instructing the board to give an assurance of full protection to the officers and constables who should be interrogarded, so us to get at the whole truth: —Held, that, as no matter had been submitted to the council, nor any representations made to the council concerning matters and the council of the council concerning matters who should admit criminal acts done to secure their appointment or promotion was void.

3. That the plaintiff, as a municipal elector and ratepayer, was entitled to have these resolutions quashed, and the defendants restrained from putting them into execution. Mattie v. City of Montred, 18 Que. S. C. 30.

Liability for acts of.] — A police officer is not the agent of a municinal corporation.—2. A municipal corporation is not responsible for the acts of its police officers, unless it has authorised or adopted such acts. Tremblay v. City of Quebec, 23 Que. S. C. 203.

Liability for false arrest — Hours of Muy.]—The corporation of the city of Sherbrooke were held responsible for the damages caused by an arrest made without reasonable or probable cause by a policeman in the employ of and warring the uniform provided by the city. The fact that, at the time the arrest was made, the policeman had been relieved and was off duty, is no defence to the action. Rousseau v. Town of Levis, 14 Que. L. R. 376, and Corp. of Quebev v. Oliver, 15 Que. L. R. 379, distinguished. Bourget v. City of Sherbrooke, 27 Que. S. C. 78.

Liability for unlawful acts of— Ratification.]—The defendants, a city corporation, were held not liable for the act of a police officer who unlawfully broke and entered the premises of the plaintiff and carried away therefrom certain intoxicating liquors there kept for sale by the plaintiff centrary to the provisions of the Canada Temperance Act, although the officer had been specially appointed to see that the Act was enforced. When the servant of a municipal corporation does an act in which the corporation have no peculiar interest, and for which they derive no benefit in their corporate capacity, but which is done in pursannee of some statute for the general welfare of the inhabitants of the community, the servant cannot be regarded as the agent of the corporation for whose wrongful acts they would be liable, and the doctrine of respondent superior does not apply. The defendants could not make themselves liable for the acts of the officer unless they ratified and adopted them with a full knowledge of their illegality. MeCleave v. Moneton, 35 N, Bt. R. 296.

NegHirence — Principal and agent.]—
A police officer is not the agent of the numerical corporation which appoints him to the position, and, if he is neeligent in performing his duty as a guardian of the public peace, the corporation is not responsible.

The municipalities affected, however, have a right to require that there shall be a real exercise of discretion before the power is acted upon, it being indicated in mature. ing as they did. Notice of the application should have been given to the Southman,ton council before the county council acted upon the petitions. It seems to be the intention of s. 18 of the Municipal Act of 1903; that the by-law of the county council should provide for the reference of boundaries to the arbitrators only where the municipality from which territory is detached opposes it, and notice to that municipality is necessary for the purpose of assertaining whether it opposes or agrees to the proposed alteration of its boundaries. That objection, however, was apparent on the face of the county by-law in the present case, and was, therefore, wared objected that this was not a case in which one municipality could apply to quash the by-law of another, but it is manifestly within s. 378a of the Municipal Act. Appeal allowed and by-law quashed with costs. Order of MacMahon, J., 24 C. L. T. 353, 3 O. W. R. 279, 8 O. L. R. 106, reversed. In re Village of Southampton and County of Bruce, 4 O. W. R. 341, 25 C. Appeal from decision of local council.] — A county council, sitting in appeal from the decisions of local councils, in appeal from the decisions of local councils, has neither the privileges nor the powers which numicipal councils exercise as the executive of municipal corporations; it only fulfils quasi-judicial functions, by virtue of the powers which the legislature has delegated to it, to adjudicate upon appeals from the decisions of the power as county council is a tribunal which in no way warrants the validity of its decisions; and for its decisions or judements the county council is not responsible. Young y. Township of Hereford, 19 Que. S. C. 120.

Appeal from decision of local council — Jurisdiction — Tregularity—Contradictory decision.]—A local council had adopted a proces-verbal ordering the opening of a road. In his report to the council the superintendent had stated the date of appointment as the 13th instead of the 12th June. An appeal was taken to the county council to quash this proces-verbal on the appointment of the superintendent of the protest contradictory decision was illegal; that the informality in the date was of no consequence, and besides had not been invoked before the local council, nor by the petition by relying upon such an informality, refuse to take cognizance of the merits of the processor of the tendent of the procession of the county council was a denial of justice to the respondents. Ricard v. Leweyre, 19 Que, S. C. 172.

Appeal from decision of local council — Way — Maintenance and opening—Powers of special superintendent—Municipal by-law—Petition—Discretion of council—Powers of Superior Court—Quashing.]—
1. By virtue of Art, 794, C. M., if the special

superintendent is of opinion that a petition for certain works should be refused, be should report accordingly; but if, on the contrary, be is of opinion that this petition is well founded in demanding certain works, it would be proper to make a proces-cerbol to that effect... It is not necessary that the works of the petition; it is sufficient, to give the county council authority to act, that they should be mentioned in the body of the petition as things suggested to the council upon which the council should exercise its discretion... The Superior Court, by virtue of powers, which are conferred upon it by Art. 2329, R. S. Q., may take cognizance of the proceedings of municipal councils, whatever the proceedings of municipal councils, whatever the proceedings of municipal councils, whatever decision of a county council sitting in appeal, in spite of Art. 1961, C. M., which denies the right of appeal in such a case. Judgment in 17 Que. S. C. 131 corrected. Piché v. Portneut, 17 Que. S. C. 53.

Corporate powers-General power to do a thing followed by provisions for carrying ing the means prescribed in the statute-Bylaw to buy property, when in the nature of a by-law to borrow.]—When a statute conspecial means of exercising them, such means must be adopted and no other. Thus, the "Cities' and Towns' Act," in the R. S. Q. 1909, under the two headings "Water Supply," and "Lighting," empowers councils to make by laws for the establishment, etc., of waterworks (a. 564b), for the lighting of the municipality by light furnished under contract by any company, firm, or person (s. 5693), and for the establishment, etc., of a system of lighting of its own (s. 5607), and both as to water and light supply, has several sections setting forth how for the establishment of a system of electric lighting," for a price of \$40,750, of which tor, and the balance to the vendor, by instalments represented by the notes of the corporation, and which does not provide for the levying of these sums in the manner preseller, and which the corporation undertakes to pay out of the price of the sale, is in and, therefore, subject to the formalities pre-scribed in sections 5776 and following, R. S. Q. 1909. Shawinigan Water & Power Co. v. Shawinigan Falls (1910), 19 Oue. K. B. 546,

Discretion — Interference by Superior Court.]—In the absence of fraud, or of an undue invasion of private rights, or of wilful infliction of a palpable and manifest wrond, the Superior Court will not use its reforming and revisory power to interfere with municipal corporations in matters left by law to their discretion. Mercier v. Bellechasse, 31 Que. S. C. 247.

Judicial powers — Passing on sufficiency of councillor's declaration of qualifica-

tion—Requisition for evidence of truth of decearation—Resolution declaring office account—Ultra vires—Remoted declaring office account—Ultra vires—Remotedy—Mandamus.]—Municipal councils exercise only the powers conferred upon them by statute, the interpretation of which in this respect must be strict and rigorous. Especially they cannot, in their deliberations, make decrees of a judicial character; for example, they cannot adjudge the nullity of a document signed and deposited by a councillor in conformity with a provision of the Municipal Code. Therefore, where a councillor, called upon by virtue of Art. 283 of the Municipal Code. Therefore, where a councillor, called upon by virtue of Art. deposits it within the time prescribed, a redeposite of the within the time prescribed, a revenue because he has not also deposited his title deeds in support of his declaration, is illegal and void.—2. The remedy of mandamus to restore him to his office is open to a municipal conneillor against the corporation whose council has illegally declared his sent vacant. Riendeau v. Manufacture and supply of gas—Explosion—Injury to private property—Daugerous substance—Nepligence—Erischence—Findings of jury.]—A municipal corporation invested with statutory powers to develop or manufacture a dangerous substance—e.g., inflamuable gas—is not liable in the same way as an individual, without proof of neeligence, for damages occasioned by the escape or explosion of such substance.—Fletcher v. of privilege—Mis-en-cause.]—It is not necessary that there shall be a contract between a municipality which grants, by bylaw, an exclusive waterworks privilege, and
the grantee, to oblige the latter to furnish
water to all the ratepayers. The latter have
a sufficient guaranty of their right in this
regard, in a clause of the by-law thus worded: "Whereas the persons above mentioned
bind themselves as partners jointly and severally to perform and conform to all and
each of the obligations of the said by-law,
and at all times to furnish water drinkable
and in sufficient quantity," etc.—2. The grant
of such a privilege may be made by virus

the grants an exclusive waterworks privilege for a period of 25 years, for
the whole territory of the nunicipality, with
a surface of 100,000 square miles, is not
unreasonable to the point of being illegal on
this ground.—4. The grantee of such a privilege, who has not yet used it, mis-ex-cusse

By-law — Petition — Establishment of vacarrecorks for part of municipality—Municipal Code, Art, 637a.]—A petition sizued by two-thirds of the electors who are owners of land in the "territory affected," menioned in Art, 637a of the Municipal Code, is an essential condition precedent to the exercise of the power of village municipalities to pass by-laws for the establishment of waterworks in a part of the municipality. The petition must be specially for the purposes mentioned in the article, and signed by the prescribed number of relectors who are owners of land in the territory affected. Therefore, a petition, signed by a number of ratepayers, representing that the numicipality is suffering from an insufficient service of water and demanding the establishment of waterworks, is not a foundation for the passing of a by-law dotted in these circumstances is void. Charland v. Deschaillons, 33: Que. S. C. 471.

Construction on private property—
Destruction.—The appellants had constructed a pipe or conduit by means of which they
obtained water from a small stream. The
respondent insisted that they were not entitled to do so, and they destreyed the part
of the pipe which came out at the stream,
but left standing other works upon their
own land. Hence action was taken by the
respondent to force the appellants to destroy
even that part of their works made upon
their own lands:—Held, that the works on
the property of the appellant were the cause
of no wrong to the respondent and were no
a serious menace of trouble justifying his

demand for demolition.—2. To order the de struction of these works constructed alto gether upon the lands of the appellants and which they declared were necessary for lawful purposes and public use, would be an unjustifiable invasion of the right of property Corp. of Limoilu v. Centracts between contractors for public services and municipal corporations, in pursuance of bylaws passed by the latter, are interpreted according to the intent of such by-laws and so as to give them their whole effect. Therefore, the grantee of a waterworks privilege, who energies in these conditions, to farmism water to the inhabitiants of a town, in consideration of a remunsiation regulated by a tariff, can exact, in case which are not expressly provided for, which preceded and accompanied the grant expression for a constant of a town, in consideration of a remuneration regulated by a tariff, can exact, in the consumer of the water furnished. Thus the omission in the tariff of a leuse with respect to insitutions such as schools, churches, hospitals, etc., is supplied by a clause of this kind in the tariff of a neighbouring municipality, which, according to the terms of the same by-law, appears to have served as a model for the one adopted—2. New trial—Ground not alleged in pleading.]-Section 9 of the Workmen's Compensaground, and not as a Court, express an opinion upon these points. But, semble, per Osler, J.A., referring to Willetts v. Watt & Co., [1892] 2 Q. B. 92, that the discretion of the Court below in allowing the plaintiff to make a new case, after the time has elapsed within which a new action could be brought, should not, on that ground, be interfered with. Semble, per Garrow, J.A., that the true position of the deceased at the time of the accident was not that of a mere licensee, but of a person upon the defendants' premises by their invitation, and one to whom the defendants owed a duty to take reasonable care that he should not be injured. And, semble, per Meredith, J.A., that there was no proof of any negligence on the part of the defendants; and the granting of a new trial in order to enable the plaintiff to set up an entirely new case was contrary to proper practice. Giorinazzo v. Can. Pac. Ruc. Co. (1909), 13 O. W. R. 24, 1200, 19 O. L. R. 325,

Longshoreman was engaged by defendant in Montreal, to act as foreman on his contracts as a stevedore at the port of St. John, N.B. While in the performance of his work, the plaintiff went into the hold to rearrange a part of the cargo in a vessel, in the port of St. John, and, in assisting the labourers, stood under an open hatchway, where he was injured by a heavy weight falling upon him, on account of the negligence of the winchman in passing it across the upper deck. The winchman had attempted to remove the article which fell, without any order from the foreman, the plaintiff, any order from the foreman, the plaintiff, and order from the foreman the plaintiff was entitled to recover either under the law of the province of Quebec or under the provisions of the New Brunswick Act, 3 Edw. #### (b) Unsafe Condition

Accident to visitor—Liability of owner—Lamilora and tenant—Sub-letting without leave — Damages — Increase on appeal—Cots.]—It is negligent for the owner of property to leave an unprotected excavation in an open passage leading from the street to the rear of his buildings, and used by his tenants and those having business with them, and he is responsible in damages for an accident occurring in consequence of such unprotected excavation. The fact that the person injured was visiting her son, a subtenant, who had leased from a tenant not-withstanding a clause in the lease of the latter prohibiting sub-letting, does not affect the responsibility of the owner for neglisence in permitting the passage to be in an usafe condition. Building collapsed during alterations — Person in adjoining building injured Independent contractor—Res ipsa loquitur question for the jury, to whom it was not clearly submitted at the first trial.—Per Maclaren, J.A.:—In such a case as this, it is the tenant or occupier, and not the landlord, who is responsible to third persons, or his architect, in the circumstances of this case. The plaintiff did not make out such a case as would entitle her to a verdict.—Per Riddell, J.:—Defendant Reid was not responsible for the negligence of his tenant, who was not his agent in making the change in the building—nor could it be fairly said that the change was being made for Reid. The improvements were to become and remain the property of Reid, but the changes were for the defendant's advantage and at his desire. The mere fact that there was a possibility that the work would be done in such a way as to do harm, would not fix Reid with liability—the use of the building in the manner contemplated by the lease would not maturally and necessarily cause would not maturally and necessarily cause before the Court, there should be a new trial. New trial ordered, costs of former trial, of Divisional Court, and of new trial, to be in the netion. Costs of appeal to be paid by defendant in accordance with the order giving leave to appeal. If defendant declines the new trial, appeal to stand dismissed, Earl v. Reid (1941), 18 O. W. R. 573, 25 O. L. R. 453.

Sudden rising—Floating loga—Vis major.]—
Suddenly rising was the content of the suddenly rising, as it often did, a jum was formed, and the plaintiffs bridge was injured. The defendant pleaded that the damage was caused by an Irresistible force over which he had no control—Held, that, the river being navigable, the defendant had the right to use it as an ordinary hichway only:
that the defendant must be taken to have subject to sudden rising; and that the safet was subject to sudden rising; and that the easier was subject to sudden rising; and that the logating major is the same time a correspondingly sufficient number of men to keep abreast of them in order to prevent a jam. Ward v. Grenville, 21 C. L. T. 444.

Injury to bridge — Servitude—Water-courses—Floatuble rivers—Statutory duty—Riparian rights—Vis major, 1— The Rouge river, in the province of Quebec, is floatable but not navigable, and is used by the lumber-men for bringing down saw-logs to booms, in which the logs are collected at the mouth of the river, and distributed among the owners. The plaintiffs constructed a municipal bridge across the river near its mouth where the collecting booms are situated. The defendant and a number of other lumbermen engaged in driving their logs, mixed together, down the river, did not place men at the bridge to protect it during the drive, and took no precautions to prevent the formation of jams of their logs at the piers of a railway bridge which crosses the river a

short distance below the municipal bridge, nor did they break up a jam of logs which formed there, but they abandened the drive before, the logs had been safely boomed at the river mouth. The river Konge is subject to sudden freshets during heavy raine, freshets, the waters were permed bed the period of the logs were swent in the period of the logs were swent in the period of the logs were swent with such force that the same, and a quantity of the logs were swent up stream with such force that the super-structure of the municipal bridge was carried away. In an action by the municipality to recover damages from the lumbermen, jointly and severally:—Held, that irrespective of any dity imposed by statute, the proprietors of the logs were liable for actionable negligence on account of the careless manner in which the driving of the logs was carried on, and were jointly and severally responsible in damages for the injuries so caused.—Held, damages doe the injuries so caused.—Held, damages doe the injuries so caused.—Held, that is sessent or rivilege which must be enjoyed and exercised with such care, skill, and diligence as may be necessary to prevent injury to or interference with the concurrent rights of riparian proprietors and public corporations entitled to bridge or otherwise make use of such watercourses. Ward v. Greneille, 23 C. L. T. 77, 32 S. C. R. 510.

# S. EVENENCE OF NEGLIGENCE.

Damages — Particulars.]—In an action for injuries alleged to be caused by the gross cardessness and neglicence of the defendant, the plaintiff will be ordered to furnish particulars of the alleged gross cardessness and negligence, and of the damages thereby sufferred by him. Forbes v. Montreal 8t. Rec. Co., 3 Que. P. R. 449.

Electric shock — Death caused by — Burden of proof — Lishibility of suppliers of electricity.]—Appeal from a judgment condemning the defendants to pay \$5.000 damages for the death of the respondent's husband, caused by teking hold of a hamp (supplied by the defendants in the ordinary course of their business) to turn on the light. It was not proved exactly what was responsible for the accident. A giny wire of another electric company's system was, at one point, within an inch or an inch and a half of the appellants' wires communicating with the house of deceased, and, although there was no estimate a strength of the condensation of the accident. — Held. that the burden of proof of the fact, that the burden of proof of the fact, act, or omission constituting negligence was not upon the plaintiff. The presumption was that the fatal current came over the same system and from the same source as that by which his ordinary supply was delivered to the deceased by the appellants, The burden of proof was pone them to shew the contrary. This they had failed to do, and the judgment holding them responsible for the accident should be affirmed. Reput Bleetrie Co. V. Heet, 17 C. L. T. 442.

Explosion at gas works — Death of servant—Protection of employees—Evidence—Questions for jury—Judge's charge—Findings of fact — Inferences.]—An experienced

employee of the defendants was killed by an explosion of illuminating gas while discharging his duties in the meter-room at the defendants' gas works. It was shewn that there might possibly have been an escape of gas from the controllers or other fixtures in the room or in the blow-room adjoining it; that there had been no special precautions by the defendants to detect any such escape of gas that might occasionally happen; and that the meter-room had always been, and the time of the archive ways been, and the time of the archive ways been, and the time of the archive was no case proof of any particular fault, attributable to the defendants, which could have been the whole cause of the explosion, and its origin and course were not explained. In an action for damanes by the widow and representatives of the decensed, the jury found that the explosion had resulted from the fault and imprudence of the defendants in lighting the meter-room by open gas jets, and contributively—Held, affirming the judgment appended from, 16 Que, K. B. 246, 3 E. L. R. I. which all the circumstances, the jury were justified in finding that there had been such neglicence and imprudence on the part of the defendants, in such use of open gas jets, as would render them responsible for the highly complained of. Fatal Accidents Act-Death caused by motor vehicle-Presumption of negligene Motor Vehicle Act, s. 33 — Application to action by representative of deceased—Evidence to rebut presumption-Insufficiencyof pecuniary benefit.] - Section 33 of the Manitoba Motor Vehicles Act, 7 & 8 Edw. VII. c, 34, applies to actions under the Fatal Accidents Act, R. S. M. 1902, c, 31, where a highway. The only effect of s. 38 is that a presumption is afforded that there has been negligence, and it is for the defendant to rebut that presumption. Therefore, the plaintiffs, suing as the administrators of the estate by the defendant's motor vehicle, and died fit of the presumption .- And held, upon the 22 and 39 of the Motor Vehicles Act, that the defendant had not discharged the onus that the statute had placed upon him-that there was negligence on the part of the defendant.-The deceased had a right to expect that any person driving a motor vehicle along the highway would comply with the statute and otherwise exercise a proper degree of care; and it had not been made to appear that he himself was guilty of any want of care.—The introduction into street traffic of the automobile, combining speed deemed it necessary to interfere for the protection of pedestrians and vehicular traffic of other kinds; hence the Motor Vehicles Act. — Cotton v. Wood, S. C. B. N. S. 568. and like cases, distinguished.—The rule that persons lawfully using a highway are en-

titled to rely on warnings required by statute, as from railway engines, is applicable where the statute requires from motor vehicles warning by light and sound—Hennesey V. Taylor, 189 Mass, 583, 4 Am, & Eng. Ann. Cas, 306, approved.—The persons on whose behalf the action was brought, the father, sister and child of the deceased, were held to have a reasonable expectation of pecuniary benefit from the continuance of the life of the deceased; and damages were assessed in their favour at \$3,000. Toronto General Trusts Cor, V. Dunn (1910), 15 W. L. R. 314, Man. L. R.

Fault of the owner of a thing, or person who has the eare of it.]—In an action for damages for an injury caused by a thing, it is incumbent upon the plaintiff to establish allirmatively, not only the damage claimed, but also fault, nedligence or imprudence on the part of the defendant, as the owner or person having the care of the thing. Such ownership or eare has not in law the effect of placing upon the defendant the burden of proving negatively the absence of fault on his part, or that of his servants. Can. Pac. Rec. Co. v. Dionne (1908), 18 Que. K. B. 385.

Judgment after trial — Reasons for decision — Liability—Troal—Conflict of testimony—Grave presumptions — Appeal—Summing up of the Judge in his charge. — The judgment rendered after trial in an action as to liability for an accident causin death and which is imputed to the needleane of the defendant is sufficiently traced to its source in these terms.—"Considering that he plaintiffs have proved that the accident that caused their son's death happend through the negligence of the defendant's exployees." It is not necessary to point out in what this negligence consisted to satisfy the requirements of Art. 541 C. P. In matter of liability for an accident causing death sumptions notwithstanding the conflict of evidence, and a Court of Appeal in these circumstances ought rather to rely on the conclusion of the Judge in the Court below in summing up for the jury. The defendants had constructed a sidewalk on the west side of E, street across F, avenue, in a town. Where the avenue crossed this sider the question whether or not those requiring to use the road might, using ordinary care, pass to and fro upon it in safety. -Held, that the latter question was the one to be considered, and it was largely a ques-tion of fact. If the trial Judge had found upon that question, the appellate Court don that question, the appellate Court would not interfere with his finding; but, as he had not so found, it was open to the Court to draw the proper inferences of fact. The mere fact of the crossing being dangerous was not sufficient to fix the defendants with liability. The proper finding, upon the evidence, was, that the platform and crossing respectively were in such a reasonable state of repair that those requiring to use the street might, using ordinary care, pass to and fro upon them in safety.—Held, also, that the trial Judge's finding against the defendants on the question of the plaintiff's contributory negligence should be reversed. Responsible for the bad condition of roads — Read under active left open for tracel — Traceller who risks himself on it—
Common neatigence.]—The fact that a person columnity ventures on a public highway flooded by the overflow of a river, does not relieve the municipal corporation of the locality of its responsibility for the consequences of an accident caused by the bad condition of the road. The corporation is doubly in fault, firstly, on account of this bad condition, and, secondly, because it leaves the road open for travel during the hundariton, when the ruls, culverts, etc., are hidden by water; there is, nevertheless, contributory negligence by the victim, and the damages ought to be borne propertionately by the two parties. Municipal corporation — Public park—clate and vatchman at crossing—lingy to person crossing track.] — Within a public park maintained and centrolled by the defendants, a municipal corporation, they erected a gate near a railway crossing, and kept a watchman to open the gate when there was no danger from passing trains, and to close it when trains were approaching the crossing. The plaintift, driving through the park, desiring to pass through the gate to the highway beyond the railway, and finding the gate open, took that as an intimation that no train was approaching, and ritempted to cross the railway, when he was struck by a train and injured:—Held, that the defendants owed him no dut, and vere not liable in damages for his injuries. Soulsby v. Toronto, 9 O. W. R. STI, 15 O. L. R. 13.

Rules of company — Charae of Judge — Contributory negligence.]—A rule of the defendants provided that "when approaching crossings and crowded places, where there is a possibility of zecidents, the speed must be reduced and the car kept carefully under control. Go very slowly over all curves, switches, and intersections: never faster than three miles an hour. 'A girl on the south side of Queen street, which do cross south side of Queen street, when do cross does not cross Queen street, She saw a car coming along the latter street from the cast, and thought she had time to cross, but was struck and severely injured. On the trial of an action for damages the Judge in his charge said: "It is not a question, gentlemen of the jury, as to the motorman's duy under the rule; it is a question of what is reasonable for him to do." The jury found that the defendants were not guilty of negligence; that the plaintiff by the exercise of presentable cure could have avoided the increase of the control of the care by not taking proper precautions before crossing. The action was dismissed at the trial; a Divisional Court ordered a new trial, on the ground that the Judge had mis-

directed the jury in withdrawing from their consideration the rules of the company; the Court of Appeal restored the judgment at the trial:—Held, affirming the judgment of the Court of Appeal, 15 O. L. R. 195, 10 O. W. R. 547, S. Can. Ry. Cas. 100, which set aside the order of the Divisional Court or a new trial. 13 O. L. R. 423, 9 O. W. R. 198, Idington, J., dissenting, that the action was properly dismissed,—Per Gironard and Duff, JJ., that the Judge's charge was open to objection, but as, under the findings of the jury and the evidence, the plaintiff could not possibly receiver, a new trial should be refused.—Per Davies, J.: There were the considered, but only that they should not be the standard as to what was or was not negligence, which question should be decided on the facts proved.—Per Maclenan, J.: The slace at which the accident occurred, is not a crossing nor intersection within the meaning of the rules, and they do not apply in this case. Employee walking on track - Yardengine—No person stationed at front end— Ringing of bell and sounding of whistle— Application of ss. 274 and 276 of Dominion

Railway Act — Negligence — Trespass — Contributory negligence.]—S, was employed by the defendants as a labourer in their coal-In leaving his work one morning, he proceeded to walk through the track-yards of the defendants, in the city of W., and train. He was at that time walking betrain was coming; he walked on to another track, and was struck by a yard-engine no person was stationed on the foremost end to warn persons crossing or about to cross the track, There was evidence that the bell did not ring nor the whistle blow. but this was contradicted by the enginedriver and the fireman:—Held, that s. 276 of the Railway Act, R. S. C. 1906, c. 37 (even as amended in 1910), did not apply; the precaution required by it (placing man on the foremost end) need only be taken at a crossing, and not globe the track between crossings; and the same may be said with regard to the use of bell and whistle in compliance with s. 274.—Semble. also, that the ringing of the bell or the sounding of the whistle would not have saved S.; and the evidence that the bell did not ring was not satisfactory .- Held, also, upon the evidence, that, though a pathway beof a permitted or acquiesced-in user of the tracks except at the crossings; and the conduct of S. in going upon the track, instead of keeping to the pathway, amounted to a of the absence of negligence on the part of the defendants and on the ground of contributory negligence on the part of S., the action was dismissed.—Skulak v. Operation of street cars. ]-Upon secing a child (aged one year and eleven months) approaching the tracks, the motorapplied full speed without waiting to see tion; the child moved quickly towards the tracks, was struck by the car and received the injuries from which damages were claimed by the action: — *Held*, that the conduct of the motorman was recklessness for which the company were liable, that failure to take proper precautions to avertinjury to the child was not to be excused by the alleged necessity of complying with the time-table and preventing delay to passen-gers, and that the failure of the company to provide its car with a fender was evidence of negligence. He alleged that the said accident was caused by the negligence of defendants, and claimed damages.—Britton, J., on the findings of the jury, entered judgment for plaintif for \$350 and costs on County Court scale, without right of set-off—Divisional Court held, that the finding of the jury could not be interfered with, and upon the findings it was clearly a case in which plaintiff was entitled to recover. light had been weak and intermittent for
some little time, passed a point on the line

the power esased to operate. The motorman

the appellants, used the yard and station of
the appellants at L. A. P. M. train came into
that station, discharged its passengers, and
was proceeding backwards to its destination
for the night when the respondent jumped
on board, intending to ride a short distance
towards his home. He stood upon the rear
platform of a car and was in that position
when a collision took place between the train
a "bead" of the appellants, by reason of the
negligence of the appellants, whereby the
respondent was injured, and in respect thereof
he sued the appellants. In the action the
jury found that at the time of the accident
the respondent was not upon the P.M. company's train or the platform of the car by the
company's rain or the platform of the car by the
company's permission:—Held, that the respondent was a trespasser, and that although
spondent not wilfully to limine him, they
were not liable to him for mere negligence,
and that as the accident was due to the
negligence of the appellants' servants and

### iv. Warning and Instructions.

Protection and safety of public.]—
The provisions of the Railway Act respecting the protection and safety of the public are not to be considered as foreseeing all possible contingencies and it is not sufficient that the engine crew and other train hands observed such provisions to relieve their employer from liability in case of acident. They are held to the additional duty of obeying the ordinary rules of prudence, and, particularly, to proceed at a rate of speed less than the lawful one at points where, to do otherwise, would be dangerous, Grand Trusk Re. Co. v. Fecteau (1910), 20 Que. K. B. 131.

# (v) Stations-Yards, etc.

Accident—Plaintiff slipped in front of train—Injured.]—Plaintiff brought action to recover damages for injuries sustained by be-

ing struck by an engine of the Wabash Rw. Co.—Middleton, J., held, 19 O. W R. 13, 2 O. W. N. 991, that the accident was the result of plaintiff's own negligence, or, at any rate, something not attributable to defend-ants' negligence. — Action dismissed without costs. Divisional Court held that while a passenger train is yet standing at a station after discharging its passengers, it is not negligence for another train to pass at a rapid rate between the standing train and the station platform providing it fulfils the duty of exercising reasonable care in passing crossings when people might be encountered. There is no case for a jury when the plain-tiff's own evidence established reasonable precautions on the part of the defendants.-To enable an injured party to recover damages for negligence he must shew actionable negligence on the part of defendants, that is, the jury must find the particular act of neglident, and failing in this, the presumption is that there is no evidence to justify any finding beyond what they have actually found, ing beyond what they have actually found, and a new trial will not be granted. Andreas v. Canadian Pacific Ru. Co., 37 S. C. R. I. —Judgment of Middleton, J., affirmed. Antaya v, Wabosh Ru. Co., (1911), 19 O. W. R. 354, 2 O. W. N. 1175.

He brought action to recover damages, alleging negligence action to recover damages, alleging meighted by defendants in placing the switch-stand where it was placed. At the first trial of the action: Tectzel, J., granted a non-suit, with costs, but subject to provision that if Divisional Court was of opinion that there was any evidence on charge of negligence which should have been submitted to a jury judgment should be entered for plaintiff for \$2,520.—Divisional Court entered judgment for plaintiff for \$2,520.—Court of Appeal (15 O. Railway rules — Special instructions— Defective system—Common law negligence shall have no force or effect; when approved they are binding on all persons. Rule 2 of the rules of the Grand Trunk Railway Co. provides that "In addition to these rules, the time-tables will contain special instructhe time-tables will contain special instruc-tions, as the same may be found neces-sary. Special instructions, not in con-diet with these rules, which may be given by proper authority, whether up-on the time-tables or otherwise, shall be fully observed while in force." Trains run-tion and of Bennfield or otherwise, and ning out of Brantford, Ont., are under con-Vernon grade and return to Brantford B. & T. station without special orders from the train-despatcher. Yard-foreman in charge of yard-engine will be held responsible for protecting the return of the yard-engine, and gulation or instruction had not then been submitted for the approval of the Governor-General in Council.—By Rule 224 "all mes-sages or orders respecting the movement of trains ... must be in writing":—Held, trains ... must be in writing":—Held, Davies, J., dissenting, that assuming the foot-note on the time table to be a "special instruction" under Rule 2, it is inconsistent in the control of the control it purports to authorize the sending out of engines under verbal orders to push freight trains up the grade it is also inconsistent ing been sanctioned by order in council oper-ation under it was illegal.—By "The Rail-way Act" a "train" includes any engine or locomotive. Rule 198 provides that it "in-cludes an engine in service with or without cars equipped with signals."—Held, per Girouard, Idington and Anglin, JJ., that an engine returning to the yard after pushing a train up the grade, is a "train" subject to a train up the grade, is a "train" subject to the provisions of Rule 224, and to the rules of the train-despatching system.—The accident in this case occurred through the yardforeman failing to protect the engine on its foreman failing to protect the engine on its return to the yard,—Held, Davies, J., dis-senting, that the company operated the yard-engines under an illegal system and were liable to common law damages and that sub-section 2 of section 42.7 of the "Railway Act" applied,—Held, per Duff, J., that since, as regards the danger of collision with trains stopping at Brantford for orders, the system of operating the waydanding them. of operating the yard-engines through the

ner of con-

telegraphic despatchers would clearly have afforded greater protection than that in use, and since there was admittedly no impediment in the way of adopting the former system, there was evidence for the jury of want of care in not adopting the safer system; and the fact that the existing system had been no operation for 25 years was evidence from which the jury might infer that the general governing body of the company was aware of it. And further, following Smith v. Baker (1881), A. C. 325), and Ainstic Mining and Railway Co. v. McDougall, 42 Can. S. C. Switchman in railway yard-Negligence-Defective system-Orders of foreman -Contributory negligence-Volenti non fit injuria—Inferences to be drawn from facts
—Province of jury—New trial.]—The plaintiff, a switchman employed by the defendants, the yard of the defendants, struck by a train and injured. In an action to recover damages for his injuries, he alleged a defect in the ways, works, etc., of the defendants, in that there was not sufficient room between the tracks in the yard to enable him to carry on safely the operations of switching and signalling; that there was negligence in the operation of the train by which the plaintiff was injured, by reason of excessive speed and no warning given; and that he under the orders of a foreman to which he was bound to and did conform, and was injured as the result of having so conformed;

-Held, upon the evidence, that there was nothing in the plaintiff's actions that was not in accord with his duties and the orders of his foreman. Although there was no express order from the foreman for him to take self a clear vision of the foreman and to self, he was apparently acting within the best of his judgment in order to carry out his orders faithfully, properly and promptly -he did, in the circumstances, what a switchman in his position might be expected to do and what his employers might reasonably expect him to do. With reference to the expect him to do. With reference to the location of the tracks in the yards, there was some evidence upon which a jury might base a finding that the "lay-out" was defective The real questions in controversy were the inferences proper to be drawn from facts which were practically not in dispute; and it was the province of the jury, and of the jury alone, to draw those inferences. If the defences of contributory negligence and volenti non fit injuria were to be established, they must be established to the satisfaction of the jury.—King v. Toronto Rv. Co., C. R. 119081 A. But, there being no finding and no evidence that these officials were failure to repair the pet-cock.-The law laid down in Wilson v. Merry, L. R. 1 Sc. No one could account for the breaking of the chain. There was no evidence that anything wrong while the defective link could have insent the chain benefits of the chain, in these circumstances, an inference should not be circumstances, an inference should not be chain they had not taken reasonable care to accruain that when the defendant simplied the chain they had not taken reasonable care to macertain such a defect or that the defendant ought to have known of its conditions, or that it was not then in a reasonably safe condition.—The practice in England of periodic testing by chain testers is no feasible in this country. An admission of a party has value and is binding only on questions of fact and not on questions of law. C.—Dengerous place — Duly to worm work-men.]—43. had been working in the defendants' mine on the floors immediately below the 600-foot level, and on the night of the accident when he was going to work he was told by the shift whom he was relieving that the place was in pretty bad shape, and to look out for it. He proceeded to make an examination, but while thus engaged the mine superintendent directed him to do some blasting, and while doing it a slide occurred, and he was injured. The principal evidences of the Ikelihood of a slide were two floors beneath the 600-foot level, of which the superintendent was aware, and G. not aware. The jury found that the superinendent was negligent, insamuch as he did

not advise G. of the probable danger:—

The smoke from the fire afterwards reaching this floor, the children there at work became alarmed and ran to a window. Those who remained easily escaped by the stairs or the remained easily escaped by the shars of the lifts:—Held, that the primary cause of the child's death was the fact of the foreman hindering the work-people from descending, which they could easily have done, and, al-though the foreman had acted in good faith. a perilous position, in which fright took away from her the use of her reason, or at least made her believe that she could save herself only by throwing herself out of the window, the appellant was liable.—The judgment of of damages cannot be set aside except for reasons which would justify the setting aside of the verdict of a jury. Judgment was entered for the plaintiff upon these that the answers of the jury were neither conclusive nor satisfactory, and there should be a new trial: no costs of the former trial: but costs of the appeal to the defendants.

Per Dugas, J.:—The main point was not whether F. had sufficiently explained the danger to the men, including the plaintiff, or whether the plaintiff himself might have used better judgment, realising to a certain extent to what danger he was exposed, but whether the men should have been exposed to that danger by E. Although the plaintiff knew of the danger, there was no implication of law against him by reason of such knowledge (s. 6 of the Employers' Liability Ordinance, 1908); and the question whether he was in fact volens should have been answered by the jury. And the indefinite answer of the jury to the 4th question was not properly a inding of contributory negligence. —Per cur-sm:—Section 515 of the Judicature Ordin-ance having been amended in 1907 by restrict-ing the powers of the Court, the Court can now only find facts which are not inconsistent part of the defendants causing the injury. Even if the jury had that negligence in mind, finding "to a certain extent" is not a findproximate cause of the injury. The whose of the findings, boiled down, meant that both parties might have used better judgment. There was no finding of contributory negli-sence, though the evidence might sustain one. The question whether the plaintiff was or was not rolens should have been decided by the real verdict; they were not bound to answer the questions; the trial Judge was wrong in telling them that they must answer the ques-tions; the answer to the last question, however, was not intended as a general verdict, but as a fixing of the quantum of damages.

Negligence - Foreman - Evidence -Finding of jury. ]- The plaintiff, while worka house, was injured through a fall caused by the giving way of part of the scaffolding of the house. The scaffold he was standing on consisted of a single plank about fifteen feet long, one end of which rested on a treate, and the other on a stay formed of a plank nailed to two upright posts, forming a part of the main structure. The stay as originally fastened to the posts was perfectly secure, as the plank forming the stay rested on its edge on a cleat securely fastened to The general superintendent of the defend-ants' works had been very explicit in directing the workmen that the stays should be put up and secured as this one had been. Two workmen however removed the stay for purposes of their own convenience about three o'clock on the 7th September, and raised it to the posts in a manner which rendered it dangerous. On the following morning, be-tween eight and nine o'clock, the plaintiff and another being directed by the foreman to cut off the ends of two beams at the top of the third storey, the plank referred to was thrown across from the trestle to the stay; and the plaintiff mounting it the stay gave way and the injury happened: -Held, by the trial Judge, that there was no evidence of trial sugge, that there was no megligence on the part of the foreman. An appeal by the plaintiff from this decision was allowed with costs, and judgment ordered for the plaintiff for \$500, the damages assessed by the jury, with costs, the Court holding that there was evidence suffi-cient to support the finding of the jury in

answer to the third question, and the finding could not be interfered with or disregarded. Kelly v. Davidson, 20 C. L. T. 121, 304, 31 O. R. 521, 32 O. R. S.

Nec'Hgenee.] — Plaintiff, while working for defendant, fell from a senffold and broke his ankle:—Held, that defendant's foreman was negligent in not taking proper precautions to insure safety of plaintiff and other workmen, but that plaintiff himself was to a certain extent in fault, fault on each side being about equal. Plaintiff given judgment for 8000 damages. Pageau v. Quebec, Montreal and Southern Rw. Co. (Que.), 6 E. L. R. 309.

Negligence — Street eailway—Control.]

—The motorman of a car running on an electric system is a "person who has the charge or control" thereof, within the meaning of s.-s. 5 of s. 3 of the Workmen's Compensation for Injuries Act, R. S. O. c. 150, and his employers are liable in damages to a fellow servant for injuries sustained while in discharge of his duty, owing to the motorman's negligence in passing too close to a waggon which is moving out of the way of the car. In order to enable the plaintiff to take the made a gangway of planks which had been the ground, and, while the plaintiff was walk ing on the gangway with a load of mortar an insecurely fastened plank gave way and he was injured:—Held, that the defendants were not liable at common law, the mason and the plaintiff being fellow workmen exercising their own judgment as to the proper means of accomplishing their object, and the planks being strong and sufficient for the purpose required if properly fastened:— Held, also, that there was no liability under the Workmen's Compensation for Injuries Act, the mason not being a person to whose orders the plaintiff, in respect of the mode of carrying the mortar, was bound to conform, and the gangway not being a "way within the meaning of the Act, or constructed 27 A. Negligence of servant—Injury to third person—Scope of employment — Railway— Scotionmen — Piling itse on railway mear crossing—Nuisance — New trial.]—Plaintiff was a carpenter and contractor. On 24th August, 1903, he was driving across defendants' track in the township of Oxford when his horse became frightened, apparently by a pile of old railway ties upon the highway.

and, by reason of the horse swerving, the that defendants' servants placed the ties in question on the highway in the course of tion of fact, and I links there was reasonable evidence from which a jury might so infer. Their employment or duty at that time was to get rid of the no longer useful and now incumbering ties, and to do so two modes are suggested, both of which had previously been adopted—one to burn them on the defendant's own lauds, the other to permit their workmen to take them home for firewood. By either method the defendants purpose would have been accomplished. But the ties were the property of defendants, and there was no evidence to shew that they had ceased to be their property when placed on the highway, even assuming what was work was done by defendants' workmen durmade out a prima facie, and the issue was properly for the jury. But there was no spe-cific finding of fact upon the yital question of tially plaintiff's cause of action. A nuisance such as the one in question was not necesbut by doing something upon or near the highway which is calculated to frighten horses generally in ordinary circumstances. See Roe v. Lucknow, 21 A. R. I. On referring to the charge it appears that the jury as they should have been, on the larger and more general result, to horses generally, as before indicated. The damages awarded are allowed and a new trial directed. Porsythe V. Canadian Pacific Ry. Co., G O. W. R. 242, 10 O. L. R. 74.

Parent and child — Negligence.]—The doctrine of the liability of a master for his servant's negligence applies in the case of the implied relationship of master and servant sometimes existing between parent and child, but as in the case of master and servant so in that of parent and child there is no liability if at the time the negligent act is committed the child is enganced in his own affairs and not on the parent's behalf. The father of a lad of twenty, living at home, was held not liable, therefore, for an accident caused by the lad's negligence while driving, with the father's implied permission, the father's horses and carrians home from a shop to which the lad had gone to purchase, with money earned by himself, articles of clothing for himself. Precautions — Warnings.] — It is the duty of an employer to use means as safe as are practicable in the performance of his work. He has no right to use means which offer a constant danger to his employees, when other means, perhaps a little more expensive and a little slower in operation, would have avoided the danger. The employer is not relieved from responsibility by the fact that the workman did not comply with warnings, unless it be shewn at the same time that such compliance would have avoided the danger. keep them in proper condition for the work to be done by T., the engine-bed and room all being in bad condition; they also found that the valve was not defective:—Held, that, in the absence of a finding that the negligence impured to the employers was the proximate cause of the highry to T., and of evidence to justify such a finding, the action must fail, Judgment of the Court of Appeal, II O. ing—Findings of jury. Higgins v. Hamilton Electric Light and Cataract Power Co., 7 O. W. R. 505.

Toxt—Low of country where committed—Contract of hiring and domicil of servant in another country—Common employment—Presumption.]— The liability of a master to his servant for an accident in the course of his work does not arise from the contract of hiring between them; it arises out of tort, and is governed by the law of the country where the tort is committed.—Where the law of the place recognises the liability, the Court should not be bound by an exception which it makes drawn from a presumption that the circumstances take it out of the rule. Thus the law of New Brancwick of the servant, except in the case of damages caused by a fellow-workman (common employment), because workmen in the same capilogment are presumed to accept the risk of each other's faults, such exception does not apply to a servant domiciled and engaged at Monireal to work in New Branswick. That engagement, interpreted according to the law of the place where it was made, excludes the presumption that the employee has accepted the risk of the common employment. Therefore, the master who has engaged the workman is responsible, according to the law of New Branswick, for damages caused to him by the fault of his fellow-servants in the course of their employment in that province. Lee v. Logen, 31 Que, S. C. 469, 3 E. L. R. 132: Logan v. Lee, 27 C. 4. 7, 781, 39 S. C. R. 511.

B. 432.

Voluntary exposure.]—The Court of Appeal held that the evidence shews that defendant, a contractor for building a subway, had conducted his business negligently in omitting to take a simple and effective as well as a usual precaution for safety of his workmen, and that there was no voluntary exposure to danger on the part of the plaintiff. Defendant sought a new trial, the supporting alfidavits stating discovery of further evidence, but this was refused to a Divisional Court had already refused to a Divisional Court had already refused to interfere, and no sufficient case had been made out. The jury were not asked to specify the particular negligence which caused the higher, and by their answers, found that deceased was acting under the instructions and guidance of the company's nestructions and guidance of the company's control, and management of the machinery generally; that there was fault on the part of the company; and that he had not unnecessarily or negligently assumed any risk;—Held, Davies, J., dissenting, that, as there was evidence from which the jury could reasonably draw inferences and come to these was evidence from which the jury could reasonably draw inferences and come to these them to be a supposed to the supposed of the charge of the Judge, at the trial, their limities ought not to be interfered with on appeal. Dangerous condition — Cause of death
—Evidence—Onus of proof.]—In an action
to recover dumages for death caused by
alleged negligence, the onus is on the plaintiff to prove not only that the defendant was
guilty of actionable negligence, but also,
either directly or by reasonable inference,
that such negligence was the cause of the
death. Where, therefore, a man employed
on the defendant's tur was drowned, and it
was also shown that and a second of the

also shewn that there was a safe passage-way
on a seed tasked to the tug, and there was
no evidence whatever as to the manner of

Detective appliances in supp. — 191907 to massenger—Duty of menex—Provimente curse.]—The plaintiff, a boy of four years of age, with his parents, was being curried as a passenger on a steamboar of the defendance on the beat's deck, leading from which out on to the deck were doors fitted with appliances intended to keep them fastened back, when they should happen to be flung wide open. While the plaintiff was in the net of passing through one of the doorways, the door swung to and jammed his fingers, so that the tips of some of them had to be amputated. The plaintiff's father and elder brother swore that the fastening of the door was out of order, and would not hold it back. There was evidence to shew that the doors of the house were frequently being opened and shut by passengers and others, and that a very few minutes before the accident a passenger had gone through the doorway in question, leaving the door on the swing. It was also proved that the fastenings had been put on the defendants to provide the doors with the appliances mentioned or to maintain them in good working order; and, even if there were, the evidence went to shew that the proximate cause of the accident was the act of the passenger in leaving the door on the swing, for which the defendants could not be held liable. plantiff in a public tidal navigable river,
for the purpose of catching fish, was carried
away by the necligent navigation of the defendants' tow-boat, or a tow which she had
in charge, by going unnecessarily near the
side of the river where the net was set;—
Held, even assuming that the net extended

further out from the shore than the law allowed, that the defendants and, nevertheless, no right to run into and destroy it, either through wantonness or neglect; also, that the course of navigation being directed from the tow-boat, the defendants would be liable for the consequences, even though the actual carrying rawy of the net was caused by the tow coming in contact with it. Ship lying at her dock caught fire during the naish and was destroyed. Officers of the ship failed to arouse passengers in time permit them to escape in safety and, in an action to recover damages for injuries sustained in consequence by a passenger, the owners adduced no evidence to explain the owigh of the fire:—Held, affirming 19 Man. R. 430, that, in the circumstances, the only inference to be drawn was that owners were grossly negligent. In such an action owners of the ship cannot invoke the limitation provided by s. 921 of "Canada Shipping Act," R. S. C., 1906, c. 113. The "Ortell," 13 P. D. 80, and Rocke v. London & S. W. Res. Automobile—Sent out for repairs—Accident—Liability of owner.]—Two essential conditions must exist to make the owner of a thing liable, as such, for damages from an injury, (1) the injury must have been caused by the thing, and (2) the thing must have been in bis care at the time. Hence, when the owner of an automobile sends it for repairs to a company that earries on the business, and the company, after doing the work, sends out the machine, in the care of one of dent occurs through the fault of the chalf-feur, the owner is not liable for the consequences. The fact that his own chauffeur was in the automobile at the time is immaterial. McCabe v. Allan (1910), 39 Que. S. C. 20.

VII. c. 46 (O.), where any loss or dramage is insurred or sustained by a person by reason of a motor vehicle on a highway, the onus is imposed on the owner or driver of proving that the loss or damage did not arise through his negligence. The defendant, the owner of an automobile—a bright red one—was driving to a village intending to stop at an hetel there and have dinner. On arriving at the foot of a bill, the road over which led to the hotel, he found that, owing to the condition of the road, it was impracticable to drive the ear up the hill, so he drew it up at the side of the road about two feet from the travelled part, locking it, as required by the Act, and taking the key with him, and then went to the hotel and had dinner, remaining thee some three hours. While the car was in this position, the plaintiff was in the act of drive.

It appeared that the ear could have been driven to a yard of another hotel some been driven to a yard of another hotel some been driven to a yard of another hotel some heat of the plaintiff should not be disturbed. Meredith, C.J.C.P., dissenting. Per Meredith, C.J.C.P.,—Apart from s. 18, there was no evidence of negligence to submit to the jury; in view of the requirements of that section, it would be difficult to direct judgment to be entered for the defendant; but there should be a new trial, and the jury in the plaintiff should whether the automotive, in the should be a new trial, and the jury gentleness, and also whether there was contributory neeligence on the plaintiff's part. Judgment of the County Court of Elsin affirmed. Metalyte v. Coate (1909), 19 O. L. R. 9, 13 O. W. R. 1908.

Child alone and unaccompanied on public street — Liability, — Liability, for an accident whereby a child, three years of age, is killed by a vehicle on a public street must be borne by the child's parents, when the evidence shews that the driver of the vehicle was not guilty of any negligence, imprudence or want of skill, and when the accident is clearly the result of the fact that the child was allowed on the street alone and unaccompanied. Lafortune v. Dupis (1911), 17 R. de J., 194.

Collision of vehicles — Bicycle
Rule of the road, — The plaintiff, while riding a bleycle on St. Lawrence street in the
city of Montreal, was injured by the defendants' horse and wagen, which were being
driven in the opposite direction, and on the
wrong side of the road, but it was shewn
that there was ample room for the plaintiff to
pass with his bicycle between the conveyance
and the sidewalk—Held, that, although the
accident might not have happened had the
defendants been driving on the right side of
the street, the plaintiff could not recover, he
having lost his balance while approaching or
passing the defendants' wagon, and this being the immediate cause of the injuries sustained. Browastein v. Imperial Electric

Collision of vehicles — Rule of read-Runaven,—In an action on the case for negligence in driving the defendant's horse whereby his waron came into collision with and damaged that of the plaintiff, it is not sufficient to prove merely that the defendant was driving on the wrong side of the road, especially as it was shewn that the defendant and just before the collision had crossed from the left side of the road for the purpose of speaking to a man sitting on a doorstep on the other side, and that the plaintiff's horse at the time of the accident was running away, and beyond control. Horse and carriage — Damages for injuries arising from being struck by horse and

his age, to ride a bicycle on a street like College when the street is overran with cars,
motors and other whileles. Plaintiff denied
his alleged condition prior to the necident,
and declared that though he was 67 years of
age he had been in recular employment earning \$3.50 a day almost up to the day of the
accident. At the trial before Clute, J., the

The plaintiff was injurred upon the highway owing to the negligence of M., who was driving the omnibus empty to one of the stations to meet

Operation of "joy wheel" — Noise and ribration — Injury to neighbour—Residential district—Injunction—Owner of wheel —Operation by licenses, —An injunction was granted to restrain the defendant from operating a "joy wheel" upon his premises in a street in a residential district of a city; the wibration and noise resulting from the operation of the wheel, coupled with the laughter and shours of its patrons, being such as to disturb the plaintiff's enjoyment of his own house, 5 feet away, and to constitute a nuisance. The injunction was properly sought against the owner of the wheel and the occupant of the premises upon which it was set upon the constitute of the premises upon which it was set to the city council to operate be wheel as though it was nettanly operated by two other men, the defendant's licensees, under his control and direction, they taking the profits and paying him a fixed sum for the use of the wheel. Seashore — Right of ripurian order to make cretions between high and low water marks—His right to seawced—Public have right to navigation and of fishers, but not absolute right to navigation and of fishers, but not absolute right of way.] — The defendants were indicted for a nuismore in erecting a weir for the purpose of collecting seaweed, which the jury found to be in front of their farm, on the space between ordinary high and low water marks, which space had been used for fifteen years by the neighbours as a road for hauling seaweed, etc. The space had once been sand hill belonging to defendants farm, but was now washed away and coverest with water at ordinary high tides. A highway sufficient for all necessary purposes existed inside the inner end of the weir, though not at the outer end, and the general public were not impeded by the weir in travelling, hauling or getting scaweed, or anything to which they had a right on the fine travelling, hauling or getting scaweed, or anything to which they had a right on the fine travelling, hauling or getting scaweed, or anything to which they had a right on the right of the purpose of collecting senweed floating on the water, or securing it when relieted, without being unity of a nuisance for obstructing a highway." For the Crown it was contended that the sea shore, between high and low water marks, is a common public highway, over every part of which the public have a right to travel, and that an erection obstructing such way is

a nuisance equally as much as if erected on a hishway on land. Defendants contended that they had the right to collect seaweed floating on the sore or lying on the slore between high and low water marks, and, therefore, had the right to use such means as they thought best for collecting and securing it, so long as a sufficient way was left, and the public were not really injured: — Held (Peters, J.) Even assuming the public to have a right of way over the space between high and low water marks, yet the use of the space was not limited to that right, and when, as here, the public right was not injured, the riparian owner had a right to make such erections as he required.—The riparian owner has a right in common with the public to take the scawed when floating the public to take the scawed with floating when deposited on the exclusive right to twent deposited on the exclusive right to the when deposited on the exclusive right to the public on the shore.—The public right over the space between high and low water marks is not the absolute right of way as claimed, but is that of mayigation and the liberty of fishing. Interpreter — Necessity for,] — The necessity for an interpreter is generally a question for the trial Judge. By Rule 439, examination for discovery is similar to that of a witness. Where the examiner ruled that plaintiff sufficiently understood English to be

examined therein, and plaintiff's counsel refused to allow him to be sworm, it was held, that it was premiture to object to plaintiff being sworm in English, as he might sufficiently understand English to know that he was being sworm to tell the truth, even though he might be unable to answer intelliizently all subsequent questions. Recovery of moneys paid by mistake. |—M. brought three separate actions
against three insurance companies on three
policies of insurance, two on the hull of defendant's vessel, and the third on freight.
The three actions were tried together before
a jury, but were not consolidated. Upon
the findings of the jury judgment was entered for the plaintiff in each action separarely with costs. The defendants moved in
each action for a new trial, and these motions were dismissed, separate orders being
issued. The defendants appealed in cach
action for the Supreme Court of the cost
and in three grounds of the cost
and in three consolidated. The appeals
were allowed on payment by the defendants
of the costs of the former trial within thirty
days after taxation. There being some uncertainty as to the exact terms of this judgment, the defendants paid the plaintiff's
solicitors, under protest, the amount which
the latter considered was payable to them
as costs under such judgment, the defenants reserving the right to require repayment of any part of the amount paid. In
an action on behalf of the three companies
jointly to recover part of the money paid,
and the money to pay the costs having been
contributed severally, the implied promise to
pay back was several, and therefore the companies could not be joined as plaintiffs in
one action; but they should have leave, on

Horne took over the agreements to purchase, and eventually received a conveyance of the lots. There was a verbal agreement that if a sale could be effected before the second instalment of the purchase money became due, and cent, the old partnership should since with Horne equally in the profits. The purchasemoney was to be paid in annual instalments with interest, and the purchasers covenanted to seed the land, sell the crop, and apply to seed the land, sell the crop, and apply tasks, and principal to C., and keep the other half for themselves. Before the wheat crop of 1909, 1,540 bushels, was threshed, it was seized by the sheriff under executions against T. The crop was then threshed, and the expenses of threshing paid by a sale of part of it. The remainder of the wheat, except exemptions on the part of T. was sold by the sheriff, and the first execution creditor was paid. There then remained in the sheriff's hands the proceeds of 502 bushels, which he was about to apply on the execution of the plantial tree than a son; an interpleader issue was then ordered to be tried. Upon the trial it appeared that the purchasers had each a third interest in the land. Both father and son worked at putting in and harvesting the crop, while the wife worked outside, as well as kept the house.

the crop:—Held, that the land could not be considered as partner-ship property, but would belong to the purchasers as tenants in common; partner-ship could consist only in the working of the land and the sharing of the profits; and, upon the evidence, there was a pariner-ship by which the 3 had equal shares in the profits arising from the operation of the farm.—Manitoba Mortgone Co. v. Interpretation of letters patent — Infringement—Combination of old elements.]

—The rules of interpretation to be applied to a patent, which is a contract between the Government or the public and the patentee, are those which are applied to all other contracts. The intention of the parties must be found in the contract itself, and the interpretation of its several clauses is a question of law which is left to the Court. In case of doubt, the contract is interpreted against him who has stipulated, i.e., the patentee, 2. Mechanical contrivance — Utility — Avoretty — Patentability, — A mechanical contrivance, to be good subject-matter of a patent, must, besides utility, possess the in-patent, must, besides utility, possess the in-cident of novelty and be the result of some ingenuity or invention. Letters patent, therefore, for a contrivance already known, or consisting merely in the substitution of metal for wood to reduce size and volume, which any mechanic would suggest, are void, and give no right of action for infringement. Larose v, Aubertin, 32 Que. S. C. 430, es. C. 430, es.

New devices — Improvements—Patent-ability — Description,—The application of new parts to a known machine is patentable only in so far as it constitutes an improvement or produces a useful result and a different one from that obtained by the original machine—2. Not only the application of new parts, but improvements, advantages, or bringing to perfection the parts which already exist, resulting therefrom, must be set out in the patent or in the descriptive memorandum which forms part of it. Novelty — Patentability — Pleading — Amendment — Costs.] — 8, the plaintifs' predecessor in title, obtained Canadian letters patent No. 20,564, for critin improvements in wear plates for railway ties, which, according to the specification of the patent, consisted in a flat body-portion, provided at its opposite sides with defending flat-edge flames, adapted to enter the wooden body of the cross-ties without injuring it, the flames being relatively parallel and lying in planes approximately at right angles to that of the body-portion. The inventor claimed it is side edges; (2) the combination with a railway rail and supporting revosetie of a wear-plate consisting of a body having projecting flames at its side edges; (2) the combination with a railway rail and supporting cross-tie of a wear-plate consisting of a body having projecting side flames; the plate being interposed between the rail and the with its flames entered into the tie longitudinally or parallel with the grain or fibres of the tie. The substance of the invention was the projecting or defending flames at the edges of the plate, adapted to enter the wooden body of the cross-tie without injuring it. S. had also obtained an earlier patent, in 1882, which but the plate for insertion into the tie, its object being the durability of railway ties. Patentable improvements in machinery — Anticipation.]—Canadian patent No. 79,392 for improvements in candy-pulling machines, granted on the 17th February, 1903, declared void for want of invention, having been anticipated by earlier inventions in the United States.—Judgment of the Exchenger Court, 10 Ex. C. R. 378, reversed on this point, Hildreth v. McCormick Manufacturing Co., 31 S. C. R. 246.

Patentable improvements in machinery—New intention—Combination.—In order that there may be patentable improvements in a patented machine, a simple change of form or substance is not sufficient, e.g., the substitution of iron for wood to lessen the volume; the element of new invention is necessary, as well, whether in the combination of the organs or in the simplification of the mechanism, etc. Larose v. In an action for infringement against the assignor of a patent for improvements in penumatic straw stackers, it appeared that an earlier patent assigned by the defendant to the plaintiff excluded everything but the narrowest possible construction of the claims of the second patent. In the latter, speaking generally, the combination was old, each element was old, and no new result was produced; but in respect of one of the elements of the combination there was a change of form that was said to possess some merit. Beyond that there was no substantial difference between the earlier and later patent; in high the impossible on these facts to sustain the patent — as against the assignor, who was estopped from impeaching it, it must be taken to be good for a combination of which he element mentioned was a feature. Prior public user—Experiments—Dedication to public.]—The use of an invention by the inventor, or by other persons under

his direction, by way of experiment, and in order to bring the invention to perfection, is not such a public use as, under the statute, defeats his right to a patent. But such use of the invention must be experimental, and what is done in that way must be reasonable and necessary and done in good faith for the purpose of perfecting the device or resting the merits of the invention; otherwise, the use in public of the device or invention for a time longer than the statute prescribes, will be a dedication of it to the public; and when that happens the inventor cannot recall the gift. Wearing apparel—Infringement—Patientability of defice,—Palintiff company applied for and obtained a patent for an improvement in the manufacture of caps, the object, as stated, being to provide a cap containing on list interior an efficient and comfortable covering for the ears, which, when turned outward or downward, could be used for that purpose without in any way changing the proper fit of the cap. The specification shewed that the object was attained by the attachment of an elastic band to the interior of the cap as illustrated in accompanying drawings. There being nothing in the specifications to indicate that there was any peculiarity of shape in connection with the band, which would have the effect of improving upon car coverings already in use in caps, ingupon car coverings already in use in caps, ingupon car coverings already in use in caps, and the attachment of a band of flowing upon car as not to infringe upon plantiffur a two as not in officing cupon plantiffur the early being an old and well known device—Held, setting aside the judgment of the trial Judge in plaintiff's favour, that the device claimed to have been infringed was not one of a patentable character. Both must follow on the conviction in one and the same proceeding taken to enforce them. ## PEREMPTION.

Action in warranty — Intercention.]
Even if a principal bininitif, in an action
where there are intervention and a demand
in warranty, would be entitled to have any
part of the instance perempted, such as the
intervention, he cannot obtain such peremption on a motion whereby he simply asks
that the present instance be declared percented, 2. A principal plaintif has no interest in moving for the peremption of the
action in warranty, 3. The service of such
motion is a useful proceeding to interrupt
the peremption as regards, the intervenant,
even if the latter can be considered as a defendant. Lonsdale v, Lesage, 3 Que, P. R.
344.

Action united with another.] — A motion for peremption cannot be granted in a case which has been united with another for the purpose of proof, when the latter is still pending. Cardinal v. Brodeur, 4 Que. P. R. 171.

c.c.r.-107

Appeal—Useful proceeding.]—An appeal from a judgment declaring a cause perempted, and the judgment allowing such appeal, are useful proceedings stopping the peremption. Wright v. Can. Pac. Riv. Co., 4 Que. P. R. 182.

Applicant—Defendant who has not appeared — Attorney, —A defendant who has not appeared in a suit, either personally or by attorney, has no right to move for permitten through an attorney who is a stranger to the record. Dumoulin v. Lapointe, 7 Que. P. R. 150.

Application for rule to return property—Guardian. — Peremption applies at all proceedings whose object is the settlement of matters in controversy by a judgment, and therefore, can be invoked with regard to a rule nisi taken out against a guardian who has falled to produce goods seized and placed in his charge. Dupont v. Lacoste, 23 One. S. C. 3328.

Capias after judgment — Service — Delay is execution — Waiver — Pleading, 1 — A writ of equies after judgment, is a mode of executine a judgment, and is not affected by Art. 120. C. C. P., but remains valid beyond the delay of 6 months therein mentioned, until it is executed.—2. Even if it be a writ of summons, the peremption in the above article is not absolute, and is waived by failure of the defendant to plead it in the manner and within the delay prescribed in the case of irregularities in such writs. Demors v. Girard. 28 Que. S. C. 542. 7 Que P. R. 337.

Certificate of state of cause — Contradicting, — A certificate shewing the last step taken in the cause, signed by the prothonotary, is an authentic document, which can only be contradicted by inscription en faux. Donaelly v. Rafter, 5 Que. P. R. 62.

Commencement of period.]—The time required for the percentation of a suit after the issues are joined does not begin to run until three days have elapsed after issue joined. Castelli v. Lunkin, 4 Que. P. R. 32.

Counterclaim.] — An incidental crossdemand is subject to a peremption distinct from the principal demand. Comte v. Pfister, 3 Que. P, R. 182.

Cross-demand — Common issues, 1—A cross-demand cannot be percented, while the principal demand subsists, if this crossaction arises out of the same cause as the principal action, and when the proof in both cases will in large part be the same; then the cross-demand is not a separate instance. Joliccur v, Corbeit, 9 Que. P. R. 287.

Date of last filing—How determined.]
—A motion for perception will not be granted although the procedure book starts that
the filing of the last document took place
more than two years before, if the date
appearing on the document itself states the
contrary, Ross v. Phibé, 5 Que, P. R., 254.

Death of plaintiff — Parties.]—When, upon notice of the motion for peremption

of a suit, but before such motion is taken into consideration, the attorneys of the plainiff produce a decharation of his death, judgment cannot be given upon the motion for peremption until the representatives of the plaintiff have been added as parties. Macadam v, Thompson, 16 Que. S. C. 362.

Demand of—Peremption of demand— Useful proceeding—Stay, I—A demand of peremption is itself a proceeding susceptible of peremption, Such a demand arrests the proceedings and hinders the peremption from running until the decision upon such demand. A motion to declare perempted the demand of peremption is a useful proceeding which covers the peremption. Reid v. Mericzi, 19 Que. S. C. 428, 4 Que. P. R. 150.

Biscontinuance—New Code, P. Q.)—When the discontinuance of proceedings in a cause has commenced while the old Code of Civil Procedure is in force, the suit is not barred until this interruption has lasted for three vears, even when the two years required by Art. 279 of the new Code have completely passed since the coming into force of that Code. Chantelong Mig. Co. v. Rerger, 16 Que. S. C. 482.

Erroneous certificate.] — The Court will not declare a suit percented upon the faith of a certificate which is evidently erroneous, even when it forms part of the record. Leguerrier v. Montreal, 5 Que. P. R. 440.

Incidental demand — Attorneys of record—Encumbered his of cases — Putting case on list — Interruption — C. P. 279, 289.]—An incidental demand is distinct from the principal action and is independently subject to peremption. A motion for peremption is valid if served at the office of the plaintiff's attorneys, even when, during vist, two of the attorneys have left the firm whose name has since been changed, if no notice of such change has been given in pursuance of Articles 200 and 261 C. P. (Duperrault v. Miron, S Que. P. R. 159). An encumbered list of cases which has prevented plaintiff from proceeding with the hearing of the case is something which has forcibly suspended further proceedings and interrupts percention, following Article 280 C. P. Insemption, particularly when it is the invariable custom, on the part of members of the Bar, to inseribe a case for proof and hearing without fixing any date for trial, leaving it to the prothonotary to insert the trial day, by reason of the encumbered state of the list of cases. Hence, peremption of a suit, which is inscribed on the 5th February, 1900, and is set down by the prothonotary for trial on the 11th March, 1931, commences to run from the latter date. Vigeant v. Picotte (1911), 12 Que. P. R. 343.

Incidental demand — Cross-demand — Contract — Common issues,]—When the principal demand is to have a contract fulilled, while the incidental demand is founded on an alleged breach of it, and asks consequent damages, this cross-demand arises out of the same cause as the principal demand, and does not constitute a separate instance.—Such cross-demand cannot be perempted while the principal demand subsists. Dauphin v. Starke Cooperage Co., 7 Que. P. R. 454.

"Instance" — Proceedings in improbation.]—Proceedings in improbation constitute a suit or an instance within the meaning of the Code of Civil Procedure, and peremption applies to them as to ordinary suits. Comcron v, Westmount, S Que, P. R. 306.

Interruption — Actions ordered to strict together — Inscription in one — Effect as a confer of the Court joined with another cuts for the purpose of proof and hearing on the merits, the inscription of one of the causes for proof and hearing has the effect of interrupting peremption in both. Paterson v. Chandler & Massey Limited, 10 Que. P. R. So.

Interruption—Application to fix day for triat.)—The order of a Judge, on a motion by the order of the fix at day for the continuation of the first fixed for the continuation of the first fixed for the continuation to fix a due for the continuation of the hearing of the case—the Judge will inform the advocates as soon as he shall be free? it is an incident which suspends the course of peremption, and prevents it taking effect. Teolov. Cordasco. 35 One. S. C. 227, D Que. P. R. 414, 10 Que. P. R. 54.

Interruption — Assignment—Notice.]—An assignment of property made by the plaintiff after the commencement of an action, and the sale of the plaintiff's assets by the curator to the assignment, do not interrupt peremption, especially if notice had not been given to the parties to the action. Dufour v. Harvey, 6 Que. P. R. 110.

Interruption — Certificate of state of cause.]—The fact that the certificate of last proceeding was not filed at the time of the service of the notice of motion for permution, does not give to the proceedings taken by the plaintiff between the service of motion and the filing of the certificate, the effect of interrupting peremption. Branet v. Duperrull, 6 que. P. R. 125.

Interruption—Inscription—Defect in.]—The filling with the clerk of the Court of an inscription for trial of a cause upon the merits, is a useful proceeding which interrupts prescription, and that is so even where party filling the inscription does not at the same time file the pleadings upon which issue has been joined, for the use of the trial Judge. Martin v. Gosselin, 6 Que. P. R. 116.

In this case the attorney ad litem, filing his own affidavit that he did not know of the change of state (a party becoming interdict) when the notice of motion for peremption was served, was absolved from giving notices to the opposite party; and the filing of the service of interdiction obliges the Court to take judicial notice of it and justifies a declaration that the action is not perempted. Guienard v, Politava, 27 Que. S. C. 41.

Interruption — Useful proceeding — Erroacous certificate, — A certificate of the prothonotary of the non-filing of a pleading, when in fact one has been filed, is not a useful proceeding which will interrupt peremption, Dagenais v. Ouellette, 8 Que. P. 13-322

Interruption — Useful proceeding — Motion to amend — Prearription—Pleading — Exception — Litinious rights, 1—A motion to amend the declaration is a useful proceeding, and interrupts peremption. 2. Interruption — Useful proceeding — Motion to withdraw deposit,1—A motion to withdraw a deposit made with a plea is not a useful proceeding susceptible of preventing perception. Primeau v, Richard. 6 Que. P. R. 46.

Interruption — Useful proceeding — Opposition — Judicial sale — Transfer of purchaser's rights.] — The transfer of the rights of the purchaser of a property sold by the sheriff is a useful proceeding which interrupts peremption of an opposition of a de conserver in respect of moneys the proceeds of such sale, Malbauf v, Leduc, 9 Que, P. R. 39.

Interruption — Useful proceeding — Peronature demand of percention — Costs — Now demand. — A useful proceeding which may prevent or cover percention must be a proceeding taken in order to promote the success on the merits of the claim of a party to the suspended cause. 2. A premature demand for percention is not a useful proceeding to a party to the cause to advance his rights, and therefore it has not defined the effect of preventing or covering percentions.

tion. 3. A party who makes a demand for peremption, which is dismissed as premature, is not obliged to pay the costs incurred by his opponent upon such notion before making a new notion for peremption. CHiford v. Recuport Brewery Co., 4 Que. P. R. 295, 324.

Interruption — Useful proceeding — Substitution of solicitors.]—The substitution of solicitors, by adding to the firm name the name of a junior member who has recently joined the firm, is a useful proceeding to interrupt peremption. Standard Trust Co. v. South Shore Ru. Co. 7 Que, P. R. 113.

Interruption — Uncful proceeding — Petition to proceed in forms passeria. —The withdrawal

Interruption after time expired
Advocates monicated to other offices—Judicial notice—Defendants rights.]— The
Court, of its own motion, takes judicial notiee of the nomination of advocates to offices
incompatible with the exercise of their profession. 2. Differing from the prescription
which gives to a debtor a right acquired
from the time that the period has expired,
the peremption of a suit does not exist until
it is adjudged, and the plaintift, up to the
time of the service of the demand for peremption, even after the period set for peremtion has expired, may interrupt such
peremption by a useful proceeding. 3. A defendant who has only appeared may demand
peremption of the suit. 4. One of several defendants may demand and obtain as to himself alone the peremption of the suit. 5.

The fact that the defendant has caused to be represented by his advocates, who had been called to duties incompatible with the exercise of their profession, does not prevent the percupition from running; it is for the plaintiff to starify his wish to proceed by giving notice to the defendant to authorise a new solicitor, 6. The fact that, after six years having clapsed since the last proceeding, the attorney of the plaintiffs demands the record from the deputy-clerk, who tells her that it is in the hands of the defendant, is not an incident which arrests the proceeding in such a way as to prevent the peremption from taking place where the defendant, is not an incident which arrests the proceeding in such a way as to prevent the peremption from taking place where the defendant had the record temporarily and returned it to the clerk upon the first demand. 7. A defendant who has ceased to be represented by his advocates on account of their nomination to positions incompatible with the exercise of their profession, is not obliged to file an appearance, but he may himself sign the demand of peremption, and serve it on the plaintiff, for the demand of peremption is a chief proceeding in itself, having an existence separate and distinct from the action. People's Bank of Halifax v. Labreque, 20 que. S. C. 283.

Motion — Firm of attorweys—Incapacity of member, ! — A motion for percention of suit, sience by the original attorneys of record, is not invalidated by the fact that one of the attorneys is now a practising advocate of the Bar of the province of Quebe. Ross v, Elliott, S Que, P. R. 47.

Motion for—Bar—Exhibits—Stay of action.]—The omission by the defendant to file with his plea the exhibits referred to does not compulsorily stay the prosecution of the plaintiff's demand, and is no bar to a motion for peremption. Coté v. Simur, 9 Que. P. R. 100.

Motion for—Failure to file exhibits with defence,1—The fact that a defendant failed to file with his defence the exhibits mentioned in support thereof, is no bar to a motion for percention for want of proceedings during two years. Leet v. Royal Bank of Canada, 7 Que, P. R. 11.

Motion for — Second motion after termination of first.]—A motion for percention which has been determined is not an obstacle in the way of the presentation of a second motion for percention, neither is it a proceeding preventing percention. Stater v. Stater 8the Co., 7 Que, P. R. 55.

Motion for—Service — Change in firm of attoracys.1—A motion for peremption is validly served at the office of the advocates that in the interval left the country and the firm has changed its name, so long as no public notice has been given of such change. Duperrently v. Miron, 8 Que. P. R. 158.

It a tirm of autorous is dissolved, and of its members two firms constituted with different offices, service of a notice of motion for peremption at both effices is sufficient.—A motion for peremption which is dismissed as premature is not a useful proceeding interrupting subsequent peremption. Motion for — Service of notice—Vacation.]—A notice of motion for peremption may be validly served at a time during which the Courts are not obliged to sit. Kimpton v. Deline, 7 Que, P. R. 438.

Motion for — Service on advocates — Appointment of advocate to public office.]—
The service of a notice of motion for peremption must be made upon all the advocates who acted for the opposite party, even

a case to the exception to the form constitute an edmission?—
(P. 111, 174, 177, 524.)—It is not by an exception to the form but by a dilatory exception that the defendant should set up that the liquidator has not been called into the case.—Fallare to answer an exception to the form does not constitute an admission of the allegations thereof; the party who makes the exception must prove that it is well-founded. Royal Bank v. Mutual Assurance Co. (1910), 11 Que. P. R. 265.

Form—Action by advocate—Professional atanding — Account — Change in details.]

— A plaintiff who is described in a writ as an advocate is sufficiently designated, and his good or bad standing at the bar is a matter for the merits of the case, not for an exception to the form.—Small changes made in the details between the account sent to the defendant before the action and the one filed with the declaration, cause no prejudice to the defendant, and do not justify an exception to the form. Tucker v. Lidstone, 8 Que, P. R. 220.

Form—Name of plaintig—Initial—Prejudice.]—An exception to the form alleging that the plaintiff in the writ of summons describes himself by the initial letter only of his one Christian name will be struck out with costs if the defendant does not allege and prove prejudice to him thereby, Huard v., Barthe, 8 Que. P. R. 237.

Form — Waiver—Appearance by another solicitor — Ground of exception — Particulars. — When a defendant appears separately by two solicitors and one of them files an exception to the form, the defendant is held to have waived, by reason of the other appearance, his objections to the form of the plantiff's pleading. 2. It is not a ground of exception to the form that the pleading does not give sufficient particulars, but only a ground for asking further particulars, Morreuu v. Lame he, 18 Que. S. C. 34.

Hypotheeaxy action — Exception of discussion—Holder of immorable charped with the debt — Bilatory exception — Delay — Deposit — C. P. 161, 165, 177; C. C. 2005. 2006.1 — An exception of discussion is a dilatory one; it should therefore be filed within the delays and with the formalities required for preliminary pleas. The third party in possession of property who is personally liable for a debt claimed from him by an hypothecary action, cannot set up the benefit of discussion. Tradel v. Briere (1911), 12 Que. P. Opposition to indement — "ronside mand — Set-off — Waiver — Jurisition.]

—In framing an opposition or petition in revocation of judgment, the defendant, in order to comply with Art. 1164, C. P. Q., is obliged to include therein any cross-demand he may have by way of set-off or incompensation of the plaintiff's claim, and, unless he does so, he cannot afterwards be permitted to file it as of right. A cross-demand, so filed with a petition for revision of judgment, is not a waiver of a declinatory of judgment, is not a waiver of a declinatory of the properties of t

Preliminary exception — Deposit.]— The requirements of Art, 165, C. P., as regards the deposit to be made with preliminary exceptions, are peremptory, and must be strictly compiled with. Leclère v. Ayer, 5 Que. P. R. 253.

Preliminary exception—Deposit—Certificate — Filing of copy.]—A copy of the prothonotary's certificate that the deposit required with a preliminary exception has been made, must be served with such exception, otherwise the exception will be rejected. Karbage v. Malouf, 9 Que. P. R. 30c.

Preliminary exception—Irregularities in procedure. |—A general allegation of irregularities in a preliminary exception cannot be considered; it is necessary to set out in what respect the service and the designation of the defendant are irregular, Agnew V, Gober, 8 Que. P. R. 217.

Preliminary exception—Long vacation—Computation,—Article 10, C. P., which dispenses with the necessity of proceeding dispenses with the necessity of proceeding dispenses with the necessity of proceeding the computation of the computation of

Preliminary exception—Order allowing after time criprict—Jipotal—The Court has a discretionary power to allow the filter of preliminary exceptions, and particularly of an exception to the form, after the delays, when sufficient reason for the delay is shewn.

2. A judgment allowing a defendant to file an exception to the form after the delays, without adjudicating upon its merits, is not an interlocutory judgment from which leave to appeal can be granted. Lefebrre v. Heirs of Everett, 6 Que P. R. 188.

Preliminary exception — Plea to the merits — Inscription — C. P. 167, 267, 197. When a defendant has filed a preliminary exception and is called upon to plend to the nerits and falls to do so and is foreclosed by the plaintif, the latter cannot inscribe the case for judgment capartle but must first inscribe for hearing on the preliminary exception. Strelling v. Levine (1910), 16 R. explicit, and the preliminary exception. Strelling v. Levine (1910), 16 R.

Preliminary exception — Plea to the merits — Postponement. —To a demand for an assignment the debtor filed an exception and contested the demand apon the merits before adjudication upon the exception:— Medd, that it is lawful for a party who had filed a preliminary exception to plend to the merits before the contention upon the exception is decided; but in this case the hearing upon the merits should be postponed until the exception should be decided, and if it should be maintained, the defendant would have no right to costs of the contestation; if the exception should be dismissed, the contestation would proceed in the ordinary way. A motion to set uside the contestation was dismissed. McCall v. Godmaire, 5 Que, P. R. 210.

Prellminary exception — Service—Deposit — Notice.]—It is not sufficient in the signification of an exception to the form, to serve notice that the certificate of the prothonously as to the deposit will be filed at the time of the return of the motion, but a copy of the certificate itself outht to be served; and the defendant will not be allowed to serve such copy after the return of the motion. Roberge v, Bélanger, 7 Que. P. R. SO.

Preliminary exception — Time—Computation — Vacation. — Although Art. 10, C. P., says that "in the computation of the time for pleading or for trial the first day of September is considered to be the day immediately following the 20th day of June," it does not follow that every day after the 30th June is to be considered as being the 1st September, and, therefore, the three days allowed by Art, 164, C. P., for the service of preliminary exceptions begins to run, in the case of an action brought during vacation, upon the first and not the second day of September. Barbeau v. Jobin, 5 Que. P. R. 477.

Preliminary exceptions — Pleading to the merits. —The fact that a plaintiff has answered preliminary exceptions, does not prevent his requiring the defendant to plead to the merits in spite of such exceptions. Roy v, Queenel, 7 Que. P. R. 148.

Procedure—Motion to reject an opposition to judgment.]—An opposition to a judgment is a defence to the action and it cannot be dismissed on motion, but it must be contested either by an exception to the form within the legal delays or by a plen according to the ordinary rules. Page v. Trudeau (1910), 16 R. de J. 422.

Precuration of a foreign plaintiff— Exception to delay — Deposit.]—A procuration can only be demanded of a foreign plaintiff by an exception to the delay, and if this procedure is not accompanied by a deposit the Court will not grant him after the delays the permission to make such deposits. Trinque v, Touzin (1909), 10 Que. P. R. 396.

Seizure before trial—Afidavii—Its insufficiency.— May it be attacked by an insurption in laut!—Inscription in law is a defence to the merits of a claim based ocertain facts, when such facts are insufficient in law to give an opening for that demand. The affidavit for seizure before trial is not a claim giving place to an inscription in law; it constitutes only a formality demanded by the law to justify the exercise of an exceptional procedure, and the allegation may not be denied in the pleadings. Pronost v. Seciety of Art (1909), 10 Que. P. R. 378.

Weinstein V.M.S. man (1910), 11 Que. P.R. 294.

Supplementary answer. Rights arising since action,—An incidental demand does not lie where it claims a right which did not not lie where it claims a right which did not exist at the time of the institution of the action, especially if such right does not constitute an answer to the contentions of the adverse party, but may at the most serve as a basis for a new action on the part of the one who invokes it. 4. The supplementary answer to an action or to a plea, of which Art. 199. C. C. P., speaks, must constitute a good defence to such action or a good reply to such plea, and it must not be founded upon facts subsequent to the institution of the action which do not contribute a reply to the defendant's plea, but which might, at most,

support a fresh action by the plaintiff against the defendant. Dupuis v. Dupuis, 19 Que. S. C. 500,

## 10. NOTICE OF DEFENCE.

County Courts-Striking out.]-In an action in a County Court the fact that the

Amendment at trial—Trepuss to land—New conce of action—Mine—Inspection.]
—In an action for damages for trespass and for an injunction the statement of claim alleged that the defendant, who was in occupation of adjoining property which was being operated as a coal mine, had entered upon and under lots B, and C, owned by the plaintiff, and had moved coal and minerals therefrom. From the evidence for the defence it appeared that no excavations had been made on lots B, and C, since the date trespass was alleged to have commenced, but that the defendant's tunnel had extended into other adjoining lands owned by the plaintiff in respect of which no complaint had been made. The plaintiff at the close of the defendant's case applied for leave to amend the statement of claim under s. 164 of the Judiciature Ordinance, by alleging that the trespass had been committed upon these last mentioned lands:—Held, that the relation to the statement of the committed upon these last mentioned lands:—Held, that the relation to the statement of the committed respass upon 10st B, and had committed respass upon 10st B, and had committed remining that question, and it would be an unreasonable exercise of the powers considered by the section to allow the plaintiff, after the close of the evidence, to amend by setting up a new cause of action discovered from the evidence for the defenciant Held, also, that is refusable to the red feefindant.

to allow inspection by the plaintiff of the workings of the mine was not sufficient reason for allowing the amendment, as the defendant might have obtained an order for inspection. Greater latitude should be allowed to a defendant in amending by setting up new grounds of defence than to plaintiff in setting up new causes of action because a defendant cannot afterwards availables of such defence, while a plaintif does not lose his claim in respect of such action. The Duke of Buccleach, [1892] P. 201, referred to. Semble, that, while it may be convenient to submit a draft amendment upon a motion for leave to amend, it is not necessary to do so. Application to strike out—Disclosing no real cause of action—Rule 51—Point of law.]—By Rule 151 of the Judicature Ordinance, a pleading may be struck out on the ground that it discloses no reasonable cause of action or answer:—Held, that this Rule is only applicable to cases where the pleading obviously discloses no cause of action or answer, and the Court will not, under the authority of this Rule, strike out a pleading the sufficiency of which depends on the determination of an intricate point of law. Extension of claim indorsed on write of summons—Service out of jurisdiction.)—The plaintiffs began an action against three defendants all resident in England, and served the writ of summons on one of the defendants while temporarily in British Columbia, and then under Order XI, served the other defendants in Eusland, The claim indorsed on the writ was for damages for non-transfer to the plaintiffs of shares according to agreement and for failure to hold certain stock in trust. By the statement of claim the plaintiffs set up in effect a claim for damages against the defendants for fraudulently manipulating certain companies so that the stock had become worthless:—Held, that the matters alleged in the statement of claim were within the scope of the indorsement. In deciding whether or not the cause of action indorsed on a writ has been unduly extended in the statement of claim, the fact that one of the defendants was served within the jurisdiction and the others were subsequently served without the jurisdiction under Order XI., is immaterial. Securities - Railway bonds - Sale by pledgees—Compliance with terms of hypothe-cation—"By giving"— Notice—Abortive sale-Subsequent private sale.]-Dispute as to which of two parties were entitled to prove in respect of 300 bonds issued by the railway company for the sum of \$1,000 each. with interest coupons attached, which had been pledged by Ritchie to the Bank of Ottawa, as security for a promissory note of \$50,000 made by kim, bearing date 30th November, 1900, and payable 15 days after date, with interest at 6 per cent. per annum from 31st May preceding. Blackstock and the note, at the rate of 22½ cents on the dollar of the principal money of the bonds, and to have paid the purchase money therefor, amounting to 867,500. Ritchie, on the other hand, contends that the bank having held the bends in additional than the bank having held the bends in additional than the bank having held the bends in additional than the bank having held the bends in additional than the bank having held the bends in additional than the bank having held the bends in additional than the bank having held the bends in additional than the bank having held the bends in additional than the bank having held the bends in additional than the bank having held the bends in the bank having held the bends in the bank having held the bends in the bank having held the bank having h bank, in default of payment of the note at maturity, "from time to time" to "sell the 15 days' notice in one daily paper published in the city of Ottawa, as to the said bank shall seem proper, with power to the hank to buy in and resell without being liable for loss occasioned thereby." The bank pub-lished a notice of a sale of the bonds by auction on 11th March, 1992, and it was published in the Ottawa." Evening Journal. daily for 15 days before the day of sale. There was no sale at the time appointed. On 19th August an offer was received by the bank from Mr. Blackstock, one of the respondents, of 221/2 cents in the dollar on the spondents, of 2272 cents in the dollar of the par value of the principal money of the bonds, and, after much correspondence, a sale of the whole of the bonds, with unpaid coupons attached, was made to Mr. Black-stock, on behalf of himself and the other respondent, and completed on or about 30th September. At the time of the sale the par value of the bonds, with interest coupons in arrears, was, as found by the Master, about \$66,000; the debt due to the bank was \$56,872.78, and the purchase money received was \$67,500, or \$10,627.22 more than So that the bank sold nearly five bonds, with attached coupons, the par value sary to pay their debt, no effort having been made to restrict the sale to so many as was necessary for that purpose. On receiving Blackstock's offer of 19th August, the bank telegraphed to Ritchie at Akron, Ohio, where lived, that they had an offer for the bonds, not stating what it was, and that they would sell unless payment was made by 12 o'clock on the 21st. To this they received an answer on the same day that arrangements were being made to pay the debt, and protesting nanisat the sale. No further communication was made to Ritchie, and the fact of the sale was apparently not made known to him until 21st October after-wards:—Held, the sale was not made with reasonable care nor with proper regard to the rights and interests of Ritchie. No attempt had been made to reach the inquiries referred to in Mr. Burn's letter of 18th March, and who were expected at that time 18th August came, its Items were not communicated to Ritchie, but he was called upon to redeem, within 48 hours, or in default it would be accepted. That offer was about 10½ cents in the dollar of the bonds and arrears of interest which were sold. The very first offer was accepted, because it was sufficient to pay the iank's debt, although they knew there were other inquirers for the expect, might become purchasers. They ask of the company of the was also carelessly sold more than were necessary to pay their debt, without any effort to restrict the sale to what was sufficient for the purpose, and, although the offer was a considered the sum of the whole, such a sale, even if the bank had power to sell by private contract, which they had not, emmot be supported as between the bank and power to sell by private contract. Which they had not, emmot be supported as between the bank and the decision of the Master restored. Toronto General Trusts of the proper allowed, and the decision of the Master restored. Gommercial usage—Custom of the portice—Evidence—Commencement of proof in veriting.]—An allegation of a custom and commercial usage is good in law, especially when it is alleged that this custom and usage have always been accepted by the parties in their business dealings and particularly in the transaction which was the basis of the action. An order to a broker or agent, to sell goods on commission, is a civil contract which cannot be proved by oral testimony, and, in a suit by such agent to recover his commission, he cannot testify in his own favour, at least until the has offered commencement of proof in writing. Laflamme v. Dandurand, 26 Que. S. C. 499.

Métabetchouan Pulp Co. v. Paguet, 29 Que. S. C. 211.

Conditions of payment of commission — Burden of proof—Refusal of principal to accept orders — Grounds for—Factor.]—1, A commercial agency or an agency on commission is a contract in its nature of titre oncrear, and the onus is on the party who invokes the conditions of payment contracted for to prove the contract—2. The condition of approval of the orders obtained by the agent does not depend upon the caprice or the arbitrary decision of the principal grounds—3. An agent simply authorised to receive orders for his principal abroad, and who is not in possession of the goods, is not a factor in the sense of Art. 1738, C. C. Kelly v. Hamon, 35 Que. S. C. 305. Employment of agent — Evidence—
Appeal from trial Judge's findings of fact.]
—Action for commission for finding and introducing a purchaser for land owned by defendant. The plaintiffs were carpenness
occupying a shot. They were not real estate
agents, but had occasionally earned commissions on sales. The plaintiffs had discussed
price and terms with the defendant on several
occasions with the view of their affecting
a sale, and on one occasion had introduced
to him a prospective purchaser, and it was
agreed that if that sale went through the

plaintiffs should be entitled to a commission. but no general agency to sell had been con-ferred upon them. One Forrester, passing by the property and thinking that it might be suitable for his purpose, entered the plain-tiffs' shop and inquired of the plaintiff Robertson if the property was for sale. Robertson informed him it was. Did he know the owner, Yes, Mr. Carstens. And the price? \$16,000. Could it not be bought for less? Robertson would inquire, and at once called up the defendant by telephone. What fol-lowed is thus stated in the judgment of the majority of the Court, reversing in part the findings of fact by the trial Judge. Robertson told the defendant that he had a prospec tive purchaser for his property and asked his best terms. The defendant said \$15,000. pay his commission out of that, and the de-fendant said he would. Robertson told the defendant he would have the purchaser call and see him. He then quoted the new price to Forrester, wrote the defendant's name Forrester an option on the premises for \$14,000 cash. The sale was completed next day for that sum. Forrester did not mention Robertson's name to the defendant, and son. The defendant saw the plaintiffs a few hours after the completion of the sale, when the plaintiffs promptly claimed their com-mission:—Held, that the defendant was put upon inquiry when a prospective purchaser appeared a few hours after the conversation with Robertson, and he should have ascerterred to by Robertson, and that, upon the above findings, the plaintiffs were entitled to commission on the \$14,000 at the usual rate. Catheart v, Bacon, 49 N. W. R. 331, and Quist v. Goodfellow, 110 N. W. R. 65, followed. Robertson v. Carstens, 18 Man. L. R. 227, 7 W. L. R. 742, 0 W. L. R. 397.

Prior to the date of the contract the wife entered into what was called a building-loan agreement in respect of each of the four lots. Each agreement provided, amonast other things, that she would forthwith proceed to creet a frame building with

stone foundation on the lot named. These agreements were signed by the wife personally. Subsequently four several applications for loans on the several losts were made. These applications were signed by the lusband in the wife's name, and the wife acted upon them and recognized the loans made pursuant thereto.—2. During the progress of the plaintiff's work the wife came with her husband and saw the work proceeding, but made no objection to it, and she and her husband went frequently to the loan company's office together, and gave directions as to the buildings. The defendant wrote by first mail to his solicitor in Winnipeg, instructing him to see the plaintiff and make inquiries, and communiplantiff and make inquiries, and communi-cate the result by telephone in the evening of the 15th. 400 acres of the company's lands at the price agreed on:—Held, that, although the secret harmin was a breach of the plaintiff's duty to the defendants, and, if the money had been received, the plaintiff would have to account for it to them, yet it was not such as to disentife the plaintiff to the stipulated commission for the service which he had fully performed. Boston Deep Sea Fishina Co., v. Ausell, 39 Ch. D. 329, and Culevrucell v. Birney, 11 O. R. 205, followed. Duridson, Wastibad & North-West Land Corp., 22 C. L. T. 305, 23 C. L. T. 26, 14 Man. L. R. 232.

Special contract — Non-performance.] The plaintiff alleged that he was employed as a broker to effect a sale of the defendant's property for \$255,000, on certain terms, before the 1st February, 1910. When that day arrived, the plaintiff had not made a sale nor had he found any purchaser ready and willing to buy. At most he had implanted the germ of an idea which might or might not develop into a club or other organisation expands of buying, which organisation when formed might or might not buy the defendant's property. The defendant acted in good faith; no coperated before the plaintiff was to effect a sale had expired. The institution sought to be formed by the plaintiff never was organised; but, after the 1st February, 1910, an institution of an entirely different character was formed, and to it the property was sold without any aid of the plaintiff: semployment was not general, but special—to make a sale at \$55,000 by a fixed date. After the 1st February, 1910, at fixed the defendant was under no further obligation to the plaintiff. The plaintiff did not perform his part of the contract; consequently the defendant was under no further obligation to the plaintiff. The plaintiff did not perform his part of the contract; consequently the defendant was under no further obligation.

Special employment of agent to sell land within Hinited time — Agent procuring purchaser—Revocation of athority—Quantum meruit—Accrtainment of amount.]—The defendant signed a letter giving the plaintiffs, who were real estate brokers, the clusives agence for 10 days for the sale of a lot of land at a price and on terms specified. The plaintiffs advertised and made special efforts to sell, and succeeded within 10 days in finding a purchaser ready and willing to close upon the defendant's terms. Before this, however, the defendant's terms, to whom he afterwards sold, and he notified the plaintiffs, after they had advertised and made efforts to sell, but before they found their purchaser, that he did not wish them to do anything further in the meantime;—Held, that this amounted to a revocation of the plaintiffs' agency; that the plaintiffs were prevented by the act of the defendant from earning their full commission; that the defendant could not, in the circumstances, revoke without liability; and that the plaintiffs were entitled to recover upon a quantum meruit for their services, and were not infinited to the actual value of the time given or the moneys expended, but were cuttled to a substantial sum. Substantial compliance with authority. |—A real estate agent employed to find a purchaser for land, who finds a purchaser ready and willing to purchase upon terms which, although not identical with those in contemplation at the time of his employment, are satisfactory to the owner, is catilide to compensation for his services, notwithstanding that no sale is actually made by reason of refusal of the owner to sell the terms of purchase. McKenzie v. Champion (1885), 12 S. C. R. 649, followed:—Semble, where in the proposed vendor's instructions to the agent there is not something to indicate that it was his intention to give the agent authority to sell, it will be inferred that the authority extended only to finding a purchaser. Mayle v. Grassick (1905), 6 Terr. L. R. 2292.

Terms of employment — Purchaser found by principal — Agent's services in effecting almo—Quantum meruit.]—The defendant (appellant) employed the plaintif trespondent) to find a purchaser for certain land at a certain price clear of all commission. The land was subsequently sold to a purchaser found by the principal, but at a price less than that at which it was listed. The agent performed some services in connection with the sale, but was unable to sell at the price authorised.—Held, Lamont. A. disserting, that, as the agent was not instrumental in bringing the sendor and pulsarium of the principal control of the services of the principal price of the principal price of the land at a specified price, which he was unable to do, he was not entitled to a commission or to recover for his services upon a quantum requit.—Per Lamont, J., that, as the agent had performed certain services in connection with the sale, which services were recognised by the principal, he was entitled to recover on quantum meruit. Vendor ignorant that purchaser sent by agent — Circumstances to put sendor on inquiry, — A vendor who has placed his property in the hands of his agent for sale on commission will not be liable to the agent for commission if he afterwards sells to a purchaser in innorance that such purchaser has been sent to him by the agent (Locators v, Clough, IT Man. L. R. 639), unless there are circumstances sufficient to put the vendor upon inquiry as to whether the purchaser was not in fact sent to him by the agent—Lloyd v, Matthews, 51 N. Y. 124. followed:—In this case the circumstances were held to be such as to put the defendants upon such inquiry, and that as their manager had failed to make sufficient inquiry, and the purchaser had in fact been sent by the plaintif, the defendants were sent by the plaintif, the defendants were

liable for his commission on the sale, Hughes v. Houghton Land Co., 18 Man. L. R. 686, 9 W. L. R. 646.

Voluntary agent — Absence of evidence of salve comployment as agent—Absence of ratification.]—The plaintiff, a land agent, was field not entitled to a commission upon a sale of land made by the defendants to a purchaser, although the land was brought to the notice of the purchaser by the plaintiff, and although the plaintiff had obtained from a clerk of the defendants a list of the properties for sale, which included the one sool, and had been told by the clerk that he would be entitled to the regular commission if he brought about a sale of any of them, the clerk having no authority, the plaintiff having had no communication with any officer of the defendants, no contract of agency, and no ratification or recognition of his voluntary agency. Heffner v. Northern Trusta Co. (1910), 14 W. L. R. 403.

Withdrawal from agreement—Find gas to cancellation — Compensation for services. ]—The plaintiffa, real estate agents, made an agreement with the defendant by which they undertook to subdivide certain land for him and to sell it. By the agreement the plaintiffs were to have a commission agreement, making all collections, and generally looking after the property. The plaintiffs made no sales, nor collections, but they drew agreements, and had a survey and plan of the property made, which met with the approval of the defendant:—Held, that the plaintiffs were not entitled to the commission of 13 per cent, but were entitled to be paid for their services as upon a quantum mersait.—Semble, that the agreement was an illegal one, because the plaintiffs were not entitled to the commission of 15 per cent, but were entitled to be paid for their services as upon a quantum mersait.—Semble, that the agreement was an illegal one, because the plaintiffs to fraw agreements, and they did not come within the exception in a. To the Conveyancers Act, R. S. M. 1902. c. 35.—Held, also, that the defendant had the right at any time before a sale was made to withdraw from the agreement, compensating the plaintiffs for anything done by them under it; and, upon the evidence, that the defendant had cancelled the agreement before the plaintiffs for anything done by them under it; and, upon the evidence, that the defendant for the plaintiffs services. Defendants admitted the con-

tract, and the real question was which party was to bear the loss of the prechase money—\$850—paid by purchaser to defendant's agent. Weaver, and by him misappropriated? Defendant, who resided at Vancouver, R.C., placed the property for sale in the hands of Weaver, a real estate agent at New Lishcarel, and the latter obtained from plaintiff an offer for the property, which defendant accrited.—Mulock, C.J.Ex.D., held, that the evidence shewed that defendant, with full knowledge, rathied the unauthorised act of money from the vendor; that such paramet was good parament to the defendant, and that the plaintiff was entitled to specific performance, with the costs of action, Hendry v, Wismer (1911), 18 O. W. R. 350, 2 O. W. N. 550.

Authority of manager of branch bank — Security held by hank — Further charge upon by stranger—Notice to bank made to H., and delivered a duplicate original While the defendants were assignees of the chattel mortgage and held the duplicate perty in E., and should advance \$300 to H. to improve the demised premises. Accordingly, a lease was executed, which contained a clause to the effect that the chattel mortgage, subject to the defendants' prior claim, should stand as a security for the repayment the \$300 advanced some time in March, 1908. The lease was deposited with the defendants manager of the branch, J., was specially called to the clause referred to. J. assured the plaintiffs that they would be protected.

J. left the service of the bank in November. 1908, and was succeeded as manager by A. In December, 1908, J., who had become estate agent at E., inquired of the bank the amount required to discharge the liability of the bank, and A., having no knowledge of the plaintiff's claim or of the contents of the lease, handed to the solicitor the duplicate original of the chattel mortgage, together with the plaintiffs' copy of the lease, supposing it was H.'s copy of the lease, supposing it was H.'s copy. The solicitor was acting for C., to whom H. had sold the mergage:—Held, Stuart, J., dissenting, in an action for damages for wrongfully delivering up the documents, that, in the circumstances, the defendants were chargeable with notice of the indebtedness of H. to the plaintiffs, and of the charge, to the extent of the amount thereof, upon the moneys accruing under the mortgage, and were liable to the plaintiffs, value of the security, that is, \$300 and interest.—Per Harvey, C.J.;—The defendants having disregarded the notice, and handed over the documents which the notice informed them belonged to the plaintiffs to some one who was not entitled to them, were liable to the plaintiffs for the damages resulting. No presumption was to be drawn or assumption to be made as to what the law of Ontario was, the mortrage being upon chattles there. But, if the law were to be treated as the same as that of Alberta, it would not help the order as a that of Alberta, it would not help the order as a that of Alberta, coupled generally with the rights to sue the mortrager, or the mortrager, coupled generally with the rights to sue the mortragor. This latter right could, perhaps, be protected by an assignee by notice, but the other rights would pass by the assignment without regard to notice. There can be no question that any man is dannified by deprivation of the documents which are the primary evidence of his rights.—Fer Bock, J:-The special clause in effect or which principal mortrage, but also the instrument itself, that is, the particular original duplicate in the hands of the defendants, and (following Hockelaga Bank v. On the 3rd March, 1906, or personal to the land for the plaintiff to the defendant M, having between them a half interest with C. in the purchase, The purchase was completed and the land transferred to C., and on the Sth August, 1906, the defendant D, became the purchaser from C, at \$125 per acre. The facts were not disclosed to the plaintiff, and the land that B, and C, were in fact partners in an arrangement for the purchase and disposition of the land, and that C, was liable, equally with B, to account to the plaintiff or the profits; but that M, was led by B, to believe that C, was the purchase from the plaintiff, and that B, was buying from

C, and not that B, and G, were buying from the plaintif; and nothing was brought home to M, which should make him liable to the plaintiff,—Per Newlands, J, dissenting as to C, that, as the contract could not be set saide became of the sale to D, who was a bonn fide purchaser for value without no-dice, the only remedy of the plaintiff against C, and M, was in damages for any loss sustained by the plaintiff; and there was no fraud on the part of the defendants C, and M, nor any danange sustained by the plaintiff on account of the sale to them.—Judgment of Joinstone, J. 13 W, L, R, 438, varied, Pommercake v Bate (1910), 15 W, L, R, 542, 3 Sask, L, R, 447.

Cheque — Promissory note—Banks and bonkins—Principal and agent — Power of attorney—Fraud of agent — Knowledge of payee.] — While defendant was absent in Europe, he gave an employee, B., a power of attorney to sign cheques, etc., in consection with his business, Plaintiff and B., who were friends, had exchanged severation notes. This action was to recover the amount of a cheque signed in name of defendant company, per pro. B., given to L. and endorsed to plaintiff. The Quebec Cour of Review held he cannot recover, as he was bound to enquire the scope of the power of attorney, and there had been acts of countivance between him and B. Viguad V. he Werthemer, 6. Cheque given to agent as deposit on scripit to be purchased — Purchase by agent — Cheque handed to vendor — Attempted recognition of authority.] — The plaintiff alleged that he gave a cheque for \$290 to the defendant company to pay as a deposit on a purchase by the company of land warrants for him, and that before the purchase he revoked the authority. The defendant company proved that they entered into a contract in writing to so purchase, and, on receipt of the plaintiff's cheque, handed over to him the contract; and further the plaintiff's cheque, but handed it over to the person from whom they had purchased, and that person received the money thereon. No negligence was charged or proved against the defendant company:—Held, that the plaintiff could not succeed in the action as framed, and it should be dismissed, without prejudice to an action against the company framed as by purchase ragainst vendor,—Judgment of a County Court reversed. the defendant was manazing director. The plaintiff did the work, and received from the secretary of the company a payment on account thereof, which, the secretary said, was charged to the two foreigners, Step plaintiff sued the defendant, as principal, for the balance:—Held, that the defendant netest soiely as agent, and the fact that his principals were foreigners did not make him liable. The question is always one of intention, and the defendant did not intend to bind himself. The defendant might be liable in some other form of action, based on warranty or authority or deceit; and the dismissal of this action should be without prejudice to the plaintiff bringing another action.—No amendment was asked for in this action; and, semble, if it had been, it would not have been granted, as it would have been in effect to substitute another cause of action.—Beakins V. Commission-Introduction of purchaser. ] though the sale be effected wholly through another agent, Osler v. Moore, 8 B. C. R.

Option given to agent to purchase the defendants an option on a mining property, to expire on the 31st May, 1902, under an agreement by which he undertook to find a purchaser for the property for \$27,000 for a commission of \$5,000, but with a provision that, in case it might be price of the property, the commission pay-able to the plaintiff should be 20 per cent. on the purchase price, Some time before the expiration of this option, on the 12th March, 1902, the plaintiff wrote the defendants informing them that he had failed to bring about a sale of the property, but that he had induced a person whose name was mentioned to join with him in purchasing it, and making a cash oner of the 30 days, the property as it stood, payable in 30 days, the property as it stood, payable in 30 days, and saying, among other things: "This is only a game of chance as far as I am con-cerned, for I am now a buyer instead of a seller this is a cash offer and it is all I can afford or will offer whether accepted or rejected." The offer was not carried into effect, and the defendants having subsequently made an arrangement to sell the property to other persons, the plaintiff claimed commission:—Held, that the relationship established between the plaintiff and defendants under the first arrangement, agent, was terminated when the plaintiff made his offer of the 12th March, and that the plaintiff, having then elected to asso-ciate himself with the parties who were proposing to purchase the property, was made subsequently; also, that the relationhaving been severed on the 12th March, the burden was on the plaintiff to shew, the payress evidence, that it was subsequently revived. Fleming v. Withrow, 38 N. S. R. 492. 1 E. L. R. 6.

Option - Secured by agent - Remuneration-Commission-Quantum mcruit-Convices in securing for dafendants an option to purchase certain mining claims which defendants failed to take up.—Britton, J. (16 O. W. R. 358, 1 O. W. N. 889) held, upon the evidence, that plaintiff was acting for if defendants sought to make the pay for work done conditional upon the defendants taking the properly and selling it, realising a profit from such sale, the onus was upon them, and that onus had not been satisfied. Judgment for plaintiff for \$2,185 with costs.

—Divisional Court held, that the evidence shewed that plaintiff was not to be paid unless the claims were sold, and this defendants were unable to do, as vendors would not extend time for payment; that there was nothing in the evidence to indicate any bad faith on part of defendants. Appeal allowed, and action dismissed with costs. Cabill v. Timmins (1910), 16 O. W. R. 980, 2 O. W. N. 73.

Purchase of mine - Agent's commission—Evidence as to whether on buying or selling price of mine—Onus — Finding of fact. ]-Plaintiff was to have 10 per cent. commission for purchasing a mine. The contract was not in writing. The purchase price was \$3,450 and the selling price was \$20,000. The dispute was whether the 10 per cent, commission was to be paid on the buying or selling price.—Middleton, J., held, that plaintiff had established his case. Judgment for plaintiff for \$2,000 and costs. Judgment for defendant on a counterclaim for \$603.20 and \$25 costs with set-off pro-tanto. Endelman v. Rothschild (1910), 16 O. W. R. 925, 2 O. W. The plaintiff failed to effect a sale. He brought an action to recover expenses incurred in an endeavour to make a found that the plaintiff was entitled to com-pensation of \$0.667.62, and also answered questions as follows:—(1) Did the defendant in the middle of 1890 verbally authories the plaintiff to do his best to sell her mine, and the plaintiff to do his best to sell her mine, and the time? Defendant had been agent for plaintiff company at Ottawa, and claimed to be entitled to \$1,000 under an alleged agreement to give up said agency. Anglin, J. (12 O. W. R. 1223), amount due plaintiffs to \$8076.79.—Plivisional Court reversed Anglin, J., holding that, as defendant at the time alleged agreement was said to have been made, was in default in accounting for collections made by him at his agency, it was highly improbable that any such agreement was made, Report of local Master restored with costs to plaintif company. Agency for sale of money orders to account for orders and proceeds-Theft and forgery by servant of agent - Payment pointment as agent for the sale of the signed defendant stole a book of money orders, forged the defendant's counter-signature (which was required), and issued orders which the plaintiffs being unaware of the forgeries, paid, and now brought this action for the amount :- Held, that the defendant him, and that he had duly accounted for his part, they had been stolen from him, and fact been countersigned by the defendant, they would not have been binding on the the money they represented had not been received by him, would be an act outside the scope of his authority as agent, and for this reason the plaintiff could not recover. Erb v. Great Western Rw. Co. (1877-1881), 42 U. C. R. 90, 3 A. R. 446, 5 S. C. R. 179. followed.-Held, further, that even if there was a breach of the defendant's contract, the plaintiffs suffered no damage by it, as they incurred no liability to the payee or transferee of the money orders, inasmuch as neither of the latter would be entitled to sur upon them, there being no privity of contract between them and the plaintiffs. C. & Son sued him for the amount of it:— Held, Davies and Killam, JJ., dissenting, that the evidence shewed that the transaction was not one in which wheat was actually purchased; that C, & Son were acting therein as agents for the Buffalo firm; that the transaction was not completed until the transaction was not completed until the acceptance by the firm in Buffalo was notified to P. in Toronto; and being consummated in Toronto it was within the terms of s. 201 of the Criminal Code, and the plaintiff could not recover. — Held, also, Davies and Killam, JJ., dissenting, that, assuming C. & Son to have been agents of cipal beyond the sums deposited with them for the purpose. The question was as to the right of plaintiff to commission in respect of an advertising contract entered into by the T. Eaton Co. with defendants. Defendants contended that in order to entitle plaintiff to commission, the business must have originated in his territory. In other words not only must the final contract order have been sent from a Toronto office, but the advertising must also have originated in the plaintiff's territory:—Held, that the defining clause was intended to avoid difficulties which might, without it, arise as to where the advertising originated, and should be con-

struct to mean the place where the business was obtained; that the plaintiff was to convass for advertisers in his territory for the defendants and there was to be no limitation of the sphere of action of the plaintiff as defendants contended; that the final contract having been completed by the T. Hotel manager — Moneys received by liability to account.)—The defendant was the manager of the plaintiffs hotel and at the close of each day went over the receipts and disbursements and entered a summary thereof in a book, the receipts being classified according to the department of the business from which they were derived, and took over the money which constituted the balance on hand, as shown by such entries, which he kept in his possession all night, and subsequently made deposits with the plaintiff' bankers. During the day the money was kept in a safe in the office to which a clerk and a stenographer employed in the office, as well as one of the plaintiffs, who for two or three days in each week took part in the management and supervision of the hotel, had access. When any money was taken out, it was the duty and practice to put in a slip shewing the amount so taken and the purpose. The defendant, while admitting the accuracy of the balance up to a specified date, claimed that he was not responsible thereafter, by reason of his not being then able, through overwork, to actually count the money taken over by him:—Held, under the circumstances, and in the absence of a positive statement shewing the inaccuracy of the daily balance, that the defendant was bound to account therefor. Discharge of sweety — Extending time for payment — Promisory notes—Renewed — Accommodation indurer: security — Notice,—T. B. L. and A. S. S. being indebted on several promisory notes to the plaintiffs, who demanded security, the defendant H. A. S., the wife of A. C. S., at his request and without knowing of the pur-

B. L. payable to H. A. S., and endorsed by her and A. C. S., and was then given to the plaintiffs, This note was afterwards renewed, H. A. S. again endorsing a blank form, A. S, being made payee and endorsing ahead of H. A. S. While the plaintiff held this latter note, they kept the several notes as maturity of the note neid as security. In an action on the latter note, H. A. S. plended that she was discharged, by reason of the plaintiffs having given time by a binding agreement to T. B. L. and A. C. S., the principal debtors, without her consent: — Held, McGuire, J., dissenting, that the rethe surety—was applicable; and that H. A. S. was entitled to a dismissal of the action.— S, was entitied to a dismissal of the action.— Semble, that the fact that T. B. L. falsely stated to the plaintiffs, when they demanded security, that H. A. S. was indebted to him, and asked them if they would accept her and asked them it they would accept her endorsement, to which they consented, could not bind H. A. S., as T. B. L. had no auth-ority from her to make the statement. 2. That if notice to the plaintiffs that H. A. S. was merely an accommodation endorser were endorser on the first note and first endorser on the second note would be sufficient evidence of such notice. 3. The case was distinguishable from that of a person who, being asked for collateral security, brings paper founded on an actual indebtedness to himself. In that case, giving him time would in no case relieve the parties to the paper given as security. Le Jeune v. Sparrow, 1 Terr. L. R. 384.

Discharge of surety — Extension of time — Promissory note — Forget renewal, — The appellant was a maker of a promissory note along with one of the other defendants, his son, for whose accommodation the note was made. When the note matured it was retired by means of a new note signed by the son, and purporting to be signed by the father. The father's signature was in reality a forgery. The original note was given up by the plaintiff to the son, and was not produced at the trid. Scondary evidence of it was given, and judgment for the plainting of the original note that the appellant signed it as surety only, the surety was not discharged by the extending of time to the principal debtor. K. were sureties on a bond given to the plaintiff association by the defendant B. for the faithful discharge of his duties as an agent of the association. Among such duties were the remittance, at least once in each month, of all moneys or securities collected for or on account of the association, such remittances to be made by hank draft, marked cheque, post by any dependent of the such as the

Fidelity guarantee—Alteration of destress of principal — Imposition of geretic responsibilities—Recleace of surety,1—A contract of suretyship is to be interpreted strictly, and its effect should be circum-scribed by and limited to the particular obligations assumed by the surety; therefore the suretyship of one who gives a guarantee against the acts of another is at an end, if the duties of the latter, while apparently, on the whole, remaining the same, are changed to place on him more onerous responsibilities. In this case, the defendant D., having become surety only for the acts of the defendant T, case a simple collector of the plaintiff, his suretyship terminated when defendant T, cased to act as collector.

Amount in controversy-Mining claim -Transfer of action.]-The plaintiff was a miner in the employment of the defendants, and brought an action in a County Court (mining jurisdiction) for \$2,190 damages for personal injuries. The defendants moved for prohibition, on the ground that the amount sued for was beyond the jurisdiction of the

County Courts: -Held, that the action was properly brought in the County Court, under s. 117, s.-s. 2, of the Mineral Act, R. S. B. C. 1897 c. 135. An order was made transferring the action to the Supreme Court. Beamish v. Whitewater Mines (Limited), 20

The defendant had no property in Manitoba, and nothing was done to enforce the judgment there. On the 25th April an action was brought against the defendant in Ontario, and judgment ren-dered in favour of the plaintiff on the 17th May. Notice of application for prohibition was given to the plaintiff on the 20th May. By s. 130 of the County Courts Act, R. S. M. c. 33, as amended by 56 V, c. 6, s. 1, the County Court Judge has to announce his decision in a case within 60 days from the hearing :- Held, that the defendant had not larity only; the proper remedy would be to appeal against the judgment. The plaintiff, through her solicitor, was made aware of the judgment as soon as it was delivered; she might have appealed against it, but did not, and delayed for more than four months after judgment was rendered before making the application for prohibition. The question for the Judge was one of fact, viz., whether the debtor had means to pay, and his decision could not be reviewed in prohibition.—Semble, that the order complained of was not so much by way of execution, whether qualified or otherwise, as it was of a punitive character, according to Stonory, Fouch, 13 App. Cas. 20. The plaintiff claimed both stakes as the result of the election, but the defendant refused to pay. At the trial the plaintiff obtained leave to amend the particulars so as to claim a return of his own \$10 as money paid to the defendant for plaintiff's use. The plaintiff recovered judgment against the defendant in a Division Court action for a debt contracted before 61 V, c. 15 (O), and the defendant was at the hearing ordered to pay the amount of the judgment forthwith:
—Held, that the Court had jurisdiction under s.«, 5 of s. 247 of the Division Courts Act. R. S. O. 1807 c. 00, upon examination of the defendant on an after-judgment summons, to make an order for her committal without a previous order for payment based upon such an examination and default thermote. Where it appears that the judgmen the defendant on the defendant of the defendant after appearing in obelience to the summons were not filled, it would not be open to the defendant after appearing in obelience to the summons, to raise an objection to the jurisdiction on that ground; and, the defect not appearing on the face of the proceedings, prohibition would not be granted. Demurrage — Average plan — Canadian cor service vivies — Contract of carriage.]—
The applicants asked the Board to establish the average demurrage plan, under which the raliway company grant a credit of free time to a consignee, when he unloads a car in a shorter time than the maximum provided in the car service rules, which credit is set off against excess time for the use of other cars for which the raliway company charge the consignee demurrage. The Canadian car service rules have been in force only since 1st March, 1906:—Held, that the rules are founded on sound principles which should not be made in the case of surar refuerles. The average system is not justifiable under the contractual relations between the consignor or consignee and the railway company. Application refused. Wallaceburg Sugar Co. v. Canadian Car Service Bureau.

Construction of statute — "The Reilray Comstruction of statute — "The Reilray Act," R. S. C. 1996, c. 37, sz. 39, 234.}—
Under the provisions of "The Railway Act "the Board of Railway Commissioners for Canada does not possess authority to make a general order requiring all railways subject to its jurisdiction to erect and maintain fences on the sides of their railway lines where they pass through lands which are not enclosed and either settled or improved; it cand os so only after the special circumstances in respect to some defined locality have been investigated and the necessity of such fencing in that locality determined according to the exigencies of each case. Several city streets abutted on north side of "Esplan-ade" and the general public passed along the prolongations of these streets, with vehicles and on foot for purposes of access to harbour. In 1892 an agreement was en-tered into between city and the two railway companies respecting the removal of the sites of terminal stations, the erection of overhead traffic bridges and closing or deviation of some of these streets. This agreement was ratified by statutes of the Domin-Act providing that the works mentioned in the agreement should be works for the general advantage of Canada. To remove doubts respecting the rights of the C. P. Rw. Co. to the use of portions of the bed of harbour on which they had laid their tracks across the prolongations of streets mentioned, a of the streets. At a later date Dom. Gov. granted these areas to the city, in trust to be used as public highways, subject to an agreement respecting railways, known as "Old Windmill Line" agreement, and exceptbetween the southerly ends of the areas and the harbour reserved as and for "an allow-ance for a public highway." This was too late, and on the 20th July, 1907, the council of Sandwich West and that of Sandwich East respectively passed by-laws containing the necessary authority. In April, 1906, the location of the line of the Essex, etc., Railway Company was approved by the Board. In June, 1906, the Board made an order allowing the Windsor com-pany to cross the line of the Canadian Pacific Railway. In March, 1907, another order respecting said crossing was made, and also an order approving the location of the Windsor company, the municipal consent being obtained three months later. The Essex company applied to the Board to have the orders of June, 1906, and March, 1907, rescinded, and for an order requiring the Windsor company to remove their track from the highway at the point where the appli-can's proposed to cross it, to discontinue its line of the Windsor company on the highsenior road, and alleged that the Windsor company had never obtained the requisite authority for locating their line. On a case stated to the Supreme Court by the Board : laws passed in July, 1907, were sufficient to legalise the construction of the Windsor company's line on the highway; and that the Board can now lawfully authorise the railway thereon.—Held, further, that leave of the Board is necessary to enable the Essex company to lay their tracks across the railway of the Windsor company on the highway.—Held, also, that the Board, in the exercise of its discretion, has power by order to authorise the maintenance and operation of the Windsor company, along the highway, and to give leave to the Essex company to cross it and the line of the Canadian Pacific Railway, near the present crossing, and to apportion the cost of maintaining such crossing equally between the two companies, instead of imposing two-thirds thereof upon the Essex company, as was done by a former order not acted upon; and to order that if own interest to have the points of crossing differently placed, it should bear the ex-pense of removing the line of the Windsor company to the new point of crossing.—

Bondholders — Right to vote at annual general meeting of company — Interest in arrear — Scope of right as to future meetings — Number of votes — Value of bonds compared with shares — Construction of statutes.]—The right of bondholders of a rail-way company to cote exists, under s. 13 of the Act 36 V. c. 73, and it may be exercised at any time when interest is in arrear. It could not have been intended that it should be restricted to the one general annual meeting next after the interest fell into arrear, and that it was not to be exercised at another meeting although the arrear continued. The language does not drive one to that conclusion, and, in view of the end manifestly aimed at, that construction should be adopted which will secure to the bondholders a voice in the affairs of the company as

long as their interest is in arrenr. The language of s. 15, "all holders of bonds shall have and possess the same rights and privileges and qualifications for directors and for voting as are attached to shareholders," was very comprehensive. It implies equality with the shareholders in every respect as regards directors and voting. It did not deal with their rights, privileges, and qualifications as between the bondholders and qualifications as between the bondholders, and grant the same rights, privileges, and qualifications for directors and voting. The only just way of effecting this is by giving to each holder of a hond one vote for each portion equivalent to the amount of one share. Thus each share being for \$1000 should be upon an equal facting with the holder of 10 shares. Osler and Macharen. JJ.A., agreed in the result, except that they were of opinion that the bondholder's right of voting was confused to evot on each hond. Weddell v. Ritchie, 5 O. W. R. 733, head, \$7.732.

Bonds.] — A railway company issued bonds under usual deed of trust. The N. T. C., us body corporate, was the original trustee, but after having executed the deed, resigned. Another trustee was appointed who signed and issued a number of bonds a few days before the company passed into hands of a receiver. The bonds on their face recited that they should not be "obligatory until certified by the N. T. C., trustee." D., the new trustee, signed bonds in name of original trustee, adding therete "succeeded to D." The bonds were also signed by president and secretary of the company. Held, that the apparent irregularity in the signature of bonds by trustee was not sufficient to put a bons fide purchaser for value upon enquiry, and that the bonds were valid in his bands. 2. A certain number of bonds were handed to H., president of the company, by trustee D., after he had signed them. H. borrowed money for his own use from R., and cave bonds as collateral security, also depositine sixteen of them with R. for safe keeping. R. used all the bonds as collateral for a foun subsequently obtained by him play their negligence in allowing H. to have the bonds under his control made it possible for the bonds to find their way into the hands of bona fide purchasers. Scizure under execution—Description
—Rescizure: — A railway was seized and
sold by sheriff's sale to the present opposant.
It was described as fifty feet in width, but
the greater part of the line was actually
sixty-six feet wide. The present plainting
sixty-six feet wide. The present plainting
that the exceptions really the service wide
exceptions really included the entire road,
exceptions really included the entire road,
strength of the service wide in the service was irregular and illegal, the adjudication by the sheriff being of a specific
object, fenced at the time of the sale, and
known as consisting of the property so enclosed. The error as to the width was
immaterial unless it were to give a ground
of action by the defendant to have the sale
extraded. Moreover, a railway can only be

seized as an entirety, which had not been done in the present case. Carter v. Montreal & Sorel Rw. Co., 23 Que. S. C. 3.

Sciure under execution—Opposition to sale—Question as to outcraship—Depreciation—Appointment of receiver.]—Article 1823 of the Civil Code, which treats of the appointment of receivers, is not restricted, but simply enumerative, and therefore the Court may exercise its discretion in the matter. Railway companies incorporated by the provincial legislatures are subject to the ordinary law as to the appointment of seizure of a railway has been made under a judgment, and there are oppositions which prever the sale of it, the provisions of Art. 173. C. P. C., apply. Several oppositions to a sale in this case having been filled, the right of ownership and the right of possession of the railway being brought in question, and the depreciation likely to ensue by its not being operated being shewn by the roof, all these facts constituted good reasons for the appointment by the Court of a receiver of the railway property. Begin v. Levis County Rue. Co., 27 Que. S. C. 61.

Stantory contract — Construction bonds of railway company — Government guarantee. |—By contract with the G. T. Pacific Rw. Co., published as a schedule to 3 Edw. VII. c. 71. the Government of Canada agreed to guarantee the payment of bonds of the company to be issued for an amount equal to 75 per cent, of the cost of construction of the western division. By a subsequent contract (set, to 4 Edw. VII., c. 24), the Government arreed, subject otherwise to the provisions of the first contract, to implement its guarantee so as a make the proceeds of the said bonds a sum affect of the company of the company of the company of the company of the contract of the contract was only to guarantee bonds of the company, the groceds of which would produce a defined amount and was not to make up in cash or its equivalent any deliciency between such proceeds and the said 75 per cent. of the Grand Trusk Pacific Rw. Trustee for bondholders of an insolvent railway may become a purchaser, as such trustee, at the sale of the railway. Royal Trust Co. v. Baie de Chaleurs Rue. Co. (1907), 13 Ex. C. R. 1.

Unscenved creditor not assenting to scheme — Objection to confirmation of scheme.!—An unscenved creditor who does not assent to a scheme of arrangement filed under s. 285 of the Railway Act, 1903, is not bound thereby.—It is, however, a good objection to such a scheme that it purports in terms to discharge the claim of such a creditor. By a scheme of arrangement between an insolvent railway company and its creditors, it was propose, to cancel certain outstanding bonds and to issue new debentures in lieu thereof against property that was at the time in the possession of the

Farm crossings — Agreement — Maintenance — Rights of land owners — Application to Board of Railway Commissioners.]—A railway constructed by the defendants predecessors in title crossed the plaintiffs respective farms. In 1854, when plaintiffs respective farms being laid down, being laid of the plaintiffs respective farms being laid down, by the railway company to enable the owners of the farms to pass from one side of the railway to the other, and were for more than 50 years maintained and used in connection with the plaintiffs farms, with the knowledge of the defendants and their predecessors in title, without any objection on their part:—Held, on the evidence, that the bridges and under-pass were provided for and enjoyed by the plaintiffs' predecessors in title as part of the agreements or arrangements under which the defendants' predecessors in title acquired the defendants' predecessors in the equired

their right of way through the lands in question, and the defendants were bound by them. There could be no question of ultra tires; the subject matter of the agreements was within the powers and authority of the railway company in dealing for the acquisition of a right of way. The defendants were in the wrong in assuming to alter or reconstruct the bridges and under-puss without the sanction of the Board of Railway Commissioners; and it was for them, and not for the plaintiffs, to apply to the Board— Judgment of Boyd, C., and Meredith, C.A.C.P., 7. While the presumption will be, in the case
of the former, that the approach is part of

in the absence of original compensation as

while it is for the company to maintain the
crossing over its limits, it is for the owner
to maintain the approach within the limits.

Destruction of property by spark from lecomotive — Negligence of defendant — Pracimate course. 1—Plaintiff was the owner of a warschouse in close proximity to defendants' railway. Within six feet of the warschouse he piled a quantity of hay, which became limited by a spark from a locomotive on the milway, and the fire sprend to the warschouse, which was totally destroyed. The jury found that the fire originated from the defendants' engine, but that the plaintiff had been guilty of needles need in storing the hay in such close proximity to the railway:

Sparks from engine — Liability in obscace of nealigence.] — The respondent prought sail for damages caused by a fire originating from sparks escaping from a locomotive engine of the company appellant, while the engine was employed in the ordinary use of its railway. The question of nealigence on the part of the company was specially withdrawn from the consideration of the tribunal on the present appeal; — Held, reversing the judgment in 9 Que, Q. B. 551, that a railway coupany authorized by statute to carry on its railway undertaking in the place and by the means adopted, is not responsible in damages for injury not caused by negligence, but by the ordinary and normal use of its railway, Can. Pac. Re. Co. v. Rey, 12 Que, K. B. 543 [1902] A. C. 230.

Sparks from engine—Limitation of actions—" By reason of the construction and operation for the raileag"—Statutes.]—In action for the raileag"—Statutes.]—In action for damages caused by sparks from a railway engine, the railway company claimed the benefit of s. 27 of the Consolidated Railway Act, 1870, which was incorporated into their charter we Parliament. Sparks from engine — Negligence, Abwave of — Liability.—Action for danage for injury to trees caused by fire arising from sparks from a locemotive engine belonging to the defendant company:—Held, Gollowing Roy v, Can. Pac. Rev. Co., 9 Que. Q. B., 551, 20 C. L. T. 441, that, where injury is occasioned by sparks from an engine, the railway company is responsible in damages for the same, without proof of direct negligence in the operation of the road, Hengley v, Can. Pac. Rev. Co., 21 C. L. T. 394.

Sparks from engine — Negligence, absence of — Liability.] — Fire was discovered in two or three places along the defendants' right of way shortly after a train and engine had passed. In spite of efforts to control it, this fire spread and injured the plaintiff's wood lot, and he brought this action for damages. The trial Judge held that the fire was enused either by sparks from the engine or ordinated in some way from the this created a presumption of negligence which the defendants had not rebutted:—Held, that the French law, and consequently the law in the Province of Quebee, is that the railway company are responsible, notwith-standing the adoption of every means of precaution known to science. The English authorities are not binding in a case pertaining to civil rights and liabilities: North Shore Rw. Co., Wel-Willic, M. L. R. 5 Q. B. 304. IT S. C. R. 511. Even in countries when authorisation to us congines has taken away the common law liability, and left the railway companies responsible for negligence alute, the rule thus laid down in Res v. Posse, 4 B. & Ad. 30. Vunghon v. Taf Valley Ruc. Co., 5 H. & N. 59, and similar cases, has sometimes been doubted and ecaded: see per Bramwell, L.J., in Poscel v, Fell, 5 Que. B. D. 597; Boll v. Grand Truck Re. Co., 20 C. L. 7. 441, U Que. Q. B. 551.

Sparks from engine — Negligence—Destruction of property in neighborhood—Right of way—Radlway Act, 1993, ss, 118 (j), 239—Charge by Judge — Finding by jury—New trial—New evidence on appeal.
—The question for the jury was, whether or not the place of the origin of the fire which caused the damage complained of in the action was within the limits of the "right of way" which the defendants were, by the Railway Act, 1993, obliged to keep free from unnecessary combustible matter, and their finding was that it was, but the charge of the Judge was calculated to leave the impression that any space where trees had been cut, under the powers conferred by s. 118 (j) of that Act, might be treated as included within the "right of way," and, in effect, made a direction, on issues not raised by the pleadings or at the trial, as to negligent exercise of the privilege conferred by furth section—Held, that, in consequence of the want of more explicit directions to the jury on the question of law and the misdirection as to the issues, the defendants were entitled to a

new trial.—Judgment in Blue v. Red Monskin Rev. Co., 12 B. C. R. 490, 5 W. I. R. 233 reversed.—The Court refused at plication by the respondents on the hearing of the appeal, for leave to supplement the appeal case by the production of plans of the right of way which had not been produced at the trial, as being contrary to the established course of the Court, Red Manstoin Rev. Co. v. Blue, 39 S. C. R. 390.

Grand Trunk (1909), 14 O. W. S. 394

The alleged neeligence consisted in the absence of nir brakes and hell signal cords from the equipment of the train: — Beld, that, although the Railway Act in force at the time of the accident required only passenger trains to be equipped with bell signal cords and air brakes, it was still a question depending upon evidence whether the absence of these appliances on freight trains was negligence for the purposes of such an action. The statement of claim should allege that the defendants were aware or should have been aware of the defects. Makursky, v. Can. Pace. Rec. Co., 15 Man, L. R. 35.

Conductor — Negligence — Proximate cause — Imprudence of person injured — Display of urong signal — Case of jury — New trial. — A railway train was approaching a station in London, and the conductor jumped off before it reached it, intending to cross a track between his train and the station, contrary to the rule forbidding employees to get off a train in motion. A light engine was at the time coming towards him on the track he, wished to cross, which struck and killed him. The light engine was moving reversely, and shewed a red light at the end nearest the conductor, which would indicate that it was either stationary or going away from him. The evidence shewed that the crossing was a danaerous one, and that no special provision has been made for the protection of the public — Held, that the necident was attributable to the negligence of officers and servants of the Crown employed on the railway, both in using a defective enrise and in maintaining too high a rate of speed under the circumstances. 2. An enrise and tender do not constitute a "train of ears" within the maning of s. 20 of the Government Railway Act, R. S. C. e. 38. Hollmore Con. Pas. Where the Minister of Railways, or the Crown's officer under him whose duty it is to decide as to the matter, comes, in his discretion, to the conclusion not to employ a watelman or to set up gates at any level crossing over the Intercolonial Railway, it is not for the Court to say that the Minister or the officer was guilty of negligence because the facils shew that the crossing in question was a very dangerous one. Failure to remedy defects in the sand-valves, upon notice thereof given at the repair shops in conformity with the company's rules, its merely the negligence attributable to the company itself; therefore, the company may validly contract with its employees so as to exonerate itself from liability for such negli-

gence, and such a contract is a good answer to an action under Art. 1056 of the Civil Code of Lower Canada. The Queen V. Grenier, 30 S. C. If the train stops, and the passenger, after making reasonable efforts to so, is unable to get off before it starts again, and jumps off and is injured, the company is liable in damages; provided, however, that, when the passenger; jumps off, the train is not moving at such a rate of speed as to make the danger of jumping obvious a person of reasonable intelligence. The fact of a passenger getting off a train while it is in motion is not in listelf evidence of negligence. In every case it is a question to be decided by the jury whether the passenger and the a passenger action of a sufficient length of the stop at a named station, did not one arriving there, stop a sufficient length of time to enable the passengers to get off, and a passenger in attempting to do so, after the train had started, stumbled and fell and was injured, and it was found by the jury on the evidence that he acted as a reasonable man would do under the circumstances, the Control of the control

The award cannot be explained or varied by extrinsic evidence of the intention of the party making it. Error of law or fact on the part of the arbitrators, or excess of jurisdiction, must appear on the face of the award, or from the evidence or documents of record, 3. The Court will not interfere with the discretion of the arbitrators as to the amount of the award, unless it be as a check upon possible tence. 4, The award of costs by the arbitrators does not invalidate the award, where it simply follows the rule established by the Hallway Act itself, for in such case the party has no grievance. 5. The nullity of a part of their fining involves the nullity of a part of their fining involves the nullity of the rest only an the finding forms an indivisible whole if there is prejudice in favour of one of the parties. Hence a finding adjudget the costs of an arbitration when the largest on whom it must fall is null for part and may be valid for the rest. Then the indemnity covers several observations, e.g., the land expropriated, the buildings and inconveniences resulting from the expropriation, etc., it is may fix a lump sum for all. The party inresulting directly and exclusively from the expropriation. The arbitrators can not take into account inconveniences he may suffer in common with the rest of the public, such as are caused by the noise and the smoke and the greater difficulty of reaching the highway. A farm separated from a canal by a public road has not riparian rights as to the canal. The riparian owners of public canals cannot be owners of the banks nor of way of ownership or servitude. When it appears from the deliberations of the arbition in fixing the amount of their award the proof that was offered them as to the value of the losses or inconveniences for which the

law grants them to indemnity, the award is void; it cannot be shown by proof or by examination with the purpose of reducing what proportion the arbitrators have most for these illegal causes. The Superior Court in deciding the appeal must fix in accordance with the evidence taken before the arbitrators the indemnity due for the exprepriation. The O. & Q. R. Co. v. Vallieres, 1900, 36 Que. Ditches and drains-Increase of servitude-Railway under Dominion jurisdictionsubject, in the province of Quebec, to Art. 501 of the Civil Code; and especially are the lands of the Grand Trunk Railway Company bound to receive the flow of water from the higher adjoining lands. A ditch de linge between higher lands of two proprietors, necessitated by the ordinary needs of good husbandry, is not an addition to the servitude for the flow of water, although this ditch receives the water from the lands of the two proprietors, and brings it to the boundary of the lower land of the railway. Where the company have constructed a ditch on each side of their road without sufficient fall so that the water remains stagnant in them, making the adjoining lands wet and injuring the crops on them, the company will be liable in damages to the adjoining owners and will be ordered to pay them. satisfactory reasons, she ought not now to be deprived of the heneft of that finding merely because before action she had not returned or offered to return the money. But it has not been found that an actual premeditated fraud was practised on the plaintiff, in which case there would be no obligation to restore money paid in pursuance of it.—Held, the plaintiff, having been relieved by the Divisional Court as respects the release, should have been required to return or otherwise make good the money paid to or on her account. If the judgment in her favour had renained, it would have been proper to reduce it by the amount so paid. Action for penalty — Pervisors action—Distinct contravations of some hydra—Ultra view—Judgment ultra petita,1—The plaintiffs, had sued the defendant for a penalty of \$20 for having sold goods in November, 1900, without having taken out a license, contrary to a by-law of the municipality. Afterwards the defendant having in the month of April following sold goods by retail in the municipality, the plaintiffs sued him again claiming a like penalty of \$20, under the same by-law:—Held, that the new action of the plaintiffs should be dismissed upon the plean of res judicata in spite of the fact that distinct contraventions of the by-law were in question in the two suits. 2. That the fact that the first judgment had gone beyond the pleadings in declaring the hydrowing of respective this first judgment, which had not been attacked by petition of the municipality of res pidiests. The motified content can be considered only for the purpose of explaining obscurity or ambiguity in the dispositif. And, even if the motifs could be looked at in the present case, the plaintiff would have no action, because the Courts, in the first action, held that there had been novation of the debt, and it was not alleged or proved that a second novation had taken place. Canadian Breveries Limited v. Allard, 23 Que. S. C. 515.

Division Court action — Settlement before trial—No bar to subsequent action. Williams v. Cook, 1 O. W. R. 133.

Identity of actions — Judgment dismissing action against surety — New action against principal.)—An exception based upon res judicata is well founded when the plaintiff sued for the same relief, for the same defendant as principal, after the dismissal of a former action against this assurety. Therefore, a judgment dismissing an action for the recovery of money lent against a married woman and her surety, on the ground of the contravention of Art, 1301, C. C., may be set up as res judicate by the surety or his representative in a second action in which the plaintiff claims the same sum as actually lent to the surety and to the husband of the married woman, alleging that the latter had by fraud caused the memorandum of the loan to be subscribed as if it was the act of the married woman, and it was they who had received the money lent and had the benefit of it. Sutherland v. Edfontaine, 31 Que. S. C. 431.

Mining law—Declaration in judoment.]

to take up the instance, not to have the defendant removed from the curatorship, but in order to determine his liability for costs. 2. The heirs were entitled to intervene to continue the action, not in virtue of any right transmitted to them, but in virtue of their quality of relatives by affinity of the interdiet, and in this quality were entitled to ask for the removal of the defendant from his office of curator. Petition of executor — Payment of succession duties — Allegation—Denial — Donatio mortis causa.] — Where the petitioner for an order reviving the action in his name as testamentary executor, alleges specially that he has paid all the succession duties to the Crown, the opposite party can not demand the dismissal of this petition by alleging that the deceased has made donationes mortis causa, void according to law, and that

R. 219, be "necessary or desirable" under Rule 396 to add or substitute a person as plaintiff, without the consent required by Rule 206 (3), upon the application of the opposite party; but where it becomes necessary to substitute a person as plaintiff without his consent, to prevent injustice, he should not be exposed, without some further action on his part or adoption by him of the position into which he is forced, to any liability for damages or costs. Under the circumstances of this case, the fact that F. had become pendente lite the transferce of the promissory note sued on did not entitle the defendants to an order substituting him as plaintiff and making him liable for the costs of the action. But the original plaintiff could not be allowed to prosecute the action further, because de had no longer any interest in fit and F. could not be allowed to be substituted as a plaintiff and himself to be substituted as a plaintiff in a plaintiff, which had not been entered, but from which the defendants sought to appeal; and all further proceedings in the action should, therefore, be stayed, but without costs.
