There is more catarrh in this section of the country than all other diseases put supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with loca' treatment, pronounced it incurable. Sci-ence has proven Catarrh to be a consti-tutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Oblo, is the only Constitu-tional cure on the market. It is taken in-terally in doses from 10 drops to a tea-spoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it functionals.

The Great Game By WALT MASON

The pitcher is pitching, the batsman is itching to punish the ball in the old-fashioned way; the umpire is umping, the fielders are humping—we're playing baseball in our village to-day! Two thousand mad creatures are perched on the bleachers, the grand stand is full and the fences the same, the old and the youthful, the false and the truthful, the plain and the lovely are watching the game. The groaning taxpayers are watching the players, forgetting a while all their burdens and wrongs, and landlord and tenant are conting the pennant will come to this town where

burdens and wrongs, and landlord and tenant are saying the pennant will come to this town where it surely belongs. The lounger and toiler, the spoiled and the spoiler, are whooping together like boys at the fair; and foes of long standing as one are demanding the blood of the umpire, his hide and his hair. The game is progressing, now punk see how they rally—O, scorer, keep tally! We'll win at the finish, I'll bet seven bones! The long game is ended, we fans have all wended back, back to our labors, our cares and our joys, once more grave and steady—and yet ever ready to stake a few plunks on our boys.

Fans who growled and grumbled on Saturday that the Red Sox vere no good should pin-prick themselves and wake up to the fact that exhibition games prior to a league opening are simply for the purpose of taking the cover off the weak spots. The exhibitions played by the Red Sox have surely enough done this. They have taken a whole tarpaulin off a big patch known in ball parlance as the outfield, and left it stripped bare and naked of all its former greatness. Put Kane and Burrill into the fray, however, and the grass won't grow so quickly in these parts. In the meantime fans should sit back and by a cheerful smile endeavor to chase the jinx away. It s apparently the same old Brantford jinx.

"What in the world did you ever do to Keenan?" asked President Nelson of Ambrose Kane, Saturday evening., The question was based on the assumption that Keenan certainly did something to Kane on Saturday when he sent him Kavanaugh, who was given a trial in left field. About the rawest recruit who ever accepted transportation, was the general opinion in regard to his work. President Nelson, when he saw Kavanaugh go into third base, was near calling

out the life-boat. "We don't want any high divers around here," said the P-R-E-S.

Tesch, the new shortstop, has one fault, and he knows about it himself, because he has been told and admits it. He is so fast around shortstop that he over-runs the ball. In fact, he spiked himself re-cently in this way. Manager Kane says it is a hard fault to over-come. Courtney's weakness at short, it will be remembered, was inability to handle the slow ones properly. However, you can't pick up a Wallace, Barry or a Wagner every day, and if Tesch plays ball te will be welcomed by the fans and his faults overlooked. The new come. The Foot-Rite Pliable Wrinkle-less Vamp

The "Vamp" of a shoe is that part of the upper immediately back of the toe-cap. It is stretched across the top of the "ball" of your foot.

It ought to be of the best leather possible, otherwise it will very soon wrinkle or sag or crack.

In Foot-rite Shoes the vamp leather is specially tanned to take out every last particle of STRETCH. It is then carefully cut and fitted in the making of the shoe. The canvas lining underneath is also specially stretched and fitted across the vamp, so as to be absolutely snug and free from slack

That is why the vamps in Foot-rite shoes are called Wrinkle-less vamps.

They are different from ordinary shoe vamps in the two particulars noted above. They hold their shape and at the same time look trim, snug and neat. We are EXCLUSIVE agents for Foot-rite Shoes. Come in and let us explain their strong points of superiority over other shoes.
