WAR EAGLE ACTIVE AND STRONG — OTHER STOCKS WEAK AND INACTIVE — ACCUMULATION OF BUYING AND SELLING ORDERS.

Montreal, Sept. 6.

All circumstances seem ready for trading on a large scale and no one seems willing to be first. Fluctuations in values thus are feeble and amounts traded in small and dribbling. There is not enough stock coming on the market to clear out the accumulated orders, both buying and selling ones. The former on receding values take up everything; the latter on values being bid up come out. Current of business has not yet become strong enough to fill these orders. There is a halting movement which tries the patience of traders considerably. Except in mining stock there was not enough traded in to be considered satisfactory. London buying was all but inappreciable in Wall Street and affected that market, though T.C.I. showed extraordinary vigor. The local exchange was quiet, probably from the same cause as N. Y. one, viz.: London indifference. Transvaal affairs could scarcely have more influence if war came than they have at present. War Eagle and other mining stock were active, indicating a healthful state of speculation.

Can. Pac. $\frac{1}{2}$ lower at 97. Demand 97 $\frac{1}{2}$; offer 96 $\frac{1}{2}$.

STRAWS.

The plans of Ogilvie's new buildings at Fort William show a seven story brick mill, an 800,000 bushel elevator, and a 100,000 bag storehouse.

Last year the C.P.R. used 4,500 box cars in carrying east the grain crop. This year 6500 will be used, 2,000 new cars having been built this summer.

The wages paid for labor on mining properties during the past eight years, is very nearly 50 p.c. of the total value of product. Part I. Report Bureau on Mines.

The Bank of England rate of discount is unchanged at 3 $\frac{1}{2}$ p.c. The proportion of reserve to liability is 50 $\frac{1}{2}$ p.c. against 48 9-10 last week, and 48 3-10 last year. The Bank gained £604,000 bullion on the week.

The Treadwell mines, Douglass Island, Alaska, has the largest stamp mill in the world, having 60 batteries each of five stamps. The mines now operate 880 stamps and crush 3520 tons of ore daily, representing \$14,000.

A Chicago despatch says that all grain rates east from that city have been advanced 3 cents in corn, oats and wheat, foreign and domestic. The advanced rate is to go into effect Sept. 18. The lake rate is also up $\frac{1}{2}$ c.

In Montreal a new elevator company will be incorporated with a capital of \$500,000. Warehouses will be built at the east end and at the west end, and elevators of the newest construction will cheapen the transfer from warehouse to ship.

Since the beginning of this year up to the end of August something over half a million pounds sterling has been invested in Canadian mining in the British markets. Four times as much was invested in South African mines and five times as much in Rhodesian mines.

Crop reports received Aug. 28th at the C.P.R. offices, Winnipeg, from agents, state that every point reported favorably except Regina. Qu'Appelle, and Moose Jaw. Only two places reported damage, Rosser and Sintaluta. Rosser, a depreciation by hail of 3 bushels per acre, and Sintaluta, a loss of 5 p.c. on an average half of the grain had been cut, the rest was being cut.

Owing to the spread of Mange among cattle in the West, a large and representative meeting of cattlemen was held at Maple Creek on Saturday to establish a public dip for the treatment of cattle. Other precautionary enactments against contamination from tramp animals from across the border, where this disease has been prevalent for many years, were also passed. Commissioner Herchmer, of the Northwest Mounted Police, was present at the meeting.

MONTREAL MINING EXCHANGE.

MORE DISPOSITION TO SELL — BIG THREE LOWER — VIRGINIA SELLS DOWN TO 9½ — VIRTUE STEADY — DIVIDEND PAYERS STRONG.

Montreal, Sept. 6.

This morning's market was, with few exceptions, inclined to softness. Big Three, which has been the feature for the past few days, was decidedly off, selling down to 25, two points below the highest yesterday, and one point below the close. We are decidedly of the opinion that this stock is a purchase on all declines.

Virginia, which was weak yesterday, being offered down to 13½, declined to 9½, at which figure 2,500 shares changed hands.

Virtue was steady, the bulk of the trading being done at 40, although a broken lot brought 48. The closing quotations were 45 to 40. The news from the prospectors is still of the best and money will be made by buying Virtue around present figures.

The dividend payers were all strong, but Republic was the only one traded in, sales being made at 124 and 123, and the closing quotations being 122 to 125.

Golden Star sold at 42 for 1000 shares, and 43 for 500 shares, and was quoted at the close 41 to 43½.

The balance of the trading consisted of 1600 shares Cariboo-Hydraulic at 149, 1500 Deer Trail at 21, 5000 Princess Maud at 12, and 1000 at 13, 500 Slocan Sovereign at 38, and 115 Montreal-London at 55

NEW YORK EXCHANGE.

T. I. C. CLIMBS TO 117 IN TWENTY MINUTES — 6 P.C. DIVIDEND EXPECTED IN ST. PAUL — COMMISSION HOUSES ON SELLING SIDE— OPERATIONS FOR LONDON ACCT. SMALL.

New York, Sept. 6.

Although the correspondents of the New York papers abroad continue to take a somewhat pessimistic view of the chances of maintenance of peace in the Transvaal, the London market does not show that the city magnates who are usually well informed, are alarmed over the outlook.

Consols practically unchanged and the market for Americans is reported to be steady with good buying in L. N. and Un. Pac.

Our market yesterday was entirely satisfactory to the bulls. At the opening everybody was inclined to expect lower prices on account of the alarming despatches from the Transvaal, and when rates for money began to advance, the traders became unanimously bearish. Nevertheless the market held strong all day, and in several stocks, such as Un. Pac., Nor. West., Om., N.Y.C., the buying was called good.

The advance in tobacco was put down to pool operations.

T. C. I. and Cl T. I. advanced on reports that the next dividends on preferred stock would be paid and that the earnings of the companies were such as to justify hopes for a dividend on common stocks in near future.

Of course the advance in T.C.I. was largely helped by the urgent covering of shorts. It was reported that on curb, after close, 100 was bid for it.

The annual report of St. Paul, issued after, showed over 11 p.c. earned on the stock.

The Street confidently expects that the stockholders will get 6 p.c. this year.

New York, (noon), Sept. 6.

Our market was practically unaffected by the disturbed state of affairs in the Transvaal, and operations for London account were so small as to pass practically unnoticed.

The feature of the opening was the strength of T.C.I. First quotations were two points above last night, and further advance of 7½ points took place inside of first fifteen minutes.

Subsequently a reaction of 6½ points took place, but the stock is now strong, and the belief is that the short interest has been by no means eliminated, and that consequently there is a possibility of further fireworks. The earnings are said to be very good. Further improvement is expected and there is vague talk that by the end of the fiscal year the company will have earned at least 10 p.c. on the common. In order to make this showing, earnings will have to be very much larger.

There was excellent buying of St. Paul, owing to the satisfactory nature of the annual statement. A dividend of 6 p.c. is confidently expected.

So. Pac. advanced on the publication of the June statement, which showed an increase in net earnings of \$787,720, as compared with June 1898.

After the first hour, the market became rather quiet, but maintained its undertone of strength. Commission house business, although small, is generally on the buying side, and the bears are very nervous in consequence of their unfortunate experience in T.C.I.

MINING NEWS.**DECCA MINE.**

Mr. Morrison, a nominee of Professor Hardman, has been appointed manager and superintendent of the Decca mine. The now chief known vein has been increased by about 850 feet by the purchase of the adjoining property, which also is heavily timbered. The treasury stock has been increased, by over 50,000 shares, showing a corresponding decrease of promotive shares. President Horland is now at the mine. Decca promises to be an active stock, which does not necessarily offer an immediate rise, but purchases made for investment on all declines will pay handsomely. The policy of the direction is to leave the stock to take care of itself, feeling there can be but one ultimate outcome and a very favorable one. The ore in this neighborhood is rich and the district is one of great promise.

"SIR DONALD."

Gold Hill, Sultana, Jr., Yellow Girl and Golden Crown, formerly owned by the Upton Syndicate, have passed into the hands of a syndicate at the head of which is Mr. Bannell Sawyer, of Montreal. With the change of ownership, the name of the property has also been changed and from this time, the name of the combined mines will be the "Sir Donald." For what consideration this transfer was effected has not been given out, but the purpose of the new company is to carry out on an extensive scale, the development work of the last proprietors. Meanwhile, Mr. Upton is in charge of affairs and has let a large contract of cordwood for use in the mines. Mr. Sawyer being recognized as an active managing director, will push matters on as fast as possible. These properties are situated on the main land near Rat Portage. The Rat Portage Miner says that these mines' development will be a good thing for the district.

UNGA MINE.

Republic, Washington, Aug. 28.

Summit camp lies 10 miles west of Republic City at the head of Granite creek. Here the Republic gold mines and Linn Works Co. have, in addition to their Linn works eight claims, of which the Unga shows best. Surface showings of this claim measures 1000 feet long, with width from 50 to 350 feet, shaped like a wedge having its base at the north and the apex at the south end. Being rusty quartz it is easily visible from the Okonagan waggon road. It was staked in '98, but having been defaulted it was relocated by E. H. Clark, of this company. S. G. Dewsnap, the company's engineer, chipped off 200 small samples

weighing in all 6 lbs and on assaying them got \$3.08 as the value per ton. A 50 lb parcel of samples chipped off each about 1 oz. weight and from no greater depth than 3 inches, yielded a value of \$3.57 per ton. A third sample taken at depth of from 4 to 8 inches yielded \$4.40 in gold and 66 cents in silver. Even should the ore after surface weathering is passed not improve on these values, the claim will make a mine yielding to shareholders magnificent profits, as the lode is very easily worked and very extensive. No other surface showing in the west, except perhaps the Alaska Treadwell, has equal dimensions. The Hon. George E. Foster, ex-Minister of Finance, is president of this Lime and Gold Company. Preparations are now being made for the development of the Unga, and its stock is now being offered on eastern markets.

Chespa-Blue Jay.—The ledge has been expected for some days after each round of shots in the cross-cut now in 40-feet from the 75-foot shaft, and no doubt exists in Superintendent Clark's mind that it will be met with. The Morning Glory tunnel has shown the ledge and its case is a parallel one to the Chespa-Blue Jay.

CHICAGO MARKET.

HOME PRICES RISE TOWARDS EXPORT ONES — A STRONG MARKET — SHORTS COVER.

Chicago, Sept. 6.

Week's reports of visibles with other accounts, which corroborated what they showed, influenced the market to-day, not indeed much at the opening, but very perceptibly in the later dealings. There was a strong bullish influence pressing, and prices in most lines moved gradually up, accelerating on short interests covering and country offerings of no great dimensions. Prices paid by foreign houses on large orders have leaked out from the secrecy which shrouded them at first, and are attracting to their high level the lower values paid on home transactions. Crop prospects are not perfectly uniform and make certain that less will be marketed than was supposed earlier in the season, a fact which also tells in raising values. None of the advancing tendency visible to-day was due to cable quotations. From Liverpool wheat was reported as $\frac{1}{2}$ lower with trading dull. An average demand for export is a continuous feature and the terms of purchase are an advancing quantity.

At Chicago primary receipts last week were: Receipts, 685,630; shipments, 503,405.

From New York there was sent report over the wires today that 480,000 bushels had been sold for export.
