FRIDAY MORNING AUGUST 9 1918

VOL. XXXVIII.—No. 13,785 TWO CENTS

SIX-MILE ADVANCE MADE ON 20-MILE SOMME FRONT

CANADIANS ARE IN IT

Paris, Friday, Aug. 9.—(4.40 a.m.)—The number of prisoners taken by the French and British in Picardy now exceeds ten thousand, according to the latest news from the battlefield.

ENEMY TAKEN BY SURPRISE AND RAPID PROGRESS MADE

Cavalry Passes Thru Infantry and Beyond the Allies' Objectives, Riding Down German Transport and Limbers in Their Retreat, Capturing Villages and Taking Many Prisoners.

London, Aug. 8.—Field Marshal Haig's statement concerning the new offensive by the British and French troops shows that the enemy line has been driven in about seven miles and a half in the centre at Plessier, which lies southeast of Moreuil. It shows that goodly gains also have been made eastward over the front of 20 miles lying between Plessier and Morlancourt.

of British tanks, stormed the Germans on a front of over 20 miles from the Avre River at Braches to the neighborhood of Morlancourt. The enemy was taken by surprise and at all points the allied troops have made rapid progress.

enemy maintained prolonged resistance. "In both localities the fighting was heavy, but ultimately our troops broke down the opposition of the German infantry and gained their objectives."

GERMANS FLEE PELL-MELL BEFORE ADVANCING ALLIES

All Objectives Set Attained in Remarkably Quick Time and Last Accounts Show That Progress Still is Being Made, With Germans Decisively Beaten Wherever They Turned to Fight.

The historic battleground between Amiens and Montdidier again is the scene of a mighty contest. This time the British and French are the aggressors, and under their fierce onslaughts in the first day's battle they have penetrated deeply into the German positions over a front of more than twenty miles, reaching from the region of Braches to the neighborhood of Morlancourt.

The advance of the allies in the centre places them well astride the railroad leading from Villers-Bretonneux to the important junction at Chaunies, where lines radiate north-eastward toward Peronne and southward thru Roye to Compiègne. The railway running northward to Bray was crossed when the allies took Framerville.

the menace to the channel ports also seems, for the moment at least, to vanish. Already there have been signs to the northward from the positions where Crown Prince Rupprecht had formed his men for a drive toward the channel, that a retrograde movement by the Germans was not improbable.

BRITISH SMOTHER ENEMY INFANTRY

Advance Proceeds With Astonishing Speed All Along Line.

CANNOT SAVE GUNS

Particularly Large Group of German Artillery Left Behind.

London, Aug. 8.—The Daily Mail's correspondent at British headquarters says that the hardest fighting occurred on the extreme northern and southern wings of the British advance, the passage of the River Luce and the capture of the southern woods particularly proving very tough operations which checked the advance a while.

British and French Troops Fight Their Way Thru Germans, Who Flee Before Advancing Infantry and Tanks, Leaving Guns Behind—Large Numbers of Prisoners Captured and Heavy Casualties Inflicted on Enemy.

With the British Army in France, Aug. 8.—Fighting their way thru the Germans at dawn on a front of over 15 miles astride the River Somme, British and French troops this afternoon had reached points from five to six miles inside lines which this morning belonged to the enemy.

Nearly all the country already fought over and that now in front of the allied forces is low and rolling, and especially adapted to open warfare.

Fighting in Outskirts Of Important Villages

British Advancing on South Bank of the Somme, While French Gain Ground Further South.

With the French Army in France, Aug. 8.—The line between Albert and Montdidier, along which the allies attacked this morning, is about 25 miles from end to end, but the exact limits of the infantry fighting are not yet reported.

Advance Continues in Good Order

Paris, Aug. 8.—"The attack made this morning by our troops south-east of Amiens, in conjunction with British troops, continues in good order," says the official communication issued by the war office this evening.

Slopes of the Avre Are Captured

With the French Army in France, Aug. 8.—The slopes of the valley of the Avre have been carried and the allies have reached the plateau beyond. They are making further progress and overcoming every obstacle along the line everywhere.

Attacking on 25-Mile Front

London, Aug. 8.—Reuter's correspondent at French army headquarters, states that at noon today the Anglo-French were attacking on a front of approximately 25 miles between Albert and Montdidier. A stiff fight is raging in the outskirts of Moncel, the first line objectives having fallen by 3 this morning.

Germans Admit British Gains.

Berlin, Aug. 8.—(Via London).—The English have forced their way into German positions between the Ancre and the Avre, according to a statement issued this evening by the German war office.

ONE NOTCH DOWN IN WEATHER LIST

London Ousts Toronto From Place of Greatest Heat

Altho Toronto was not able to hold the record it had gained the previous day of being the warmest spot in Canada, it still maintained the second place, being beaten only by London. The mercury rose yesterday to the 90 mark here, while London got a taste of 97 in the shade, still four degrees lower than what Toronto had experienced the day before.

All day the heat was again most oppressive, in fact possibly the weather was more suffocating than on Wednesday, as the sun was more clouded and the atmosphere full of moisture.

Cases of heat prostration were again dealt with in the drug stores and the citizens' own homes. The discomfort was very marked in all parts of the city.

Early in the evening the clouds which had been accumulating vast stores of electricity during the last two or three days, darkened the sky and the rumbling of thunder and the flashes of lightning gave promise of a good old-fashioned storm which would greatly assist in relieving the situation.

Rain at first fell in big heavy drops, cooling off the air somewhat, but gradually the storm increased in violence until finally there was a welcome fall of "cats and dogs." Rain came down in veritable torrents and the sudden change, altho causing some discomfort to those who had ventured out in the earlier part of the day without raincoat or umbrella, caused a sigh of relief and brought a glimmer of hope that the torrid temperature was at an end.

The forecast for today is: Moderate to fresh winds, unsettled, with showers.

Soaked Sheaves a Depreciated Asset

Nearly every Ontario farm has grain out in the fields; a good many have some grain stacked in the barn. But all the grain stacked up in the fields is of much concern to the owner. They fear that it may be soaked by thunder or other showers; that the stacks may have to be broken up and the sheaves thrown down to dry. Two mishandlings of this kind may mean that half of the grain may be spoiled, and the sheaves out in the field for two to four weeks. What the farmer wants now is dry, warm weather, with little or no showers for a few days, in order to house the crop in dry condition. Or, falling that, at least three dry days. Every effort should be made by every hand available to get the dry sheaves to the cover of the barn. Then the crop is practically saved. And when we've got crop covered they are worth something to the owner and the nation. Thunderstorms in mid-August are to the farmer as summer squalls to the boatman on the lake. No farmer feels good with his sheaves soaked in the field. It's like a funeral in the house.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

In the great battle begun yesterday on the River Somme, the British, including Canadians, and French had driven before evening a wedge into the German lines, having a depth of seven and a half miles at its apex and a frontage of 20 miles at its base. From the direction of Amiens the allies launched their attack in the morning on the front between Montdidier and Albert, and the Avre River at Beaches, near Montdidier. At nightfall they had advanced the apex of their wedge to Flesselles, near Amiens, Beaucourt, Calx, Framerville, Chipilly, and a point west of Morlanwelz. They had managed a night assembly of their troops without discovery by the Germans and their sudden falling on the Germans with little artillery preparation came as a complete surprise. Only at one point, Morlanwelz, the Germans were able to offer a respectable resistance. They were advanced and were steadily during the day and in the afternoon German motor transports appeared on the horizon, scurrying away. By 10 o'clock in the afternoon the allies had taken 7,000 prisoners and about 100 guns. At nightfall they were still on the forward march.

The French first army under General Debouty and the British fourth army under Sir William Robertson are the forces which are carrying out these operations. The British fourth army comprises Canadian, Australian and English divisions. At least a part of these troops come from the general allied reserve and in consequence they have a vast amount of fighting about them. This is the first action of the year with a large number of Canadian troops engaged. The Canadians make valuable soldiers and are regarded as excellent for leading an advance.

The German resistance, which was feeble in the morning, woke up in spots in the afternoon. The allied onset, however, broke the enemy stand and pressed on to the final objectives of the day. If the advance is resumed this morning, the allies may count upon stronger opposition. This is the support of the tanks and the mobile artillery, the allies suffered only light casualties. One British army corps of probably four divisions had thrown up its positions in two hours of fighting. Owing to the exposed positions occupied by the Germans on the battlefield, they were unable to throw up a few strong defences. The fighting will therefore mainly take place in the open field.

For these operations the British and French higher command appears to have secured a happy co-operation of all arms. Infantry, cavalry, artillery, mobile machine gun batteries and

NEED NEW SYSTEM OF GIVING ALMS

More Evidence Heard at Inquest on Drowning of Mrs. Layland

No new evidence having any direct bearing on the death of Mrs. Letitia Layland was brought out at the inquest last night. At the suggestion of Coroner Elliott the case was adjourned until August 19, when witnesses representing the police department and the naval service will be heard.

E. L. Cousins, chief engineer of the harbor commission, was the first witness. His testimony was mainly bearing on the technical problem of Long Pond and in answer to E. H. Green, representing the crown, as to whether the life-saving station was at the right geographical point. Mr. Cousins emphatically stated it was not. In fact, Toronto had only 25 per cent. of her proper life-saving accommodation. When this station was built it was intended to have four stations of the same kind at the following points: Eastern Channel, Western Channel, the Humber and at Woodbine avenue, but owing to the war and lack of money the building of the other points was curtailed, with the result shown.

Mr. Cousins suggested that a look-out be placed on the roof of the new harbor commission administration building. A statement was produced showing the number of drowning fatalities for the past four years, as follows: 1910, 23; 1911, 12; 1912, 11; 1913 (to date), 5. This did not include the three boys who were drowned off Mimico, as this came under county supervision.

The Alarm System. In answer to a jurymen regarding an alarm system, Mr. Cousins said that he was at present working on one similar to the system in use by the department. However, he concluded there was no use suggesting anything like this to the government during the duration of the war.

Aemilius Jarvis Called. Commemorative Amiens July 4, who was the next witness, said that he had lived on the island since 1880, and was married in 1885. He had a wife and three children. He had been in the army and had been in the navy. He had been in the army and had been in the navy. He had been in the army and had been in the navy.

Mr. Jarvis stated, further, that the telephone system on the island was very bad and that the government did not complete its program of life stations. The present site was a good one. In answer to a question he said that all the land belonging to the life-saving crew should be able to swim, and he should show his proficiency. Bathing, he said, should not be allowed without a competent patrol on watch all the time. In his estimation, the best place for a bathing beach was the scene of the present fatality.

BIGAMY IS CHARGED

Cadet Claude Stocks was arrested yesterday by Morality Officer Kerr, charged with bigamy. In that he married Mrs. Minnie Lewis, knowing he was already married. The woman's husband was overseas at the time the marriage was solemnized. Stocks is a prisoner for the time being. He remains a prisoner for the time being. He remains a prisoner for the time being.

It is a question, in my opinion, as to the ownership of the land. Mr. Ashbridge. "It was a privately owned affair. I do not think Dr. Haastings would have any hesitation in saying that the plot was in a thickly settled residential district."

PASSED ENTRANCE EXAMS.

In connection with the recent entrance to high school examination at Withrow avenue school, R. M. Spier, principal, reports that 68 pupils passed, being distributed as follows: principal and 20 passed by writing, 30 having failed and 10 failed to pass. A total of 41 pupils of the principal's class passed in the examination. At Withrow avenue school passed second best in the shooting competition for the public schools of the city held before the summer vacation.

NEW PLAYGROUND.

It is expected that the new supervised playground on the corner of the intersection of East Gerrard street will be ready for the school year some time next week, according to the statement of an official of the park department. A reporter for The World yesterday. "The equipment necessary for the playground we expect will be placed in readiness within the next few days and a supervisor placed in charge," he said.

ANNUAL FESTIVAL.

Active preparations are being made by the Y.M.C.A. for the forthcoming annual festival at East Riverdale playground, near Morley avenue. The children of this densely populated district of the east end are looking forward to their annual festival with the greatest interest. The event takes place next Monday.

TENNIS TOURNAMENT.

Broadview Boys' Y.M.C.A. tennis club has just started a tournament which has attracted considerable interest among the members and residents of the district. Matches are now being arranged and the club has a membership of 150 members. R. B. Murray, president.

RAIN WILL HELP TO COUNTRY'S CROPS

A severe electrical and windstorm, accompanied by a heavy downfall of rain, passed over the Town of Newmarket and the northern part of York County about 4 o'clock yesterday afternoon. The rain fell in torrents, heating down some of the standing corn and through the country some of the standing grain was leveled.

While delaying the harvest, the rainfall will do a great amount of good to the meadow and root lands, which were parched and dried up by the excessive heat. At a late hour there were no reports of any barn fires.

LATE MELVIN O'NEILL WAS BURIED YESTERDAY

The funeral of the late Melvin O'Neill, 468 East Queen street, took place yesterday at St. John's Cemetery, Norway. The late Melvin O'Neill, who was in his 18th year, was drowned on Monday last while endeavoring to swim across the river at Blyth. He started on his vacation from the Dunlop Tire and Rubber Company by motor car and was dead seven days after leaving the city. It is stated he was seized with cramps while trying to swim across the river. When taken from the water ten minutes after he sank, life was extinct.

He was the second son of Mr. and Mrs. M. O'Neill, and was almost the sole support of his father. His father is a cripple and unable to work. A maiden son and younger sister survive. According to L. P. Arlett, paymaster of the Dunlop Tire and Rubber Company, he was one of the brightest boys who had come under his supervision. He was an employee of the firm since he left school two years ago and was a keen gardener. He was a member of Trinity Church Sunday school.

EARLSCOURT VETERANS DISCUSS COAL PROBLEM

The regular meeting of the Earlscourt Great War Veterans was held in the Belmont Hall last night, the president, J. A. Crowder, in the chair.

A discussion took place on the British Imperial Association and its attitude on the coal question and the meeting endorsed the action of the association in its efforts, thru its secretary, G. T. Leary, to provide coal for the coming winter for returned soldiers' families. The secretary spoke on the work of the G. W. V. A. convention and the changes made in various departments. Comrades G. L. Gardner, T. H. Barclay, Harry Smith, F. Wright and E. James also spoke.

PREMIER TO ATTEND.

The memorial committee of the British Imperial Association met last night, Secretary R. S. Moody read a letter from Sir William Hearst stating that he would be pleased to participate in the inaugural meeting of the memorial, which has been arranged for early in September. The memorial has been appointed and satisfactory reports are coming in from all quarters, which ensures the success of the movement.

CONDITION OF STREET IS NOT SATISFACTORY

Regarding the complaint of the Riverdale Business Men's Association to the works department concerning the unsatisfactory state and unfinished condition of the roadway east of Dundas Bridge to Hamilton street, which has prevailed for the past five to six years, E. W. Barker, secretary of the association, states that R. C. Harris, commissioner of works, reported nearly four years ago that the trunk sewer, which was laid in that locality, was settling over quicksands, hence the unfinished condition of the roadway. Mr. Barker for attention to the roadway brought forth the reply from the works department that "the trunk sewer was still settling."

Interviewed by a reporter for The World yesterday regarding the matter, Mr. W. H. Hiltz, chairman of the board of works, said "I believe the settling of the trunk sewer is now done, but all work which is not imperative is laid over, and that is the rule at the present time owing to war conditions." This piece of roadway is not dangerous and can be put up with the present. There is very little chance of a sidewalk being put down in this locality at the present time.

AWAITING THE RESULT OF "SMELL" TEST CASE

"The residents are all anxiously awaiting the result of the test case in the court this afternoon. The case, 'said Jesse Ashbridge, 14 Morley avenue, a reporter for The World last evening. "The smells this year are worse than last year, but it all depends upon the direction of the wind."

It is a question, in my opinion, as to the ownership of the land. Mr. Ashbridge. "It was a privately owned affair. I do not think Dr. Haastings would have any hesitation in saying that the plot was in a thickly settled residential district."

WEST TORONTO DIES FROM INJURIES

Little Frank Lucibello, the five-year-old son of Joseph and Mrs. Lucy Little, 240 West Dundas street, who was run over by a motor car at 1:10 p.m. yesterday, died three hours later at the Sick Children's Hospital. The boy was enjoying a ride on the rear of an express wagon along Dundas street, about 100 yards west of Runnymede street, when he was struck in front of a five-passenger car, driven by Harry Miles, 46 Gladhill avenue, East Toronto.

The boy was called and taken to the Sick Children's Hospital. He did not regain consciousness and died at four o'clock.

REPRESENTED OVERSEAS.

Canada Lodge, No. 698, I.O.O.F., initiated two candidates at the regular meeting in St. James' Hall last night. Past Grand Bro. F. P. Gilbert was present with a large number of pride in this lodge that out of a membership of 290, 74 are overseas. 15 have returned, and eight have been killed.

MOTHER OF INFANT TO BE EXAMINED

The jury which investigated the death of the infant of Agnes Feeney last night brought in the following verdict: "We, Agnes Feeney, came to its death on August 7, by causing it to be born prematurely by the parents of the child should be held responsible for not providing the child with proper care and attention. The evidence showed that Dr. K. Campbell, 1461 Danforth avenue, was called, when he arrived the child had been dead an hour. Dr. Jones, who made the autopsy, stated that death was due to a rupture of the placenta. The girl, who is at present in the General Hospital, is to be examined as to her mental condition."

PASSENGER INJURED.

Morton Adams, 18 Mutual street, sustained two broken ribs when he slipped while walking on the steamer Macassa last night. He was removed to St. Michael's Hospital in the police ambulance.

NATIONAL ANTHEM STARTLES GERMANS

Captain J. E. L. Streight Recounts Experiences in Hun Prisons.

Despite the stormy weather, the assembly hall at Mimico Asylum was well filled last evening when Capt. J. E. L. Streight told of his three years in German man prison camps. Capt. Streight said that he had been in many of the worst and some of the best camps in Germany, and none of them were any too comfortable.

For those without milk or sugar for breakfast, soup that was indescribably poor and black bread once a week were what prisoners at the best camps were given. During a concert at which Capt. Streight was present, the room and place for their concert, which were the only things to break the monotony of prison life. He said the men were kept in the hard work they did when digging tunnels by which they hoped to escape. At one time they had to tunnel in operation, but they were discovered.

Three years of misery he was exchanged with 86 other officers by the Swiss commission, and sent to Switzerland. He said he had in Germany been the only good meal he had since he was taken prisoner. The German officer surrounded us with many comforts and attempted by diplomacy to make us forget the horrors we had come thru. He said we were pulling into the station at Paris our train was struck by a bomb from an enemy plane and one poor fellow, a sergeant, who had been a prisoner almost four years, was killed. The sergeant who could turn up and out to greet us, even members of the royal family.

In speaking of the Canadians Capt. Streight said that they had been in the front line trenches as well as smashing things up in Germany. Not long ago one of the leading newspapers published an article warning people against employing Canadian soldiers where machinery was used, as it happened in some way that bricks and stones were found in the path of the machinery, causing great damage, and the boys were suspected.

Mr. Streight, saw at one time 30 men working in a field planting cabbage. All day long they were working. He said that in any way, until last the German officer came to overlook them. He said that the German officer was a man of the plants the officer drew the men up into a body and went on a visit to inspect them. All the plants had been planted upside down with the roots above the ground. With innocent expressions the Canadians told the officer that they did not know anything about farming and so could not be blamed for the plants. The funny part of it was that they convinced the officer.

SOLDIER GARDENER.

Pte. E. Wright of Harvie avenue, Earlscourt, who was the first to raise a crop of early marrowfat peas, has now come forward with a fine crop of tomatoes, grown in the open, which he claims are the largest to be seen in this section. These tomatoes measure six inches in circumference and are fully ripe. Pte. Wright is the father of the girl, Jessie Wright, who presented a gold chain to one of the "blue devils" when they visited Earlscourt recently.

LIVED IN EARLSCOURT.

Joseph Wiggin, employed as an elevator operator at the Robert Simpson Company, and who was fatally injured when caught in the cable of the elevator, lived on North Dufferin street, Earlscourt, and was 19 years old at the time of his unfortunate death. He was born in England and had lived in Toronto about five years. The remains will be buried in Prospect Cemetery. Wiggin is survived by his father and mother and one brother.

LIGHTNING STRIKES HOUSE.

Lightning struck the house of John Walsh, 213 Nairn avenue, corner of Mimico, at 10:30 p.m. yesterday, and put the electric lights in the front room out of commission. No other damage was done and no one was injured.

DID NOT ENTER HALL.

Both C. T. Lacey, an official of the G.W.V.A., and Inspector Dickson, acting chief of police, stated yesterday afternoon that the police of Earlscourt did not enter the hall at any time on Wednesday night, as reported.

ALLAN STUDHOLME IN CRITICAL MOOD

Attacks Government in a Speech at William Varley's Meeting.

TO ACT ON PETITIONS

Labor Candidate the Man to Further Claims of Workmen.

Every problem of general interest, every great question of importance before the public in this province and in Toronto in particular, was dealt with from many angles by the speaker at a meeting in the interests of William Varley, soldier labor candidate, last night.

Considering the aggressive heat and the storm which threatened in the early part of the evening and actually broke later, the meeting which was held in Broadway Hotel on Spadina avenue, was the largest in numbers since the opening of the election campaign in Northern Ontario, and a great deal of enthusiasm was displayed by the audience.

Mr. Varley, the candidate, was supported by the labor representative in the legislature, Allan Studholme and two members of the Great War Veterans' Association.

Mr. Studholme scathingly criticized the provincial government for its inactivity in dealing with the majority of the great problems of the day and claimed it had never given the labor men any serious attention. Promises had been made to be just as easily broken. "The government has not studied" had been accorded a number of suggestions made to the government for the betterment of the workmen were duly "received" and in the next minute pigeonholed. What was required, said Mr. Studholme, was to send a man like Mr. Varley to the parliament buildings as a representative of the labor classes and the soldiers so that he might be able to get the women, the trades, the laboring class and have them acted upon.

Hot Weather Clothing of a Sensible Nature for Men

And this too when "the Weather Man" continues to predict much hot weather still ahead.

If you're going in for any outdoor activity these days an outing shirt is almost a necessity. Even if it's only cutting the grass you have to either take off your stiff collar with the semi-dishevelled result or wear an outing shirt with its attached soft collar, giving the appearance of neatness without discomfort.

The ones specially reduced from \$1.25 to 98c for today are made of white mercerized twill or openwork mesh in coat style with reversible, attached collar, breast pocket and single band cuffs in imitation double cuff effect. Sizes in the lot 14 to 18. Regular \$1.25 to \$1.50. Today, 98c.

—Main Floor, Centre.

Men's Light Weight Combinations, Reg. \$1.48 and \$2.00, Today, \$1.29

An opportunity to get this Summer Underclothing at a price which means substantial savings. These combinations are of white or natural balbriggan. Most of the white are in knee length, and the natural in ankle length. Both styles have short sleeves and closed crotch. Sizes 34 to 46 in the lot. Reg. \$1.48 and \$2.00. Today, \$1.29.

A "Coatless" Suspender is Also an Asset in Summer

When the heat forces the "coatless man" into prominence and more and more men are seen carrying their coats over their arms. This line is plain white, in both two and four-point style, with nickel-plated buckles and loops that fasten to the trousers. Reg. 39c. Today, 29c.

Men's Plain Black Cotton Hose

Forty-five dozen pairs only and reduced, too, to 12 1/2c a pair. They are made seamless and elastic-fitting with fine ribbed cuff and reinforced at toe, heel and sole. All sizes. Reg. 18c. Today, pair, 12 1/2c.

NEEDED ON FORCE; GETS EXEMPTION

Police Inspector Appears for Member Up Before Tribunal.

MANY GET EXTENSIONS

Ten, However, Fail and Must Report for Military Duty.

When the case of Policeman Reginald W. Button came before the tribunal presided over by Mr. Justice Clute yesterday, Inspector Dickson was present to ask that the man be permitted to remain on the force. "The strength of our police force has been diminished by one-third," said the inspector. "We are at present very short-handed and if any more men are taken away it will leave us in a bad position to safeguard the public and property." Exemption was then granted the policeman while he remains in Class B, leave being also given the registrar to reopen the case after police cases now pending have

been decided by the Ottawa authorities. Alfred H. Williams, 253 Pape avenue, an investigator in the employ of the Thiel Detective Agency, was exempted from military service until Dec. 1, with leave to apply further. The agency stated he would be required as a material witness in nearly ten criminal cases coming up for trial in Winnipeg and Vancouver in the fall. He also claimed exemption on domestic grounds.

Extensions Granted. Louis Jagger, 234 Hallam street (while in class C). Archibald C. Black, 465 Dovercourt road (while in class C). Bertie Gill, 354 Richmond street West (while in class C). ASK FOR ASSURANCE ABOUT NATIVE WINES

The vineyard owners and grape growers of this province, as well as the manufacturers of native wines, are anxious that some definite assurance be given them by the Provincial Government that no action will be taken to restrict their business. An order-in-council of the federal authorities prohibits the manufacture of all kinds of liquor, including native wines, after December 31, and the growers and wine manufacturers fear that the provincial government may take some steps to prohibit the sale of the native wines after that date.

Their contention is that they should be given some definite statement of the attitude of the provincial government will assume. The growers would like to dispose of the present year's crop of grapes to the best advantage, and the wine manufacturers will not make any purchases unless they are assured that they will be allowed to dispose of the wine they manufacture up to December 31.

TELEPHONE GIRLS ASK HIGHER WAGES

They Also Want Shorter Hours and Extra Saturday Afternoon Off.

A meeting of the girl employees of the Bell Telephone Co. has been called for this evening at the Labor Temple. It is stated that the girls are dissatisfied with the low wages now received from the company, and desire shorter hours. An operator commences at about \$8 a week, gradually increasing her wage by an automatic increase of 50 cents every few months until finally the operator, as a supervisor, may receive \$15 a week.

A former operator stated that the welfare treatment of the company towards its employees did not commence until an employee had been with the company for at least two years. It might, she said, be true that there was a pension fund, but it was equally true that no employee under 40 would receive a pension, and certainly not unless she had been in the employ of the company for twenty years.

MAYOR FORWARDS COMPLAINTS TO POLICE

Profanity and "other vulgar language used by members of the force" must stop, said Mayor Church in a letter yesterday to the chief of police.

Several complaints had been received about what the police had said on the nights of the trouble. "I should also like to call your attention," the mayor adds, "to the fact that many people, including some soldiers, are going into restaurants and other places and demanding free meals and other services. This is another form of rioting and disorder that should be stopped. I think that information should be laid against some of these parties for rioting."

SUNDAY WORLD HELPERS

The little Sunday World Helpers had a nice display of vegetables at 71 West King street yesterday, the proceeds of which will go to returned soldiers. The workers were disappointed that their customers were not more numerous, but in spite of this and the heat they were quite enthusiastic. Those in charge were Goldie Green, Verne Hardon, Violet Baker and Arthur Stanton.

ENTRIES CLOSE TODAY FOR WOMEN'S SECTION

Prospective exhibitors in the women's section at the Canadian National Exhibition are reminded that entries close today, Friday, for what promises to be an exceptionally interesting and instructive women's department.

Mr. and Mrs. J. Wright, Springhurst Avenue, Parkdale, are spending a holiday in Detroit, Mich.

Miss Marion Hare, Miss Muriel Wagner and their niece, Miss Helen De Lory, are spending a holiday at Plover Falls, Muskoka.

On Wednesday morning at 8.45 o'clock a marriage was celebrated in St. James' Church, Kingston, when Mary Shrimpton, youngest daughter of Mr. and Mrs. R. H. Robinson, Barrie, street, was married to Mr. George Oliver Vogan, Toronto, B.Sc., Queen's University, eldest son of the late Mr. S. H. and Mrs. Vogan, Ottawa.

The ceremony was performed by Rev. Canon Loucks, assisted by Rev. Canon Forner. The bride, who was given away by her father, wore a traveling gown of taupe broadcloth, trimmed with military braid and hat of black plush with Paisley silk and a corsage bouquet of mauve and pink sweet peas.

The bride and bridegroom were unattended and the bridegroom's gift to the bride was a diamond cluster ring.

Only the immediate relations were present. After the ceremony Mr. and Mrs. Vogan left for Muskoka and Georgian Bay, where they will spend several weeks before coming to Toronto to live.

An interesting fact was that Canon Loucks baptized the bride.

Ald. W. W. Hiltz, Ward One, who has been incapacitated from active business for the past month through a broken wrist, caused by a fall at his summer home in Grimsby, is now convalescent although yet unable to use his hand.

WOMEN ORGANIZE AT BIG MEETING

Prepare to Canvass on Behalf of Hon. George S. Henry.

TO GET OUT THE VOTE

Speakers Explain Details in Connection With Electioneering.

Women in the Beaches district who assembled at the Masonic Temple yesterday afternoon were invited by Fred Baker, who opened the meeting, in order that the different districts might be canvassed and rejuvenated into voting order in the by-election to take place on Aug. 19.

There never has been a government that has done so much for us as the present government, said Mrs. VanKoughnet. They have given us the Workmen's Compensation Act and the Ontario Temperance Act. Housewives, too, had been given not only the law but the fish at cost price and demonstrations which taught how to use it.

Wood from Algonquin Park would be available in case of fuel shortage, said Mrs. VanKoughnet. "To keep the government in people sometimes say, 'Never mind party, give us the man.' They are both the man and the party. He is a graduate of Macdonald College, a practical farmer and a university graduate. He urged the women to work hard from now until Aug. 19 and to give the largest majority ever given.

WOMEN NOT ELIGIBLE FOR BRITISH COMMONS

London, Aug. 8.—Women are not entitled to become candidates for parliament according to a decision reached by the law officers of England, Scotland and Ireland, who were unanimous in their ruling.

INDIVIDUAL INTEREST CAUSE OF ELECTION

Hon. G. S. Henry, minister of agriculture, addressed a small gathering last night in St. John's Parish House.

There is no political contest in this election, said Mr. Henry. "Both governments have agreed that there would be no war-time elections, and those who look to Mr. Froudfoot as the leading Liberal in the province are bound to support the government, because the leader of the opposition believes, as does the government, in this matter. There will be four by-elections before the next meeting of the legislature, and both parties have agreed that there will be no contest.

STRIKE DISAPPROVED

Vancouver, B.C., Aug. 8.—British Columbia railway workers showed their disapproval of the recent 24 hours strike called by the various unions affiliated with the trades and labor council last night, by suspending their delegate to the labor council.

PLAYGROUND FESTIVAL

One of the several summer festivals which are held annually throughout the city at the different playgrounds took place at the Carlton Park playground last night. About 2500 fathers, mothers and children were present, and also a running high jump for boys.

The midge girls, who were in costume, did a vineyard dance, and the junior girls danced the Irish jig. There was also a game by the midge girls who presented themselves as a complete family: father, mother, children, dog, cat, rat and cheese were represented. The remainder of the program was not rendered because of the rain.

The Toronto World

FOUNDED 1885. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

FRIDAY MORNING, AUGUST 9.

Wilson's Wonderful Work.

President Wilson has literally interpreted the command of congress to employ against the enemy not only the land and naval forces of the United States, but "all the resources of the nation."

Comparisons are always invidious, but will it be seriously contended that our Dominion Government has any record of achievement during the past three months at all comparable with the record of President Wilson?

The Beef Trust Broken at Last.

The recommendation of the United States Federal Trade Commission which is likely to go into effect without delay by the action of the president, strikes a solar plexus blow at the great packers' monopoly which for years has flourished in the United States.

The Not Too-Scrupulous Partisan.

It will be remembered that two years ago in the fall of 1916, when Mr. J. E. Williams, the fraternal delegate to the Labor Congress from Britain, recommended the members of the congress to get into politics.

As ruthlessly as did the Standard Oil trust and by much the same methods. Secret rebates from the railway companies gave the trust an enormous advantage to begin with.

Reconstruction in Government Needed.

We have heard a vast amount about reconstruction after the war, but the prime reconstruction is rarely touched upon. Here is the point that must be considered:

Kitchener and Foch.

In an interview which Lord Kitchener gave to Irvin S. Cobb in November, 1914, when things had been going badly for the Germans, Lord Kitchener said:

Other People's Opinions.

Editor World: Permit me to make a couple of suggestions regarding both soldiers and returned ex-soldiers. Our civic and government authorities are bubbling about international complications if aliens were interfered with.

THE WIFE

By JANE PHELPS

The Wedding Day.

CHAPTER V. The day Ruth and Brian were married dawned bright and beautiful.

"What for you all up so early?" the old woman grumbled coming in with her cap all awry.

"No, Rachel! I'm not sick. I'm going to be married to the man I love and I am very happy!

"Nonsense! Hasn't Brian said I could send for you, soon? Come, don't look so dejected.

"Who goes to get her bath ready? I don't see that she's ready to go away up there with him without me.

"Yes, I'm good-natured. I was just thinking about them poor white trash kind of niggers you had to wait on all day."

"It isn't a threat—it's a promise!" Ruth replied grimly, giving Rachel a look so menacing that she was ready to wait on all day.

"All right!" the clear voice answered. "Are you good-natured again, Mammy? If your clothes, I'll put you in with all your niggers on you see I don't!"

"Why, Brian, of course. Who else could I take that?" She had seen disapproval in Rachel's eyes.

"Be sure you wear it!" the nurse said, as she gave it to her young mistress.

"There! now get my cape. I won't be cold if I take that." She had seen disapproval in Rachel's eyes.

"I wonder if we will have a garden," she said aloud, as she turned toward the house, her arms filled with leaves of red and brown and gold.

"After years of effort we know of nothing else that would so completely nullify the evil influence that are exerted in all elections, and so solidify the character of the government would be assured."

Majorities have nothing to fear from the system, and minorities have much to gain. But the main point is that the whole tone of the representation has always been improved and strengthened where the system is in use.

After years of effort we know of nothing else that would so completely nullify the evil influence that are exerted in all elections, and so solidify the character of the government would be assured.

ALLIES GAIN STEADILY ON VOLOGDA RAILWAY

London, Aug. 8.—After the occupation of Archangel by the allies, the Bolsheviks withdrew across the River Dvina, and on Aug. 4 were again driven out of their positions there, chiefly by shell fire, according to news received today.

THE PHOENIX.

The Phoenix was a mystic bird who out of ashes rose. And with a spirit undeterred, up toward the skies poked his beak. But mighty plucky now, his looks were never good to me. He was so very plain. And yet I love him for that he rose up so strong and valiantly to victory from pain.

The Centre of Attraction

The long marches, the hard exercises, and strenuous outdoor work of army life, make soldiers appreciate the comfort produced by a cool, refreshing, invigorating beverage. A drink that will relieve that dry, burning sensation—something that is a real thirst-quencher.

O'Keefe's DRY GINGER ALE

IS THE SOLDIER'S FRIEND BY CHOICE. Bottled under the cleanest conditions imaginable and made from real ginger. O'Keefe's is the centre of attraction with the men.

We also make Belfast Ginger Ale, Cola, Ginger Beer, Lemon Sour, etc. A flavor for every taste. Where Beers are preferred, order O'Keefe's. Sold almost everywhere you ask for them in this military district.
