ANOTHER ICEBOAT FATALITY

William Holtham the Victim of a Collision on the Bay Saturday Evening.

MR. MOORE'S BOAT WAS STARTING

When the Whistling Crashed Into It—Two Persons Dead and Two Arms Lost.

Hamilton, Feb. 26.—(Special.)—There was another iceboat fatality on Hamilton Bay last evening, the victim being William Holtham, a 16-year-old son of George Holtham, 241 East Wood-street. The young man was at the tiller of Samuel Moore's boat, which was just starting out from the Victoria Yacht Club house with Moore and three other men, when E. L. Whistling came in at a pretty fast clip. The boats came together with a crash. The Whistling being the heavier, Moore's boat suffered the most, being almost wrecked. Holtham was thrown on the ice. He struck on the back of his head, cutting it. He was carried home in an unconscious state and died in less than two hours. D. Wark, Jr., and Mr. Law were slightly injured. No person on either boat saw the approach of the other, it being dark at the time. The dead boy's parents do not wish an inquest, being satisfied that Mr. Law was not to blame. Green Bros. have charge of the funeral.

His Arm Amputated.
This afternoon John Scott, 32 Erie-avenue, had his left arm fractured by a machine in the Ontario Rolling Mills, and was removed to St. Joseph's Hospital. The injured arm was amputated at the elbow by Drs. Baile and Gockburn. Some months ago Scott had three fingers of the same arm cut off with the same machine. He is suffering with brain fever, and was at once driven back to the institution, more dead than alive.

Death of an Aged Man.

Anthony McGowan of Hazelton died last evening, after a short illness. He was over

WHO IS THIS RAY DEALER?
Toronto Man Was Prevented From Kidnapping Two Halifax Girls By the Police.

Halifax, Feb. 26.—Halifax has another sensational case, the particulars of which will be read with interest. A wealthy Toronto man had planned to "carry off" two young girls, members of respectable families, but, owing to the vigilance of the police, the plan of the would-be kidnapper was frustrated.

The chief of police is in possession of all the facts of the case, but refuses to divulge the names of the girls. The case is one of the most sensational of the police have ever had to deal with. One of the girls is only 15 years of age, and the other 16. Both are members of highly respectable families, and are exceptionally good looking.

The police heard a report a couple of nights ago that a middle-aged man, reported wealthy, had arrived in the city with four car loads of hay from Toronto. The man was well-dressed, and apparently of good education, and was wearing a black suit of clothes, fawn-colored overcoat and silk hat. It seems that he met the girls on the street and an acquaintance was formed. A later report had it that he had succeeded in inducing the girls to run away with him.

The chief of police detailed several officers to work on the case. The officers learned that the Toronto man and the girls had planned to meet at the following morning, and were waiting at a certain place. The man was to have a team, and arrangements were made for the speedy flight of the trio from the city. The girls were on hand at the place and at the hour appointed. They were taken to a house, and the man appeared shortly after. He had a team, containing two valises. He caught sight of the girls, and immediately ran to the horses, galloped out of sight. He has not been seen since.

At the police station the girls made a confession. They did not know the man's name. They admitted that they proposed flight from the city had been planned by their parents. The exposure was a great shock to their parents, who, as already stated, are among the most respectable in Halifax.

THE CRIMINAL HAS INCREASED
Relations Between Great Britain and France Are Not Growing Better.

London, Feb. 26.—There has been a temporary halt, for some unknown reason, in Lord Salisbury's negotiations with Ambassador Cambon for the settlement of the disputes between England and France. There have been no conferences between these two diplomats during the last week, although the Muslim incident led to an exchange of communications between the Foreign Offices of the two countries.

The French declare that they had no notion of obtaining a strip of territory in the Province of Oman, on the Persian Gulf, but only a coal depot for the benefit of trade. The British declare that the Sultan of Oman to refuse the French request was either correct or polite to France, so the diplomats across the channel assert, clinging on the heels of the Shanghai affair, it tends to prove to the Parisian mind persistent ill-will of Great Britain toward France.

LOCAL TOPICS.
The Durham Old Boys hold their banquet at Colborne Hall, on Monday night at 8 p.m.

The "New Daily," Ingenious, has erected three more big sample rooms, to be used for the display of furniture. The company has a capital of \$100,000, not \$100,000, as previously stated.

The girls were permitted to accompany their parents home. The exposure was a great shock to their parents, who, as already stated, are among the most respectable in Halifax.

'NEWYORKER' IS DROWNED

Little 'Newy' Silverstein Goes Through the Ice in the Bay to Death

SAW HIS HAND, BUT COULD NOT AID.

His Body Finally Found After a Long Search—Fisher and Hankin Rescue.

Little Hyman Silverstein, the newboy, while walking on the ice in the bay yesterday evening, fell through and was drowned before assistance could be got. As the ice was now beginning to get dangerous, and large holes are almost everywhere, it was impossible to get near the drowning lad without great risk, and the body was not found until three hours afterwards.

A Cry for Help.
Hyman, in company with several other chums, principally newboys, had visited the bay early in the afternoon to have some enjoyment. He was standing around where the iceboats were situated, and, owing to the large number that patronized the bay, he was unnoticed. One by one his companions left for their homes, and he was left alone. He was crying out for help, and a crowd of people gathered around him.

President Ramsey's Reply.
Mayor Teetzel has received the following reply to his letter to President Ramsey of the Canada Life in regard to that company's assessment and removal to Toronto: "Dear Sir: I duly received yours of the 20th as to the assessment and taxation of this company. I brought it before my most cheerful of his arm below the elbow.

Church Dedicated.
The new Barton-street Methodist Church, which was formally opened last Sunday, was dedicated this afternoon by Rev. P. E. Nugent of Hespler, President of the Dominion Conference. A number of city ministers were present.

Claims Committee Proposes to Contest a Number of Claims Made Against the City for Damages. The Mackay's claim against the city for damages to the city's property was contested by the Claims Committee.

DEAD AT 102.

Mrs. Mary Moroney Passed Away at Her Home on William-Street.
Born in the County Clare, 187, 50 years ago, Mrs. Moroney was a native of Ireland. She was a member of the St. Mary's Church, and was a devoted mother and wife.

Over 300 Success to the Funds of Workmen Lodge.
The success of the funds of Workmen Lodge is a matter of public knowledge. The lodge has been successful in raising funds for the benefit of the workmen, and has been able to provide for the needs of the members.

THE CZAR IS QUITE ILL.
Russian Emperor Prostrated and Unable to Attend to the Business of the State.

London, Feb. 27.—The Copenhagen correspondent of The Daily Mail says: Well-informed persons here assure me that the health of Emperor Nicholas is far from good, and that he is unable to attend to the business of the State. The Emperor has been prostrated by a severe illness, and is unable to perform his duties.

INCALCULABLE GOOD.
AN EXPRESSION OF FAITH.

Dr. Ward's Blood and Nerve Pills have done me an incalculable amount of good. I think they are the best, surest and quickest action for nervousness, general weakness, loss of appetite, general debility and loss of strength. For nine years, before I commenced taking Dr. Ward's Blood and Nerve Pills, my heart was weak and in an unhealthy state. It was so much impaired that I could not walk across the street without suffering great distress, my heart fluttering and beating so rapidly that I could scarcely breathe, causing faintness, loss of strength, and leaving my nerves all unstrung. My sleep was very much disturbed, I had no appetite and there was little strength or vitality in my blood; I was always excessively nervous.

Now, after taking three boxes of Dr. Ward's Blood and Nerve Pills, since taking them I have not been away from my business an hour. Before taking these pills it was a frequent occurrence for me to be away from my business for several days at a time. As a result of taking Dr. Ward's Pills my heart is perfectly healthy and strong and gives me no distress or trouble whatever. I am now able to perform my duties with ease and confidence, and my health is in a state of perfect health.

Did He Have a Ride?
Detective Paul and his officers, duty at Police Headquarters last night, might have had plenty of amusement to pass away the time if they had not been so busy. The officers were on duty from 10 p.m. to 6 a.m., and were kept busy with the many cases that came before them.

More Unfortunates.
Inspector Stephen of No. 2 Division went on duty on Monday night, and arrested a number of persons who were found in a state of intoxication. The officers were on duty from 10 p.m. to 6 a.m., and were kept busy with the many cases that came before them.

THE BONES IN THE NOSE AFFECTED—FACE WOULD SWELL UNTIL HER EYES WERE CLOSED—NOW RELIEVED.
NEWARK, N.J.—"I have had a good opportunity of noting the great medicinal powers of Hood's Sarsaparilla. My wife has been a sufferer from catarrh for the past four years, and the disease had gone so far that the bones of the nose had become affected and particles had come away through an opening in the left side. Her eyesight was also affected to the extent that for nearly a year she was unable to read for more than five minutes at a time. She suffered

Severe Pains in the Head
and at times was almost distracted. She was treated by four different doctors, one of whom was a specialist. They all said they could not do anything for her, as the disease had gone too far. Her nose would swell about every three days until her eyes would almost be closed. Then it would subside for a day or two. About Christmas she commenced taking Hood's Sarsaparilla, and since that time has been almost entirely cured. She has not been troubled with any swelling since, and the bones of the nose have all healed. She is now on the road to a complete cure. I cannot speak too highly of Hood's Sarsaparilla, and I heartily recommend it to any person who is suffering with catarrh."
