INDIANS SCALP ST. KITS LAST GAME, SCORE 6 TO 3

Over 8000 People Saw Two Leaders of Senior League Clash at Island.

Eight thousand people saw the Tecumseh win from St. Catharines at the island on Saturday. It was one of the best games seen in Toronto in years, and those who crossed the bay got their money's worth. The Saints brought about 500 roots across the lake, and considerable money changed hands. St. Catharines being confident of winning and preparing to back their aggression to the limit. Eight natives and four foreigners constituted the team, the only change from their last appearance in Toronto being the substitution of Murphy for Barnett. In the opinion of many the home-bred talent would have been more effective, Murphy being a trifle stale, and only breaking into the game on rare occasions. In the latter part of the game, the Indians had a decided advantage. Eddie Baker gave satisfaction. There was very little roughness, but Baker had a few fouls. The Indians' infringement of the rules. Only once his decision was open to question, when he sent Harris to the fence for what appeared to be nothing more than hard checking.

The Stewart and White of the Indiana defense played exceptional lacrosse, while the particular star of the game was White. The St. Kitts defense was in good form. Harris, Cameron, Elliott and White were the work. If anything, the Tecumseh defense played steeper than St. Kitts. There were a few fouls, but the Indians, which prevented the visitors running up the score. Very few men were ruled off. In the second quarter, Cameron was sent to the fence for hitting Pelker, and a little later Lowe got time for hugging Adams.

The sixth goal was scored on a pretty pass from Devin to Brown, the ball striking Hesse's stick and finding the net. The seventh game was another bit of bad luck for the Indians. Hesse had plenty of time to locate the sphere, but merely made an attempt to stop it with his hand. In the eighth Kalls was hurt by Griff. The latter, however, was not hurt. Finally the ball was secured by Adams, who made a long shot and tallied another for the worth. St. Kitts appeared to be weakening and played listlessly. Pelker dodging two or three players and finding the net. Shortly after the ball was faced Hagan made a shot with no one between him and the net but the goalkeeper. The ball bounded from Clark's body and thus the last chance of the day was lost. There was no scoring in the final quarter. In this quarter Durkin was sent to the bench for hitting Harris while closely checking him. The teams were: Tecumseh (6): Clark, Grimes, Griff, Henry, Stewart, White, Pelker, Currie, Merion, Durkin, Adams, McMillan. Referee, Ed. Baker, Ottawa. Umpires, J. K. Forsyth (Toronto); John Dawson (St. Catharines). Time-keepers, F. C. Menary (Toronto), Henry O'Loughlin, and penalty time-keeper, H. P. Henson.

Shamrocks beat Cornwall. Shamrocks beat Cornwall today by 7 goals to 2. The game was refereed by Gantler. The scorers were: Shamrocks, 1; Cornwall, 1; Shamrocks, 2; Cornwall, 1; Shamrocks, 2; Cornwall, 1; Shamrocks, 2; Cornwall, 1. Total Shamrocks, 7; Cornwall, 2.

CUBA THE LAND OF SUNSHINE

CANADA-CUBA. LAND AND FRUIT COMPANY, LIMITED

INCORPORATED UNDER "THE ONTARIO COMPANIES ACT."

Second Issue of Ten Thousand Acres Only Will Be Sold at \$20.00 an Acre

After this is sold a further issue will be sold at \$40.00 per acre. Buy Now and Save Money. You can't duplicate this land for less than \$50.00 per acre to-day in Cuba. Buy a business lot at \$50 to \$75 which will rapidly increase in value. Terms cash; or 25 per cent. cash and 25 per cent. each month till paid for.

WINTER RESORT

Cuba will be a favorite winter resort for the people of North America, because of its favorable location and uniform temperature. At the time when the Northern States are clothed with snow and ice, this island has the climate of winter. With its fine sandy beach for bathing, its land-locked harbor for yachting, the rolling lands in the background for beautiful scenery, and Canadian people for neighbors, Ocean Beach should be the most desirable as a winter resort. The scenery on Guadiana Bay is grand and inspiring. Our Estate is covered with tropical foliage. The water is so clear that the gravelly bed from ten to twenty feet below can be seen distinctly, abounding in certain sections with Spanish mackerel, a species larger than the mackerel of our Northern markets, and fully as palatable.

PURPOSE OF THE COMPANY.

Since Cuba obtained its independence, and since its favorable climate and fertile soil have become known, there is a growing demand among the people from "The States and Canada" for real estate holdings in this island. Naturally the desire is to be located among the Canadian people, and to know that titles are clear and valid. As the company's property is especially adapted for the establishing of a colony, and as it contains more acreage than the company could put under cultivation in many years, we have concluded to offer for sale fifty thousand acres of land divided into ten-acre lots or upwards. The balance will be put under cultivation for the benefit of the company. This suggested establishment of a colony is especially desirable in order to make a port of entry at Ocean Beach. The part of the tract facing the ocean near Guadiana Bay is set apart for a business and residential site. The land which we are offering for sale is the best portion of the property, as regards location for shipping facilities, being nearest the water front. The quality of the soil is all that can be desired. There is no tax on improved real estate in Cuba. In Cuba the conditions for intensive agriculture are ideal.

The staple crops of the island will be oranges, grapefruit, lemons, limes, early vegetables, coffee, tobacco, cotton, bananas, coconuts, mangoes and such products as olives, grapes, almonds, etc., which can be successfully raised. All of these are very valuable and yield most bountifully when cultivated intensively.

The labor required to plant, care for and harvest them is much less than farm labor usually is in Canada, and the climate is more temperate and pleasant. The soil is light and easily worked, and the opportunity for keeping bees and poultry and for dairying offered by the closeness of the large Havana markets, where products from these lines sell readily at high prices, greatly multiplies the sources of income for the planter and furnishes something for each member of the family to do—work both pleasant and profitable.

Ballou, the historian, writing of Cuba, says: "Nowhere on the face of the globe would intelligent labor meet with a richer reward. Nowhere on the face of the globe would repose from labor be so sweet."

And, finally, it may be added that the expenses of living are far less once a start is obtained.

Bearing these truths in mind, let us take up the conditions and purposes which make up the present undertaking of those engaged in developing this favored spot.

Extract from "Commercial Cuba in 1903," published by the U. S. Department of Commerce and Labor, August, 1903:

"It will unquestionably be easy and natural for Cuba to export to the United States and other countries large quantities of vegetables, especially those of tropical or semi-tropical habitat, and those which are in demand early in the year in northern communities. One great advantage possessed by the Cuban vegetable grower is that almost all kinds of vegetables enjoy in that island a perennial growth, one crop following its predecessor immediately.

"In this way the producer reaps the reward of two, and sometimes three, crops annually of all the different kinds of vegetables which he cultivates."

Extract from report of A. A. Quint of Quibra Hacha, Republic of Cuba:

"I planted a quarter acre with tomatoes; the yield was sixty crates of very large, fine tomatoes. The price in New York at time of picking was \$3.50 per crate."

LAND IS THE BASIS OF ALL WEALTH.

As a permanent place of residence as well as a health and pleasure resort, Cuba, owing to its climatic and scenic charms, is attracting wide attention. Any person from a northern climate can live in Cuba in Summer with as much comfort as in Canada, while the winter months are, of course, very much more comfortable than in a land of snow, sleet and blizzards.

SOIL AND PRODUCTS OF CUBA

In no part of the United States or Canada is found a soil so rich and fertile as that of Cuba. There is no garden like this favored spot. It is perfect in soil and climate.

Three crops a year can be grown. Four hundred years of Spanish misrule prevented the development of more than a small portion of this beautiful island, and thousands of acres of virgin soil now await the thrifty and energetic Canadian to make it the most productive spot in the world.

REMARKABLE GROWTH OF ORANGE TREES

In a letter recently received in the following item: I visited a fruit farm and photographed an orange tree three years ago from setting. It was six inches in diameter at the base and about eighteen feet high, with branches five or six feet long and full of fruit. I also photographed a tree five years old which bore 5000 oranges last crop, and another seven years old, which bore 7000 oranges. Grapefruit attains perfection in Cuba.

ORANGES

It is claimed by the best authorities on citrus fruits that if all the available lands suited for the purpose in this part of the world were put into cultivation it would be more than twenty years before the market would be supplied to the same extent that it was previous to the freeze in Florida and How to Grow them.

It must be remembered that an orange grove will mature here in one-third less time than in California or Florida.

Governor-General Charles H. Allen says: "A ten-acre orange grove once in bearing, gives a comfortable income, sufficient to support a family in the best country style."

"When an orange tree is in full bearing it is valued at \$100. Florida Fruit and How to Grow them.

PROFITS ON ORANGES AND OTHER CITRUS FRUITS

As an indication of the profit to be derived from raising oranges and other citrus fruits, I quote from an Official work on Cuba, recently published: "The person owning an orange grove in a country free from frosts is the most independent and happiest person on earth. A full-grown orange tree will yield from 1000 to 5000 oranges yearly, and, like the lemon tree, begins to bear the third year. Before Cuba got its setting back during the war orange lands were selling from \$150 to \$200 per acre, and a three-year-old grove was worth \$1000 per acre. The oldest trees in Cuba are some 100 years old, and each year the crop is greater and the fruit is better."

Extract from report of A. A. Quint of Quibra Hacha, Republic of Cuba:

"I planted a quarter acre with tomatoes; the yield was sixty crates of very large, fine tomatoes. The price in New York at time of picking was \$3.50 per crate."

CATTLE RAISING

Grasses in Cuba have a most wonderful growth. Green all the year and very nutritious, the cattle raiser has always been the chief occupation of the natives, who have a natural disinclination to the labor necessary in cultivating the soil for market. Pasture always green and no winter storms or no feed to prepare. Large numbers of cattle and hogs in fine condition and good breed are found in all sections of the island. Havana and other points in Cuba are the market, the price being much higher since the Spanish-American war than in the United States.

COST OF TWENTY-ACRE BANANA PLANTATION.

Including Care of Same for Each Year.	
300 banana plants to the acre.	
Selling price at plantation, 55 cents per bunch.	
Cost of land, at \$20 per acre.	\$400
Cost of clearing, at \$5 per acre.	100
Cost of 6000 banana bulbs, at 2 cents each.	120
Cost of planting bananas, at 2 cents each.	120
Cost of care of land, at \$10 per acre.	200
Total cost.	\$1000
Estimated Income from a Twenty-Acre Banana Plantation at End of Each Year.	
Estimating 55 per cent. of plants bearing.	\$1785
Cost of care and marketing products.	800
Net profits.	\$1485

"Note: an owner of a ten or twenty-acre banana plantation can largely reduce his cost of 'care' by doing much of the work himself.

TRUCK GROWING IN CUBA

Of all agricultural pursuits, that of growing vegetables, as a commercial venture, has hidden in the possibilities much to attract not only the tiller of the soil but many of those who have abundant money accumulated in other than agricultural pursuits.

It is easily within the bounds of probabilities to estimate a crop of vegetables that can be grown during the winter months as a thousand dollars on each acre, profit per acre, and if one takes into consideration the small vegetable places worked by the Chinese around Havana it would be reasonable to say into thousands of dollars per acre.

NO DANGER OF OVERDOING

Won't this fruit business be overdone? we are asked. It will, provided that the United States and Europe quit growing, and our wide-awake transportation companies all get flat wheels and hot boxes. The United States is now buying millions of boxes of lemons yearly from Mediterranean ports. Cuba can grow every one of them. In 1894 Florida exported 250,000 boxes of early oranges to Liver-

pool that sold at 20 to 30 shillings per box. This market alone could be worked up to 1,000,000 boxes of early oranges to go in before Mediterranean oranges are ripe. All we need is the fruit to ship and we will have more markets than fruits. It will be at best ten years before Cuba can begin to cut any great amount of ice in the markets of the fruit world.

And to do this we must plant at once ten to twenty thousand acres yearly. We can pay the duty and land our products in the markets cheaper than Florida or California can, and as to quality, we are without a peer.

FISH, GAME AND ANIMALS

Seven hundred varieties of fish, also crabs, oysters, lobsters and turtles, are found in the waters surrounding the Isle of Pines. The sea and rivers which empty into it are literally alive with them. Sea-bass, red-snapper and pompano are the choicest eating.

Parakeets and beautiful humming birds, brilliant as winged jewels, quail and wild pigeons are found in the woods and ducks along the coast. Such game is plentiful, as very few natives own guns, owing to the license of \$10 a year required of those who keep them.

There are positively no poisonous snakes or insects or dangerous wild animals on the island. The largest four-footed animal found is the "huta," about the size of a large squirrel. You can sleep in the open air in the woods or in a tent without the slightest danger from beast or reptiles. Mosquitoes and even common house flies are never troublesome in summer.

TO MERCHANT, MECHANIC OR CLERK

The condition under which the average mechanic or clerk exists to-day is one of ceaseless toil, from morning till night, year after year. If he has a family, after paying the landlord, grocer and doctor, and buying coal and clothing, there is little left to provide for an emergency or old age. Contrast this condition with that under which one can live in Cuba. The owner of ten acres of land under cultivation will have an income double that which is earned by most mechanics, with the expenditure of one-half the labor.

For a small sum he can construct a suitable house. His vegetable garden and fruits will supply a large portion of his food. There will be no rent bills, no coal bills and no winter clothing to buy. Under these conditions he can lead an independent, a healthful, and a comfortable life, having a sufficient margin between his expenses and income to enable him to put aside each year a portion for the future. His property, moreover, is constantly increasing in value.

Do you want a guarantee of independence in old age? Do you want insurance against poverty? If you do, read every word of our Prospectus. It points the way to a comfortable life for life. It shows you how you can easily provide for the future. Give it your earnest attention. Read it carefully. Do it to-day.

ARMY OPPOSED TO PEACE SURE OF BEATING OYAMA

Feeling is That Japan Has Reached Limit of Resources—No City But Washington.

St. Petersburg, June 18.—The emperor and empress and their children have gone to Peterhof.

The delay in arranging an audience with the emperor by the Moscow zemstvos is evoking much comment. In connection with this there is persistent rumor that the emperor intends to issue an important ukase on Monday, and that the audience has been postponed as this document will settle many grievances advanced by the zemstvos.

The Novoe Vremya despatches from the front are irreconcilable in tone, corresponding with the statements made by Gen. Linvitch on June 6. The paper's correspondent with the Russian army in Manchuria telegraphs that the feeling there is against any but a most honorable peace, as the army is bitter in personnel, armament and equipment.

FAMILY STUNNED BY LIGHTNING.

House Struck and Adults Were Nearly Killed.

Rochester, N.Y., June 18.—The family of Philip Johnson, of Scottsville, colored, consisting of man and his wife and two children, came near losing their lives yesterday during a thunderstorm. The house was struck by lightning and wrecked, all the windows being shattered, holes torn in the roof and the plastering knocked off. Johnson and his wife both had their clothing torn and partly stripped off, and they were severely burned about the body. Both were unconscious for more than an hour, and were revived with difficulty. The children were stunned, but were not burned. The house caught fire, and the flames were extinguished with difficulty.

YORK COUNTY AND SUBURBS

Toronto Junction, June 18.—Rev. T. E. Egerton Shore preached his farewell sermon in Annette-street Methodist Church to-night to a very large congregation. He chose as his text Matt. xviii, 9. "And when they have lifted up their eyes they beheld no man save Jesus only," from which he preached one of the ablest and most eloquent sermons he has delivered during his pastorate. He emphasized the importance of seeing in Jesus not only the saviour of the world, but the ideal man. The preacher was only human like his hearers and therefore imperfect—no man is perfect, consequently man can see his ideal only in Jesus, the perfect man. At the conclusion of the sermon, Rev. Mr. Shore referred feelingly to his three years' pastorate. After the benediction had been pronounced, the choir sang "God Be With You Till We Meet Again," sweetly.

That the Shamrocks lacrosse team of Toronto Junction is one of the swiftest in the province in the Junior C.L.A. was quite apparent by the large number of enthusiasts of the national game who witnessed their match with the speedy and far-famed Georgetown team on the town park here yesterday afternoon. Georgetown was weak on home but strong in defence, and Cook, their goal-keeper, played a star game; but the game was never a moment in doubt. The lightning-like passes of the Shamrocks bewildered the visitors, and the brilliant work of the local team's home was simply irresistible. There was a pleasing absence of rough play, also several shamrocks and two of the Georgetown players were penalized.

The Georgetown field captain got in the way of the ball once and was sent to the fence five minutes. Referee Willie Taggart did his work very impartially and showed a strong determination to ensure a fair and honest game. The Shamrocks won by 3 goals to 0. In the first quarter the Shamrocks scored 1 goal in 3 minutes; the second quarter they scored 3 goals in 14, 1 and 5 minutes respectively. The first quarter resulted in probably the swiftest and cleanest exhibition of lacrosse ever seen in Toronto Junction, and the Georgetown home seemed to go to pieces, although the defence was strong and capable through.

Following was the line-up: Watson, Cook, goal; G. Wilson, Watson, point; Warren, cover point; W. Beaumont, Geo. Beaumont and Evison, defence; Ferguson, Graham, Irwin and Glasshouse; Drummond, inside home; M. Beaumont, outside home; Bristow, outside home; G. Patterson, inside home; G. Gilbert, captain; H. Campin, cover point; E. Doan, L. Kovacs, goal; H. King, M. King, M. King and W. Sheardson, defence; P. Campbell, outside home; G. Patterson, inside home; G. Gilbert, captain.

The Junior Shamrocks defeated the Matilda's of Toronto in a very close and keenly contested match on the Cottingham-street grounds yesterday afternoon by 2 goals to 1. The line-up of the Shamrocks follows: G. Scott, goal; J. Phillips, point; H. King, G. Patterson, J. Johnston, A. King, J. E. King, J. Smith and J. Irwin, defence; Curtis, outside home; B. Smith, inside home. Before the game the Shamrocks and second quarter spectators rushed in to mob the Shamrocks, but the referee held a stop to that by telling them that he would award the match to the Shamrocks if there was any further interference by outsiders.

Mrs. Ann Jane Laughlin of Montreal was on a visit to her daughter, Mrs. James Plover, of Pacific avenue, Toronto, on Monday. She was 80 years of age, and the funeral will take place at Montreal, whether the body will be removed by the C.P.R. to-morrow evening.

Donald Barrow and William Megraw were arrested this afternoon by Chief Royce for trespassing on the C.P.R., and placed in the cells. They will come before Police Magistrate Ellis in the morning.

There are seventy-five carloads of stock at the Union Stock Yards to-night. Information has been laid against Barney O'Neil, William O'Neil, and others for conduct on the public highway. The case arose out of the scarp between O'Neil and Spike in Friday night, and will be tried before Police Magistrate Ellis on Tuesday morning.

The members of the Ontario Korkis picked at High York Saturday afternoon and report having had a good time.

The members of the Toronto Board of Control will ride out to Toronto Junction to-morrow afternoon in automobiles and "view the town over" with Mayor Smith and the Toronto County Council. The object of seeing if terms can be mutually agreed upon for annexation.

The officers and members of Shekinah Royal Arch Chapter, Toronto Junction, held their 25th anniversary dinner at the lodge room, corner College-street and Brunswick-avenue, and conferred one degree on forty-one candidates Friday night.

Grand Secretary King, Grand Wardens J. O'Brien, D.D.G.M. Val Camp, D.D.G.M. Wandy, Past Noble Grand Flowers of Albert Lodge, Toronto, and several officers of Riverside Lodge, Toronto, delivered brief addresses at the reception tendered the latter lodge on Friday evening by Lakeview C.O.C. Lodge. Master Clifford Hoyer, of the Junction's popular little restaurant, and other members, who refreshments were served. Lakeview Lodge is steadily increasing in membership, and is prospering every way.

Weston. Weston, June 18.—The two Weston lacrosse teams commenced the season in brilliant fashion. A week ago yesterday Weston I defeated Young Canadians of Woodbridge in a hotly contested C. L. A. series match by 5 to 2, and yesterday Weston II kept up the winning streak by defeating All Saints II by 7 goals to 4 in a Senior City League match. The match played yesterday was not so fiercely contested as that between Weston and Woodbridge, but it was a good, clean, swift game. Th Weston line-up was as follows: B. Mitchell, goal; M. Acheson, point; W. O'Brien, cover point; J. Irwin, E. Holey and H. Golding, defence; J. Dickson, centre; J. Lannahan, E. Hart and H. Best, home; V. Rowntree, outside home; G. Coulter, inside home, Wadsworth, referee.

NOBODY HAS TROUBLE GETTING EUROPEAN CONSUL

Diplomats Can Refuse Recognition of Revolution in Ways That Will Be Severely Felt.

London, June 18.—It is now being realized that Norway's bloodless revolution was far from being completed when the storming proclaimed the dissolution of the union. King Oscar has shown that he deeply resents his deposition and also, as has already been pointed out, there is no idea of resorting to arms, the king has various other means of delaying recognition of Norway's independence, which is essential to her well-being.

King Oscar's first step was to notify the storming that his action was illegal until Sweden consented and both sides agreed to terms. He then summoned a meeting of the Swedish riksdag, and meanwhile he has directed that the whole consular service be refused to obey Norwegian instructions. If the riksdag supports the king in refusing to consent to the separation of the two states the recognition thereof by Europe may be long delayed.

It must be remembered, as The Spectator points out, that if Europe declines to recognize the revolution, it is rather the Norwegian consul and other representatives will not be received as Norwegian officials. It may therefore be delayed by every diplomatic power, which is most necessary to Norway's independence.

As to the possibility of European states acting in this way, The Spectator says: "The great military monarchies, besides being unwilling to see one of the awards of Europe in 1914 upset, are rather disgusted by the precedent which asserts in so striking a way the right of a nation to dissolve the existing house. It is said that in Austria-Hungary particularly the precedent has produced a profound effect which is by no means favorable to the Hapsburg recognition of Norway. It may therefore be delayed by every diplomatic power, which is most necessary to Norway's independence."

POURED GOLD DOWN CHUTES. Over \$60,000,000 Was Carried Through Chicago Streets Saturday.

Chicago, June 18.—More than \$60,000,000, of which \$46,000,000 was in gold, was carried through the streets of Chicago Saturday afternoon. It was moving day for the sub-treasury, which was going to its new quarters in the government building after an eight years' sojourn at the Rand-McNally structure. The work was done so expertly that the few of the pedestrians who passed the treasure wagons realized what was in them.

The vehicles were accompanied by a corps of police, and were guarded by a select service men, uniformed policemen and the special agents of the United States revenue service. The wagons were loaded from a galvanized iron chute at the Rand-McNally building. The bags of gold, containing \$20,000, were turned over to E. P. Wiley, money clerk for the express company, by the employees of the government building that instant the company was sponsor for the gold.

Wiley's assistants, released the bags at the second story window. They slid down the chute to the wagon, and were carried to the express. His account had correspond with that of the man at the window. The money transferred was to be \$20,000,000 of this \$46,000,000 in gold coins, \$23,000,000 in silver dollars and \$600,000 was in fractional currency. The remainder was bank notes and treasury certificates and small coins.

The total weight of the coin moved was more than 198 tons. A bag of gold as it was delivered to the express company was valued at \$20,000. Each, however, contained four smaller bags. In each one of these was \$5000 worth of gold. The bags were packed in a man's coat pocket. Five thousand dollars in gold weighed about 100 lbs. The gold was packed in bundles one foot square. Each of these weighed less than 100 lbs. The gold was packed in bundles one foot square. Each of these weighed less than 100 lbs. The gold was packed in bundles one foot square. LAKES TO BLAME FOR FOG. Cold Water, Hot Air Responsible for Thickness of Atmosphere.

According to the weather man in Queen's Park, the people of Toronto may be prepared for nearly anything in the weather line just at present. Unsettled weather with fog and rain is reported from all sides in Ontario. The fog which has been such a noticeable feature in Toronto's climate for the last three days comes almost entirely from the lake, and is by no means confined to the city. It is due from the same cause. This is due, they say, to the fact that the high temperature around the great lakes, the waters of which are still very warm.

Ocean traffic on the Atlantic is suffering greatly and several collisions are reported from New York. Local shippers may be looked for at any time and from any quarter. One very pronounced feature is the unusually low temperature in the Northwest Territories and Manitoba, and the amount of rain which has fallen. No damage may be looked for so far, however.

On the whole the weather experts assure us we may cheer up and look for a fairly dry and warm summer.

MOSCOW MADE CALICO AT GIVE AWAY PRICES. New York, June 18.—The Post's London cable says: "More than 500,000 pieces (of more than ninety yards each) of Moscow made calico are being hawked about the Manchester market, to be sold almost regardless of price because the Russian government insists that the surplus beyond Russia's needs must be placed somewhere. Manchester is the only market that can be found that is merely a trial lot, preceding larger importations, a portion of which will be practically sold to the Russian treasury will come out of the Russian treasury in the shape of bribes to workmen and employers alike. This helps to illustrate the straits to which Russia is being driven."

PARRY SOUND IS GLAD. Parry Sound, June 18.—Citizens of Parry Sound were rejoicing to-night upon the arrival of the vesper train of parlor, dining and handsome coaches over the Grand Trunk and their new line, the Canada Atlantic, thru their change from Buffalo and Toronto, and there is no doubt it will bring increased travel. This delightful tourist resort, The Belvidere and Rose Point Hotels already have many guests.

Lightning Strikes School. Picking, June 18.—During a heavy storm which passed over this afternoon lightning struck the public school building. Several holes were torn thru the roof and the chimney was damaged.

BOYS AND PLANK DERAIL TRAIN. They Threw Board From Bridge in Front of Locomotive.

Philadelphia, June 18.—Going at the rate of 50 miles an hour, the New York express on the Baltimore and Ohio Railroad was derailed Saturday at Thirteenth-street and Pennsylvania-avenue. The accident was caused by boys throwing a board in front of the engine. The locomotive, coal tender and baggage car were derailed. The two latter, but the engine plowed along the ground for 30 feet and then was completely wrecked, but the passengers were not injured. Only three persons were hurt. According to a track walker who was on the spot two boys hurled a board from the bridge in front of the engine as it was passing Thirteenth-street. The engine was going at such a rate of speed that it shot high into the air and struck the board and left the tracks.

Feel Used Up Run Down, Dragey Tired All the Time—Nerves on Edge—You Lack the Vigor and Courage That Ferrozene Can Supply.

Night comes and it's hard to sleep. Morning dawns and the anxious, tired feeling is still there. Don't neglect this gradual decline; it can't cure itself, but by forming rich, pure blood, Ferrozene will quickly supply the nutrient and building material your system craves. Instantly you are aware that some powerful force is building up your depleted energies. At once you feel braced, toned, strengthened. Search the world over and you won't find anything to tone up a weak system like Ferrozene. Physicians claim it is the most strengthening, uplifting medicine ever discovered. No more spells of tiredness, but bounding, joyful health when you take Ferrozene, of which Mrs. H. S. Gode of Bosman, Minn., speaks in the following words: "I take this medicine because I feel it is the best thing I can do for myself. I was pale and emaciated, suffering from nervousness and general debility. I was unable to do any work, and my health was in a very low condition. I was advised to take Ferrozene, and I did so. I feel now that I am a new person. I am strong and vigorous and was made so by Ferrozene."

CONDUCTORS' GOOD TIME. Annual Excursion to Owen Sound Best in Years.

Owen Sound, June 18.—(Special)—The annual excursion of the C.P.R. conductors was run from Toronto to Owen Sound yesterday and brought 450 visitors. A splendid feature of the run to Owen Sound was the presentation of a gold headed cane to Albert Campbell, now proprietor of the Grosvenor House, Toronto, but for 21 years in the service of the company. A. I. Swinerton made the presentation on behalf of division 36, order of railway conductors. During the afternoon the officers, the committee, and their guests were taken for a run on the bay, on the steam yacht, Veneta. The annual picnic concert at night was held in the town hall and was largely attended both by the committee and excursionists. The excursion was the most successful in years.

Presbytery at Norval. A meeting of the Presbytery of Ontario is to be held in Norval on Tuesday next to induct Rev. H. D. Moner there, and to conduct other business. It is expected that at this meeting the matter of erecting the new church in Toronto at the corner of Delaware-avenue and Davenport-road, will be finally settled. This church is the new home of the Dovecroft Presbyterian congregation.

Steamer Hamilton Delayed. Brockville, June 17.—The steamer Hamilton of the R. & O. N. Company arrived in port to-day, 12 hours overdue, owing to the fog. The boat was also in a badly crippled condition. At Boonville an extension bar of the port side wheel broke, which in turn knocked two blades off the wheel and badly smashed the box.
