THREATENS TO SEND LAWYER TO JAIL

Judge Ritchie Warns Milton Price That He May Send Him in for Contempt of Court--Mysterious Cheque Book in Linden Case--Case on Again This Afternoon.

The case against Hugh F. Linden, charged with obtaining goods under false pretences was resumed in the police court this morning and will be continued this afternoon at 4.30 o'clock.

Mr. Price or I'll give you seven days, an judge of this court and I do not know of any judge in the land that can rule this court."

PANERS STRIKE AND SAY THEY WILL HOLD OUT

The Painters' Union strike, which went into effect today may prove more serious than is at present anticipated.

Some of the men were worth more than what was being paid, and suggested a sliding wage scale, but would give no idea as to figures, saying that he would likely refer to it at tomorrow night's meeting.

The increase is Joseph Craig who expressed the opinion there were plenty of good men in St. John and felt the people should be willing to pay a reasonable price for properly executed work.

HAS NATAL REFERRED TO HOME GOVERNMENT?

Twelve Natives Condemned to Death for Murder of Policemen Were Shot This Morning--Home and Colonial Governments Disputed Over the Case.

PIETERMARITZBURG, Natal, April 2.—The twelve natives condemned to death for the murder of policemen during the uprising in February against the collection of the poll tax, the postponement of whose execution led to a dispute between the imperial and colonial governments, were shot this morning.

Regarding the above, a London cable of last Friday said: "The circumstances leading to the trouble were as follows: A party of police were engaged on February 8 in collecting the poll tax, the postponement of whose execution led to a dispute between the imperial and colonial governments, were shot this morning."

AERONAUT FOUGHT FOR LIFE AGAINST THE WIND

CHICAGO, April 2.—Batling with a sudden onsets of air, which was blowing him directly in front of an Illinois Central express train, as he descended five thousand feet from a balloon to the earth in a flimsy parachute, William Mattery, a French aeronaut, yesterday fought for his life while 5,000 people watched the struggle.

Suddenly the parachute sank quickly to the ground, just as the train rushed by. Thousands of persons ran to the scene expecting to find the mangled body of the aeronaut.

SEA GOING CANADIANS FORM A MERRY SOCIETY

Sancti Point was the scene of great activity this morning. There are five steamers at the various berths and all are busy with the loading and unloading of cargo.

One of the most interesting events on the voyage was the formation of a Canadian Society by the officers of the steamer. The prime movers in the affair were S. M. Hignett, purser, Wilson Smith, fourth officer, and J. J. Heagerty, M. D. C. S.

In furtherance of the foregoing we have decided to hold an inaugural meeting this 24th day of March, 1906, at which S. M. Hignett (title) will preside. Merely presented at the meeting: Ward, chief officer; Edwin Stanley, chief steward; J. A. Ashurst, chief steward.

CONDENSED DESPATCHES

MONTREAL, April 2.—(Special)—Fred Brophy, of the Wanderers Hockey Club is now in a critical condition as a result of being struck in the nose with a hockey stick in the recent Stanley Cup match. It is feared there is a fatal growth on the brain.

EVANGELICAL ALLIANCE

The Evangelical Alliance met this morning in St. Andrew's church, Rev. W. S. Pritchard presiding. A committee was appointed to wait upon Rev. Dr. Gates and present an address relative to his departure from St. John.

REWARD OF \$10 FOR CAPTURE OF MYSTERIOUS MR. GILT EDGE!

Herewith is presented a portrait of the mysterious Mr. Gilt Edge, who until the time offers a reward of \$10 in cash.

The whole city is excited over this man, and his name is being talked about until the mysterious Mr. Gilt Edge has been run to earth.

WARSAW TO TRY GENERAL STRIKE

By This Means Revolutionists Will Object Against New Government Loan.

WARSAW, Russian Poland, April 2.—The revolutionists here have announced their intention to declare a general strike to prevent the government from contracting a new loan.

TODAY IN THE COAL STRIKE

Complete Suspension of Work in the Anthracite Fields—No Disorder Reported.

The coal strike here today shows that 85,000 miners in 350 coal mines in Illinois quit work leaving only engineers, firemen and pump men to prevent injury from natural causes. There is practically a complete cessation of work in the anthracite coal mines of Pennsylvania.

BRISK MORNING ON MONTREAL MARKET

MONTREAL, April 2.—(Special)—On the stock market this morning considerable strength was evidenced, and trading was brisk and well distributed.

LATE PERSONALS

Robin Andrews left at noon today for Halifax, where he will take a course in the military school.

THE TIMES NEW REPORTER

SABBATH DESECRATION. The Times new reporter on Saturday, in common with other members of the Lord's Day Alliance, the Evangelical Alliance, the Temperance Federation, the Board of Trade, City Council and Mr. Hiram Hornblum, received a card of invitation to attend the launching of Mr. James Knox's new water boat, which it was stated would take place shortly after noon on Sunday, when the highest tides of the month would occur.

The view of the new reporter with regard to the sanctity of the Sabbath are well known. He has frequently been known to refuse to get out of bed on that day, because it was really not necessary, and to do so would be to put forth exertion, otherwise known as work, which would neither be a work of necessity nor of mercy, and would therefore be a gross desecration of the Sabbath, both on his part and that of the person who made up the bed after he had left it.

When he read, therefore, that Mr. Knox's new craft was to be launched on Sunday, he was not only grieved that anyone would for a moment believe he was a favorer of looking at weights of clothes that he has nothing left—New York bau.

C. P. R. NET STATEMENT

The net statement of the Canadian Pacific Railway for February shows the largest net gain for a month in the history of the company. The net profits in February amounted to \$1,255,745, as against \$1,212,171 for February of last year, a gain of \$43,574. The net earnings for the eight months amounted to \$10,667,375, against \$10,809,387 for the corresponding period of last year, a gain of \$137,912. The figures in detail are:

NEWS FROM FREDERICTON

FREDERICTON, N. B., April 2.—(Special)—Col. George Roll White, D. O. C. and Col. Armstrong are here today making a semi-annual inspection of the military stores. Col. White says he has no information in regard to the reports that a battery of permanent artillery is to be established here.

N. B. MINISTERS SEE THE PREMIER

OTTAWA, April 2.—(Special)—Attorney General Pugsley and Premier Tweedie are in the city. Messrs. Pugsley and Blair had an interview with Premier Laurier this forenoon. George Robitson is here on business connected with his drydock proposition.

POND OF CABBAGE

"Where'd you get that half dollar?" "Papa gave it to me." "What for?" "I left my rabbit in the house all night and it ate that box of cigars mamma gave him."—Hudson Post.

RETIREMENT OF MR. JONES

Knicker. So Jones is in bed? Bocker. Yes; you see, the weather has been so favorable for looking at weights of clothes that he has nothing left—New York bau.

THE DEATH OF A "FORTY-NINER"

FREDERICTON, N. B., April 2.—(Special)—Joseph MacKinnon, the oldest resident of Gibson, died yesterday, aged 81 years, after a brief illness from pneumonia. He was a native of Gibson, and with the exception of nine years spent in California, at the time of the gold fever, roamed there all his life. He was unmarried and is survived by one brother, John MacKinnon, of Madison, Maine.

AMERICANS INVEST

(Montreal Herald). It is rumored in Sydney that negotiations are now in progress between the Cape Breton Coal, Iron & Railway Co. and the Consolidated Gas Co., of Boston, for the transfer of the collieries of the former industry at Broughton, or part interest therein, to the latter corporation. Messrs. Church and McSweeney, representatives of the Consolidated Gas Co., visited Broughton a week or so ago, to examine the property, and it is stated that President Mayhew's presence at the meeting has to do with the negotiations referred to.

AMERICANS INVEST

The first of the noon-day services for men was held today in Trinity church, when a short address was delivered by Canon Richardson, who took for his subject: The Eternal Christ. The text was from St. John 1: 1-3. These services are held under the auspices of the local assembly of the Brotherhood of St. Andrew, and start promptly at 12.30, ending at 12.45.

"HE KNEW WHAT WAS IN MEN"

Rev. Mr. Norwood's Eloquent and Logical Sermon in St. James Church Last Night.

Rev. Mr. Norwood preached a very eloquent sermon in St. James' church last night in the presence of a large congregation...

He said: "I often wonder if we were to lose the four gospels and one verse could be left about Christ, which would be sufficient to tell us all that we need to know about Him..."

HOW THE TEXTILE COMPANY PROMOTERS MADE PROFITS

Montreal Correspondence of Toronto (News).

Ever since the organization of the Dominion Textile Company in January, 1903, there has been much curiosity displayed as to the financial interests held by those whose names came before the public at the time in connection with the big merger.

It will be remembered that the corporations forming the present Dominion Textile Company, the Montmorency Cotton Mills Company, the Merchants Cotton Company, and the Colonial Bleaching and Dyeing Company. The combination was made by bringing the control into the hands of a syndicate, which in turn reorganized the finances so that the several corporations came into the merger on an equal footing.

It appears that there are exactly 31,000 shares of the Dominion Textile Company, of which 15,000 shares are held by the syndicate and 16,000 shares are held by the public.

JOINT FOLLY

(New York Globe).

On the heels of the adjournment of the abortive conference at Indianapolis each side, as is now the custom at the beginning of labor disputes, makes its appeal to the public.

On the one side it appears that the operators preferred to have a strike than to concede the wages paid in 1903 when the coal business was less prosperous than now.

On the other hand he spent about thirty years in the coal mines of the village of Nazareth. Think of His wonderful management of men; recall it when you are tempted to be impatient with the man who brought it to the service.

THE EVENING TIMES.

ST. JOHN, N. B., APRIL 2, 1906.

Circulation of the Times.

Table showing circulation statistics for the week ending March 31st, 1906, including Monday (6,958), Tuesday (6,874), Wednesday (6,791), Thursday (6,795), Friday (6,831), Saturday (7,654), and a total of 41,903.

WHO CARES?

Civic politics are now being discussed very generally, but there does not seem to be any prospect of a strong citizen's league in the field for the approaching elections.

THE COAL STRIKE

The decision of the mine workers to work in some of the bituminous mines, where the operators have agreed to pay the scale of 1903, will relieve the tension caused by fear of a complete cessation of work in these mines.

TWO MONOPOLIES

There is, however, a widespread suspicion as to the profits of the operators. People who believe in the open shop, who object to granting a labor union the monopoly of employment, do not view with enthusiasm the monopoly of anthracite.

THE NATAL AFFAIR

The news from Natal today is important, but very meagre. The story is told on the first page of this issue. The Natal government had approved the sentence of death passed upon twelve natives who had shot two policemen.

THE MINERS

The Boston Herald gives the following statistics of miners ordered out or who may be affected by the strike: Anthracite miners ordered out, 150,000; Bituminous miners affected by the rupture, 384,500.

At a meeting of the New York State Association for Promoting the Interests of the Blind, last week, the following little poem by Richard Watson Gilder was read:

"Pity the Blind!" Yes, pity those Whom day and night enclose In equal dark; to whom the sun's keen flame And pitchy night-time are the same.

The Municipal Committee of the Ontario Legislature has rejected the sections of the Toronto city bill providing for an increase in the salary of an alderman from \$300 to \$600.

Without entering at all into the merits of any controversy it may be observed that if the citizens believe the present aldermen are not able to judge as to the capacity of officials or the salary they should receive, the first thing to do should be to get a new set of aldermen.

The Moroccan incident is closed.

The conference at Algiers has arrived at an agreement, and France and Germany are once more in accord. Europe will breathe more freely.

The street car strike in Winnipeg has led to the calling out of the militia.

The strenuous west has a population that does not lack ferrebrants of the most pronounced type.

A morning paper says there may be forty aldermanic candidates in the field.

Why not have a procession through the streets, in order that the citizens may look them over?

The Sun admits that its knowledge of hydraulics is more limited than that of the Times and Telegraph.

Its knowledge of splenetics is doubtless more profound.

The Globe should band all communications relative to marine matters to its shipping editor, especially when the times of April 1st are involved.

All sorts and conditions of men are landing from steamers at St. John and speeding west to become citizens of Canada.

The recorder says a recent meeting of the city council was illegal.

What will the council do about it?

A CITY INDUSTRY

Some Interesting Facts About the St. John Creamery on King Street. Harvey Mitchell, dairy superintendent, was in the city today, testing composite samples of cream in the interest of the patrons of the St. John Creamery.

Edwin Robinson, of Sussex, who is a graduate of the dairy school and has considerable experience in creameries elsewhere, has been employed to look after the butter making and great care will be taken to put up a first-class article, and no butter will be put out with the St. John Creamery stamp on it but that which is strictly fresh, and good as any on the market.

The output will be much increased during the present year, and also other markets have thrown out inducements, especially that of the West Indies, Mr. Bell believes, all things considered, the local market the best.

It might be a matter of surprise to the unacquainted how the dairy product of so many farms can be conveyed to the creamery. In this connection the hand power cream separator has very important place, and has completely revolutionized the dairy industry of the world for it is the butter set of 200 pounds of milk can be condensed in an 8-quart can of 20 pounds.

The strike which is now impending comprises both anthracite and bituminous mines, but there are certain considerations to be noted as making the situation less serious than it would otherwise appear. In the first place the indications are that it will not cover the entire bituminous field for some of the operators have been willing to make concessions to the miners and if they shall now do so, Mr. Mitchell's policy is to permit the miners receiving these concessions to continue work.

There is still one other consideration that should be noted as being to the good of the situation. It is this: That the cessation of the mining means a cessation of the payment of wages and to some extent a slackening of business, all of which should give some relief to the money market which has been suffering so long from an excess of prosperity.

Following the announcement that a strike of the miners in the anthracite coal regions had been called for next Monday it became known today that at least three of the mine owners already have placed their various properties on a "war" basis, and are prepared to man the field with strike breakers under a guard, the strategy of which is unprecedented in the region.

The three roads which have been most extensively prepared for a strike are the Delaware and Hudson Company, of which David Wilson is president; the Erie Railroad, president, F. D. Underwood; and the Delaware, Lackawanna and Western, president, W. H. Truesdale.

While it is not known definitely that the other coal operating roads have taken similar precautions, the general understanding is that all of them have been quietly preparing for trouble, with the object in view of working the collieries with maximum men whenever they should feel so disposed.

INTERESTING NEWS FROM WASHINGTON

Andrew Carnegie and the Rate Bill—Time Not Yet Come for the Revision of the Tariff by its Friends.

(From our Regular Correspondent.)

WASHINGTON, D. C., March 31. Congress, made up of constitutional lawyers and farmers and men of many occupations, has been at work on the railway regulation proposition and it is with more than ordinary interest that the views of one of the greatest business men in the world have been received. The letter written by Andrew Carnegie and published in a Washington Sunday paper is the subject of discussion wherever the rate question is under consideration. Mr. Carnegie is a lawyer, not in his professional station, but he is recognized to be a man of rare intelligence, business ability and practical sense. The president, who, it is claimed, has none too high an opinion of the inability of lawyers, has been deeply impressed with the letter of Mr. Carnegie and devoted most of the time of the cabinet meeting Tuesday to its discussion. Mr. Carnegie represents perhaps the largest shipping interest in the world and might therefore be supposed to be on the side of the railroads who have the power to make preferential rates and rebates without limitation for him, but his advice is as sound and disinterested as though his interests were involved. He does not represent either any great syndicate of papers and his enlightening conclusions on this important and vexatious question was sent to the Washington Post with no greater heralding and announcement than the communications of a "Fox Popul" or "Pro Bono Publico."

The fate of the rate bill still remains problematical. That it will pass in some form is doubted by no one, but the construction of the bill and its efficacy depend in a great measure upon the amendments proposed to the Hepburn bill as it passed the house. Almost every senator who has spoken there has had amendments to propose, but it is really the question of the rights of the courts to review the decision of the commission affecting rates which will hold up the passage of the bill indefinitely. Mr. Tillman has been widely engaged this week in trying to force a vote on the bill, but he has been supported by neither party in the senate. Mr. Bailey, of Texas, who is one of the best constitutional lawyers in the senate, has been absent on account of the death of his father and there could be no expectation of the bill reaching a vote before he had been heard on the legal questions involved. The situation in the senate with regard to this bill has changed greatly in the last fortnight, and at the present time the Democrats are divided worse than the Republicans were, while the work of solidifying the Republicans is going on actively. The bill, it is generally expected, will come to a vote now and receive the vote of forty-five Republicans and sixteen or seventeen Democrats, which would constitute the argument that it is a partisan measure and temporarily rid it of the accusation of a question of politics.

There is a repetition of the rumor that Attorney General Moody will retire from the cabinet and the present time the Democrats are divided worse than the Republicans were, while the work of solidifying the Republicans is going on actively. The bill, it is generally expected, will come to a vote now and receive the vote of forty-five Republicans and sixteen or seventeen Democrats, which would constitute the argument that it is a partisan measure and temporarily rid it of the accusation of a question of politics.

TO TAKE UP STUDY OF GAELIC HERE

As a result of the visit of John J. McGee, of Ottawa, clerk of the petty council, to St. John a class for study of Gaelic will be formed here in affiliation with the Gaelic League.

Mr. McGee is deeply interested in this movement for restoration of the Irish language and has been the leading spirit in the Ottawa branch of the league. He is here on the way back to Ottawa, where he will be the chief of office of Nova Scotia's new governor and he and his wife and son, Walter G. McGee, are to be accompanied by Charles J. Bonaparte, now secretary of the navy. It is also reported that George L. Van Man, United States ambassador to St. Petersburg, will be in the city.

Yesterday two meetings were addressed by him here in the interests of the Gaelic movement, one of No. 1 Division A. O. H. in the morning in the club's room, when President W. L. Williams presided, and in the afternoon in the C. M. B. A. hall, when President Richard O'Brien was the chief.

In the afternoon meeting Mr. McGee said he believed there had never been in Ireland a movement which spread better for the Irish people than this one.

Sir John Gilbert was the forerunner and indeed the founder of the league. There had been several academic societies, and about 1890 was started one with the object of preserving the Irish language. Among the active movers was Dr. Douglas Hyde, though John Fleming and Mr. McNeill were the two principal promoters. At the time of the union probably every one in Ireland knew or spoke the Irish language, but at the end of the 19th century they numbered but 200,000.

OBITUARY

Arthur R. Francis.

All classes of citizens will regret to hear of the death of Arthur Robinson Francis which took place Saturday at the age of forty years. Mr. Francis was the eldest son of H. L. Francis. He followed the shoe business all his life. After a few years spent in Francis & Vaughan's store, he moved to Chicago and was fourteen years in the western metropolis, where he had charge of the shoe stock of one of the largest of the department stores. About two years ago he came back to St. John and again entered the employ of Francis & Vaughan. He had been selling for a considerable time but no serious result was looked for until about a month ago when he was compelled to take to his bed and after much suffering, borne with great fortitude, he died Saturday. The cause of death was Bright's disease. Mr. Francis was popular with all classes and his death will cause deep regret. Deceased was never married. Besides his father, five brothers and one sister survive. They are Charles F. Sydney F. and Herbert of this city, and Wallace H. and Harry A. of Dawson City, and Miss Ella at home. The funeral will take place tomorrow afternoon at 2.30 from his late residence, 60 Wentworth street.

Mrs. E. F. Manimon, of Wareham (Mass.) is here to visit her sister, Mrs. Crozier, who is quite ill. Mrs. Manimon is a sister of Hugh Campbell.

Women's Ways of Earning Money--The "Mover"

By Cynthia Westover Alden

MAID who displays tact and good judgment in packing makes her self almost invaluable to a woman who travels. A friend of mine had a maid who was such an adept at packing that she was called upon to pack for her mistress's entire wardrobe...

charge by the day or so much for the whole winter.

There is scarcely one of these beautiful brownstone houses in New York that would not look brighter and cheerier if a woman dressed in window boxes. Even in the country window boxes are just as necessary as a woman who has luck in the care of plants and flowers. A woman who can make money, not only in filling the boxes in caring for them through the summer...

known as a first-class hairdresser is to insure you a good income.

When on an outfit in Colorado, I once caught a beautiful specimen of a bird. I took it to a professor in Boston. He said that it was a new species of bird and of good specimens of all kinds of bugs, butterflies, moths, etc. He answered that he had paid for one of the birds before that I had caught. I'll catch butterflies for a living. I remember a certain bird, when visiting the Museum of Natural History in New York city, and he said that the best specimen of the bird he had seen was the one with many of their kind I had caught and afterward.

When Baby Begins to Walk--How to Care for Him

By Dr. Emelyn L. Coolidge

At 11 months old will commence to stand alone or even walk a few steps, but is usually very unsteady on his feet and will take hold of some object for support. Sometimes the child will enjoy putting his "bobby tender" along the floor without having the support of the feet. The child will usually soon grow tired of this exercise, however, and be glad to be put back onto the seat of the "bobby tender."

A "Good Music Club" for Girls

A LITTLE musical club has just been formed for the purpose of better familiarizing its members with good music, and with a knowledge of composers.

All the members are amateurs, and the club is purposely kept small, as the girl who got it up wisely says: "You get better work out of a few." Their plan is the holding of little musicales, not so often as to become irksome, at the members' houses, taking up a single composer at one meeting, a certain school of music at another, and giving still another over to the current events of music.

Correct Wedding Announcements

By Eleanor B. Clapp

WEDDING announcements, although it is often referred to as a card, is in reality a folded sheet of heavy paper exactly similar to a wedding invitation. It is worded: Mr. and Mrs. Clark Sprague announce the marriage of their daughter, Mabel, to Mr. Thomas Brown Ailing on Tuesday, March the sixth, Nineteen hundred and four.

PLANNING THE MEALS

FULLY half the drudgery of planning twenty-one meals a week is done by the time you are seated at the table at the beginning of the week.

Take advantage of a leisure hour and write down in little notes one of the seven days. You will find yourself unconsciously thinking up ideas for your meals, though, of course, you will have to adapt it more or less.

MAKING COLLAR SETS OF HANDKERCHIEFS

ANOTHER one of the many uses to which handkerchiefs may be put is in the fashioning of collar and cuff sets.

Embroidered handkerchiefs are chosen to make them of one side, with a corner forming each end, cut off two and a half inches deep for the collar, and each of the other points making a cuff four inches deep.
