French Cross Rhine; Occupy Manheim

PART OF DARMSTADT SEIZED; GERMAN LEAVE WORKSHOPS

Chief Station in Essen Taken—French Confident Germany Will Give In, But Washington Believes Situation Tense With War Renewal Possible.

(Canadian Press.)

London, March 3.—The French crossed the Rhine today, occupying Mannheim and a part of Darmstadt, says a Central News despatch from Berlin.

The wharves at Mannheim and the workshops in Darmstadt were taken over, whereupon the German employees left their work.

Essen, March 3.—The principal railway station of Essen was occupied today.

NEW LANDMARK IN RELATIONS

Canadian-U. S. Treaty Negotiated Direct

Washington Correspondent Sees Beginning of More Independent Diplomatic Action by Canada—Makes Close Season on the North Pacific to Save Halifax.

(Canadian Press)

New York, March 3.—Signaling of the fisheries treaty in Washington yesterday by Hon. E. Lapointe, K. C., Canadian minister of marine and fisheries and U. S. Secretary of State Hughes, is reported as a new landmark in the diplomatic relations between Canada and the U. S.

They note that the negotiations regarding the treaty were conducted between the U. S. and Canada and not through the British embassy as heretofore, and say that the treaty is the first convention between the two countries to be negotiated directly without the intervention of mediation of the British Government.

The Herald correspondent says—"It is believed here that this action marks the beginning of more independent diplomatic action by Canada. The signing of the treaty naturally led to speculation as to the question of a special Canadian envoy at Washington."

Washington, March 3.—A convention establishing a closed season each year from November 16 to February 16, on halibut fishing in the North Pacific Ocean, was signed today by Secretary Hughes and Hon. Ernest Lapointe. The convention is designed to preserve, in as far as possible, the halibut fishery of the Northern Pacific, which the convention is designed to preserve, is being rapidly depleted by over-fishing.

The closed season, it is provided will continue until the U. S. and Canada mutually agree to amend or terminate the convention or until the convention is abrogated, by notice of either country. The fisheries convention is the result of recommendations of the American-Canadian fisheries conference in 1918. The halibut fishery of the Northern Pacific, which the convention is designed to preserve, is being rapidly depleted by over-fishing.

Yarmouth, N. S., Mar. 3.—An on-looker of the battle of Manila Bay and the man who took despatches from Admiral Dewey to the British consul at Manila following the battle, passed away in hospital here yesterday. He was Captain Alvin W. Robbins of Chebeque Point. He was one of Yarmouth County's veterans of the square rigged ship days. He was in Manila Bay in the four-masted ship, Bucephalus when the battle took place. Captain Robbins was 75 years old. He died of pneumonia.

BANKER OUT ON \$15,000 BAIL

Homicide, Driving an Auto While Intoxicated, and Refusing Aid to Injured, are Charges.

Philadelphia, March 3.—Henry G. Brock, banker, arrested in connection with the killing of three people by a speeding motor car yesterday, was released on \$15,000 bail.

SCIENTISTS HEAR DR. WOLF ON OLD SKULL FIND

Buenos Aires, March 3.—Owing to absence of the authorities of La Plata museum, Dr. J. G. Wolf, who claims to have discovered a fossilized human skull of the Tertiary period in Patagonia, was given a hearing yesterday by an interested tribunal of other Argentine scientists.

It was announced after the examination that the scientists believed his claim worthy of further investigation and that they hoped steps would be taken to recover the skull, which remains in the home of the settler who discovered it.

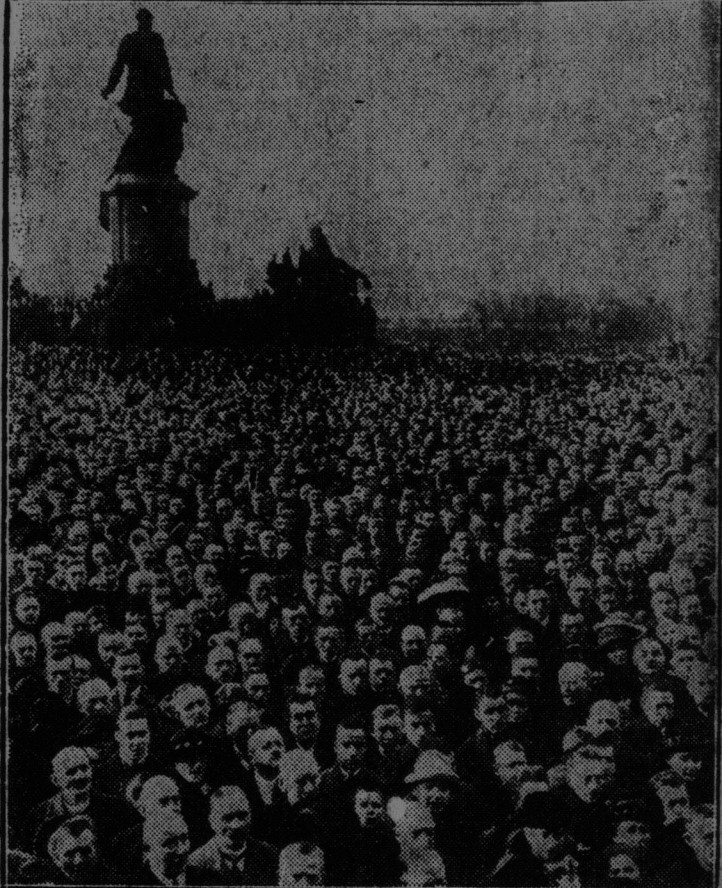

ALFONSO DOES NOT MEAN TO ABDICATE

Madrid, March 3.—King Alfonso today gave definite denial to rumors of the possibility of his abdication.

FIRST STEP FOR BREAK-UP OF THE ANTHRACITE TRUST IN U. S.

Washington, March 3.—In a proceeding described at the Department of Justice of "the first step to bring about the dissolution of the anthracite trust ordered by the Supreme Court, Attorney-General Daugherty today ordered filed in the U. S. district court at New York a final decree for separation of the Lehigh Valley Railroad Co. from its coal subsidiaries."

THEY RESENT THE SHERIFF IN THE HOUSE

German crowds collected in the parks of Berlin protesting against the French action to force the payment of reparations by the occupation of the Ruhr district.

THE BENNY SWIM HANGING COMES BEFORE THE HOUSE

Suggestion That Executions Take Place in Penitentiaries—Several Estimates Passed—Amendments to Chinese Immigration Law—Dr. Baxter on Penitentiaries.

Ottawa, March 3.—(By Canadian Press)—The circumstances attending the execution of Benny Swim in Woodstock, N. B., were brought up in the House and it was suggested that hangings should only be carried out in penitentiaries and under the supervision of federal officials, instead of being left to local sheriffs.

The House in committee of supply passed estimates for penitentiaries, the Royal Canadian Mounted Police, salaries and contingencies of the Department of Justice, as well as amounts for pensions and a considerable amount of the estimates of the Department of Trade and Commerce.

The fuel question occupied the House during most of the evening. It was contended that the past winter had seen a coal shortage of extreme gravity and that Canada should devise some plan for a national coal supply.

Estimates amounting to \$2,587,999 were voted for the Royal Canadian Mounted Police. Other votes passed were \$2,500, to assist in supervision of the white slave traffic; \$800 grant to the Chief Constables' Association of Ontario; \$20,000 for revision of the Dominion statistics; \$33,000 for expenses in connection with litigation matters under the Department of Justice; \$500 contributed to the Canadian Law Library, London, Eng.; \$10,000 for expenses under pecuniary claims compensation with U. S. A.; \$4,000 for administration of the Bankruptcy Act.

Problems of the penitentiary were considered on penitentiaries estimates, totalling \$1,670,000. Sir Lomer said that, between April 1, 1921, and April 1, 1922, the population of Canadian penitentiaries had increased from 3,150 to 2,640. He added that out of the total population of the penitentiaries 1,720 were British born and 720 foreign born.

Dr. Baxter's Criticism. Some criticism came from Hon. J. M. Baxter, Sir Lomer had remarked the last year there was a large increase in books sent to penitentiaries. Dr. Baxter asked the House to consider the desirability of such an increase. He suggested that books of a more useful character be provided for the inmates, and that the books should be selected by a committee of prominent laymen, judges in a contest carried on by the Evening Echo.

Claims of Alberta oil producers to a share in the federal bounties were urged by L. S. Jelliff, Progressive of Lethbridge, who said that while Ontario received some \$80,000 in bounties, and New Brunswick nearly \$400,000 nothing was being paid to Alberta. He said that he had written the Minister of Trade and Commerce, and that the reason for the non-payment of bounties on Alberta oil was that the bounty was based on specific gravity. Where oil was not of a standard to earn a bounty, it was otherwise protected under the tariff.

Birkenhead and Derby Are Friends

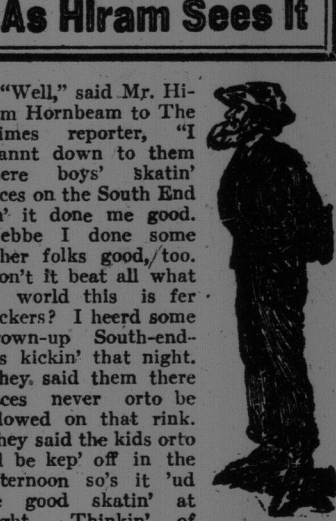

Forget Election Battle, Shake Hands and Are Happy Again.

London, March 3.—(Canadian Press)—An interesting political reconciliation was announced yesterday by Lord Derby, Secretary of State for War, when speaking at Liverpool. Referring to the sensational controversy between himself and Lord Birkenhead, which provided some of the most pungent personalities during the recent general election, Lord Derby said: "I am glad to announce that, thanks to the intermediary of a friend, Lord Birkenhead and I have shaken hands and our friendship is now as in old times."

FOREIGN DEBT FUNDING COMMISSION COMPLETED

Washington, March 3.—President Harding yesterday completed the membership of the U. S. foreign debt funding commission, by nominating three Democrats, Senator Carter Glass of Virginia, Representative Charles R. Crisp of Georgia and former Representative Richard Olney of Massachusetts. The senate confirmed the nominations.

As Hiram Sees It

"Well," said Mr. Hiram Hornbein to The Times reporter, "I want down to them boys' skatin' races on the South End as it done me good. Mebbe I done some other folks good, too. Don't it beat all what the world this is for kackers? I heard some grown-up South-enders kickin' that night. They said them there races never orto be allowed on that rink. They said the kids orto be kept off in the afternoon so's it 'ud be good skatin' at night. Thinkin' of nothin', but I want to say to 'em, 'Look-a-her! Who's this rink fer? Did you help make it? I'll bet a big apple you never come near the place this is all ready and then you wanted to grab the bull thing. If this rink aint fer the kids as much or more'n it is fer you grown-up folks it orto be shut up. The idee of you comin' down here an' talkin' 'bout that with all them fine fellers learnin' to be Charlie Gorman and Frank Garmeth and 'young Leavans.' Oh! I give it to 'em straight. Hanner said I was a fool to get mad—but just think of anybody bein' agin' lettin' the young fellers skate. It 'ud be more credit 'em to jine that there Improvement League, yes, sir."

RUM-RUNNERS PRACTICE USE OF REVOLVER

Prepare for Expected Pirates—Operations Resumed off New Jersey Coast.

Highlands, N. J., March 3.—Resumption of heavy rum-running operations off the northern New Jersey coast was indicated yesterday with the re-appearance of a formidable fleet, which, comprising eleven vessels of the Bahama type, six of them were steamers and five schooners. Mysterious activity was noted ashore among groups suspected of membership in the rum-running trade. Runners were reported to have given their small craft a thorough overhauling during the weeks that inlets were blocked by ice.

Indications that the runners were preparing to protect themselves against rival pirates reported to have been active off the Jersey coast before mid-winter temporary halted smuggling, was seen in revolver practice observed ashore among bootleggers. Several well known runners were seen going out at moving targets.

SECOND ARREST IN GEM ROBBERY

New York Police Take Chauffeur in Connection With \$500,000 Case.

New York, March 3.—The second arrest in the \$500,000 Scheppkopf robbery of last New Year's eve, occurred last night when Charles Hughes, a chauffeur, was locked up at police headquarters.

He is alleged to be a brother-in-law of the man indicted as "J. P. McGowan" one of three sought by detectives.

Halifax, In Love With Miss Canada, Gives Her Great Reception

WINS PEOPLE OF NOVA SCOTIA AND IS ROYALLY WELCOMED

Presentations Mark Her Visits to Sydney and Capital—Her Programme for Today—Accepts Premier's Invitation to Sit in His Pew at Sunday Service.

(Special to The Times)

Halifax, N. S., Mar. 3.—Halifax, too, has fallen in love with St. John's Miss Canada. Since the typical Miss Canada belated arrival yesterday until bedtime a continuous round of activities kept Miss Blair and party in the midst of the social and entertainment life of this city. It is safe to assume she has been seen by nearly everybody in town and suburbs already, as sleigh drives, appearances at ice dances, other coming and goings have placed her in constant contact with the people.

Everybody seems to look upon this girl as a national institution, and Premier Armstrong, Gov. Grant, Mayor Murphy and other officials are graciously co-operating in making her stay not only pleasant but also of real inspirational value, a realization of Miss Canada's unique place in the life of the land that is gaining great favor on all sides.

DEMPSEY MATCH O.K. FOR 15 ROUNDS

Shelby, Montana, Prepares for Bout With Gibbons

Helena, Montana, Mar. 3.—The projected fight at Shelby, Montana, between Jack Dempsey and Tom Gibbons of St. Paul, Minn., will be legally held in Montana, providing the match is limited to fifteen rounds, according to an opinion by the Attorney-General's office. Shelby promoters, according to advices, have raised money to make deposits of \$100,000 and are prepared to guarantee \$200,000 to Dempsey and \$80,000 to Gibbons.

Plans have already been drawn at Shelby, it is said, for construction of an arena large enough to seat 100,000 people. McGraw's Troubles. New York, Mar. 3.—Information from Hot Springs today was that Babe Ruth who was taken ill while "boiling out" there, was recovering but it was questionable whether he would go to New Orleans when the team begins regular training next week. Carl Mays, substitute pitcher, also was reported temporarily hors de combat, with indigestion.

Manager John J. McGraw arrived yesterday at San Antonio to take charge of the training of the world's champion pitcher, Babe Ruth, who is recovering from an injury to his right arm. McGraw, who had been in St. Paul, Minn., refused to return. Bentley has said he would quit the major leagues unless the Baltimore club paid him part of his purchase price.

Philadelphia, Mar. 3.—"Stuffy" McInnes, recently unconditionally released by Cleveland, has declined the offer by the Baltimore club to play for the Philadelphia Athletics. Manager Connie Mack said that he had received a telegram from McInnes intimating that he had come to terms with another club. Vancouver, B. C., Mar. 3.—The Vancouver Victoria and Vancouver Vancouver regulars pitcher Cadman and Finney Schmidt had two signed 1923 contracts. They will report next week at the camp in Clearwater, Fla.

RUN AWAY AUTOS KILL LITTLE ONES

One Strikes Baby Carriage, Another Dashes Into a Group of Playing Children.

New York, March 3.—Two children were killed and four people injured, three seriously, last night by deliverable automobiles. A runaway auto truck at Weehawken, N. J., plunged into a baby carriage, killing the infant and severely injuring the mother. Boys playing in the car had released the brakes. A few minutes later, in this city, a passenger automobile standing by a curb got into motion and dashed into a group of children playing, killing one and injuring three, two of whom may die.

ARREST PRIEST FOR OPEN AIR SERVICES

Mexico City, March 3.—Father Francisco Nevelo has been arrested at Merida by the Yucatan authorities for conducting open air religious services, contrary to law, near that town. It is stated in despatches to the Excelsior. He was sentenced to pay a fine of 200 pesos or undergo fifteen days' imprisonment.

N. S. PLANS FOR CHANGING THE RULE OF ROAD

Halifax, N. S., March 3.—(By Canadian Press)—Nova Scotia highway traffic may be "driving the right" after April 2 if a bill to be introduced by Hon. Wm. Chisholm, minister of highways in the local house next Tuesday, becomes law. It is pointed out that April 2 would be a most advantageous day to effect the change since motor vehicle traffic is prohibited on country roads during the whole of that month and horse-drawn traffic would have that length of time to become familiar with the new rule of the road.

There is also a likelihood, it is said, that the change will be delayed in towns having tram car service, since the short time available may not be sufficient for the street car companies to make the necessary changes.

Rum Runners Killed in Fight

Knoxville, Tenn., March 3.—Two alleged rum-runners were shot to death and a fourth seriously wounded in a pistol fight with federal officers last night near Jellico, Tenn., yesterday.

BRAVE ACT OF ENGINE DRIVER

Nansimo, B. C., March 3.—Two-year-old Violet Evans of Newcastle owes her life to John Fagan, engineer of a passenger train in front of which the child had strayed yesterday, near Wellington. Seeing the child on the track, Fagan applied the air-brakes, broke through his cab window, clambered along the locomotive to the pilot, swung down and threw the baby from under the wheels.

MISSED TWO DAYS IN HALF A CENTURY

Washington, March 3.—Two days' sick leave in fifty years' service is the record of Henry F. Chatfield, assistant chief of the stamp issue section of the post office department, who said good-bye to work today when he retired under the civil service retirement act.

MT. A. GIRLS' GOOD CHANCE FOR TITLE IN BASKETBALL

Sackville, N. B., Mar. 3.—When the Mount Allison co-ed basketball team showed the way to the Acadia University girls by the score of 20-15 in Wolfville on Friday night, they maintained their undefeated record of the season. As a result, it is believed here that the Sackville ladies look in good for the Maritime championships. Mount Allison girls will play Dalhousie at Halifax today and should win without a defeat. Even should the gamet and gold lose to Dalhousie, the girls will be able to take the Acadia girls to the Maritime title.

According to a decision reached at a meeting of the Common Council on Thursday, Mayor Fisher made formal application to the building inspector in charge of the Weyanoke Coal and Coke building in Charlotte street, recently damaged by fire. The building inspector today wrote the Mayor refusing to grant the permit.

Eleven Dead in Mine Explosion

Twenty-seven Rescued from Virginia Pit Only Slightly Injured.
Bluefield, W. Va., March 3.—Rescue parties early today again entered the mine of the Weyanoke Coal and Coke Company, at Vista, Mercer county, to search in its blast tunnel passages for five miners still entombed for nearly twenty-four hours after a terrific explosion yesterday, when thirty-eight workers were imprisoned.
It was expected that the death list would be definitely fixed at eleven, as nine company officials had still entertained the hope that the five men still entombed would be alive. Six bodies were recovered last night. The remaining twenty-seven workers, trapped when the walls of the mine crumbled, were saved by rescuers. They were only slightly injured. The force of the explosion tore through to the surface 8,200 feet away, scattering timbers and huge boulders several hundred feet. Tongues of flame shot through these openings.
An overcharge of dynamite used in blasting probably was the cause of the disaster. A. Craven, superintendent of the mine, said last night.

HYDRO SERVICE TO MONCTON IS INTERRUPTED

Trouble in Transformer, and the Difficulty Has Effect Along Line of C. N. R.
Failure of one of the three transformers on the C. N. R. line at Moncton this morning interrupted the supply of hydro current to the railway and broke two of the insulators on the transmission line near this city. As soon as the insulators are replaced service to other places along the line will resume normal and the C. N. R. service will be restored as soon as the two remaining transformers have been reconnected, so C. O. Foss, chief engineer of the N. B. Electric Power Commission said this morning.
The C. N. R. transformers were placed in position only recently and only the Moncton yard was being served with hydro. The shops have not yet been connected. While the transformers were on their way to Moncton from the Canadian General Electric shops in Upper Canada, some snow got into them which necessitated the removal of the oil before installation. It is presumed that one of the transformers was not completely dried out before being put in place and the trouble developed on this account.
At any rate, between 9 and 10 o'clock this morning, the current, which is normally 66,000 volts, suddenly surged back in the line, raising the voltage considerably. The sudden "jump" was detected at the power station at Musquash and immediately the service to Moncton City, as well as to Hampton, was cut off. At the same time the unusual high voltage in the line caused two of the porcelain insulators, one at Pokok and the other near Millidge avenue, to break and a sheet of flame rose from the place where the highly charged wire came in contact with the steel supporting towers.
According to a decision reached at a meeting of the Common Council on Thursday, Mayor Fisher made formal application to the building inspector in charge of the Weyanoke Coal and Coke building in Charlotte street, recently damaged by fire. The building inspector today wrote the Mayor refusing to grant the permit.

Firms Changing Business Homes

STANLEY AND PRO PATRIA ARE STILL IN ICE
Halifax, N. S., March 3.—(By Canadian Press)—The Canadian Government opportunity of Stanley, which set out Wednesday to succor the disabled steamer Pro Patria, is still in the grip of an ice field off the Cape Breton coast, and is being driven away from her objective a mile an hour.
The Pro Patria is said to be in a serious predicament owing to shortages of water, the basis of an important industry in New Brunswick, and one which is doubtless capable of considerable development through the application of skill and science. Motor engines have transformed the fisherman's job in the last few years. Short courses in the principles, care and repair of these were given during the past year in 40 communities by an itinerant instructor, who went from place to place carrying his teaching kit of drawings and models with him. It is interesting to note, in this connection, that the Province of New Brunswick allocates a certain sum for the purpose of educating and helping her fishermen.
Now that all this has been said about the lovely eastern province, some one may be shamed into action to justify it.

MARITIME SPORT

Fredericton, N. B., March 3.—L. B. C. Phair and Ernest Howe represented Fredericton at a meeting of harness racing promoters in Houlton in regard to the summer racing programme. Arrangements were made for the circuit to open in Houlton on July 4, and the New Brunswick tracks to follow in successive weeks.
Owing to mild weather and soft ice, the York County League series hockey match between Fredericton and Marysville, to be played tonight, has been postponed.
The decisive victory of Dalhousie over King's College at Truro Friday night leaves the Redoubt, as well as the Maritime intercollegiate section. U. N. B. claims the western section title through default by Acadia and Mount Allison, and already has defeated St. John's for the Summer trophy. Over the week end U. N. B. expects word with regard to a play-off with Dalhousie.
TO THE LEGISLATURE
Harvey T. LeBlanc, first year student King's College Law School, who has been appointed engrossing clerk for the coming session of the Provincial Legislature at Fredericton, received a telegram of congratulatory nature from Premier Veniot yesterday. He will leave next week to take up his new duties. Mr. LeBlanc will gain much experience in legal matters at his new post and as he intends to take the bar examinations this year he will still have the opportunity of making his first year in law. He has been an active member of the student body and has made many friends in St. John. Kent is expected to arrive home in a few days after an extended honeymoon trip in Western Canada and the United States. Mrs. Kent, who was formerly Miss Elizabeth Hendry of Bellefleur, resided in Bathurst some years ago.

PRO SKATERS RETURN.
Art Staff, Bobby McLean, Edmund Lamy and Everett McGowan arrived in the city last evening on the Halifax train from Sydney, where they gave exhibitions and held a series of races recently. They are on their way back to the United States. It is understood they are to compete at Saranac Lake next week.
GUARDING THE CATHOLIC INSTITUTIONS IN TORONTO.
Toronto, March 3.—Police are guarding two Catholic institutions which have received threatening letters, said to have come from the Ku Klux Klan. The first was received at St. Joseph's Convent two weeks ago. It stated that members of the Klan were going to visit the church. Thursday night a second letter containing a similar threat, was received at the St. Mary's Separate School. Examination of the letters has led to the belief that they were written by a child. Armed watchmen, however, have been placed on duty.

Minard's Liniment for Coughs and Colds

QUEEN SQUARE W. M. S.
The regular monthly meeting of the Queen Square Church Missionary Society was held on Thursday evening at the parsonage, 16 Pagan Place. Occupied by the illness of the president, Mrs. N. Dickinson the chair was occupied by the first vice-president, Mrs. I. Bilsard. The devotional exercises were led by Mrs. T. O. Bales. The corresponding secretary, Miss C. M. Pratt, reported that several letters of sympathy had been sent to members who were ill. Several other matters of routine business were discussed, after which a course of study was taken up from the Mission Study Book, led by Mrs. N. McLaughlin. A paper by Miss Besie Thompson, on the literature needed in missionary work on the field, was read by Mrs. Bilsard owing to the former's illness. A round table conference followed when questions on the evening's study were discussed. Those who took part in this round table discussion were: Mrs. P. O. Dale, Mrs. F. E. Logan, Mrs. H. P. Newcombe, Miss C. M. Pratt, Mrs. W. Hawker, Mrs. S. Bustin, Mrs. J. Cox and Miss Sarah Smith.

Croupy Cold Goes Overnight

Ontario Lady Says Vicks "Has No Equal."

Every mother wants her children to be active and to grow strong through outdoor play. But frequent colds sap their vitality, cause loss of school standing, and keep youngsters puny and delicate.

Mothers who use Vicks VapoRub for children's colds find that the kid-dies can play outdoors and that their cold troubles can usually be checked overnight.

Applied externally, Vicks acts like a liniment or poultice. In addition, the ingredients are vaporized by the body heat and are inhaled directly into the inflamed air passages. This double action quickly loosens up a cold.

Mrs. A. Lott of 72 Empress street, London, Ont., writes: "I wish to say for children with croup Vicks is grand, and for colds it has no equal. Baby has just come in and wants Vicks put on his hand which he hurt while playing. It is a fine thing and I would not like to be without it in the house."

At all drug stores, 50c. a jar. For a free test size package, write Vicks Chemical Co., 344 St. Paul St., W., Montreal, P. Q.

The Vicks is new in Canada, it was a remarkable sale. Over 17,000,000 jars used yearly.

CHARLIE AND POLA AGAIN ENGAGED.

Los Angeles, March 2—Pola Negri, Polish motion picture tragedienne, who last night announced she had broken off her engagement to marry Charlie Chaplin, screen comedian, early this morning made another announcement that a reconciliation had been effected.

Chances Are Taken With Cold in Head

Such a Cold Should at Once be Relieved or Ailments Likely to Follow.

It is not a long way from the head to the lungs when the passage is made by a cold. When it reaches this stage a cold is tenacious and hard to cure, whereas, if treated in its early symptoms it would yield to a good remedy and save a lot of trouble. Everyone dreads pleurisy and pneumonia, but thousands neglect a cold in the head, which often is the cause.

That cold can be relieved in a single night by starting to take Grip-Fix as soon as the trouble appears.

This remedy is the one any reliable doctor would prescribe, only put handy capsule form and it strikes right at the root of the trouble. It keeps the system open and relieves the muscular pains. It reduces the feverish symptoms. Two capsules taken three hours apart give wonderful results, and one capsule at two-hour intervals thereafter finishes the work.

Never be without a box of Grip-Fix in the house. On sale at Wassons Drug Stores, 35c. a box.

WOMAN SOLON WINS MAINE HOUSE FOR MATERNITY ACT
Augusta, Me., March 3.—Mrs. Dora Bradbury Finkham of Fort Kent, the only woman member of the Maine Legislature, on Wednesday made her maiden speech in the House of Representatives and saw the bill that she introduced favoring the acceptance by Maine of the provisions of the Sheppard-Towner maternity act adopted by a vote of 71 to 63. The bill was presented to the House with a favorable committee report and now goes to the Senate.

DELAY IS INEVITABLE. Delay at City Hall in dealing with the recommendations of the Civic Power Commission has already cost the city many thousands of dollars.

Referring to the growth of towns and cities at the expense of the rural sections, the Ottawa Journal says:— "Thirty-four thousand people left rural communities in New York State last year and moved to large urban centres."

ONTARIO AND LIBERALS. Mr. Thomas Marshall, Whip of the Liberal party in the Ontario Legislature, says he believes the electors of the Province will welcome the first opportunity to place the affairs of the Province in the safe and sane hands of the Liberal party.

It believes that the mission of Liberalism in Ontario is not yet completed, that there are reforms still to be undertaken, ideals to be realized, abuses to be remedied, along the line of past achievements of the historic Liberalism that during a long and arduous struggle secured for the people of Ontario responsible government, the abolition of religious and political privilege, the fullest possible control of local affairs by local authorities, and the undisputed ownership and administration of the public domain for the benefit of all the people.

It follows that there should be Liberal candidates in readiness, and on this point the Globe says:— "The nomination of Liberal candidates in all the constituencies of the Province would provide indisputable evidence that the rank and file stand behind Mr. Marshall in his declaration that Liberalism intends to fight to win in the coming general election."

THE AMHERST MEETING. Yesterday's meeting at Amherst was marked by some very bitter criticism of the treatment given the Maritime Provinces, and in that respect confirmed Sir Henry Thornton's remark that everywhere in these Provinces he found a feeling of disappointment.

As far as the particular business of the conference was concerned, the Premier Veniot and Hon. Mr. Kinley had adopted a moderate but firm resolu-

WHAT'S WHAT

By Helen Deale

When a man has invited a woman to luncheon, to dinner or to a late supper after the theatre, he precedes her into the restaurant until he has attracted the attention of the head waiter.

Each is given a menu card, but the woman leaves it to her companion to order the dishes. He asks her approval for each selection, of course, and she is asked to suggest something, if she is not prepared to order for both.

GRANDMOTHER'S CHAIR—AN OLD FAVORITE. My grandmother she, at the age of eighty-three, on one day in May was taken ill and died.

And how they titter'd, how they chaff'd, How my brother and my sister laug'd, When they heard the lawyer declare, "Your granny's only left to you her old arm-chair."

What my brother said was true, for in a year or two, Struck her to church and then she was my wife.

What my brother said was true, for in a year or two, Struck her to church and then she was my wife.

LIGHTER VEIN. Misunderstood. Miss Wise—Are you fond of indoor sports? My Guy—No, indeed, if they refuse to take me out for a good time, I have nothing to do with them.

Poor Service. She was in a telephone booth and had just put in her coin. She wept bitterly as she pulled down on the hook to attract Central's attention.

A Family Weakness. "Bill met his death just as his father did years ago," said the oldest inhabitant to the returning visitor.

A Model for Editors. Navagusa, a weekly journal devoted to national and international problems published at Gunter, India, occasionally inclines itself to the lighter side of life.

MR. DOOLEY

Column in The Intellectual Life

Life that makes men aspire to better things an indigestion. "They are 'yer fathers an' mine, young gentlemen. Can I say worse than that? An' to think 'iv' 'likes 'iv' 'thim runnin' this government!"

They Never Speak From Impulse. "I like it, Himsley! What I like most about it is that a college professor never speaks fr'm impulse. He thinks 'iv'ring out thurly before announcing his opinion—average."

Where He Writes His Own Diplomas. "This begins his role college career. His post-graduate course is 'th' best 'iv' 'th' wurruld. 'Tis a good thing 'Lincod' had dead bef'r he was assailed. He never wud have survived 'th' attack."

What Did Lincoln Do? "Me opinion 'iv' politticks, if ye shud ask me fr' it, is that we might as well share 'iv' 'th' experimint. A governimint founded be an 'ol' farmer like George Washington is bound to go wrong."

India—Social Sources of Unrest. The Indian "reforms" are, in a word, an effort to admit native India to a share in its own government.

He was lunched at the club and invited to English homes. But when he came back to India, the very men who had shown him hospitality in England utterly ignored him here.

But that is not always so. It was told me that many of the bitterest critics of the British—the most dangerous agitators—were young "pleaders" (the term for lawyers out here) who had had precisely his experience.

Now, of course, there are plenty of British officials here who take quite a different course. We had luncheon at the home of Sir Malcolm Hailey, who is the civil member of the Indian Ministry—practically the Prime Minister of India.

Looking at this matter from the human nature point of view alone, what have you got in India? A population of nine-tenths unlettered, "sahib" or "white" in origin, "Hindoo" in religion, fanatically religious.

It is interesting to note that the "reforms" are carried on by the comparatively few educated men who are in reality far better off today than their

RECENT WEDDINGS

Smith-Johnston.
William Arthur Smith, son of Mr. and Mrs. Arthur Smith, of Coldbrook, and Mary Hazel Johnston, daughter of Mr. and Mrs. Childs Johnston, of Sheba, Queens county, were married at St. Mary's rectory on Wednesday, Feb. 21, by Rev. R. T. McKim. Mr. and Mrs. Charles Smith, Coldbrook, were witnesses.

Stinstead-McInnis.

The marriage of Miss Kathleen Agnes E. McInnis, youngest daughter of Mrs. William F. Fotheringham, 286 Germain street, to Albert Redvers Bulter Stinstead was solemnized on Wednesday, February 28, by Rev. Dr. E. S. Poole. The ceremony was performed in the Germain street Baptist church. The bride, who was given in marriage by her step-father, William Fotheringham,

ton, wore a becoming gown of navy blue taffeta with a hat of bonnet satin. Miss Ethel Earl attended the bride, and the groomsmen were J. Sutherland. After the ceremony a luncheon was served at the home of the bride's parents. Best wishes were extended to Mr. and Mrs. Stinstead by many friends. They will reside in the city.

RECENT DEATHS

Marion Thompson Oram.

The death occurred suddenly at New York on Feb. 24 of Marion Thompson, youngest daughter of Rev. George Oram, of St. John. The funeral took place at Montreal on Feb. 27, Rev. J. H. Potter McVicar, of the Memorial Presbyterian church, officiating. There were present at the funeral representatives of Jewish, Roman Catholic, Methodist and Presbyterian faiths, and the races represented included English,

Palm Beach Has Them

So Now We Know What To Sew

Just as Deauville decides for Paris, so does Palm Beach tell New York and the continent the line to take for Summer Wear. Thus do we hear of sport cuts and materials, generously sprinkled with airy Voiles, some Crepes in the simplest slip-on dresses and many Gingham.

The front cover of the Spring Fashion Book of the Pictorial Review, seen as you enter the First Floor Annex, shows a sport dress in the centre, which you can make at home out of Ratine Eponge or plain Ratine—the skirt wrapped over to left in a flying fold, with novelty trimming again in two rows at neck. Two buckles appear at the waist band just above the fold. Either cloth would launder easily and wear forever—heavy enough for the street, yet porously airy. Skirts and Suits for Summer can happen from this as well as Vyella.

Ratine Eponge is introduced in Jade Blue, Flame, Helio, Copen, Nickel and Mauve, 38 inch width, \$2.25.

Ratine itself in Apricot and Cowslip and in Helio, Copen and White, 95c. for the quality shown here.

Vyella Flannel comes in White, Pink, Blue and many stripes, 32 inches and \$1.35 the yard.

Zephyra, Chambrays and Gingham rise to the occasion with a multitude of new Plaids and Checks, etc. Widths 29 inches to 36, prices 19c. to 45c. The rear cover of the Pictorial has many finished suggestions, indicating how straight lines come in strong, a variety of twin patch pockets, with appliques sometimes repeated elsewhere, basques, belts, tie or sash girdles.

Double Economies With Crepes and Voiles

First, the price per yard is decidedly down; and again there are many new ways of making them up to the mode thrifty. Florals, checks and spots fleck the dark fields of Swiss, English and American Voiles, featuring Navy, Black, Copen and other Blues. For dresses with deep tuxedos, the vestees of White Organdy, Net or Lace, girdle or sash and perhaps a flying panel or two. Page 9 of the Pictorial tells exactly. Prices are 59c. and 65c.

French Voiles, from 36 inches to 45 wide, run from 55c. to 95c. in Shell Pink, Mauve, Nickel, Navy, Brown and Black.

Crepe is nice this year for Undies, but there is a Pink beauty on page 11 that has Blue flower applique on the upper left bodice and on the patch pocket. Three wide tier tucks down the skirt, and simple shoulder trims. Silk Selvedge Crepe, so apt for Blouses and Combing Jackets, shows in Firefly and Mauve and all colors, 95c.

Lingerie Crepe in colors and floral ideas, 35c. and 39c.

Lingerie Mull Muslin in Shell Pink, Yellow, Blue and White, 65c.

Mrs. John Ringen.

Word was received in the city yesterday of the death at her home in Pasadena, Cal., of Mrs. John Ringen. She was advanced in years and had been an invalid for a long time.

The late Mrs. Walter C. Allison, of St. John, was a daughter of Mrs. Ringen and a granddaughter, Miss Lillian Drummond, of Pasadena, is a student at Netherwood School in Rothesay.

The three surviving daughters of Mrs. Ringen are: Mrs. W. A. Bonafack and Mrs. Charles R. Drummond, of Pasadena, and Mrs. C. O. Krieger, of St. Paul, Minn. They were all with their mother at the time of her death. Mrs. Bonafack is well known here, having been a visitor to St. John several times.

F. M. Anderson.

The death of Frederick Miles Anderson, one of the most prominent citizens of Campbellton, occurred on Thursday night in the Soldiers' Memorial hospital after a short illness. Mr. Anderson was sixty-six years of age and was a native of Penobscot.

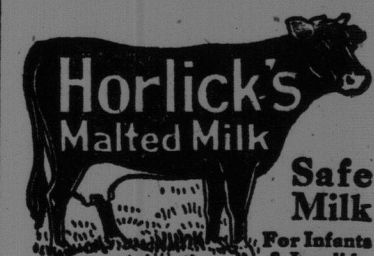

Mr. Anderson was twice married. He is survived by his wife, who was Alma S. Spradell, of Hampton; three sons, William C., of Montreal, Percy F. and Edward E., of Moose Jaw; one daughter, Mrs. John Collier; one sister, Mrs. S. T. Morton, of Sackville, and one brother, Charles, in Breckenridge, Minn.

A service will be held in the Baptist church on Monday evening and Tuesday, March 6, the body will be taken to Penobscot, where a service will be held. Interment will take place in the Upper Baptist Church cemetery there. His pastor, Rev. W. Camp, of Campbellton, will have charge of the funeral services.

THE RIDDLE OF THE SPINNING WHEEL

Being An Exploit in the Career of Hamilton Cleek, Detective

By MARY E. AND THOMAS W. HANSHEW

CHAPTER I

The Girl From Scotland. Mr. Maverick Narkom, Superintendent of Scotland Yard, looked up from the letter he was perusing, a wrinkle in his brow and one hand spread over the sheet to keep it open, as the sound of a soft knock broke through the stillness, and with an exasperation born of the knotty problem upon which he was at work, called out an irritable "Come in."

"He has. And in my presence," actually volunteered that statement, Miss Duggan? "And how does your brother Ross take it?" "Ross has the family temper, Mr. Narkom. Ross said hot words which he should never have uttered, and then died off to his fiancée's house, three miles distant—a sweet girl, whom we all love—and did not come back until the next afternoon."

choked back a sob, covering her face with her gloved hands, and for a moment Deland sat looking at her, eyes narrowed, and the curious little one-sided smile so characteristic of the man travelling up his face. Here was very evident distress indeed. And real, too, she knew, and the curious little one-sided smile so characteristic of the man travelling up his face.

factually, without giving away his plans to any interested persons. As for the whiskey-still business, what more perfect harbour for it than those craggy, heather-covered hills of Scotland? I'll have news for you, my friend, never fear; and immediately I hit upon anything, Dollops shall send it travelling over the wire in our own special code."

training classes for very backward children, he said, has increased during the last three years from nine to fifty-two. These children, he continued, should have a maximum of manual and a minimum of academic work. A child of 60 per cent. mentality should devote usually spent by the normal child on academic work; that is, 58 per cent. of his time should be spent in sensory motor activities. In actual practice the selection of pupils for such classes is easy, and the supposed opposition of parents mythical. The three great difficulties are: to secure and retain efficient teachers, to provide adequate schoolroom accommodation, and to arrange for supervised "follow-up" work after leaving school. In these days of double-priced school buildings and half-time pupils logical argument is necessary to convince school boards composed of business men and women that it is false economy to put a small class of defective children on half-time or in a discarded basement room. Such pupils require longer school supervision than other classes, and proper ventilation, heating and lighting. They also require a room large enough for both academic and manual work. In the long run it is less expensive to furnish educational conditions which will train these children to happy and helpful citizenship than to leave them marking time in ordinary classes, where they are a hindrance to other pupils, until eventually they drift away, many of them becoming social derelicts without charts, compass or motor power, bereft of hope, a burden on the community and a menace to social welfare.

Christian and Missionary Alliance Conference, March 8th to 11th. Meetings every day, 8 p.m., 4 p.m., 5 p.m. Speakers: Miss Butterfield, Rev. A. W. Roffe, Rev. E. T. Capel. He sees, however, with the working of the Free State the gradual getting together of the people of the north and south of Ireland, and with the aid of the League of Nations, ultimate independence for that country. At the outset of his address the speaker said that he was born in Belfast, spent twenty years of his life there, had relatives among the leaders of the Ulster party in the north of Ireland, and that a great many of his college classmates were leaders of the Sinn Fein movement in the south. During his address he declared that, almost unanimously, the people of Ireland were for the treaty creating the Irish Free State. "All the best people are for it," said he. He spoke, in part, as follows: "There are no facts in Ireland. The only way of getting at the Irish question is by trying to get the attitude in which that question exists. There are four attitudes in the Irish question which must be understood. First of all, the attitude of Ulster, the predominant by Protestant opinion. First of all, Ulster is terrifically, violently, anti-Roman Catholic. The Ulsterite hates Roman Catholicism to a degree that could be understood nowhere else. "The second thing about the Ulster attitude is that it not only hates Roman Catholicism, but it despises absolutely the business ability of the man

TRACE IRISH ILLS TO BIGOTRY

Rev. J. E. Park Blames Both Sides—Predicts Eventual Union—Analyzes Present Situation There.

(Boston Herald.)

The Rev. J. Edgar Park, pastor of the Second Church in Newton, speaking last night at the February meeting of the Boston Congregational Club, at Ford hall, on "An Irishman's View of Ireland" declared that the only hope for Ireland was to get rid of its ancient bigotries; also that the Protestants of the north of Ireland had lots to learn from the Catholics and that the Catholics had lots to learn from the Protestants. He declared further that what kept the north and south of Ireland from being rolled into one was "the accursed bigotry of religion." He sees, however, with the working of the Free State the gradual getting together of the people of the north and south of Ireland, and with the aid of the League of Nations, ultimate independence for that country. At the outset of his address the speaker said that he was born in Belfast, spent twenty years of his life there, had relatives among the leaders of the Ulster party in the north of Ireland, and that a great many of his college classmates were leaders of the Sinn Fein movement in the south. During his address he declared that, almost unanimously, the people of Ireland were for the treaty creating the Irish Free State. "All the best people are for it," said he. He spoke, in part, as follows: "There are no facts in Ireland. The only way of getting at the Irish question is by trying to get the attitude in which that question exists. There are four attitudes in the Irish question which must be understood. First of all, the attitude of Ulster, the predominant by Protestant opinion. First of all, Ulster is terrifically, violently, anti-Roman Catholic. The Ulsterite hates Roman Catholicism to a degree that could be understood nowhere else. "The second thing about the Ulster attitude is that it not only hates Roman Catholicism, but it despises absolutely the business ability of the man

in the rest of Ireland. Belfast is the most American city in Europe. It has increased in population 13 1/2 times since the union. You step out of Ulster to the hovels of the poor in the rest of Ireland, and you see why the north of Ireland distrusts the business ability of the man in the rest of Ireland. "In the third place, the Ulster man doesn't believe that the man in the rest of Ireland wants independence. He believes that if it were possible to get the real feeling of the man of the rest of Ireland, he doesn't want independence at all. "The last thing about Ulster is that Ulster believes the British Empire is the greatest thing on earth. The whole feeling of the north of Ireland is to the British Empire rather than to the rest of Ireland. Point of View of South. "Then the speaker gave the point of view of the south of Ireland. "The first thing that determines their point of view," said he, "is an overwhelming sentimental love for Ireland such as nobody knows that lives in a big country. You have to live in Belgium, Poland or Ireland to know what love of country is. You have to have some sense of risk in loving your country. You have to know what it is to meet for patriotic purposes behind a hedge and in the lonely places of the hills and glens, in order to know what love of country is. The Irish have got that sentiment of unreasoning, irrational love for Ireland. All their hope and joy and longing all these years has been to get the 'stranger out of the house,' to have their own beautiful land for themselves. "The second point about the Irish attitude is hatred for Great Britain. The Irish dislike England. They don't like the English way of doing things, and most of all, they dislike English patronage. "The third thing about the Irish attitude is that they have an intense love for their own religion. If you want to see real religion, go to an Irish Roman Catholic church and see these people kneeling in the mud and rain trying to get a little glimpse of the gleaming candles on the altar and a whiff of the incense. You must understand, if you are going to understand the Irish, that the old Protestant criticism that the priests keep them down and scare them and make them pay is not the whole truth. Besides that, they love their religion and are glad to give to it. "The last thing you must understand of the Irish attitude is that the people of Ireland hate practicality and progress. They hate everything the average American is proud of. You get in Ireland a sense of the beauty of life, the joy of conversation, the love of friendship, home, humor and those things that are the essence of real living. That is the attitude of Ireland toward the Irish question—love for Ireland, hatred of Great Britain, love of their own religion and hatred of practicality and progress."

STOWAWAY USES COFFIN. German Carpenter Has New Idea of How to Get Free Passage.

New York, March 2—Stowaways have exercised all kinds of ingenuity in getting aboard ship, but the prize method, in the opinion of Ellis Island officials, was that adopted by John Zacharuk, who hid himself in an empty coffin. Zacharuk and the coffin have been ordered deported on the next trip of the President Harding of the United States Line, the steamer on which he made the trip here from Bremen. According to ship officers, shortly before the President Harding left Bremen several men brought aboard a pine coffin which was lowered into a hatch. In the hurry to get away the checkers did not bother to ascertain whether the coffin was on the ship's list. During the voyage the baggage master was unable to account for it. It was not locked, he had no difficulty in opening it. There was nothing inside. The master reported the mystery to Captain Paul G. Greening, who ordered a search for the body. Zacharuk was found hiding with the baggage. He explained that he had no money, and, being a carpenter, he thought it an excellent idea to build a coffin in which to secrete himself until the Harding was at sea.

CHAPLAIN DEPLORES CONGRESS' RECORD

Says in Prayer That New England is Alarmed at Lack of Purpose.

Boston, March 3.—The Rev. Dr. Edward A. Horton, venerable chaplain of the state Senate, startled that body at the opening of Wednesday's session with a prayer which excoriated the Republican Congress now ending its labors in Washington.

New England views with sadness and alarm, he said, the "evident lack of earnest purposes, undimitted proceedings and blindness to public welfare," exhibited in Congress.

The prayer in full follows:

"Almighty Father, The New England spirit is not dead. Even in the new New England, composed of many races, faiths and classes that spirit inspiringly shines. At the present time it views with sadness the record of the national Congress soon to end. It is alarmed at its evident lack of earnest purpose, undimitted proceedings and blindness to the public welfare. Statesmanship has been lost sight of in personal prejudices and bickerings. Domestic and world-wide problems have been left unsolved and the people's reasonable hopes and eager anticipations dashed aside.

"A day of reckoning will surely come. The people's rebuke will be based on justice, patriotism and America's need of better days. Meanwhile, O Lord, may New England, true in substance at the present as in the past, keep burning and bright her ideals and her standards.

"And Thine shall be the kingdom and the power and the glory, forever. In His name, Amen."

MOVE TO CURTAIL THE PRODUCTION OF DRUGS.

Washington, March 2.—The Porter resolution requesting that negotiations be started with foreign governments to curtail production of habit forming drugs was signed by President Harding today without comment.

The Natural History Society is fortunate in the kindness of its many friends who from time to time have presented valuable gifts to add to the museum collections. Recently the number of gifts has been especially gratifying and the society has been grateful for the presentations. Additions to the historical records in the form of photographs have been received from Colonel E. J. Sturdee, and Ven. Archdeacon A. H. Crowfoot has presented a piece of enameled tile from the floor of Waverly Abbey in Surrey, England. The tile is about 800 years old.

LOYD GEORGE IN APPEAL FOR UNION

Calls on Liberals to Get Together in Face of Able Labor Party.

(Canadian Press Despatch.)

Edinburgh, Scotland, March 2.—Another step towards re-union of the Georgian and Asquithian factions of the Liberal party concerning which both Lloyd George and Mr. Asquith have been exceedingly reticent, was taken today when Lloyd George came out in a speech before the Scottish Liberal Club with a strong appeal for elimination of Liberal divisions. He asserted that the Liberals were wasting their energy in the face of a new labor party of great enthusiasm and capacity. Lloyd George declared he did not claim or desire leadership, saying: "Let him who can lead."

DIABETES CASES SHOW INCREASE

More Than One Million Diabetics on North American Continent, Said Physician. London, Feb. 14.—(A. P. by Mail).—The Church of England today is faced with the necessity of deciding the long-debated question of whether its forty-seven historic edifices in the financial district of London shall be sold for 6,000,000 or 7,000,000 pounds sterling, of which the church stands in great need, or whether they shall be preserved as priceless relics of antiquity at a great financial sacrifice. Nineteen of the edifices are in sections of the city where there is virtually no attendance on Sunday. These alone would bring nearly 2,000,000 pounds. Thus utilitarianism and sentiment are tugging at the hearts of high church leaders, who are reluctant to see these ancient examples of church architecture razed, but who are hard put to keep them going, to say nothing of the difficulties of erecting and manning churches in thickly populated districts. There is a strong sentiment in the church in favor of disposing of these old seldom-used churches at great financial profit in order adequately to develop church needs in more fertile fields.

ST. STEPHEN BIDS NEW GOVERNOR WELCOME HOME

Band and Bonfire and a Gathering in Town Council Chamber. St. Stephen, March 3.—The town was en fête on the arrival of the evening express at 9 o'clock to extend a welcome to Lieut.-Governor Todd. A large bonfire burned on the square as the train drew in. A band was in attendance, as were also the Mayor and Town Council and a large number of citizens, though it was not known until after supper tonight just when Governor Todd was to arrive. The assembly proceeded to the Town Council chamber, where Mayor Clark spoke fittingly of the appreciation of the citizens of the honor bestowed upon the town and county in the appointment. The Governor and Mrs. Todd have the sincere good-will of the people. Governor Todd replied briefly and assured the gathering of appreciation of their kindness. Three cheers were proposed by M. N. Cockburn and given with a will and the gathering was brought to an end with the national anthem.

ENDED LIFE ON STEAMSHIP ON WAY TO ST. JOHN

Canadian Conqueror Brings Word of Death of Second Engineer Five Days Out from New Zealand.

The suicide of Second Engineer McClarty of the Canadian Conqueror while the ship was en route here from Australia and New Zealand via Boston was reported this morning when two sailors, who had been brought from Auckland, New Zealand, on the steamer, were interviewed. They said they had been left behind in Auckland, where they had arrived as members of the crew of the Canadian Pioneer, on account of sickness and had been brought to St. John on the Conqueror. When they were five days out, they said, the second engineer had committed suicide by cutting his throat and his body was buried at sea. The cause for his killing himself was a temporary mental derangement. They did not know his name, but thought he was from Glasgow where he had a wife and family.

Captain Foy, of the Canadian Conqueror, could not be reached either at the ship or at the C. G. M. M. office at noon so no details could be got from him. Members of the office staff of the C. G. M. M. had no official word to give out. B. S. Purdy, shipping master, said that the man had undoubtedly committed suicide and that he had not been well at the time or previous to the time of the deed. His name was McClarty but he did not know from what port he hailed. The Canadian Conqueror arrived in this port on Thursday.

The steamer will be paid off by the shipping master and will sail as soon as they can get a ship.

SOME EXCUSES PRESIDENT DODGE DID NOT THINK OF

(Edmundston Observer.) President Dodge's full list of excuses as a coconut is full of milk, but he forgot some. We are giving them to him. No, there is no more to Dodge; we are glad to accommodate you.

- That it would be a shame to spoil the scenic view of the Falls by developing them.
- That the Falls never have been developed, and why not now?
- That it would help industries in direct competition with the International Pulp and Paper Company.
- That it would take away from the revenue of certain newspapers in the province which benefit from the periodical advertising which the International does, just before their rights expire.
- That it would bring too much prosperity to the province, and make work too plentiful.
- That the world is coming to and end soon, and there isn't time to do the work.
- That the Falls are going dry.
- That there is no hurry, that it's no concern of the people of New Brunswick, that the only persons really concerned are the officers of the International Pulp and Paper Company.
- That the province should trust the International Pulp and Paper Company, that its purposes are beneficent, its organization altruistic, and its plans absolutely disinterested.
- That some day some firm will want the Falls more than the International, and then, well then, they can pay the International a mighty big price for the rights and the holdings they have.
- Oh, President Dodge, we do not doubt you are a good business man. You say that your company is amongst the largest taxpayers in the province, and one of the largest employers of labor, and that it owns a lot of property, and we know what you say is true. But, Mr. President, you would not be a large employer of labor, and a big taxpayer, and a property holder here if you were not getting a good interest on your money invested. You are not in New Brunswick for your health, and you are not any more interested in New Brunswick apart from your business than you are in King Tutankhamen's Tomb. Now, are you?

Halifax, In Love With Miss Canada, Gives Her Great Reception

(Continued from page 1) on hand to assist in the reception and accompany Miss Canada on the sight-seeing sleigh drive that was commenced immediately after lunch. Mayor Presents Address.

Halifax, N. S., March 2.—(By Canadian Press) "Miss Canada," with her chaperon of carnival queens, pageboys and committee members entered the city hall at high noon today and were ushered into the council chamber by the hands of Mayor John Murphy before the assembled aldermen, civic officials and staff. Seldom was the council chamber presented such a gala appearance as it did today when bunting, potted plants and flowers covered walls and ceiling, with the corridors leading to the Parade entrance similarly decked. Miss Canada, Miss Moncton and Miss Halifax arrived promptly and were ushered into the council chamber by white gloved police officers. There Mayor Murphy presented an address of greeting in which he paid tribute to the youth and grace of the three guests and laid particular stress on the "sweet girlish naturalness" that through all the pomp and ceremony had remained unchanged, "that typified Canada's most universally attractive girl. Three Halifax girls, employees at the city hall, presented bouquets of pink roses and carnations to the visitors.

Walter H. Golding of St. John, sponsor for Miss Canada, replied to the Mayor's address and said the ceremony had been one of the most pleasant of the tour. He said he hoped the "sisterliness" that had developed between Miss Canada and Miss Halifax would be typical of the relationship that would always exist between Halifax and St. John. Mr. Golding said that at Montreal Miss Blair and a party visited Camp Hill Hospital where a reception for walking patients was held in a ward occupied by Pte. Bourgeois, a soldier who had served with Miss Blair's father overseas. The patients presented to "Miss Canada" a large bouquet and all those in the hospital had an opportunity of meeting her.

Business was fair in the city market this morning. The following prices were quoted:—Beef, 20 to 30c; veal, 15 to 25c; lamb, 20 to 40c; pork 24 to 28c; bacon, 40 to 45c; ham, 30 to 35c; chicken, 50 to 60c; fowl, 40 to 50c a pound; potatoes, 35c a peck; lettuce, and radishes, 10c a bunch; parsley and mint, 5c a bunch; beets and carrots, 20c a peck; lettuce, 30 to 40c a bunch; eggs, 45 to 50c a dozen; butter, 30 to 45c a pound.

BOSTON TRAIN LATE
The Boston train was again late reaching the city today and according to a report received at the Union Station she was running two hours and forty minutes behind time. The delay was said to have been occasioned on the Maine-Central.

It was which he took part as a member of the 4th Siege Battery. They will look up the graves of some of the former members of the 4th Siege Battery and the 26th Battalion.

WEDDING OF MUCH INTEREST

Marriage of Miss Rita Mackenzie and Lieut. Curzon-Howe in Montreal.

(Montreal Gazette, Thursday) Smoke blue and white, carried out in the decorations and in the costumes of the bridal party, formed the color scheme for the marriage of Miss Rita Mackenzie, daughter of Mr. and Mrs. A. Allan Mackenzie, to Lieut. Charles Leicester St. John Assheton Curzon-Howe, R. N., elder son of the late Admiral the Hon. Sir Assheton Gedy Curzon-Howe, and of the Hon. Lady Curzon-Howe of Howland, Christchurch, Hants, England, which was solemnized yesterday afternoon at half-past four o'clock at the Church of St. Andrew and St. Paul. The church was banked with palms, ebodium ferns, and genista plants, and at the foot of the steps was erected an arch of white hyacinths and Zoster lilies, with a bow at each side of ferns and flowering plants.

The bride, who was given away by her father, wore a simply draped gown of heavy white satin with a broad diamond grille, and a spray of orange blossoms falling at the side, and long light sleeves. The long court train of lace, which has been in the bridegroom's family for many generations, was arranged in berth effect in front, and fell back from the shoulders. Her veil, worn over the face, was held in place with a diamond bandeau with clusters of orange blossoms at the sides, and she carried an arm bouquet of white lilac and lily-of-the-valley. She wore the groom's gifts, a diamond cross and a diamond and pearl ring, and also a diamond and pearl brooch, the gift of his mother.

She was attended by the Hon. Marguerite Shaugnessy, Miss Phoebe Gamble, and Miss Dorothy Cook, who were dressed alike in smoke blue chiffon with grey fur edging, the neck and the loose flowing sleeves, and panels edged with fur. They wore hats of chiffon of the same shade, with a broad band of fur in Russian effect, and carried muffs of blue chiffon on which were fastened large bunches of violets. Master Charles Ferrell and Master Russell Cowans acted as pages. Their suits, made after the style of Guinborough's "Boy in Blue," were of blue velvet with tunics finished with silver braid and buttons, capes slung from the shoulder and knee breeches finished with a bow of the same shade. They wore stockings to match, and court shoes with silver buckles and bows.

Capt. the Hon. F. W. Eshkine, A. D. C., acted as best man, and the Rev. Dr. Duncan and F. H. Blair played the wedding music. During the signing of the register F. H. Rowe sang "Love's Coronation." Following the ceremony a reception was held at the residence of Mrs. D. Lorn McGibbon, 25 Ontario avenue. The bride and groom received in a conservatory, which was banked with blue and white hyacinths and flowering plants. The drawing room was decorated with blue and white hyacinths, and daffodils, and in the dining room the decorations were carried out in blue and white, hyacinths, freesia and Ophelia roses. An orchestra played during the afternoon.

Mrs. Mackenzie, mother of the bride, was gowned in black satin with a grille of cut steel, and a black hat with blue and grey tulle crepe embroidered in steel and jet, a grey hat with steel trimming, finished with black Spanish lace, arranged in ruche effect at the back, and cravie furs. Mrs. P. Timmerman, aunt of the bride, wore black satin with a black and white crinoline straw hat and Kolinsky fur coat. Mrs. Graham Drinkwater, cousin of the bride, was in black crepe robe with flounces of Russian embroidery, and a large black hat draped with an unbordered scarf. Following the reception, Lieut. and Mrs. Curzon-Howe left for New York en route to the South.

Going away the bride wore a three piece costume of black flat crepe with a bodice of smoke blue and a coat finished with a sash tying at the side. She wore a black straw hat faced with blue and trimmed with an aligrette, a silver fox fur and black suede shoes with champagne stitching. They will return Montreal prior to leaving to take up their residence in England.

HEAVY LOSS TO CITY BY DELAY

Prices Advance, as Warned by Civic Power Commission—Citizen Says They Should Have Free Hand.

It was pointed out by a citizen this morning that the delay in the operations of the Power Commission was bringing home to the light and power users of the city the advisability of giving the civic commission a free hand in order to get on with the job. He said that Chairman McAvity, when dealing with the transformer question, had said that an increase in price was expected, and the increase actually took place while the City Council were dealing with the matter, forcing the city to pay a higher price for its transformers than it otherwise would have had to do. The latest penalty of delay was the advance in copper prices. These have advanced twenty-five per cent. Taking the cost of the distribution system at the figures of \$600,000, it is reasonable to assume that at least \$300,000 of this amount is affected by the twenty-five per cent increase, which represents a total of \$75,000 lost by delay. This amount is the estimated cost of the street lighting system.

All these anticipated advances, he added, were pointed out by the civic commission, and had they been authorized to go ahead at the time when they applied for the total amount of money needed, prices would have immediately been covered, at a great saving to the city. The civic commission is made up of citizens who are thorough business men, and well acquainted with market conditions and their forecasts are materializing daily.

The New Silk Frocks

Depict the Oriental

Every nook and corner of the Orient has been pilfered for the eccentric designs and gorgeous colorings that make Silk Frocks for Spring so good to look at. Some are Roshanara, exotic in color and Egyptian in the way they are draped toward the centre front. Taffeta frocks are slim of bodice and bouffant of skirt as in Victoria's time. Then there are the new Alltime Crepes, Valletes and Cantons, many with blouses of Paisley. You will really enjoy an afternoon with our new elusive frocks that are so moderately priced—\$18.50 to \$45.

And of course there are the new Tailored Frocks of Navy or Black Poiret Twill that are a delight at \$25.

Women's Shop—3rd Floor

Tailored Suits

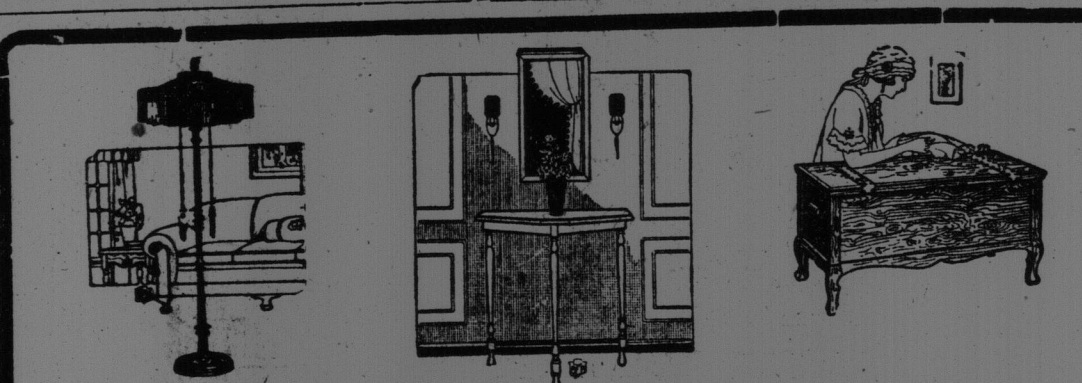

Possibly there wouldn't be much thrill in selecting a Tailored Suit if you buy one every year, but this Spring it will be different, because the styles are so very swagger. Fine tuckings and cleverly placed stitchings distinguish the new Suits and give them a trimness that is the height of costume refinement.

Correct Corsets

The proper setting of the new costume depends on being correctly corseted. Our new spring models are arriving daily, and our expert corsetiere is ready to properly fit you. Won't you call or phone for an appointment?

Cabinet Minister Sees Likelihood of Another European War

The Royal Babe—Anniversary of the Archbishop of Canterbury—Parliament Opening—Queen Mary's Dress at State Function.

(From our own correspondent.) London, Feb. 15.—How do they do it? King George's first grandchild could not have been an hour old when some of the morning newspapers went to press, and yet they were filled with columns not to say pages, of gratification, discussion and pictures. Let us see what was to be expected, the pictures, be it explained, were of the parents, and seemingly all his relatives and possible homes, hot of himself. The kiddie has already been given almost every rank known to Burke's Peerage, and a serious discussion has spread whether he shall be called "prince" or dubbed merely a humble and ordinary "honorable," or a slightly more elevated honorary "lord."

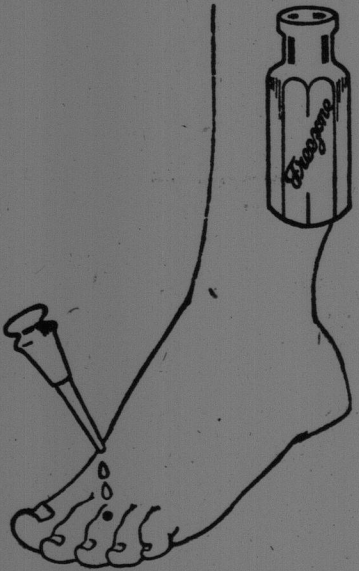

First, Doctors—Then a Skin Specialist—Then a Bottle of D.D.D.

We shall publish every week for the benefit of skin sufferers in this section, a few words written by Canadian people—some of them of prominent—on all heartiest stories of relief from terrible suffering.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an itching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the caluses, without soreness or irritation.

So may we all be and confine ourselves to congratulating the grandparents and parents on this happy addition to the nation's babies.

"A Tragedy"

"It is a tragedy," said a cabinet minister to me the other day, commenting on the position in the Ruhr Valley. "The Germans are squeezed into submission and are now on the verge of starvation. Whatever may happen in the course of the next few days or weeks, the seed has been sown of a new European war."

The situation in Germany cannot be better illustrated than by the following extract from the letter of an English friend in Berlin: "Things are in a queer state in Berlin. The Cuno government seems to be a hollow fraud, and it is at present engaged in making believe harder than ever the Weimar government did. The money policy (or swindle) goes on as hard as ever, and gradually the real and vocal classes of labor are coming into the area of the plundered. Workmen's wages in almost all trades are adjusted every fortnight, and their taxes are adjusted every week, and mean while the big incomes get a moratorium so that they can turn over their money

in their businesses before paying up in depreciated money. Most workers, not because the farmer had any more expenses, but because he wanted to cover himself in case the dollar should recede. And he is feeding cattle on grain and milk rather than send them into the town to cheapen bread and tinned milk. The whole thing is a nightmare. I have steadily raised the wages of my housekeeper and my manservant, and both get less than when engaged three years ago. I could have made a large fortune if I had cared to give attention to anything but my job."

Saloon Etiquette

A smart West Ender recently made his first Atlantic trip on a Liverpool liner. He was a seaman passenger, and flattered himself that his turn-out defied the expert criticism, he sat down to dinner the first night in the conspicuous glory of a red tie, and the second night in a blue one. He found to his considerable chagrin that he had quite innocently committed a great faux pas. The first dinner aboard ship on any ocean-going liner is a severe exception to the general hard-and-fast rule of full evening dress. For the first night afloat it is required to sit down in ordinary traveling attire, the "glad rags" being reserved for the second night and all subsequent ones. This arbitrary rule is founded on good reasons. Because many passengers might not, on the first night, have their baggage sufficiently in hand to change for dinner, and thus the chance of making one's neighbor feel miserable the first night out is factually avoided. The only uncomfortable ones under this rule are

those who don't know about it, and parade in "evening dress" on the first French crown party. It is a nice test of travel-savoir-faire, this unwritten law of ocean voyaging.

French Crown Jewels

A small man with a suit case, escorted by another of immense stature and heavy boots, entered a taxi the other morning and was driven to a house off Mount Street. In that suit case was a single necklace valued at many thousands of pounds, once a part of the French Government thirty years ago, and has changed hands several times in America before being offered for sale in London. There are more than 1,000 diamonds in its composition, with some twenty pendant rubies hanging from it. A well-known industrial peer is contemplating its purchase for his wife.

Dr. Randall Davidson

Twenty years ago this week Dr. Randall Davidson, who is now in his seventy-fourth year, became Archbishop of Canterbury, and took up residence in the oldest town house in London. Though rather an invalid physically nowadays, he is still intellectually very much alive, and full of peevy Scots humor as ever. He bids fair to be indeed the very last of the intimate Victorians. Queen Victoria regarded him affectionately as a trusted friend, in the days when he was Dean of Windsor, and at the time of King Edward's death, Queen Alexandra put marked dependence on him. Of course, Dr. Davidson has his critics. An archbishop would need to be much more than human to escape them. But he has displayed eminent qualities of statescraft, steering the middle course, and has always been on good terms with the Non-Comms. His resignation has been rumored often, but until he is quite satisfied who is to succeed him this will not occur.

Master Bernard Sykes

Sir Frederick and Lady Sykes have gone with their infant son to Brighton, to get the small time braced up for the christening ceremony in the crypt of Westminster. The statement that the Prime Minister will combine the roles of grandfather and godfather is an exaggeration. Mr. Law, after whom the little grandson is being called, will be present at the christening, but Rudyard Kipling, whose friendship with Mr. Law is of old standing, is to be godfather. The creator of Mulvaney and the Tommy Atkins ballads is in some demand in this special capacity. I remember that he was godfather to the little daughter of Sir Rodertick and Lady Sykes, the former, the chairman of Reuters, and his wife Miss Enid Gagnard, author of "The Happy For-

er," a war book which, with "A Diary Without Dates," had a great vogue.

Parliament Meets

The State opening of Parliament was—just like other State openings, The King read his speech in such loud, clear tones that his voice could be heard in the central hall, fifty yards away. The only open scoffers were a few American journalists in the Press Gallery. Inconspicuously enough, these gentlemen derided the pomp and circumstance of the occasion, but were indignant that the American Ambassador should be relegated to a seat in the second row of the Ambassador's box. Many curious eyes were turned on the galleries to catch a glimpse of the demure little figure of Lady Elizabeth Bowes-Lyon. But though the Duke was down below, sitting amongst his fellow-peers on one of the crimson benches, there was no sign of his fiancée. If she was there no one seemed to recognise her. I noticed that the Prince of Wales, when he entered, was still limping from the injury to his ankle.

The Queen's Dress

The mere man, asked to describe Queen Mary's attire, characterized it as "a brown yellow thing." I am indebted to a lady correspondent for the following description of Her Majesty's dress. Of gold and silver brocade, it was cut on the simplest lines, fitting closely to her figure. Diamonds literally showered over the square-cut décolletage, and with her ermine cape and brocaded train Her Majesty looked a picture. Although the daylight setting failed to do it justice, the Queen's gown excited great admiration as she took her seat on the throne. The fashion for wearing graceful little jewelled bandeaux in place of the rather cumbersome tiaras was adopted by several well-known persons. The younger ones looked perfectly charming with their hair very neatly coiled in the nape of the neck—a jewelled bandeau or a wreath of diamond-studded flowers being their only ornament. Probably it was only another sign of the times, but one could not help remarking the well-worn appearance of some of the gowns and wraps, as compared with the magnificence of the jewels displayed by some of the women. It looked as though the family jewels were the only things saved from the wreck of family fortunes.

A Brown Study

New Bond street during the fashionable shopping hour is a study in mummy brown. Not only are the ladies wearing costumes of that depressing shade, sometimes closely modelled on Egyptian crements and caught up with great scarab ornaments like stage jewelry, but the men are favoring brown colors for their suits. Of course, the latter phase may be merely a coincidence, and a Saville row tailor assures me Luxor has nothing to do with the matter. "Gentlemen," says this oracle, "are not like that." Which sounds like a sartorial tribute to the superior complex of male mentality. Mrs. Asquith, who may frequently be seen tripping along New Bond street about noon, on shopping intent like any suburban matron, was one of the first to adopt Luxor tones, designed after her own plans, but the fashion extremists have left Margot far behind.

COULD HARDLY DO ANY WORK

Since Taking Lydia E. Pinkham's Vegetable Compound This Woman Feels So Well

Keesville, N. Y.—"I cannot praise Lydia E. Pinkham's Vegetable Compound too highly for the good it has done me. I was so much troubled with female weakness I could hardly do any work. I saw your advertisement in the paper, and read it to my husband. He said, 'You had better try Lydia E. Pinkham's Vegetable Compound,' so I bought six bottles, and by taking it I am not troubled as I was. I am gaining strength and getting fleshy. My female troubles have vanished and I have never felt so well. The Liver Pills are the best I ever took. If you are ever in need of relief, encourage other sufferers who have my permission to use it as an advertisement." Mrs. SARAH BLAISIE, Box 177, Keesville, N. Y.

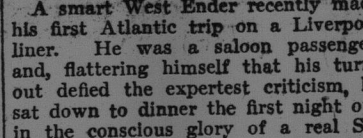

Doing the housework for the average American family is some task, and many women lose their health in so doing. If you, as a housewife, are troubled with backache, irregularities, are easily tired out or irritable, or have other disagreeable ailments, caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

MOTHER, INSIST ON GENUINE "CALIFORNIA FIG SYRUP"

Say "California" to Your Druggist and Refuse any Imitation of this Harmless Laxative for Children

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful of "California Fig Syrup" will quickly start liver and bowel action. In a few hours you can see for yourself how thoroughly it works the sour bile and undigested food right out and you have a well, playful child again.

Builds Up Strength After the "Flu"

YOU find yourself weak, nervous and draggy after the "flu."

Perhaps it has not occurred to you that you need a tonic, such as Dr. Chase's Nerve Food, to help you back to your usual strength and vigor.

Many people found out during the big "flu" epidemic that there was nothing which so quickly put them on their feet again as this well-known nerve restorative.

This experience is now of value to them, and they are passing along the good word. As an example, here is a letter.

Mrs. R. A. J. Fillion, Embrun, Ont., writes: "I had the grippé—flu—influenza—like so many other people, and, while I got over it all right, I

was not at all well afterward. My system was run down, I felt depressed and thought I was becoming consumptive. I could scarcely digest anything, and lived for two weeks on gruel water made from rolled oats. I began taking Dr. Chase's Nerve Food, and am glad to tell everybody that it was Nerve Food which built me up and brought back my strength."

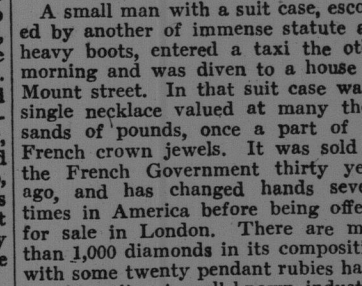

The congestion and fever so pronounced in this year's "flu" is a quick destroyer of strength and vigor. In this weakened condition you are an easy prey to bronchitis or pneumonia.

Dr. Chase's Nerve Food is at hand to build up your strength, to enrich your blood, and to make you feel fit and look well. No tonic treatment is better known, and it is for sale wherever medicines are sold. Price 50 cents a box, Edmondson, Bates & Co., Ltd., Toronto.

BEAUTIFUL HAIR IN A MOMENT

Try This! Hair Appears Soft, Colorful and Abundant—A Gleamy Mass

35 Cent Bottle of "Danderine" Also Ends Dandruff; Falling Hair!

Immediately—your hair becomes beautiful. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small piece at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and really appear twice as thick and abundant—a mass of luxuriant, glistening, colorful hair.

Besides beautifying the hair, Danderine eradicates dandruff, invigorates the scalp, stopping itching and falling hair. Danderine is the best, cheapest and most delightful hair corrective and tonic. It is to the hair what fresh showers of rain are to vegetation. It goes right to the roots, vitalizes and strengthens them. Its stimulating properties help the hair to grow long, heavy, strong.

You can surely have beautiful hair, and lots of it, if you will spend 35 cents for a bottle of Danderine at any drug store or toilet counter. It is not greasy, oily or sticky.

LOCAL NEWS

Frank Donahue, of 20 Southpark street, was taken ill in Prince William street yesterday and was removed to his home. He had been working in Prince William street around a sewer and became overcome by gas and collapsed. Policeman Young, who was found traffic duty at the foot of King street, rendered first aid, and Dr. Geo. Baxter drove the man, who soon recovered, to his home.

A decision to hold a grand ball soon after the Lenten season is over was reached at a well attended combined meeting last night of the Garrison Sports Club and the Garrison Society. A committee, composed of A. W. Watson, V. Markham and G. Landy, was appointed to take charge of the affair and report back at a later meeting. It was announced at last night's meeting that the St. Mary's Band would fulfill its promise to the members of the club to give a concert in the near future. This announcement was received with applause. Other matters of routine nature were discussed.

The Young People's Association of the Tabernacle Baptist church gave an entertaining programme on Thursday evening before a large and appreciative audience in aid of the new building fund. Ernest Ingalls was chairman of the evening.

The programme was as follows: Sections, McElderm's male quartet; reading, Miss Flora Sutherland; organ solo, Master J. Carmichael; readings, Mrs. Walter Graves; solo, F. C. Murray; sketch by Mrs. Titus, Mrs. Coggin, Miss M. Owens, Miss L. Young; solo, Miss Pearl Smith; curtain call, Mrs. C. Murray and H. V. Copp.

The moccasin dance held last evening in the Arena under the auspices of the New Brunswick Association of Graduate Nurses was attended by a large number and a most enjoyable evening was spent. The music provided by the band was a rare treat. Refreshments were served during the course of the evening and added greatly to the enjoyment of the crowd in attendance, and also added to the profits. The committee members were Mrs. T. B. Reynolds, Miss Lela Gregory and Miss Mary Barnham. The proceeds of the affair will go to swell the funds of the graduate nurses' association.

The annual meeting of the St. Paul's girls' branch of the W. A. was held last evening. Mrs. A. H. Crowfoot presiding. It was expected to have an outfit consisting of clothing, etc., to be finished in April when it will be forwarded to the Chislehurst Indian Reservation. No election of officers was held as the society is disbanding.

And joining the senior W. A. Mrs. Kinby is to begin a new branch for the teen age girls. A. Archdeacon, H. Crowfoot delivered a short address. He also made a presentation of a life membership to Miss Winnifred Upham. The girls presented a small remembrance to the president, Mrs. Crowfoot. Miss Ethel Melick made the presentation.

"Would Wake Up Screaming"

"The Least Sudden Noise or Loud Talking Would Startle Him."

"Up to the age of eight, my boy was a strong, healthy lad, full of life and energy. While playing leap frog one day with some boys of his own age, and while in a stooped position, a big boy jumped on his back and in falling my boy caught his foot in an iron grating and dislocated his hip. The pain was so great that he fainted and the other boys were so frightened they ran away. For hours he suffered terrible pain and when found and brought home was very weak, with his thigh and leg swollen twice its size. The doctor set the bone but the pain and exposure were too much for the poor boy and he became unconscious. A high fever set in and for weeks he lay between life and death, raving for hours at a stretch. One day he opened his eyes and murmured 'Mother,' but this is the only word he could utter he was so weak, but I knew the worst was over. He got stronger but for months was in a nervous condition. The least sudden noise or loud talking would startle him and he would begin trembling. He was quite lame and the swelling

still remained. The doctor gave him a tonic and told me to rub the leg with olive oil. This reduced the swelling and took away the lameness, but the nervousness remained. The poor child would waken in the night screaming at the top of his voice. The doctor gave him several different tonics but they were no use. I found a circular about Carnol and it seemed so different from other tonics I had heard of, that I thought I would get a bottle. Three bottles were all that was needed to make my boy like his own self again. It is hard to convince my friends that the change in him now is entirely due to Carnol. Of course I still have to watch him and give him Carnol occasionally but I know that he will soon be as strong again as ever he was."

A Tire Tip.
Extreme care should be taken to see that nothing on the car scrapes the tires as they revolve.

A Suggestion for Damaged Threads.
If the threads of a bolt or stud have been damaged and no dies are at hand to clean them, a little work with a triangular file will often make them as good as new.

Easy Way to Attach Skid-Chains.
Chains can be placed on wheels without the use of a jack by stretching them on the road in the rear of the car, so that they will be in line with the wheels. The car can be moved back a few feet until the ends of the chain are

brought to a convenient position for hooking them together.

Battery Wisdom.
Use the purest water when adding to the solution in the storage battery, to replace losses by evaporation. Because the electrolyte sometimes bubbles over, the solution should never be more than one-half to three-quarters of an inch over the tops of the plates.

Safety First!
A motorist at no time should have both hands free of the steering wheel. Small stones, ruts and bumps will quickly disturb the equilibrium, and throw the car in the ditch.

The Far-Reaching Oilcan.
An oil-can can be made to reach into far places by attaching a piece of wire to its spout. This is done by forcing quickly a mixture that will evaporate at any temperature.

Hand Signals.
Right Turn—Extend left arm and hand, signaling driver in rear to come ahead, indicating that he may pass in safety.
Left Turn—Extend left arm and hand with index finger pointing, thus indicating that you are going to turn.
Stop—Extend left arm and hand with palm in perpendicular position.

Undue wear on tires is caused by wobbling wheels.

Improper adjustment of valves will cause jerky running of the car.

Never varnish the body of a car with temperature below 70 degrees F.

When a car has had a severe shock the bearings should be immediately inspected.

A "rear-seat driver" who annoys the operator of an automobile, should be asked to get out and walk.

A mixture of 85 per cent. kerosene and 15 per cent. saturated alcohol, if used regularly, will keep the cylinders clean.

A loose fly-wheel is distinguished by a hard, continuous rattle or a series of sharp knocks, particularly at low engine speed.

A cloth, moistened with gasoline, used once or twice a week, to remove mud from tires, will greatly lengthen the life of the rubber.

A little oil on the clutch thrusts bearing may facilitate gear shifting. It surely will prolong the life of that important member.

For the protection of the radiator, water pump and hose, cars should be parked with the back toward the wind in cold and windy weather.

To conserve current, disengage the clutch while starting.

Emergency paper should never be used for cleaning moving parts of a car.

Never run a car with a broken headlight lens; it ruins the reflector.

Every motorist should carefully study the automobile laws of his State.

Never use the same can or bucket to carry water and gasoline. A par-

alongside the spouting. When a drop of oil comes out it flows along the wire to the farther end.

Water Pump Packing.
By using the felt of an old hat, washers may be made for packing the stuffing boxes of the water pump. These are made more effective if the felt has been boiled in a mixture of tallow and graphite.

Ball-Bearing Replacement.
When renewing a ball bearing, carefully measure each one with a micrometer. A ball one or two-thousandths smaller can be used, but never one the least bit larger.

SEA TOOK 216 SHIPS AS ITS TOLL IN 1922
Total Tonnage Loss Is 407,756—United States' Share 60 Vessels of 91,000 Tons.

According to the annual report of the Liverpool Underwriters Association, 216 vessels of 407,756 gross tons were lost in 1922. Of this number, sixty were from the American flag, including thirty-seven sailing vessels and twenty-three steamships of a total of 91,000 tons. The British lost forty-five ships of 112,000 tons.

The Japanese lost thirty steamships of a total tonnage of 42,927 tons and the rest of the world lost fourteen sailing vessels of 21,729 tons and sixty-seven steamships of a total of 140,263 tons. These vessels were all above 500 tons gross.

The losses in 1922 included two from weather damage, sixty-five foundering and abandonments, eighty-six strandings, eighteen collisions, twenty-six from fire and explosions and nineteen missing. In the same period the partial losses included 492 vessels from weather damage, 1,425 by strandings, 1,818 by collisions, 500 by fires and explosions, 1,041 received a damage to machinery, shafts and propellers and 1,154 from other causes—a total of 8,460 compared with 5,208 in 1921.

In 1921 the number of American sailing vessels lost was thirty-seven with a tonnage of 44,761 and nineteen steamships with a total tonnage of 63,784. In the same year the British loss was twelve sailing vessels or 13,174 and thirty-six steamships of a total of 88,064. This is a total loss for 1921 of 479,119 tons, a decrease in the past year of 71,868 tons. A total of 232 ships were lost in 1921.

A SHORTAGE OF 80,000,000 POUNDS.
The Tea Business, like nearly everything else, has been having its hard times since the war. Unfavorable tea growing weather, labor troubles on the plantations, and the unsettled political atmosphere generally, have so seriously reduced this year's crop, that the world is now faced with a shortage of over 80,000,000 lbs. or more than two years' supply for the whole Dominion of Canada.

In Canada the Salada Tea Company, our latest Tea Concern, has been forced by this condition to recently increase the price of all their blends in order to maintain their standard of quality.

Dante's "Divine Comedy" was first printed in the year 1472.

tle of water or dirt in the gasoline may cause a lot of trouble.

A broken windshield or window can be temporarily mended by pasting paper lining strips (the kind used to secure packages) on the outside and inside of the break.

If you intend sending your car to the repair shop, remember that the period including the months of March, April and May is the time when demands are heaviest for overhauling.

NOTED RUSSIAN WRITER SLAIN

Native Villagers, Ignorant of His Talent, Accused Him of Sorcery.

New York, March 1.—Sergey P. Semenov, Russian national writer and close friend of the late Count Leo Tolstoy, has been murdered by fellow villagers, who believed him responsible for their misfortunes, according to a letter received by Herman Bernstein, author and journalist.

Semenov's neighbors were suspicious of him for some time, the letter said. They would say: "He is forever writing. But what is the use of his writings! If he is an educated man let him go to the city. He may bring misfortune upon us."

Then, whatever misfortune befell the villagers, whether in the fields or their home life, was ascribed to the "accursed black magic of Semenov." He got the name of "Sorcerer."

The letter continues: "If a cow died suddenly or a wagon broke down, the whole village would start whispering: 'That is the sorcerer's evil eye.' One day recently Semenov was on his way to the neighboring village of Bittzevo. He was carrying a manuscript to the local teacher, who would copy it for him. Gregory Malutin, his son Nicholas, and his daughter, Vera, Semenov's fellow villagers, were hiding in a clump of bushes at the bridge approach.

"Where are you going?" shouted Malutin to Semenov.

"To the teacher, with a manuscript," he answered.

"Well, this is your last manuscript!" "Two shots were fired. Semenov fell dead."

"At the investigation the Malutins declared, calmly:

"Yes, we killed the sorcerer. Is that a sin? He brought harm to our cattle. He brought illness to the village with his evil eye. The drought was due to him. He was to blame for the famine."

Semenov, although he had attained fame as a writer, never would leave his village, preferring to remain there and to till the soil as well as write. He was recognized years ago by Count Tolstoy, who wrote an introduction to some of Semenov's works. The book that had gained him his widest popularity was his autobiography, entitled: "Twenty-five Years in a Village."

Washington Irving was the first classic writer to use the phrase "The Almightly dollar."

FICTION A LA MODE.

A German novel is a book in which two people want each other in the first chapter, but do not get each other until the last chapter.

A French novel is a book in which two people get each other right in the first chapter, and from then on to the

last chapter don't want each other any more.

An American novel is a book in which two people want each other at the start, get each other, and then want each other clear through to the end.

A Russian novel, however, is one in which two people neither want each other nor get each other, and about this 400 profoundly melancholy pages

are written.—Translated by World Fiction (New York) from Jugend (Munich).

1923 STUDEBAKER SERIES

The 1923 series Studebaker Big-Six Touring Car is essentially the same splendid automobile that has proved its merit in the service of fifty thousand owners.

The 1923 refinements and betterments enhance its value and make its ownership even more desirable. The Big-Six Touring Car is comparable to the finest—and highest priced—cars built.

Studebaker manufactures all vital parts in its own plants which means the elimination of parts-makers' profits. These savings are reflected in the '23 series Big-Six Touring Car—the finest open car and the greatest value Studebaker ever offered.

After seventy-one years of service the name Studebaker enjoys public confidence and respect more than ever.

Why Chevrolet Can Give You Such Extraordinary Value

Large scale production—big sales volume? That's why Chevrolet can give you such extraordinary value—why you can buy a fully equipped quality automobile at such a surprisingly low price.

Chevrolet is the world's largest producer of quality automobiles. Savings in costs of material, production, distribution and overhead are passed on to Chevrolet buyers in the form of greater car value.

Chevrolet's growth in sales volume proves that Chevrolet cars make good in service and represent to-day's greatest motoring value per dollar of cost. Lowest in purchase price, these cars also cost less to operate than any car built.

McLaughlin-Buick

The Outstanding Closed Car Value

The "Master Six" Five-Passenger Sedan 23-47 \$2795

Measured by any standard you may choose and for every kind of motoring the McLaughlin-Buick Master Six five-passenger sedan is easily the outstanding value in a closed car; the body is by Fisher.

It is a handsome, richly appointed sedan; tasteful in the quality of its interior fittings and in the comfortable luxury of its wide easy seats with their fine plush upholstery. Every driving convenience is found in this car—so perfectly arranged that every function is recorded before the driver's eyes and every control is at his finger tips.

And in addition there is the dependable, enduring performance, the perfection in construction which secures Class A insurance rating, and the economical, satisfactory motoring that always has been so marked in the McLaughlin-Buick chassis and in the famous McLaughlin-Buick Valve-in-Head engine.

This beautiful sedan is snug and warm in cold weather but cool in summer because of the means provided for controlled ventilation.

McLaughlin-Buick Drives Through "Third" Member

All McLaughlin-Buick cars drive through a torque tube third member on the rear axle. McLaughlin-Buick springs serve as cushions only. This not only makes riding easier, since the springs do not take the driving thrust, but it also means that any accident breaking a McLaughlin-Buick rear spring cannot misalign the axle and prevent driving the car home on its own power.

THERE ARE MANY MORE LIKE THIS IN IRELAND

In their systematic destruction of the property of sympathisers and supporters of the Irish Free State Government, the rebels under de Valera made an attempt to raze the home of Sir Horace Plunkett. The attempt did not meet with sufficient success to satisfy the rebels, so they returned the next day, again fired the house and completed its destruction.

FARMER DROPS IN TO MAKE TREASURE HUNT A COMEDY

Six Serious Boys, Spurred by Tale of Tut-Ankh-Amen, Tunnel For Gold in New Jersey Until Cave-In Brings Constable.

(New York Tribune)
Adrian Powell, a non-romantic farm hand employed by John Hensel, of Homestead, N. J., was walking across the old Dempsey farm near Homestead yesterday when the earth opened beneath his feet and dropped him into a freshly made excavation.
"That's odd," said Adrian to himself and went to Homestead to tell the police about it.
"May be it was an earthquake," Adrian suggested to Constable Connelly, "but anyway I got myself in a hole."
"May be it is bootleggers," said Constable Connelly, who, by virtue of his occupation, has a suspicious mind. And Adrian thought it was odd.
"Any way, it's odd," said Adrian, and accompanied Constable Connelly to the spot.
Constable Connelly inspected, with his best professional air, the place where Adrian had dropped from sight.
"It looks to me," said Constable Connelly, "as if there's something in this. Bootleggers, may be."
"It's odd, ain't it?" said Adrian.
"Didn't I tell you it was odd?" said Constable Connelly entered the excavation. "It goes on," he called back to Adrian.
Adrian, co-operatively.
A moment later Constable Connelly emerged, somewhat flustered as to countenance, grasping an ankle in his capacious right hand. The ankle, it developed, was attached to the person of Wesley Hensel, aged fourteen.
"Wesley was in the hole."
"Why, it's Wesley," said Adrian.
"This gets odder and odder every minute."
"There's others in there," said Constable Connelly briefly and dived again, coming up with Fred Zannard, also fourteen. In turn the constable unearthed four other small boys of the community.
"Well," said Wesley, "it was this way. We heard about this king all covered with gold, this Tut-Ank, Toot-Ank—well, you know who I mean—the bird they dug up in Egypt, he was covered with gold, see. And everybody around these parts says old man Dempsey was a miser and must

He Speaks From Past Experience

That's Why He Praises Dodd's Kidney Pills.

Mr. Mason S. Battsford Wants Everyone to Know His Views About Dodd's Kidney Pills.

Boggy Creek, Man., March 2. — (Special).—"I think Dodd's Kidney Pills should never be passed by anyone suffering from kidney trouble, without first giving them a trial. I am certain, from my past experience, that they will give sure relief. There are lots of remedies for weak kidneys, but I find nothing like Dodd's Kidney Pills for strengthening the kidneys and keeping them in good order."
This statement, made by Mr. Mason S. Battsford, a well-known resident here, is only one of the many received from relieved sufferers.
People all over Canada have tried Dodd's Kidney Pills and found them good. They have been used by thousands of people suffering from various forms of kidney trouble, such as rheumatism, dropsy, sore back, weakness, diabetes and Bright's disease.
Ask any one of these thousands to give you his opinion of Dodd's Kidney Pills. It is on the relief afforded sufferers from kidney trouble that Dodd's Kidney Pills have built their reputation as a sovereign remedy for sick kidneys. Ask your neighbors if Dodd's Kidney Pills are not the best kidney remedy.

have buried his treasure some place around here; and if they can find that stuff in Egypt that been hidden for ever so many years, we thought we could maybe find old man Dempsey's treasure, because it hasn't been there half so long.
The Heart-Breaking Sequel.
"So we dug a hole, see; an' then we made a tunnel; an' then this big lum-mox comes falling in on us, an'—well that's all, I guess."
"Well, if that ain't odd," said Adrian.
"You guess wrong," said Constable Connelly who is a stern man, and just withal. "You dug all that earth out. Now you go to work an' shovel it all back again."
"Gee!" said the sweating six.
"That's about the oddest thing I ever did see," said Adrian.

"The Torch of Verified Circulation"

Lights up the way for the Advertiser

The Telegraph and The Evening Times, with a combined daily net paid circulation exceeding 30,000 copies, are the only A. B. C. (Audit Bureau of Circulation) papers in the province of New Brunswick. These newspapers alone give the advertiser a verified circulation whose extent is absolutely known and established beyond question.

Mr. Advertiser, do you realize what this means?

All of the principal Canadian dailies are members of the A. B. C. That is, they give their advertisers, present and prospective, circulation figures which are audited, certified and approved by an independent court whose standing is recognized in business circles throughout Canada and the United States.

Mr. Advertiser, Look at this:

The Following Canadian Newspapers are members of the A. B. C.:

- St. John—The Telegraph and The Evening Times (the only A. B. C. papers in New Brunswick).
- Halifax—The Chronicle and Echo, The Herald and Mail.
- Charlottetown—The Guardian.
- Quebec City—Le Soleil, L'Evenement.
- Montreal—The Gazette, The Star, The Herald, La Presse, La Patrie, Le Canada, Le Devoir, The Standard.
- Ottawa—The Citizen, The Journal, Le Droit.
- Toronto—The Globe, The Star, The Mail and Empire and Sunday World, The Telegram.
- London—The Advertiser, The Free Press.
- Brantford—The Expositor.

- Brockville—The Recorder and Times.
- Fort William—The Times-Journal.
- Hamilton—The Spectator.
- Kingston—The British Whig, The Standard.
- Windsor—The Border Cities' Star.
- Winnipeg—The Manitoba Free Press, The Tribune.
- Saskatoon—The Star, The Phoenix.
- Regina—The Leader, The Post.
- Calgary—The Morning Albertan, The Herald.
- Edmonton—The Bulletin, The Journal.
- Vancouver—The Province, The Sun, The World.
- Victoria—The Colonist, The Times.

Mr. Advertiser, in that list you have the chief newspapers of Canada. They give you an independent audit of their circulation by a universally recognized authority.

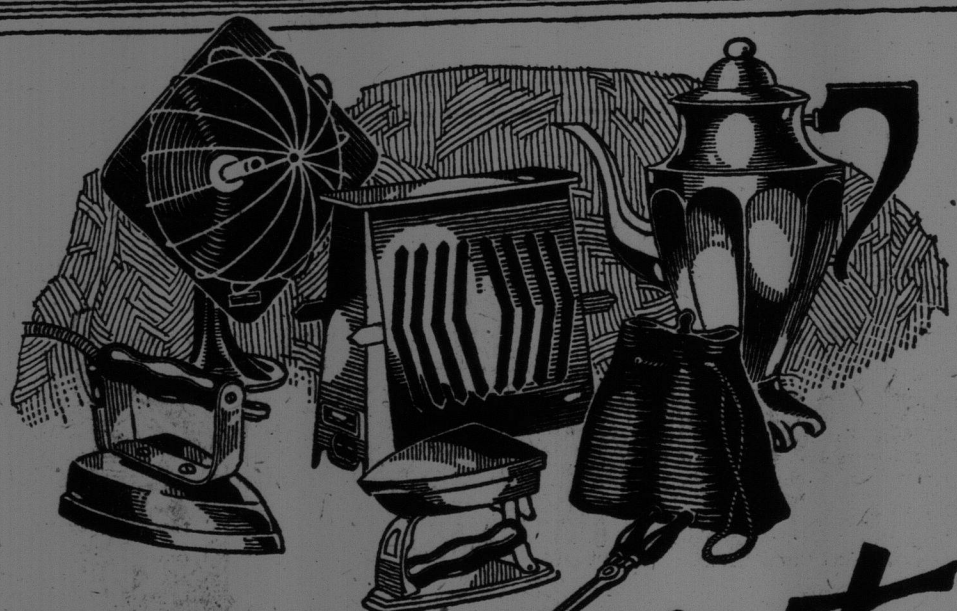

"Net Paid" circulation does not mean old lists of doubtful value. "Net Paid" means that every subscriber included in the figures is either paid in advance or does not owe for more than six months. The Telegraph and Times, remember, have a combined "net paid" daily circulation of more than 30,000 copies.

Figuring by circulation The Telegraph and Times rates are the lowest in the Maritime Provinces.

By putting the same ad in both papers you cover the city of St. John and the province of New Brunswick as with a blanket, so far as prospective buyers of your goods are concerned, for these two papers reach to a really wonderful extent the people in this city and this province who are in a position to purchase the goods that local or national advertisers offer for sale, be these goods bonds or toothpicks, razors or mowing machines, diamonds or medicines, shoes or silks.

Think over the facts, Mr. Advertiser. Just ask yourself quietly and thoughtfully what that chain of leading Canadian newspapers means. Their verified circulation is their greatest advertising solicitor. Think about "the torch of verified circulation."

Youngest Co-Ed At Three Is "Freshman" In Drake University

Des Moines, Iowa, March 3.—If anybody is to be the title of "youngest co-ed," here's a challenger to be met and decided with.

At three years of age, Gwendolyn Ruth McCann has been to college a year, and if punctual attendance and lively interest count for anything, is well on the way to the degree of Bachelor of Arts.

Here's how it came about: Mr. and Mrs. McCann married when they were youngsters just out of high school, and after they had set up housekeeping, decided they both wanted college educations.

They entered Drake University, Mrs. McCann in the college of liberal arts and her husband in the Bible college. Then along came Ruth. Could they give up college just on the baby's account? They couldn't think of it, with their degrees in sight? Could they attend classes and leave the baby at home? Gradually, no.

So they decided, since the whole family was set on going to college, to take Ruth along. When Mr. McCann went to morning classes, along went Ruth. In the afternoon, she accompanied her mother to classes, while her father, captain of the Drake University track team, was working out at the stadium.

The result has been satisfactory all around—Ruth's mother now has her degree, and her father, called "The Flying Parson" for his fleetness of foot, will graduate in the spring and will enter the ministry.

Even the student body approved of the plan, and some of them insisted on coaching Gwendolyn Ruth in a special course in "canpunity" between classes.

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

ARCHBISHOP A CREDITOR OF DEFUNCT FIRM

Winnipeg Hall Crowded to Hear Report of Trustees on Dominion Ticket and Financial Corporation.

Winnipeg, Feb. 28.—(Montreal Star Special)—More than one thousand angry creditors of the defunct Dominion Ticket and Financial Corporation gathered in Manitoba Hall yesterday afternoon to hear the report of the Trustees Trust Company, the trustees, on the demise of America's latest money bubble. An archbishop, representatives from a Catholic orphanage, several prominent citizens from Southern Manitoba, and scores of ignorant foreigners from the North End of Winnipeg gathered to hear "gruesome" details.

And the statement showed that the defunct concern, which operated as a private bank, owed depositors \$895,839.18, and had assets consisting mainly of roubles, kronen, marks, unsecured notes to bootleggers and one to A. F. Schinowski, president of the bank, who is now being held for trial on a criminal charge. He was present at the meeting yesterday, but made very perfunctory replies to the questions he was asked.

The meeting appointed a committee of twenty, who will confer with the trustees on the assets of the concern and report back to a general gathering on March 13.

More than an hour before the meeting opened, a crowd began to gather on the sidewalk in front of the hall and finally became so demonstrative that it was found necessary to call out the police to permit the crowd to get into the auditorium without disorder.

Archbishop Sinnott of Winnipeg is a creditor to the extent of \$20,000, and St. Joseph's Orphanage for \$27,000. For a large number of the smaller depositors the loss will wipe out the savings of a lifetime.

OPINIONS ON THE MARKET

(McDougall & Cowan's.) New York, March 3.—Bache.—This is an excellent market for diminishing supply, but it is a dangerous market in which to make new commitments. This Despite Profit Taking in Some Popular Shares—Dull in Montreal.

New York, March 3.—Prices continued their upward course today at the opening of the stock market despite the usual week end profit taking in a number of popular shares. The initial demand centered in the independent steel, equipment, domestic oil, food, dividend paying railroad shares and select assortment of specialties. Union Pacific led the advance in rails with a gain of 1/4 points and Sloss Sheffield, two, and Bethlehem Steel B, up one, headed the steel group. United Drug dropped three points and Utah Copper yielded 1/4 on realising sales.

Victoria Defeats Seattle. Victoria, B. C., March 3.—The Victoria Cougars qualified to meet the Vancouver Maroons in the home and home series for the championship of the Pacific Coast Hockey Association here last night, by defeating Seattle by 9 to 2. The first games of the championship series will be staged on Monday night.

Allan Cup Series. Ottawa, March 3.—In a strenuous and hard checking game, Hull, champion of the Lower Ottawa League, and conquerors of the Upper Ottawa League, defeated Perth, Rideau League winners, for the championship of the Allan cup elimination series in Hull last night.

Stellarion, N. S., March 3.—Stellarion won the championship of the Independent Hockey League here last night by defeating Victoria 7 to 4. Granite Agate Champions. Hamilton, Ont., March 3.—Granite are O. H. A. champions for the second year in succession, for although held to a tie by Tigers here last night, their four-two victory in Toronto on Tuesday night, gave them a six to four victory on the round. The score in last night's game was all-but had Tigers taken advantage of the many opportunities that confronted them especially in the early stages of last night's contest it would have been their game and title.

Edmonton Eskimos Win. Edmonton, March 3.—The Edmonton Eskimos boasted their average score at the expense of the Saskatoon Crescents here last night, defeating the visitors, 8 to 1, and making sure of a place in the play-offs for the Western Canada League championship.

Regina, March 3.—What was regarded as the crucial game of the Western Canada League season was won here last night by the Regina Capitals, present champions, when they practically eliminated the Calgary Tigers from the championship race, 5 to 0. It looks as if the play-offs will be between the Capitals and the Eskimos as last year—Regina and Edmonton.

Fredericton, N. B., March 3.—Mt. Allison University has protested the awarding of the Summer Cup to U. N. B. and Acadia University is said to have joined in the protest.

Dalhousie Wins Kings. Truro, N. S., March 3.—Dalhousie University easily won the championship of the eastern section of the Maritime Hockey League here last night by defeating Kings College 8 to 1.

Windsor Wins Title. Lunenburg, N. S., March 3.—Windsor won the championship of the western N. S. Hockey League here last night by defeating Lunenburg 4 to 3.

A special match was curried last evening on Thistle ice between a rink skip by W. G. Haslam and one skip by H. W. Stubbs. The match was a challenge one and considerable interest was displayed by the club members in the result. The rink skip by W. H. Gamblin finally pulled off the victory by the score of 15 to 6.

Hexathalon Events. In the events run off in the Hexathalon contests at the Y. M. C. A. last night brought the total points so far scored to only sixty-five below those of last year, when the total was 2584. Some more events are to be put on this afternoon and it is expected that this year's total will at least equal last year's. The results last night were as follows:

J. E. DALRYMPLE C. N. R. TRAFFIC VICE-PRESIDENT. Appointment of Montreal Man to High Office Announced.

With G. T. R. Since 1888—To Have Charge of Sleeping, Dining, Parlor Car and Hotel Departments. (Montreal Gazette.)

The appointment of John Edward Dalrymple as vice-president of the Canadian National Railways in charge of traffic, hotels, sleeping cars and dining cars, at once puts Mr. Dalrymple in one of the most important executive positions in the world.

Mr. Dalrymple is a remarkable instance of the one institution man. He started his life career in the service of the Grand Trunk, and has stayed with it ever since.

As vice-president, Mr. Dalrymple played a notable part in developing the Grand Trunk, and later the G. T. P., and associate lines, to their present magnitude.

While his railway work naturally took his far afield at times, Mr. Dalrymple has resided in Montreal since his appointment as vice-president of the Grand Trunk in 1911.

He was given his great start by the late Charles M. Hays, who had a reputation for wise selection of men to work with him, and since that time he has made his own progress more rapid.

Just look again at these cushions from the Hassler protected car—smooth as ever after 13,000 miles! The Hasslers' not only took up shocks, and saved the cushions of the whole car—from shocks, but they arrested rebounds, also. Your dealer knows these Hassler facts.

CONGRESS POKER CLUB HAS THE SKY FOR ITS LIMIT

"Boar's Nest," Secret Rendezvous, Plays High

\$82,000 in a Single Pot — Break-up of Session Will See End of Game Where Chips Cost \$1,000 a Stack.

Washington, March 3.—"The Boar's Nest" will be hit hard when the Sixty-seventh Congress dies on March 4. This closely guarded rendezvous of an exclusive inner circle of Congress members will on that date follow its numerous, but never before so pretentious, predecessors. In other words, what has come to be known among those on the inside as the stiffest poker game ever organized by the national legislators, which is played in specially maintained quarters only a stone's throw from the Department of Justice, will be broken up.

Virtually nothing is known outside of the members of the "Nest" of the predominance today of poker as the national pastime. Even in the halls of Congress there is among the general run of legislators a prevailing impression that the game's popularity has died out in recent years. As a matter of real fact, however, the game now will go down in history, for instead of lapsing, it is the national game par excellence. Bridge whist, as a diversion of Washington society, has its countless devotees, but the poker organized nightly is played with a vengeance as never before and for millionaire's stakes

by official gentlemen from North, East, South and West. These moneyed gentlemen have their pastimes completely organized. They operate on the club plan, contributing enough from month to month to maintain in grandeur the apartment they have christened "The Boar's Nest." They employ a man as caretaker, steward and bookkeeper, who makes it his home. The accounts of winnings and losses are destroyed at the end of each month and only unpaid debts carried over to another ledger. This latter book is not even open to some of those who play at the "Nest," for it contains the records of participation by some of the highest officials of the government over a period of many years back, it is declared.

The largest single item of unpaid losses is said to be \$14,000, charged against a former New York statesman who had a noteworthy career in the House and in a still higher branch of the public service. Getting down to the matter of just how stiff their game is, it calls for \$1,000 for a stack of chips—and no checks, even though signed by a Senator, Representative or other responsible official.

Perhaps the outstanding record of the present session, one of the things that will put their game down in history, was a "killing" made one night recently by a member of a famous feudist family of West Virginia, who is said to come to Washington at regular intervals for the sole purpose of sitting in at the Nest. In that game he hand won him a pot of \$32,000.

Wins Pot of \$24,000. A close second to this was the achievement of a Pacific Coast Senator a few weeks ago. He had been a consistent loser for some time. He more than retrieved by taking a pot of \$24,000.

Another incident of the last month has made a Pennsylvania House member the butt of jokes. He had dabbled lightly in the game from time to time, but in his last venture he dropped \$900 "on three treys."

The poker of ante-bellum days and likewise that of post-bellum days in Washington has been celebrated in multitudinous stories. Some have supposed that the poker of today is much superior to that of those early times as the royal grandeur of Pharaoh Tark-an-amen was to the primitive condition of his predecessors of the stone age. There is another gathering place of
