REVOLT BREAKS OUT IN WHOLE OF MONTENEGRO

LONDON, Aug. 28. — Fighting has broken out everywhere in Montenegro and the whole country is in a state of revolt, according to news received here. The situation is extremely serious and the Serbians are using strong measures in an attempt to suppress the uprising.

The Montenegrins have cut the railway between Virpazar and Antivari, on the coast.

The Serbians are receiving reinforcements but are not meeting with success in their efforts to put down the revolutionary movement, according to the advices, which represent the Montenegrin national spirit as thoroughly aroused and the animosity of the people against the Serbians increasing.

Norway Will Get All Spitzbergen Archipelago

PARIS, Aug. 27. — The Spitzbergen treaty has virtually been completed and probably will be before the supreme council for approval this week. This treaty gives to Norway the entire Spitzbergen archipelago. It is celebrated chiefly for its coal mines.

Russia, Sweden, Denmark and several other countries claimed Spitzbergen, but practically all of them have waived their claims and it is expected there will be little difficulty in getting all the great powers to ratify the treaty, giving the archipelago to Norway, which is closer to Spitzbergen than any other country. Sweden appears to be the only country likely to refuse its signature and the council expects to persuade it to give up its claims.

TERRIBLE TRAGEDY NEAR CADILLAC

Six Young Lives Lost in Flames While Parents Were Absent

CADILLAC, Sept. 1. — Fire of unknown origin took a toll of six young lives on Friday evening last of Driscoll Lake post office, south of here. The remains of only four of the children could be identified and the result of the investigation was the verdict of the jury that death was accidental.

The six children belonged to two different families. Two were the children of Councillor Colin Munroe, the other four the children of Roy McKnight. Both the fathers left home about two weeks ago to go to Jansen, near Wynyard, where they were putting up hay for the winter's feeding of their stock. While the fathers were away Mrs. Munroe and her children went to stay with Mrs. McKnight and last Friday Mrs. Munroe accompanied Mrs. McKnight to the store at Frenchville. After purchasing their groceries they started homeward and saw the blaze from a distance. On arriving at the house they found a number of neighbors who had made every effort to get inside, but the flames prevented them and the heat was so intense they could not get near the building.

Saturday morning neighbors assisted the coroner, Dr. Clark, to search the ruins for the bodies and only four were found which could be recognized. The other two were charred beyond recognition.

During the night of Friday it was believed that two of the children might have got away and so the fields were hunted all night, but no trace of the missing ones found.

The children ranged in age from nine to two years. The cause of the fire is unknown, but it is surmised that the children secured matches in some way and accidentally set fire to the house.

REPATRIATION OF GERMAN SOLDIERS

LONDON, Aug. 30. — Pursuant to the decision of the supreme council at Paris, orders have been issued for the repatriation immediately of German prisoners held by Great Britain in France. The first batch, numbering 1,000, left there today. The repatriation of prisoners from England depends upon sea transportation, which the peace treaty provides Germany must arrange.

Eyewitness Tells Story of Killing Emperor of Russia

LONDON, Aug. 27. — Alleged authentic details of the killing of Emperor Nicholas of Russia and the other members of the Russian royal family, at Yekaterinburg, on July 17, 1918, are contained in a report drafted by an uniformed chief officer who had been employed in an official capacity in southern Russia, was made public today by Reuter's Limited. The story purports to have been told by a sentry who guarded the royal family while its members were under detention.

Under the orders of Commissary Kourovsky, the account runs, the emperor, the empress, Crown Prince Alex and the Grand Duchess Olga, Anastasia, Tatiana and Xenia, together with Court Physician Botkine and three servants, were taken to an underground room.

No interrogatory occurred. The emperor carried his son in his arms because of the boy's inability to walk in consequence of illness. Jourovsky, another Bolshevik leader, and nine Lettish soldiers, the account continues, entered the room and immediately killed all the occupants with revolver shots.

The sentry, on hearing the reports, dashed into the room, he says, and saw eleven bodies lying on the floor. Only the emperor's son was still alive. Seeing this, the narrator added, one of the Bolshevik party killed the crown prince with a point-blank shot.

Yukon Has Gone Dry

Government Dispensaries Will Supply Needs of Thirsty From Now On

DAWSON, Y. T. — The Yukon Territory has gone dry, when the law enacted last spring by the Yukon legislature abolishing the saloon came into effect on September 1. Twenty licensed bars now exist in the Yukon, of which 10 are in Dawson, all connected with hotels or road houses.

A government dispensary will be opened at Dawson and another at White Horse under the control of Commissioner MacKenzie, at which goods will be sold only by the bottle and during limited hours.

Between now and February a plebiscite will be held throughout the territory to determine the future of the liquor business. Three propositions will be voted upon: Sale of liquor through government dispensaries, a home-dry regime, or return to the license system, which has expired. It is believed that the real contest will be between the advocates of home-dry and dispensary systems. Yukon was the only district in Canada where the sale of all kinds of liquor over the bar was permitted during the whole course of the war and at the closing of its saloons, all Canada is under prohibitory legislation.

New German Zeppelin Makes Record Trip

Will Accommodate 35 Passengers in Spacious Cabins

BERLIN, Aug. 28. — A new Zeppelin airship, on its maiden trip from Friedrichshafen to Berlin, covered the 700 kilometers (about 435 miles) in a little more than six hours. The aircraft, which is named Bodensee, attained a maximum speed of 120 kilometres (a little more than 74 1/2 miles an hour).

The builders of the new type of machine have discarded the familiar cigar shape of the old Zeppelins and adopted a conical outlined exterior. The Bodensee is 120 metres long and accommodates 35 passengers. It is equipped with wireless and has a spacious passenger cabin. The passengers are able to obtain running hot and cold water. The aircraft is to go into a daily service. Twenty-one passengers, among them three women, made the initial trip in the airship. The Bodensee was built since the armistice was signed.

U. S. Senators Continue Assailing Peace Treaty

Knox Advises Senate to Even Reject Treaty Altogether

WASHINGTON, Aug. 29. — The treaty of peace was aggressively assailed by its senate foes again today, the foreign relations committee approving three more textual amendments to its provisions and Senator Knox, of Pennsylvania, Republican member of the committee, advising the senate that the only safe way to deal with it was to reject it altogether.

FIRST STEP TAKEN TO LOWER PRICES OF FOOD IN CANADA

OTTAWA, Aug. 29. — The Board of Commerce has taken action to control sugar prices by restraining and prohibiting certain parties from disposing of sugar in such a way as is calculated to unfairly increase its cost. They are particularly restrained from exporting sugar out of Canada. It was stated at the office of the board today that this action was taken in view of excessive and unfair prices charged for sugar and also because large quantities are being or are threatened to be exported from Canada, notwithstanding the urgent need for it in the Dominion.

Noted Priests Victims of Railway Tragedy

ST. PAUL, Sept. 1. — Father Conrad Glatzmayer, pastor of St. Mary's German Catholic church, and Father Jules Perigord, pastor of St. Joseph's Catholic church, both in Stillwater, Minn., were instantly killed today when the automobile in which they were riding was struck by the Soo Line Limited near Bald Eagle, Minn., near here. The train, which was more than two hours late, was going sixty miles an hour when it struck the auto carrying it for half a mile. Houses and trees obscured their view of the train. Practically every bone in their bodies was broken.

Father Perigord won fame in the world war through which he served as a chaplain with the French troops. During one charge, after all the officers had fallen, Father Perigord took command and led the troops to victory. For this he was decorated and made a captain. The authorities are conducting an investigation into the accident.

REAL END OF WAR

PARIS, Sept. 1. — A decree announcing the resumption of commercial relations with Germany will be published Tuesday, according to the newspapers of today.

INTER-ALLIED MISSION ORDERED TO SILESIA

PARIS, Aug. 30. — At a meeting of the inter-allied coal commission with German experts at Versailles it was decided to immediately send a four power coal mission to Silesia to investigate the situation there.

BERLIN, Germany. — The German-Polish situation took an unexpected aspect when it was announced that an inter-allied mission would leave this city for Upper Silesia immediately. It was announced at the same time that the Polish commission which has been conferring with German government officials will return to Warsaw and make a report.

This new development was the direct outcome of action by the Poles who on Wednesday interrupted negotiations with Germany, claiming the Upper Silesian situation was such that further deliberations were impossible. It was evident that this action came as a surprise to entente representatives here. General Dupont, commander of the inter-allied commission here, expressed the view that the German government has sole authority at present in Upper Silesia.

It is not expected that negotiations with the Poles will be resumed until after the inter-allied commission has made its report and its findings are accepted as final, and until questions involved in the occupation of Upper Silesia, as well as other disputes, are settled by a plebiscite. In the meantime, the German government has agreed to moderate military measures now being enforced in the region, and to discontinue executions.

TREATY IS CONCLUDED

PARIS, Aug. 26. — A Warsaw despatch announces the conclusion of a treaty between Poland and General Petlura, the leader of the Ukrainians. The terms of the treaty provide for the indemnification of Ukraine for Galicia and that Poland and Ukraine shall unite against the Russian Bolshevik.

Asserted French Caused Trouble in German City

MAYENCE, Sept. 1. — The French authorities of occupation announce that the German newspapers have published erroneous reports concerning the disorders of Friday at Ludwigshafen. They declare that there has been no revolt and that the disturbance which resulted in the death of the postmaster and another postal official was due to exaggerated nervousness on the part of the local police.

REFUSE TO TRADE WITH ANY ALIENS

NOTTINGHAM, Sept. 1. — The Nottingham Lace Employers' association has passed a resolution pledging themselves not to trade for ten years with any local lace firms employing or reinstating any enemy alien who has been interned or left the country or may begin business there. This step is stated to be due to the fact that the trade was boycotted by young Germans before the war who learned the manufacturing process, obtained the best positions and afterwards returned to Germany, where they traded or remained in Nottingham and became severe competitors.

OMSK BEING EVACUATED BY KOLCHAK TROOPS

LONDON, Sept. 1. — Omsk is being evacuated and Admiral Kolchak's headquarters are being transferred to Nikolayevsk, according to a Bolshevik wireless message received here. It is stated that in the direction of Tauritzin, the Bolshevik forces are advancing along the Volga and Ilavva rivers.

MANY GERMANS PLAN TO SETTLE IN SOUTH AMERICA

Appointment of German Officials

BERLIN, Aug. 27. — Dr. Daniel von Haimhausen, former counsel for the German embassy at Washington, has been selected for appointment as German ambassador to the United States, according to authoritative information today.

Dr. W. S. Solf, the secretary for the colonies, is the selection for ambassadorship to Great Britain, and Herr Radowitz, former under-secretary of state, for the ambassadorship to China.

Fritz August Thiel, former German consular representative in Japan, has been picked for the post of ambassador at Tokio. The appointments of the men selected for ambassadorships, it is stated, depend upon the attitude of the powers in question. If they send charge d'affaires to Berlin, Germany will take like action as to representation in the capitals of such powers.

There is no mention at present of the selection of a German ambassador to France.

Want Back Their Estate

BERLIN, Aug. 27. — Former Duke Charles Edward, of Coburg-Gotha, has filed a suit against the republic of Gotha and its commissioners to recover his estate, which was confiscated when he declined to accept a settlement of 15,000,000 marks.

The Prince of Waldeck-Pyrmont is also suing for the recovery of half his domain after the failure of negotiations with the new government.

Submarine Bremen Not Captured

LONDON, Aug. 27. — There is no truth in the report that the German submarine Bremen was captured during the war and returned recently to Germany, according to official information given out today. It was added that the British admiralty has no knowledge concerning the fate of the Bremen, but that it is assumed the submarine foundered while endeavoring to cross the Atlantic.

Bavarian Army Ceases to Exist

MUNICH, Aug. 28. — The Bavarian army officially ceased to exist today.

It becomes part of the imperial defence army. President Ebert and Minister of Defence Noske were present at the ceremony of incorporation.

The Bavarian troops were officially turned over to the government forces in the forenoon and held a review by President Ebert with the troops under the national regime. The Bavarian war minister, Schneppenhurst, leaves office, which henceforth will be non-existent.

Need Further Troops to Maintain Order

COPENHAGEN, Aug. 29. — A despatch from Berlin says Marshal Foch has notified the German armistice commission that the supreme council has consented to a provisional increase of the German gendarmerie troops in the neutral zone beyond the Rhine for three months after the peace treaty comes into effect, as the force provided for in the treaty is considered inadequate to maintain order.

May Tax Germans Who Did Not Fight

BERLIN, Aug. 28. — As a result of the government's search for new sources of revenue, the feasibility of assessing men who escaped active service during the war has been suggested.

It is estimated that six million men never wore uniforms, and that if an "exemption tax" averaging twenty marks per man were levied the yield would be 120,000,000 marks.

Von Buelow's View

BERLIN, Aug. 29. — Prince Bernhard von Buelow, former German chancellor, has in a rather belated manner entered the list of those making reservations concerning the outbreak of war by writing a letter to the Fremdenblatt, of Hamburg, regarding the statement made by Dr. Theobald von Bethmann-Hollweg, chancellor in 1914, that the declaration of war was inevitable.

Prince von Buelow sketches his long years as chancellor, tells how he was able to avoid war and admits that peace was desired by Dr. Bethmann-Hollweg, who, he says, however, "lacked political art."

"During the grave weeks before the war," writes Prince von Buelow, "serious diplomatic and political mistakes were made by Germany's political leaders which were unjustly ascribed to the people's responsibility."

New Express Rates

Increase On Shipments Over 100 Pounds—Some Reductions

MONTREAL, Que., Aug. 24. — In accordance with the judgment of the board of railway commissioners the tariffs of the express companies have been revised effective Sept. 1. While the new schedules provide for an increased rate on merchandise shipments weighing 100 pounds and over, the charges on the smaller parcels are in some instances reduced.

The special scale of rates on shipments over 500 pounds have been cancelled.

With the exception of carload fish rates from the Pacific coast no changes have been made in the commodity tariffs, though after Sept. 1. no cartage will be performed on commodities carried at special carload rates.

On less than carloads no collection service will be given but delivery will be made at destination where a cartage service is maintained.

LENINE INTERVIEWED GIVES BOLSHEVIK AIMS

PARIS. — Nikolai Lenine, prime minister of the Bolsheviki government in Moscow, in the first bona fide interview he has ever granted, asserts that: The first Bolsheviki political aim is to drive Americans and the Japanese from Siberia. Revolution, not reform, is the Bolsheviki programme. The Bolsheviki seeks to overthrow all land owners and capitalists. They propose to organize the workers of the world, Americans included, into a single fraternal union. The Bolsheviki will crush all resistance, using terror if necessary. The interview follows:

Lenine Gives Interview
BUDAPEST. — Premier Lenine, the master Bolsheviki, today gave his first bona fide interview. He replied by wireless to my questions wirelessly to Moscow from Budapest. Lenine prefaced his replies with the statement: "I answer the questions put to me under the conditions that the answers will be published without alteration or mutilation in the United States."

Following are the questions and answers as transmitted:
Question—"What is your political attitude toward the United States and Japan?"
Answer—"With reference to the United States and Japan, our first political aim is to repel their shameless, criminal, bandit-like invasion of Russia that serves only to enrich their capitalists. "Many times we have offered peace to these states but they have not even answered, and continue to war upon us, helping Denekin and Kolchak, plundering the Murman and Archangel regions and devastating especially in eastern Siberia, where, the Russian peasants offer the most heroic resistance to the brigands of capitalistic Japan and America.

One Union for All
"Our further economic aim is a single fraternal union of workers and toilers of all countries without exception, Japan and the United States included."
Question—"Under what conditions would you conclude peace with Kolchak and Mannerheim?"
Answer—"They have been exposed many times. For example, William Bullitt conducted negotiations with us and with me personally in Moscow in the name of the United States government, also in our letter to Nansen. It is not our fault if the United States and other governments fear to publish these documents, and conceal the truth from the people. "I will remind you of one of our fundamental conditions—we are ready to pay all debts to France and other states provided there will be real peace signed formally and confirmed by the governments of

England, France, the United States, Japan and Italy, since Denekin, Kolchak, Mannerheim and others are simply pawns in the hands of the Odessa government."

Question—"Has the soviet programme undergone reforms or changes since the establishment of your government?"
Answer—"The soviet government did not have a reformist programme but a revolutionary one. Reforms are secured from the dominating class while the latter's domination continues—consequently, a reformist programme consists generally of many points in detail. Our revolutionary programme consisted, generally speaking, of one point—overthrow of the land-owners and capitalists' yoke, wresting the powers from them and liberating the working masses from their exploiters. This programme we have never altered. Separately various measures aiming at the realization of our programme have often been subject to alterations, enumeration of which would occupy a volume. "I will point out only one point in our governmental programme regarding which there were probably the greatest number of alterations, namely: crushing the resistance of exploiters following the revolution of July 17, 1917. "We did not even close the capitalist papers and there was not even talk of terror. We not only freed many Kerinsky ministers but also released Krasschoff, who made war. It was only after the capitalist exploiters began developing their resistance that we began to crush their resistance, applying even terror. "It was the proletarians' answer toward such action from the bourgeoisie just as conjointly from the German, English, French, American and Japanese capitalistic efforts to restore exploiters to power in Russia. The Czech-Slovaks are supported by Anglo-French money while Mannerheim has German-French funds. "The unsuccessful conspiracy aimed at the surrender of Petrograd by officers was possible by the Swiss legation participating in the conspiracy, using English and French capital to employ many Russian employees."

Question—"What is the real character of the activities which the Russian Soviet government is carrying on in Afghanistan and India as well as other Mohammedan countries?"
Answer—"These activities are the same as ours among the non-Russian people within Russia. We made it possible for a lower people to create their autonomous republic within Russia. **Help Free Development.** "We help all independent free development of every nationality to increase and spread, for which we offer the most heroic resistance to ward off the brigands and capitalists of Japan and the United States. "Our further political aims are to promote knowledge regarding our own soviet constitution, which has the misfortune to please more than a billion inhabitants of the world belonging to the colonial, subjected and oppressed, rightless nationalities, more than do western European or American constitutions of the bourgeoisie, 'Democracy,' which try to strengthen the yoke of civilized capitalistic countries over the hundred millions of masses in Asiatic and Francian colonies.

WHY DO YOU SELL YOUR VICTORY BONDS AT A LOSS?

There is not a bank in the country, that will not take Victory Bonds as collateral. Why shouldn't they? If a Victory Bond is worthless, our money is worthless. They are both built on the same foundation — The resources of Canada. By selling Victory Bonds at a loss you are aiding the silk-hatted, oily-tongued fake stock promoter. When your funds leave you, this individual with a "Million-dollar smile" begins preying on you. By selling your government bonds "for a song" you have shown the weakness that puts your name on his sucker list. By holding your bonds, or borrowing money on them, you are showing a real financial trait. You are demonstrating that you know a good thing and you are not going to let it get away. Make your bonds a means of saving more money. War Savings Stamps are another class of gilt-edged government security.

WEST GAINS MANY NEW IMMIGRANTS

WINNIPEG. — Since the beginning of the year 15,434 settlers, bringing with them money and personal property valued at \$8,572,893, have entered western Canada. A large majority of the immigrants went to Saskatchewan and Alberta. Manitoba secured 2,061, western Ontario 429, Saskatchewan 5,026, Alberta 6,154, and British Columbia 592. Settlers almost all the immigrants are farmers with their families. Many of them are taking homesteads with some buying improved farms.

BIG BLAZE THREATENED SAFETY OF WHOLE TOWN

The town of Lang was awakened by fire early Thursday morning, when a big barn owned by J. Nolte, a farmer on the outskirts of the town, was struck by lightning and destroyed. But for the fact that a good downpour of rain was falling at the time, "the Manufacturers' lumber yards, a few feet away, and in fact the whole town, would have been seriously threatened. The loss was about \$2,000, partly covered by insurance. Geo. Geisch is working the place. Fortunately, too, the threshers who had been on the farm until Wednesday night, left that evening for other parts in the district, and consequently all the horses were either with the threshers or in the fields. Only a small amount of feed was in the barn at the time.

Are Here Told the Best Remedy for Their Troubles.

Freemont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incidental to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Gooden, 925 Napoleon St., Freemont, Ohio.

CANADA'S PROBLEM OF LIVING TOGETHER

One of the most serious problems Canada has to face at the present time, is the one of living together. The war has stirred up so many bitternesses that it will take a long time to destroy. One of its most serious ones is that referring to our foreign population. There are those amongst us who are of the opinion that, with right treatment it is a problem which will solve itself, if given rope enough.

Donklobour Wins Medal
Considerable pains have been taken to include amongst Canada's undesirable citizens, that peculiar sect, known as the Donkloours; which, however, the following announcement appearing in the daily papers a few days ago, should assist in allaying.

887366 Pte. Holoboff, J. J. 46th Canadian Battalion, Military Medal. During the night of August 23-24 he courageously led a bombing party through cellars and succeeded in capturing fourteen prisoners located in one cellar, which was connected by telephone and contained maps and a store of bombs and small arm ammunition.

No Color Line for Canadians
For the period of the war the color line in the United States was almost obliterated, because it was shown that the negroes were as brave and made as true soldiers as the whites. Surely, therefore, if during the times of severest pressure and danger the Negro has proved to be an equally good citizen, the inevitable enquiry is why cannot he prove to an equally good citizen, if given an equal chance, during times of peace.

Unfortunately, during the last few weeks, there have been serious riots in Chicago and other places, between the whites and the blacks and one is disposed to look beneath the surface, as to the real causes for this intensified opposition to a rapidly increasing section of the American population.

Before doing so, however, it might be interesting to quote from the Farmers' Sun, which is published in Toronto. In a recent editorial, The Sun says, in part: "In Toronto one can hear almost all the languages of Europe spoken in the course of a ten minutes' walk. These differing elements cannot, as President Halbert has well said, be united if one element is going to be continually throwing stones at another element."

In spite of this exhortation, it is lamentable to find that in the United States, according to a statement made at the tenth annual convention of the National Association for the Advancement of the Colored People, recently held at Cleveland, Ohio, "A negro might be as wise as Socrates, as rich as Croesus and as good as Jesus, and still have ten chances of being lynched every week."

Meat Packers Blamed For Riots
In view of the recent disturbances in the United States it is interesting to refer in passing to a report subsequently published by the officers of the Chicago Federation of Labor. In their proclamation the officers of the Federation of Labor says: "The profiteering meat-packers of Chicago are responsible for the race riots which have disgraced the city of Chicago. Ever since organized labor first started to unite the stockyard employees, the packers have fought these efforts of the workers with every weapon at their command."

Relieve Your Rheumatism For 25c.

NR does it by improving digestion, assimilation and elimination—the logical way.

NR Today—Relief or No Pay

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of the waste.

Let anything interfere with these processes—let them be interrupted or improperly carried on, and sickness and suffering are the inevitable result.

Poor digestion and assimilation means failure to derive full nourishment from food and, that in turn often means impoverished blood, weakness, neuritis, etc. For elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism, due to some interference with the process of elimination, fails to get rid of certain body poisons—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as rheumatic poison is allowed to remain in the body?

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain "cures"? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days—must help you, unless you give up prompt relief and satisfactory benefit of cost you nothing.

And Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the whole system. You'll feel like a new person when you've taken NR Tablets a week. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

Don't try to stop pain until you have found the cause. Get at the root of the trouble first, and remember pain is only nature's message that something has gone wrong. You merely drug the nerves so that they no longer give their warning. 90% of all headaches are from defective eyes, and it is our pleasure as well as our business to provide you with glasses that stop the suffering once and for all, by correcting the cause.

The Mill on the Floss

BY GEORGE ELIOT

(49. Instalment.)

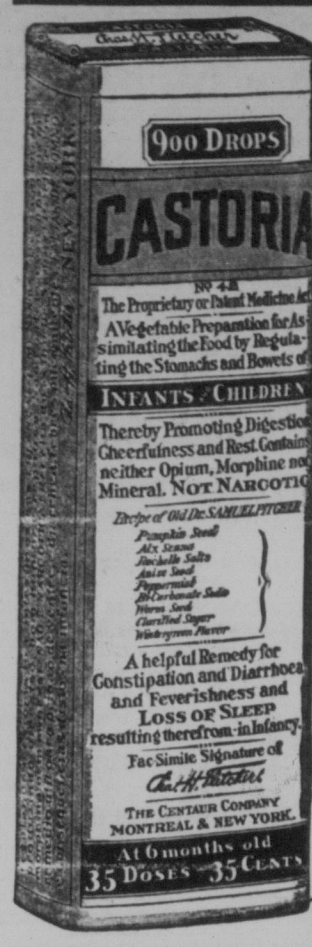

"Which day is it that Doreote Mill is to be sold? Where's the bill?" said Mr. Wakem to his clerk when they were alone.

"Next Friday" is the day: Friday at six o'clock."

"Oh, just run to Winship's the auctioneer, and see if he's at home. I have some business for him: ask him to come up."

Although, when Mr. Wakem entered his office that morning, he had no intention of purchasing Doreote Mill, his mind was already made up: Mrs. Tulliver had suggested to him several determining motives, and his mental glance was very rapid: he was one of those men who can be prompt without being rash, because their motives run in fixed tracks, and they have no need to reconcile conflicting aims.

To suppose that Wakem had the same sort of inveterate hatred towards Tulliver that Tulliver had towards him, would be like supposing that a pike and a roach can look at each other from a similar point of view. The roach necessarily abhors the mode in which the pike gets his living, and the pike is likely to think nothing further even of the most indignant roach than that he is excellent good eating; it could only be when the roach choked him that the pike could entertain a strong personal animosity. If Mr. Tulliver had ever seriously injured or thwarted the attorney, Wakem would not have refused him the distinction of being a special object of his vindictiveness. But when Mr. Tulliver called Wakem a rascal at the market dinner-table, the attorney's clients were not a whit inclined to withdraw their business from him; and if, when Wakem himself happened to be present, some jocular cattle-feeder, stimulated by opportunity and brandy, made a thrust at him by alluding to old ladies' wills, he maintained perfect sang froid, and knew quite well that the majority of substantial men then present were perfectly contented with the fact that "Wakem was Wakem;" that is to say, a man who always knew the stepping-stones that would carry him through very muddy bits of practice. A man who had made a large fortune, had a handsome house among the trees at Tofton, and decidedly the finest stock of port-wine in the neighbourhood of St. Ogg's, was likely to feel himself on a level with public opinion. And I am not sure that even honest Mr. Tulliver himself, with his general view of law as a cock-pit, might not, under opposite circumstances, have seen a fine appropriateness in the truth that "Wakem was Wakem;" since I have understood from persons versed in history, that mankind is

not disposed to look narrowly into the conduct of great victors when their victory is on the right side. Tulliver, then, could be no obstruction to Wakem; on the contrary, he was a poor devil whom the lawyer had defeated several times—a hot-tempered fellow, who would always give you a handle against him. Wakem's conscience was not uneasy because he had used a few tricks against the miller: why should he hate that unsuccessful plaintiff—that pitiable, furious bull entangled in the meshes of a net?

Still, among the various excesses to which human nature is subject, moralists have never numbered that of being too fond of the people who openly revile us. The successful Yellow candidate for the borough of old Topping, perhaps, feels no pursuivant meditative hatred toward the Blue editor who consoles his subscribers with vituperative rhetoric against Yellow men who sell their country, and are the demons of private life; but he might not be sorry, if law and opportunity favoured, to kick that Blue editor to

a deeper shade of his favourite colour. Prosperous men take a little vengeance now and then, as they take a diversion, when it comes easily in their way, and is no hindrance to business; and such small unimpassioned revenges have an enormous effect in life, running through all degrees of pleasant infliction, blocking the fit men out of places, and blackening characters in unmediated talk. Still more, to see people who have been only insignificantly offensive to us, reduced in life and humiliated without any special efforts of ours, is apt to have a soothing, flattering influence: Providence, or some other prince of this world, it appears, has undertaken the task of retribution for us; and really, by an agreeable constitution of things, our enemies somehow don't prosper.

THE COMMITTEE

THRESHING TO SOUTHEAST OF REGINA ZONE

Harvesting is pretty well completed and the farmers are right in the middle of threshing in the district southeast of Regina, according to travellers returning to the city for the week end. The crops are turning out as well as was expected now that the farmers are threshing.

In the Forget district, the wheat

is yielding from 3 to 9 bushels per acre. The Stoughton district is showing a yield of from 3 to 15 bushels for wheat. McTaggart shows from 10 to 20 bushels. Lang district is still higher and shows the yield to be from 15 to 25 bushels per acre. The Rice-ton district will yield about the same as Lang. Most of the heavier yields are a very good sample. Throughout this district practically all the threshing will be completed by Saturday next.

Cut Flax This Week

Most of the flax will be cut during the coming week, and while there is not nearly as large an acreage in this district this year, the yield will be very fair. The flax seed, it is stated, in some cases is quite small this year. Even at 10 bushels to the acre the price of \$4.95 per bushel will make a good return possible.

The district from Lang to Rice-ton, and through to Regina had a good heavy rain on Thursday morning, which stopped threshing until Friday morning. Farmers claimed, however, that the straw would be in better shape to thresh after the rain than before as the straw would not be so brittle and there would not be so much dust.

LABOR DAY SPORTS PROVE SUCCESS

The Trades and Labor sports held at the exhibition grounds Monday afternoon proved to be a great success and for the first time since the inception of Labor Day sports in Regina, a matinee driving meet was added and this proved to be one of the big features of the afternoon.

A cold, raw wind which blew from the northwest kept the crowd down, but those who had the temerity to brave the weather were well repaid for their pains.

Canadian Provinces

Saskatchewan

CHARGED WITH ASSAULT.

SWIFT CURRENT. — J. Fletcher, a well-known resident of Morse district, lies in general hospital here in a serious condition as the result of injuries sustained during a fight at Morse last Friday. It appears that Fletcher and a man named George Herr got into an altercation at the Princess restaurant at Morse, and rather than create a row on the premises, Fletcher left the place. He was later followed by Herr and assaulted, having his jaw bone broken in two places and other injuries. Fletcher was picked up unconscious, and sent to the hospital here. The provincial police were at once notified, but it was found that Herr had departed for the east immediately after the assault. The local detachment was advised that Herr had been picked up at Virden, Man., and was being brought back to Morse, where he will be given preliminary hearing. It is likely that Herr will be remanded until the outcome of Fletcher's condition is known. He has had lapses into unconsciousness since being brought here and his condition is considered critical.

HOLLICK HELD FOR DEATH OF KOCHAREK

Karl Hollick, of Blaine Lake, has been committed to stand trial on the charge of murder, at the next sittings of the court of King's Bench at North Battleford. The preliminary hearing was held last week at Blaine Lake, when about 20 witnesses were examined by Magistrate McEhen.

Hollick is charged with the murder of Paul Kocharek, about 15 miles southwest of Blaine Lake, last November. Kocharek was found dead by the roadside with an auto on top of him early last November. After an inquest, the coroner investigating gave the cause of death as accidental, and gave orders for the interment of the body.

Later, Detective Sergeant Harrek, of the provincial police, who was investigating another matter in the district, reported to headquarters that the people of Blaine Lake suspected murder in connection with the death of Kocharek, for he had heard statements to that effect from reliable farmers.

Detective Sergeant Harrek was ordered to make further investigations with the result that this spring the body was exhumed and Dr. Charlton, provincial analyst, ordered to make an autopsy. The result was that he believed Kocharek had been murdered or there was evidence to this effect in the fractured skull, broken neck, wounds on the body and legs, knife wounds and fractured ribs.

Suspicion attached to Hollick, and after the inquest he was arrested and charged with the murder.

DOUKHOBOR TRIES TO KILL WIFE AND THEN SUICIDES

KAMSACK. — Simeon Kabatoff, a well-to-do Doukhobor farmer living about four miles west of here, fired at his wife with a shotgun and then turned the weapon on himself, shooting himself behind the left ear, dying instantly. His wife has a possible chance of recovering, although she was shot through the abdomen.

The trouble it attributed to the fact that Simeon had sold his farm on Friday to a neighbor by the name of Alex. Belyanoff for \$9,459 and had words with his wife about the sale, she evidently being opposed to the transaction. This, apparently, was not the only cause of the tragedy, however, for on Friday while in town, he called at the bank and spoke about getting his papers all fixed up and making his will etc., saying that he wanted his three boys to each get a third of his estate. When asked what he would leave to his wife, he replied that she would not count in the deal at all.

SEVEN WHISKEY STILLERS RAIDED

SASKATOON. — Seven illicit whiskey stills working overtime in the Canora, Sask., district east of here, were raided by Inspector J. M. CHARGED WITH BEING BIGAMIST

Alice Maude Beatrice Morton, has been committed to stand trial at the next sessions of the court of King's Bench at Weyburn on the charge of bigamy. The information against her was laid by James Smailes, her second husband, who alleges that the accused was married, and that her husband, David Morton, was living at Manitou, Manitoba, when she married him at Ogema.

According to the statements made at the preliminary hearing, conducted by the provincial police before a justice of the peace at Ogema last week, Mrs. Morton was married in 1909 to David John Morton at Manitou. Six and a half years later she left him and went to work near Ogema for a farmer. Shortly after she met James Smailes, a farmer of the district, and went to work for him, marrying him two weeks later.

THOUGHT IT ALRIGHT TO STEAL FROM A GERMAN

"We didn't think it was any harm stealing from a German, and when we took the horses, we were under the influence of liquor," was the answer given by James Bremner of the Wakaw district, when brought before a justice of the peace at Prince Albert last week on the charge of stealing two horses in 1916 from a farmer of German origin. Bremner will stand his trial at the next sittings of the court of King's Bench, Prince Albert.

yet but they look good for a yield of between 60 and 65 bushels per acre. The wheat thus far threshed has graded No. 1 Northern.

YIELD OF CROP NEAR SEDLEY SURPRISING

SEDLEY. — Grain cutting is almost completed in this district, and threshing is in full swing. The weather is very suitable for the work the heat of last week having given way to a cooler atmosphere, and the absence of wind makes threshing ideal. Threshing generally is being done by the hour. The yield is somewhat surprising in places. Some parts to the north yield from 10 to 20 bushels; south, from 20 to 35 is reported; while east and west as high as 40 bushels is the figure. The grain is grading high; in some places, on account of excessive heat and lack of moisture, the grain is small but mostly grades No. 1 Northern. On the whole, the district will give a satisfactory crop, and all are preparing for next season.

CROP IN RUSH LAKE DIST. VERY LIGHT

RUSH LAKE. — Several farmers south of town and also on the hills northwest of town started to cut wheat last week. The crops are very light. Some people will cut most of their grain by using the binder without canvas. In that case, a man will walk behind and rake off the grain in bunches as it gathers on the table. Those who have flax reapers will use them to advantage. Only a little wheat can be bound this year; but the heads are well filled with plump berries.

This had been repaired at a cost of about \$1,500. The origin of the fire is a mystery. There was an insurance of \$1,500 on the barn and \$1,800 on the contents.

Gold samples have arrived here containing wire, leaf and nugget gold. In one sample the wire gold was holding the quartz together. Commissioner Wallace has issued a statement saying that no similar rich discovery has ever come under his notice. Gordon says that he sunk a test pit three feet down and the yellow metal was seen down the side of one wall and freely upon the bottom. terminal injuries. He died without regaining consciousness.

Ormsby, with a Captain Cook left Mount Clemens Friday morning for the purpose of flying to Toronto to take part in the flights at the exhibition there. Cook reached Toronto safely, and when his partner failed to make his appearance he commenced to make enquiries, and learned of the accident here, just in time to be notified of Ormsby's death.

Apparently Ormsby developed engine trouble when over this city. The aviator flying an American plane, was seen flying a mile north of the city. He circled around at a fast clip and finally attempted a landing in a stubble field. He glided down very fast. The machine hit the ground nose-on, and in rebounding turned a complete somersault. Men working in the field rushed to his assistance. Before he could be released, it was found necessary to chop the unconscious aviator from the wreck.

His gold watch and \$18 which he had in a purse in his pocket, were not touched, indicating the murderer was in a hurry. The body was found by a C.P.R. trackman about 9 o'clock, and was quite warm, showing the murder had taken place only a few minutes before. The police are working on the case, but have clues to go on. Podolisky had a Bible with him, and according to his friends, was coming to Kenora to attend the Ruthenian church.
