THE GENUINE SINGER SEWING MACHINE OF NEW YORK.

Over Four Millions in Use!

The GENUINE SINGER SEWING MACHINE has been awarded the first premium over all others more than two hundred times at Great Word's Fairs, at State Fairs and at County Fairs, in every part of the United States.

Three quarters of all the Sewing Machines sold throughout the world in 1890 were "Singers," and three must be a reason for that. When any of our style of machine used in millions of homes, leads all the other kinds to such an extent as that there must be some way of accounting for it all. Other Sewing Machine Manufacturers refuse to state their sales! Why? Companies have sprung up in every part of the Union and Dominion of Canada for making an initiation "Singer Machine." What are not similar companies former for making initiation of other Sewing Machines? The public will draw its own inference. Gold is continually counterfeited; brass and tin rever! Beware of supericially ornamented machines with an infinite number of worthless nickel plated attachments, but but the Genoine N. Y. SINGER SEWING MACHINE, the best that ever was made.
