LOGH LOMOND WATER NOT FOR WHOLE CITY Pipes on Low Level, Won't Stand Pressure.

Murdoch Recommends High and Low Pressure Service as at Present—Contractors Polling City Residents.

The mayor called the meeting of the water and sewerage board together about 8 o'clock yesterday. Tenders for coal were awarded as follows: R. P. & W. F. Starr, \$9 tons Reserve, run of mine, \$1.60; \$5 tons anthracite, \$5. J. S. Gibbon & Co., 8 tons Lehigh nut (Silver Falls), \$3.10; 10 tons Lehigh nut (west side), \$2.75; 10 tons Grand Lake blacksmith, \$4.

The mayor advocated digging the trench and having it ready to receive the pipe when it arrives. The superintendent said there was other work just as important in the city proper. All the weak pipes would have to be renewed if the pressure is to be let on all over the city. He thought the services should be kept separate. Where there but one pressure all over, the lower levels would have altogether too much pressure; pipes would burst and house fixtures be destroyed.

Ald. Christie said it was astonishing at this late date to find we must have two systems, one from Loch Lomond and the other from Little River. The superintendent said a pressure valve might be used to regulate the pressure. There must be a cordon of stop cocks around the low level district. The north end could be put on the high level and given a good service, using the best pipe through the city road.

Gooks and Bakes perfectly at the same time There is not another range built in which the heat may be regulated so that you can bake in the oven and cook on the top at the same time without spoiling one or the other.

But you can do both equally well at the same time on the Pandora, because its heat is not wasted and is at all times under the simplest, most positive control. If you do the cooking of your household you can appreciate exactly what this means.

McClary's Pandora Range Warehouses and Factories: London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton

down at present two 24 inch pipes. One of the present pipes was in fairly good condition and could last some years. The question was with what size would they replace the worn out pipe. He favored the 36 inch main.

Ald. McGoldrick said \$12,000 was spent last year in improving the Marsh road, and now the city proposes to test it all up. "It is the biggest outrage ever perpetrated on a community. No wonder the tax payers are kicking; every time we do a piece of road making in St. John we get next year and tear it all up."

Ald. Baxter moved an amendment in favor of two 24 inch pipes but this was lost and the motion in favor of one 36 carried.

The mayor said the board instructed Mr. Murdoch to make a suitable sluice across the dry lake. Mr. McVay complained because the trenches were filled. The water must be taken care of, he said.

Ald. Christie stated that nothing was said about sluices when the motion was brought up. He understood no water was going into the trenches from the lake; it was only soakage in the trenches. It was only a plea to get the city to spend hundreds of dollars, perhaps a thousand dollars, to built a sluice, he declared.

The superintendent said there was no need of any sluiceway. Ald. Frink said that the superintendent had formerly stated the turning on of the water would interfere with Mr. McVay's operations for at least three or four days. He (Ald. Frink) asked him then if a trench could be constructed across the lake. The superintendent said the cost would be over \$1,000. Then the committee was appointed.

Engineer Hunter favored a sort of trench, but the sluiceway was the most suitable. Mr. Murdoch looked at the place and said the water did not interfere with Mr. McVay's work; in fact, Mr. McVay's pumps were pumping water into the trench. The committee's report of the resolution business was then read.

Ald. Baxter expected a complete draft of the agreement with the contractors, McArthur & McVay. Ald. Frink said that when the committee met for this purpose Mr. McArthur wanted to take the resolution out of the room. This was refused. His solicitor was allowed to come into the room and look at the resolution. This resolution the contractors would not agree to; they agreed to carry out their contract, so no draft was made up.

Ald. Baxter felt the committee should not have consulted the contractors at this time. The mayor said that their solicitor was anxious to have the resolution put at the end, but the committee refused to entertain any such proposition.

Ald. Frink said the contractors accepted the proposition one day and refused it the next. The aldermen also quoted Eng. Hunter as stating that the end it might be well to let him make an estimate of the cost and had a path of 200 feet. Its centre had the appearance of a funnel-shaped cloud, not black, but being carried by no accompaniment of lightning, thunder or rain, and the stars were shining immediately before and after it passed. A peculiarity of its effect was that adjoining buildings were blown in diametrically opposite directions. William Pope, his wife and two children, of Green street, had the most thrilling experience thus far related. Their home was picked up by the wind, and being carried a few feet, was hurled against the residence of Mrs. William Clune. The Pope house was completely destroyed, yet no one was severely injured.

Three dwellings were totally destroyed, ten were overturned or carried partly or wholly off their foundations. Fifty were more or less damaged.

A BAD SMASHUP ON THE I. C. R. HALIFAX, Aug. 30.—The regular freight train from Halifax and points west for Cape Breton was derailed this afternoon in Antigonish and fifteen cars were badly wrecked. The engine, Mr. McNicoll said, was derailed across the track. The accident is one of the worst that has occurred on this division for some time. The track was badly washed out by the rain and is already being cleared until some time tomorrow. Fortunately none of the train hands sustained any injury, though they had a very narrow escape. The accident is believed to be due to the spreading of rails.

The interlocking train from Boston and Montreal, due this evening, is four hours late owing to a derailment which caused slight damage.

HALIFAX BOARD OF TRADE OBJECTS HALIFAX, Aug. 30.—At a meeting of the council of the Halifax board of trade the report that the dominion government is making a contract with the Allans for a five year mail service was protested against, the board holding that no agreement should be come to which would prevent using the fastest boats, as it is the intention to divert the large Canadian mail and passenger service via Canadian ports instead of through the United States. A telegram was sent to the government embodying the board's views.

A SEND-OFF FOR JAMES DALEY. James Daley, who for some time has been employed in McCarthy's barber shop, Union street, will leave shortly for Berlin Falls, New Hampshire. Mr. Daley's popularity and the esteem in which he is held by a large circle of friends was shown last night, when after an impromptu supper at the Boston restaurant, Walter Harris, out-felder on the St. John baseball nine, on behalf of the country, proposed to honor Mr. Daley, presented the latter with a handsome dress suit case, and expressed the regret felt by all present at Mr. Daley's departure from the city. They wished him success in his new field. Mr. Daley, though taken by surprise at the presentation, responded, and heartily thanked his friends for their good wishes and their generosity.

PECULIAR P. E. I. CASE.

Children Arrested for Assaulting Mother—Horse Ran Away in Answer to Prayer—Insanity Alleged.

CHARLOTTETOWN, Aug. 28.—Shall Samuel McArthur, aged 21, and Catherine McArthur, aged 18, be sent up to the supreme court to stand their trial for an aggravated assault on their mother? Such is the extraordinary question that is engaging the attention of Stipendiary Magistrate. The parties live at Bonell, Lot 39, and yesterday the preliminary hearing commenced at Darlington.

The evidence of Mrs. McArthur was to the effect that on the morning of July 8th, just after breakfast, her son and daughter suddenly seized her and notwithstanding her struggles bound her ankles and wrists with a muffer and rope. They then dragged her to the back door, where she saw the horse and buggy standing. Seeing these and realizing that they were about to take her away she said: "Lord have mercy on me," whereupon the horse ran away. Her children started after it, and she having free one of her hands hopped to a dresser and got a knife and cut the cords around her legs. She then own footed to a neighbor named McQuaid.

As a result of this treatment she was bruised from the top of her head to the soles of her feet and besides had a number of lumps on her head. Her evidence respecting bruises, etc., was more or less corroborated by witnesses who stated that they had seen the assault. Mrs. McArthur was subsequently sent to the asylum, but was released by the authorities. A. J. McNeill, counsel for the prisoners, brought out in cross-examination Dr. Murchison and other witnesses who stated that they had seen the assault. Mrs. McNeill also intimated that the defense in this case was to the effect that the child believed that their lives were in danger and that they were trying to get her back to the asylum, both for her own and their own safety, and that any marks on her body were caused by struggling.

FIERCE TORNADO IN PENNSYLVANIA.

SCRANTON, Pa., Aug. 30.—A tornado at 8:50 tonight demolished a score of houses, barns and railway tracks in the vicinity of Scranton. The storm came from the west and had a path of 200 feet. Its centre had the appearance of a funnel-shaped cloud, not black, but being carried by no accompaniment of lightning, thunder or rain, and the stars were shining immediately before and after it passed. A peculiarity of its effect was that adjoining buildings were blown in diametrically opposite directions. William Pope, his wife and two children, of Green street, had the most thrilling experience thus far related. Their home was picked up by the wind, and being carried a few feet, was hurled against the residence of Mrs. William Clune. The Pope house was completely destroyed, yet no one was severely injured.

OLD MAN SUICIDES.

Almsouse Inmate Choked Himself to Death Last Night by Tying a Rope Around His Neck. A peculiar case of suicide took place yesterday afternoon at the Almsouse. An aged inmate, Joseph Aisley, was found sitting on the ground under some trees, with a rope tied tightly round his neck, quite dead, but in such a natural position that though he had been observed sitting there some time previous to the discovery, no one suspected any tragedy. It was only by the accidental passing of Superintendent Aisley was a man of 75 years of age, of German descent, who had entered the Almsouse in February last. He was quiet and harmless, but it is thought he gave way to a melancholy which in time developed into suicidal mania.

JAPAN AND RUSSIA ARE BOTH DISSATISFIED.

(Continued from Page One.) The actual work of drafting the "treaty of Portsmouth" began today. It is being done by Mr. De Martens and Mr. Denison, acting as legal advisers for the respective sides. While the "basse" of peace have been accepted by the plenipotentiaries, considerable details remain to be worked out in the elaboration of the articles of the treaty. This is especially true in regard to the articles dealing with the Chinese Eastern railway and the surrender of the leases of the Liao Tung peninsula and Port Arthur and Talien. Mr. De Martens, who was formerly manager of the Russo-Chinese Bank at Peking, and who has an intimate knowledge of the details relating to those matters, is assisting Mr. De Martens. A very anomalous situation exists as to the impression created by the conclusion of peace. While there is evidently great disappointment in the terms, and in Russia, where it would seem that there should be universal rejoicing over the great diplomatic victory Mr. Witte has won the government, seems to have received it coldly. With the people it will make M. Witte a great and popular figure and add to his laurels, but at court circles the news is not so warmly received. It is an open secret that the "military party" hates and fears Witte, and that when the emperor appointed him chief plenipotentiary they expected him to fail. They did not want peace, and it was freshly predicted in St. Petersburg when M. Witte left that he had been given an impossible mission and sent to America to "save the neck." They expected him to fall in the negotiation or to make a "bad peace," and either would have spelled political ruin. Instead, the very terms upon which the emperor told Mr. Meyer he would make peace and upon which the military party did not believe it possible for peace to be negotiated, M. Witte succeeded in securing a treaty honorable and under the circumstances favorable to Russia. This has evidently only operated to increase the mores, and intrigue is again at work to discredit him.

THOMAS M. BURNS DIED LAST EVENING.

Thomas M. Burns, for years one of the most popular baseball players in St. John, passed away last evening at his home, 112 Britain street. Mr. Burns had during the past two or three years been in poor health, though for much of the time he was able to be at work. However, some two months ago he had to give up, but until the last week was well enough to be out. Mr. Burns was twenty-six years of age. He married Miss Rogan of the north end, who, with a little laughter, survives him. His father, Thomas Burns, died some years ago, but his mother makes her home at 112 Britain street. As a ball player, in which capacity he was best known, Mr. Burns was deservedly popular. A quiet and retiring disposition, and this on the diamond earned for him the name of "Silent." He was reliable, and could always be depended on if his team got in a tight corner. He made brilliant plays, and was regarded as a good all-round man as well as a fine comrade. He has played with most of the teams in St. John in the last ten years, and only a few years ago no lineup would have seemed complete without him. Mr. Burns' funeral will be held at 2:30 p. m. on Sunday from his late home on Britain street.

YELLOW FEVER.

NEW ORLEANS, Aug. 30.—Following is the report to 6 p. m. on the yellow fever situation: New cases 44; total cases, 1,878. Deaths today, 4; total deaths to date, 271. New disease centres, 12. The new feature of the situation outside of the city was the development of two cases in Vicksburg, which were pronounced yellow fever by Surgeon Guiteras. Reports from Patterson indicate an improvement in the situation. Nothing has been heard from Leeville for two days, but it is believed the situation has been relieved.

ARE YOU TIRED OF PAYING BLUNDER TAXES?

Many a business man pays as much money for the luxury of blundering as a steam yacht or private touring car would cost. "Blunder Taxes" cannot be evaded—whatever else waits, these must be paid! If a business man gets into the habit of making the same blunders more than once, the taxes will soon amount to confiscation. "Blunder Taxes" are levied with amazing frequency upon store advertisers. Among the blunders which are assessed at "full value" in advertising are these: Selection of poor mediums; Using too little space in good mediums; Devoting less attention to preparing the daily store-advertisement than to the string of empty boxes in the basement; Stopping the ad. altogether for one or more days now and then; Figuring the advertising appropriation on the basis of what you can "afford" after all other expenses are provided for; Use of "programmes," schemes, circulars, posters, fence-signs, placards and jimmies; under the impression that you are securing real publicity, and that somehow, somewhere, sometime you will be influenced by some of these things to come to your store and something.

YOUR "BLUNDER-TAX" BILL GROWS SMALLER AND SMALLER AS YOUR USE OF "ST. JOHN STAR" PUBLICITY GROWS BIGGER AND BIGGER.

L. C. R. CONTRACTOR SHOT IN THE MOUTH.

HALIFAX, Aug. 30.—John McManus, brother of Reid McManus, who has the contract for double tracking the Intercolonial from Windsor Junction, was shot this morning as he was passing Princes Lodge. The work of double tracking is kept up day and night, and a large number of men are employed at the work. Each morning Mr. McManus goes over the road with the work train and inspects the work performed the night previous. He was standing on the rear car, as the train was passing slowly along near Princes Lodge saw a number of men sitting and standing on an embankment near the railway track. He heard the report of a pistol and immediately felt a stinging sensation in his lip. The bullet struck the rim of his hat and then penetrated his upper lip, knocking out three teeth. An effort is being made to ascertain the name of the man who discharged the pistol.

GOV UNDER ARREST FOR SHOOTING.

PETERBORO, Ont., Aug. 30.—On orders by Crown Attorney Wood of instructions to prosecute Charles Gow in connection with the Dumer tragedy, a warrant was issued, and this morning Gow, who had been at the Dominion Five matches at Ottawa, on hearing of steps being taken to prosecute returned to Peterboro with the object of surrendering himself. He was arrested on the arrival of the C. P. R. express by Constable Archie Moore and lodged in jail. He was brought before Judge P. J. Magistrate Edmundson and remanded till September 6, when the preliminary hearing will take place at Norwood. Gow has retained G. M. Rogers of Peterboro as his counsel.

**BRITT-NELSON GO WILL BREAK RECORD.**  
SAN FRANCISCO, Aug. 31.—There are indications that the attendance at the Britt-Nelson fight at Colma, September 9, will be the greatest in the history of pugilists in this city. Most of the seats held by the club have been taken up, and it would not excite surprise if the gate receipts exceed \$70,000. The fact that the day is a legal holiday in this state in a measure explains the unprecedented advance sale.

Both Britt and Nelson are practically at weight and are merely keeping on edge for their meeting.

ST. JOHN, N. B., AUGUST 31, 1905.

**A DANGER AVERTED.**  
To one section of Canada the peace terms, especially those referring to Korea and Manchuria, will bring relief and satisfaction.

The yellow peril, in the shape of Japanese coolie immigrants, has been a very real thing in British Columbia during the past few years, and labor unions and newspapers have united in vigorous and repeated demands for some restriction of this flood of cheap labor which has threatened to swamp the market on the Pacific coast and, in time, through the whole western country. Had conditions in Japan continued as they were two years ago the Canadian government would before long have been placed in a difficult position between these demands and the fear of offending so powerful an ally of the empire.

But the war has probably averted this danger. Japan is overcrowded and every year more are being forced to leave the homeland and seek subsistence, if not fortune, abroad. Before the war Western Canada and the United States, by reason of accessibility and opportunities, were the most attractive fields to these. But now the tide of emigration will undoubtedly be turned toward the new territory in Asia, which Japan will hereafter control if not actually own. Even in Korea there is more room than in Japan, while Manchuria offers unrivalled attractions. A rich pastoral country, it is thinly settled compared with Japan, having about one-tenth the population per square mile. Besides its agricultural possibilities it has great undeveloped mineral wealth, including extensive deposits of iron and coal in convenient junction. Taking also into consideration its nearness, its climatic similarity and the fact that a son of Japan dwells there will still be under the shelter of his nation's flag and that it will be obviously in the interest of the government to encourage emigration in this direction rather than abroad, it is clear that, for a time at least, Canadian laborers are in little danger from competition from this direction.

**THE WEST ASTOUNDED.**  
The report that the Grand Trunk Pacific line through Manitoba is to be allowed to run parallel and in close proximity to existing lines, instead of opening up new territory, which was to be its chief mission, is received by the west with astounded incredulity. Even the Winnipeg Telegram, generally not difficult to convince concerning the unreliability and foolishness of the government, is unable to credit that the government will consent to such a betrayal of parliamentary pledges. "Were the enormous public assistance, the \$20,000,000 of watered stock, and all the rest of the 'good things,'" it asks, "voted by Parliament for the sake of getting the C. P. R. double-tracked in patches through old-settled districts in Manitoba and the C. N. R. parallel for the rest of the way to Edmonton?"

"And what about all those solemn declarations in Parliament and the promises made by Liberal agents through the West that the G. T. P. was to open up new country?" it enquires. "Think," it concludes, "of asking the people to give a guarantee of \$18,000,000 per mile, and to undertake to pay interest on about \$60,000,000 of capital for a road within a mile or less of the C. P. R. main line from Portage la Prairie to Austin, and the same for a section within sight of the Wellwood branch, and for another section still closer to the Lenore branch, and for still another section within the width of a street from the Minlots branch."

And yet, apparently reliable information indicates that the G. T. P. intends to make that use of the enormous amount of public assistance given it and the government intends to allow it. And, in view of the conduct of the government with reference to this scheme since it was first mooted we fail to see why this latest indication of Liberal subservience to the capitalists should prove astounding.

Today's despatches from Portsmouth indicate that Russia will probably have contributed to Japan's coffers another large sum of money in addition to board and lodging for her prisoners. The cession of the Chinese Eastern Railway to Japan involves the payment to China of that country's investment in the road, \$75,000,000. Japan, it is intimated, will probably hand over the road to China in return for this \$75,000,000 and all money spent by Japan recently in repair of the road. Something of this nature was foreshadowed in the Saturday cables to the Star three weeks ago.

Former cabinet ministers of the Dominion who are now drawing a retiring allowance need not be lonesome. Canada is enjoying a visit from Sir Michael Hicks-Beach, who is drawing a pension of \$6,000 a year on account of his services as cabinet minister. Lord George Hamilton, who is also touring Canada, is still better off, as he has a pension of \$10,000. So says London Truth, which has access to the

With so many street railway officials here it behooves the civic authorities to keep a sharp eye on anything valuable that is still in their possession. The visitors may intend nothing out of the way, but the force of habit so long fixed is very strong.

Undoubtedly the city has reason for regret that Prince Louis of Battenburg will be unable to visit here. But, after all, the loss to him is greater than to us. He will miss seeing St. John.

**A CORN SONG.**  
(Chicago Chronicle.)  
Sing ho! for the corn that gleams with dew,  
When the meadowlarks are winging,  
That sings a song the whole night through  
A drowsy, tumbling singing,  
And when the shadows start to run  
Lifts up its swords to salute the sun.  
Sing ho! for the corn with its hoarded gold  
That it is swiftly minting,  
As the gentle summer time grows old  
We can see but bright gleaming  
And the harvest days are drawing near  
The golden end of the golden year.

Sing ho! for the corn, the bannered corn,  
With its pennants long and slender,  
That stand in serried ranks at morn  
Beneath the bright sun's splendor,  
With its nodding plumes and swords of gold  
It marches down through the tangled world.

**PALACE IN CHINA FOR MISS ROOSEVELT.**  
MANILA, Aug. 31.—U. S. Secretary of War Taft and his party sailed on the transport Logan at noon today for Japan.

There was a notable demonstration to the bay just before the Logan sailed. Many valuable presents were presented to Miss Alice Roosevelt by the natives after she had gone aboard the Logan.

The party will arrive at Peikin on September 12, bringing a new legation guard. Officialdom is greatly interested in Miss Roosevelt's visit. The Dowager Empress is preparing a palace for Miss Roosevelt's reception and will invite her to stop there as her guest.

**BOYS USED DYNAMITE BOX AS TARGET—FRIENDS IN MOURNING.**  
SANTA FE, N. M., Aug. 31.—Two youths named Joe Martinez and Hudson Romero have been killed by the explosion of a box of dynamite they used for a target. The boys were rabbit hunting near the town of Santa Fe, when they reached the powder house of the Denver and Rio Grande Railway Co. near Chama, they set up a box of dynamite as a target. The box contained 40 pounds of the explosive and its explosion set off four tons of powder. In Chama many window panes were broken.

**PRIME CAUSE OF SUICIDE.**  
Avoidance of Physical Labor is a Large Factor in Shaping Conduct.

Throughout the literature of suicide one will find that the attitude toward wage-earning and work is a large factor in shaping motives. The dread of being forced to work after a period of leisure, the mad desire to get money by tricky and gambling devices, the scorn with which manual labor is regarded by the "successful," is emphasized by the stories of the newly rich become suddenly poor, and who then defy escape into the unknown and live on pensions and polite beggary.

But nothing is surer than that work is the primal condition of health and the love of it is the dearest wish of the fashionable, the "retired," the woman freed from necessities and duties, that are the disease-breeds and the miserable. The attitude of the fashionable doctors who minister to the ungrateful class is not infrequently blameworthy. They are often encouraged by our rest cures, our fatteries and attentions.

The effort to escape from the drudgery is as old as civilization, and as ancient as savagery. The investigator sent to study the problem of putting native African negroes to work finds that they simply will not work. Those among the Canadian Doukhobors who would work found that the milliners and laundresses were about half, and they preferred to live out of the common treasury supplied by the workers—until the latter determined to abolish the common treasury and to receive and spend their own wages as other individuals do.

Our civilization, commercially, is largely a device of the cunning and the lazy to establish a common treasury. The "failure of the democracy" is largely the failure to outwit the tricksters—American Medicine.

THE IRON HORSE IN THE EAST.  
Japan, which fifty years ago did not have a single mile of railroad, now has 4,287 miles of well managed railroad, while India is gridironed by 25,773 miles of steel rails, which carry 155,000,000 passengers annually, writes Arthur Judson Brown in the American Monthly Review of Reviews. Railroads are paralleling the Siamese Menam as well as the Nile and the Congo, and one can ride on them from Bangkok northward to Korat and westward to Petchaburi.

In Korea, the line from Chemulpo to Seoul is connected with the lines under construction both southward and northward, so that within a few weeks the Japanese can transport men and munitions of war by rail from Fusan all the way to Wiju. As the former is but ten hours by sea from Japan, and as the latter is to be a junction with the Siberian railway, a land journey in a sleeping car will soon be practicable from London and Paris to the capitals of China and Korea, and save for the ferry across the Korean Strait, any part of the Mikado's empire.

We can already ride on a train along the banks of the Buriganga from Rangoon to Mandalay. The locomotive runs noisily from Jaffa to Jerusalem, and from Beirut to Damascus, the oldest city in the world. A projected line will run from there to the Mahomedan Mecca.

Unique is the Anatolian railway, which is to run through the heart of Asia Minor, traversing the Karamanian plateau, the Taurus Mountains, and the Cilician valleys to Haran, where Abraham tarried, and Nineveh, where Jonah preached, and Babylon, where Nebuchadnezzar made an image of gold, and Bagdad, where Harun-al-Raschid ruled to Koweit, on

Ozone is ozone, and in buying it, the purchaser is to get the purest form, "Solution of Ozone (the coupon kind)" is the purest form in which Ozone is put up. **BOYS USED DYNAMITE BOX AS TARGET—FRIENDS IN MOURNING.**  
SANTA FE, N. M., Aug. 31.—Two youths named Joe Martinez and Hudson Romero have been killed by the explosion of a box of dynamite they used for a target. The boys were rabbit hunting near the town of Santa Fe, when they reached the powder house of the Denver and Rio Grande Railway Co. near Chama, they set up a box of dynamite as a target. The box contained 40 pounds of the explosive and its explosion set off four tons of powder. In Chama many window panes were broken.

**PRIME CAUSE OF SUICIDE.**  
Avoidance of Physical Labor is a Large Factor in Shaping Conduct.

Throughout the literature of suicide one will find that the attitude toward wage-earning and work is a large factor in shaping motives. The dread of being forced to work after a period of leisure, the mad desire to get money by tricky and gambling devices, the scorn with which manual labor is regarded by the "successful," is emphasized by the stories of the newly rich become suddenly poor, and who then defy escape into the unknown and live on pensions and polite beggary.

But nothing is surer than that work is the primal condition of health and the love of it is the dearest wish of the fashionable, the "retired," the woman freed from necessities and duties, that are the disease-breeds and the miserable. The attitude of the fashionable doctors who minister to the ungrateful class is not infrequently blameworthy. They are often encouraged by our rest cures, our fatteries and attentions.

The effort to escape from the drudgery is as old as civilization, and as ancient as savagery. The investigator sent to study the problem of putting native African negroes to work finds that they simply will not work. Those among the Canadian Doukhobors who would work found that the milliners and laundresses were about half, and they preferred to live out of the common treasury supplied by the workers—until the latter determined to abolish the common treasury and to receive and spend their own wages as other individuals do.

Our civilization, commercially, is largely a device of the cunning and the lazy to establish a common treasury. The "failure of the democracy" is largely the failure to outwit the tricksters—American Medicine.

Dan Littlejohn Says He Will Meet the Englishman Bailey—Some Good Boxing at Springhill—N. D. R. A. Match

BASEBALL.

Three Big Games. A carnival of baseball that should meet with the entire appreciation of baseball fans, and incidentally draw the largest crowds of the season to the Victoria grounds, has been arranged by the management of the St. John baseball team for Friday, Saturday and Monday (Labor Day).

LITTLEJOHN WILL MEET BAILEY.

Dan Littlejohn stated last evening that he was willing to meet Bailey, who yesterday issued a sweeping challenge, as soon as the Englishman was ready. The weights should be in the neighborhood of 145 pounds, and the go should be for 10 or 15 rounds.

On Friday and Saturday the Presque Isle team, with whom the St. Johns played such a sensational game last week, will be here for return games. Those who saw last Saturday's game will not miss the next two, for it was generally said to be the best game of the season. Presque Isle returns with a strengthened team, and the knowing ones look to see the speedy boys from Northern Maine turn the tables on the local team.

On Monday Moncton will meet St. John for two games, when the railway town will be represented by the strongest team it has ever sent out, including an imported battery.

THE TURF. SPRINGHILL RACES. SPRINGHILL MINES, N. S., Aug. 30.—The 2.15 and 2.30 classes of a series of races arranged for by the Victoria Park committee, took place this afternoon under favorable conditions and passed off pleasantly.

In the 2.15 class an American horse, General Fiske, took place money, followed closely by Lady Bingen. This was the particularly interesting event of the afternoon and was, as sportsmen remarked, neat yet might call magnificent horse racing.

The 2.30 class was also well contested. Lady Patten of Springhill stables, taking first money. There are altogether 48 horses stabled on the park and the races tomorrow are looked forward to by sportsmen with pleasant anticipations.

Another American horse will compete, and the owner avers that he wants a good share of the purse. The following was the score by heats:

THE RING. RYAN IS GAME. ST. JOHN, Aug. 30, 1905. Sporting Editor of the Star: Sir—I would say in regard to Mr. Bailey's challenge in your columns of tonight's issue that in negotiating a ten round exhibition with McLeod to take place the last week in September, and in event of it not materializing I will take Bailey on at his own terms if any promoter here will offer any inducements.

Cockneys in particular are my mutton, the earliest money I ever made boxing was in London, where I met all comers at the (ten stone) lightweight limit from August 9th to Nov. 17th, 1902, and among them Tom Ireland, as lightweight champion of England.

Thanking you for past and present favors, I am, very truly yours, JACK RYAN, Lightweight champion of South Africa, and undisputed waterweight champion of Eastern Canada.

San Francisco, Cal., Aug. 30.—Jimmy Britt, bronzed and weather beaten, went into camp at Sheehan's Tavern, out near the beach, and will remain there until the date of his fight with "Batling" Nelson.

"Everything has come out the way I expected," with Jimmy "I know that this match with Nelson was inevitable and I arranged my plans accordingly. My holiday has been in reality a little advance training, and I am ready right now to tackle the full schedule of work."

change in his schedule. Britt has not yet made public his plans, but it is learned that the Californian will not do much more work for his coming contest than he has for any of his previous battles. Britt knows well that the fight will be a wearing one and that too much work in the training quarters will leave him weak for a long battle. He will probably adopt Nelson's idea and put in some extra jaunts on the road.

EARTHQUAKE FOLLOWS PEACE DECLARATION.

PORTSMOUTH, N. H., Aug. 30.—A series of earthquake shocks, the most severe ever experienced in this section, were felt here late this afternoon. Buildings trembled perceptibly, dishes were shaken from shelves, and in many cases people rushed in terror from their houses into the street.

There were three distinct shocks. In each instance the tremor was accompanied by a sound like that which might be caused by a distant explosion. The first impression was that the powder magazine in the Navy Yard had exploded. The shocks were felt along the entire New Hampshire coast line.

The first shock was felt a little before 5:40 p. m. and the other shocks followed soon after. Each of the three shocks continued for several seconds. KITTERY, Me., Aug. 30.—Three distinct tremors of the earth, believed to be due to an earthquake, were felt in this place today, accompanied by a heavy rumbling, as of distant thunder. The first shock was felt at 5:38 and was followed by the other two in rapid succession. As the doors and windows were rattled by the vibration of the earth and the lighter brick-arch came tumbling down from walls and mantelpieces people indoors were considerably alarmed.

A CANADIAN COMMANDANT.

Major Taylor Appointed to the Royal Military College, Kingston. Word has been received by the military department at Ottawa that the appointment of Major Edward Thornton Taylor as commandant of the Royal Military College at Kingston has been approved by the war office. Major Taylor, who is at present attached to H. M. Cheshire Regiment, stationed in Kingston, is a Canadian and was appointed to the command of the Royal Military College.

The son of T. M. Taylor of this city, he was born in Montreal and educated at the High School, and later at McGill University and the Royal Military College, Kingston, and which institution he graduated in 1882. Major Taylor has acted until recently as deputy assistant adjutant general. His military advancement has been rapid. He was promoted to the Lieutenancy in 1885; was made a captain four years later and took up the appointment at the staff college in 1895, having been promoted major in 1899. Major Taylor's wife was the eldest daughter of Colonel Campbell of Kingston. The new commandant will not arrive in Canada till October.

BOMB THROWN IN NEW YORK.

NEW YORK, Aug. 30.—A bomb thrown against the front of the house of Michael Palladina, a wealthy contractor, in East 116th street late tonight, shattered the front door, smashed the windows and drove all of the inmates in panic to the street. On the second floor of the house, Palladina, his wife, their son and two daughters were sleeping when the explosion shook the house. The explosion was attributed to the "Black Hand" or some other secret society, but on investigation the police could learn nothing from Palladina or his family to bear out the assertion. No one was injured.

CROCKER'S WONDERFUL HORSES

Crocker's wonderful educated horses drew large crowds again last night at the Opera House, where they are giving performances all this week. Nothing but words of praise have been heard by the hundreds who have already visited the show, and they all agree that it is the best exhibition of its kind which has been here for years. The big horse show however is not the only attraction. At each performance is given a series of moving pictures, entirely new to St. John audiences. The performances will be continued every evening this week, and two matinees on Friday and Saturday afternoons will also be given.

SIR HENRY MORGAN, BUCCANEER

By CYRUS TOWNSEND BRADY.

Author of "The Southerners," "For Love of Country," "The Grip of Honor," Etc.

Copyright, 1905, by C. W. DILLINGHAM COMPANY

Sir Henry Morgan, deposed from the vice-governorship of Jamaica, with the help of Harnigold, his secret enemy, again hoists the black flag. They capture two Spanish frigates, conveying a heavily loaded galleon, but are wrecked off the coast of Caracas. Captain Alvarado, born of unknown parentage, but now the commander of the Spanish port of La Guayra, Venezuela, loves the daughter of the governor, who has chosen De Torres as her betrothed. The governor sends Alvarado with a party to convey Mercedes to La Guayra. The chapter closes with a thrilling account of an interview between Morgan and Donna Mercedes. De Torres, hearing Mercedes cries for help, rushes to her assistance and is fighting Morgan when Alvarado's soldiers arrive. After a fierce fight in which Morgan's officers and many of his men are killed the old buccaneer is captured.

salor: "he will not escape lightly. Would God he had blood enough in his body to pay drop by drop for all he hath shed. His death shall be slow, lingering, terrible. You have said it, and you shall see it, too, if you will. He shall have time to repent and to think upon the past. You may gloat yourself with his suffering and feeling of your revenge. 'Twill be a meet, a fitting punishment so far as our poor minds can compass. We have already planned it. Take him away and hold him safe. Tomorrow he shall be punished. Alvarado, art ready for duty?" "Ready, your excellency," answered the young man, "and for this duty."

"His mother?" cried Morgan. "Then this is!" "The boy I took into Cuchillo when we were at Panama," said Harnigold in triumph. "And my son" cried the old buccaneer, with malignant joy. A great cry of reputation and honor burst from the lips of Alvarado. The others stared with astonishment and incredulity written on their faces. Mercedes moved closer to her lover and strove to take his hand.

"My lords and gentlemen, bear me," continued the buccaneer, the words rushing from his lips in his excitement, "Where got ye that cross?"

"Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?"

"Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?"

"Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?"

"Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?"

"Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?"

"Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?" "Where got ye that cross?"

As she saw the dash of the blade she threw herself upon her lover and strove to wrench the dagger from him. "Alvarado," she cried, "whatever thou art, thou hast my heart! Nay, slay me first, if thou wilt!"

CHAPTER XXIII

"YE, strike, Alvarado," cried the viceroi, filled with shame and surprise at the sight of his daughter's extraordinary boldness. "For, though I love her, I'd rather see her dead than married to the son of such a he. Drive home your weapon!" he cried in bitter scorn. "Why stay you hand? Only blood can wash out the shame she hath put upon me before you all this day. Thou hast a dagger. Use it, I say!"

"Do you hear my father's words, Alvarado?" cried Mercedes, sinking on her knees and stretching up her hands to him. "Tis a sharp weapon. One touch will end it all, and you can follow."

"God help me!" cried the unhappy young captain, throwing aside the poniard and clasping his hands to his eyes. "I cannot! Hath no one here a point for me? If I have deserved well of you or the state, sir, bid them strike home."

"Live, young sir," interrupted Morgan. "There are other women in the world. Come with me and—" "If you are my father, you have but little time in this world," interrupted the Spaniard, turning to Morgan and gnashing his teeth at him. "I don't but you were cruel to my mother. I hate you! I loathe you! I despise you for all your crimes, and most of all for bringing me into the world, to swear to you, had I the power, I'd not add another moment to your life. The world were better rid of you."

"You have been well trained by your Spanish nurses," cried Morgan resolutely, although with sneering mockery and hate in his voice, "and well you seem to know the duty owed by son to sire."

"You have done nothing for me," returned the young soldier. "You abandoned me. Such as you are, you were my father. You cast me away to rot in a prison, and I have not been for these friends here!"

"Nay," said Morgan, "I thought you dead. That cursed one-eyed traitor there told me so, else I'd have sought you out."

Truro streets accumulated large puddles, a telegram from Belmont says the rain extended that far, practically killing the fire between there and Debert. The train crew disbanded and Debert was relieved of a perilous situation.

WHAT ARE VITAGRAPHES?

They are reproductions of scenes and people in your own town. The new vitagraphs of St. John, that were taken on this company's last visit are undoubtedly the best pictures that were ever presented to an audience and an opportunity to see pictures of your own town, and probably yourself, should not be neglected. The fire department on a run to a fire is one of the best pictures that was ever taken. This picture and a score of new ones, can be seen at the Vitagraph concert for one week commencing Labor Day, but matinees on Monday, Wednesday and Saturday. No advance in price.

Jim McLeod, the well known base ball player, will probably sign with the Calgary team for next season. McLeod is well known over the Western Canadian circuit, having played there several seasons ago. McLeod's hand, which was quite badly disabled in the St. John-Portland game, is all right again.

FISH MORE PLENTIFUL. Tomorrow's fish market will be the best for some weeks past but that is not saying over much as the supply and variety have been very small.

There will be a fair quantity of cod and haddock at five cents per pound. Some pickerel from up-river at eight cents per pound. Mackerel from the North Shore at 15c, to 20c, and some halibut at 15c.

METHODIST DISTRICT MEETING.

The financial meeting of the St. John district is announced to be held next Wednesday, 8th inst, in the Garietson church, opening at 10 a. m. It is composed of all ministers on the district, and all probationers engaged in circuit work, with an equal number of laymen elected by the quarterly boards of the circuits to which these ministers and probationers are attached.

The district includes all the city churches, Fairville, Courtenay Bay, Sussex, Apohaqui, Springfield, Hampton, St. Martins, Jerusalem, Welsford, and Kingston.

The business is to arrange all matters of connexional interest touching finances for the current year, terminating May 23rd next, and includes plans for holding anniversaries on all the circuits on behalf of the various funds of the church. The meeting is herefrom seen to be of vital importance, calling for a full attendance and the best attention of all its members.

The pastor of the church where this meeting convenes gladly holds himself responsible for the entertainment of all the delegates, and his people cheerfully co-operate with him in supplying the needs and contributing to the comfort of all who attend. Usually the business does not occupy more than two or three days, so that frequently a public meeting is arranged for the evening. If such is to be had in this case it will be local interest only, and therefore is not otherwise announced.

A TIMELY WARNING. "The pain is dreadful." Of course it is, if you see about getting something for it, it will be worse. Now everyone is talking about the wonderful merits of the Penobscot natural sulphur spring water, which as a cure for rheumatism, indigestion, kidney trouble and skin eruptions is the finest thing in the world. Doctors are buying it for their own use, and recommending their patients to take it. Surely this is the best proof of the value of the water.

Grateful testimony is being received daily at 24 Waterloo street as to the wonderful cures the water is effecting. Surely who have been crippled for years are fast getting well. Call or write to 24 Waterloo street for particulars. Phone 1650.

He pleaded that he had come here to work on the water extension, but when he got out there he was told he had to work on the water extension. He said that no more men were necessary.

COMING BASE BALL GAMES.

During the next few days the fans can look forward to something real good in the ball line, as some four games have been arranged for to be played on the Victoria grounds.

The carnival teams meet again on Saturday, when the St. Johns meet the Presque Isle team, who played such good ball here last Saturday.

The same teams meet again on Saturday, and the pine tree state team are confident of evening up their record.

The locals will have their strongest team on hand, and it is just possible that an imported pitcher will be on hand some one of the games.
