## HOW CANADA IS MISREPRESENTED

We often laugh at the ignorant and absurd statements about Canada of the British papers, which should know better, but possibly the strangest and one of the most recent is published in a Parisian paper, where the writer says among other things:

"Capital is absolutely unknown in Canada. The people have done nothing so far in building up the country. More than half of it is unexplored. Its mines, its forests, its coal beds are in a great measure unexploited. Its roads and methods of transportation are primitive and utterly inadequate. Its commerce and industry are merely in their infancy."

For a country in which capital is absolutely unknown, it might surprise the writer of the article in question to learn that Canada has more than two billion dollars invested in agriculture and nearly one billion in manufacturing industries. Nearly 25,000 miles of railway represent the primitive character of our transportation facilities, with a third transcontinental railway rushing towards completion, to say nothing of a canal system in which \$50,000,000 of money has been expended. A total trade of \$650,000,000 a year represents Canada's commerce in its infancy. In our savings banks there reposes a little nest-egg of \$650,000,000 in cash. The fact that a large part of the country is unexplored, is only evidence of Canada's greatness. Canada is eighteen times the size of France, and has a coast line equal to half the circumference of the earth. There is room to grow, for the three northern districts of the Dominion are larger than China.

There are further facts along these lines which might be digested. Canada in the last quarter of a century has produced over 800 millions worth of mineral wealth. The fisheries of Canada are most extensive in the world, and last year the fishery production was more than \$25,000,000. Fishery equipment alone is worth \$15,000,000. Since Confederation Canada has produced nearly 700 millions from fisheries. The field crops for last year alone were in the vicinity of 500 millions.

The strangest thing about the article is that the writer concludes by stating that he sought to tell the truth.—J.K.

Mr. Roosevelt is dividing his time between writing magazine articles and firing magazine rifles.

A dividend of 300 per cent. upon one of our company's shares is a pretty good advertisement for Canada's silver.

Mrs. Gould says it is bad form to wear a gown more than once. And it was for this the late Jay manipulated railways.

Why keep the boy grubbing at the dead language when he can read the baseball column and learn a fresh killed one every day?

President Taft is to call experts to advise him as to what is whiskey? We presume one of the first to be called will be Mrs. Catherine Gould.

A Michigan bank president has been set free, because his speculations did not result profitably. If they had he would never have been arrested. Both ways—he wins.

They now claim that there are a million people, and a hundred thousand more, on the Canadian prairie. And every millionaire knows that the second million comes much easier than the first.

There are in Germany about 7,000 hospitals in which some 1,200,000 patients are annually treated. Adding to these the numbers of private sanatoria and patients treated at home, it is estimated that at all times one person in sixty of the population is seriously ill.

A New York tragedy has shown that there are elements of danger for young girls filled with religious zeal who think they can convert to their creed old, experienced and hardened Chinese learned in all the world's ways, and worship of their own and all other religions.

Mrs. Henry G. Morell, of Lunenburg, recently gave birth to four children, a boy of 6-1-2 pounds, a boy of 5-1-2 pounds, a girl of 4 pounds and another girl of 3-1-4 pounds. One of the girls has since died, but the other three children are alive and well. The parents being deaf and dumb could not adequately express their astonishment.

The announcement of Premier Gault that the Quebec Government will forbid the export of pulpwood from the province of Quebec, has been received with satisfaction by lumbermen and pulp and paper manufacturers generally. Opinions are divided as to some details of the actual effect the restriction will have, but there is a general agreement that the move is a wise one and is absolutely necessary for the purpose of conserving the supply of Quebec pulpwood and inducing paper manufacturers to erect mills at Quebec.—Canadian Lumberman.

## VACATION TRIPS

If ever there was a favorable opportunity to visit the Western States and the Pacific Coast, it will be this summer. The attractions there are as numerous, and the railroad fares as low as any reasonable person could expect.

Of course, the Alaska-Yukon Expedition to be held at Seattle, Wash., from June 1st to October 16th, will be the main feature, and this has a number of our large patriotic, social and benevolent bodies to hold their Annual Conventions in the West this year. The Grand Trunk Railway System is granting special low excursion rates which can be taken advantage of by the general public, as well as the members of the different organizations mentioned below, and it is for this purpose we wish to draw the attention of the public generally to the matter, as we know that a number of people who would like to arrange for a vacation trip to the Pacific Coast this summer have an idea that times are too expensive. The matter, as we know that a number of people who would like to arrange for a vacation trip to the Pacific Coast this summer have an idea that times are too expensive.

The following are some of the organizations who will hold their annual conventions in the West this year:—National Association Women's Suffrage, Seattle, Wash. July 1 to 7, 09. Epworth League, Seattle, Wash. July 7 to 12, 09.

E. O. F. of Seattle, Wash. Sept. 20 to 25, 09.

National Irrigation Congress, Spokane, Wash. Aug. 9 to 14, 09.

Norwich Baptist Assn., Portland, Ore. June 25 to July 2.

National Educational Assn., Denver, Col. July 3 to 9, 09.

Independent and Protective Order of Elks, Los Angeles, Cal. July 11 to 17.

National Encampment, G. A. R., Salt Lake City, Utah, Aug. 9 to 14.

Y. P. C. Union, Universalist Ch., Minneapolis, Minn. July 7 to 14.

Tickets will be issued by any of the regular routes going and returning, or going by one route, and returning by another—one way through California is desired. Part of the route may also be taken through the Great Lakes.

The Alaska-Yukon Expedition at Seattle, Wash. June 1st to October 16th, will, from all accounts, surpass anything in this line heretofore held in America and one thing which will particularly please the public is the fact that the Expedition will be open and everything in full working order prior to the date advertised, Tuesday, June 1st.

Agents of the Grand Trunk Railway will be pleased to receive commissions from passengers who intend visiting the Exposition, or from delegates attending the different conventions, and give full information as regards rates, train services and routes also—arrangements for sleeping car reservations. This will be attended to promptly, and early replies given in each case.

I have a number of new milk cows which I will dispose of at reasonable prices. Apply to R. L. HICKS, Dalhousie Junction. June 1st—Glenoid.

## MOUNTAIN BROOK

MOUNTAIN BROOK, July 1.—One of the prettiest events which Charlo has witnessed for several years, took place at the Church of St. Francis Xavier Tuesday last, when Mr. James J. McIntyre, son of the late James McIntyre of Mountain Brook was united in the holy bonds of matrimony to Miss Agnes Groux, daughter of the late Mr. Pasteur Groux and Mrs. Charles Thibodeau of Charlo. The bride walking up the aisle on the arm of her sister, Miss Elmina Groux, looked charming in a dress of cream silk, adorned with a beautiful train of white Japanese silk. The groom was supported by Mr. Wm. Lavolette. A large number of relatives and friends accompanied the young couple to the church, where the ceremony was performed by Rev. Father Campbell. The choir consisted of several young ladies with well trained voices and after the ceremony the wedding bell march was played by Mrs. Jos. Bernard, sister of the groom, after which the married couple, followed by their friends, took a short drive down the coast and returned to the home of the bride's brother, Mr. Herman Groux, where a dainty dinner was served. With music and singing the day passed very pleasantly until four o'clock, when they all left for the groom's home, where supper was served, after which the party was entertained the remainder of the evening with dancing. The bride received numerous useful gifts, among which we noticed the following:

# Answer This Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound for years and never found any medicine to compare with it. I had ulcers and falling of the uterus, and doctors did me no good. I suffered dreadfully until I began taking your medicine. It has also helped other women to whom I have recommended it."—Mrs. Henry Clark, Glanford Station, Ontario.

Another woman says Lydia E. Pinkham's Vegetable Compound is the best remedy in the world for women.

Fox Creek, N. B.—"I have always had pains in the loins and a weakness there, and often after my meals my food would distress me and cause soreness. Lydia E. Pinkham's Vegetable Compound has done me much good. I am stronger, digestion is better, and I can walk with animation. I have encouraged many mothers of families to take it, as it is the best remedy in the world for women. You can publish this in the papers."—Mrs. William Bourque, Fox Creek, N. B., Canada.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## AGED FARM HAND DROWNED

Edward Carroll, who was employed as a farm hand with Geo. Searle at Napan, about two miles from Chatham, met death in a rather unusual manner Sunday. Being soaked with an epileptic fit about eleven o'clock in the morning, Carroll fell on his face in a pool of water about five inches deep and, finally, drowned. His body was found about half past one after he had been pulled from the water and when he was not revived, Dr. McVeh was hastily summoned from Chatham, but before he arrived the unfortunate man breathed his last. Deceased was a native of Belfast, Ireland, and was about thirty years of age. He was unmarried and had worked with Mr. Searle for some seven or eight years. Carver Bennett, yearning but deemed an inquest unnecessary.

## HON. JOHN MORRIS IMPROVING

The North Shore Leader, which enjoys the confidence of Hon. John Morris, Chief Commissioner of Public Works, referring to the statement in a paper that he might return from the government because of failing sight, and putting forward Sir M. E. Agar, of St. John, as his successor, says:

"Chief Commissioner Morris's eyes are steadily improving, and at the present rate of recovery they will be all right in the course of six or eight weeks. In fact, they have so far improved that it is likely he will go to Fredericton next week. While he has been confined to his home the affairs of his department have been attended to in the same business-like manner as though he had been in Fredericton and there is not a man, either government or opposition supporter, who can truthfully say that such is not the case."
