### MAIL ORDERS

We solicit out of Town orders, which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the relation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

## IMPORTANT MEETING HELD IN TOWN

County Council Meet Representative gathering relative to the new proposed bridge.

### RESOLUTION PASSED

An important meeting was held on Monday afternoon in Murray's Hall, called for the purpose of bringing the county council into line with regard to the proposed bridge across the Restigouche between Campbellton and Cross Point side.

There was a goodly turn out when Warden A. G. Adams in the absence of the Mayor was called to preside, Mr. John T. Reid acting as clerk.

After reading the minutes of the previous meeting Mr. D. Champoux and Mr. John Harquail President of the Board of Trade briefly recounted what had been done in the matter so far for the benefit of the county councillors who were well represented. Mr. Harquail stated that the main object of the meeting was to endorse what had already been done by the various bodies interested and to pass a resolution which would place some work on the shoulders of the county councillors. He then moved and Dr. Lunam seconded the following resolution.

Resolved, that this meeting do place on record our desire for a bridge across the Restigouche River at the town of Campbellton, County of Restigouche, Province of New Brunswick, on the one side, and at or near Cross Point, County of Bonaventure, Province of Quebec, on the other side, and that said bridge be suitable for railway and highway purposes, the highway to be for use of the public without payment of toll.

That the building of said bridge would be amply justified owing to the enormous traffic between the two counties at this point, which traffic is completely shut off for about two months of the year on account of the running ice in the river, and with a view of connecting the Intercolonial, the International and Quebec Oriental Railways at Campbellton which is the natural junction point of said railways.

That we do most respectfully request the Honorable the Minister of Public Works of Canada, to take such immediate steps as he would deem necessary to provide a bridge connecting the counties of Restigouche, and Bonaventure; that a copy of this resolution be forthwith forwarded to the said Honorable Minister of Public Works and that further copies be also forwarded to the Wardens of the counties of Bonaventure and Gaspé, to each of the Mayors of the local councils of the counties of Bonaventure and Gaspé, to the Federal and Local Members of Parliament for the counties of Restigouche, Bonaventure and Gaspé, to W. S. Montgomery, Dalhousie, N. B., and to J. A. Mousseau, New Carlisle P. Q.

That a committee be instructed by this meeting to prepare petitions in accordance with this resolution and transmit them to each Councillor of the different parishes of the county of Restigouche, and to the Town Council of the towns of Dalhousie and Campbellton, and the Campbellton Board of Trade, with a view to having them signed in duplicate by every ratepayer or male inhabitant who has attained the age of 21 years, of the respective parishes and towns, and returned to them at the earliest opportunity, so that the whole may be forwarded without delay to the proper authorities.

## THE ORANGEMEN HAVE PARADE

Service in Opera House Last Sunday Attracts Large Crowd.

### GOOD TURNOUT

Last Sunday afternoon the local Orange Lodge and visiting brethren held their church parade.

Headed by the Campbellton Brass Band they marched from the Oddfellows Hall to the Opera House where Rev J. E. Purdie of Christ Church spoke to a large audience.

The weather was all that could be desired many spectators lining the route of march. The uniforms of the band and the gorgeous coloring of the regalia made a bright splash of color in the sunlight.

## GASPE REGATTA

### AUGUST 8TH

The annual regatta and Fete de Nuit will be held this year on Thursday, August 8th.

The owners of the R. M. S. Canada will offer tickets for Gaspé at excursion rates, leaving Campbellton on Wednesday spending all day in Gaspé and returning here on Friday.

This excursion is always the event of the season and large numbers take advantage of this excursion to see the beauties of the Bay des Chaleurs.

Already accommodations are being looked both on the steamer and at Gaspé and those intending taking the trip are advised to make their arrangements early.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by all dealers.

That the County Council of Restigouche and the Town Councils of Dalhousie and Campbellton, and the Council of the Campbellton Board of Trade, be requested to prepare memorials to be forwarded with these petitions. Carried unanimously.

In the discussion which followed the reading of the resolution it was clearly shown that the county Councillors were strong for the project each one present pledging his support and stating his willingness to take care of the petition for his own parish.

It was thought at first that there would be no necessity to have the signatures of the general public to these petitions, but after it was pointed out that the petitions from the counties of Bonaventure and Gaspé were being so signed and the fact that this would be a million dollar project, it was felt that the whole weight of popular opinion was required to push this to a successful issue.

Messrs D. A. Stewart, M. P. P. and Arthur Culligan, M. P. P. who were present signified their appreciation of the project and promised it their full support, while a letter was read from James Reid M. P. who was unable to be present, holding out the promise that as Hon. Chas. Marcell himself had been responsible for the appropriation of \$160,000 already made he would give the proposal every assistance and was confident that it could be carried through.

The chairman then appointed Dr. Lunam, John Harquail, A. E. G. McKenzie, D. A. Stewart, M. P. P. and Arthur Culligan, M. P. P. as a committee to prepare the petitions, and the meeting then adjourned.

## CAMPBELLTON HAS PROSPEROUS YEAR

American Consular Reports Give high Praise to the Town.

### INCREASED EXPORTS.

Last year was a prosperous one throughout the district, especially along the north shore of New Brunswick. All classes of labor found steady employment, local industries flourished, and all branches of trade were lucrative.

It was a favorable year for the farmers, and the field crops were excellent. The principal crops—hay, oats, and potatoes—were considerably above the average both in quantity and quality.

The building activities at Campbellton and the presence of a large force of mechanics and laborers from outside communities created a demand at satisfactory prices for all vegetables, and other garden products, butter, eggs, meats, fish, etc., that the district produced.

**Decreased Output of Iron Ore**  
The output of the iron mine in Gloucester County was only 33,000 tons of ore instead of the annual 150,000 tons stipulated in its agreement with the Province.

The quarries of Stone Haven in vicinity produced the usual amounts of grind and whet stones and are said to have increased their exports to Europe and western Canada, while the shipments to the United States decreased about 110 tons from the preceding year.

The fisheries had a good year. There is an increasing market for fish in the communities from Montreal westward, which accounts for the decrease in shipments to the United States.

**Harbor and Docking Improvements**  
Extensions and improvements on the docks and wharves and the dredging of channels continued during last year. This work will be carried on during the present year.

Industrial progress is evident throughout the district. Woodworking mills and iron foundries have been extended to meet the increased demands on them. About the beginning of May mechanics and laborers began pouring into Campbellton from all directions to participate in the reconstruction of the town after its destruction by fire during July, 1910. Money was plentiful, wages were good, and business was brisk. Numerous delays were caused by the failure of

## CONTEST PIANOS HAVE ARRIVED

Now on Exhibition at A. C. Belle-Isle's Show Rooms Water St.

### HANDSOME INSTRUMENT

The Graphic's Piano Contest is now on in earnest and a number of contestants are hard at work. The prize pianos have arrived and can be seen at A. C. Belle-Isle's show room. Both are handsome instruments and are worthy to be placed in any home.

There is some change in the best of contestants, a few new names appearing, and two owing to circumstances have withdrawn their names.

We would ask the various contestants to send in reports each week so as to reach this office not later than Thursday evening, as we wish to publish the standing of each contestant each week. This rule we hope will be carefully carried out.

Those of our subscribers who are remitting are asked to cut out the coupon printed in this issue and fill it in for their favorite candidate.

There is yet plenty time for contestants to enter. We should have one in every town and village. Some bright Dalhousie young lady has a splendid opportunity to win a piano. And New Carlisle should look to her laurels. Surely both of these progressive towns have some one to bring it success. Jacques River is also backward. Are there no aspirants. Don't be backward. Fill in one of the nominating coupons and send it to us at once.

First revised standing will appear next issue. Now get busy and help your favorite.

The railroad to deliver in time the material necessary. For that reason principally the Federal building for the postal and customs offices and a bank building were unfinished at the end of the year.

In the meantime about 400 contracts were let for permanent and, in most cases, for commodious and elegant dwellings. All the buildings, whether for store, bank, church, schoolhouse, or dwelling, are built over basements of full size with the ground plan of the respective buildings, and in every basement is installed a heating furnace for either a hot-air or a hot water system.

The new basement walls are generally of poured concrete, and in

**MARRIED BUT HUSBANDLESS**

**Emma Fears Robert Has Been Kidnapped by His Relatives.**

Pittsburg, July 27.—Wood, married and robbed of her husband all within five weeks is the story of Emma Komer Staley Deemer, of Tarentum. Mrs. Deemer, a handsome blonde of thirty-six, was with the Weber & Fields company last winter. Last May at Tarentum she met Robert S. Deemer, a book-keeper of thirty-five, who proposed marriage. Mrs. Deemer says vigorous objection was made by her husband's family, and that Robert urged haste. On June 16 they were married at Canton, Ohio. That evening, Mrs. Deemer says, Dr. Will Deemer and Dr. Roscoe Deemer, brothers of her husband, appeared and demanded that Robert accompany them home.

Soon after the couple returned to Tarentum, Robert left for Kittington to confer with his parents. She has not seen him since. She believes Robert was kidnapped, and is being detained by force. Mrs. Deemer says she has engaged a Pittsburg law firm to file suit for alienation of affections against relatives of her husband.

Dr. J. T. Deemer, father of Robert, figured as an alienist in the first trial of Harry Thaw.

**DON'T GROW OLD**

**Keep Your Hair Full of Life, Luster and Splendor.**

Thos. Wran sells PARISIAN SAGE the really good hair grower, dandruff cure and hair beautifier.

Everyone who cares for youthful looks should use it.

Nothing will put age on your shoulders quicker than scant, faded or gray hair.

PARISIAN SAGE not only makes the hair of both women and men more luxuriant and beautiful but it is guaranteed to eradicate dandruff, stop hair from falling and drive it back from the scalp.

It is a dainty and refreshing hair dressing and is sold by Thos. Wran and druggists everywhere for only 50 cents a large bottle. The girl with the Auburn hair is on every carton and bottle.

THE THUNDERER'S  
**NARROW ESCAPE**

**A Live Shell Dropped Into Her Magazine—Only by a Miracle, That No Explosion Followed.**

An alarming incident on the new battleship Thunderer, which might have resulted in an appalling explosion, is reported from Devonport.

The vessel, which is to fly the flag of Vice-Admiral Prince Louis of Battemberg, as Commander-in-Chief of the "Blue" Fleet in the manoeuvres, had an exceedingly narrow escape of being seriously damaged, if not actually blown to atoms, in Devonport Harbor.

It appears that the accident occurred during the firing of the battleship's magazine with Lyddite shells intended for her 13.5 guns. These shells are 5 ft. long, and weight 11 cwt., and to get them into the magazine it is necessary to lower them from the deck in a strong sling. As one of the shells had just been swung off the deck and was hanging in mid-air, thirty feet above the magazine, the men working the sling saw the huge explosive beginning to slip from its fastenings. Before anything could be done the shell had dropped clear and disappeared into the opening of the magazine.

Those of the crew on deck who witnessed the accident were for a few seconds struck with horror, and, anticipating an explosion, they rushed down the deck as far as possible from the magazine, although if the shell had burst nothing could have saved them. The magazine was practically full of shells, which were arranged in their proper order as they were sent down. It was only by a miracle that no explosion occurred. As soon as the men engaged in the shell room had recovered from the shock they returned to the spot where the shell was lying, and an examination revealed the alarming fact that the fuse—for the shell had its fuse in position—was dented and the cap had fallen off. Several theories were advanced to explain why the shell did not explode, one of them being that the thickness of the pin which connects the fuse with the shell acted as a preventive.

The utmost reticence is observed by those on board as to the cause of the accident, and up till Monday morning it had not even been officially brought to the notice of the Commander-in-Chief of the port. A report was made to the Admiralty that one of the gunners of the Thunderer was largely responsible for avoiding an awful catastrophe by an act which, it is said, deserves conspicuous recognition. In addition to the 800 or more officers and men on board the Thunderer at the time of the accident, a large number of dockyard men were working on the ship, so that quite 1,000 persons were imperilled. The Thunderer was also lying in close proximity to several other ships in the basin and dock.

The battleship, which was built on the Thames, was commissioned last week, with a complement of over 800 officers and men, and was taking on board her war stores when the mishap occurred.

W. L. Ashfield, P.D., Principal.

**YOUTH TOOK FATAL DIVE**

London, Ont., July 21.—Clifford Ely, the nineteen-year-old son of R. J. Ely, manager of the London branch of the O. K. Hall, was so seriously injured when his head struck the bottom of the lake after diving off the pier at Port Stanley this afternoon at 4 o'clock, that he died an hour later.

Mrs. Nage—Don't you think it's about time that girl got a husband?  
Mr. Nage—Aw, let her wait until the right man comes along.  
Mrs. Nage—Why should she? I don't.

**THE FAIRLEY ESTATE**

**Basis of Settlement of case which was for 15 Years Before Courts.**

The case of Justice Fairley, of Boiestown, vs. John A. Fairley, executor et al of the late Scott Fairley which was to have come up before Judge McLeod at St. John, has been settled and the local lawyers who were interested in the case have returned home.

The case has been before the court for fifteen years and is an old bill brought in the supreme court of equity to displace the executor of the will of the late Scott Fairley on the grounds of wasting of the estate, and to get in the property and distribute the assets among the legatees. The legacies amounted to \$15,000, of which a special legacy of \$3,000 was claimed by the executor.

In accordance with the settlement made yesterday afternoon a decree was made that \$500 be paid the executor in full satisfaction of his claims and demands, and that the balance of moneys after paying some costs be distributed among the legatees pro rata.

There are about twenty legatees, residing in Northumberland county, in Fredericton and Campbellton, and a few in the United States. Under the arrangement the plaintiff will receive about \$1,500 or \$2,000 and the others will receive from \$500 to \$500 each.

**PARTIES LINING UP FOR AN ELECTION**

**Organization is Being Kept Alive, Ready for any Government Move.**

Ottawa, July 19.—It is more and more apparent that both political parties are lining up for a general election in the fall of 1913. Each party organization has received instructions to look carefully after the lists so as to be ready for any surprise which the Government may spring.

The program, as now outlined, is that the Government will come back in the fall with its program, submit it to Parliament, introduce and pass a Redistribution bill, and then go to the country in September next year.

The flies that are now in your kitchen and dining room were probably feasting on some indescribable nastiness less than an hour ago, and as a single fly often carries many thousands of disease germs attached to its hairy body, it is the duty of every housekeeper to assist in exterminating this worst enemy of the human race.

**WILSON'S FLY PADS**

Kill flies in such immense quantities as cannot be approached by any other fly killer.

**OPENING UP OF NEW TERRITORY**

With the exception of antelopes and Musk-ox, British Columbia has every species of big game that exists on the continent, even the rarest of them being found in fair quantities. In addition there are wild fowl and game birds of various species some natives and others acclimatized, that furnish sport while the waters afford the finest trout and salmon fishing in the world. In fact, the sporting possibilities are so many that it would be impossible to exhaust them in an ordinary lifetime. The Grand Trunk Pacific is opening up virgin territory where the every best hunting will be found.

Some 70 miles up the river from Fort George the "Grand Canyon" is reached, and from there a magnificent moose country extends as far as the little Smoky River. From reliable reports received, it is probable that there are more moose to the square mile than in any other part of the continent, and every year their numbers seem to increase. So far, the country has never been hunted except by a few prospectors. Whether the horn attain the large size of the Casiar moose has yet to be determined, but some very fine heads have been seen. In this district, caribou are very plentiful on the higher plateaus, and in places both grizzly and black bear are numerous.

**I. C. R. ENGINEER PAINFULLY CRUSHED**

**Mr. David Pineo of Moncton Met with Painful Accident**

Mr. David Pineo, who resides on Highfield St. had the misfortune Tuesday morning to meet with a painful, if not serious accident. Mr. Pineo, who is an I. C. R. engineer, was getting his engine ready in the round house to attach to the Campbellton accommodation, he made an attempt to pick up his oil can and was caught between a cup-board, which is nailed to the wall and the tender of the engine and quite painfully crushed. Willing hands soon came to the unfortunate man's assistance and Dr. L. N. Bourque was called to attend the injured man. Mr. Pineo after a few minutes was able to walk to his home.

**"This is the Range I Use--the GURNEY OXFORD"**

**When a range is recommended by one woman to another, it has met the final test.**

The staunchest friends of the Gurney-Oxford Range are those women who have experience with it day in and day out. They know how dependable it is; they know that no other range gives such constant and unvarying satisfaction, not simply in management and economy, but in cooking results.

The Gurney-Oxford works constantly for its owner's peace of mind, and it supplements her efforts to make each meal one of absolute satisfaction.

Every woman who has had experience with the Gurney Economizer cannot help telling her friends the satisfaction of being able to regulate the fire by turning up or down one small lever. She tells about the flues that make and keep the oven always evenly heated, but above all she is enthusiastic about the golden brown biscuits, the light delicious bread and pastry, the roasts and fowl done to the queen's taste, that her Gurney-Oxford turns out.

The Gurney-Oxford owes its popularity to the recommendation of those for whom it works.

**MANN'S MOUNTAIN**

The weather for the past few days has been very warm.

The annual school meeting held in the school house July 8 was largely attended.

Mr. Randolph Mann is recovering from a severe illness.

Mrs. John Babcock has returned home from Dalhousie Junction.

Miss Barbara Stewart spent Sunday at her home.

The Misses Emma and Louise Mann were calling on Miss Edith Stewart last week.

Mrs. Dr. Balcom formerly of Campbellton accompanied by her nieces the Misses Dawson of Montreal are stopping at the Bay Shore House.

We are glad to see Mr. Roy Myles around again. Mr. Myles has been ill all spring, and his many friends are very glad that he is recovering.

Several of our young folks attended the celebration in Campbellton, July 11.

**CHARLO**

Mrs. E. A. Charters of Sussex is visiting her sister Mrs. George D. Bain at the Beaches.

Mrs. Dr. Balcom formerly of Campbellton accompanied by her nieces the Misses Dawson of Montreal are stopping at the Bay Shore House.

Mrs. Jardine of Ottawa is the guest of her sister Mrs. Brantack.

Mrs. Kerr of Montreal entertained her friends at her bungalow Wednesday afternoon from four to six.

Mrs. James Reid held a reception the same evening from seven till ten.

The Charlton Sunday School picnic was held at New Mills last Wednesday afternoon. Quite a large number took advantage of the fine day and enjoyed themselves on the grounds.

The Presbyterian Sunday School picnic from Dalhousie was held here on the grounds of Mr. Donald McLean. A large number was in attendance. Boating and sports of various kinds as well as the pleasant day added to the attractions.

Miss Jennie McLean is home from St. John for her vacation.

Charlo took a very prominent part in the Campbellton Celebration. The auto of Mr. Hope and the carriage of Mrs. Walter Miller both of which were decorated by Charlo local talent were among the prize winners.

**BLACK CAPE**

One of the oldest residents of this district passed away on Friday July 27 through the death of Mr. Andrew Powell who had reached the ripe old age of 91. He was in his usual health till within Wednesday before his death when he was found in bed unconscious from which he rapidly grew weaker when at midnight on Wednesday he passed peacefully away.

He leaves to mourn his loss four daughters, Mrs. Alexander Robertson and Mrs. Robert Martin of Stillwater, Minn., Mrs. James Robertson of New Richmond and Mrs. Ernest Campbell who resided with him. Four sons, James, Andrew and Angus of Black Cape and William of New Richmond.

The deceased was a native of Scotland coming out with his parents when a boy of 8 years of age. He was highly respected by all and his death has cast a gloom over the community.

The funeral took place on Friday afternoon and was largely attended testifying the esteem in which he was held the service was conducted by Mr. Meier of Toronto, Ont.

The remains were interred in the Presbyterian cemetery at New Richmond.

Mrs. Thomas Mayhew and daughter of Fox Creek, Maine, is visiting in Black Cape.

Miss Ada and Anne Johnston are home from Toronto on a visit after an absence of two years.

Miss Nellie Campbell is home from Lincoln Mass., for her vacation.

Miss Winifred Campbell left on Saturday for Acadia to spend a few days with her sister Janie who is teaching school at that place.

Misses Maude and Belle Johnston and their sister Alma have returned from New Carlisle where they have been attending the marriage of their friend Miss Scott.

Miss Lily Campbell is spending a short vacation with her home people she is accompanied by Master Ainslie Parker who is visiting his grand parents Mr. and Mrs. Steele Campbell.

Mr. Hugh Johnston who is in the employ of the Quebec Oriental Railway at Matapedia spent Sunday at his home here.

Mr. Harry Scott of New Carlisle spent Sunday in Black Cape with friends.

Mr. Weston Campbell arrived home from St. Onor on Saturday where he has been in the employ of the Chappell Bros.

The Dr. Wardrobe and McCurdy Mission hand held their annual supper at the home of Mrs. Edward Steele on June 21st at which was well attended they also held on the following Tuesday an ice cream social at the home of Mr. and J. E. Pritchard's which proved a grand success.

During the heavy electric storm which passed over here on July 4th struck the barn of Mr. Ernest Steele and burned it to the ground he has got a new one up and many of his good citizens are giving him a helping hand.

Montgomery and son of New Richmond has cleared two barges with cargo of deal for Liverpool, Eng., they also cleared a three masted schooner which sailed on Sunday morning for New York with a cargo of laths.

The Campbell, McFarlane and Trading Company has a barge in the harbour loading a cargo of deal.

**BRIDGEVILLE**

Our little village is very quiet just now quite a contrast to the winter when by the way was very lively we will all be glad boys when you return in the fall.

We are having very fine weather and we are anticipating good crops in the fall although for a while it seemed as though nothing would grow but a few showers dispelled all our fears.

Schools are closed. Teachers and pupils we extend all good wishes for a very happy vacation it is with regret that we bid adieu to our teacher Miss Coull, who by the way is a very good teacher and was very well liked by all. Before her departure she took her pupils out for a picnic they all spent a very enjoyable evening trout fishing was one of the pleasures and when that part was over, the pupils presented their teacher with their catch which numbered in all twenty-nine.

The Bridgeville bridge which has been in a very sad state for quite a while has been replaced by a new one, let us congratulate Mr. Albert Lemesurier on his good workmanship. Berry picking is all right girls but oh! ye showers.

**MARIA**

Maria has lost one of its old and respected citizens in the person of Mrs. Henry Cyr. Her death occurred on July 4th. She had attained the ripe old age of eighty years, she leaves to mourn her loss, a bereaved husband, two daughters, Mrs. Thomas LeBlanc and Mrs. Alfred Guite, and two sons, Sylvia and Joseph.

Joseph Cyr was united in marriage on Monday last to Miss Luminia LeBlanc of Carleton. Our best wishes are extended to the happy couple.

Miss Maggie Bernard is visiting friends in Carleton.

Mr. Alfred Cyr of Idaho is the guest of his brother J. I. Cyr, he is in failing health and intends to remain some time in Maria.

Mr. J. S. Harquail of Quebec spent Sunday at the Girou House.

Mr. Owen McCormick went to Campbellton last week to attend the circus.

Mrs. John Bujold and J. Alain of Carleton passed through here en route to New Richmond on Saturday.

Miss L. Grenier of Gascons spent a few days here last week visiting friends.

Miss MacIntyre of Dalhousie, and Mr. Edgar Cyr of Moncton came to attend the LeBlanc-Cyr wedding.

Misses Eva and Flora Guite accompanied by their brothers Charles and Alphonse spent Sunday in New Richmond.

Miss Ethel Bujold has returned from a trip to Carleton.

Miss Ellen Septon of Maine is here for some time the guest of her sister Mrs. J. Hamilton.

Mrs. Thomas Clapperton paid Carleton a flying visit last week.

Mrs. J. Lavoie of Saybee who was the guest of her father Mr. T. Levesque has returned to her home.

Mr. and Mrs. Bujold are receiving congratulations on the arrival of a baby girl.

**DALHOUSIE**

Mrs. A. P. Doolidge and her daughter Miss Doris Doolidge of Quebec, are spending a few weeks here guests at the Inch Arran House.

Mrs. Josephine Hutchison of St. John N. B., arrived here on Thursday last to spend some time with her aunt, Mrs. H. A. Hilyard.

Mr. Ernest Hutchison of Douglastown came here by automobile on Thursday.

Miss Kate Phillips, daughter of the late John Phillips, who was so seriously ill all last winter is now able to be out.

Mr. A. J. LeBlanc, went to Carleton P. Q. on Saturday, to attend the funeral of his father who died on Thursday last at the advanced age of 87.

Mr. A. H. Hilyard and Mr. W. S. Smith, have been spending a few days at St. Gage Basin.

Mrs. L. D. Jones gave a five o'clock tea to several of her friends on Saturday.

Mr. Charles Marcell, M. P., who has been spending several summers at Carleton P. Q., has decided to build a cottage there. It will be located to the west of the Hotel Wilfrid by the sea.

Mrs. A. G. Gregory and family of Fredericton are guests at the Inch Arran House.

Mrs. Houghton and Miss Houghton of Quebec and Mr. and Mrs. Mills of Montserrat Falls P. Q., are visitors in Dalhousie.

Among the tourists who are spending the summer months at Carleton P. Q., at about twelve miles from Dalhousie, are Mr. and Mrs. Scott, Miss Mary Scott, Mr. Godfrey Scott of Quebec; Hon. Charles Marcell, Mrs. Marcell, the Misses Jean and Claire Marcell of Montreal; Mrs. Leo Duplessis, Miss C. Duplessis, Miss Yvonne Duplessis, Ottawa.

The picnic held at Belledune during two days last week to raise funds to rebuild the presbytery which was destroyed by fire last year, was a great success. The sum of nine hundred dollars having been realized.

Mr. and Mrs. G. H. Lounsbury, and Mrs. McDonald of Chatham, arrived here on Saturday evening to visit Mrs. Geo. Lankie.

Mr. S. A. Fother and family of Campbellton spent Sunday in Dalhousie.

Mr. John Potts, who has been in the employ of The Dalhousie Lumber Co. Ltd. for several years left here yesterday for Nova Scotia to accept a lucrative position with the Maritime Lumber Co. of Halifax. He will be stationed at Sherbrooke. His family will

**CLAIMS TITANIC CAPTAIN IS ALIVE**

Man Says He Saw Capt. Smith in Baltimore.

Baltimore, Md., July 22.—The statement that Captain E. J. Smith commander of the ill fated Titanic was not drowned, but was seen Friday morning in Baltimore is made by Peter Pyral, a retired mariner of this city, who was quartermaster on the Steamship Majestic of the White Star Line 30 years ago, when Captain Smith was commander of the vessel. Pyral said that he had not only seen the Captain but talked with him. Pyral also said that he saw Captain Smith last Wednesday morning, but was skeptical as to his identity, and to confirm his belief that the Captain was alive went to the same spot on Friday morning, and again saw the Captain walking up to him. He said, Captain Smith, how are you?

Then according to Pyral, the man answered, "Very well Pyral, but please don't detain me I am on business."

Without realizing what he was doing Pyral followed the man, who later bought a ticket to Washington.

join him later. Mr. Pott's popularity among the workmen of Dalhousie was demonstrated yesterday when he was presented with several pieces of gold by the them.

Word has been received here of the marriage of Mr. Alfred Roland McGuire and Blanche Evangeline Grimm, at Lethbridge, Alberta, in Knap Presbyterian church, on Wednesday the seventeenth inst. Miss Grimm was formerly employed at the Transcript office Moncton and resided for several months in Dalhousie as book-keeper and stenographer for The Dalhousie Mercantile Co. Ltd. Miss Grimm will have the good wishes of many New Brunswick friends.

Dr. P. S. W. Gidder, of Pittsburg, U. S. is spending a few days here a guest at the Queen Hotel. He will visit Carleton and New Carlisle before returning home.

Messrs. O. R. Scott, J. L. Mowat, H. J. Milligan, F. M. Moores, W. H. Marquis and Amie Lacasse of Campbellton spent Sunday in town.

A party of ladies consisting of Mrs. Chas. McLean, Miss G. McLean, Miss C. McLean and Mrs. H. Pullan arrived here from Montreal last week. They are guests at the Queen Hotel. Mrs. H. Pullan will take the Gaspe trip and return home via St. Lawrence Mrs. McLean and her two daughters will sail for England in a few days on board the S. S. Inishowen Head, of Belfast.

Mrs. Oliver Barberie and Miss M. Bucklefield spent a few days in town, the guest of Mrs. R. J. Coleman, The Rectory.

**TWO WOMEN TESTIFY**

What Lydia E. Pinkham's Vegetable Compound Did For Their Health—Their own Statements Follow.

Halliburton, P. E. I.—"I had a doctor examine me and he said I had falling of the womb, so I have been taking Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. All the bearing-down pains have vanished. I have gained ten pounds in weight, the discharge is all gone, and I feel better than I have for a long time. I think any woman is foolish to suffer as I did for the sake of a few dollars."

"You can use my letter as a testimonial. It may encourage other poor women who suffer as I did to use your Vegetable Compound." — Mrs. GEO. COLLICUTT, Halliburton, Lot 7, P. E. I.

**Read What This Woman Says:**

New Moorefield, Ohio.—"I take great pleasure in thanking you for what your Vegetable Compound has done for me. I had bearing down pains, was dizzy and weak, had pains in lower back and could not be upon my feet long enough to get a meal. As long as I laid on my back I would feel better, but when I would get up those bearing down pains would come back, and the doctor said I had female trouble. Lydia E. Pinkham's Vegetable Compound was the only medicine that helped me and I have been growing stronger ever since I commenced to take it. I hope it will help other suffering women as it has me. You can use this letter." — Mrs. CASSELL LLOYD, New Moorefield, Clark Co., Ohio.

**SHEEP HUSBANDRY IN CANADA**

Coincident with a number of other active agencies designed to revive the sheep raising industry in Canada, there has been issued by the Live Stock Branch of the Department of Agriculture a new edition of that exhaustive and practical treatise "Sheep Husbandry in Canada" which received such a warm reception some four years ago. This work of 126 pages, which constitutes a report as well as a helpful bulletin of instruction, covers the history and condition of the sheep industry in every province, pointing out the weak points and offering useful information for the guidance of older shepherds as well as those who are just beginning, or desire to begin, raising mutton and wool. In this work the author, who is a trained sheep man, brings out clearly the great advantages of keeping sheep from the dual standpoint of direct profit in cash returns, and the even more important indirect one of cleaner farms and better crops. Then there is a special section, "From the Block to the Table" designed to popularize the consumption of mutton and lamb. Other sections deal with weed destruction by sheep, diseases, wool housing, enemies, and breeding, feed and feeding, and other important matters. Under "The Industry in the Different Provinces" some startling new facts, concerning the profits made from sheep, are brought out. It is shown that a flock of about 150 ewes worth \$6 each, after housing, feeding and care were charged against them, gave in 1911 a profit of more than \$600. This occurred on a Manitoba wheat farm.

A special feature of this bulletin is its many beautiful illustrations in sepia tints, many of which are worth framing. A large issue has been printed to be supplied free to those who apply for it to the Publications Branch, Department of Agriculture, Ottawa.

**PANCAKES!**

**A. W. HUGMAN, LIMITED, Mee**

**Two Races Inhabited North America Before the Indian Arrived**

As a result of thirty years of exploration in the Delaware Valley, searching for evidences of the early man in North America, Ernest Volk, a field archaeologist announces some remarkably interesting finds. He succeeded in tracing three distinct habitations of man in Delaware Valley—the Indian on the surface of black soil; a specimen of prehistoric man termed by the explorer an "argillite man," as he used argillite in the manufacture of his implements, and finally a still older race, the so-called "glacial" or "gravel man," who lived before the days when the yellow loam formed the surface soil. "The traces of man in the gravel, far below the argillite and quartz, chiefly of argillite and quartz. The bones of Arctic animals, such as the musk ox, and of elk, probably species now extinct, were also found. Most of the specimens mentioned, which prove the three periods of occupation in the Delaware Valley, are on exhibition in the American Museum of Natural History."

**CANNED SALMON HIGHER**

The price of canned salmon has increased 50 cents per case bringing the quotation up to \$9 per case. This is the highest price yet recorded. It is understood that salmon in half pound tins will be put on the local market during the fall of the year.

## THE BRIDGE

From the trend of public opinion it would now seem that this great project had some backing, and the various meetings held in connection with the matter show a bright outlook for its realization.

This bridge project is no new idea, it has been long before the eye of the public, but it appears now in a different light. There seems a strength and sincerity of purpose in the minds of all who have taken the matter up, and the interest is increasing daily. Yet to get this proposition brought to a successful issue we need to do more than pass resolutions and prepare memorials. That is very good for a start but it needs more than a petition and a memorial to make a government get a move on, and we trust in the dark days when we are bandied about from one department to another we will not lose heart, but keep badgering them till we get rid of us they will give us the bridge.

This is a very big proposal and it will involve a large sum of money, but the benefit it would be to the people of this part of the province and to those of the province of Quebec, stands plainly before every one, and as a government is placed in power to satisfy the needs of the people, our case is complete for our cause is right and our wants are just.

We have the promised support of our members in both provincial and Federal parliament and it is left to them to see that the requirements of their constituencies are attended to in a right and proper manner.

## UNION IS STRENGTH

In a recent editorial the Sydney Record says:—The Liberal party for fifteen years in Canada was the party of achievement. It is now the party of hope. The new swing to pure democracy, now so distinctly marked in the politics of the Old World as well as in the New has also its counterpart in the political trend in Canada. There is the same awakening, the same protest here as elsewhere against the perversion of representative government to the representation of special instead of general interests. The political fight which, culminated on the 21st of September left as its most fatal result the fact that the aggregations of capital in this country—the Big Interests—raked political power into the pile of their other immense possessions. No people can afford to oust after this fashion the direct decision of the individual voter. The people in Western Canada, by the Saskatchewan verdict, have served notice on the other provinces that entrenched money is not to have any permanent political control in this country, nor can such political control be tolerated even for a season. Political power wrenched by any party through the backing of the selfish and centralized money forces puts the country in the political pawn shop. Political leadership becomes a myth and the government a mere board of control for the man with the bulging purse. The voice may be the voice of the Prime Minister, but the hand is the hand of "the man behind the gun."

Happily numbers of electors who wear the Conservative label and who are as thoroughly satisfied of this as strongly progressive Liberals are have had their eyes opened to the "underground" forces which were at work last September to hand Canada over to the predatory forces. Especially our great body of consumers and the men of the mine, the field and the workshop must be clear as to the supreme duty which lies upon them on this outstanding issue of whether the Interested Money is to be always "at the bat" hereafter in this Dominion, or whether the people are to govern. One thing is

certain that if the Masses are to have their "innings," the one way and the only way to accomplish it is by the closing up of the ranks against the class of men who put this country up at public auction, and who named the upset price of the sale. The Canadian masses are aware of what has taken place in Britain in that connection. There under Liberal leadership every section of the electorate not wearing the badge of servitude to the interests have fallen into line as one man, determined no longer to see their scattered forces singly driven to the wall. The result in the Mother Country was at once decisive and far-reaching. The citadel of entrenched power—the House of Lords—was at once emasculated and the complete right of way secured for every phase of forward legislation demanded by the people.

As it is in the Mother Country, so it is in Canada. The advanced program of the Liberal party here and Canada's Liberal leadership will be found competent weapons for the people's battles. "United we stand, divided we fall," it is now apprehended, must be the rallying cry of the men in this Dominion who do not propose to sit down under the selfish and pitiless oligarchy of the politicians and "combines" who now assert the claim that the Canadian Parliament is the tool of their merest wish and nod.

## CAMPBELLTON HAS PROSPEROUS YEAR

(Continued from page 1)

numerous other details concrete superseded stone. In only a few cases were the old basement walls of stone masonry found serviceable, while the concrete blocks wherever used had stood the fire test splendidly. Much structural steel was used in the brick and concrete buildings, while all have metal cornices and many have metal ceilings and wall linings.

Instead of shingles, smooth patent roofings were principally used, because of the lesson taught by the flying and blazing shingles during the fire. On shingle roofings the snow accumulates, while on smooth roofings it slides off; also the patent roofing is not so susceptible to fire.

### Imports of Goods Into District

No definite data of the imports of American goods into the district can be given, but the total was much larger last year than for the previous one, due to the imports in connection with the building operations. By far the larger part of the goods imported into the district comes through importing

houses in the larger cities.

There is an evident falling off in the consumption of American tinned and bottled goods usually to be had at the grocery stores; also in boots and shoes, office and library furniture, men's furnishing goods, bench tools, and cereal foods. This is due to increasing Canadian production and the effects of tariff duties and freights but not from any prejudice. American branch factories and concerns located in Canada participate largely in this trade and have displaced the products of the parent factories. Then, too, American salesmen have almost ceased their activities in this region.

### Exports to United States

There was an increase of \$33,592 in the value of the shipments from this district to the United States last year compared with the previous one, according to the invoices certified at this consulate. The following table shows the principal items and their value during 1910 and 1911.

Articles	1910	1911
Fish:		
Cod	\$7,259	\$10,589
Lobsters	46,950	46,367
Smelts	68,332	46,533
Other	6,004	5,150
Grindstones	22,264	20,909
Lumber:		
Spruce	181,992	146,386
Pine	46,874	34,586
Ash		489
Birch		197
Cedar	130	367
Laths	173,272	192,272
Pulp wood	107,304	229,825
Shingles	222,003	229,825
Railroad ties	56,528	18,878
Sea grass	11,173	6,259
All other articles	9,156	4,183
Total	\$659,241	\$992,833

From consular reports.

NOTWITHSTANDING their heavy fur coats, the bears are active on the stock exchange.

INCIDENTALLY, it will take more to remedy these rubber horrors than a Peruvian bark from a supine South American republic.

ALTHOUGH H. B. Ames' pleasure yacht foundered, its cargo of Canadian M. P.'s got safely ashore. They were all light enough to float.

TWENTY FIVE years ago people considered the body more than raiment. This may explain one-third of the increased cost of living.

THE Ancient and Honorable Artillery Company of Boston has been inspected by King George at Buckingham Palace. This is the kind of Boston tea-party all of us first cousins like to see.

NEXT time you are tempted to scold "central" for delay, consider that a telephone operator in Vancouver committed suicide a day or two ago because a subscriber swore at her over the wire.

THAT Philadelphia suicide who prefaced his action by hanging crepe on the door evinced more thoughtfulness than that usually displayed by this class of irresponsibles.

For The Boy Scout.

Although there is no organized body of Scouts in town, we are selling many suits these days.

For Vacation wear they can't be beat.

Mrs. Cameron and Miss Chamberlain again entertained their friends on Wednesday evening from seven to nine. Miss Tessie Lingley attended the door, Mrs. Frank Matheson served the tea, Mrs. O. Smith, poured tea, and Miss Ruth and Isa Cameron served.

## CAMPBELLTON WOMAN ATTEMPTS SUICIDE

A special from Bangor says that because her husband paid more at- tention to another woman than to her, Mrs. Mary Dodds, of Camp- bellton, tried suicide by hanging with handkerchiefs tied together. She was cut down in time by her landlady. The police were called, and on arrival found her in the act of slashing herself with a razor. The Dodds were married at Camp- bellton, and while living there ap- peared happy. Since coming to Maine, however, disagreement have caused unhappiness. The police, acting as piecemakers, got hold of John Dodds, the husband, and af- fected a reconciliation, and the pair left the station arm in arm. This couple lived here for a time shortly after the fire where the man, Dodds or Dotts worked as a ships laboree.

### GIRL WANTED

A girl for general housework. High wages. Apply to MRS. F. MURRAY

## LOCAL RIFLEMEN TRIM BATHURST

Shooting Under Adverse Con- ditions the Visitors are Beaten

### THE SCORES

On Monday the Restigouche Rifle Club had a visit from Bathurst to engage in a friendly match. The weather was miserable for shooting heavy rain falling all day and near- ing the close of the match the tar- gets were almost invisible. Bathurst were more put out by the conditions than our own boys, and considering the weather some remarkable scores were made.

Shooting took place at 200 and 500 yards and the total scores are given below.

Restigouche			
H. A. Chandler	200	500	Total
P. H. Blythe	33	33	66
J. Chandler	33	27	60
J. White	30	26	56
J. T. Mowat	27	29	56
J. R. McKenzie	22	33	55
A. H. English	24	29	53
Dr. Price	34	18	52
	18	13	31
	221	208	429

Bathurst			
G. Allison	200	500	Total
C. H. Ellis	31	25	56

## INSTALLATION OF 100 OFFICERS

At the regular meeting of the odd fellows held on Monday night the following officers were installed, Act- ing Deputy D. F. Graham perform- ing the ceremony.

J. T. Reid N. G.; R. B. Keith V. G.; A. F. Carr R. S.; A. Ferguson F. S.; H. W. Pond Treas.; H. Mont- gomery Warden; C. Mersereau Con- ductor; Wm. Ferguson Out Guardian; C. Shirley In Guardian; Wm. Storey R. S. N. G.; D. F. Graham L. S. N. G.; E. E. Clark R. S. V. G.; E. Laskie R. S. S.; R. Mair L. S. S.; H. Miller P. Grand; H. McLennan Champlain.

### SIXTY LIVES LOST

Pittsburg, July 25—Over sixty lives were claimed Wednesday by floods and cloud bursts in Southwest Pennsylvania and West Virginia and hundreds of homes and business houses destroyed. Uniontown, Pa., leads the list of known dead with fifteen.

At Wheeling, W. Va., three were drowned at Lemont, Pa., four drowned, at Ellenwood, Pa., three drowned and thirty-six lives are re- ported to have been lost in other towns of the two states.

Uniontown, Lemont, Mount Braddock, Conneville, and Dundas, Pa. were inundated. In Turtle Creek Valley the damage is enorm- ous and scores of families are homeless in the Upper Youghiogheny Valley. Railroad traffic through a great territory is demoralized, espe- cially so at Uniontown where the tracks of two railways were torn from their foundations.

## AUCTION SALE

There will be sold at Public Auc- tion on Thursday, August the 8th at 11 o'clock A. M. on the premises The Miller Bros. Meat Market, situated on Water Street, Camp- bellton, consisting of a very valu- able business stand "lot 65 by 120 with all the buildings thereon in- cluding all the necessary equip- ments pertaining to the business, and the good will of the business; Also 3 horses, 3 wagons, 2 carts, 1 sloop, 4 sleds and harness. Miller Bros.

Campbellton, July 26th 1912

## School Desks.

We are manufacturers of the Cele- brated

### Paragon Desks

which are now so favorably known all over the Maritime Provinces, and if you are planning to install new desks this Summer, it will pay you to write us for prices. We can quote on these desks set up complete, or ready to go together, and any carpenter can easily finish them up, and so quite a saving can be made on the freight.

They are made of the best quali- ty hard wood, and are in slats, which are fastened to the iron castings by dove-tails, and the slats themselves are held together by dowels. This makes a very strong desk. The slats are stained alternate light and dark, and the whole finished in oil, with the top stained a dark cherry, thus making them present a handsome appearance.

Let us know how many are re- quired, and we will send you full descriptive circular together with prices.

BRIDGETOWN FOUNDRY CO., LTD.  
LOCK BOX 49, G  
BRIDGETOWN, N. S.

## Trading At Home vs. Buying By Mail

You want to buy goods where you can get the best price. That's good sense and good business. Now can you save money by buying of a Mail Order House? The big argument of the mail order house is the saving of the "middlemen's profit." Here's what they save. They get your money before they act. They get rid of paying the freight. They save delivering the goods to your house (YOU attend to that.) They have no expense in uncrating furniture, twining up chairs, sett- ing up, polishing and adjusting drawers, doors, etc., removing bruises that occur in transit, or making good any complaints that may arise after the furniture is in use a few weeks. (You look out for that your- self)

On the same basis, quality for quality, we can match the price of any mail order house in Canada. Try us next. Give us a fair test, and see how much money you save.

You would be foolish to pay more for goods simply to get them here, but if we can save you money, get the goods to you without delay or in- convenience, and look out for any little adjustments afterwards, you ought to consider the home merchant before sending your money away.

## F. G. KERR, Furniture and House Furnishings.

Queen St., East End

## YOU THINK IT'S RHEUMATISM

You Haven't Rheumatism!

It's only fallen instep—a bad- ing down of the foot arch—easily cured. The foot brings muscular pains that are much like rheumatism and are diagnosed as such. The one sure way is to properly support the arch of the foot long enough to give it time to grow right. The Scholl "Foot-Eazer" does this—takes off all the strain—Nerve cures the trouble. The Scholl "Foot-Eazer"

can make any shoe gives just the right support at the right spot—and not only overcomes the strain caused by flat-foot—which is responsible for all the aches and pains of the feet and limbs—but also eases the feet, body and nerves and the flat-foot. The Scholl "Foot-Eazer" gives the feet a well- even tread. For men and women—price \$2.00 the pair. Your money back if they do not ease your feet.

Get the Scholl "Foot-Eazer"—an im- mension. Your health is too important to run any risks. Ask your shoe dealer or drug- gist to let you try a pair.

THE SCHOLL MFG. CO., INC., 471 Elm St., W. TORONTO

This is a cut of the piano which will be awarded to the contestant in District No. 1 getting the largest number of votes in the Graphic's circulation contest.

Now on exhibition at A. C. Belle-Isle's Show Room, Campbellton.

## MRS. PATRICK MCGEE CRIES FOR MERCY

Sentenced to be Hanged at Georgetown, P. E. I. Thursday, October 10.

Charlottetown, P. E. I., July 23.—The Guardian has received from Georgetown the following message by phone.—When the Supreme Court resumed on Monday, the Attorney General moved that sentence be pronounced on Minnie McGee, who has been indicted and found guilty of the murder of her son John.

### The Woman's Pathetic Plea

Mrs. McGee, the prisoner, when asked if she had anything to say, spoke brokenly and at intervals as follows.—“Have mercy on me. I have had a hard time all my life. My head has been so bad the last four months! The pain was dreadful. It was hard in January and grew worse during February, March and April. I am going to do away with my own life.” Before I would get sick Patrick McGee would beat me and when he would get me in bed when I was sick, he would beat me—and not give me drink or anything, and told me to lie there till I would rot.

### To Be Hanged October 10

Justice Fitzgerald, in pronouncing sentence upon the unfortunate woman delivered a brief but excellent and well timed address. Some of his strictures are particularly pertinent on the conduct of some Prince Edward Island juries. He highly praised the King's County Jury for their fearlessness, the strict adherence to duty and unswerving action on the adduced evidence.

In the name of the Crown he

thanked them for the verdict they had brought down.

His Lordship made special and well-timed reference to the conduct of the jury on the present case as contrasted with the detestable conduct of other weak individuals, sitting on similar cases, who, because of various influences, had been blind to duty.

The verdict in this case will show those who are studying the development of this country, that the plea of insanity is not to be juggled with and that the laws of the land, safeguarding life, cannot be ignored with impunity.

He said that his duty was plain, but that the recommendation for mercy brought down with the verdict would be forwarded to the Secretary of State with whom it would receive full consideration. — and along with consideration of the prisoner's sex, her conditions of life etc., etc., might materially modify her ultimate fate.

In deliberate tones the prisoner was sentenced to be hanged on Oct. 10 between 8 a. m. and 4 p. m. at Georgetown Jail.

She Screamed “Hanged,

Hang Me Now.

The prisoner on hearing sentence, cried “Hanged! Hanged! Hanged, hanged, hang me now and be done with it!”

When taken outside the Court on return to the jail she grew especially violent, threw off her hat and tore her garments.

She was eventually quieted to some degree.

## PHONES FOR DEAF MUTES

Light Takes The Place of Sound in This New Device For Dumb

How can a deaf mute use a telephone? This question had long puzzled William C. Shaw, a deaf mute, who works in the experimental laboratory of the General Electric Company at Lynn, Mass., and he has himself taken the task of solving it. The result is a practical apparatus by means of which deaf mutes can converse with each other or with normal persons at any distance.

Mr. Shaw has exhibited his deaf mute telephone at several technical schools, but it has been received with most enthusiasm at schools for those afflicted as he is.

Instead of sound, light has to be used as the means of communication so “telephone” is scarcely the correct word to apply to this invention. It consists of three essential parts—the sender, the indicator and the receiver, with the electric wires that connect them. The sender is a typewriter. The indicator stands on the table in front of the sender. It consists of a frame about six inches square, in which are mounted thirty-six two-candle power electric lamps, each marked with a letter or figure.

The receiver is a large reproduction of the indicator, being about three feet square and having upon it 36 eight candle-power electric lamps, marked with letters and numbers to correspond with those of the indicator.

The pressing of a key on the typewriter closes an electric circuit which lights on the indicator and on the receiver the lamps bearing the letter of that key. The receiver may be situated in another house. Beside it is a call lamp.

Now, suppose two persons, A and B, desire to talk over the phone. A on his keyboard in his house presses the call button on his typewriter keyboard. This causes the call light in B's house to glow and attracts B's attention. B replies that he is there by pressing the call button on his typewriter and lighting the call lamp in A's house. Then A sends his message, ticking it out upon his typewriter just as he would if writing a letter. The touching of each letter by key is followed instantly by the lighting of the corresponding lettered lamp on B's receiver.

The lamps remain lighted only while the key is pressed down; they go out the instant it is released.

It takes a little practice to follow a message that is sent quickly, but after a short time a man can receive as rapidly as one can operate the keys. Of course the apparatus works both ways sending and receiving being done in either direction.

In its present form this deaf mute telephone requires a wire for each of the thirty-six keys, but as there are cables containing that number of insulated wires this is no great obstacle.

Mr. Shaw was born in 1868, and became deaf and dumb as a result of spinal meningitis at the age of five. He has been married twice, and has by his first wife a boy of twelve who hears and talks perfectly. His second wife is also a deaf mute. His father, a sea captain, took him all over the world in a vain effort to have him cured. He is an old friend of Dr. Alexander Graham Bell, the inventor of the telephone.

### HOW'S THIS?

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.  
We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

Wholesale Druggists Toledo, O.  
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

### BOY SCOUT BUGLERS

The latest addition to Ottawa's musical organizations is the Boy Scouts Bugle Band, which at the present time is a most unpretentious body, but which is expected to develop into one of the best bands of that kind in Canada. In recognition of the splendid work the boys are doing the citizens of Ottawa are presenting the Ottawa association the necessary instruments for a band of eighteen bugles, nine more snare drums and one bass drum, complete with words, sticks, etc. Contributions towards the fund to buy the instruments were received from men of all nationalities who appreciated the imperial spirit of the lads.

A new gold camp has been discovered on the National Transcontinental route in the district immediately south of Hurriannaw, a rapidly growing town 140 miles east of Cochrane, Ontario. This district is in the immediate vicinity of Klonawick Lake, 45 miles south-east of the town.

## BOARD OF TRADE HOLD MEETING

Discussion on Speed of Automobiles and the proposed Bridge.

### NEW MEMBERS

Last Friday evening the Board of Trade met in the Council Chambers under the presidency of Mr. John Harcourt.

After the report of the Council had been received, a resolution relative to the proposed bridge was carried. This resolution was on the same lines as the one passed at the joint meeting on Monday.

The following new members were elected Messrs. E. H. Anderson, F. G. Kerr, J. E. Gallagher, F. E. Shepherd and L. E. Wallace.

The correspondence with regard to the proposed new siding at Dalhousie Street was read, and in the discussion which followed it was brought out that this project was not receiving the consideration which had been promised. The Deputy Minister of Railways had stated that he had forwarded instructions to Moncton regarding this work whereas a letter from Moncton states that the I. C. R. people there know nothing about it.

The clerk was instructed to push this matter ahead.

An interesting discussion arose over the speed of automobiles, but nothing was done beyond the fact that owners of autos might get together and look into the matter of speed.

After votes of thanks had been given to the celebration committee the meeting adjourned.

The Original and ONLY GENUINE BEWARE IMITATIONS SOLD ON THE MERITS OF MINARD'S LINIMENT.

### Notice

Canada, Province of Quebec, District of Gaspe, Co. of Bonaventure. Superior Court.

WITHOUT DOUBT one of the finest summer trips in the land.

### THE DUCHESS OF SUTHERLAND

who though mistress of 1,358,000 acres, long for a quiet life in a cottage. The Duke and Duchess may establish a home in Canada.

### YOUNGEST AUTHORESS

Fairy Glimpses by Three-Year-Old Daughter of Famous Actor

The youngest authoress in the world is Joan Maude, the daughter of Mr. and Mrs. Charles Maude, the well-known English actor and actress, her mother being best known by her stage name of Miss Nancy Price.

Little Miss Maude has published a delightful volume of fairy tales, "Behind the Night-light: The By-world of a Child of Three," and a photograph of the dainty little authoress, who has now reached the mature age of four, forms the frontispiece.

"These quaint beasts who roam that delightful country 'behind the night light' are the exclusive discovery of a child of three," writes her mother in a preface. "Their names, their habits, etc., are entirely hers. My task has merely been to record them in language as near the original as possible. This by-world of hers displays the workings of a child's mind before education has closed the door to spontaneity."

One of the most interesting creatures in this world of which little Joan is the discoverer and explorer, is the Fritchet or Kiekmas. She writes (or rather she dictates to her mother, her devoted secretary) "He can't even keep still, and all the other animals get tired when he's home. But he never stops long nowhere, which is a good thing. He's always going out, and never goes to sleep or gets fed. Kicking and wriggling all day long, he is sometimes called Kiekmas. He is all different colors—it depends how he feels."

"He kicks his clothes off and puts different ones on very quick. They are all made of spring. He is always clawing things and scratching things and biting people, but his bites are no tickle. Nobody likes him particular and he always goes about alone. He can make his eyes and his ears and his mouth, and all parts of him. He's very proud of being able to do this, and he's always doing it; so it's very difficult to see just what he's like. His nose always turns blue off, and he has to tie it on with string round it. He uses white string for his nose."

### UMBRELLA TRAGEDY

Short Prison Term For Man Who Flew to Canada and Australia

Indicted at London for the murder of Ernest Nixy Smith at Chiswick nearly four years ago, William McNamara, a laborer, was found guilty of manslaughter and sentenced to nine months' hard labor.

The case became known as the "umbrella tragedy." Smith, was at Shepherd's Bush, and remonstrated with McNamara because of his conduct towards a woman, whereupon the latter threatened to gouge his eyes out. The prisoner followed Smith to Chiswick, on a tramcar, waited until he alighted, and thrust the ferrule of an umbrella into Smith's left temple, and then ran away. Smith's brain was penetrated, and death ensued. McNamara was arrested at Perth, Western Australia, being recognized by someone who had known him in England.

When in Canada, previous to going to Australia, McNamara, or "Ward," as was sometimes called, saw a man whom he knew and fearing that this man would report his whereabouts, he fled to Australia. After his arrest he was so relieved of no longer having the fear hanging over him that he expressed his satisfaction at having been taken into custody.

### Clinging to the Old Home

At the Llanyrwst, Wales, Board of Guardians it was reported that the Gellionydd District Council had condemned a house inhabited by a pauper as being unfit for human habitation, but that the old lady absolutely refused to leave the premises. A committee was appointed to inspect the house and consult the old lady.

### Antiquary's Discovery

The discovery of what is thought to be a contemporary portrait of Shakespeare was made by Mr. F. Hol land, well known as an antiquary at Llandudno, Wales. He noticed the portrait when visiting a friend. It was on a panel 5 1/2 in. by 5 1/2 in., and bears the signature of "Jo. Taylor." As to the signature of the supposed artist, one Joseph Taylor was well known as an English actor of Shakespeare's time. He was born in 1586, so that when Shakespeare died, in 1616, Taylor was thirty.

### HONORED CAPTAIN COOK

Welland School Children Pay Unique Tribute to Memory of Explorer

The scholars of Welland Public School submitted towards the purchase of a Canadian ensign, which was sent to the Welland Public School at Welland, Ontario, England, known as the birth place of Captain Cook, the famous navigator and discoverer.

Last year the school board of Sydney, New South Wales, sent to Martin School a handsome ensign of the British Empire, a token of honor or of the great man whose discovery of the Pacific did so much to extend and maintain the world-wide British Empire.

The letter accompanying the flag, signed by the Welland Public School children, says: "The Canadian flag is presented to Martin School by the pupils of the public school, Welland, Ontario, Canada, as a token of their interest in the birthplace of Captain Cook, the famous navigator. It is also a tribute to the memory of Captain Cook, who, as an officer in the British expedition accompanying General James Cook, discovered a dis- tinguished part in winning Canada for Britain. The flag is also one of the symbols of the Empire whose world-wide extent is in so large a measure due to the skill, enterprise and discoveries of the great sailor."

The letter is provided with two flagstays, and when the Canadian and Australian ensigns are hoisted they will be tangible evidence of the reality of Empire and of the honor due to the great seaman who gave his life as an Empire-builder.

### ESKIMO NEW WOMAN

The Reindeer Queen of Alaska a Capitalist and Philanthropist

When a woman in an enlightened country makes her way to a front rank in the industrial world the fact soon becomes known and people are eager to learn something of the conditions that brought it about and of the character of the one who accomplished it. One of these—Mary Arlukook Andrewk—has received the title of "Reindeer Queen of Alaska."

"Queen Mary" manages a herd of 1,303 reindeer, which she manages with judgment and intelligence. According to the usual contract made with the government to train and give each the customary number of reindeer. She has done better than this. She has trained and rewarded eight or ten apprentices. She long since discarded the igloo, or native hut, half-underground, in which she was born, and is now comfortably housed near Nome in a cabin of logs. She speaks seven or eight Indian languages, and this has enabled her to be of considerable service as an interpreter.

"Queen Mary" has brought up a number of helpless children, and, having none of her own, has not only cared for them physically, but has also given them a place in her heart. Surely, according to her light, "she hath done her part."

When Wm. Beasley, a young Englishman working on the steamer Gerona was presented with a watch by Mrs. E. Blakey of Picton, Ont. for saving her little daughter Doris from drowning, it came out that Beasley had on other occasions rescued fourteen persons from drowning and this was the first time that he was ever any way rewarded for the saving of lives.

## SKELETONS OF SEA MONSTERS

Rare Specimens of Prehistoric Creatures For The Victoria Museum at Ottawa

Visitors to the Royal Victoria Museum at Ottawa, shortly will be afforded the pleasure of gazing on mounted skeletons of the ancient Mosasaur, a giant reptile which flourished five million years ago, and before the Rocky Mountains had reared themselves from the foam of ocean waves; the titanothereum, another prehistoric monster bearing some resemblance to the rhinoceros of the twentieth century, and Porthous Molossus, a mammoth fish of the cretaceous era in the development of the world's crust.

Interesting specimens of these long extinct species have been purchased by the authorities of the Geological Survey from Mr. Charles H. Sternberg, a renowned fossil hunter of Kansas. The Mosasaur was found by his son, Mr. George F. Sternberg, and the titanothereum by himself. The former comes from the state of Kansas; the latter from Wyoming.

The skeleton of the Mosasaur, which is being put up on a long panel, is that of a reptile 20 and a half feet long with four powerful paddles, and a row of teeth in the roof of its mouth as well as on each side below. Three types of this reptile are found in Kansas. The Mosasaur lived in the deep sea, and the fact that its skeleton was found in Kansas 2,000 feet above sea level is proof that the western continent reared itself from the ocean.

In appearance the titanothereum is more interesting. It is nearly 12 feet long and stands 6 1/2 feet high. It came before either the mastodon or the elephant, and bears more resemblance to the rhinoceros, having two long horns on the end of its nose, four toes on the front feet and three on each of the hind ones. It will stand in a grass case, and will present much the appearance that it did in actual life.

The third specimen, also found on the plains of the west, is that of Porthous Molossus, a fish fourteen feet in length, with a skull shaped like that of an English bulldog, powerful fangs, and fins three feet in length. Mr. Sternberg, through whose agency the specimens were found, has given his whole life to the collection of fossils, which he had sold to museums throughout the world.

### ALASKA'S BIG BEARS

In a Test of Strength They Would Outclass Jungle Beasts

Very few persons really know the largest flesh-eating animals in the world are found in North America. People generally believe that the Alaskan lion is the king of beasts, but he is not nearly as large or as powerful as an animal as the large brown bear of sub-arctic America. The bears are not as ferocious or combative as the lions, nor are they nearly as vicious as they are given credit for being; but the largest of the brown bears of the North would weigh three times as much as the largest specimen of lion and is beyond all question greatly superior in strength. If brought together in combat, the bear would at first appear very clumsy. It would not be capable of the quick rush or the sudden spring of the lion. It would not attack, but would remain entirely on the defensive, meeting its adversary with blows of such rapidity and terrific force as at once to illustrate its superiority not only in strength but in action. There is not an animal in the world that can act more quickly or effectively than the bear. The large brown bears of the Alaska peninsula, south of Bering Sea, are among the largest bears of the world, and there is no part of the world outside of North America in which such large flesh-eating animals are found. The bears are carnivorous, yet there are none of them that depend upon flesh for food, and with most of them flesh comprises but a very small percentage of their food.

### TOBACCO FOR MANITOU

Indians of Manitoba Still Make Peace Offering to Great Spirit

That Indians even yet in passing through the narrows of Lake Manitoba throw pieces of tobacco into the waters to propitiate the spirits of the Great Manitou, was the interesting statement made in Winnipeg by J. J. Wilson, who has resided at the Narrows for a number of years. It is only half a mile across the lake at that point and as Manitou Island is situated almost exactly in the centre of the narrow neck of water, the Indians are called Troubled Waters and are caused, they think, by the anger of the Great Manitou, and the tobacco is in the nature of a peace offering. The name of the province, according to Mr. Wilson, was secured from this narrow neck of water, Manitoba being a corruption of the Indian word Manitowapish, which stands for the island and (wapish) narrow waters.

### ICELANDERS' GLOVE

In Iceland they know nothing, the difficulty concerning right and left hand gloves. In that cold climate gloves are not mere ornaments, but necessities, and it is essential that the wearer should be able to put them on quickly and easily. To provide for this the Icelanders make their gloves thumbs. When the hand is thrust into the glove the thumb readily finds the thumb piece, which accommodates it, and the other piece falls into place.

## Studebaker

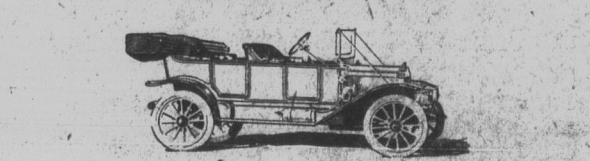

Your Dollar Buys More.

When you buy a Studebaker-E-M-F "30" or Studebaker-Flanders "10" automobile you get more for your money, dollar for dollar, than in any other car built.

There may be other good cars—but what is their price? That's the rub. What a car is really worth, not what it costs, should be your standard.

The Studebaker Corporation has the largest and best automobile factories in the world. We could build—and sell any competing car today for less money than its present price. In your Studebaker-E-M-F "30" or Flanders "20" you get full value, because the biggest factories and the best brains in the industry built these cars.

## STEAMER EARL GREY NOW A ROYAL YACHT

Sumptuously Fitted Out for  
Cruise of the Governor-  
General.

Quebec, July 18.—The government steamer Earl Grey, which has been placed at the disposal of their Royal Highnesses the Duke and Duchess of Connaught, Princess Patricia and suite, by the Minister of Marine and Fisheries has been beautifully fitted up for the accommodation of Canada's royalty. The Duke and Duchess have separate apartments assigned them all in the cabin apartments of the promenade deck. The Duchess' apartments consist of a luxuriously arranged boudoir, with sleeping chamber and bathroom adjoining. The Duke is assigned a spacious bed chamber, dressing room and personal parlor adjoining, which, no doubt, will be retained as a private parlor of the royal family.

Princess Patricia is also well cared for by the allotment of a private suite comprising bedroom, dressing room and bathroom. The members of the household also have special apartments.

The Earl Grey when she sails on Wednesday morning next, with her royal guests, will have on board 144 persons all told. This will include the Ducal party, that will number 34 persons, Lieut. Commander Charles White, R. N., Lieut. F. W. Law and Gilchrist, three warrant officers and 65 Canadian bluejackets from the Canadian cruiser Niobe, besides six engineers and complement of others from the same vessel, 18 waiters and chief steward, and all of the permanent crew of the Earl Grey—in all, 110 of a crew.

**WANTED**  
Dealers to handle Cadillac automobiles. The new car will be the best value for the money in the world. It will have a more powerful motor, equipped with electric self-starting and starting device, as well as electric lights throughout, all operated from self-contained power plant. Applicants should state territory they could conveniently handle, number of cars that could be disposed of in a year, and whether they are at present handling any other make of automobiles, also if garage and repair shop is conducted in connection with their business. For particulars address Hyattor Bros., Limited, General Agents, 501 and 503 Victoria streets, Toronto, Ont.

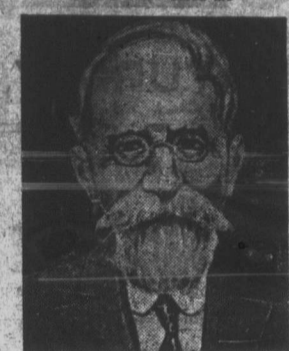

## SCHOONER "ADVANCE" FEARED LOST REACHES NEW YORK IN SAFETY

New York July 23.—Fears for the safety of the schooner Advance, which cleared from Campbellton June 27th, with a cargo of laths for New York were dispelled with the arrival of the vessel here to-day. Fog and strong head wind had delayed the schooner.

The owners, with offices in Halifax, had received no word from the Advance since the day of her sailing and had become anxious about her safety.

## DOCTORS COULD NOT HELP MY KIDNEYS

"Fruit-a-tives" Cured Me

CAMPBELLTON, ONT., JAN. 25th, 1912.  
"For over twenty years, I have been troubled with Kidney Disease and the doctors told me they could do me no good. They said my case was incurable and I would suffer all my life. I doctored with different medical men and tried many advertised remedies, but there was none that suited my case. Nearly a year ago, I tried 'Fruit-a-tives'. I have been using them nearly all the time since, and am glad to say that I am cured. I have no trouble now with my kidneys and I give 'Fruit-a-tives' the credit of doing what the doctors said was impossible. I am seventy-six years old and am in first class health."  
GEO. W. BARKLEY.  
50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

## A VETERAN VESSEL

The Oldest Steamer on the Clyde is to be Retired

Henry Bell's Comet, the precursor of the present-day steamer and tug, has no more worthy or hardy offspring than the tug "Clyde," which can be seen daily at her accustomed task of towing punts with dredgings up and down the river Clyde.

Among pilots and skippers who regularly frequent the river she is known familiarly as "Nancy and Her Chickens," from the fact that she is invariably met towing a long train of punts. She is without exception the oldest steamer afloat on the river, having been built by Henderson and Coulson, shipbuilders, Renfrew, and signed by A. and J. Inglis, Port Glasgow, in the year 1861. She is shortly to be replaced, however.

It is worthy of note that previously the record for long service on the Clyde was held by the paddle steamer industry, which was built by Fife, of Fife, in the year 1814, and was engaged in the coasting trade for the long period of 58 years.

**Oldest and Youngest Gael**  
Mrs. Kitty Campbell, of Louth village, Ireland, who is 103 years of age, is the oldest Gaelic speaker in that country. She has a distinct recollection of the famous "Wild Goose Lodge" burning, which took place in 1817, within a few miles of her home. Her second oldest daughter, who is still living with her, is over seventy-two. Her retention of the language is wonderful, as it has not been spoken in that district for over fifty or sixty years past. In the same village there is a six-year-old child who has already won several prizes in Irish singing and step-dancing.

## ARE ENJOYING THE HIGH TIDE OF PROSPERITY

J. P. Edwards, of the Drummonds, Here With Cherry Words of Business Outlook in Maritime Province.

"The maritime provinces are certainly enjoying the high tide of prosperity," said J. P. Edwards, manager of the Drummond works at Londonderry (N. S.), in speaking to a Telegraph reporter last evening. "You can see for yourself what is going on right here in St. John out at Courtenay Bay. In the northern part of New Brunswick at Bathurst, the scene of the Drummond mines, business conditions are most encouraging and the same can be said of the big Nova Scotian centres. The erection of the big car works at New Glasgow and the nail works and other factories at Sydney are keeping things on the move and creating quite a stir in the business atmosphere.

"The iron industry in particular is in a very prosperous condition at present." The general prosperity throughout the country in addition to the big strikes on in England, has resulted greatly in accentuating the prices of iron and also in increasing the output.

While the Drummond concern was planning no new developments in the lower provinces just at present, Mr. Edwards said that their many branches were all rushed with business and were looking forward for even better times. Mr. Edwards is at the Royal.

During the summer months mothers of young children should watch for any unusual looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.

An Irishman was once serving in a regiment in India. Not liking the climate, he tried to fix up some excuse whereby he would be sent home. Accordingly he went to the doctor and told him that his eye sight was poor. The doctor looked him over for awhile, and then said: "How can you prove to me that your eyesight is poor?"

The man looked about the room, and at last said:

"Well, doctor, do you see that 'nail on the wall'?"

"Yes," replied the doctor.

"Well, then," replied the man. "I can't."

"I believe honesty pays in the long run."

"So do I, but I often wish it were not such a mighty long run."

## Woman's Best Help to the good health which comes from regular action of the organs of digestion and elimination—to freedom from pain and suffering— to physical grace and beauty— is the harmless, vegetable remedy **BEECHAM'S PILLS**

Sold everywhere. In boxes, 25c.

## CONFESSES POISONING HER CHILDREN

Georgetown, P. E. I., July 22.—Mr. Duncan A. Stewart, Georgetown, on Saturday succeeded in obtaining from Mrs. McGee the confession of the commission of the crime for which she was on Friday found guilty.

It was brief; the signed statement procured reading much as follows:—

"I, Minnie McGee, confess to having administered the end of matches containing sulphur and phosphorus to my children in April last. I gave it to them in sugar and water. I was feeling bad at the time I did it."

MINNIE MCGEE.

This statement was filed in the court on Saturday and is expected to have an influence in shaping the fate of the unfortunate woman. The whole case will make an exceedingly interesting addition to medico-legal happenings.

## NA-DRU-CO LAXATIVES

Women's commonest ailment—the root of so much of their ill-health—promptly yields to the gentle but certain action of Na-Dru-Co Laxatives. 25c. a box at your druggist's. NATIONAL DRUGS AND CHEMICAL CO. OF CANADA, LIMITED. 161

## 75 NEW POST OFFICES

Ottawa, July 18.—Seventy-five new post offices were established in Canada on July 1st. This is regarded as a striking indication of the growth of the population.

Saskatchewan, with 2 new offices head, the 1st, and Alberta with 18 is second. Quebec has 12 new ones and Ontario 7. Petitions for rural mail delivery come mainly from Ontario and number about 75.

Buy it now. Chamberlain's Colic, Cholera and Diarrhoea Remedy is almost certain to be needed before the summer is over. Buy it now and be prepared for such an emergency. For sale by all dealers.

## OLD PERUVIAN MINE

Source of Incas' Precious Stones Found by Greek Tavern-keeper

According to C. R. Keller, a noted mining engineer, who has made a survey of the Andean gold belt throughout Peru, the principal source of the wealth of precious stones of the Incas may have been revealed near the little town of Acomayo, in Southern Peru.

A Greek tavern-keeper named Kalafatovich has discovered an emerald mine which bears evidence of having been worked by the ancient Peruvians, about one mile from Lake Pomachanchas, and near the river forming the outlet for this lake. Samples of the stones sent to Lima show them to be of the finest quality.

The tavern-keeper discovered the first emerald while watching his Indian workmen digging in the old excavation for material for lime. In three oblong pockets were found many stones, one of which weighed nearly 300 carats in its rough state.

Kalafatovich had given an option to a London syndicate, but the Government has asserted its right to take over the mine by paying an equitable price to the discoverer, and to work the mine itself or lease it to private individuals.

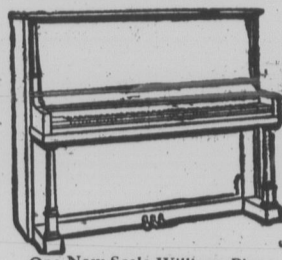

Keller says the discovery of the emerald deposit is one of the most important ever made in the world.

Only the First Nomination Blank Cast Counts 1000 Votes.

Cut this out and send to CONTEST EDITOR GRAPHIC, Campbellton, N. B.

## Who may enter this Contest.

Any lady (married or single), any man any boy or girl, is eligible to compete, providing the conditions set forth below are complied with.

Every candidate must be regularly nominated in writing on the blank printed in this paper, or a similar blank furnished by the Graphic.

No candidate will be permitted to transfer votes to another after receiving them for himself.

All money paid on subscriptions must be sent direct to The Graphic and on receipt of remittance, credit will be given.

Contestants are not prevented from securing subscriptions or votes anywhere, as votes will be allowed on any paid in advance subscriptions. If an order for a subscription is sent with the money votes will be issued in favor of any contestant that the writer may designate, and returned to the subscriber or mailed to the contestant if so desired. List of subscribers will be furnished if desired.

Any person wishing to withdraw from the contest must write us personally.

Candidates may be nominated in the regular way or they may nominate themselves, either by the enrollment coupon or letter or they can be nominated by a friend.

All nominations must be accompanied by the proper home address of the candidate.

It is not necessary to be a subscriber of the Graphic to become a candidate.

No employee of the Graphic nor member of his or her immediate family may become a candidate.

The Contest Editor reserves the right to reject any candidate of contestant he may consider undesirable, without giving a reason for doing so.

A board of three responsible business men will have exclusive control of the ballot box the last day of the contest and make the announcement of the result of that day's voting and declare the winners.

A list of candidates and their number of votes will be published each issue during the contest.

## Value of Subscriptions.

CONTEST EDITOR, GRAPHIC,  
CAMPBELLTON, N. B.

A root cellar like this won a prize last year.

THE drawing was made from a photograph of the root-cellar with which D. A. Purdy, of Lumsden, Sask., won a cash prize in last year's contest. In that last contest there were 36 prizes. There will be three times as many prizes (108) in the

**1912 FARMERS' PRIZE CONTEST**

THUS you will have three times as many chances of winning a cash prize. You do not have to use any certain amount of Canada Cement to win a prize. There are absolutely no "strings" to this offer.

There are twelve prizes for each Province (three of \$50; three of \$25; three of \$15; and three of \$10) and you compete only with other farmers in your own Province and not with those all over Canada.

It makes no difference whether you have ever used cement. Many of last year's winners had not used it until they entered the contest. When you write for full particulars, we will send you, free, a book, "What the Farmer Can Do With Concrete," which tells everything you need to know about concrete. It is absolutely free, and you are under no obligation to buy "Canada" Cement or to do anything else for us.

WRITE your name and address on the coupon, and mail it, or use letter or post card, and we will send you at once the book and full particulars of the 1912 Prize Contest.

Mr. and Mrs. H. C. Chisholm spent Sunday with H. H. Brown and family.

Mr. Howard Hardy and Charles Fallan were guests at F. McKays last week.

### CONVERT STEAMERS INTO CRUISERS

Hon. J. D. Hagen Admits Question Was Discussed.

London, July 25.—Hon. Mr. Hazen, the Canadian minister of Marine and Fisheries who accompanied Premier Borden to England replying yesterday to a deputation from the Imperial Marine League, declared that he was violating no confidence when he said that the question of converting merchant ships into armed cruisers in time of war was discussed in the last few days between the members of the Canadian Government who are now here and the admiralty authorities.

"In order to make such liners effective" added Mr. Hazen, "guns and ammunition would have to be supplied at the ports on either side of the Atlantic between which the vessels ran, so that in the event of hostilities they would at the earliest possible moment be placed in a position to attack or assist other vessels attacked."

"It had been suggested" Mr. Hazen said "that in the event of Canada contributing to the British navy that contribution should not effect a reduction of what Great Britain should do, but should be a contribution to supplement what the mother country undertakes. That is the view which we have taken here during the deliberations, and which we have tried to put before the authorities."

Sir William MacKenzie who sailed for Canada yesterday, declared strictly in favor of three dreadnaughts from Canada to be donated immediately for use.

Ottawa, July 25.—Hon. Robt. Rogers, minister of the Interior is expected back from the west the middle of next week. It is not thought likely he will take a trip to England as he at first planned. Hon. R. L. Borden and the other Cabinet ministers are expected back about the end of August when the Cabinet will at once take up the naval policy and other important matters. Mr. Rogers will not have time to make a trip of any length and would not want to be in Ottawa when these questions are under discussion.

Hon. W. J. Roche, secretary of state will be back a week from Monday. He is greatly improved in health.

### DROWNED TRYING TO SHOOT RAPIDS

Sault Ste. Marie, Ont., July 25.—In an attempt to shoot the Sault Rapids in a canoe, Alex. Scott, son of Captain Scott of the steamer Collingwood, was drowned, and Alex. Webber, also of Collingwood, had a narrow escape. Both men were wheelmen on the Collingwood.

## OAK HALL'S GREAT CLEARING SALE

STARTS SATURDAY, JULY 27

- 1st.—This will be the greatest clothing sale in the history of the town, as we carry the very best goods that skilled labor and bench hands can produce.
- 2nd.—We buy our goods for CASH and sell for CASH, which enables us to give you at least 10 per cent. cheaper than elsewhere.
- 3rd.—We do not carry any goods over from year to year, hence you will note by the prices that we mean business, so do not fail to be on hand to get some of the bargains.
