## ACCUSE HIM OF THROWING WIFE OUT OF WINDOW

Charles Daley of Pittsburg  
Arrested Yesterday on a  
Sensational Charge

### STORIES DISAGREE

(Special to the Morning Graphic.)  
PITTSBURG, Pa., Tuesday. — Accused of having thrown his wife from the third story of their home on the North Side, Charles Daley, 45 years old, was arrested this morning after Mrs. Daley had been found lying unconscious on the pavement in front of the house early today. Daley denies the charge and insists that his wife jumped from the window. According to Mrs. Daley she and her husband had a quarrel and he struck her and tried to choke her. A pitched battle ensued and finally forcing her to the window, he picked her up and deliberately threw her out. Daley on the other hand declares that his wife was trying to escape from him and that she jumped from the window not realizing at the time what she was doing. Mrs. Daley is seriously injured.

### MAY WIPE IT OFF THE EARTH

When an eminent authority announced in the Scranton (Pa.) Times that he had found a new way to treat that dread American disease, Rheumatism, with just common everyday drugs found in any drug store, the physicians were slow indeed to attach much importance to his claims. This was only a few months ago. Today nearly every newspaper in the country even the metropolitan dailies, is announcing it and the splendid results achieved. It is so simple that any one may prepare it at home at small cost. It is made up as follows: Get from any good prescription pharmacy Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking in a bottle and take in teaspoonful doses after each meal and at bedtime. These are all simple ingredients, making an absolutely harmless home remedy at little cost.

Rheumatism, as every one knows, is a symptom of deranged kidneys. It is a condition produced by the failure of the kidneys to filter or strain from the blood the uric acid and other matter, which if not eradicated, either in the urine or through the skin pores, remains in the blood, decomposes and forms about the joints and muscles, causing the untold suffering and disability of rheumatism.

This prescription is said to be a splendid healing, cleansing and invigorating tonic, to the kidneys and gives almost immediate relief in all forms of rheumatism, uric acid troubles and back ache. He also warns people against the discriminate use of many patent medicines.

\$100.00 paid by Dr. Shoop for any recent case of grippe or acute cold that a 25 cent box of Preventives will not break. How is this for an offer? The Doctor's supreme confidence in these little Candy Cold Tablets—Preventives—is certainly complete. It's a \$100, against 25 cents—pretty big odds. And Preventives, remember, contain no quinine, no laxative, nothing harsh or hurtful. Pneumonia will never appear if early colds were always broken. Safe and sure for feverish children. 48 Preventives 25c. A. McG. McDonald.

### SPLENDID SPORT AT DALHOUSIE YESTERDAY.

DALHOUSIE, Tuesday. — All attendance records on the North Shore were broken here today when over 1200 people congregated at the ice track to witness a program of sports which occupied a portion of the morning and nearly all the afternoon.

The weather was showery in the morning and had it not been so a much greater number would doubtless have been on hand.

The first class called was the twenty eight trot and pace, there being four starters, viz.—Speculation, Jr., owned by Alderman McMurdo of Newcastle and driven by S. P. Bishop, of Bathurst, Ida May, owned and driven by Clarence Cool of Campbellton, Queen of Hearts, owned and driven by Dennis Arsenau of Balmoral, Cora S., owned and driven by George Hallett, Speculation, Jr., had an easy win in straight heats, Ida May getting three seconds and Queen of Hearts third money. Time 2:34, 2:35 and 2:37.

The next class called was the 2-minute class, there being three starters, viz., Midget, owned by T. Ellsworth and driven by Ernie McGowan of Memramcook, Queen of Hearts, and Prince, owned by S. LeBlanc of Dalhousie. Midget won the race in straight heats with plenty of speed in reserve. Time 2:41, 2:37 and 2:35. The free for all was called at four p. m. Violet B., winning the race, Lucy second money, Abbott Jr. third money and Speculation Jr. fourth money.

There were some large bets placed last night between Lucy's followers and the backers of Abbott W. and Violet B. combined together that Lucy would not win the race and it seemed that the way the driver of Abbott W. would take the grey mare at a killing pace for the first half and then let the Bathurst mare beat her home that the Bathurst mare and Abbott W. were out to trim the grey mare. Time 2:29, 2:32, 2:36, 2:38 and 2:40.

## PULP MILL IS NOW RUNNING BY WATER POWER IN THE WEST

It is the Big Mill of the Canadian Pacific Sulphite Pulp Co'y

### INTERESTING INTERVIEW

(Special to the Morning Graphic.)

VANCOUVER, Tuesday.—The big saw mill of the Canadian Pacific Sulphite Pulp and Paper Company at Swanson Bay is now running by water power. E. J. Coyle, assistant general passenger agent of the C. P. R., who returned yesterday from a northern trip, stated that the water power was turned on at the mill while the steamer Amur was lying at Swanson Bay on her way south.

"This company is proceeding steadily with the construction of its plant at Swanson Bay," said Mr. Coyle, "and it would be quite a revelation to many Vancouver people to see the enormous amount of work already completed. It will be the fall of this year before pulp making is in progress, according to the expectations of J. M. Mackinnon, manager of the company."

During his trip Mr. Coyle visited the Queen Charlotte Islands, and he found considerable activity in mining there. The copper deposits are attracting a great deal of attention, and some considerable development work is being carried out on a number of claims. The valuable timber and coal lands of the island are also coming to the fore share of attention, and the outlook is that the islands will be the scene of great activity during the coming months.

Gary, the Chairman of the Board of Directors of the United States Steel Corporation, said that it was the sentiment of the meeting that there should be no change in the price of steel.

### Do Not Crowd the Season.

The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia when it is used. It is pleasant and safe to take. Children like it. For sale by all druggists.

After hearing all the witnesses the magistrate threw the case out. George Gilbert appeared for the plaintiff and James J. Byrne for the defendant. The matter of the \$800 bail for a \$2.50 stove is considered quite a joke among our citizens.

## CAR WHEEL COY TO ESTABLISH HERE.

Company Looking for Concessions from Sydney and New Glasgow.

## CONCESSIONS ASKED FOR "Klondike Dan" Arrested in Smuggling Cases at Sydney.

(Special to the Morning Graphic.)  
SYDNEY, Wednesday. — United States Consul Shirley of Charlottetown, P. E. I., approached the city council last evening with a proposition looking to establishment of the Canadian branch of the Illinois Car Wheel Company. The Canadian Car Wheel Company, The Canadian Car Wheel Company, is capitalized at four hundred thousand dollars, fully subscribed and ready to employ, when in operation, about seven hundred men with a pay roll of thirty-six thousand dollars per year. The company asks for free site and concessions in the matter of water, light and property tax. A committee has been appointed to go fully into the matter and report later. The proposition is also being submitted to New Glasgow, but it is understood that Sydney is to be given the preference on account of superior shipping facilities.

Interest in the Chinese smuggling case which caused such excitement in legal and customs circles since the rounding up of celestials last September was again aroused yesterday by the arrest of Daniel J. McDonald (Klondike Dan) by Deputy Sheriff Ingraham on the Sydney and Glace Bay railway car at Reserve Junction. The warrant was issued last September and authorities succeeded in rounding him up only today. The charge is aiding and abetting twenty-one Chinese to enter Canada contrary to the statute. McDonald was released on his own recognizance for \$500.

HALIFAX, Wednesday. — Dan J. McDonald, the celebrated smuggler, charged with aiding and abetting twenty-one Chinese to evade immigration laws and arrested last night after a chase extending over some months, was brought before a magistrate for preliminary hearing this morning. The case has been adjourned.

## ATTEMPT IS MADE TO WRECK BRIDGE

Charge of Dynamite Placed  
Near One of the  
Abutments

ILL FEELING THE CAUSE.

(Special to the Morning Graphic.)  
SOUTHAMPTON, N. Y., Wednesday. — An attempt to wreck the new Pennsylvania railroad bridge over the Harlem river between this city and Southamptown, was made today. A charge of dynamite was exploded near one of the bridge abutments causing a damage of \$2,000. The bridge did not fall although it was left in a condition regarded as unsafe. This structure was only recently completed and trains were run across it yesterday for the first time.

About midnight last night a watchman who was guarding the structure saw two men prowling about it. An hour later a quantity of dynamite was exploded at the base of one of the abutments with force sufficient to awaken residents several miles distant. The police suspect that the attempt at destruction is the outcome of ill feeling over the employment of men to build bridges.

## WEIRD CUSTOMS OF DOUKHOBORS.

Forbidden Use of Towels and Lamps—  
Are a Misguided People.

FOLLOW PETER VEREGIN

(Special to the Morning Graphic.)

WINNIPEG, Wednesday.—Troubles are increasing among the Doukhobors in Yorktown, Saskatchewan district. Peter Veregin's latest order is to forbid the use of lamps in the house. Members of his community are throwing handkerchiefs and shawls in their stoves, and burning them, following the example of their leaders. These repressive measures are causing great dissatisfaction.

A pathetic story is narrated in this connection of an old woman who sick child required some attention during the night. He dared not light a lamp according to order. When the child became very ill the woman lit a lamp, but was immediately compelled to put it out by his wife, whose faith in the traditions of the Doukhobor religion was stronger than her affection for her own child.

## ARGUMENTS OF THE PROMOTERS

Reasons Why Gov't Should  
Assist Inter-provincial  
Bridge Co'y

MEMO TO MINISTER

Will be a Great Stimulus to Trade  
of New Brunswick and  
Quebec

(Special to the Morning Graphic.)  
OTTAWA, Wednesday.—The following is the text of the memorandum presented to the Dominion government in support of the application for the construction of the Bestigouche Interprovincial combined railway and highway bridge, which application was laid before the Minister of Railways and Canals by Hon. Mr. Lemieux and Messrs. Macell, Reid, Carvell, Turgeon, Michaud, and Macleod, of Campbellton, last week. — Memorandum in support of Application of Interprovincial Railway Bridge Company of New Brunswick for guarantee of its first mortgage bonds to amount of \$650,000.

This bridge will span the Bestigouche River between Campbellton N. B. and Mission Point, Bonaventure, Quebec, and will connect the railway system of the Gaspé Peninsula being the Atlantic, Quebec and Western Railway, with the railway system of New Brunswick at Campbellton, where it will join both the Interprovincial Railway and the International Railway of New Brunswick.

The Atlantic, Quebec and Western Railway will be completed to Gaspé Harbor next year, and the International will be completed from Campbellton to the St. John River by the end of the present year.

During the greater part of the winter, when the Bay des Chaleurs ports are closed, large quantities of lumber originating on the Interprovincial will be shipped from Gaspé—an open port for most of the winter—to the English markets.

Fish, lumber and other products of the Gaspé Peninsula may be shipped via Campbellton over the Interprovincial railway to Halifax and St. John, for the West Indies, and also to Mexico and South Africa, thus encouraging development of the Gaspé Peninsula, and adding to the traffic of the Interprovincial railway.

The fishing industries of the Gaspé coast are capable of indefinite expansion.

Campbellton is the natural market for a large section of Bonaventure. By getting connection at Campbellton with the International railway a much shorter route will be given from the Gaspé Peninsula to the New England markets, for fish, shingles, lumber and farm products.

The stimulus which the building of the bridge and the completion of this important railway system will give to the section of Quebec extending from Mission Point to Gaspé about 230 miles in length, will create a greatly increased demand for merchandise and manufactures, which will come from Montreal, Quebec and other western wholesale and manufacturing centres over the Interprovincial.

There will also be a greatly increased demand for West India products in Bonaventure and Gaspé counties all of which will come over the Interprovincial railway.

There are already several large lumber and mill industries along the Gaspé coast and more are in contemplation. There will be larger pulp mills established in Bonaventure, a considerable portion of whose product will be sent by railway over this bridge and the International railway to the American markets. The raising of potatoes in Bonaventure and Gaspé (for which they are admirably adapted) will be greatly stimulated by reason of the short haul to the American markets, via this bridge and

But the strangest order is one forbidding the use of towels, and one which the communists are trying to keep secret. After washing themselves the communists dare not dry their selves with towels. They are true to the drying quality of the atmosphere. The encouragement of the use of eggs and milk has been ordered, now that all chickens have been sold by the leader's order, and only a few crows are left in each village. Through the whole winter these misguided people have been hauling hay and moving their paraphernalia from village to village, in many cases distances of from thirty to forty miles, killing their horses, suffering themselves, lamenting their fate, but still faithful to their leaders, all to no purpose.

TRADE WITH BRITAIN

Board of Conciliation for the Disputes Between Men and Operators at Springhill.

(Special to the Morning Graphic.)  
OTTAWA, Wednesday. — Mr. Fielding informed Borden that in the session of 1899 the government granted a subsidy of \$1,000,000 towards the Quebec bridge, of \$2,000,000 to the Quebec Bridge Company, receiving the guaranteed bonds of the company to the amount of \$475,700. In the session of 1907 the government guaranteed bonds to the amount of \$5,678,200, the cost of the Quebec bridge including the Chaudiere bridge and railway approaches, to March 1st, 1908, was \$5,399,025.

Miller resumed the debate on the budget and handed out some flattery to Sir Wilfrid. He referred to the Toronto Globe's article re King Haakon favoring the Ross rifle for the Norwegian army.

Colonel Worthington said that was contradicted in the Montreal Star next day. Lake criticized the government expenditure and spoke of the great loss to western farmers by a shortage of cars.

Schell spoke on the increase of Canadian trade with Britain and the House adjourned at 6 o'clock.

The labor department has received an appropriation for the coal miners at Springhill, N. S., for a conciliation and investigation to adjust matters in dispute between the men and the company in reference to wages and hours of labor. Some 1600 men are concerned in the dispute. This is the fourth appropriation from the Springhill miners within a year.

OTTAWA, Wednesday. — The General Post-office, London, has again called the attention of the Canadian Postoffice Department to several cases of parcels mailed in Canada addressed to the United Kingdom, which, on being opened at Liverpool for customs examination, have been found to contain matches, and in one case fireworks. The enclosing of matches and other inflammable or explosive materials in mail matter is a most serious offense, as it is liable to endanger the safety of vessels and the lives of passengers. Inquiry by the Postoffice Department into these cases shows that the persons at fault are for the most part new arrivals from the old country, and invariably plead ignorance of the law. The department is so much impressed with the seriousness of this offense that it is determined to bring the next case to trial in order to put a stop to a most dangerous practice.

## AUSTRALIA'S LOVE FOR THE YANKEES

The Feeling is Stronger Than One of Mere  
Friendship—News of Arrival of Fleet

OPEN ARMS RECEPTION.

(Special to the Morning Graphic.)

SYDNEY, Wednesday. — There was a dramatic scene today at a great gathering of citizens when at the conclusion of an address on the subject of national defence, the premier, Alfred Deakin, read a cablegram announcing that the American fleet of battleships would visit Sydney and Melbourne. He called for three cheers for the United States and the audience rose en masse and responded with a cheering hurrahs.

The prime minister said that he was sure such a welcome as an American fleet had never known, outside of its own country, will be accorded it by Australia, and the cheering that followed this statement seemed evidence of the fact that the Australians, one and all, have a feeling, stronger than mere friendship, for the American people and their navy.

The visitors were out-classed in every point and the game went to our home team by a score of 7-1. Craswell was the star of the evening, making many brilliant plays and receiving much well-merited applause. O'Keefe played an excellent game and seemed to be able to get the rubber when he wanted it. The goal keeper of the Moncton team deserves special mention for many excellent stops made and had it not been for his quickness the score in favor of Campbellton would have been much larger. The game was fast, clean and interesting throughout. There was skating after the game with hand in attendance.

# BONAVENTURE COUNTY COUNCIL.

A general meeting of the County Council of the County of Bonaventure, was held at the Town Hall, New Carlisle, on Wednesday, March 11. There were present:—Messrs. John Clement, Mayor of Paspébiac, A. Beaton, Pierre Doreche, Mayor of Port Daniel East, B. Gauthier, Mayor of Bonaventure, A. Dugas, Mayor of St. John, J. Doherty, Mayor of Escomin, John S. Mill, Mayor of Matapédia, E. W. LeGallais, Mayor of New Richmond, Thomas Busted, Mayor of Mann, R. O. Styles, Mayor of Matapédia, F. J. Chapados, Mayor of Gascons, W. A. McPherson, Mayor of Port Daniel Centre, J. Richard, Mayor of St. Alexis, James Hall, Mayor of New Carlisle, Napoleon Garant, Mayor of Caplan, L. Roy, Mayor of Nouvelle, forming a quorum under the Provisions of the Municipal Code of the Province of Quebec.

Messrs. L. J. Riopel, T. A. Blanchet, and Edward Mill, advocates of the New Carlisle Bar, and Messrs. J. Kelly, A. O. Wilson, H. Bedard and many others attended the meeting. The Secretary Treasurer, L. P. LeBel, upon Mr. John Clement, Mayor of Paspébiac, and Pro-Vice-President of the County acting as chairman of the meeting, in view of the absence of Mr. Robert Noble, Mayor of Restigouche, and Warden of the County, due to illness, read the minutes of the last meeting of the County Council.

The minutes were duly adopted as read by the secretary treasurer, on the motion of Mayor E. W. LeGallais, seconded by Mayor Fallow. The first item of business disposed of by the council was the nomination of the Warden of the County, as provided by the Municipal Code of the Province of Quebec. Mayor Fallow therefore proposed, seconded by Mayor Garant, that Mr. Thomas Busted, Mayor of Mann, be nominated Warden of the County for the current year.

Proposed in amendment by Mayor McPherson, seconded by Mayor Doreche, that Mayor Chapados be nominated Warden of the County for the current year. For the amendment: Mayors Beaulieu, Doreche, Gauthier, Dugas, Roy, Hall, LeGallais, McPherson, Richard, Garant, Fallow, Mill, Doherty, Styles. The amendment being carried, the motion was declared lost. Mayor Chapados then took the chair as Warden of the County for the current year, making a few appropriate remarks upon the honour conferred him. Mayor Chapados duly took the oath of office as the Warden of the County, being sworn in by Mayor Styles. Mayor Basted thereupon drew the attention of the Council to the fact that the entry of the same should be entered in the Minute Book of the Council both under the provisions of the Municipal Code as well as under a past resolution of the Council, apart from an entry in a separate book for the purpose of such oaths. After discussion the secretary treasurer was instructed to enter the Warden's oath of office in the Minute Book of the Council and that the Warden-elect should sign the same.

A vote of thanks, unanimously adopted by the Council, upon the motion of Mayor LeGallais, seconded by Mayor Styles, was further passed by the Council to the ex-Warden, Mr. Robert Noble, for past services rendered as such.

Report of the local council of St. Alphonse, of Caplan, to the Council of the County of Bonaventure, with the object of declaring what is known as the Dion and Dube Road, connecting the said Municipality with that of St. Charles of Caplan, as a local road at the charges of the parties interested. Instead of a county road, at the charges of the Municipality of St. Alphonse, as heretofore decided by the Council by resolution of 1904, Mr. J. Riopel advocate, acting for the Municipality of St. Charles, and Mr. Blanchet, acting for the Municipality of St. Alphonse. After a long and legal discussion of the whole, and after adjournment for the dinner hour, it was finally resolved upon the motion of Mayor Styles, seconded by Mayor Busted, that the resolution of this Council, passed in 1904, declaring the Dion and Dube Road a county road, and under the authority of the Provincial Government, be adopted and confirmed. Moved in amendment by Mayor Roy, seconded by Mayor Doreche, that the resolution of 1904 in question, be amended so that the said Road be declared a Local Road, at the equal charges of the Municipalities interested.

For the amendment, Mayors Roy, Doreche, Dugas, Basted, McPherson, Styles, Gauthier, Styles, Hall, Doherty, Garant, Busted, LeGallais, Richard, Fallow. The amendment being lost, the main motion was declared carried. The questions relative to the Insane Tax were then fully entered into by the Council, and finally decided by it that all receipts of the Council should be deposited in La Banque Nationale at New Carlisle, and paid out according to the resolutions of the Council.

Captain W. T. Smith was then laid before the Council and adopted thereupon the motion of Mayors Busted and Clement.

The secretary treasurer read letters and communications from the Council of the County of Nicolet, regarding the passing of a resolution by this Council, praying the local government at Quebec to assume the cost of the maintenance of the insane inmates of the asylum and reformatory schools throughout the province.

After discussion by the Council the following resolution was adopted, upon the motion of Mayor McPherson, seconded by Mayor Roy. Be it resolved by this Council that the payment by Municipalities of the maintenance of patients at the asylums and reformatory schools of this province is a burden and constant cause of trouble for both the local and county municipalities, as in the majority of cases those who are legally bound for such maintenance are poor destitute of resources, and insolvent. The municipalities, as a matter of consequence find themselves burdened with heavy costs. The present system also gives rise to serious trouble to the municipalities concerned through contentions and resistances, finally finding themselves compelled to undertake disagreeable and ruinous litigation with one of its own funds. That the municipalities are unequally divided as to the number of insane and their maintenance, and that within the limits of a certain territory, the experience is that one municipality is heavily burdened with the maintenance of many patients at the asylums, and this for the most part, as compared with others who are not in the same position, during the same period; that the assessment on all the municipalities of the County by the County Corporation of Bonaventure, of the money that it has paid and that it has been unable to collect from the responsible parties is unjust because the municipalities who have already released themselves from such heavy burdens are obliged in like instances to pay twice;

That a further grave injustice results, and contentions follow from the fact that certain municipalities entered at the charges of municipalities who should not be liable, it often happening that notwithstanding the prudence of the government officials a portion of the patients are sent to such municipalities, whereas he has often been intervened without the intervention of the municipal authorities, who as a matter of fact, such patients or patients were strangers to the municipality in question and merely transient therein, many instances of this, particularly in the case of the necessary amounts in the collection Roll for the current year.

That for this and other excellent reasons that could be cited in support hereof when necessary, the Municipal Council of the Corporation of the County of Bonaventure, is of the opinion that the maintenance of patients at the asylums and reformatory schools of this province by the Provincial Government itself, would be the most expeditious way, the most equitable and the most convenient, the whole of which could be established upon a basis of New Carlisle. It was decided by the Council after discussion of the question at the present session of the Legislature of Quebec.

Wherefore the Corporation of the County of Bonaventure, who like all the other County Corporations, has suffered from the system actually in vogue, pray that the Government of this Province be requested to adopt a law by which the maintenance of the municipalities from the costs of maintaining such patients or inmates at the asylums and reformatory schools, and place the whole at the charge of the Provincial Government.

That a certified copy of this resolution be forthwith sent to the provincial government by J. H. Kelly, Esq., a member of the Legislature, and by the County of Bonaventure.

The secretary treasurer called the attention of the Council to the repairs necessary to the Registry Office at New Carlisle. It was decided by the Council after discussion and upon the motion of Mayor McPherson, seconded by Mayor Fallow that a committee composed of Mayors Clement, Styles, Gauthier, Styles, Hall, Doherty, Garant, Busted, LeGallais, Richard, Fallow. Moved in amendment by Mayor Roy, seconded by Mayor Doreche, that the resolution of 1904 in question, be amended so that the said Road be declared a Local Road, at the equal charges of the Municipalities interested.

For the amendment, Mayors Roy, Doreche, Dugas, Basted, McPherson, Styles, Gauthier, Styles, Hall, Doherty, Garant, Busted, LeGallais, Richard, Fallow. The amendment being lost, the main motion was declared carried. # EAT ORANGES

IF YOU WANT TO KEEP WELL  
Careful tests have proved beyond question that orange juice has clearly defined medicinal virtues. Those who suffer with indigestion are compelled to diet—and that after eating oranges regularly for breakfast there is no distress, no palpitation. Where there was a tendency towards constipation, the eating of oranges regulated the bowels. In skin troubles, those who began the morning meal with an orange were noticeably improved.

There is, however, a quicker way to get better results. This is to take one or two "Fruit-a-Liver" tablets at bedtime in addition to the juice of an orange before breakfast the next morning. "Fruit-a-Liver" are the juices of oranges, apples, figs and prunes, in which the medicinal action is many times intensified by the special way of combining them. Valuable tonics are then added.

"Take the juice of an orange before breakfast—take 'Fruit-a-Liver' at night—and you will quickly be rid of Indigestion, Stomach Troubles, Constipation and Biliousness. 'Fruit-a-Liver' are sold by all dealers at 25c a box—4 for \$1.00. Sent on receipt by 'Fruit-a-Liver,' Limited, Ottawa.

AUSTRALIA'S LOVE FOR THE YANKEES.

minister of defence, Thos. E. Winning, declaring that the presence of Americans in the Pacific would be most gratifying to all Australians. "We feel that our future in the Pacific," he said, "is bound up with that of the United States."

Premier Alfred Deakin was not flattered by the American people when he invited them, through Consul General Bray, to come to Australia. In his opinion, he said, it is bound up with that of the United States. In the world possesses so many features of likeness to that of the United States as does the Commonwealth of Australia, and I doubt whether any two people could be found who are in nearer touch with each other, and are likely to benefit more by anything that tends to knit their relations more closely.

Australians of all classes have a decided liking and admiration for Americans due to sentimental, commercial, and even political bonds. In the first place, the Americans are the most hospitable and the most frequently observe whenever the question of Asiatic immigration to Australia comes up or that of Australian national defence, Americans are the nearest Caucasian neighbor and friend in the Commonwealth here. This fact is given additional strength because Australians are almost superlatively over the present influence of Asiatic proximity. This feeling it may be added, is fostered by leading politicians especially those in the labor party and includes the Japanese, regardless of the Anglo-British alliance. This distrustful attitude towards things Asiatic, this strong leaning towards things American has a cog in Australian jealousy of Europe colonization in the South Pacific. Whereas the Commonwealth has always been complainant Samoa which the fleet will visit, is of American possession of Pago-Pago, has never been over-pleased with Germany's possessions of Alpha and the Commonwealth has manifested so much feeling of territorial rights in the New Hebrides Islands, that the Imperial government was forced to treat with France and Germany respectively regarding these disputes.

The people are naturally hospitable and they will outdo themselves in entertaining the American officers and sailors. While plans are not yet made, it can be seen that the coming of Americans in Sydney will be rather more on the naval side, than these here will be. Sydney is fond of Jack and Jill and will not have cause to complain of their stay. Melbourne's round of enjoyment will be somewhat more circumscribed but this city is still the federal capital and Melbourne in the season is one of the gayest of places. It is more than probable that sports of all kinds, for Australia is devoted to outdoor life, will play an important part in the entertainment to be arranged for the Americans. Indeed the visitors will arrive just when the Australian

WITNESSES HEARD.

The case of the King on the complaint of Angus McDonald against Joseph Damboise, proprietor of the Waverly hotel here, was before Magistrate Matheson yesterday morning. Witnesses were called for the prosecution to show that poker playing for money had been carried on in a room of the hotel. A slot machine seized by Chief of Police McDonald, and Policeman Jones, was also produced in evidence and its workings illustrated.

After the prosecution had closed their case, Mr. W. Albert Mott, for

the accused, argued that the magistrate had not jurisdiction to take up the case in a summary manner, citing cases in support of his contention. Mr. A. E. G. McKenzie followed in the prosecution, citing cases in support of his claim that the magistrate had jurisdiction to try the offence summarily. The magistrate decided he had no jurisdiction to try the case and dismissed it.
