## PATENT

Fire-King Cook-Stove,

With Patent Telescopic Oven Lining.

The only perfect Elevated Oven Cooking  
Stove ever made to burn coal. It has  
two round cylinders for the fire,  
therefore fire may be made  
in one or both as occa-  
sion may require.The OVEN is TELESCOPIC so that the  
end with the lining may be drawn out,  
the foot and ashes removed when a new lining  
is required; it can be put in, in the same  
manner, saving the trouble of removing  
the oven and pipe from the stove every  
time it gets clogged with soot, or taking it  
away to the foundry to have a new lining  
put in.I warrant the FIRE-KING to use less  
fuel, give more heat, last longer,  
quicker to boil, and a more reliable baker  
than any other Coal Stove made. Also,  
manufactureWaterloo,  
Ningara,  
Cooking-Stoves,For wood. These all have the Patent  
Telescopic Oven Lining, which will be sold  
as low as other makes of Stoves with the  
old style of Ovens. This Oven is Patented  
and manufactured only at the Sackville  
Foundry. When purchasing, be sure to ask  
for Fawcett's Pat. Telescopic Oven.  
I will deliver on my sample floor for  
Fall Trade 60 different varieties  
of FAWCETT'S own manufacture,  
including many new and desirable patterns,  
with all the latest improvements in the  
stove line, making the largest and most  
attractive assortment ever shown in any  
establishment, comprising not only the  
high grades of goods, but a complete  
assortment of CHEAP STOVES that are  
made by competent workmen.My superior and extensive facilities to-

season opened. Here Mr. A. B.  
SHERATON has one of the finest warehouses  
in Canada, certainly the most spacious  
and convenient of any in the Maritime  
Provinces. The room is 80x50 feet, with  
a 12 ft. gallery all around, and is lighted by  
10 large windows, forming a most cheer-  
ful, airy and pleasant place wherein to  
spend an hour in the deliberate perform-  
ance of an important household duty at  
this season of the year—the study and  
selection of new carpet outfits. The stock  
of carpets here offered to intending pur-  
chasers is quite bewildering, as regards  
variety of makes, patterns and styles, but  
while many may be in doubt as to the best  
selection to make, there are so many new  
beautiful designs are offered in Brussels,  
Tapestry (Crosley's choice), All-wool  
Saxons, etc., there is not the slightest  
doubt in regard to price, which all  
agree in regarding as hitherto unprece-  
dented in cheapness in this city. The hall  
and stair carpeting, the best druggists and  
squares, the coons and manilla matting,  
the mats, rugs, and stair coverings, are  
presented in great variety and at prices  
which place first-class goods within the  
reach of all. There is also a great display  
of dress oil cloths, all widths up to 30 ft.  
and of the latest designs in English and  
American goods; Curtains Materials in  
great variety and fashion; gift and walnut  
Corsets and handkerchiefs; Corsets; Pol-  
as well as mattresses, pillows, bolsters and  
other necessary household articles.  
Carpet cleaning, by steam, is also connect-  
ed with this establishment; the charge is  
only four cents per yard. Mr. Sheraton  
has been fortunate in securing the services  
of Mr. J. W. Lingley (formerly of Sheraton,  
Son and Skinner) as buyer and book  
keeper, and in the labor of attending to  
customers, he has also the able assistance  
of Mr. Robert Thompson (from the same  
house)—both well known and highly re-  
spected in this line of business. Alto-  
gether, the new firm has made a most suc-  
cessful opening and enters upon its campaign  
cheered by the patronage and practical fa-  
vors of a host of friends. [June 21]

Ayer's

Hair Vigor,

For restoring Gray Hair to

its natural Vitality and Color.

A dressing which at once

gives a healthy, and ef-

fectual for pre-

servicing the

hair. Paded or

restored to its

original color,

with the gloss and freshness of youth.

Thin hair is thickened, falling hair

checked, and baldness often, though

not always, cured by its use. Nothing

can restore the hair where the

follicles are destroyed, or the glands

atrophied and decayed. But such as

remain can be saved for usefulness

by this application. Instead of foul-

ing the hair with a pasty sediment, it

will keep it clean and vigorous.

Its use will prevent the hair from

turning gray or falling out, and

consequently prevent baldness. Free

from those deleterious substances

which make some preparations dan-

gerous, and injurious to the hair, the

Vigor can only benefit, but not harm

it. If wanted merely for

HAIR DRESSING,

nothing else can be found so desir-

able. Containing neither oil nor

ye, it does not soil white cambric,

nor yet lasts long on the hair, giving

it a rich, glossy lustre and a grateful

perfume.
