NEED OF SUBWAY AGAIN IN EVIDENCE

Andrew Street Crossing Again Being Blocked Daily—Children Endangered.

During the past two weeks the need of a subway at Central street has certainly been a number of times clearly demonstrated as because of the congested state of the Campbellton railway yards the Andrew street crossing has daily been blocked by long freight trains. Frequently not only Andrew street is blocked, but Cedar street crossing also, so that it was impossible for school children to get to school on time or business people to get to business without serious delay.

Friday morning at about ten minutes to nine there were two long freight trains blocking all crossings from the Subway to Dalhousie street. Many children were caught on the north side of the railway and were kept until late for school, unless they crawled under or between the cars, which many did. Again at dismissing time the crossing was blocked, and we understand it has been very frequently blocked during other days.

Until a subway is provided this serious state of affairs will exist and the matter should be taken in hand at once so that the C. N. R. authorities may be impressed with the importance of this work.

WERE FOUND NOT GUILTY

Verdict Rendered by Jury at Newcastle in Burnt Church Case.

Newcastle, N. B., Jan. 7—Attorney-General Byrne finished his address this morning in the case of the crown against Peter and Frank Mitchell, Indian brothers, charged with killing John Dedam, Indian Policeman, at Burnt Church.

Judge Barry, in charging the jury stated, that according to his opinion, only two courses were left open for a decision—either that of murder against both defendants, or an acquittal.

The case went to the jury at 11.55 o'clock.

Verdict of Not Guilty.

The jury returned a verdict of not guilty at 2.30 o'clock. The prisoners were discharged.

CARD.

Jany. 12th, 1921.

To the Electors of the Town of Campbellton.

Ladies and Gentlemen:—

At the request of a large number of the electors I have consented to become a candidate for the office of Mayor, and would earnestly solicit your support.

If elected I shall endeavor, as in the past, to have the affairs of the Town conducted in a business-like manner. Having had several years experience in that office I feel that I am better equipped to administer the affairs of the Town than I would be did I not have that experience.

As the day of election is drawing very near it will be impossible for me to call upon you personally and I trust that you will consider this as a personal request.

Thanking you in anticipation of your hearty support and assuring you that I shall endeavor to have the affairs of our Town conducted in a satisfactory manner, I am,

Yours sincerely,

A. A. ANDREW

LOOKS LIKE LIVELY CONTEST

Full Ticket Now in Field And Others Say They Are in the Fight.

As the time for the filing of nomination papers for the civic contest grows short, there appears to be a general warming up in all wards and when this is written it looks exceedingly like a contest for the mayoralty as well as in each ward.

A citizen ticket headed with Major N. C. McKay for mayor is now in the field.

This ticket is made up as follows:—

Ward I.—W. H. Wallace, A. C. Belle-Isle.

Ward II.—P. M. Shannon and we understand Mr. Havelock Sansom.

Ward III.—John Bissett, A. F. Chamberlain.

At Large—George St. Onge, Joseph Duncan.

The policy as set forth in the cards of the above seems to be economy and a good business administration.

So far as the old council is concerned only Couns. Belle-Isle and Bissett are offering for reelection and Coun. Shannon, who was elected about two months ago is also in the field.

Mr. A. A. Andrew at the solicitation of a large number of electors is in the field. His card appears in another column.

It is also said that full tickets will be in the field for the various wards and for councillors at large.

So far Mr. Mason Betts is spoken of for Ward I and a colleague will be found for him.

Ward II.—Messrs. James Patterson and J. F. McRae are definitely in the field.

Ward III.—No candidates have yet been announced but Mr. D. Champoux is spoken of.

At Large—W. H. Miller and Chas. Goss, both former councillors are in the field.

PASSED THROUGH TOWN.

Sir George E. Foster and bride passed through Campbellton on Saturday enroute to Ottawa from France and England.

PLAYERS WILL WEAR NUMBERS

New Regulations in Force at Game Played at Bathurst Last Night.

When the players of the New Brunswick Hockey League went on the ice at Bathurst and Marysville last night there was large distinguishing numbers on the backs of their jerseys.

The decision to have players numbered was reached at the meeting of the New Brunswick Hockey League executive at Fredericton last week and the new order effective on and after Tuesday, January 11th, so as to include this week's game.

All players registered by clubs as upon their rosters will be given numbers which shall correspond with the numbers to be worn on the back of their jerseys. The practice is in vogue in almost all leagues now operating in Canada, both professional and amateurs, and its adoption is one of the moves now being made to put the N. B. H. L. on a footing with the most prominent hockey organizations in the country.

The numbers must be at least 10 inches is length.

CANADIAN Y. M. C. A.

The Y. M. C. A. needs funds. Because of its splendid record and the invaluable work that it is doing today for Canada the Y. M. C. A. must be enabled to continue its programme unimpaired.

It is therefor appealing for public support for its general work in Canada among men and boys, a work of the very greatest importance that the Y. M. C. A. is especially qualified to perform.

Campbellton share is $500.00. Let every one do his bit. Respond generously when the canvasser calls upon you next week-Jany. 17-22.

FINE ATTRACTION COMING HERE

Silver Threads Among the Gold and Vaudeville Shown Here January 20th.

Silver Threads Among the Gold!!!! Is there a man, woman or child who does not know the song, "Silver Threads Among the Gold? Apparently not, from the result of a song contest recently held in Montreal, where Silver Threads was voted the most popular of all songs. And from the way they've been attending the performances, at the close of the present season there will not be a man, woman or child who does not know the photo-play, Silver Threads as well. For this biggest success of the present picture season has everything that a picture should have to make it successful. Tears, laughs and thrills. With the scenes laid way down east among real people. There are no highly colored vamps—and no dress suited villians seeking whom they may devour. And the big dinner in the barn—and the barn dances and the moonlight straw rides!!! You, who have enjoyed these will want to live them over again. And you who haven't will enjoy them as much as the real thing, so graphically are they depicted. And then, the picture of Mother!!! That best friend of all, philosopher and guide. To screen Silver Threads an excellent cast was engaged, and prominent among these are the famous of all juveniles of the screen, the Lee Children. Katherine and Jane are prominently cast in comedy parts. To show Silver Threads without the songs wouldn't do at all, and to this end, John Morrison, a favorite Canadian singer has been engaged. He sings Silver Threads and When You and I Were Young, Maggie as you'd like to hear them sung. At the conclusion of the picture, Mr. Morrison, with Miss Elsie Clifton, Comedienne, produces his own comedy with songs. For this he carries special scenery. The attraction will be seen at the Opera House one night only, Thursday, Jan. 20th. Tickets can be procured in advance. Prices 25c. for Children and 50c. for Adults. Tax extra.

LORD BYNG IS THE FAVORITE

Toronto Paper Says Former Commander of Canadians Would Suit.

Toronto, Jan. 11—Under the caption "Burnham and Byng" the Globe says editorially this morning.

"If the question as to who shall be the representative of the crown in this country is to be discussed publicly in the Northcliffe fashion, it is perhaps well to say that ninety-nine out of every hundred Canadians would rather have Lord Byng than Lord Burnham. As commander of the Canadian Corps, Sir Julian Byng came very closely in touch with the young manhood of the Dominion. He understands the Canadian people. Lord Byng is a somewhat shy and retiring man, who might be at a disadvantage beside Lord Burnham in the social whirl, but he has the restraint, the reticence and the dignity that fit him admirably for the great post occupied in times past by men of the calibre of Dufferin, Lorne, Landsdowne, Stanley, Aberdeen and Devonshire.

EDITORS MAIL.

Can you or any one give any good reason why the evening Local from the East, should be held up for a full half hour at the semiphore as was the case Wednesday evening Jan. 5th to the great annoyance of passengers, and the general public who were waiting for their mail. The comments from many people last evening were not very favorable to the Rly. management, to say the least. We know those responsible, will say that the yard was congested, or some such siliy reply, but that won't satify the public. The authorities knew this train was coming in at a certain time, then why not plan to have the necssary room for that train. The same thing frequently happens with the West Locals, causing passengers to leave the train, and walk a mile or so to the Station. This is a matter that could be remedied and the public hope that the Despatchers will give it some attention.

Yours,

SUFFERER

ALLEGED ILLEGAL EXPORT OF PULPWOOD TO UNITED STATES

Fredericton, N. B., Jan. 10—Crown land officials here explain the charge made by Councillor Wetmore at the meeting of the York County Council that pulpwood cut on the Crown lands was being illegally exported to the United States is not in accordance with facts. Under a regulation of the Provincial Government the export of pulpwood from the Crown lands in parts of York and Charlotte County has been permitted for some time, owing to the ravages of the spruce bud-worm and the fact that there are no Canadian mills on this side of the border in these districts, the wood would otherwise go to waste.

"MT. MACKENZIE" AS WAR MEMORIAL

Rename "Sugarloaf" as a Memorial to Campbellton Hero.

(Chatham Gazette.)

Mr. H. B. Bailey of Fredericton, son of Dr. Bailey formerly professor of geology at the U. N. B., was in town yesterday and when in conversation with The Gazette he made a suggestion that might well meet with the hearty endorsement of the province at large. It was in connection with the idea recently advanced by Rev. Fr. MacGillivray chaplain of the 26th overseas battalion at a dinner of the officers of that organization held in St. John.

Fr. MacGillivray had suggested that the province erect a monument in Campbellton to the memory of the battalion's gallant commander Colonel A. E. G. MacKenzie who gave his life is the great war in the final hour of victory. Mr. Bailey advocates the naming of the prominent landscape feature of Campbellton now known as Sugarloaf Mountain for the dead commander and to call it Mt. MacKenzie. As this is easily the most striking mountain in the province within range of any large settlements, it would almost everyday be a reminder to everyone who travels by the C. N. R. from any part of Canada through this province of one of the most illustrious names that Canada has the right to inscribe on her war shield and as the pesent name was only given from its resemblance to an article in every day use, the change can work no hardship on any person. As Col. MacKenzie was a Campbellton boy the suggestion is still more pertinent.

Already British Columbia has named one of its big mountains for Edith Cavell and selected one that had borne a personal name, so that New Brunswick would have precedent for what seems a very suitable move.

Dept. Public Works Jany 21

DELEGATION AT OTTAWA

Influential Lumbermen and Others Pressing for Needed Government Work.

The Campbellton Board of Trade delegation composed of Messrs. D. Champoux, president of the Board of Trade, W. F. Napier, W. S. Richards, W. H. Miller and D. A. Stewart, members of the Council of the Board of Trade. Thos. Busteed and H. Montgomery of Bonaventure left Monday night for Ottawa to interview the Minister of Public Works and other members of the government in reference to the needed bridge across the Restigouche. It was expected that this delegation would be strengthened by the presence of Mr. A. McLean of Bathurst and other north shore lumbermen, and they would meet the government Wednesday or today.

E. W. MAIR WILL BE CANDIDATE

Agrees to be a Mayoralty Nominee When Citizens Present a Petition.

Woodstock, N. B., Jan. 10.—A committee of the citizens waited on Mr. E. W. Mair at his office this afternoon and through their spokesman Mr. W. B. Belyea, presented him with a requisition largely signed by the citizens, asking him to be a candidate for the office of mayor.

Mr. Mair, in replying to the committee, said that while he had no aspiration along the lines mentioned in the petition, he felt that he could not afford to ignore the request of so large a number of ratepayers, and would accede to their wishes.

PEACE OUTLOOK NOT SO BRIGHT

More Outbreaks in the Counties of Dublin and Meath.

Dublin, Jan. 9.—During Saturday night two bridges across roads in County Dublin, one near Leixlip and the other near Celbridge, were partially destroyed. The police are making inquiries, but no arrests have been made thus far.

If reports in official circles are to be credited, all negotiations looking to peace in Ireland have broken down. Definite information is lacking but it is said that Mr. Lloyd George has definitely refused to consider the Sinn Fein's proposal for the withdrawal of the Home Rule Bill.

Officials take a gloomy view of the situation. The increased activity recently on the part of the military and republicans in the martial law area is considered as indicating an extension of the guerilla warfare.

Sinn Fein M. P. Arrested.

Belfast, Jan. 9.—Troops at Derry today surrounded the residence of Joseph O'Doherty, Sinn Fein member of parliament and arrested him. He will be interned. Raids on rate collectors, the latest form of Sinn Fein activity, are becoming increasingly common. Six are reported in the county of Wexford.

Reported Ambush.

London, Jan. 9.—A despatch to the Daily Mail from Dublin says it is rumored that Crown forces have been ambushed at Dunboyne, County of Meath. The despatch adds that the operations appear to have been extened over a wide area, from Leixlip, in the east, through Celbridge, Maynooth and Kilcock, at all of which places road bridges are reported to have been destroyed to Batterstown, in the west. All the wires in the districts concerned have been cut.

Sentence 80 Sinn Feinrs...

Cahirguillamor, Ireland, Jan. 9.—Sixty Sinn Feiners charged with unlawful assembly have been sentenced to six months hard labor by a military court here. Twenty others were sentenced to three months on the same charge.

M. P. FOR YORK CO. DIED ON FRIDAY

Lt.-Col McLeod Had Been Seven Years in Parliament— Was Overseas.

Fredericton, Jan. 7.—Col H. F. Mcleod, M. P., died this evening from his fifth attack of pneumonia in the last few years.

Col. McLeod was born at Fredericton in 1871, son of the late Rev. Dr. and Mrs. McLeod. He was graduated from the University of New Brunswick in 1891 with the Degree of Bachelor in Arts and captured the Stanley Gold Medal. In 1895 he was called to the bar; five years later he was appointed a K. C. In 1908 he was elected to the Provincial Legislature for York County, and became Solicitor General in the new government; three years later he was made Provincial Secretary and Treasurer. He resigned to enter the House of Commons by acclamation in 1913, and was re-elected in 1917. He was Mayor of Fredericton in 1907-8.

Col. McLeod took a keen interest in the militia and became Lieutenant-Colonel of the 71st York Regiment. When the Great War broke out he went overseas in command of the 12th Battalion of the First Canadian Contingent.

Besides his widow, who was formerly Miss Ina E. Mersereau, he is survived by one son, Norman, and two daughters, Jean and Mary; one brother, Major Norman P. McLeod, M. C., St. John, and three sisters, Mrs. Maurice White of Pretoria, South Africa; Mrs. J. Fred Boyer, of Victoria Corner, N. B., and Mrs. Blanchard Fowler, of St. John, N. B. The funeral will take place on Sunday afternoon.

SCHWAB SAYS BUSINESS WILL BENEFIT BY LET UP

Boston, Jan. 6—Business and industry generally will benefit by the present commercial let-up, said Charles M. Schwab, chairman of the Bethlehem Association of the Massachusetts Bankers Association last night.

Mr. Schwab called the slackening of trade a lesson in economy that would finally stablize business and bring about a firm basis for prosperity.

Employers and workers were told to wipe out the memory of teh orgy of spending through which they had passed recently.

THROAT SORE?

Don't neglect it because you think it is "only a sore throat!" It is often the beginning of serious trouble, which can be avoided if proper precautions are taken. Peps will safeguard you.

"Sore throat" is a sign that your power of resistance has been temporarily lowered, and your system is therefore unable to withstand the attacks of harmful germs which are being constantly breathed in. The germs have, therefore, settled in your throat and caused inflammation, and to prevent more serious trouble these germs must be destroyed.

A Peps pastille dissolved on the tongue throws off Pine vapor, which is as certain a germ-de-

the Swiss Mountains, which doctors so highly recommend. These Pine fumes are breathed down into the air passages and lungs, soothing and healing the inflamed membranes that medicine swallowed into the stomach could not possibly reach.

Nothing can equal this breatheable remedy for all affections of the throat and lungs, coughs, colds, hoarseness, asthma, bronchitis, etc. All dealers or Peps Co., Toronto. 50c box, 3 for $1.25.

NEW LIQUOR LEGISLATION

Is Promised for Quebec. Other Matters in Speech From Throne.

Quebec, Jan. 11.—The provincial legislature of Quebec was opened this afternoon by Lieutenant Governor Sir Charles Fitzpatrick, with the customary ceremonies. The speech from the throne read by His Honor, refers to contemplated liquor legislation as follows:

The measures enacted for the regulation of the sale of alcoholic liquors have not had the results expected. Constant infringements of the law threatens to subvert order and respect for authority. The government proposes to do away with the present system and substitute for it a new one which, while respecting individual liberty, will remedy the abuses which our people so bitterly deplore.

The object of the bill, which will be submitted to members, is to restrict the sale of the spirituous liquors by empowering the government to exercise absolute and immediate control of it, thereby making infringements very difficult.

Municipal Prohibition.

The act will respect the autonomy of municipalities that wish to retain for themselves prohibition systems.

The speech indicates that a new

heart of the Temiskaming district to connect with the main railway systems of the Dominion in furtherance of the provincial government's colonization projects for Northern Quebec. In this connection it is also stated that in order to afford settlers better facilities for acquiring arable lands, a bill will be submitted assigning to the colonization the power to grant such lands and to completely separate them from forest domains.

Demonstration Farms.

The establishment of a series of agricultural demonstration farms is also promised. The speech further announces that a bill establishing a board of arbitration to prevent strikes among policemen, firemen and other public employees, will be brought down, while a croup of insurance system and extension of the pension act to outside government employees, will be legislated on.

Proposed Bridge.

The speech also forecasts the construction of a bridge to connect the mainland with the island of Montreal at Ile Periot, on the road to Ottawa.

The financial report of the province will show, the speech states, that the revenue continues to exceed the expenditures.

ELECTION NOTICE.

Public notice is hereby given that a court for the nomination of candidates for the offices of Mayor, Councillors at Large and Ward Councillors, will be opened in the Fire Station, Roseberry Street, on Tuesday, Jan. 18th, at two o'clock p. m., and remain open until five o'clock p. m. as required by law.

If more than the requisite number of persons be nominated for the said respective offices a poll will be opened on Tuesday, Jan. 25th, of which due notice will be given.

Dated at Campbellton this 8th day of January, 1921.

FATAL FIRE IN CLEVELAND HOTEL

Two Men Dead From Burns and Suffocation and Eight Persons Injured.

Cleveland, O., Jan. 11—Two men are dead from burns and suffocation and eight persons were injured in a fire which swept the Chestnut Hotel, 12th Street and Chestnut Ave., early this morning. Several persons are said to be missing. Firemen and police are searching the still blazing building for additional bodies, three hours after the fire started.

The injured including three women were hurt in wild leaps from second story windows.

Life nets were spread by firemen, but owing to smoke and darkness, several of them injured were hurt when they missed the nets. Police say the iron fire escape collapsed after a few persons had used it to escape.

END STOMACH TROUBLE, GASES OR DYSPEPSIA
"Pape's Diapepsin" makes sick, sour, gassy stomachs surely feel fine in five minutes.
If what you just ate is souring on your stomach or lies like a lump of lead, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, nausea, bad taste in mouth and a sick headache, you can get relief in five minutes by neutralizing acidity. Put an end to such stomach distress now by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by food fermentation due to excessive acid in stomach.

BUSINESS OUTLOOK FOR 1921

Sir John Willison Pres. of Canadian Reconstruction Association Writes.

Canada enters upon the new year faced with numerous economic problems arising out of declining prices, but neither immediate conditions nor prospects justify undue apprehension. As the country was remarkably successful in its war activities and in meeting the many vexed questions of demobilization and reconstruction, so it should overcome present difficulties with a minimum of disturbance and distress. Business as a whole is well established after profitable war years and, while there must undoubtedly be appreciable unemployment, industrial stability should not be affected by declining commodity prices. The policy of the banks is not to reduce credits so as to endanger industry, but, on the contrary, to increase credits where orders and prospects justify such increases. Further, the new taxes have increased the public revenue beyond all expectations, the total income for the financial year from all sources being estimated at over $600,000,000. With such abundant revenue it may be possible to repeal or reduce the levies on excess profits and leave the industries a greater reserve for continuous operation and expansion.

There have been sharp declines in the value of agricultural products, but farmers are prosperous after years of unprecedented prices. There has been an increase in wheat yield of over 49 per cent., as compared with 1919; in oats, of 43 per cent.; barley, nearly 14 per cent.; rye, 26 per cent., and flaxseed of nearly 104 per cent, according to figures issued by the General Agricultural Agent for the C. P. R. This increased production, together with profits of past years, should carry farmers over the present period without any marked agricultural distress.

The Canadian Reconstruction Association has just issued a general appeal to "Produce, Purchase, Protect Canadian Goods," in which it emphasizes the fact that "harmonious relations between employers and employees with mutual concentration upon quality and production are essential with declining prices," and it says:

"Prosperous industries and prosperous workers make prosperous communities. Canadians should give effective preference to Canadian goods over imported products. If the Canadian public will patronize Canadian industries as a national duty under present difficult conditions, the dangers of the price readjustment period will be reduced to a minimum and the increased demand for Canadian-made ot produce at minimum unit cost and sell at the lowest possible prices.

So, on the subject of exchange and importations, the Reconstruction Association points out that exchange increases prices, that it raises the cost of manufacturing in Canada, and adds to the difficulties of industrial employment for Canadian workers. "Coal, cotton, iron and steel products, and oils," it says, "enter largely into the cost of production of most commodities and services. In buying such commodities from the United States, Canadians have to pay a substantial premium on accouna of the decline of Canadian money. Each purchase encourages higher prices and a higher exchange rate." The Association points out that exchange is three times as high to-day as it was a year ago, that early last February the premium on New York funds amounted to 17½ per cent. and that it threatens to go still higher this winter and next spring unless effective remedies are applied. "Those remedies," it says, "if applied at all, must be applied consciously and as a matter of both national duty and self-interest by the people of Canada whenever they spend money. The merchandise trade balance is running against us to the amount of between $20,000,000 and $30,000,000 per month. If we include interest on obligations abroad and other items in the account, Canada has an adverse balance of trade which at the present time is running at the rate of more than $400,000,000 per year.

"The discount on Canadian money is a warning that our trade situation is unhealthy and overbalanced. The great volume of imports into Canada, if it continues, means unemployment for Canadian workers, idle Canadian factories and a higher cost of living for Canadians generally. World conditions make impossible any large, immediate expansion of our export trade. The only way in which any permanent correction can be effected in exchange is by reducing imports into this country, by supplying demand with Canadian products instead of imported goods. A national Made in Canada campaign is needed to combat high prices, to reduce exchange, and to ensure employment.

There's Nothing Like It

Stitch, stitch, stitch went the village bootmaker's industrious needle, as he sat in his dim little shop hard at work. He was particularly anxious to finish the pair of shoes he was repairing, for they belonged to his best friend, the village mailman.

Consequently it was with a feeling akin to vexation that he saw Mrs. Chinwag enter his shop and ask for a strong pair of laces, but he got up at once and produced them.

"I can recommend these," he said, with conviction. "You'll find them as strong as steel, for," he added, "they are made of porpoise skin."

"What!" she shrieked. "You inhuman creature! I've read in 'Oliver Twist' of the cruelties them wretched paupers have to suffer, but I didn't know that shoelaces was made out o' their skins!"

And so long did it take to explain matters that the unfortunate mailman had to wait till the next morning for his shoes.

CANADIAN AIRMAN CAPTURED YANKEE

Latter Got Away From American Officials but N. M. P. On the Job.

When the Royal Canadian Mounted Police go after a man they get him, no matter where the trail leads. There are records of where one of these quiet, tireless men has circumnavigated the globe to get his quarry. The point is that they do not fail, and they do not operate with a brass band.

Joseph H. Gadsbury, alleged American confidence man and former war aviator, will testify to the daring and resourcefulness of these highly-efficient officials. It is charged that he has promoted and profited by numerous questionable schemes in the States, chiefly having to do with airplane swindles. He is a skilful aviator and always kept a speedy airplane at hand ready for instant flight. His latest exploit is said to have been staged at Britt, Ia., where he induced farmers to part with $180,000 for an airplane factory.

When the police were about to close on him he stepped into his airplane, soared up out of range of pistols and he headed for the Canadian border. The Northwest Mounted Police were notified by wireless. Part of their equipment is a fast airplane kept in a hanger at Winnipeg. It carried a machine-gun, and it was rushed out and began patrolling the border. Word came that Gadsbury had been forced to alight at Emerson, but would resume his journey Thursday.

The Canadian plane waited for him, concealed high in the clouds, and when he crossed the border it swooped down. His machine also carried a small machine-gun, and there was a lively battle. The Canadians finally sent a fusilade through his propeller and managed to puncture his gasoline tank.

Gadsbury took desperate chances, in a nose dive to earth, flattening out just in time to avert disaster, and started to run for the woods, but his pursuers overtook him.

PAYS TRIBUTE TO FRENCH-CANADIANS

Commends Quebecers for Sobriety, Honesty, Purity and Loyalty.

Toronto, Jan. 4.—In an address before an open meeting of the Daughters of Canada last evening, Prof. L. E. Horning made an eloquent plea for better understanding of the French Canadians.

Under the subject of "French-Canada," Prof. Horning said, "Let us get acquainted with the French-Canadians. They have the biggest province in the Dominion. They are nearly one-fourth of the population. Let us learn to know their authors and statesmen."

Prof. Horning commended the French-Canadians for their sobriety, honesty, purity and loyalty. They have even been home-loving and industrious, always peaceful and never meddling in the politics of countries outside their own. They were the earliest road builders, the earliest Canadian civilizers and ever carried their Christianity with them.

Prof. Horning paid a tribute to the culture of the French, to their orators and to their writers, and pleaded for the fostering of the "Bonne Entente" in the heart of each English-speaking Canadian.

AERIAL PATROL FOR N. B. FORESTS

Proposal to Establish Such Next Summer Submitted to Minister.

Moncton, Jan. 11.—Major J. L. Gordon, of the Canada Air Board, Ottawa, is in the city, and held a conference with the Hon. C. W. Robinson, M. P. P., this afternoon as to the advisability and feasibility of establishing an aerial patrol in the Province of New Brunswick for forest fire protection during the summer months.

No decision was announced, both Major Gordon and the Hon. C. W. Robinson, stating that the matter was only under discussion.

Major Gordon, who it is understood holds many war decorations, showed his modesty when asked what titles went with his name, replying, "simply the initials."

Fredericton, N. B., Jan. 11.—Major Gordon, of the Canada Air Board, Ottawa, has been here conferring with the officials of the department of lands and mines.

It is proposed to inaugurate an aerial patrol of New Brunswick forests next season during the peak of the danger period from forest fires.

He is understood to have been submitting statements of probable cost for submission to the forest advisory board and the government.

Western Cattle A U

(1) Aberdeen Angus Calves.
(2) A Perfect Hereford Head.

Among the many fine exhibits at this year's International Stock Show at Chicago, a string of beef cattle that has been entered by the University of Alberta is certain to create considerable interest. This exhibit consists of a dozen or more pure bred bull calves that have been bred by some of the leading breeders in the province, and comprise some fine specimens of the Hereford, Aberdeen Angus and Shorthorn breeds.

These animals have been brought together by A. A. Dowell, Professor of Animal Husbandry at the University of Alberta. Professor Dowell wanted some good steers to use for practical judging purposes with his students at the University. To purchase from the leading breeders of the province the class of stock required would have entailed a considerable expense, as top prices would have had to be paid. Moreover, he may not have been able to obtain just the animals required. After considerable thinking on the subject, Professor Dowell hit upon an idea which enabled him to get just the animals he wanted, and at practically no expense to the University. Knowing that many of the breeders in the province were not inclined for various reasons, to fit their cattle and show them at the leading shows in a manner to do them justice, he suggested that the various breeders in the province should give one of their calves to the University, and the University would take the necessary steps to fit the animals for show purposes. The plan was duly submitted to the Alberta Breeders' Association at their annual convention last year, and not only received the approval of the Association, but the individual members offered to allow Professor Dowell to select what he

RESTIGOUCHE LOSES.

Again a member of Madawaska county has been given a seat in the government. This honor was due Restigouche, but as usual, Restigouche did the wrong thing and we had no supporter of the government upon which to confer such an honor. Had Mr. A. T. LeBlanc been our representative, as he should have been, Restigouche would today be honored with one of its bright young men in the cabinet, and he would no doubt as occasion arose have been promoted until he would control a very important department.

Our only hope is that when the elections for Restigouche are brought on the electors will see to it that they are not fooled by false issues and thus elect solid government supporters to represent them in the Legislature.

WHY NOT.

It has been suggested that the next town council have at least two lady representatives thereon.

There is not a doubt that Campbellton has lady ratepayers who are qualified in every respect for the office and we are sure that their presence would have a refining influence upon the Council. During the past five or six years our lady friends have clearly demonstrated their business ability, in fact they have frequently put the men to shame. Why not now endeavor to procure their assistance in making Campbellton a town we shall all be proud to live in.

MOUNT MacKENZIE.

The suggestion of H. B. Bailey of Fredericton that the Sugarloaf be renamed as a memorial to the late Lt. Col. A. E. G. MacKenzie, D. S. O., is we think a good one. As Mount MacKenzie it would be a fitting memorial to one of Campbellton's beloved soldier boys. The project might be enlarged and with the expenditure of a little money a road might be made to the top where a small park might be fitted out with facilities for picnic parties, etc. The view from the top of this mountain is one of the most wonderful in eastern Canada, and the only reason more people do not enjoy it is because there is no road to the summit.

We are sure our citizens would favor a project of this kind.

CIVIC MATTERS.

The Sackville Tribune, whose editor is Mayor of that enterprising town, made the following timely comment upon civic matters.

"If a law could be passed compelling every eligible citizen to take his turn as mayor or alderman, we think it would be a step in the right direction. Now, some of the loudest talkers are the biggest civic slackers. These people, knowing little and taking no pains to find out all the facts about the various problems that confront the Town, grumble and growl because the Town Council does not do this thing instead of that, and that thing instead of something else. The only cure for this civic disease, which effects quite a bunch of Sackville people, is for these men to serve as mayor or aldermen for a term or two. Having had some experience at the Council Board they will then be in a position to give a valuable opinion and to appreciate the difficulties which beset the path of civic rulers."

A RECORD LOG.

What is said to be the largest spruce tree cut in New Brunswick in recent years was yarded at the Two Brooks camp of Mr. Ben Underhill on the Upsalquitch river. This tree scaled 1507 feet made up of five logs as follows:—452; 444; 397; 150; 64. The scaling was done by scaler John Farrer of Campbellton and Jas. Connelly of St. John. It was yarded by one horse, which in itself was quite a feat.

QUICK RESULTS.

A citizen advertised the loss of a hitching strap in last Thursday's Graphic and by Friday noon he had two returned to him. It certainly pays to advertise in the Graphic. The citizen was fortunately able to establish ownership to both, one lost a few weeks previously to the one advertised for.

Saturday only, Carmels at 69c. at Wran's.

A RECORD LOG.

What is said to be the largest spruce tree cut in New Brunswick in recent years was yarded at the Two Brooks camp of Mr. Ben Underhill on the Upsalquitch river. This tree scaled 1507 feet made up of five logs as follows:—452; 444; 397; 150; 64. The scaling was done by scaler John Farrer of Campbellton and Jas. Connelly of St. John. It was yarded by one horse, which in itself was quite a feat.

HAPPY WOODSTOCK.

The town council met in regular session Monday night, every member being present. After routine business the town manager presented his report for December It was a most refreshing and satisfying statement of affairs and is only further confirmation of the improved system of doing town business. It will be a revelation to the citizens generally to learn that the year closes with a substantial balance to the town's credit.—Carleton Sentinal.

WILL MEET AT FREDERICTON.

The United Farmers of New Brunswick will hold their annual convention at Fredericton Feb. 1, 2 and 3rd.

Wrapped Carmels at 69c. at Wran's.

COUNCIL TONIGHT.

As there was not a quorum of Councillors present Tuesday evening, the meeting was postponed until tonight.

Wrapped Carmels at 69c. at Wran's.

NO SERVICE.

There will be no service in Christ Crurch next Sunday, Jany. 16th owing to the unavoidable absence of the Rector, Rev. J. S. Harrington.

MOLASSES DROPS.

The price of molasses took a slump this morning according to notices received by local wholesalers, the drop being 15 cents a gallon, which brings the wholesale price down to 98 cents a gallon.—Thursday's Gleaner.

DRAGOONS REORGANIZATION.

The reorganization of the New Brunswick Dragoons has now been completed, so far as officers and the location of squadrons and troops are concerned.

"A" squadron will be at Bathurst with two troops at Campbellton, one troop at Bathurst and one at Sackville.

The officers include Capt. W. M. Ferguson.

Saturday only, Carmels at 69c. at Wran's.

NEW PASTOR NOW.

The Presbytery of Miramichi met in the church at New Mills at two o'clock Tuesday afternoon for the induction of Rev. McIntosh McLeod to the pastoral charge of that congregation. Revs. A. D. Archibald, A. McKay, J. A. McLean and B. C. Salter conducted the service. New Mills congregation has been vacant since the removal of Rev. F. L. Jobb to Morewood, Ostario at the end of July last.

Saturday only, Carmels at 69c. at Wran's.

SERIOUSLY ILL.

Mr. Robert W. Ferguson of this town was stricken with a serious stroke of paralysis during Sunday night. He had retired at his usual hour apparently in the best of health. During the night the inmates of the house were awakened by an unusual sound from his room and on entering found Mr. Ferguson quite ill and at once summoned a physician. His condition is considered critical, but hopes are entertained for his recovery.

CORRECTION.

Coun. Belle-Isle says that our statement that McColl Bros. shipped from Campbellton or stored same in warehouse here is not correct. All oils for this district are shipped freight prepaid from St. John or Montreal.

We may only add that Coun. Currie made the statement that McColl Bros. were so shipping in open council and his statement was not challenged so we assumed it was correct.

MEASLES AGAIN EPIDEMIC IN N. B.

Periodic at Intervals of Four or Five Years—An Insidious Infection

Each four or five years in every country, measles becomes so prevalent as to constitute more or less pronounced epidemic. It is, therefore, in a sense a periodical disease. This periodicith is due to three principal causes (1) the extremely contagious nature of the disease (2) because those who have it once, do not, in the vast majority of cases, contract it agan, and (3) because from it's pecular charactar, as respects it a contagion, it is the most difficult of all acute contagous diseases to control in the way of preventing it's diffusion. This difficulty arises from the fact that it's most infective period is not after the child shows evidence of any serious sickness but durin gtwo or three days, before the fever and the eruption appears.

Often, indeed generally, during these days the child will appear to have an ordinary "cold", the nose "running," the eyes somewhat inflamed, and with a hoarse "graveyard" cough. The child will continue about, will often have it's usual appetite, and, if of school age, will likely continue in atendance. Yet this is the very time he will diffuse the disease most readily to any who may be susceptible to it, that is to say to any who have not had it, with whom he may come into contract.

Once started in any community, therefore, it is very lively liable to attack all who are capable of contracting it especially children, in this very insidious manner. Hence, largely, it's periodictory, for, in a little while, in a month or two, it uses up it's available material, and cannot reappear there in epidemic form until a new supply of children are born.

Although not a very fatal disease in proportion to those attacked, yet the number of the latter is so very great that the absolute loss of life from it is very considerable, and every effort should be made to avoid it. Contrary to a widely spread notion, measles is more dangerous in childhood than in adult life, and is excessively more contagious amongst children than adults. Indeed, a largely proportion of adults, who have not had the disease in childhood, seems to estabish an immunity, with respect to it, hence will no contract it.

But although measles is not, directly, in the white race, very fatal to life itself, perhaps no disease is so apt to leave behind it more or less injurious and permanent injuries.

Not infrequently serious and chronic lung trouble follows it. Not a few cases of tuberculosis apparently date their commencement from an attack of measles. But the more serious, because more frequent, are the chronic affections of the eyes, and more especially the ears, which follow measles. A larg proportion of cases of deafness is directly traceable to this disease.

At the prenent time, measles is, to a ceram extent, epidemic in various parts of New Brunswick, and it should be the endeavor of every one to curtail it's ill effects as much as possible. In every case medical advice should be procured, as this will do much, in individual cases, to obviate the bad consequences just referred to.

No child should be permitted to attend school who shows symptoms of a "cold" or coryza, and all children, attending school, who have not already had the disease, showing symptoms of "colds" should be excluded by the teacher for, at least four days for observation.

If no eruption occurs within such period of exclusion they then might be readmitted.

All cases of measles should be strictly insolated during sickness, that is, confined to one room until better, but as has been noted already, unless insolation is instituted at the very onset of the apparent "cold", the contagion will have been diffused amongst those with whom the child has been in close contract.

It will, therefore, be readily seen that much more can be really done in this disease in conservating the child's life and after-health by good medical attendance and advice, than by the actual prevention of the disease itself.

All cases, however, should be promptly reported to the public health authorities who will take such measures as may be possible to control the spread of the contagion.

No case should be permitted to come into the general contract with the family or neighbors, nor return to school until all discharges from the nose and eyes and so forth be dried up.

Any additional information will be readily furnished by the Department of Health, Fredericton, applied for.

HAD RHEUMATISM FOR FIVE YEARS

No Return of the Trouble Since Taking "FRUIT-A-TIVES"

MR. JOHN E. GUILDERSON

P. O. Box 123, Parrsboro, N. S.

"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up without assistance. I tried different medicines I saw advertised and was treated by doctors in Amherst, also in my home town, but the Rheumatism came back.

In 1916, I saw in an advertisement that *'Fruit-a-tives' would stop Rheumatism*, and took one box and got relief; then I took them right along for about six months and the Rheumatism was all gone and *I have never felt it since.*

Anyone who would care to write me as regards 'Fruit-a-tives' I would be glad to tell them what 'Fruit-a-tives' did for me."

HOW YOU CAN TELL GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

BAYER

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only acid imitations.

Genuine "Bayer Tablets of Aspirin" have been prescribed by physicians for nineteen years and proved safe by millions for Pain, Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis.

Handy tin boxes of 12 tablets—also larger "Bayer" packages, can be had at any drug store. Made in Canada.

Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the Bayer Cross."

CANADA HAS PASSED THROUGH WORSE

Must be True, as Prophet Says So—Read What He Says.

TORONTO, Jan. 8.—Louis Joffre, author and prophet, who wrote a book predicting the fall of Russia and who is said to have prophesied the date of the entrance of the United States into the war and the duration of the war, is in Toronto.

In an interview Mr. Joffre was asked how long he thought the unsettled conditions would last. He made a favorable prediction for this country.

"In Canada they will not last much longer," he said, "in fact, you have passed through the worst. I base my prophecy on the soundness of the backbone of this country—the dwellers in smaller towns and villages.

Mr. Joffre referred to Russia and said there would be much slaughter as the world had never witnessed. Only after that could a stable government be introduced, he said.

GREAT RECORD OF PRIZE COW

Belongs to Noted Dairy Family Which Hold Many Records.

An outstanding trophy of the Amherst Winter Fair is the grand championship in the Milk test for all breeds of cattle. Mr. R. L. Hicks, of Dalhousie Jct., N. B., has always been a runner-up in this grand contest, but in 1920 he achieved his heart's desire with his Queen Abbekerk Rooker, No. 63288, aged 4 years, 10 months.

The family to which the winning heifer belongs is probably the most notable one in the Maritime Provinces. Her sire is out of Ida Rooker 2nd—a grand old show cow with a record of 23.35 lbs. of butter in 7 days and the dam of Walter M. Lea's former great show bull. Her dam is the grand old matron at Bunbury Farm, Charlottetown, with a 5 year old record of 30.38 lbs. butter in 7 days and a Junior 3 year old record of 26.54 lbs. butter in 7 days, being the best record for the Maritime Provinces. Her mature record is surpassed only by that of her maternal aunt, Maple Grove Patti, in the herd of Logan Bros., Amherst, who has 32.59 lbs. butter for 7 days—the Maritime mature age record.

When the dam of the Amherst champion was at Dalhousie Jct., she dropped two heifers—one of these has already been heard from, and probably will again at Amherst. The other is owned in Richibucto, N. B. At Bunbury Farm she has dropped two bulls. Abbekark Abbekerk Jewel has been owned by the Lelacheur Haris-Brehant Syndicate at Guernsey Cove, P. E. I. The other is Bunbury Count Echo, born Feb. 1st, 1920, is just ready for service at Bunbury Farm and is an outstanding animal in appearance. The last named bull is from Royceroft Pietje Echo, the first prize show bull of Bunbury Farm and son of Het Loo Queen Pietje by King Pontiac Artis Canadian, and grandson of Avon Pontiac Echo at the head of the Carnation Stock Farm Oconomowoc, Wash.

The bull, Sir Mercena Mercedes, owned by Jas. Bremner, Jr., is closely related to the Amherst champion and carried the high-fat blood that has made this family famous. When Mr. Bremner went to Bunbury Farm, he took this animal along in order to secure some good crosses where size and high-fat content would predominate.

CORK'S LORD MAYOR REACHES NEW YORK

New York, Jan. 9.—Daniel J. O'Callaghan, lord mayor of Cork, who entered the United States at Newport News, Jan. 4, arrived here today and was greeted by crowds of "Irish republic" sympathizers.

Accompanying O'Callaghan, was Peter MacSwiney, brother of Cork's late lord mayor; Harry Boland, secretary to Eamonn De Valera, and Acting Mayor Cannon and Deputy Mayor Malonde, of Jersey City. Crowds gathered before his hotel and O'Callaghan responding to their calls appeared on a balcony. He spoke of his trip from Cork, as a stowaway and expressed appreciation for the welcome accorded him and said he probably would remain in the United States several months.

A Kidney Remedy.

Kidney troubles are frequently caused by daily digestive food which overtakes these organs to eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Mother Seigel's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

WAS VICTIM OF BIG EXPLOSION

Mrs. Chapman Says Nothing Restored Her Shattered Health Until She Got Tanlac

"I am so deeply grateful for the wonderful way Tanlac restored my health that I feel it is my duty to tell everbody about my experience with the medicine," said Mrs. Nora Chapman, of 26 Pleasant St., St. John's, N. F.

"We were living in Halifax at the time of the terrible explosion, my poor husband was killed and I was severely wounded in the hand, but was fortunate enough to escape with my life. That awful experience shattered my nerves and my health was never the same afterwards. My digestion became so upset that I could scarcely eat anything but what I would suffer from severe pains in my stomach afterward. It was dicicult for me to get a good night's sleep, and nearly every day had nervous headaches that almost drove me wild. I got very depressed and discouraged, for in spite of treatment I didn't seem to get any better.

"After I was well enough to travel I came back here to St. John's where I was born, thinking the change would do me good, but it wasn't until I started taking Tanlac that I began to pull around. It has simply done me a world of good. It first of all gave me an appetite so that I could eat better than I had for a long time before. Now I can eat anything thing I wish without ever suffering from indigestion or pain afterwards. That tired, depressed feeling has left me, and my nerves are quite steady and strong again. I am no longer bothered with headaches and feel strong and better in every way. Tanlac is indeed a great blessing to suffering people, and I hope this statment may lead others who suffer as I did to try it."

Quit Laxatives, Purges; Try NR

NR Tonight—Tomorrow Feel Right

It is a mistake to continually dose yourself with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right to try to overcome your constipation and get your system in such shape that daily purging will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so. NR Tablets do much more than merely cause pleasant easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take medicine every day. An occasional NR tablet will keep your body in condition and you can always feel your best.

Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

CAMPBELLTON PEOPLE SHOULD KNOW THIS

Nearly all stomach trouble is caused by retained poisonous waste matter in the system. This is also often the cause of appendicitis. The intestinal antiseptic, Adler-i-ka, acts on BOTH upper and lower bowel removing foul decaying matter which may have been poisoning the stomach for months. It brings out matter you never thought was in your system. Adler-i-ka is EXCELLENT for gas on the stomach and chronic constipation as it removes the CAUSE. Guards against appendicitis. A. McG. 10 CENT "CASCARETS" FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. A 10-cent box from your druggist will keep your liver and bowels clean, stomach sweet and head clear for months. Don't forget the children.

Health and Happiness

Women of today seem to listen to every call of duty except the supreme one that tells them to guard their health. Home duties, church duties, war activities, and the hundred-and-one calls for charitable enterprises soon lead women to overdo. Nervousness, headaches, backaches and female troubles are the inevitable result.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which, added to my weak condition, kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness. Health and happiness? Yes, I have both now."—Mrs. J. WORTHLINE, 2843 North Taylor Street, Philadelphia, Pa.

The majority of women nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. Avoid them by taking in time

Strengthen Your Business "Morale"

Soldiers know what it means when an army's "morale" is shattered.

The fighting spirit is gone, the men invite defeat
What is true of military forces is true of some industrial armies.

At the first serious jolt their morale weakens—hope flies, courage disappears—their fighting spirit is lost. There is no place in business today for the "calamity howler." He is drawing salary or wages under false pretences. More distressing still, he is weakening the "morale" of other workers, and of the business itself.

Dalhousie, N. B.
30 Dec., 1920.

Editor of the Graphic,
Campbellton, N. B.

Dear Sir,—

I believe in publicity as a cure for public evil, particularly where the ordinary laws and rules of decency fail to control men in public offices.

I have already brought this matter to the notice of the members of the County Council and now desire to call public attention to their secretary, Mr. A. J. LeBlanc.

This Secretary bears the reputation of being an habitual, common gambler. Not long ago he was involved late at night in a low gambling den, in a disgraceful quarrel, in which he was accused of cheating and had to escape in the dark, after having his whiskers pulled. Amusing of course, but not the conduct for a County Secretary.

In all decent communities, gamblers and thieves are classed together and it is only a question of time, temptation and opportunity, when a gambler will steal.

In common with everyone else, I have tolerated this state of affairs, until it has become a public danger.

This year, our former Police Magistrate, an intimate friend and gambling associate of the County Secretary, stole a large sum of public money from the Town of Dalhousie. When asked to return it, I am informed he said, "you may get it from "Sandie" LeBlanc," he won all that and much more from me."

Look at a portrait of these public men. One a police magistrate, robbing the public, the other county secretary and postmaster of Dalhousie, plundering this man in a gambling den of his stolen money. It was well known to everyone and particularly so to this county secretary, that this police magistrate was hard up and that the money he was winning, must have been obtained dishonestly. A nice record surely, for two "leading citizens."

One of the stories concerning this magistrate is, that his son having returned from the war, repaired to this gambling den and ordered his father home, the latter refused but the son produced a revolver, rescued his father from the gamblers plundering him and drove him home. All very laughable, but no conduct in which public men should be concerned.

In a certain county in this province, two county secretaries in succession, both reputed gamblers, stole a very large sum of public money—from one, nothing was recovered, from the bondsmen of the other $3000.00 out of a defalcation of $8000.00.

The secretary of this county handles about $30,000 a year subject to his own cheque. Not one of the Councillors I have asked know if he is bonded. Personal bonds are out of date and all public officers, entrusted with large sums of public money should be guaranteed by a reputable fidelity insurance company.

With his reputation in this community as a common gambler, this secretary cannot secure a bond of insurance from any good company without misrepresentation.

While this is a matter lying entirely in the hands of the County Council, it is my right and privilege as a ratepayer to publicly call their attention to this matter.

One of the best policemen we had was dismissed because he played cards. A sick laborer was summoned and fined for the same reason. One policeman after another resigned, because they were not permitted to compel a certain privileged few to obey the laws like other citizens. One policeman was dismissed before he could take action, when he threatened to prosecute this secretary and police magistrate for gambling. This information came to me from this officer himself.

If this vice unfits a policeman for his duty, and other citizens are prosecuted for it—why should not a county secretary receive the same treatment, where the public danger is so much greater?

It will be remembered that this secretary's son as shown by official copies of his exemption papers, escaped military service by making affidavits that "his father was blind, practically bedridden and in relative poverty." Of course all absolutely untrue.

This secretary was a party to this and based on this record and his gambling reputation, no statement he might make, even under oath would be worthy of belief in the opinion of any reputable person.

The men of whom I have written in these letters, explain them to their friends as due to "personal spite". Of course this is purest nonsense.

In thirty years residence here, I have not had five minutes personal intercourse with these men, nor have I been connected with them in the remotest way in personal, social or public affairs. You cannot quarrel with men you never meet.

I care not a hoot what are the vices or habits of private citizens and never meddle. In the case of public men, who spend large sums of public money and who occupy highly paid offices, their character and conduct of public affairs, is of great public interest and a matter for legitimate criticism.

I understand these men and their friends object to these letters. I fail to understand why. They are simply an absolutely truthful statement of facts connected with public affairs. I would not libel any man, neither would I slander him.

Yours truly,
A. G. FERGUSON.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

CAN WOMEN VOTE IN MUN. ELECTIONS

York County Solicitor Says Yes, in That County, Why Not Restigouche.

Fredericton, Jan. 8—The much mooted question of whether women have the right to vote in municipal elections in New Brunswick, now that they have been given the franchise in federal and provincial elections, has been answered in the affirmative so far as York county is concerned by Charles D. Richards, county solicitor.

The question was brought up at Friday afternoons' session by Coun. William Lawson, McAdam, who said that the question had been asked many times by interested parties, and many prominent men, including judges of the Supreme Court, had admitted their inability to answer the question correctly.

Mr. Richards ruled that women, having been accorded the franchise in provincial elections in New Brunswick, also had the right to vote in municipal elections as well, but, when asked as to whether women had the right to vote in a parish meeting concerning some financial matter he replied that such meetings had no legal status and the principles of fair play would have to apply.

VISCOUNT BURNHAM FOR GOV. GENERAL

London, Jan. 9.—According to the Daily News, Viscount Burnham will be offered the Governor Generalship of Canada "in recognition of his long valuable services to the Government."

Lord Burnham recently returned from a visit to the Dominion with the Imperial Press Conference party.

"How was the movie?"

"Rather dull," said the jaded patron.

"No thrills, eh?"

"Well, the heroine jumped from a train travelling sixty miles an hour to an airplane, was carried over a precipice in a motor car and was left standing on the deck of a submarine when it submerged, but there wasn't anything you could really call exciting."

Careless of Him.

Mother—"Poor Jimmy is so unfortunate."

Caller—"How's that?"

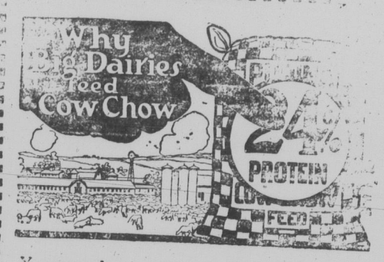

Mother—"During the track meet he broke one of the best records they had in college."

McGILL UNIVERSITY, MONTREAL

The Arts Building.—Sir Arthur Currie is front. Photos by Notman, Montreal.

Sir Arthur Currie, who stepped out of the chief command of the Canadian Army to take over the Principalship of McGill University, should find good scope for his organizing ability and driving force in McGill's Whirlwind Campaign for $5,000,000, which has been arranged for the week commencing November 15th. This sum, large for a Canadian University, but small in comparison with the recent campaigns for Harvard, Yale, Cornell and Princeton, is necessary to put the great Canadian University financially on its feet, and to help to recoup the losses caused by its active participation in the war and by the absence of many students on war service overseas; also to renew and extend equipment, to increase professorial salaries, to extend the buildings to meet the requirements of a larger number of students in attendance since the close of the war; to meet the special requirements of the various faculties; to erect dormitories for students, a common dining hall, professors' residences, and a convocation hall. Many leading Montreal citizens have accepted the responsibility of heading and arranging the work of the campaign, which will be along lines made familiar in Canada in years past.

McGill, from its very inception, nearly a hundred years ago, was identified with scientific research and application. The Faculty of Medicine is the oldest Faculty of the University, and the first degree conferred was the medical degree given to Dr. Logie. The practical trend of McGill's teaching appealed to business men, such as the late Sir William Macdonald and Lord Strathcona, and no doubt influenced them in helping the University with substantial endowments. The pre-eminence of McGill in Applied Science is largely due to the policy of Sir William Dawson, during whose regime the course of Engineering was enlarged into the Department of Practical Science, and later into the Faculty of Applied Science.

Scientific Agriculture is taught under the auspices of McGill at the affiliated Macdonald College in Ste. Anne de Bellevue which has done a great work in teaching improved methods of farming, not only in the Province of Quebec, but also throughout the whole of both Eastern and Western Canada. At MacDonald College also is a school for Teachers which has greatly [illegible] educational standards.

The School of Commercial Studies is a recent development which shows that McGill is up-to-date and alive to the needs of the present generation. Here business organization, accountancy, commercial law, banking and industrial organization are taught by experts to the future captains of industry.

McGill has produced some of the foremost physicians, surgeons, engineers and men of science of our time. Johns Hopkins University owes its high standing to the administration inaugurated by a McGill man, the late Sir William Osler, who afterwards did similar work for the School of Medicine at Oxford University.

Lord Shaughnessy is the honorary chairman of the Campaign Committee, while Mr. E. W. Beatty, President of the Canadian Pacific, is the active chairman of the executive. Others actively interested in the campaign work are Sir Vincent Meredith, President of the Bank of Montreal, Lord Atholstan, proprietor of the Montreal "Star", Sir Charles Gordon, Sir Montagu Allen, and a committee of 150 men prominent in Montreal's banking, transportation, shipping, and general business circles. In addition to those there is a strong committee of the Graduates' Society, with a membership in many parts of the world, headed by Major G. C. Macdonald, who won honors serving with Princess Patricia's Light Infantry. It is stated by the University authorities that the receipts [illegible] doubled by $40,000 during the first year of the war, [illegible] speedily increased to a drop of $100,000 in the ensuing years owing to the absence of every fit man on active service with the Canadian Expeditionary Force. Sir Arthur Currie states that since the conclusion of the war the registration at McGill University has doubled, necessitating an increase in the staff and the erection of new buildings, while the depreciated buying power of the dollar has hit both the university and the students hard. As a result of the campaign it is hoped to recoup the University and place McGill in a position to continue its work and to keep pace with other great universities on the Continent.

Gertrude Letourneau, on the occasion of her approaching marriage to Mr. Joseph Ed. Elsliger. The ceremony took place at the home of Mrs. Ed. Litalien and over fifty friends attended. The future bride, who is one of Dalhousie's popular girls, was the recipient of a large number of gifts, consisting of linen, china, etc.

The Halifax papers report that Mrs. W. K. McKean, formerly Miss Lena Barberie of Dalhousie, gave a dance recently in the Waegwoltic Club for her two young daughters, the Misses Amy and Mollie McKean, then home from Netherwood, Rothesay, N. B. The Clug was fairly overflowed with young life and the girls, who are great favorites, and in their evening gowns and the delightful "setting" which their party furnished, looked very lovely, assisting their mother in doing the honors with ingenuous and easy grace.

The deepest sympathy of this community goes out to Mrs. Andrew Barberie, of Dalhousie, on the death of her estimable sister, Miss Sydney Doyle, which occurred at the Hotel Dieu Hospital in Campbellton on Sunday last.

ELECTION CARD

To the Electors of the Town of Campbellton.

Ladies and Gentlemen:—

At the request of a large number of ratepayers I have decided to offer as a candidate

FOR MAYOR

for the ensuing year.

I have served one term as Councillor and have a fairly good grasp of town affairs.

If elected, I shall fulfill the duties connected with the office to the best of my ability and independent of any class, party or individual, and my policy will be economy and good management of our town business consistent with the proper upkeep of the different deportments.

As the time will be short and I may not be able to meet each elector personally, I take this opportunity of soliciting your support.

N. C. McKAY.

ELECTION CARD

To the Ratepayers of Ward Number Two.

Ladies and Gentlemen:—

I am requested by a number of ratepayers to offer as

COUNCILLOR FOR WARD TWO.

Having been elected to this office two months ago and being desirous to give my share of service to our beautiful town, thinking as I do that it is every citizen's duty to have a turn at it, I have accepted nomination for the ensuing year.

I would therefore ask your kind support. If elected, I shall do all in my power to promote Strictest Economy, consistent truth and the good management of our town affairs. I beg to remain

Your obedient Servant,

Adolph Zukor presents MARGUERITE CLARK

"ALL OF A SUDDEN PEGGY"

SHE was all Irish—and all-of-a-sudden! One morning the papers, with her consent, announced she was married.

But she wasn't "husband." And what's more, she refused to wed her

What was her game? Something deep and mysterous-s-s! Come and laugh while you find out.

From the Noted Stage Success by Ernest Denny.
