WHAT KRUGER SAYS. Paris, July 23 .- A dispatch from Amsterdam contains an interview with Mr. Kruger on the letter of Former Secretary of State Reitz, of the Transvaal, to Mr. Steyn. Mr. Kruger says it is a one-sided document selected by Lord Kitchener out of many others that were captured. These included reports and letters from the Transvaal generals. Toibas, Smuts, Delarey and Beyers, and the leaders of the forces operating in Cape Colony, all of which were strongly in favor of supporting Mr. Steyn, Lord Kitchener, Mr. Kruger said, carefully avoided mentioning these reports and letters. Exports of Domestic Produce Amount to \$177,639,192 Against \$165,-180,858 in 1900.

Ottawa, July 23 .- From unrevised figures obtained at the department of customs yesterday, it would appear that the foreign trade of Canada last year increased about \$13,000,000 over the year previous, which was by far the largest in the history of the country. On the basis of imports entered for consumption and exports of Canaare at present assembled here on a dian produce only, exclusive of the percentage usually added for exports to the United States not recorded, the total foreign trade of the last fiscal year was \$358,864,581. basis for the previous year the trade was \$345,985,174. It is not possible at present to give the figures of the aggregate foreign trade, which includes the total imports and exports, but it is confidently expected that they will be in the neighborhood of \$394,000,000. For the fiscal year 1900 the aggregate foreign trade was \$381,517,236. The exports of domestic produce by classes for the fiscal years 1900 and 1901 were

The figures show that last year foreign farm produce to the value of \$15,820,302 was imported by Canadian routes, while the year previous such exports amounted to \$12,101,212. The total imports entered for consumption in 1901 were \$181,225,389. For the year previous they amounted to \$180,-804,316. Exclusive of coin and bullion, the imports for consumption for the two years were as follows: 1901, \$177,-688,075; 1900, \$172,506,878; increase, 1901, \$5,181,197; duty collected in 1901, \$29,-128,548; duty collected in 1900, \$28,889,-110; increase in 1901, \$239,438.

The average rate of duty on the imports dutiable and free entered for consumption, after deducting coin and bullion and the value of Indian corn imported and subsequently exported, was 16.89. In 1896 the average rate on this basis on the importations for that year was 19.19. There was, therefore, a reduction last year as compared with the rate in 1896 of 2.30. If the rate of duty which prevailed in 1896 had been in operation during the last fiscal year, the people would have paid \$4,000,000 more in duties.

It is Not a Stimulant But a Tonic You Need

Hosts of people do themselves irreparable harm and shorten their lives by many years by the use of Stimulating drugs to whip up the exhausted nervous system and keep the machinery of the body working. Others get temporary relief from nervous headaches and body pains by the use of deadening and nerve-destroying narcotics. Both of these treatments mean death to the nervous system and hasten the approach of paralysis and insanity.

Dr. Chase's Nerve Food is a protest against these old-fashioned and villainous methods of treatment. Unlike any other medicine you have ever used, Dr. Chase's Nerve Food forms new red corpuscles in the blood and creates new nerve tissue to replace that destroyed by overwork and disease. It is impossible to obtain a more effective treatment for nervous disorders than Dr. Chase's Nerve Food because it gradually and naturally restores the wasted nerve cells and rebuilds the system. It is the up-to-date remedy for weakness and disease resulting from exhausted nerves.

FIREMEN GOING BACK TO WORK!

The Strike Was Practically Called Off Last Night.

Lehigh Valley Machinists Return to Work After Having Been Out Two Months.

Wilkesbarre, Pa., July 23. - More mines, with the aid of the United Mine Workers, resumed operations in the Wyoming Valley yesterday. Committees from the striking stationary firemen waited upon the superintendents of the various coal companies and asked to be reinstated. At some of the mines the committees were told that the places of the strikers were filled. At others the names of the old firemen were taken, and the committees were told that if their services were needed they would be sent for. There seems to be no question but that this strike will be officially declared off tonight, and that at least 85 per cent of the strikers will be back in their old places tomorrow, when it is expected there will be a general resumption of mining operations.

The strike of the stationary firemen was officially declared off last night at a joint meeting of the strikers and executive board of United Mine Workers. The meeting was a stormy one. The committees appointed by the joint conference to call on the coal operators and ascertain how many of the employes could hope for reinstatement reported that sixteen of the companies were in favor of taking back the old and seven refused. Among the latter was the Lehigh Coal Company, which employs in this district about 3,000 men, all told. The Trader's Coal Company, it is said, refused to reinstate its old firemen unless they consented to work for a decrease in wages. The hoisting engineers who went out in sympathy with the firemen, were also refused reinstatement at many of the mines. It is thought that in a day or so all the strikers will be back in their old places, despite the stand taken by the companies.

MACHINISTS RETURN TO WORK. Wilkesbarre, Pa., July 23.-After a two months' strike the machinists employed by the Lehigh Valley Rail way have given up the fight, and are returning to work, not in a body, but as individuals. About 40 men turned to work at the Caxton shops today. It is thought that by tonight there will be a rush of applications for work. The 800 machinists and car repairers at the Ashley shops of the Central Railroad, of New Jersey, still out, but a break in the strikers' ranks is expected at any time.

UNIONS FOR WOMEN. New York, July 23.-Four women members of the American Federation of Women appeared before the Cen-tral Federated Union of New York Monday to ask aid in securing the co-operation of the families of laboring men in the work of the women. It is expected to bring about through the medium of this organization a revolution in the organized labor movement The women propose to bring into their federation all the wives of union men in order that there may be complete co-operation in the event of a strike in any of the branches. The argument is made that as the women spend the the most effective work where mer chants are concerned.

REAL PROPERTY ACT

Of Manitoba Disallowed by the Dominion Government.

[Special to The Advertiser.] Ottawa, Ont., July 22.-The real pro perty act of Manitoba, passed in May, 1900, has been disallowed by the Dominion Government. The reason of disallowance is that one of the clauses of the bill says that all lands in the province must be surveyed by provincial surveyors. The Dominion asked that this clause be amended so that certificates of Dominion land surveyors might be accepted for Dominion lands. The province refused to make the change asked for, hence the disallow-

AMERICAN WOMEN GIVE KING A MEDA

And His Magesty's Odd Response Is Causing Much Comment.

London, July 23.-Much gossip in American and English society has been caused by the presentation to King Edward yesterday by some American ladies of the hospital ship Maine com mittee, of a medal, commemorative of the Maine's work, with a request that the king transmit the medal to Queen Alexandra. It seems that the idea was opposed by a number of influential members of the committee on the ground that the king did not want the medal, but the others carried the day. The king's reply to the delegation which made the presentation is caus-ing some comment, as he thanked "This American committee" for their "Loyal, dutiful sentiments" as he did the Kansas legislature in answering their telegram of condolence on queen's death and as he also thanked the committee for the bringing their valuable services to a culmination by presenting the ship to the government whereas this was done solely by Mr. Bernard H. Baker, of Baltimore.

BLACK KNIGHTS ARE IN SESSION

Reports Show the Order To Be in Flourishing State.

Strike of Toronto Brass Workers-Insurance Ratings-Other Queen City News.

Toronto, July 23 .- The Grand Chapter of Royal Black Knights is in ses sion at Victoria Hall, with Lieut,-Col J. H. Scott, of Kincardine, presiding. The report of officers shows that the Royal Black Knights are in a flourishing condition. The coronation oath and proposed changes in it are likely to afford material for a warm debate this afternoon.

The message of the Grand Chapter of the Royal Black Knights of Ireland to parliament regarding the proposed changes in the coronation oath and the resolution of the Commons of Canada favoring the modification of the oath is quite emphatic. The grand chapter tonight concurred with unantended to the control of the oath is quite emphatic. imity in the observations of Col. Scott, of Kincardine, the grand master, who declared that the action of parliament was a gratuitous insult to the prevalent religious sentiment of the country. The action of nineteen members who opposed the resolution is commended, and the declaration made that there is as much need of the oath today as there was two hundred years ago. As to the action of Catholics who wish the oath modi-fied Col. Scott says: "They are careful not to offer any reciprocity of sentiment by agreeing to tone down over the extent of a syllable the offensive and violent anathemas hurled at Protestants by their clergy and high dignitaries, in their official declarations. The sound old legal maxim that 'he who comes in the court must come with clean hands' might be applied with peculiar fitness in this instance.' It is said tonight that the leaders of the Orange order at the grand lodge tomorrow will take into consideration the proposal to organize a great Orange demonstration during the royal visit. Hon. Clarke Wallace will, it is expected, take the ground that the order should do nothing to disturb the national hac nony at that time.

BRASS WORKERS STRIKE. Toronto, July 23.—Close upon 200 men are out on strike in the brass manufacturing industry. The trouble, which originated with the brass molders, has now involved machinists, brass finishers, pattern-makers and the coremakers. Thirty brass finishers and polishers came out of the factory of the John Morrison Company. Nine shops are now affected, the men in each case numbering from 5 up to 30. Three shops have signed the union scale, and the men are now at work. The men say it is a fight against a combination, and that more men may yet become involved. The machinists in several shops have been asked to take the brass work and will probably refuse.

A novelty among strikes was that inaugurated today by the life insur-ance canvassers in the city of the provident branch of the Northern American Life. Because one of their number was forced to pay some arrears on a premium in default, owing, the management held, to his failure to collect, fifteen of the staff, including the superintendent, put on their coats and walked out. As the work was largely among people with whom they had become acquainted as a result of many visits, the strike is likely to prove embarrassing.

hospital authorities had asked for his body for dissecting purposes. He tells his own story: "I feel it my duty to testify regarding the wonderful curative powers of your new system of treatment. My case is one that baffled the skill of the best English and Canadian medical men. In 1876, while in the tropical climes, I was attacked with Tropical Dysentery in the most dangerous form, and was unable to eradicate it from my system. I was treated in the West London Hospital, at Ham-mersmith, England; also St. George's Hospital, Knightsbridge, London. I was Hospital, Knightsbridge, London. I was under the care of the most skilled physicians in London, who were unable to benefit me, and my case was pronounced incurable. Since coming to Toronto I have been a patient in three of the city institutions, viz., General Hospital, Grace Hospital and Simcoe Street Dispensary, and have been dismissed as incurable. I was advised to take Powley's Liquified Ozone as a last resort, and at the time I began the treatment was helpless in bed with dysentery in its worst form. I had a large lump on the left side of the stomach the size of a hen's egg, believed to be cancer. I continued the Ozone until I had used five bottles, but a permanent cure has been the result. The lump in my stomach has also disappeared, and after 18 long years of dectoring and suffering, I can say positively that I have been cured through your new treatment. DRIVEN INSANE BY GREAT HEAT.

Maddened Woman Tries to Kill Her Husband With an Ax.

Many Deaths and Prostrations Throughout Mississippi Valley-No Relief Likely.

Kansas City, Mo., July 23.-Fourteen deaths from heat, with fully 40 prostrations, were reported up to 1 o'clock yesterday in Kansas City, Mo., and Kansas City, Kansas, for the past 36 hours. Nine of these occurred Sunday and five since midnight Sunday night. At 1 o'clock yesterday afternoon the weather bureau thermometer registered 102. Not a drop of rain is reported from any point in the southwest yesterday, and there is no immediate promise of moisture. NO SIGN OF RELIEF.

Washington, July 23.—Today's reorts from the Middle Mississippi Valley stations of the weather bureau do not indicate any relief for the people of that drought and heatstricken region. At St. Louis the thermometer at 7 o'clock registered 86 degrees, four degrees higher than at the same hour Sunday; at Kansas City, 84 degrees were indicated, two degrees higher than Sunday; at Spring-field, Ill., 84 degrees, six higher than Sunday; at Omaha, 84 degrees, two higher, and at Austin, Texas, 82 degrees, an increase of eight. The weather was clear throughout the region, and not even thunderstorms were indicated there. There was a fall in the temperature at Chicago, and the prospect is for cooler weather on the great lakes, and later through New England. The weather forecasters say there is no sign of relief for the people of the Mississippi Valley.

HEAT DROVE HER INSANE. St. Joseph, Mich., July 23 .- During the past 24 hours four prostrations have been reported to the authorities Mrs. C. M. Cornwell, of Chicago, died; Frank Furlong, went insane; Frank Baker, of Chicago, fell from a bicycle in a faint.

The fourth victim was Mrs. Charles Hanson, who went insane late Sunday night and drove her husband from the house with an axe. Before she could be quieted she destroyed all the furniture and windows in the house with the axe. The temperature registered from 102 to 104 in the shade.

The insurance on the building and machinery was only \$2,800, and stock \$1,000. The loss will be heavy, particularly so, because the fall trade will soon be on, and Messrs. Gardener & Hilborn enjoyed a large custom trade.

AT BRANTFORD.

Brantford, Ont., July 23 .- A severe thunderstorm passed over the city about 5 o'clock yesterday morning. The lightning was very bright, and a heavy rain fell. The Expositor flag tower was struck by lightning. The flag staff was splintered into match wood and the glass around the tower was smashed into little pieces. Fortunately the main building escaped without any damage.

AT SPARTA.

Sparta, Ont., July 23 .- About 1 o'clock yesterday morning lightning struck the barn on the east part of the Ban-bury farm. The farm is used by Squire Smith, who loses in the contents one load of wheat, a quantity of hay, a binder and a democrat. In the basement were a bull and two calves, all burned to death. No insurance. John Farrah's house was also struck. Lath and plaster were torn off a room in which three persons slept, but they were not injured. Winnipeg, July 23.—An electric storm yesterday afternoon struck a house on

William street, setting it on fire. Everything in the room where the bolt struck, including a sum of several hundred dollars, which was in a drawer, was destroyed.

THE INDEMNITY WILL BE PAID!

Allies Agree at Last Upon a Practicable Plan for Settlement of Question.

Banditti Create Disaffection in Chi-Li District---Pacification Is Difficult.

Washington, July 23 .- The state de- | to be taken from each. The principal partment received a dispatch yesterday from Commissioner Rockhill, at Pekin, announcing that a plan for the payment of the indemnity to the powers by the Chinese government finally had been adopted. The amortization of the bonds to be issued will begin in 1902, and the plan contemplates the entire liquidation and interest by 1940. It is expected that China will raise 23,000,000 taels annually. This sum is to be used to pay the interest on the bonds and to form a sinking fund for the ultimate liquidation of the prin-

cipal. Mr. Rockhill's dispatch was very brief, and did not go into any details. From their knowledge of the general basis upon which the ministers have been working, however, the state department officials have a general idea of the conclusions which have been reached. The total amount of indemnity which China will have to pay will aggregate 450,000,000 taels, and bear 4 per cent annual interest. It is estimated that of the 23,000,000 taels which China is to pay the first year, 18,000,000 taels will be required for interest, and that 5,000,000 taels will be applied to the sinking fund. Each year the interest will grow less, and the amount set aside for the sinking fund, so that by 1940, when the bonds are to be by 1940, when the bonds are to be liquidated, the interest will be almost normal. The sources of revenue for the payment of the indemnity, as understood here, are to be derived from the gabelle or salt tax, the maritime customs and the likin tax, a portion ly reaching Li Hung Chang.

of the payment of the indemnity having been determined upon, what remains now is to devolve a plan for its execution. This is not regarded as a serious problem. The bonds guaranteeing the indemnity are to be distributed among the various powers upon the basis agreed upon heretofore. There will be no international guarantee, but it is expected that the governments to whom the bonds are allotted will see to it that the purchasers will be safe in their investments State department officials pretend there will be no trouble on the part of the various governments in disposing of these securities.

REBELLION AND BLOODSHED. London, July 22.-A dispatch from Pekin says: Disaffection caused by banditti is prevalent in 30 districts in the central part of Chili. Local officials are either disinclined, or unable with the force at their command, to suppress the troubles. Li Hung Chang, as viceroy, is too busy to attend to provincial matters. The troops sent against the banditti showed sympathy for them, many of them having formerly been soldiers. They are better armed than the troops. In a re-cent conflict, 100 soldiers and officers were killed. The troops of Yuan Shih Kai, governor of Shantung, are the only ones that can be trusted to act. The result of dispatching some of them to quell the disaffection is not yet known. Even if successful in one district, an uprising is likely to occur as soon as they depart for another. Complete pacification will be extremely difficult. Official appeals are constant-

MRS. KRUGER WAS THRIFTY WOMAN.

Kept Household on Government "Coffee Money" and Saved Her Husband's Salary.

London, July 23.—The death of Mrs. Kruger is much commented on here. Mrs. Kruger's personality was always meal, no matter how distinguished the summed up by those who had the good fortune to meet her in the expressive term, "motherly." She was frequently likened to Tant Sanna, of Miss Schreiner's "African Farm," but the comparison was hardly fair to the wife of Oom Paul, for she kept abreast of the times, and was always deeply interested in her husband's work and in the progress of the fatherland.

She was somewhat younger than her husband. She had borne him sixteen children, eleven of whom are still living, including five daughters. In the small, unpretentious house in Pretoria, used as the presidency, domestic habits were very simple. The president and his wife were habitually early risers.

Though the first lady of the coun-

BAKER'S BACKACHE

A Well-Known Paris Baker Tells How Dr. Pitcher's Backache Kidney Tablets Cured Him.

There are hundreds of bakers suffering from backache, pain in the back and kidney trouble, which make work a hardship, and life one round of misery, who will be thankful to know that Dr. Pitcher's Backache Kidney Tablets can give them speedy and permanent relief from all these distressing troubles.

Mr. George Bell, baker and confec-tioner, River street, Paris, Ont., made this positive statement: "My back has been in bad shape for three years, and at 64 years of age we do not exwhich left the back painful and the kidneys weak. I have tried all sorts of medicine with no relief until I got a bottle of Dr. Pitcher's Backache Kidney Trouble, at Paul L. Scott's drug store, and so rapid and great was the relief that I quit on one-half bottle, and have no symptoms of any trouble at all since. I am, so far as I can see, completely cured. This is wonderful to me."

woman, they say, Paul Kruger has been enabled to save \$25,000,000. The president's wife saw to it that the household subsisted on the \$2,000 a year cof-fee money allowed by the government and saved his \$35,000 salary. On this coffee money the first lady of the Transvaal entertained diplomats and travelers of all nations, and no one of them ever left that hospitable mansion hungry.

On the occasions when she had guests she wore her best Sunday gown, but on until ju dinner was ready, for she invariably superintended the preparation of that guests.

The war was a terrible trial for Mrs. Kruger. She used to say: "You don't know how this war is wearing upon my old age. Many long years ago I came to the Transvaal with my parents, in the great northern trek, ways retreating, as our people have always done, from British might." But, even in the midst of her own sorrow, she found eloquent words in which to express her sympathy for British mothers, wives and sisters who had lost their dearest ones in the continuous carnage.

Injunctions Granted With Reference to the Great Strike-Caution Badly Needed.

The power to issue an injunction is one of the extraordinary powers of the court. It is often issued as an interlocutory injunction, ex parte; that is, on the application of one side only; and if disregarded, is a contempt of court, which the same judge might punish with imprisonment.

A superior court at Ansonia, Connecticut, issued an injunction against a body of workingmen on strike, 200 of them, by name, and ordered them to refrain from "PICKETING, boycotting, threatening, or in any way molesting anyone now in the employ of the company, or who may be hereafter employed." And a judge in Cincinnati, of the District Court there, says: "Acts of violence, and even boycotting, are not to be met by injunction;" and states that he is opposed to picketing, and would use his power

What is picketing? He defines it as "intercepting men while going to or from the factory-anywhere, even miles away-by one man, or more than one, and an interference with ingress and egress of workmen."

The journals of the United States, many of them at least, are crying out "government by injunction," and they are right.

Judges under such circumstances should act with extreme caution, and always remember, what some of them sometimes forget, that they are appointed to administer the law, and not to make it. What the individual opinion of a single judge may happen to be with reference to strikes and strikers, may depend very much upon the blood that flows in his own veins. He may be one of those who would throttle any man who dared to strike, or his whole sympathies might be with him. In cases of this kind, principles

should govern. It appears to be quite clear that the judges are legislating, trying to make the laws, and not administer them. One judge, Judge Wing, of Cleveland, saying with reference to picketing, that "persuasion of itself, long continued, may become a nuisance and unlawful." Who is going to judge, and what will the result be to the administration of justice, if the judges undertake to say when the limit has been exceeded? There is a freedom of speech that the judges had better leave alone. These men are in every respect as good men as the judges themselves. They are better, so far as a knowledge of their own business is concerned; better qualified to reason with reference to what they should do than any judge.

Let injunctions be issued to prevent men from speaking to each other on the subject most important in the world to them, and the chief end of government, the administration of justice, will soon be at an end. It would be an invitation to use force; because the state of affairs that would be brought about by such an abuse of the judicial powers would be intol-

It is not likely, however, that these precedents will be followed. A better judgment will prevail, a judgment that will recognize the principles upon which such extraordinary powers as the power to grant injunctions should be exercised. To interfere with the freedom of speech would work irreparable injury.

Big Bequest-Will It Stand.

A new and interesting point has arisen in connection with the bequest by a Mr. Rogers of \$3,000,000 to the Metropolitan Museum, New York. It appears that Rogers drew his own will. and he left a nephew "seventy-five thousand thousand dollars," is, seventy - five millions, nearly times more than he owned. Did he intend to do it? Whether he did or not, can what his will says be contradicted? His heirs object to let the money go to the museum; and the nephew, it is asserted, will claim, not seventy-five thousand, which he is undoubtedly entitled to, but seventy-five thousand thousand dollars. The will was drawn by the testator and witnessed by competent

Britain and France.

The trade relations between France and Great Britain form an interesting subject, showing the extent to which the two countries are united by the bonds of commercial intercourse. The articles of commerce consist chiefly of drygoods and fancy goods. Britain and America have during recent years taken about one-third of the exports of France of all kinds. A writer in the Contemporary Review states that the way French industries are at present constituted the patronage of English-speaking people is essential to the progress of French commerce. A large portion of this commerce consists of articles of women's choice and for women's wear. The writer also states that the finest and most expensive of such goods find a market in either Britain or North America, the cheaper class of goods as a rule going to South America and to Northern Europe.

The special articles of French industry are tissues, garments and underwear, imitation furs, jewelry, gloves, buttons, fans, and so on. In the manufacture of such articles there is no questioning French superiority. Tissues, of which the most important is silk, form the largest part of these commercial products. Great Britain and the United States take sevenninths of silk brocade, five-sevenths gauze and crape, and one-half of the

silk tulle exported by France. The Ottawa customs returns indicate that out of \$4,368,592 worth of merchandise purchased by Canada from France last year, \$1,977,040, or 45 per cent, consisted of goods as follows: Woolen goods, \$622,617; silk goods, \$616,972; cotton goods, \$112,233; gloves, \$171,477; fancy goods, \$48,600; feathers, laces and artificial flowers, \$129,246. Champagne, brandy, calf and kid skins, fans and jewelry formed the other largest items imported from

Fined For Swimming.

Now is the time of the year when, perhaps, more than any other, the aquatic character of men asserts itself. It is not possible for all to get to the seaside, there to plunge in the refreshing waters. The vast majority must remain in the cities, and simply en-

dure the heat. Frequently we learn of arrests of men and boys who are caught swimming in the rivers. Only recently we heard of two arrests, one at Windsor and the other at Montreal, the arrests followed by fines in each case. This should not be. It is preposterous to place in the category of crime an act which the requirements of health de-

Every city should be provided with public baths. These should be easily accessible by all classes. The free use of cold water should be encouraged, as it is one of nature's own remedies for the effects of heat.

The precisely best plan for London -what is it? Could any larger public use of the sulphur springs flow be made?

In what way can any portion of the river most contiguous to the city be made available? The idea should be the greatest contiguity and the smallest cost. We shall be glad to publish suggestions.

Death on Mosquitoes.

A means has at last been devised for the extermination of the mosquito, which has become a severe pest in many localities, not only on account of its peculiar habit of making it hot for one who attempts to obtain a little respite from the oppressive heat by seeking shelter in the shade, but on account of its capacity for spreading disease. It is alleged that the mosquito is accessory to the spread of malarial

It has been found that kerosene has a deadly effect on this pestiferous insect. The mosquito breeds on the stagnant water of marshes, swamps and pools, where the larvae can be destroyed by means of a kerosene film spread over the water. This method has been tried with success in one of the Eastern States, but it has not been found necessary to resort to such costly means of extermination in Ontario. The most effective means we know of lies in the draining of swamps and marshy districts. As the country districts become cleared up, and under cultivation, the mosquito gradually disappears. The annihilation of miasmatic pools and swamps, besides meaning death to the mosquito, will of itself be conducive of pure air and general health.

Among the most recent improve ments in harvesting machinery is the automobile mower, which, being operated by a gasoline engine, is said to work successfully.

The latest report of the Commissioners for Prisons for Great Britain shows a great falling off in crime. The number of prisoners incarcerated in the different penal institutions in the United Kingdom was 823 less at the close of the year 1900 than at the close of 1899.

Fixing the Blame.

The White Boxers.

[Cincinnati Times-Star.]

A society of "White Boxers" has been organized in Chicago for the purpose of opposing the further progress of the Mongolian peoples in the United States. Apparently—judging from the name of the society—the same methods of terror which were used so free-

ly in Pekin last summer will be applied in America; at least until American law gets its strong hands on the of-fenders. Some people seem unable to realize that the cowardly methods of realize that the cowardly methods of persecution practiced in Pekin are no less contemptible and far more dis-graceful in the big cities of the United States than in the filth-littered streets of the Chinese capital.

A Titantic Struggle.

[Ottawa Citizen.] Now that the iron and steel workers have gone out on strike against the big trust, capital and labor have got in holts for the most Titanic struggle in the history of either. The sympathy of the public will be with the men and against the gigantic combination of capital which threatens the equilibrium of trade and the peace of the industrial world. Labor is united on a basis of the greatest good for the greatest number; capital on the principle of the greatest good for the smallest number. The combine stands for the absolute domination of the almighty dollar; the unions for the dignity of labor and industrial freedom. A victory by the combine will be a misfortupe for hymanity and establish misfortune for humanity and establish in the industrial world an autocracy in many respects as absolute as those won by the sword in the dark ages with almost as great a power over the lives of those it employs.

THE PASSING OF THE SWORD

Board of Cavalry Officers Pronounce It a Failure.

In Future Musketry Practice Will Come First in the Training of a Recruit.

London, July 22. - Lord Roberts, the commander-in-chief, has issued an or der that in future dismounted infantry officers are to carry carbines instead of swords on active service, and in

maneuvers. Consequently the instruction of infantry soldiers in sword exercise will be discontinued, except in the method of drawing, returning and saluting.

The reign of the sword is over. A board of expert cavalry officers, guided in a large measure by the opin-ions of cavalry leaders at the front, have pronounced the weapon practically useless for warfare. For cutting it is regarded as an absolute failure. Only on the very few occasions when a thrust is possible is it at all effect-

Lord Roberts, who was one of the finest swordsmen of the Indian army for many years, has decided that for the future the use of the rifle must ba the first consideration in the training of recruits of all arms. He has abolished sword, lance and bayonet exercises as a part of the soldier's training, and has ordered that these monial" drills are to give place to musketry and rifle practices.

The cavalry sword will still remain part of the mounted man's equipment, but a lighter one is being experimented with to take the place of the present pattern weapon. The glittering scabbard, pride of the horseman's eye, but excellent mark for the hidden sniper, is also doomed, and a leather-covered wooden scabbard is to be used in-stead. It has the advantage of being ten ounces lighter, and also with it it is possible to keep the sword sharp, and a sharp sword has hitherto been almost unknown in actual warfare.

It is also proposed to adopt a modification of the Sam Browne belt, the idea being to carry the sword upon the body of the man instead of on the horse as hitherto.

STATE OF ANARCHY SAID TO EXIST!

Minnesota Town in the Hands of Armed Ruffians.

Winnipeg, Man., July 22.—A state of anarchy reigns in Beaudette, Minn., the present terminus of the Canadian Northern. Sheriff Bailey and Marshal Styles, of Benridge, Minn., arrived in the city from the south yesterday and left by a special over the Canada Northern last night for Beaudette. Building operations on the Canadian Northern bridge across the Rainy River have been suspended. Armed desperadoes have threatened the lives of the men employed on the bridge, and the workmen have taken refuge at Beaver Mills, on the Canadian side. Many citizens also have been forced to seek safety on the Canadian side. Beaudette is a new town. There is no county or municipal organization. Eleven saloons run night and day, without a license, and the place has become a resort for outlaws, gamblers and crooks of every description. Sheriff Bailey is going down with the intention of putting the town on a law and order basis.

There was a fair-sized crowd of buyers and sellers at the market here today. The market was only an ordinary one, however, Raspberries and cherries are all about marketed for this season. The prices were a little higher for the different kinds of truits offered.

Grain-Only one load of wheat offered and sold at \$1 10 per cwt. There was a large supply of oats. The markets are lower at outside points, which, no doubt, had an effect on this market. Prices were lower, selling at 97c to \$1 per cwt, a drop of 8c per cwt.

Hay and Straw-Hay was a drug on the market this morning; nearly 30 loads being offered; prices were lower, selling at \$6 to \$7 per ton.

Butter and Eggs-Butter was in fair supply; the demand is not as good as last week; butter increcks sold at 17c to 19c; 18c per 1b seemed to be the ruling figure; butter in pound rolls was more plentiful, and 20c was the highest paid for wholesale lots. Eggs are steady and prices are unchanged, as per table.

Poultry-Almost all of the offerings were in the hands of the dealers, who made the prices to suit the demand.

Fruits-Most of the fruits offered today were small, and of an inferior quality. Today will about end cherries and raspberries. Three loads of black raspberies were offered today; one load sold at 8c per box in the early part of the morning; 9c per box was most frequently paid. Cherries were lower, at 7c to 8c per quart wholesale, and 9c per quart retail.

Vegetables-Three small loads of old potatoes were held at 40c to 50c per bag. New potatoes were in large supply, selling lower at \$1 to \$140 per bushel, and are retailed at 5c per quart. One hundred dozen of green corn shipped in from Windsor was sold at 10c per dozen, or 15c per dozen retail. Other roots are steady at prices quoted.

Dressed hogs-Only a few offered at prices quoted.

Meats-Were in good supply; no change In prices were noticed. WHOT EGYLE DEVIEDS, DEICES

DIED IN SCOTLAND

Honorable Career of Mr. David Smeaton's Uncle in Perthshire.

The Perthshire Advertiser, of Perth, Scotland, of July 8, devotes considerable space to an account of the life of the late Mr. Wm. McLeish, ex-town clerk, who was an uncle of Mr. David Smeaton, of 415 Dundas street. Mr. McLeish was educated at Perth and Edinburgh University, where he was graduated in law, subsequently returning to Perth, where he served many years as a useful and trusted public servant. Among the offices that he filled at various times were those of clerk to the commissioners of supply. to the police commission, the town council, the water and gas commission, and of the county council. Mr. McLeish was also one of the honorary sheriff substitutes, and was a member of the Society of Perthshire Procurators since 1857. In politics he was a Unionist, and in church matters a supporter of the Establishment, having een for many years a member of Kinmoul session. He was the high worshipful master of Lodge St. Andrew, No. 74. He was a keen and all-round sportsman," the Advertiser says, "taking an interest in cricket, golf, curling and bowling, and was a member of most of the prominent clubs. Why Premier Bond Recovered Lands From Reid.

Contractor Owned the Best Part of Newfoundland Coast and Want-

St. Johns, Nfid., July 23.—Mr. Bond, the Newfoundland premier, introduced the new railway bill in the legislative assembly last night. He explained that the government had been influenced in insisting upon recovering the ownership of the 3,135,000 acres of land accruing to Mr. Reid, the contractor, under the previous contract by the following alleged facts:

by the following alleged facts:

Mr. Reid has already been granted 425 miles of land on the sea coast, and he applied for 635 miles more, making 1,130 miles altogether; whereas the French shore, so prolific a source of trouble for two centuries, only includ-

ed 800 miles. Mr. Reid's grant included 50,000 acres of homestead lands, occupied by squatters without legal title, but whose His Pastorate Here Has Been Sucoccupancy was usually recognized in the colony. All these would be liable to eviction at the will of Mr. Reid. The grant also included 224,000 acres of timberlands already leased and worked by other parties, who, on the expiration of their leases would The German Lutherans, of this city see these acres, together with mills, are losing their pastor, Rev. Favorites Return to Springbank Park and Give a Good Entertainment.

The performance at Springbank Park this week is one deserving of the large crowd which was attracted by it last night, and during the balance of the week the accommodation of the comfortable open-air theater should be taxed to its full capacity. The programme opens with an amusing comedy sketch by Mr. and Mrs. Fairman, which is followed by Winton, the clever ventriloquist, in his laughable performance with the dummies. The Llewellyn Sisters repeat their previous success here with their refined songs and pretty dance. Areno, a young contortionist, who was at Springbank last year, performs some marvelous feats. The programme closes with Fairman's rendition of new and popular songs, illustrated with appropriate and pretty views. Music is furnished by the Musical Society Orchestra.

Lactated Food SAVES BABIES' LIVES

This assertion is amply proven by the host of strong testimonials from happy and grateful mothers in every town and city of the Dominion. No other infants' food can show such a record of infant life-saving. The points of excellence claimed by Lactated Food are as follows: It is a perfect substitute for mothers' milk; its composition is pure; it is the only perfectly predigested food; it is easily assimilated; it is tolerated when all other foods are rejected; it is the only true flesh builder; it is the only food that saves the babies from cholera infantum and dysentery in hot weather. Recommended by all physicians and sold by all druggists.

Alive, Yet Half Dead,

Alive, Yet Half Dead,
Feeling miserable. This is the condition of thousands of growing girls and women. Can't eat enough to be truly alive. Digest so little of what they do eat, as to scarcely know what life really means. Miserable? Of course. Eat more, digest more, then feel streaming through life's renewed current, the buoyancy, the strength, the hopefulness of youth. Simply done if you'll just take Ferrozone, the wonderful blood maker, nerve strength and brain vigor. Mr. Strong, druggist, knows all about it. Call and ask him about it. cation as the answer of the government of Ontario to my demand for the removal from office of Francis Love, police magistrate of the city of London. Yours truly, "W. H. BARTRAM, "Lieut.-Col. Leys, M.P.P., London."

Securely lashed on the forward deck of the German steamer Hehenfels, which arrived at New York yesterday from Calcutta, was an Egyptian boat, said to be 4,000 years old, recently dug out of the bed of the Nile. The boat is stoutly-boxed up and was shipped at Port Said. Freight charges were paid there amounting to 2,000 marks. The ancient Egyptian boat is for the Car-negie museum at Pittsburg. The ma-rine curiosity is about 20 feet long, 7 feet wide, and 5 feet in depth. It will

TERRIBLE EXPLOSION ON AMERICAN BOAT!

Sixteen Persons Perished by the Blowing Up of Petroleum Cargo.

Stockholm, Sweden, July 23 .- An explosion today of petroleum on board the American schooner Louise Adelaide, Captain Orr, which left Philadelphia April 24, and Portland, June 4. for Stockholm, in the harbor here, resulted in the death of Capt. Orr, ten members of the schooner's crew, four Swedish customs officials and the Bra-zilian consul. Two of the Louise Adelaide's crew were saved. The explosion set the chooner afire and the blazing petroleum enveloped the vessel and those on board.

PLANT TO CLOSE DOWN. New York, Jan. 23 .- The plant of the American Dunlop Tire Company, at Belleville, N. J., it is announced, is to be closed down inside of a month, and the business moved to Hartford, Conn. The business will, it is said, be merged with that of the Hartford Rubber Company. Both plants are controlled by the American Rubber Company.

SOME PERSONS have periodical attacks of Canadian cholera, dysentery or diarrhea, and have to use great precautions to avoid the disease. Change of diarrhea, and have to use great precautions to avoid the disease. Change of water, cooking and green fruit is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed, no further trouble will be experienced. Mr. Hugh A. Allan, of Montreal, has

been elected president of the Canada Paper Company, to fill the vacancy caused by the death of his father, the late Mr. Andrew Allan.

THE WORLD IS FULL OF PAINS.—
The aches and pains that afflict humanity are many and constant, arising from a multitude of indistinguishable causes, but in the main owing to man's negligence in taking care of his health. Dr. Thomas' Eclectric Oil was the outcome of a universal cry for some specific which would speedily relieve pain, and it has filled its mission to a remarkable degree.

Purified blood means clear complexion, freedom from Neuralgia, Rheumatism and a host of kindred complaints. It means freedom from nervousness, healthful, restful sleep. There isn't a blood purifier on the market with a better record than PARKE'S LITHIATED FRUIT GRANULES, removing as it does, speedily and surely, all those injurious substances from the stomach and bowels that poison the system and make the blood impure. It is cheap doctoring at 25 cents the large bottle. Sold by Cairncross & Lawrence.

STOLEN REVOLVERS INDENTI-FIED.

The local police have received word that the revolvers found on the three supposed burglars arrested at Woodstock on Sunday have been indentified as those stolen from MacKenzie & Co.'s bicycle and gun shop, Richmond street, Friday night. The men gave the names of Thomas Dolton, of St. Thomas; Wm. Morgan, of Woodstock, and Bert Dickson, of this city, but the police believe that these are assumed. One of the trio has been indentified as Charles Farmer, of this

SHIRT WAISTS IN CHURCH.

The shirt waist, after being frequently seen on the streets of London for over a month past, has made its appearance in several local churches. For two weeks a member of the Memorial Church choir has been coatless, cool and comfortable, while his coated brethren have endured the heat as they best could. In several other churches the shirt-waist man has appeared in the congregations. Several of these bold pioneers say that the comfort secured is ample recompense for the occasional unfavorable com-

OF SPECIAL INTEREST To Hay Fever Sufferers.

Sufferers from hay fever and summer catarrh will be interested to learn that there is a new, simple, inexpensive but effective home treatment for this obstinate and baffling disease, and that a little booklet fully describing the treatment will be mailed free to anyone addressing F. A. Stuart & Co.,

Doubtless this statement of a cure and positive preventative of hay fever will be received with scepticism by the thousands who have found the only relief every year was a change of climate during the summer months. But whether skeptical or not it will cost nothing to investigate this new treatment. Simply send name and address on a postal card to Stuart Company, Marshall, Mich., for the booklet which, besides describing treatment, contains a concise treatise on the cause and character of this peculiar disease.

Cigarmaker Said to Have Left Wife and Children

And Gone Across the Border With a Female Companion to Whom He Had Been Attentive.

Omer Hazelgrove, a cigarmaker, has been absent for nearly a month, and his friends are beginning to suspect that he has few intentions of coming back. Hazelgrove's wife and three children, the youngest only a few months old, live in London West. Since her husband's departure, Mrs. Hazelgrove has had one letter from him inclosing \$5 and written from Detroit. The fact that a female cigarmaker, to whom Hazelgrove has been paying attention for over a year, left the city about the same time that he did, leads to the suspicion that the two are living together in the States. Hazelgrove was at one time a prominent worker in the Socialistic Labor Party.

TOURNAMENT IS NOW IN PROGRESS

Western Ontario Bowlers Competing on the Green

The big flag is flying from the tail flagpole on the pretty grounds of the London Bowling Club this afternoon, and the scene is gay with smaller flags and bright bunting. The sixth annual tournament of the Western Ontario Bowling Association is in progress, and rinks are entered from the following cities and towns: Chatham, Stratford, Brampton, Blenheim, Petrolia, St. Thomas, Woodstock, Seaforth, Mitchell, Paris, Clinton, Goderich and London. The greens could not be in bet-ter condition, and play will be corre-spondingly good. The tournament is expected to be the most successful yet held.

The draw for the trophy match was made last evening, and resulted as follows:

Trophy match, preliminary round: (a) A. Gardner, Woodstock, vs. J. S. Roberts, Seaforth. (b) J. S. McDougall, London, vs. James Steele, Stratford.

(c) James Carrie, London, vs. Paris. (d) Wm. Lind, London, vs. Bramp-(e) J. H. Brown, London, vs. Sowerby, Chatham. (f) Dr. English, London, vs. R. L. Josnell, Blenheim, Dempsey, St. Thomas. (g) C. Dempse Weld, London,

FUNERAL OF LATE ROBERT DICKSON

Sketch of a Well-Known and Much Honored Old School Teacher.

The interment of the late Robert Dickson, who died on Sunday at the residence of his niece. Mrs. McLachlan, 18 Picton street, took place this afternoon at Melrose cemetery, the funeral leaving the house at 1 p.m. The services were conducted by Rev. Walter Moffat

A worthy and interesting character has been taken away by the death of Mr. Dickson. He was born 84 years ago in Darnick, near Melrose, Scotland, and came to Canada in 1830. He settled in Lobo township, teaching school in school sections Nos. 2 and 3, and he afterwards taught in No. 9, London township. As a teacher he was another veritable "Dom-sie," because of the deep interest because of the deep interest in helping poor lads to secure an education. He has in not a few cases been known to provide his pupils with the necessary books and education so that not a few "lads o' pairts" are now occupying good positions in society. During the last 30 years he had lived largely in retirement owing to a slight deafness with which he afflicted. He was a man who took a deep interest in the affairs of Canada, and also those of his native country.

Ald. Parnell Still a Believer in In Cape Colony French Is Press-Sugar Beet Project.

Thinks Test Will Be So Satisfactory That Capitalists Will Not Ask for Bonus.

The test growths of sugar beets are giving much satisfaction to the people interested in the promotion of the beet sugar industry here. Acting-Mayor Parnell said today that as soon as the tests were completed the committee of citizens appointed to study the project would again get into harness. He was confident, he said, that the tests would prove better than was expected. He believed that they would so advertise the Middlesex district as a first-class beet-producing country that Mr. Stewart, the capitalist who proposes to erect a factory here, will do so without pushing his request for a \$25,000

"Personally," the acting mayor said, I would support no such bonus. The people wouldn't, either."

"Of course she looks paler," answered Mrs. Clarence, willing to turn away the young man's anxiety. "It is only natural. A month's nursing after a great shock is not exactly the way to get roses. "I am quite up to traveling now," said Douglas, eagerly. "Mr. Stanford writes to me that he is coming down to Ilchem-ster on the 30th, a week from now. I should like to be there to see him." "Mr Jenkips says you may travel in a

ster on the 30th, a week from now. I should like to be there to see him."

"Mr. Jenkins says you may travel in a week," replied the widow, putting down her work and rising from her seat. "Do not look so doleful, Sir Kenneth," she added, with a gay glance at the young baronet, whose face had clouded over at the mention of departure. "Surely you are not going to bury yourself in these wilds much longer. For pity's sake leave the Hall to the partridges, pheasants and poachers, and return to civilized society."

"I should like to," he answered, ruefully, "but I really must not. Enough mischief has been caused by my absence and selfishness as it is. I must stick to it now, and try to make up for my evil deeds. Lancaster, I shall be wishing you a relapse."

deeds. Lancaster, I shall be wishing you a relapse."

"I'm not afraid of that," he replied, smiling; "but Mr. Jenkins—"

"Is here to answer for himself," laughed Mrs. Clarence, opening the window. "Good morning, Mr. Jenkins; your bird is talking of taking flight."

Mr. Jenkins—or the doctor, as the country folk called him—was a slender, well-looking man of five and thirty, well read and clever in his profession. His countenance was a pleasant one, except when a sneer crossed it, which was by no means seldom, for the medico piqued himself on his powers of sarcasm, which he was ill-tempered enough to prize.

on his powers of sarcasm, which he was ill-tempered enough to prize.
"I am not sure whether his wings are strong enough," he replied, smiling. The gay widow, so witty and amusing, had quite bewitched him, and the kindness which had induced her to come down to the Maisonnette and help Andree down to the Maisonnette and help Andree in her attendance on her husband, had touched his better nature. "How do you feel this morning? Ah! there's a touch of fever! Have you been playing editor?" "Not playing it—acting it, really," Sir Kenneth said, sulkily. "Did you ever hear of anything so Quixotic, Jenkins? Lancaster wants that fellow who shot him left alone."

"I did not know you had found him." said the surgeon, with his fingers on his patient's wrist.

"I mean if we do," flashed Sir Kenneth.
"Oh!" the other answered, slowly.
"Well, after all, punishing him won't prevent the ill effects Mr. Lancaster will suffer from his act, and which he has suffered. You know the old proverb, Sir Kenneth—'let sleeping dogs lie.' If you come across him, well and good, punish him by all means; if you don't, better still—you will be forced to leave him alone."

"Will you agree to that, Lancaster?"
said Donaldson, eagerly. "If I give up

"I know, I know," laughed she. "You mean the Kennys. I wish my husband had not asked me to leave them in the house; I should be charmed to turn them out."

said Douglas, laughing. "You owe her a good deal," said the surgeon; "but whether you owe a good deal to her husband and his chums is another matter. One debt quite counter-

another matter. One debt quite counter-balances the other, that is my opinion."
"I am so sorry I let you come here,"
said Mrs. Clarence, regretfully.
"I am very glad you did," said Lancaster, with a glance at Sir Kenneth.
"Friends are not so plentiful that one would not be willing to pay a tolerably dear price for the possession of such as we have found here. Are you going, Donaldson? Will you not stay and see Andree before you go?" dree before you go?'

The baronet declined, alleging as an excuse an appointment with a troublesome tenant, as he made his farewell and walked down the garden with the surgeon, and when the latter had mounted his gig and driven away. Sir Kenneth set off at a round pace and walked rapidly down the lanes which lay between the Maisonnette and Wildlea Hall. He had not walked very far when 'he saw before him a graceful figure clad in a flowing morning dress, whose tasteful simplicity, unknown at Wildlea, spoke loudly for Andree Lan-

He hastened his steps, and in a moment was by her side. She turned to him, saying quickly:

I was waiting for you, Sir Kenneth." And while Sir Kenneth hurriedly expressed his pleasure at the rencontre, he noticed how deadly pale she was; how uneven and faltering her steps; how trembling the little hands; how full of fevered, frenzled anguish the sweet eyes. "What is it?" he said, anxiously. "You are ill Mrs Lancaster Good heaven! are ill, Mrs. Lancaster. Good heavens! what is the meaning of this?"
She had sunk down on the road at his feet, and with her eyes, restless and glit-tering with the fever-light, raised to his face, and her hands clasping his arm in agonized supplication, she seemed to strive for sufficient composure to speak.

CHAPTER XIV.

"Good heavens!" repeated Sir Kenneth,
"what is it? Mrs. Lancaster, rise—I entreat you, rise; I cannot speak to you
thus; pray calm yourself. What has
happened to agitate you thus? Have you
been hurt—insulted? Has anyone dared
to molest you?"
And distressed to the highest degree And distressed to the highest degree

by her passionate emotion, he pressed the little, trembling, burning hands in his, and, seeing that her shivering limbs could hardly support her, he made her sit down on the grassy bank which skirted the lane on either side. A burst of tears came to her relief

lane on either side. A burst of tears came to her relief.

"Will you let me call your maid?" he said, as she sobbed hysterically. "Nay; but I must get you some assistance; you are really ill, Mrs. Lancaster."

Unable to speak, she, with a movement of her hand, implored him to remain, and he sat down by her, waiting until the passionate emotion had partly subsided. It must indeed have been a matter of the gravest moment which could thus agitate and distress the calm, self-possessed girl who six weeks ago would have sccined the very idea of showing any emotion before a comparative stranger; but It was evident that she could not control herself any longer, and that the anguish of mind she was enduring was intense. When her passionate tears had ceased she seemed almost too exhausted to speak, and Sir Kenneth was feeling rather vexed and nonplussed at the awkwardness of this adventure, and of his position, tete-a-tere with a woman who at first threatered him with history.

feeling rather vexed and nonplussed at the awkwardness of this adventure, and of his position, tete-a-tete with a woman who at first threatened him with hysterics, and then with a fainting fit, when she turned to him, and, in a voice faint and weak indeed, but quite calm, began:

"Forgive me, Sir Kenneth," she said, with a faint smile on her lips, which seemed to light up the intense mournfulness of her face and the deep shade lying in the sweet, dark eyes. "I must entreat your forbearance and your patience even before I apologize for troubling you with such a nervous attack; but I am in great trouble.

"If I can be of any assistance to you I need hardly say it will afford me great pleasure, not only for your sake, but for your husband's," he replied, kindly.

She shivered a little, and looked up at him with a weary helplessness on her face which struck him painfully.

"You are very good." she said. "Do you remember the first time we met you proved yourself a friend in need? It was on the day—that terrible night."

"Do not distress yourself by recalling those sad scenes," he said, soothingly. "If it be in my power to assist you, Mrs. Lancaster, I am ready and willing to do so for your sake as well as for your husband's."

THE OAR.

A HEARTY WELCOME. With the band of the Bodyguards ahead, the victorious Argonauts, Winnipegs and Dons drove through the principal streets on their arrival from Philadelphia. The winning crews were in their four-in-hand drags, decorated with the club colors, with dozens of brooms, which gave a sort of "We sweep the sea" look to the procession. The reception was the most enthusiastic seen for many years—since Ned The westerners Hanlan came home. were as warmly greeted by the thousands at the wharf when the boat came in as the home men. A movement has been already set on foot to send the Argonauts to Henley next year. Major Harston, of the Argonauts, says they won easly, and were at no time hard pressed After their victory over the Vespers, there has been no trouble in getting subscriptions to send them to Henley Several of the Winnipeggers stayed over in Atlantic City, but all the Argo nauts, except Goldman, were on hand. LAY DOWN AFTER MEALS

Predicament of Mrs. Susan Coome, of Strathroy.

For the last fifteen years Mrs. Susan Coome, of this place, has been laboring under the heavy load of Dyspepsia. Her case has been long considered as hopeless by her friends, but strange to say the lady has at last found not only relief but a complete cure.

To say that those who know her are surprised but faintly expresses the general astonishment at the robust health Mrs. Coome now enjoys compared to what she has been for years. For over fifteen years Mrs. Coome has had to lie down after meals. She could not eat any pastry, or if she did, she suffered for it. After every meal she was miserable with sour stomach and heartburn for hours. It seemed as though no food would digest.

Mrs. Coome tried remedy after remedy in vain. In fifteen years she tried every treatment for Dyspensia within her means. Failure was the sole result in every case, and nobody but despaired of her ever again being well But she is well. Her letter explains the whole matter.

"For fifteen years I have been afflicted with Dyspensia." she writes. would suffer from sour stomach after the lightest meal and would have to lie down I felt so sick. If I ate the slightest bit of pastry I had to suffer Nothing I ate would digest, I tried all sorts or remedies, but nothing gave relief until I heard of your Dodd's Dyspepsia Tablets, I used two boxes. Two boxes was all I took, and I am entirely cured. I can eat anything now without the slightest fear and feel as bright as a little child."

Disastrous Forest Fires—The Ottawa River Mystery-Escaped Convict Recaptured.

Ottawe, July 23 .- The costliest and most extensive forest fire on record has raged this month in the Kippewa district. A gentleman familiar with the situation stated yesterday that the loss would at least total \$500,000, and would probably run much higher. Heavy rains on Wednesday and Friday stopped the progress of the fire. As yet the owners have not had an opportunity to ascertain their losses. Gillies Bros., Braeside, are probably the heaviest losers. Their limits, 300 miles in extent, were burned over.
Alex. Lumsden, M. P. P., who has
limits near by, covering ten square
miles, loses heavily. The fire seems
to have centered on the Lumsden-Gillies' limits. I. R. Booth 400 square lies' limits. J. R. Booth, 400 square miles; the Hull Lumber Company, 300 miles, are other losers. The fire was fought off these limits with success, and only small portions were burned. The limits of the Hawkesbury Lumber Company near by escaped. Part of the limits visited by the fires had been cut off fires had been cut off, and the timber destroyed was only young pines.

OTTAWA RIVER MYSTERY. Ottawa, July 23. - A new theory in the river mystery is gaining currency. It is that Miss Morrison was taken sick on the Saturday night before the body was found, and that she leaned over the cliff above the river, when she overbalanced and fell into the river. When the body was found the stomach was empty, and Miss Morrison's hand-satchel was found hanging on the fence at the place where it is supposed she fell over. A provincial detective is expected here to clear up the mystery.

ESCAPED CONVICT RECAPTURED. Windsor, Ont., July 23. — Policeman Joe Elliott, of the Windsor police force, yesterday captured Andy Epp-erson, one of the Chatham escaped prisoners, for whom there is a reward of \$500 offered. The identity of the prisoner was made known to the policeman by an employe of J. Piggott & Sons, lumber drawers, who had seen the fugitive in Chatham and recognized him as he was entering a small store on London street in the morn-The Chatham police have been notified.

A GALICIAN CONVICT'S SUICIDE. Stony Mountain, Man., July 23.-A Galician named Wasyl, who was sentenced a couple of months ago to two months' imprisonment for attempting to shoot a woman, and when leaving the court room struck the woman and was given three years, in addition to his sentence for contempt of court, committed suicide in his cell in the penitentiary Sunday.

SYMPATHY WITH TRACKMEN. Pembroke, Ont., July 23.-A public meeting in the interest of striking trackmen was held here last evening. The mayor presided, and the sympathy of the audience was strongly in favor of the trackmen. On the division of the C. P. R., from Ottawa and Brockville to Chalk River, all the trackmen but two went on strike on June 17

SALE OF COAL LANDS. Bathurst, N. B., July 23.—A coal deal of considerable importance was consummated here yesterday. David Mitchell, Pennsylvania Coal Company, Montreal, and Wm. Mitchell, of Drummondville, with others, have purchased the Chinoet and St. George mines, eight miles from here. The properties involve several miles of coal and 2,500 acres of land. The new company will be known as the Maritime Coal Company, and will expend many thousands in developing their newly - acquired property. They expect to have an out put of 200 tons a day.

RUSH FOR OKLAHOMA

Fully 150,000 People Are After New Claims on Comanche Lands

Fort Sill, O. T., July 23. - Disorder and distress will, it is feared, follow the actual opening of the Kiowa Comanche lands on Aug. 6. It is now said that Fresh Buttermilk, 2 qts for 5c fully 150,000 people will have registered Fresh Skimmilk, 2 qts for 5c for a chance to secure one of the 1.300 claims to be awarded by lottery when the registration booths close on July 26. Thousands of persons now on the reservations are neither mechanics nor artisans, and who have little or no money, but announce their intention of locating around Lawton if they shall fail to win a claim. Campers, who came in prairie schooners by the thousands, generally brought with them provisions sufficient to last only five to ten days. Continued drought has caused the water to be restricted, and for days a hot wind was blowing over the prairies, and the temperature has averaged above the 100 mark. With these conditions before them, many are already beginning to grumble, and when this shall be followed by failure to draw a lucky number the hopes of many will doubtless give way to more serious conditions.

Could we read the hearts of every man we meet, what a load of sorrow and despair would be disclosed. Indiscretions and Blood Discases have caused more physical and mental wrecks than all other causes combined. They strike at the foundation of manhood; they sap the vital forces; they undermine the system, and not only do they often disrupt the family circle, but they may even extend their poisonous fangs into the next generation. If you have been a victim of early sinful habits, remember the seed is sown, and sooner or later you will reap a harvest. If your blood has been diseased from any cause do not risk a return later on. Our New Method Treatment will positively cure you and you need never fear any return of the disease. We will give you a guarantee bond to that effect. We would warn you sincerely against the promiscuous use of mercury, which does not cure blood poison tut simply suppresses the symptoms.

BURNED BY LIVE WIRE.

Wm. Taylor, a street railway company lineman, yesterday lifted the broken end of a wire on the Wortley road to the hanger, and immediately the current passed through his body. He could not let go the wire until the power house was told by telephone to shut off the current. Both hands were burned across the center of the thumb and initial finger.

A RUNAWAY.

Dr. John D. Wilson, while visiting a patient in the eastern part of the city yesterday, left his horse and buggy in charge of a twelve-year-old boy. The boy climbed upon the horse's back, frightening it and causing it to run away. The horse ran to its stable at Scandrett's livery, 366 Dundas street, and just before turning in it collided with a tree in front of the First Congregational Church, damaging the vehicle. The horse escaped with a

HEARD NO MORE COMPLAINTS. Prof. S. J. McLean, the Dominion Government's railway rate commissioner, went to Stratford today to meet shippers there and hear their complaints with reference to railway rates. Prof. McLean's work in London was limited to his interviews in the morning with five London shippers, as none showed up in the afternoon to air their grievances. Should those who had

PRESENTATION TO THEIR CAP-

Mr. Joseph MacWood, foreman in the freight department of the G. T. R. car works, has been presented by the members of No. 2 fire company with a handsome traveling bag. The presentation was a mark of appreciation of Mr. MacWood's efficient captaincy of the company, which last year won the prize offered by the G. T. R. for the fastest time made in the wet and dry races. The prize was won in competition with 37 other companies.

DEATH OF MR. BARTHOLOMEW DRAKE.

After five weeks' illness, caused first by sunstroke, and subsequently by paralysis, Mr. Bartholomew Drake died last night at his home in the Gore of London. He was born in Torquay, don in 1854; entered the employ of the Great Western Railway, and after serving for some years as a baggageman at the depot and on a train, he was appointed a conductor-a position he held for some time. After leaving the railway he entered the hotel business, in which he remained until his retirement in 1875. For a quarter of a century Mr. Drake had lived in London township. He was a sportsman all his two sons, Arthur H., of London, and Wm. C., of Dorchester, survive him. The funeral will be held tomorrow af-

new order was well attended. The men maneuvered on the common east of William street. About 700 persons left this city for Sarnia this morning. The excursion will be largely patronized also by res-

idents at wayside places. The return match between the "Tecumseh" club, of this city, and the "Victoria" club, of Ingersoll, was played today on the grounds of the latter. A number of citizens went down to witness the match. The "Tecumseh" nine comprises Jas. Jury, catcher; E. Paul, pitcher; W. Griswold, first base; G. Gardner, left field; John picnicking at Springbank this after-noon. They went down by special car ond base; R. Meredith, third base; Frank Cooper, shortstop, and R. Southam, center field, a likely team and not easily beaten. We learn by telegraph that the Ingersoll club, at 3 p.m., headed the Londoners by 29 runs, the score standing: Ingersoll 56; London, 27.

A Temporary Famine

Thousands of Consumers of

Are Deprived of Their Favorite Breakfast Dish.

The Rush of Orders Is Great and Pressing From Grocers in All Provinces.

The Malted Cereals Company Making Strenuous Efforts to Keep Up the Supply.

It can be truly said that, at the present time, no other breakfast grain food is as popular as Malt Breakfast Food in the Dominion of Canada. Wholesale and retail grocers and tens of thousands of delighted users de-clare without hesitation that Malt Breakfast Food is far ahead of all other known grain foods, and our best physicians pronounce it a true health food. A visit to the factory at Cowansville, Que., where all is delightful cleanliness, order, system and incessant production, and a look at the ac-cumulating and unfilled orders at the head office, Montreal, is conclusive evidence that the public demand is phe-

nomenal. It is literally true when we state there is a temporary famine as far as the supply of Malt Breakfast Food is concerned. Letters from the whole-sale and retail trade prove this statement. Many business houses have not a package in stock, and consumer who do not quite comprehend the position of the overworked and overrushed factory, are daily clamoring for supplies of their chosen breakfast food. The Malted Cereals Company while sincerely thanking the wholesale and retail grocers of Canada for past favors and continued interest in the success of Malt Breakfast Food, can give the assurance that, with new and increased facilities, they will be able in a week or two to fill all back orders. To the tens of thousands of users of delicious Malt Breakfast Food, the Malted Cereal Company promisea strict continuance of that high standard of purity that has made Malt Breakfast Food such a fast friend with young
