COUNTY POLICE NEBULUS FORCE TOTALS A

Hundred" Believed To Be Working-But Where?

NEGLECT TO REPORT

"Where are the Middlesex County police?" is a question of the same order as "Where do the flies go in the winter time?"

If a hold-up man ever attacks you on a Middlesex County road at night, you may be able to get the high con-stable, but you will certainly have some difficulty in finding an ordinary constable. Springbank Park has a few, but they are employed solely to

police the park.

Parkhill has not a constable, neither has London Township or Westminster. There are a few other places where there is no local representative of law and order.

Of course this situation is not a new one as far as Middlesex is concerned. Even when the late lament-ed noble "Two Hundred" were on the county police list, one had difficulty g an officer within the confines of Middlesex. One could carry a list of the constables and still be

unable to make connections.

Some of the constables who were on the list had long since died. Others had become so old that they could not venture out on a damp night for Ethelly. fear of getting rheumatics. Finally the county council decided to dispense with this film comedy force. Fail to Report.

INSPECTORS APPROVE

Greer and Wheable Believe tion states. Agreement Will Solve Difficult Problem.

The agreement reached between the board of education and the city council as to the Belgrave avenue land proves very acceptable to School Inspectors V. K. Grere and G. A. Wheable. The purchase of this land in the area of the Tecumseh School seems to them to be the solution of what is becoming year by year more of a problem. In the last four years two additions have been made to this school and the rate of increase in this district of London South calls for an extension plan that could only be carried out with the use of plenty

of space for future building.

The newly acquired land on Belgrave avenue gives the board possession of almost eight acres of land all in one piece. Tecumseh School stands on one end and the London South Collegiate, which will be the second accordance of the collegiate which will be the second control of the collegiate which will be the collegiate will be the collegiate which will be the collegiate will be the col South Collegiate, which will have to be built in the near future, will stand at the other. Mr. Greer pointed ou this morning that the allowance of land for each school that the department of education recommends is not maintained in London. In none of the London schools is the space really adequate, and he is glad to see that in London South this will be recti-fied. The regulations call for acre for the first hundred pupils half an acre for every hundred after the first.

DEFENSE CASE ENDS AT TRIAL OF DELORME

Crown May Call New Firearm Expert, Which Action May Lengthen Trial.

Canadian Press Despatch.

Montreal, July 19.—The case for the defence in the trial of Rev. Father Delorme, charged with the murder of his half-brother Raoul, was announced as closed yesterday afternoon. This may not, however, mean that the end of the trial is in sight. Crown Prosecutor Calder yes. sight. Crown Prosecutor Calder yes-cerday announced his desire to call a new firearms expert, Col. Gaudet, to make experiments in rebuttal of evidence furnished by expert Jones, called by the defence on Monday. The defence at once protested that this would mean further experiments by them in rebuttal and would lengthen out the trial by a few more weeks. On the other hand, Mr. Calder promised that his examination of Gaudet would be short and would be commenced this morning lasting only a few minutes. If the defence are satisfied to abandon the rebuttal evidence, this would mean that the addresses to the jury will then begin and should be finished by Friday. His lordship will follow in both languages and the case would then go to the jury some time on Saturday.

MONTREALER IS HELD ON CHARGE OF FRAUD

Canadian Press Despatch.
Hamilton, July 19.—An important arrest has been made by Detective Crocker and Chamberlain in the case of William H. Larkin, Montreal, who, following a remand on a charge of vagrancy, will be charged with false pretences. Local druggists are the complainants. It is alleged that Larkin obtained cash in payment for needles to be used for a consignment of phonographs to be delivered by "the Phonograph & Cabinet Needle Company" of Montreal, a firm which, apart from Larkin is alleged not to exist. A notebook said to have been found in his possession shows that thany cities in Ontario and Quebec have been visited, and a telegram from Smiths Falls states that he is wanted there on 15 charges of false pretences. of William H. Yes, Canada Can Be Saved.

The Montreal Star has discovered something. It has had its ear to the keyhole of board rooms of powerful corporations; it has been asked to come in and close the mahogany door behind it at the exclusive clubs. After being saturated with this atmosphere, it said:

There are times when silence is treason. Occasions come when the Thing that every man of intelligence knows and whispers behind his hand to someone he can trust—but which he is afraid to speak aloud lest the very speaking precipitate the disaster he dreads-must be shouted boldly m the housetops if the people are to be awakened to the danger that overhangs them.

"Today in the board rooms of powerful cor-porations, in the head offices of great financial institutions, in exclusive clubs and wherever the men foregather whose business it is to know about the financial condition of the country, a thing is being said that threatens the life of this nationand yet the busy people of Canada, intent on making a living, are left in fatal ignorance of the impending

"This unspeakable thing which threatens the life of the nation is the fact that, though the en over for nearly five years, our national debt is still rising by the hundred million-that our railways, built to serve twenty million people, are piling up deficits at the same ruinous rate—that foods of immigrants who will stay in the country, use our railways and pay taxes, constitute the only conceivable cure for this desperate condition-and yet so little is being done to get and keep these immigrants that it is hard to credit we are not

being sacrificed by a policy of deliberate neglect.
"What is whispered behind the hand is that, if this keeps up. Canada is doomed within the next quarter of a century. This is the thing we are now hiding, but which the Canadian people have every right to know.

The Ottawa Journal suggests that the first thing to done to meet this desperate situation is to tie a wet owel around the Star editor's head. Some other writer as suggested a couple of pills—anything to bring his temperature back to normal, when the following facts might be placed before him in big letters:

That at the present time the Canadian people have \$1.837,000,860 invested in Dominion of Canada bonds. That their demand deposits in the chartered banks bf Canada total \$537,340,000.

That their notice deposits (savings) total \$1,227,- hazard before the race ever started.

That Canada's international trade is the highest imports. That our revenue is the highest in our history.

That thus far in the present year immigration exceeds last year by 43 per cent, and that the main increase is from the British Isles.

That Canada's credit in the money markets of the world was never higher than at present.

And that there is every evidence—thank Provilence-of a coming abundant crop. Of what other land in the world can as much be

It is a sad thing when a newspaper gets the idea

that the fate of the nation rests in the "board rooms of powerful corporations" or in "the head offices of great financial institutions," or that our prosperity depends on what men "in exclusive clubs whisper behind the hand."

behind the hand," the fat, pudgy hand, may alarm the Montreal Star. It is not nearly as important, though. as the thousands of strong, able men in shops and farms who are using their hands, not as whispering screens, but for honest hard work. This latter class control and create the wealth.

It is high time some of these arch-enemies of the National Railways came right out in the open and stated their hope that the government railroad would fail and fail quickly and disastrously. That wail about the way the deficits are piling up is the finest kind of grease to spread on the rails; it means that some person has got to work harder to put sand on the same spot to undo the mischief.

The men who are running the National Railways. from Sir Henry Thornton on down, are putting up a great service and a great effort. The road is now paying operating expenses and is moving toward the day when it will assume its own fixed charges, and all the encouragement the Montreal Star has is that the National is "piling up deficits at the same ruinous rate."

This form of shadow boxing with calamity is not particularly impressive; to outsiders who do not understand the Montreal Star it is dangerous from a national standpoint Only two things could prompt such an outbreak, (1) a desire to draw a long bow at any risk at the National Railways, or (2) a desire to prejudice the standing of the Canadian government and the Canadian people.

Unionism Deals With Revolutionists.

Not in the history of trades unionism in this country has there been penned a more vigorous denunciation and repudiation of any union official than that launched by John L. Lewis, president of the United Mine Workers of America, against Daniel Livingstone, president of the Nova Scotia mine workers, now on an outlaw strike.

Mr. Lewis wields the proverbial trenchant pen may prove the exception to this rule, but Europe and when occasion arises, and he considered the Nova North America still look to the farms for fresh supplies uch an open attempt at revolution, and so much influenced by the red element in the labor ranks, that he placed force and vigor behind each word flashy the other steady.

and sentence of the letter that suspends the charter of the Nova Scotia miners.

President Lewis openly charges Mr. Livingstone head of the Nova Scotia miners of district 26, with being under the thumb of Moscow. His wording is very plain:

"I have in mind that you are a self-proclaimed revolutionist. I am familiar with the constant intrigue between yourself and your evil genius McLachlan, and your revolutionary masters in Moscow. I can recall the sentiments which you enunciated at a comparatively small meeting of the international executive board at Indianapolis, when with the cold ferocity of a five-yearold defying its mother you announced you were a believer in revolution by force. No doubt the present strike in Nova Scotia corresponds with your idea of a revolution against the British government and is in pursuance thereof."

The action of President Lewis of the U. M. W. of A., in cancelling the charter of the Nova Scotia miners, of discharging the officers and naming new officials to look after the legitimate affairs of its members, puts the struggle in a new light as far as the general public is concerned.

The whole affair takes on the aspect of a bold move revolution, and thousands of hard-working miners are made to suffer the consequences of a leadership that defies authority and ignores signed contracts.

None of these developments make it certain that the employees in the steel mill of the British Empire Steel Corporation have not a case that deserves the fullest consideration. Judged by the standards of other trades where hours are not so long, their wages seem low and the time spent in earning them long.

There will probably be a short, sharp fight between the revolutionists and the real union men who want nothing more than a chance to work under decent conditions at a decent wage. Once this is over, the affair should be settled in such a way as to make conditions of employment fair and the return for good work satisfactory and sufficient.

"How would the farmers of Ontario like to pay that price to have their crops taken in?" is the question this westerner puts to the people of this district.

Farmers in this district could not pay it; it would take too much away from their own earnings. Unfor- Young tunately the western farmer, although in most cases not likely to have as much for his crop as the man in Ontario who feeds or holds his produce, has to pay the price and take the chance.

CITY AND COUNTRY NEEDED.

(From the Toronto Sunday World.) It will be a sad day for the nation when the rural stocks are played out, when the farms of Ontario produce peasants, rather than yeomen.

When the 19th century began 4 per cent of the people of this continent were in the cities and 96 per cent in the country. Then the log shack and graycent in the country. Then the log shack and gray-kind of heels may throw your body shingled homestead began to lose their charm. Today out of alignment, and result in strain 54 per cent of the people are in the cities. The 46 per cent must still supply a goodly proportion of the leaders for those who came from continental city to Canadian city how many will rise from labor to gang boss to contractor to magnate?

The question for Canada to answer is: Can the rural population go on producing those energetic and enduring builders who have flung out our railways, stablished our banks, developed our trade, pioneered our manufacturing? If the dream fades, then rural depopulation will cease to be a worry and the future of the ountry will not matter, for there won't be any future.

TO THE EDITOR.

TO SWIM OR NOT TO SWIM THAT (Apologies Hamlet.)

Whether 'tis better to suffer the heat and dust of an outraged body, when it can be ended by a swim in Editor of The Advertiser:

Sir,-In articles under this head note that Dr. MacGregor's letter particularly emphasizes the fact that they are not discussing the right or wrong of swimming on Sunday, but should the city of London, as a corporation, put the facilities for amusement and recreation in its play-grounds, at the disposal of the public on Sunday, and thus ally itself with those forces that tend to destroy the sanctity of the Lord's day. t, Mr. Editor, is a fair, straight and vital question, and to date na velope for full particulars not been answered. The city council and public utilities should have no trouble in answering it, as they are merely the executives of the citi-zens and are supposed to comply with what the citizens determine. Therefore, seeing that Dr. MacGregor rests his case on this point, it would be well to consider it from that angle, and the answer obviously is "Yes," because the majority of citizens favor it. Whilst no vote has been taken on it, all evidence to date has been in the majority, yes. The Ministerial Association have a perfect right to protest, but not to dictate, to the council or utilities commission. They represent all the citizens, whilst the Ministerial As-

sociation only represents a large minority. I think when Dr. MacGregor rested his case on "Should the city of London do this?" he lost his ase. Had he taken it on a qu of right or wrong, he would at least have been molding public opinion ready to take a vote to decide it. It is no part of this article to discuss church doctrine or practice, but I would state in passing that we are we would keep Saturday), and there is nothing in the teaching of the Nazarene to forbid any such thing

My chief objection to the stand of the Ministerial Association is their inconsistency. In their fight to get and keep the Lord's Day act it has always been something touching the interest of the worker that has been attacked. Dr. MacGregor says the workingman must be fed up. True he fight for Eunday street cars that particularly affected him. No word said against the automobile. When Danny and Nanny Meadow Mouse had started out to look for a new home they hadn't had the least idea where that new home would be. They simply wanted to get away from where they had been living not far from the dear Old Briar-patch. Too many knew that they were living there. Life was too uncertain. It seemed to them that they spent most of their time dodging enemies. So at last they had started out to look for

they wanted to see what it was like in there and learn all about it. They expected to make their home on the ground or in it, as they always had. It was Nanny who chanced to look up and see the old nest of Redwing the Blackbird. It wasn't very high up. and it was a very easy matter to climb to it. Nanny did climb to it. She found a very well-built and com-fortable nest. Being tired, she curled up in it to rest. And then it was that the great idea came to her. She scrambled out of that nest and down

"You know our cousin, Whitefoot the Wood Mouse, sometimes builds his home in a bush or tree. There isn't any rea-son in the world's why we shouldn't. We'll put a fine roof over that old nest, and we'll have the safest home we have ever had in all our lives. Everyone who knows that old nest

Danny looked a little doubtful, but he wisely held his tongue. He had earned that when Nanny had made up her mind to anything he might as well agree. So he half-heartedly fell to work to help make a roof over that old nest. Before it was finished idea as was Nanny, and together they worked as only two Meadow Mice

Southern Loop May Decide To Split Schedule Again

Executive Meets Tonight At St. Thomas To Decide On Dividing Series Into Three—London Near Champs of the Second Series.

Sergt. W. Davidson Heads the **MAJOR CROWE HAS 99** Bisley Camp, July 18 .- Thirteen Cana-

A meeting of the Southern Ontario League executive has been called for St. Thomas tonight, and it is altogether likely that the result will be to draw a line on the games already played in the second series and start a third series with Saturday's games.

Woodstock and Stratford favor the splitting of the series, as it is felt that it will serve to renew interest as lar as they are concerned. London is in favor of a further split, believing that it will help the game in both Woodstock and Stratford.

If a further split of the schedule may mean some delay in declaring a winner some of the schedule may mean some delay in declaring a winner series with Saturday's games.

Whether or not the split series is decided upon, Saturday's game here between St. Thomas and London threatens to break all attendance records at Tecumseh Park this season. Indications are that St. Thomas will be destred on that day, and there are also indications that local fans are getting next to the fact that they are missing some splendid baseball.

Sarnia, July 18.—Soccer football in Sarnia will undergo a change next season, judging from the way the wind blows here. Tunnel City will play all their games in Detroit and will therefore hardly be rated as a Sarnia team. Their going will likely see the passing of the city league as well. It is being mooted around that the soccer talent of the city will be combed for an all-star team to take the place of the departing Tunnel City aggregation, and the feeling is that little trouble will be experienced. Players of the Point Edward and Canadian National teams are being named for the foundation of the new team, which will be organized this fall before the snow flies, to be ready for the London and district competitions in the spring. A trainer will be secured and the new team will be run on a systematic basis that is expected to bring results and patronage.

such a match as the Kolapore Imperial Challenge Cup was voiced by Brig.-General A. E. Swift, Quebec, commandant of the Canadian team competing this year at Bisley, at a gathering of riflemen here last night, which included Lord Cheylesmore and other Bisley leaders. Canada, he said, was limited in its selection for such match to the official team sanctioned by the council for the purpose of this competition and such attached men as may also be attending the Bisley meeting. The Mother Country, on the other hand, had practically the whole Bisley camp outside of the owerseas competitors from which to make a choice.

The Mother Country's team in the Kolapore Cup competition yesterday, for instance, included no fewer than three gold medalists, General Swift stated. The most striking advantage which the Mother Country possessed in selecting marksmen for the Kolapore Cup, however, was in being able to choose them according to the form they were showing at the current meeting, whereas Canada's team was based on the form displayed by the members at the . Dominion Rifle Association's matches at Ottawa the previous summer.

Trouble Began When Yankee Stadium Became Arena.

LIKE PHIL PITCHERS

By JOHN B. FOSTER. Copyright. Copyright.

New York, July 18.—There is a merry row on now in major league baseball about mixing the game with boxing and prize fighting here in New York. It is being kept very quiet, but some club owners are as pernickety as the mischief about the introduction of the fight crowd into the great national game.

The trouble began when the Yankees built their own stadium and left the Polo Grounds to the Giants. Both ball parks have been used for staging big boxing bouts since then and, on one occasion, in opposition to baseball at the other park?

It is reported on good authority that in the future any individual who worries his way into the national game by right of eminent dough will be compelled to sign a statement to the effect that neither he nor his colleagues will let his field for what are politely called boxing matches, but which are in reality prize fights.

Philly Pitchers Easy. Philly Pitchers, Easy.

Pitchers of the Philadelphia Nationals have been tanned so hard by western teams that they are well dressed kid by this time. No wonder Hornsby began to shoot up like Jack's beanstalk when he began hitting against them. Since they began entertaining the westerners the latter have made a total of 170 hits, and the Chicago Cubs are just getting their crack at them. Cincinnati and St. Louis have been the heaviest hitting teams against the heaviest hitting teams against the Phillies, each made 22 hits in a single

In this mess of slugging Glazner has been hit for 26 singles, Mitchell for 26 Ring 24 and Head for 22.

If the Philadelphia pitchers do not simprove the .300 hitters in the National League will thrive like weeds after a rain every time they bump up against them. Alas, the Philadelphia batters will get none of it. They can't take advantage of their own pitching staff.

Galt, July 18.—The Terriers lost the leadership of the Inter-County League, which they had held since the first of the season, this evening, when they were again mauled by the Kitchener Wolves, losing 2--1, while the Guelph Leafs were winning at home.
Lefty Dunbrooke is the jinx of the McWhirter crew, comfing back at them for the second time in ten days to register a one-run victory. However, tonight's game was a most uncertain contest, a battle all the way, between southpaws, Chuck McCarthy pitching for Galt. The Terriers fought gamely to overcome the lead, but failed to score, until the seventh, when a trio of hits yielded their lone counter.

ST. MARYS JUNIORS ARE TESTED OUT BY CLINTON Win Lacrosse Tilt 14-4, But Northerners Provide Good Opposition. Special to The Advertiser.

St. Marys, July 18.—St. Marys Juniors added another win to their total here today by defeating Clinton, 14 to 4. In spite of the one-sided score the visitors gave the locals the hardest battle they have had this season.

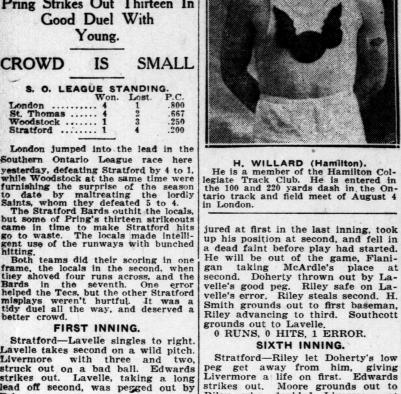

The game was clean throughout, only one penalty being imposed, St. Marys drawing this. Howard Yates was the chief scoring machine for the locals, four counters going to his credit. His brother, F. Yates, played a real defensive game. W. Mutch showed up well for the visitors. Blackler, St. Marys, received a broken collarbone in the early part of the game.

Guelph, July 18.—With Lefty Goyer pitching airtight ball, the Maple Leafs took another fall out of the Preston Riversides in an inter-county league game here this afternoon, defeating the visitors by a count of 5 to 1. The local moundsman had an easy time turning back the Preston batsmen, and came very close to equaling the league strike-out record by fanning 14 of the Riverside willow-wielders. Although he allowed six hits, Goyer kept them will scattered, and would have had a shut-out to his credit had Allen, Guelph's first baseman, not had a bad error on a throw in the second innings, which resulted in Preston's only tally. Lefty Nichol, who opposed Goyer on the mound, twirled a fairly steady game, but was knocked for eight hits, including a triple by Sandy Little and a double by Brown. The feature of the game was the hitting of Brown, the Leafs' recruit shortstop, who had three safeties on four trips to the plate.

In the ninth McCaffery had been sing along in good shape, allowing the azoos only two hits, widely scattered, puring that time. Kazoos only two hits, widely scattered, during that time.

The visitors counted right off the reel when Stimpson sent one over the left field fence for a homer. They came back with two more in the third when Stimpson singled, Churry did the same and Mackey came through with a double. The three runs scored off Lambke appeared to be enough.

The locals opened the ninth with a double by Walgomot. Bubser singled, and Ollerman cashed in with a two-sacker, scoring Waigomot and Bubser, after which Hipp produced the necessary single to send Ollerman over the pan. Neither side threatened in the tenth, but in the eleventh London opened with hits by Mackey and Thut, and McNamara sacrificed them ahead. Ruane was hit by one of Lambke's curves, making it three on and one down. McCaftery hit one to Lambke, who killed off Mackey at the plate and threw to first in time to make a double-

SARNIA NET TEAM WILL PLAY HERE SATURDAY

Local Club Has Hit On Novel Way of Keeping Tab On Players' Form.

Sarnia is bringing a tennis team of six players to meet the local team on the courts of the London Tennis Club next Saturday.

The match is expected to provide some of the best tennis seen here this year. Sarnia has many good experienced players, and London this year has the best array of tennis talent that have yet represented a London team. The Sarnia men are older than the local players and it will be interesting to see whether youth can defeat age in the matches next Saturday. men are older than the local players and it will be interesting to see whether youth can defeat age in the matches next Saturday.

Although the London net men were defeated twice in the Western Ontario League, on both occasions their team was not up to full strength. Several elimination contests have been staged and the six best players of the city have been chosen. John Puddicombe, the president of the tennis ciub, has drawn up a list of the best players who are members of the club. Twenty-seven names are on the list and they will be posted at the dub house. The players are to challenge the man above them on the list, and in this way a constant record can be kept of the form each member of the club is playing in.

Following is the list and the order in which the twenty-seven players are rated: E. V. Rechnitzer, O. Rechnitzer, B. I. Williams, Dr. J. V. Ross, A. R. Williams, George Harley, P. D. LUCAN BEAT GODERICH IN BIG N.W.B.A. FIXTURE

Lucan, July 18.—One of the largest crowds this season turned out tonight to witness the baseball game between Lucan and Goderich in the North Wellington baseball league, and were rewarded by seeing the home team win by the score of 6 to 2. The game was easily the Irish nine's best, and Pitcher Dundas of Lucan had no less than nine strikeouts to his credit. Lucan, by winning this tilt, are now tie with Goderich for the group championship and with the calibre of ball that the Lucan nine are playing now, the fans are confident that they will cop the group championip. competitors, making the five miles in
12 minutes. Williams sprinted into the
lead at the start and was able to hold
his advantage. The rest of the racers
trailed in as follows: Smith, Burgess,
Southern, Minter and Thompson.

Only four starters faced the barrier
in the modified marathon, which was
won by Kenneth Blain, Indian runner,
in 18 minutes, the slowest time this
annual contest has been staged in.
Watson White, another Indian, was
second. Alf. Cooke, Point Edward runner, stayed the greater part of the race,
but was forced to drop out, three broken
ribs sustained a week ago slowing him
up. Jack Knowles, the other entry,
dropped out with a crampy-on North
Christina street. Large crowds watched
the start and progress of the race

Down the Line In All Sports

St. Thomas was as pained and hurt yesterday after Woodstock gol through with them as if the Wolverine, their boast, had failed to stop there. The second defeat in a row for the Nethercott men had a stimulating effect on the whole league, and especially from a local angle.

Argentina is primarily a cow country. Perhaps that is why Kearns is a bit dubious.

Firpo's favorite knockout punch is not the conventional right to the jaw. Neither is it the so-called rabbit punch, which is delivered to the base of the skull. It is a blow under the left ear. Under the London prize ring rules this was considered a fairly efficacious knockout punch.

"That is the blow that brought Willard down," said Firpo. "I have studied anatomy a bit, and I like that blow better than any of the others. The first time I ever tried it out was when I was riding a half wild horse in the Argentine. We rode with no bit or bridle, and the horse was running away with me. I had to stop him, so I reached down and struck him once under the ear. The blow stunned him and brought him down.

St. Thomas, July 18.—W. J. Cruick-shanks of Ridgetown won first prize and the Times-Journal Trophy at the ninth annual bowling tourney of the local club here tonight, winning four games and finishing with a plus of 33. It was the largest event ever staged by the local club. Forty-six rinks were entered, and play was very keen. Many crink was composed of R. Dolphin, L. Hoover, Archie Pow and W. J. Cruick-shanks. Other rinks who were well up to the front were I. Kayser and Fred W. Judd, St. Thomas. London rinks were not in the money. him once under the ear. The blow stunned him and brought him down. "After that I figured that a blow that would bring down a horse would bring down a man. I think it is a pretty good blow."

The Bambino not only is going after the home run record, but also seems to have an ambition to lead his league in hitting and run getting. He is playing the most useful baseball of his career. He always was a great individual player, but now he is a great team player, and the fine showing

Personally I feel a great interest in this championship, as I had possession of the title for five years in succession.

ne has played twelve rounds in the last week.

I got a late start today on account of having played an exhibition at Rochester Tuesday. I got around the course in 74 strokes and consider I am in a snug postion. Gene Sarazen did his round in ?7 and did not seem to be hitting the ball with his usual precision. He got a bad start and covered the first half in 39. Jim Barnes was one stroke worse than Gene.

Only one amateur in the field is considered a dangerous contender for the title. This is Frank Dyer of Upper Montclair. He holds Metropolitan and New York amateur titles. Frank is a good goifer and has a sound game learned when a youngster. He has a chance to win this championship, but the professionals would hardly want to see another amateur, following in Bobby Jones' footsteps, so soon after the latter's victory last week. We play another round tomorrow and windup with two rounds on Friday.

ANDY KYLE RESIGNING

FROM HIS COACHING JOB Special to The Advertiser ley, England, is expected to arrive here on Tuesday next to defend his title of Canadian single sculling champion, which he has held since July, 1921. Paul Costello, Drew Bear and Gilmore of Philadelphia will go after the Canadian title this year. Costello has decided not to enter the senior doubles in order to save himself for the single event. The University of Toronto has sent notice that, the varsity crews will be in St. Catharines next Monday to work out on the course for the regatta on Friday and Saturday of next week. They are sending three eights, one single and a four.

Special to The Advertiser.

Gait, July 18.—Andy Kyle, former professional baseball player, and for the past few weeks coach of the Preston Riversides in the Inter-County League, has tendered his resignation, which has been accepted. While no reason for his action has been given, it is believed it was as a result of last Saturday's game, when his team burlesqued the game with the Terriers by stalling for rain. Kyle handled the Riversides at Guelph today, and will be in charge on Saturday, but will leave the same day for his home in Toronto, not to return.

WEDDINGS

JONES-MIDDLETON.

Wyoming, July 19 .- A very pretty wedding took place yesterday when Miss Nellie Middleton was married to Dr. W. A. Jones. The wedding was held in St. John's Church, and was followed by a luncheon at the rectory. The bride looked charming in a three-piece suit of sand gabardine, with an imported French ardine, with an imported French duvetyn hat to match. She wore a corsage bouquet of pink Sweetheart roses. After the luncheon they left for a motor trip to points east. They will reside in Brigden. The bride was attended by Miss Alma Hallam, while Dr. F. Giffen acted as best man, the latter being a former classmate of Dr. Jones, and a fellow-member of the Psi Phi Psi Fra-

How You Can Remove Every Trace of Hair

(Toilet Talks.) A stiff paste made with some pow-dered delatone and water spread on hairy surface about two minutes will, when removed, take every trace of hair with it. The skin should then be washed to free it from the remaining delatone. No harm can result from this treatment, but be sure it is delatone you get, and you will not be disappointed. Mix fresh as be disappointed wanted.—Advt.

To Easily Overcome Tan, Freckles, Redness

If your skin is unduly reddened, tanned or freckled, just dab a little pure murcolized wax on the face and allow it to remain over night. When you wash off the wax in the morning, fine, flaky, almest invisible particles of cuticle come with it. Repeating this daily, the entire outer skin is absorbed, but so gradually and gently, there's not the slightest hurt or inconvenience. Even the stubbornest freckles are affected. The underlying skin which forms the new complexion is so clear, fresh and youthful-looking, you'll marvel at the transformation. It's the only thing known to actually discard an aged, faded, muddy or blotchy complexion. One ounce of mercolized wax, procurable at any drug store, is sufficient in most cases.—Adyt.

Summer School Students Turn Out For Afternoon of Games.

A large representation of the fifty-four students at the Western Ontario University summer school entered into the sports program held Tuesday afternoon at the University campus, while many more were present to watch the tennis and croquet tournaments. There were eight entries into the tennis tournament games, the men winners being Mr. Scott and Prof. Colborne, while the winners among the women players were Miss Katharine Campbell and Miss Ruth

Davis.

The first games in the croquet tournament attracted much attention before it was fought to a finish. An attempt is being made at the school to bring croquet into greater prominence, by showing the students that it is an excellent game when played properly. The croquet winners were Mr. Rivers and Miss Barklie, and

Mr. Drake and Miss A. Yorke. Dr. Smith directed a fast game of volley ball in which nineteen players were entered, this game bringing the sports program for the afternoon to

Scotland's soul finds its readiest expression in her music, and the pip-ing competitions for The Advertiser trophies, both for the hands and for the individual pipers formed the apex

of the day's enthusiasm. Beneath the shadowing trees, the ipers held sway. On the platform pipers held sway. On the platform that had been erected they piped the old tunes of the hills and the little mountain lochs. Finally at the conclusion of the band contest, the massed bands gathering at the end of the marching space blazoned "Highland Laddie" on the soft lake air, and as the full majesty of the tune and the gay thrust of the pipe

Mrs. Holmberg Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Viking, Alta.—"From the time I was I5 years old I would get such sick feelings in the lower part of my abdomen, followed by cramps and vomiting. This kept me from my work (I help my parents on the form my parents of the form my parents on the form my parents of the form my parents of the form my parents on the form my parents of the form my p lp my parents on the farm) as I ually had to go to bed for the rest of the day. Or at times I would have to walk the floor. I suffered in this way to try Lydia E. Pinkham's Vegetable Compound. I have had very satisfactory results so far and am recommending the Veg-etable Compound to my friends. I surely am glad I tried it for I feel like a different person now that I don't have these troubles." — ODELIA HOLMBERG, Box 93, Viking, Alberta. Letters like this establish the merits of Lydia E. Rinkham's Vegetable Compound. They tell of the relief from such pains and ailments after

taking it. Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today holds the record of heing the most successful remedy for female ills in this country, and thousards of voluntary testimonials

If you doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to the Lydia E. Pinkham Medicine Co. Cohanna C. Channa C. Medicine Co., Cobourg, Ontario, for Mrs. Pinkham's private text-book and earn more about it.

STOCKS CONTINUE TO MAKE GAINS ON N. Y. MARKET

Trading Becomes More Active While Leaders Up 5 to 10 Points.

Revival of Activities in Pool Varieties Especially Noticeable in New Upturn.

By STUART-P. WEST.

Wall Street, N. Y., July 19.—The way the present stock exchange movement is being sized up by commovement is being sized up by competent judges, it is a market which really turned more than a week ago and has been moving slowly but steadily ahead in a manner designed not to encourage too much outside interest at this price level. While the rank and file are asking themselves whether the change for the better has come, the fact is that most of the come, the fact is that most of the come, the fact is that most of the Cerro de Pasco chandler Motor than their lows. Ches. and Ohio

speculative leaders are up anywhere from 5 to 10 points from their lows.
Today the advance came, as it were, more out into the open. Trading was more active, and the gains more pronounced.

Revive Pool Variety.

What was particularly noticeable was the revival of activities in stocks of the pool variety. The significance of this was that pool managers thought conditions had improved sufficiently to win a renewal of operations. Prominent among such stocks were the department and chain store issues. American Ice, Coca Cola.

Household Products, Reynolds Tobacco, B. Industrial Alcohol and Mack Household Products, Reynolds To- Dupont Dupont bacco, B. Industrial Alcohol and Mack Endicott-Johnston Trucks. Such stocks as Woolworth,
Kresge and May Department Stores
have sold at prices out of all proportion to their ordinary, dividend dis-

tribution.

Atlantic Gulf was selling today at more than double the figure of sev-

bought partly as permanent and partly as speculative investments because of the steadiness of their ing power, the good-sized margin over dividend requirements and the attractive returns at present prices.

more than double the figure of several weeks ago. Its decline to an extreme low of 6% was one of the striking instances of the unwarranted extent to which the recent downward movement was carried. American Can was actively bought as it crossed ninety, and so was Studebaker, as it got above 104.

Short sellers trying to cover Com. got above 104.

Short sellers trying to cover Composition Products found that there was not much exaggeration about statements made that the available supply around prevailing levels had become small.

CHICAGO Associated Press Despatch.
Chicago, July 18.—Sudden upturns in the price of wheat took place today, largely as a result of nervousness on the part of previous sellers. The nervousness was due more or less to concerted efforts which are being made to induce investors to "buy 1,000 bushels of wheat," and to have housewives "buy a barrel of flour."

After scoring in some case an advance of 2%c a bushel, wheat closed unsettled at a net gain of 1½c to 2%c, with September 38c to December \$1.01% to \$1.01½.
Corn finished ½c to ½c up, and oats at 38%c advance. Provisions were 10c to 15c lower.

Agitation to broaden the general devance for wheat had a builleh affect.

Hogs—Receipts 31,000; uneven, mostly 15c to 25c lower; few sales showing more decline; bulk 160 to 240-pound average \$7.60 to \$7.75; top early \$7.90; bulk good and choice 250 to 325-pound butchers \$7.40 to \$7.55; packing sows mostly \$6 to \$6.25; bulk desirable pigs \$6.50 to \$7; estimated holdover 13,000.

Sheep—Receipts 13,000; desirable fat lambs mostly 25c to 50c lower; spots on in-between kind off more; cufls and sheep steady; hest western lambs \$14.75; bulk natives \$13.25 to \$13.76; top \$14; culls mostly \$8 to \$8.50; few good two-year-old wethers \$8.50; bulk fat ewes \$5 to \$6.25; odd heavies downward to \$3.50. at 38%c advance. Provisions were not to 15c lower.

Agitation to broaden the general demand for wheat had a bullish effect from the outset, and was supplemented by higher quotations at Liverpool and by smallness of country acceptances of bids from here.

Corn and oats moved up with wheat. July delivery of corn equalled the season's high price record. Crop reports as to corn were favorable, however, and the market lost much of its

Associated Press Despatch.
Chicago, July 19.—Wheat showed a downward slant in price today during the early dealings. Enlarged receipts here, together with a poor response in Liverpool to yesterday's price upturns on this side of the Atlantic, had a bearish effect. There were no indications of general public buying. The opening, which ranged from %c to %c lower, was followed by a slight further setback. etback. WANT AD TIPS

A Homey Place To Stay A lady who, for many years, has found roomers with Want Ads, tells how important she considers little touches she applies to the room she is about to show inquirers. The draperies are fresh and dainty-just laundered. If any of the furniture has become marred, she goes over it with varnish. She never lets the walls get dingy—the cost of papering or kalsomining is such that she says she can always afford one or the other

when needed. Then, finally, comes a little touch which particularly pleases inquirers. On the windowsill or a stand is a potted plant in blossom, or, if it is the summer season, a bowl of

freshly-cut flowers. This lady "displays" to advantage. She helps the room she shows to suggest strongly the true fact—that as a landlady she does many of the homey little things which roomers appreciate. Naturally, of the inquirers when her Want advertising draws, one quickly is found who takes the room.

In this experience there is a valuable hint for all room advertisements. Before showing the room to inquirers, make it just as attractive, homey, as you can. Also, when writing your Want Ad, emphasize the "home" idea. Various things may influence inquirers strongly in selecting a room. One thing is convenience as regards place of

employment. Another thing is the neighborhood-the part of

the town-determined to an extent by nature of employment or business. Whatever other considerations enter, however, all persons like a room with a homey atmosphere. So, such words and phrases as these in Want Ads help to let rooms quickly: "Homey atmosphere," "cosy," "cheerful room," "daintily furnished," "unusually nice home," "real home for group of men," "cheery and comfortable home," "homelike surroundings," "congenial people," "lovely porch for summer evenings," "billiard room."

All people like a homey place to stay. Let your Want Ad

offer just that kind. (All Rights Reserved.)

July Number of "Q. S. T." Gives Plans For Sending News From Arctic.

The July number of "Q. S. T.," the official organ of the American teur Radio League, has reached this office. In this number a splendid article appears in which is described the radio installation on board Capt Donald MacMillan's ship "Bowdoin, which is now on its way north for a fourteen months' exploration trip, which will take it close to the "magnetic" north pole and within 700 miles of the true north pole.

This is the first trip to polar re gions in which radio broadcasting has been introduced, and Operator Donald Mix, an official expert of the Radio League, who is in charge of the radio station, will broadcast daily news of the expedition to The Adnews of the expedition to The Advertiser through the North American News Alliance. The Advertiser has exclusive rights in this service for Western Ontario, and an interesting story of the daily adventure of Cap-tain MacMillan and his intrepid crew will be available for Advertiser read-

The installation placed aboard the "Bowdoin" is a very complete one, and in addition to the daily account of the trip, which will appear in The Advertiser, Cperator Mix has promised to send out information to radio fans explaining the difficulties he experiences in receiving and broad-casting and the measures he takes to correct these troubles.

Radio fans are invited to "listen in" and tune up for signals from station "WNP," the official broadcasting designation for the installation on board the "Bowdoin." The Advertiser news story, of course, will be sent in code, but Mix has prom-ised a separate radio service for amateur fans and will send lists of stations he has been able to pick up as the diminutive ship advances

GOOD MONEY IN GOOD FARMING

"Let's Get to Work and Pay off the Mortgage"

TINE years ago Canada's national debt was about one-third of a billion. It is more than two and one-third billions today.

Our debts have greatly increased-our revenues must also go up. The farmer has to bear his share of the increased burden. That means he must increase the revenue from his

Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.

How Is It Done?

Patient and industrious "carry on" will do wonders, but something more is needed. Too often "patient industry" is coupled with "dull persistence" in poorly thought out methods.

Farmers today more than ever, must plan ahead, as well as "plug along"; indeed they have no option, if they wish to succeed.

Co-ordination of head and hand will mean real success. Farming in Canada has paid and pays now on many farms. It can be made to pay on almost every farm. Canadian agriculture has passed through low profit-making eras successfully in the past and can do so

With the increased cost of production, the higher standards of living now prevailing cannot be maintained by poor farm management, "boarder" milkers, scrub beeves, poor quality hogs or non-profitable hens.

The results on our Experimental Farms also bear testimony to the value of thorough, skilful work.

Crop Returns Should be Increased On the Central Experimental Farm at Ottawa some crop costs and crop profits in 1922, as contrasted with all-Ontario average crop costs and crop profits, are given below. The all-Ontario figures are in brackets:

Cost per acre \$21.13 (\$13.50) Profit per acre \$11.21 (\$5.09) Corn for \$47.50 (\$33.75) \$26.47 (\$19.32) Forage \$10.38 \$ 7.33 Similar results can be shown from the Dominion Experimental Farms in every province.

Experimental Farm crops are sometimes claimed to be produced at too great cost. Thousands of experiments, however, show that increased cropping costs wisely applied up to a reasonable point always increase crop profits. This is true on the Experimental Farm—and on any and every farm.

That even under present conditions profits may be made is testified by many skilful, observant and non-plunging farmers, who believe more in the policy of "slow but sure" and "pay as you go" rather than speed, with excessive borrowing and the often consequent

The Farmer Must Manufacture

But crops alone are not enough. The farmer must change his crops into less bulky and more high-priced products-milk, pork, beef, mutton, poultry, etc.

With fair yielding cows dairying shows good profits in Canada. The average cow has increased her yield 25% in the last ten years. She can quite readily go up another 25% and more, and there's where the profit lies. Better feeding, better selection and better breeding will do the job-feed, weed, breed.

To do better feeding means better pastures and more generous supplies of palatable roughage. Short rotations, including clover and ensilage crops (corn, sunflower, pea and oat, etc.), will provide feed in abundance for both summer and winter. The experiments and investigations which the Dominion Department of Agriculture have carried on prove that farming scientifically and systematically undertaken will pay profits. The records and particulars of such work in every province are available to the Canadian farmer.

Are you growing grain, or producing seed or interested in fruit? We can give you information that will help you. Do you breed live stock? Are you keeping dairy cattle? Are you interested in poultry or bees? Ask us for information. We have some that will help you.

We have published and have for free dis-tribution 390 different reports, bulletins and circulars dealing with matter of interest to you. Ask for what you want, or ask for a list of our publications.

We shall have something more to say later. Meantime write the Department of Agriculture, Ottawa, about your problems.
