HERR KRUPP'S DEATH

GERMANY'S GREAT IRON AND GUN MANUFACTURER.

HIS WORKS EMPLOYED FIFTY THOUSAND PERSONS.

DEATH RESULTED FROM A STROKE OF APOPLEXY.

Berlin, Nov. 24.—Herr Frederick Alfred Krupp, the head of the gun-making works, and the wealthiest man in Germany, died suddenly from apoplexy Saturday afternoon at his villa at Hugel. Herr Krupp had been ill for several days. Early in the morning he suffered the first stroke of apoplexy. According to the medical reports, his physicians succeeded in restoring him to consciousness, but he soon relapsed into insensibility. Another stroke followed at noon, and the gun-maker died at 3 o'clock. His friends think that an uncomplimentary article recently published in a German newspaper, which caused the gunmaker great mental distress, was primarily the cause of his death. The news of his death at first caused rumors of suicide, owing to the feelings he had expressed regarding the attacks upon him, but these rumors were absolutely without foundation, and were officially denied by the several celebrated physicians in attendance.

Moderate estimates of the fortune of the deceased place it at \$120,000,000, and his annual income during his recent years of prosperity at \$10,000,000. It is understood that the gun works will be placed in the hands of trustees for the benefit of the heirs.

All the theatres in Essen are closed, and the public buildings are draped in mourning. The City Council assembled immediately after the death announcement was made, and the first burgomaster said that it had been intended to send to Herr Krupp the municipality's respectful greetings, and to inform him that the slanders of the Socialist Democratic press were not believed, and that in spite of the suspicious thrown upon him the Council's confidence was in no wise shaken. The Council adopted a resolution expressing indignation at the injury inflicted upon the deceased before his death, and of sympathy for his family.

Herr Krupp determined two days ago to return to the island of Capri, where he resided several months every year, believing that he could not do so without the accusation that he had left there at the request of the Italian Government. He intended to start to-day. The Vorwarts republished an attack made upon him by hostile papers on the island, who charged that he was about to build hotels on the island and go into the business.

Mrs. Krupp was sent for from Jena. She is suffering from a nervous malady, but was brought to Essen in a special train, arriving here this morning. The funeral has been fixed for Wednesday. Chancellor Budow, all the Ministers and a great number of officials, following the example of the Emperor, have telegraphed their condolences to the widow. Herr Krupp leaves two daughters, who are at school, one named Barbara, aged seventeen, and the second named Bertha, fifteen years of age.

His favorite study of late years was to think out schemes for improving the well-being of the lower classes which he applied practically to what are called "labor colonies." He asserted seemingly to most socialistic principles, except that he held tight to the wage system, averring that the wage-earners were not sufficiently developed or self-controlled to regulate for themselves a just system of division of profits. It is mentioned as an old chance that a man who applied social reform ideas in so extensive a way should have been crushed by a social democratic newspaper, which, however, regarded his measures to ameliorate the condition of the laborers as not touching the question of economic justice.

DEATHS AT A FIRE.

MEN HURLED INTO WATER WITH FALLING DOCK.

A Number of Badly Injured Firemen Were Rescued—Many Are Now Being Searched For.

Ashland, Wis., Nov. 24.—The Wisconsin Central Railway dock was destroyed by fire Saturday, the loss involved being about \$525,000. In falling the dock carried with it a number of firemen and dockmen, and several lives were lost, just how many will not be known for some days. Several badly injured firemen were rescued from the burning ruins, one of them with both legs broken. The fire started about 5 o'clock, and before the firemen arrived the entire dock, half a mile long, was in flames. An engine was run on the tramway as near to the fire as possible, and half a hundred men began tearing apart the timbers connecting the tramway and the dock to keep it from falling with the dock. Suddenly the dock gave way, carrying with it 200 feet of the tramway, the engine just barely escaping the fall into the bay. Several hundred people were under the tramway, but most of them escaped with slight injuries. As the broken tramway and the burning dock fell at least a dozen men were seen to go down in the ruins. The wreck fell into twenty feet of water, and it will be impossible to recover the bodies for some time. A large force of men is engaged in an effort to reach the dead firemen.

WILL NOT BE TRIED.

SIX ELECTION PETITIONS WERE DISMISSED SATURDAY.

Four Cases Yet to be Heard—Argument in the East Middlesex Petition—Special Election Court Held.

Toronto, Nov. 24.—It took ten minutes of the time of the special election court on Saturday, Justices Maclellan and Street presiding, to dismiss six of the election petitions that have been pending. Mr. R. A. Grant appeared for the Liberals and Mr. Edmund Bristol for the Conservatives. The petitions dismissed were—

North Wentworth, against Thompson, Conservative; cross against Wardell, Glengarry, against Maclellan, Conservative; cross against Macpherson, Frontenac, against Gallagher, Conservative; cross against Shibley, Halton, against Barber, Liberal; cross against Gibson, East Wellington, against Gibson, Liberal.

North Waterloo, against Lackner, Conservative.

The last two petitions were dismissed, with costs to the respondent; the others did not carry costs.

There are four more cases for which the dates of trial are to be fixed: Centre Bruce, against Clark, Conservative; North York, against Davis, Liberal; North Ontario, against Hayes, Conservative; and Sault Ste. Marie, against Maclellan, Conservative. Mr. Justice Maclellan suggested that dates be arranged for these, but agreed, on the request of Bristol, to hold them over till to-day, when he expected to be ready to name the dates.

In East Middlesex, where the protest is against Rutherford, Liberal, the evidence is all in, and a date is to be named for argument. Mr. Walter Cassels, who takes the argument for the petitioners, is engaged on the Lennox case this week, and Mr. Bristol explained that they could not do so before the argument before Saturday, December 6. That will therefore probably be the date for argument.

The date for the Kingston trial, the petition there being against Fense, Liberal, is at present set down for December 9, at Kingston. South Oxford, at Woodstock on December 10, and further evidence, a motion by the petitioners, that they be allowed to add additional particulars, having been granted by Justices Maclellan and Moss this morning.

A SPANISH PLOT.

Government Fears A Attempt to Inaugurate a Regency.

Madrid, Nov. 24.—According to a despatch to The Imperial from Lisbon, the Government there believes that a serious conspiracy is on foot with a view to forming a regency, well-known general, it is said, has declared that a regency was necessary. The correspondent asserts that the Government sees conspiracy on all sides, and that serious measures may follow.

DOMINION ELECTION PROTEST.

West York and Addington May Go to Trial.

Toronto, Nov. 24.—It is expected that particulars in the West York election protest will be filed at Osgoode Hall to-day. This and Addington are the two remaining Dominion protests, in Ontario bye-elections, which remain to be dealt with. The protest in West York is against Archibald Campbell, and in Addington against Melzar Avery. There was some talk of a saw-off in these two constituencies, but Mr. James Baird, representing the petitioner in West York, stated to a Globe representative that the trial there would be proceeded with, so it is probable that Addington will be gone on with also. The West York trial is set down for Nov. 28, and that in Addington for Nov. 29.

To Buy Sir Walter Scott's House.

New York, Nov. 21.—Mr. Alexander McDonald, a capitalist of Ohio, is negotiating for the purchase of Sir Walter Scott's house, Abbotsford. If the bargain is concluded, Mr. McDonald will present the estate to the Scottish people.

TELEGRAPH BREVITIES.

A statue to Balzac was unveiled at Paris. John Twiss was found dead in a stable at Seaford, where he was employed, with his hand grasping an electric light wire.

Sixteen head of cattle belonging to Mr. D. Moore, a farmer near Belleville, were poisoned with Paris green mixed with salt.

Mr. Thomas Jones of Forest has been appointed Police Magistrate for Forest, to succeed W. G. Owens, who has resigned.

Mr. Charles Stanton of Port Stanley was accidentally shot in the thigh by a hunting companion, and his recovery is regarded as doubtful.

SOME STRONG STRAIGHT TALK

Mr. Reycraft will Pay Taxes, Pave Streets and Get Rich on Liquor Money.

Temperance Advocates Held a Well Attended Meeting in the Opera House.

As the day for the poll of the referendum vote draws nearer and nearer, the interest of the public and the enthusiasm of the temperance workers are visibly growing. At first, when the campaign opened, interest seemed to be lacking, but there is none of that now. The people generally are absorbed with the subject and are more anxious every day to find out what they are really asked to vote upon. This is what the temperance workers have long wished for, as they are of the opinion that if every voter in the province really knew the exact conditions contained in the Ontario Liquor Act, there would be no doubt as to the result of the poll.

In order that everyone in Chatham may become acquainted with the act, the local workers have adopted the plan of holding public meetings in the Opera House. The second of these meetings was held yesterday afternoon at a quarter after four o'clock, and it was surprising to note the large crowd which attended. If attendance at temperance meetings is any indication as to which way the vote will go, the local temperance party have every reason to feel gratified and encouraged. The audience was not a dead one, and did not hesitate to applaud warmly when they were in accord with the speakers' views on the temperance question.

Among the gentlemen on the platform were, President Westman, Dr. A. W. Thornton, Rev. T. T. George and L. J. Reycraft, of Ridgeway. The meeting was opened by Mr. Westman, after which Rev. Mr. Cobblewick led in prayer. This was followed by a selection from a male quartette. L. J. Reycraft, the speaker of the day, was then introduced.

"I am here," said he, "partly because of the kind invitation from the temperance party, and also because I feel that in the interests of my country it is my duty to express my humble views on this temperance question. Every man is entitled to his own opinion, and is entitled to the opportunity of expressing it, and every honest opinion is deserving of consideration."

Mr. Reycraft contended that the liquor traffic was detrimental to the commercial interests of the province. "Give me," said he, "the amount of money which is spent foolishly in liquor in Chatham during one year, and I'll pay all your taxes, pave your streets and be a rich man myself. There is not a business man on King street who would not be better off if the liquor business were done away with. I'll venture to say that 75 per cent. of the inmates in the County House of Refuge are brought there as a result of the liquor traffic."

"The liquor men say that if this law passes it will be broken. Look at the present license law. I'll venture to say that this law has been broken several times right in Chatham to-day. Who will break this law? No one but the liquor men. Should they be in a position to say: 'You can't pass my law, for if you do we will break it.' It makes my British blood boil with righteous indignation. They will keep it. If you will make one minister of the crown I'll promise you that I'll make them keep it or put them some place where they can't break it."—Applause.

Mr. Reycraft then proceeded to deal with some of the clauses in the Liquor Act, and made a telling reference to the village of Highgate, which is a prosperous temperance village. He closed his able speech with a strong appeal to his listeners for their vote on the 4th of December. Mr. Reycraft's speech was a vigorous one. It was well listened to and several times he was interrupted with applause.

After a solo by Miss Webster, another hymn was sung, and Rev. Mr. George closed with the benediction.

The last meeting in the Opera House will be held next Sunday. Next Friday, however, a rally meeting will be held in the Opera House, when Prof. Nichols, of Toronto, will deliver an address.

Mr. John Mott, K.C., and Mr. W. P. Ferguson, editor of The New Voice, Chicago, held a debate on the liquor act at Kingston before a crowded audience.

Owing to the scarcity of coal a number of cotton mills at Charlotte, North Carolina, have been closed down, and thousands of operatives thrown out of employment.

The Japanese troops who were in garrison at Shanghai have left for home, and the German garrison has received orders to prepare to evacuate the place.

In his report to the State Department, the United States Consul at Montreal dwells upon the millions of American capital being invested in this country, and upon Canada's remarkable internal development.

SHE IS STILL AT WORK.

CARRIE NATION LECTURES ON STATION PLATFORMS.

Tells Buffalo Trainmen that They Should Not Smoke—A Discourse at Batavia.

Buffalo, Nov. 24.—Mrs. Carrie Nation fresh from her sensational experience at the New York Horse Show, where she denounced the Vanderbilt women for wearing décollete costumes, and where she grabbed a bottle of champagne from the hands of one of the Vanderbilt men, passed through Buffalo at 7:30 Saturday evening en route west.

"Good evening, Carrie," said one of the brakemen at the Central Station, when the notorious saloon-smasher was recognized.

"Take that cigar out of your mouth; it's vile," was the reply the woman made. The brakeman threw the cigar away, and she went on—"Tobacco is a vicious habit, and it's vile. It leads to other evil things, and not only wrecks the health, but wrecks happiness and sobriety. Young man, take my advice and don't use tobacco. Then you may go to heaven. If you don't take my advice you'll surely go to the other place."

A despatch from Batavia gives Carrie's experience there as follows:—Mrs. Carrie Nation, who was a passenger upon the westbound New York Central train which passed through Batavia at 6:16 o'clock Friday night, came upon the platform at Batavia and delivered a lecture upon the evils of cigarette-smoking. The engine of the train upon which she was a passenger had a hot journal, and was delayed for fifteen minutes. The particular objects of her wrath were several men upon the platform. Some of them were smoking cigarettes. They listened to her good-humoredly and respectfully.

VETERANS' MONUMENT.

FORMAL UNVEILING AND ADDRESS BY HON. GEO. W. ROSS.

Toronto, Nov. 24.—Hon. Geo. W. Ross on Saturday afternoon formally unveiled the pedestal of the monument erected by the Army and Navy Veterans in the old military burying ground adjoining St. John's Church, Portland street, to the memory of the men who fought in 1812 and subsequent years in the defence of Canada. Among the large number present were represented the Daughters of the Empire, the Women's Historical Society and the United Empire Loyalists. The veterans marched in a body into an enclosure surrounding the monument, and were headed by the band of the Queen's Own Rifles, playing "Three Cheers for the Red, White and Blue." They were stationed by Mr. W. R. Simmons, Chairman of the Monument Committee. The ceremonies began with a prayer by Rev. Alex. Williams of St. John's Church, after which the national anthem was sung. Then the Chairman, Mr. J. W. Collins, called on Hon. Mr. Ross to pull the string and unveil the monument. The Premier, having performed this part of his duties, was received with rousing cheers.

THEIR LIVES IN DANGER.

Son of U. S. Minister to Guatemala Shoots a Man.

Guatemala City, Guatemala, Nov. 24.—William A. Fitzgerald of Grand Rapids, Mich., was shot and killed by W. Godfrey Hunter, junior, son of the United States Minister. Hunter fired the shots from behind Fitzgerald, with James O. Bailey of Kentucky, Secretary of the United States Legation here, standing by with a drawn revolver. Both ran away, with their revolvers in hand, until arrested. They are now at liberty, Minister Hunter claiming immunity for them. It is asserted that Fitzgerald had no chance to defend himself, and that he was an inoffensive man. The lives of the Hunters and that of Bailey are threatened by indignant Americans.

JOHN DILLON ILL.

Irish Leader Was Unable to Address the Chicago Meeting.

Chicago Nov. 23.—John Dillon, the Irish leader who came to Chicago to address a meeting here to-night in celebration of the Manchester martyrs anniversary, was taken suddenly ill to-day and was unable to appear at the meeting. While driving to-day Mr. Dillon suffered a chill, which was followed by a high fever, and to-night his temperature is 104. The attending physician gave out the information that, while Mr. Dillon is not seriously ill, he will be confined to his room for several days.

To Suppress White-Slave Traffic.

Vienna, Nov. 23.—With the approval of the Minister of the Interior, the Austrian League to combat the "white slave" traffic will establish branches in all the important towns and frontier stations of Austria, and take active means to suppress the traffic.

TO BE BUILT AT ONCE

THE GRAND TRUNK'S PACIFIC COAST EXTENSION.

GRAVENHURST OR NORTH BAY THE STARTING POINT.

VICTORIA WILL BE THE WESTERN TERMINUS.

Montreal, Nov. 24.—Another Canadian railway will soon span the continent, for work will begin in that direction as soon as the necessary legislation can be obtained. The Grand Trunk Railway, under the progressive management of Mr. Hays, has made extraordinary strides, and I am authorized to announce one more. No one who has been studying the wonderful developments that have taken place in the northwest during the past few years can fail to be deeply impressed with the growth of this extensive and rich territory, and the G. T. R. directors feel that in view of the apparent need of additional railway facilities, and in order to guarantee to the present Grand Trunk system direct connection with that very important and growing section of Canada, the only wise policy is to take active steps toward an extension in that direction, which will be commenced as soon as the necessary legislation has been obtained from the Government.

The Board of Directors has had this project under consideration for some time past, and the company is now prepared to go right ahead with a road extending from North Bay or Gravenhurst, on the present line, through that portion of northern Ontario familiarly known as New Ontario, through Manitoba and Saskatchewan, Assiniboia, Alberta, via Peace River or Pine River Passes, and through British Columbia to either Bute Inlet or Port Simpson on the Pacific coast, as may be determined later on.

It is quite likely that an arrangement will be made with the system already constructed for 1,500 miles by Messrs. Mackenzie & Mann. The Hon. Mr. Wells, Commissioner of Works for British Columbia, spent some time here and in Ottawa last winter, with a view to securing a subsidy for the diversion of the road of Messrs. Mackenzie & Mann southwest from the Yellowhead Pass down Bute Inlet to the coast, and thence across the narrows by ferry to Vancouver Island. The Dunsmuir Company has already a railway running north of Nanaimo on the island, and a fifty-mile extension would connect with the proposed ferry, and make Victoria the real terminus of the new transcontinental line. Mr. Wells when he left here appeared quite confident that a new line would be built, ending at Victoria, and now it appears that the Grand Trunk Railway is ready to start operations.

Like the Grand Trunk Western Railway, extending from Port Huron, on the Detroit River, to Chicago, this new line will be constructed under a separate corporate name, the "Grand Trunk Pacific Railway Company," and will be of the most modern and up-to-date character, having in view especially low grades, long tangents, steel bridges, heavy rails, etc., as well as ample station facilities and equipment for the handling of both freight and passenger business. The road, in short, will be of the highest standard in every respect.

Consignments of fruit from St. Joseph du Lac and Cherry Valley were seized by the Fruit Inspector at Ottawa, under the fruit marks act.

Nicholas Swayze of Stony Creek was accidentally shot in the face while hunting quail with a companion. It is feared he may lose the sight of one eye.

MONDAY, NOVEMBER 24.

A TEACHER'S UNION.

It is understood that the teachers of Ontario are seriously considering the advisability of forming a union. The idea is not exactly a new one, as the down-trodden condition of the teaching profession has for years given cause for dissatisfaction, and a union has been suggested on several occasions. Whether or no the teachers could make a success of a union remains to be seen. At the present time, the profession is looking up, owing to the fact that the miserable salaries formerly paid have been raised to a more reasonable level, and now there is a dearth of teachers in the country. As a consequence, salaries are higher—but not sufficient by any means as yet. If the teachers form a union, they must organize the concession schools as well as the cities and towns, and they might find this a pretty big job. They might wait a while, and profit by the experience of the American teachers' union, whose headquarters is in Chicago. This body has affiliated with the American Federation of Labor, as has the Actors' Union, the Baseball Brotherhood and other organizations. The organization of the teachers of Ontario, to be of any use to the profession, would be a tremendous undertaking, and whether or not they would be able to regulate the salaries is a matter of opinion.—London News.

There are no crumbs of comfort in the average loaf of cooking school bread.—Judge.

An English translation of that new book of Emperor William's speeches is likely to start a fresh boom in the British shippings.—Ottawa Journal.

"Female Murderess" was one of the scare headlines in the Spectator of yesterday. There's nothing like strict accuracy in a headline.—Hamilton Herald.

The novelty of the electric cars has long worn off, yet the inventor of the first one operated in the United States—Prof. Sydney Howe—died in London last month, at the age of 43.—Ingersoll Chronicle.

Canada is gradually securing control of the trade with the Yukon. In 1898 Canada had 10 per cent. of the trade of that territory and the Americans 90 per cent. In 1899 the relative figures were 15 to 85 per cent.; in 1900, 25 and 75 per cent.; in 1901, 67 and 33 per cent.; and this year 70 and 30 per cent. This year the imports from Canada amounted to \$3,721,593, and from the United States \$1,846,019.—Ottawa Citizen.

Is there any other man under the vault of heaven just quite so independent as the Canadian farmer? Lots to eat, drink and wear, wood to burn, fancy prices for his stock and other products? The Canadian farmer (and long may he wave) is on easy street, and when he gets free mail delivery, farm telephones, parcel post and free entry into the United States for his produce he will find this earth a heaven.—Bowmanville Statesman.

Archbishop Ireland thinks that eventually Canada will annex or be annexed to the United States. "The hearts across the border," he says, "being already beating with love for us and commerce and agriculture calling for espousals." This may be so, but it does not seem that there is much talk about it in Canada, among Catholics, at least, who have good reason in respect to the matter of education, for example, to prefer the status as it is on their own side of the border, rather than have perhaps to pay a double school tax as we are obliged to do on our side.—New York Freeman's Journal.

Difficult Digestion

That is dyspepsia. It makes life miserable. Its sufferers eat not because they want to—but simply because they MUST.

They complain of a bad taste in the mouth, a tenderness at the pit of the stomach, a feeling of puffiness, headache, heartburn and what not.

Hood's Sarsaparilla cured Joseph F. Latine, Flanagan, Ky., who writes: "I was troubled with dyspepsia for a number of years and took medicine that did me no good. I was advised by friends to try Hood's Sarsaparilla which I did and it put my bowels in perfect condition, gave me strength and energy and made me feel like a new person."

Hood's Sarsaparilla
Promises to cure and keeps the promise. Beware of substitutes. Buy Hood's and only Hood's.

PREFONTAINE'S REP.

Toronto News.

Judging from some Montreal opinions of Hon. Raymond F. Fontaine, it would be a good thing to nail down the parliament buildings.

A FUNERAL CARD OF THANKS.

Schenectady Star.

We, the undersigned, wish to thank the Iron Molders' Union, No. 120, for their sympathy and the beautiful floral emblem, for furnishing music at the funeral of their highly esteemed foreman, Charles Moehmann; also to the carpenters and apprentices and the foreman, likewise, for their sympathy and flowers donated; and to the German Kranken Verein, the ladies of the church, the pastor, the Rev. Mr. Schultz and the Rev. Mr. Hugley, and the choir for music rendered; and especially to Timeson & Frank, for the skilful manner in which he was laid out and the efficient way in which the funeral was conducted.—Mrs. Charles Moehmann and family.

POLITICS IN PORTO RICO.

New York Tribune.

Porto Rico takes to some of our political customs like a Caribbean duck to its coast waters. Its registration days for the recent election were like Kilkenny and Donnybrook fairs, with broken heads of all colors and types, of architecture to give tokens of the urgency of the political sentiments which animated their positions. "Two men were killed and fifteen injured at San Lorenzo; the town of Patillas was raided by Republicans, who shut out the Federalists from the town; a registered the whole voting population of a neighboring Republican town." The local press recites that the Federal side was in effect not registered at all. The islanders are evidently making rapid progress in the details of self-government and displaying a tropical pattern of patriotism picked out in higher colors than are necessary, but very interesting, all the same.

THE "LIQUID AIR" FAKE.

London Free Press.

The value and importance of liquid air have been the subject of numerous fairy stories. It was to revolutionize the power problem, and those cities like London, which have only a small dam by the mill site, were beginning to hope for another solution of this sum in their mechanical arithmetic. It was said that a train of cars would be run thousands of miles on a few barrels, and a small express wagon would haul enough in one load to take the largest steamer across the Atlantic. All this is now exploded. It proves that liquid air is very little known outside of laboratories, and in fact, only four universities in America are equipped to make it. Careful tests, recently made at Cornell University, demonstrated the fact that a one-horse power engine, working continuously for one hour, could produce only enough liquid air when converted into power to run a one-horse power engine for one minute. We have heard that at the Clergue works at the Soo the experiment was carried on to the fullest test, with no satisfactory result. But

while the talk lasted, many rainbow-chasers were caught in the meshes of liquid air promotions.

BRANTFORD'S LITERARY STAND-AR.

Brantford Expositor.

There is some talk of forming a Browning club at the Collegiate Institute. It is to be hoped that wear counsel will prevail. Mother Goose's Fairy Tales would be far more enjoyable.

Local Briefs

W. E. Gundy has returned from a business trip to Ridgeway.

A. H. Patterson offers his 200 acre farm in Harwich, for rent.

M. Wilson has returned from attending Drainage Court in St. Thomas.

James A. Taylor, of Sombra, called on his Chatham friends Friday.

County Commissioner James Ross, of Tilbury, is spending the day in town.

County Commissioner Harry French, of Dresden, was in the city Saturday.

William Nesbitt, of Dawn, was registered at the Rankin House yesterday.

John McCurtis, of Tilbury, was registered at the Merrill House Saturday.

Mr. and Mrs. Convey, of Wallaceburg, were guests in the city yesterday.

Thomas McCallum, of Tupperville, is spending the day with his Chatham friends.

Geo. A. Appleford, of Leamington, was in the city Friday en route home after visiting his brothers in Wallaceburg.

The new switch into the Hadley Co.'s lumber yard on Thames street is nearly completed. The gravel was filled in Saturday.

The Maple Leaf Pleasure Club will hold a grand masquerade ball and basket assembly on Thursday evening, Nov. 27th, by request. There will be three prizes given; the prizes are on exhibition in E. J. Macintyre's window.

Dr. A. W. Thornton has been invited to repeat the address he gave in the Opera House last Sunday afternoon by temperance workers in Tilbury, Cork and Bridge End. He will comply with a number of these requests.

O'Keefe & Drew, produce dealers, shipped four cars of dressed hogs to Toronto Saturday. Fifteen cars have been shipped east by this firm during the last week. The price paid now for dressed hogs is \$7 per cwt. If the heavy deliveries continue next week this price will be lowered somewhat.

T. H. Wylie, a former student in Dr. A. W. Thornton's dental office, who is now attending the Ontario dental college in Toronto, has been chosen by the school to represent the Toronto colleges at an annual function to be given shortly by the Buffalo dental college. This is an distinguished honor which is eagerly sought after each year by the dental students in the college.

Theatrical

The London Advertiser has the following to say of Kelley's Lady Minstrels, which play here next Wednesday:

"The first baroque offering of the Season was given at the London Opera House yesterday in Kelley's Lady Minstrels, and if future attractions of the same kind are up to the standard set by this show, the patrons of the house will have no grounds for complaint. The show is bright, funny and void of offense. The two burlettas proved to be highly amusing, while the duo is rather above the average. It includes Maud Thornton and Bessie York, two attractive girls in a fetching song and dance turn; Burkhardt and Berry, in a sidesplitting 'baby' act; Leno and Ridley, clever change artists; Miss Nettle Burgess, who possesses a remarkable baritone voice, and George W. Revere, in a good black face musical act. Mr. A. L. Salvai, who has appeared in this city several times before, and has many friends here, takes a prominent part in the show."

The Lady Minstrels will be at the Grand Opera House on Wednesday evening, Nov. 28th, and no doubt will be greeted with a crowded house.

Rheumatic sufferers find Hood's Sarsaparilla a permanent cure for their inflamed and swollen joints and stiff muscles.

LUCK AND LAZINESS.

Luck tapped upon a cottage door, A gentle, quiet tap;
And Laziness, who lounged within,
The cat upon his lap,
Stretched out his slippers to the fire
And gave a sleepy yawn;
"Oh, brother! let him knock again!"
He said; but Luck was gone.

Luck tapped again, more faintly still,
Upon another door,
Where industry was hard at work,
Mending his cottage floor.
The door was opened wide at once;
"Come in!" the worker cried,
And Luck was taken by the hand,
And fairly pulled inside.

He is still there—a wondrous guest
From out whose magic hand
Fortune flows in—but Laziness
Can never understand
How industry found such a friend.
"Luck never came my way,"
He sighs, and quite forgets the knock
Upon his door that day.
—St. Louis Republic.

How the Body is Nourished.

Josh Billings once said, "It is better to know less than to know so much that ain't so." You can't help thinking of this when you inquire how the human body transforms food into blood, and blood into bone, flesh and living tissue.

Ask a class in physiology what happens to a simple meal of bread and butter when it arrives in the human stomach. You will get plenty of answers, but how many will be correct? How many will tell you that the bread, if it is made of bolted flour, contains about as much nourishment as a paper collar and that its principal good is to put the butter on.

How many can explain why they are so fond of butter—with other things, but never like it by itself? Who of them will remember that the stomach can do almost nothing whatever with butter except pass it along to be digested further on?

Ask what the liver does to it. How many will tell you that the liver gives it special treatment and that all fat gets into the blood in a different way and by a shorter cut than ordinary food? How many in the class or out of it have any fair idea of what fat is really good for in the human body?

Many people imagine that fat foods are good only to make heavy and useless flesh. Few realize that fat is one of the chief elements in sustaining the nerve centers and brain and supplying the fuel for muscular power and vitality. This is one reason why Scott's Emulsion is so effective in restoring not only the fleshy tissues but active strength and mental as well as bodily vigor.

It combines the nourishing properties of the whole cod liver oil, emulsified, with hypophosphites of lime and soda, which makes the oil easy to digest and at the same time greatly increases and reinforces its good effect.

Scott's Emulsion is known to be one of the richest preparations (food product or medicine) in the materials most needed to make good blood and repair living tissue.

It is agreeable to the taste and the stomach, puts almost no work on the digestive powers and enters the blood with great readiness. It builds up the body tissues rapidly and is a true food where nourishment is needed.

Its value has been well proven in 25 years' experience by the public and the doctors and it is widely recommended throughout the world.

Shall we send you a small sample free?

Men's Clothing...

MEN'S FUR COATS
AT SPECIAL PRICES

There is a difference in clothes as in men. The most money doesn't always mean the best. There are no better clothes made than those we are showing, but there are higher prices. Best means most satisfactory in the long run. A hot iron and a ton weight can press out a poorly made suit so that it looks very fine in a window. But only good, careful, skilled tailoring and all-wool cloth can make a suit hold its shape and look well for months and months. These garments are our own make and we guarantee them to keep their shape and look well.

Men's Suits, pure wool tweeds, in latest fall patterns, correctly tailored in latest sack styles, Italian linings, size 35 to 44 in., special at \$35.00 and \$40.00

Men's Tweed Suits, in neat patterns, pure wool, extra well made, Italian linings, French facings, sizes 35 to 44 in., special at \$35.00 and \$40.00

Men's Suits, fine tweeds, in small checks, chalk-lines and fancy mixtures, superior quality, perfectly tailored, heavy Italian linings, sizes 35 to 44 in., special at \$40.00

Men's Fine Worsteds Suits, new patterns in dark colorings, fine, all wool quality, superior workmanship and finish, best grade linings, sizes 35 to 42 in., special at \$42.50

Men's Fine Suits, extra quality, all wool cloth, in neat chalk-line patterns, superior finish, best quality linings, sizes 36 to 42 in., special at \$44.50

Men's black suits, fine pure wool worsteds and serges, in black and navy, latest sack style, fine workmanship and finish, all silk stitched, Italian linings, French facings, sizes 35 to 44 inches, special at \$40.00

Men's clay worsted suits, superior quality, fine soft finish, twill, navy and black, extra well tailored, best quality linings, perfect fitting, sizes 35 to 44 inches, special at \$42.50 and \$44.00

Men's overcoats—Fine heavy black beaver cloth, medium and long lengths, cut in latest fashion, fly

front, velvet collar, Italian linings, sizes 36 to 44 inches, special at \$6.50

Men's overcoats, superior quality, pure wool, kersey cloth, black and navy, best Italian linings, French facings, special at \$10.00

Young men's overcoats, fine all wool cloth, in neat chalk line patterns, cut in latest fashion, full back, turned cuffs, fly front, velvet collar, Italian linings, sizes 32 to 36 inches, special at \$7.00

Men's fine overcoats, dark Oxford grey, golf cloth, frieze, etc., superior quality, plaid back or lined, cut in latest fashion, superior workmanship and finish, sizes 36 to 44 inches, special at \$10.00, \$12.50, \$15.00 and \$17.50

Early Holiday Shoppers...

Certain wise women have been heard to declare that they meant to do their holiday shopping in November, or very early in December. This determination should commend itself to all shoppers who value their own comfort and peace of mind.

In our own particular line this is especially true, for after the things are bought a certain amount of work has to be done. With the Christmas preparations for cake, and mince-meat out of the way, a certain amount of leisure would be had for strictly holiday shopping.

This early shopping has decided advantages also, the goods are all new and strictly fresh. The first arrivals are almost always the best—finer flavor, fresher, better selected. Prices are just as low now as they will be later on.

You will do your shopping in more comfort, get waited on promptly, and get your goods delivered just when you want them.

We would like very much to have you come in and see for yourself, it is a pleasure to show our fruit. If not convenient to come in, your telephone order will have our most careful attention.

We hope to get your Christmas order.

H. Malcolmson

Secure Your Watch

With a chain that is strong and has some pretensions to beauty. Chains, like other things, change in style and what was correct last year may not be just right this. Think by Link the designers and makers have added something new and beautiful to the rich and artistic effects of previous seasons and the link of

MEN'S WATCH CHAINS now shown here may be considered as truly representative of all that is good in such things.

SACHEL

—OF THE—

SATELLITE

Carrie Nation's outbreak at the horse show was a rum go.

Tilbury sports bagged a cow; that's why the owner is beefing about it.

I have not yet seen it recorded, in Bradstreet's Bulletin, that the city wood yard is going out of business.

Judging by the sentence Counterfeiter Gentle got in Toronto, home-made money is worse than a home-made hair cut.

It was rather strange for Carrie Nation to complain about the Vanderbilts being immodest in dress and then order them to take off their clothes.

I'll bet when the Imperial Oil Co. get their pipe line laid from Gurd's Gusher to the railroad they will be able to tell what Gurd's Gusher can do, because who ever heard of a pipe "glyn."

Tilbury sports went hunting and bagged a cow. Detective McGregor and P. C. DeZellia went hunting and bagged a man. The newspaper dispatches don't tell whether the Chatham officers cowed their man first or not.

I don't see what the tenants of the market building wanted with a new roof, even if, when it rained, their goods got all wet, as Ald. Taylor stated at the Council. After the Referendum passes, the tenants could make money selling wet goods.

It was a tight race for hunting horns between the Chatham officers and the Tilbury sports, but the latter evidently got to the steak first. The Tilbury sports may not have been full, but when they bagged the cow they certainly had a couple of horns.

Yes, Dear Cousin Mmby, doctors do not go to funerals now as a matter of professional jealousy. They used to, but quit it. When one doctor got more funerals than any of the other doctors, the people got afraid of him. They said he had too many funerals. No, the doctor rode at the head of the procession with the minister. He wanted to see that the job was properly completed.

DISTRICT DOINGS.

TILBURY

Nov. 24.—Mrs. D. Shafer, of Windsor, is visiting her mother here, Mrs. E. Iot.

Manager Spencer, of the Merchants' Bank, spent Sunday in Kingsville.

The Iroquois Club will give another assembly in Palmer's hall to-morrow evening.

At the morning service in St. Andrew's Episcopal Church yesterday Mrs. A. Hornick rendered the song, "The Pilims," very acceptably.

DRESDEN

Nov. 24.—Rev. Mr. Dobson, of Tilbury, occupied the pulpit of Christ Church at both services yesterday. Rev. Mr. Griffin preached in Tilbury.

Jerrold Waddell, of Chatham, has been a Dresden visitor for the past few days.

A. I. McCall, of Chatham, visited his Dresden branch on Friday last.

E. H. Dever has had his store window handsomely lit with electric lights.

Ezra Burr, of Chatham, was in town on business last Saturday.

Councillor Sturges was in Chatham on Saturday.

Miss Cameron visited her home in Blenheim on Sunday.

Mrs. Galbraith was in Chatham on Saturday.

H. J. French and H. M. Carswell were visitors to the Maple City on Saturday.

MORPETH

Miss Scott has returned to her home in London after spending a month with Miss Kitchen.

Frank Adderman and wife, of Montana, who have been on a visit to relatives and friends in the vil-

lage and vicinity, have returned home.

Miss Aylesworth, of Toronto, is the guest of the Misses Smith for a fortnight.

The marriage of Miss Jennie Westcott, second daughter of Wm. Westcott, Talbot street, to Arch. Armstrong, third son of the late John Armstrong, Palmyra, will be solemnized on Wednesday, 18th inst., at the home of the bride's father.

Miss Preston is the guest of her aunt, Mrs. Henry Stewart, west of the village.

Andrew McIntyre is on a visit to his sister, Mrs. Desmond, Talbot street.

A pancake social under the auspices of the willing workers in connection with the Methodist church will be given on Friday evening, 21st inst. The Cedar Springs orchestra will furnish music throughout the evening.

B. N. and Herbert Taylor have returned from the Northwest, where they have been during the harvest season.

Miss Rose Duck, who has been so dangerously ill with typhoid fever at the St. As. is recovering and will accompany her mother home as soon as she is able to travel.

Rev. Mr. Gillmore, of Blenheim, will give one of his popular lectures on Ireland in the Town Hall on Thursday evening, 20th inst.

The remains of the late Mrs. Arthur MacGill, who died in Canon City, Colorado, from the effects of typhoid fever, were brought home and interred in Smith's cemetery on Tuesday of last week. The deceased lady was accompanied by Mr. MacGill to Colorado for the benefit of his health.

VENEZUELA 3 CONDUCT.

GREAT BRITAIN CONTEMPLATING REPRISALS

In Conjunction With Germany—An Assurance that the United States Will Not Intervene—Unwaranteed Treatment of British Subjects and Their Property.

London, Nov. 24.—Great Britain is contemplating serious reprisals against Venezuela. The Associated Press is also officially informed that Great Britain is acting with Germany in all matters relating to the present state of affairs in Venezuela. Whether the contemplated action will take the form of a joint naval demonstration, accompanied by or following the severance of diplomatic relations, is a matter now being discussed in Berlin and London. There is reason to believe that the British Government has been either officially or otherwise informed that the United States will not intervene in any demonstration having the object of protecting the property rights of British citizens or their interests in Venezuela. The reports that Germany and Great Britain have been urging Minister Bonin at Caracas to join in the combination are discredited here. It is pointed out that both Berlin and London have a thorough understanding with Washington regarding the main features of the policy involved, which, it is maintained, in no way encroaches on the Monroe doctrine.

The Venezuelan protest against the action of the British sloop of war Fantome in entering the Orinoco River in spite of the blockade has now been received by the British Foreign Office, but it is only one of many which have been coming in for the last month. The Foreign Office views this and the others merely as an endeavor on the part of the Venezuelan authorities to offset the repeated strong demands made by the British Minister at Caracas.

SMALLPOX AT ROCHESTER.

FORTY CASES OF THE DISEASE HAVE BEEN REPORTED.

State Health Department Will Take Steps to Make Investigation and Check Disease.

Albany, N.Y., Nov. 24.—The State Department of Health is considering the advisability of sending an inspector to Rochester to investigate the existence of smallpox in that city. Forty cases of what is supposed to be that disease have been reported by the acting Health Officer of the city during the past week, and the department desires to see that all precautions possible are taken to prevent further spread of the malady.

CHICAGO MAIL ROBBED.

Valuable Papers and \$13,000 in Cash Stolen—No Traces Found.

Chicago, Nov. 24.—Chicago's mail wagon robbery of Saturday will cause certain New York stock brokers considerable inconvenience, as it was discovered that one of the stolen mail pouches contained several packages of stocks, bonds and similar securities, which, it was intended, should reach New York in time to be used when the Stock Exchange opens there Monday morning. One member of the Chicago Stock Exchange said to have mailed a paper of the face value of \$100,000, which was in one of the missing sacks. This paper is not negotiable, but its loss may cause a great amount of annoyance, as the brokers affected probably will have to furnish a bond to cover the temporary lack of the securities. As near as can be estimated by the postoffice officials the robbers secured between \$12,000 and \$13,000 in cash, certified checks and other negotiable papers. No trace of the robbers has yet been found.

FIERCE RIOT AT TOURS.

Singing of an Anti-military Song Caused the Trouble.

Tours, France, Nov. 24.—A violent riot broke out yesterday in the Alcazar Music Hall in this city owing to the singing of anti-military songs by one of the performers. A party of officers belonging to the garrison of Tours, who, dressed in mufti, were occupying the stalls, hissed the songs, while the public in the gallery applauded and threw missiles at the officers, wounding several among them. The occupants of the galleries then invaded the floor of the hall, where a free fight ensued, until the police cleared the building. An anti-military demonstration in the streets followed, a crowd escorting the singer, the cause of all the trouble, home, singing revolutionary songs. The rioters attempted to mob all the officers they met on the way, but a squad of police successfully succeeded in protecting the officers and order was finally restored, although the streets are still being patrolled by troops.

TO CURE A COLD IN ONE DAY.

Perpetual Motion.

When George Stephenson was asked, "Do you believe in perpetual motion?" he replied, "Yes, if you lift yourself by the waist-band of the trousers, and carry yourself three times round the room."

Just so, and a woman would just as soon believe that she has not to pay dearly for common premium soap, in the low quality of soap, in ruined hands and clothes. She would be kept in perpetual motion trying to do with common soap what she could so easily do with Sunlight Soap—Octagon Bar. 215

Curse DRINK

COINED BY COLONIAL REMEDY

No taste. No odor. Can be given in glass of water, tea or coffee without patient's knowledge. Colonial Remedy will cure or destroy the disease appetite for alcoholic stimulants, whether the patient is a confirmed imbecile, tippler, social drinker or drunkard. Impossible for anyone to have an appetite for alcoholic liquors after using Colonial Remedy.

Indorsed by Members of W. C. T. U.

Mrs. Moore, Superintendent of the Woman's Christian Temperance Union, Ventura, Cal., writes: "I have tested Colonial Remedy on very delicate drunkards, and the cures have been many in many cases the remedy was given secretly. I cheerfully recommend and endorse Colonial Remedy. All members of our Union are delighted to find a practical and economical treatment to aid us in our temperance work."

Sold by druggists everywhere and by mail. P. I. St. Trial package for your member of the Woman's Christian Temperance Union, 224 St. Catherine St., Montreal. Sold at DAVIS' DRUG STORE, Garner Block, King St., Chatham.

COL. PRIOR IS PREMIER.

CHANGES IN THE BRITISH COLUMBIA CABINET.

Victoria, Nov. 22.—Premier Dumsair yesterday handed in his resignation to the Governor, and recommended Hon. E. G. Prior as his successor. Colonel Prior was seen for, and had a conference, at which it is understood the Governor expressed himself in the kindest terms, and gave him till evening to decide whether he could form a Cabinet. At 6.30 last night Colonel Prior was sworn in as Premier and Minister of Mines, Mr. Prentice, the present Finance Minister, being re-sworn at the same time in his old portfolio. Mr. Wells did not arrive from the east till an hour later, but immediately on arriving saw Colonel Prior and Mr. Prentice, and consented to accept office under the new chief.

Death of A. Drexel's Daughter.

London, Nov. 21.—Anthony J. Drexel's nine-year-old daughter died to-day at Wytham Abbey, near Oxford, of appendicitis. Sir Frederick Treves, Surgeon to the King, and other great surgeons were telegraphed for by Mr. Drexel, but none of them could go to the Abbey. An operation was performed at midnight, but the child did not survive it.

THE MARKET REPORTS.

Wheat Lower in Chicago—Corn Also Declines—Live Stock Trade.

Friday Evening, Nov. 21. Toronto St. Lawrence Market.

Business was rather quiet on the street market here today, although there was a fair amount of activity in the new St. Lawrence Market building. Receipts of grain and hay were moderate and prices were irregular. Vegetables were steady and there was a good inquiry for potatoes. Apples were fairly active, but dressed hogs and muttons were dull on account of the warm weather. The total receipts of grain were 2,300 bushels.

Wheat—One hundred bushels of white sold unchanged, and 200 bushels of red 1/2c higher at 72c to 73c. 200 bushels of good hard, uncleaned, at 70c, and 100 bushels of spring 4c higher at 72c. Four hundred bushels sold 1/2c higher at 59 1/2c. Barley—One thousand bushels sold 1/2c lower at 46c to 47c. Hay—Timothy sold 50c lower at \$14 to \$15 per ton, and clover or mixed was sold, selling \$1 higher at \$6 to \$10 per ton. Deliveries were 25 tons.

Straw—Three hundred of sheaf sold 50c lower at \$12 to \$13 per ton. Dressed hogs—Quiet and steady, with prices unchanged at \$8 to \$8.50 per cwt. Cheese Markets.

Produce, Nov. 21.—The last meeting of the Cheese Board for this season was held at 10 o'clock. The board consisted of Mr. J. H. Brown, president, and six other members. The board received 100 cases of cheese, and the board decided to sell the cheese at 10c per lb. The board also received 100 cases of butter, and the board decided to sell the butter at 10c per lb. The board also received 100 cases of milk, and the board decided to sell the milk at 10c per lb. The board also received 100 cases of cream, and the board decided to sell the cream at 10c per lb. The board also received 100 cases of eggs, and the board decided to sell the eggs at 10c per lb. The board also received 100 cases of fruit, and the board decided to sell the fruit at 10c per lb. The board also received 100 cases of vegetables, and the board decided to sell the vegetables at 10c per lb. The board also received 100 cases of flowers, and the board decided to sell the flowers at 10c per lb. The board also received 100 cases of other goods, and the board decided to sell the other goods at 10c per lb.

Butchers' Cattle—There was a scarcity of the high grades and the market for good quality cattle was strong. Buyers complained that there were too many light, half-bred cattle offered, for which there was little or no call. Heavy steers and heifers are in demand and firm at unchanged prices. There is a feeling of weakness among the inferior grades and they are slow to move. Feeders and Stockers—The market is quiet with prices unchanged. Heavy steers are wanted and there is a particularly good demand for short-horn feeders. Hogs—Steady and unchanged at 12c to 12 1/2c per cwt for select and 10c to 11c for lights and fats. East Buffalo Cattle Market.

East Buffalo, Nov. 21.—Cattle—Receipts, 250 head; steady; top, \$8.25 to \$8.75; common to good, \$5.50 to \$8.00; Hogs—Receipts, 15,000 head; slow; 10c to 12c; heavy, \$6.35 to \$6.45; mixed, \$5.75 to \$6.25; Yorks and Dicks, \$6.15 to \$6.25; roughs, \$5.75 to \$6.00; stage, \$4.50 to \$5.25. Sheep and lambs—Receipts, 10,000 head; sheep steady; lambs, \$5.50 to \$6.00; heavy, \$5.50 to \$6.00; light, \$5.25 to \$5.50; good, \$4.50 to \$5.40; roughs, \$3.75 to \$4.50; ewes, \$3.25 to \$3.50; sheep, top mixed, \$3.15 to \$3.25; culls to good, \$1.75 to \$3.10.

Chicago Live Stock.

Chicago, Nov. 21.—Cattle—Receipts, 2,200, including 400 westerns; poor to medium, \$3.50 to \$5.00; stockers and feeders, \$2 to \$4.00; cows, \$1.40 to \$4.75; heifers, \$2 to \$3.00; canners, \$1.40 to \$2.40; bulls, \$2 to \$4.50; calves, \$3.50 to \$7.00; Texas fed steers, \$5 to \$6.50; mixed and out butchers, \$3.50 to \$6.50; Receipts, 32,000 head; left over, 9,000; 10c to 15c lower; mixed and butchers, \$3.50 to \$6.50; bulk of sales, \$6.10 to \$6.20. Sheep—Receipts, 12,000; sheep slow; lambs lower; good to choice, \$3.50 to \$4.50; fair to choice mixed, \$2.50 to \$3.50.

An Immense Copper and Steel Plant For Tonawanda.

Buffalo, Nov. 22.—A special to The Express from Tonawanda says:—A deal has been on foot during the last week and undoubtedly will be completed before the end of the present week to bring within three miles of this place one of the largest copper works and steel plants in the world. Today part of the proposed plan was carried out, when the representatives of the H. C. Frick Company of Pittsburg closed a contract for a 100-acre farm. Mrs. Litz, the owner of the property, left for Buffalo today to turn over the deeds of the property. The Litz farm will be the site of the copper smelting works. The plant will cover 75 acres. Negotiations are under way for the purchase of additional land adjoining the Litz farm for the steel plant, the whole property having a water frontage on the Niagara River of nearly a mile. The two most prominent men who have been mentioned with the deal are H. C. Frick of Pittsburg and Thomas W. Lawson of Boston.

The bill providing for the gift to the nation of the Ontario House estate by the King passed its second reading in the House of Commons.

INTERESTING FACTS.

For Nearly Every Man, Woman or Child.

A short time ago we published an article recommending to our readers the new discovery for the cure of Dyspepsia, called Stuart's Dyspepsia Tablets, and the claims made regarding the wonderful curative properties of the remedy have been abundantly sustained by the facts. People who were cautious about trying new remedies advertised in newspapers and were finally induced to give Stuart's Dyspepsia Tablets a trial were surprised and delighted at the results. In many cases a single package costing but 24 cents at any drug store made a complete cure and in every instance the most beneficial results were reported. From a hundred or more received we have space to publish only a few of the latest, but assure our readers we receive so many commendatory letters that we shall publish each week a fresh list of genuine, tested testimonials and never publish the same one twice.

From James Yemmeliser, LaCrosse, Wis.: Stuart's Dyspepsia Tablets are doing me more good than anything I ever tried and I was so pleased at results that I gave away several boxes to my friends who have also had the same benefits. From Jacob Anthony, Portmurray, New Jersey: I have taken Stuart's Dyspepsia Tablets with the best results. I had Dyspepsia for six years and had taken a great deal of medicine, but the Tablets seemed to take a hold on me and I feel good. I am a farmer and lime burner and I heartily recommend to everyone who has any trouble with his stomach to use these Tablets. From Mrs. M. K. Preston, Minn.: I have received surprisingly good effects from using Stuart's Dyspepsia Tablets. I gave one-half of my last box to a friend who also suffered from indigestion and she had the same good results. From Mrs. Agnes K. Ralston, Cadillac, Mich.: I have been taking Stuart's Dyspepsia Tablets and I am very much better, and feel very grateful for the great benefit I have received in so short a time. Stuart's Dyspepsia Tablets are a certain cure for all forms of indigestion. They are not claimed to be a cure-all, but are prepared for stomach trouble only, and physicians and druggists everywhere recommend them to all persons suffering from Nervous Dyspepsia, sour or acid stomach, heartburn, bloating or wind on stomach and similar disorders.

He can't afford to let her spend so much money. She—Well, perhaps he'd rather have trouble with his creditors than with his wife. Coughs, colds, soreness, and other throat ailments are quickly relieved by Cresson's Tablets, ten-cent boxes. All druggists.

In a restaurant—He—Will you have a little lobster? She—Oh, John, this is so sudden.

A SKY WANDERER.

How a Photograph of Perrine's Comet Was Secured.

The new comet recently discovered by Perrine, which for some time has been visible to the naked eye, since the 8th of October, has been receding from the earth. On that date it made its nearest approach to our planet and was then at about 35,000,000 miles distant.

PHOTOGRAPH OF THE NEW COMET. The comet is the white blur in the center of the picture. The long dashes of white were made by the motion of the stars.

While the comet has been visible to the naked eye, it has only been so in the form of a light haze on the blue-black background of the sky. It is moving with great speed toward the sun.

Tattooed Maori Women.

British explorers and scientists have just brought back a series of remarkable pictures of Maori tattooing from the interior of New Zealand. The most astonishing designs were found on the faces of the women, and one of the Maori belles is here pictured thus adorned.

that they look as if they had on a tight fitting chintz dress! The instrument employed in tattooing to obtain the deep furrows is usually made of bone, having a sharp edge like a chisel, and shaped in the fashion of a garden hoe. Another style is made of a shark's tooth. The tattooing of the women is commenced when about the age of fifteen or sixteen. Most of the masters of the art are professionals, who go from village to village and are highly paid for their services. The pattern about to be engraved is first outlined on the face by a small stick dipped in powdered charcoal, after which the skin is gashed and the coloring or pigment is introduced into the flesh with a stick dipped into the liquid. The coloring material used is generally the resin of a certain tree, which is burned, powdered and converted into a fluid.

Flour Made of Fish.

Fish flour is the name of a new variety of prepared flour that the ingenious Norwegians are making and shipping abroad in large quantities. The centre of the industry is Bergen, the old headquarters of the codfish and cod liver oil trade. A foreign consul at that point in a recent letter says:

A great deal is done in Norway to improve and preserve the provisions produced in that country and to procure a market for them abroad. The fisheries represent one of Norway's chief industries, and quantities of fish are sold at very low rates, particularly during the summer. One way in which these are utilized is by means of an invention which quickly dries and pulverizes the flesh of fresh fish. The resulting product, called fish flour, is easy to transport from one place to another and has great nutritive value. A new and profitable branch of industry may yet be established by utilizing fish in this way.

Somebody. Somebody did a golden deed; Somebody proved a friend in need; Somebody sang a beautiful song; Somebody smiled the whole day long; Somebody thought, "This sweet to live!" Somebody said, "I'm glad to give;" Somebody fought a valiant fight; Somebody lived to shield the right; Was that somebody you?

Photographers Barred.

The Duke of Bedford has issued instructions to his servants to prevent persons photographing or sketching anything in his park or grounds.

LOSS OF APPETITE

If your stomach is upset or in any way out of order—if food seems distasteful to you—if acidity, burning or fullness of the stomach prevents you from having an appetite—if you wish to eat and eat well—take, before each meal, a wine glassful of

VIN ST MICHEL

(ST. MICHAEL'S WINE)

It will create an appetite and restore to the palate that lost relishing taste for food. It will make the digestive organs act naturally and properly digest the food eaten, whether your stomach is in good order or not. No matter if you are young or old, sick or healthy

NERVOUSNESS

Or dependency caused by weak healthy nerves, are responsible for more sickness and suffering than any other disease. If you have a secret drain from early abuse, later excesses of exposure, you cannot expect healthy nerves while your vitality is being wasted. Do not seek out a miserable existence on account of your failure, you are not safe until cured—nature never excuses—no matter how young, old or innocent one may be.

KIDNEYS AND BLADDER.

Have you pain in the back, a dull feeling in the region of the kidneys? At times your water comes freely, a large quantity light in color, while at other times you do not make it quite so freely. It is dark in color, you make a small quantity, or you have more deposits or brick dust colored sediment; give your condition immediate attention or more serious complications will set in. My treatment guaranteed a positive cure for such conditions, and remember you

PAY WHEN CURED.

You need pay nothing until you are convinced that a thorough and complete cure has been established. Surely this is fair, as you run no chances. CONSULTATION FREE. If you cannot call, write for blank for home treatment. Perfect system of home treatment sent for those who cannot call. BOOK FREE. Medicines for Canadian patients shipped from Windsor—All duty and transportation charges prepaid—Everything confidential—No notices on envelopes or packages—Nothing sent C. O. D.

FACTS CONCERNING SLEEP.

Even a Midday Nap is Better Than the Noon Meal.

The scholar and professional man, like the anxious housewife, is apt to carry his cares to bed, and insomnia becomes a curse. Men and women who are busied in getting and gaining, the merchant, the banker, all alike, fail to secure that self control which can manage the mind as well asleep as awake.

Normal sleep should be purely a physiological repose similar to the rest of animals, who go to sleep with the darkness and awake with the light. Some one has said that sleep is like hunger and thirst, representing a diminution of energy throughout the entire body. I hardly think this can be true, but in my judgment sleep rather suggests the diminution of the energy of the brain, and he is a wise man who takes the hint when brain fog sets in of an evening and goes comfortably and properly to bed.

Of course it goes without saying that night is not the only time for sleep. Men and women who are busy could steal just a few minutes before or after the noonday luncheon to catch a little nap, and, indeed, I am nearly sure that the noonday nap is worth far more than the noonday meal, for the digestive processes are surely hindered during the periods of mental activity, and it is the exceptional person in this busy world of ours who is not called upon to use all his brain and brawn to make a living. It has been my habit to advise mothers to steal a while away from every "cumberous care" and, even if sleep fails to be wooed, to take about twenty minutes every day in absolute peace and quietness, diverting the mind from all anxieties and relaxing all the muscles. A habit of this kind is easily acquired, and we might have fewer neurotic women, whose nerves make life hideous to their families, if a word like this, spoken from considerable experience, were heeded.—Piglin.

THE PIANO TUNER.

Why He Left in a Hurry After Finishing His Job.

A lady stepped into a piano warehouse recently to engage a tuner, but before doing so insisted upon the strongest assurance that the tuner was responsible. She was so determined that the manager became curious to know the reason for her disbelief in the reliability of tuners. She gave her experience with the last tuner she had, and this is the story as she told it:

He had finished tuning the piano when he looked up and said: "Your instrument was in awful condition. You ought to have sent for me sooner."

"It was tuned only three months ago."

"Then the man who did it certainly didn't know his business."

"No?"

"No, ma'am. He had better be doing street cleaning than tuning pianos. Why, my dear madam, a delicate instrument like a piano needs fingers equally delicate to handle it, combined with an ear of unerring accuracy. The individual who attempted to tune this instrument last evidently possessed neither of these. In fact, I am free to say he did it more harm than good."

"Indeed?"

"Indeed he did. May I ask you what was your abuse of your instrument?"

"It was yours."

"Madam, you are wrong. I never tuned a piano in this house before."

"Probably not, but you tuned that instrument nevertheless, or made a botch of it in attempting to do so. It belongs to Mrs. Jones, who sent it here while she is out of town. She told me you always had tuned it and to send for you when?"

But the unhappy man fled with such haste as to make his coat tails a good substitute for a card table.

Difficulties of Our Language.

A Frenchman came to England to learn English, and the following sentence was given him:

"The rough cough and hiccup plough me through." The teacher told him the first word was pronounced ruff. He thereupon said this: "The ruff cough and hiccup plough me through."

"No, no, the second word is pronounced koff."

"Then," said the Frenchman, "it must be the ruff koff and hiccup plough me through."

The third, fourth and fifth words were explained with the same result, which the reader may repeat for himself.

Too Much.

Mrs. Marryat—Mamma is talking of closing her house and coming to live with us. Do you think you could support both of us?

Mr. Marryat—My dear, I can support you very nicely now, but I'm afraid your mother would be insupportable.

Added Attraction.

"No, indeed," said the crafty agent to the bride and bridegroom. "Our company does not prohibit kissing on the platforms, and, besides, I would call your attention to the fact that we have more and longer tunnels than any other railway in the world."

No Comparison.

"That New York girl was awful mad when I asked her if she was from Boston."

"I'll bet she wasn't half so mad as the Boston girl whom I asked if she was from New York."

Forest covers 86 per cent of Russia's total area, or, in all, 444,500,000 acres. In other words, there are four acres of forest to every inhabitant of Russia.

Some Tips About Lips.

In choosing a wife, let her be a woman whose lips do not droop at the corners. This is the advice of Sheikh Abdullah, the Persian sage.

If a woman's lips droop her husband's life will be a perpetual mourning time. Nor yet should they curve too much upward, for that denotes frivolity.

Beware of the under lip that rolls outward for that woman has no great conscience. Select for a wife one whose lips are straight, not thin, for then she is a shrew, but with just a fullness necessary to perfect symmetry.

A mouth with the upper lip curved, lower lip straight, full and well defined, and a depression beneath, shows a high artistic sense, a love of ease and beauty, a fine moral nature, and a certain coldness of temperament.

The mouth of sagacity is large and always well closed. The line of the lip is firmly defined and a certain tightness about the jaws, when in repose, is noticeable.

If a mouth is long and thin, with the lines between the lips clear cut and firm, the woman is selfish, morbid and dominating. It is the mouth that desires to rule everything, and its owner will ride to an end no matter over how many bodies.

The short upper lip, with a depression under the nose and the inclination upward at the corners, is the merry mouth. Here are fun and laughter, and the man who marries the owner will find a wife with happy traits. She will be appreciative of everything done for her; quick to smile, and sympathetic to pain, but never tragic. She will have an artistic bent, and if the line of her lower lip is graceful, her tastes are daintily refined. She may be a trifle hoydenish, but never coarse.

Unusually red lips denote cruelty and rapacity. Cleopatra had such lips.

Lips that are firm and a trifle grim are never afraid to tell the truth. Lips that are freight and finely cut and whose in repose not unlike the lips of a statue, so perfect in their outline, belong to a cold nature.

A Versatile Tree.

There are by careful computation about 300,000,000 coconut palms in the world in full bearing, and certainly no other tree yields so many different products or is put to so many separate uses. Its wood is used for buildings and for boats as well as for ornamental furniture. The leaves are the sole source of tens of thousands of buildings and of useful food for cattle. The natives also make good brooms with the ribs of the leaves, while the ashes contain so much potash as to be useful in soap-making.

From the trunk of the coconut palm oil, barrel tubs and water pipes are easily produced, and the roots give a red dye. The fibres make mats and even paper. The kernel of the nut is the main food of several millions of human beings, whose most nourishing drink is the milk. Cooled and evaporated, the leaves become of the coconut oil, the yield of the confectioner. From it yields coconut oil—one of the most important of commercial oils—used in cooking, for soap-making and for wax. Rosin and even in salt water. Wax and rosin are yielded by the same tree, and by tapping the delicate bud of a growing palm a delicate white oil is obtained. The shell of the nut is not without its uses. It is employed everywhere in the tropics for cups and dippers.

Canada Is In This Universal Language.

Esperanto is the hopeful name of a new universal language. The structure of Esperanto is simple and its roots few. There are only seventeen grammatical rules, which for reading purposes may be ignored. The time in which it can be acquired may be reckoned in hours. Invented by a Russian physician, one Zamenhof, in 1887, it has of late made vast strides and its adherents, to be found mainly, but not exclusively, in Latin countries, France, Spain, Germany, etc., have been estimated at 80,000. It is patronized by the Touring Club de France, and betwixt its professors, of whatever kindred or nation, there is no more of the "barbarous" "freemasonry" of the propagation of the language is carried on in five reviews: The Esperantiste (France), The Lingua Internacia (Hungary), The Linguo (Canada), The Hondronian (Bulgaria) and The Esperanto (Spain).

A Lyric.

Clarissa, when you passed me by, With your lip and haughty eye, My fault I did detect. Your anger, like a poisoned dart, Struck death into my guilty heart, I vowed to sin no more.

Clarissa, when you did forgive And bid my fainting heart to live Nor killed me with disdain, So soft your eyes, so sweet your lip, Where like a bee I hung to sip, I fain would sin again.

—Bora Sigerson.

Walks Well and Talks Well.

Speaking of the King, a United States American, Gen. Corbin, says: "We had breakfast with him at Buckingham Palace. He was very concerned over the President's leg being sore so long, and he said to me: 'Do you think he'd mind if I sent him my doctor? He is the best in the world.' He meant Trevelyan. The King impresses you as a man in the full vigor of manhood. He walks well and talks well."

Britain's "Gothic Fringe."

It is not generally realized what an immense number of Britons born and bred at home have never succeeded in mastering the national language. In Wales there are no fewer than 508,036 people who cannot speak English. Welsh being their only language, in Scotland there are 43,738 persons who can speak nothing but Gaelic; and in Ireland there are 32,121 who can express themselves only in the Irish tongue.

Mrs. Tupman, a prominent lady of Richmond, Va., a great sufferer with woman's troubles, tells of her cure by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—For some years I suffered with backache, severe bearing-down pains, leucorrhoea, and falling of the womb. I tried many remedies, but nothing gave any positive relief.

"I commenced taking Lydia E. Pinkham's Vegetable Compound in June, 1901. When I had taken the first half bottle, I felt a vast improvement, and have now taken ten bottles with the result that I feel like a new woman. When I commenced taking the Vegetable Compound I felt all worn out, and was fast approaching complete nervous collapse. I weighed only 98 pounds. Now I weigh 104 pounds and am improving every day. I gladly testify to the benefits received."

Mrs. R. C. TUPMAN, 423 West 30th St., Richmond, Va.

When a medicine has been successful in more than a million cases, it is just to yourself to say, without trying it, "I do not believe it would help me."

Surely you cannot wish to remain weak and sick and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

Mrs. W. H. Pelham, Jr., 108 E. Baker St., Richmond, Va., says:

"DEAR MRS. PINKHAM:—I must say that I do not believe there is any female medicine to compare with Lydia E. Pinkham's Vegetable Compound, and I return to you my heartfelt thanks for what your medicine has done for me. Before taking the Vegetable Compound I was so badly off that I thought I could not live much longer. The little work I had to do was a burden to me. I suffered with irregular menstruation and leucorrhoea, which caused an irritation of the parts. I looked like one who had consumption, but I do not look like that now, and I owe it all to your wonderful medicine.

"I took only six bottles, but it has made me feel like a new person. I thank God that there is such a female helper as you."

Be it, therefore, believed by all women who are ill that Lydia E. Pinkham's Vegetable Compound is the medicine they should take. It has stood the test of time, and it has hundreds of thousands of cures to its credit. Women should consider it unwise to use any other medicine.

Mrs. Pinkham, whose address is Lynn, Mass., will answer cheerfully and without cost all letters addressed to her by sick women. Perhaps she has just the knowledge that will help your case—try her to-day—it costs nothing.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

Lydia E. Pinkham Medicine Co., Lynn, Mass.

The Chatham Binder Twine Co. Ltd

Incorporated under the Ontario Companies Act.

Authorized Capital Stock \$125,000

Shares \$10.00 Each

Of which \$30,000 Has Been Created 5 Per Cent.

Preference Stock.

Football all the go. Two Games Played on Saturday

FOOTBALL

HONORS WERE EVEN.

It was a good game to watch—interesting and exciting. The teams were very evenly matched and the playing warranted the score, which was 0-0.

This, it is generally conceded by the spectators who witnessed the Darrell-Chatham football match played on Tecumseh Park Saturday afternoon, is a fair synopsis of the game. The honors were very evenly divided and neither team can claim a victory. Both teams, it seemed, were, to a certain extent, off color, and no particularly good team work was done on either side. At certain intervals, however, several clever but unsuccessful rushes were made and some good individual playing was noted, and these, while they were fruitless in the end, tended to add excitement and keep the game lively and interesting.

The Darrell team was composed of much the same players who were on last Saturday. One important change, however, was on their half back line. John Oliver, an old Darrell boy, who is now playing half back for the School of Practical Science team, the victors of a Toronto league series this year, was brought from Toronto to play for Darrell, and was a very valuable addition to the team. His playing at times was very effective. The other players on the team certainly deserve the credit for the showing they made. Darrell has, undoubtedly, the best country team in Ontario. Fisher on the back line, and Jenks and Gregory on the left wing are deserving of special mention. The Darrell boys, it was quite evident from the start, came to Chatham with the determination to win the game, and it seemed several times that their fondest hopes would be realized.

On the other hand the Chatham boys were also eager to win, and unlike former years, they came to the game with spirit and enthusiasm, and worked hard to the finish. The defense line was greatly strengthened by Mr. Sissons at full back, who made the most of his position in the last game. The defense players deserve the credit for saving the game. They played well, but the forward line were not at themselves. There were none of the effective rushes and long wing passes which characterized the game at Darrell. A few of them made some good individual maneuvers, at times, but the work of the line as a whole was not up to the standard.

Captain Laurie won the toss and the game started with the wind, which was quite strong, in Chatham's favor. During the first half of the game the ball remained for the most part around the Darrell goal. At times, however, it strayed up near the Chatham and from a strong kick from Asher or Fisher, or some clever wing passing by Jenks and Gregory at a rapid run by Abram, but it did not stay there very long at a time. At the end of the game the time came for Chatham to shoot, the ball would be kicked wild, or sent out of bounds. At the start there was a decided rush towards Darrell. Shortly afterwards Messer received the ball from a good kick and another rush followed, but proved as unsuccessful as the first. Abram received the ball, the time and made a neat individual rush, passing several of the Chatham players. He was checked, however, and the ball was sent into the trees. A general scrimmage followed, the throw in, and no headway was made by either side for some time. It was then that Oliver's work began to show up. He was everywhere with the ball, blocking and worrying the Chatham players. Sissons, however, was allowed a foul almost in the centre of the field and made a beautiful drop on Darrell. Grant, the centre forward, followed it up and charged at the goal keeper, French, who, however, cleverly evaded him, and the ball was returned to the centre of the field. It was then Darrell's turn to try a shot, but Parrott and Sissons were there and the play was blocked. The ball then for a while travelled from one goal to another, during which time Brackin, Messer and Petherly for Chatham, and Jenks, Abram and Pugh for Darrell, made some splendid but eventually unsuccessful combination rushes.

The ball then seemed to wander gradually down into the Darrell territory and Grant succeeded in making a difficult shot, which went wild. Several other shots were also missed. Abram, the small but clever outside right for Darrell, again received the ball from the kick off and after cleverly drawing out the Chatham defense he made a long wing pass to Jenks, who gave Gregory a shot which unfortunately went wide. Shortly after the kick off Sissons claimed another foul and his drop was followed by a fruitless rush against Darrell's sturdy defense. It was, however, quickly followed by another and Parrott made a clean shot which was as cleverly blocked by the goal keeper. At the interval which followed the ball was kept around the Darrell goal, mostly in scrimmages. Grant was everywhere, charging and worrying the Darrell defense, but the latter showed their goal nobly and not one of the Chatham forwards was given the slightest opportunity to shoot. Whenever the ball showed the slightest inclination to go Chathamward Wilks and Sissons promptly returned it. Laurie, on the half back line, was also responsible for many a timely check and kick. Petherly, too, deserves great credit for the manner in which he checked his wing. His work was

ried to and hovered round the Chatham end. Another goal was all but scored when Sissons came to the rescue and beat it out. It soon returned to the field. Campbell, Dennis and Barney were now responsible for a nice rush down the field with good combination work passed to the right wing, but no goal was scored.

On the goal kick-off Langford and Wilkinson rushed the ball down the field, resulting in a corner kick. Sissons headed the corner out and the first half was finished with the ball in play at the centre of the side line. Ends were now charged, and the Chatham C. I. team had the advantage of the wind. The ball immediately wandered down toward the Darrell goal, and during the first half the hands of Goal Tender McMillan, except that a corner was made and Liddy, who kicked it, allowed too much for the wind and the ball started for Chatham territory. It was here that Marshall was rushing the ball down the field and Hutchison ran into him, jamming the lower part of his arm so badly that he had to lay off. Hutchison also had to lay off. On renewal of play the Chatham boys worked hard. Barney and Dennis on the left made some fine rush down the line, but owing to the strong wind Barney could not centre the ball.

Campbell in centre and Warnock and Martin, although very light, did good work. The game finished without further scoring.

The line-ups:—
Ridgeway C. I.
Goal—McMillan.
Backs—Walker and McLaughlin.
Half-backs—Robinson, Manroe and Robinson.
Right Wing—Wilkinson and Langford.
Centre—Bryan.
Left Wing—McAuliffe and Marshall.
Goal—Taylor.
Chatham:—Sissons and Waddell.
Half-backs—Hutchison, Coutts and Liddy.
Right Wing—Martin and Warnock.
Centre—Campbell.
Left Wing—Dennis and Barney.
Referee—Fetterly.
Goal Umpires—Miles and Gardiner.
Linemen—Ford and Reid.

WINDSOFT WINS.
Sandwich, Ont. Nov. 22.—Windsor defeated the local club here to-day by a score of one to nil.

DARRELL FOOTBALL NEWS.
(From Our Darrell Correspondent)
The game to decide the tie between Chatham and Darrell was played on Tecumseh Park on Saturday, 22nd. The Darrell colors—red and blue—were flying on all sides. The people of Darrell were proud of their boys for the excellent work they have done in the league, for they are really head of the league.

As a matter of course Chatham won the toss and had their choice of goals, while Darrell had their kick-off. J. Fisher, for Darrell, kicked to R. Abraham, when Chatham got it and made a rush on the Darrell goal, but could not score. During the first half there was a very strong wind in Chatham's favor, but Darrell's defence kept the ball from passing through the stakes and made several rushes on Chatham's goal. When the first half was over the score was nil to nil.

Strange to relate, the wind which usually falls for the second half did not abate, and Chatham had to kick against a slight wind, which they evidently did not like. Shortly after the second half had begun, Darrell, after a fine combination run and by some clever kicking shot as fair a goal as ever went through any stakes, making one count for Darrell. As Chatham were not getting the best of it they set their cunning to work and soon discovered that the referee had called a foul, which no one on the field had heard or seen. Everyone near by said that there was no foul, but the referee having once been beguiled into the decision of a foul, dare not go back on it. There is a strong feeling of indignation from all sides manifested against the injustice of such a decision. During nearly the whole of the first half the ball was being dangerously near the Chatham goal, which gave Sowerby more work than he apparently wanted. For some unaccountable reason the last half seemed much shorter than the first. No doubt on Monday Chatham will have it arranged so as they will beat Darrell out of the game.

\$100 REWARD, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its states, and that is Catarrh. Hall's Catarrh Cure is the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient health and strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
