The copy filmed here has been reproduced thanks to the generosity of:

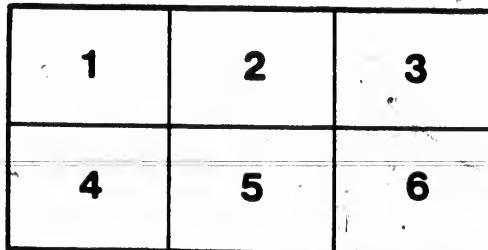

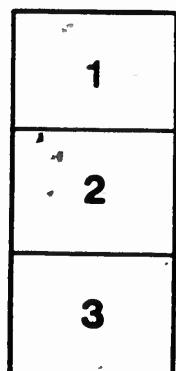

Library of the National Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives nationales du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

ADVANCE PAYMENTS

Members paying monthly dues in advance shall be entitled at their option, (1) To like extension in time of any future payments; or, (2) To a discount thereon at such rates as the Board may fix from time to time.

SUSPENSION OF PROFITS INSTEAD OF FINES

Holders of unpledged instalment stock, who may, from any cause, be unable to make regular payments, may obtain a suspension certificate for a reasonable period, during which time no dues will be payable and no profits credited. This provision is intended chiefly for relief in case of sickness, loss of employment, etc. Similar relief may be granted to borrowing members upon such terms as may be arranged by the directors.

STOP PAYMENT CERTIFICATE

A valid objection to older systems has been the constant liability to loss by forfeiture, from inability to continue payments of monthly dues. Such a risk can not be incurred in this Company. No payments by a member will be forfeited, but when the stock is cancelled under the rules of the Company, a Stop-payment Certificate shall issue, entitling the holder to withdraw the amount paid in, at the expiration of the maturity period of his stock, together with an alternative provision that all loan fund payments shall fully participate in the profits of the Company.

LOANS

Loans will be granted to members in good standing only (viz., those not in arrears). All applications shall be numbered as received and will be considered in rotation.

Members requiring temporary advances may borrow not more than ninety per cent of the withdrawal value of their stock without other security than an assignment of the same to the Company.

Loans secured by first mortgage upon real property shall be for the full maturity value of a member's stock, which must be assigned as additional security for the advance.

No commission will be charged but applicants must pay all necessary expenses.

LOAN RATES

The amount due the Company is to be repaid by monthly instalments. The full amount of the indebtedness being paid in two respective periods by the number of payments specified below:

120 Monthly Payments

Due	55c.
Interest	50c.
Premium	25c.

In all \$1.30 per month for each \$100 borrowed.

144 Monthly Payments—

Dues	45c.
Interest	45c.
Premium	25c.

In all \$1.15 per month for each \$100 borrowed.

180 Monthly Payments—

Dues	85c.
Interest	40c.
Premium	25c.

In all \$1.00 per month for each \$100 borrowed.

Shareholders may borrow the entire value of a homestead or other piece of property by joining the Company a few years in advance of intended purchase, thus accumulating a fund which will take the place of the margin always required, and materially reduce the cost of the loan.

EXAMPLE.—Showing cost of loan of \$1000 on 10 year plan after 3 years' membership:

96 instalments paid, each \$ 5.50	\$198.00
84 " " to be paid " 13.00	1092.00

Total cost spread over 10 years \$1290.00

NOTE.—The same principle would apply to smaller payments for a longer term.

REDEMPTION OF LOANS

Loans may be repaid at any time after two years, upon thirty days' notice, the borrower being simply required to repay amount of loan, less withdrawal value of stock, or he may repay full amount of loan and continue his instalments as an investor until maturity of his stock.

DEATH OF A MEMBER

In case of the death of a holder of Instalment stock his legal representatives may withdraw the stock at any time by giving thirty days' notice; or they may continue payments thereon until maturity.

LIFE INSURANCE (OPTIONAL)

Members may obtain a short term Insurance Policy in an approved company at low rates, to protect their estate in event of death before maturity of stock, securing for investors payment of their shares, and for borrowers a discharge of their loan.

The RELIANCE Loan & Savings Company furnishes the safest form of investment and the strongest possible security, every safeguard having been adopted to protect the interests of shareholders. The funds of the Company are loaned only upon its shares with real estate security; or upon its shares without other security; repayable by instalments, so that not only the interest but part of the principal is received

monthly, and the value of the security increases as the loan is being repaid.

Attention is drawn to the fact that all money paid into the Loan Fund is handled by a Trust Corporation, and can only be withdrawn by depositing with such Trustees proper securities in its place, so that either the actual money, or security representing the money, is at all times in the possession of the Trustees, thereby preserving the Company's funds in absolute security.

A WORD TO THE WISE

The Company most worthy of confidence is not one which **estimates** the greatest profits, nor one which professes to lend money at abnormal rates. Our calculations are based on established usage in the Dominion of Canada, and having been subjected to the strictest scrutiny their accuracy can be demonstrated at any time. We are aware that other companies **estimate** larger gains, but we are sustained by the knowledge that **estimates** have no intrinsic value or profit-earning power. If in any respect we have erred in requiring a larger payment or a longer period to mature stock than other companies, judicious investors will appreciate **certainty** as opposed to mere **estimates**.

RELIANCE SYSTEM OF ANNUITY REPAYMENTS COPYRIGHT

55c. per month (\$6.00 per year), paid for 10 years will thereafter return to the investor, \$13.00 per year for the succeeding 10 years.
