He considered that officer's an-nowacement of damaging effect, and charged the present government with hostility to the railroads. Mr. Killam briefly answered preceding re-marks in defence of the government. Mr. Howe spoke for about an hour, giving an array of calculations, from which he argued that reckoning charges which should be met by rail-way bonds, an item that should go into the next year's account, and the additional decational grant intended to be discontinued, upwards of £29,000 would remain to the credit of the Pro-vince, and which might be appropriated without borrowing. He vindicated the railway from the charge of having caused financial difficulty;-and, as a means of increasing the revenue since 1852, took credit for large sums in their favor. Financial Secretary explained concerning cal-torlations. - He denied the imputed intention and effect of his former statement. He answered Mr. Howe's views concerning increase of reve-nee by railroads, and averred that even if £25.

effect of his former statement. He answered Mr. Howe's views concerning increase of reve-nue by railroads, and averred that even if £25, 000 could be granted for roads, bridges, &c., that that would carry out his former view relative to a reduction of about one half the road vote. He divocated the keeping of expenditure within in corne, in reference to railway interest and other current items, and opposed views of borrowing for such charges. Mr. Howe explained. Subsequent to a few additional remarks from Mr. Young and other nembers, the resolution was adopted, as were

The Senate is in the midst of a great discustion-not upon the Kansas act so much as upon new organizations of government for the coun ry, and the computed resources of the North

lions of the human race, are cast out like the devils of old — they must burrow in the brutes and in the sea. Price 25 cents per box — 5 boxes for \$1. Through a trial of many year: and through every nation of civilized men, A YIR's Chanary PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been restored by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and thront. Here a cold had settled on the lungs. The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him CONSUMPTION. He tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms nore and more over all his frame. He is taking the CHERENT PECTPAL now; it has stopped his cough and rade his breathing casy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which hare won for the CHERENT PECTORAL an imperishable renown. But its usefulness does not and here. Nay, it accom-plishes more by prevention than cure. The count-less colds and coughs which it cures are the seed which would hare rinomed into a caeful harvest

its usefulness does not end here. Nay, it accom-plishes more by prevention than cure. The count-less colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchi-tia, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the threat and lungs are easily cured by the CHERRY PECTORAL if taken in sea-son. Every family should have it by them, and they will find it an invaluable protection from the invalidous prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.
